

# Religion Plays Major Role In Life Of Students At Texas Tech

## Many Churches Represented In Enrollment; Methodists Lead

BY FELICIA BOULTER

One-third of the 3,548 students enrolled in Texas Technological college for the fall semester designated Methodist as their favored church denomination, according to an official compilation of religious preferences at the college. Lacking only 47 students to claim a tie, the Baptist church claimed 1,172 Techsians.

Attaining third place in the list of preferred church affiliations; the Church of Christ was chosen by 801 students. Two hundred sixty-six pledged allegiance to the Presbyterian church. The Christian church numbered 186, with the Catholic denomination having 87 followers. The Episcopal, Lutheran, and Christian Science churches were favored by 69, 28, and 22 students, respectively. Thirty-two students divided their preferences among such religious sects as the Apostolic, Assembly of God, Church of God, Congregational, Four Square Gospel, Greek Orthodox, Hebrew, Mohammedan, Nazarene, Pentecostal, and the Seventh Day Adventist. The remaining 165 had no church preference.

**Religion Plays Big Part**  
In contradiction to the popular opinion that religion plays a minor role in the activities and curriculum of students attending a state-supported college, Bible instruction and religious organizations are part of the collegiate life on the Tech campus.

Through the cooperation of St. John's Methodist church of the Northwest Texas conference, courses in Biblical literature are offered to Tech students; the work being under the regular supervision of the division of arts and sciences. A committee acting in the capacity of the head of the department of Bible and religious education is composed of Dr. A. J. Barnett, chairman, Dr. A. J. Bahm, and Dr. Alan Gunn, the instructor at present. Rev. Harold L. McCree, pastor of St. John's, but he will not continue teaching because of increased parish duties. Rev. W. G. Loesel, pastor of Redeemer Lutheran church here, conducts correspondence courses for the department. A successor to Rev. McCree has not been named.

**Student Religious Council**  
The Student Religious Council is made up of two student representatives and an educational director from each church having a college student group, representatives from the YWCA-YMCA, and members of the faculty committee on student religious life. James Curry of Dalhart is president of the council and Claudia Reinhold of Lubbock is secretary. Members of the faculty committee are Dr. Bahm, C. V. Bullen, Miss Jonnie McCreary, Dr. Charles B. Qualls, Mrs. W. G. Dingus, Dr. S. S. McKay, and Raymond H. Williams.

Regular meetings of the Student Religious Council are held the second Thursday of each month, rotating at the various churches for 6 o'clock supper and business meeting.  
Now sponsoring a mid-week devotional service, the council is also responsible for the conducting of the program for Student Religious week, held for the first time on the Tech campus last year. In connection with the Religious week scheduled for March 2-5 this year, an annual student religious convocation has been planned for Wednesday, March 4, in the Double T gymnasium. The Presbyterian assistant pastor, Rev. W. Jack Lewis, is chairman of the committee in charge of Student Religious Emphasis week activities.

Meets Each Thursday  
Endeavoring to create and maintain Christian fellowship on the campus, the YWCA-YMCA meets each Thursday at 7:15 p. m. at

Seaman hall. Wanda Kimbrell of Idalou and Neyland Hester of Bovina are co-presidents. Faculty sponsor is Fred Griffin of the English department.

The board of directors of the YWCA-YMCA includes president, Rev. H. G. Gantz; first vice president, Dean Mary W. Doak; second vice president, John W. Broome; secretary, Dr. Bahm; treasurer, Duke Buster; Miss Mayme Twyford; Dr. C. C. Schmidt, Dean James Allen, Dr. S. C. Arnett, Dean James M. Gordon, Dr. A. W. Young, Mrs. Arch Underwood, Dr. O. W. English, Prof. Bullen, Dr. Fred W. Sparks, Prof. J. D. Strickland, George Kuykendall and Griffin.

**Open House Staged**  
As an invitational welcome to Tech students, open house was extended to all Techsians by the churches of Lubbock, Sept. 19.

Indicating the increasingly closer relation of collegiate life and religion, President Clifford B. Jones in his annual address to students and faculty stated: "It was a source of profound gratification to us that during the past year for the first time came a student urge for administrative recognition of observance of a designated Religious week. It is only fair to say, however, that the state colleges of the present day are not so devoid of religious influences as is imagined. The movement for credit courses in religion in state-supported institutions is encouraging."

### Reno Gambling House Robbed By Bandit

RENO, Nov. 19 (AP)—An armed bandit working alone today executed the first successful holdup of a major gambling club in the history of Reno's legalized gambling.  
He leveled an automatic at Change Clerk C. W. Brown, at Harold's club on Reno's main street, saying, "I've had bad luck at gambling. Hand over all the money in the till."  
He escaped with \$660. The money was only the change at the clerk's window.

Farmers of China are claiming the recent downpours confirmed their predictions of plenty of rain because this year has "two months of June" according to the lunar calendar.

### Pull the Trigger on Lazy Bowels, with Ease for Stomach, too

When constipation brings on acid indigestion, stomach upset, bloating, dizzy spells, gas, coated tongue, sour taste and bad breath, your stomach is probably "crying the blues" because your bowels aren't moving. It calls for Laxative-Senna to pull the trigger on those lazy bowels, combined with Syrup Pepsin for perfect ease to your stomach in taking. For years, many doctors have given Laxative-Senna because it is so agreeable to a touchy stomach. So be sure your laxative contains Syrup Pepsin. Insist on Dr. Caldwell's Laxative-Senna combined with Syrup Pepsin. See how wonderfully the Laxative-Senna wakes up lazy nerves and muscles in your intestines. And the good old Syrup Pepsin makes this laxative so comfortable and easy on your stomach. Even finicky children love the taste of this pleasant family laxative. Buy Dr. Caldwell's Laxative-Senna at your druggist today. Try one. It's a combined with Syrup Pepsin for ease to your stomach, too.

It's just surprising how winter colds and drafts disappeared after we put in the Clow Gasteam Radiators

### Steam Radiator Heat

Steam Radiator Heat provides complete, uniform heat distribution without drafts or overheated air. This helps prevent colds and other ailments due to inadequate, unbalanced heating. The even, penetrating warmth of Clow Gasteam Radiators is the most healthful heat you can get, and by heating the house uniformly, you don't pass from a warm room to a cold one and catch cold.

Clow Gasteam Radiators make their own steam heat with gas. They are installed under windows or near doors where they warm cold air as it enters the room. The heat is then distributed through the lower or "living zone" of the room instead of to the ceiling. With other forms of heating for commercial heating, Gasteam Radiators are durable, simple, and require small space. The vented type radiators are recommended for the prevention of excessive moisture on windows.

For industrial or commercial heating, investigate the Clow Unit Heaters.

**GOOD NIGHT, LADIES**—A flip, a tug, a pat—and an army bed is ready for the day. At a recent defense display these five ladies showed varied reactions as they watched a soldier make up his bunk in an outdoor demonstration. Very neat, indeed, they admitted, noting that some lucky girl somewhere would know good husband material when she saw it.

And it IS dangerous to use your eyes in dim or glaring light. There is never occurred to you there can be anything wrong with your lighting. You're used to it and don't notice glare and shadows. Yet surveys show that nine out of ten homes are improperly lighted for safe seeing... and it's so unnecessary! Good lighting, and plenty of it, can be had for a few cents a night.

# Divided Thanksgiving Finds Town And College Folk Busy Celebrating

## Visitors Are Entertained

The two Thanksgiving holidays, state and national, will find Lubbock Public School, Texas Technological college and town folk divided on entertainments, dinners and games. The real fortunate ones will celebrate both occasions; others are confining activities to tomorrow or next Thursday.

