New Innovation In AF Uniforms Has Ready Market At RAFB

A MORE SUBTLE combination of the newly authorized summer uniform, the long trousers and short sleeved shirt, is worn by A/1C Herbert Crawford, Hq. M&S Gp.

Base Easter Egg Roll To Be Held Saturday

The annual base-wide Easter egg roll will be held at 10 a.m. Saturday, March 31, on the parade grounds, Chaplain Robert E. Quigg announced. Each child is to furnish one-half dozen eggs that have been hard-boiled and colored, it was said. The eggs are to be brought to the Chapel not later than 4:45 today.

Four groups will be participating for prizes. Prizes will be awarded in all four age groups to the children finding the golden eggs and to the children finding the most eggs.

Mr. Easter Bunny, himself, will be present to give out the prizes, Chaplain Quigg said. The chapel is helping the Easter Bunny make preparations for the hunt.

Snackbar Opens

The base exchange snackbar opened Wednesday evening serving grilled sandwiches, hamburgers, french fries, coffee and fountain drinks. The snackbar is open daily from 5 to 10:30 p.m.

A big demand for the Air Force new summer uniform at the base exchange has brought about an additional shipment, WO Charlie Bryant, Exchange officer said this week. The shipment expected to arrive late this week indicated as larger than the initial shipment.

When the uniform was first displayed in the local exchange no one appeared to want to be the first to buy. But after the ice was broken, quite a few purchased it, stocks dwindled and soon a re-order was necessary.

The new summer uniform is authorized for wear during duty hours with either long trousers or shorts and knee length stockings. For off base only the long trousers, short sleeved shirt, tie and bush jacket are authorized. The bermuda shorts are not to be worn off base or after duty hours, however.

Wearing the new summer uniform, Shade 505, will become optional Saturday, March 31, with any form of the uniform authorized during duty hours or enroute to and from place of residence.

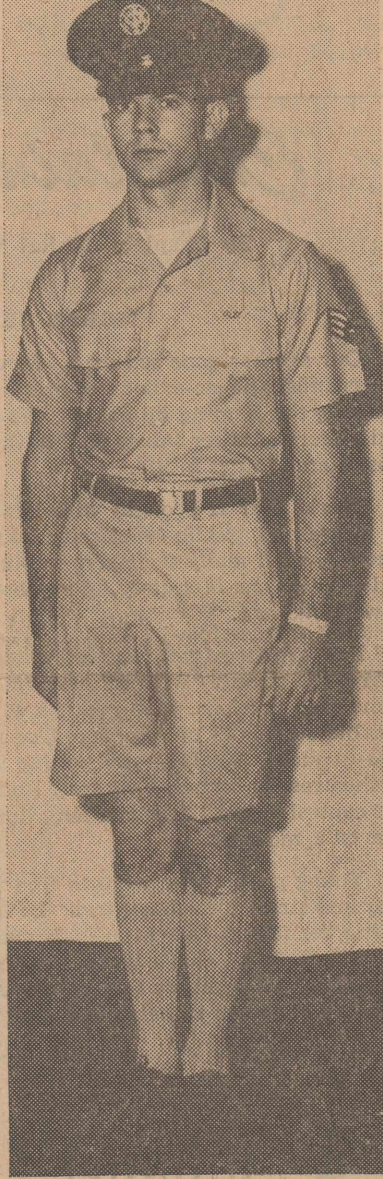

Insignia of grade will be worn by officers on the shoulders of the bush jacket and on the collar of the short sleeve shirt.

Chevrons will be worn by airmen on the sleeves, of the shirt and jacket. The wearing of either the enlisted or commissioned "US" on the new uniform is NOT authorized. Field jackets may not be worn in connection with either the new or the standard summer uniforms.

Regardless of which style of the new uniform is worn, personnel are reminded that neckties on Holidays and Sundays and after duty hours must be worn.

THE FORMAL VERSION of the new summer uniform is modeled by 2nd Lt. Arnold M. Miller, deputy finance officer. The uniform, with bush jacket, long trousers, short sleeve shirt and tie, is authorized for off base and after duty hours wear.

BERMUDA SHORTS — A/1C Wendell Ashley, Hq. M&S Group, models the bermuda shorts authorized for summer wear at Reese AFB.

Reese Average Rises In Safety Contest

Reese has climbed a notch, from sixth to fifth place, in the Air Training Command Commanders Award competition, Capt. Bernie C. Mullins, ground safety officer, was notified this week.

A message from ATC headquarters said Lackland AFB, San Antonio, held first place, with Keesler second, Ellington third, Webb fourth, and Reese fifth. No figures were given on the message to show just what margin separated the many contestants.

"Everyone at Reese is apparently happy to learn that the base has moved up," Joe Lopez, ground safety technician, said. "That traffic accident in Kansas, I'm afraid, may cause us to drop back on a new report. But we are hoping Reese will be able to move right on up to the top before the fiscal year is over. More attention to safety rules and constant thinking to avoid accidents most certainly could put Reese on top."

Commander Since 1952 To End Service Career

Col. C. P. West, Commander of Reese Air Force Base since May, 1952, today announced his impending retirement for physical disability. He said that he will enter the hospital at Sheppard AFB, Wichita Falls, Tex., the middle of April for a medical checkup leading to his retirement and that he expects to be retired on May 31 of this year.

Colonel West said that he will make his home in Dallas after retirement and will be vice president of the Cornell Oil Company, vice president and director of the First State Bank of Celina, Texas, and a director of the Muleshoe State Bank, Muleshoe, Texas.

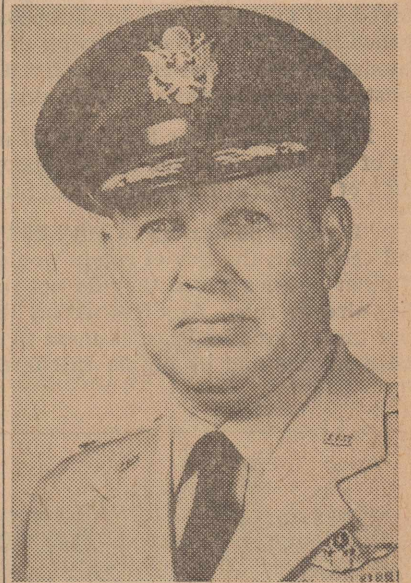

Colonel West has been commander of Reese AFB longer than any other commander in the base's history, which includes World War II and recent years. He assumed command on coming to the base from the Office of the Inspector General, United States Air Force.

