## Roosevelt Calls For All-Out Production

### AFL Asked To Cooperate To Halt Strikes

President States U. S. Goal Is To Overwhelm Nazis

SEATTLE, Oct. 7.—President Roosevelt, in a letter to the 61st annual convention of the American Federation of Labor today called for an end to defense strikes and declared the nation's all-out production must be limited by only one factor — "the amount necessary to overwhelm the Nazi hordes."

"This is not the time to take chances with the national safety through any stoppage of defense work or defense production," Mr. Roosevelt wrote.

**An All-Out Program**  
"Our program of defense—our production of ships, planes, guns, tanks—must be all-out. It shall be limited by only one factor—the amount necessary to overwhelm the Nazi hordes."

The president said the conciliation service of the department of labor and the national defense mediation board provide "ample facilities" for the adjustment of industrial disputes.

"The time has come when the services of such agencies must be used before any recourse is taken to a strike or lockout and I call now upon labor and management to cooperate at all times to that end," Mr. Roosevelt said.

**Urges United Action**  
The president also called for disarming jurisdictional dispute within the ranks of labor.

"Only by united action can we turn back the Nazi threat," he said. "The establishment of peace between labor organizations would be a patriotic step forward of incalculable value in the creation of national unity."

Warning that labor would be among the first to suffer from Hitlerism, Mr. Roosevelt told the convention that "workers in bondage throughout the world look to freedom to release them from slavery."

"I know you will not fail them," William Green, president of AFL told the convention's opening session yesterday that (Turn to Page 6, Column 4, Please)

### Two Arrested After Chase

Automobiles hurtled 95 miles an hour for a brief time Monday night, and Lubbock and Plainview liquor control board agents and police overhauled an automobile containing two cases of whisky.

Carl Caywood, 37, and H. H. Ratliff, 26, the driver of the pursued car, were arrested.

Caywood, similarly charged Sept. 29 and again Saturday, pleaded not guilty and Judge G. V. Pardue of county court set bail of \$1,000.

**Sighted At Plainview**  
Ratliff pleaded not guilty. No bail had been set at noon. He is expected to make a statement that would be used by the state against Caywood.

Liquor board officials of Lubbock also arrested W. I. Pate, 42, "just this side of Abernathy." He had two cases of whisky in his car. He pleaded guilty and was fined \$200 and costs.

C. D. McClain of Plainview, a liquor control board inspector, and Patrolman Lewis of Plainview police, sighted Caywood and Ratliff at Plainview and gave chase after (Turn to Page 6, Column 4, Please)

## CITY CLOSES SHOP

NEW YORK—The current slogan of the polyglot population of this teeming city seems today to be: "Down with de bosses; hup wid de voikus!"

Which, in plain Texican, is "down with the bosses; up with the workers!" Don't kid yourself that the slithering, slimy theory of Communism isn't taking hold in this country.

In New York it definitely is something to be reckoned with. Where Broadway meets Fourteenth street in downtown Manhattan is a park called Union Square.

Adjacent to famed Greenwich Village, Union Square is the ballpark of the radicals and while their theme song has changed somewhat since the national administration has embraced Joe Stalin and "good, old democratic Russia," the long haired boys and girls are still holding forth oratorically from the soap boxes.

THEY'RE telling a story around here which pretty well illustrates the point in this city where every group and craft of wage earners is highly organized. A Union Square Red orator was expounding the wonders and the benefits of Communism in the usual broken English.

### Lubbock Day Observed At Annual Fair

Ideal Weather Is Expected To Bring Out Huge Throng

By H. I. KIEFER  
Local Staff Writer  
If records are to be broken during the 28th annual Panhandle-South Plains fair, they should begin falling today.

This was the forecast this morning of officials of the fair association, and was inspired by the ideal weather which prevailed.

**Big Rush Is Expected**  
A steady stream of patrons was pouring into the fairgrounds this morning, but the expectation was that one of the biggest rushes of the entire fair would begin in the

**TONIGHT'S PROGRAM**  
7 p. m.—Concert by Lubbock Senior High school band in bandstand in front of Merchants' building.  
8 p. m.—Second performance of fair rodeo in front of Grandstand.  
9:30 p. m.—Fireworks in front of grandstand.

**WEDNESDAY'S PROGRAM**  
First Children's Day; Slaton, Southland, Fort Tarrants, Lamesa, Brownfield, Amarillo, Dalhart, Dalworth, Seminole, Gall, Roswell, Wilton, Meadow, Wallfort, Devere City and Allied Days.  
9 a. m.—Judging of Jersey and Holstein cattle and of Hampshire, Spotted Poland China and Chester White swine.—Beckmann and Gerey carnival midway opens.  
9:30 a. m.—Lubbock city schools recess for remainder of day.  
3 p. m.—Concert by visiting band in front of Merchants' building.  
3:30 p. m.—Free program of vaudeville and circus acts in front of grandstand.  
7 p. m.—Band concert in front of Merchants' building.  
8 p. m.—Rodeo in front of grandstand.  
9:30 p. m.—Fireworks in front of grandstand.

early afternoon when the outpouring of Lubbock residents started for the observance of Lubbock day. Schools closed at noon, and most of the business houses of the city shut down for the day at 1 p. m.

Last year's Lubbock day attendance was 14,809, while the all time record for the day was set at 17,718 in 1938.

White Lubbock engaged today in its celebration of its particular day at the fair, preparations were going forward for the handling Wednesday of the crowd which, with favorable weather, is expected to be the largest of the entire week. The occasion is to (Turn to Page 6, Column 5, Please)

### Theft Complaints In City Are Numerous

Theft complaints dominated a rather quiet night, police said. Bob Williams reported a fire and wheel stolen from his car parked at the Panhandle-South Plains fairgrounds. Wm. D. Hatley of 1614 Avenue A said his bicycle had been stolen at the fairgrounds.

H. T. Bateman of 1609-B Main street reported \$60 worth of tarpaulins had been taken off his truck despite his having set a watchman to guard it. Name of a suspect was supplied to officials.

Barbara Leonard of 2211 Twenty-second street said her bicycle had been taken from Junior High school. Police recovered a stolen bicycle, which had been left at a tourist camp. Camp officials gave the tip-off leading to recovery, officials said.

### Three Dickens County Youths Jailed After Auto Is Stolen

Three 14-year-old Dickens county boys stole a car and away they went—through Lubbock and into collision with a machine driven by John Dalton Spence of Lubbock route 3.

### First Thoughts Of Scrambled Eggs—Five-Year-Old Girl Amazingly Survives Eight Days In Cold, Heavy Forests Without Food

(By The Associated Press)  
CONWAY, N. H., Oct. 7.—Pretty little Pamela Hollingsworth sat in a hospital bed today and ate her first meal in eight days—the amazing survivor of more than a week of wandering and sitting in the freezing-cold of the heavy forests that blanket Mount Chocoma.

### Ship Is Torpedoed Without Warning

Survivors Of U. S.-Owned Ship Blame Sub For Midnight Assault In South Atlantic

(By The Associated Press)  
RIO DE JANEIRO, Oct. 7.—Survivors of the torpedoed American-owned Panamanian tanker I. C. White said today that the vessel had been torpedoed without warning, presumably by a submarine.

### Grand Champs Are Selected

Grand champions in both the male and female classes of the Duroc-Jersey department of the Panhandle-South Plains fair were selected this morning by F. I. Dahlbry, of the department of animal husbandry of Texas A. & M. college, in the annual judging contest.

Her winners were to be announced later. Wavemont's Image, senior male champion, also was grand champion. He was exhibited by Tierra Blanca farms of Canyon, of which Oscar Evans is superintendent.

**BELGIAN IS SHOT**  
PARIS, Oct. 7.—The Germans today announced the 73rd execution in occupied France, and said the latest victim, a Belgian, was shot in reprisal for an attack against a German soldier in the French Ardennes.

### Prison Sentence Is Given Pampa Youth

GALLUP, N. M., Oct. 7.—A one-to-five-year prison sentence was imposed on Sidney H. Richardson, 17, of Pampa, after he pleaded guilty yesterday to burglarizing filling stations here and in Grants, N. M.

### Higher Pay For Army Will Be Asked; Morale Said "Streaky"

(By The Associated Press)  
WASHINGTON, Oct. 7.—Two months of field service in an armored brigade have convinced Senator Lodge (R-Mass) that increased pay for soldiers is among the army's first needs.

### Russia Admits Great German Drive Started

Hitler Said Ready To Lose Thousands To Gain Objective

(By The Associated Press)  
The Soviet government tonight acknowledged that the Germans had launched a great offensive on the central front and announced that the entire Russian nation was being prepared to meet it.

"Hitler," said S. A. Lozovsky, vice commissar for foreign affairs, "seeks to achieve a major success before the winter sets in with its biting cold and heavy snows."

**Entire Nation Mobilizing**  
"It is clear that we are mobilizing the entire might of the nation to meet the new assault."

Lozovsky, Russia's official press spokesman, told a press conference that the Germans probably have several hundred thousand men they wish to lose.

**Nazis Claim Victory**  
Meanwhile Adolf Hitler's high command claimed victory over the Russians in a great new battle in the Ukraine, north of the sea of Azov, but London military quarters reported that the Germans had been checked with severe losses and that guns of the Soviet Black sea fleet were heavily pounding the invaders.

Front-line dispatches to Red Star, the Soviet army newspaper, reported a violent battle was raging on the central (Moscow) front, with Marshal Semenov, Timoshenko's troops striking fiercely against German armored wedges driven into the Russian lines.

Soviet infantry, supported by tanks and aviation, were reported to have attacked heavy German troop concentrations immediately after a long march, destroying 198 tanks and killing more than 1,000 Nazis in three sectors.

### Connally Asks Pensions Hike

(By The Associated Press)  
WASHINGTON, Oct. 7.—Sen. Tom Connally, D. Tex., today introduced legislation which would vary the federal contributions to the states for old-age pensions according to their per capita wealth.

Connally explained that the measure would permit states with a lower per capita income to receive approximately the same pension benefits as the wealthier states. The measure would double the federal contribution to Texas, he said.

**Contribution Matched**  
Under present law, the federal government matches the Texas contribution dollar for dollar, Connally said. Under his new bill, the government would contribute a little more than two dollars for each dollar contributed by Texas.

The theory of the measure, he declared, has been approved by the Senate by chairman Arthur J. Altmeyer, of the social security board.

### Death Sentence Of Premier Suspended

BERLIN, Oct. 7.—The death sentence imposed by a German court upon Premier Alois Elias of the Nazi protectorate of Bohemia-Moravia for premeditated treason has been suspended to permit him to testify against other suspects, DNB reported today from Prague.

### Congratulations To:

Mr. and Mrs. J. C. Robinson, residing on Lubbock route 6, on the birth of a son, weighing 7 pounds, 12 ounces Monday night at 10:40 o'clock in the home. He was named James Coleman. The father is employed by a motor freight line. The birth was reported by Stewart and Benson clinic.

## FDR WOULD ARM SHIPS

WASHINGTON, Oct. 7.—President Roosevelt was reported authoritatively today to have advised congressional leaders that he favored changing the neutrality law to arm American merchant vessels and permit them to travel to belligerent ports and now-forbidden combat zones.

Those who conferred with the chief executive on the neutrality issue reported, however, that he was undecided whether to request the two changes in a single message or first to ask authority to arm the ships and then recommend later an amendment to permit them to travel anywhere.

One of the legislative leaders at White House meeting today said there virtually was unanimous agreement that both steps should be taken, but that there was considerable controversy over procedure.

One of those who particularly urged that both changes be made at once was Harry L. Hopkins, the lease-lend administrator, congressional spokesman declared.

## Three Dead As Storm Sweeps Kansas City

150 Others Are Injured; Property Loss At \$1,000,000; Little Warning Given

(By The Associated Press)  
KANSAS CITY, Mo., Oct. 7.—Through the debris that once had been 250 homes, workers searched today for possible further victims of a tornado that dipped into this area to kill three persons, injure 150 and cause \$1,000,000 worth of damage.

About 60 persons were hospitalized with broken bones, cuts and bruises suffered when the twister swept out of rain-swollen skies just before the supper hour last night and in a few moments cut a wide swath for six miles through southeastern Kansas City and the suburban communities of Mount Washington, Fairmount and Sugar Creek.

**Sounded Like Locomotive**  
The dead were: Mrs. Dorothy Lucas, about 25, and her 18-month-old daughter, Diane.

Mrs. Ella Perkins, negro, 51. The tornado tore houses from their foundations, lifted huge timbers and power and telephone poles and hurled them like great javelins through other structures. It sucked out one wall of the vast Union-Ways Hope plant. It nicked up a 100,000 gallon oil storage tank and planted it hundreds of feet away.

Residents had little warning. Rain had fallen all day and suddenly, they said, they heard the roar of what sounded like a huge locomotive.

**Found In Ravine**  
Then the wind was sending debris flying about them. The great funnel of destruction first dipped unheralded into a southeastern Kansas city residence.

### Treasury To Borrow \$1,300,000,000 Sum

WASHINGTON, Oct. 7.—The treasury announced today it would borrow \$1,300,000,000 Thursday in the largest single cash financing operation of the treasury since the Liberty loan drives of the World War.

A new issue of long-term bonds will be sold to the investing public for \$1,200,000,000 and an additional \$100,000,000 of the new bonds will be sold for cash to government trust funds.

### Body Is Found

PARIS, Oct. 7.—The body of a woman, with the ankles bound and a paving block tied to the neck, was taken Saturday from the river Seine and police identified it today as that of Madame Tonis Masse, secretary of the Anti-Bolshevik League of Paris.

### Iran Ruler Hopes To Visit The U. S.

TEHRAN, Iran, Oct. 7.—Shah Mohammed Riza, for 22 days the titular ruler of the oriental kingdom of Iran, said today he hoped to visit the United States after the war and gain guidance which would help him make his country a "real democracy."

"America and Iran should be the best of friends," he declared. The 21-year-old shah, who was elevated suddenly to the throne when his father abdicated under British-Russian pressure last month.

# Peace Offer By Hitler Said Entirely Possible

## Stalemate In War Pictured

By DEWITT MACKENZIE  
Journal War Analyst

Hitler's great new offensive operations against the Russians, which the Nazis claim "are of such strategic magnitude that they exceed everything else achieved in the eastern campaign," tend to lend substance to the report that he figures on making a peace offer to Britain before long.

The story cropped up this time in Cairo and it's now said that the United States is to be included in the proposal.

**To Organize New Order**

Briefly the idea is that the fuhrer expects to knock Russia out of the war before the end of the year. Thus, being lord of all continental Europe and the seas, he will set his hand to organizing a new order.

After a spell of cooling their heels, so the story goes, John Bull and his comrades, including Uncle Sam, will see that there's no use being a belligerent if there's nobody you can fight, and they will be ready for peace. In other words, the war will be a stalemate.

**Idea Is A "Natural"**

Peace rumors are, of course, a penny a dozen, but the circumstances in the present instance combine to form such a "natural" in so many respects that the scheme must have dwelt in Hitler's mind more than a bit. Probably if we say he had the hope, though not the certainty, that this will come off, we shall be pretty close to right.

The strong probabilities are, in my view, that peace never will come in this way. However, since such a situation is within the realm of possibilities it is interesting to take a look at it.

The keystone of this whole grand bridge-of-dreams is the presupposition that the fuhrer, in conquering the Bohemians, would acquire from the treasure-houses of the Ukraine and the Caucasus, and other parts of Russia, the essential supplies which he now lacks because of the British blockade.

**Would Repair Ravages**

Then the Reich would wax strong and repair the ravages of war. Hitler would wait for the Allies to come and get him, if they wanted him. Stalemate!

The whole thing adds up to a glittering picture of success. Whatever Hitler may have in mind about peace, his present operations bring that picture into strong relief.

