Red Armies In Crucial Stand

Nazis Smashing Ahead In South

Violent New Blow
At Moscow Seen;
Rostov Imperiled

(By The Associated Press)
RUSSIA threw great masses of reserves into the 18-weeks-old struggle against Adolf Hitler's invasion armies Saturday night as the Germans momentarily threatened to capture the key city of Rostov-on-Don, gateway to the Caucasus oil fields, and the munitions center of Tula 100 miles south of Moscow.

Even as his armies plunged deeper into the bound land of the Soviets, Hitler himself took time out to address formal charges of aggression against the United States, asserting that the U.S. destroys Greer and Kearny first attacked German naval vessels.

Would Cut Supply Line

On the fighting front, the Germans were smashing full-blown across the upper Donets river, marking all but the end of the trans-Ukraine drive, in an apparent effort to cut off the line of United States war supplies to the U.S.S.R. via the Middle East.

A bulletin from Hitler's headquarters said Nazi troops had crossed the Donets river at several points, presumably in a wide flanking sweep to engulf Rostov-on-Don, and that German and Romanian troops were advancing in the Crimea peninsula in pursuit of retreating Soviet forces.

Nazis To Defy Snows

German military spokesmen declared emphatically that Russia's winter snows—the factor that spelled disaster for Napoleon on his drive to Moscow in 1812—would mean no halt in the campaign. Germany is prepared "to the last detail" for cold weather combat, they said, and this seemed borne out by recent reports of Nazi orders requisitioning winter blankets, heavy coats and boots in the German-conquered countries.

Already, the Germans said, supply trains moving east are carrying millions of winter garments and devices enabling Hitler's military juggernaut to operate in freezing temperatures.

New Offensive Expected

Soviet front-line dispatches said the German central front armies under Gen. Fedor von Bock were massing huge forces for a violent new offensive against Moscow and that "heavier fighting will begin in the near future."

The Soviet commander on the central front, Gen. Gregory Zhestkov, was reported spreading fresh troops from Russia's vast manpower reservoirs and training bases in Siberia to meet the German assault.

As the struggle surged toward a new climax, latest reports gave this picture of the 1,200-mile battle line:

1. On the Moscow front: The Germans are driving into the suburbs of Tula, 100 miles south of the Soviet capital, forcing the Russians to fall back under rear-guard action; a violent battle is raging around Volokolamsk, 65 miles northwest of Moscow; Russian counter-attacks are still holding the Germans at Kalinin, 95 miles northwest.

2. Eastern Ukraine: The Russians have begun to evacuate the

Peace Proposal Given Chilly "No" By British

LONDON, Nov. 1. (AP)—A hinted offer of peace mediation broadcast from Ankara by President Ismet Inonu of Turkey today drew chilly thanks from Britons in high places.

Inonu told the Turkish parliament in a speech broadcast to the nation that the country's job would be "unbound" if it could one day become the source of peace which the world awaits and needs.

Authoritative British sources said they could not interpret Inonu's meaning until they had received an official text of the broadcast but regretted Churchill's statement that Great Britain would never make peace with Hitler. That was still the empire's policy, they added, and suggested if Inonu intended a peace mediation offer he would have British thanks and nothing more.

AWAITS REMOVAL ORDER

Bland Beverly Powell, 38, above, is being held in custody of the Lubbock county sheriff awaiting an order of removal to California, where he was indicted by a federal grand jury on a charge of embezzling an Escondido, Calif., bank 17 months ago of \$8,620. The fugitive was identified Friday through alert detective work of Sheriff John Greenwood and Tom Asher, chief deputy, of Gaines county. See story page 11, section 1.

Five Fliers Die In Fiery Crash

(By The Associated Press)
FINLAY, Ohio, Nov. 1.—A light army bomber flying through a misty rain crashed in flames on a farm 12 miles west of here to day, killing five men.

The big ship hit with a violent impact, scattering the bodies 300 to 400 feet.

"They were mashed just like hamburger," said a witness, Dillon Fisher, a farmer.

Victims Listed

It was the third major plane wreck in three days. In a 20-hour period Thursday, transport plane crashes killed 14 at Moorhead, Minn., and 20 at St. Thomas, Ont.

Patterson field listed the following personnel aboard the ship and said they were all dead.

First Lieut. T. W. Bafford, pilot, 27, of Orlando, Fla., survived by his widow of Orlando and his mother, Mrs. Cora Bafford of Fairmont, Nev.

Lieut. George W. Smith of Asheville, N.C., co-pilot.

Sgt. Lee Chambers, Hinsdale, N.Y.

Robert J. Hegeman, Patterson field.

John D. Soutard, Springfield, Ohio.

Fisher said that flames rose 500 feet in the air when the ship struck the ground. It was headed south and he reported that another bombing plane winged southward overhead shortly after the crash.

Scene Was "Terrible"

"Oh, it was terrible," Fisher said. "I never hope to see anything like it again."

Nearly 150 feet of wire fence around one of the cornfields was destroyed by the plane, which ploughed a hole 10 to 15 feet deep, however, tonight they had abandoned the scene until daylight.

It was said the slayer shot Johnson, 22, after the suspect had warned other negroes to be quiet shortly after most of the group at the place had retired for the night.

The suspect was described as about 5 feet 8 inches tall, weighing about 135 pounds, wearing cowboy boots, blue denim overalls and jumper, and a dirty light hat. He was further described as "very black," with a gray mustache and a black beard.

Nation Said Desiring Declaration Of War

NEW YORK, Nov. 1 (AP)—George Creel, who was chairman of the nation's committee of public information in the World War, asserted today that President Roosevelt had made contact with the American people and did not realize that the country wanted a declaration of war.

"The trouble nowadays is that we have a stagnated bureaucracy in Washington," Creel said at a press conference, at which he announced his acceptance of an appointment as a member of the Fight for Freedom committee to organize the Pacific Coast states.

Mr. and Mrs. Jack Cowcett of Lubbock, route 1, on birth of a daughter weighing 5 pounds 8 ounces in St. Mary's hospital at 3:45 a.m. Saturday afternoon.

The father is employed by a loan company.

Mr. and Mrs. S. A. Gibson Jr. of Shallowater on birth of a son weighing 8 pounds 11 ounces in West Texas hospital at 2:55 o'clock Saturday afternoon. The father is a farmer.

Dr. and Mrs. V. V. Cox of 2216 Twenty-sixth street on birth of a son in West Texas hospital at 5:24 a.m. Saturday morning. The father is a veterinarian.

Mr. and Mrs. Ben Porter of 2602 Avenue S on birth of a daughter weighing 5 pounds at 7:18 o'clock Saturday night at Lubbock sanitarium. Porter is an employee of the First National Bank.

Commodity Price Controls Okayed By House Group

Ceilings On Wages
Rejected; Farm Products Benefit

(By The Associated Press)

WASHINGTON, Nov. 1.—The House banking committee approved a commodity price control bill tonight after refusing to include wages and voting to prohibit ceiling on farm commodities lower than some of the highest agricultural prices in history.

Chairman Steagall (D-Ala.) said the committee vote on the bill was 18 to 5.

Big Boost Seen

With the farm bloc in full control, the committee accepted a formula for farm price ceilings which government experts said would permit food prices to rise as much as 20 per cent above the 110 per cent of parity level contained in the administration's original bill.

Five members struck out of the measure a system of licensing which sponsors had said was necessary to enforce any price control program.

The committee met for more than seven hours today before taking action on the bill.

Complete Control Doubts

Senate, too, has its own version of the decisions.

"I don't think the bill as proposed or the one we adopted will control inflation completely—but I hope that it will provide a satisfactory control."

But Rep. Keen (R-N.J.) called it "inept, ineffectual," and Rep. Monroe (D-Oklahoma) declared it would give Leon Henderson, price administrator, "the right to regulate everything except inflation."

Vote Is Close

Steagall proposed to control wages, offering an amendment which would have permitted wage increases only when they would not contribute to inflation and when they were necessary to maintain a worker's standard of living.

This suggestion was turned down 16 to 15.

By a vote of 12 to 11, the committee stipulated that farm price ceilings could not be set below the highest of these three levels: 110 per cent of parity, the average price from 1919 to 1929, the prevailing level last Oct. 1.

Government farm experts said that if the ten-year average was the highest—and they said it would be in the case of most commodities—the ceilings would be 20 per cent higher than under the provision in the original bill putting the ceiling at not less than 110 per cent of parity.

Ball, a "freshman" senator who differs with many of his mid-western colleagues in supporting the pending legislation, told the chamber that "as long as the Nazis hold sway in Europe no man here in America . . . can feel any sort of security."

These observations, quoted by the Senate majority leader, added:

"Therefore the United States is making every effort to avoid an armed clash in the Pacific, which seems inevitable. Tension in the Pacific is gradually increasing despite all the sincere efforts of Japan."

U. S. Equipment To East Indies

By JOHN M. RALEIGH
United Press Staff Correspondent
BATAVIA, Java, Nov. 1.—Dutch army chiefs continue to express satisfaction over the results of the recent mass maneuvers at Cherbon.

Empires declared a red invading force, which had established a strong beachhead outside Cherbon and hoped to strike inland, had been pushed into the sea at the close of five days of mock battle.

The maneuvers appeared as realistic as cannon fire, running tanks, planes overhead, and chattering machine guns could make them.

Combat was not the only problem confronting high officers. The logistics of transport and troop movements on a large scale received the close attention of service corps heads. It was revealed that 300 motor vehicles traveled 100 miles over twisting mountain roads with headlights blazed out and arrived on time without an accident.

Not lend-Lease Material

The preponderance of American material was surprising. The only other foreign-made equipment seen were two British tanks and a few Swedish anti-aircraft guns. Nearly everything used in the maneuvers had been received from American factories since the first of this year. No single item had been purchased through the lend-lease act, according to informants.

The Netherlands East Indian governor general, his principal aides, and the commander-in-chief of the Dutch navy in the east attended the maneuvers.

Defense Line Permanent

The terrain around Cherbon was strongly fortified with pill-boxes and Sally points. These constructions, it was noted, were not temporary, or erected simply for the "games." They are permanent fixtures.

Gen. Berenschot, army commander-in-chief, commenting on the maneuvers and material used asked that "the American people be thanked for having sent guns, planes and ammunition to the Indies."

The number of soldiers and planes used in the maneuvers remains secret, but officers agree that a guess of several divisions on the ground and a number of wing squadrons in the air would not be far wrong.

Gov. Talmadge Seeks Review Of Colleges

ATLANTA, Nov. 1. (AP)—Striving to prevent discrediting of Georgia's colleges, Governor Eugene Talmadge today authorized the board of regents to review acts which he inspired and which have brought charges of undue political interference in higher education in Georgia.

The regents then named a five-man group to meet here Monday with a special investigating committee of the Southern Association of Colleges and Secondary Schools.

This committee was named after Talmadge had secured the dismissal of Dr. Walter Cocking as dean of the school of education at the University of Georgia in Athens on charges that Cocking sponsored racial co-education. It will decide whether Georgia's university and colleges are to retain their accredited ratings.

There was immediate disagreement among the regents on whether the five-man group actually had the authority to take any corrective action that the association's committee might recommend to prevent discrediting.

The governor commissioned the regents to use their best judgment "to correct this whole unfortunate situation—correct any wrong which might have been done in the course of events."

Army's Cooks, Bakers Praised For Services

LOUISVILLE, Ky., Nov. 1. (AP)—The army's cooks and bakers were described today as the generals in the present preparedness.

Colonel Paul E. Howe of the army sanitary corps, Washington, D. C., told the association of military surgeons at the final meeting of the organization's annual session today, "nutritional accounting" instead of cost accounting was the factor which would keep America's fighting forces in trim for any job required of them.

The army today is carrying out a program of nutrition which is unprecedented in history, he declared.

"From the generals in command of corps areas down to the kitchen police proper nutrition is becoming a fighting slogan," Colonel Howe said.

Plan To Use Surplus Cotton Is Announced.

WASHINGTON, Nov. 1. (AP)—The agriculture department announced today it would pay manufacturers a subsidy of nine cents a pound to convert 27,600 bales of cotton, card strips and comber waste into cotton insulation for sale to the building industry.

The Subsidy program is designed to encourage the use of surplus cotton as insulation materials for homes and other buildings.

Seven Men Named For Nov. 7 Draft Call

Names of seven men who will fill a call for draft board No. 1 Nov. 7 were announced Saturday night by J. W. Tarlton, clerk.

Scheduled to be sent to Fort Bliss, Tarlton said, are Sam Jeffers, Jr., a transfer from Ellis county; Willie Edward Williams, a volunteer; John B. Garland; James Henry Woods, Hector MacKay, Jr.; Charles Carl Seal and J. Clifton Armstrong.

Mallinson's Faille Crepe

1 YARD \$1

This fine new Fall faille crepe is a beautiful fabric and one of national recognition. New colors are black, navy, twig, California wine, forest brown and others. Regularly \$1.29 yard.

Double Feature Crepe

1 YARD \$1

A beautiful Fall Dress Crepe in Skyline blue, black, Times Square brown, wine, Chinatown, Maiden Lane and Golden Gate. Regularly \$1.29 yard.

Fancy Velveteens

1 YARD \$1

Just the thing to make that clever little jacket or skirt that you've been wanting. Your choice of stripes or checks in gold, black, Copen, rose, wine and brown. Regularly \$1.29 yard.

54" Woolen

1 YARD \$1

Dress and Suiting weights in plain and fancy weaves. A wide choice of colors which may be used in dress or sport suits. Comes in wine, brown, green; rust, black and navy. Regularly \$1.29.

Woven Taffeta

1 YARD \$1

Need an extra blouse? Trim? Then this bright satin in stripes and plaids is just what you've been looking for. Colors of browns, reds and blacks. Regularly \$1.49.

Brocade Satins

1 YARD \$1

Make those Christmas gift robes, blouses and pajamas now. Comes in black, pink, rose-dust, eggshell, dahlia, tea rose and others. Regularly \$1.29 - \$1.98.

Acetate Crepes

1 1/2 YARDS \$1

A splendid group on this table. Choose from Alpacas, romaines, mossy crepes in many weaves. Blacks and colors. Regularly \$1.29.

Feather Flannels

1 1/2 YARDS FOR \$1

Stripes and matching plaids in wide color range of wine, green, blue, luggage, brown and gold. Regularly 79c yard.

Printed French Crepe

2 YARDS FOR \$1

A crepe that holds its beauty and luster after laundering. You may have this particular dollar day special in print, stripes or Paisley. Regularly 59c yard.

Rayon Serge

2 YARDS \$1

An excellent fabric for school. Crown Tested spun rayon with serge weave. Colors are wine, gold, red, blue and brown. Regularly 59c yard.

Gabardine

2 YARDS \$1

Another fine spun rayon fabric with gabardine weave. Dandy for slacks, dresses, shirts and play togas. All good colors. Regularly 59c yard.

Cruise Spun

2 YARDS \$1

Sheer weight spun rayon fabric with neat floral designs. Also a large range of plain colors. Regularly 59c yard.

Faille and Rash Crepe

2 YARDS FOR \$1

A new item on the Dollar Day scene and one you're sure to take advantage of. Choice of solids, moss green, royal, teal, brown and dark green. Regularly 59c yard.

Alpaca Crepes

3 YARDS FOR \$1

One group of faded crepes from displays, in moss green, Indian rust, brown deer and wine. Regularly priced at 79c to \$1.95 yard.

Fashion Spun

2 1/2 YARDS \$1

A new shadow stripe spun Rayon in two widths of stripes. Also, plain colors. Rose, Green, Aqua, and Navy. Regularly 49c yd.

Ask About
Our
Christmas
Lay-A-Way
Plan!

This is a good time to begin thinking about those Christmas gifts. By taking advantage now of Dollar Day you will be able to avoid disappointment if you wait until later to get those 'little' gifts. Each department in Hanna-Pope's is ready to serve you this Dollar Day and to send you home again heavily laden with tremendous money saving values. Start your Dollar Day Shopping Early this Monday.

SPECIAL RACK

We will again have in our Ready-to-Wear department one special rack of various numbers in dresses. You have only to see these specials to know that they are real buys now or any time. Each garment plainly marked.

\$1.00 AND UP

Slips

EACH \$1

A good fitting slip in satin and crepe. Lace trims or tailored styles. Sizes range from 32 to 40. Regularly \$1.29.

Girdles—Panties

EACH \$1

We are offering our regular \$1.29 stock of well known lines in these two-way stretch garments. Come early as stock is limited.

Ladies Pajamas

EACH \$1

Cotton pajamas in solid colors with yoke and trim of eyelet embroidery — Butcher Boy styles. Regularly \$1.29.

Brassieres

2 FOR \$1

New shipment of Lovable and Formettes. Available in Satin, Laces, Net, Batiste and one style in Nylon. All sizes. This will be your last chance to get these lovely brassieres.

Linen Guest Towels

2 FOR \$1

A choice item with which to head your Christmas shopping list. Pastels and white in embroidered and appliqued designs. Buy several in this dollar day savings. Regularly 59c each.

Dish Towels

SET OF 6 FOR \$1

Cannon part lined dish towels in large sizes that are very absorbent. Colorful blazer stripes. Regularly \$1.29 Set.

Kitchen Towels

2 FOR \$1

Famous "M" brand of fine knitted rayon in button-on style panties and vest to match. Peach and tea rose. Ages 1 to 4 years. Regularly 39c.

Turkish Towels

Cannon and Fieldcrest

2 FOR \$1

Pastel towels with contrasting borders. Regularly 59c, 39c and 29c.

Kitchen Towels

4 FOR \$1

The popular Dri-Quick kitchen towel in beautiful fruit prints. Several of these will give your kitchen the life and color that it needs. In blue, red and green. Regularly 29c each.

2 FOR \$1

A table of Odds and Ends in this boys' item that will probably produce just what you have been looking for. You can afford to buy several at this price and they are just the thing for these cold school mornings. Values to 69c.</p

More Than 1,000 Persons Executed For Defying German Rule Over Continent

French Deaths Most Dramatic

(By The Associated Press)

BERLIN, Nov. 1.—At least 1,000 persons have been executed for refusal to bow to Nazi authority in countries directly within the German sphere of influence since Germany's war with Russia began June 22, a compilation of reports made public showed today.

In addition, references have been made in the press at various times to "several" or "a number" of persons who had been led before a firing squad or the gallows.

French Executions Most Dramatic

In many cases the press failed to follow up an original announcement that a death sentence had been handed down by a court martial, thus leaving in doubt whether those sentenced had been killed or later pardoned.

The most dramatic executions were those at Nantes and Bordeaux, where 100 French hostages were killed for the assassinations of two German officers. Lieut.-Col. Paul Friedrich Holtz and Dr. Hans Ulrich Reimers.

Since the first attacks against Communists began, a total of 158 have met sudden death at the hands of German executioners. In France, published reports show but France is far down the list in total killed.

"Several Score" Said Killed By "Mistake"

(By The United Press)

The execution of "several score" Axis adherents in Belgrade by "mistake" was reported today by the British Broadcasting company.

The broadcast said German authorities in Belgrade had "made mistakes" in the shooting of a group of Hungarian, German, Italian and Austrian subjects who had been mistaken for Serb guerrillas.

Serbian police sympathetic to the estimated 80,000 guerrillas still fighting in Yugoslavia, were reported to have seized the Axis adherents and substituted them for Serbians who had been ordered executed. The Serbians were permitted to escape, the broadcast reported, while the substitutes were delivered to the German authorities.

Ground-Breaking At Canyon Is Planned

CANYON, Nov. 1. (Special)—Panhandle legislators will be among the visitors here November 8 at the ground-breaking for the \$170,000 science building at West Texas State Teachers college.

Among those expected are State Senator Grady Hazlewood of Amarillo and Marshall Formby of Plainview and State Representative G. H. Little of Amarillo, Mark Halsey of Lubbock, Ennis Favors of Pampa, and Richard Craig of Miami.

The ceremony will be directed by Dr. D. A. Shirley and members of the college building committee, who include Prof. L. S. Baker, Prof. T. B. McCarter, Prof. Frank R. Phillips, and Dr. C. A. Pierie. The ceremony has been set for 10:30 a. m. on Saturday, November 8, south of the administration Building. The Buffalo band will open and close the program, but other bands will likely participate.

John E. Hill of Amarillo and possibly other members of the Board of Regents will be present, as also will the architect, H. O. Carter, of Amarillo. Bids on the structure will be opened at the office of Dr. J. A. Hill on November 7.

The ground-breaking will be the first public program of Homecoming day.

First Group Of Army Enlisted Pilots Are Near Training Goal

WASHINGTON, Nov. 1. (AP)—The war department reported today that the first group of army enlisted men to be trained as pilots would complete the first phase of their training this week end.

