PTG Changes Programmed

Board Approves Six Proposals By Reesites

Six suggestions by Reese personnel were approved at the Aug. 10 meeting of the Military-Civilian Incentive Awards Committee with Gilbert M. Turbeville presiding.

TSgt. Henry L. Pryjowski, headquarters section of Air Base Group, proposed using rib-tread tires instead of snow tires for flight line vehicles. Certain treads are necessary so gravel will not be tracked onto the line.

A letter of commendation was presented to the sergeant Tuesday by Maj. Harold G. Barber, commander of ABG headquarters section, for the proposal that will save Reese \$1,360.32 annually.

An improved method of testing aircraft radios, suggested by A2C James K. Manross, headquarters section M&S, also was approved. The suggestion will improve safety practice and save time in the radio maintenance shop.

A special adjustment tool for T-37 spoilers, a proposal by Charles W. Arthur of the field maintenance branch, was approved. The tool eliminates the need for many test flight that is equivalent to an annual saving of \$300 in time and fuel.

Treatment for the water used in cooling systems was suggested by Alfred T. Lynch, civil engineers. This will afford an annual base saving of \$541.58 in materials and man-hours.

Bess T. Robinson of airman personnel suggested a better method of filing records in that office. This new procedure will save Reese \$540 in man-hours annually.

Printing on the memo routing forms (DD Form 95) was suggested by Bertha B. Smith, airman personnel. This printing requires just check marks when that office requests information from squadrons. The overprinting will afford an annual saving equivalent to \$100 in man-hours.

Bids For Repairing Runway Asked Here

Bids for repairing the inside runway here have been requested by the procurement office.

Bids for strengthening any weak spots and sealing cracks will be opened at base procurement at 2:30 p.m. Tuesday, Aug. 22. That date has been set so the contractor will have the warm weather of the month of September to complete the revamping.

COMMENDED — TSgt. Henry L. Pryjowski, right, receives a letter of commendation from Maj. Harold G. Barber, commander, headquarters squadron section ABG. The sergeant has suggested use of rib-tread tires for flight-line vehicles, a proposal that will save Reese more than \$1,300 annually.

Command Change At Amarillo Highlights Top-Level Moves

Reassignment of Brig. Gen. Dwight O. Monteith from chief of staff of Air Training Command to commander of Amarillo AFB, Tex., underlines a wide range of top level moves within the command. The moves began in May and are scheduled to continue through November.

1,311 Spins May Mark AF Record

What may be a record in the Air Force was set during a 23-day period just ended at Reese when four members of the base Standardization Board completed 1,311 spins in T-37 aircraft in testing each of the instructor pilots qualified for T-37 training.

Capt. Richard Burpee and 1st Lts. Leonard Niski, Ernest Bedke and James McPherson served on the T-37 spin board appointed at direction of Air Training Command. They went aloft with each instructor in the aircraft to test spin knowledge and techniques.

The directive from ATC was to re-certify each IP after a test of his knowledge and techniques, with procedures outlined in a Spin Clinic at Webb AFB, attended by Capt. Burpee.

"Not only did we reach a possible record for quickly carrying out the ATC order, but we proved beyond doubt the reliability and spin characteristics of the T-37," the captain commented.

Autos, apparently in good shape, are involved in 94.8 per cent of fatal highway accidents.

Gen. Monteith replaces Maj. Gen. Charles H. Pottenger at Amarillo. Gen. Pottenger is scheduled to assume the post of vice-commander of the Air University at Maxwell AFB, Ala., in September.

Replacing Gen. Monteith at Headquarters ATC is Brig. Gen. John A. Hilger. Gen. Hilger was chief of staff at allied Air Forces Northern Europe (SHAPE) headquarters before moving to ATC.

Brig. Gen. Frank P. Corbin has moved to ATC as Staff Judge Advocate from Pacific Air Forces (PACAF) where he held a similar post. The general replaces retired Brig. Gen. Bertrand E. Johnson.