A general exodus from Abilene is expected for the Hardin-Simmons-Teck game, first game between the two teams since 1935. Dr. and Mrs. Clifford B. Jones will have as their guests for luncheon and the game: Dr. and Mrs. W. R. White; Dr. White being president of the university; and Mrs. J. A. Sanderfer, of Breckridge; Mr. and Mrs. G. B. Sanderfer of Abilene; Mr. and Mrs. D. A. Bantien of Abilene and their son, Robert, who is an engineering student at Tech college.

Jack Sanderfer is chairman of the board of trustees of Hardin-Simmons university and G. B. Sanderfer is business manager of athletics. Mr. Bahdeen is manager of the West Texas Chamber of Commerce.

Guests of President and Mrs. Jones for the game and for Mrs. Jones will be Mrs. J. A. Halsey of Midland, a former member of the Tech board of regents; her daughter, a Mrs. Porterfield; and Mr. Porterfield of Midland; Regent Charles C. Thompson and Mrs. Thompson of Colorado City; and Mr. Thompson's sister.

To Visit Parents

Miss Jane Meskimen, a senior student at Hardin-Simmons, will visit her parents, Mr. and Mrs. B. H. Meskimen, and attend the game.

Members of the Western Mothers club are planning to attend the game between their sons and the Plainview Bulldogs tomorrow afternoon and to sit in a body at the game.

After the game, the boys are to return to Lubbock for their Thanksgiving dinner at the Mexican inn.

Mr. and Mrs. Carroll Thompson left today, he to attend the State Teachers Association convention in Houston and she to visit in Fort Worth.

Miss Margaret Williams of Tucson, Ariz., is spending the Thanksgiving holidays with her mother, Mrs. L. G. H. Williams.

At Houston Reception

Dr. and Mrs. W. D. Irvin will be in the house party at "Texas Exes" tea to be given in Houston Thursday in honor of ex-students of the University of Texas who are attending the teachers convention of the association.

To Honor Pledgees, Sans Souci club is entertaining with a pre-Thanksgiving dance tonight at the Old Hayloft, beginning at 8 o'clock. Members and their escorts whose names were omitted from a list published in Tuesday's paper are Dina Treadway, Guy Chisholm, Nell Arnett Johnson, John Carter Byers; pledges and their escorts to attend will include: Margaret Garrett, Leslie Caldwell; Mary Lou Metcalf, Cullen Chapman; Margaret Moncrief, L. G. Wilson; Ann Dysart, Harold Soper and Dorothy Schumacher, Jack Dillon.

We The Women

"How about bringing along one of your friends for Joe?"

That's blind-dating on a small, pre-national-defense scale. Now, with thousands of young men in army camps having no other way of meeting girls, the blind-date is being worked out on a grand scale.

In New York City, for instance, on Tuesday and Friday nights several hundred business girls picked for their charm and looks pile into government lorries and are taken to the Army barracks of the YMCA, where they dance with soldiers stationed at Governor's Island. And similar mass blind-dating is going on all over the country where there are army camps and local girls willing to take a chance on romance.

Some of the girls who sign up for army dances, of course, are just interested in an evening's fun. But others are hopeful of finding lasting romance. Those who are hopeful of turning a blind-date into a "boy friend" should remember that there are definite rules for dating blind, such as:

1. Take the conversation lead when you're introduced—as girls are usually better than men at making small talk. But don't hang on to it too long. Once your young man is at ease, give him a chance to talk about whatever is on his mind—unless, of course, it's his girl back home.
2. Don't tell him all about yourself. Make him work to find out what you are really like.
3. Let him think the idea of a second meeting is something he thought up but hasn't occurred to you. Then he'll feel that he's pretty lucky when you agree to it.
4. Don't arrange to meet him at a restaurant or movie, or offer to pick him up in your family car. Let him come to your house, and when he does introduce him to some member of your family. Remember a girl on a blind-date is at a disadvantage so far as background is concerned. And so if she wants the man to know her background, she should establish her background as soon as possible.
5. The girl who follows these rules will steer a straight course even though she is dating blind.

## Meet A Lubbock Business Girl

ANITA SEAY, going to picture shows, among and visiting friends are favorite recreations for Anita Seay. She is a member of the First Baptist choir. Miss Beatrice McClelland, daughter of Mrs. Isabel McClelland of Chicago, and John W. Shaver, son of Mr. and Mrs. J. T. Shaver of 1801 Fourteenth street, will be married at 4:30 o'clock this afternoon in Austin.

Mr. Shaver is a graduate of Lubbock High school and received a degree in journalism from Texas Technological college. He did graduate work in journalism at Northwestern University at Evanston, Ill., attended George Williams College at Chicago, and received a masters degree at Columbia university, Columbia, Mo., where he specialized in social service work. He is now a teacher for the deaf in Austin.

Mr. Shaver has worked with Miss McClelland for the past three summers in camps for crippled children in Wisconsin.

The couple will visit here sometime in the near future. They will make their home in Austin.

Mr. and Mrs. Shaver will attend the wedding and will go on to Houston to attend the Texas State Teachers meeting there.

# Weygand Ousted As African Chief In Vichy Move To Appease Nazis

## Repercussions Are Expected

(By The United Press)  
NEW YORK, Nov. 19—Private advices received by the United Press today from Europe said the Vichy government has ousted Gen. Maxime Weygand from his post as director of French defenses in Africa.

Taken at the insistence of Adolf Hitler, his dismissal was expected to have far-reaching repercussions. Vichy, it was said, hopes it will open the way to "all-out" collaboration between France and Germany.

Policies Are Re-Examined  
It also may bring radical re-examination of British and American policies toward French Africa. American supplies have been going to North Africa under an agreement which is understood to depend upon Weygand's Africa defense French Africa.

Dismissal of Weygand, it was presumed, will lead to reconsideration of the agreement and also to re-examination of American "hands-off" policy toward French Africa by the British.

No Successor Planned  
The United Press advised said no successor will be appointed to Weygand's post "because of the special nature of his African task" and that the future of the dapper little 71-year-old French military leader is "unknown."

There has been no announcement of Weygand's dismissal in Vichy, these advices said and there was no indication when the news will be made public there. Weygand, it was believed, will remain in France. He is now in Vichy where he was summoned by Marshal Henri Philippe Petain on Sunday by airplane from his post at Algiers.

Ouster To Plicate Hitler  
The United Press advised said Weygand's ouster was ordered by the Vichy regime specifically to plicate Adolf Hitler who was described as having insisted on it before he would agree to resumption of discussions between France and Germany for closer collaboration as part of the proposed "new order" in Europe.

Weygand's ouster is reported to

## Two Men Arrested For Cattle Theft

Such work as this may be another reason why cattle thieving is on the decrease in Garza, Lynn, Borden, Gaines and Dawson counties.

Frank Mills of Tahoka, inspector for Caprock Cattle association, made up of ranchmen of those five counties, tracked down a 35- and a 50-year-old man the other day for grand jury investigation on charges of cattle theft, after finding a dead beef, tell-tale marks of a roping horse and a trailer.

Officers of this section said Mills made casts of tracks and went straight across the Buck Curry ranch that extends west of Seminole to Seagraves and the New Mexico line and, near Hobbs, N. M., found his suspects.

He readily picked out the horse that allegedly had been ridden up to the beef and its mother, his friends said.

Mills formerly was a Texas ranger, stationed in Lubbock.

Adopting the idea that a flag upside down means distress, the National Air Raid Distress Fund of England raised money by selling Union Jacks mounted upside down.

be the second step in the preliminaries for rapprochement between France and Germany.

The Germans were said to have laid down two conditions for resumption of negotiations. The first was an official expression of sympathy for the German war against Russia which was made two weeks ago by Petain when he gave his blessing to the French legion of volunteers being sent to the eastern front.

