

# General Momyer Reassigned

## Lt. Gen. Sam Maddux New ATC Commander On July 1

U. S. Air Force — Aerospace Power for Peace

# THE ROUNDUP

The ROUNDUP is an unofficial newspaper published weekly in the interest of personnel at Reese Air Force Base of Air Training Command. It is published by C. F. Boone Publications, Inc., a private concern, which is in no way connected with the Department of the Air Force. Publisher's mailing address: P.O. Box 883 Lubbock, Texas. For information phone SH 7-1624 (night SW 9-0580). Opinions expressed by publishers and writers are their own and are not to be considered an official expression by the Department of the Air Force. The appearance of advertising in this publication does not constitute an endorsement by the Department of the Air Force of the products or services advertised.

VOLUME XVII 2

Lubbock, Texas, Friday, May 27, 1966

NUMBER 21

Lt. Gen. William W. Momyer, commander of Air Training Command, will assume command of the Seventh Air Force and deputy commander, Air Operations of Military Assistance Command Vietnam on July 1.

Lt. Gen. Sam Maddux, vice commander Pacific Air Forces (PACAF), Hickam AFB, Hawaii, will command ATC effective July 1.

General Maddux, a Reese visitor on many occasions, is a native of Lawton, Okla., and a 1936 graduate of the University of Oklahoma.

### First Overwater Flight

Prior to the outbreak of WWII, General Maddux flew in the first long-range overwater flight of land-based bombers from Hamilton AFB, Calif. to Hawaii.

During the war he flew combat missions from Bataan and Mindoro and in Java, Australia and New Guinea.

Later he was assigned to the War Department General Staff and served 34 months in operations of the Pacific Theater. After the war he spent three years as Chief of Personnel, Hq. Far East Air Force, Tokyo.

### Commanded Mather

Attending the Air War College and the National War College, General Maddux was commander of Mather AFB, Calif., in 1952.

He went to Randolph AFB, Tex., in July 1957 as Deputy Commander of Flying Training Air Force. General Maddux moved to Assistant Vice Commanding Officer of HQ ATC at Randolph and in June 1958 became its Inspector General.

Later in the same year he was named Senior Member of the UN Command Military Armistice Commission in PACAF.

In 1960 he became DCS for Plans and Operations of the Pacific Command. In 1963 he was named commander of the 13th Air Force at Clark AFB in the Philippines.

General Maddux's present position will be filled by Lt. Gen. Joseph Moore, present 7th Air Force Commander.

## Promotions Up, Effective Pay June 21

WASHINGTON (AFNS) — The Air Force plans to promote nearly as many airmen in June as it did in all other fiscal year 1966 cycles.

Quotas for E-3 through E-7 total 121,435, the largest stripe allocation at one time since the Korean War.

The Air Force also announced a supplemental quota for supergrades providing for an additional 112 promotions to E-8 and 43 to E-9.

Broken down by grade, the June quota is: E-7—7,917; E-6—18,377; E-5—20,197; E-4—32,870; and E-3—42,074.

Because of the delay in issuing quotas, commands were told several weeks ago to convene promotion boards and select enough airmen to fill both quotas, when received.

Airmen promoted to E-3 through E-7 will get an effective date for pay purposes of June 21. Their date of rank will be June 1.

Additional E-8s and E-9s who were also picked by boards earlier this year in anticipation of the supplemental quotas will get a date of rank of April 1. They won't begin drawing the higher pay until June 21.

## Civilian Pay Bill Before Senate; Passed House

Reese civilian employees this week expressed hope the U.S. Senate will act quickly on a bill for across-the-board 2.9 per cent pay increase and liberalized fringe benefits. The bill has passed the House and has the backing of President Lyndon B. Johnson.

Numerous benefits are in the measure, the President has pointed out, and raises would come to all white-collar workers and postal employees in the Government.

"Among the many blessings which Americans can count is a corps of Federal civil servants that is unequaled in the world," President Johnson said in commenting on the bill. "Honest, intelligent, efficient and — above all — dedicated, these men and women represent a national resource and national asset."

"The measures I am proposing meet the test of fairness to our employees. They also meet the test of economic responsibility."

## '01st Claims New Record

What may be an Air Training Command flight record was announced by the 3501st Pilot Training Sq. this week.

On Tuesday, May 17 191 student training sorties were flown for a total of 246 hours and 30 minutes.

Again on Thursday, May 19, 193 student training sorties were logged for a total of 241 hours and five minutes.

The 3501st claims these statistics are records for Air Training Command in any one day's flying time.

SAFETY FIRST—"And keep your eye on the road . . ." seems to be the warning pretty Pat Fowler points out to A3C Donald M. Cable of the Air Base Group. It's all part of a posed shot to emphasize safety for this dangerous

Memorial Day weekend . . . and the "101 Critical Days" beginning today. Pat is the daughter of Mr. and Mrs. Charles A. Fowler of Lubbock.