During his service at Reese AFB he has directed many improvements. The large new north-south runway was constructed in 1954 to provide enlarged training facilities. The new hangar, larger than any others on the base, was completed shortly before the runway. Plans were perfected for construction of two new dormitories, a new consolidated mess hall, and a service club. Bids have been opened for erection of the service club and bids on other buildings were opened on March 15.

Colonel West also inaugurated the Mid-Management Seminar for policy-making supervisors. The seminars, which train officers, airmen, and civilians not eligible for the Commanders Manpower Management Course at George Washington University, were started at Reese AFB in 1952 and attracted attention of Air Force leaders all over the nation. Similar instruction has been started at other bases and in other commands. The Reese AFB Course benefits from instruction given by Texas Tech and Lubbock leaders.

During the colonel's tour at Reese AFB accidents have declined; both flying and ground accidents. His emphatic insistence on caution and safety thinking reduced flying accidents from 39 in 1952 to four last year. Ground accident cost decreased from \$145,303 in 1952 to \$48,805 last year, with man-days lost dropping from 2,347 in 1952 to 445 in 1955.

Born in Greenville (South Carolina, Colonel West has had a colorful and active Air Force career since he entered active service in 1928, a year after he was awarded his Bachelor of Science degree from Clemson College in South Carolina where he majored in textile engineering.

COL. C. P. WEST

He completed training at the Air Corps Primary Flying School, Brooks Field, Tex., in 1929 and the Advanced Flying School, Kelly Field, Tex., later in the same year. In 1932 he completed the Air Corps Technical School at Chanute Field, Ill., then, in 1948-1949 he was a student at the Air War College, Maxwell AFB, Ala. In 1952 he attended the Commanders Course, Manpower and Organization, George Washington University, which led to establishment of the Mid-Management Seminar.

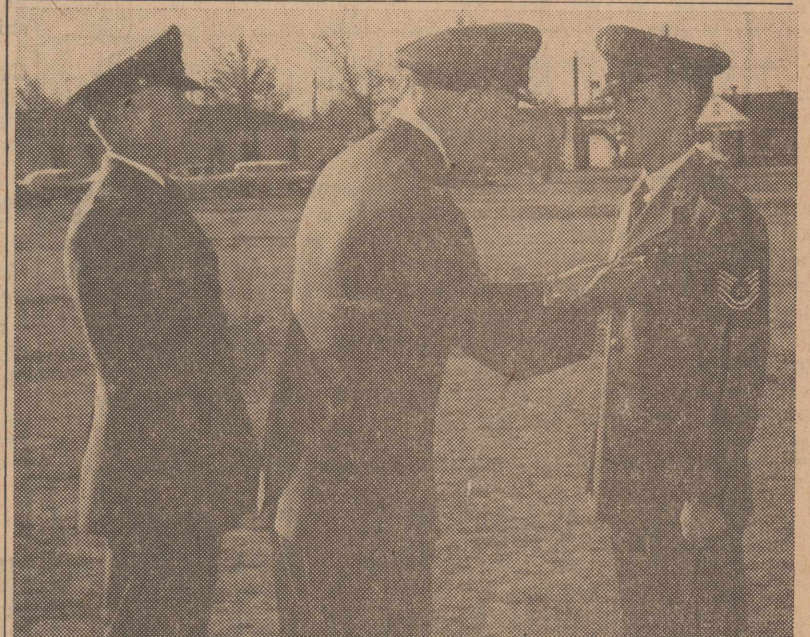

Colonel West holds command pilot and combat observer ratings and has about 6,000 flying hours. He was commissioned May 31, 1926, in the Infantry Reserve and rose through the officer ranks to temporary colonel on August 7, 1942. The rank was made permanent in April, 1948.

The colonel has had many important assignments. Reese AFB is the sixth air base he has commanded. He was commander of

Invitation To Oblivion

The Kremlin is trying to take over new nations in Asia, Africa and the Middle East which are just coming of age. Join with us, the communists say, and you will be free.

Early in February, a joint declaration by President Eisenhower and Prime Minister Eden punched away at the Kremlin's approach to these nations. It showed it to be what it really is—a bare-faced lie. The Reds practice exactly the opposite of what they preach. They are the world's greatest enemies of freedom.

"During the past 10 and more years," the two leaders pointed out, "600 million men and women in nearly a score of lands have, with our support and assistance, attained nationhood. Many millions more are being helped surely and steadily toward self-government."

In the free world, liberty and freedom are not empty phrases. They are living principles.

In contrast, during these same 10 years, the Soviet Union has enslaved 100 million people in Europe alone. Independent nations were turned into satellite states serving the Kremlin. Within the USSR, the Russian people do not enjoy the freedoms so glibly proclaimed in their constitution and in their master's propaganda line.

In this struggle for the minds of men it would be well for the people of these uncommitted states to take heed in the Washington Declaration of President Eisenhower and Sir Anthony. Thy wrote:

"It would be illusory to hope that in their foreign policies, political and economic, the Soviet rulers would reflect a concern for the rights of other peoples which they do not show toward the men and women they already rule. Any free nation that may be persuaded by whatever threat, promise or enticement to embrace communism will lose its independence and its people will forfeit their rights and liberties." (AFPS)

Some people look at the limitations given to some of the military privileges and wonder just why they are set up. Take the three-day pass for instance.

The limits of a 72 hour pass are set for the safety of the individual—not to restrict travel. It is a known fact that the human body can take just so much strain behind the wheel of an automobile without ill-effect. Many hundreds of servicemen are killed and injured each year because they try to travel too far and too fast on their passes.

To drive over 500 miles and back in a 72 hour period a person must be behind the wheel at least a third of the time, provided speed limits are not exceeded. Driving further would mean a faster rate of speed and a longer driving period. Both are the greatest menace to driving safety.

Pass limitations are within a 500 mile radius of Reese AFB for officers and NCO's and a 300 mile radius for the lower four graders, as outlined in Reese AFB Regulation 35-6A. Punishment for violating a regulation could mean a court martial or other action under the Uniform Code of Military Justice.

