

# Reese Graduates Finish In Simulated Aerospace

U. S. Air Force — Aerospace Power for Peace

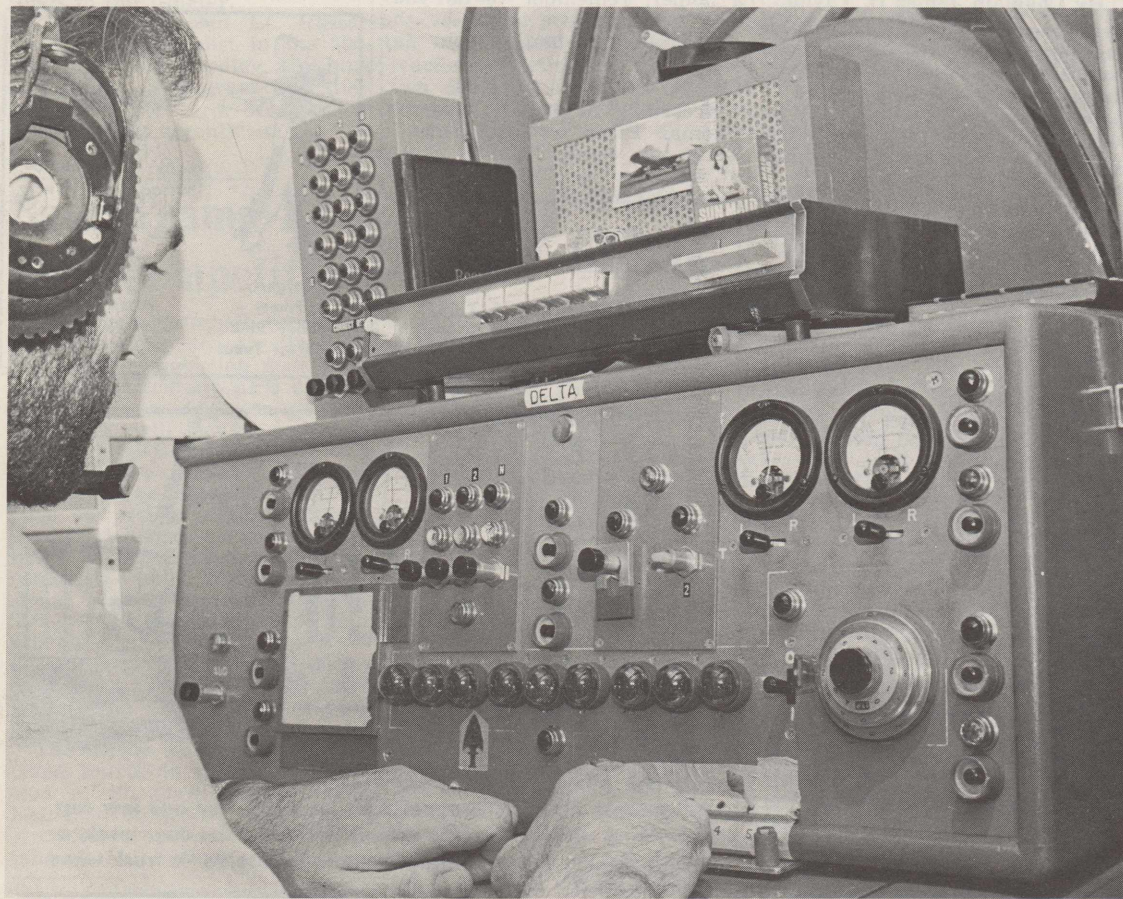

## THE ROUNDUP

The ROUNDUP is an unofficial newspaper published weekly in the interests of personnel at Reese Air Force Base of Air Training Command. It is published by Randall Abernethy, a private individual, who is in no way connected with the Department of the Air Force. Publisher's mailing address: 2832 66th St., Lubbock, Texas; Phone SW 9-8806. Opinions expressed by publishers and writers are their own and are not to be considered an official expression by the Department of the Air Force. The appearance of advertisements in this publication does not constitute an endorsement by the Department of the Air Force or the products or services advertised.

Volume XIII

Lubbock, Texas, Friday, August 17, 1962

Number 39

BEARDED SPACE STUDENT—Sporting a month-old beard, 1st Lt. Robert Blood of Reese, is seen punching buttons on a console of a "space cabin" in which he and nine companions spent 30 days. The Air Force/Lockheed psychological study took place at Marietta, Ga. Object: To

find how efficiently teams of astronauts can perform on extended missions in close confinement. First reports indicate a schedule of four hours on duty and four hours rest, around the clock, is best.