## '101 Critical Days' Set With No-Accident Goal

Reese faces the first holiday weekend of "Operation Summersafe" this weekend with the aim of completing the "101 Critical Days" without an accident.

For 13 years Reese has written good records in the Summersafe program which opens annually on the Memorial Day weekend and concludes Labor Day.

"This is another important safety campaign which we face with determination and high hopes that everyone of us adds to our safety thinking during the summer period which nationally is the most dangerous time of the year on our highways," commented Maj. George Dreier, chief of safety.

"Reese people in the past have shown by the holiday records that we can avert accidents and return safely to work if we put our minds to it. This year should prove no different and all of us should be back on the job Tuesday, unhampered by injuries."

### Heavier Traffic

The major pointed out that traffic is much heavier during the summer vacation time and dangers are higher. He urged all Reese personnel to plan well for their weekend trips and to follow all laws and regulations.

## 200 Mile Travel Limit

Military personnel planning long trips over the Memorial Day weekend are reminded of the 200-mile limit on Armed Forces Liberty Passes.

Individuals must check with their squadron orderly rooms for extension permits.

He also stressed that defensive driving is a necessity on the Memorial Day weekend if drivers here avert accidents caused "by the other fellow." Preparedness to get out of the way of reckless drivers is needed, he added.

Major Dreier called attention to accidents on Fourth Street and Nineteenth Street in the past 10 days as showing how easily drivers can be killed and injured.

He pointed out that a Reese airman was hurt and the driver of the car in which he was riding was killed at the overpass on Fourth Street.

He also pointed out that two persons were killed Sunday near the Nineteenth Street overpass when one of them apparently failed to use caution and another was killed earlier at the overpass.

"Indication has been given that

## MARS Offers Code Classes

Morse Code, fundamental to receiving a ham operator's license, is taught to base personnel through classes conducted every Monday and Friday at 6 p.m. by Military Affiliate Radio System personnel.

The month-long course is being taught by A3C Richard Soltero of the 2053rd Communications Squadron at the MARS station. He is assisted by SSgt. Edward Walters and 2nd Lt. Wayne R. Bevan. They may be contacted at ext. 532.

The course also includes a few fundamentals of electricity and will be expanded in the future to include some radio procedures.

in these accidents lack of sleep was a contributing factor," Major Dreier said. "This weekend we must be rested before starting long journeys and we should not try to go too far for the weekend."

### Limits Set

"The Air Force sets limits which can be traveled by airmen and no one should go farther than the limits without permission of his commanding officer. He said that airmen going beyond the limits who may be involved in accidents may find that they may have to

(See CRITICAL DAYS Page 3)

## Lieutenant Scarbrough Named April Instructor Of Month

First Lt. Leon T. Scarbrough Jr. has been named instructor of the month for April in the 3501st Pilot Training Squadron on the basis of professional accomplishment.

"His highly professional approach to the undergraduate pilot training program is of the highest tradition," Lt. Col. Howard P. Mann, squadron commander, commented. "He constantly maintains a high level of proficiency."

Lieutenant Scarbrough was credited with exceptional ability in bringing weak students to a satisfactory level, with quick analysis of student errors and techniques to correct deficiencies, and with raising students to the upper per cent of classes.

His work as a senior runway controller, although the most junior ranking officer on that duty, was also praised.

The lieutenant was credited, also, with leadership as an element leader and with performing additional duties as flight scheduling officer, squadron supply officer, squadron snack bar officer, flight

commitment officer, in-service training officer and navigation briefing officer.

1st Lt. Leon Scarbrough

# ★★USAF VIETNAM BATTLE REPORT★★

An Air Force McConnell F-4C Phantom crew of the 390th Tactical Fighter Squadron scored the 12th MIG kill of the Vietnam conflict May 12 some 105 miles northwest of Hanoi.

The downed aircraft was part of a four-plane enemy flight attacking an unarmed Douglas RB-66 Destroyer reconnaissance aircraft and the Phantom flight of three.

Aircraft commander Maj. Wilbur R. Dudley, 34, of Alamogordo, N.M., and pilot 1st Lt. Imantes Kringelis, 23, of Lake Zurich, Ill., downed the enemy aircraft with a Sidewinder missile.

Major Dudley's flight was orbiting northwest of Hanoi when his wingmen were jumped by three MIGs firing aerial cannon. As the wingmen took evasive action, Major Dudley spotted a fourth MIG lining up for attack on the RB-66.

Firing a mile and a quarter behind the enemy aircraft, the Phantom crew saw the MIG explode and spin out of control.

The other enemy aircraft fled as the Destroyer and Phantoms returned to base.