His offensive in the center of the line is aimed at the morale of the government and the people, through the capture of Moscow. Down in the Ukraine another fierce drive is claimed by Berlin to have resulted in a great victory north of the sea of Azov. That is on the route to the Caucasus.

This is no time for predictions.

GRANDSTAND PERFORMERS — The Lerays, aerialists shown above in one of their bits of daring on the trapeze, are one of nine acts given in front of the grandstand every afternoon at the Panhandle-South Plains fair. (Avalanche Staff Photo.)

## "Skippers" Resort To Wide Variety Of Tricks In Effort To Dodge Payment Of Hotel Bills But Few Of Them Succeed

Trouble comes often in the hotel business, according to managers of local hostleries, and room rates could be lowered approximately 30 cents if there were no petty pilfering, "hot" checks and guests who attempt to leave without paying bills.

At least 20 per cent of inventory is lost each year as guests take articles accidentally or as souvenirs. One local hotel reports an annual loss of \$500 on keys and aluminum key tags.

**Most Popular Souvenirs**

Most popular souvenirs are blankets, towels, sheets, bath mats and bedspreads. Coffee shop losses include silver and china.

"Very often," declared Mike Haynes, assistant manager of Hotel Lubbock, "a man will send money in payment for a towel, after discovering that his wife has taken the articles as a souvenir."

The term "skipper" is applied to guests who attempt a "get-away" without officially checking out at the desk. Skippers employ many "tricks" all well-known in the hotel business.

**Some Use Fire Escapes**

"Idea of the whole thing," Haynes stated, "is to get possessions outside the building without being detected. Some guests deliberately use the fire escapes, while others resort to various measures. Sometimes a skipper will leave empty baggage in his room and wear as many as three suits of clothes upon leaving the hotel."

Use of phony baggage stuffed with paper or books is frequent. In this way, the guest may easily walk out, leaving the bags in his room. Whenever a guest registers with no baggage or only light suit cases, he is required to pay his bill in advance.

In order to remove clothes from the building, a guest will send them to a cleaners or laundry. Hotel maids are instructed to notify clerks in these instances.

**Articles Sold At Auction**

When a skipper is caught, no penalty is assessed, as the hotel manager cannot prove that the move was intentional. If he has the money, a guest can be required to pay his bill. And if detected in time, the would-be skipper may be locked out of his room, while the hotel holds his baggage until all debts are cleared. If not redeemed within six months, the articles are sold at public auction.

Hundreds of articles are left each year in local hotel rooms, including everything from false teeth to brief cases and electric razors. When such articles are found, they are placed in a "lost and found room," where they are labeled. If not called for after a six-month period, the lost articles are also auctioned.

**Manager In Demand**

"Whoever the manager," the dissatisfied customer always demands, whenever there is a question on prices, service or reservations.

Particular rooms are usually held for regular guests, and managers are willing to give special services if reasonable. For instance, one periodic visitor to a local hotel requires an extra-long bed due to his unusual height.

Human psychology is easily studied from the hotel desk, according to a clerk at the Hilton. "All types of individuals check in and out during the year, and the observing clerk comes in contact with the pathos and excitement of human life."

## Construction Soon To Start Upon Building

Dr. Clifford B. Jones, president of Texas Technological college, said construction of the agricultural building for which contracts were let Saturday in Fort Worth would begin in a few days.

The general contract was awarded to Ingle and Sikes Construction company of Lubbock on a low bid of \$232,973 and the plumbing and heating contract was given to the same company on a bid of \$51,568.

Construction is to be completed in 300 working days, or about Aug. 1 of next year, in time for the building to be prepared for use during the 1942-43 semester.

## Plea Of Innocence Is Entered In Slaying

TALLAHASSEE, Fla., Oct. 7.—Ulah Houston, 19, of Pittsburgh, Tex., today pleaded innocence to a charge of killing George Hans Moje here April 1 and then driving to Texas with the body.

Circuit Judge W. May Walker set the trial for Nov. 6 at the request of State Attorney Orion C. Parker, jr., who said he needed time to summon witnesses from Texas and several Florida cities.

Houston is charged in a first degree murder indictment with killing Moje with a wrench during a roadside argument near here.

## NAMED CLUB SECRETARY

LITTLEFIELD — E. C. Cundiff has been named secretary of the Littlefield Lions club. He succeeds J. R. Eagan, who resigned to move to Lubbock. Eagan was transferred there by the insurance company he works for.

Many commercial aviators are operating in Alaska.

## Professors Are To Meet On Saturday

At request of Dr. W. H. Abbit, former professor of physics in Texas Technological college, a committee of the American Association of College Professors will meet Saturday in Lubbock.

Members of the committee will be W. F. Pietsen and R. G. Gustafson of the University of Colorado, according to information received by President Clifford B. Jones from Ralph E. Himstead, secretary of the association.

The organization has headquarters in Washington, D. C. It requested permission to hold the hearing and Texas Tech officials agreed.

Dr. Abbit was a member of the faculty from 1926 through the 1940-41 session.

Norwegians and sympathizers in China recently celebrated the 127th anniversary of the establishment of a constitutional government in Norway.

"Not a Cold Spot in the house since you put in those Clow Gasteam Radiators."

"and this steam heating system needed no costly furnace or boiler."

YOU TOO can get the benefits of complete uniform steam heat with Gasteam Radiators in YOUR home.

HERE'S WHY—The only way to heat a house uniformly is to use individual radiators at the coldest parts of the house. Cold air is thus warmed as it enters the house, regardless of wind direction, instead of flowing across the floor from room to room in order to get to a large centrally located heater. When you light your home, you put a bulb in every room—you wouldn't think of lighting it with a searchlight. The same idea applies in heating. Use vented Gasteam Radiators and eliminate moisture.

There are Gasteam Radiator sizes to meet every domestic and commercial use. They are easy to install, easy to use, and they are quickly available in your locality.

# U. S. Navy's "Impractical" Convoys, Mines Once Licked U-Boats

## Parallels Noted To War Now

On spectacular sea battles marked the U. S. Navy's appearance on the maritime stage of the last World War. But mighty impressive was its contribution to the Allied victory over Germany, as it is shown in the following article (the last of six).

**BY TOM WOLF**  
NEA Service Staff Writer

Lead-Jellicoe, commander of Britain's Home Fleet, pushed a sheet of figures across the table to Admiral William S. Sims, U. S. N., who had just arrived in London—simultaneously with America's entry into the World War.

Sims frowned as he studied the figures—allied merchant tonnage sent to the bottom by U-boats. The losses were even greater than he had realized, mounting steadily.

He studied the sheets for a long time, then turned to Jellicoe: "It looks as though Germany were winning the war."

"They will win," replied Jellicoe, "unless we can stop these

losses, and stop them soon."

Sims: "Is there no solution for the problem?"

Jellicoe: "Absolutely none that we can see now."

**Plans Are Outlined**

Admiral William S. Sims, U. S. N., had been sent to London in the last week of March, 1917. It had become obvious that the United States would soon declare war on Germany and seemed advisable to send a ranking American officer to confer with the British on joint naval problems.

Secretary of the Navy Josephus Daniels had given Sims his instructions. "President Wilson thinks there must be some means," he told Sims, "of conveying merchant ships with men-of-war or of bottling up the German submarines in German waters."

So when Britain's Lord Jellicoe told Admiral Sims early in April, 1917, that the British Navy could see "absolutely no solution" to the U-boat menace, which threatened very soon to win the war for Germany, Sims suggested convoys.

The British had thought of convoys, Jellicoe told the American, but they wouldn't work. For one thing, merchant ships traveling so close together would probably ram each other executing the compli-

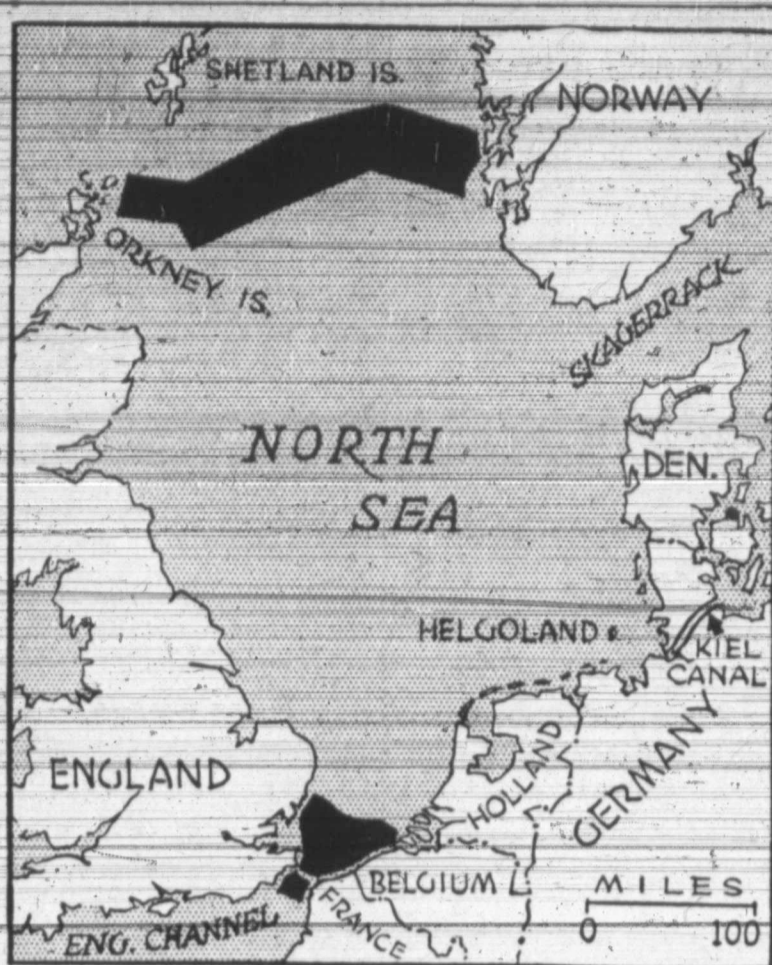

ated movements thought necessary for eluding torpedoes. For another, there were not enough destroyers available for convoy duty to make such a system practical.

**Convoys In Service**

Sims bowed to the British experience and judgment. He wrote Daniels that convoys seemed impractical. But the subject continued to weigh on his mind. The American warships had to come across the Atlantic anyway, he reasoned, why not let them try conveying on the way? The British acquiesced.

The first experimental convoy of a dozen-odd merchant ships arrived in England from Gibraltar on May 20. Not a ship had been lost. The following day the British admiralty voted to establish a convoy system.

Now Sims cabled to America to rush more warships for convoy duty. There were not enough available. The navy dropped its other building plans and laid down a rash of destroyers, T-1 sub-chasers, built on a hunch when the allies ordered some special water patrol boats early in the war, were pressed into service. The thin line that meant stran-

Representing mine fields, the solid black areas on the map above show graphically how German navy was "locked up" in the North Sea during World War I. British naval experts said it was "impossible" to seal the 250-mile long, 25-mile wide space between Norway and Scotland. The U. S. Navy did it—with 72,263 mines.

gulation for England—the rising line on the graph of U-boat sinkings — turned downward. Then and there Germany, whether she knew it or not, started losing the war.

Not only merchant ships sailed the oceans in safety. Troopships, too. During America's 19 months at war two million men were transported to Europe. Not one American troopship was sunk on the way to France. Not one soldier was lost on a transport manned by the United States navy.

**Proposes Gigantic Task**

Just a week after Admiral Sims had first proposed convoys to Lord Jellicoe, he broached the second of President Wilson's suggestions. The Straits of Dover were mined to keep submarines bottled up in the North Sea, he told Jellicoe. What about finishing the job? What about mining the only other outlet from the North Sea — the stretch between Scotland and Norway?

Jellicoe shook his head. Absolutely impossible. The channel was 250 miles wide. In some places it was 150 fathoms deep. To make sure that submarines could not sneak through at any depth would necessitate layer upon layer of mines. At least 400,000 mines would be needed. Not only were there no facilities for laying that number of mines in time to be useful, even if there were, there were no facilities for manufacturing them.

**Mines Field Approved**

At the same time this conversation was taking place in London, an important conference was being held in the navy's Ordnance Bureau in Washington. A New England inventor had submitted to the bureau a proposed anti-submarine gun. Its principal mechanism was long wire antennae which floated in the water around the submarine and touched them.

The bureau dismissed the gun

itself as impractical. But what about the antennae? How about putting them on mines? One mine equipped with a series of these octopus-like arms could do the work of three or four of the type of mines then in existence.

The idea was forwarded to Sims in London. The British Admiralty, still skeptical, took renewed interest in the North Sea mine barrier. Well, asked Sims, will you authorize the plan if the U. S. navy takes on the job of planting the field?

**Navy Gets Busy**

On October 22, 1917, Secretary of Navy Daniels received a cable. "The Admiralty has approved the mine barrier and now confirms approval."

The U. S. navy went to work. A plant was built at St. Julian's Creek, Va., equipped to load 1000 mines a day. Twenty-three cargo ships were converted for mine carrying. Eight passenger ships were torn apart and turned into planters. Hundreds of men were trained to plant.

By the spring of 1918 the Americans were ready. The first mine planters disappeared into the North Sea mist on the morning of June 8. That day they planted a field 47 miles long, 3400 mines placed in position in three hours and 36 minutes.

It was just a month and a day later that the first German U-boat limped back to her base, plates bashed in, to spread the alarm. Soon another U-boat was missing — in the area where the first was hit. Now another limped back to port, out of action for the duration. The psychological effect of the field was as damaging to German morale, even when submarines slipped through it, as were its mines to German U-boats.

**New Luster To Tradition**

All summer the Americans continued to plant their deadly extended, the graph of allied mer-

No. 32 of a Series

**"THIS BOOK ISN'T WORTH READING ... tear down the Library!"**

One bad book doesn't make it a bad library. You wouldn't destroy the library to get rid of a few bad books.

A similar situation holds in the beer industry. The vast majority of beer retailers operate clean, decent law-abiding establishments. Now and then an occasional "black sheep" retailer turns up who violates the law or permits anti-social conditions.

The Beer Industry is now actively working to eliminate such retailers. We want to protect your right to drink good beer and our right to make it.