## Reese Leads ATC Bases For Commander's Trophy

Reese Air Force Base has moved in first place for bases competing for the Air Training Command Commander's Trophy for recreational participation.

Reese, as of July 11, had 896 points, with Keesler 877 and Lackland 856 among leaders. The total is for Calendar Year 1962.

Activities considered are squadron and base level basketball and volleyball, boxing, judo, bowling and track and field events. Points are given for entering command competition, for the number of participants and for having members of ATC teams, as well as additional points for winning or placing in command or district competition.

Events completed but not included in the points so far are service club programs, talent shows, model airplane competition, chess, golf, base level softball and swimming. Reese has points in each of these events and is considered to be in first place as of this week, said Maj. Joe Setnor, personnel services officer.

## Director Praises Help From Parents

Appreciation for cooperation in the Youth Club activities given by Reese parents was expressed Thursday by Aileen Gunn, youth activities director.

"The ladies, and the gentlemen, of the base have done much fine work for us," she said. "Many of them have volunteered to teach, members of the Wives Club have given so much of their time in preparing goodies for our cake sale and in other ways helped, and everyone is giving from their heart to further good things for our youth. It all is so extremely heart-warming and I must say publicly all this cooperation is appreciated."

## Volunteers Seek To Find Answers On Space Living

WASHINGTON (AFNS)—Seventy-two young airmen from the Air Force's Basic Military Training School at Lackland AFB are participating in a research program which may hold the key to man's existence in a space environment.

The volunteers are taking part in a project at the School of Aerospace Medicine, Brooks AFB, Tex., aimed at gaining information on man's tolerance to the gravitational stresses of re-entry after prolonged space flight.

Directed by Dr. Lawrence E. Lamb of the school's science staff, the project will be divided into three phases. The first two have already started. Analysis of eight different training procedures for exercising the circulatory reflexes will take up the first phase of the experiment. In the second phase, the cardiovascular and metabolic changes occurring in normal subjects during periods of extended bed rest will be studied.

## Logistics Survey On Needs Underway

WASHINGTON (AFNS) — A survey of the technical courses that may be required throughout the Air Force during Fiscal Year 1964 is currently underway by the School of Logistics of the Air Force Institute of Technology.

**SCHOOL GRADUATES**

Harrington of Terre Haute, Ind.; and Second Lieutenants James C. Hook of Eaton, Ohio; and Jimmie A. Kelley of San Diego, Calif.

On Graduation day they left for Marietta, Georgia, to start their experiment in the simulated aerospace vehicle mission, all volunteers. Thirty-six members of Class 62-H at Air Training Command bases volunteered for the experiment. Ten were selected.

Lieutenant Blood, after checks are made on his time in the aerospace vehicle and his physical condition, will report to Luke AFB, Ariz., for F-100 fighter aircraft training. Lieutenant Hataway will return to Reese as an instructor pilot. Lieutenant Harrington will take interceptor pilot training at Perrin AFB; Lieutenant Hook is to be an instructor pilot at Laughlin AFB, Del Rio; and Lieutenant Kelley will fly transport aircraft for the Military Air Transport Service.

Justly exactly what was accomplished by the Reese and Vance AFB graduates will not be known until complete review is made of information records.

In the first test, six Air Force Academy men spent 15 days in the small "space cabin" — with a work area about the size of a station wagon. They worked on monitoring consoles and working mental problems (such as astronauts will face) for four hours and were off duty two hours, around the clock.

With talk of space platforms, relay stations, and long periods away from the earth, however, the Air Force wants to know how a team can do for 30 days or longer. This was studied in the test ending Monday. First indications from the performance of the six cadets are that astronauts, working as a team, can do well for at least two weeks.

The larger crew of ten men spent twice as long in the cabin as the cadets — going in July 14 and coming out Monday, 30 days later.

However, they had a more reasonably work-to-rest schedule; they were on duty four hours and off four hours, continually for one month.

Five of the ten men in the test just ended were on duty and five were at leisure at all times. The less demanding 4-4 schedule provided a safety factor for emergencies that might take one member of a team of astronauts out of action. Should one member of a six-man crew be out of action, on a 4-2 schedule, his companions, would have only 4 hours rest per day. This might seriously interfere with their taking over the extra work.

