

# U. S. DECLARES WAR ON JAPAN!

(By The Associated Press)  
WASHINGTON, Dec. 8.—The United States, through its Congress, declared war today on Japan.  
The Senate vote of 82 to 0 and the House vote of 388 to 1 told their own story of unity in the face of common danger. The speed with which the two chambers granted President Roosevelt's request for a declaration was unprecedented.  
The single adverse House vote was that of Miss Jeannette Rankin, Democratic congresswoman from Montana, who was among the few who voted against the 1917 declaration of war on Germany.  
The officially announced loss of two warships

and 3,000 men dead and wounded in Japan's raid on Hawaii was fresh in the minds of the legislators.  
The Senate and House had assembled together to hear President Roosevelt ask the declaration. They cheered him enthusiastically and then pushed the resolution through with not a moment's waste of time.  
Immediately after the roll call was finished, the House was notified of the Senate's passage of the resolution and Majority Leader McCormack, of Massachusetts, moved to vacate the House proceedings on its own resolution and adopted the Senate's, thus completing congressional action on the issue.  
Now the resolution goes to the White House for

the president's signature, following those of Speaker Rayburn and Vice President Wallace.  
"I ask," the chief executive declared, "that the Congress declare that since the unprovoked and dastardly attack by Japan on Sunday, December 7th, a state of war has existed between the United States and the Japanese empire."  
The president said that yesterday was "a date which will live in infamy."  
He recited the events since Japan's assault on America's Pacific bastions and said he had "directed that all measures be taken for our defense."  
"Hostilities exist," Mr. Roosevelt asserted. "There

is no blinking at the fact that our people, our territory, and our interests are in grave danger.  
"With confidence in our armed forces—with the unbounding determination of our people—we will gain the inevitable triumph—so help us God."  
Mr. Roosevelt addressed the House and Senate, meeting in joint session for the second time within a generation to hear a president ask for a declaration of war. His words were solemn but brief.  
He said Japan had undertaken a "surprise offensive" extending throughout the Pacific, noting that the Nipponese empire not only had attacked Hawaii and

## 1,500 Are Dead; Vicious Attacks Are Continuing

(By The Associated Press)  
An NBC reporter, broadcasting in the midst of an early Tuesday morning air attack on Manila said that "terrific damage" had been left by the Japanese attackers, including the apparent destruction of the gasoline supply at Nichols field.  
There was a lull in the action some time after 3 a. m., Manila time, but at 3:41 a. m., the anti-aircraft fire reopened, said the radio reporter, Don Bell. He added that the fire had died down at Nichols field, in the southern part of Manila. He continued:  
"From what we can see from the top of this building, the whole sky is a brilliant red."  
A few minutes after the renewed anti-aircraft firing, the all-clear sounded.  
The raiders had smashed at Fort William McKinley and the Radio Corporation of America short wave transmitter as well as Nichols field.  
Bert Silen, a colleague of Bell's, had said earlier that "the fire is simply raging out there."  
Bell, another NBC man, standing above a bombproof shelter, said that the anti-aircraft fire, in progress for 15 minutes before he spoke, had quieted down.  
A large fire was left burning in the vicinity of Fort McKinley and Nichols field, Bell said, and gasoline dumps appeared to be afire. He added that the action was "concluded for the present time."  
But at 2:32 p. m., E. S. F. 4332 a. m., Tuesday, Manila time, Bell casually remarked that "perhaps, ladies and gentlemen, you can hear the sound of those Japanese bombers again. Apparently the raid is not over yet."  
Then Bell went on, saying that Corregidor, army base guarding Manila, had been "bombed but" "nothing very serious happened."  
Great Britain formally declared war against Japan as imperial Tokyo headquarters claimed smashing naval and air victories over the United States and mighty forces of the U. S. fleet were reported combing the Pacific to seek battle with Japanese warships.  
A White House statement acknowledged serious damage to American forces in Hawaii, but considerably less than the naval losses which the Japanese claimed they had inflicted.  
Casualties from yesterday's attack were expected to mount to 3,000, it said, half of them fatalities.  
The White House said Japanese attacks had resulted in the capsizing of an old battleship—whereas the Japanese claimed two battleships had been sunk—and reported the loss of a destroyer, damage to other vessels and the destruction of a relatively large number of planes.  
Jap Subs, Planes "Out"  
The White House said several Japanese submarines and planes had been accounted for and that active resistance was "still continuing" against the Japanese attacking force in the vicinity of Hawaii.  
Reinforcements of planes are being rushed to the islands, the White House said.  
Meanwhile, Tokyo newspapers carrying unofficial identification of the two U. S. battleships reportedly sunk said they were the 23,000-ton Oklahoma, built in 1914, and the 31,800-ton West Virginia.  
A Dornier broadcast asserted that 60 per cent of the United States' entire naval power was stationed in Hawaiian waters prior to the attack and that the surviving units "would be regarded as utterly inadequate to accomplish any successful outcome in an encounter with the thus far intact Japanese fleet."  
The White House said an old American battleship turned over in Pearl Harbor and that one destroyer was "blown up."  
Bombers flown from San Francisco were said to have arrived in Hawaii while the battle was raging.  
In the Far East, a British communique said Japanese air raiders killed 63 persons and wounded 133 today in a violent assault on Singapore. Britain's "Gibraltar of the Orient," but that Japanese troops were being "mopped up" in an attempted land invasion of Malaya from the north.  
U. S. Stalking Nipponese  
In London, the House of Commons cheered tumultuously as Prime Minister Winston Churchill, fulfilling his pledge of a month ago, invoked war against the Tokyo government, made allies of Thailand and Free China, and declared "Every preparation in our power has been made and we shall give a good account of ourselves."  
"There is the closest accord with the powerful American naval and air forces and with the strong, efficient forces of the Netherlands East Indies."  
Some observers believed it was

### Massive Tank Battle Raging Across Desert

(By The Associated Press)  
German and British tanks fought a massive showdown battle on the sands of North Africa today, while on the Soviet front, the Russians reported a continuing counter-offensive by Red army troops north of Moscow.  
A bulletin from Adolf Hitler's field headquarters said Russian troops made a futile attempt to land on the western shores of the Crimea peninsula and had been mostly destroyed. Only a few managed to escape by ship, the high command said.  
Nazis Repulsed  
Nazi military quarters said the sea-borne attack was aimed at Yevpatoriya, a port 40 miles north of the siege-bound Russian naval base at Sevastopol.  
The high command also reported progress by German and Italian troops counter-attacking in the Donets river basin.  
Soviet front-line dispatches said the Russians had thrown the Nazis back 50 to 75 miles on the Rostov front and reported a violent battle raging along the Mius river, north of Taganrog, where the Germans have taken a new stand after their headlong retreat from Rostov-on-Don.  
German Fuel Low?  
Russian quarters, meanwhile estimated that the Germans had only sufficient fuel to carry on big-scale military operations for another eight months.  
Heavy fighting continued on the Moscow front, but the Russians said it could be assumed that the latest German offensive had about run its course. Soviet reports acknowledged that the Nazis had taken a slight advance in the

### First List Of U. S. Dead Announced

(By The Associated Press)  
The following is the list of members of United States armed forces killed in the war in the east, as disclosed by official advices to the next of kin:  
First Lieut. Hans Christiansen, 21, Woodland, Calif., marine aviator, at Pearl Harbor.  
Private George G. Leslie, 20, Arnold, Pa., army air corps, at Hawaii.  
Robert Niedzwiecki, 22, Grand Rapids, Mich., at Hawaii.  
Lieut. James Derthick, 22, Ravenna, O., army air corps at Honolulu.  
Second Lieut. Forge A. Whitesman, Sedalia, Mo., air corps, at Pearl Harbor. (Trained at Randolph and Kelly field, Texas).  
Private Donald Plant, 22, of Wausau, Wis., air corps, at Wheeler field, Hawaii.  
Private Dean W. Cobert of Galesburg, Ill., at Honolulu.

