

Armed Forces Day Visitors Gain Insight Into Training

U. S. Air Force — Aerospace Power for Peace

THE ROUNDUP

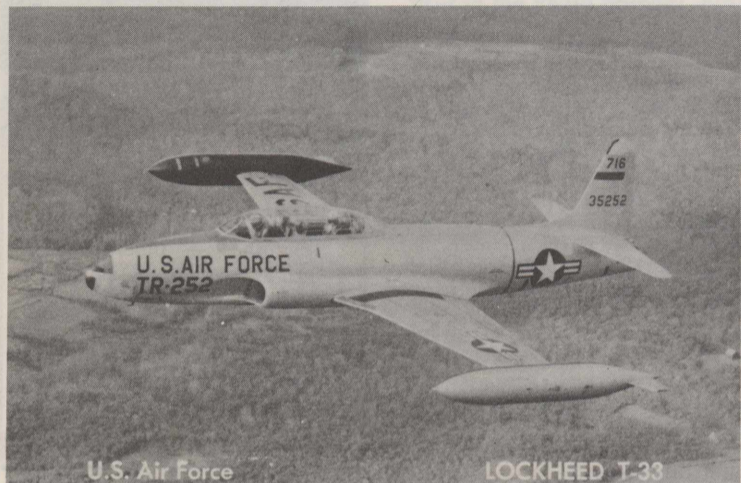

The ROUNDUP is an unofficial newspaper published weekly in the interest of personnel at Reese Air Force Base of Air Training Command. It is published by Boone Publications, Inc., a private concern, which is in no way connected with the Department of the Air Force. Publisher's mailing address: P.O. Box 883 Lubbock, Texas. For information phone SH 7-1624 (night SW 9-0580). Opinions expressed by publishers and writers are their own and are not to be considered an official expression by the Department of the Air Force. The appearance of advertising in this publication does not constitute an endorsement by the Department of the Air Force of the products or services advertised.

VOLUME XVIII 2

Lubbock, Texas, Friday, May 19, 1967

NUMBER 20

T-BIRD DEDICATION PLANNED NEAR REESE GATE TOMORROW

FAITHFUL T-BIRD—More Air Force pilots learned to fly in the Lockheed T-33 than in any other aircraft. It proved highly successful in Reese pilot training and is being permanently displayed near the main gate. The unveiling is scheduled for 11:30 p.m. tomorrow.

Armed Forces Day Schedule Of Events

- 1:00 p.m. **Baseball game**—Reese AFB vs. Holt's Raiders.
- 1:15 p.m. **Fly-by**—T-37 and T-38 aircraft will fly over in formation.
- 1:45 p.m. **Fire fighting and crash rescue demonstration**—using the HH-43B "Huskie" helicopter.
- 2:05 p.m. **Parachute jump.**
- 2:10 p.m. **Driving safety demonstration**—the Texas Department of Public Safety will demonstrate safe driving practices, as well as illustrate speed versus braking distances.
- 2:25 p.m. **Sentry dog demonstration**—the Lubbock Police Department will offer a police dog show.
- 2:45 p.m. **Band Concert and static displays**—the Amarillo Air Force Band (50 pieces) will perform in concert—static displays will include: modern aircraft, advanced weapons, synthetic trainer, ejection seat, Chapel display, Red Cross, Hospital display and many others.
- 3:15 p.m. **Fly-by.**
- 3:45 p.m. **Fire fighting demonstration.**
- 4:00 p.m. **Softball game.**
- 4:05 p.m. **Parachute jump.**
- 4:10 p.m. **Safety demonstration.**
- 4:25 p.m. **Sentry dog demonstration.**
- 4:45 p.m. **Depart flight line.**
- 5:00 p.m. **Formal retreat.**

President Cites Might

America's rise to world leadership will be remembered down through history as an inspiring example of what men can achieve in the cause of freedom.

Freedom was the goal that sparked our independence—and only the love of freedom has sustained it.

Nowhere is this dedication reflected more vividly than in the Armed Forces of the United States.

Our modern military establishment is the mightiest arsenal of all time. But it would give us neither peace nor security without the devotion to duty, the courage and sacrifice of the men and women who wear our country's uniform.

As Commander-in-Chief, I invite every American to participate in the 1967 observance of Armed Forces Day, which honors those who guard our heritage.

In Vietnam—and around the world—they perpetuate the ideals which made and preserve us as a nation.

Let our thoughts be with them on this day. And let our prayers attend them, always, as they unflinchingly defend our legacy and our lives.

—President Lyndon B. Johnson

The T-33 jet aircraft, the first jet trainer used by the Air Force, will be permanently preserved at the main gate of Reese when one of the thousands of T-Birds produced by the Lockheed Aircraft Corporation is unveiled on a pedestal tomorrow.

Workmen all week have been building the pedestal and putting the T-33 in place. Speaker for the occasion will be Anthony W. LeVier, director of flying operations for Lockheed, the man who flew the first test flight of the T-Bird.

The first class to train in the T-33 at Reese was Class 59-F, graduated March 18, 1959. The last class was Class 64-B, graduated Sept. 11, 1963.

Reese Trains 1,256

For the Air Force, the T-33 trained upward of 36,000 pilots and flew more than 4.5 million hours. At Reese it was used to graduate 1,256 students, including 486 aviation cadets, 623 student officers and 147 pilots sent here for training by friendly foreign countries. The last Air Training Command class to be graduated from pilot training received wings early this year at Craig AFB.

A member of the first class in the Air Force to be graduated in the T-Bird was Astronaut Gordon Cooper, first man to orbit the earth in the aerospace program and a visitor to Reese two weeks ago.

Personnel Invited

Attending the dedication of the T-Bird at the Reese gate will be base officials and leading Lubbock citizens. All Reese personnel are invited to the ceremonies at 11:30 a.m. tomorrow to open Armed Forces Day.

The marker near the mounted aircraft was presented by the Lubbock Chamber of Commerce.

Tony LeVier, dedication speaker, has been interested in flying since Lindberg flew the Atlantic in 1927. Tony was 14 years of age at the time. He holds many prizes from competition in races with the world's best pilots.

He joined Lockheed in 1941 to ferry Hudson bombers to Canada and in 1944 visited England to "sell" the P-38 Lightning to the British Air Force.

Tests Many

As Lockheed's chief engineering test pilot, he has flown many new planes, including the XP-80 Shooting Star, T-38, F-90, F-94, T2V-1, F-80R, F-104 Starfighter and the U2.

Twelve years ago LeVier stopped test flying to direct 40 test pilots and to be an administrator.

His daughter, Tonianne, has flown the F-104 at Mach 2 and his other daughter, Marylyn, has a private pilot's license.