Brig. Gen. Thomas B. Whitehouse has replaced Brig. Gen. J. A. Rouse in the job of ATC Deputy Chief of Staff for Plans, Programs and Operations Services (DCS/PPOS).

Gen. Whitehouse came to ATC from USAF headquarters where he was executive officer to the Vice Chief of Staff. Gen. Rouse goes to PACAF where he will assume both wing and division commands.

Another ATC headquarters change is scheduled in the Inspector General's slot. This position, to be vacated by Col. D. Ross Ellis, former Reese commander, upon his scheduled November retirement, will be filled by Col. John K. Brown, Jr. Col. Brown presently is the deputy commander of ATC's Sheppard AFB, Tex. In addition to Amarillo, five

(See MOVES, Page 2)

Reese Aid Drive Concluded Today

The annual Air Force Aid Society campaign will come to a close today with key workers seeking an increase in the percentage of persons participating.

A goal of 100 per cent participation was sought. Maj. Joseph B. Burdick, project officer, said he was hopeful the goal would be reached by tonight.

Four units have reported 100 per cent participation. They are the Pilot Training Group, both Pilot Training Squadrons and the Mobile Training Detachment.

The Air Force Aid Society has the main objective of giving relief to all Air Force families in emergency.

Personnel, Section Shifts Are Effected By ATC Directive

Reorganization plans within the Pilot Training Group will bring shifts of some sections and personnel, it was announced this week. The changes will be effective at all undergraduate pilot training bases except Craig AFB.

The Air Training Command letter that announced the changes deletes the authorization for an executive officer in the PTG but authorizes a group operations staff officer in the grade of lieutenant colonel. It also authorizes a lieutenant colonel as commander of the Student Squadron.

Other changes include the and his staff and the academic transfer of the school secretary section to the Student Squadron; deletion of the wing instrument section and consolidation of its function with the standardization board of the group; addition of one F1115Q, assistant operations officer in the grade of captain to each Pilot Training Squadron; and addition of an officer in the Student Squadron as director of officer training.

Within each PTS authorization for three captains and two lieutenants as instructors is deleted, but each of the two squadrons is authorized a captain as chief of the check section and two captains and two lieutenants as check pilots.

The letter also directs reassignment of some airmen within the group.

The reorganization will enable the wing commander to cross-utilize their personnel and have better use of their resources, it was said.

Council Approves Base Hobby Shop

A multi-purpose hobby shop has been approved for Reese by the Air Training Command Welfare Fund Council, Col. L. C. Hess has been notified.

Activities presently housed in separate buildings will be consolidated in the structure, offering a wider range of activities. To be included in the recreation workshop are a ceramic workshop, photo hobby shop, darkroom, model craft shop, metal craft shop, and a leather craft shop.

The proposed design, expected to be constructed on Third Street between C and D Streets, is 40 feet by 100 feet and is a prefabricated steel Butler-type building. Final design instructions will be issued by the Deputy Chief of Staff/Civil Engineering.

The funds will be allocated after the design for the workshop is approved.

AF FILM WINS

(AFNS) — The U. S. Air Force has received the Award of Merit of the National Committee on Films for Safety for its 25-minute, 16 mm. color motion picture on water safety, "Be Water Wise — Boating."

CHAPLAIN TAYLOR

Chaplain Taylor Given Promotion; Lieutenant Colonel

Chaplain James D. Taylor of Reese, Tuesday wore the new insignia of a lieutenant colonel as his promotion from major became effective.

The chaplain, who became a major in 1951, has been in service 16 years and came to Reese from Philippine Island duty two years ago. He also has had two tours in Alaska.

Col. Taylor is a native of Tipton, Okla., and is a 1938 graduate of Oklahoma Baptist University. He has a master's degree in theology from Southwestern Baptist Theological Seminary in Fort Worth. He also is a graduate of the Chaplain's School of Harvard University.

Chaplain Taylor was named last spring for promotion to lieutenant colonel during the 1962 fiscal year. He was notified by Col. L. C. Hess, base commander, of the effective date in brief ceremonies in the commander's office late Monday.