## DEEPEST PENETRATION

A Sikorsky HH-3C helicopter crew made the deepest rescue penetration of the war into North Vietnam during the week ending May 13.

Commanded by Capt. Robert D. Furman, 33, of Great Falls, Mont., the copter crew rescued Republic F-105 Thunderchief pilot Capt. Martin H. Mahrt, 32, of Custer,

S.D., within two hours after his ejection some 80 miles northwest of Hanoi. Captain Martin's aircraft was hit as he returned from a strike against the Yen Bay arsenal.

Although three MIG-17s attacked the helicopter and the Douglas A-1E Skyraider pilots flying cover, the Air Force pilots completed the rescue.

Majority of the week's combat strikes in North Vietnam were by Thunderchief and Phantom pilots with Martin B-57 Canberra, Skyraider, and North American F-100 Super Sabre aircraft in support. Strikes were concentrated on routes of travel, bridges, and river shipping.

The pilots also hit air defense positions, destroying a surface-to-air site 30 miles north-northwest of Hanoi and attacking 17 anti-aircraft sites.

In South Vietnam, close air support and other combat missions sent Air Force pilots on 852 combat sorties against the Viet Cong. Targets included troop concentrations, encampments, fortified positions, supply and storage areas and river shipping.

Forward air controllers, who directed the strikes from slow-flying Cessna O-1 Bird Dogs, reported a number of Viet Cong possibly killed and numerous enemy buildings and fortifications destroyed or damaged.

Air Force Boeing B-52 Stratofortress crews flew six missions bombing suspected locations of Viet Cong troop concentrations in Tay Ninh Province about 70 miles northwest of Saigon and two suspected supply and storage areas about 65 miles northwest of Da Nang.

## Zero Defects, Major Aim Of Air Force Operations

The Zero Defects program has resulted in major progress in handling of forms used for documenting aircraft maintenance data on a daily basis. Lt. Col. Philip A. Watson, project officer, revealed this week.

The colonel said errors were noted on the forms and analysis revealed that center supervisors were permitting others to review the forms.

"By requiring that work center supervisors personally correct the forms, they were motivated to insure that their people would fill out these forms correctly the first time," Colonel Watson pointed out.

The error rate dropped approximately 80 per cent from June to December last year, he stated.

Zero Defects throughout the Air Force asks that things be done right the first time, thus eliminating time spent in making corrections.

Colonel Watson pointed to a statement of Lt. Gen. Thomas P. Gerrity, USAF deputy chief of

staff for systems and logistics which said:

"If I had to put my finger on the thing we're after in Zero Defects, I would have to say that we're after something we lost — pride in workmanship. Somewhere . . . the individual became lost in the system . . ."

"Whatever the cause, the result has been that the individual has lost not only his pride of workmanship but also any feeling of responsibility for failure."

Colonel Watson said that the individual at Reese should set a standard of perfection for himself which will result in greater job involvement, better reliability and increased productivity.

## Marksmanship Expert Ribbons Awarded To 45

The Small Arms Expert Marksmanship Ribbon has been awarded to 45 additional qualified Reese personnel.

Recipients include Maj. Rufus L. Johnson, Capt. Louis G. Jamar, 2nd Lt. Alan J. Davis, MSgt. Raymond J. Veselka, TSgt. Jerry W. Davis, TSgt. Melvin Stanfield and Staff Sergeants Donald P. Cleg-horn, Jim C. Turner, Frank R. Smith, Hayden R. Stephens, Francis W. Vosefski, Dwight C. Buckner, Estal C. Daron, Charles W. Drummond, James P. Garrett, William E. Lynch, Bobby L. McKay, Wilmer E. Millward and Harold E. Noland.

Other airmen honored were Airmen First Class Robert W. Burke, Jerome H. Fox, Robert E. Bless, Daniel J. Kelly, Thomas E. Prior, Richard A. Turberville and Benjamin J. Ward; Airmen Second Class Terry G. Bromley, John T. Shively, Clifford W. J. Blair Jr., Jerry K. J. Forbus, Homer A. Hancock, Peter R. Jagusch, Guadalupe Leal, Marshall L. Miller, Roosevelt Norman Jr., Roy E. Pettit II, Jerry L. Quinn, Frederick E. Skipper Jr., James L. Taylor, Howard T. Wainwright and Edward J. Warren; and Airmen Third Class Timothy L. Wingate, Nelson R. Stevens, Lewis M. Ellis Jr. and William C. Gibbons.

## Nineteen Reeseites Awarded Good Conduct Medals

Ten students at Reese have been awarded Air Force Good Conduct Medals for three years of exemplary behavior, efficiency and fidelity as airmen prior to becoming officers.

They are Captains Gary D. Arnold, George A. Carson, Thomas G. Deniston, Richard D. Fagley, John E. Johnson Jr., Robert C. Konopka, Larry R. Livingston, Gerard P. Sawicki, Jerold L. Weiss and 1st Lt. Edward A. Fairchild.

