## Five Events On Reese Gymkhana

**ALMOST PERFECT** — SSgt. Oat Altice, Jr., set an almost perfect record on maintenance of the T-33 used by Col. L. C. Hess, base commander, and others in flying. He received one write-up, or listing of a minor discrepancy, during the 100 hours between periodic maintenance. Here he checks the plenum chamber of the aircraft. He's assigned to the 3502nd Flight Line Maintenance Squadron. (Photo by Perez)

### Entries Seen From Several Texas Cities

Five events will be held in the first regional sports car gymkhana Sunday on the Reese flight line.

Staged by the West Texas Region of the Sports Car Club of America and sponsored by the South Plains Sports Car Club of Lubbock in conjunction with the Federal Services Joint Crusade, events are expected to draw entries from several Texas cities.

Practice sessions for drivers are scheduled to begin at 12:30 p.m., with competition starting at 2 p.m., Maj. Roland E. Lane, co-chairman, said.

The five events will test skill and precision of drivers. They include a course similar to a ski slalom, a petite race, figure eights, barrel run, and a "mystery" event.

In the slalom, posts will start at 100 feet and will be successively narrowed by 10-foot intervals until only 10 feet remain between the last two. Drivers will navigate the course in minimum time limits without crossing foul lines or touching posts.

The figure eight comprises figures on both ends of the 300-foot straight course. Drivers will start straight and make the figures at each end for a total of three trips. Acceleration and braking is emphasized, with some larger cars expected to reach 60 mph on the straightaway.

The barrel run is similar to the quarterhorse barrel runs of rodeos. The Reese course will have four barrels placed in the center, with four more set at the points of a compass on a perimeter. Drivers will perform clover leafs among the eight markers.

The mystery run will be so precise that wheels of cars will be only 1 1/4 inches from the markers.

Trophies will be awarded winners of three places in each event. The top woman driver also will receive a trophy. The Lister-Corvette and Oscar racing cars will be demonstrated.

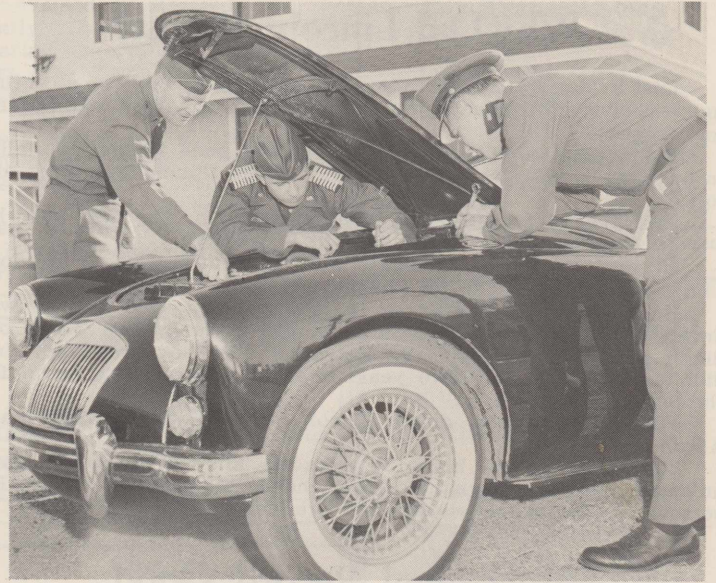

Admission to the gymkhana is free.

### Additional Articles On Thrift Shop List

Articles on sale at the Reese Thrift Shop increased this week and base people were urged to make purchases.

Special items listed included a set of encyclopedias, ironer, baby cribs, high chairs, play pens, feeding tables, baby walker, lamps, electrical appliances, table cloths, uniforms, and men's, women's, and children's clothing.

The Thrift Shop is open from 9 a.m. until 1 p.m. each Monday and Friday.

**TUNE-UP** — Aviation Cadet Roger R. Stevens, right, gives his MG a check in preparation for the sports car gymkhana set for Feb. 21 on the base flight line. Assisting with the check are 1st Lt. William Dean, Jr., left, and Cadet John J. Pierce. Base personnel entering their cars in the gymkhana may register and pay fees at the gymkhana site between noon and 2 p.m. on Feb. 21.

★ ★ ★ ★ ★

### Instructor With Flame-out Makes Safe T-33 Landing

Captain Marvin G. Ouren, Jr., Reese assistant flight commander, this week continued to receive praise for his Friday afternoon "save" of a T-33 aircraft which flame-out.