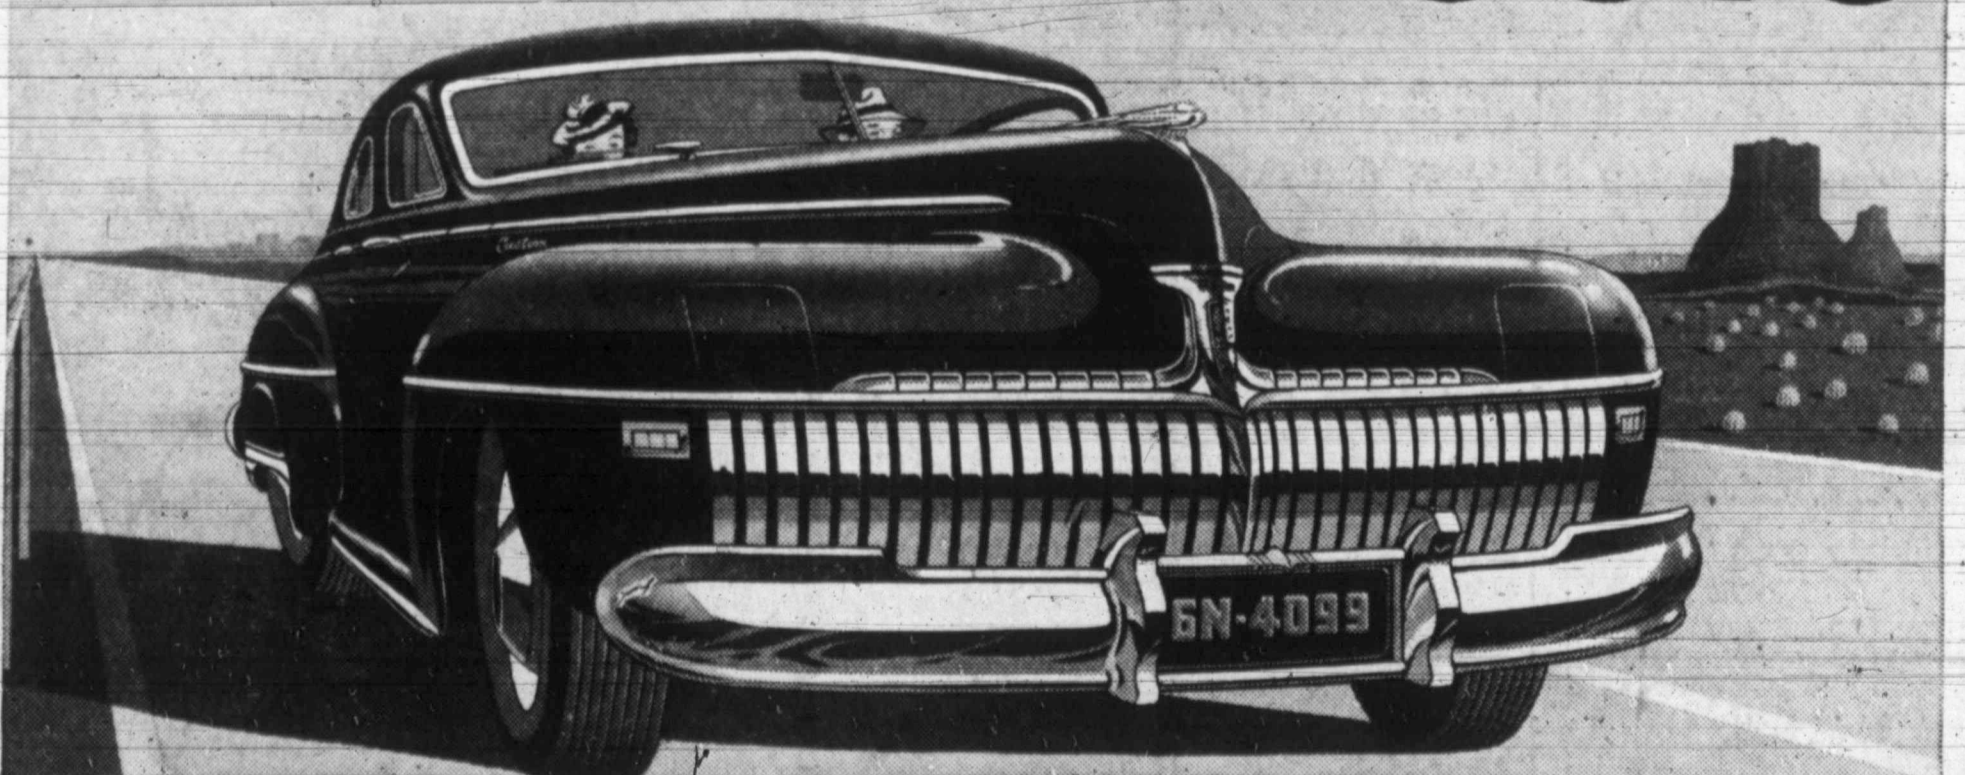

We also want to protect the economic benefits of beer. Right here in Texas, beer provides employment for 31,165 persons, supports an annual payroll of \$22,076,182 and contributed \$2,273,968.64 last year in state taxes.

This state, too, has an important stake in Beer's purchases from more than 100 industries supplying the brewing industry with materials, equipment and services.

You, too, can help the cause of moderation by (1) patronizing only the reputable places where beer is sold, and (2) reporting any law violation you may observe to the duly constituted authorities.

**BEER... a beverage of moderation**

## Haddock-Darks Marriage Is Read In Oklahoma

Miss Doris Darks, daughter of Mr. and Mrs. H. H. Darks of Wetumka, Okla., and Arthur Haddock of Slaton were married recently in the First Methodist church in Wetumka with Rev. J. E. Small officiating.

The bride, who was given in marriage by her father, wore a white satin gown with fingertip veil of illusion and sweetheart neckline. She carried white tube ones and a white prayer book.

The bridesmaids, Mrs. D. L. Fenrick, Mrs. Thea Maloy and Miss Mildred Russ, Jackson wore green frocks with bronze chrysanthemums. Mrs. Willard Darks, matron of honor, wore a rust frock, and Miss Helen Hurst, maid of honor, wore a gold dress.

## Personality Is Subject

Mrs. Ben F. Maxey discussed "Personality as Expressed by Appearance" at a meeting of the Epsilon Sigma Alpha sorority Monday night at the Hilton hotel.

She said it is not how much a woman spends on her clothes and how she looks in her wardrobe that counts. Two essentials to the well-dressed woman were defined as neatness and cleanliness.

A short business session was conducted.

Visitors were Misses Mary Harbert, Mary Anna Wood, Helen Montgomery, Lottie Jo Townes, Estelle Hodel, Ruby Inez Lam, Christine Birdwell, Beatrice Spivey and Mrs. Joretta Bardwell.

## Christian Auxiliary Is In Meeting At Church

Mrs. L. D. Thomas was leader of a program presented at a meeting of the First Christian Women's auxiliary at the Church Monday afternoon on the theme, "A Challenge to Christians." Mrs. K. M. Benner presided.

Others on the program were Mesdames T. Teal and R. A. Jordan. Members were urged to attend a convention in Slaton October 20 at 4:30 o'clock which will be of special interest to women of the auxiliary.

No one ever has explained satisfactorily the purpose of the "bell" on the throat of a moose.

## Expecting a Baby?

MOTHER'S FRIEND helps bring ease and comfort to expectant mothers.

MOTHER'S FRIEND is an exclusively prepared emollient, is useful in conjunction with a bland, mild anodyne massage medium in skin lubrication is desirable. One condition in which women for more than 70 years have used it is an application for massaging the body during pregnancy. It helps keep the skin soft and pliable, thus avoiding unnecessary discomforts and tightness. It refreshes and tones the skin. An ideal massage application for the scalp, itching or burning sensations of the skin, for the tired back muscles or cramp-like pains in the legs. Quickly absorbed. Delightful to use.

## We The Women

BY RUTH MILLETT

Her first marriage was unhappy and ended in divorce. Now she is beginning on her second, and it has every chance for success.

One reason is that she had enough good, hard common sense to learn from her past mistakes. Instead of taking the "poor-mistreated-me" attitude of so many women who find themselves alone after a few years of marriage, this young woman studied her marriage as critically as though it was that of a friend.

Her husband had had his faults, and she knew just what they were—but looking back on the trouble they had caused, she could see that a woman wiser in the ways of getting along with others could have done something about those faults besides resenting them and trying to get even.

She realized when she thought of her own marriage, as compared with others, that there aren't any perfect husbands. And that in every happy marriage she knew about, the husband and wife had both changed each other some, and then decided not to let each other's little faults cause friction.

While she was taking a good honest look at her marriage she saw some faults of her own, and remembered that her husband had tried to change her, too. But she had been very certain that her conduct as a wife was flawless and hadn't tried to change herself at all.

## Business Women's Week Is Observed By 1700 Clubs

In 1700 American communities more than 79,000 members of the National Federation of the Business and Professional Women's clubs are observing National Business Women's week, calling attention of the public to the purposes of the organization and the special topic for the year, "Strengthen Democracy by Defense."

This special week, conceived by Emma Partridge when she was executive secretary of the national federation, has as its purpose the dramatization of the contribution of women to the business and professional life of the country.

In 1928, the first year in which the week was observed, the Federation had 874 clubs and more than 76,000 and is represented in every state, the District of Columbia, Alaska and Hawaii.

## Miss Anne Lee Marries Kelley Marsh In Spur

Announcement is being made of the marriage of Miss Anne Lee, daughter of Mrs. W. B. Lee and the late W. B. Lee of Spur, to Kelley Marsh, son of Mr. and Mrs. J. A. Marsh of Abilene, which took place Sunday morning at the First Methodist church in Spur with J. H. Miles of the Church of Christ officiating.

W. B. Lee gave his sister in marriage, Miss Regina Lee was maid of honor and Misses Martha Nichols and Beatrice Spivey of Lubbock were bridesmaids.

John F. Moore of Spur was best man. Ushers were William C. Starcher and James Henry Cowan. Miss Ina Bacon of Plainview sang "Because" (D. Hardelt). Mrs. Cap McNeill played Lohengrin's Wedding march. The church was decorated with white gladioli and California white chrysanthemums.

A reception was held at the home of the bride's mother, after the ceremony.

### De Sotos Will Be Seen Here

There are four basic points to watch for in the new De Soto automobiles to be displayed today at Hub Motor Co., at 1211 Main street:

1. Streamline styling "that borrows from the future"
2. Long-life engineering.
3. Operating economy.
4. Safety construction.

There are six models in the De Luxe line and eight in the Custom series.

Mightiest that ever powered a De Soto is the car's high compression engine, of which has been stepped up to 115 horsepower.

Also, up at the head of the list of De Soto's features are highly stylized "rocket" bodies, with concealed running boards and a galaxy of innovations and refinements that add to the car's long life and to the comfort and safety of those who ride in it.

Keying the advanced streamlined styling are the car's new concealed "Airfoil" headlights. The sealed beam lights have been recessed into the fenders where they are concealed and protected in daytime behind sliding steel panels.

De Soto's new front-end is distinctive and more impressive-looking than ever. The low, long "alligator" hood flows back to a V-type windshield that slopes toward the rear at a 42 1/2-degree angle.

Back Also Distinctive Concealed running boards offer a sleek beauty arrangement without eliminating the advantages of the full-width board itself.

Sweeping smoothly at the rear and blends into fender contours to form as highly styled appearance as that of the front end. A single pane of curved glass follows the contours.

For greater convenience in locking the car from the outside, there are exterior locks on each front door. The ignition key functions for both.

Perfect Fluid Drive Fluid drive and simplimate transmission will be available with all models at a moderate additional cost. With fluid drive, power from De Soto's new "Powermaster" engine is harnessed to the rear wheels through oil. And fluid drive with simplimate transmission makes it possible to start, stop and cruise without touching clutch or shift-lever in all normal driving.

Nine solid shades and four two-tones are available this year. Solids are regal maroon, zircon (dark) green, gem (light) green, Monterey (light) blue, Carmel (dark) blue, pearl gray, gunmetal and Palomino beige.

Two-tone combinations are gunmetal, upper, and pearl gray, lower; zircon green, upper, and gem green, lower; Carmel blue, upper, and Monterey blue, lower; and Navajo brown, upper, and Palomino beige, lower. Only the last combination cannot be reversed.

Annual Dinner Will Be Given Tonight An annual dinner will be given tonight in Lubbock hotel for short-horn breeders of the area.

Owen McWhorter, Lubbock attorney-breeder, will be master of ceremonies, said Frank Well of the Center, department superintendent of the Panhandle-South Plains fair.

The dinner will begin at 7:30 o'clock.

Ray C. Mowery, who will judge the animals, will give an informal talk. There will be short talks by a number of breeders. Well added. Breeders with a total of 40 head in the department this year, include: Olsen Bros., Fargo, N. D.; McWhorter and Howard; L. R. Vaughn, Olton, V. M.; Peterman, Amberst; E. L. King, Southland; W. M. Wilderding, Muleshoe.

Sunflowers were carried into Kansas as seeds, clinging to the muddy wheels of eastbound wagons on the old Santa Fe Trail.

### Safe Drivers Given Merit Certificates

Capt. W. W. Legge of the state highway patrol district of Lubbock, said Sundown and Lubbock men had been cited with certificates of merit for driving 500,000 and 300,000 miles without mishaps.

William E. Silvertooth has driven trucks and buses a half million miles since 1916. He lives at Sun-down.

The other certificate of merit went to L. A. Battin of 2221 Ninth street for his having driven "all

sorts of cars, many of which were defective" over a period of several years.

Col. Homer Garrison, jr., director of the department of public safety, made the awards.

MOVED TO LUBBOCK SEMINOLE—Roy Stewart, employed at the Davis and Humphries grocery store here has been transferred to a Lubbock store for the same firm. He will be an assistant manager. Harvey Johnson succeeds him here as assistant manager.

### Hutchins Funeral To Be Held Wednesday

Funeral services will be read at 2:30 o'clock Wednesday afternoon at Cordell, Okla., for Mrs. Joe Hutchins, approximately 60, mother of Mrs. W. O. Fortenberry of Monroe.

Mrs. Hutchins died Monday afternoon at her Cordell residence. Mr. and Mrs. Fortenberry and children, Billy, Imogene, Betty Jane and Joe, are in Cordell. Fortenberry's brother, J. A. Fortenberry of 1909 Twenty-fourth street

and Mrs. Fortenberry will go to Cordell today.

Laboratory tests show that human speech is made up entirely of buzzes and hisses.

*It's an Old American Custom*

Folks were mighty happy with their first telephones—even if they were on party lines. But the 'phone didn't stop improving! Think of your hand set today.

And here's the family phonograph that once looked like an air-raid siren. A swell gadget then, but a far cry from the electric marvels of 1941!

Making a good thing better is an old American custom! And it's an old custom of the Kellogg Company, world-famous makers of cereals. Over the last 25 years untold Americans have praised the goodness of KELLOGG'S ALL-BRAN. But now a marvelous bran from one of the world's softest wheats gives ALL-BRAN new lightness, new crispness, new flavor!

Your grocer now has the improved "golden soft" ALL-BRAN. Break out a package for tomorrow's breakfast. You'll find it just as effective and twice as delicious as any ALL-BRAN you've ever tasted. If you'd like to ward off constipation due to lack of "bulk" in the diet, eat ALL-BRAN every day, drink plenty of water, and "Join the Regulars!"

*The Improved Doubly Delicious Kellogg's All-Bran*

Made by Kellogg's in Battle Creek Copyright, 1941, by Kellogg Company "All-Bran" is a Registered Trade-Mark of Kellogg Company

# Maimed Bodies of Six Men Killed in Bomber Crash Are Recovered

## Long Trek to Scene Made

By The Associated Press  
**FLAGSTAFF, Ariz., Oct. 7.**—The maimed bodies of six officers and men killed Thursday when their big army air corps B-18 bomber crashed into lofty Agassiz peak during a swirling snow storm, were carried by stretcher over trail-less terrain today to waiting army ambulances from the Albuquerque, N. M., air base.

In the grotesque flicker of lanterns last night, Corporal W. E. Jolly conducted an inquest, but the verdict was not immediately announced. Soon afterward, CCC enrollees, soldiers and civil authorities began their descent down the 12,540 foot peak, Arizona's second highest.

**Bodies Horribly Maimed**  
 Four to five inches of snow and a heavy stand of timber impeded travel. By the time the group reached here, it was expected that a salvage crew of 20 from the Tucson, Ariz., air base would arrive. The scattered remains of the bomber will be taken by truck to Tucson.

"The bodies were horribly maimed and except for the right wing and the tail it was hard to realize that the wreckage was once a plane," said Bob Fronks, Flagstaff photographer, who was in the first ground party to reach the scene.

**Signs of Fire Noted**  
 Fronks expressed the belief that the pilot, Lt. A. King, Laramie, Wyo., was attempting to back track on his course when he swung head-on into the side of Agassiz peak at about 10,500 feet. The ship plowed into the heavy stand of timber, shearing the left wing.

"It appeared a fire broke out in the cabin after the crash," Fronks said. "The impact apparently threw the men clear. Some of the bodies were at least 200 feet from the craft's cabin remains."

The plane struck the peak while on a flight from Flagstaff, Ariz., to Sacramento, Calif., to Albuquerque, N. M.

The wreckage was discovered yesterday from a plane piloted by Lt. James Cochran, operating from Tucson.