### Heavier Patrol "Standing By" At Air Base

No time has been lost in Lubbock in attempting to take precautions against the dangers of sabotage.  
Telegrams urging that such safeguards be taken were received from high officials in the government and the army this morning, but even before they arrived officials here were active.  
Perhaps the first steps of precautionary nature in the immediate vicinity of Lubbock was at the advanced aviation training school of the air corps under construction west of the city.  
An undisclosed number of additional guards was put on duty late Sunday immediately after word had been received of the Japanese attacks upon American possessions. The school will continue under heavy guard and regulations governing entrance to the grounds have been tightened.  
Officials were uncertain whether attempts will be made to step up the working schedule. They said, however, that it is questionable whether there can be any considerable acceleration of the schedule.  
At the present time, 1,150 men

### Mexico Also Expected To Join U. S. In War

(By The United Press)  
MEXICO CITY, Dec. 8—Amidst angry administration denunciations of Nipponese aggression, members of the House of Deputies said today that they would ask Congress to declare war immediately against Japan.  
Observers believed temper of the national leaders was such that a declaration might come before the day was out. As in the United States, both houses of Congress must approve a war declaration.  
Press Demands Declaration  
Newspapers demanded a declaration of war against Japan and Federal Deputies Cesar Garza-Fuertes of Vera Cruz and Carlos Zapata Vela of the federal district (Mexico City) said they would ask Congress for it immediately.  
They not only want to "declare war on Japan" but also would "immediately expel the Japanese and German ministers" and throw all Japanese and Germans in Mexico into concentration camps.  
"Aggression Against Mexico"  
"The aggression against the United States," they said, "is an aggression against us."  
Padilla's formal statement said that Mexico's past "guaranteed" the future.  
"Associated with the United States," he said, "we are bound to listen to the radios for reports of what they should return to school."

### Schools In Oakland Closed; Raid Feared

OAKLAND, Calif., Dec. 8 (AP)—All schools in the metropolitan Oakland area were ordered closed today as an air raid precaution on reports that a Japanese airplane carrier may be off the Pacific coast.  
District Attorney Ralph Hoyt, chairman of the Oakland civilian defense committee, said his office recommended the closing of schools from the Office of Civilian Defense in Washington, D. C.  
The Oakland city superintendent of schools ordered immediate dismissal of all classes. Children were instructed to listen to the radios for reports of when they should return to school.

### South Plains' Residents Steel Selves For A Fight To Finish

Angry reaction was voiced by a cross-section of the South Plains public this morning after it had scanned news reports of Japanese war activities in the Pacific and had sat up half the night listening to radio bulletins and interpretive accounts from numerous international capitals.  
Asked what they considered possible in the "inevitable conflict" of United States arms with those of Japan, possibly the entire Axis powers, there was no hesitancy in answer from anyone.  
Some were conservative,

# Jap Envoys Talked Of Peace Even As Bombers Started War

## Fateful Hours Are Described

(By The Associated Press)  
 WASHINGTON, Dec. 8.—Cordell Hull, a patient man, came to the end of his patience yesterday at 2:35 p. m. Eastern Standard Time.

And when he said so in a spontaneous burst of cold and biting words, Japan's envoys knew precisely what the United States government thought of the Japanese government.

The secretary of state, a benign man, reached the limit of his endurance when he saw the few all-revealing words of that incredible dispatch rushed to him from the White House.

**Knew What To Expect**  
 Japanese planes had bombed Hawaii. American blood had been spilled on the good earth of those islands. In a swift panorama he could see the thousands more that would die. . . . See the pain and terror and destruction that must sweep the wide expanse of the blue Pacific before the world came back to its senses.

But he had an official engagement to keep.

In apparent ignorance of the explosion about to rock the Pacific and the world, Ambassador Kichisaburo Nomura and Saburo Kurosu, the special envoy, had requested an appointment at 1:45 o'clock on that quiet, sunny Sunday afternoon.

Secretary Hull knew they were bringing Japan's reply to an American note setting forth his peace formula for the Pacific, and he waited with Joseph W. Ballantine, assistant chief of the Eastern division, who has spent more than 20 years in Japan.

**Diplomats Smiled, Bowed**  
 The Japanese envoys were tardy, arriving at 2:05 p. m. In those intervening minutes the message rushed from the White House had given Hull the first news of the Japanese attack.

Hull read and reread the message. It was almost too much to believe. He kept the Japanese envoys waiting for 15 minutes.

They entered the secretary's office at 2:20 p. m., smiling and bowing, and after the formalities handed Hull the Japanese government's note.

Bombs were plastering Pearl harbor—but the Japanese diplomats said not a word of war.

**Remembered Japs in China**  
 Hull read the Japanese note slowly, line by line, without a betraying twitch of his muscles. . . . "The immutable policy of Japan is to promote world peace" . . . The United States and Great Britain are doing "everything possible to obstruct peace between Japan and China" . . . Japan has "consistently exerted its best efforts to prevent the extension of war-like

disturbances" . . . The United States disregarded realities . . . The United States was insincere . . . "The American government, obsessed with its own views and opinions, may be said to be scheming for the extension of the war" . . . The United States was conspiring with other nations to prevent Japan establishing a "new order" in Asia and thereby bless the Pacific with peace.

Secretary Hull well remembered how Japan's "bygone" look China's Manchurian provinces. . . . How Japan invaded China and looted four years of an unended bloody war . . . How Japan, with Hitler's blessing, moved in on helpless French Indo-China . . . How Japan had poured thousands of troops into southern Asia, threatening new conquests, even as Tokyo's envoys talked to him in polite diplomatic phrases of "peace."

**Had Sought Peace**  
 And now this bloody Sunday. Bombers raining death without warning on the people of Hawaii who wanted peace as fervently as Cordell Hull wanted peace.

The secretary of state is a man slow to wrath.

But, in the blunt, unmistakable language of Tennessee, he told Admiral Nomura, and Kurosu, their government's note was the damndest bunch of lies he'd ever heard.

Then he stood up, shook hands coldly and formally, and dismissed them.

A tragic page in history walked with them.