The second was dismissal of Weygand. Great pressure for his ouster was exerted by the Germans, with the backing of virtually the entire Vichy government. However, Petain resisted, and, instead, sent Gen. Charles Huntziger, war minister, to Africa to make a personal report on defense dispositions there and Weygand's activity.

Huntziger was killed last week when his plane cracked up as he returned to France with the report. The Germans then utilized Huntziger's funeral to renew pressure.

## English Acting Against Finns

(By The Associated Press)  
LONDON, Nov. 19.—Foreign Secretary Anthony Eden told the House of Commons today that Britain already was taking "military and naval action" against Finland, Rumania and Hungary, which have sent their troops to assist Germany's invasion of Russia.

His statement, in reply to a question whether Britain considered the three as enemies because of their participation in the fight against Russia, was: "Military and naval action is, of course, taking place against these countries."

He declined to elaborate and said he could give no information as to why Britain had not declared war on the three countries.

"It would not be in the public interest for me to add anything at all to what I have said," he asserted.

Informed quarters later interpreted the statement of "military and naval action" as referring mainly to British blockade of the countries.

## One Killed In Border Clash

(By The Associated Press)  
TOKYO, Nov. 19.—One Russian soldier was killed and two were captured in a clash of Manchukuo frontier guards with a Soviet detachment which crossed the border Sunday about 24 miles west of Manchuli, Domei said today.

(The Japanese news agency's story placed the alleged incident in the most westerly area of the Manchukuo-Siberian border zone, near the boundary of Outer Mongolia.)

Three Crossed Frontier  
A report from Hainking said that last Sunday three Soviet cavalrymen crossed the border, Manchukuoan survey the Japanese-Manchukuoan forces in that sector. In the resulting engagement, Manchukuoan forces were captured and the third man killed, it was stated. These troops were said to be from the 53rd guard battalion.

The Manchukuoan foreign office protested to the Soviet consul general in Harbin.

The Domei report said the Soviets had military aims in crossing the frontier and asserted it was no mistake.

## Vanity Blamed After Slaying

(By The United Press)  
DURHAM, N. C., Nov. 19.—Authorities theorized today that vanity was at the root of the mental processes which eventually impelled John S. Baldwin, 38, a bachelor farmer, to slay his physician, Dr. Robert Randolph Jones, 47, associate professor of surgery at the medical school of Duke university.

Last summer, Dr. Jones performed plastic surgery upon Baldwin's face, with a view to improving his appearance. Baldwin, police said, had not been satisfied with the result.

Late yesterday afternoon, Baldwin went for Jones in the waiting room of the university hospital's diagnostic clinic. Jones came out of his office, Baldwin produced a .22 caliber pistol and fired five shots into his head. Then he produced a .32 caliber pistol and was standing over the fallen physician, emptying its cartridges into his head, when he was overpowered by Dr. D. L. Lovell and Donald Hirst.

FARMERS PAY DEBTS  
MATADOR.—Mottey county farmers who have borrowed from the Matador National Farm Loan association, are reported as paying off their obligations at the rate of over \$1,000 a day. "Within the past few weeks we have collected an average of \$1,000 a day; many farmers have paid out their loans in full and in advance of contracts," M. S. Patton, secretary-manager, said.

Over 270,000 acres in Egypt were planted to rice this year.

## Police Are Surprised In Drive-Drink Test

(By The Associated Press)  
KANSAS CITY, Nov. 19.—Police provided tree whisky for 16 motorists yesterday and then turned them loose in automobiles. The results weren't exactly what the officers had expected. Some of the drivers demonstrated they couldn't handle their cars and liquor simultaneously. But:

"Most of them scored better after their second and third drink than they did the first time out when they hadn't had a shot," commented Henry W. Johnson, superintendent of the police traffic and safety division.

Police said the explanation possibly might be that the subjects were nervous, knowing that their every reaction was being watched, and two drinks might steady their nerves.

The police and Missouri highway patrolmen hoped to learn if this was the case through today's renewal of the tests being held on a special roadway.

The 16 drivers consumed about 15 pint of bourbon on the fading squad hadn't brought in any scotch lately.

"I'm a scotch drinker, myself," one of the contestants wailed. "I could drink scotch until midnight and here they feed me bourbon."

Five Highballs Too Many  
He definitely wasn't a bourbon drinker. After five highballs he drove his car into several guide posts.

"I'm right on the beam!" shouted one driver after his sixth glass. He was, too.

After the fifth drink virtually all of the drivers showed 11 of one per cent of alcoholic content in their blood, drunkometer technicians said. Police book a driver for intoxication if his test runs .15 per cent.

No Definite Conclusions  
Each man was given two ounces of whisky, either straight or in a highball, every 30 minutes. Then they were required to drive 700 feet forward, trying to keep the wheels within two lines 16 inches apart. Next they reversed the route. The final test was to follow a figure eight roadway.

The volunteers ranged from habitual and moderate drinkers to abstainers. They consumed from two to seven drinks each. Johnson said compilation of the detailed data would require at least two weeks and no conclusions would be made before that time.

# Lubby Sobs As Story of Love For Sain Wife Is Unfolded on Jury

## Insanity Plea Defense Case

(By The United Press) BROWNWOOD, Nov. 19.—A sobbing army captain on trial for his life testified that the wife he shot to death had gone out with other men but said that since "Baby is gone I feel lost, I haven't anyone I loved her... I worshipped her... She was everything any man could ask for."

Defense witnesses told a crowded courtroom yesterday that black-haired 39-year-old Capt. Harlan H. Blackmon was insane at the time he shot his 23-year-old wife, Helen, at a dinner party last August 2 and then turned the pistol on himself.

Letters introduced in insanity in the Blackmon family were introduced in the testimony, and one lunacy court conviction in Robertson county 16 years ago showed that the defendant's father, G. G. Blackmon, was committed to a mental institution, where he remained for five years.

After the state rested its case and defense witnesses attempted to establish that Blackmon was temporarily insane at the time of the slaying, Defense Counsel J. Edward Johnson placed the uniformed officer on the stand. Then began a recital of events in the former Fort Worth man's married life, the introduction to the record of letters between the defendant and his wife—"Baby" as he called her—concerning a number of dates she had after he was called into army service last December.

Blackmon testified that his wife admitted to him that she went out with Walter Harwood, United States housing authority clerk in Fort Worth, Minn. Blackmon, formerly was an employee of the government agency.

Later, he related, after the couple had rented a one-room apartment in Brownwood he discovered she had gone skating on one occasion with two men, one at Camp Bowie and had remonstrated with her. Other details leading up to the fatal dinner party were drawn from the defendant by Johnson and finally the attorney asked:

"Do you recall shooting your wife?" "No, sir," Blackmon replied. "Would you have shot her, Johnson asked?" "No, I wouldn't have harmed her in any way."

At another time, Johnson asked why Blackmon had tried to effect a reconciliation after incidents he described as:

"I couldn't give her up, Mr. Johnson. She had a smile no one else had. She offered everything a man could wish for."

## Dramatic Escape

(Continued From Page One) he believed Baker was somewhere in the middle of the train when it stopped.

"Smoke was rolling out of the smokestack and the air was so heavy that we were hardly able to breathe," Bonner continued. "Just imagine yourself being lost in hell—that was the feeling I had."

"Rippey and I made our way to the end of the tunnel—and after we got our breath we went back to find out what happened to the engineer and the firemen. They could have gotten out if they could have cut into the engine from the rest of the train. But I suppose they were overcome trying to disconnect the coupling or kill the fire by shutting off the lever that controls the flow of oil from the tank to the firebox."