ALARM STUDIED

(AFNS) — Installation of a home-type warning system, a device which to alert persons in their homes to a national emergency, is under study in Washington. The system will supplement the outdoor area siren warning system now in operation which, according to Defense Secretary Robert S. McNamara, has "serious drawbacks," one of them being that the outdoor systems are sometimes "inaudible indoors."

Officials Visit ROTC Unit Here

Officials and Air Force ROTC officers of four universities this weekend visited the AFROTC Summer Training Unit at Reese to get a first-hand look at training.

Arriving Wednesday for three days was Col. Lionel J. Cormier, assistant commandant of AFROTC at Air University, Maxwell AFB Ala.

Spending Thursday and Friday with the unit were Clark Davis, Dean of student affairs, and Col. George H. Blase, professor of air science at Southern Illinois University; Dr. A. G. Haussler, acting president, and Maj. Joseph W. Coyle, assistant PAS, Bradley University, Peoria, Ill.; the Rev. Victor J. Blum, dean of the Institute of Technology, Robert C. Phipps, Parks College instructor, and Maj. William G. Morley, assistant PAS, St. Louis University; and Prof. Gerard A. Rochlich and Lt. Col. Richard S. Hosman, assistant PAS, University of Wisconsin.

The visitors attended a survival lecture, altitude chamber indoctrination, navigational training period, and other activities of the cadets. They ate with the cadets of their schools, held informal conferences with the students, and witnessed drill competition.

ON THE RAMP — This B-52 Stratofortress is on 24-hour alert training operations at Travis AFB, Calif. The jet bomber has an operational speed of more than 650 mph at altitudes higher than 50,000 feet. The single fueling range is 6,000 miles, but with in-flight refueling, only the crew's physical endurance limits the bomber's reach.

From The COMMANDER'S DESK

By Col. L. C. Hess, Base Commander

The mechanization of personnel records is becoming more and more prevalent throughout the Air Force. On July 1st the recording of leave by machine became effective at Reese.

Although the machines can do a job in a matter of minutes that formerly took hours or days to do, the end result is no better than information that is fed into the machine.

Oversea and zone of interior assignment preferences, foreign service selection dates, special qualifications and education level are just a few of the many important items that should be periodically checked and verified for accuracy.

It behooves each individual to carefully screen his personnel records periodically and insure that all entries are accurate.

Take Nothing On Trust

It is a sad commentary on American life, but the time is at hand, particularly on military bases, for everyone to give attention to partially forgetting a common virtue—trusting our fellowman.

We who have lived under a democracy have a natural tendency to trust others as we like to be trusted; we also like to be frank, open and helpful to others. It is hard for us to adjust to the fact that hostile activities sometimes may take advantage of these virtues.

Yet, this is a means by which our security could be endangered and our defense jeopardized. At this very moment, such attempts probably are being made, in the hope that someone having information of security or propaganda value will courteously answer an inquiry, admit an unauthorized visitor, and become careless with classified information or equipment.

The American defense against such probings must be tightened. Our chief weapons, good reasoning and security consciousness, must always be foremost in the mind of each Air Force member, especially those entrusted with knowledge or handling of special or classified information, materiel and weapon systems.

A guard must be thrown up against the novel or unexpected approach; taking no stranger, however plausible, on trust; making no assumptions that anything is routine or everything is "all right."

Certain things cannot be discussed over the phone; visitors must be watched; replies to inquiries must be carefully considered.

The nation faces a serious situation. Guards must be up.