The captain, proceeding at 22,000 feet with his student, A/C Kenneth Funk of Class 60-F, was entering the Lubbock VOR penetration when he noticed heavy engine vibration and oil pressure fluctuation.

He turned back to Reese and secured emergency landing clearance. At 15,000 feet he had a

flame-out and shut down his engine. He dropped his tip tanks on the western end of the field and came in for a safe deadstick landing near the mobile control unit.

The captain has been instructing students here since April, 1958. The Friday save was the second recent one for him. Just before Christmas he was caught in a storm in the Colorado mountains, landed on a short private runway, and was stranded several days before he could get out of the snow. Cadet Funk was with him on that trip also.

Captain Ouren has eight years of service and flew in the Korean conflict.

### Airman Wins Card For Highest Score

A/IC Charles E. Rogers of Detachment 17, 8th Weather Group at Reese, this week received an AFSC championship card for scoring highest in the Air Force in the weather observer field.

The card came from the AIR FORCE TIMES Stake Your Claim section, which stated that the score of 240 had stood unchallenged for a year in the 25231 career field level. The card goes to airmen who hold high scores for a year.

Airman Rogers has been at Reese since May, 1958, and has the duty here of chief clerk of the detachment.

### Sergeant Re-Ups Sixth Time; Plans 30-Year Service

SMSGt. Christopher L. Sturrock Wednesday returned to the re-enlistment office where he formerly was counselor, this time to re-enlist for his sixth time.

The sergeant had been on active duty 26 years, 11 months, 22 days, when he took his oath for another four years of service. He plans to retire when he reaches his 30-year active service date. From February until December, 1958, he was reenlistment counselor. He then became sergeant major of the personnel section.

Also re-upping for four years was SSgt. Elmer G. Osborne, statistical specialist in the M&S Group. He has served 12 years and made his third reenlistment.

Sergeant Sturrock, native of Colmesneil, Tex., has served on Guam, as well as in the United States. Most of his service has been in personnel and administration. He was an administrative inspector at Randolph AFB prior to coming to Reese in Feb., 1958.

Sergeant Osborne, father of five small children, is a native of Plumtree, N. C., and has served two tours in Germany and one in Japan. He participated in the Berlin Airlift and holds the Medal for Humane Action.

### Many Vacancies Exist In 1961 AFIT Program

Many vacancies exist in Air Force Institute of Technology courses for next fiscal year in classes starting this fall and in February and June of 1961. Officers interested have been urged to seek evaluation of college work from AFIT through the base education office.

Vacancies exist at the bachelor, master, and doctor levels. Applications will be processed without delay by USAF headquarters.

Engineering vacancies include aeronautical, architectural, chemical, civil, electrical, industrial, mechanical, nuclear, petroleum, and safety.

Also open are aerial photography, bio-chemistry, bio-physics, chemistry, clothing technology, electronic data processing, geodetic sciences, mathematics, metallurgy, motion picture science, bio-radiology, operation research, physics, human factors, psychol-

ogy, advanced logistics, correctional administration, engineering management, engineering management, police administration, transportation management, and academy instructors.

Training-with-industry is available in operational space vehicles, guided missiles, instrumentation-guidance, nuclear reactor technology, nuclear shielding technology, and piloted aircraft weapons systems.

### Volleyball Tourney District Plans Being Completed Here

Final details of the Northern District ATC volleyball tournament here next weekend were being worked out today, with indications five teams will participate.

Registered were teams from defending champion Lowry, 1959 runner-up Reese, Perrin, Mather, and Sheppard AFBs. Vance, Stead, and Amarillo will not send teams.

Reese is hosting the first ATC district tourney in which a squadron team will represent each base. About 70 men are expected to take part.

The schedule will be worked out at the opening banquet in

### Retirement Rules Changed By Order

Reese airmen eligible for voluntary retirement must submit applications earlier, under a new directive.

Applicants must go through channels, instead of directly to USAF headquarters, and Reese personnel officials must have the applications not more than 180 or less than 135 days in advance of the desired date of retirement. Separation will be on the last day of the month in which the applicant completes the minimum active service required.