So don't try to drive across the United States on a three-day pass. The risk just isn't worth it.

Chaplain's Chat

By Chaplain (Major) Wilbur J. McDaniel

MORAL BEHAVIOR

Our age has gone sex mad. Movies, magazines which adorn the newsstands, the so-called "comics" which are literally devoured by millions, the flaming billboards, the sensational elements of the press, and a score of other things lead to the degradation of the sweetest and most sacred things in life.

World War II brought with it a relaxing of moral standards and an increase of public familiarity between the sexes. The example of others has led many teenagers into contempt for all the old standards and conventions of society, to say nothing of the high demands of the New Testament.

Few are free from temptation at this point. Human passions and desires are strong. With so much on every hand to awaken and inflame such passions, young people will do well to maintain the highest possible standards of conduct. Too many familiarities may have sad consequences. Necking and petting in parked automobiles, in darkened theatres, in secluded corners, lead inevitably to the moment when self control is lost. Life is a long time in which to regret the indiscretion of a moment.

Young people who want to find the best that life has to offer will pray and strive for self-control. To rush prematurely in and ruthlessly gather the fairest flowers in life's garden is but to destroy and trample them underfoot. God's Word, the abiding laws of nature, and human experience all combine to emphasize the truth that there are certain intimate relations to be shared only after marriage. (Copied)

Chapel Schedule

You are invited to participate in the following services of worship:

Catholic:
Mass: Sunday, 0900 and 1215; daily in the chapel at noon.
Confessions: Sunday, 0800 and 1200; Saturday from 1900 to 2000
Catechism Classes: Wednesday, 1445 and 1530

Protestant:
Bible School: Sunday, 0945 for all ages
Worship services: Sunday 1100
Choir Rehearsal: Thursday 1930

ATTENTION!

If you want to drink, that's your business. If you want to stop drinking, that's our business. Alcoholics Anonymous, 202 Arnold Drive. Write AA, Box 143, Reese AFB.

Fifth Short Story Contest Set

Washington (AFPS) — Leading entries in the Air Force's fifth annual short story contest will be

submitted for publication in national magazines.

Authors will receive royalties from accepted stories at standard magazine rates, the AF has announced.

The contest for the best story under 6,000 words is open to all AF personnel. The top three entries will receive \$200, \$100, and \$50.

CARTOON of the week

Policies Outlined By Air Force Times

WASHINGTON — More cuts in the manpower budget are coming, Air Force Times predicts in the issue of March 31, warning they will hit hardest in the overhead where the heaviest hits have been made in the past. The story will carry a list of the fields affected.

Extra pay for persons serving in isolated parts of the world outside the ZI, is being sponsored by the Air Force. Some of it could run up to 40% of base pay.

Additional stories will outline the procurement of new officers for 1956 including the expected number of AFROTC to be called to active duty; decision on the new type stripes proposed for lower than noncom grades; new restrictions to be placed on airman promotions and base-choice; and details of a rise in the amount of paid flying hours for reserve pilots on inactive status.

Airmen interested in trying for one of the military academies will find complete data in the March 31 issue.

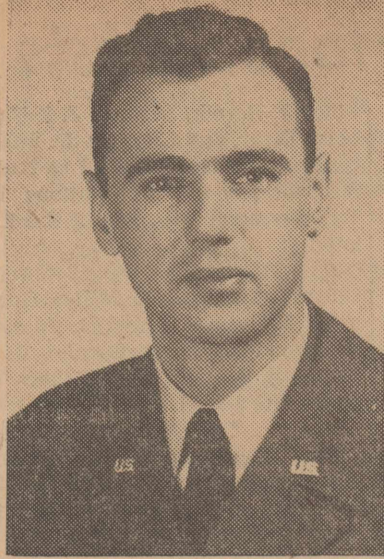

PTS Commander Receives Assignment To Command School

Maj. Tobias Schindler, a training officer at Reese Air Force Base since November, 1952, has been re-assigned to the Air Command and Staff school at Maxwell AFB, Ala., for a year's study. He will report late in August under permanent change of station orders.

Maj. Schindler, native of Iowa, came to Reese AFB from duty in the United Kingdom Exchange service at Burtonwood, England. He has been in service since 1943, with the exception of a few months in 1947. He served in the Mediterranean area during World War II and three years in England. He holds the Distinguished Flying Cross, Air Medal with seven clusters, the Croix de Guerre and other decorations.

At Reese he served as flight instructor and squadron commander for a year and then assumed command of the Student squadron, in charge of military training and supervision of student life. He continued as commander of the unit when its mission was changed to include flying training and the squadron became the 3500th Pilot Training squadron.

The major has been president of Lubbock lodge of Bnai Brith and a member of the board of directors of Congregation Shaareth Israel, Lubbock. He and his family live at 107 Yount drive, Reese Village.

2ND LT. RICHARD GOREY

Lieutenant To Attend Practice For Tryouts On Olympic Team

Ordered to Bolling AFB, Washington, D. C., for training prior to the rifle marksmanship tryouts for the 1956 Olympic team, 2nd Lt. Richard J. Gorey left Reese AFB Wednesday.

The lieutenant came to Reese in February after completing pilot training at Vance AFB. He is a member of the Basic Instructors School at Reese.

Lieutenant Gorey is a 1954 graduate of the University of Maryland where he was a key member of the rifle team. He will be participating in an 85 day training course which will be attended by Olympic rifle team hopefuls.

Color Processing

The base photo hobby shop is now equipped for ektacrome processing of color film, it was announced Thursday.

The chemicals will be available for use from the first to the tenth of each month.

Farewell Parties At Base Honor Wests

By Evelyn Shaw

Farewell parties are being given honoring Col. and Mrs. Casper P. West, prior to his leaving for the hospital the middle of April. The Reese AFB Officers' Wives Club is entertaining this afternoon with a tea in the Phantasy Room, naming as guest of honor, Mrs. West. Hostesses will be members of the OWC executive council and committee chairmen and they will alternate at the silver services. Mrs. West will be presented with a silver punchbowl, tray and ladle by Mrs. Peter L. Coffield, on behalf of the members of the club. The tea tables will be laid with champagne satin ruffled cloths and centered with pastel spring arrangements against a background of white stock, flanked by silver candelabra with light green candles. Invitations were extended to approximately 600 guests.