Success Rules Listed

A job is a job whether it's in the Air Force or in the United States Steel Company. If it's well done, it is a source of satisfaction. If we blow it, we mostly have ourselves to blame. An industrialist named Charles M. Schwab wrote an often-quoted "10 Commandments for Success" for people working in industry. With a few slight changes we can adapt his decalogue to our Air Force life. Here goes:

- I. **Work Hard.** Hard work is the best investment a man can make.
- II. **Study Hard.** Knowledge enables a man to work more intelligently and effectively.
- III. **Have Initiative.** Ruts often deepen into graves.
- IV. **Love Your Work.** Then you will find pleasure in mastering it.
- V. **Be Exact.** Slipshod methods bring slipshod results.
- VI. **Have a Spirit of Conquest.** Thus you can successfully battle and overcome difficulties.
- VII. **Cultivate Personality.** Personality is to a man what performance is to an airplane.
- VIII. **Help and Share with Others.** The real test of greatness lies in giving opportunity to others.
- IX. **Be Democratic.** Unless you feel right towards your fellowmen you can never be a successful leader.
- X. **In All Things Do Your Best.** The man who has done his best has done everything. The man who has done less than his best has done nothing.

Last year, with some 43 per cent of the military budget, the Air Force provided approximately 91 per cent of the Department of Defense effort in space systems; 73 per cent of the U. S. continental aerospace defense effort and approximately 90 per cent of the general war striking power of the Free World. It also provided the nation's strategic airlift forces, MATS; our primary limited war air superiority forces; and an overall global communication capability more extensive than that of any other single operating agency in the world.—Senator Barry Goldwater.

In the Air Force view, counterforce is a military concept for the design and employment of military forces to destroy, neutralize, or render impotent the military capabilities of an enemy force, under any of the circumstances by which hostilities may be initiated. It is not a "strike first" concept—it is a concept for the development of a capability to prevail under any conditions of attack. This concept has, as its central theme, the application of superior offensive and defensive military force against enemy strengths that directly threaten the continued freedom and security of the United States and her allies.

Prayer Action Of Intelligent, Religious Men

By Chaplain Leo E. Pesek

Prayer is an act of religion by which intelligent creatures recognize the sovereignty of God and ask of Him the things necessary or useful to their welfare.

It is to be noted that only intelligent creatures pray. Mere animals do not. Prayer is the privilege and duty of rational beings.

And it is unintelligent not to pray. The man who does not pray reduces himself to the level of brute creation.

For the intelligent man realizes his dependence on God and God's supreme dominion over all things.

His own needs, also, move him to pray. Knowing that he is not his own maker, and that he is subject to many limitations, his intelligence bids him appeal to the One who did make him to supply for that in which he is wanting.

Moves . . .

(Continued from Page One)

other ATC bases have, or will have, new commanders by November.

The changes began May 19 when Col. Clifford J. Heflin succeeded retiring Col. H. F. Muenster as Randolph AFB commander. Col. Heflin commanded the Strategic Air Command's 4397th Air Refueling Wing at Randolph before assuming command of the base.

New commanders are scheduled to take over at Greenville AFB, Miss., Webb AFB, Tex., and Moody AFB, Ga., in August. The fifth base, Mather AFB, Calif., is scheduled to have a change in commanders in November.

Greenville's executive officer, Lt. Col. Harry Jones, succeeds Col. Loren S. Nickels who moves to Moody AFB, Ga., in July as commander of the flying training group.

Col. William H. Banks moves to Webb as commander from a tour at Williams AFB, Ariz., as deputy commander. He replaces Col. Donald W. Eisenhart who assumes duties as deputy commander of the Lackland AFB, Tex., Military Training Center in August.

Moving to the Air Force Recruiting Service as deputy commander in July is Col. Louis W. Proper, former Lackland Military Training Center deputy commander.

Col. Vincent M. Miles, after a tour at U. S. European Command headquarters near Paris, will take command of Moody AFB, Ga., in August.

Mather AFB is scheduled to receive its new commander, Brig. Gen. Neil D. Van Sickle in November. Gen. Van Sickle, who succeeds retiring Brig. Gen. Norman L. Callish, comes from PACAF headquarters where he was deputy chief of staff for plans and operations.

Airlines Might Cut Fares For Youths

New "youth fares" to aid servicemen going on leave and students traveling to and from college will be effective by Sept. 1, if the request of airlines serving Lubbock is approved by the Civil Aeronautics Board.