Previously, retirement applications could be submitted 90 days before the date of separation and physicals were taken not more than 90 days prior to the retirement date. Physicals are now valid for 180 days.

the NCO Tuesday night and play will start the following night. Rules of the U. S. Volleyball Association will be followed. Trophies for teams and individuals are being provided by ATC for the Feb. 24-28 competition.

Last year Lowry edged Reese for the district title in close games. Lowry then went on to win the ATC crown, with Reese finishing third. Teams in 1959 were selected from top players on the base, but this year the top squadron team of each base will compete.

Four teams here are competing in a tournament started last night. Installations was leader in league play and is meeting the 3501st PTS, Hospital, and Air Base Group or Pilot Training Wing in the play-offs.

### District Talent Contest Set Here

Reese has been selected to host the Northern District Talent Contest in Air Training Command April 25-28, with entries expected from all eight eligible bases.

Competition, as in previous years, will have several categories, including vocal soloists, vocal groups of four or less persons, instrumental soloists, instrumental groups of six or less, solo dancers, masters of ceremonies, western or country soloists, western or country groups, and novelty or specialty acts.

Entries from Amarillo, Vance, Mather, Sheppard, Stead, Lowry, Perrin, and Reese AFBs are expected.

Winners in 1959 included "The Silvertones" of Reese in the instrumental group and "The Jesters" of Reese in the novelty act. Making up "The Silvertones" were A/1C John Smith, A/2C Kenneth Cole, and A/2C Ramon Villafranca. "The Jesters" were A/2C Walter Jackson and A/3C Kenneth Chance.

Base people desiring to enter the April contests are invited to register and rehearse at the Service Club.

From the

COMMANDER'S DESK

By Col. L. C. Hess, Base Commander

One of the most important attributes of a good supervisor or leader is to know his men. The success of a supervisor is not measured by how much work he does himself, but the way he gets things done through the efforts of others.

To know your men and see them as individuals cannot be done by remote control. It should therefore behoove each supervisor to take positive and recurring action to get acquainted with his men and deal with them as individuals, know their capabilities, their thoughts, and problems.

The attitude and moral of an organization is established by the supervisor or leader. This vital responsibility of leadership cannot be taken lightly. I enjoin each supervisor to give continued attention to this important matter.

Why Did Lincoln Persist?

Last Friday was the birthday of a great American, who a century ago was elected president, although his career was filled with failures and tragedy.

Everything in his life seemed to have gone wrong. He failed in business in 1831. That year he ran for the Illinois legislature and lost.

Two years later he failed in business again. The next year his sweetheart died and he had a nervous breakdown.

In 1840 he was a candidate for presidential elector. He lost. Three years later he ran for Congress. He lost.

He finally was elected to the Congress in 1846 but he was defeated for reelection. In 1855 he sought a seat in the Senate but didn't get it. A year later he aimed for the Vice Presidency, but didn't get that, either. Two years later he was defeated again for the Senate.

Why in the world didn't Lincoln stop running? What made Abraham keep trying?

The man who was born 151 years ago knew men. Politics gave meaning and purpose to his life, a chance to help his fellows. He persevered. The people elected him President. The rest is history.

Educational Record Good

The record of Reese AFB in educational areas has been one of the best in Air Training Command, and in the Air Force. Enrollment in extension courses has been heavy. Each semester numerous men at the base have completed night courses at Texas Tech.

Thus, Reese has contributed its part in an Air Force aim—to prepare better airman and better citizens.

"Historically, armies have always represented a non-productive expense, and, all too often, a threat to civil liberty," Lt. Col. Carl Arnold, chief of personnel of the 8th Air Force, said not long ago.

"This country, almost alone among the great powers, is endeavoring to convert what has been a liability into an asset by making its military might primarily into guarantees of its physical safety, but secondarily into guarantees of its moral and spiritual safety by turning out men who are better trained in the uses of liberty. The money spent for national defense actually is an investment which in years to come will yield handsome returns in better citizenship."

Reese people enrolled in night on-base classes, in extension courses, and at Texas Tech are gaining many benefits. They are bettering themselves and aiding the Air Force.

The Roundup

A SAVINGS of almost one-third usual construction cost has been realized by the Air Force in an experimental 200-man BOQ at Mather AFB. Instead of the barracks type building, 67 ranch-style buildings have gone up for BOQs at Mather. A savings of \$500,000 was estimated. Each building has three bedrooms and two baths. No information is available on whether other bases will get such structures.