In addition to Lieutenant King, the other officers and men aboard the doomed ship were Lt. R. H. Conway, Wilbur, W. Va., co-pilot; Lt. W. W. Crim and Lt. D. C. Boyd, both of Pendleton, Ore.; Air Corps, W. A. G. Gillem, Spokane, Wash.; and Pvt. L. T. Morfield, Sacramento, Calif.

Crim and Boyd were passengers. Boyd was en route to Sherman, Tex., to marry Miss Christina Barrett.

## Storm Strikes

(Continued From Page One)  
 tial area—a new real estate development of middle class homes. It smashed the story and one-half brick Arlington Methodist church, crossed the street, and swept from their foundations and smashed like paper bags the Lucas home and a house next door.

Mrs. Lucas with her baby still clutched in her arms was found a half hour later 800 feet below the house in a rain-filled ravine.

The tornado jumped a ravine, swirled northward through a sparsely settled bottomland, then veered to chop into a hillside populated by negroes. Their frame cottages—little more than tarpaper and lathes—were an easy shred for the wind. It scattered the debris for blocks.

**Weakens Heavy Damage**  
 Over another ravine it passed and mashed seven houses on a hilltop on the city limits. Across open country it roared and swept down into the 15th street industrial area, home of a score of defense industries. It collapsed a wall of the wire company and threw its full force against a creosote plant and feed mill which were severely damaged.

Then up another hill and into the intercity district it roiled. In succession it found Mount Washington, Fairmount and Sugar Creek, suburban communities.

In Mount Washington and Fairmount it went through the business districts breaking plate glass windows, unroofing business structures, scattering merchandise in the streets. It wrecked an automobile showroom in Fairmount and scores of filling stations and refreshment stands along the roads.

At Sugar Creek, overlooking the Missouri river bottomlands and the Standard Oil refinery it serves, the tornado cut across another ridge, circled the town's water tower and flattened homes and barns. Others were unroofed and damaged.

More than 20 deputy sheriffs, 100 police, the state highway patrol force from nearby Lees summit, boy scouts and volunteers guarded against looting and injury by the hundreds of live-wigs which lay across the wet ground throughout the devastated area.

Rainfall immediately preceding the tornado and accompanying it was measured at 1.98 inches by the weather bureau.

It made more horrible the plight of the homeless and those in a roofless structures. Homeless were accommodated by neighbors. Relief agencies reported that they could handle the aid that was needed.

## Higher Pay Urged

(Continued From Page One)  
 interview that the army had reached the condition where every man was a specialist and he declared the basis for pay should be adjusted accordingly.

"We ought to relieve the army of housekeeping duties," he said. "By that I mean soldiers should not have to plant trees around barracks. They should be able to avoid all fatigue duty except that necessary in the field."

He reported that morale among troops in Louisiana, Texas and Oklahoma during maneuvers was "streaky."

"It varies with different units," he said, "due more than anything else to its officers."

The average soldier, he continued, "wants to go home, but that doesn't mean his morale is bad. He still does his job well."

## Relentless Revenge Bombings Of Nazis Pledged By British

(By The Associated Press)  
**LONDON, Oct. 7.**—Achievements of Britain's bomber command in two years of war were extolled by the government today in a 130-page booklet which said the aerial offensive against Germany would continue with ever-growing intensity, fierce, relentless and deadly.

Already the Germans are showing "nervousness and apprehension" under the increasing weight of British bombings and the day may come when they will regret the consequences of a war waged "without mercy, replete or limit," the publication declared.

The booklet, issued under the title of "Bomber Command," also shed new light on the smashing of preparations for an alleged German attempt to invade Britain last fall—for which the Nazis were said to have assembled 3,000 self-propelled barges and 4,000,000 tons of shipping space in continental ports between Cherbourg and Amsterdam.

From July 1940 until May, 1941, more than 500 attacks were made on this invasion fleet, the booklet asserted.

Disclosing that "tragic differences" had arisen between the French and British command over an tactics, the booklet inferred that the strategy insisted upon by Gen. Maurice Gustave Gamelin, French generalissimo, was partly responsible for British heavy losses.

From the first, it said, Gamelin refused to let British planes bomb German troop concentrations on German soil for fear of inflicting casualties among civilians.

## Daily Market Reports

**Produce Market**  
**CHICAGO, Oct. 7.**—Butter weak; creamery, 33 score 27.75; 32, 28 1/2; 31, 29 1/2; 30, 30 1/2. Eggs, 24's, 25's, 26's, 27's, 28's, 29's, 30's, 31's, 32's, 33's, 34's, 35's, 36's, 37's, 38's, 39's, 40's, 41's, 42's, 43's, 44's, 45's, 46's, 47's, 48's, 49's, 50's, 51's, 52's, 53's, 54's, 55's, 56's, 57's, 58's, 59's, 60's, 61's, 62's, 63's, 64's, 65's, 66's, 67's, 68's, 69's, 70's, 71's, 72's, 73's, 74's, 75's, 76's, 77's, 78's, 79's, 80's, 81's, 82's, 83's, 84's, 85's, 86's, 87's, 88's, 89's, 90's, 91's, 92's, 93's, 94's, 95's, 96's, 97's, 98's, 99's, 100's.

**Stock Market**  
**MARKET SHOWS LOSSES**  
**NEW YORK, Oct. 7.**—A "B" bill sale for the narrow group in which it had led since the close of September 29, 1940, was the only point of support for the market today. The market closed lower than it opened, with a net loss of 1.18 points.

Among stocks in arrears were U. S. Steel, Bethlehem, the latter at a new low, General Motors, Chrysler, Goodrich, U. S. Rubber, United Aircraft, Sperry, Douglas, Western Union, Dow Chemical, Union Carbide, N. Y. and Great Northern preferred, bonds were irregularly lower.

In the curb stable dealers were reported by Aluminum Co., American Locomotive, Ford Aircraft and Pittsburgh Plate Glass.

Commodities mostly were on the off-side. Chicago wheat closed 1/4 cent higher, a bushel lower and corn was down 1/8 cent. Cotton in late trades was 3/8 to 1/2 cent a bush lower.

**Cotton Market**  
**NEW ORLEANS, Oct. 7.**—Cotton futures closed steady 1/2 to 3/8 points lower.

## Dickens Youths

(Continued From Page One)  
 noon in Dickens, Sheriff Christopher said.

Mrs. O. K. Boswell of East Town was being treated by a Spauldinger hospital for injuries suffered at midnight three miles east of Dickens, said Sheriff Christopher, in a report to Sgt. J. B. Walling and E. B. Underwood, both of the Lubbock office of the state highway patrol. He said Mrs. Boswell was in an automobile driven eastward by her husband, a car driven by G. A. Posey of Oklahoma was being driven westward.

A third car was parked beside the road. In the glare of headlights the two moving cars brushed. Mrs. Posey suffered a bruised hip.

Underwood made out reports showing he had arrested Happy Gardner, about 33, an oil field worker who had been employed in the Level-land area and was en route to Pampa, and charged him with drunk driving in a complaint prepared by Ernest Tibbets, Hale county attorney, at Plainview.

## Markets At A Glance

**NEW YORK, Oct. 7.**—STOCKS—Heavy; industrial retreat under moderate selling.  
**BONDS**—Easy; some speculative rally slip.  
**FOREIGN EXCHANGE**—Quiet; generally unchanged.  
**COTTON**—Lower; sympathy and commodities.  
**SUGAR**—Higher; firm raw market, profit taking.  
**METALS**—Steady; calling on slab zinc expected shortly.  
**WOOL TOPS**—Mixed; trade buying, general selling.  
**CHICAGO**—WHEAT—1 to 1 1/4 cents lower in sympathy with soybeans.  
**CORN**—1 1/4 to 1 1/2 lower; parity base proposals.  
**HOGS**—Slow; 10 to 15 lower; top \$11.40.  
**CATTLE**—Yearlings, fed heifers firm.

## Little Damage Seen In Tropical Storm

**APALACHICOLA, Fla., Oct. 7.**—A tropical storm which swept westward over the lower tip of Florida and then curved northward in the Gulf of Mexico passed inland near Carrabelle, Fla., early today, its intensity rapidly diminishing.

Several such chases have been made with similar results recently. Such liquor has been hauled from Amarillo, in the main, officials said.

## Appeal To Labor

(Continued From Page One)  
 federation is prepared to follow Mr. Roosevelt "to the bitter end" if it becomes necessary to take more decisive action to protect the iron-ore mines and democracy throughout the world."

## Reds Massing For Big Test

(Continued From Page One)  
 man earth-and-timber forts on the approaches to the old czarist capital, silenced two artillery batteries and put other Nazi siege weapons out of action.

Masses of German troops were said to have been dispersed by Soviet fire.

A bulletin from Hitler's field headquarters indicated that the battle north of the Azov sea was part of the gigantic new developments which the Fuehrer himself declared had begun last Wednesday.

"German troops, shoulder to shoulder with troops of the allied countries, are pursuing the defense," the Nazi communiqué said.

"Motorized and tank units thrust deep into the enemy retreating columns."

**Russians Admit Advance**  
 The Russians, "acknowledging that the Germans had advanced into our lines" at an unspecified sector of the western (Moscow) front, reported that Soviet tanks and bombers had destroyed 84 Nazi tanks in fierce counter-battle.

Advices reaching London said the Germans had suffered bloody casualties on the narrow Perekop isthmus, in a drive southward into the Crimea peninsula, and that a Nazi division had been halted at Geneshek, on the northwest shores of the Azov sea, under shelling by the Red fleet.

**Soviet Ships Said Sunk**  
 Silent on operations along the central (Moscow) front, the German high command admitted that the Russians had made a new attempt to land troops under cover of night on the Finnish gulf coast west of Leningrad, but declared: "A majority of the ships used for transport were sunk. The enemy units which landed were completely annihilated."

Elsewhere on the 1,200-mile battlefield from Leningrad to the Black sea, the Nazi high command said "offensive operations" were planned.

The enemy units which landed were completely annihilated.

Mystery still clouded the exact direction of Hitler's vast new offensive.

While the German high command said the battle north of the Azov sea was "in the course of an announced new operation"—an apparent reference to Hitler's disclosure of a new push—other sources indicated that the drive was aimed at Moscow.

## Traditional Turkey Day Favored Here

Member firms of Lubbock Retail Merchants association will observe Nov. 27, the last Thursday in November, for Thanksgiving closing, according to announcement this morning by Mrs. Gladys Workman, association secretary.

A cross-section poll of the membership revealed them to be almost unanimously in favor of the Nov. 27 date, Mrs. Workman said.

The poll was taken following the announcement by Dr. W. B. Irvin, city schools superintendent, that the Thanksgiving holiday period in city schools will begin Nov. 19 so that teachers will be free to attend the convention of the Texas State Teachers association in Houston, Nov. 20-22, inclusive.

Dr. Irvin said that as usual on Nov. 27 date, the superintendent said.

## FDR's Request

(Continued From Page One)  
 and reach a decision."

Asked whether the general objective of the parley was complete repeal of the law, he merely repeated that the whole subject was one which was under discussion and another meeting would be necessary before any announcement could be made.

**Likely To Send Message**  
 Barkley said he assumed that Mr. Roosevelt would send a message to Congress when the whole issue has been thrashed out.

Late complications were added to the situation by Panama's sudden reversal of policy on the arming of merchantmen.

Senator Connally (D-Texas) however, was inclined to look on Panama's action as a boon for the United States.

Mr. Connally said that Panama's action would help speed authorization for the arming of American flag ships—something the neutrality act now bans.

**To Revoke Registration**  
 The Panamanian decision, reached by the cabinet-council yesterday, said flatly that Panama henceforth would revoke the registration of any merchantman mounting arms. It meant that American-owned ships, which have transferred to Panamanian registry in order to operate in "danger zones" prohibited by the neutrality act, would be barred from dangerous waters without means of defense.

It was an unexpected reversal for a number of ships operating under Panamanian registry have been armed. And only two weeks ago Mr. Roosevelt intimated that the United States was ready under the lease-lend program to provide the little republic with guns so that additional merchantmen could be armed.

## Girl Found Alive

(Continued From Page One)  
 worth, Lowell, Mass., business man, reiterating that he knew the girl was being treated by a Spauldinger hospital for injuries suffered at midnight three miles east of Dickens, said Sheriff Christopher, in a report to Sgt. J. B. Walling and E. B. Underwood, both of the Lubbock office of the state highway patrol. He said Mrs. Boswell was in an automobile driven eastward by her husband, a car driven by G. A. Posey of Oklahoma was being driven westward.

A third car was parked beside the road. In the glare of headlights the two moving cars brushed. Mrs. Posey suffered a bruised hip.

## Pensions Hike

(Continued From Page One)  
 the remainder," Connally said. "Heretofore the combined contributions of the federal and Texas governments have totaled a little less than \$14, but with the same state contribution the total would be \$22.50 under this bill."

## Masons Will Gather At Meeting Tonight

Scottish Rite Masons of the South Plains tonight will observe the Annual Feast of the Tabernacles and an attendance of between 60 and 75 Scottish Rite members from over the district is expected at Lubbock headquarters at 8 o'clock, said Ed Parker, secretary.

President of the South Plains Scottish Rite club is R. S. Rodgers, sr., of Lubbock, who will preside as toastmaster. Speakers will include: Hugh Wilson, R. L. Durham, Carl Svenson, DeWitt Landis, Anderson, V. Weaver, Jr., Dr. J. T. Hutchinson, Dean James M. Gordon and Homer D. Grant of Lubbock, and W. R. McDuffie of Brownfield.

## Liquor Violators

(Continued From Page One)  
 telephoning ahead. Ray Hardwick, deputy supervisor of the Lubbock liquor control office, Frank Mitchell and Melvin Leslie, liquor board inspectors, and John Truly, Lubbock police patrolman, raced in two cars to intercept the suspects. They were stopped near the railroad underpass several miles from Country Club.

Retuffed had been charged with liquor law violation Saturday. He had got out of county jail Sunday when "given another chance," officials said.

Several such chases have been made with similar results recently. Such liquor has been hauled from Amarillo, in the main, officials said.

## Tech Judging Team In National Contest

N. C. Fine, assistant professor of animal husbandry at Texas Technological college, and four members of a senior dairy cattle judging team of the college, were set this morning to leave for national competition.

Fine, coach of the team, said R. B. Dawson, jr., and Edwin Dawson, both of Tulsa, and Burton McCado, of Dallas and Nuge Rose of McAdoo, would compete Saturday in the annual national dairy cattle judging contest, to be held at Memphis, Tenn., at the National Dairy show. They will stop briefly in Oklahoma City and at Oklahoma A. & M. college for practice judging en route.

All are seniors except for Edwin Dawson, a junior.

The contest will be the sixth consecutive one to which Tech representatives have gone to compete, last year's event having been at Harrisburg, Pa. Roy Neely of McAdoo won third place in individual judging for all breeds last year and the Tech team ranked second among 26 teams throughout the country. In 1938, Stewart Sewell of Jacksonville, now in the air corps on the west coast, won high individual merit for all breeds, for the best recognition Tech received in any year at the show.

Asie Cleaners, owner, to repair and alter garage at rear of 2116 Tenth street, \$60.

## Ship's Sinking

(Continued From Page One)  
 explosion, which apparently was caused by a single torpedo. Fire immediately followed the explosion on the starboard side between tanks six and seven, but water which was taken in extinguished it fairly quickly.

**May Have Been Trained**  
 "However, fire broke out aft, apparently caused by flaming oil from the explosion. The men naturally were greatly shocked and some were dazed by the explosion.

"There was no further explosions from the attacker which it was impossible to see on account of conditions—although the very fact that it was almost invisible indicates that it was submarine rather than a surface raider."

"We abandoned ship as soon as possible, but we lost all our belongings in doing so."

"It certainly looks like our attacker knew our precise route, to catch up with us in the South Atlantic at midnight, although he may have been trailing us previously."

## Finns' Plans Asked

(Continued From Page One)  
 query, which he said had been made fairly recently.