A joint business luncheon of the Officers' Wives Club executive council was held Thursday afternoon in the dining room. Officers and chairmen of the 1955-1956 council, those elected this month and committee chairmen on the new council attended. The table, covered with a green cloth, was gaily decorated with an Easter basket and a spring bonnet. Mrs. West was the surprised recipient of a farewell gift of two silver footed compote dishes, given by members of the outgoing council. Mrs. Peter L. Coffield, president of the OWC, introduced the following committee chairmen for the new council:

Luncheon, Mrs. Norman S. Cole; Bridge, Mrs. Frank C. Fuson, Jr.; Tea, Mrs. Richard J. Schimberg; Nursery, Mrs. Robert D. Smith; Kindergarten, Mrs. Harry L. Parker; Membership, Mrs. Frank M. Brown; Hospitality, Mrs. John H. Nelson; Telephone, Mrs. Lloyd R. Sparks; Typing, Mrs. Ralph C. Dresser; Publicity, Mrs. James J. Blessing; Breeze, Mrs. George J. Swingle; Co-editor, Mrs. Clarence D. Fried; Scrapbook, Mrs. James F. Mears; Special Activities, Mrs. Jerome O. Witty; Welfare, Mrs. William O. Miller; Hospital, Mrs. Quinn L. Oldaker; Red Cross, Mrs. Charles E. Wilson; Sewing, Mrs. Amos O. Fox.

A coffee honoring 50 new members of the Officers' Wives Club was held Wednesday morning in the Phantasy Room. Mrs. Casper P. West welcomed the callers and

Mrs. Coffield introduced the officers and chairmen. Mrs. Delwyn F. Ritzdorf, membership chairman, was assisted by Mrs. Tobias Schindler, hospitality chairman; Mrs. John G. Conklin; and Mrs. Edward J. Neilson. A green cloth covered the serving table which was decorated with a miniature salad and spice wood cabinet surrounded by fresh vegetables.

An April showers theme will prevail at the business luncheon of the OWC Thursday at 1:30 p.m. at the Officers' Mess. Hostesses will be Mmes. Stanley E. Bartelt,

Peter J. Bercik, Richard J. Schimberg, Dizer, and Clarence D. Frie. Club members are asked to make reservations or cancellations Tuesday noon with one of the following:

Mrs. Norman S. Cole, Hurlwood 2491; Mrs. William O. Miller, Hurlwood 2851; Mrs. Lloyd R. Spark, Hurlwood 2971; Mrs. Carolyn Haradin, SW 9-2917; Mrs. Robert (Shaw, PO 3-1951 (RAFB) Ext. 30.

Col. Clayton A. Scott will entertain Saturday evening with a cocktail party at the Officers' Club to honor Col. and Mrs. West.

NCO Wives Entertain Husbands At Buffet Supper, Juke Box Dance

By Mrs. Gatha Carlson

The NCO Wives Club members entertained their husbands with a buffet supper and juke box dance Monday night in the ballroom of the NCO Club. Door prize was won by Mrs. Dallas Tourtellout. Hostesses were Mmes. Yvonne Hritz, Robert Hoover, E. L. Horner, and Nelson W. Koscheski.

Mrs. Jack Rash was honored with a farewell coffee Tuesday in the home of Mrs. William E. Hicks with Mrs. George W. Courtney assisting. M/Sgt. and Mrs. Rash and children are leaving soon for Munich, Germany. They will take a 30 day leave visiting their families and friends in Arkansas and Louisiana before going overseas.

Mesdames Elric J. Bordelon and Frank Meserole entertained in the former's residence with a farewell party for Mrs. James Horton re-

Assigned USAFE

Fifth Short Story Contest Set

Washington (AFPS) — Leading entries in the Air Force's fifth annual short story contest will be

submitted for publication in national magazines.

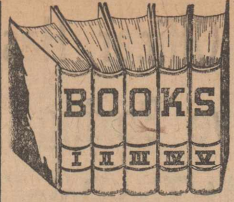

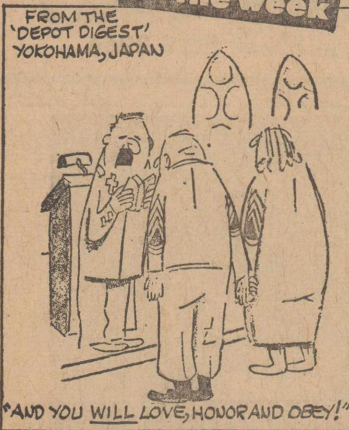

Authors will receive royalties from accepted stories at standard magazine rates, the AF has announced.

The contest for the best story under 6,000 words is open to all AF personnel. The top three entries will take prizes of \$300, \$200 and \$100.

Stories need not win a prize to be eligible for submission to magazines.

Installation contests will be completed by May 30, major command selections by Aug. 15. Final judging will be done at AF Hq. by a committee of outstanding authors, reviewers and editors.

CARTOON of the week

At The Base Library

THE RULE OF THREE

3 Things To Govern: TEMPER, TONGUE, CONDUCT

3 Things To Cultivate: COURAGE, AFFECTION, GENTLENESS

3 Things To Commend: THRIFT, INDUSTRY, and PROMPTNESS

3 Things To Despise: CRUELTY, ARROGANCE, and INGRATITUDE

3 Things To Admire: DIGNITY, INTELLECTUAL POWER, GRACIOUSNESS

3 Things To Remember: BE ETHICAL, FRIENDLY, HUMAN

3 Things To Give: ALMS to the NEEDY, COMFORT to the SAD, and APPRECIATION to the WORTHY.

These are all PRIORITIES. There are books in your BASE LIBRARY that will help you attain all of these.

--The A. B. Hirschfield Press
 Speer Boulevard at Acoma
 Denver, Colo.

The Navy commissioned the Langley, is first aircraft carrier, on March 20, 1922.

Air Force Secretary Announces Long Range Missile Program

Secretary Quarles paid tribute to the Strategic, Tactical and Air Defense Commands on their tenth anniversary March 21 in a speech before the Aviation Writers Association in Washington. The Secretary paid tribute to other AF organizations as well, stressing the complementary nature of the 18 Air Force commands.