The four-hour on, four-hour off duty test was the first one made in which crew members have had spare time on their hands. In the (See SPACEMEN, Page 3)

## Cadets End Period Here

Four weeks of intensive training for 187 AFOTC cadets of 29 colleges and universities will come to an end next Friday at Reese as the summer training period ends in graduation.

Colonel James A. Gunn III, wing commander, will be the graduation speaker, discussing Air Force life and attitudes the cadets will be expected to have when they become junior officers after commissioning.

Five of the cadets in training will be commissioned on graduation.

They are Joseph N. Best, University of Tulsa; Charles C. Peterson and George E. McClintock, Washburn University of Topeka; James R. Faulkner, Oklahoma State University; and Richard W. Byrum, University of Kansas.

Each AFOTC cadet is required to undergo summer training prior to receiving his commission. The five have been graduated from college and, thus, are being commissioned. The remaining 182 cadets at Reese have another year of college study prior to becoming second lieutenants.

At next Friday graduation awards to best flights and individuals will be made by Lt. Col. Delmar Atchison, summer training commander. Certificates of graduation will be presented by Lt. Col. Orrin R. Tatchio, commandant of cadets, and Maj. Arch H. Layman, training officer, is to administer the oath of office to cadets being commissioned.

Cadets completing the four weeks of training are from 17 states.

## Life Saving Course Beginning Monday

A senior life saving course will be offered to all persons 16 years of age and older beginning Monday. Classes will be held each weekday from 8:30 to 11 a.m. at the airman's pool. Interested persons should report Monday at 8 a.m. to start work. SSgt. Winston Allen is to instruct. Each applicant should bring a towel and bathing suit.

## Landings, Takeoffs Set Up Reese As World's Busiest Airport

The busiest airport in the world — that's what Reese Air Force Base might be called.

O'Hare International Airport and Midway in Chicago generally have been considered for years as the busiest in the United States and no foreign port can touch them. But a year or so ago Midway traffic slowed down when the influx of jet aircraft increased and the field was unable to extend its runways as necessary to accommodate the larger and faster planes.

For 1961 Los Angeles International Airport moved into first place with 324,993 landings during the year, say Federal Aviation Authority records. O'Hare was second with a total of 318,526 landings and takeoffs and Miami International ranked third with 310,731.

But none of these figures approach the 457,047 landings and takeoffs recorded by Reese.

The total averages 38,253 a month, as compared with 27,083 for Los Angeles International,

and is 550 a day more than recorded by O'Hare or Miami.

Reese students and instructors make 5,180, and more, landings and takeoffs weekly and 1,530 daily in carrying out the Undergraduate Pilot Training program.

The Pilot Training Wing since it began training on the base in October, 1949, has graduated an average of 600 pilots each year for the Air Force as a part of Air Training Command. Pilots and students have executed close to six million landings in the

process.

Most of the students know little or nothing of flying until they begin Air Force training.

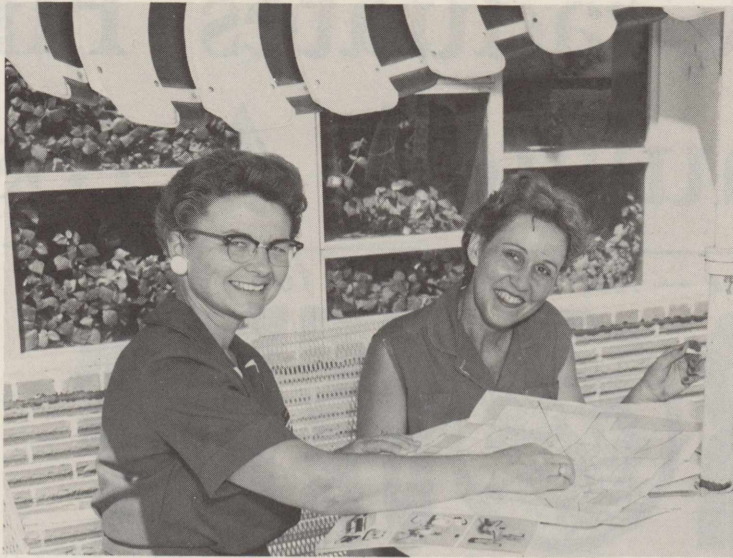

But the safety mark for Reese has been one of the best in the service. Fatalities in the 13-year period have totaled less than 40, and major accidents (those costing \$50 or more to effect repair) have been on the decline, although jet aircraft have replaced the conventional propeller type as trainers.