He added that this government and Finland haven't had any secret in connection with the matter.

## News Briefs

**Go To Washington**—Mr. and Mrs. Lee Seary will leave today for Washington, D. C., where Seary has accepted a position with Sen. W. Lee O'Daniel.

**Slight Fire Damage**—The T. B. Cowan residence at 1917 Third Street suffered slight fire damage at 9:45 o'clock Monday night when an electrical short-circuit caused a fire. There was much damage from water required to extinguish the blaze, firemen said.

**Condition Still 'Serious'**—At St. Mary's hospital this morning it was announced that condition of Zealand-Williamham, 46, of near Tahoka "remains quite serious." She was given a blood transfusion. It was announced Monday for treatment of wreck injuries suffered early Friday. A silver of glass was plunged into her back and into one lung, collapsing the lung.

**Mrs. Wilks Satisfactory**—At Lubbock sanitarium this morning it was reported that Mrs. W. L. Wilks, 34, of Springlake had spent "rather restful night." A pressure cooker exploded last Wednesday, burning her face, arm and shoulder.

**Pictures At Lions**—Two army films, one relating to the air service and the other to the cavalry, were shown at a Lions club luncheon at noon today in Hilton hotel. Sgt. Jack N. Costello of the district recruiting office and Private H. L. Wood, of Rantoul Field, had charge. Robert H. Bean was program chairman.

**Back From Visit**—Mrs. Maude Bradley of 1810 Avenue W., has returned from a month's visit with relatives and friends in Texas City, Houston and Fort Worth. At Fort Worth she met her son, Sgt. Ned J. Bradley, who was just returning from six weeks spent at army maneuvers in Louisiana. He is a member of the band of the 131st field artillery and after visiting his mother and brother, went to Camp Bowie.

## Officers Crack Down On Liquor Violators

Liquor control board agents and the county attorney's department moved again over the moon-hour to put a crimp in liquor trafficking.

Four cases of whiskey had been taken in the night from two alleged whisky runners.

Three complaints each were filed against J. B. Fowler and Norma Parks, at noon, as result of the latest raids, one each against Dewey Heath, Sam Hazle and two others, not arrested, early in the afternoon.

Seven other complaints naming three persons, one of them a woman, were being drawn by County Attorney Ralph Brock and signed by Ray Hardwick, deputy supervisor of the liquor board, at 1:30 o'clock this afternoon.

In addition, Brock said, the woman not formally charged may be complained of in another court, for alleged abusive language to an officer.

## Revolt In Serbian Town Is Smashed

**BERLIN, Oct. 7.**—German troops and two companies of Croatian Ustachas have smashed a putsch led by an attorney's daughter in the west Serbian town of Sabac, the authoritative news agency, Dienst Aus Deutschland said today.

The Ustachas are the uniformed guard of Dr. Ante Pavelic, chief of the Croat states created from the remnants of former Yugoslavia.

Rebel bands had stormed Sabac, the reports said, but outnumbered German soldiers stationed there. The Germans nevertheless were said to have "offered heroic resistance."

Judging results announced Monday afternoon included: County exhibits—Lynn county, first prize, \$75; Lam county, second, \$60; Terry county, third, \$40; and others in the following order: Castro, Bailey, Haskell, Maverick, Collingsworth, and Crosby, \$25 each. Lamb finished first and Lynn second last year.

Committee exhibits—Shallowater, first, \$25; Freshney, second, \$20; Cooper, third, \$15; New Beeton and Idalou, \$10 each; Greater Lubbock and Roosevelt, \$5 each. Freshney finished first and Shallowater second last year.

## Schoppa Is Elected Senate Club's Head

Eley Schoppa of Texas, sophomore student in Texas Technological college, Monday night was elected president of the Senate club at Tech.

Eighteen charter members were initiated in a candle-lighting ceremony.

Organizers said the club would lend support to stimulating patriotism among all students, but that there would be no identification with any "isms."

Urdell Thurman of Anson was named vice president, Carey Bute of Stamford secretary-treasurer.

# Man Rescued From Island In Sky

## Parachutist Claims He Never Worried And Gained 5 Pounds

(By The Dallas Press)  
RAPID CITY, S. D., Oct. 7.—Parachutist George Hopkins, after almost a week marooned on the tiny peak of Devil's Tower, was back to earth today with the announcement that he had never been worried and had gained five pounds.

Sitting over a big steak in a cafe here early today, the heavily bearded and wind-burned daredevil told his story from the minute he parachuted to the acre that is the top of 865-foot Devil's Tower last Wednesday until eight skilled mountain climbers set him down 130 hours later last night.

**Needs Plenty Of Sleep**  
"I feel first class, but I need plenty of sleep after counting rocks and fighting mice, rats and chipmunks for my meals for five days," he said.

"You wouldn't believe it, but I bet I counted the big boulders on that damned mountain peak a thousand times, and I gave 'em all names you couldn't print if I told you what they were."

"Mostly I just walked around up there to keep from freezing to death in the 50-mile an hour wind. I was afraid to really go to sleep all the time I was up there because I knew I'd freeze. When I dozed off for even as much as an hour, my rain-soaked blankets froze solid."

**Dosed Over Plate**  
The 29-year-old Texan, who made the 120 mile trip from the tower by automobile after being rescued last night, dozed over his plate as he talked, arguing with his friend Earl Brocklesby over whether he was going to get a shave before he went to sleep.

Hopkins made the landing on the great Devil's Tower needle, rising above the surrounding country more than the height of the 1,250-foot Empire State building, on a \$50 dollar bet with Brocklesby that he could do it.

Questioned about the bet, Hopkins said, "I was just spreading the blarney with the boys at the Rapid City airport when that cockeyed bet was made, but I made it and I won it. I had my hand out fishin' for the dough when I hit the ground and Earl paid off."

"Any trained parachutist could drop on that mountain," Hopkins said. "It wasn't a daredevil stunt at all. I figured the size of the peak's top before I decided to do it. The top is about 100 by 300 feet, and I landed so squarely in the middle that you couldn't have hit the center better by drawing diagonals across the area."

"I've been jumping in parachutes since I was 12, and I didn't think much about the danger of this jump before I made it. The main trouble was that I didn't think enough about getting down. I began to realize that when I first looked over the edge after landing."

**Some Tall Figuring**  
"I knew the boys wouldn't let me die up there so I didn't worry, but I did some mighty tall figurin' in six cold days and five colder and windier nights."

"You see we planned that I was to get down on a rope that would be dropped. But that plan boomed. I spent three whole days and nights trying to untangle the rope which was all knotted up when it landed and then froze so stiff I couldn't do anything with it. It looked for a while like I was going to have to use my parachute to get off that thing."

Hopkins said his main difficulty at meal time was with the rodents on top of the wind-swept peak. He said they gathered around by the score when he opened the food parcels which were dropped to him.

"They were more friendly than fierce," he said. "That was the trouble, and I made it worse by making the mistake of feeding them at first. Some of those big rats and bull chipmunks would have run off with a whole steak if I hadn't kept throwing rocks at them."

**FLOYD GETS STATE AID**  
FLOYDADA—Tarrant county's road and bridge fund was increased by \$14,819 recently when a check came from the state board of county and district road indebtedness for that amount.

**Gained Five Pounds**  
Hopkins repeatedly discounted the daring of his feat as he put away the thick, plate-sized steak which he said he didn't think he needed because "I actually gained five pounds, the food they dropped me was so good."

MAIDS OF MAINE—Prettiest twins at the fourth annual Maine twin club at Skowhegan were Helen and Vivian O'Jala, 17, of Rockport, but don't ask which is which. More than 200 sets of twins were at the meeting.

HERE'S WHY I ENJOY IT!

There are four reasons why I prefer Schilling... and all of them are FLAVOR! You'll understand when you taste this delicious coffee.

# Yankees-Colossus Of Baseball World-Add Chapter To "Invincible" Record

## Bombers Prove They're Tops

### "Luck" Had Little To Do With It

**BY GEORGE KIRKSEY**  
United Press Sports Writer  
NEW YORK, Oct. 7.—Some people call it luck and some call it plain murder. But whatever you want to call it, the New York Yankees coldly efficient ball players without an ounce of sentimentality, keep on winning and making their opponents moan.

The Yanks are champions of the baseball world for the ninth time and the fifth time in six years. And all that's left for those patient bums of the Yankees is to win the World Series. The Yanks get the chance to spend the winter calling the Yanks "lucky" and a lot of other names besides.

**Complete Easy Rout**  
A lot of the Yanks care what you call them. They have the winner's share of the checkbook. They have won more titles than any team in history and Joseph Vincent McCarthy, their team leader who rarely pokes his head out of the dugout, has managed his sixth world's championship outfit—a record unmatched by any other baseball immortal.

The Yanks completed their triumph yesterday by throttling the Dodgers, 3-1, and capturing the series, four games to one. Over the stretch of six winning World Series under McCarthy since 1922 the Yanks have lost just four ball games while winning 24. And when each series was over the opposition went to the wall and bemoaned the Yanks' luck.

**Listen To "It"**  
You still can hear the Dodgers and their faithful flock of followers saying:

"If Fitzsimmons hadn't been hit on the leg and forced to retire from Saturday's game?"

"If Mickey Owen hadn't caught the third strike on Henrich in Sunday's game?"

"If Pete Reiser's drive for a triple had been a few feet farther in the first inning yesterday?"

"If Billy Herman hadn't hurt his back?"

And other alibis and second-guesses.

**Put On Pressure**  
Added up all they mean is that the Yanks have the best club and deserve to win. The Yanks play the cards as they fall. They take the bad breaks with the good and keep going. "Yankee luck" is nothing more than putting the pressure on a team and keeping it on until it cracks—nothing more than playing all the percentages and squeezing the last drop from them—nothing more than rising to the occasion in the clutch.

The only game the Dodgers won the Yanks gave them—an error by Joe Gordon, the World Series hero. With the score tied, 2-2, in the second game Gordon made one of his rare errors on a ball hit by Dixie Walker. Walker came round to score what proved to be the winning run of a 3-2 game.

**Dodgers Fortunate**  
Any cold analysis of the series must concede that the Dodgers, out-hit, outfielded, and outpitched, were very fortunate not to have lost in four straight. The Yanks out-hit the Dodgers, 247 to 133; outfielded them, 990 to 980, made seven double plays to Dodgers' five, scored 17 runs to the Dodgers' 11 and tossed in a couple of magnificently pitched four-hit games by Marius Russo and Ernie Bonham.

The Yanks led 43 men on base to the Dodgers' 27 which means the Bronx Bombers were on the march the greater part of the time, storming at the Brooklyn defense until they battered it.

The final game, played before 94,072 highly-partisan Dodger fans, was a true yardstick on the clubs' relative merits. Big Ernie Bonham, a 220-pound former lumberjack from California, pitched a masterful four-hitter and beat the Dodgers' best man, Whitlow Wyatt, "the rock of Chickamauga."

Bonham allowed only two men to reach third and the Dodgers scored their lone run on an outfield fly.

**Issue Settled Early**  
Meanwhile the Yanks had their hammers and chisels breaking "the rock of Chickamauga" up into little pieces. Wyatt threw everything he had at the Yanks—his fast ball, his slider and his slow one. He even tossed in his temper once by calling Joe DiMaggio some endearing names. This proved a mistake because DiMaggio stormed out to the box ready to punch Wyatt when others intervened. Later DiMaggio took revenge by hitting a sizzling single past Wyatt's head. If DiMaggio was aiming at Wyatt, he was off firm. He must have missed him by all of four feet.

The Yanks settled the issue early, jamming over two runs in the second on a walk to Ken Keltner, Dickey's long single, Wyatt's wild pitch—which went farther over Owen's head than DiMaggio's hit did over Wyatt's head—a Gordon single. Tommy Henrich hoisted a homer over the right field screen for another in the fifth. But with Bonham retiring in order 12 of the 13 men who faced him, Henrich's homer was just extra gravy for the big fat turkey the Yanks now will carve.

The Dodgers waited 21 years only to get tangled up with the Yanks. Wow! What a tragedy!

# Westerners, Raiders Tangle With Tough Foes This Week

## Welter Champion Deserves His Share Of Praise, But—That Business Between Sweetwater's Lew And "Red" Cochrane Had A "Slight" Odor!

**(By The Associated Press)**  
NEW YORK, Oct. 7.—Miss Secretary, take a letter to the Marquis of Queensbury, Yallahalla!

Dear Queensie: Was there a slight odor coming up your way from down here last night? And did you look down at that business in Madison Square Garden?

Well, if you did, don't worry about the sport of scrambling ears you pulled off the river barges and pushed into polite society. Because that thing in which Welterweight Champ Freddie (Red) Cochrane gave Lightweight Boss Lew Jenkins an old-fashioned flailing for ten rounds, white Lew back-pedaled and ran away, was only billed as a fight. If that was a boxing match, then so is one between Joe Louis and Little Lulu.

You can't take anything away from Cochrane. The bull-necked little red head from Jersey walked out against the fellow who was supposed to be among the greatest punching lightweights in ring history. He chased this great puncher all over the place. He floored him five times, using both hands to do it, and at the end the only round he had lost was the

## Breckenridge Here Friday

### Lubbock To Invade Borger Next Week

One week from Friday the Lubbock Westerners open their District 1-AA conference campaign at Borger. Eight days after that, they play the season's all-important game, at Amarillo.

But before plunging into play-for-play the Westerners have another non-conference foe to dispose of.

Breckenridge's Buckaroos, consistently one of the best teams in Texas schoolboy circles, come to Lubbock Friday night to renew their rivalry with the Black and Gold.

**Boast Veteran Team**  
It's a veteran-studded, powerful array Coaches Eck Curtis and G. B. Morris will bring to Lubbock, one that's regarded as the best in District 9-AA.

The Buckaroos have rung up two victories in the young season. They've been beaten once.

Their loss was to Wichita Falls, and the score was 26-0. But don't let that fool you; the Coyotes, though overlooked thus far by the experts, have a team that may go a long way in the state playoffs.

A truer indication of the Buckaroos' power is provided in their most recent victory, last Friday's 13-0 trouncing of Abilene. Coach Vernon Hilliard has done wonders at Abilene thus far, and it really took a tough grid machine to mow the Eagles down. Abilene, you'll remember, manhandled Plainview's veteran team, 25-0.

The other Breck victory was 12-6 over Graham.

The Buckaroos will outweigh Lubbock seven pounds to the man—166 to 159.

**Don't Mind Mud**  
From this angle, it looks like a toss-up on a dry field. On a muddy field, Breckenridge will be favored. Wet weather didn't bother the Buckaroos against Abilene; against Vernon, adverse weather conditions disturbed the Bronco Busters no little.

Breckenridge depends on a powerful ground game for its offensive punch, with Jack Ray, a 191-pound operative at the fullback post, and Norman Carey, a 155-pound scat back, carrying most of the burden.

Wesley Cox, a 165-pound rookie, calls the Breck signals. The other back is Garner Slaughter, 142 pounds, a veteran.

Those four are fronted by a powerful wall that'll make a terrific effort to dent the so-far unbroken Lubbock defense. At tackles and ends, the Bucks are fortified with veterans on both sides. They've one veteran guard, too.

Jack Ridley and Harold Allen are the terminals. Allen weighs 180; Ridley 164. At tackles, Gus Gallagher, 172, and W. H. Jones, 164, provide experienced protection. Percy Howell, a 160-pound performer who lettered last year, mans one guard, and Tom Cruise, 158-pound newcomer who blocked a punt against Abilene to set up a touchdown, works from the other side of center.

Clifford Clay, 160 pounds, power type of football.

It's got to be raining frogs and pitch forks to keep the boys entirely on the ground-down in these days.

Not many years ago, Jeff Davis of Houston and Greenville High school teams played an early season game in Houston. It was mighty warm; the fans restless.