Approximately 180 men began the ten-week elementary flight schooling at the Spartan School of Aeronautics, Muskogee, Okla., and the Brayton Flying School, Cuero, Tex., on August 23. Graduates will be moved up to the next phase when they are enrolled in classes to begin November 8 at the Gulf coast air corps training center.

A second class of enlisted pilot trainees started elementary study at Muskogee and Cuero October 4 and a third class will start November 8. These groups were substantially larger and eventually about a fifth of all army pilots may be men who have risen from the ranks to become non-commissioned pilots.

The first to complete their training are expected to be graduated early in April.

Ice On Controls Said Cause For Fiery Fall

ST. THOMAS, Ont., Nov. 1. (AP)—Ice on the controls was suggested today by Royal Canadian Air Force officers as the probable cause of the air tragedy in which an American Airlines transport plane crashed into an oilfield in a drizzling rain and killed its 17 passengers and three crew members near here Thursday night.

Flight Lieutenant Jack Gray of the nearby Fingal bombing and gunnery school said airmen had been warned that ice formations could be expected that night.

Investigation indicated that Captain David Cooper fought to the last instant to save his 21-passenger Douglas air transport. The top of the control lever was found still clutched in his right hand.

News From The Army, Navy And Marines With The Boys In The Service

Eleven men left Lubbock Saturday after completing enlistment in the army air corps at district recruiting offices in the federal building. They were all of Lubbock and vicinity, said Sgt. Reuben A. Jackson, chief clerk for Cal-Aero academy at Ontario, Calif., where enlisted Malcolm L. Richie, Charles V. Berdine and Luther D. Whitley. Five men, Wallace N. Phillips, Harold H. Hill, Sam Jeffers, Jr., Max Rutledge and James B. Johnson, were enlisted for the air corps at Jefferson Barracks, Mo. Three, Carl E. Jessie, Alfred A. Medlock and Lloyd J. Snodgrass, were assigned to the air corps at Biloxy, Miss.

Over 28: Several Lubbock residents are among those recently returned from the selective service army because they are 28 years of age or older. Among them are Walter L. Schenck, William Carl Powell, Howard Alton Price and Seth Elmo Dunn, said J. W. Tarlton, clerk of draft board No. 1.

Week-end leave meant a 750-mile trip home by plane this week for two Lubbock boys. Aubrey L. Lewis, son of Mr. and Mrs. H. Brady of 2102 Twenty-first street, and Jack Childers, son of Mr. and Mrs. David Childers of 2005 Tenth street. They are stationed at Luke field, near Phoenix, Ariz. They were brought to Lubbock in six basic trainers which landed at Municipal airport early Saturday afternoon and shortly took off for Dallas, where they were to spend Saturday night. The planes will return to Municipal airport this afternoon to pick up the Lubbock men. Commander of the group is Lieut. Elbert M. Gate.

PROMOTED: News of South Plains men in the service who are receiving promotions Corp. George D. Stapleton, son of Mr. and Mrs. R. Stapleton of Plainview, promoted to sergeant; a former student of Texas A. and M. college and West Texas State Teachers college, he is at Camp Roberts, Calif.

Arthur M. Shook, Jr., of Plainview, from private to corporal. He will assume duties as a supply clerk at Aberdeen Proving Ground, Md.

MONTERAY KELTNER OF TAHOKA IS NOW WITH THE MARINES: In Hawaii, he wrote his mother, Mrs. C. B. Keltner, last week. He enlisted last April and attended a radio school in San Diego, Calif. He mentioned that marines raise the flag in 19 of the 24 time belts on the globe now.

IN NAVAL AIR CORPS: William Harwood Miller, son of Mr. and Mrs. William Miller of Snyder, is enrolled in the naval air training school near Dallas. Miller attended Texas Technological college. He will be sent to Pensacola, Fla., or Corpus Christi for advanced training.

Nazis May Be Planning Campaign To Force Japan, Italy Into War With U. S.

Tri-Power Pact Is Remembered

(By The United Press) — WASHINGTON, Nov. 1.— Unofficial quarters suggested today that Germany's declaration that "America has attacked Germany" might be a prelude to a Nazi effort to invoke the tri-power pact of 1940 and bring Italy and Japan into active hostilities against this country.

Article three of the tri-partite pact signed in September of last year states:

Article Reviewed

"Germany, Italy and Japan... undertake to assist one another with all political, economic and military means when one of the three contracting powers is attacked by a power not involved in the European war or the Chinese-Japanese conflict."

The wording of the German announcement indicated that it might have been dictated with that paragraph in mind.

It was believed unlikely, however, that Italy or Japan would respond immediately. There was more likelihood of Italy taking action than Japan, because after the signing of the treaty the Japanese spokesman said that, if Germany and the United States became engaged in war, Japan before acting would study the record carefully to determine which had been the aggressor.

Japan Asks Proof

The inference was that Japan would hesitate to plunge into war with the United States on a mere assertion by Germany that America had taken the first step.

Observers here did not believe it likely that the German allegation would greatly alter the present status of limited hostilities between this country and Germany unless the Axis pact were invoked or Berlin followed up its statement with attacks on American forces in additional areas.

Thus far the shooting between American and German forces has been confined to naval exchanges in the Atlantic.

"Shooting" Has Started

President Roosevelt in his news address Monday night said, referring to submarine attacks on the U. S. destroyers Greer and Kearny:

"We have wished to avoid shooting. But the shooting has started. And history has recorded who fired the first shot. In the long run, however, all that will matter is who fired the last shot. America has been attacked."

Subsequently the U. S. destroyer Reuben James was sunk during the night of Oct. 30-31, but the president said at his press conference yesterday that there was no indication that would alter the present status of relations between Germany and the United States, which have been hanging by a thread for many months.

Duck Hunting Season

(Continued From Page One)

three redheads, or three of these species together, and not more than six of them may be possessed. Hunters may take and possess not more than one wood duck, also. In other years the wood duck, considered by many the most beautiful of all ducks, was given complete protection.

The goose limit is three per day or six in possession. In addition, hunters may take three blue geese a day or possess not more than six.

Hunters were reminded that it is necessary to obtain a federal duck stamp before shooting of migratory waterfowl will be legal. Hunting licenses also are necessary for those

Nation Accused As "Attacker"

(Continued From Page One)

said the Greer, shot at by torpedoes—but not hit on Oct. 4—was informed of the submarine's position by a British plane which then dropped four depth charges in the U-boat's vicinity and flew away. While the destroyer was following the submarine, the latter turned and fired its torpedoes.

Map Documented Forgeries

Another statement was released from Hitler's headquarters, ascribed as "forgeries of the clumsiest, grossest type" the map and document referred to by President Roosevelt in his navy day speech.

"There exists neither a map prepared in Germany by Reichs government regarding the dividing up of Central and South America, nor a document pronounced by the Reich's government regarding the division of the regions of the world," the statement declared.

Despite the strong wording of these statements, however, it was said by spokesmen that they did not indicate any change in relations with the United States.

Relations Said Unchanged.

The statement made no mention of the U. S. destroyer Reuben James, a third U. S. destroyer which the navy department has announced was sunk Oct. 31 with only 44 of its 120 officers and men so far reported saved.

Authorized quarters, however, referred to President Roosevelt's statement yesterday that the incident had not changed United States-German relations, and said he was "suffering from an upset political stomach."

Claim New Sinkings

They said he had no confirmation of the Reuben James sinking. As if to emphasize the implacability of Germany's determination to press the war in the Atlantic, a German resume of operations in the past week said 151,000 tons of British shipping had been destroyed in the Atlantic, with planes and submarines sinking 35 vessels.

After reading the statements to a conference of foreign correspondents, an authorized spokesman went on to make a more direct attack upon President Roosevelt, declaring:

"He has started plowing under American boys. He is mobilizing prejudice. He is organizing war for Jewry. But he cannot prevent the heat of either Russia or England."

FDR's Assertions Assailed

The German government announced that it would notify all neutral governments, especially those in Central and South America, of its charges of falsity regarding the map purporting to show a German plan for conquest of the whole nation mounds."

Knox Warns Nation

(Continued From Page One)

attempted torpedoing of the U. S. destroyer Greer on Sept. 4 and to the attack Oct. 17 on the destroyer Kearny which was hit by a torpedo with the loss of 11 men but limped safely to an undisclosed port.

"Worse Than Piracy"

The German statement dealt only with these two incidents and made the contention that the Greer and Kearny were aggressors.

In his speech, an address to a marine graduating class, Knox said the sinking of American ships by Axis submarines was "worse than piracy" and should "incite every self-respecting man to desire to have a part in the fight."

"If what men are fighting Hitler for is not right," he declared, "then there is no point in living at all."

He told the 300 young men as he awarded them second lieutenant commissions in the marine corps that "you should look forward to the opportunity of defending your country in a time of great, great danger," and he offered those lucky to have a chance to play a man's part. For every one of you there are a hundred who would like to have your place."

Referring to the loss of Americans lives in the torpedoing of the destroyers Kearny, and possibly in the sinking of the Reuben James, the navy chief said "the whole nation mourns."

Knox Also Assailed

At about the time Knox was speaking, Senator Clark (D-Mo.) was taking him to task in the Senate for earlier utterances.

The Missouri senator, an opponent of the administration's foreign policy, asserted that Knox was "like one suffering from rabies, without any constitutional authority whatever, declaring war on nation after nation."

Clark declared, too, that the navy already was in the opening stages of an undeclared war, acting under "sole order of the president."

hunters shooting outside their own counties.

Nazis Smashing Ahead In South

(Continued From Page One)

Bond election plans of the Lubbock Independent School district were filed late last night to "hang fire" officials still awaited word from Washington regarding their application for federal funds to be used in a general building program here.

At the conclusion of a four-hour long business meeting of the system's board of trustees Friday night, Dr. J. T. Hutchinson, chairman, announced that the board had received several agreements regarding the building program school authorities consider absolutely essential. Those agreements were:

(1) The school board will await approval in Washington of their application for a portion of federal funds set aside for school districts overburdened by national defense projects such as the U. S. Army air base west of Lubbock. As soon as the extent of federal funds allocated here is known, the board will call an election for the issuance of bonds by which money can be obtained to carry on the essential building program.

(2) A building program to cover the following:

SANDERS ward school, Third street and Avenue F; an addition of two to four classrooms.

WILSON ward school, Twenty-fifth street and Monroe avenue, an addition of eight rooms, including a cafeteria.

BEAN ward school, Twenty-ninth street and Avenue N, an addition of eight rooms, including a cafeteria.

SENIOR High school, Nineteenth street and Avenue T, an addition of approximately 18 rooms, including band and art

and redistribution of Latin American territory.

Assertions of the conquest of South America by Germany and elimination of the religions of the churches in the world and their replacement by the national socialist church are so nonsensical and absurd that it is superfluous for the Reich government to discuss them," the statement said.

On Oct. 27 President Roosevelt said a secret map made in Germany by the Hitler government showed Hitler proposed to reorganize 14 Central and South American countries into five vassal states, including territory of the Panama Canal zone.

He said the government also had in its possession a document made in Germany by the Hitler government showing its plan to abolish all existing religions, seize all church property and impose an international Nazi church in which Nazi orators would replace priests and preachers. Mein Kampf would take the place of the Bible, and the Swastika and naked sword would take the place of the cross.

Two Burned To Death In Crash

(By The United Press)
CHICKASHA, Okla., Nov. 1.—Two men were burned to death early today when their truck crashed into the rear of a semi-trailer truck parked off the highway three miles north of Pocatello, Okla.

The men were identified by Highway Patrolman Ty Cobb as Arnold D. Atkinson, 28, a white man, and Ennis Hobbs, 27, a negro, employee of a Livingston, Tex., grocery firm. They were burned beyond recognition. Cobb obtained the identification through a check with Texas patrolmen.

Pinned In Cab

The truck caught fire when it struck the semi-trailer which was loaded with fireworks. The two men were pinned in the cab of their truck.

The semi-trailer was one of two that had stopped on the shoulder of the highway to repair a flat tire. Flares were out, the patrol said. Harvey Simerly and Ralph Ray, both of Dallas, were drivers of the parked semi-trailers. Neither was injured when the accident occurred.

A passing empty gasoline truck hauled a load of water from Minco to help fight the fire.

Truck Owners Urged To Fill Out Blanks

AUSTIN, Nov. 1. (UPI)—A few truck owners may hesitate to fill out the questionnaire for motor truck inventory because of one question, the state highway traffic advisory committee reported here today.

The question is: "In case of an emergency would you voluntarily hire or lease the vehicle to a federal agency?"

"We do not expect every truck owner to answer 'yes,'" the committee said in a communication urging all owners to return the questionnaires without delay. "In many cases their trucks already will be engaged in essential services and cannot be spared. But the government must have information on these trucks as well as all others to plan the production or trucks and truck parts to meet all requirements under the national defense program."

O'Dwyer Forces Have Hopes In Gotham Race

NEW YORK, Nov. 1. (UPI)—Democratic forces were hopeful today that Gov. Lehman's stinging rebuke of Mayor La Guardia of New York as being unworthy of his office would sweep District Attorney William O'Dwyer into city hall next Tuesday.

In one of the bitterest addresses of his career, the governor told a Democratic rally closing the party's campaign in Brooklyn last night that La Guardia had made "shameless and scurrilous" accusations and proved himself "unworthy of being major of the city of New York."

LaGuardia said that his opponents had begun to "call names" because they had no issue but that "all of the abuse, all of the name calling, all of the lying has not frightened me one bit."

Rep. Cleveland Gives Up Duties In House

AUSTIN, Nov. 1. (UPI)—Resignation of State Rep. E. J. Cleveland of Buda was announced today through the office of Gov. Coke Stevenson. Cleveland's resignation leaves five vacancies in the Texas House of Representatives.

Others previously resigned were Woodrow Bean of Sierra Blanca, P. L. Corsley of Eastland, Joe Skiles of Denton, and Lon E. Alsup of Carthage.

Non-Combatants Said Massacred In China

HONGKONG, Nov. 1. (UPI)—The Chinese government said today nearly 500 Chinese non-combatants were massacred and 360 others were wounded during the recent Japanese campaign in southern Kwangtung province.

The invading troops were declared to have razed more than 30 villages.

War-Time Diplomatic "Mishap" Causes Red Faces At Big Dance

ANKARA, Turkey, Nov. 1. (UPI)—One of the war-time mishaps of diplomatic life in a neutral capital was revealed today with British and German diplomats and their wives in the leading roles.

At the republic day ball on Wednesday night the wife of the British naval attache, Mrs. John O'Donnell, came face to face with Mrs. Franz von Papen, wife of the German ambassador. They promptly turned their backs on each other.

Both women were wearing fancy ribbon broads on the backs of their gowns and, as dancers jostled them, the trimmings became entangled.

Captain O'Donnell and von Papen hovered nearby in despair until a representative of the Turkish protocol department rushed up and uncoupled the two women.

Neither spoke a word during the time they were held together.

Westerners Trip Pampa Harvesters, 30-13, To Nurse Flickering Title Hopes

Wright, Thorne Lead Lubbock To Conference Win

By JOE PIERCE
Avalanche-Journal Sports Writer
PAMPA'S Harvesters came
to town Saturday, carrying a reputation as the best football team from that city in eight years.

They returned to Pampa Saturday night, divested of that reputation but carrying with them Lubbock's still-flickering hopes for a shot at the District 1-AA championship.

The Westerners, perhaps angered by insult that they hadn't been invited to bounces back from a defeat by Amarillo, put forth their best playing of the season to clip the Harvesters, 30-13.

There was no dilly-dallying as the Black and Gold surged to its fifth victory of the season. Before the game was 10 minutes old, Milner Thorne had stepped 33 yards to a touchdown. Billy Wright had charged 70 yards for a second counter and Robert Brewer had received a pass from Wright good for 22 yards and a third touchdown. Max Walthall had kicked all three points and Lubbock was ahead, 21-0.

Another For Lubbock
From that point on, it was a ball game. Pampa surged back with a dangerous aerial game, featuring the throws of R. L. Edmonson, L. J. Halter and Bill Arthur, and scored a touchdown in the second and another in the third.

Lubbock, though, had added another quarter after the first Pampa score on an 45-yard pass from Wright to Thorne, and the lead wasn't seriously threatened.

Then it was just enough chance left for Lubbock throughout last half that everyone of the 4,000 persons who came out stayed for the finish.

It was a clean, hard-hitting game, as good a contest as you'd care to witness of a Saturday afternoon. The Pampans, after they got over their surprise at the amazing power of the Westerners, collected their wits and began hitting hard and often where it would do the most good.

Westerners Like Pamps

The Westerners were blocking better than we've seen them this season, and their tackling wasn't far behind.

"If only they'd played this way a week ago," was a frequent comment.

Most of the Westerners said, after the game, that Pampa would beat Amarillo. They said the Harvesters blocked harder, tackled harder and played with more spirit, that Amarillo couldn't stop those quick-footed, accurate-passing Pampa backs.

The Pampa-Amarillo game will be played Nov. 20 at Pampa. A win at Pampa and Amarillo will play Plainview at Plainview. A victory for either Pampa or Plainview would leave the league race tied up in some fashion—provided Lubbock down Plainview Nov. 20.

Wright 79

Billy Wright took Pampa's opening kickoff on his four-yard line and raced it back to the 40. Howard Lanford got a first down on the Pampa 45, and three plays netted a first down on the 33. There Thorne took it on a reverse from Wright and stepped neatly through the Pampa team for the touch down. Lubbock kicked off and forced Pampa to punt. On the first play Wright slipped away for 20 yards; nobody was near him when he crossed the pay stripe.

After a punt exchange, Lubbock took over the Pampa 39, and it was two Wright passes to a touchdown. The first was to J. A. Black, well for a first on the 22, and the next was the Robert Brewer for a touchdown. Brewer took the ball about the five and ambled over.

That would have been enough to break any ordinary team's heart. But this Pampa gang is no ordinary football team. They've got as much gameness, as much fight as any team that ever graced Tech's turf.

Harvesters Don't Quit

Twenty-one points behind, the Harvesters never did quit. They braced up and halted a Lubbock drive that carried within the 10-yard line, took the ball and drove right downfield to a touchdown of their own.

Some fine running and passing by Arthur and Halter accounted for most of the advance, but to Charlie Broyles, the big sophomore fullback, went the honor of carrying the ball over. He plunged from the one, and big Roland Phillips, a tackle and co-captain, booted the point.

A recovered Pampa fumble set the stage for the next Lubbock touchdown. The Westerners recovered, on the Pampa 45, and after one try at the line, Wright found Milner Thorne behind all the defenders and laid a long one right in his arms for a touchdown, Thorne running the last 20 yards, Thorne running the last 20 yards.

THE WESTERNERS ROLL ON—Lubbock's Westerners pilled up a 30-13 count on Pampa yesterday afternoon at Tech stadium. Above are action shots of the game. Left above, Milner Thorne breaks away for a first down for Lubbock in the third quarter. J. D. Milner throws a perfect block on Harvester fullback Charlie Broyles. Bill Arthur (38) is coming up from behind, and together with the unidentified Harvester coming up at the right halted Thorne after a 10-yard gain. Right above, Billy Wright tries to get away down the west sideline in the fourth quarter, but a couple of Pampans are right on top of him. Pampa stopped that drive on the one-foot line. Below, Broyles cracks over right tackle for the first Pampa touchdown in the second period. Billy Wright (44) reaches for him from one side and Jerry McCauley from the other, but neither could stop him. On the ground is Cornett, Pampa end.

Frogs Slam Bears, 23 To 12

Buffs Tumble For Border Loop Lead

Hardin-Simmons Cowboys Upset WTSTC, 20 To 13

Sandies Clip Steers, 7-0

ABILENE, Nov. 1. (AP)—Hardin-Simmons pushed West Texas State Teachers from the top rung of the Border conference here tonight, winning 20-13 in one of the outstanding offensive battles of the season.

It was Hardin-Simmons' second conference victory in two starts and tumbled West Texas State Teachers from the ranks of the nation's undefeated, unified teams.

The Cowboys drew first blood on the opening play of the second quarter when Boomtown Evans slipped from the one-foot line as the climax of a 34-yard drive. Evans also converted.

Featuring runs by little Ben Collins, the nation's leading college scorer, and Lafe Sandies, stocky fullback of West Texas Teachers, came back with an 80-yard march with Collins passing to J. W. Anderson, substitute back. Burrell Collins, Sandy captain, kicked the extra point.

The Cowboys took the opening kick-off of the third period and marched 65 yards to pay dirt in eight plays, a pass, Evans to Boren, for 27 yards climaxing the drive. Evans again converted.

Featuring runs by little Ben Collins and shorter runs by Sandies, West Texas Teachers bounded back with another 80-yard march for a touchdown. Collins passed to Mack Winters for 15 yards and the score. Collins' try for point was blocked.