To accomplish its mission of

adequately training students in a professional manner, Reese has expanded its runways to include auxiliary strips for student touch-and-goes. The Abernethy airport was used for a time, as was the field at Hobbs, N. Mex. Now the Terry County Auxiliary Field west of Ropesville handles a majority of practice landings by students.

Wherever they are, Reese runways presently are the busiest, far more busy than any commercial airport in the world.

GIFT KIT—Mrs. James A. Gunn III, right, smiles after reviewing contents of the Reese Family Services welcome kit given all newcomers to the base. Mrs. Zelta Goldsberry, coordinator, made the presentation and explained some of the packet contents, including Lubbock gift certificates, a large map of Lubbock, premium booklets and other material.

Sixty-three cents a day will buy a \$25 U.S. Savings Bond every month.

**'Policeman' Man-Sized Job**

The little card bore the blue and white emblem of the United Nations. "I'm not a soldier," it read, "I'm a UN policeman."

Many veterans of the Korean conflict must remember that card well. It was printed and circulated by some well-wisher with a sense of humor who thought the troops would get a kick out of it. They did.

But this is a good time as ask, "What's wrong with being a UN policeman?" A good time because the UN Command in South Korea has just marked its 12th anniversary.

There are no guns barking in the Land of the Morning Calm today — thanks to the men who from 1950 to 1953 taught the Communists that the United Nations was more than a debating society. But the Free World can also say thanks to the "policemen" who now stand guard against any second invasion by the North Koreans or Chinese Reds. These men — some of them sons of the men who fought the war — have a man-sized job as keepers of peace.

Crack combat troops such as the U. S. 1st Cavalry and 7th Infantry Divisions give the UN force a powerful punch. The Republic of Korea's own armed forces have become, through UN training, among the strongest in Asia. Anyone who has played a part in forging this instrument can tell himself that the job was worth the effort. (AFPS)

**Ordinary People Offer Most Help**

By Chaplain James D. Taylor

It is very noticeable that all men in every walk of life need someone to help them. Even Jesus the Son of God needed to choose someone to help him. If he needed this help, then how much more do we who are so weak and full of despair need help.

In looking over the people Jesus called on to help him, we find them to be of the ordinary people. There were none that most people would call on to help in a world-wide program. They were just some fishermen and a tax gatherer. This seemed such an unlikely group to have such an important task placed on their shoulders. Yet, today you and I have heard the good news of God partly because of what they did.

How shortsighted we often are when it comes time to pick helpers. We forget that Jesus called ordinary people with the promise that he would make them become fishers of men. Could this quality in Jesus, if present in us, help us look at other people differently? What would be the difference?

When we are looking for help in any situation, do not let our minds overlook the ordinary man for in any given circumstance the ordinary man might become a leader of men. If a man is willing to help, he might become the very person that will make the program a success. If you are just

a helper, remember to do your best for that just might be the most important task in your day and age.

According to Robert Ingersoll, Thomas Paine was the first to write the words, "United States of America."

**RS-70 Scheduled For Test**

WASHINGTON (AFNS) — The RS-70 Aircraft, designed to fly three times the speed of sound (2,000 mph) and at an altitude of more than 70,000 feet, will be given its first flight test sometime in December according to present Air Force plans.

In its latest progress report on the giant, six-engine reconnaissance-strike aircraft nearing completion at the North American plant at Palmdale, Calif., the Air Force said the RS-70 vehicle would be taken from its present building to its final development area during September for production refinements.

Current planning calls for an official rollout of the aircraft sometime in November with the

initial flight test following approximately a month later.

The RS-70 project was begun in December, 1957, when North American was awarded a contract to develop a "radical supersonic" with the capability to operate from most existing heavy bomber bases. Nicknamed the "Valkyrie," the vehicle would have a wing span of 115 feet and an overall length of 170 feet. It would have intercontinental range and would be manned by a crew of four.

Power for the aircraft would be provided by six General Electric J93 turbojet engines. The last of the six engines for the RS-70 were delivered to the aircraft contractor late in July.