Additional Reese airmen earning the medals were TSgt. John F. Marquess, TSgt. Leonard N. Schaefer, TSgt. Stephen S. Strauss Jr., TSgt. James E. Wilson, SSgt. William D. Rutledge, SSgt. Jerry O. Smart, A1C David C. Carlson and A2C Patrick J. Plumley.

Reese pilot trainees perform 240 hours of flying prior to graduation—30 hours in the T-41, 90 hours in the T-37 and 120 hours in the T-38.

## Commander's Comments . . .

By Brig. Gen. Dudley E. Faver  
Wing Commander

Next Monday, Memorial Day, is the first of three major summer holidays. Even more significant, it marks the beginning of our "101 CRITICAL DAYS" Safety program. This important campaign is directed toward a greater reduction in the number of accidents during the forthcoming summer months. Proof of the urgency of this program and the need for our complete support is found daily on the front page of each newspaper.

According to the National Safety Council, the most prevalent unsafe driving practices during holiday periods are DRINKING AND DRIVING, FAILURE TO YIELD, FATIGUE AND EXCESSIVE SPEED. It is also found that in many accidents one driver is faultless. Therefore, to survive unsafe driving practices, it is essential for us to drive defensively at all times and to comply with the rules of the road. Failure to do so may cost us ALL. Our best insurance or odds is gained by the use of the easily obtained and operated seat belt. The American Medical Association and the National Safety Council agree that the automobile seat belt is the most effective single item of protective equipment presently available to reduce the high number of traffic injuries and deaths.

As much fun as they are, water sports, particularly swimming, can be very dangerous when proper precautions are not taken. One simple caution, if you haven't been swimming since last summer take it easy at first. You are probably out of condition so get back into stride gradually — and safely.

It is my desire that all Reese personnel enjoy a safe Memorial Day weekend, unmarred by injury or tragedy, and that this be established as the pattern for the summer season.

## Memorial Day Address

President Lyndon B. Johnson

"As America pays tribute to its war dead on Memorial Day, our thoughts turn to the past — to a magnificent tradition which reflects the abiding commitment of the American people to freedom.

The price our forefathers paid for American independence was dear. The Americans who have since risked their lives in battle to preserve this independence have recognized its cost as well as its value.

Americans today are responding just as courageously to the current threat to freedom on the battlefields of Vietnam and in other distant parts of the world.

We salute them as we do their predecessors in arms. And I join a grateful nation in prayers for their safe and speedy return to their homes and families."

Secretary of Defense Robert S. McNamara

"On Memorial Day, America unites in honoring the memory of the many gallant Americans who have laid down their lives in behalf of freedom. But the freedom they bequeathed to us can endure for posterity only so long as we cherish and defend it. When we help other free people remain free, we safeguard our own freedom. That is why Americans are fighting and dying in Vietnam today. As we honor the war dead on Memorial Day, we also commend the living guardians of freedom for the magnificent contribution they are making to our fine military tradition."

"So long as free peoples anywhere live under the threat of aggression by a system which believes that political power grows out of a gun barrel, our own military might — and that of other free nations — must be prepared to provide the ultimate defense of freedom. In the long run however, freedom's mightiest bulwark lies in the enlightened minds of people throughout the world."—Under Secretary of the Air Force Norman S. Paul.

## Airman Completes Training At Medical Supply School

Finishing second at the medical material supervisor's school at Gunter AFB, Ala., A1C Ronald G. Kepner of the 3500th USAF Hospital at Reese soon will assume a new job.

Airman Kepner, 22, who is the hospital representative for Airman of the Month for May, received an outstanding performance certificate while attending the course at Gunter.

Airman Kepner will assume the position of NCOIC of the Medical Supply office upon the departure of MSGT. Bob Skinner in June.

The course consisted of every phase of medical material including property accounting, management supervision and local purchase procedure. He attended the school upon the recommendation of his supervisor, SSgt. Jose Avila.

Airman Kepner, who is at present in charge of quality control at

medical supply, arrived at Reese in March 1963 as a medical material specialist after receiving six weeks of technical training at Gunter. In quality control, he is responsible for medical and non-medical supply transactions and documents register, punch card accounting machine transaction cards and monthly listings of use activities. He also reviewed medical and non-medical source documents against document registers.

Airman Kepner, son of Mr. and Mrs. Carl B. Kepner of Andover, N.J., enlisted in the Air Force in September 1962 and has been at Reese since finishing technical school.

Pleasant softball in 1959 and 1962 at Command Finals at Lackland AFB. He swam in ATC Comm level two years.