LeVier says he plans to fly aircraft for pleasure as long as he can pass the physical, "maybe 40 or 50 years from now."

Cafeteria Extends Hours Of Operation

Hours of operation for the Reese cafeteria have been extended, starting today, to 11:30 p.m. each weekday night. The cafeteria will be closed Sunday, unless pilot training is being conducted, Frank S. Morgan, base exchange officer, has announced.

STUDENT ACTIVITIES RECEIVING EMPHASIS IN PROGRAM OF DAY

Reese gates will be open tomorrow to thousands of visitors from the South Plains as the base is the focal point of the area in the 18th annual observance of Armed Forces Day.

Various military organizations are cooperating in displays and demonstrations during the 1 to 5 p.m. open house.

Training aircraft and other aircraft will be on display on the flight line during the afternoon, several buildings will be open for inspection and exhibits and displays are being assembled in Hangar P-82.

The afternoon will include a baseball game starting at 1 p.m. on Reese Field between the Reese Rattlers and Holt's Raiders, made up of Texas Tech players.

At 1:15 p.m. T-38 and T-37 jet aircraft will fly over the flight line in formation and a half hour later the Aerospace Rescue and Recovery crew, aided by firemen will extinguish a flaming black-smoke fire in a demonstration of how quickly local fire-fighters can move in and rescue persons who might be caught through accident. The HH-43 helicopter, which is on duty will be used.

Jumpers Perform

Scheduled for 2:05 p.m. is a parachute jump in which Reese men will perform free falls from aircraft overhead and land near the flight line.

The Texas Department of Public Safety is sending a crew to Reese for a 2:10 p.m. safety demonstration of safe driving practices, including speed for safe stops at various speeds.

The Lubbock Police Department is bringing some of its powerful German Shepherd dogs to Reese with their handlers to show how the K-9 Corps aids officers in trapping and holding suspected criminals.

Band To Play

The 50-piece Amarillo AFB band is scheduled to present a concert at 2:45 p.m. and another fly-by is planned for 3:15 p.m., followed by a second fire-fighting demonstration.

A softball game starts at 4 p.m. and there will be second parachute jump and safety demonstration.

The open house will close with the formal retreat at 5 p.m. in which student officers will stand retreat and the band will play. Visitors will be asked to assemble near the flag pole to participate.

Officers Named Regulars; Supply NCO Promoted

Two Reese officers were notified this week of their selection in the Regular Air Force and an airman was notified of promotion to master sergeant.

Taking the oath as Regulars were 1st Lt. Thomas K. Moore, Hospital supply officer, and 2nd Lt. Roger W. Hughes, student pilot.

Promoted to master sergeant, effective May 1, is James O. Varner of Base Supply. He came to Reese recently from PACAF and notification of his promotion was delayed.

Registration For Education Moves Rapidly

Registration for the on-base college education program summer term began May 12 and is continuing at a rapid pace, Jerry G. Willett, education services officer, has announced.

All military personnel desiring tuition assistance should visit the education office in Building 1033 immediately to initiate tuition assistance requests, he said, since school starts June 5, three weeks before the end of the fiscal year. The government pays three-fourths of military tuition.

"It is very important that the exact amount of funds required for tuition is cited on the contract with Texas Tech," Willett said.

Added to previously announced courses offered on-base by Texas Tech are courses in feature writing and economics.

Personnel interested in attending on-base high school courses also were invited to visit the education office to complete necessary forms and for consultation on courses desired. Classes start June 26.

Fly-Bys Feature Special Retreat

With the first clear sounds of "Retreat," visitors to Reese tomorrow will witness the United States Air Force ceremony for ending the official duty day.

At the close of every day retreat ceremonies are performed at the flagpole in front of wing headquarters to pay respect to the flag and to signify the end of the working day.

Armed Forces Day student officers will form a flight to perform the ceremonies at 5 p.m.

During the retreat ceremony, a formation of four T-38s and a formation of four T-37s will perform a fly-by. The aircraft will fly in the four-ship diamond formation.

The T-38 "Talon" is a supersonic jet trainer used at Reese in the Undergraduate Pilot Training Program. The jet provides student officer training in supersonic and multi-jet handling techniques.

The T-37 is a 400 mile per hour jet trainer used by the Air Training Command as a primary jet trainer. It is a twin-seater designed to enable the student and the instructor to work closer together.

FIRE—A fire suppression demonstration using the HH-43B rescue helicopter and a team of expert fire-fighting specialists is set for demonstration Armed Forces Day. (See Story Page 5).

COMMANDER'S COMMENTS

Welcome!

Col. Ernest T. Cragg

On this Saturday, we hope that our many friends and neighbors of the South Plains area will visit Reese AFB to observe the nation's eighteenth annual celebration of Armed Forces Day.

Armed Forces Day gives us in the military an opportunity to show the people of the community how we have progressed and what we've accomplished in the past year. It is also a day when the citizens of our country have a chance to give the men of our Armed Services the honor and recognition which they so richly deserve.

This year our program will be different. Instead of bringing in many different types of aircraft for display, our emphasis will be placed on our local day-to-day activities. In support of our theme, "Power for Peace" each segment of the Armed Forces in the local area will be on hand to help meet the visitors. With everyone's help, we will be able to give a fully comprehensive and realistic report to our friends and neighbors.

Let each of us enthusiastically fulfill the role of host and provide an interesting, safe, and highly beneficial Armed Forces Day 1967.

Power For Peace

"Power for Peace"—when first adopted as the official Armed Forces Day slogan, it was little known that this phrase would be vividly demonstrated in the sweat, tears and blood of American servicemen seeking peace in the defense of a small Southeast Asian nation called Vietnam.

"Power for Peace" was a term meaning an American armed force at the ready—ready to meet and repel any act of aggression anywhere in the world at anytime when directed by the President. It was a slogan born in an uneasy period when it was hoped that America's powerful armed services would act as a deterrent to aggressors.

As Americans the world over prepare to celebrate Armed Forces Day May 20, more than 400,000 U.S. servicemen are bringing to the enemy in Vietnam the meaning of that slogan.

The Armed Forces Day theme is "Armed Forces Report to the Nation"—a report which is carried daily in the dispatches from Vietnam where the United States is at work in a bloody conflict to stop another act of aggression.

It is symbolized by the peace-preserving presence of our Armed Forces in faraway places—in Europe, the Arctic, the Pacific, and other regions of the world.

President Johnson in his Armed Forces Day message points out that nowhere is America's dedication to the love of freedom "reflected more vividly than in the Armed Forces of the United States."

Termining America's military establishment "the mightiest of all time," the President said that this would not be the case, that this mighty arsenal "would give us neither peace nor security without the devotion to duty, the courage and sacrifice of the men and women who wear our country's uniform."