The clinching score by the Cowboys came early in the fourth period on a 65-yard drive with Stirling going over from the one. Try for point was wide.

The Buffaloes had the ball in midfield as the game ended. The Buffs rolled up 257 yards rushing and completed six passes for 52 yards.

Spec Stewart, Wehrle In Mexico Golf Finals

MEXICO CITY, Nov. 1. (AP)—Topping four heavy favorites into the quarter-final and semi-final discard, Verne (Spec) Stewart, of Roswell, New Mexico, and Wilford Wehrle, of Racine, Wisconsin, today gained finalist honors in Mexico's 16th amateur golf championship.

Stewart, nine-times state title-

holder in New Mexico and former Southwestern king, will face Thomas, earlier Forbes and Rampley, guards. Tombs, center; Winter, Collins, and Anderson, backs.

Hardin-Simmons' Bennett and Burges, Basian and Thompson, tackles; Starkey and Bennett, guards; Bagley, center; Evans, McAtee, Boren, and Camp, backs.

OLE MISS TOPS MARQUETTE

MILWAUKEE, Nov. 1. (AP)—The University of Mississippi football team proved to be better muddlers and cashed in on scoring opportunities in the first and final periods to defeat Marquette 12 to 6 today.

Emery Nix Leads Purple To Win

By DAVE CHEAVENS
Associated Press Sports Writer

WACO, Nov. 1.—Emery Nix threw just too many bulls-eye passes for the Baylor Bears to cope with, and Texas Christian sauted the Bruins away for the winter 23 to 12 here today at Municipal stadium.

The victory left the once-defeated Christians with a slim mathematical chance at the Southwest conference title, and definitely cooled Baylor's chances for the season. Nix tried 26 passes and completed 10 for a juicy 337 yards, and that was the ball game.

Baylor took the offensive in the first period, which ended scoreless, but fumbles nullified long gains by Jack Wilson. The Christian air offense started clicking in the second, with Nix passing 25 yards to Fullback Frank Kring who raced 35 yards for the first score. Roach's placement was good.

Nix throws 'em

In less than two minutes, T. C. U. tallied again on another long pass, Nix to Kring, with Roseb again booting a true placekick. Baylor came alive in the third, Wilson and Milton Crain cracking the Frog line for nice gains and Baylor's first score came on a lateral from Crain to Dwight Parks, who ran spectacularly 76 yards for a touchdown. Park's pass to Travis Nelson a few minutes later was football gold when Nelson galloped 30 yards across the goal line. Wilson's first placekick was good, but Baylor was penalized for holding and the second attempt was wide.

The Frogs surged right back for

their third score when Nix,

although badly hustled back by Baylor rushers, threw a long one to end

Ronnie Brumbaugh, who crossed the line racing. Roach's placekick was good. The final Frog tally came when the bewildered Bears backed up against their own goal line, started passing the ball from every angle.

Dwight Parks passed one in-

complete in the end zone, and the automatic safety gave Texas Chris-

tian two more points.

Wilson played his usual fine

game, gaining 120 yards on 11 carries, but Baylor was unable to

get him to the end zone.

Wilson Still Going

Dwight Parks passed one in-

complete in the end zone, and the automatic safety gave Texas Chris-

tian two more points.

Wilson played his usual fine

game, gaining 120 yards on 11 carries, but Baylor was unable to

get him to the end zone.

Vanderbilt, Penn And Temple Tumble From Unbeaten Ranks

Texas, Gophers Roll On Toward National Title

By HERB BARKER
Associated Press Sports Writer
NEW YORK, Nov. 1.—Vanderbilt, Pennsylvania and Temple were blasted off football's undefeated, untied list today but there was no stopping the forward charge of such other powerful national contenders as Minnesota, Fordham, Texas, Texas A. and M., and Duke.

Note Dame and Army, both with perfect records, fought each other to a scoreless draw before 75,000 in the mud and rain of Yankee Stadium with the underdog Cadets, paced by Hank Mazur, picking up most of the laurels.

Minnesota, aiming at another Big Ten championship and general recognition as the nation's No. 1 team, scored its 14th consecutive victory, a thrilling 8-7 conquest of Northwestern's Wildcats before 44,000 at Minneapolis. The Gophers, somewhat crippled in their efforts against Michigan a week ago, had to come from behind to win and did so on Bud Higgins' 41-yard sprint for a touchdown. Minnesota's great half-back, Bruce Smith, played only briefly before he had to leave the ball game with a recurrence of the knee injury that has handicapped him for several weeks.

Fordham Batters Purdue
Texas, Londoners, ranks with Minnesota as the No. 1 spot of the last Associated Press ranking poll, crushed Southern Methodist 34-0, in a game which had figured to be the Longhorns' sternest test. Meanwhile Texas' chief rival for Southwest conference honors, the Texas Aggies, just managed to get past Arkansas, 7-0, when Felix Bucek, sub guard, intercepted a pass and ran 58 yards to a touch-down.

Fordham, led once more by Steve Filipowicz, buried Purdue under a 17-0 count and held the Big Ten representative without a first down in a sterling display of defensive skill. Duke, almost certain to wind up unbeaten, whipped Georgia Tech, 14-0, on two touchdown passes hurled by Tom Davis to Steve Lach and Bob Gaul.

Vanderbilt's Commodores, the Southern conference's only undefeated, untied representative, fell before the tremendous power generated by Tulane's erratic Green Wave, 34-14. Penn, never able to get started, was no match for unbeaten but tied Navy, 13-6, and dropped its first decision of the season. Temple had head-on into a Boston college eleven that finally played up to its pre-season notices and when it was all over Temple had succumbed by a 31-0 count.

Kansas State Upsets Nebraska
Despite adverse weather, conditions, particularly in the East and some sections of the Midwest, major surprises were few and far between. Under this head could be reckoned Kansas State's 12-6 conquest of Nebraska, Big Six champions a year ago; Iowa's 13-7 defeat of Indiana; and North Carolina State's 13-7 victory over North Carolina.

In the East Dartmouth was upset by William & Mary, 3-0, on a field goal by Harvey Johnson from the 25-yard line but the south erners had come north with a team generally recognized as strong. Franny Lee's triumph over Princeton in the first of the "Big Three" tests, Pitt, paced by Edgar Jones, made a great showing against Ohio State but finally bowed, 21-14. Columbia took back Cornell, 7-0, on Paul Gouverneur's 54-yard touchdown sprint. Colgate and Holy Cross played to a 6-6 draw. Brown stopped Yale on a fourth quarter touchdown pass, 7-0; West Lee, 7-6; and Rutgers trounced Maryland, 20-0.

Oklahoma Crushes Kansas
Bob Westfall counted twice as Michigan whipped Illinois, 20-0, in a Big Ten encounter. Wisconsin engaged in another high-octane duel but was beaten this time by Syracuse, 27-20. Missouri trounced Michigan State, 19-0; Mississippi beat Manhattan, 12-6; and Detroit whipped Manhattan, 15-0. Oklahoma, still in the Big Six conference chase, ran up a 38-0 score on Kansas. Texas Christian, with an outside chance of figuring in the Southwest conference title,

Law Reaches Half Way Across A Nation To Snare Alleged Embezzler, Now Held Here**Hereford Dentist May Be Remembered For His Research Which May Remove Cause Of Dentist's Drill, Decay Rate Low**

By MARY KATE BROTHERTON, Special Correspondent

HEREFORD, Nov. 1.—Dr. G. W. Heard, Hereford dentist for 26 years, knows what it is to be a prophet without honor in his own country—and he also knows what it is to have his ideas finally recognized.

For it was Dr. Heard who first noted that incidence of tooth decay among children reared in the Panhandle is surprisingly low. Current investigation has elaborated on this theory to show that the incidence of dental caries among school children in Deaf Smith county is approximately three times lower than the lowest rate recorded anywhere else in the world.

"That," says Dr. Heard, "is something." But he goes on to add

DR. G. W. HEARD

that it will be a real discovery only when dental technicians and scientists have discovered the reason for this low dental caries rate. And though the Hereford dentist does not carry on any of the actual research, he is now co-operating with the state health department and research workers from Baylor Medical School who are carrying out the study which his observations started.

Notices Facts Early

"I began to notice almost as soon as I began my practice here," explains Dr. Heard, "that the teeth I examined—those of children who had lived on the plains all their lives, showed remarkably little decay. Then about 15 years ago, I began to notice the statistics on health examinations conducted by public school nurses, and I could almost tell by the tooth decay rate, from what section of the state the reports came."

The Hereford dentist did not try to keep his discovery secret. In fact, he admits that some of his colleagues must have thought him pretty boresome in his continuous harping on the subject of tooth decay—or the lack of it—in the Plains counties. At one time, says Dr. Heard, he tried to bring the matter up at a meeting of the Texas Dental Society in Fort Worth and a rascous voice yelling "Panhandle sand!" finally put a stop to his speech.

But about three years ago he met Dr. Edward Taylor, head of the dental division of the State Health Department, and as usual, spoke to him about what Dr. Heard considered an outstanding dental mystery. Taylor did not seem interested at the time. But in a few months the Hereford dentist received a letter from Austin requesting more information, and soon Dr. Taylor was in Hereford making a personal investigation.

On Trail Of Teeth

Since that time, scientists from Austin and from Baylor Medical School have spent much time in Deaf Smith and neighboring Panhandle counties on the trail of a clue to the "Dental Caries Mystery." So far, they have not found the "why"—but they have picked up a few more facts which may be useful when, as pointed out before the American Dental Association convention yesterday, properly fitted into the whole picture.

They have discovered that dental caries in Deaf Smith County are lower than anywhere else in the Panhandle, though the entire section has a low rate. Investigating the possibility that flourine in the water might cause strong teeth, the dentists discovered that in neighboring counties, where water has an even higher flourine content than in Deaf Smith County, the dental caries rate is much higher.

At present Dr. Bernard Gottlieb, world renowned dental scientist and a refugee from Hitler's Reich, is directing the research from Baylor Medical School; and he has a theory which he may be able to announce in six months or a year. When the scientists find out "why," it will probably be only a step to the prevention of tooth decay all over the world.

Dr. Heard modestly admits that

A soft-spoken former Executive Committee official who is accused by federal indictment with having embezzled \$8,620 from that institution 17 months ago passionately discussed his case Saturday afternoon in Lubbock county jail.

Bland Beverly Powell, 38, the prisoner, Friday afternoon was transferred to Lubbock from Gaines county after he had been arrested by Deputy Sheriff Tom Asher of Gaines county and Sheriff John Greenwood.

Narrowly Averted Arrest

To newsmen and officers, Powell sketchily told of his leaving California with the money after he narrowly escaped detection at Fresno. He drove his car across a red light and was arrested. After being driven to jail, he said he could prove it, but realized in a flash he had the money in the same pocket. He was given a ticket and told to appear before a corporation court. He fled to Texas.

At Seagraves he showed up with more than \$2,000 sewed in the lining of a coat. Someone took a razor blade and ripped out the cache, but Powell was in the position of not being able to complain to officers. He took his loss—even if he couldn't grin.

Was-A Fatal Crash

But the most brush episode happened for days ago when Powell and an oil field driller turned a car over near Seagraves and the driller was killed.

"I don't know what happened—it happened so fast—but I got in a car with some more fellows and took my friend to the hospital. Then I went back to the scene of the wreck and told what I knew of it to the city marshal."

"No, I wasn't asked anything about it; I just volunteered my information."

Didn't Think About Arrest

"But weren't you afraid to officers? Weren't you afraid they would recognize you from pictures?" Powell was asked.

"Well," Powell said, "it had happened 17 months ago, that case in California, and I had watched out to see if my pictures were in circulation and I never had seen them; so I didn't think much about being arrested."

The federal law, however, works at the most inopportune moments in the most disconcerting ways. Deputy Asher received a circular Thursday afternoon from the FBI and recognized the picture as bearing resemblance to the man later identified as Powell. He recalled that he had been suspicious of Powell who used another name, years ago, when Powell came briefly to Seagraves and "spent money too freely."

Powell was arrested and finger-printed on equipment the Gaines sheriff's department had bought only along toward the first of the year.

Under \$5,000 Bond

The prints were studied along with those on the FBI bulletin and found to match.

The Gaines officers called the FBI and H. F. Wenthur, FBI agent, and C. E. Luce, deputy U. S. marshal, went to Seagraves and accepted custody of Powell who was being held in a temporary holding cell in a garage complaint filed by Wenthur before Mrs. Olive Fluke, U. S. commissioner. Powell waived hearing and was placed under bond of \$5,000.

"I guess the removal order will arrive in a few days," Powell said.

He had no statement to make regarding his defense or whether he expected any recommendations of leniency from the bank officials with whom he was associated 12 years.

He indicated "drink" had been responsible for his entanglement with the law.

In order to be of hurricane proportions, a wind must attain a velocity of 75 miles an hour or more.

Heating on the cause for the low dental caries is not in his province. He states that he was merely a small-town dentist who happened to notice some characteristics of most of his cases, and then realized that the discovery might be useful. But the Hereford doctor points out that much of the food produced here has an unusually high food value, food value which may produce a correspondingly high content of the mineral salts which produce healthy teeth.

If science follows up Dr. Heard's discovery as it has most other research in the past several years, it is probable the Hereford dentist may some day be remembered as the doctor who banished the fear of the dentist's drill—not through "painless" dentistry, but through removing the cause for the drill.

Dr. Heard modestly admits that

Two More Cars Reported Stolen

Two more reports of stolen automobiles reached police Saturday to continue operations on the law enforcement front.

D. Dikens, negro of two miles east of Monroe, reported his 1939 model A two-door Ford, bearing a Lamb County license, was stolen in 1200-block Avenue G here Saturday afternoon.

T. E. Shipley of Levelland reported that his 1936 Chevrolet coupe was stolen last week. No reports of the machines having been found had reached police early today.

Paint Brushes Stolen

Chief of Police Hoyt Curry of Plainview asked Lubbock officers to hold a joint search for a box of paint brushes stolen in the Hale County town. The brushes were valued at about \$60.

A bicycle belonging to Carl Walser of 2419 Fourteenth street was stolen but recovered later by Lubbock police in a tree on the Texas Technological college campus.

Hallowe'en pranksters were blamed with cutting a fence at the residence of W. P. Willis of 2224 Twenty-sixth street.

None Hurt In Wrecks

A dog suspected of being rabid was killed after Mrs. C. T. Collier of 2117 Eighteenth street reported the animal.

Boys reported climbing in the windows of the Sanders school which had vanished when officers arrived.

Traffic investigators for the police department said none was injured in minor auto mishaps at Twentieth street and Avenue V at 9:25 a.m. Saturday; Fifteenth street and Avenue W at 4:25 p.m.; College avenue and Broadway at 10:12 p.m. and at Sixteenth street and Avenue K at 6:34 p.m.

Lawless Conditions

In Yugoslavia Told

ISTANBUL, Turkey, Nov. 1.—A neutral consul in Budapest said today on his arrival here that chaotic conditions resembling the most lawless of the middle ages existed in Yugoslavia.

Serb guerrilla bands are in complete power in the countryside and have turned cities and towns garrisoned by Axis troops into beleaguered strongholds from which it is unsafe to travel without an escort, this informant asserted.

He described his trip through the Axis-conquered country as so dangerous because of persistent sabotage of railroads and actual attacks on trains that he thought it best to leave his wife and children behind.

Trains no longer run according to schedules but only whenever tracks are reported safe, the consul said, so the trip from Budapest to Istanbul, ordinarily a two-day journey, took nine days.

He said he was forced to remain in Belgrade for 24 hours while a blown-up rail bed was restored.

One must have a government license to sell papers in British Malaya.

One must have a government license to sell papers in British Malaya.

Instructions to members of the Lubbock company of the Texas defense guard to report in uniform for weekly drill at 2 o'clock this afternoon at the American Legion hall were issued by officers Saturday.

Turkey Offers To Mediate Conflict

Few Hopes Held For Peace Move

By DANA ADAMS SCHMIDT
United Press Staff Writer

ANKARA, Nov. 1.—President Ismet Inonu today offered the services of Turkey — "an oasis of peace amid the flames" of war — to mediate peace among the beligerents.

Inonu, opening the Turkish parliament, laid heavy emphasis upon Turkey's strategic position as the key point where the war fronts of Europe, Asia and Africa join.

Will Defend Nation

He said Turkey stands determined as ever to defend her integrity and independence and to resist any application of force. He reiterated Turkey's historic interest in the political independence of the Balkan states and her antipathy toward the action of both Germany and Britain in occupying her neighbor states.

The relations of Turkey and Germany, said Inonu, are firm and friendly and "nothing can distract" them. The relations of Turkey and Britain, he said, continue to be regulated by the terms of the Anglo-Turkish defense alliance.

Has Optimistic Outlook

"Our country," said Inonu, "which is proud to have accomplished many humanitarian tasks and which so far has been able to spare its peoples the miseries and suffering of those wounded by war would feel great joy if it could only become a source of peace for which the entire universe longs and which is necessary for the world."

He admitted, however, that the prospects of acceptance of Turkey's good offices by the beligerents is slight and that the situation of the world doubtless will grow worse before it grows better.

"We observe with regret," he said, "that it is now probable that the future base of the civilized world will be even worse than it is today and that this disastrous war will spread still more."

"Our dead country stands at the point where Europe and Asia joins. It groans midst these flames and stands as an oasis of peace and calm."

Texas Tech Rodeo Set Wednesday, Thursday

Postponed recently because of rain, the annual all-college rodeo of Texas Technological College with wild and sleek Wednesdays and Thursday nights at the Panhandle-South Plains fairgrounds.

Rodeo officials announced entries were closed and all contestants had paid fees. Events will include a sponsor contest, bareback and saddle bronc riding, steer riding, calf roping and ribbon roping. Professional stock from Paris is to be used.

Admission will be 25 cents for children and 50 cents for adults. Students activity tickets will admit students to the rodeos.

Nedra Seagler To Wed Hubert Sears Today

The marriage of Miss Nedra Jane Seagler, daughter of Mrs. C. G. Seagler of Acuff, to Hubert E. Sears of Los Angeles will take place at 3 o'clock this afternoon at the home of Ray Foults of the Idalou Church of Christ.

The bride will wear a soldier blue ensemble with black accessories.

Mr. and Mrs. Floyd Tidwell, also of Los Angeles, will be attendants.

The couple, graduates of Roosevelt High School, will be at home in Los Angeles where Mr. Sears is employed at an airplane factory.

U-Boat Activities On Increase, Is Claim

DEWSBURY, England, Nov. 1.—A. V. Alexander, first lord of the admiralty, declared today that Axis U-boat and mining activities had increased since the German attack on Russia last June 22.

Opening this Yorkshire town's "warship week" for navy funds, Alexander said money was needed for a great variety of war purposes, but that "nowhere is more urgent for continued expansion of our navy in all categories to meet a four-fold sneak attack from the air and from minis from torpedo and from surface raider."

MOVING

We Move Anything To Any Place

CHARGE OF THE WET BRIGADE—Troops of the 29th Division get a touch of tough going during First Army maneuvers in the Carolinas as with full equipment they swim a river pushing make-shift rafts.

Alaska Is Land Of Opportunities, Lubbock Boys Say; Return From Four-Months Trip To Anchorage Where They Were Employed

Alaska is a land of opportunities for young men and possibly for young women. George and Robert Blane, sons of Mr. and Mrs. W. M. Blake, 2807 Twentieth street, believe.

The Blake brothers returned Friday from Anchorage, Alaska, where they have been working the past four months. And a more enthusiastic pair of boosters for Alaska, you'll never find.

Sophomores in Tech

The boys, both sophomores in Texas Technological college, returned to Lubbock too late to enroll in school until the winter semester, but they're going back to Alaska next spring as soon as school is out. With \$1,100 in their pockets after three and one-half months of employment, no wonder they want to return.

The boys were employed by the U. S. Army Engineers on construction of the gigantic Elmendorf field near Anchorage, a \$33,000,000 project. They received \$1.10 an hour after taxes. They worked hard, but felt it advisable to return to the States rather than face the hard winter which almost struck before they left Anchorage, Oct. 21.

Days Were Long

When they arrived in Alaska in July the sun would rise at 2:30 a.m. and set at 10:30 p.m.—but when they left it was rising at 8:30 a.m. and setting at 4 p.m. Snows had begun to fall and the boys weren't anxious to get caught in an Alaskan winter, so they boarded the S. S. Alaska for Seattle and home. And what a trip home, both boys got seasick and we paid a steward 50 cents to keep emptying a five-gallon can for us every so often.

The boat took the "outside passage" through the Gulf of Alaska. They went up to Alaska on the "inside passage" where the waters are calm.

The boys went to Alaska primarily to visit a brother, William, who is stationed with the 24th Air Base squadron of the U. S. Army Air corps at Anchorage and there was such a need for workers they stayed on for the three and one-half months period.