THANKS REESE—You've been generous with your patronage, and we appreciate it very much. We look forward to serving you in the future, giving you full service and full value for every dime you spend with us.

**Off-Duty Job Holder Cautioned**

Air Training Command military personnel who hold off-duty part-time employment are cautioned to check their records to assure proper authorization for such jobs.

It is to the advantage of the airman to complete the required ATC Form 239, "Application for Off-Duty Employment," and submit it to his unit commander prior to accepting off-duty employment. Personnel who have such jobs, but who have not completed the application, are violating Air Force Regulation 30-30.

Under the provisions of ATC Supplement 1 to AFR 30-30, violators are liable to a general court martial and could receive a maximum punishment of dishonorable discharge, two years imprisonment and forfeiture of all pay and allowances.

Airmen engaged in unauthorized off-duty employment, and who sustain injuries resulting in loss of time, are subject to a line of duty investigation. If the investigation reveals that the airman was not "in the line of duty" when injured, then all lost time must be completed before discharge. In extreme cases, where the injury may be permanently disabling, the airman also is subject to the loss of all disability compensation.

## Reese Fifth In ATC Meet

The Reese swimming team last weekend gathered 25 points to finish fifth in the annual Air Training Command swimming meet at Chanute AFB, won by Keesler AFB. The winners scored 98 points, Sheppard 58 and Lackland 42 to lead the Reese team.

Coach Jose Blackburn of Chanute won individual honors with 26 points.

SSgt. Winston Allen, Reese coach, took second in the 1-meter and 3-meter dives. He was ATC champion the past three years and led both days at Chanute to lead going into the finals, but was nosed out by Sheppard's Dinny Wuster, last year's Iowa State diving star.

For Reese, 2nd Lt. Harry Van Horn, Jr., finished third in the 100-yard butterfly and 100-yard breaststroke against a strong field.

Finishing fifth in the 100-yard breaststroke and sixth in the 200-yard backstroke was 2nd Lt. Harry B. Lancelot, while 2nd Lt. John McCurdy was sixth in the 1-meter and 3-meter dives. The latter was in third place until the finals in the 3-meter.

The Iranian, 2nd Lt. Hassan Vaezi, was a finalist in the 200-yard individual medley, finishing sixth. He also swam the 100-yard and 200-yard breaststroke and finished seventh in the 50-yard butterfly.

## Base Teams Face ATC Competition

The Reese baseball team will go into action in Air Training Command competition next Wednesday at Lackland AFB and the slo-pitch team for men over 35 years old will be in action at Sheppard AFB.

The Reese teams will leave Tuesday. The baseball team has been in action in the Lubbock industrial league all summer and has a so-so record against teams "stacked" with former professional players and graduates of Texas Tech and Lubbock high schools.

The slo-pitch team was picked from men who have been competing the past few weeks in weekly encounters.

The Reese softball team finished fourth in district competition at Sheppard last weekend, losing to Amarillo, 8-6, winning from Stead on a forfeit and dropping an 11-6 encounter to Lowry.

A1C Richard Hackett competed in the two dives and A3C Charles Brichta swam the two breaststroke events.

The Reese team of Lancelot, Vaezi, Van Horn and Allen finished fourth in the 400-yard medley.

## School Activities Starting Monday

Pre-school activities for children entering the Reese Elementary School first grade this fall will be held next Monday, Tuesday and Wednesday in the school with regular teachers in charge. Parents of all boys and girls who are six years old prior to Sept. 1 are urged to register their children for the course.

The first full day of school for all classes is Tuesday, Sept. 4, with registration that morning. School will last through May 25, with days added if they are missed because of bad weather during the term.

A two-day holiday is set aside for Thanksgiving, one day for a teachers meeting in March and two days for Easter, in addition to the Christmas holiday from Dec. 21 to Jan. 7.

## Golfers Finish Midway In ATC

The Reese golf team finished in the midway bracket of the Air Training Command tournament last weekend at Randolph AFB, ending up No. 10 of 19 entries in the open division and No. 8 in the senior division.

Randolph captured the tourney open division easily on its own course, tabbing 1,178 strokes to 1,227 for second place Chanute. Reese had 1,262. Lackland won the senior division with 623, while Reese had 743.