Sergeant Whitsett is 32 years old, married, and the father of nine children: two boys, Glenn Jr., and Bill, 10; and a girl, Linda

**SPECIAL GIFT**—Through the actions of Reese's student pilots, a handsome paper-weight constructed of coins from around the world was presented to Brig. Gen. Dudley E. Faver (left), wing commander, by Lt. Col. William E. Ayres (right), chief of the Dental Clinic. In addition to the paper-weight, the Dental Clinic also provided General Faver with a set of special stars in honor of his recent promotion. American and foreign students collected the coins.

## Capt. Doten Top PTS Instructor

Capt. Eric S. Doten of Flight A, 3500th Pilot Training Sq., has been selected as instructor of the month for April by Col. Victor M. Mahr, deputy commander for operations.

He was nominated by his squadron for sincerity and professionalism in all phases of his work. He was praised for responsibility in production, for outstanding briefings and for attention to extra duties.

### SECRETARY TOURS

LINDSEY AS, Germany (AFNS) — Air Force Secretary Harold Brown is touring military installations in the European-Mediterranean area this week for a first-hand view of Air Force operations in that region of the world.

## Critical Days...

(Continued from Page 1)  
pay doctor and hospital bills themselves.

"Operation Summersafe" is highly important to the Air Force, and especially to Reese, the major said. "If death and injury is involved in any of other lives, then it is highly important to us individually. Safety thinking and alertness will keep us out of trouble. And safety thinking includes observance of laws and alertness at all times."

Summer safety programs have been marked "musts" by Air Force and Air Training officials.

## Red Cross Lists Money Shortage

Rising Vietnam costs and a depleted disaster budget have led the Lubbock County chapter of the American Red Cross to make an emergency fund appeal for \$6,591, Bob Nash, special fund chairman, has announced. Nationally, the Red Cross seeks \$9 million to finance stepped-up requirements in Vietnam, it was said.

Reese personnel may send contributions to the chapter office at 2109 Broadway, Lubbock.

## Meet The Doc

A Meimonides and Thomas Henreich Award winner, Capt. Joseph M. Quagliana recently assumed duties as chief of the Department of Medicine and chief of the Medical Services Branch at the 3500th USAF Hospital at Reese.

A graduate of State University of New York, Captain Quagliana received the science awards while doing undergraduate work in chemistry at the University. He also conducted studies in uric acid metabolism with Dr. John H. Talbott there. In 1959, he received his doctor of medicine degree from the university.

Captain Quagliana conducted his internship at Buffalo General Hospital. His internal medicine residency was completed at the Tufts University affiliation of the Boston City Hospital.

In 1962, he obtained a clinical fellowship in hematology under the direction of Dr. M. M. Winthrope at the Salt Lake County General Hospital and spent the following year as chief fellow. He later practiced internal medicine and hematology at the San Jose Medical Clinic.

Captain Quagliana was recently named director of the research committee at the San Jose Medical Foundation.

## Reese Members 331st FIS Part Of ADC "A" Award

Reese members of the 331st Fighter Interceptor Sq. will be at Webb AFB today when an Air Defense Command "A" Award will be presented to the squadron.

Attending the ceremonies will be TSgt. Jesse D. Thomas and SSgt. Donald H. Green of Detachment 1, assigned to Reese. The award, for "exceptional operational performance," will be presented by Lt. Gen. Herbert B. Thatcher, commander of ADC.

Repeatedly from Sept. 1, 1965, through March 31, 1966, the 331st "surpassed the high operational standards set by the Air Defense Command," the general said.

It scored 98.9 on the command overall effectiveness rating system.

Presently commanded by Lt. Col. Michael W. Schareck Jr., and flying F-104 "Starfighters," the squadron was activated in 1942 at Hamilton Field, Calif., and flew P-38 aircraft to train World War II pilots.

The 331st now is in the 29th Air Division of the 14th Air Force. It is the first fighter interceptor squadron to receive an "A" Award in 1966.

Reese training aircraft burned 22,595,508 gallons of JP-4 fuel in 1965.

**INSTALLED**—Installed as officers of the Protestant Men of the Chapel are (left to right) Maj. Bruce C. Bowden, president; SSgt. Don E. Shirley, vice-president and A2C Edward J. Warren, secretary-treasurer. The officers were installed by Maj. Asa E. Hunt III, base chaplain during the monthly meeting.

## Ceramic Entries Capture Awards

Participants in ceramics at Mathis Service Club attended the 1966 West Texas ceramics show Saturday and Sunday at Big Spring. Several entries were made from the club.

Mrs. Imogene Murray, instructor, won an honorable mention for originals in clay. Mrs. Betty Carpenter, assistant instructor, won second in the translucent underglaze category. A1C Don Elliott won an honorable mention for display of a combination of several glazes.

Elliott was in charge of the Mathis Armed Forces Day display of ceramics. Second Lt. Louis R. Egea, native of Mexico City and former teacher at the University of Southern California and Texas Tech, presented a one-man art show as part of the club display.