Continental, American, Braniff, TWA, United and Western have asked CAB to approve half fare for passengers from 12 to 21 years of age on all flights.

Reservations for the lowered fare would be accepted not more than three hours ahead of departure in order that full-fare passengers would have precedence.

Rebels Win Base Title

Reese's PTW Rebels are the 1961 base softball champions as a result of their triumph over the 3501st Student Squadron, 12-7, in one of the wildest games of the year, before a near capacity crowd, Tuesday evening.

In the first inning, the Students started the slugfest by scoring the first two runs, putting them out in front. The score remained unchanged until the top of the third, when the Rebs scored one to cut the Students' lead to a single run.

The tide changed against the Students in the top of a big fifth inning when the Rebels exploded for six runs. The score then stood at 7-2 in favor of the Rebs.

The top of the fifth also saw the Students put in three pitchers, a record this year for any one inning of play. First Lt. Doug Bell came in to relieve TSgt. John West, then SSGt. Glenn Whitsett went in to relieve Lt. Bell. The pitching changeover was complete when Sgt. West shifted back from third base to relieve Sgt. Whitsett. The Rebels' big hit of the inning was made by pitcher A2C Timoteo Castro, who hit a bases-loaded double to centerfield which scored three runs.

The Students came back in their half of the fifth, and scored one run making it 7-3, only to have the Rebels score two runs in the sixth inning when A2C David Hauger walloped a two-run homerun. In their half of the sixth, the Students scored another run, changing the score to 9-4. The Students had only one more time at bat to even things up.

Going into the seventh inning, the Rebs wouldn't call it quits and scored three more runs, two from a double by Hauger off the fence in right field. The score hit 12-4. The Students started a rally in their half of the seventh, which was climaxed by a two-out three-run homer by 2nd Lt. Gerald Meyers, which gave the students their last run. First Lt. James Holmes of the Rebs caught a long fly ball to center field for the last out and the base championship for the Rebels. The winning pitcher was Castro, while the loss was chalked to West.

The entire season has been touch and go for these two teams, with the Students dominating first place in league standings for a major part of the play and the Rebels holding on to the second spot during most of the competition. It wasn't until the last few games that the Rebels tied the Students for first place in league standings. The Students, however, took a playoff from the Rebels to pick the Reese entrant in ATC competition at Perrin. The Students placed third in that tourney.

The Rebels went undefeated in this double elimination tournament, previously shutting out Hospital, 3-0, and beating the Students, 4-1, with Tuesday's contest as the finale, 12-7.

Summer Physical Education To End

Summer physical education for military dependent girls between the ages of 6 and 16 will end here Tuesday.

The course, part of the base youth activities program, has been running each Tuesday since June 6. Sandra Wheeler, a physical education major at Texas Tech, has been the girl's physical education instructor.

Held in conjunction with the National Youth Fitness Movement encouraged by President Kennedy, the exercises have tested coordination, flexibility, strength and balance.

About 80 girls, daughters of Reese military personnel, have participated in the program. To those who meet specific standards, "good" or "excellent" ribbons are awarded. So far, 12 of each type have been presented.

Golf Notes

The annual 72-hole base golf tourney is now in progress and will continue through Sunday, in efforts to pick a base entrant in ATC competition Sept. 6-10 at Sheppard AFB.

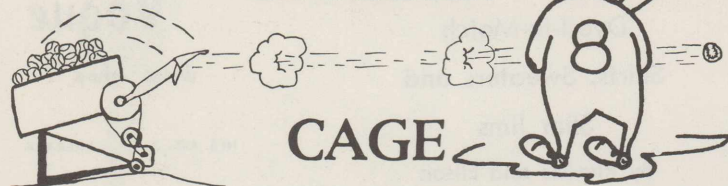

Besides a six-man team, a three-man senior team (45 years or older) will be selected.