"In Vietnam—and around the world—they perpetuate the ideals which made and preserve us as a nation," President Johnson said.

Dedication . . . devotion . . . courage . . . sacrifice—this is the serviceman's report to his nation. It is a report written clearly among the rattle of small arms fire, the thump of mortars and cannon, and the earth-shaking blast of falling bombs. It is a report that hopefully will demonstrate once and for all the meaning of "Power for Peace." (AFNB)

Greater Cuts In Cost Asked In Operations

An urgent plea for a sharp step-up in Cost Reduction activities at Reese was urged this week by Lt. Col. Clifton E. Wiswall, wing comptroller and Cost Reduction project officer for operating expenses.

Reese lacks \$11,100 of reaching the cost reduction goal of \$47,000 in operating expense savings," the colonel said. "To make this goal, immediate supervisors are asked to get with their personnel in a brainstorming session to get ideas from the past year's operations suitable for cost reduction reports.

"Have brain storming sessions now with your personnel. Review all of your operating changes during the past year. List them and discuss them with B. P. Holland, chief of management analysis, Extension 781. He will help you identify those changes which are operating expense cost reduction items.

"Supervisory brainstorming sessions should assure a long list. Act now, because cost reduction forms must be finalized through the resident auditor to the wing monitor, Col. William J. Kilpatrick Jr., by June 10.

"Do it now; help Reese make its goal in operating expenses.

OJT Needs Push From All Levels To Gain Success

Records show that about 95 percent of airman training in the Air Force is accomplished through on-the-job training (OJT) and the importance of this area to aerospace effectiveness cannot be over-emphasized.

Whether an airman is high in production and does his work well rests mainly on OJT these days. Upgrading comes with passage of the Specialty Knowledge Test (SKT).

The passing average at Reese is not among leaders in Air Training Command. In fact, it is far from the top, which indicates there is plenty of room for improvement.

Section supervisors and trainees share in the program. Supervisors to make OJT successful must counsel and instruct and give aid to the trainee to see that he studies. The trainee, most certainly, must take his training seriously and follow sound training practices.

When this is done well, the trainee moves up and becomes more competent, the supervisor gets satisfaction as his men advance through his efforts, and the Air Force as a whole becomes stronger.

LT. ANDERSON

Young Officer Earns Honors

First Lt. Ronald G. Anderson of Flight I-2 has been named Instructor Pilot of the Month for April in the 3500th Pilot Training Squadron.

His motivation and dedication were praised by Col. William E. Shelton, squadron commander, and his interest in his students was lauded. The lieutenant's high rating on check rides also was cited.

Lieutenant Anderson also was praised for managing flight scheduling effectively and for outstanding briefing of students.

The lieutenant also was lauded for tackling extra duties with enthusiasm and with filling duties of senior mobile controller officer with efficiency.

"I consider Lieutenant Anderson to be an outstanding instructor pilot," said Colonel Shelton.

Armed Forces Day Prayer

God, of our fathers, who hast made us heirs of brave and faithful men and women, accept, we pray Thee, this Armed Forces Day, our humble gratitude for the boundless blessings which they have bequeathed to us. Grant that we may prove worthy of their heroism and sacrifice.

We commend to Thy keeping all who are serving in our Armed Forces on land, sea and in the air. May Thy gracious Providence watch over them and guide them to victory and honor in defense of our nation and principles. In all things may they know Thy power and presence.

We thank Thee for the innumerable spiritual and material resources of our servicemen in their struggle for a just and lasting peace. Make us mindful of our own responsibilities to mankind. Be our refuge and strength so that on all battles of life we may be valiant in our service to Thee and our beloved country. Amen.

—Armed Forces Chaplains Board

Chief Voices Pride

On Armed Forces Day this year, I would like members of the Air Force to know of my boundless pride in them. I am deeply grateful not only to those who have carried out their assignments in the mud, the jungles and the murky skies of Southeast Asia, but also to the thousands at home and abroad whose selfless devotion to duty has provided the support essential to the attainment of national goals throughout the world. Above all, while I am most humble in the face of their supreme contribution, at the same time I am proud beyond measure of those who have laid down their lives at their country's call. We will never forget their sacrifices or the irreparable losses suffered by the families and friends they left behind.

—Gen. J. P. McConnell, USAF Chief of Staff

When on foot, remember it's better to be a patient pedestrian than a pedestrian patient.

Lieutenant Takes Procurement Job

First Lt. John L. Kreideweis this week became chief of the Reese Procurement Division as Lt. Col. Joseph V. Sullivan was reassigned to headquarters of Air Training Command. The colonel and his son left Wednesday.

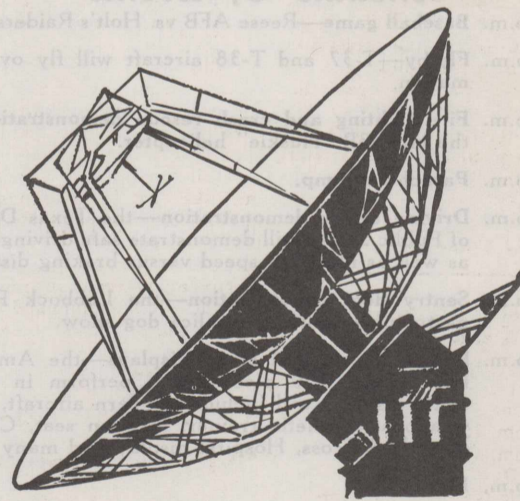

Lieutenant Kreideweis, who has been assistant procurement officer since coming to Reese in August 1964, is from Union, N.J., and is a 1964 graduate of Colby College. He was commissioned through Air Force ROTC and is serving his first assignment here.

Under the United Nations Development Program, at least 37 technical assistance programs are being implemented in South Vietnam this year.

Rattlers Meeting Raiders Saturday

As part of the Armed Forces Day festivities on base the Reese Rattlers will play Holt's Raiders at 1 p.m. on Rattler Field. The Raiders are composed of Texas Tech varsity and freshmen baseball players and were runners-up in the Texas State NBC Tournament last year. The Raiders are coached by Kal Segrist, Tech's varsity baseball coach.

Either Ken Hyde or Fred Olmsted will get the nod on the hill for Reese and the rest of the lineup will probably be: Jim Bitterman, catcher; John Kreideweis, first base; Chico Reyes, second base; Chino Temblador, shortstop; Ron Rubin, third base; Roger Legg, left field; Charles Westpoint, center field and Ron Chesshir, right field.

There are still openings on the team for qualified ball players. Anyone interested in coming out may call Capt. Hugh Mulligan at Extension 256 or Lt. John Kreideweis at Extension 314.