On an April day in the spring Secretary Hull, seeking every honorable means to avert the war he feared, met Admiral Nomura at the Hulls' apartment in the Wardman Park hotel overlooking the budding trees of Rock creek park.

Japan "Two-Faced"

Night after night Nomura returned while they explored every possible means of discovering a basic formula by which the spectre of war might be banished

from the Pacific.

In the midst of their talks Japanese troops suddenly landed in Indo-China and systematically began seizing military, political and economic control of that war-torn French colony.

Hull abruptly ended the talks, frankly asserting that Japan was two-faced, talking "peace" here and preparing a new path of conquest in East Asia.

**Talks Resumed**  
 Prince Konoze, then premier, then sent a personal message to President Roosevelt, explaining, promising, seeking America's understanding. The talks were resumed. Again Hull worked hours overtime at the state department, and afterward on into the nights talking, talking, talking with Nomura.

Then Kurosu, who as ambassador in Berlin, had signed the pact that put Japan in Hitler's axis, flew across the Pacific to add his voice to Japan's unending pleas.

As the fruit of those long

**DEER CAUGHT IN 'CHASE'**  
 BERLIN, Md., Dec. 8. (AP)—Paul Wimbrow tramped far and wide through Worcester county seeking a deer. Wearily homeward bound, empty-handed, he passed the Libertytown baseball field, and saw an eight-point buck standing on third base.

Wimbrow nailed the deer between third and home plate.

months of talk Hull finally drafted the formula which he offered to Japan as the basis for enduring peace in the Pacific.

Japan's answer was the damndest bunch of lies Cordell Hull had ever heard. . . . And bombs were falling on Hawaii, Guam, the Philippines.

And when he went home at midnight, Secretary Hull's dream of peace was rust in his hand.

**Weather Conditions In Texas, Favorable**  
 AUSTIN, Dec. 8. (AP)—Late November weather conditions favored harvesting of fall vegetable crops and planting of winter vegetables.

The U. S. Agricultural Marketing service reported today commercial vegetable areas escaped damaging frosts, including tomato acreage which is the largest.

Total carlot shipments to Dec. 7 were much below those on the same date last year, except for spinach which was available in good volume in the Eagle Pass district.

# Allied Pacific Naval Forces Hold Numerical Advantages

(By The United Press)  
WASHINGTON, Dec. 8.—Here is a picture of U. S. naval power in the Pacific.

The United States is believed to have at least 13 battleships in its Pacific fleet. Highest estimates give Japan the same number.

Great Britain has two battleships in Singapore which may operate with the Americans in event of joint U. S.-Anglo action against Japan. Japan, on the other hand, may already have acquired use of the German battleship Tirpitz.

Ten Already Built  
Japan on Oct. 16 had 10 battleships built and eight building. Two of these eight are presumed completed and in service. These two—the Nisissin and the Takamatsu—are comparable in battle strength to the newest American battleships—the Washington and the North Carolina, all carrying 16 inch guns. The Japanese vessels are reported to be about 40,000 tons apiece, or some 6,000 tons heavier than the Washington and North Carolina.

The other 10 battleships of the Japanese fleet are deemed of equal strength to the remaining American battleships. It is not known exactly how many American ships are in the Pacific but four battleship divisions, each containing three battleships, are attached to the Pacific fleet.

Eight Aircraft Carriers  
The Japanese are credited with eight aircraft carriers built and seven American carriers built and 11 building. Even the most modern Japanese aircraft carriers are capable of carrying only a fraction as many planes as U. S. carriers.

The five newest Japanese carriers carry 45 planes each, as a maximum, while the seven American ships in service carry more than 60 planes each.

The Japanese are credited with 46 cruisers built and 10 building whereas the United States has 37 built and 54 building.

The U. S. now has 170 destroyers built against Japan's 125, and is now rushing 147 more towards completion. The Japanese are building 73 more. Japan has 71 submarines, with seven known to be building.

Naval experts cautioned that Japan's figures on naval building are likely to be inexact inasmuch as she has been secretly constructing warships for some time. America's naval strength in the Pacific would exceed Japan's still further with British and Dutch units.

The navy has a strong striking force in the fleet marine force, composed of two triangular "streamlined divisions" of highly trained marines equipped with tanks, planes, armored vehicles, infantry shock troops, and even paratroopers. Marine corps strength totals 2,566 officers and 43,180 men.

While the navy department refused to discuss Pacific operations, naval experts believed that countermeasures in progress consisted of attempts to locate and destroy the aircraft carriers from which Japanese bombers attacked. This operation would consist of sending swift cruisers and aircraft carriers fanwise out from Hawaii with aircraft combing the entire area.

It was estimated that the Japanese carriers would be stationed somewhere 400 or 500 miles off Hawaii. If one of these Japanese ships should be sighted, naval bombers might target carrying aircraft would be sent to the attack, while the navy's swiftest ships raced for the spot to prevent an

### FAVORS GLEE CLUB

Dear Plainsman: Thank you for your interesting article concerning a Texas Tech college glee club. Thank you for your interest and since you are amiable enough to ask me point-blank what I think of it, I take pleasure in answering that I am in perfect accord with you. I particularly appreciated a bit of information that is very welcome. I did not know that Joshua Bryan Lee skyrocketed from the University of Oklahoma Glee Club to become one of the chief spokesmen of the New Deal in the United States Senate. This was a new one on me; and I will say that if glee clubs can create New Deal spokesmen, let us not only have many college glee clubs but glee clubs on every street corner.

Dear Plainsman, I guarantee you that when the student body really wants a glee club, or whenever the college administrators deem it expedient to foster one, they will find me their humble servant; and aside from actually conducting the group, I would, of course, not be in any sphere I will put all I can in back of it. And I am sure you will help too.

In regard to the Cowboy Band, did you know that our own Dewey

Wiley was the founder of this group, and toured Europe with them? Wouldn't it be nice if Dewey could take his 220-piece Texas Tech Band to Europe after the Allies have mopped up.

Yours very sincerely,  
Julien Paul Blitt.

(Dear Dr. Blitt: Thanks for your letter. Here's hoping you and I both see the day—and soon—when Texas Tech has a good men's glee club. I'm glad you're for the idea, although I knew you would be, because I've always found you in favor of anything to make a better college. And I'll join you in the hope that Texas Tech's band — AND Texas Tech's glee club may both some day tour Europe, of course, after the world is rid of Hitler AND Stalin AND the Mikado AND Mussolini AND all the other international Al Capones! Best regards, The Plainsman.)

**THE QUARTER-FINALS:**  
Friday:  
Tyler at Temple.  
Saturday:  
Ysleta at Wichita Falls.  
Highland Park at Dallas.  
Sunset at Houston Lamar at Austin.

**BY TOM W. MILLER**  
United Press Sports Writer

Speed and passing ability featured the makeup of the Texas schoolboy football quarter-finalists today and the current state favorite was the speediest team of them all—the undefeated, untied Dallas Sunset Bisons.

Unhated in 10 straight games, Sunset is the best team Dallas has had from any of its six high schools since an Oak Cliff eleven was the class of the state back in 1924.