Lubbock People In Anchorage

In Anchorage also are other Lubbock people, Mr. and Mrs. H. L. Cantelou and daughter, Mr. and Mrs. George Jackson and Mr. and Mrs. F. G. Follis and daughters, Jack Pitts, also of Lubbock, is working in the world's largest gold mine at Juneau and they visited briefly with him.

Anchorage is a city of 4,000

people and about the size of Lubbock or Levelland, the boys say. There are 125 private airplanes in the town with which most of the traveling is done over the area.

Houses in the town on the average are nine by twelve feet, one-room structures and cost about \$500. The average five-room home in Lubbock would cost approximately \$10,000 in Alaska.

The city has more bars per square foot than any place in the world, they estimate. While they were there, the first bomb-proof air raid shelter cocktail bar was built.

Defenses Being Strengthened

Alaska's defenses are rapidly being strengthened, the boys will

tell you. The government has even known sort of defense at the various places along the peninsula, either already built or under construction. Flies for the air corps are "the best in the world." They have to be, the boys say, in order to make the grade in Alaska.

Soldiers are everywhere and there is no known figures on how many the army has stationed there.

A great deal of secrecy is maintained regarding the various de-

fenses of Alaska.

"And you know what the soldiers like best of all," Bob said.

"Mail, they stand in line for letters from the states. If you know any soldier stationed in Alaska, write to him at least twice a week. Boys, they surely do appreciate the letters for there is nothing else for them to do. There are practically no single women anywhere and not much entertainment for the soldiers, at least for those who get only \$31 a month. A ten-dollar bill doesn't go very far when you're out for entertainment in Worth street.

May Provide Ceiling

The week's unfavorable news was climaxized by the announcement Friday of the sinking of the U. S. destroyer Reuben James off Iceland. However, support was encouraged by the indications that the House banking and currency committee may provide ceiling prices for farm products above 110 per cent of parity or eliminate the present price control.

Earlier this week service had been prompted by the strike in the "captive" coal mines. Another disappointment was the failure of any appreciable volume of gray-goods business to develop in Worth street.

During the week there were several reports of unfavorable weather in the belt, with rains

in East Texas expected to further delay picking and also to lower still further the grade of open cotton.

Increase Is Expected

In some quarters it is believed that the government's next crop estimate, Nov. 8, will record an increase in the prospects above the 11,061,000 bales reported in October. Meanwhile, the week reported a "second growth" of cotton on stalks left in fields and it was estimated that at least 50,000 bales would result from picking of this crop in Missouri, Tennessee and Arkansas.

Graygoods sales in the textile district this week were estimated at not more than 6,000,000 yards, reflecting trade dissatisfaction with certain parts of the OPA ceiling price order recently issued.

Fishing Great Sport

Fishing is a great sport and Bob reported one day he caught 40 pounds of salmon with a snap line in less than thirty minutes. The day before they left, someone caught a 32-pound trout near Anchorage, a record catch.

"Most any young man can do what we have done," the boys will tell you, "if they leave liquor alone. But carousing is so expensive and so continuous up there that it will strip anyone no matter how much money he may have."

The two boys, George, 20, and Bob, 21, plan to "buckle down" to their education during the winter and spring months at Tech but you can bet your bottom dollar

(By The United Press)
NEW YORK, Nov. 1—Cotton futures held up well this week with bearish news offset by growing prospects that farm products will be accorded favorable treatment in the proposed price-control bill.

At Friday's close, prices were down only 7 to 15 points—35 to 75 cents per bale—compared with last Saturday. The October position was nominally 25 points lower on the week.

May Provide Ceiling

Wildcat Activities Still Holding Spotlight In Area; New Production Drops

Slaughter Field Adds 16 Wells

By JOHN E. BREWER
Special Oil Writer

Staking by Amerada Petroleum Corp. of No. 1 Ruth M. Hudson, a scheduled 5,200-foot wildcat in Gaines county three miles west of production in the south end of the Wesson field, was one of the principal developments late in the week in the north part of the West Texas district.

Earlier, wildcats in Bailey, Borden and Andrews counties logged markers, one Yoakum county wildcat showed oil and gas in the main lime and another was abandoned.

New Production Drops

New production in the five most northerly producing counties in the West Texas Permian Basin rated, 18,955.4 barrels, by 19 wells, compared with 22,996.74 barrels by 25 wells in the same counties during the preceding week.

Sixteen of the completed wells were in the Slaughter field, II in the Hockley county supplying 12,615.55 barrels four in Cochran county 3,360.12 barrels and one in Terry county 1,542.84 barrels. One well in the Wesson field in Yoakum county was good for 161.52 barrels and two in the Seminole pool in Gaines County registered daily potentials of 1,275.44 barrels.

L. C. Harrison and associates' No. 1 W. G. Nairn estate, Lubbock county discovery well and the most northerly in the district, after being shut in for eight days, pumped 166.37 barrels of fluid in 24 hours. Water amounted to 40 per cent at the beginning of the gauge but had decreased to 10 per cent at the end, it was reported.

The well is bottomed at 5,002 feet. Clear Fork pay lime has been shot and acidized. Location is 660 feet out of the southeast corner of section 25-A John H. Gibson.

Trying To Free Dull Pipe

L. C. Harrison and Tobe Foster No. 1 E. L. Steck, wildcat three miles west and slightly north of Harrison and others' No. 1 Nairn, was trying to free drill pipe, with the total depth 4,720 feet in lime. It is 467 feet out of the southeast corner of section 7-A John H. Gibson.

Amerada's No. 1 Ruth M. Hudson, Gaines county wildcat, will be 600 feet from the north and west lines of section 60, block AX, public school land. Darby Petroleum Co. of Wichita, Kan., which has the lease on all section 61, adjoining section 60 on the north, except the south half of the southeast quarter, is contributing dry hole money. Argo-Oil Corp. is giving acreage out of section 64, which is diagonally northwest of section 60.

Sinclair-Prairie No. 1 Charles J. Kleiner, Yoakum county wildcat 330 feet out of the northwest corner of section 436-D John H. Gibson, was a slight showing of gas at 5,140 feet, a slight increase at 5,225 feet. It drilled ahead, unchanged, at 5,294 feet in lime. The solid lime was topped at 4,710 feet, 1,080 feet below sea level, corrected 52 feet higher than in Geo. P. Livermore, Inc., No. 1 Shell-Owned by operator of the Ownby pool 31½ miles to the southeast.

Test Is Abandoned

Honolulu Oil Corp. No. 1 1-3 L. H. Wright, wildcat seven miles northeast of the Ownby pool, was abandoned at 5,410 feet, with 3,500 feet of salty sulphur water in the hole. The first salt water was bailed at 5,261 feet, the first sulphur water was encountered at 5,277 feet and increased as drilling progressed.

Broderick & Calvert, Amon G. Carter and others' No. 1 G. H. Hayward, northwestern Bailey county wildcat in the center of labor 24, league 173, Sutton county school land survey, with elevation of 3,923 feet, was credited with toping the anhydrite at 2,250 feet and the salt at 2,310. It drilled ahead below 2,900 feet in salt and anhydrite.

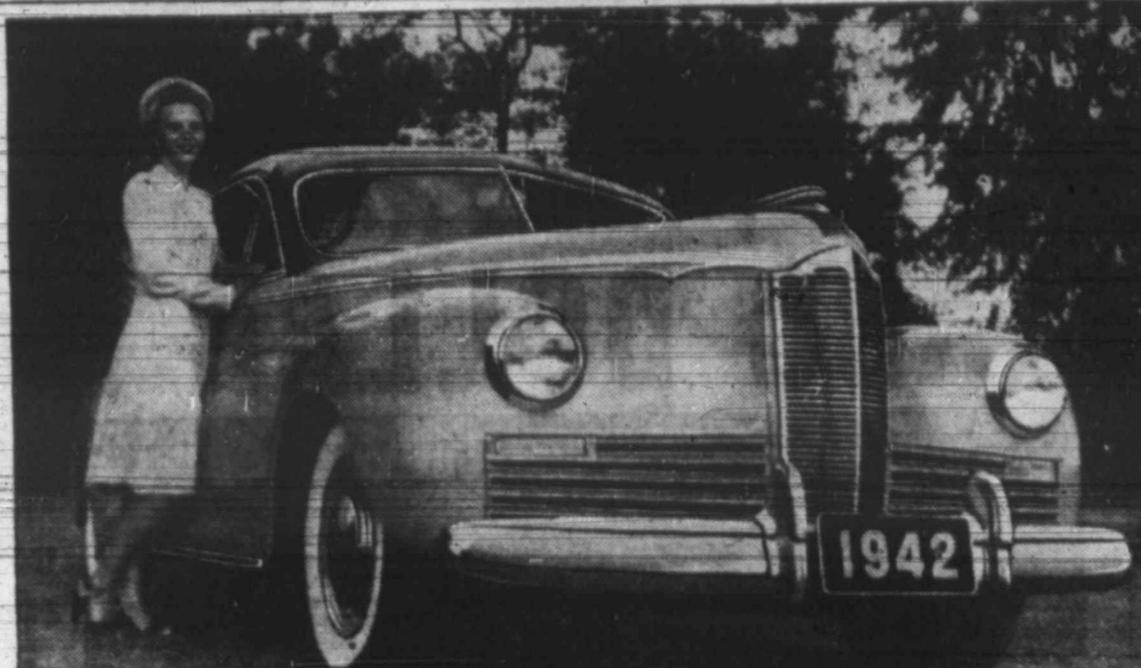

American Drilling Corp. No. 1 W. T. Hufnall, Terry county wildcat in the southeast corner of section 14-D14-C&M, had passed 5,150 feet in lime.

Anderson-Prichard Oil Corp. and American Drilling Corp. No. 1 W. L. Ellwood estate, scheduled 5,500-foot wildcat in northeastern Hockley county, spudding Oct. 24, had drilled below 1,900 feet in red beds. It is 467 feet out of the northwest corner of section 15-A-R. M. Thompson.

Crosby Test Down 3,375 Feet

Crosby & Waggoner No. 1 E. M. Wahlenmaier, Crosby county wildcat in the northeast corner of section 3-1 WTR, had drilled to 3,375 feet in lime.

Anderson-Prichard and Osage Drilling Co. No. Clayton & Johnson, Borden county wildcat on a Pure farmout, had drilled below 2,784 feet in sand lime. With elevation of 2,913 feet, it topped the brown lime at 3,210 feet and the solid lime at 3,300. M. L. Rich-

NEW PACKARDS SHOWN HERE: The Jim Blake Motor Co., Avenue J and Tenth street, is currently displaying the 1942 line of Packard automobiles, it was announced yesterday. Called "The 20th Series Line," the new Packard models embrace the "Clipper" which is similar to the standard One-Twenty; the One-Ten, the One-Sixty and the One-Eight Super Eight. Windstream styling is a feature of many of the models. The Jim Blake Motor Co. is a newcomer to Lubbock's automobile circles but is not new to this section. It operates under the same name and ownership in both Seagraves and Levelland.

Lubbock County's Quota For United China Relief Set At \$1,000; Donations Are Made

Texas has been asked to raise \$200,000 for United China Relief and Lubbock county's quota in the campaign has been set at \$1,000. H. W. Stanton, county chairman, announced Saturday. Mr. Stanton was appointed to the post by National Bank in Dallas and state chairman of United China Relief in Texas.

Lubbock's contributions are already coming in voluntarily, the business section is razed by fire, and factories and public utility plants are burned and blasted or their machinery is removed. In most places the residential sections, with the exception of those bordering highways, are left intact. Thus shelter at least remains.

Picture Of Swift Destruction Seen In Visit To Soviet Front

BY ERNEST G. FISCHER
Associated Press Staff Writer

BERLIN, Nov. 1.—A picture of swift destruction and wreckage construction lingers in the mind after a visit to the southern sector of the German-Russian front.

On a 2,500-mile tour by bus and railway behind the German lines, foreign correspondents had an opportunity to see a dozen war-torn towns.

It is a mistake to assume that all the towns from which the Russians have withdrawn have been destroyed completely.

Shelter Still Remains

Although invariably the central business section is razed by fire, and factories and public utility plants are burned and blasted or their machinery is removed. In most places the residential sections,

with the exception of those bordering highways, are left intact. Thus shelter at least remains.

Tobacco Buys Anything

Tobacco will buy almost anything on the market square. In larger transactions, wheat frequently serves as a medium of exchange.

Ukrainians have found many uses for wheat straw. It is used for bedding, for roofing, for padding of clothing, for fuel.

Branches of the willow trees

"CANNED CACTUS"

Mexican cooks use the young, tender leaves of the opuntia cactus in many dishes, now offers "canned young cactus."

which flourish along Ukraine streams are plaited into fences, building material, corn cribs and wagon beds.

Despite all these makeshifts, there is no evidence of scavenging of parts, which peasants conceivably could use, from the thousands of wrecked tanks, trucks, tractors, motor cars and cannon are set up.

This military debris remains along highways on battlefronts until German salvage crews get around to hauling the machines to the nearest concentration point.

The two players were killed outright as they were tackling. The spectator who was killed had just arrived to watch the game.

No property damage was reported. Although Dover's shellfire warning was sounded, housewives continued to throng the streets to do their Saturday marketing.

Football Players, Fan Killed By Nazi Shells.

LONDON, Nov. 1. (AP)—Two football players and a spectator were killed today by a German long-range shell which was fired across the English channel and burst in the vicinity of Dover, on the English southeast coast.

In addition a small number of persons were injured. The shell was part of two salvos of two shells each which burst in the Dover area within a period of half an hour.

The two players were killed outright as they were tackling. The spectator who was killed had just arrived to watch the game.

No property damage was reported. Although Dover's shellfire warning was sounded, housewives continued to throng the streets to do their Saturday marketing.

Motor Busses and Military Highways

In a country as large as the United States, broad, smooth highways are of primary importance in national defense. And highways are built by taxes, of which the motor bus lines pay their full share.

In fact, every year, the motor bus lines pay out enough in taxes to build a modern, streamlined highway from the Canadian border to the Gulf of Mexico.

Thus, entirely aside from service to the public, America's motor buses more than pay their way in taxes alone. Joseph B. Eastman, Chairman of the Interstate Commerce Commission, says that thousands of buses pay more than double their share of the cost and maintenance of the highways they use.

Don't get me wrong. I wasn't born with any gold spoons in my mouth. My pop is just an ordinary hard-working fellow and he and mom don't live fancy. But they're happy.

The other night mom was showing pop my new electric bottle warmer, and he said we're lucky to have such handy electric things, and to be able to buy them. That got him started talking about his job and he said American workingmen are much better off than workingmen in other countries. He said a big reason is because American factories use so much more electric power and that means men like my pop can turn out more work and therefore make more money for his boss, Mr. Hardy, and more for himself, too. And Mr. Hardy can sell his products cheaper, so more people can buy them and that helps everybody. That's why people like my pop and mom are really rich. Because they're rich in the things that make life more enjoyable.

Action On Texas Freight Rate Levels To Be Asked In Fall WTCC Convention

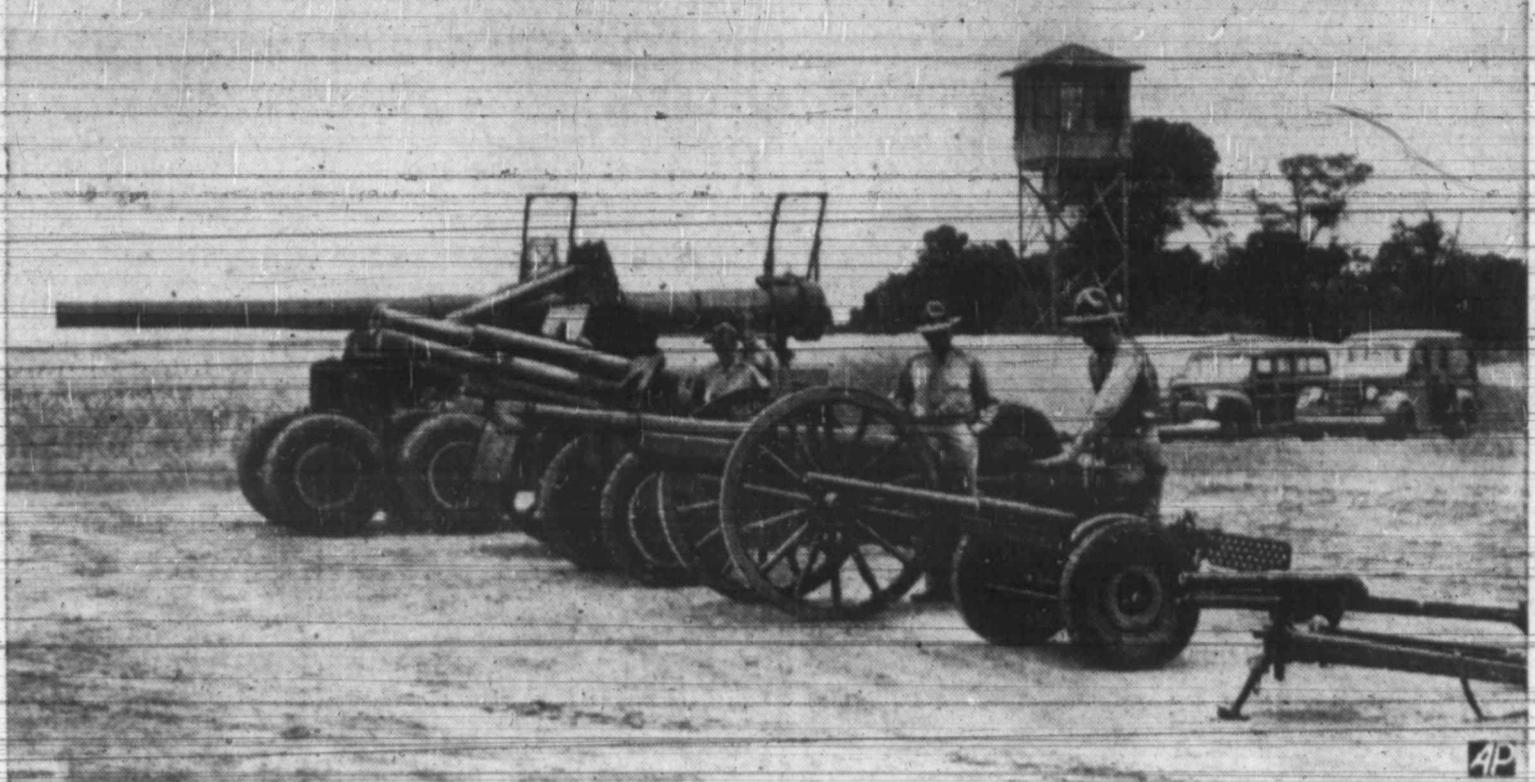

Session Opens In Midland Monday

(Special To The Avalanche-Journal)
MIDLAND, Nov. 1.—Forthright to-the-point action on Texas freight rate levels, declared to be unreasonably high in comparison with levels in states east and north, will be demanded by the West Texas chamber of commerce at its convention opening Monday in Midland.

The house of delegates, sitting in business session Tuesday, will receive declarations from the convention work committee calling for independent Texas participation in the interterritorial rate investigation now being made by the Interstate Commerce commission; for complete portrayal of the Texas case for rate equality; asking that the railroad commission be the official agency to represent Texas in the national case. Going straight to the top—the governors—the declarations will solicit the weight and powers of the executive office in making effective the entire program.

Sadier To Speak

A member of the Texas commission, Jerry Sadler, will address the WTCC delegates Tuesday afternoon at 2:30 on "The Rail and Transportation Charges." Advance copies of the address have been made available. Sadler, who has seen the elimination of rate discrimination and giving all sections equality as an important in national defense as any other factor. He will say that a square deal and equal protection keeps up confidence in government and industry; that right now confidence is the abolishing of Texas rate differentials makes possible a million dollar saving a year to shippers; but discriminatory class rates are costing Texas shippers 15 to 20 millions annually, and this great injustice must be removed. Texas, he will contend, has been more than generous to the railroads in gifts of public lands and grants of differential surcharges and bonus class rates, all to the amount of more than \$600,000,000 from pioneer days to present. He will assert that Texas would now like a little generosity in return, and that the railroads should heed their own warning crossing signs!

AP
PLENTY OF POWER ON THE FIRING LINE—Guns used to test smokeless powder produced by Hercules company at the new Radford, Va., plant come in assorted sizes. Right-to-left: 37 mm. infantry gun; 37 mm. anti-tank gun; 75 mm. field gun; 105 mm. howitzer; 155 mm. howitzer; 155 mm. field piece. Illustrative of firing technique is this: 155 mm. field gun, whose 30-pound charge can project shell 24 miles, in tests fires 95-pound metal slug into tunnel. Wire screen through which slug travels records velocity.

to "stop, look and listen." They will be other declarations for the delegates' consideration, among them:

For the creation of a West Texas post-war economy and project board, calling upon affiliates to work up and get approval of constructive, non-competitive, federally financed projects for taking up slack with the coming of peace and the expected letdown in employment, production and income.