Cattle Believed Perished—Smoke and deadly gas turned back attempted rescuers for several hours, and giant wind machines from movie studios finally were pressed into service.

Ordinary gas masks were discarded when users found they contained little oxygen to penetrate the half-mile or more to the engine. Fire department rescue crews from Los Angeles, 34 miles away were rushed to the scene, in the hills which separate the San Fernando valley from the seacoast.

Ten carloads of cattle, immediately behind the engine, were believed to have perished. The other 41 loaded cars contained varied merchandise.

## Army Officers

(Continued From Page One) Campbell, who is to be officer in charge of training, and Major Harry S. Bishop, who is to be subordinate commander. Major Campbell has been stationed at Brooks field and Major Bishop at Kelly field.

Brief visitors to the Lubbock project were Col. H. W. Holden, who is executive officer of the 11th state Gulf Coast Air Corps Training center, and Major D. C. Strodtman, Both have headquarters at Randolph field.

## Cold Shoulder

(Continued From Page One) William Bullard, came to the field to see Litvinoff off and showed embarrassment when Litvinoff remarked:

"All I would have been much simpler if I had been told yesterday no seats were left in the British plane."

Bullard replied that it was urgent that the British legation counselor, J. D. Greenway, one of the passengers, leave for India, and said other unexpected factors had resulted in a misunderstanding.

## Nazis Suffer Great Defeat

(Continued From Page One)

German high command said Nazi bombers violently attacked Russia's great Black sea naval base at Sevastopol, blasting docks, munitions dumps and a ship in the harbor, but there was still no indication of a direct land assault against the stronghold.

Are Safely Evacuated—The British radio said Russian troops in the Kerch sector had been safely evacuated to the Caucasus, along with their complete equipment and war material.

Officially, Russia has not yet recognized the German claim to the capture of Kerch, but the Moscow radio acknowledged that Axis invasion forces, estimated at 90,000 troops, had cracked Kerch's defenses "at a cost of colossal losses."

Meanwhile, authoritative London quarters briefly and cryptically disclosed that Britain was taking "military and naval action" against Finland, Rumania and Hungary.

Refuse To Elaborate—These quarters refused to elaborate, however, and informed sources interpreted the statement as referring mainly to British blockade of the countries.

Possibly forecasting a major offensive move, the war office in London announced a shakeup of the imperial general staff, in which the trend of the changes was to put younger generals in key positions.

General Sir Alan "Wizard" Brooke, 59, a specialist on military mechanization, gunnery and anti-aircraft defenses, was designated chief of the imperial general staff, to replace General Sir John G. Dill on December 25. General Dill was made a field marshal and given the governorship of Bombay, the latter effective when the term of Sir Roger Lumley expires.

The other infraction was at Houston where fans by Aggie routers at midnight for a riot and looted tear gas on the students.

year to \$1,566,820, and of construction of all descriptions to \$3,131,880.

In the last five years since Jan. 1, 1937, a total 2,772 permits have been issued for residences costing a total of \$8,146,583. Residence permits, officials explained, do not include those for any types of apartments.

Of the residence permits, 223 were issued in 1937, 756 in 1938, 649 in 1939, and 713 in 1940.

The assurance that those who plan residence building in Lubbock can feel sure of material priority numbers came from Roger Gilman, Dallas, representative of division of defense housing, when he paid a brief visit to the chamber of commerce.

Corroboration of that information was obtained from J. A. Raley, jr., officer in charge of Lubbock offices of the Federal Housing authority.

Raley explained that some types of housing construction receive higher priorities than others. But, he added, Lubbock's position as a designated defense area assures the availability of materials for all types of housing construction.

That the highest priority can be obtained for the remodeling or enlargement of existing housing facilities. That type of improvement, he said, is given a high rating because of the supposition that it can be done most quickly.

## News Briefs

Thefts Reported—Police said this afternoon the following theft complaints had been made: a fuel drum, burner and 20 gallons of fuel from Bedford Sherrell of 420 Avenue N, a 17-jewel watch from Mary Webster of 2204 Ninth street, almost \$5, from Miles May. A complaint naming Manuel Texano was filed in connection with the money theft, in the court of J. T. Imhon, justice of peace. A 16-year-old Mexican girl was charged in juvenile court for "associating with immoral persons."

Bill Mabray, assistant chief of police, signed the complaint.

Raise Club Dues—Members of Lubbock Rotary club voted at a luncheon in Lubbock hotel voted to raise club dues \$5 a year to \$20, and to give \$120 a year to Lubbock Boys' club. C. D. McGee, city park superintendent, spoke on the city park system. O. W. Ribble was program chairman.

Supervisor Here—E. C. Cates of Albuquerque, N. M., regional supervisor of predatory animal work in region 2 of the federal fish and wildlife service, visited with Mr. Pope, district agent, this morning in the city.

Officer On Trip—Major Joseph R. Peller, district army recruiting officer, was expected to return this afternoon from Fort Bliss where he had gone to confer with Col. Stanley Koch, eighth corps area recruiting officer. Major Peller left Monday night. He was accompanied by Sgt. Richard L. Strawbridge.

Official Is Coming—Homer R. Robbins, assistant chief of the tenant purchase division of Farm Security Administration, will be in Lubbock Friday to meet the county tenant purchase committee, said Walter Johnson, rural rehabilitation supervisor. Two farms are to be visited for inspection.

Back From Conference—E. G. Pope, district agent of the fish and wildlife service of the department of the interior, returned this morning from a trip to San Antonio, where he conferred with C. R. Landon, state agent. He discussed predatory work in this section.

FSA Conference—Members of the Farm Security Administration official families of Terry, Hooker and Lubbock counties and the Ropesville Farms project, held an informal conference and get-together in Brownfield Tuesday night. About 30 were present.

Mrs. Dennis Eitzer, wife of the supervisor for Terry county, and her assistants, prepared a turkey dinner. Mrs. Kathryn Cook of the district FSA office attended.

three years.

The minister gave no details of the oil settlement, which has been the outstanding controversy between the two countries for several years. He said that the state department would issue a statement later explaining the plan.

Like-wise, Strayer declined to say how much money was involved in the currency stabilization agreement. Presumably, this agreement will provide for the purchase by the United States treasury of a large amount of Mexican currency from the Mexican treasury and paying for the Mexican money with American money.

Such action would tend to stabilize the value of Mexican money by facilitating the exchange of Mexican and American money in the course of normal commercial trade between the two countries.

NEW FALL DRESS FOR PARACHUTISTS—Uncle Sam's parachute troops are getting new jumping suits for the fall season at Fort Benning, Ga., as modeled here by Pvt. Harwell E. Cooper, left of Goodrich, Texas, and Pvt. Thomas P. McNamee, Elmhurst, N. Y. Suits are of special gabardine-cotton mixture shaded brown for camouflage, are two-piece and provide more space for carrying knife, pistol and grenades.

## Final Plea Is Made By FDR

(Continued From Page One)

pute, however strong the feeling about it may be, "does not justify a stoppage of work in a grave national crisis."

Troops In Readiness—At the same time, however, it was learned that 50,000 troops were being held in readiness to take over the captive mines in the event the present deadlock continues and the president decides that use of the army is necessary to fulfill his "indisputable obligation"—the restoration of coal production.

Preparations for the use of troops were said to be complete down to the last details, which include special instructions to the men on how to comport themselves in the presence of mine workers.

However, informed quarters emphasized, there has been no final decision yet to use the army.

Mr. Roosevelt, one authoritative source indicated, was purposely biding his time and giving CIO's striking United Mine Workers ample opportunity to reconsider the adamant position the union has taken to enforce its demand for a union shop in the captive pits which are owned and operated by the big steel companies.