**Favorites Surprised**

The Bisons, with a super-backfield of Bill Blackburn, Bill Hamman, Ned Welch and Sunny Kemble, have shown a catapult running attack no team has been able to stop. Speed is not all Sunset has, and the Bisons versatility, reserve strength and better-than-fair defense have been factors in their success.

Coach Herman Cowley smiled with satisfaction at the way his boys bowled over Fort Worth Riverside in the B-district but shook his head at a word of praise and said "don't set us up as favorites; that's sure dead. Look what happened to last week's favorites—nearly all of them were knocked off."

Ysleta's season record and the records of the other quarter-finalists:

Sunset	10	0	0	261	32
Ysleta	10	0	0	200	32
Wichita Falls	10	1	0	200	32
Highland Park	8	2	0	263	44
Houston Lamar	8	2	0	263	87
Austin	5	5	1	205	71

Highland Park gets the first chance to fulfill Coach Cowley's fears and "knock off" the Bisons. In the top game of the quarter-finals, with an expected crowd of close to 25,000, the upsetting Highlanders stake their chances on the pitching arm of sharpshooting Jack Sharp, the boy who tossed 236 yards of passes against Paris and jolted out of the race the favored Wildcats.

The game is Saturday. Here is the lineup on the three other games:

**Temple Also Undefeated**

Tyler at Temple Friday—Temple is the other unbeaten, untied team left in the competition, boasts the second best defensive record and one of the finest punting games in the state. Tyler, beaten in the season opener one touchdown by Sunset, has come along with a rush, winning 10 straight and recording up the best offensive record of 27 points a game. None the less, Temple may be a slender favorite, principally because it is the home team.

Ysleta at Wichita Falls Saturday—on basis of records, Wichita Falls Coyotes should win easily. But so should the Sweetwater Mustangs last week-end. Short on reserve strength and a sustained attack, Ysleta too uses speed and has proved itself a team of opportunists, never overlooking a scoring chance. The Coyotes are the passingest team in the state

# SWC Football Given Boost In National Prestige

## Longhorns Add Final Flourish

**Season's Records Quite Impressive**

**BY RICHARD M. MOREHEAD**  
United Press Sports Writer

Southwest conference football got a boost in national prestige during the 1941 season which closed Saturday.

The regular schedules ended with Texas' stunning 31 to 7 victory over Oregon, a team that was well on the Pacific coast. The Champion Texas Aggies' 7 to 0 triumph over Washington State, another strong western team; and Rice's 6 to 0 decision over Southern Methodist in a conference engagement.

**Just To Show 'em**

Because few Southwest conference champions ever come through undefeated, some outsiders mistake the occurrence as a sign of weakness rather than of evenly balanced strength. But the season of 1941—when each team was beaten inside the conference—undoubtedly hiked the already-swinging Southwest football stock on the national market.

Texas decisively beat Colorado, Oklahoma, and Louisiana State before its devastating final game with Oregon, which team was beaten a week earlier by Oregon State, host team in the Rose bowl. Longhorn fans interpreted the decisive win over the Oregon result as a direct rebuke to Oregon State for choosing Duke over Texas for the Rose bowl.

**Regain National Respect**

We were playing on Thanksgiving to regain our self-respect and on Saturday to regain national respect," said Coach D. X. Bible. On Thanksgiving, Nov. 21, Texas—led by Baylor and beaten by Texas Christian in its two previous games—smashed undefeated Texas A. and M. 23 to 0.

Texas' first, second and third teams scored against Oregon. Of the senior starting eleven, all four backs and both line made points. Jack Crain, leading conference scorer, tallied two touchdowns and kicked three extra points, as did his substitute, Orban (Spec) Sanders, also a senior. Crain's total for the season is 92 points.

**Alabama Next For Aggies**

At Tacoma, the Aggies overcame a scrapping Washington State team with Leo Daniels' second-quarter pass to Cullen (Slick) Rogers. It went 38 yards for a touchdown. The Aggies play Alabama in Dallas' Cotton bowl on Jan. 1, same date that—R. C. M. meets Georgia in the Orange bowl.

Southwest conference teams' inter-sectional victories this season.

**LITVINOFF ARRIVES**

WASHINGTON, Dec. 8 (AP)—Maxim Litvinoff, the new Russian ambassador, arrived in Washington today to assume an important part in troubled world affairs, and assured the American people that the Red army would continue its stout resistance against the Nazi invasion.

## Pro Grid Playoff Necessary With Bears, Packers In Tie

**Winners Of Sunday Playoff Will Meet Giants For Crown**

**BY THE ASSOCIATED PRESS**

CHICAGO, Dec. 8.—"We'll be ready for 'em."

That's what members of the Green Bay Packers said yesterday after watching the Chicago Bears defeat the Chicago Cardinals and clinch a first place tie with the Packers for the National football league's western title.

The Bears victory meant George Halas' team and the Packers will have to engage in a playoff game here next Sunday, the winner to face the New York Giants, eastern titlist, on Dec. 21 for the league championship.

**Win In Fading Minutes**

The Packers roared fervently for the Cardinals, who led their Bears at one time, 14-0, saw their north side rivals go ahead, and then again pushed in front of the Bears for a 24-21 edge with five minutes left in the final period.

But the Bears crashed through the Packers' line in the waning minutes to win the game, 34 to 24, and force the title playoff. The Giants, who now will have two weeks to prepare for the winner of the Bear-Packers playoff, lost their final league game yesterday to their uptown rivals, the Brooklyn Dodgers, 21-7.

**Called To Report**

VICTORIA, B. C., Dec. 8 (AP)—The western air command sent out a call today to all Royal Canadian air force personnel attached to that command to report immediately. It was announced at the same time that all leave for airmen under its jurisdiction had been canceled.

## Wichita Falls "Just Has What It Takes," Is Final Report

**Coyotes Picked To Advance**

**BY JOE PIERCE**  
Journal Sports Writer

Some random impressions brought back from the Lubbock Wichita Falls game:

(1) The best football team won the game.

(2) Not only were the Coyotes the best team Saturday—they could have beaten the Westerners any day in the year when playing as they played Saturday—and we are told by the Wichita Falls writers that they have been turning in that kind of performances regularly.

(3) The Westerners didn't quit. Their blocking and tackling, if anything, was harder than it's been all season, and it was just as hard in the last two minutes of the game as in the first two.

**One Of Greatest**

That Wichita Falls is one of the best football teams in the scholastic league ever saw. That'll be disputed by those old-fashioned persons who don't think you've got a football team unless you can put your fullback's foot in the opposing tackle's mouth, and make him like it, but as this reporter, passing in as much a part of football as power, and a team that can win consistently by passing is just as good as a team that can win consistently by power.

(4) That the Coyote receivers mean as much or more to the attack than does Gene Hill's throwing. Not once did a pass-catcher fumble or drop a good pass, and their speed was something that Lubbock couldn't begin to cover.

First thing we heard when we got back to Lubbock was something about "the Westerners quit." From a guy who's supposed to be something of an authority on football, too.