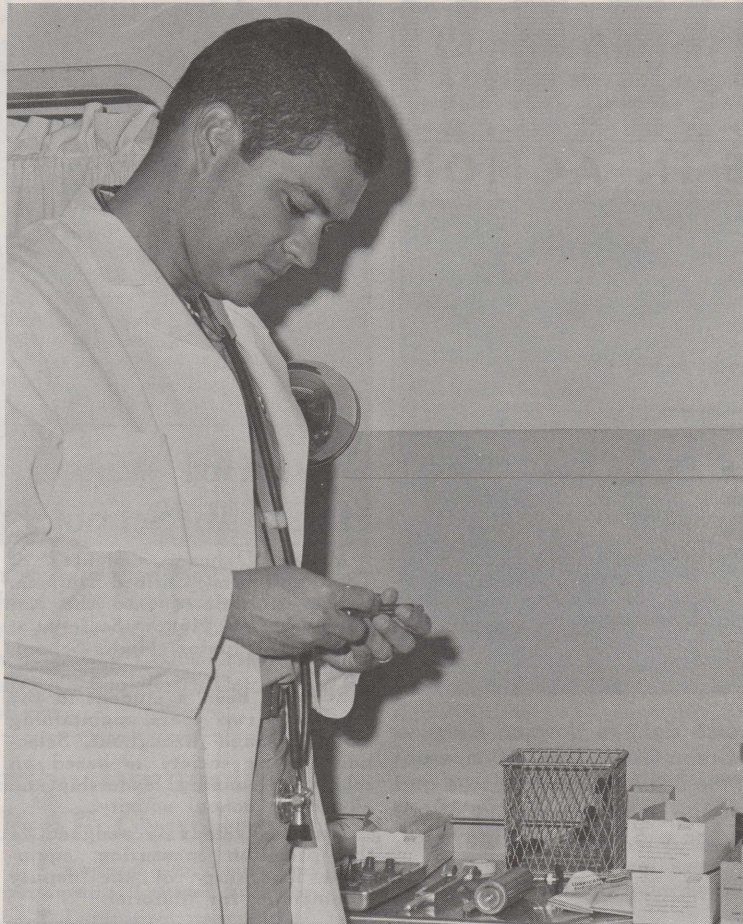

SAFETY LAUDED

McGUIRE AFB, N.J. (AFNS)—The 12th Aeromedical Airlift Squadron was honored here for completing 17 years of accident-free flying. Serving Government hospitals on the East Coast, it airlifts patients in four Convair C-131A Samaritan transports.

NEW ARRIVAL—Capt. Roberto E. Cruz, new general medical officer in the Reese hospital, prepares a syringe in his office in the Clinic. The doctor is a citizen of Costa Rica.

Costa Rican Physician Joins Reese Hospital General Staff

Capt. Roberto E. Cruz, USAF, a citizen of Costa Rica, has started duty as general medical officer in the Reese hospital.

At age 17 the captain went to Mexico D.F. and began medical studies in the National University of Mexico, graduating in 1964.

Captain Cruz spent one year of internship in Costa Rica, Central America, and a year each of internship and general surgical residency in Mercy Hospital in Denver.

In his second year of general surgical residency at Mercy, the captain was drafted into the U.S. Air Force and directly commissioned by provisions of an agreement between Costa Rica and the United States.

While at Mercy Hospital, he met Darlene M. Gossage of Colorado Springs, Colo., a student nurse, and in January 1966 the couple was married.

Dr. Cruz had planned to return to Costa Rica and enter the teaching ranks after his tour of duty in the United States was over.

However, with the advent of marriage and a 6-month-old son, Robert E. Jr., the doctor and his wife are undecided as to their future plans.

In comparing medicine between the United States and Latin America, the captain cited the fact that "there is more variety of diseases in Latin America because of the socio-economic conditions of the people."

"There is more need for medical attention in Latin America," the captain concluded.

Reese Youth Earns Maritime Academy Class Appointment

Kieran D. Holland, son of Mr. and Mrs. Brendan Holland of Reese, seems headed for the U.S. Maritime Service Academy at Kingsport, N.Y.

He was notified Monday that, pending approval by the Navy, he is to report to the Academy July 23 as principal appointee of Rep. Phillip Filbine of Massachusetts.

Young Holland, senior in Coronado High School, Lubbock, transferred to the school this semester when his family moved here from Franklin, Mass. His father is chief of management analysis for the wing comptroller, coming from Massachusetts in January.

Kieran will be a midshipman in the U.S. Navy Reserve.

Reese, Others Bases, Start Training Marines As Pilots

The Air Force will train 100 pilots annually for the Marine Corps, at the request of the Department of Defense, with Reese having a hand in the program.

Training begins in June when 16 Marine student pilots enter training at Air Training Command undergraduate pilot training bases. Reese is being assigned one of the Marines, effective June 21.

Additional groups of 16 Marine students will go into Air Force training at six week intervals and Reese will be assigned additional members of the 100.

A program of Marine 100 pilots trained by the Air Force annually

is planned through the next three years.

The Marines will receive 53 weeks of instruction, during which they will fly 30 hours in the Cessna T-41, 90 hours in the Cessna T-37 and 120 hours in the Northrop T-38 Talon. In addition, students receive 593 hours of academic and officer training.

Following graduation from the Air Force training, Marine pilots will be assigned to Marine operational units and will be checked out in assigned aircraft and receive weapons delivery training, and field carrier landing practice required for operations from expeditionary airfields.

'Each Man Contributes'

Armed Forces Day, above all, honors the dedicated individuals who wear the uniforms of their country. Each serviceman, wherever he may be, whatever his task, contributes directly and importantly to the defense of the nation. The task of each one is the task of all the Armed Forces: to protect the freedoms which underlie the greatness of America.

Gen. Earle G. Wheeler, USA, Chairman, Joint Chiefs of Staff

Military Saluted

Today, the men and women of the Navy and Marine Corps, along with their sister services, are deployed throughout the world to protect and extend the cause of freedom. Their dedicated sacrifices are living testimony of a determination to resist any threat to free men. On Armed Forces Day 1967, I am proud to salute the men and women of our military services.

—Paul H. Nitze, Secretary of the Navy

Record Turn-Out Sets Rodeo Mark

The Bicycle Rodeo for Reese youth held on the Mathis Service Club premises Saturday proved to be highly successful.

The largest group of children, in Reese history, 116 in all, participated in the annual affair.

The total turn-out in previous years was always never more than 30. Edwin L. Hall, youth center director, said it will be another week before all the results can be tabulated because of the unusually large turn-out.