Veiled Hint Of Attitude—There was a veiled intimation of the president's attitude in the message he sent to the CIO convention yesterday, calling for production of the sinews of defense "without delay and without interruption."

The statement that the president would stay his hand, for several days more found corroboration in authoritative House reports that Congress had received a quiet go-ahead signal for middle-of-the-road legislation to deal with defense strikes, but with the understanding that action would be deferred for a week or so.

Lewis Sticks Close—Newark, N. J., John L. Lewis apparently believed that there was a possibility of quicker White House action. The UMW president, instead of leaving for the Detroit convention, remained in the capital to deal personally with any sudden developments.

As the suspense intensified, the coal strike front presented this general picture:

Captive mines—Most of them have been closed down, but a few continued to operate under unaltered working forces.

Commercial mines—The total of these mines tied up by sympathy walkouts in Pennsylvania has reached 20. Some 6,000 miners in 23 of Kentucky's commercial mines were ordered to quit work today in another series of sympathy demonstrations.

Troopers Ordered Out—Violence—Two hundred state troopers were ordered into Gary, W. Va., after two men were wounded at one captive mine which was continuing operations. Independent union members there appealed to President Roosevelt for protection so they could keep working. Sporadic clashes between pickets and non-strikers were reported in western Pennsylvania.

Steel production—Lack of fuel forced the closing of the third furnace in the Alabama district. At Pittsburgh, the Carnegie-Illinois Steel corporation announced that it was suspending operations of the impending coal shortages. "It probably will be necessary to stop operations of six blast furnaces," by tomorrow, thereby reducing ingot production by about 10 per cent.

Federal Indictments Are Posted In City—Five indictments, returned by a federal grand jury in the Fort Worth division of the U. S. district court, have been returned here and four of the defendants had posted bond up to this morning, said Mrs. Olive Fluke, deputy clerk.

Durward R. Morehead, charged with embezzlement of federal funds from the Brownfield post office, where he had been employed, posted \$500 bond. Kife Vernon Wake, charged with theft of mail from a postoffice box, also had posted bond. Baney Buford Harrell, charged with receiving stolen government property, likewise posted bond.

Aubrey Roscoe Pierce was charged with conspiracy with co-conspirators in the theft of government property from the Lubbock CCC camp, had posted bond also. Three juveniles were named with him.

A fifth man was to be arrested.

## Fascist Ports Bombed Again By RAF Planes

ROME, Nov. 19.—The Italian high command announced today the ports of Naples and Brindisi were raided again last night. It was the second straight raid for Naples.

Little damage and no casualties were reported.

Halian troops on the Gonder front in Ethiopia were declared to have beaten off attacks in fierce hand-to-hand fighting, which left British wounded and arms on the field.

Two British planes were shot down over Cirenica, the high command said, and a third, bearing 16 men, was captured when it was forced down in Axis-held territory.

# Red Raiders And Westerners Make Final Plans For Thursday Afternoon Tilts

## Cowboys 'Hot' For An Upset

### Lubbock High Team Favored Thursday

This is the afternoon before the afternoon that Lubbock's major football teams engage traditional rivals in contests outlined as West Texas features.

Texas Tech's Red Raiders will devote a couple of hours today to exhaustive rehearsal of offensive plays designed to penetrate the Hardin-Simmons university line and secondary tomorrow in a college classic that has caught the fancy of fans from one West Texas boundary to another.

Westerners Face Plainview

The game is scheduled to start Thursday afternoon at 2:30 o'clock, bringing together the West Texas "naturals" who have been apart for five seasons. Advance ticket sales indicate a complete sellout of reserved space, and the

**TICKLISH BUSINESS.** this Hardin-Simmons and Texas Tech football.

What happens in football shouldn't happen to a dog—even to the underdog in some cases.

But the underdogs are the guys who make football the great game that is, and that goes for all games.

Texas Tech is the favorite over Hardin-Simmons tomorrow, and there is no way of getting around that. The Red Raiders should win. Nor do we think you could do much good, for the Texas Tech cause, by reminding the Red Raiders about Texas university, which was heavily favored over Baylor and T. C. U.

We hope, however, the Red Raiders will remember a recent trip down the Atlantic seaboard, a game in Miami, and an underdog eleven that almost ran them out of the park.

The Tech gridgers have an opportunity tomorrow to prove that the Miami business was the season's biggest upset.

We think they'll come through with the opportunity, but decisively.

The folks are coming in from miles around to see this one, many of them in hopes of seeing the Hardin-Simmons Cowboys put the skids under the Red Raiders. The Morgan Men will disappoint them, at the moment, but they'll make friends and supporters in the long run.

Here's a definite test for the new coaching regime and Texas Tech, and the bigger the score, the more conclusive the answer to the test.

That the game has attracted more than passing fancy is indicated by the number of telegraph copies being set up in the press box and the number of reservations already made by scribes.

Hal "Papa" Sayles, sports editor of the Abilene Reporter-News, is coming in today, a day ahead of time, to get the lay of the land and all the pre-game dope. Charles Burton, sports editor of the Dallas News, is coming by train in the morning. Frank Tolbert talked Sports Editors Fiem Hall and Lorin McMullen out of the trip and is coming to represent the Fort Worth Star Telegram. Sports Editors Jack Douglas of Big Spring and J. H. Nail of Clovis are expected. The Associated Press, United Press, International News Service, The Daily Oklahoman and the Dallas Times-Herald will be represented. Editors Jack Woodward of Plainview and Jerry Malin of Amarillo will be here in spirit only, their physical obligations tying them to Lubbock-Plainview and Amarillo-Pampa games respectively.

The facts that Texas Tech and Hardin-Simmons formerly maintained a rivalry that was abruptly broken off in a flurry of angry egos, and that it is a natural sectional rivalry—these facts have made tomorrow's game a definite stand-out in West Texas football, not only for this week but for the season.

An invitation to the Sun Bowl may be at stake in tomorrow's game.

**LUBBOCK HIGH SCHOOL** finds itself in the same predicament as Texas Tech tomorrow. The Westerners go up to Plainview to battle the able-bodied Bulldogs in a District I conference game, loser of which will be definitely eliminated from the championship picture.

The Westerners are favored to win, with or without their star backfield performer, Miller Thorne, who has an injury that may keep him out of the game.

But there are upsets in high school football, same as in college, and it could very easily happen tomorrow if the Westerners aren't on their toes.

We saw the Plainviews defeated by Pampa the other day, and although we had picked Pampa to win, mostly on account of their scrappy game against Lubbock, we had

squad will make the trip on one special train, bringing a full between-halves program of stunts and musical numbers.

reason to believe that Plainview had a superior team. We know Plainview had the superior backfield.

The Westerners have a job to do in Plainview tomorrow, and we hope they realize it before the game starts—not until after it's too late.

The first quarter of a football game, like the first inning in baseball, is as good a time as any to win a victory, but it's very difficult to convince a team of that fact. Ask any coach or manager.

And speaking of baseball management, we exchange sympathies with the Fort Worth boys, who had to write that Rogers Hornsby, who has been fired off more jobs than any two people usually get had been hired as general AND playing manager of the Panthers. Tish, tush!

**FOLKS STILL CAN'T** get over that Texas university defeat, by T. C. U. Millions of words have been printed about that fiasco, and here are a few more, from an anonymous correspondent, but in an envelope smacking strongly of the Santa Fe railroad office:

"THE DISCIPLES OF BIBLE met their JONAH in Texas CHRISTIAN university. After putting on their ACTS all season, they fell short of their MARK. Saturday. No PROPHET can claim that ESAU is coming. They just had to PETER out sometime but it was a REVELATION that they were not ABEL to do the JOB Saturday.