He also outlined the Air Force's program of development of long-range surface-to-surface strategic missiles. He announced three AF ballistic missile projects in this field, two with intercontinental range and one of intermediate range.

The two intercontinental ballistic missiles (ICBM) are the ATLAS, which has been under development by the Convair Division of the General Dynamics Corporation in San Diego, California, for a number of years, and the TITAN, being developed by the Denver Division of the Martin Company of Baltimore, Md.

The TITAN, Secretary Quarles said, will use many of the components being developed for the ATLAS. This enables the AF to develop two operational missiles, representing different technical ap-

proaches, at a cost only ten per cent higher than that of one ICBM program.

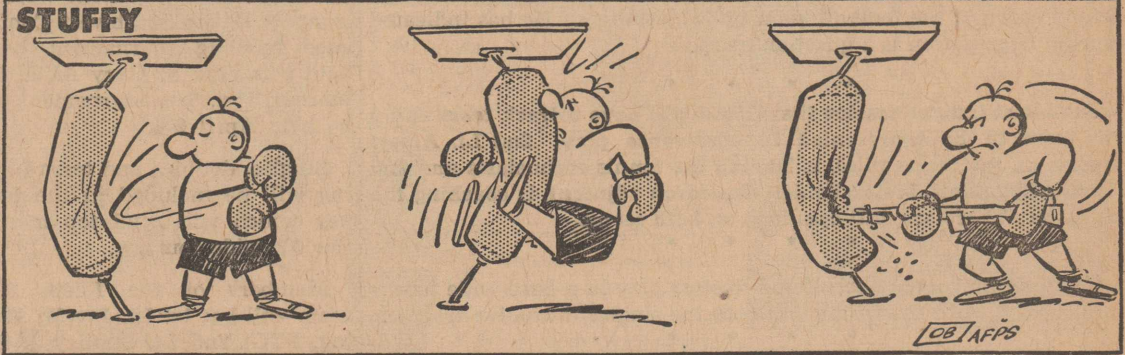

The AF's intermediate range ballistic missile (IRBM) project announced by the AF Secretary is the THOR. Development of this missile program has been assigned to the Douglas Aircraft Company of Santa Monica, California.

Secretary Quarles told the assembled aviation reporters that the ability of guided missiles to increase Air Force effectiveness makes them a vital part of the service's program. He pointed out, however, that the AF strategic delivery program still puts primary reliance on the manned bomber and that such aircraft will be important in the AF program for many years to come.

To Depart For Pre-Flight

Six Pre-Cadets have received orders for their assignment to Pre-flight training at Lackland AFB, San Antonio, reporting May 1, for Class 57-T.

Reporting are: A/2C Gary L. Agard, Donald E. Herner, William P. Bryant, Jr., Arthur R. Morton, and A/3C Richard P. Lindgren and John H. Rickloff.

SPORTS

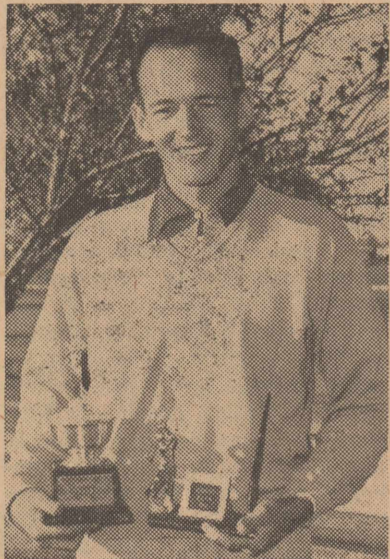

By A/2C Maurice B. Ziegler

Two golf trophies have been named in honor of the late 2nd Lt. P. Marion Hiskey, the former Reese AFB student officer who was killed late last week in the crash of a B-25 near Waco.

The winner of the Air Force Southwest Conference Golf Tournament will receive the Peter Marion Hiskey Memorial golf trophy. This trophy is to be held at the winner's base for a year. The Southwest Conference tournament is being held August 13-17 at Lackland AFB, San Antonio.

The team medal trophy of the Southwestern Intercollegiate Invitational Golf Tournament has been named the Marion Hiskey Memorial Trophy.

Hiskey led the 1952 North Texas team to the National Intercollegiate championship. He is former amateur golf champion of Idaho and Utah and has won several service championships in the recent months.

LT. MARION HISKEY

First Lieutenant Bryan Gillory, the old Texas footballer, Class 52-C graduate of Reese AFB, and a Texas athletic hero, starts a new chapter in his career next weekend when his Air Force Academy track team starts an eight-meet program.

The lieutenant is coach of the first academy track team, as well as backfield coach of the football team up Denver-way. He has indicated his spring aggregation is a question mark.

The latest indications are that Reese will have a track team and a tennis team to be represented in conference play. 2nd Lt. Albert Reinschmidt, instructor pilot, is leading the tennis enthusiasts and 2nd Lt. Henry Eykelhoff, Motor Vehicle Squadron adjutant, is coaching the track team. There are still openings on both teams.

Handball players are scheduled to start play in a base-wide tournament, April 2, with the winners in both the singles to receive trophies.

The base softball season is just around the corner with a dummy league to start May first. Deadline for teams to enter is April 16 at 1 p.m., and a meeting of all coaches and managers is being held at 2 p.m., the same day.

All personnel are asked to keep off of the lighted softball fields as leveling, watering, and reseeding of the field is being accomplished by the base engineers. Two other fields are available for practice sessions; the cadet diamond and the diamond near the Motor Vehicle Squadron Orderly room.

Base-Wide Ping Pong Tourney Starts Mon.

The annual base ping pong tournament is scheduled to begin April 2, at 6 p.m. at the Service Club, it was announced. A meeting for pairings in the tournament will be held Monday at 1 p.m.

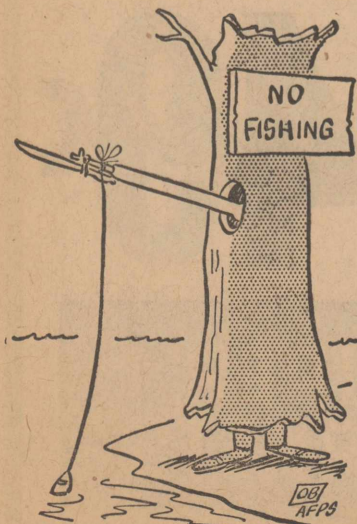

The tourney will continue Tuesday and Thursday nights at 6 p.m. and is expected to be completed Friday night. Singles and doubles are to be played.