Children, ages 5-13, had their bicycles registered; and were briefed on bicycle safety by members of the Lubbock Highway Patrol, Security Police, Joseph Lopez, ground safety officer, and Hall.

On the Service Club parking lot the children were put through a series of maneuvers using their bicycles to ascertain their ability to ride.

A boy and girl in each of the following age categories will be designated a winner: 5-7, 8-9, 10-11 and 12-13.

Family Service Has Open House

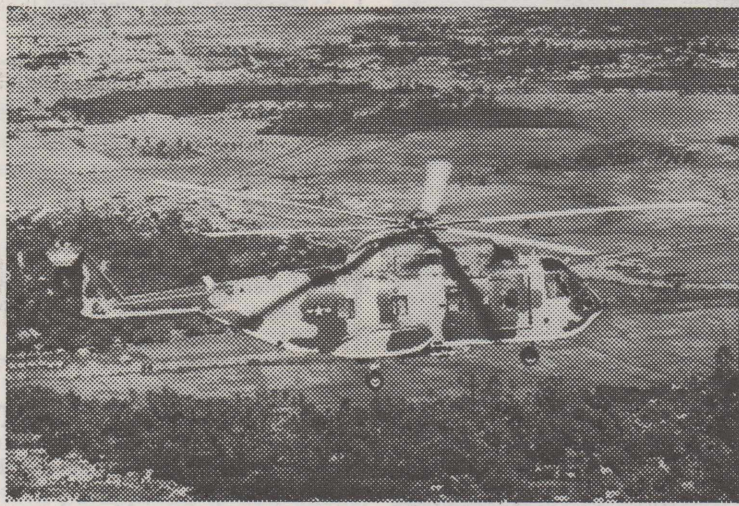

The Reese Family Service Center will hold open house from 2 to 4 p.m. Tuesday in observance of the 10th anniversary of Family Services in Air Training Command.

All Reese personnel, their families and friends interested in visiting the center are invited. Services available in the center will be shown and discussed with visitors and inquiries on how volunteers may assist in the program.

Unclaimed Baggage Grows In Vietnam

TAN SON NHUT AB, Vietnam (AFNS) — Unclaimed and lost baggage continues to pile up at the 8th Aerial Port Squadron here. Lack of accompanying documentation in the form of tags, labels or orders has hindered efforts to trace ownership. To help alleviate this condition personnel destined for South Vietnam are asked to augment visible baggage markings with a copy of travel orders inside each piece.

VIETNAM THE AIR FORCE IN ACTION

SEARCH AND RECOVERY—A welcome sight to downed flyers in Vietnam is the Sikorsky HH-3E Jolly Green Giant. This 150-mile-an-hour helicopter, assigned to units of the 3rd Aerospace Rescue and Recovery Group, recovered 113 aircrew members during 1966. The HH-3E can carry 25 passengers or a 5,000-pound payload. (AFNS)

Music Originating In Barracks Wins Regular Spots On Local AM Radio

Reese radio fans who happened to turn their AM radio dial to 1090 kilocycles this past week may have been surprised to know that the melodious strains of music and commentary flowing from their sets originated from a third floor room of barracks #420.

A2C Robert DeVita, Field Maintenance Squadron, acquired a temporary third class Federal Communication Commission license broadcast endorsement to operate a limited signified output circuit.

With the help of would-be disc jockeys A3C Tony Buchalski, A3C Patrick Wilson, A3C Rick Rickman, and A3C Melvin Faber, a local radio show covering the base and Reese Village was formulated after permission had been obtained to temporarily house the equipment in the barracks.

Air time weekdays is 5 p.m. to midnight and from 2 p.m. to midnight on weekends. "Rock and roll" is on the agenda for afternoons and early evenings while "soft music" predominates after hours.

The group records tapes at the Mathis Service Club Thursday record hops and plays them over the air at later times.

The station designation is WBDJ.

Reese Girl Wins Honor In School

Margie Duncan, daughter of TSgt. and Mrs. Clifford Duncan, has been initiated into the National Junior Honor Society at Mackenzie Junior High School, Lubbock.

She has been a student in the school for two years, maintaining an A average throughout. Selection in the society is based on scholastic standing, leadership and all-around school activity.

Margie's father is assigned to the precision measuring equipment laboratory of the deputy commander for Materiel.

USAF Reallocates Promotion Quotas

WASHINGTON (AFNS) —The Air Force has reallocated quotas for 716 airman promotions to 15 major commands to be effected during the first cycle of the 1968 fiscal year. The quotas include 414 to airman first class, 184 to technical sergeant and 118 to master sergeant. These represent unused quotas from the May 1 cycle.

Caution On Danger Of Grease Fire, Outdoor Cooking Given By Director

Backyard cooking should bring increased attention to averting serious burns, Joe J. Lopez, ground safety director, pointed out this week in urging caution.

He cautioned all users of barbecue pit liquid starters to not shoot the highly flammable starter into the pits if there are sparks or flames.

He also cautioned against burning grease and dangers from burns if people around do not keep their heads.

"Grease sometimes catches fire in the kitchen or outdoors during cooking," Lopez commented. "If everyone keeps calm and acts properly, dangers are reduced." Lopez listed three "don'ts: don't

panic, don't try to use water to put out grease fires; don't attempt to move burning receptacles.

"Do eliminate the source of the fire, that is, turn off the gas if indoors; do try to smother the flames by use of a lid on the pan or through use of baking soda; do use a suitable fire extinguisher if possible."

Lopez added that due caution will prevent grease fires from starting.

Medical care in South Vietnam is provided by 23 medical and surgical teams from a dozen nations, not including the United States.

PLAUDITS FOR AIRMAN—Honors were heaped May 11 on A1C Gerald K. Collins, (third from left) upon his designation as Reese "Airman of the Month" for May. Mayor W. D. "Dub" Rogers (right) congratulates the airman at a City Council meeting as the airman's wife and Capt. Russell C. Buol (left), Communications squadron commander, look on.

Famous Aircraft

A famous T-38 Talon, the jet aircraft which flew the millionth hour of pilot training in Air Training Command, is a part of the Reese undergraduate pilot training program inventory.

The aircraft which has been assigned to Reese—No. 38228—was flown on the millionth hour by Lt. Gen. Sam Maddux Jr., ATC commander, at Randolph AFB Jan. 26.

The general aided in first work on designing the T-38 in 1958 and was active in the program when first construction was started in 1961.

No. 38228 is in the air for Reese every day of training and had 1,315 hours when it started this week's work.

Commander Proud

Just as Armed Forces Day is a time when tribute is paid to our military establishments, it is also a time for us to rededicate ourselves to the tasks for which we are responsible—maintaining the peace and security of all free nations.