**VIETNAM BOUND**—Baked goods totaling 136 pounds are prepared by (left to right) Mmes. Marjory Jones, Jerrie Gantt and Charlie Martin for former Reese personnel in Vietnam. The shipment also included soap, paperback books, cheese, nuts, kool-aid, candy and writing materials. The goods were donated by wives of 3501st Student Squadron and 3501st Pilot Training Squadron personnel.

**WHEWWW!! THE POOLS OPEN**—Workmen add the final touches to the Airmen's swimming pool before the May 28 opening date. Officers' pool will open on the same day.

## Pools Open For Summer

With temperatures soaring over the 100 degree mark during and after the Armed Forces Day weekend, base personnel are eagerly waiting for the "magic" day, Saturday, May 28, the opening day for the base swimming pools.

Reese's two pools, the officer's pool adjacent to the Officer's Club and the airmen's pool next to the gym, will be opened seven days a week from 12 noon to 8 p.m.

Registration for swimming classes for male beginners and intermediates will begin at the base gym, June 1 at 11 a.m. Girls may register June 2 at 11 a.m. at the gym.

"Anyone who wants to reserve the pool for a specific party must notify the base gym two weeks in advance," SSgt. Glenn Whitsett announced.

Military personnel cannot bring more than three bona fide guests into the swimming pools without prior approval of the Base Commander.

All swimmers must sign the register book upon entering the pool, and the time of entrance recorded. Guests will be required to leave when their sponsors leave.

Children under ten will not be permitted to enter the pool unless accompanied by an adult.

The NCO club will operate a concession stand at poolside.

**FAMILY SERVICES ANNIVERSARY**—CMSgt. Charles Darneille (left) and Chaplain John Mann (right) are served refreshments by family services volunteer Mrs. Katie Darneille (center). Family services will be celebrating its ninth anniversary at Reese.

**Highly Popular Talk To OWC**  
The American Medical Association Council agree that the automatic single item of protection to reduce the high number of accidents were honored with a dinner party at the home of Capt. and Mrs. William Goldfein, 106 Yount Drive.  
As much fun as they are, swimming, can be very dangerous if not taken. One simple caution since last summer take care to get back into the pool safely.

## Club Activities

**Mathis Service Club**  
TODAY — Base kindergarten graduation, 9 a.m. Ceramic instruction, 9:30 a.m., 7:30 p.m. Film showing, 6:30 p.m.

SATURDAY — Indoor-outdoor tournaments.

SUNDAY — Coffee time and Sunday Crafts, 2:30 p.m. Pinochle tournament, 2:30 p.m.

MONDAY — (Memorial Day) Afternoon holiday punch treat. Game night, 8 p.m.

TUESDAY — Miniature golf, 6 p.m.

WEDNESDAY — Ceramics, 9:30 a.m. Cancer workroom, 10 a.m.

THURSDAY — Dance with The Van Dels, 8:30-11:30 p.m. Who will be chosen dance sweetheart?

**NCO Open Mess**  
TODAY — Seafood dinner. Dance, Roy Roberts, 9 p.m. to 1 a.m.

SATURDAY — Dance, The Royals, 9 p.m. to 1 a.m.

## SSgt. Glenn Whitsett, New Athletic Department Head

By A3C Dennis Vintland  
SSgt. Glenn B. Whitsett, after consecutive tours of duty at Myrtle Beach, S.C., and Vietnam, arrived last week to head Reese's athletic department.

Reese veterans will remember this muscular athlete as the Student Squadron man who earned some 20 trophies in varied sports over a 5-year period.

After leaving Reese in 1964, Sergeant Whitsett spent one year at Myrtle Beach as a physical training instructor in charge of the sports program there.

**Vietnam Game Won**  
A year later Sergeant Whitsett was sent to Vietnam and assigned to Personnel Services as NCOIC. One of his most noteworthy accomplishments was the formation of an interservice league in Pleiku.

Sergeant Whitsett, recalling an incident of troop sport-mindedness in Vietnam, reports, "A game was forfeited because of the opponents failure to field the necessary nine men. The ninth man on the op-

ponent's team began hemorrhaging after being shot in the leg a few days before."

At Pleiku Sergeant Whitsett's softball and basketball teams were undefeated. His football team lost one game. While there he was placed in charge of Rescue and Recuperation for servicemen leaving the country for short periods. He also handled a 1,500 volume library and two theater film accounts.

His athletic accomplishments are numerous. As a coach and player, his Reese football team placed second in ATC competition in 1961 and 1962. He competed in ATC singles and doubles handball in 1963. He placed second in badminton in the ATC doubles at Sheppard AFB in 1962. He participated in ATC competition in softball in 1959 and 1962 at the Command Finals at Lackland AFB. He swam in ATC Command level two years.