Curtailment of non-defense curtailment of non-defense expenditures during the defense emergency.

Against strikes in defense industry, appealing to congress for corrections of labor abuse.

Urging cooperation by affiliated units in the WTCC's Defense and Protection contest.

Reaffirming the organization's long-time over-all work program.

Dental equipment from the United States is in demand in Brazil.

"Incidents" Reported Over France In Answer To Plea

(By The Associated Press)

VICHY, Unoccupied France, Nov. 1.—Five incidents, all in the restricted military zones of occupied France, occurred yesterday during the five-minute standstill called by Gen. Charles de Gaulle, Free French leader, officials said.

Government circles said they

considered the strike a complete

failure and suggested that sus-

pension of the execution of 100

hostages at Nantes and Bourdeau-

had taken the wind out of De Gaulle's sails.

place in one factory.

At Epinal, where Frenchmen recently were shot by a German firing squad for possessing arms, a schoolmistress held a demonstration in her classroom.

Government circles said they

considered the strike a complete

failure and suggested that sus-

pension of the execution of 100

hostages at Nantes and Bourdeau-

had taken the wind out of De Gaulle's sails.

EVOLUTION

Charles Darwin was not the originator of the evolution theory. His grandfather believed in it as did several other men. In 1801, eight years before Darwin was born, Lamarck published a book on the subject.

Queen Selected For Canyon Homecoming

CANYON, Nov. 1.—(Special to The Avalanche-Journal) Two queens always add glamour to homecoming occasions at West Texas State Teachers college.

First of these queens to be selected is Miss Muriel Phey of Lockney. She is the football queen, selected by the athletes at a special meeting. Miss Phey will be crowned at 2:15 p.m. Saturday, November 8, just before the kickoff in the Buffalo-St. Mary's football game. She will be escorted by Co-Captains Cletus Kuehler and Fairy Hill.

Attendants of the queen, and their escorts, will be as follows:

Betty Brandon of Plainview, Larry Sanders, Betty Whitlock of Tucumcari, Ben Collins, Marion Evans of Post; Judd Forbes; Charlotte Word of Ashtola, Warren Lockhart.

National Publicity Is Given Tech Cow

National publicity has been released by the Holstein-Friesian Association of America to extoll the productive virtues of a Texas Technological college cow.

Says a release from Brattleboro,

Vt., home of the association:

Aids National Defense

"Contributing her part to national defense is Tech C'lasiba Hartog, 1969524, a 3-year-old purebred Holstein cow with her first calf owned by Texas Technological college of Lubbock, Texas.

"She produced 5,987 quarts of

milk this past year and 407.7

pounds of butter fat."

"If all the nation's dairy cows

were equal to this Holstein there

would be an abundance of milk,

butter and cheese for the United

States, Great Britain and other

needy countries."

Records show the cow was

milked two times daily and that

her production for the entire per-

iod was supervised by Texas

A. & M. college and this associa-

tion."

Have Others Better

W. L. Stangel, head of the de-

partment of animal husbandry at

Tech, laughed when informed of

the story.

"It's true, in every detail," he

said, "but we have better cows."

Stangel explained that the Hol-

stein-Friesian association dished

out the Brattleboro story to show

what "good cows" could do in

times such as these, when in Tex-

as alone the government has

asked farmers and dairymen to

increase production of milk 18 per

cent."

The association made no at-

tempt to single out the best cows,"

Stangel said, pointing to another

Tech milker.

Takes Flowerdale Echo Cynthia

for instance," Stangel said. "In

one year's time she gave 26,032

pounds of milk, which would be

approximately 12,093 quarts as

compared with the publicized

Colantha's 5,087, and 818 pounds

of butter fat—twice as much as

the other cow."

Royal Air Force Cuts Wide Swath Along "Invasion Coast" And Italian Bases

Enemy Vessels Are Attacked

LONDON, Nov. 1. — RAF pilots, ranging up and down Britain's blockade front from Norway to the Bay of Biscay last night and today rained bombs and torpedoes into 11 or 12 Axis ships and left five and wreckage in France and Germany, air ministry reports said.

In one frenzied attack on a convoy, an RAF squadron leader swept down the middle of a row of ships to pick out the heaviest

EAGLE SCORES
LONDON, Nov. 1.—The American Eagle squadrons shot down more German airplanes in October than any other RAF fighter squadron, the air ministry said, serving as testimony.

Three American volunteer pilots destroyed nine of the St. German planes credited to the fighter command for the month, a statement said.

All of the Eagles' victims were shot down over Axis-occupied territory,

laden one and dump his bombs on its decks, it was said. A "tremendous explosion" followed and flames leaped 500 feet in the air, high above his speeding plane, the ministry reported.

Blast "Invasion Coast."

Stepping up its battle of the west, the RAF hurled a mile-long formation against the French "invasion coast" after an overnight bombing which was reported to have hit 10 ships at sea and key cities in Germany, occupied France and Italy.

Watchers at Deal, on England's southeast coast, saw the day shift go into action, heading toward Calais and Boulogne through squalls of snow, sleet and hail with an armada that blotted out a mile sky for the brief moment it swept overhead. None of the planes flew above 200 feet and the drop wash of some kicked up channel spray in their wake.

Ten Enemy Ships Hit
Ten vessels, including a tanker, a large supply vessel and an escort ship were reported hit last night off the Norwegian coast and the Frisian Islands along the Dutch coast.

A number of others were attacked but it was not possible to observe the results," an air ministry communiqué added.

The RAF struck anew at Naples, on the shin of the Italian boot, and the Sicilian ports of Licata and Palermo, but the British report on these raids, apparently by the Middle Eastern RAF command, had not been received.

The Italian high command, however, did report them.

Rome Admits British Raids Wreak Damage

ROME, Nov. 1. (UPI)—British airplanes bombed the Naples area, Licata and Palermo yesterday and last night, causing slight damage, fires and a number of civilian casualties, a war communiqué said today.

The communiqué said British bombers attacked both during daylight Friday and last night and that Italian pursuit ships broke up the enemy formations at a low altitude south of Sicily, shooting down one bomber and setting fire to another.

German Bombers Strike
German bombers attacked Tobruk, the British base on the Libyan coast, and bombed airports and mechanized units east of Marsa Matruh, the communiqué said, reporting that two more British planes were shot down in Africa.

An Italian plane forced a British plane down near the Barca area and the crew was taken prisoner. British troops attempting to approach the Italian lines around Tobruk were repulsed.

November Term Opens Monday

Judge Daniel A. Blair Monday will convene the seven-week November term of 72nd district court by impaneling a grand jury.

Judge E. L. Pitts of 99th district court has a civil jury reporting.

For Judge Blair the term will be his first in Lubbock under the new rules of civil procedure. Land title forgeries, forgeries and burglaries, several desertion, an armed robbery, a "Blue Sky" and a rape case are among those to be tried or formally charged in complaints to be given to the grand jury for attention, said Burton S. Burks, district attorney.

Injunction Cases Set
Judge Blair has set aside the week of the 17th for criminal hearings, and there will be five weeks set apart for trials.

Three liquor injunction cases have been set down for hearing by Judge Pitts this week, naming Mrs. W. L. Arendal, J. E. Hilton and J. L. Pipes, court officials said.

Thanksgiving Turkey Prices Set In Britain

LONDON, Nov. 1. (UPI)—An American in England buying a Thanksgiving turkey will have to pay 85 cents a pound for drawn birds, a price set today by the food ministry to curb a trend toward even higher figures.

London prices are expected to point 33 1/3 per cent above the pre-war figure with announcement that the board of trade had allowed a new increase of 8 1/3 per cent.

BIRD SHOWER
In 1896, a shower of birds dropped from a clear sky in Baton Rouge, La. Catbirds, ducks, woodpeckers, and many strange birds fell in heaps about the streets.

WPA Compiles Weather Data

BY O. H. KNIGHT
United Press Staff Correspondent

WASHINGTON, Nov. 1.—Now the WPA is turning some of its workers into weather men.

Millions of weather readings collected at thousands of points in recent years will be compiled in a WPA project to provide new aids for long-range weather forecasting.

The project calls for compilation of rainfall and temperature figures to aid the army plan training and maneuvers; flood frequencies and intensities for guidance in field operations; and location of defense plants; wind and fog over oceans, important to the operation of naval vessels and military aviation; and temperature and humidity figures for use in planning work schedules in defense industries and regulating manufacture of certain chemicals.

Coastal Water Included

In announcing the new project, Work Projects Commissioner Howard Hunter said that the observations to be compiled have been made not only in the continental United States and Alaska, but in "regions of the Atlantic and Pacific coasts of the Western Hemisphere."

Compilation of climatological data, he said, are urgently required on short notice for certain operations of the armed forces.

Working under the directions of the Weather Bureau, WPA clerical workers will compile the data, collected in recent years, into forms which will enable meteorologists to predict conditions more accurately for extended periods at given places and altitudes on given day and perhaps hour.

The project will extend to new and strategic areas as a type of meteorological research through which the WPA already has made available new means for foretelling winds, rains, fogs and sunshines that affect defense operations.

Summaries Cover 5 Years

The Weather Bureau has already compiled five-year summaries of hourly observations of visibility and ceiling heights at some 260 continental airway stations.

Under OEM Sponsorship
The project is under the technical sponsorship of the Office for Emergency Management, part of the WPA National Defense Research and Records Assistance Project.

The army air force will place special requests with the Weather Bureau for tabulation of climatological data it needs.

"The importance of extensive knowledge of climatology and accurate forecasting of weather conditions in the areas of military operations have been demonstrated in the campaigns of the European war," said Dr. Francis W. Reichelderfer, chief of the Weather Bureau.

"Much basic material will be made available by this WRA project to help the meteorologists of the army and navy as well as those of the Weather Bureau to predict weather conditions of importance in defense operations."

ACCIDENTAL DISCOVERY

One of the largest mastodons ever found in America was discovered when a Cromwell, Ind., youth stubbed his toe on one of its 84-pound molar teeth in 1931.

Women in the middle and higher income levels spend most of their clothing budget on outer garments such as dresses and suits,而由 coats and wraps, foot-wear, hose, underwear and night-wear, and hats in that order.

Men in this country spend between \$14 and \$190 for clothing each year, while the feminine outlay for apparel is between \$13 and \$273, the board disclosed.

Only in families with an income of \$5,000 or more annually do women spend a substantially larger sum on clothing than do their menfolk. In these families the women average \$273, compared with \$199 expended by the men—a difference of \$74.

Outlay As Low As \$13

In families with an income of \$500 or less yearly, men spend \$14 to the women's \$13. Where the income is between \$500 and \$1,000, the men and women spend the same amount. Between \$1,000 and \$1,500, the women are slightly ahead, with \$35 to \$33 for the men.

At the \$1,500-\$2,000 income group, men spend \$45; women \$51;

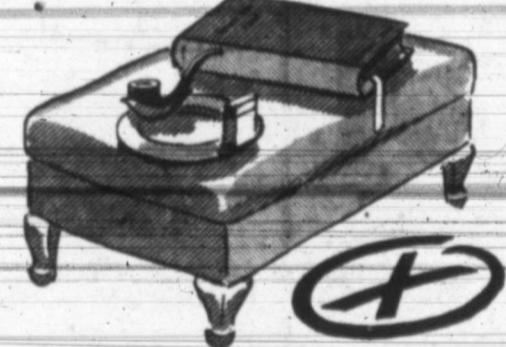

the \$2,000-\$3,000 group, men \$62; women \$70, and in the \$3,000-\$5,000 level, men \$85 and women \$104.

Women in the middle and higher income levels spend most of their clothing budget on outer garments such as dresses and suits,而由 coats and wraps, foot-wear, hose, underwear and night-wear, and hats in that order.

Coats and wraps are a larger expense than shoes in the women's budget, while the men spend more for shoes. Hose rank higher on the feminine list than on the masculine, but both sexes relegate hose and caps to the least expensive part of the wardrobe.

Substitute fuels will be used to operate buses and taxis in Japan.

Swing Music "Out" For Strutting Texas Longhorn Band; Marches For Gridiron

Military Cross Given For Unusual Exploit

LONDON, Nov. 1. (UPI)—Naked and unarmed in the wilds of East Africa, Second Lieutenant John Zirk Van Gass Boshoff captured two Italian soldiers and routed eight others, the war office said today in awarding him the military cross for the exploit.

He encountered the Italians unexpectedly when he emerged from the Omo river after swimming the stream to facilitate the crossing of his company of East African engineers, the citation said.

and conducting

A major in the British army during the last war, Hurt was told when it was over that he would have to go to Arizona for his health. When he reached New York Arizona seemed too far away, so he went to Asheville, N.C. instead.

March For Football

Colonel George E. Hurt, director of the Longhorn band, says hot music is fine for dancing, but "what you need for a football game is a march."

"Swing has contributed much to music, particularly in tone color development." In swing, however, there ought to be soles so that a player can improvise—"take off," or go "out of the world," as the jazz fans put it.

It's next to impossible to hear an instrumental solo in a big stadium, the colonel points out.

Coastal Water Included

In his first year on the University of Texas' multi-million-dollar "forty acres" campus he doubled the size of the band, which now has a membership of more than 300.

The university owns all of the band's equipment, which is valued at \$21,000 and includes \$5,000 worth of uniforms and instruments for all hands.

To get choice young musicians to the university, the Longhorn band and the athletic council annually plays host to high school organizations at one of the home football games.

This year 58 bands turned out for a double-barreled parade, one on

Austin's Congress avenue and the other on the forty acres.

Former Resident Has Reason To Continue "Visit" To Wyoming

Lotta fellows leave Lubbock but drift back.

Jack Gates, son of Mrs. L. V. Gates of 2418 Avenue K, may not return.

Gates, who likes to hunt, left in 1932 for Gillette, Wyo.

To his friends, who may have wondered why he remains away, the following may be an explanation:

Gates recently returned to Gillette from a hunting trip in the Jackson Hole country, and had with him a 5- or 6-year-old deer that dressed out 233 pounds of meat. The deer, largest ever shown in Gillette, must have weighed 423 pounds on foot, it was related.

Gates also shot an elk.

While the labor camp is only temporary here this year, officials of the Texas Unemployment Service, the Scurry county Chamber of Commerce, Junior Chamber of Commerce, Snyder Lions club and other organizations hope such a camp will be permanently located here next year. Such a headquarters from low-income wage earners will do much to alleviate the conditions that prevail here in the late fall, when hundreds of cotton pickers and harvest hands, en route to the "tall timber" from the "Baldies" or South Plains after cold weather, hits, get stranded and have no funds to operate their second hand cars, trucks and "jalopies," and no food to live on.

ONE OF MOST POPULOUS

Java is one of the most thickly populated places in the world.

Forty million people occupy its less than 50,000 square miles of

Labor Camp At Snyder Set Up

(Special To The Avalanche-Journal)

SNYDER, Nov. 1.—H. W. Roberts of Dallas, representative of the Texas State Employment Service, has established a migratory labor camp here, one block north of the square at the city tabernacle, and has registered more than 700 transients during the first five days of operation.

Roberts, who has wide experience in dealing with migratory farm labor, states the camp is operating smoothly, and that some 200 people have already been placed with Scurry county farmers to assist with feed and cotton harvesting operations.

Is Only Temporary

The migrants, often referred to as "Oaks," have welcomed the security offered by the popular camp, especially during the inclement weather that has prevailed

the past two weeks.

While the labor camp is only temporary here this year, officials of the Texas Unemployment Service, the Scurry county Chamber of Commerce, Junior Chamber of Commerce, Snyder Lions club and other organizations hope such a camp will be permanently located here next year. Such a headquarters from low-income wage earners will do much to alleviate the conditions that prevail here in the late fall, when hundreds of cotton pickers and harvest hands, en route to the "tall timber" from the "Baldies" or South Plains after cold weather, hits, get stranded and have no funds to operate their second hand cars, trucks and "jalopies," and no food to live on.

</

The
Woman's Angle
By Margaret Turner

WRITE on your heart that every day is the best day of the year."—Emerson.

WITH 39,000 soldiers to entertain regularly, San Antonio has instituted a week's course for young women on how to make friends with the military visitors. The instruction is given under the auspices of the local recreation association and the pupils are recruited from churches and social service organizations.

"Ice-breaking" songs, suggested conversational topics and parlor games are in the curriculum.

THANKSGIVING FLOWERS— Thanksgiving gifts of flowers and plants will give you pleasure twice as long if you ask your florist for advice on their care and follow it conscientiously. Keep them away from the heat of lamps and stoves.

Remember that crowding of fresh flower arrangements is just as unhealthful as it is inartistic. Woody types of flowers, like chrysanthemums, should have their stems broken off under water as soon as you receive them; roses and most other flowers should have their stems cut off under water with the slanting stroke of a sharp knife to provide a maximum area of breathing space.

SCATTERINGS

Muriel Lester, England's famous pacifist who is in the United States on a lecture tour, said recently if the world would permit, solution to the war and peace let it adopt as its constitution the Sermon on the Mount and then practice the forgiveness and reconciliation embodied therein. Whether for comfort or individuality we wouldn't know, but we notice more college boys than ever are preferring cowboy boots for campus wear this fall. When we are constantly reminded that practically everybody is taking pills and pellets and powders these days we wonder if nobody feels well. Lieut. Ross Ayers of Camp Bowie, visiting here last week, told of being with a group of soldiers that walked 41 miles one day during Louisiana maneuvers, including the General's men but the wily general eluded them. The Ayers broke another Lubbock tie last week in selling their home.

Charming Frances Pope, pictured in the center of this page, is said to be one of Austin's best-loved girls. Her brother was in fiance John Vickers' law class at the University of Texas and her father and John's father were classmates there a generation ago. Mrs. W. C. Holden's eyes are as dark a shade of blue as the bottomless lakes near Roswell. Margery Hills looks like a model in her bright red dress and sunburst fur coat and muff. Queried Mrs. A. V. Weaver, who confesses to being near-sighted, as she waved across the room the other day, "Was that my daughter Kathryn to whom I just waved?"

BRIDE-TO-BE RUTH MILDRID Rylander solved a problem at her tea—showed the other day, that has constantly arisen at similar parties, when she leaned a picture of her fiance William F. Love against the vase of flowers at the table where guests registered. Because always one wants to know "What does the bridegroom-to-be think like?" when she goes to a reception. Of course many of us know Bill but Ruth and they thoroughly enjoyed razing at the picture of the dimpled young man. One of the most interesting women we know, Mrs. John Butler of Guanajuato, Mexico, visited her mother, Mrs. J. M. Everett last week. She has lived in Mexico for a number of years, going there as a bride. Her husband is a mining engineer and she has pieces of silver jewelry that would be the envy of a buyer. Why do people say "striking" brunettes?

Speaking of brunettes, one of the prettiest girls we saw last week was Rita Pettigrew, dancing little figures, chasing birds (her own and not those wooden birds the co-eds are wearing) and turkey red corduroy dress.

When we hear grown men ridicule the playing of a high school boy on the gridiron we wonder if they stop to think that that 17-year-old boy has about two seconds to make a decision, get it over to his teammates and execute it. If those grownups had the idea they could think fast in a pinch why don't they do any better in traffic that suddenly comes along? We'll be clinging to the fond hope that some day we will get to see the traditional Turkey Day classic—the Longhorn-Aggie clash. A Lubbock lad, returning to army camp after a furlough here, wrote that by the time he got to Amarillo he was homesick and on leaving the Panhandle city to go north he felt worse than ever. His blues lifted somewhat when he realized that of all times he had been in Amarillo he had left there only once with a happy feeling, in the fall of 1939 when the Westerners gave the Sandies a score of 9 to 7 as something to remember them by.

KENT Cooper, general manager of the Associated Press has written a composition called "Sunset" which tells the story of the American home at the end of the long day when the wife's loved one returns. Dr. Frank Black says he believes it has all of the qualifications of a tune that will live because of its particular melodic appeal. We'd like to have been a guest at the Tech Faculty club party the other night to have seen President Clifford B. Jones dressed as a Red Raider, uniform, mercuriochrome and all. (Turn to Page 2, Column 3, Please)

LUBBOCK AVALANCHE-JOURNAL

Lubbock, Texas, Sunday, November 2, 1941

Week-End Society Features Activities Of Several College Groups

Gala Events Are Scheduled For Tech Exes Returning To Annual Homecoming

BUSILY planning breakfasts, teas, dances, luncheons and a coffee, five social clubs at Texas Technological college, Las Leales club, Tech Home Economics club, the alumni and ex-students association and the Tech Council of Women graduates will honor alumni and ex-students of the college at a number of socials to be given in connection with Tech homecoming this week end.