TWO ATC GENERALS and one colonel have been nominated for promotion. Brigadier Gen. Charles H. Pottenger, Amarillo commander, and Brig. Gen. M. S. White, ATC surgeon general, were named for major general. Colonel Leo F. Dusard, Jr., Craig commander, was nominated for his first star.

DATE FOR THE SPIRITUAL Life Conference to be attended by Reese people has been set for July 24-28 at Estes Park, Colo.

ATC GROUND SAFETY Program set a new accident prevention record in 1959. The cost was \$509,305 less than in 1958. Fatalities were reduced 10 per cent, man-days lost were 30 per cent less.

THE OHIO STATE University Press will award \$2,500 for the best book-length manuscript on national security. Manuscripts should go to the press at Columbus 10, Ohio.

C. R. SMITH, president of American Airlines, Inc., has accepted appointment as chairman of the national campaign to raise \$3.5 million for a 40-000-seat stadium at the Air Force Academy.

THE AIR FORCE X-18, a "dumbo" looking airplane with two turboprop engines swinging three-blade, counter-rotating propellers, made its fifth and sixth successful flights in late January.

New Steps Taken In Orientation

The orientation and visitation programs at Reese took another step forward this week as the M&S Group hosted 30 officers from other units and plans were announced for an officers' wives orientation.

Officers of other units visited various areas of the M&S Group Wednesday and Thursday to learn of work and problems. Next week the Air Base Group will host visiting officers to explain its mission and activities.

The wives orientation program is planned for the near future. The schedule will begin with a general welcome and explanation of the Reese mission. Later meetings will bring explanation of wing staff, group commander, and tenant organization activities.

Orientation visits will be made to various areas of interest. The wing operations staff is sponsoring the programs.

Club Open House Hailed Successful

Reese Aero Club members this week marked as "highly successful" the open house held last Saturday.

Two hundred people were taken for free rides in the Cessna and Tri-Pacers and club membership grew about 30 per cent. No incidents marred the day.

Officers urged all interested individuals to talk with the club manager at Extension 709.

Prayer Expresses

Faith In Father

By Chaplain Henry C. Bielski

Among all the words that express the communion of mortal beings with their God, there is none that is so expressive as prayer. The term is sometimes limited to express that impulse of the rational being which leads him to ask and supplicate Divine favor and protection. Ask we must and supplicate we must. But the play of the human faculty in the direction of God is more than mere asking. Prayer covers adoration, love, praise, thanksgiving, and sorrow for sin. In all these ways, man's heart lifts itself to the skies.

Weak, helpless, short-lived men turn, not merely casually but strongly and constantly, to the being whom they recognize as their Father and friend.

If there is any stability in this quickly-changing world, it must be in Him. If there is any security against the terrible results of elemental strife and brutal violence, it must come from Him. If there is any light in the heart to illuminate matter and its blind laws with the rays of truth, justice and goodness, that light must come direct from Him.

Prayer is the expression of faith in God's providence, and every Christian believer who repeats the Lord's Prayer utters words given him by Christ Himself.

During His ministry on earth, Jesus often withdrew to a place of seclusion to offer up prayer to His Father. To pray together, in whatever tongue or ritual, is the most tender brotherhood of hope and sympathy that man can contact in this life.

Shall we not mobilize our spiritual resources and join our hearts in one supreme interest? With this we can be sure that the tide of any conflict will turn when we turn to the real source of our power.

Somebody Goofed

The "Roundup" unintentionally gave the chaplain a new subject for his sermon last Sunday. Chaplain James Taylor had intended to discuss "The 10 Commandments of Happy Married Life." The newspaper changed "Married" to "Harried," through proof error. The "Roundup" staff is sorry it goofed.

MIXTURE PROGRAMMED

"A true aerospace force will be composed of a mixture of manned and unmanned systems, and such systems will be employed within the atmosphere and outside the atmosphere, forming true aerospace power for peace," said Lt. Gen. Roscoe C. Wilson, Deputy Chief of Staff for Development in USAF.

Base People Urged To Cast Ballots

(This is the first of three articles on the Absentee Voting Program for Reese people and their dependents.)

Air Forces personnel and their dependents absent from their voting residences are being encouraged to vote by absentee ballot. Voting is a privilege and obligation of U. S. citizenship.