Sergeant Whitsett is 32 years old, married, and the father of 3 children: two boys, Glenn Jr., 11, and Bill, 10; and a girl, Linda, 6.

## Baseball Exhibition Over Reese Rattlers Ready

The Reese Rattlers baseball team scored two wins and a loss over the past week and last night was to open play as a member of the National Baseball Congress league in Lubbock.

Last week the Rattlers defeated Lubbock Electric, 5-4, and lost to the Lubbock Hubbers, 3-1. The Hubbers are a member of the NBC league.

Sunday the Reese nine turned on the heat to run over Webb AFB, 15-1.

Against Lubbock Electric, Reese made but four hits, including a two-run single by Ron Kepner which came with the bases loaded in the second inning. John Kreideweis pitched the game.

The Hubber-Rattlers encounter was loosely played and all runs were unearned. Fred Olmsted hurled all the way, allowing five hits and striking out nine.

Webb provided little opposition as Olmsted and Jim Liller kept it in hand. Olmsted got credit for the win in pitching the first four innings, striking out 14 Webbsters.

Liller contributed a home run and double, while Kurt Brown had two singles and a double.

## Pair Shoot Par, Capture Golf Tourney

Capt. Jerry Grissom of the Hospital and Jackie Hays of Idalou shot par 72s to lead the field in the Armed Forces Day Am-Am tournament Saturday on the Reese golf course.

Two teams tied for low ball of 60. MSgt. H. Brock, MSgt. J. Evans, MSgt. James Sheppard (ret.) and CMSgt. George Crain made up one team. Jackie Hays, Herschel Sorrells of Gaines County, Royce Anthony of Post and Jerry Young of Lubbock made up the other.

Two teams had low ball of 61. One included Capt. Fred Williams, Capt. Dean Jones, 1st Lt. Mike Ferguson and 1st Lt. Gerald King. The other team was Jim Stapleton and Art Reising of Reese and Lee Moss and Rickey Moss of Lubbock.

Scheduled for this weekend is the Saturday and Sunday student tournament of 36 holes. A trophy will go to the winner. Handicaps will be used and there is no entry fee. Players should sign-up at the pro-shop.

The golf course will be open for play Monday, Memorial Day.

### CAMPUS LARGE

Texas Tech has about 1,800 acres of campus, of which about 1,500 are used as an experimental farm. Tech also operates a 5,821 acre research farm near Amarillo.

LITTLE LEAGUE SEASON OPENS—Col. Richard Steele, base commander, congratulates the Dodgers' Allan Boddie (left) and the Tigers' Don Kelso after the boys caught Colonel Steele's first toss in the Little League season opener last Friday.

## Little League Begins Season

Friday marked the beginning of the Little League season in ceremonies at Reese Village Little League park with Col. Richard A. Steele, base commander, throwing out the first ball.

The Tigers squeezed by the Yankees 10 to 9 in a game that went five innings with Mark Byrom winning his first game of the season.

In the second game the Red Sox outscored the Braves 13 to 8 with the Braves' Larry Grady blasting a homer.

The Flyers meet the Cardinals Friday night, May 27 at 5:30 while the Giants take on the Dodgers at 7:30 p.m.

## Reese Women's Golf Tournament

Mrs. Victor Mahr was winner in the championship flight of the annual spring tournament of the Reese Women's Golf Association May 17-19. Mrs. Robert Walton was runner-up and Mrs. Fred Michel won consolation.

Mrs. William Reese won Flight 1, with Mrs. George Henage as runner-up and Mrs. William Ayres consolation winner.

Mrs. Robert Cook won the play for beginners, with Mrs. Henry Hamby runner-up.

Cry-Baby winners were Mmes. Kenneth McGuire, Robert Belcher and Robert Levesque.

## Students Take Softball Lead

Tuesday, May 17, saw the 3501st Student Squadron take a commanding lead in intramural softball by outslugging 3500th PTS in a 12 to 7 decision for their fifth straight win against no losses.

Second Lt. Lynwood Luebke had a perfect day at the plate going 4 for 4 with two homers, a double, and a single. Second Lt. Dave Veseley also had a perfect day going 3 for 3.

In Tuesday's second game Supply triumphed over AFCS, 17 to 7. A2C Marcelino Hernandez and A1C C. Shaffer both scored three runs apiece going 1 for 1.

The amazing Student Squadron team breezed to its sixth straight win, overpowering the Hospital Medics on May 18 with a 13 to 3 decision. Lieutenant Luebke had another good day at the plate, going 2 for 4 including a homer. Lieutenant Veseley was the winning pitcher.

In Wednesday's second game 3501st PTS outhit 3500th PTS and won, 10 to 6, in a game featuring a sensational catch of a low line drive in right-center field by 1st Lt. Kent Tekrony in the top of the fourth inning.