That isn't true. They fought from the opening whistle to

We've heard frequent complaints about Lubbock's pass defense—why didn't the coaches figure out a way to stop the Wichita aerials? As reported here last week, Lubbock had no reliable scouting information on the Coyote team. True, they had a general idea of the Coyote formations, and they knew that passing was the main weapon.

In keeping with that bit of knowledge, they spent most of

## Brownfield Is Site Of Game

**Regional Game To Be Played Friday**

(Special To The Journal)

**BROWNFIELD, Dec. 8**—Suplt. Emmitt Smith of Brownfield again was lucky, and the regional championship football game between the Brownfield Cubs and the Ballinger Bearcats will be played here.

The contest is scheduled for Friday afternoon, at 2 o'clock. Brownfield, 5-A champion, won the B-district title for the north half of Region Two by routing out Merkel 13-12 last Friday. Ballinger drubbed Monahan, 33-7, to enter the regional finals against the Cubs.

Both teams are unbeaten. Ballinger played a scoreless tie with Lorraine in its season opener.

# Texas Cities Launch Programs To Gain Defense Contracts

## Lubbock Takes Part In Pool

(By The Associated Press)

As the OPM's red-white-and-blue drive for special rolled across Texas over the week end, Galveston, Abilene, Corpus Christi, Midland, Lubbock, Waco and Tyler among 35 Texas cities surveyed had coordinated local programs under way to bring small manufacturing concerns into the defense production setup.

A survey of chambers of commerce of Texas cities conducted by the Associated Press found cities employing such methods as regional pools, special representatives to contact defense authorities and to advise small manufacturers, and surveys of facilities and equipment of local plants to help little businessmen convert their plants to essential production and avert priority unemployment.

Galveston Plan Praised  
Last May the Galveston Chamber of Commerce established a full-time representative in Washington to make direct contact with proper government agencies. A survey giving complete information about facilities and equipment of all Galveston plants was furnished to the office of contract distribution.

Others Follow Setup  
Several months ago, Abilene, fulfilling an OPM request, selected S. M. Jay as adviser for the surrounding area of 13 counties and through this adviser passed on to communities and interested firms in the area data and information furnished by the Office of Production Management.

Small Industries Assisted  
Army and navy procurement divisions and the regional OPM office were provided with a survey of all plants in the vicinity of Corpus Christi.

It is cooperative to say that we have given definite assistance to 45 small industries, said J. E. Bell, manager of the chamber of commerce.

## Young Blonde Soprano Who, Three Years Ago, Was Scrubbing Floors, Climaxes A Rocket-Like Rise As Co-Star In Opera

(By The Associated Press)

CHICAGO, Dec. 8 — A young blonde soprano who three years ago was scrubbing floors by night and studying voice by day climaxed a rocket-like rise to fame today by co-starring in an opera with her discoverer and patroness, Grace Moore.

Coincidence played an important part in the story of spotlights and star billing for Dorothy Kirsten, now 24 and one of the nation's youngest concert singers.

Miss Moore, Metropolitan Opera soprano, happened to be in a radio studio one night in December, 1938, when Miss

Pools Are Organized  
Recently machine shop owners of Midland, Odessa, McCarney, Pecos and other West Texas towns met in Midland to discuss the organization of a defense contract pool for the area.

Following a meeting in July between A. J. Langford of the OPM and manufacturers, fabricators and machine operators of the Lubbock and South Plains area, the Lubbock Chamber of Commerce formed a South Plains pool to act as a medium between the OPM and the prime contractors and potential sub-contractors.

At the request of the OPM, Waco in April selected a local manufacturer, A. L. Clifton, and the industrial secretary of the chamber of commerce, F. H. Carney, to act as adviser and co-adviser for the defense contract service (division of contract distribution).

The adviser plan was successful and has been retained under the new setup, reported L. A. Wilson, general manager of the Waco Chamber of Commerce.

Meetings held in Tyler and other East Texas cities resulted two weeks ago in the formation of an East Texas pool composed of small businesses in machine shop and wood-working plants. The pool will handle any sub-contracts that may be obtained as a group or as individuals.

(Continued From Page 6)

two week's practice time drilling on pass defense. What they didn't realize—and no one in Lubbock realized—was that the Coyotes were so fast, both on their feet and in throwing the ball.

When Robbie Dee Smith stepped out into the left flat zone, Franklin Butler and Bob Brewer, whose job it is to guard that zone against passes, simply couldn't keep up with him. He was three to four steps faster than they, and nothing could be done about that.

We've heard a lot of complaining about the quarterbacking, too. Stop and think. If within the space of one hour you had more than 70 vital decisions to make, and had five seconds to make each one, do you think YOU would always be right?

And if, in between those decisions, you took 50 or 60 of the hardest blocks and tackles 11 husky young men could dish out to you, could you still think clearly?

It's easy to second-guess, easy to go back over the game and point out just when the wrong play was called. But it's a different proposition to guess right the first time.

And while we're talking of quarterbacking, it would be well to call attention to the exceptionally fine job of playing Max Walthall did Saturday. Not one of these 14 completions by Wichita Falls in the territory given him to defend. A large share of the credit for stopping the ground attack goes to Walthall's swell linebacking, and his blocking, as much as anything else, paved the way for those two touchdown jaunts. He passed, too, and only against Plainview has the Westerner passing attack been so effective.

Closing the column by sticking

for obtaining defense contracts for small manufacturers of that area, complete and detailed inventories were compiled on all equipment and placed at the disposal of OPM officials in Texas and in Washington.

The Port Arthur Chamber of Commerce made a survey of all industrial plants in its area, ranging from those employing 5,000 persons to small machine shops with one employe, and listed their facilities, output and possible manufacturing equipment for the defense program.

This information was furnished to the OPM and to the purchasing departments of the army, navy and nearby army camps.

Austin's Chamber of Commerce recently sponsored a discussion led by an OPM representative and attended by 87 small plant owners. The Austin civic organization transmits first-hand information from the OPM to small businessmen in that area.

Final Conference Standings

Enrollment of Columbia University, New York City, includes about 35,000 resident students and 10,000 non-residents.

## Emergency In San Francisco

(By The Associated Press)

SAN FRANCISCO, Dec. 8 (AP)—With the entire West Coast on a virtual war basis, Mayor Angelo J. Rossi declared San Francisco in a state of emergency last night and demanded the immediate cessation of all strikes "in order to present a united front."

Mayor Rossi's action came after the army and navy canceled all leaves, revoked all furloughs and ordered every man to report to his station.

All police inspectors were ordered to remain on duty. The proclamation said the public emergency was occasioned by "an attack on the city of Honolulu" and "by reports of submarines in the Pacific between this city and Hawaiian Islands."

At Bremerton, Wash., the 13th naval district issued a warning that "all planes flying over naval stations, except air stations, will be regarded as hostile and fired upon without warning."

## All Private Flying Airplanes Grounded

(By The Associated Press)

WASHINGTON, Dec. 7 (AP)—The Civil Aeronautics authority issued orders last night grounding all private airplanes in the United States and its possessions, except commercial airliners.