Cast my LOT with BIBLE but it's beginning to LUKE pretty sad. Somebody gave me a bum steer on those Longhorns. Anyhow, it was PSALM upset, eh JOHN?"

(Signed) "Richard III."

Okay, Richard. But everything will be Paradise if the Hardin-Simmons Baptists from Abilene Don't try to Austin, and it Bain well for Tech if we have a Head at center who knows his Art and who can swing Lowe with a lot of front-end Maxey around the Shanks. And we will be Allbright if Jay isn't too Cockey, and if Duncan. There's always a Ray of hope, and Tech may try to win with a Pat hand, provided the Cowboys don't see Red and Caraway a victory with a Bing. The Raiders must Nash their Cudd and keep on Croosen the goal line. Otherwise it'll be Hale for Tech and a Garland for the visitors. We hope neither team Bates the umpires, and Ledbetter not if they

## Irish Selected Over Trojans

### Close Games Seen On Big Program

BY HERB BARKER  
Associated Press Sports Writer

NEW YORK, Nov. 19.—Waiting for the roof to fall in as usual, this corner does its guessing early on this week's double-barreled football program:

**THURSDAY, NOV. 20**  
North Carolina-Virginia: The Cavaliers have much the better record but the competition hasn't been so keen. Still, Virginia.

**Georgetown - Manhattan:** This will probably be close but we'll take Georgetown. Suddenly Washington: The Colonials can't find the scoring combination. Therefore, Wake Forest.

**Virginia Military-Virginia Tech:** Tossing the coin. Virginia Military.

**Rutgers-Brown:** Should be safe for Brown.

**Washington & Lee - Maryland:** W. and L.

**Richmond - William & Mary:** William & Mary looks good.

**Wake-Dartmouth:** In the records to Also Denver over Colorado; Utah over Utah States, and Wyoming over Colorado Mines.

**SATURDAY, Nov. 22**  
Minnesota-Wisconsin: Wisconsin can score but the Badger defense has been sieve-like. Minnesota.

**Notre Dame - Southern California:** Nothing in the records to hearten the Trojans. Notre Dame.

**Michigan-Ohio State:** This may be the best game of the day. Michigan.

**Harvard-Yale:** An upset of earth-shaking intensity if Yale can do more than hold the score within reasonable bounds. Harvard.

**Favors Cornell**  
Penn-Cornell: Penn has the better record but the Quakers no longer seem up to their early-season form. A flatter on Cornell.

**Princeton-Navy:** With the Yale game behind them, doubt if the Tigers can work up the necessary enthusiasm. Navy.

**Kansas-Missouri:** Kansas has pulled two big surprises already this season. It would be a near-miracle if the Jayhawks took this. Missouri.

**Vanderbilt-Alabama:** Alabama. Georgia-Dartmouth: Georgia.

**North Carolina State - Duke:** Duke to finish unbeaten, untied and inviolate.

**Oregon State-Montana:** One step closer to Pasadena for Oregon State.

**Fordham Ozer St. Mary's:** Washington. Oregon: Picking Washington.

**Army-West Virginia:** Could be a surprise for the Mountaineers are improving. A not-too-confident ballot for Army.

**Columbia - Colgate:** Columbia was battered badly in its past two games and this vote for Colgate is based on the assumption the Lions won't be able to recover physically in time.

**Fordham-St. Mary's:** The Rams have had plenty of time to forget

## Fighting Irish Hailing Great Mentor—Frank Leahy "Coach Of Week" With Amazing Rise To Fame

BY JACK GUENTHER  
United Press Sports Writer

NEW YORK, Nov. 19.—He came up from the ranks of the unknowns only three years ago and already he has spent two holidays in the bowls, produced two contenders for the mythical national title and lost only one of 28 regularly scheduled games. The United Press presents as coach of the week—Frank Leahy, the fighting Irishman of Notre Dame.

The football records are filled with success stories—those of Bernie Bierman, Jack Sutherland, the late Howard Jones and many others, but none quite like that of the young Irishman who has picked up the mantle left behind by Knute Rockne in 1930. For the first time since Rock died, Notre Dame is on the way to an undefeated season, and Leahy gets the cheer.

He tore up his contract at Boston college last year after building the Eagles into a national power and carrying them into the Cotton Bowl and Sugar Bowl in just two seasons. He returned to South Bend, where he had played under Rock himself on the wizard's last team, and he took the poorest Irish material on hand in a decade.

**Can Claim Mythical Crown**  
Yet today he has only one more river to cross—the four times beaten Trojans of Southern California—for his second straight unblemished season and the first such Irish squad in 11 years. The one last triumph over U. S. C. will stretch his string to 26 games and give the Notre Dame boys a strong claim to the mythical crown.

How does Leahy do it? The answer to that comes easily. He does it by hard work, steady concentration and remarkable singleness of purpose. He mixes his coaching duties with journalism and sales work for a rubber corporation, but in his life football comes first. It always has, since the very first day he entered high school in Winner, S. D.

**Earl Walsh,** now the backfield coach at Fordham, tutored Leahy in high school and remembers him as a stubborn, hot-tempered youth who was willing to fight anyone and everyone on the field and who wouldn't give up the struggle no matter what the odds.

Leahy's coaching career for nine years, was unremarkable. He was an assistant at Georgetown then

Championships of three conferences have been determined and another goes on the block this week in Texas college football.

Howard Payne won the Texas conference crown, Texas A. and I. backed up the A-I-A conference pennant and North Texas State Teachers came through for the Lone Star conference gonfalon last week.

**TCU Meets Rice**  
Texas Christian university plays Rice at Fort Worth Saturday and defeat or tie would hand the Southwest conference title to Texas A. & M., the only undefeated, untied college team in the state.

Out at Lubbock tomorrow 12,000 fans are expected to watch Texas Tech, once-beaten, and Hardin-Simmons, which has lost twice, battle for a possible invitation.

probable need of additional bleachers, or a crowd of more than 10,000.

Lubbock High school's Westerners are working out this afternoon in preparation for a battle tomorrow with the Plainview High Bulldogs, on the Plainview field. While it is an important occasion in District I-AA competition, and while Plainview is shutting its business doors and adopting a wholeheartedly the Roosevelt Thanksgiving, the game's attendance probably will fall below the expected mark because of his interest in the college game here.

**Still Have Chance**  
The Westerners may be working out for the last time today. Their game tomorrow is the last on the 1941 schedule. If they should win, however, they will continue to work out, since there is the possibility of either a Pampa or a Plainview victory over Amarillo, which would throw the district race into a tie.

Amarillo plays Pampa tomorrow, and a Pampa victory, highly improbable, would lower the Golden Sandies' standing to a tie with the Pampa and the winner of the Lubbock-Plainview game. In event of such a tie, the district executive committee would be called upon to designate the district representative in the succeeding interscholastic league competition. Lubbock, loser to Amarillo, but winner over Berger and Pampa, would have to be considered in event the Westerners defeat Plainview.

**Thorne Still Injured**  
The Westerners worked on both offense and defense yesterday, but Coach Goober Keyes was still doubtful regarding the physical status of his star backfield ground gainer, Miller Thorne, who has turned up with an injury that may keep him out of the Plainview fray.

Texas Tech's Red Raiders drilled diligently behind closed gates yesterday, rotating in offensive and defensive practice sessions. The Tech freshmen, who felt a Hardin-Simmons sting in the form of a 0-6 defeat at the hands of the Cowboy freshmen at Abilene last week, ran Hardin-Simmons offensive plays against the varsity, and repeatedly warned the upperclassmen that the Hardin-Simmons varsity had threatened to "take up where the freshmen left off," so far as carrying on the newly arranged rivalry with Texas Tech was concerned.