Homecoming headquarters will be at Lubbock Hotel where registration will begin at 8 o'clock next Saturday. Mrs. J. G. Keyes, president of the Council of Women graduates, has announced that the council will have a table at the hotel for assisting alumni in registration.

Two dances for the alumni will be held Saturday night at the college gymnasium and the hotel. Tickets are good for either dance.

The alumni and ex-students association Lubbock chapter, of which Mrs. Walker Nichols is president, will meet Wednesday night at 7:30 o'clock at the Lubbock Hotel to complete plans for their luncheon at 12 o'clock on Homecoming day.

Breakfast Is Planned

Saturday morning at 8 o'clock at the hotel, the senior division of the Home Economics club will entertain alumnae with a breakfast. Mesdames Frank D. Wilson is president of the Home Economics association of West Texas and is cooperating with the girls in giving the breakfast. Mrs. Keyes is vice president of the association, and Mrs. J. C. Griggs, secretary-treasurer.

Miss Jean Spencer, senior student in home economics at the college, is president of the Home Economics club. Committees for the breakfast are: social, Misses Nina Wright, Evelyn Meading, Wilma Rodgers and Shirley Reinhold; foods, Miss Nell Hill; entertainment, Misses Helen Foote, Roberta Johnston, Florene May, Wanda Kimbrell, Drucilla Smith; invitation, Miss Camille Graves; ticket, Miss Joanne Cox; reception, Miss Pauline Fly and decorations, Miss Monterey Ashley.

Special guests to be invited are Dr. and Mrs. Clifford B. Jones, Mrs. Eleanor Chittwood, Mrs. Mary W. Doak, Miss Margaret Turner, Lloyd Croslin, president of the alumnae and ex-students group, and Mrs. Nichols.

Musical Trio by Miss Beulah Dunn's pupils

"Contact," written by Mrs. Luther English; sung by Mrs. Carl Scoggin, accompanied by Mrs. C. E. Herford.

"Three Crosses," written by Mrs. T. E. Buckner; sung by Rex Webster, accompanied by Mrs. P. H. Lavery.

Senator Formby's address.

Edwards Residence Is Scene Of Gay Party

Mesdames J. L. Edwards and M. G. Hartman entertained with a Halloween party Friday night in the Edwards home, 2802 Locust street. Guests came in costumes and the party featured games of forty-two.

Refreshments were served to Messrs. and Mesdames Jess Wofford, Peter Bynum, Carl Patrick, William Grady, Parker, Jesse Hill, Odas Pilkinton, Frank Gray, Lloyd Edwards, John Lockhart and Peter Ray.

Misses Ruby Mavidin, Bessie Jo Taylor and Wanda Martin and Mrs. Lois Taylor of Weatherford.

YMC Methodist Class Has Party At Park

The YMC class of the First Methodist church, which is composed of young married couples, met at the recreational center of the Mackenzie state park for a Halloween party Friday night.

Those attending were Messrs. and Mesdames Douglas Adams, Alvin Cleary, Curtis Cheaney, Ralph Douglas, Arthur Earl Gamble, Eulin Hastings, Haskell Lynn, Elwin Mathews, Lynn Rowan, Bill Sasser, Ben Slaughter, Bill Snell, Ralph Wyatt, Dr. and Mrs. Milton Adams and Ralph Brock, teacher.

Dahlia Society Is To View Garden Scenes

Progressive pictures taken of gardens of members of the South Plains Dahlia society will be shown at a meeting of the society Thursday night in the home of Mr. and Mrs. J. B. Rhodes, 1717 Twenty-eighth street.

An election of officers will be

MISS FRANCES POPE

Date Will Be Told At Tea

Two Entertain Saturday For Bride-Elect

Betrothal Of Couple Told

MRS. Alexander Pope of Austin has announced the engagement of her daughter, Miss Frances Pope, to John Edward Vickers, Jr., of Austin, son of Mr. and Mrs. J. E. Vickers of the Plainview highway.

The wedding will take place at the home of the bride-elect on Dec. 27. The couple will live at McGuire's. Mrs. Mary W. Doak, dean of women, will be a guest at the breakfast. The Forum will go to the women's new dormitory on the campus for lunch.

In the receiving line were Mrs. Arthur Sawyer of Brownfield, mother of the bridegroom, Mrs. Lee Stone of Houston, matron of honor; Miss Hallie Houston, maid of honor; Mrs. Joe Riley and Miss Geils Thompson of Dallas, and Miss Irene Graves of Austin, bridesmaids.

Mrs. M. B. Sawyer of Brownfield, grandmother of the honoree, presided at the book table.

Miss Pope attended Hockaday school and the University of Texas as where she was a member of Kappa Kappa Gamma sorority. She made her debut at the Idlewild ball in Dallas in 1938 and last winter attended the Trapagen School of Fashions in New York. She is president of the Cotillion club in Austin.

Mr. Vickers is a graduate of Texas Technological college and the University of Texas law school. He belongs to the Bachelor club of Austin. He was head of the finance tax division of the secretary of state's department before his induction into the army.

Miss Ruth Horn will speak on her trip to South America at the meeting of the Colleum, an organization for independent women of Texas Technological college.

The meeting will be at 7:30 p.m. Wednesday night in room 101 of the chemistry building.

The public is invited to attend.

Bookman Group Meet

A number of meetings of Bookman groups have been scheduled.

Bookman group two of the American Association of University Women will hold a meeting Wednesday night at 7:30 o'clock in the home of Mrs. R. T. Groves, 2519 Twenty-sixth street. Mesdames O. T. Williams and W. C. Watts will be assistant hostesses.

(Turn to Page 4, Column 4, Please)

Tech's Greenhouse To Be Visited By Club

A trip to the greenhouse at Texas Technological college will be made by members of the Lubbock Parent-Teacher council, will open a joint Parent-Teacher study course for Junior and Senior High school patrons Thursday afternoon. O. B. Howell will speak to the group.

Preceding the visit to the greenhouse, members will meet in the home of Mrs. J. R. Jameson, 2625 Nineteenth street, with Mrs. Kenneth Leftwich as hostess.

Miss Ruth Horn will speak on her trip to South America at the meeting of the Colleum, an organization for independent women of Texas Technological college.

The meeting will be at 7:30 o'clock Wednesday night in room 101 of the chemistry building.

The public is invited to attend.

VFW Auxiliary Makes Armistice Day Plans

Plans for their part in the parade and breakfast November 11 will be discussed by the auxiliary to the Veterans of Foreign Wars Tuesday night at 8 o'clock meeting at the Hilton hotel.

The organization is making banners for the Red Cross drive. It was announced that 256 Red Cross garments had been completed.

"What helps direct one child won't help with another," she said. "Things they do on Tuesday they won't do on Thursday. Bad habits of this week are gone next week."

The aim should be to direct with the child's problems "wisely as they appear."

"It is not just a matter of correcting bad habits, but of directing the child so he will not develop bad habits," she stated.

Not only does Miss Callan direct the instruction of stu-

dents in her department, but she supervises the nursery school in which 17 Lubbock children spend several hours daily and she or Miss Bernice Borgman meets with a study club of parents of the children in the nursery school.

Miss Borgman came here last fall from the University of Maine to be assistant professor in child development.

The nursery school serves as a laboratory for instruction of students studying child development. The students spend part of the time observing and part of the time assisting in the nursery school.

A long waiting list indicates the popularity of the nursing school with Lubbock parents.

(Turn to Page 4, Column 4, Please)

Tech Nursery School Serves As Laboratory; Enroll Seventeen

CHILD guidance would be much simpler if a definite set of rules could be established, said Miss Sammie Callan, head professor of child development and family relations at Texas Technological college.

Miss Borgman came here last fall from the University of Maine to be assistant professor in child development.

The nursery school serves as a laboratory for instruction of students studying child development. The students spend part of the time observing and part of the time assisting in the nursery school.

A long waiting list indicates the popularity of the nursing school with Lubbock parents.

Mrs. Armstrong Gives La Docena Club Party

Mrs. Carl Armstrong, 1920 Twenty-second street, was hostess to members of the La Docena club Friday afternoon. Mrs. Powell McWhirter was a guest.

Mrs. H. L. Fink scored high at bridge and Mrs. W. K. Krieger won second high. Those attending were Mesdames Emerson Blake, C. A. Gammill, N. H. Holt, L. Earl Hunt, W. L. McAfee, J. D. Sanders, H. G. Ruegge and Cliff Widener.

Mrs. Robert Bean will enter

tain for the club November 13.

Council Study Is On Better Way Of Life

For a program on "Toward a Better Way of Life" to be directed by Mrs. T. Teal, the Woman's council of The First Christian church will meet at the church Monday afternoon at 3 o'clock.

An executive meeting at 2 o'clock will precede the regular meeting.

Circle five will be hostess with a social hour following the program.

(Turn to Page 4, Column 4, Please)

Luncheon Is Held Saturday By Pan-Hellenic; Forum Will Initiate Today

BEGINNING of November finds various college groups in Lubbock busy with customary luncheons, initiations and lecture sessions. Pan Hellenic society attended a quarterly luncheon at Tech Women's Dormitory No. 2 Saturday afternoon, naming as honoree Miss Daphne Stephens of Roby, sophomore student who won their scholarship last June by maintaining an A-minus average.

Tech Forum is sponsoring a meeting open to the public this afternoon. The Lubbock branch of the American Association of University Women is to meet Monday night.

The Pan Hellenic luncheon was served from buffet tables with Mesdames Bert Collard, B. C. Dickinson, Jack Henry and Jack Stone presiding. A fall motif was carried out in appointments.

The list included Mesdames T. B. Duggan, Al G. Fennell, Marvin E. Hillsburn, Lorrie Langston, Robert S. Stanton, C. L. Wall, Robert Wright, W. M. Clegg, Gordon Dickinson, George W. Dupree, Louise Martin, G. G. Porter, Stone Elliott Taylor, Paul Teas, Charles Webster, W. T. Fain, Luther Godwin, R. C. Goodwin, H. T. Luther, Roscoe Wilson, George Langford.

Mesdames T. G. Brown, E. L. McBride, J. P. Newman, James Pryor, Frank Winn, Lester Jones, Alex McDonald, H. C. Pender, John A. Bell, Collard, Tom Murphy, Bud Roberts, Thord Doekray, Winston Wharton of Tahoka, C. R. Horn, M. L. Kent, Charles Leake, R. L. Douglas, Bryan Edwards, I. C. Enochs, Bob Harrison, William A. Wilbanks, Dickinson, Charles J. Dickson.

FHA Meeting To Be Held Monday

Responding to the action of the Federal Housing Administration's calling for additional housing in Lubbock and vicinity to accommodate workers in defense industries, civic leaders, municipal authorities, architects, builders and financial groups will meet Monday night in the Chinmay room of the Hilton hotel with officials of the Federal Housing administration to plan the next steps in the current "Repair For Defense" movement.

P. S. Luttrell of Fort Worth, state production manager for the FHA, announced that the meeting will open at 7:30 o'clock in the evening and will cover the part which the FHA will play in cooperation with American industry in developing a quick supply of ready housing by conversion of existing homes into modern multiple family dwellings.

Lubbock Defense Area

The plan is that proposed by Federal Housing Administrator Abner H. Ferguson who announced the "Repair For Defense" campaign over a nation-wide radio program several weeks ago. Since Lubbock is one of the defense areas in the Southwest, housing for new workers and new population, has been one of the major concerns of the FHA office at Fort Worth.

"The use of the credit facilities available under the recently amended section of Title I of the National Housing Act," Luttrell said, "is one of the most effective ways to develop new housing without delay. Existing homes in this district now obsolete and perhaps no longer useful for residential purposes, may be converted into modern, income-producing, multiple family dwellings with the proceeds of a Title I loan. Thus, in one step, a supply of badly-needed new housing is made available."

FROM ONE HILL OF POTATOES—J. R. Whately, Woodrow farmer, is shown above with 48 Maryland sweet yams gathered from one hill in a three-acre sweet potato patch on his farm near Woodrow. The potatoes weighed 20 pounds. Whately estimates the three acres will produce from 600 to 700 pounds of potatoes. At fifty cents a bushel, the current price being paid by truckers for yams at the field, Whately would realize better than \$100 an acre from the crop, according to his estimates. He has 83 acres of cotton which he estimates will produce three-quarters of a (Avalanche-Journal Staff Photo).

U. S. To Build 111,383 Homes

(Continued From Page 2)

WASHINGTON, Nov. 1 (UPI)—

The government has allocated funds to construct more homes for defense workers and families of the army's and navy's enlisted personnel than now are in eight cities.

The defense housing division estimates that the 111,383 homes to be constructed with government funds in the United States and its territories will total more than the houses in Salem, Mass.; Pasadena, Calif.; Mobile, Ala.; Charlotte, N.C.; Reno, Nev.; Juliet, Ill.; Canton, O., and Little Rock, Ark., combined.

Half of the homes will be constructed in California, Pennsylvania, Virginia, Maryland, Connecticut, Delaware, District of Columbia, Florida, Georgia, Illinois, Indiana, Kansas, Louisiana, Massachusetts, Michigan, Mississippi, Missouri, New Hampshire, New Mexico, New York, North Carolina, Ohio, Oklahoma, Rhode Island, South Carolina, Tennessee, Texas, Utah, West Virginia, Wisconsin, and Wyoming.

Speaking of hit tunes, most popular medley in Berlin today is "A-Tisket, A-Tasket."

Word has come concerning the popularity of Ann Sprout, even out Hollywood way.

And oh! The difference now that ASCAP is back. Opening tune for the hit parade was "Love Walked In". . . And the air was filled with the good old tunes that seemed prettier than ever.

Final Paving Planned Here

The weather willing, final paving of 1941 will be started during the coming week, according to information given at the city hall Saturday.

If the weather isn't willing, it may be impossible to complete the program this year, officials said.

Their expectation is that it will be possible to go ahead and finish the work as explained, however, that the completion of paving is impossible in wet weather or when the temperature is so low the asphalt won't pour. That means temperature somewhat above the freezing point.

33 Blocks Remain

Approximately 33 blocks, somewhat more than three miles, remain to be "topped" to complete the 1941 program, officials said. Many of the blocks, they explained, are double the standard length of 300 feet. Upon all of those on the program, concrete curbs and gutters have been installed and caliche base has been laid. They now are to be topped with a sheet of asphalt and crushed rock compacted to a thickness of about two inches.

Officials reported that the crushed rock had been delivered to the scenes of expected operations and that assurances have been received that the asphalt will be available. There had been some uneasiness in the city hall that national defense needs might make it impossible to secure the

Dr. Agnes True Is To Lecture Before Units

Dr. Agnes True of the faculty at Texas Technological college will speak to members of unit one of the Child Development group of the American Association of University Women Friday. Dr. True's subject will be "Early Emotions."

Members of unit two, Child Development group, will be guests at the meeting to be held in the F. R. Friend home, 2005 Broadway, at 3 o'clock.

material.

About 10 Miles For Year

The work scheduled to be done is completed, will increase the street paving done in the city this year to approximately 10 miles, which is about average for each of the past five years. Lubbock now has somewhat more than 75 miles of street paving.

Streets included in the final program for the year were listed as follows:

Adams, avenue, Nineteenth to Twenty-second streets; Arnett street, Avenue L to P, College avenue, Twenty-sixth to Twenty-ninth; Jackson, Nineteenth to Twentieth; Avenue A, Broadway to Seventeenth; N, Twenty-third to Twenty-fifth; O, Eighth to Ninth; X, Twenty-second to Twenty-seventh; Fourteenth street, M to N, Fifteenth, A to B; Twenty-third, X to P, College; Twenty-fourth, L to P and X to College; Twenty-fifth, N to P; and Twenty-seventh, X to College.

The topping will require about 10 days if allowed to proceed uninterrupted, officials said.

Argentina now has only 3,968 railway locomotives.

Nursery Schoo!

(Continued From Page One)

In many cases, parents have asked that names of their babies be placed on the waiting list immediately after birth of the infants.

Children ranging from 2½ to 4½ years are accepted in the nursery school. Efforts are made to keep the children evenly divided according to sex and according to age. On being placed on the waiting list, children are divided according to age groups, and are accepted in order when children are needed in a particular age group.

Those in the school this session, with parents listed after the children's names, are Jerry Evans, Mr. and Mrs. W. H. Evans, 2805 Twenty-third street; Jane Livermore, Mr. and Mrs. George P. Livermore, 1713 Thirty-first street; Bobby Arnett, Dr. and Mrs. Sam C. Arnett, Jr., 2211 Fourth street; Nan Riethmayer, Mr. and Mrs. L. C. Riethmayer, 2417 Twenty-fifth street; Manon Markham, Mr. and Mrs. Jack Markham, 2123 Thirty-first street; Richard Meany, Mr. and Mrs. R. A. Meany, 2303 Seventeenth street; Arthur Miller, Mr. and Mrs. Earl Miller, 1913 Twenty-fifth street; Donald Wiesen, Mr. and Mrs. T. F. Wiesen, 2824 Thirteenth street; Lois Ellen Taylor, Dr. and Mrs. Otis Taylor, Jr., 2605 Twenty-fifth street; Jerry Morgan, Mr. and Mrs. Dell Morgan, 2101 Twenty-sixth street; Ann Milliken, Mr. and Mrs. J. H. Milliken, 2420 Nineteenth street; Jim Tom Davis, Dr. and Mrs. William Davis, 2416 Fourteenth street; Peter Henka, Mr. and Mrs. F. S. Henka, 3101 Twenty-first street; Raymond Bahm, Dr. and Mrs. Archle J. Bahm, 2627 Twenty-third street; David Ellis, Mr. and Mrs. V. Lorenz Ellis, 1901 Twenty-fourth street; Bill Dean, Jr., Mr. and Mrs. W. F. Dean, 2608 Twenty-sixth street; Charles Krieger, Mr. and Mrs. W. B. Krieger, 2816 Twenty-third street.

The children are brought to the school between 9 and 9:30 o'clock each morning Monday through Friday. A nurse examines them after they play and enter into various guided activities until 10:45 o'clock. Water is served at 9:30 and fruit juice at 10 o'clock. At 10:45 the children are brought into the building to prepare for lunch. After washing their hands and combing their hair, they have a 15-minute fast-and-period which prepares them to eat their lunch slowly and digest food better. At 11:30 o'clock, they eat lunch and then are taken home. After coats are obtained, the older children will remain for afternoon naps.

Charlotte Ballow, graduate assistant from Levelland, and Marcelline Bowers, student assistant of Lubbock, assist in the nursery school.

GIRLS GIVE PARTY

Mrs. Elaine Perkins and Annabel Graves entertained with a Hallowe'en party recently at 802 Avenue A.

After a series of games, favors were presented. Refreshments were served to Elaina Cline, Dorothy Thompson, Samuel Lee Beardley, Paul C. Graves, Margaret Graves, Mrs. E. J. Graves and Mr. and Mrs. H. J. Graves.

SCHOOL OPENING

Twenty-two members of troop 5, Girl Scouts, met at the First Christian church Friday afternoon.

Officers are Mary Alice Hooten, sergeant-at-arms; Jewel Pharr, scribe and Gladys Jane Brooks, treasurer.

Mrs. Fred Childress told of the national Girl Scout convention in Dallas.

SCOUTS MEET

Twenty-two members of troop 5, Girl Scouts, met at the First Christian church Friday afternoon.

• Forty-Five Of The "Best Fliers In The World" Given Wings At Corpus Christi

MOST POWERFUL WOMEN
One expert says that the four most powerful women in the world, in respective order, are Queen Elizabeth, Madame Chiang Kai-shek, Mrs. Eleanor Roosevelt, and Donna Rachelle Mussolini.

Ceremonies For Graduates Held

(By The United Press)
CORPUS CHRISTI, Nov. 1.—Fifty-five of the "best fliers in the world—bar none" receive their "wings" today as the first graduates of the new \$50,000 naval air station on Corpus Christi bay.

Capt. Alva D. Bernhard, commanding officer of the navy's "university of the air," said in passing his first graduate pilots that after less than eight months of training, the young men were able to fly any aircraft in service.

To Get Commissions

With 150 University of Texas cadets as well-wishers, the first class of young fliers will receive their commissions at a ceremony attended by 2,000 undergraduate cadets and 700 prospective cadets who will begin intensive training shortly.

The 45 men began training last March 12 when they knew practically nothing about flying. They advanced rapidly through their primary, basic and advanced aviation courses to set a "world's speed record" in pilot training.

Don Hager of Crockett, former Rice Institute football star, was the only Texas graduate in the class.

Turned Out In Hurry
This big air base—the nation's largest—was being constructed fully year ahead of schedule, turned out its first "completely finished" fliers 14 months sooner than originally planned because of the pressing needs of national defense.