The boys out on the field tried every pass conceivable—overhead, lateral, backwards. And before the game was over, a new passing record was set, for nearly 200 of all kinds were reeled off.

At the end, the fans were cheering for more passing. It just goes to show that the fans—and players—like plenty of offensive stuff in their football.

**CLEANING THE CUFF**  
Joe Gordon has a loop in his swing as bad as Sam Snead's. . . . And when he connects he hits 'em almost as far as Sam hits a golf ball. . . . Cleveland got one record this year. Jeff Heath became the first American leaver ever to hit 20 or more homers, triples and doubles in one season.

## Probe Asked In Gotham Bout Title Tilt May Be Postponed

### May Postpone Bout

**(By The United Press)**  
NEW YORK, Oct. 7.—The ring's problem child — "Looney Lew" Jenkins — goes before commission physicians today for an official investigation of his pathetic performance against Freddie Cochrane in last night's alleged battle of champions.

Veteran observers insisted no lightweight champion ever made such a sorry showing as scrawny Jenkins did at Madison Square Garden in losing a non-title, 10-round decision to Cochrane, the welterweight king.

Continuous booing and stomping came from the 12,182 fans as Cochrane pursued the skinny, hollow-eyed Texan from going to home, floor-to-ceiling times and causing one wet-corned slip. Staggering backwards like a sick turkey, Jenkins rarely threw a punch.

Willie Ketchum, his acting manager, blamed Looney Lew's ghastly exhibition upon a motorcycle accident he suffered a few weeks ago. Ketchum said the muscles in Jenkins' arms and shoulders hurt the recovered enough to permit his usual hard punching.

**May Postpone Bout**  
Chairman John J. Phelan of the New York commission ordered Jenkins to appear before its physicians today to determine his physical condition. It's not likely that action will be taken against him but there is a strong probability that his title fight with Sammy Angott at the Garden on Oct. 31 will be cancelled or postponed if the examination reveals anything wrong.

Jenkins and Angott were matched to settle a dispute over the lightweight crown. Jenkins is recognized as 135-pound boss by the New York and affiliated commissions, while Angott is National Boxing Association's champion.

The scrawling Texan has been in one jam after another ever since he surprised cauliflower anyone by lifting the title claims from Lou Ambers with a knock-out in May, 1949.

**Simon And Thompson In 10-Round Draw**

LOS ANGELES, Oct. 7. (AP)—Gargantuan Abe Simon of New York and Turkey Thompson, Los Angeles negro heavyweight, fought a 10-round draw at the Hollywood ball park last night before 9,000 fans.

Referee Benny Whitman's decision brought little favor from home town backers of Thompson. Outweighed 69½ pounds—Simon 256, Thompson 186½—the 21-year-old negro soon assumed the role of underdog to the six-foot-four easterner, who towered head and shoulders above him.

Thompson landed the harder blows, and in the ninth staggered big Abe with four hard smashes to the head. He ran out of gas, however, and Simon finished strongly.

**Chisox Hope To End City Series Tonight**

CHICAGO, Oct. 7 (AP)—Weather permitting the White Sox will try again tonight in Comiskey park to make it four straight over the Cubs in Chicago's city series.

Heavy rains washed out last night's contest in which Thornton Lee of the Sox was to face Jake Mooty of the Cubs. Lee, who was rained out after three scoreless innings in the second game, is slated to pitch tonight. However, Manager Jimmy Wilson said Claude Passeau, refreshed by the added day's rest, would start for the Cubs.

## Sports Roundup

### Brooklyn Fans Forgive "Bums" Leading Roles

**BY HUGH FULLERTON, JR.**  
Associated Press Sports Writer  
NEW YORK, Oct. 7.—Before yesterday's game, some folks were wondering if the Dodgers would even show up. . . . They did, but the Yankees showed them up so thoroughly that it is hard to find any reason for Brooklyn's "wait till next year" motto. . . . Somehow we can't see the Dodgers even winning another pennant unless they come up with a lot stronger infield and at least one pitcher who can win regularly. . . . To beat the Yanks, they will have to learn to treat baseball like something more than a game, too. . . . The bums didn't tip and worried about Sunday's hard-luck loss while they were practicing yesterday. . . . They grinned, signed autographs without a holler and kidded Duchroer when he took his licks. . . . The Yanks were about as playful as a bunch of executives starting a day's work. . . . Nobody claim the breaks hurt the Dodgers in the last game. . . . Reiser got a triple in the first inning when DiMaggio misjudged a rebound off the center field wall. . . . Dickey was kayoed by front tip and Bonam almost was knocked out the way Fitz was when Riggs' liner hit his foot with a smack that could be heard clear up to the "stratoliner" press box on the roof. . . . And twice the Yanks hit into double plays with nobody on. . . . One trouble was that the stands caught fire instead of the teams. . . . When a small blaze flared up behind the press box just after the Yanks scored their first two runs someone remarked: "Don't worry, boys. It's just MacPhail."

### Schoolboys In Leading Roles

**BY RAY KORNEGAY**  
Houston Chronicle Sports Writer  
(Written for The Associated Press)  
HOUSTON, Oct. 7.—When Southwest fans are thrilled dazed by the dazzling, wide-open brand of football as played by college teams of this sector, they can lay most of their blame for their thrills and dizziness at the gates of Texas' high school stadiums. . . . For it is on the schoolboy fields where a lot of football hysteria is born—the kids who carry on the Southwest's own type of football get their start on the schoolboy gridiron right in their own state.

**Has System Of Own**  
Fans who get their first taste of this thrill-dizzy football at the high school field, "graduate" to college fandom.

The Southwest has a system of its own—for the development of its footballers and fans. They just naturally develop together. . . . Nobody does an out-of-stater play on a Texas college team.

High school football in Texas is noissy stuff. They start playing their start on the schoolboy and don't finish until the last week of December.

College coaches will tell you Texas high school coaches, as a general rule, are better students of the game, work harder and are more conscientious about their job of teaching football than rival brethren in some other states.

**South Texas In Lead**  
And college coaches will further tell you that the high school men instill those things in their boys. It all sums up in earnestness, which is the real reason for the Southwest's aggressive, daring and spectacular style of football.

South Texas schoolboy football is prone to be more wide-open than that played in the northern part of the state. The reason for this, most coaches agree, is the climate.

The wide-open game, with all of its passing, isn't as tough on the youngsters in the warmer climates as the more conservative "all."

**TODAY'S GUEST STAR**  
Earl Ruby, Louisville Courier-Journal: "Evolution up-to-date—originally it was the World series. . . . The late Ring Lardner made it the World series. . . . Now the G. A. B. F.—Grand Army of Dem Bums—has dubbed it the World see-ree-se. . . . It ain't dat Pie-Wid see everting right, it's just because he does everting."

**CLEANING THE CUFF**  
Joe Gordon has a loop in his swing as bad as Sam Snead's. . . . And when he connects he hits 'em almost as far as Sam hits a golf ball. . . . Cleveland got one record this year. Jeff Heath became the first American leaver ever to hit 20 or more homers, triples and doubles in one season.

## Just Skipping Back Over The Series—Joe Gordon Named The Hero Of World Series; Performances Afieled, At Bat Were Superb

**BY HARRY FERGUSON**  
United Press Sports Editor  
NEW YORK, Oct. 7.—Presenting the hero of the 1941 World series, Joseph Gordon, second baseman of the New York Yankees.

Series record—batting average .500. Leading hitter among the regulars on both teams: Hit for everything there is in the book—singles, double, triple, home run. Batted in five runs and scored two himself.

Was the most feared hitter in the Yankee line-up throughout the series and walked seven times. In the first two games he reached first base every time he went to bat. He was the only Yankee regular who did not strike out at least once.

Afieled, he participated in five double plays, made six putouts and had 19 assists. He made one error—on a screaming ball that probably no other second baseman in the game could have put his hands on. Made one brilliant back-hand stop and threw while off balance to nail a runner by a step. Cut down a sure hit in the final game when he grabbed Pete Reiser's hard-hit grounder and made a brilliant snap throw to first to get his man.

**Owen Gets "Honor"**  
Born in Los Angeles, Calif., Feb. 18, 1915. Bats and throws right handed. Weighs 175 and stands five feet, 11 inches. Was on the gymnasium team at the University of Oregon where he learned the acrobatic tricks he performs on the baseball field. Broke into baseball with Oakland of the Pacific coast league in 1936, played with Newark of the International league in 1937 and joined the Yankees in 1938. Has played in three World series with a batting average of .349.

Presenting the goat of the World series: Arnold Malcolm (Mickey) Owen, catcher of the Brooklyn Dodgers.

Joined Fred Merkle, Heinie Zimmerman and Fred Snodgrass among the all-time goats of baseball. Allowed a third strike to get away from him with two out in the ninth inning of the fourth game and the Dodgers leading by one run. Yankees came on to win the game, break the spirit of the Dodgers and win the series in the next game. Batted only .167 for the series and had trouble holding his pitchers during the last two games.

**Other bests and worsts:**  
—Greatest fielding play—Joe Medwick's leaping catch with his back against the left field fence at Yankee stadium to rob Joe DiMaggio of a home run. Medwick came down so hard that he turned a somersault, but clung to the ball and shut off what looked like a certain run.

Hardest hit ball—Gordon's home run into the left field stands at the stadium.

Best pitched game—Marius Russo's four-hitter against the Dodgers in the third contest. The Yankee southpaw fed the Dodgers a baffling cross-fire that kept the game on ice for the Bronx Bombers all the way.

Worst disappointment—Kirby Higbe, the Dodgers' fireball right hander who won 22 games during the regular season, but who didn't have a thing that fooled the Yankees.

handles the pivot duties. All Lubbock boys are in fairly good shape following the rather rough game with Vernon, and they seem to be unhappy about that game.

You can look for a real contest Friday night.

## Tech To Meet Loyola Friday

### Squad Leaves For Coast Wednesday

Coaches Dell Morgan and Bert Huffman of the Texas Tech Red Raiders will turn on the red this afternoon as the Men in Red take their final home practice before leaving for Los Angeles and Friday's contest with the Loyola Lions.

Sketchy scouting reports available to the Tech coaches indicate that Loyola has a much improved team over last year, when the Lions dropped a 19 to 0 decision to the Red Raiders. Coach Marchie Schwartz, who learned his football from Knute Rockne at Notre Dame, has mixed in a lot of the 2-model gridiron magic introduced to college circles by Stanford last year, with the straight Notre Dame formations.

Loyola, after a topsy-turvy opening victory over Redlands, dropping a 20-6 decision to Santa Clara Sunday. That's by no means a disgrace. Santa Clara always has one of the toughest teams on the Coast.

**Fourth Trip To Coast**  
The Raiders will leave Lubbock Wednesday afternoon by train; they'll arrive in Flagstaff, Ariz., early Thursday and spend the day there. Pulling out of Flagstaff Thursday night, they'll arrive in Los Angeles Friday.

It's the fourth trip to Los Angeles for the Men in Red, and they've never yet brought back a victory. In 1934, the Lions edged out Tech, 13 to 7. A year later, the Lions ran the count higher, taking a 16-0 contest. And in 1936, the Lions really marched over the Red Raiders, 26-7.

Tech got a measure of revenge for those three licks last season with a 19-0 rout of Loyola. That game was played in Lubbock.

It'll be the first showing of a truly inter-sectional nature for the Red Raiders under the new coaching regime.

**Loyola Stronger This Year**  
All of the Tech gridsters will be in shape for the trip and game, promising a really rough time for Loyola.

The Lions are supposed to be considerably better than last year's highly unsuccessful team; they are, in fact, touted as one of the standouts among the Far West's independent teams.

Most of last year's regulars returned for further service this season, and Coach Marchie Schwartz, the ex-Notre Dame great, has a classy group of sophomores bolstering his squad in last year's best spots.

But Texas Tech is primed and ready to make its sorry of the West Coast a fruitful one.

rr and runner-up respectively among the Lone Star elevens, will battle in the opening conference meeting of the year Saturday.

The luckless Southwest Texas Bobcats, perennial occupants of the Lone Star cellar, will meet Southwestern university in Georgetown Friday.

**CHAMP IS DECIDED**  
HONOLULU, Oct. 7 (AP)—Rush Dalma, clever Filipino bantamweight, won a disputed 10-round decision over Lou Salica, world bantam champion, in a non-title bout here last night. Dalma, who weighed 122 pounds, finished strong and outpointed the champion who made an unimpressive showing. Salica weighed 126.

**Over at Commerce** the East Texas Lions and the Stephen F. Austin Lumberjacks, present leaders.

Worst fielding exhibition—Pee-wee Reese, Dodger shortstop, who was charged with three errors during the series. Two of them were on one play when he fumbled a ball and then picked it up and threw wildly to first.

JOE GORDON

## Lone Star Race Has "Experts" Puzzled

**(By The Associated Press)**  
The surprising Lone Star conference swings into its fourth week on play next Friday with the critics still wondering who has the best chance at the circuit crown now worn by Coach Jack Sisco's North Texas Eagles.

Pre-season speculation favored the Denton eleven to retain the championship with Coach Patsy Wilson's Sam Houston Bearkats having an even chance to unseat the Eagles. With conference play beginning this week end, however, Coach Bob Berry's East Texas Lions are sitting atop the table of standings.

The unpredictable De Leon Eagles entertain Arkansas A & M this week after upsetting every dope-bucket in Texas last week end when they handed the Hardin-Simmons Cowboys a 7-3 defeat in Abilene, the first loss the Cowboys have suffered at home since Oct. 1, 1938, and their second defeat in a 16-game streak.

Sam Houston, amassing from a 42-0 loss to Rice last week, will journey to Kingsville Saturday to meet the Javelinas of Texas A. & I.

Over at Commerce the East Texas Lions and the Stephen F. Austin Lumberjacks, present leaders.

Worst fielding exhibition—Pee-wee Reese, Dodger shortstop, who was charged with three errors during the series. Two of them were on one play when he fumbled a ball and then picked it up and threw wildly to first.

# Lubbock National Youth Administration Setup Undergoes Changes

## New Program Is Explained

The National Youth Administration setup in Lubbock has had a facelift during the last year. Lubbock is headquarters for an area, and not a district as in 1940. And various projects have been discontinued, notably the boys' resident training project at Texas Technological college, and new ones have taken their places. Jennings Lewis is area supervisor.

In addition to the various projects, the NYA is cooperating with other agencies in administering special defense programs in Lubbock, Lamesa and Snyder.

**Girls' Projects Foremost**  
Three girls' projects are foremost in Lubbock. There are places for 32 girls in the part-time resident training program, with 26 living on alternate months at 2305 Broadway.

The girls work downtown in various offices and at the girls' production center. They assist in preparing and serving hot lunches to school children, in cooperation with the schools and the Salvation Army.

They are paid enough for their work to pay for their room and board on a cooperative basis and to receive \$11 cash each month. Mrs. Maye Lofland is supervisor. In addition the state education department provides a teacher, Mrs. E. M. Burnett, who conducts classes at the house and visits regularly in the girls' homes. Training is devoted to homemaking.

**Other Projects Explained**  
Mrs. Elvora V. Asher is supervisor of the production center, for Lubbock city and county girls. Forty girls are employed 80 hours a month for \$18 pay each.

The center is located at 1714 Thirteenth street. Girls sew coveralls for boys in the special defense project and make clothing for various residence centers. Texas Tech agriculture bulletins are bound at the center.

Clerical work for experience and assistance in the army recruiting office and the NYA area office employs 10 girls in the third project. Sgt. R. A. Jackson is in charge of training at the recruiting station.

**Schools Cooperating**  
Some of the most important programs are those under way in eight school districts of the area, Lewis said.

In several cases of consolidated districts, old buildings have been razed and the materials used to construct useful buildings.

One case in common is that at Ralls, where a combination vocational agriculture shop and band room is under construction. Bricks were hauled by patrons of the school from Old Emma and League 4 schools and NYA boys provided the labor for construction. Supt. E. E. Hancock was in charge, and Henry C. McDermott, supervisor.