**Abilene To Invade City**  
A likelihood of weakness at a guard position developed yesterday when Doyle Caraway, regular left guard, suffered an injury in an offensive scrimmage.

Head Coach Del Morgan said that Caraway probably would not be able to play tomorrow. The husky guard was being treated at Lubbock sanitarium this morning for a knee injury.

From Abilene come reports of a record-breaking "student spirit" that was breaking out all over town. Encouraged by the victory of their freshmen over the Tech first year men, Hardin-Simmons enthusiasts were cutting loose with loud and colorful demonstrations as early as yesterday, and far into last night.

At least one special train, maybe two, and a number of chartered buses will bring students and fans from Abilene to the Tech campus tomorrow. Private cars will bring a large number. Nearly 1,500 tickets to the game have been sold in Abilene.

The famous Cowboy band, and the equally famous Cowgirl pep

band will make the trip on one special train, bringing a full between-halves program of stunts and musical numbers.

## Rogers Hornsby New Fort Worth Manager

FORT WORTH, Nov. 19. (AP)—The Rajah is coming home.

More than a quarter of a century ago Rogers Hornsby, perhaps the greatest righthand batter in history, learned baseball on the sandlots of Fort Worth's North Side. He used to hang around the Fort Worth Cats' ball park until players came to know him as "that fresh kid who won't stay away."

Now he is coming back to Fort Worth, and back to the north side home of the Fort Worth Cats—this time, however, as manager of the team.

Hornsby signed a one-year contract at an undisclosed salary yesterday to act in the joint capacity of team manager-business manager.

Rarely seen now, the beautiful whistling swan winters in Currituck Sound, N. C.

## Lubbock Man Finds Deer On Highway

Some people frudge many a weary mile seeking a deer but come home empty-handed.

But Jack Williamson, of 2321 Twenty-fifth street, only had to step from his car while driving down busy highway 82.

Williamson was returning from a trip to Dallas Tuesday when he found a government-tagged deer lying in the middle of the road about six miles southeast of Guthrie, mortally wounded by unknown passing motorist but still breathing.

The Lubbock man carried the deer into Guthrie in search of a game warden, but unable to find one contacted the sheriff there who told him to bring the animal on to Lubbock. Williamson brought the deer in, contacted the game warden here who revealed that several government-tagged deer had been turned loose in the Guthrie vicinity. The deer is in cold storage and Williamson, a steno-typist at the Avalanche Journal, is awaiting official disposition of the case.

# Crucial Tilts To Decide Many Schoolboy Championships This Week

## Fort Worth To Name Winner

(By The Associated Press)

The third champion of Texas schoolboy football is expected to be determined today as Amon Carter Riverside replaces Masonic Home as leader in the Fort Worth race.

The Masons, unbeaten and untied, were eliminated through use of an ineligible player and Carter was pushed to the top.

Meets Underdog Foo

Now all Carter has to do is defeat off-beaten Fort Worth Tech and the District 7 title will be theirs.

Wichita Falls in District 2 and Ysleta in District 4 have already won championships.

An important game is scheduled tonight at Henderson where Naasgoch plays Henderson to decide the leadership in District 12. Both are undefeated and untied and the winner will clinch at least a tie for the championship.

Sunset, Temple Face Tests

There are 47 games on this week's schedule with titles of more than half the districts to be determined by the end of the week.

All five of the state's undefeated, untied teams have games.

Amarillo plays Pampa, Sunset (Dallas) meets Woodrow Wilson (Dallas), Tech tangles with Gainesville, Temple engages Waco and Goose Creek plays Conroe. Sunset and Temple appear to face the hardest tests.

Bob Walker, former cheer leader at Texas Tech, now a home-loving citizen with a big whole-sale concern, is authority for the "high spirits" reports out of Abilene. He telephoned us from Abilene last night, saying the town was being painted the color of the Texas Tech nickname and uniforms by Hiram Simmons students and townspeople, who are "already celebrating their victory over Tech."

Shirt-tail parades, bonfires, yelling and yelping all over town, Walker said, were keeping the town up late even two days before the game. "They've really got the spirit over here, and you'd better tell the Texas Tech team and students that they're in for a deal Thursday that they can't back out of. I never saw such a demonstration this soon before a game. Even I'm getting a little scared. If they knew my connections, they'd hang me up to the highest light pole. I'm gettin' outa here."

## Four Hunters Return After Bagging Deer

Four Lubbock county deer hunters returned from near Mason this morning with three bucks as the evidence of the excellence of their marksmanship.

They are A. W. Stolle and Robert Stolle of Slaton, route 15, and Fred Stolle and R. B. Boyd of Lubbock route 6. Their bags were four, six and eight pointers. They left on the hunt Saturday.

went with Jim Crowley at Michigan State and at Fordham. There he remained until he switched to B. C. in 1939 and promptly took the Eagles to two bowls, losing only two of 22 games. At Notre Dame he has done even better—

pleasing Arizona, Carnegie Tech, Georgia Tech, Indiana, Northwest Army, Navy and Illinois and tying Army in the mud.

Now in his early thirties, Leahy is well on his way to a place among the greats of his trade. His attack is one of the cleverest and flashiest in football. He favors passing—all types of passing—and he likes his boys fast and smart and willing to gamble.

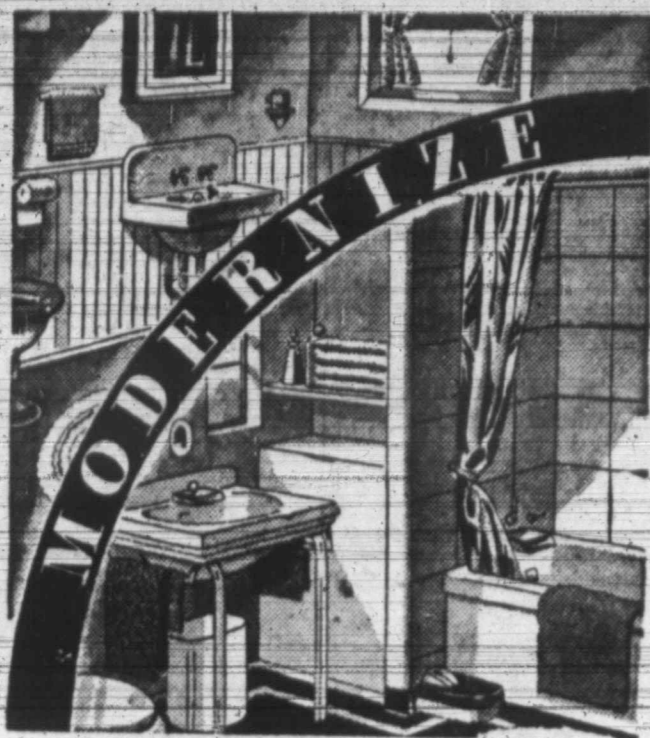

Apparently Notre Dame likes him. For while his contract hasn't been made public

she had spoken. Merry Leo. The words had come out of her helpless fury. Merry Leo Shore! She raged at herself for letting her emotions-trick her into such a statement. Jerry looked stricken as he turned from her. All of the light and happiness, even the anger, had gone from his face. And she knew Jerry had been right. It was because she loved him that she churned to helpless fury when things went wrong between them. Pam loathed herself for the foolish, dishonest thing she had done. It went counter to all of the theories on which she had built her life. She stood motionless long after Jerry had gone, watching the quiet street from her window, thinking. She knew she loved Jerry. Well, she scolded herself, then why didn't she take him and take her chances on his turning out right? Night came like the closing of the dark covers of a book. Melita came to the door of the living room and looked at the figure still silhouetted against the window. When she returned to her kitchen Melita looked fondly at the little figure of Saint Gabriel that stood on the shelf above her sink. Her fingers touched the hem of his garment as if to ask attention. Melita was like that. She fixed a tray and lighted candles and took it to Pam's favorite corner of the living room. To be continued

# Situation Of France Pictured As Very Terrible

## Chairman Of Scout District Is Named

LITTLEFIELD, Nov. 19 (Special)—J. C. Littlefield was elected chairman of northwest district of South Plains Boy Scout council at the annual district banquet in the American Legion hall here Tuesday night.