The machinery provided for absentee balloting gives most service people and their dependents a means of voting, no matter where stationed.

Most states permit registration by absentee process and some will register qualified voters at the time of accepting the absentee ballot. In other states the voter must register before applying for a ballot. Procedures vary from state to state.

Application for registration should be made as early as the

state permits, especially in cases where registration must be completed before an absentee ballot may be applied for.

In many places registration is permanent and a person is not required to re-register for each election if he meets requirements. In general the requirements are that the applicant vote regularly, not move, and not change his or her name.

Most states permit minors to apply for registration if they will be of legal voting age on election day.

A voting officer has been named at Reese for each unit and is available for advice and counseling on absentee voting. Each voting officer has complete information on requirements, eligibility, dates of primaries and general elections in each state, and other data.

Officer Gets Degree After 20 Years

After 20 years working toward a college degree, Capt. Harry E. McDermid, Reese flight commander, has returned from Syracuse University with a bachelor of arts degree obtained through "Operation Bootstrap."

The captain, in service 16 years, is a 1938 graduate of Harrisonville High School in Michigan. He attended Oisco County Normal in Michigan in 1939 and taught school with a limited certificate two years. Then he entered service and served in Europe.

Later assigned to Japan, he at-

tended Sophia University in Tokyo. After a tour in the United States, he returned to Japan and while there attended extension courses of the University of California and University of Maryland.

He came to Reese in the fall of 1957 and left seven months ago to attend the University of Syracuse. His academic degree is being utilized by the Air Force in reassigning him to Randolph AFB for duty in the Control Instructor School immediately.

 as new members of the NCO Wives Club Tuesday night at the business meeting in the NCO Club.  
 The NCO Wives Club will have its monthly social at 7:30 p.m. next Tuesday in the NCO Club private dining room. Hostesses will be Mrs. Kay Whitney and Mrs. Ave McCain.  
 First Lt. C. M. Lannon of Installations is being reassigned to the security service in Turkey, reporting in April.

# Party Line

By Mrs. Glenn C. Rosenquist

Chicken caciatore will be featured on the menu tomorrow evening at the Officers' Club. Wives attending the dinner are bringing casseroles, relish trays, salads, cakes and pies. All military nurses and bachelors are invited to attend. Mrs. Thomas Tolliver heads the reservation committee. She is assisted by Mmes. William McAllister, Roger Shaw, Marvin Ouren, Carlyle Wheeler, and John Johnson.

Flight 6 members and their wives will be treated to dinner at the home of Captain and Mrs. Ouren Sunday evening. The group also gathered for a pre-Valentine event dinner party last Saturday evening at the Officers' Club.

Mrs. Donald Patch was a surprise honoree Tuesday evening at a baby shower given by Flight 7 wives. The newest member of the Patch family, Steven Charles, was born January 31.

First Lt. and Mrs. Thomas Wizeck last Saturday evening entertained 17 guests at a spaghetti dinner in honor of Capt. and Mrs. William Eagle.

Flight 8 wives were entertained at a coffee at the Lubbock home of Mrs. Clarence Beaudoin Thursday.

Captain and Mrs. George Voikos are scheduled to return this weekend from two week's leave in Aspen, Colorado.

Many houseguests have been entertained in Reese homes recently. Captain and Mrs. Bill Waring entertained 1st Lt. and Mrs. Abe Tamaka, who are enroute from Japan to Shaw AFB. . . . First Lt. and Mrs. William Black hosted Mr. and Mrs. Howard Pool, Madison, Wis., this past weekend. . . . Mr. and Mrs. E. L. Pruitt, Jacksboro, Tex., spent a week visiting their son-in-law and daughter, Capt. and Mrs. James Singleton.

### Tenants Win Praise For Safety Records

Letters of appreciation for 1959 safety accomplishments have been sent to three tenant units by Col. L. C. Hess, base commander.  
 Letters went to the T-33-4 Mobile Training Detachment, Detachment 17 of the 8th Weather Group, and AACs Detachment 2010-2, each of which had no disabling accidents during the year.  
 Colonel Hess expressed appreciation to all unit members for their aid in assisting Reese with its ground safety program.

### Bowling Results

#### Officers League

Captain William Reece rolled a 605 series and 1st Lt. Larry Vranich marked up a 243 high game to highlight this week's Bowling League activities. The Dust-Devils toppled pins for a 946 high game and 2,553 series.