Anyone interested in playing in the tournament are asked to contact the Service Club, Ext. 722, immediately. Trophies will be given for the winner in singles division and a trophy for each winner in the doubles.

TV Smash

Shreveport, La., (AFPS)—Johnny Owens, 3, got a smashing idea one day recently. After watching a man on television bang on cars with a hammer to show they could stand it—Johnny's mom found the headlights and tail lights of the family car smashed!

REAR RANK

Student Officer Has Impressive Boxing Record At 'The Point'

One of the most impressive boxing records ever brought to Reese is possessed by 2nd Lt. Haywood S. Hansell, III, graduate of West Point and member of Class 56-T, which arrived recently on the base.

The lieutenant for three years was eastern champion at 139 pounds and in 1954 he won the Col. David Marcus award as the best athlete of "the Point." In addition, Lieutenant Hansell won two tennis letters at the academy.

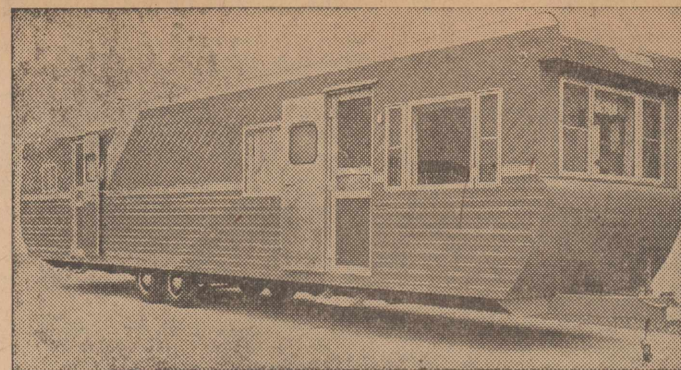

The lieutenant and his wife have distinctions which make it difficult for them to live as other young officers. She is the daughter of Gen. and Mrs. Nathan F. Twining; he is the son of Maj. Gen. and Mrs. Haywood S. Hansell, Jr. General Twining, chief of staff of the United States Air Force, lives at Fort Myer, Va., while the Hansells are at nearby Alexandria, Va.

Base Bowling Team Enters Tournament

Five of the top Reese AFB bowlers will leave early next week to compete in the Southwest Conference bowling tournament being held this year at Gary AFB, San Marcos, Tex. The tournament will be held April 2-4.

Singles, doubles and team bowling will be included in the tourney which will send top men to the AF-wide tourney.

Members of the Reese AFB team will be: 1st Lt. Jay W. Picking, PTG; 2nd Lt. Stanley J. Durbishe, PTG; S/Sgt. Gerald Houchin and S/Sgt. Clinton Whitley, Air Base group; and A/2C Ernest L. Nelson, Pilot Training Wing.

AF Moves Toward Space Flight

A preview of tomorrow's rocket-powered commercial space ships was given staff members of the Air Force School of Aviation Medicine recently by one of the world's top authorities on guided missiles.

Krafft Ehrlicke, German-born engineer, who now is missile design specialist for the Convair Aircraft Corporation of San Diego, Calif., told his views during a conference on medical aspects of the Air Force guided missile program at Randolph AFB, Texas.

During World War II Ehrlicke was one of the brilliant young German scientists associated with development of missiles at Penne-munde. Before he turned to rockets, Ehrlicke designed and tested aircraft for the German firms of Junkers, Heinkel and Messerschmitt. Before joining Convair, he worked with Bell Aircraft Corporation, makers of the X-1 and X-2.

Like most rocket engineers, Ehrlicke is an enthusiastic believer in the future of space flight. But, as a designer of practical weapon systems, he is wary of setting any date on man's takeoff for the moon or Mars.

"Our present rocket research is in two directions," the Convair specialist said. "One is the guided missile program. The other is the

use of rocket power in experimental aircraft such as the Bell X-1A and X-2, or the Douglas X-3, which already have attained speeds up to 1,600 miles per hour and altitudes as high as 90,000 feet.

"The missile program leads us naturally into Project Vanguard, the unmanned, instrumented, artificial satellite whose design was announced by the White House last year. Ultimately, Vanguard should give us a manned satellite for scientific observation in space.

"In the same way," Ehrlicke continued, "the rocket aircraft we are now flying may lead ultimately to

high-speed, high-altitude commercial rocket ships for flights between widely separated centers on the earth's surface--New York to London or Los Angeles, or from San Francisco to Tokyo."

The rocket liner would cruise at a height from 40 to 50 miles up—two to three times the present altitude record, set two years ago by the X-1A. Its speed during the powered take-off would reach as much as 15,000 miles an hour—nearly ten times the mark also established by the X-1A.

"Also they are examples of potential peacetime uses for the missiles which we are developing as a means of defense in case of war. So the guided missile program, like atomic energy, will be turned eventually to man's benefit, instead of his destruction."

The School of Aviation Medicine called the meeting between engineers and physicians for the benefit of aeromedical residents at other installations, who will be closely associated with the future medical problems of rocket flight.

Col. West Retires

(Continued from page 1)

the Army Air Force Basic Pilot School, Bainbridge, Ga., briefly in 1942 of the Basic Flying School, Courtland Army Air Base, Courtland, Ala., in the latter part of 1942 and in 1943; of the Advanced Flying School, Stuttgart Army Air Field, Stuttgart, Ark., from November of 1943 to September of 1944; of Spence Field, Ga., from September, 1944, to September, 1945; and of Munich Air Base, Germany, 1946-1947.

He assisted with flying training at Randolph Field from 1934 to 1940; was director of training at Gunter Field, Ala., 1940-41; and held the same assignment at Cochran Field, Ga., 1941-42. After his Munich assignment he was deputy chief of staff, operations, in Headquarters, European Air Transport Service. He later was named Air Inspector General in Washington in July, 1949.

Colonel West holds many decorations, including the Army Commendation Ribbon with oak leaf cluster, American Defense Service Medal, American Campaign Medal, World War II Victory Medal, American Occupation Medal for Germany, European-African-Middle Eastern Campaign Medal, and National Defense Service Medal. Colonel West is a member of the American Legion and an honorary member of the Lubbock Rotary Club and the Lubbock Club. The colonel is married to the former Mary Etta Pridgen of Norfolk, Va., and they have a daughter, Mary Anne, who is 16.