Greetings and congratulatory messages were expected during today's ceremonies from President Roosevelt, Secretary of Navy Frank Knox and other high officials.

Graduation ceremonies were held on ground that was part of the bottom of Corpus Christi bay when the navy took title to the 14,000-acre air station site July 6, 1940. The first fliers pumped from the bay to raise the ground level.

300 Per Month
Captain Bernhard said that by the end of the year, the station, the only one in the nation which offers a complete course in naval aviation—will be turning out finished pilots at the rate of 300 a month.

Facilities now available are 1,000 planes of all types, 400 buildings, a main landing field, three auxiliary fields, 28 outlying practice fields, five seaplane and four land plane hangars with more building, recreation halls and grounds and an auditorium seating 16,000—big enough to handle the entire naval, marine and civilian personnel.

Mrs. Lela Frazier, Misses Bee Wickliffe and Christine Birdwell have charge of the ready-to-wear department; Miss Gerry Gamblin and Mrs. V. T. Rush, accessories and lingerie—and Miss Mary E. Anderson, millinery. Miss Vera Beth McClellan is cashier and Mrs. C. P. Petty has charge of alterations.

Carries Complete Line
The store carries complete line of women's wear, including ready-to-wear of all types, for daytime and evening wear, accessories, lingerie and millinery.

The new store has 3,125 feet of floor space and is equipped with modern fitting rooms and other conveniences for its women patrons.

Neal, merchandising manager who came here recently from Beaumont, was with the Fashion store in that city, one of the most exclusive women's specialty stores in Texas, for 17 years. He was also formerly with the White House Dry Goods company in Beaumont. Formerly Anne Ford's Shoppe, the store now simply carries the name Anne Ford's.

LONG TERM
James Wilson of Iowa set the record for U. S. cabinet tenure, serving as secretary of agriculture for 16 years, under William McKinley, Theodore Roosevelt, and William Howard Taft.

England has more than a thousand millionaires, if a person with an income of more than \$150,000 annually is called one.

Unknown Mountaineer Is Credited With Saving Lives Of Two Army Fliers

Food Left In Lonely Cabin

By The United Press
FRESNO, Calif., Nov. 1.—An unknown mountaineer—a prospector or trapper or hunter—who obeyed the code of the hills was credited today with saving the lives of two army fliers who were lost a week in a Sierra Nevada canyon two miles above sea level.

Lieutenants Jack C. West and Leonard Lydon, who jumped from their tiny flying planes high over the Sierra Nevadas Oct. 24, were spared starvation and exposure because the mountaineer kept his larder full and his latchstring out.

The chance in a million that he had anticipated—that a lost fellow might need food and shelter in that remote mountain canyon—played to the benefit of the pilots.

Suffered Only Exhaustion

They found canned beans and corned beef, matches, some firewood, a fishing pole and a tent. With the food and equipment they existed a week and today physicians at a Fresno hospital said they suffered only exhaustion from their adventure.

They were sleeping around the clock in the hills, sustained rest and sleep, then jumped. Major C. S. Miller, who led the rescue party up Barton peak in King canyon national park yesterday to bring them out, said they told him they had kept each other awake throughout the week because they feared that they would freeze to death if they fell asleep.

He said they pitched the tent because they believed it would be warmer than the snow-banked cabin. In front they built a bonfire. They also were protected by their flying suits.

Spent Days Fishing

They spent their days fishing in the mountain streams and swimming through the canyon seeking a way out. Their excursions, however, were limited because they were only outdoors and their feet grew cold. The longest trip from the encampment was 12 miles and then they were within a quarter of a mile of a forest ranger station when they turned back.

Each night they returned to the camp and fired from their very pistols a few of their precious supply of signal rockets. It was one of these, spotted by a farmer, which led to their rescue.

They parachuted from their planes when forced to break up out of the mountains en route from March Field to McClellan field, Sacramento. Neither knew that the other had left his plane, but Miller said their mountainside meeting was as casual as the famous African introduction of David Livingstone and his resuer, Henry Stanley.

Barely Were Acquainted

"On the second day, West was cooking some beans and some corned beef in the cabin when there was a knock on the door," Miller said. "The young man at the door said:

"I'm Lieutenant Lydon, an army aviator and I'm lost."

Miller said that the fliers barely were acquainted before the disastrous flight.

Of the 19 planes, 14 landed safely. Three pilots, including Lydon and West, parachuted to safety. One was killed, and Lieut. R. N. Long is missing.

Training Conference To Be Staged Here

Mrs. Carl McEachern of Austin, state-wide Sunday school worker, will conduct a week's Sunday school training conference at First Baptist church daily this week at 9:30 a.m. and 7 p.m., according to announcement Saturday by church officials.

She is described as an inspirational speaker whose services are in demand throughout the south. Her messages are of interest both to young persons and adults.

She will speak at the adult

What's Doing in the Churches

St. Paul's — on the Plains Episcopal church, Sixteenth street and Avenue X. Rev. John A. Winslow, rector. Church school 9:45 a.m.; Carl L. Stevens, superintendent. Holy Communion and sermon 11 a.m. Sunday afternoons at the rectory, 4 p.m. Canterbury Club, 8 p.m.

Calvary Baptist church, Eighteenth and Avenue X, Rev. C. J. McCarty, pastor. Bible school 9:45 a.m.; L. A. Coward, superintendent.

Morning worship, 10:45 a.m.; Irvin Schmitz, assistant pastor's subject, "What Is in the Sermon." Training union, 10:15 p.m.; Raymond Tanneau, director.

Young people's class, 7:30 p.m.; pastor's subject, "The Best Course for Husband and Wife of Different Religious Beliefs." Teachers' study lesson, Wednesday, 8 p.m.

Prayer meeting, Wednesday, 8:30 p.m.

Grace Gospel church, Sixteenth street at Avenue X, Rev. T. M. Miller, pastor.

Morning service, 11 a.m.; Rev. Rudolph Miller of Boston, Mass., will speak.

Afternoon service, 3 p.m.; address by Mr. Miller.

Young people's class, Wednesday, 7:30 p.m.

First Baptist church, Main street and Avenue O, C. E. Hereford, pastor.

Bible school 9:30 a.m.; musical program by choir, Dr. E. Hereford, director.

Morning service, "In God We Trust" (Tchaikovsky).

"Go Ye Not Far From Me, O God!" (Gounod).

"The Lord Is My Rock" (Mackinlay).

"What of the Night?" (Thompson).

Midweek service, 7:30 p.m.; pastor's subject, "The Fullness of God's Salvation."

Ladies aid, Tuesday, 7:30 p.m.

Prayer service, Wednesday, 7:30 p.m.

First Christian church, Sixteenth street and Avenue N, Rev. H. G. Gantz, pastor.

Bible school, 9:30 a.m.; morning service, 10:45 a.m.; pastor's subject, "The Peril of Heaven."

Young people's class, 6:30 p.m.

Midweek service, 7:30 p.m.; pastor's subject, "The Fullness of God's Salvation."

Relief society, 3 p.m.; lesson, first.

Sunday school assembly this morning at 9:30 o'clock and at the adult and young people's training school assemblies at 6:30 o'clock to night.

College Avenue Baptist church, College Avenue and Tenth street, Rev. A. E. White, pastor.

Church Notes

J. H. Miles is moving to Lubbock from Spur, to become local minister of the Eighth Street Church of Christ, according to announcement Saturday. Mr. Miles comes highly recommended as an evangelist of the Church of Christ. He will speak at services today.

Rev. H. G. Gantz, pastor of First Christian church, will direct services at Community center at 3 o'clock this afternoon. The congregation will use new song books, said Mrs. Paul Laverty, of the Church Women's federation.

Rev. Rudolph Miller of Boston, Mass., will speak at today's services at Grace Gospel church, Sixteenth street and Avenue N, according to announcement by Rev. T. M. Wiley, pastor. Mr. Miller is a home missionary to the Hebrews of the New England area and has service in Poland. He is making a trip from San Francisco to Boston.

Dr. C. E. Hereford, pastor of First Baptist church, is conducting a two-weeks revival meeting at the Central Baptist church of Pampa. He will return to his pulpit Nov. 9. In his absence the First Baptist church choir conducted by Mrs. Hereford will render a musical program this morning and the evening service will be in charge of young persons with Baltimore Ewing, educational director of young people's work, speaking.

A meeting of the congregation of First Christian church is being called for close of this morning's service. George P. Kuykendall, chairman of the board, urged every member to be present.

Rev. W. G. Loszel, pastor of Redeemer Lutheran church, will speak at Zion's Lutheran church in Spenberg at annual Mission Sunday services tonight. There will be no evening service at the local church.

BARNACLES CAN'T TAKE IT SEATTLE (UPI)—Lake Union is a fresh water lake connected by the largest ship canal in America to the salt waters of Puget Sound. When ocean liners lay up in Lake Union the barnacles fall right off their hulls—killed by fresh water.

Wednesday evening service, 8 o'clock, when testimonies of healing and recovery are given.

A reading service is given daily except holidays, during the week from 12 noon until 4 p.m. on Sundays from 2 until 8 o'clock.

A radio program will be broadcast this afternoon—every afternoon from 4 to 5 p.m. after this afternoon.

U. S. KIDNAPINGS

There were only 19 kidnappings in the United States during 1939,

as compared with 37 in the pre-

ceding year, 20 in 1937, and 31 in 1936.

EXPLAINED

The literal translation of "hors d'oeuvre" is "outside of work," but freely unusual or extraordinary.

Porcupines are able to gnaw holes through aluminum utensils.

News Briefs

Tanker — H. Bliss camp of the United Spanish War Veterans will meet in the American Legion hall, 910 Texas avenue, at 2 o'clock this afternoon, according to announcement Saturday by J. H. Watkins, adjutant.

Messiah Presbyterian church, Seventeenth street and Avenue B, M. H. Winkler, pastor.

Wednesday service, 6:30 p.m.

Evening service, 7:30 p.m.; pastor's subject, "How Great Our Need of Thee."

Wednesday service, 7:30 p.m.

Young people's class, 6:30 p.m.

Wednesday service, 7:30 p.m.; pastor's subject, "What Is On The Lord's Side?"

BTU, 7 p.m.

Evening service, 8 p.m.; sermon, "What Is On The Lord's Side?"

Junior choir program.

Wednesday service, 8 p.m.; pastor's subject, "What Is On The Lord's Side?"

Evening service, 8 p.m.; sermon, "What Is On The Lord's Side?"

Midweek service, 7:30 p.m.

CCC Personnel Changes Made

Readjustment of Civilian Conservation corps camps in this area and also a number of new soil conservation districts starting, has brought about a series of changes in personnel, according to O. T. Williams, area conservationist here for the federal service.

CCC camps are now located at Floydada, Morton and Memphis, each the center of a district. The Floydada camp will assist the Floyd county district, the Morton camp the Cochran-Terry-Yoakum district and the Memphis camp the Hall-Central district which includes a little of Cottle county.

Kathleen's—Floydada

George D. Keathley, formerly at Lamesa, is superintendent of the Floydada camp; Landon H. Donnell, formerly at Lamesa, was promoted to be superintendent at Morton and Ralph W. Bennett is superintendent at Memphis.

Among the area men here are: P. R. Sime, biologist; R. E. L. Pattillo, agronomist; Don D. King, range management; R. C. Nelson, engineer; E. E. Reynolds, conservationist and George Turner, economist.

Conservationists Named

The 12 conservationists, each in charge of a district, are: T. V. Weaver, Hale county; Plainview; Enoch R. Steen, Lubbock county; Lubbock; W. H. Kemp, Floyd county; Floydada; Myles A. Kelly, Garza county; Dimmit; Bill J. Clutter, Deaf Smith county; Hereford; B. F. Parsons, Hall-Childress, Childress and Hobart A. Wallin, part of Hall county at Turkey; W. S. Patrick, Cochran-Terry-Yoakum at Brownfield; Walter L. Knapp, Crosby county at Crosbyton; A. B. Chapman, Blackwater Valley district (Baylor county) at Muleshoe; Jess J. Shaw, Swisher county, Tulla and Quentin Williams, Oldham county at Vega.

Five of the districts are wind erosion districts operated under a slightly different set-up than the regular soil conservation districts.

Supervisors Are Listed

Supervisors are: Hale county wind erosion district, John Hegar, Clayton Lewellen, Earl Layne, S. D. Ballard and Walter S. Stewe; Castro county wind erosion district, R. A. Axtell, Collin Walton, E. J. Wilhelm, Orbin Nowell and W. A. Springer; Deaf Smith county wind erosion district, A. J. Schroeter, county judge; Jim Clark, Noah Ewton, Dick Allred and H. D. Culpepper; Oldham county wind erosion district, Charles Ingram, county judge; L. L. Morris, Miles Milhoan, C. L. Morris and Ed Klein.

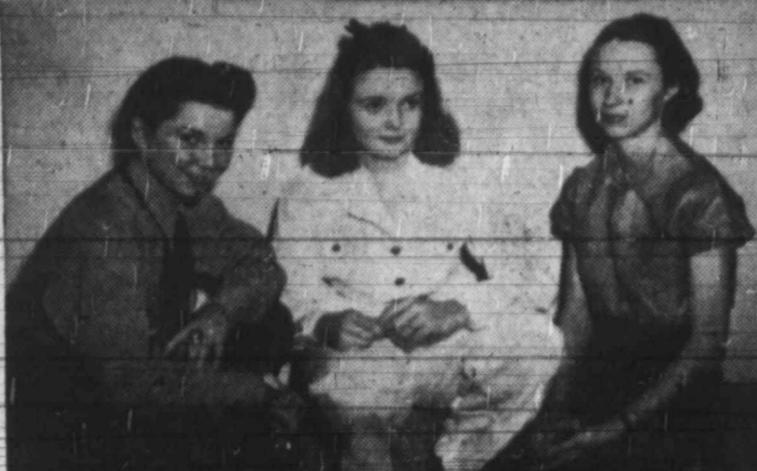

Soil conservation districts are: Lubbock, E. R. Davis, chairman; T. L. Holt, vice-chairman; W. O. Perkins, secretary; George E. Edwards and Grover C. Gillett; Floyd county, W. H. Nelson, chairman; W. F. Ferguson, vice-chairman; E. L. Brown, secretary; J. S. Lackey and Webb Taylor; Hall-Childress-Cottle, Ed Leary, chairman; C. E. Fletcher, vice-chairman; John Sharp, secretary; W. P. Closs and Wilbur Williams; Cochran-Terry-Yoakum, W. G. McDonald, chairman; W. A. Woods, vice-chairman; W. W. Smith, secretary; Lee Brownfield and F. M. Ellington; Crosby, R. M. Wheeler, chairman; Joe Gilmore, vice-chairman; H. H. Holmes, secretary; M. A. Green and Tifford Taylor; Blackwater (Bailey county), E. L. Smith, chairman; R. L. Hobbs, vice-chairman; N. C. Moore, secretary; W. L. Patton and D. V. St. Clair; Swisher, Charles T. Herring, chairman; J. V. Davis, Newt Redmon, J. E. Gurley and Tom Bagby.

Predatory Animals Trapped Over State

Rodent control work in Texas for the July, August and September quarter, showed 276 bobcats, 1,607 coyotes, 49 wolves and four mountain lions were captured during that period by trappers working with the fish and wildlife service of the department of the interior. C. R. Landon, agent, reports. The men worked a total of 10,256 days.

Landon reports an increase in prairie dog control work in this area. Three foremen were assigned to control work, two to this area.

Trappers in 10 counties in this district worked 1,298 days. In that time they captured 32 bobcats, 265

Three Co-Eds At Texas Tech Are Studying Agriculture

By FLORA LEE WILLIAMS

"I want a ranch of my own. And when I get it I want to know what to do with it."

And pretty Mildred Fambrough is finding out. The senior student from Breckenridge is one of three girls enrolled in the aggie division at Texas Technological college.

All of them have very definite reasons for their unusual courses of study.

Always Lived On Ranch

Miss Fambrough, who is a transfer from Oklahoma A. & M., has always lived on a ranch. She is "just one of the boys" and enjoys her course although she admits that it would be pretty tough if you didn't like it.

"Any other course would seem dull to me but I do wish I could see girls more often than I do," said Miss Fambrough. She plans to go to medical school at Colorado A. & M. in Ft. Collins, when she receives her degree here.

Heidi Schneider from Pampa is also an interesting person. She is majoring in horticulture so that she may someday be a top-rate florist.

She's A "Swiss Miss"

Heidi, as her name and appearance signify, is truly a "Swiss Miss." She came to America from Switzerland when she was about 6 years old and can still remember phases of her life in the Alps. She hopes to visit in Switzerland again but considers the United States her home and wishes that her friends and relatives across the Atlantic might be as lucky.

Another future girl rancher is Bonnie Lee Rose, also of Pampa. She is taking a course in animal husbandry so that when she gets her heart's desire the ranch—

coyotes and a mountain lion! Counties operating were Borden, Crosby-Floyd, Kent, King, Lamb, Lynn, Motley, Oldham and Stonewall.

One mountain lion, 56 coyotes and a bobcat were trapped in Floyd county during 92 days of work, and in 123 days in Crosby county four bobcats and five coyotes were captured.

Jobs For Graduates

Recent weeks have brought a record-breaking demand for our graduates, indicating 3,000 openings this year through our eight South-wide Placement Departments. Get catalog M.

Modernize
Your Heating with
CLOW Gasteam
RADIATORS

Each Radiator is a low-cost steam heating plant in itself. The long, narrow shape fits under windows or along walls out of the way and warms cold air entering room, preventing cold floor drafts. They heat by natural circulation and there are no hot air streams to blow on customers or employees. Gasteam Radiators are the safest and most durable units available. They are simple in design and easy to operate—made of cast iron—and have no moving parts to wear out or become noisy.

For Your Home
Investigate CLOW Gasteam Radiators for your domestic heating. They furnish steam heat at low cost and give your family the best kind of heat obtainable.

See your Gasteam Representative today and get an estimate.

Father And Daughter Now Flying Together

RACINE, Wis., Nov. 1. (UPI)—Like father, like daughter is the paraphrase at Horlick-Racine airport these days, with flying no longer a man's game.

Gordon Gulbert, Racine manufacturer, who was state golf champion in 1921, turned to flying as a sport after the airport opened, and his daughters, Patricia, 16, and Jeanne, 14, made it a family affair.

Felder Sommers, manufacturer, has been flying for years, is a licensed pilot, and owns his own plane. His daughter Bonnie began her flying career about the same time as the Gulbert family.

Lateness of cotton harvesting over the South Plains has had an effect upon pink bollworm inspection work of the bureau of entomology and plant quarantine of the U. S. department of agriculture. H. B. Prickett, head of the district office here, said:

"Inspection machines from the southern part of the state were late in arriving because of lateness of crops in South Texas. Not all of the machines that are to operate this season over this territory have arrived."

Locations Announced

Points where inspection machines will be located are: Big Spring, (two machines); Lamesa, Brownfield, Seagraves, Stanton, Colorado City and Tahoka. Later, machines will be stationed at Levelland, Littlefield, Lubbock and Morton.

Machines will be located so as to inspect all cotton seed from the quarantine area at the approximately 15 cotton oil mills in West Texas. Seed must be processed at approved mills. All seed used in these mills is treated with heat of 150 degrees temperature, to kill the worms.

Cotton can be shipped out of the quarantine area only under strict regulations; the lint must be kept free of seed and no seed is permitted around cotton bales.

Shipment of seed on long hauls to distant mills is governed by closely followed regulations.

Inspection Work Delayed In Area

HOUSTON, Nov. 1 (UPI)—Domestic crude oil output for the week ending today averaged 4,079,700 barrels daily, off 29,950 from last week but 67,700 above the U. S. Bureau of Mines estimate of market demand for October, the Oil Weekly reported.

Week's trend: Texas, 1,472,000, up 250; California, 631,800, off 11,800; Oklahoma, 436,500, up 11,050; Illinois, 419,250, off 3,150; Louisiana, 342,700, off 2,000; Kansas, 237,350, off 18,900; New Mexico, 116,500, off 650; mountain states, 93,350, off 400; Michigan, 58,250, off 150; Indiana, 179,200, up 300; Arkansas, 72,150, off 4,500; Mississippi, 63,100, off 4,100, and Nebraska, up 300.

Bells Scare Birds

Whenever he desires, the ingenious farmer of Sumatra can ring bird-frightening bells in his rice fields by means of a system of cords running from a central tower to all parts of his fields.

the quarantine area only under strict regulations; the lint must be kept free of seed and no seed is permitted around cotton bales.

Shipment of seed on long hauls to distant mills is governed by closely followed regulations.

HOW ARE YOU EATING?

ONTARIO'S RECORD
Ontario produced 52 per cent of the gross value of output of Canadian manufacturers in 1938, ranking first in 15 of the 25 leading industries.