The Wing Wizards maintained first place on a 21½-6½ record by a 4-0 victory over the Snoopers. The M&S Controllers held second, 19-9, by a 3-1 win over the Flight 3 Comanches. Tied for third were the Pinbusters and Flight 9 Hustlers, both with 18-10 records. The 'Busters scored a 3-1 win over the Lucky Strikers and the Hustlers upset the Servants, 4-0.

#### Officers Wives League

The Officers Wives Bowling leagues this week saw high individual game and series go to Mrs. Marty Freeman with 177-461.

High team game was touched off by the Spares with its 592 and high team series went to the Alley Cats, first in the standings, with 1622.

High teams are:

Team	W	L
Alley Cats	21	3
Spares	14	10
Stumblers	13	11
Pin Splitters	12	12

#### Intramural League

The base Intramural Bowling league saw A/1C Curtis Blue, ABG, top 216 for high individual game last week.

Major Lewis J. Britain, M&S, pinned high series with a 552.

High team game and series went to M&S with 893-2474.

The three top teams in the second half of the winter league are:

Team	W	L
Hospital	15	5
Commissary	13½	6½
ABG	13½	6½

#### FOUR ZONES SET

In aerospace terms, the atmosphere is divided into four areas: the physiological zone from sea level to 10,000 feet; the physiological deficient zone from 10,000 to 50,000 feet; the partially space-equivalent zone from 50,000 feet to 120 miles; and the totally space equivalent zone from 120 to 600 miles.

### Sports Report

By A/3C Roger J. Gillard

Plenty of exciting and interesting things happen in Intramural Sports at Reese. These activities are right at your fingertips.

Remember the first Intramural Swimming meet last season? It drew 200 spectators at the Airmen's Pool to see the 3501st PTS take the crown. This year even more participants are expected to complete in the water meet.

In August the Air Policemen copped the Reese Intramural Softball championship racking up four runs in the eighth inning of the final game to break a deadlocked 6-6 game with PTG.

In addition to these activities, there are touch football, golf, bowling and minor sports.

But sports need spectators. Large crowds tend to build participant morale and to sharpen competition. And, the Reese Intramural Sports program could use more of these vital ingredients.

### Golf Notes

By Ken Shields

The Pro-Less-Am tourney has already drawn a good number of entries and we're looking forward to a big turnout next Monday.

Merchandise prizes will go to the three low teams and three low individuals. Play will begin at 9 a.m. Monday with entry fees of \$1.

The 3505th trails '01st by 3 points with two matches to play in the squadron winter league.

Last week's results: Instal, 4½, PTW 1½, ABG 3, '01st 3, '05th 3, M&S 3, APs 6, and Hospital 0.

#### DEVELOPS SKILLS

One of the largest of major air commands, Air Training Command is responsible for the procurement of Air Force personnel, and their training in skills necessary to man the nation's Aerospace force.

An ECI diploma in a personnel file shows initiative. The base Education Services Office in T-421 can explain opportunities. The phone is 437.

### Rod And Gun Club Schedules Election

New officers will be elected by the Reese Rod and Gun Club at its next meeting at 8 p.m. Thursday in Building T-255. Plans also will be laid for future activities and for a school to train instructors of young sportsmen in hunting safety.

The club has programmed teaching of shooting exercises, including trap, skeet, rifle, and pistol. Organized rabbit, quail, dove, deer, and javeline hunts also are planned.

Club membership is open to all military and civilian personnel of the base, including dependents 16 years of age and older.

### Trophy Standings Are Announced

At the end of Touch Football season this year, 1 of 12 squadron teams will be awarded the Commander's Trophy for highest standings.

Last year, the 3501st PTS received the trophy. As of now, ABG tops the list. Below are the present standings:

Team	Points
ABG	380
Installations	227½
'02nd Maintenance	185
M&S	152½
'01st PTS	137½
Hospital	135
PTW	120
PTG	62½
AACS	60
APs	54
'00th PTS	50
Transportation	0

#### ATC TRAINS

As far as can be visualized, Air Force weapon systems of the future will include missiles, aircraft, and spacecraft. Air Training Command trains and will continue to train people — the most important commodity of the aerospace age.

#### HOLIDAY OBSERVED

Monday will be a holiday at Reese as the birthday of George Washington is observed. A Sunday schedule will be in effect.