AFCS scrimmaged Supply to a 24-18 victory in a May 19 clash.

# Reese Weather Station Forecasts and Observes

"Station pressure 26.450, sky condition is clear with visibility of 12 miles, temperature of 91 degrees fahrenheit, dew point 40 degrees fahrenheit, wind 27.0 degrees at 18 gusting to 24" . . .

This is the voice of Detachment 11, 24th Weather Squadron which is continually issuing memorandums that keep Reese's pilots and planes airborne.

The weather detachment, which coordinates information with civilian weather services, is divided into four sections to provide the necessary weather support to the base. The sections include the observing, forecasting, administrative and maintenance.

### Heart of Operations

Just as base operations is the heart of the flying operations at Reese, the ANCP-9 radar scope is the most essential piece of equipment at the weather station. The radar equipment is operated by the observation section which has 10 observers.

The section observes the current weather at Reese such as sky conditions, temperature, humidity, wind speed and direction. They tear and file teletype data and facsimile maps which are transmitted from Kansas City.

The observers also plot surface charts and transmit pilot reports. The automatic answering device is kept current with the weather and the forecast by the observers.

### Effective Range

The radar scope, which has an effective range of 200 miles, has four scopes that gives the direction and location of thunderstorms as well as their intensity and height.

The planned position indicator (PPI) scope indicates any activity up to a 400-mile distance. It gives the direction and distance of the storm from Reese.

The off-center PPI shows a magnification of up to three times the sector of the main PPI scope.

The range height indicator (RHI) gives a cross section of the cloud cover. It also determines the height of the clouds.

The Azimuth and Range (AR) indicator shows the intensity of the storm.

The radar tower, which is 116 feet high, has a 20-ton parabolic antenna inside a ball of compressed air on top. The ball is 20 feet in diameter.

The forecasting section, which issues forecast every six hours, issues weather warnings and advisories. The warnings are passed to base operations where they are disseminated over an electronic writer to the representative observation site, tower and the two pilot training squadrons.

The section makes up 12-hour forecasts for the pilot training squadrons and 24-hour forecasts which go out to all bases in the U.S. The pilots are briefed on the present weather conditions at Reese and they are kept informed of any changes.

In addition to forecasting to local pilots, the section forecasts to transient pilots on radio up to 150 miles away. They also take information from these pilots and chart it on maps.

### Radar Maintenance

The maintenance section maintains the weather observing equipment in connection with the radar. The section, which provides around-the-clock repair service to the equipment, is also responsible for projects connected with all the detachment.

Be it cloudy or be it cold, the weather people are on the job to provide weather information for the base.

WEATHER BRIEFING—TSgt. Wes Morton briefs Capt. Charlie Brown on the weather conditions before a cross-country mission.

OBSERVES WEATHER—A2C James Sweet studies the planned position indicator on the radar set at the Reese weather detachment.

PREPARES LOG—A3C John McBride phones a surface weather report from the representative observation site to the main weather station.

# Turkish Major Undergoing OJT In Procurement Office

Maj. Talat Ipek is learning the ways of West Texans while receiving OJT training in the procurement office at Reese.

Major Ipek, from Ankara, Turkey, is a member of the Turkey Air Force. He arrived here May 5 after receiving eight weeks training in the base procurement office at Amarillo AFB, Tex.

While at Amarillo, Major Ipek studied Air Force regulations pertaining to the organization, authority and function of a base procurement office. The regulations dealt with publications, formal advertising and negotiations and the part they play in procurement activities.

The major studied the types and kinds of contracts for procuring materials and the sources for obtaining funds for the purchases. He is receiving advanced procurement study here.

Major Ipek graduated as a cadet from the Army War School at Ankara, Turkey in 1942. He was commissioned as an officer in the Turkey Air Force upon completion of graduation requirements of the Air Force Flying School at Eskisehir, Turkey. He was in training there for two years.

He attended a one-year procurement technical school in Istanbul, Turkey, in 1949. He then took a three-month finance course at Izmer, Turkey, in 1953 and received 15 days procurement OJT training at Naples, Italy.

The major, who enjoys fishing and is an avid football spectator, is married to the former Fazilat Muslu. They have a son, Fatih, age 13 and a daughter, Feyza, age 9.

## Services Extend Benefits To Others

WASHINGTON (AFNS) — Air Force people needing emergency loan assistance of the type provided by the Air Force Aid Society may be helped by the Army Emergency Relief or Navy Relief Society.

Reciprocal agreements between the AFAS and the two sister service welfare organizations provide that Army active-duty and Navy

and Marine Corps active-duty and retired-from-active-duty personnel and their dependents can apply for financial assistance at AFAS offices.

Conversely, Air Force members and their dependents can seek help at any of the other three service facilities.