**Other such projects are:**  
Seagraves. Gene Scullough, superintendent, and Albin D. Seth, supervisor, 60 by 90 foot vocational agriculture buildings, constructed from reclaimed bricks.

**Buildings Numerous**  
Hale Center, J. E. Miller, superintendent, concrete-tile vocational agriculture building.  
Italy, N. B. Wikstrom, superintendent, concrete-tile vocational agriculture building.

Woodrow B. M. Hays, superintendent of Cooper schools, school cafeteria. A vocational agriculture building already has been completed. Used materials went into both structures.  
Snyder, prefabricated sheet metal woodwork shop, 140 by 40 feet.  
Sylvester, Fisher county, gymnasium, with new materials. H. W.

**WOULD FLY FOR DEFENSE**  
She's 61 and a grandmother, but Mrs. Wallace Patten Cohan, Riverside-on-Hudson, N. Y., socialite, has offered a seaplane and her own services as pilot to the Civil Air Guard Service being organized at direction of Mayor La Guardia.

Taylor is superintendent and Noah S. McCaulley is supervisor. Plains, Ray Elliott, superintendent, brick-tile vocational agriculture building.

**Shoes Are Repaired**  
Both boys and girls are employed in a leather-working project at Plainview. More than 5,000 pairs of shoes were obtained in a drive for used footwear in Plainview and boys repair those shoes for distribution to needy.

Girls construct completely new houses for distribution to boys in residence projects of the area, which emphasizes the extent to which the project is equipped.

Several counties participate in an area-wide project which provides training for boys in running terraces and other work under direction of county agricultural agents. Participants named:

Youths of this area also are eligible for assignment to resident centers throughout the state, some of which provide training in aviation mechanic shops of the army. A similar project for the navy soon will be in operation.

**Participants Named**  
Girls in the part-time resident project are:  
Juanita Arthur, Faye Moses and Thelma L. Walker, Ralls; Dannie O. Collier, Mae Belle Collier and Mary Lou Moore, Crosbyton; Ruby J. Rasco, Lorenzo; Pansy M. Drennan, Ruth G. Gragan, Ruby Mae Hines, Iva M. Parker, Geraldine F. Smith, Spurr; Edna L. Collins, Christine J. McGinley, Gladys H. Wieland and Lela M. Visage, Lockney; Lois N. Graham, Mildred L. Graham and Margie L. Holmes, Floydada; Ola Mae Bell, Southland; Mettie Lee Caldwell, W. A. Almyne, Lois Howell, Helen V. McCarty, Sybil E. Teaff, Nola B. Tipton and Edna Doris Sparlin, Post.

Margaret L. Yarbrough, Plainview; Doris N. Thigpen, Pettit; Vera Thrallkill, Levelland; Neva Belle Allen and Bertha B. Hyde, Earthy; Alice L. Lee, Zoya D. Stephens and Hazel B. Thomas, Littlefield; Keith J. Mouser, Anton; Mary B. Malone, Amherst; Mazola Thomas and Gertrude E. Sooter, Shallowater; Margie L. Wardlaw, Ruby F. Wardlaw and Odessa Marie Young, Lubbock; Juanita C. Eaton, Lena B. Grubbs, Frankie L. Harvick, Hazel M. Jenkins, Adelia E. Latham and Novella M. Wade, Tahoka; Melvina R. Baker, Wilson, and Ethel A. Frazier, Brownfield.

## Sidelights At Annual Fair

Some of these days there will be formed an ex-assistant county farm agent's society of Lubbock county that will meet each fall at the Panhandle South Plains fair and each spring at the Junior Fat Stock show. A new member joined the other day, Lee H. McElroy, who went on his own as Palmer county agent. Rufus McClain is the dean, the first man to hold down that job. He is now in Terry county. Jason Gordon followed him and he recently went from Palmer to Floyd. Homer Thompson, of Garza, has not showed up this year as Uncle Sam called him and told him to report Friday. John Palmore of Swisher decided to attend the Dallas fair this year. Monroe May is here from Castro and Harvie Pool, the new assistant, was to be taking notes on what to do.

R. E. Prewitt of Mayerick county has his display of dates and citrus fruits and is prepared as usual to explain where the county is located.

If it happens that there should be little or no swine judging Wednesday afternoon, it will be because Rotarian Doug Pounds, department superintendent, has gone with the Rotary club to the twin-engine advanced training school of Uncle Sam at Hurlwood, and has taken the judge along. Doug wants to see the base and so does Judge F. I. Dahlbery of Texas A. & M.

A new face has appeared in the cashier's window at the fair this year, Jimmie Wilson, who is taking the place, at times, of L. C. Ellis, who long has handled the sale of tickets at the entrance.

When C. C. Jobson, superintendent of the agricultural department sent out an S.O.S. to the plant industry department of Texas Technological college for help in showing a wide variety of farm products, Dr. A. W. Young got busy and has worked up a splendid display of pumpkins, squash, and cashews. Dr. Young explained the exhibits were chiefly from the college-experimental farm and were designed to show "the wide variety of these and other items that can be raised on the South Plains."

Oscar Stansell of Floydada, Jersey breeder and exhibitor, is not here for the first time in many years. Oscar and his herdsman "Red" Johnson have been among the well known exhibitors at the Lubbock fair and also at Amarillo, Dallas and Plainview.

Frank Well of Hale Center, superintendent of the milking short-horn department, is busy buttonholing farmers and others interested in that breed of dairy and beef animals. A veteran breeder, he has headed the Lubbock fair department and also the Panhandle-Plains Dairy show at Plainview for many years.

**Farm Security Administration**  
Jersey breeder and exhibitor, is not here for the first time in many years. Oscar and his herdsman "Red" Johnson have been among the well known exhibitors at the Lubbock fair and also at Amarillo, Dallas and Plainview.

## Exchange Plan Strikes Snag

(By The Associated Press)  
LONDON, Oct. 7.—British authorities announced today that "owing to a flagrant breach of faith on behalf of the German government," sick and wounded prisoners on hospital ships at the channel port of Newhaven were being disembarked and sent back to camp.

There has not been any suggestion from the German government, one source said, as to whether Rudolf Hess, the No. 2 deputy of Adolf Hitler who was captured when he landed on Scottish soil on a mysterious mission the night of May 10, should be exchanged.

**Setback Is Explained**  
The misunderstanding was based on a British contention that all totally disabled prisoners should be exchanged regardless of the number each held. A German broadcast said the Germans would release only the number of Britons as they received in wounded prisoners from Britain.

"Conditions governing the repatriation of sick and wounded prisoners of war," it was said, "are clearly stated in article 66 of the international convention relative to the treatment of prisoners of war which the present German government recognized as binding upon them."

The source quoted a covenant article, saying not carefully the words "without regard to rank or numbers."

"Proposals for the repatriation have been under discussion through a protecting power for some months, but the two governments were unable to reach an agreement as to the route and method," it was said.

tion has an educational booth in the agricultural building showing the types of service which it renders to farmers of this area.

Short sketches—Visitors at the Boy Scout booth come away well liked... Henry Elder, Lubbock High vocational agriculture teacher reports Leroy Weems, one of his students, has an excellent type of litter of pigs, seven in all, at the fair... Green grass in front of the entrance gate is enticing for those who want to rest for a few minutes... The Bechmann-Gerety shows are so big they sprawl all over the place, far beyond the usual area... Afternoons one sees a constant stream of people headed towards the stadium where free shows are presented... Visitors in the agriculture building are surprised at the excellent appearances of the vegetables shown.

## Twelve Generals Shot Two Dead As In Rumanian Roundup

(By The United Press)  
ISTANBUL, Turkey, Oct. 7.—Rumanian quarters said today that 12 Rumanian generals were shot three days ago for signing a joint memorandum to Premier Gen. Ion Antonescu protesting further Rumanian fighting in Russian territory.

The sources said the generals protested to Antonescu that now that Rumania had recovered Bukovina and Bessarabia from Russia, any further fighting by the Rumanians would mean Rumania was fighting Germany's war for her.

**Taking Heavy Toll**  
These sources alleged that among those recalled from duty on the Odessa front and summarily shot were Generals Leasovin Avuan and Costescu.

It was reported that in their protests to Antonescu the Rumanian generals said that Russian guerrilla attacks in the rear of Rumanian forces facing Odessa were taking a heavy toll among the Rumanian troops. The generals also were reported to have protested that Rumanians were bearing the brunt of the frontal attack on Odessa.

The generals were reported to have informed Antonescu that there was growing resentment and discontent among their troops.

During 1939, Canada's exports of lumber exceeded two billion feet.

## 1942 AAA Program Is Being Discussed

County Agricultural Adjustment Administration committee was in session this morning to discuss several phases of the 1942 AAA program, including the 1942 crop insurance set-up. C. E. Lilley of Slaton, chairman, was to preside.

Administrator Walter Y. Wells received the 1942 cotton acreage allotment, 177,863 acres. The clerical force will have the individual farm allotments worked out by early November, based on this figure.

One of the major problems is the arrangement for the making out of loan papers. These papers may be prepared by either a blank that handles a loan, a cotton warehouse where the cotton is stored, or the AAA office.

GIN managers will not be permitted to make out loan papers, according to an announcement of the Commodity Credit corporation, said Wells. The committee may have to make special arrangements for its clerical force to handle the extra work.

The committee also will discuss plans for a series of meetings in the communities to acquaint farmers with the provision of the 1942 program. A number of changes in the program from the present one, have been made.

## Two Dead As Bridge Falls

(By The Associated Press)  
SAULT STE. MARIE, Mich., Oct. 7.—The mammoth bridge across the St. Mary's river buckled beneath a freight train early today, hurling two train men to death as the engine plunged into the water and blocking vital defense freight movement.

One of two great spans in the bridge collapsed as a heavily loaded Duluth, South Shore and Atlantic train started to cross from Canada. The locomotive, dragging two freight cars behind it, dropped into the river.

**Two Climb To Safety**  
Four men were riding in the locomotive. Engineer Hazel Wilkins and Conductor Dave Monroe, trapped in the engine cab, were drowned. Fireman Carl Zejmer and brakeman Francis Peller climbed back up the twisted bridge girders to safety.

## Move Over Generals! Here Comes Private

FORT SILL, Okla., Oct. 7. (AP)—Look out generals, here comes Walter F. Fox.

In a little over six months, Draftee Fox has risen from private to the rank of technical sergeant, assigned to headquarters battery of the field artillery replacement training center here.

Post officials pointed out that not only was his rise unusually rapid, but he had the rare distinction of receiving two promotions within five weeks, to sergeant Aug. 28, to technical sergeant Sept. 29.

An interior decorator, Fox was inducted from Dallas, where he was connected with a furniture company. He formerly lived at Cleveland.

Suspicion of sabotage were discounted by authorities inasmuch as the bridge, which spans a vital canal through which come freight cars bearing precious ore from northern Minnesota, has been under guard of Fort Brady troops during the defense emergency.

### SOME OF OUR BEST

Patrons are men who once thought they had no use for a City Directory... Tells who lives, or what business is located, at every house in Lubbock. Gives name, marital status, address, occupation, of all men and women over 18 years old. Furnishes you a complete classified list of all businesses and professions. Answers many other every day questions about schools, churches, lodges, civic organizations; city, county, state and federal officials, etc... Compiled and published annually by

### SLATON PHOTOGRAPHER FINDS RELIEF FROM GAS PAINS AND WEAK KIDNEYS

A. R. Meadows Says He Is More Than Satisfied With The Relief Hoyt's Compound Gave Him For A Weakened Condition Caused By Night Rising

MR. A. R. MEADOWS

Time and again we hear folks say of their health, "I haven't been feeling too well lately, but nothing worse than an upset stomach." Perhaps they forget one thing: It is the very poisons which are probably accumulating in their system that may be responsible for more serious ailments, sour stomach, constipation, nervousness, headaches, and the common colds that keep one of the strength and health. So don't delay, go to the Mark Halsey Drug at Broadway and Avenue "L" and have them explain to you in detail the scientific action of Hoyt's Compound.

Learn of the relief thousands say it gives, among them Mr. A. R. Meadows of Slaton, Texas, who says: "I have lived in Slaton, Texas for the past several years. I have been in the photography business ever since I moved to Slaton. And had been bothered with gas pains, nervousness, and weakened condition of kidneys, which caused me to get up for five times a night.

I have taken one bottle of Hoyt's Compound. Those gas pains and nervous indigestion have disappeared. My kidneys are in much better condition. My sleep is broken very seldom at night. All in all, I'm more than satisfied with the results of Hoyt's. I am going to continue taking Hoyt's until all the poisons have left my system."

Hoyt's is an alternative extract, intended to make you eat, sleep and feel better. If your stomach is not functioning perfectly, learn about Hoyt's Compound and try it today! Hoyt's Compound is recommended and sold by the Mark Halsey Drug Store and by leading druggists in this entire section. Mail orders promptly filled, two bottles postpaid \$2.00.

The Journal is an independent Democratic newspaper, supporting in its editorial columns the policies which it believes to be the best for the country...

PAGE TEN

TUESDAY, OCTOBER 7, 1941

Published every afternoon except Saturdays and Sundays... Entered as Second-Class Matter at the Postoffice at Lubbock, Texas...

Office Open Day and Night Except on Sunday Afternoon 1211-13 Texas Avenue

(Continued From Page One)

between the present mayor and New Deal favorite, Florelo LaGuardia and Brooklyn's district attorney, William O'Dwyer...

Whether you like LaGuardia, or not, you must admit that Mr. Roosevelt's director of civilian defense is a crack-up good executive...

But if and when New York has a close majority election, the Communist vote, numbering several hundred thousand, very well may be the deciding factor...

From the standpoint of us Americans who believe in the American way and have no more use for a Communist or his theories than we have for a rattlesnake...

If Communists succeed in getting an important place at the New York pie counter, they can do the same in such other great metropolitan cities as Pittsburgh, Chicago, Philadelphia, Boston, Seattle and San Francisco...

We people who live on the peaceful Plains of Texas have no idea of the threat of Communism until we get up here and peek behind the political scenes...

NEW YORK, of course, is a set-up for the Communist campaign in this country...

In the first place, a great many of its 7,000,000 people are either immigrants or first generation Americans with European ties...

In the second place, the whole of New York-business is based on the jungle law of "the survival of the fittest" and because there are millions here who must work long and hard to assure themselves of the bare necessities...

Thus Communism feeds here on the carcass of the errors of our own methods of doing things...

Let the great American public border to border and coast to coast continue its present, smug thinking and we're all going to wake up some fine day and discover there's a new force challenging the last...

WHATEVER else they may or may not be, New Yorkers are the most generous audiences in the world...

Secret Voyage

BY JOSEPH L. CHADWICK (Copyright, 1941, For The Journal)

YESTERDAY After telling Jeffrey Hammond and Eric Forbes that another ship is looking for the Sonora, the telephone rings and the same mysterious voice asks for Jim Mallory...

PRIVATE AND PERSONAL CHAPTER VI Jim Mallory snapped alert. He cupped his cigarette in his hands to hide the glow...

The two men walked through the patio toward the rear of the house. Their voices died away, but Jim had caught this much: Eric Forbes was afraid Mary Larsen would tell him, Mallory...

Jim frowned and turned back toward the patio. His movement was so abrupt he collided with someone. He heard a startled "Oh!" as he grasped a soft arm...

And let the lines of a play, or the lilt of a song please them and they'll go all the way in expressing their approval...

New Yorkers being entertained never "sit on their hands." They sit up to clap with...

The other night about 11:30, right after the midnight shows, spewed their countless thousands onto the sidewalks of the Bright Lights sector...

As he approached the corner of Forty-fourth and Broadway—right in the middle of Times Square—he noticed a crowd gathered in front of the window of the famed Astor Hotel bar...