A 36-hole tournament is scheduled for the coming Labor Day weekend, with a nine-hole tournament for all women on Labor Day afternoon. The entry fee for these two events is \$2, which includes a barbecue at the end of the day.

Registration will be taken at the golf pro shop or phone ext. 412. It is planned for the women to tee off at 2 p.m.

Bowling Results

High game for the past week in the summer intramural bowling league was rolled by A1C Fred Mattice, Hospital, with a 209. He also took the high series, racking up 550.

The Misfits are still in first place, showing a 15-5 record. The Hospital is trailing by two games with a 137 win-loss record. Tied for third place are PTU, the Dispensary and the Commissary, all having 11-9 records.

The first year of the jet air age, 1959, created about 10,000 new jobs in the aircraft industry.

Lt. Col. Elizabeth Ray will become Director of the Women of the Air Force on Sept. 1. Colonel Ray, chief of the promotion and records branch of Strategic Air Command Headquarters, Offutt AFB, Neb., will succeed Col. Emma J. Riley, who is being reassigned to the USAF Directorate of Personnel.

Secretary, Chief Slated By AFA

(AFNS) — Air Force Secretary Eugene M. Zuckert and Chief of Staff Gen. Curtis E. LeMay will be two of the featured speakers during the annual Air Force Association convention at Philadelphia, Sept. 20 to 24.

A program, which will include a seminar on the reserve forces, is expected to attract considerable interest from members who will gather from all parts of the world.

Also featured among many other things will be the Ricks Trophy Flight, an aerospace education council meeting, and the awards to the outstanding airmen of the year.

McGuire AFB, N. J., will be the air transport headquarters for personnel attending the sessions in Philadelphia.

Say you saw it in The Roundup.

Woman's Chatter

By MRS. RONALD K. DUTTON

Wives of Wing Personnel have planned a pizza party for Aug. 25, instead of their regular monthly coffee. Senior hostess will be Mrs. James Coleman and junior hostesses will be Mmes. David Stiles, Jerry Rice and John Sirmans for the party beginning at 8 p.m. on the Club patio.

Houseguest in the home of Lt. Col. and Mrs. Delmar Atchison the past month has been Miss Sylvia Farrar, daughter of Maj. and Mrs. O. A. Farrar of Fort Collins, Colo.

Prior to leaving for Dallas, Capt. and Mrs. Williams Little were honored at dinners given by Lt. Col. and Mrs. Robert Bowman, Capt. and Mrs. Richard Peebles and 1st Lt. and Mrs. Richard Kinion.

Visitors in the home of Capt. and Mrs. James R. Coleman are her parents, Mr. and Mrs. K. O. Hipp of Sarasota, Fla.

Mrs. Douglas Bell was hostess to a coffee for Class 62-G on Aug. 17, at the Officers Club.

Recent houseguest in the home of 1st Lt. and Mrs. Richard Kinion was Mrs. Alma Nygren of Seattle, Wash., mother of the lieutenant.

Do You Know?

By ANN CORSI

The NCO Wives Club welcomes Mrs. Louise Hall, who became a new member at Tuesday night's meeting. Mrs. Evelyn DiAgostino and Mrs. Betty Watson were presented with going-away presents at the meeting. They are going overseas with their husbands.

Mrs. Virginia Koone was honored at a farewell coffee given by Mrs. Dolores Wallace and Mrs. Donna Price. TSgt. and Mrs. Koone are leaving for Alaska.

TSgt. and Mrs. Dan Quinney give a birthday dinner last week for Mrs. Quinney's mother, Mrs. Mattie Day.

SSgt. and Mrs. Dino Corsi and family are spending a leave in New Mexico and Colorado.

TSgt. and Mrs. Roy Van Wart are entertaining the sergeant's father, Charles H. Van Wart of Winthrop, Mass.

Mrs. Betty Watson was honored at a farewell party Tuesday night given by Mrs. Ann Teague in her home.

A1C Alton O. Quinn, enroute to Okinawa, was houseguest of SSgt. and Mrs. Raymond Tucker last week.