The CAA suspended temporarily all pilot licenses except those held by pilots on regular air lines.

Robert Hinckley, chairman of the CAA air safety board, sent telegrams to the governors of the 48 states, Alaska and the Canal Zone asking them to assign police immediately to all known landing fields to protect facilities and to hold aircraft on the fields unless

they were engaged in scheduled air transportation, were publicly owned or were operated under contract with the federal government.

There will be no Nobel Peace prize awarded this year. However, there will be such an award in 1942 providing the committee can find some place.

YES, MISTER PRESIDENT! You are the leader of us ALL! Name your ticket, sir! Outline your plans! Issue your clarion call from one end of our country to the other! We're ALL AMERICANS TOGETHER!

There'll be no more "business as usual." There must be no more "politics as usual."

The time for factional, partisan carping is over. Every one of our 133,000,000 Americans must line up for their own good, their own safety, and what is more important, to safeguard their nation that it may serve the generations yet unborn as the finest, freest land in all the world.

THE war into which we were plunged on Sunday by death-dealing Jap bomb divers may be a short war.

On the other hand, it may be long and drawn out. It may be almost its entirety against Japan alone. But the chances are it will be fought on many-sided fronts, against all the other Axis nations and wherever their forces may be.

At any rate, long or short, bottled in the Pacific or spread the world over, it's not all going to be "beer and skittles," as the boys say.

Some precious American blood already has been spilled. There will be more.

Some American property already has been destroyed. There will be more.

And every man, woman and child of us is going to feel this war in one way or another; we have our bit—whether large or small—to do, and many of the contributions we will have to make will be at least distasteful, perhaps painful.

But whatever our lot, let's be prepared to face it—eyes forward, chin out!

Let's co-operate, as people have never before co-operated, not only with our constituted leaders, but with each other!

Let's resolve now, that whatever it takes to win this war, and to bring peace and happiness and here-tofore unknown freedom to the world, we've got it and we'll put it out!

Yes, MISTER PRESIDENT! Call on us all! Call on us singly, or in groups! Call on us for money, for service, for hardship, for OUR VERY LIVES, if necessary, and we AMERICANS will answer!

Yes, MISTER PRESIDENT! We're with YOU! LET'S GO!

THE PUBLIC, the national-defense campaign and capital are not the only losers in strikes. The workers, who frequently have no say about whether or not they may go to their jobs, are the heaviest losers of all.

Major defense strikes have cost workers the sum of \$10,200,000 in the last five weeks, alone.

We can't help but wonder how the rank and file of strike victims usually feel about that personal loss.

Our guess is, many are none too happy over it, since salaries of their officials go merrily on, strike or no strike.

Correspondents returning to this country from Europe say—and the casualty reports bear out their words—that the business of being a general is a much more dangerous one in this war than it was in the last.

"In the World War," remind these correspondents, "brass hats were headquartered in castles and hotels and field offices far behind the lines. Often they lived like princes. But in the present war, they are staying with their troops. They no longer ride around in touring cars, because such vehicles draw hostile fire on the assumption that they are occupied by high officers. They travel, instead, in trucks or jeeps, and they wear overalls, instead of distinctive uniforms. They carry lethal weapons, instead of canes.

"Fact is, it is difficult to distinguish a plain private from a high-ranking general in European armies these days!"

For The Love Of Pete

BY BURTON BENJAMIN Copyright, 1941, NEA Service, Inc.

THE STORY: Star footballer Pete Laird isn't the steady, modest boy he was before State's big opening game with California. It is after that game that Hollywood's glamorous Stephanie Stewart, being an introduction, and Pete—handy up his college sweetheart, Anne Humphreys, and 400 alumni who are waiting to meet him. He attends Stephanie's party instead, becomes infatuated with her, does not realize she has conspired with her manager, Larry Winship, to use him for his publicity value. University town seems unreal to him when he returns by plane, meets Anne's train, makes a date with her. His anger over newspaper photographs showing him first with Stephanie, then with Anne, is forgotten when Stephanie calls from Chicago, asks him to meet her there. He decides he will go and explain to Anne and his best friend and team captain, George Landers, when he returns.

GEORGE CONFESSES CHAPTER VI

Concern clouded George Landers' face when he strode up to Anne Humphreys on campus the next morning.

"Anne," he inquired, "have you seen Peter?"

"Not since yesterday morning. We had a date last night—and guess what? He didn't show up."

"I'll say he didn't," Landers said dryly. "He wasn't in the apartment last night either."

"He—what?" Anne gave a start. "George, do you suppose anything's wrong?"

"Dunno," he shook his head wearily. "But if he doesn't turn out for practice today, Dinty'll have the militia out after him. He's worried about Northwestern Saturday."

Anne dug her hands in the big pockets of her coat and frowned. "I'm worried, George," she said. "I call it woman's intuition or anything you like, I have a hunch something's got himself in another jam."

"Hope not," Landers grunted. "Dugan'll take just so much and then—" He shrugged his shoulders. "I'll drop over to the house—they probably won't last very long."

HELP! HELP! HELP! So many Lubbock and South Plains people have been writing in about their unusual pets, or pets with unusual names, that The Plainsman hasn't room for all of them in this regular space today.

Therefore, he has started a new department, "The Plainsman's Pet Corner," to be found on another page of today's paper.

As other readers write in about their pets, The Plainsman will present their contributions in the new department.

Postcards about pets are invited from one and all interested.

The Dept. of Fish-Tush: "Believe it or Not," almost illegibly scribbles an individual signing himself as "Nael J. Carter."

"I call 'Plainsman' Why? Because his wheezy little bark does nothing more than disgust the neighbors."

(Heh heh. Speak kindly of the old Plainsman if you can, pal, but if you can't, well, just keep on reading his stuff—even if it makes you have the mental bellyache.) Columnar writers don't get paid for making people happy, chum. They get paid for making people read the paper!

That Man on Avenue Q says a woman with a broken heart gets a great kick out of wearing it on her sleeve.

Sometimes we in Lubbock fail—because of our close association with our home town—to realize just how much this city changes for the better, and how much it grows, as time rolls along.

It's a case, we believe, of our "not being able to see the forest for the trees."

As a case in point: A new Army doctor has been assigned to the local recruiting station. He is First Lieutenant Gus Funk, of El Reno, Okla., whom The Plainsman has known for 20 years and who has not been in Lubbock since he did college vacation work on the West Texas Gas company's pipeline back in 1927.

After 14 hours in Lubbock, Dr. Funk, who has traveled no little about the country, said he had never seen anything like the way Lubbock has grown and improved since he last saw it, 14 years ago.

"This is the best looking, 'gosh-daw-let' town I've ever seen," was his remark, which he preceded with a whistle of amazement.

Perhaps we Lubbockites would appreciate our home town more if we were to leave it for awhile, and then come back.

But who wants to do that?

PROTECTION AGAINST A HIDDEN FOE

Assurances have come from the high command of the draft army that it is acting swiftly and with vigor to check the spread of venereal diseases among men in the service. That, of course, must be done. The present high command either will do it, or there will be a new high command.