The excitement which enticed the crowd of window-peepers was Martha Raye, gorgeously diked out in a white coat-or, at least, somebody who looked like Martha Raye...

Curiosity may have once killed a cat but it doesn't kill anybody here. If it did, this would be a ghost city!

NOTES: Dr. J. M. Hutchinson called to the other night from Lubbock to discuss a school problem. During the conversation, he reported that it had rained a lot last week-at home...

Go to a baseball game and you'll find them cheering a great play by an opposing player even if his action beats Joe DiMaggio or another of their idolized Yankees out of a base hit...

Hold Everything!

"They told me to cub here if I ever picked up a code!"

GOOD CAUSE FOR INVESTIGATION

Charges that some of the officials in the National Youth administration have been urging deferred classifications for those who become NYA enrollees should be investigated...

Williams says the charges are untrue. Probably they are, if they attempt to imply that it is a part of NYA policy to seek deferred military service for young men who become enrollees...

They are the sort of leeches who might do the most harm to such organizations as the NYA, for which there always is likely to be a real need so long as it is properly operated...

"You what?" He stared, bewildered and startled. "You didn't hear me say that. That was Eric Forbes and a stranger."

He drew her by the arm into the dark rumpus room, afraid that she might take a notion to come back. He found the light switch. Mary was pale in the sudden light.

He asked, "What were you doing in here in the dark?" "Just—just thinking."

"What's that in your hand?" She looked down. It was a cigarette case, a good one of silver, and a cigarette behind her ear. I knocked it up, it was quite warm, as if it had been on someone's person...

"No," Jim said. He remembered that Forbes' companion had lighted a cigarette behind her. I ducked his head down as he did it. "Let's see the thing."

Mary didn't obey. She was staring at the case, with wide and frightened eyes. He could see initials engraved on it. He stepped close, reaching for the case, but Mary held it behind her.

"Don't you understand when a lady says no, Mallory?" Jim faced the man. Forbes' eyes weren't pleasant, and steel was in his voice as he said, "Perhaps you'd like to apologize."

There was water all about, but the Hammonds had a pool. Jim went down for an early-morning plunge, and found Mary there before him. She was sitting on the edge at the far end, and he dove in and swam to her.

He grasped her ankles and gave her a little pull. "Come on in, the water's fine," he said. "I'll race you down and back."

Today's Thought Take my yoke upon you, and learn of me; for I am meek and lowly in heart; and ye shall find rest unto your souls. Matthew 11:29.

Critics Charge Federal Information Service Is Waste

Is It Propaganda? And Is It Necessary?

WASHINGTON, Oct. 7.—Critics of the administration's policy on its services of information have charged that 80 per cent of the effort is unnecessary and wasted. That is a guess based on no survey whatever, but it would be impossible to prove this estimate right or wrong, even with figures. The glib generality or even a statistic would be meaningless, anyhow, for a lot of the movies that people don't go to see, the things in newspapers, magazines and books that people don't read, the radio programs that people don't listen to—they represent wasted effort, too.

Being as unbiassed as possible, leaning over backwards to give your bald spot or bangs "kiss your heels" still run across some amazing things in the government's information services, and you wonder why they do them.

Commerce Department Flash! GOVERNMENT press services can consist of anything up from a two-line filler, such as: "A plan to encourage truck farming is being considered by the Government of Trinidad and Tobago, the Department of Commerce says."

Information service releases go up in size from there. Here's one of half-page size: "The following is an extract from page 168, Volume 11, of 'Abraham Lincoln—the War Years,' by Carl Sandburg: 'Pointing to the death penalty as a requisite of military organization, he (President Lincoln) inquired: 'Must I shoot a simple-minded soldier-boy who deserts, while I must not touch a hair of a wildly agitator who induces him to desert? This is none the less injurious when effected by getting a father, or brother, or friend into a public meeting, and there working upon his feelings till he is persuaded to write the soldier boy that he is fighting in a bad cause, for a wicked administration of a contemptible government, too weak to arrest and punish him if he shall desert. I think that, in such a case, to silence the agitator and save the boy is not only constitutional, but with a great mercy.'"

WAR DEPARTMENT Bureau of Public Relations Sept. 11, 1941. MEMORANDUM: The following is an extract from page 168, Volume 11, of "Abraham Lincoln—the War Years," by Carl Sandburg: "Pointing to the death penalty as a requisite of military organization, he (President Lincoln) inquired: 'Must I shoot a simple-minded soldier-boy who deserts, while I must not touch a hair of a wildly agitator who induces him to desert? ### VENTAHOOD KITCHEN VENTILATOR

.. It's new!  
.. It's Beautiful!  
.. It Pays for itself.

**ON DISPLAY!**

This wonderful Kitchen Ventilator keeps the kitchen cool. It has an electric fan to force the heat and cooking odors out of the kitchen.

It pays for its self in many ways. It keeps the wall paper in the kitchen clean and bright and also protects the house from cooking odors. Every home should have one. For just one wall paper job to remove greasy shadows on walls will more than justify the first cost.

Easy to keep clean. Porcelain finish, adds beauty to the kitchen.

(Continued From Editorial Page)

place in a respectable organization for a girl who spent her nights the way I did mine. I didn't know what she was talking about either until I happened to walk near Broadway and 49th St. There, covering the entrance to the Varsity Bathroom, under a bigger 10c. a dance sign, was a picture of my face, and enough of my shoulders to make it interesting. Rather ironic for a girl who has difficulty in walking—to be advertised as a dance hostess. Of course I got no compensation for this misrepresentation. Know any girls who envy me?—Sincerely yours, Estelle Feldt, Brooklyn, N. Y.

\*\*\*

Sounds in the Night: At the Stork: "I Don't Wanna Set the World on Fire. I just wanna neck with Hedy Lamarr." ... In Club 18, Roy Sedler speaking: "Before my mother-in-law died she left me \$1,000 to get her a stone. Well—(clashes a ring) this is it." ... At the "Moose": "With your low mind don't raise your high voice." ... At Armando's: "She's a regular Money Lisa!" ... At the Navarro Bar: "There's one in a million like him and a million 'n' one like her." ... At Versailles: "I like El Morocco. You meet a better class of drunks." ... At Enduro: "She gave him a look that needed a bath."

### Edson's Column

Continued From Editorial Page

big type quotations from all of them—selling consumer education, perhaps, but edited so you don't forget who these people are. A picture of a cute little girl taking a bite of an apple held by a bright little boy, with this cutline: "Nutrition is not a nine-letter word emblazoned upon a field of vitamins. It is a four-letter word—food—good food and plain" of it.—Paul V. McNutt.

Propaganda Or Politics? Is it propaganda? Is it necessary government expense?—It wouldn't be politics, would it? This is picking out a few horrible examples. Not all government handouts are that bad. Some might be worse, as, for instance, a four-page pamphlet printed by the tens of thousands for mailing to farmers. Title: "Higher City Earnings—Raise Farm Incomes." It was issued by the Wage and Hour Administration to "sell" farmers on the idea that the wage and hour law is a good thing for them, even if farm labor doesn't come under the law. Is that propaganda? Is it necessary government expense? NEXT: What it all costs.

A 40-year-old bridge, 1,339 feet long, is to be moved 600 miles from the Vaal River to span the Kei River in South Africa.

### WASH TUBBS

REMEMBER ME, GENERAL? CERTAINLY, MISS SHERIDAN, YOU'RE WORKING ON THAT COUNTER-ESPIONAGE CASE. WHAT CAN I DO FOR YOU? I WAS JUST WONDERING IF YOU HAD ANY PHONY BLUEPRINTS OF AN AIRCRAFT DETECTOR I COULD TURN OVER TO A FOREIGN SPY. AH! READY TO SPRING THE TRAP, ARE YOU?

### BIG PLANS

BY CRANE

YES, SIR. NOW LET ME SEE. HERE'S A RECENT EXPERIMENTAL MODEL THAT PROVED FAR TOO COMPLICATED AND INEFFICIENT. PERHAPS IT WILL DO. GRACIOUS! BUT HOW WILL I EVER CONVAINCE HIM THAT I SNEAKED AN ENORMOUS BUNDLE LIKE THIS OUT OF THE BUILDING? WELL, IT'LL HAVE TO LEAVE THAT UP TO YOU, FRANKLY, I DON'T KNOW.

### THE LONE RANGER

SPECIAL MESSAGE BY FRAN STRIKER

WHY ARE YOU SUNK NERVES, IF THE LONE RANGER DOESN'T COME HERE? I'VE GOT TO SEND THAT CASH-SMOKER ABOUT THROUGH THE BADLANDS WEST OF HERE. THERE'S NO ONE ELSE I KNOW CAN BE TRUSTED, EXCEPT THE LONE RANGER. I'LL HAVE A LOOK AROUND, MAYBE I CAN FIND OUT SOMETHING ABOUT THE LONE RANGER. SHERIFF YOU MUST FIND HIM! IF THE LONE RANGER IS INHURED IT'S OUR FAULT! I KNOW IT, BERNICE! WHAT TH... THERE'S A NOTE PASTERED TO IT!

### BARRED

BY HAM FISHER

MR. RENSHAW'S ORDERS. HIT THE ROAD! TAKE YER HANDS OFF ME YA STUPID DONKEY-- MR. RENSHAW'S ORDER. HIT THE ROAD! I'LL FIX HIS WAGON!

### JOE PALOOKA

IT'S THE MORNING AFTER THE BIG FIGHT. JOE AND RED ARE BACK IN FORT DIX AND KNOBBY HAS GONE TO HIS FIGHT CAMP. JUST A MINUTE WALSH, YOU AIN'T ALLOWED IN HERE SCRAM! GIT OUTA THE WAY YA LUG! THIS IS MY JOINT! BOXING BRICK SHAW

### FRECKLES AND HIS FRIENDS

TRIPLE THREAT BY BLOSSER

HOOGEY LEARNED THAT FRECKLES ARRANGED HIS BLIND DATE WITH MISS GUNDY... I'LL BE READY IN A FEW MINUTES, MR. ROOT! TAKE YOUR TIME, MISS GUNDY-- I'M MANAGING TO ENTERTAIN MYSELF! WE HAD THIS ANSWER, RIGHT, SO I'LL JUST MAKE IT WRONG! THIS WAS WRONG, SO I'LL JUST LEAVE IT THAT WAY! YOU MENTIONED FRECKLES MCGOOSEY-- OUR STAR FOOTBALL PLAYER! HE'S A WONDERFUL KICKER AND RUNNER! YES, SO I HEAR! BUT CAN HE PASS?

### FAIR WEEK . . . THIS WEEK! BUT COLD WEATHER AHEAD

It is important this year to have your car checked for winter driving. Anti-freeze supply is limited, therefore you should have your car checked to see that radiator hose and heater hose are in first class condition. Don't lose your anti-freeze because of faulty connections. The manufacturers say . . . "check your anti-freeze and your car early . . . if you wait you may be disappointed."

**Use Our Easy Budget Plan**

## Dive Bombing Is Terrifying

SAN ANTONIO, Oct. 7. (AP)—Dive bombing is terrifying to ground troops at first but it is not very effective as a military weapon. This is the opinion of three British officers who fought through the battle of France and the Dunkerque evacuation and are now visiting the second division at Fort Sam Houston.

The officers, Major C. H. Colquhoun of the Royal artillery, Major E. N. Bredin of the Royal Ulster Rifles and Major H. P. Drayson of the Royal engineers, observed the recent third army operations in Louisiana.

**Bark Worse Than Bite**  
"Its bark is far worse than its bite," Major Bredin asserted in speaking of dive bombing. "A lot of people we meet seem to have the impression that we were the only three who got away from Dunkerque when there were really 339,000," Major Bredin added.

Factors enumerated as deterrents to an attempted invasion of the continent at this time by Britain were listed by the three officers as the vast size of the German army already in France notwithstanding the campaign in Russia, the far flung task of the navy which prevents its concentration of strength for such an effort, and the need for further overhauling

THIRD PLACE COUNTY WINNER — Terry county's agent, R. N. McClain, brought a lot of fine farm products to the Panhandle-South Plains fair and his booth shown above was judged third place winner in the county division. (Avalanche Staff Photo).

## TERRY COUNTY

### What's Going On In The Lone Star State:

## Texas News Briefs

#### VICTIMS RETURN HOME

FORT WORTH, Oct. 7. (AP)—Veterans of the old 36th division returned to their homes today after closing an annual reunion where speakers warned the second generation that it may be forced to fight for the principles they defended in France 23 years ago. Speakers included Adj. Gen. J. Watt Page and Gen. John A. Hulen who was re-elected president of the organization. Mrs. Floyd Roden, Fort Worth, was re-elected president of the auxiliary.

#### CONTRACT EXPECTED

HOUSTON, Oct. 7. (AP)—The Associated General Contractors said today that Houston probably would be awarded another large

ship building plant, costing \$4,000,000, located on the ship channel between the site of the Irish Bend island yards, now under construction, and the San Jacinto ordnance depot. Official announcement of the project is expected within the week, AGC said.

#### TO START WILDCAT

HOUSTON, Oct. 7. (AP)—Grady Vaughn, Dallas operator, was expected today to begin operations this week to complete his No. 1 Frost Lumber Company wildcat oil test in Shelby county. The test, is located on a 300-acre farm-out from Humble Oil and Refining company.

## Causes Of Many Traffic Mishaps Easily Understood When Driving Tests Given

As Captain W. W. Legge of the state highway patrol gives applicants for driver licenses the driving law tests in his office in the basement of the Lubbock county courthouse, he understands the cause of divers traffic mishaps. Applicants for renewal of expiring driver licenses disclose varied inhibitions and individualistic ideas.

The maximum speed limit outside city limits trips many. Some drivers know that it is 60 miles per hour, some think it either higher or lower, and some think there is none.

Arm signaling bothers the multitude. The arm down means slow or stop, held straight it means left turn or up it means right turn.

These signs are troublesome to some motorists who just turn when they want to.

Traffic lanes stretch before the drivers as simple, complex or impossible of understanding. One driver thinks that the road is his if traffic is light despite lanes. Another thinks that lanes were pos-

sibly placed on the highway as an aid to the workmen who were attempting to build a straight road.

If there is tedious congestion of traffic a way should be forced through it by use of horn and daring was the opinion of some.

**Concern Of Car Owner**  
Lights, brakes, horn and muffler should be kept in good condition admitted some of the applicants but they observed that it should be more the concern of the car owner than that of the traffic officer.

One question concerned the driver with just what the circumstances would have to be which would subject him to a term in the state penitentiary. The only true answer would have been to mark the part relative to failure to render aid and driving away following an accident in which the driver had been involved. But some applicants differed as to the answer. Their idea was that failure to obey a traffic officer would be sufficient.

Some drivers pondered the right of the highway department to limit speed in some zones where limitation of speed was for safety. It was a common opinion that state laws set up should not be revoked even by officers.

**Parking Novalty To Some**  
Parking correctly along a street was rank novelty to some. They always parked, yes; but they did not bother to see whether it was on the correct right side or on the lawless left.

Eventually the applicants studied a book of rules and regulations concerning traffic kept on hand by Captain Legge if their traffic knowledge was too erroneous and left the patrol office much more informed and much less dangerous to the vicinity in which they drive.

"We had to do it, when Hoskins started wearing Bench Made suits"

frankly, we won't guarantee that you'll dazzle 'em quite like Hoskins in a Bench Made Suit. But we will guarantee that you'll get some of the most luxurious woollens you ever laid your hands on, and one of the finest hand-tailored suits you've ever worn, in a Hart Schaffner & Marx Bench Made suit.

in addition, in Bench Made Suits you are assured of the fit and feel and drape of expensive custom clothes-- without the fuss and bother of time-wasting try-ons. All this at a price that is surprisingly modest for such a fine quality garment. Worth a look, don't you think? Just drop in this week!