Men Plan Test Jump From 17 Miles Up

WASHINGTON (AFPS) — Two men will bail out 17 miles over the New Mexico desert next fall to give the Air Force new information on high altitude jumps.

The leaps, almost twice as long as the present record, will be part of "Operation Explorer," the AF's series of high-altitude, high speed bail-out experiments.

Lt. Henry P. Nielsen, co-holder of the unofficial record for high altitude parachute jumps, will lead the new attempts. He and another airman will drop from free balloons, using newly-developed automatic-opening parachutes and other experimental equipment.

The tests are being made by the Air Research and Development Command and the Aero Medical Laboratory, Dayton, Ohio.

NEW GRADUATES—Graduation of BIS Class 56-3 this morning from the Reese Basic Instructor school rank total graduates to 133 since establishment of BIS here in October, 1954. Col. James F. Mears, wing executive officer, addressed the class and Col. Travis Hoover, Pilot Training group commander, welcomed the new instructors to duties with the 3500th and 3501st Pilot Training squadrons. The 14 new instructors, left to right, are: Front row, 2nd Lt. G. B. Northrup, 2nd Lt. L. J. Martoccia, Capt. W. B. Bauer, and 1st Lt. M. J. Redsun. Second row: 2nd Lts. H. R. John, F. J. Cronauer, H. H. Geddes, and F. E. Kelly, and 1st Lt. Jack Barnes. Back row: 2nd Lt. S. O. Sadler, 1st Lt. R. M. Keith, 2nd Lt. R. R. Praul, 1st Lt. W. H. Ritchie, and 2nd Lt. R. A. Coffland. (Photo by Haynes)

260 Master Sergeants To Be Given Appointments To Warrant Officer

Appointments as Warrant Officers, W-1, in the Regular AF will be tendered to 260 active duty master sergeants in May. The selections are being made in March by the Department of the Air Force.

The appointments will be made in 28 superintendent level AFSCs. The promotion of the 260 to W.O., W-1, will make a total of 410 appointments from master sergeant to the superintendent level in the Regular AF for FY 1956, ten more than in FY 1955.

The 28 superintendent AFSCs in which the 269 vacancies will be filled are: 2200, 25100, 25200, 25300, 27000, 29100, 30300, 30400, 31000, 32000, 36100, 36200, 36300, 40200, 43100, 43200, 43300, 46100, 46300, 56000, 57000, 62000, 70200, 70300, 73000, 77100 and 98000.

Master sergeants who have applied for Regular AF warrants in AFSCs not listed above will not be appointed in the current cycle. Their applications will remain on file for consideration against requirements in the next three cycles, September, 1956, and March and September, 1957.

Non-regular Warrant Officers now on active duty who have applied for integration into the Regular AF will be considered for selection, with appointments to be

made this summer. Integration of non-regular Warrant Officers will not be affected by the above AFSC list as these appointments are not subject to quotas.

The next period in which master sergeants can apply for Regular AF Warrant Officer appointments is from October 1 until November 31, 1956. Required qualifications and procedures for applying for Warrant Officer appointments are detailed in AFR 35-27.

Local Scout Troop Has Parents Night

Future camping activities of the Local Boy Scout troop were discussed at a parents night, Monday, M/Sgt. Earnie C. Brown, newly elected Scout master announced.

The troop held a campout early in March and are now planning a father and son campout for the 5th and 6th of May. "The campout and other activities are initiated to stir interest of scouting within the family and obtain adult supervisors," Sergeant Brown said.

Adult leaders for the troop are Maj. Richard W. Davis, Maj. Ira Schick, Capt. Dale Fuller, Chaplain (1st Lt.) Robert Quigg and S/Sgt. Nelson Koscheski.

Star in Religious Record Field

EARL DAVIS TO LEAD SINGING FOR FIRST BAPTIST EDDIE MARTIN CRUSADE APRIL 8-22

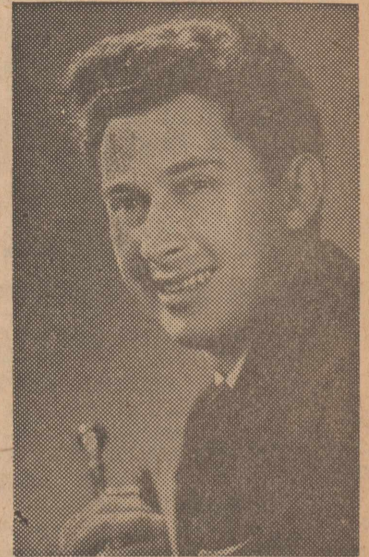

Earl Davis, talented baritone soloist, will lead the singing during the Eddie Martin Evangelistic Crusade to be held at the First Baptist Church, Lubbock, April 8 through 22.

He is an outstanding soloist and one of America's latest recording stars in the religious record field, recording on the Singspiration label. Mr. Davis has led the singing in crusades in England and Europe.

During the campaign here, several nights will be set aside for musical concerts, and Mr. Davis will sing many of the beloved hymns of the church.

Evangelist Eddie Martin, one of America's most popular young revivalists, will lead the two-week long campaign.

All services start at 7:30 p.m. in the main auditorium, Broadway and Avenue V.

Earl Davis

Air Force Scientists Release Stored Energy In Atmosphere

scientific break-through on March 14 when they released in the upper atmosphere energy chemically stored by the sun in the form of light.

Their experiment started when an Aerobee rocket was fired 60 miles into the air from Holloman Air Development Center, New Mexico.

Nitric Oxide gas was released under high pressure from the rocket at an altitude of more than 316,000 feet to increase the natural amount of nitric oxide in the atmosphere by several billions. The nitric oxide made oxygen atoms in the atmosphere combine rapidly and release light locked in the oxygen atoms.

Observers at Holloman saw what appeared to be the formation of a man-made star nearly twice as bright as the planet Venus. In ten minutes the star had grown in size approximately four times the diameter of the moon. Its brightness was about half that of the full

moon. The man-made star spread out to about three miles before the gas was diluted by diffusion and the light reduced in intensity. The spreading light was visible to the naked eye for ten minutes and to sensitive instruments for a longer period.