We in Air Training Command can be justly proud of our contributions. Regardless of the challenges faced, we have continued our eminent success in providing professionally trained personnel to maintain a highly efficient Air Force.

There will be future challenge, but I have every confidence that the dedication and devotion to duty that ATC personnel have displayed will continue to prevail. We can rest assured that our accomplishments are vital to the protection of the heritage of freedom we enjoy and to the struggle for peace throughout the world.

—Lt. Gen. Sam Maddux Jr., ATC Commander

Servicemen Saluted

Armed Forces Day is an appropriate time for all of us to extend to the men and women of all the Armed Services our appreciation, gratitude and respect, not only for their sacrifices in Vietnam, but for their constant guardianship of freedom and justice throughout the world.

I salute with pride the men and women of the United States Air Force, as well as the members of the Army, Navy and Marine Corps, who serve beside us in our common purpose.

—Harold Brown, Secretary of the Air Force

Overhaul Of Motivation Counseling Recommended By USAF Conference

LANGLEY AFB, Va. (AFNS)—An overhaul of Air Force career counseling was a major recommendation at an Air Force-wide career motivation conference here.

Three panels, made up of senior commanders from all major commands, personnel officers and air staff representatives, studied career motivation management and concepts and officer and airman career development.

Recommendations include:

- Establish career counseling specialty under the personnel career field.
- More emphasis on the role the Air Force wife plays in her husband's career intentions.
- Positive action to insure that their job and how it fits into the all Air Force members understand overall mission of their unit and the Air Force.
- Eliminate active-duty service commitment incurred by officers taking off-duty or Air Force Institute of Technology short courses.
- Eliminate commitment for Reserve officers beyond separation date as a result of involuntary attendance at any course.
- Improve Regular Air Force integration program for Reserve officers.
- Utilize expanded officer career preference statement for possible career field change after a specified period of duty in a specialty.
- Six-year reenlistment after initial four-year enlistment.
- Early discharge for reenlistment at the end of 30 months serve. Settle leave and travel pay in conjunction with this and other early discharges for immediate reenlistment.
- Movement of household goods and families airmen second class selected for early discharge and reenlistment.
- Promotions of airmen with five-level skill to airman first class not later than the time they are selected for career status.

- Expand proficiency pay and rename it "Critical Skill Pay."

- Lump-sum payment of variable reenlistment bonuses at request of reenlistee.

- Seven-level tests for outstanding airmen first class, other qualified.

All recommendations were forwarded to Air Force for further study.

DOD Plans Uniform Allowance Of Food

WASHINGTON (AFNS) — A uniform food allowance for enlisted members of the Air Force, Army, Navy and Marine Corps, has been directed by the Department of Defense effective July 1.

The action marks the first time enlisted personnel of all branches of the armed forces will have essentially the same ration entitlement.

MODEL MEET SET

LACKLAND AFB, Tex. (AFNS) —The Air Force Worldwide Model Airplane Championships will be held here July 12-16. Individual awards will be presented to winners in 16 categories.

Contest Expands Change Of Winds Knowledge Here

A PIREPS contest has been launched by the Reese Weather Detachment between pilots and students of the 3500th and 3501st Pilot Training Squadrons in efforts to secure wider information on wind changes, Capt. Ronald Gauss, weather officer, has announced.

Starting Monday, tabulation will be made of all pilots reports made by members of the two squadrons, with honors going to those making the most reports per month.

Captain Gauss said that reports on wind shifts at all levels of the atmosphere are highly important in weather briefings for flights and safety may be greatly extended through knowledge on changes in winds from what had been expected.

Pilots are being asked to report on winds as soon as any change from forecasts are noted.

Wider 1505 Use Now Allowable

WASHINGTON (AFNS) — Arrival of spring is followed annually by daylight savings time and, for Air Force members, an option of wearing short-sleeve shirts with their tan 1505 uniforms. While no change is anticipated for the former, some rules of moderation as to when and where the open-neck 1505s can be worn have been sent to major commands.

Since its arrival on the Air Force scene, the casual 1505 uniform has been considered solely duty attire. While local enforcement varied from base to base, the cotton-polyester uniforms basically were not to be worn outside the duty station, except going to and from work.

Under new rules, off-base wear will not be as restrictive in seasonal periods designated by local commanders. Also seasonal restrictions will not apply to persons in travel or leave status within the United States, thus permitting wear of 1505s aboard commercial transportation facilities, previously taboo.

LATEST IN TRAINING—There was a time when parachuting fears plagued Air Force pilots . . . now with the use of the para-sail, actual parachuting experience with the highest safety standards allow the student pilot to "feel" parachuting before an emergency arises. The new system is a part of the Air Training Command pilot training program at Reese. Para-sailing will be demonstrated Armed Forces Day.

'Copter, Firemen To Put Out Fire

When it comes to putting out fires . . . the United States Air Force doesn't waste time.

With the unique use of the HH-43B rescue helicopter and a special fire-fighting chemical, Air

Reese personnel have been asked to wear Air Force uniforms on base tomorrow for Armed Forces Day, whether they are on duty or not. Wearing of 1505s will be acceptable, officials state. Presence of hundreds of men in uniform will enhance the day's observance.

Members of Reese's Detachment 13, Western Air Rescue Center and fire-fighters from Reese's base fire department, will deliberately ignite a large jet-fuel fire.

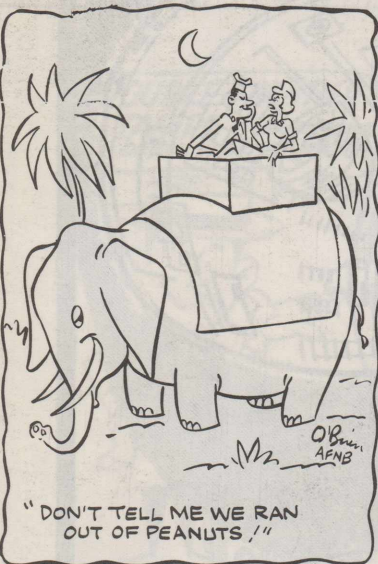

Utilizing the highly maneuverable and stable HH-43B "Huskie," the rescue helicopter pilots will hover dangerously close, using jet-propelled blades of the helicopter to whip the flames away from the fire fighters.

Force fire-fighting specialists can put out a massive fuel fire in minutes.

South Plains area residents will get an opportunity to see this fast reaction work during Armed Forces Day Open House, 1 to 5

SHOOTERS QUALIFY

A dozen Reese personnel have qualified for the Small Arms Expert Marksmanship Ribbon. They are Capt. Gary D. Arnold, Capt. George A. Carson, Capt. Thomas G. Deniston, Capt. Richard D. Fagley, and Second Lieutenants Bodie R. Bodenheim, John C. Clark, Mark M. Cleaves, Thomas G. Collins, James W. Eaves, John M. Finnegan, Robert F. Fowler and Michael A. Freitas.