But parents can rest assured that the situation is not one to cause undue alarm among them. Of course, any venereal disease is too much, but the practical minded know there is bound to be some of it. Fortunately, there is relatively very little in any of our armed forces. Undoubtedly there has been an increase with so many young men being drawn into service. But there is less than half as much, in proportion, in the draft army today than in the draft army of 1914-18. There is much less of it in the army, and far less danger of contracting it, than in civil life. There is less of it in the United States army than in any army in the world, or any army in history.

In short, the young man in the army is better protected from such things, and is more assured of speedy and proper treatment if he should be unfortunate, than in almost any place he might be.

tonight and let you know what's what. That'll give the old hens something to cackle about," he managed a half smile.

"Good," she nodded. "I'll be ready about 7:30."

Pete Laird's absence received their official recognition that afternoon. Dugan was collecting the first team for dummy scrimmage. Suddenly he stopped and looked around.

"Hey, Phil," he called to the manager, "Where's Laird?"

"Hasn't seen him, Coach."

"Has he an afternoon class?" asked Dugan.

"Nope, he's free after lunch," Dugan walked over to Landers.

"Where's Pete?" he asked. "He's been around long enough to know when practice starts."

"Laird, kicking an imaginary hunk of dirt out of his cleats. Maybe he's got a class or something."

"Yes," Dugan looked at Landers quizzically. "Yes, maybe he has. He blew his whistle. 'O. K.—first team over here,' grunted Dugan, 'Right now, he's young. Isn't as smart as Laird.'"

"Wonder where that bird is," muttered Lester, squeezing on a shoe. "You don't suppose that Stephens dame . . ."

"I don't suppose anything," Dugan said quietly. "I'll have a talk with him when he comes around."

Anne was at the door of the Delt house that night. "Any news?" she asked Landers eagerly.

"Nope," he said quietly, "not a word. The guy's done a fadeout. If he doesn't show tomorrow Dugan'll probably call the police."

Fraternity row was beginning the evening before in the Delt house. The room grew noisy and crowded as campus squabbles called for their dates. Some headed for an evening at the library, others for a night of juke box jitterbugging. A few set off for the movies.

"Let's get out of here, Anne," said Landers above the bedlam.

Uncle Sam Plays Generous Host To Interned Nazis, Italians Aliens Doing All Right In Detention Camps

BY MILTON BRONNER

Journal Washington Correspondent

WASHINGTON, Dec. 8.—Leading the life of Rocky, except for lack of liquor and the little matter of going where they please, such is the sad fate of nearly 2000 Italians and Germans in detention camps under control of the Immigration and Naturalization service of the Department of Justice.

These camps are sometimes erroneously referred to as concentration camps, bringing up visions of the horror places established by the Nazis and Fascists. Gurs are nothing of the sort. The men detained in them are not criminals, but are "persons" who cannot be sent out of the country because of the war.

One of these camps is Fort Missoula, three miles from Missoula, Mont. The second is at Fort Lincoln, N. D. The service also operates a third one at Fort Stanton, N. M.

The Fort Lincoln camp holds at present about 275 German sailors, chiefly off German boats sabotaged by order from Berlin. The actual saboteurs are criminals and treated as such. The seamen who had nothing to do with the sabotage are the ones who are sent to Fort Lincoln. In addition there are some seamen who formerly worked on Standard Oil tankers.

The biggest camp is at Fort Meade, where there are nearly 1000 Italian seamen. In addition, there are Italians who came to the World's fair in New York on limited visas and who violated the law by overstaying their time.

FASCIST FAKE EXPOSED The biggest single batch came from a ship that was not sabotaged. It was the Italian liner Conte Biancamano, which lingered too long in the Panama Canal. It was concerning this camp that the Fascist press of Italy printed the statement that the Italians detained there were suffering "all kinds of hardships."

The Italian language newspaper, Il Progresso of New York City, investigated and printed a complete refutation.

This camp, on the old Fort Meade, also has a reservation, occupies about two-thirds of the area. It has a space 300 by 900 feet and is being increased to 900 by 1500 feet. It is enclosed by a 10-foot steel mesh fence, topped with four strands of barbed wire. There is only one entrance gate and it is brilliantly lighted at night. Enclosed are four two-story barracks. When the area is enlarged, it will enclose a mess hall, laundry, and bakery and work has been started on 16 additional barracks, each with 46 beds.

There is no censorship of mail. The men work and play under their own discipline. When the first group came, they were told to set up their own system of internal discipline and punishment. They held an election and chose as their camp commandant Purser De Luca of the Biancamano. The inmates divide the necessary jobs, do their own cooking, dish washing, fence staking and clothes washing. They make up their own menus.

Breaches of camp discipline are tried by a council of six, of whom one is a member of the Immigration service, but who does not

vote. This council makes recommendations for punishment which may or may not be carried out by the Immigration service. Punishments for things that are not criminal are withdrawal of various privileges, or from one to 30 days in the guardhouse, or one to 30 days in the county jail for more serious offenses that do not require state jury trial.

The inmates get the boys rationed as are given to the boys in CCC camps and to the Army.

SOUNDS COUNTRY CLUBBY

IN September, 1940, the seamen of the German liner Columbus scuttled their ship in the Atlantic east of Florida. As it was not an American vessel, the 400 rescued seamen were not guilty of infraction of American laws. They therefore, had under international law the status of "distressed seamen" and were given haven. For a while they were near San Francisco, but the Army objected to their proximity.

The captain of the Columbus, accompanied by a government officer, then chose an abandoned CCC camp at Fort Stanton in New Mexico. There is no detention fence around this place. The men, with the money they get from the German government, painted the houses, built a tennis court and swimming pool and made themselves generally comfortable.

When Uncle Sam froze German monetary assets, the Nazi gov-

ernment could no longer finance them. Now the cost of their keep is being paid by the Department of Justice. Like the Germans and Italians in the other two camps, they have the status of men who should be deported but can't be because of wartime conditions.

WANTED More Eggs!

Because as the old TOP SERGEANT says— WE'LL FIGHT 'EM WITH EGGS!

Eggs for the breakfast table mean energy, vitamins and minerals for the Army, the Navy and for defense industries—more food for Britain.

That means produce more eggs. That means give the hens what it takes to MAKE EGGS.

That Means Feed More

STANTON'S LAYING MASH MADE WITH MANAMAR

Because it contains all those high quality protein, vitamins and food minerals—essential for sustained heavy production.

# War Outbreak Finds U. S. With Army Of 1,600,000

## Expansion Is To Be Rapid

(By The United Press)  
WASHINGTON, Monday, Dec. 8.—The outbreak of hostilities in the Pacific finds the United States with an army of 1,600,000 men as compared with the small force of 200,000 at outset of World war I.

The 1941 army consists of Regulars, selectees, national guardsmen and reserves. About one-third of the 1917 army consisted of national guardsmen.

Today's armed forces comprise 34 divisions—nine triangular, five armored (with a sixth being formed), 18 square divisions and one cavalry.