Announcing the achievement, spokesmen at the AF Cambridge Research Center in Massachusetts said that scientists long have realized that if they could find a way for the oxygen atoms to combine rapidly, a light many times stronger than the natural light in the atmosphere would be emitted. The light thus produced, the Cambridge experts explained, actually is sunlight that has been chemically stored in the oxygen atoms awaiting release.

Nitric oxide, consisting of one atom of nitrogen and one atom of oxygen, has the property of bringing two oxygen atoms together to form an oxygen molecule and release light.

Former Base Chaplain At FEAF Headquarters

Lt. Col. Alvin A. Katt, wing chaplain at Reese from February, 1952, to Sept. 10, 1954, has taken over new duties as chaplain of 6000th Support wing, Tokyo, Japan, the FEAF BASE REPORTER of March 16 discloses.

The colonel, called a "Dakota ranchman" by the REPORTER, served in Europe and the Pacific area during and following World War II and came to Reese from Craig AFB. He was re-assigned to Williams AFB, Ariz., from this base, going to the 130th SCAR-WAF Engineers Aviation Brigade at Ashiya, Japan, last October. His move to Tokyo was on March 15.

British Claim New Air Speed Record

London (AFPS) — Britain has laid claim to a new air speed record—the first flight of an airplane over a measured course at a speed greater than 1,000 miles an hour.

The British have announced that their Fairey Delta II, a delta-wing jet, averaged 1,132 mph in recent test flights over southern England.

The jet flew at 38,000 feet over a nine-mile course. The first run was clocked at 1,117 mph, the second at 1,147 mph.

The average was submitted to the International Aeronautical Federation for confirmation.

If accepted by the world body, it would shatter the present speed record of nearly 824 mph, set by Col. Horace H. Hanes of the USAF. Col. Hanes flew an F100C Super Saber to the record flight last August.

The British plane is a research craft powered by a single Rolls-Royce Avon turbojet engine with re-heat equipment. The runs were made by Lionel P. Twiss, a test pilot for the Fairey Aviation Co., Ltd.

Wet Thief

Dallas, Tex. (AFPS)—This thief is all wet. He stole a raincoat with big white letters on the back spelling "P-O-L-I-C-E".

IMPROVEMENT SUGGESTION — Russell D. Townsend, 3505th Field Maintenance squadron shows the placement of reinforced doublers that secure the wing tunnel doors on the B-25 to Col. James C. Watkins, M&S group commander. His suggestion won a \$75 award from the base incentive Awards Committee and the Air Material Command plans to include the idea in the Unsatisfactory Report Digest. Freedom's Foundation Announces Letter Writing Awards Program

VALLEY FORGE, PA. (AFPS)—"My Vote—Freedom's Privilege," has been chosen as the topic for this year's letter awards program sponsored by the Freedoms Foundation.

All members of the armed forces on active duty are eligible to compete in the program, which includes a first place award of \$1,000 and a George Washington Honor Medal.

In addition, the top winner from each of the services will be a guest in the nation's capitol for the 1957 presidential inauguration if his commander approves.

Top awards will be presented here on Washington's Birthday, Feb. 22, 1957.

In releasing details of the competition, the Foundation said letters should be at least 100 words in length and must not exceed 500.

Contestants should stress the role of the American voter in self-government and be non-partisan in their approach. Letters for or against a particular candidate will not be considered by the foundation.

There is no limit to the number of letters which may be submitted. Contest deadline is November 11, 1956.

Entries, which must be signed and give the writer's full name, grade or rating, serial number, branch of service and unit address, should be sent to:

Freedoms Foundation at Valley Forge, Valley Forge, Pa.

Besides the top \$1,000 award, there are two second place prizes of 500 each and 80 third place prizes of \$100 each. All of the cash winners will receive George Washington Honor Medals.

An additional 50 contestants will receive these medals for their efforts.

Lt. Pratt Assigned To Altitude Chamber

Second Lieutenant Alfred J. Pratt has recently arrived at Reese Air Force Base for duties as Physiological training officer with the USAF Hospital.

The lieutenant is a former student of the University of Maryland receiving his masters degree in Physiology in 1954. He came to Reese from the Air University at Gunter AFB, Ala.

First Aid Accidents Listed For Week

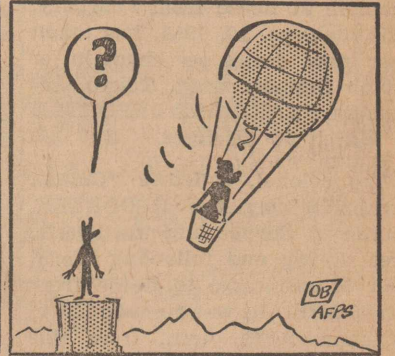

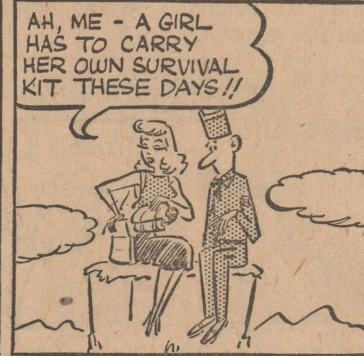

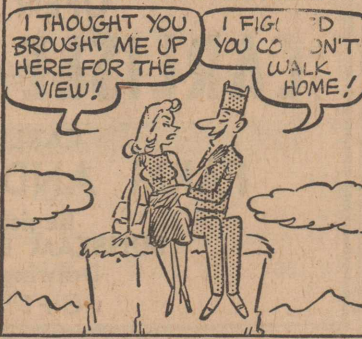

Thirteen first aid injuries were reported this week by Joe Lopez, ground safety Technician.

A civilian received a cut mouth when a wrench slipped; two civilians were treated and foreign matter removed from their eyes; an airman cut his hand attempting to open a window.

A civilian bumped his nose repairing an aircraft and another cut his head on an aircraft land-

ing gear. An airman tripped while walking down stairs in the barracks; an NCO slipped on a rug in his home bruising his head, and an airman cut his head on the glove compartment of his car. A civilian slipped and bruised his wrist in the fall; an NCO sprained his foot while rolling a hose at the fire station; and an airman received a bruised toe when a horse stepped on his foot.