Personnel Will Participate In National Driver Testing

All Reese personnel—military and civilian—are being urged to participate in the 1967 National Drivers Test to be televised at 9 p.m. Tuesday by the Columbia Broadcasting System over KLBK-TV, its Lubbock outlet.

Reese officials are joining officials in Headquarters, U.S. Air Force, and Lt. Gen. Sam Maddux Jr., Air Training Command commanders, in backing the program which in 1966 secured the largest participation of any public service feature on the air.

Test papers for the National Driver Test are being distributed through Reese unit commanders and may be secured, also, in the wing safety office. For the first time this year, Reese results will be forwarded to USAF Headquarters for comparison with test papers from other bases. Last year Reese drivers scored high.

Starts Campaign

A special group of 30 persons has been designated to take the test in the wing safety training room.

The program, scheduled three days before the start of the Air Force "101 Critical Days" accident prevention campaign has three

objectives: to persuade people to drive defensively, to enroll people in defensive driving courses and to provide important data for future research projects.

Follows Pattern

The 1967 test, the third sponsored jointly by the National Safety Council, CBS and Shell Oil Company, is being developed from the council's defensive driving course. It will follow the pattern set by previous programs, but is to cover areas not included in earlier programs. Listeners will tabulate answers to situation questions.

Sequences on winter driving hazards, mountain driving, school buses, motorcycles and driving distractions will challenge the viewer's natural driver reactions.

USAFE Squadrons Returning To U.S.

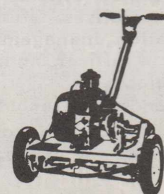

WASHINGTON (AFNS)—Four squadrons of McDonnell F-4C Phantom aircraft stationed in Germany will return to the United States under a U.S. proposal presented to the North Atlantic Treaty Organization Defense Planning Group in Paris. Some 96 aircraft would be involved.

ATC Will Train Pilots For TAC

HQ. ATC (ATCPS) — A detachment has been organized by Air Training Command at Cannon AFB, N.M., to provide F-111A weapon systems training (Mark I) for pilots of Tactical Air Command. Capt. Larry Clever, formerly of Reese AFB, is a member of the training faculty.

Designated Detachment 2 and assigned to headquarters of ATC's 3535th Navigator Training Wing at Mather AFB, Calif., the unit will conduct a course designed to qualify TAC pilots to perform the duties and responsibilities of the right seat position in F-111A aircraft.

Aggies Gathering For Get-Together

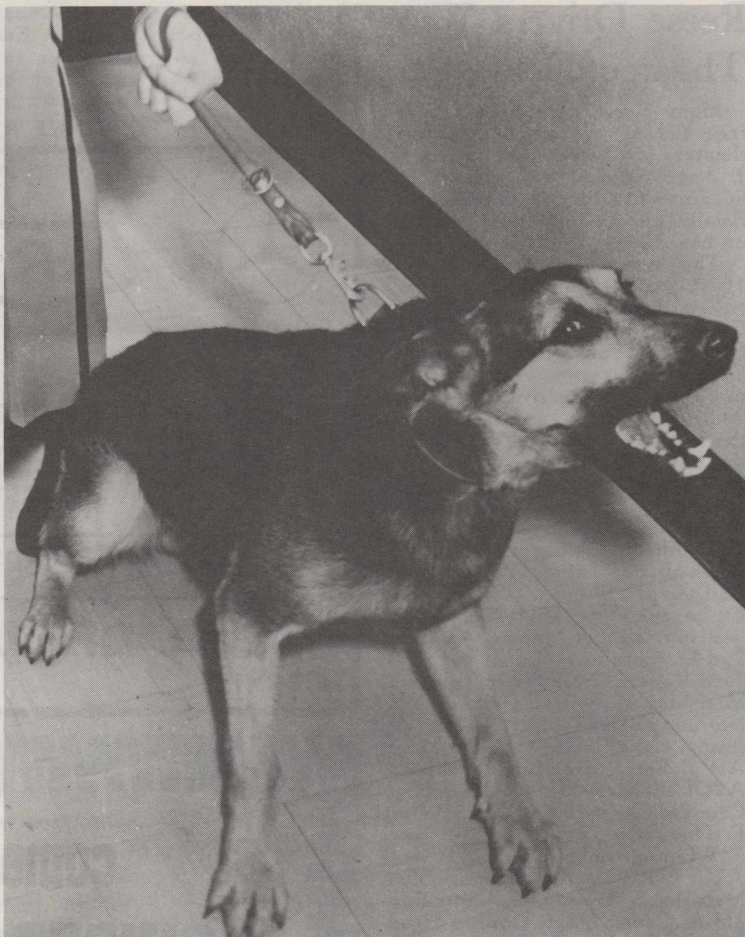

Graduates of Texas A&M University at Reese are invited to the annual get-together at 6:30 p.m. today in the Lone Star warehouse south of Lubbock, Charles Gibson, project officer, has announced.

The Lone Star Sportsman films will be shown and free barbecue and refreshments will be served.

The warehouse is on Farm Road 1585 a quarter mile east of the Tahoka Highway five miles south of Lubbock.

KOREA GETS F-5s

SEOUL (AFNS)—Five Northrop F-5A Freedom Fighters were delivered to the Republic of Korea Air Force here as part of a continuing program by both countries to modernize Korea's military forces.

SNARLING TEETH—Set in snapping jaws with 45 pounds pressure . . . these are the trademarks of a Lubbock Police dog. Six of the huge German Shepherds, with their Lubbock Police Department handlers, will perform at Reese during Armed Forces Day.

Police K-9 Corps Sets Performance

The K-9 Corps of the Lubbock Police Department will perform a demonstration at Reese, Armed Forces Day.

Residents will be able to see six German Shepherd dogs display their strict obedience to their handlers. The dogs will scale 6-foot and 10-foot walls to show their ability to overcome obstacles.

During the attack demonstrations, one dog will stand guard while an officer searches two "prisoners." The dog will continue to guard the prisoners while the officer leaves. On a signal from the officer, the prisoners, clad in protective clothing, will move and

the dog will attack without command.

During the demonstration several of the officers' children will approach one of the dogs and play with it. Then another officer, not in uniform, and therefore a stranger to the dog, will unsuccessfully attempt to approach it. The dog although trained to attack upon command, is only a friendly pet in the home of the officer he works with.

Officers Don Dye, Jim Little, Allen Hall, James DeVillie, Kenneth Carley and Jack Beckham of the Lubbock Police Department will be the handlers in this demonstration.