**3,800 Combat Plans**  
The army has more than 3,800 combat planes on hand, according to testimony before a congressional committee Nov. 18 by Gen. George C. Marshall, chief of staff.

In addition, the air corps program is being stepped up rapidly from 24 to 44 groups. This involves training about 30,000 pilots and 110,000 mechanics and technicians annually.

Military planes are believed rolling off the production lines at a rate of more than 2000 per month, but many of these have been diverted to Britain, Russia and China.

**Can Expand Rapidly**  
House-approved legislation provides for an army of more than 2,000,000. This can be expanded rapidly since draft machinery has long since been in motion, whereas during the World war, the draft was not into operation until the conflict began.

Before the close of World war I, more than 2,800,000 were inducted under the draft out of a total of 24,234,021 registrants. The peak of the U. S. World war armed strength—the army, navy and marine corps—was 4,800,000 men.

**'BOOTLEGGED' WATERMARKS**  
In 1760 the British placed a heavy tax on colonial paper. In order to avoid this stamp tax some Pennsylvania paper makers were accused of having "bootlegged" English water marks, which they used in their American-made papers.

## This Is The Plainsman's "Pet Corner" Lubbock And South Plains People Tell About Pets

A FEW weeks ago, The Plainsman, in his regular column, invited Lubbock and South Plains owners of unusual pets, or of pets with unusual names, to write him about them.

Since that time, approximately 75 letters and postcards have been received bearing upon the subject presented. Recently, the flow of "pet mail" has taken up so much space in The Plainsman's regular column that readers not interested in pets have been squawking long and loud. Therefore, to keep everybody happy, The Plainsman has hit upon the plan of presenting all "pet news" in this special department, which will be offered periodically to readers as the demand requires.

**Always Room For More**  
There's always room for more letters from Lubbock and South Plains pet owners, so if you're the owner of an unusual pet, or of a pet with an unusual name, write The Plainsman a card or letter, containing all the information.

For today's "pet news," these are:

A Lubbockite who signs himself simply as "Dunlap," says:

"Here are two dogs, which should be included in your list. My uncle, in Houston, has an Eskimo Spitz named 'Igloo.' How's that? And my parents at home have an Eskimo Spitz, too, and it is named 'Rhet Butler'—called 'Rhet' for short. You probably will recall in the picture, 'Gone With the Wind,' where Clark Gable, as 'Rhet Butler,' rescued 'Scarlett' at the burning of Atlanta. 'Scarlett' was dressed all in white. The little mutt, 'Rhet,' struts around just like his 'uncle' in the picture."

**One From Shallowater**  
Dorothy Wynn, of Shallowater, has a pet kitten. It is a Persian, and snow white. She calls it "Kitty Foyle," after the character in the book and motion picture. Mrs. Roy Holland, of Post, writes that she has "a pet cat called 'Perky,' named because he was so full of pep when a baby kitten." The cat now is nearly five years old and still is full of life, Mrs.

Holland says. "He meets our car at the front or at the garage, when we come home. He is snow white, and 32 inches long."

Vince Caspino, the West Texas-New Mexico league's All-Star catcher who has been No. 1 receiver for the Lubbock Hubbers for most of the past two seasons, came by to say that he and Mrs. Caspino have a brindle bulldog, six weeks old, which they have named "Hubber," after baseball "Mann." The name is all the more appropriate because the pup has four white "stockings" and up until the last few months the "Hubbers" were owned by the Chicago "White Sox."

**Pete Pups In Slaton**  
From Slaton, Mrs. Lucyle McEvers pens: "I have a most unusual, small red Pekinese who bears the name of her Chinese ancestors, 'Ming Tai,' which, in disregard of her maternal dignity, we have changed to the good, old American name of 'Toots.' She has seven roly-poly, young offspring and this is a phenomenon equal to the arrival of the Dionne quintuplets."

Father of the seven pups is 'Ja Hi Hi,' a Lubbock Pekinese owned by Mrs. Claude Keeton, and the grandfather of the seven is 'Chu Jai Boi,' a dog imported from England. I am inviting every little boy and girl in Lubbock county to come see the puppies before Santa whisks them into his bag and hustles them away."

Betty Ruth Lewis, of Slaton, not only tells us about two unusually named pets but even goes so far as to say that she and her family enjoy The Plainsman's daily stint. "Our family," she writes, "has a little, bitty, white kitten named Tarzan, because he won't stay out of trees. My uncle, here, has a dog named 'Pistol,' because he is so loud. We enjoy your column so much."

But as others around and about are happy over their pets, Mr. and Mrs. L. P. Harris and their children, Rachael, 13; Eldon, 12; and Arlene, 9, are sorrowing over the loss of theirs.

Their dog, part terrier and part dachshund, recently disappeared from the vicinity of the Harris home in Whiteface and the whole family is grieving.

The dog is a male, has white throat, breast and feet, but the rest of him is black. His name is "Penny" and the Harrises will rise up and call blessed anyone who can put them in touch with their lost pet.

**MORE about Pets:** John C. Burton, of Slaton, writes in to tell us about a dog of his—and also adds a touch of philosophy. Says

## Huge Buying Season Is Seen

(By The United Press)  
WASHINGTON, Dec. 8.—Christmas shoppers, lanning stores throughout the nation and buying at the fastest rate in history, are expected to spend a record \$5,500,000,000 before this holiday season ends.

The Commerce department estimated that the value of Christmas retail sales this year will exceed the previous record year of 1929 by 45 per cent and that the volume will be 20 per cent greater. Retail trade this Christmas compares with \$4,750,000,000 last year.

Some of the heavy buying is attributed to fears that defense priorities will limit the amount of consumer goods that will be available for Christmas, 1942.

## Lucky Soldiers To Get Gift-Filled Wax Legs And Masks Of Stars

**BEVERLY HILLS, Calif., Dec. 8. (AP)—**Some lucky soldiers are going to get gift-filled wax legs and masks of movie stars for Christmas because a morale officer "way up in Alaska" had a bright idea.

Lieut. M. W. Foreman, morale officer at Fort Greely, Kodiak, Alaska, made the request to Katherine Stubergh, who produces wax mannequins and masks for film studios. The officer explained that since there "are no recreation facilities, it makes life so strange things," such as requesting, "a mask of a good-looking girl." There are 6,000 men at the camp.

"I have planned a Christmas party," Lieut. Foreman wrote, "to add a little zest, I am writing to several notables, asking that each contribute something, and these will be given to the outstanding soldiers in camp. We hope they'll tend to keep their heads up."

"We have a dog named 'Domino' because he has two spots on each end. He has been poisoned twice, shot several times, been in hundreds of battles, but despite all that he has reached the ripe old age of six years."

"In his younger days he would leave home and stay away several days, then come dragging in all chewed up and hardly able to move. But after a few days' rest he was good as new and would take off again."

"He is a much wiser pup and doesn't fight just for the fun of it. He has learned that he can't whip everything. I have seen lot of men and boys learn the same lesson like he did—the hard way."

An orchid to "Domino" for now being wiser than some people!