The ATC team which will compete against other commands in Air Force competition is composed of the five low men in the Randolph tournament: Capt. Al Bange of Randolph, Maj. Gordon Manchester of Vance, TSgt. Ralph Delsey of Williams, A2C Bob Brooks of Randolph and Lt. Col Harvey Williams of Stead.

## AFSC Facilities Rate Satisfactory

All facilities of the Air Force Communications Service at Reese were given satisfactory ratings by an AFCS inspection team which visited the base during the past week.

Included were base communications, MARS, radio-radar maintenance, control tower, GCA, navigational aids facilities and all phases of administration.

Visiting Detachment 2, AFSC, were Majors Norman R. Hanes, Thomas M. Johnson and Fred J. McKnight; Master Sergeants Thomas G. Marshall, Robert D. McGuire and Owen L. Wright; TSgt. Henry D. Bass, and SSgt. Robert C. Myers. The team was from the Southwest Communications Region, Randolph AFB.

## Spacemen . . .

(Continued from Page 1)

four-hour work, two-hour rest study, the men were so tired they spent their leisure time sleeping.

The men had no idea that the Air Force and Lockheed psychologists would open the door to the 1,100-cubic foot cabin (including work space, leisure area, and bunks) Monday.

They had anticipated the tests would continue another ten days. They had been told, on entering the cabin, that the tests would run 40 days.

Dr. W. Dean Chiles, Air Force psychologist, and Dr. Earl Alluisi, Lockheed psychologist, said the men were misled about the timing so they would not key up their performance in the "home stretch" of the study. The two studies sought to encourage the men to even out their performance, instead of having peaks and valleys of efficiency. In previous tests, men showed high performance during early evening hours and low performance early in the morning.

Dr. Chiles, psychologist with the 6570th Aerospace Medical Research Laboratories at Wright-Patterson Air Force Base, Ohio, has been project officer on the studies here since 1958. Dr. Alluisi is the Lockheed project officer.

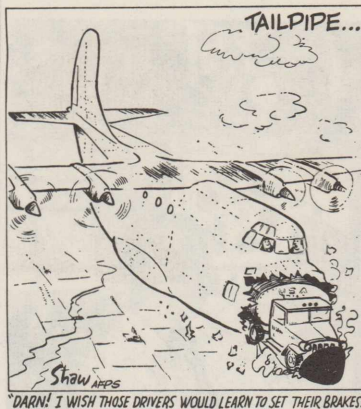

Two birthday parties provided brief interruption for the ATC pilots.

A cake was slipped into the cabin and a 20-minute break provided on July 25 when 1st Lt. Don V. Hubbard celebrated his birthday "out of this world". On July 30, a similar party was staged for Lieutenant Kelley.

The Air Training Command Headquarters at Randolph Air Force Base, Tex., assisted the psychologists in obtaining volunteers from Moody, Craig, Reese, and Vance Air Force Bases.

From the 36 volunteers, the ten men — eight of whom are married — were selected. The men from Vance AFB were 1st Lt. James H. Gamble, Jefferson, Tex.; 2nd Lt. Dale O. Cross, Gage, Okla.; 2nd Lt. Emery C. Cushing, Gibraltar, Mich.; 1st Lt. Don V. Hubbard, Bismark, N. D.; and 1st Lt. Frederick W. Fisher, Jr., Peoria, Ill.

ORIENTED—First Lieutenant William P. Suiter, new commander of Detachment 2, 2010 Communications Squadron, looks over a multi-channel recorder in use the past month. CWO Basil Parker, former AACS commander, points out features of the machine as Maj. Walter Malin, retiring detachment commander, looks on. The recorder tabulates all frequencies used by the tower and GCA, in addition to long line conversations. It works automatically to shift from channel to channel. The lieutenant is pictured while on tour of the communications facilities.

### Woman's Chatter

By Mrs. Harry L. McKee

The Dust Devilettes held a get-acquainted coffee at the Officers' Club Wednesday morning.

The monthly coffee of Class 63-G was held Wednesday at the home of Mrs. Robert Young.

Class 63-H members were guests at a get-acquainted party Wednesday evening in the Officers' Club, with wives of Flight 2 as hostesses.

First Lieutenant and Mrs. Robert Horton have as their houseguests Mr. and Mrs. Harry Kiesling of Cedar Rapids, Iowa. The Kieslings are spending two weeks with their daughter and son-in-law.