GRANDFATHER OF PINES

The Chile pine, first discovered in Chile, is considered the grandfather of all pines. It was a thriving tree in the Jurassic Period, millions of years ago.

other things.

TULSA, Okla. (UPI)—The average healthy, moderately active man weighing about 160 pounds eats 1,625 pounds of food a year.

The figures are those of Col. D.

Tuttle, former head of the Aviation School of Medicine at Randolph Field, Tex. He said the average man will consume about 160 pounds of potatoes, 10 pounds of legumes and nuts; 100 pounds of tomatoes and citrus fruits; 160 pounds of meat, poultry or fish and 65 pounds of sugar, among

other things.

"Week End In Havana" Gay Musical Hit At Lindsey

Hollywood On
The Loose...

Sarong Stretcher Is
Wanted At Once;
Other Film Dodos

BY PAUL HARRISON
NEA Service Staff Writer

HOLLYWOOD, Nov. 1.—Behind the screen: The Stitch-in-Time Committee of the Hays Office has gone into the sarong designing business with a decree establishing the upper and nether limits of those tropical scanties. What with the competition between Dorothy Lamour, Gene Tierney and Maria Montez, the situation was getting a little out of control.

Henceforth, sarongs, slangs or other one-piece garments of the wrap-around type must come within three inches of the knees, and the tops must not be lower than the average strapless evening gown. Applications for the positions of Sarong Inspector and Evening Gown Average will be forwarded by me to the proper authorities.

A DULL movie now in production is identified around the studio as "Hold Back the Dawn."... Judy Canova, whose "moonstruck" marriage to a soldier in Honolulu has been annulled, is in a movie named "True to the Army".... Glenda Farrell has progressed from "Separate Rooms" on Broadway to "Twin Beds" in Movietown.

LEADING note: The seven leading motion picture organizations will show a net profit of something, like \$30,000,000, for the fiscal year just closed or closing. So now there's a move afoot to boost admission prices, with some theaters in several cities already upping a nickel on Saturdays and Sundays.

WHEN Olivia de Havilland granted Phil Silvers a date, she asked him not to wear his large, dark glasses. So when he called for her that evening he was accompanied by a Seeing Eye dog.

Orson Welles started another beard but shaved it off and left only a mustache. That also disappeared when he discovered that he looked like Fu Manchu. At the moment he looks like Orson Welles.

JIMMY DURANTE is working in a blonde wig, false eyelashes, sweater and split skirt in an effort to fool a sergeant who finds him AWOL in "You're in the Army Now." But he forgets to wear an awning over his nose. Incidentally, Durante tells about being tapped by a panhandler who said proudly, "Mind you, I'm no depression bum. I was a bum and when the boom was on." And talking about a certain Hollywood man, the comic said, "I couldn't warm up to that guy if we were cremated together."

A FEW years ago a baby elephant died in the Metro studio. Other day Spencer Tracy was looking around in the prop department and discovered that the elephant's skin had had been mounted and kept for possible use in pictures. Exclaimed Tracy: "There's no way to get out of a Metro contract; even when you die, they stuff you!"

PAULEtte GODDARD has a bulky chromium makeup stand designed for "The Lady Has Plan." Push a button on one side, and a panel recedes and a radio pops out. Another button-operated panel on the other side allows a small bar to appear. It's really an amazing contrivance, except that the bar is empty and the radio doesn't work.

Veronica Lake's frontal, one-eyed bob is getting so long that it barely clears her soup when she's bunching. May be getting ready to play Lady Godiva.... Ornithological item: There aren't any real red-breasted robins out here, so when one was required for a scene in "The Great Man's Lady," a linnet was made up for the part with water colors. And the song of a genuine robin will be dubbed in.

EARLY VOTING METHOD

The method of voting used by the Greeks for some 2500 years consisted of having an urn to represent each candidate. The voter tossed in a white pebble if he wished to vote for a candidate, and a black one if he wished to vote against him.

Spooks Are To Be At Palace

TROPICAL magic, catchy Cuban rhythms, warm-blooded señoritas, dark-eyed Romeo—all are combined for a tuneful entertainment program in "Week End in Havana," now showing at the Lindsey theater.

Alice Faye, John Payne, Cesario Romero and Carmen Miranda head the cast of the swingy musical.

Determined On Vacation

Miss Faye is seen as a New York salesgirl who has carefully budgeted herself for several years in order to treat herself to a Havana vacation. When her ship is caught on a reef, she refuses to sign a release to the shipping company until she has had—enjoyed—her vacation.

The company's representative Payne, postpones his wedding to make sure that she has a good time.

Exotic Miss Miranda appears with her unusual songs and dances in a glittering Havana night club. She introduces a spectacular new number with 200 dancers, "The Nango."

Spooks Are At Palace

"Spooks Run Wild," is the offering on tap at the Palace.

The comedy talents of the popular East Side Kids and the blood chilling of Bela Lugosi are combined in the picture to give you goose pimples one minute and laughter the next.

The youths are sent to a camp for underprivileged children in a mountain community where a mysterious killer called The Monitor is loose. During their hair-raising adventures they even aid in capture of the criminal.

Timely as "tomorrow" is "Dive Bomber," now showing at the Tower.

Errol Flynn and Fred MacMurray head the cast in the Technicolor production which tells the story of the navy's unsung heroes who fly more for science than for glory and who made possible the development of dive-bombing.

ENTRIES From Start

There is instinctive antagonism between Flynn and MacMurray when they meet at the Honolulu naval air base hospital just after Flynn operated unsuccessfully on one of MacMurray's flight comrades.

They later become great friends and work together on a cure for the dread pilot "blackout." Alex Smith furnishes the romantic interest.

The Weaver brothers and Elviry have the spotlight at the Tower today in "Mountain Moonlight." The plot finds the Weaver family venturing to Washington in quest of \$200,000, which their ancestor loaned to the government back in 1790, after they, along with their neighbors, are made homeless when a cyclone strikes their farms.

OUTSMART Politicians

The manner in which they outsmart some slick politicians at the national capital provides good entertainment.

Betty Jane Rhodes and John Archer make a romantic twosome in the picture.

"Bachelor Daddy" starring Baby Sandy, and "First Beau" with Jackie Cooper and Jane Withers is the double attraction at the Cactus.

Sandy's mother is jailed and, realizing that Sandy is alone, she writes a letter to Mr. Smith, care of the Bachelor's club, gambling that there must be a Mr. Smith there. There are three Smith brothers and each professes ignorance of the letter that tells "Mr. Smith" that "his" child needs help.

They all go get Sandy and smuggle her into their rooms until they can locate the mother. And then they find themselves in some puzzling situations.

"First Beau" includes in its cast besides Cooper and Miss Withers, Edith Fellows, Josephine Hutchinson, William Ray, Martha O'Driscoll and Una O'Connor.

Radical Support Dangerous For Negroes; Morgenthau Guarding Foreign Funds

Dallas Case Is In Point

Tug-Of-Neutrality

A TTEMPT was made in Dallas recently to force dismissal of a murder charge against the confessed negro slayer of a policeman on the grounds that no negroes served on the grand jury which returned the indictment.

The Dallas attempt failed, but the question has been appealed. Eventually it may reach the United States Supreme court. Other similar cases have, and the number of appeals on this same grounds is increasing.

In the Dallas and similar cases, attempt has been made to ignore entirely the question of guilt or innocence of those accused. Their freedom has been demanded, without trial or danger of further prosecution, solely on the technicality that no negroes were on the grand juries which indicted them.

Most such cases have been promoted, agitated and financed by Northern "race equality" groups composed of radical whites in centers where negroes are powerful politically. Certainly in some cases, motives of groups interesting themselves in Southern cases have been entirely political. But, regardless of motive, these groups are distant from the South. Few of their members ever have spent any time in the South. They are entirely without background to understand and appreciate the relationship, the genuine affection, between most Southern whites and Southern negroes.

The question of whether negroes should serve on grand juries in the South is beside the point here. The important point is the danger that would result to negroes more than anyone else—if freedom should be given without trials to those accused of serious crimes merely on technical grounds. The mere sight of a suspected negro walking the street Scot free because of a technicality would be infuriating to many people. It might encourage mob violence—and there is no need here to dwell on objectionable features of such violence.

Certainly there should be no unjust discrimination against negroes. They are entitled to every right that law and justice give anyone. But negroes as a class should not want—we don't believe they do want—the advantage of technicalities which might enable guilty negroes to escape even the danger of being called to account for their crimes.

That Man Fumbles Again!

SQUIRMINGS of Oil Administrator Harold Ickes as he tries to divert attention from his colossal blunders—if they were no worse than blunders in the oil "shortage" fiasco, doubtless delight the legions of those he has bullied and insulted since political accident placed him in high office.

Ickes, who tried very recently to frighten the nation into the belief that the East was down almost to its last drop of gasoline and oil, now announces that Great Britain is returning some of the tankers it borrowed from the United States. This, says Ickes, will "ease the problem" of supplying oil and gasoline to the Atlantic seaboard.

Thus he attempts to assert that a "problem" did exist which was in need of "easing." He attempts to justify the restrictions he tried so unsuccessfully to cram down the throats of oil producers and users.

But the very day he made his statement about the tankers, another announcement came from the American Petroleum institute. It was to the effect that motor fuel stocks in storage in the East totaled nearly 23,000,000 barrels—actually more than on the same date a year ago when the nation and the oil industry were worrying, not about "shortages," but about the large reserve.

All this storage has accumulated, mind you, despite the fact that the returned tankers are yet to move one drop of oil to the East.

All this merely adds more fuel to the fire which burns beneath Ickes. It seems inevitable that the heat of it will, sooner or later, force an investigation into Ickes' motives in crying the shortage alarm. If it was a blunder, then it would seem perilous to the nation to have a man who makes that sort of blunders in the office that Ickes holds.

If it was due to deliberate design, would the word, "impeachment," be too strong to use in connection with Harold Ickes?

OUR PLEDGE

We pledge allegiance to the Flag of the United States, and to the Republic for which it stands: One Nation, Indivisible, with Liberty and Justice for all.

Roll Call For Scouts Is Set

Nov. 10 to 14 have been set as dates for the annual inventory and roll call of Boy Scout troops and cub packs in South Plains council, according to announcement Saturday by K. N. Clapp, council commissioner.

The inventory will include formal inspections of the 81 troops and 31 packs in the council by commissioners. Detailed reports concerning each unit are to be made.

Contests Are Close

Another announcement Saturday, from Jack O. Stone, council executive, was that contests are close in roundup contests among Lubbock troops and packs. The contests started Sept. 18 and end Nov. 30.

Among troops No. 10, sponsored by Buffalo Lakes, is leading with 1,475 points, closely trailed by No. 5, sponsored by First Christian church, with 1,425, and No. 7, Asbury Methodist church, and No. 9, First Baptist church, with 1,400 each. Among packs No. 10, sponsored by Junior High school, is leading with 1,075 points, No. 3, First Baptist church, is second with 825 points; and No. 1, Dopey school, is third with 775. Among negro troops No. 10, 10, both sponsored by Dunbar school, are tied with 600 points.

Events Are Scheduled

Points are allowed for registration of new and former scouts and for participations in various activities, Stone explained.

Events scheduled in the council during the coming week include the following: Monday, leadership training course continues in Petersburg and financial campaign in Seagraves begins; Tuesday night, first session of a leadership training course in Dimmitt; Wednesday night, 7:30 o'clock, Lubbock Scouting roundtable in Hilton hotel; and Thursday, dawn-to-dusk financial campaign in Denver City.

Defense Training Is Planned At Tahoka

TAHOKA, Nov. 1. (Special) Classes will begin Monday night at the Tahoka Defense Training Center which is located at the Luallen garage under the supervision of Leslie Browning, agriculture teacher, and officials of the Tahoka city schools.

Ovid Luallen, Tahoka mechanic and garage operator, will teach the auto mechanics course. Out-of-school youths between the ages of 17 and 21 attending the training center will receive free instruction in operation, care and repair of tractors, trucks, automobiles and machinery, metal work, wood construction and elementary electricity.

Classes will be held three hours a night for five nights a week. The purpose of this defense training school is to train youths to take jobs left vacant by skilled laborers leaving for army training camps and for defense centers to take better jobs.

Youths who have signed up to attend this defense school are Harold Sherrod, Jack Alexander, Rufus Morgan, Bryan Wright, Truman Hines, Allen Luallen, Pug Parker, Bert Stephens, Arthur Hammonds, C. W. Conway, Frank

Tech Fencing Team Is Working Out Every Day In Preparation For Dallas Contests

"En garde, feint, parry, thrust, lunge." Explosive orders such as these can be heard any afternoon coming from the basement of the Texas Tech press building.

Such orders are given while the Texas Tech fencing team is practicing and preparing for the Dallas fencing meet.

Holds Several Titles

Newly organized the team is directed by George Beakley, Tech student, and fencing instructor.

Beakley is a transfer from Baylor where he was a member of the championship sabre and dueling sword team. Beakley, who holds several fencing titles, has received an invitation from the AFLA (Amateur Fencer's League of America) to enter a team in the next match of the organization.

Employed by the school to teach fencing Beakley has organized another team which can be joined by anyone interested in fencing whether enrolled in school or not.

A class is taught in which beginners may receive credit and other non-credit classes are held in the basement of the press building. Workouts are held every afternoon from 3 until 6 o'clock.

Pig Roast Is To Be Staged

Preparations for an attendance of more than 400 members and guests at the annual pig roast of the Aggie club of Texas Technological college, which has been set for the night of Nov. 11, are being made by the arrangements committee, according to announcement Saturday by Joe Doyle, chairman.

The scene will be the livestock pavilion at the college starting at 6:30 o'clock, he announced.

Honor guests will include the members of the senior judging teams of the college and a considerable number of prominent men. The teams are those in dairy manufacturing, dairy cattle, livestock, flowers and grain.

Halsey Will Speak

Hop Halsey, legislative representative from the 119th district, is to be the principal speaker. The program is to include cowboy music and the introduction of members of judging teams and other guests.

The menu is to include an abundance of barbecued pig meat and all the trimmings, Doyle said. The barbecue is to prepare the pigs for serving without charge, the chairman added.

Roy-Moffett is president of the Aggie club. Mart G. Peterson, associate professor of dairy manufacturing, is faculty sponsor.

HENS SQUAWK FOR RIGHTS

ST. GALLEN, Switzerland (AP)—The hen squawked loudly in the mountainous canton of Grisons where authorities debated steps to stop poultry from scratching seeds out of fields newly planted as part of the drive to increase foods.

Municipal deliberations were long and a word battle was at its peak when the door burst open and a screeching hen flew into the midst of the assembly. Around her neck was a sign: "I protest."

WASHINGTON'S RETURN

FORT COLLINS, Colo. (AP)—In Birmingham, Eng., Charles A. Wareing saw portraits of George and Martha Washington up for auction after being damaged in an air raid.

Wareing bought them and wrote to Fort Collins city officials, offering the paintings to the city because, he said, he once visited here and liked the city.

The city accepted.

LONDON'S STONE HOUSE

LONDON—Because of the many fires in London, the lord mayor in 1189 decreed all houses should be built of stone. They were for about two centuries.

MORE PASSENGERS

WASHINGTON—Bus companies reporting in 1940 to the Interstate Commerce commission showed an increase of 27 per cent over 1939 in the number of passengers carried.

During 1939, nearly 3,000,000 people were caught traveling by rail in India, without having paid their fares.

TARZAN

TARZAN CONCEIVED A PLAN TO SAVE THE STARVING BABY, BUT HE DARED NOT ANNOUNCE IT FOR FEAR IT WOULD FAIL.

No. 687 Hidden Danger

BEFORE ACTING UPON THE PLAN, HE GATHERED SMALL BRANCHES TO MAKE A SHELTER FOR PETER EGALIS.

AS HE WORKED, THE WOUNDED MAN REGAINED CONSCIOUSNESS. "DO YOU KNOW WHO STABBED YOU?" TARZAN ASKED.

THE APE-MAN WAS EAGER TO KNOW IF THE ASSASSIN WAS AMONG THE SURVIVORS, SO HE COULD BE PUNISHED.

By Edgar Rice Burroughs

OUR BOARDING HOUSE

OFF THE RECORD by ED REED

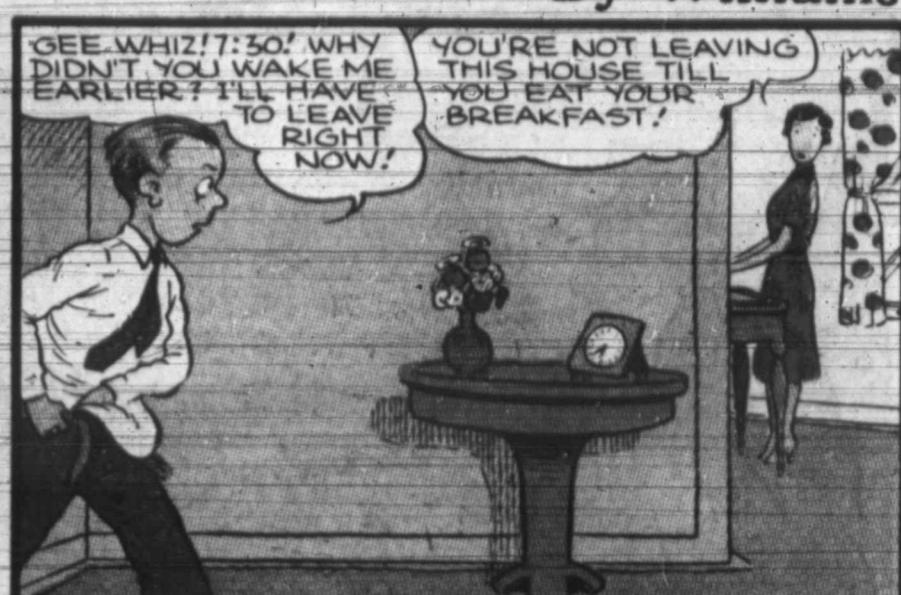

"We'll run the film backwards, Ralph, so you'll know how to put it together again!"

"The Doctor isn't in now---Who shall I say 'squalled'?"

"You could learn to care for me in time---If you hurried!"

OUT OUR WAY

There is a Difference in Oats!

You See it

Oat Flour Eliminated

Here is an interesting and convincing test—simply shake a package of National 3 Minute Oats through a regular fine sifter and then a package of Ordinary Oats. Notice that National 3 Minute Oats leaves more whole flakes per package—and practically no flour (flour makes oats bitter, pasty, and gummy.)

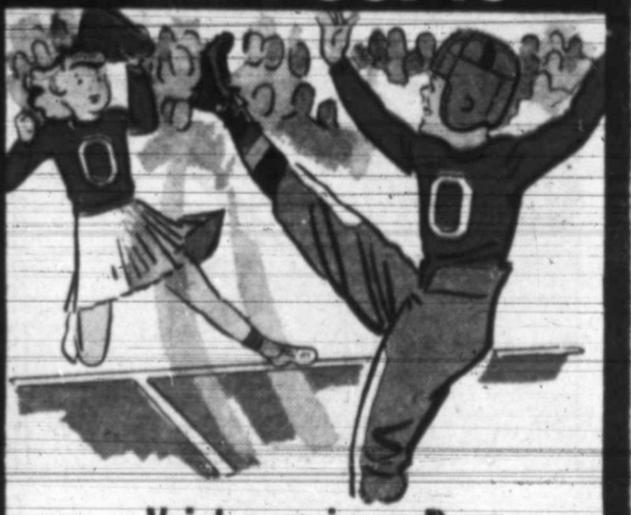

You Taste it

Ovenized for Flavor

These choice sun-ripened Oats are OVENIZED 12 HOURS at the Mill while still in their jackets. Like a baked potato, this costly, slow-cook process partially breaks down the starches; brings out the delicious nut-like flavor; assures easier digestion.

You Feel it

Vitamin B₁

Thirstiest food you will find on Grocers' shelves for important Nerve-Nourishing Vitamin B₁ (Thiamin)—And more Usable Energy-Building iron than spinach. Oatmeal leads all whole grain cereals in Proteins that build muscles (not fat).

1 Only NATIONAL 3 MINUTE OATS are
Ovenized 12 Hours at the Mill. Result —
FINER FLAVOR!

2 Oat flour eliminated by special process.
(Flour makes Oats look and taste gummy and pasty.) Result — FINER FLAVOR!

3 Sixteen Hours of scientific processing
(eight times more than ordinary Oats receive). Result — FINER FLAVOR!

4 Special "tight-wrap" sealing process
protects this precious quality. Result —
FINER FLAVOR!

5 More whole Oat flakes per package.

6 Costs less per serving than 17 other
leading cereals.

Your grocer carries two convenient sizes
Regular Size 20 oz. Family Size 48 oz.