He succeeds Dr. William Orr of Littlefield, who was elected vice chairman.

Another action at the banquet was the changing of the name of the district from "northwest" to "Yellowhouse." The name was

## Petaín Facing Thankless Job

BY DEWITT MACKENZIE  
Journal War Analyst

The report from France that the government is considering a far-reaching extension of its cooperation with Hitler's "new order," brought me a call from a distinguished French resident of New York who wanted to know if there would be any truth in this news.

He was much distressed by the thought that his country might be contemplating such a move, and obviously was hoping I would say there was nothing to the story. It was impossible to give him that satisfaction, for it seems quite likely that the Vichy government may make a move in that direction. However, we talked the matter over and he did have a less gloomy view after an analysis of the situation.

Don't Judge Hastily

When you first look at this proposition of the Petaín government lending itself to cooperation with its hated conqueror, whose troops have their hob-nailed boots firmly on the proud country, it does strike one as an astonishing development. On further study it doesn't seem so strange, and one is inclined not to judge hastily.

In assuming the leadership of his crushed people, Marshal Petaín took over a valiant but thankless task. He established himself as the symbol of surrender. It must have been a bitter thing for the hero of Verdun to to humiliate himself and take upon his aged shoulders the burden of representing in defeat the country which he once helped to such glorious victory. It must be a trial for him daily to have to bow his head to the Germans in whose ears yet rings his World War challenge, "they shall not pass."

Must Save Soul

Still, somebody had to take the burden of Petaín's job, and in order to save the soul of France, his country was so utterly crushed that there was danger that the fighting spirit—the will to recover—might be lost.

All Petaín's efforts would seem to have been directed toward shielding his tripartite coalition and rekindling this spirit. To be sure, there are influential Frenchmen who have been doing all in their power to swing their countrymen to the support of the Hitlerian program. There has been no sign, however, that the old marshal has become a willing servant of the fuhrer.

Has Made Concessions

It is true that Petaín has made concessions to the Nazis, and he probably will make more, but we must look carefully at his position before saying that he has joined the Germans in heart. It is reasonable to doubt that a man of the marshal's high sense of honor would willingly do anything to damage the cause of his late ally, even though he might be, and un-

## Red Cross Roll Call Is Branded Failure

A "dismal failure" was the description applied today to the annual Red Cross membership roll call in Lubbock county, which came to an official close Tuesday night.

George Montag, executive officer of the Red Cross, who is connected with the St. Louis office of the organization but maintains his home in Lubbock, indicated results here have been among the worst of the 40 West Texas counties in his charge.

Have Not Been Contacted

"It is disheartening to note that we have in our files the names of 1,500 Lubbock persons who were members of the Red Cross last year but so far have not joined this year," he said. "It is our job to contact those persons and we need the assistance of some group or organization to help with it. In most cases, we believe, those 1,500 persons have not been reached."

Chairman Reported Ill

The newly-elected chairman, Stewart, chairman of the roll call, was reported ill with influenza.

It is significant, Montag said, that Lubbock county now has approximately 315 selective service men in the army, and that in the past year, Red Cross records show we have actively assisted in one way or another 100 of those men—one-third of them. In spite of that fact, the Lubbock county chapter faces the undesirable possibility of having to have the national Red Cross send money to the local chapter to keep it running.

The American Legion home, temporary headquarters of the drive will be open today but will be closed Thursday, it was said. It will remain open next week.

ARRIVES 62 YEARS LATER

IRONDALE, Ohio, (AP)—Eighty-six-year-old William McIntosh returned home to visit his sister, after an absence of 62 years. He started out for school in 1879, but found traveling more interesting. He visited 22 states, working as a laborer, and "panned gold" for the last ten years. His relatives gave him up for dead 50 years ago.

## Five Wells In Area Complete

Five completions in southwestern Hockley county, in the Slaughter field were reported here Tuesday.

Northwestern Dawson county's new strike, the Ray A. Albaugh and Richmond Drilling company No. 1 J. J. Handley is cleaning out shot cavings 38 feet off bottom. Owners swabbed and bailed 79 barrels of oil in 27 hours while cleaning out, recovering 22 barrels of oil in the last six hours of that period. Total depth of the well is 4,980 feet in lime and it has been shot with 700 quarts.

Having shown nothing after gun-perforating 5-inch liner and acidizing with 1,000 gallons, Anderson-Prichard Oil corporation and Osage-Drilling company, Inc. No. 1 Pure Oil company-A. M. Clayton, northwestern Borden county wildcat, is shut down for orders. The liner was perforated with 62 shots from 4,060 to 4,100 feet following which tubing was run with packer set slightly above uppermost perforation. The well was then acidized and swabbed completely dry after the treatment.

Slight Oil Staining

In central Yoakum county, Sinclair-Prairie Oil company No. 1 Charles J. Kleiber was cored from 5,466-80 feet, recovering 14 feet of formation. The top six inches was lime carrying slight oil staining and porosity. Next two and one-half feet was dark gray dolomite showing porosity and water, the following three feet dark gray anhydrite and the bottom eight feet hard brown lime stained with oil. Drilling with rock bit was resumed at 5,480 feet and at last reports the test had reached 5,520 feet in lime. It is four miles east of Plains.

Likins & Hall, Midland, No. 1 Jones, deep test in northwestern Gaines county, is drilling past 5,153 feet in hard lime.

Largest of the quietest of new producers in the Slaughter field was Honoluli No. 1, Slaughter well, No. 28-B Slaughter, which flowed at the rate of 1,566.44 barrels of oil per day, plus nine-tenths of one percent water, after acidizing with 10,000 gallons at 5,015 feet.

Extension Is Drilling

Sid W. Richardson No. 9 R. L. Slaughter, Jr., was acidized with 29,000 gallons, a record amount for that area, and flowed 466 barrels of oil per day upon completion at 4,980 feet. W. J. Jack Richardson No. 4 Sun Oil company-Miller made 657.20 barrels daily after 7,000 gallons of acid at 4,955 feet.

What Would You Do?

Now what would you do if you were Marshal Petaín, and the Nazis said, "If you will cooperate with us so-and-so, we will give back your million men to their wives and children, we will see that you get food, and we will make the military occupation easier for you."

It strikes me that not only the charitable but the common-sense view to take is that Petaín is trying to save all he can of his fatherland for the day when the Allies can put it on its feet once more. The danger of the position, from the Allied standpoint, of course, is that those French infidels which would like to go over to Hitler lock, stock and barrel, may gain the ascendancy over the agent chief of state.

## Lubbock Stores Not To Close Thursday

Member firms of the Retail Merchants association have decided against closing Thursday afternoon for the Texas Technological college-Hardin Simmons university football game in Lubbock and the Lubbock-Plainview high school game in Plainview, according to Mrs. Gladys Workman, association secretary.

If any business houses are closed, it was explained, it will be by individual choice.

City and county offices also are to be open as usual. However, many department heads and the operators of numerous businesses said that most of the employees desiring to attend either of the games probably can arrange to do so.

Banks and federal offices are to be closed throughout the day. At the postoffice, windows will be open until noon and there will be two downtown deliveries of mail, but none in the residence district, according to Postmaster Amos Howard.

MERCY PREFERRED