Houseguests in the home of Lt. Col. and Mrs. John Slaughter this week have been her parents, Mr. and Mrs. Dave Cheris of Homewood, Ala.

Officers Wives Club members in doubt that the typing chairman has their correct telephone number, street address of spelling of name, are requested to call Mrs. Donny Clemens soon at 238 Harmond Drive or on Telephone 3294 so correct information will

### NCO Wives Coffee Highly Attended

The largest social gathering of NCO wives in Reese history occurred last Thursday as upward of 120 responded to the invitation of Mrs. James A. Gunn III to attend a coffee in Mathis Service Club.

Assortments of flower arrangements were placed in the rooms and coffee, tea, tuna and chicken sandwiches, nut bars and cakes were served.

Mrs. Gunn spoke briefly, urging the NCO wives to cooperate in the varied program being worked out for the Youth Club and for wives. She stressed that a game day was being scheduled for NCO wives and their friends, with bridge lessons and other lessons available. The NCO wives will start game night at 7 p.m. next Thursday in the NCO Club and will continue a night each month.

### Scout Honor Court Scheduled Monday

Most members of the Reese Boy Scout troop will receive awards at a Court of Honor scheduled for 7:30 p.m. Monday in Academic Building 915. A representative of the Longhorn District, Boy Scouts of America, will participate and Col. James A. Gunn III, Reese Wing commander, is being invited. The public also is invited.

### Toastmistresses Use Stage Theme

"All the World's a Stage" was the theme of the meeting Monday night of the Reese Toastmistress Club. Individual theater programs, presenting the meeting in three acts, were used as decorations.

Act I was the business meeting, Mrs. Andre Deshaies presiding. Invocation was given by Mrs. Billy Rentz. Final plans were made for a Junior Toastmistress Club, with an organizational meeting at 10 a.m. next Monday in the Service Club Ballroom. All high school girls are invited to attend this meeting.

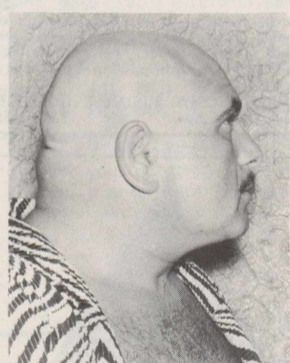

Act II, scene 1, featured Table Topics presented by 1st Lt. Minnie Stasuik. Scene 2 was handled by the Toastmistress of the Evening, Mrs. Daniel C. Shiderly, who introduced 2nd Lt. Ann Oney in a reading from Shakespeare's "Taming of the Shrew" and Mrs. Elmer Nutting, who won the Speaker of the Evening Award with her reading from George Waller's Book "Kidnapped". Mrs. James Gunn was introduced as an honored guest and said she was very impressed by the opportunities the club offers to Air Force wives.

### Chaplain Taylor On Meet Staff

Chaplain (Lt. Col.) James D. Taylor of Reese will be in charge of a group for Morning Watch and of a "buzz session" each morning at the USAF Spiritual Life Conference Aug. 30-Sept. 3 at Glorietta, N. Mex. Indications are that eight persons from the base will attend the conference.

The conference staff will include Dr. Addison H. Leitch of Missouri, the Rev. Richard L. Francis of New York, Dr. Sterling L. Price of Missouri and Chaplain (Brig. Gen.) Robert P. Taylor of Washington, D.C.

### Colonel Gets Kadena Duty

Colonel Harold T. Babb, deputy commander of Reese Air Force Base, is being reassigned to the 313th Air Division headquarters at Kadena Air Base, Okinawa, as division inspector. He will report to the port of debarkation on Nov. 5.

Colonel Babb came to Reese AFB in January, 1959, as commander of the Air Base Group, later moving to his present post. He came to Reese from Purdue University, where he was professor of air science.

The colonel has been in service 23 years and has served in Italy, Panama and Korea, as well as in various positions in the United States.

WHERE YOU GET THAT LOAN  
CAN MAKE A BIG DIFFERENCE!

Under the G.A.C. plan, everything is arranged on your terms. You're in command! You choose the loan plan—even the amount and dates of payment.

Besides, it's smart to establish your credit with an organization that has offices from coast to coast; and in addition, maintains a World-Wide Loan Service especially designed for U.S. military personnel stationed overseas. The moment a G.A.C. Credit Certification Card is issued to you, your credit goes wherever you go.