Reese Rod, Gun Club Maps Programs

The Reese Rod and Gun Club put the finishing touches to its constitution as requested by higher headquarters at a meeting at the NCO Club. At the same time the office of secretary was filled when MSgt. Albert Battistoli was elected by the members present.

The club is led by CMSgt. James A. Hare as the president. Sergeant Hare presided at the Monday night meeting and has been a prime organizer of the new club.

Other officers of the club are SSgt. Theodore Dobkins, vice president; MSgt. John R. Linder, treasurer; SSgt. Selmer Halvorson, executive officer, and Capt. Richard Boudreau, business manager. A Junior Rifle Club is one of

many activities planned by the club in the very near future.

Committees were appointed to initiate and supervise the various club activities. The committee chairman are SSgt. Jerry Sanders, smallbore rifle; SSgt. Bill Myers, high power rifle; TSgt. Charles Ashcraft, pistol; TSgt. William Pulliam, skeet; SSgt. Clarence Wood, archery; MSgt. William Foster, fishing; TSgt. Franklin F. Fish, hunting. The chief instructor is N. T. Conner.

People who have submitted applications to join the club may pay their dues to Sergeant Linder at Security Police Headquarters.

The next regular meeting will be June 12. Visitors and new members are welcome to attend.

Movies Support Call Theme In May

WASHINGTON (AFNS) — A the-years buildup of the Communist Chinese threat.

Smaller bases in the United States will view "Their Choice Was Freedom," 28 minutes of true-to-life examples of people who chose to flee the rule of communism.

A 10-minute film, "Crusaders in the Sky," recalls the films taken during the First World War, the exploits of the original combat pilots.

Overseas bases will feature a 29-minute black and white documentary "Red Chinese Battle Plan," which tells of the through-

Available to all Air Force audiences in May is the monthly Air Force News Review with a report on Air Force operations in Southeast Asia and Vice Chief of Staff Gen. Bruce K. Holloway's appearance at the Outstanding Airmen dinner at the Air Force Association convention in San Francisco.

WING SAVINGS BOND PARTICIPATION

BOND STANDINGS—Above is shown progress of the annual U.S. Savings Bond sales campaign in Reese units. Hope is held that all totals will continue to move upward.

Reese Bond Sales Out Front In Annual Campaign Of ATC

The annual U.S. Savings Bond campaign at Reese is almost the highest in Air Training Command in sales, Col. Ernest T. Cragg, wing commander, has been advised. Only Sheppard AFB has a better record.

As of May 12, \$10,300 worth of Freedom Shares had been sold here under the payroll deduction program — \$4,300 to prior E Bond purchasers and \$6000 to new payroll deduction participants, Lt. Col. Clifton E. Wiswall, project officer, reported.

A total of 53 allotment applications had been processed, representing sales to 413 military and 119 civilian personnel.

Increase Overall

Reese's participation on May 12 had increased by 20 per cent overall for 47 per cent at the start of the campaign. Military participation moved from 46 to 66 per cent and civilian from 48 to 69 per cent.

Large organizations, it was pointed out have the greater selling challenge because strength is composed of airmen third, second and first class, but "are doing well under adversity."

"Prospects at this point for Reese to complete the drive in the No. 1 spot in ATC look good," Colonel Wiswall said. "However, the outstanding effort already displayed in support of the campaign must continue through May 31."

Credit Given

Colonel Wiswall gave credit to the campaign's success to key workers in each unit.

Workers with starting and May 12 percentages are: 1st Lt. Arnold Leachman, Air Base Group, 50 to 67; Capt. Thomas J. Davies, Field Maintenance, 44 to 59; Capt. William J. Hubbard, Organizational Maintenance, 45 to 66; 2nd Lt.

Charles N. Campbell, Supply, 50 to 61; Maj. F. W. Staugler, 3500th PTS, 52 to 91; Maj. Robert J. Mauel, 3501st PTS, 72 to 94; Maj. Forrest B. Fenn, Student Squadron, 55 to 92; 1st Lt. Michael M. Gherardini, Hospital, 61 to 86; 1st Lt. Jerome A. Landry, Communications, 52 to 62; Capt. H. A. Solberg, Rescue, 40 to 100; 1st Lt. John L. Benyak, Management Engineering, 56 to 100; 1st Lt. Jerry Knezel, Resident Auditor, 33 to 83; and 1st Lt. Melvin D. Mathews, 19 to 38.

Cadet Exchange Plan Continued

ELLINGTON AFB, Tex. (AFNS) — Civil Air Patrol's International Air Cadet Exchange gets underway in July with 18 foreign countries participating in the program.

The Exchange, cited as one of this nation's outstanding projects for promoting better understanding among youth of the free world, marks its 20th consecutive year this summer.

Countries programmed to participate in the 1967 Exchange include 10 European countries; Norway, Sweden, Denmark, the Netherlands, Belgium, West Germany, France, Switzerland, Austria and Luxembourg; five Latin American countries; Costa Rica, El Salvador, Chile, Peru, and Ecuador, plus Turkey, Canada and Great Britain.

VACANCIES PRESENT

NELLIS AFB, Nev. (AFNS) — The Thunderbirds Air Demonstration Squadron is seeking officers for duty as maintenance officer, demonstration pilot and narrator.

Reese Drivers Win Theater Tickets

Many Reese personnel received free tickets to Lubbock drive-in theaters last week as AIC Donald J. Angersame of the Security Police investigation department officially checked on seat belt use on-base.

The airman stopped cars May 10, 11 and 12 and gave out free tickets donated by the Red Raider, Golden Horseshoe and Western Drive-Ins. The program will be continued for two weeks and numerous other drivers — those whose seat belts are fastened as they drive on-base — will be awarded tickets.

Receiving tickets May 10 were 2nd Lt. Gary Close, 2nd Lt. Alvin Schweizer, AIC Patrick Price, A2C Michael Neelson, AIC Rudolph Buday, SSgt. William Colwell, Capt. Joseph A. Breen, 2nd Lt. Larry Phelps, SSgt. Neil B. Haliburton, CMSgt. James A. Hare, 2nd Lt. Charles A. Lancaster, Mrs. Judy Rogers (husband in Taiwan), Mrs. Judy M. Soilead (wife of A2C Norman Soilead), AIC Glenn D. Brady, Capt. James C. Liller, SSgt. Art Bohers, Mrs. Linda Johnson, AIC Richard T. Taylor, SSgt. Eduadro Quijada and Mrs. Bonnie F. Howard.

Winning tickets May 11 were AIC Billy D. Richardson, SSgt. Malcolm E. Woodman, Capt. Ronald S. Gauss, MSgt. Gordon Headley, A2C Allen E. Compton, 2nd Lt. Barry L. Strauss, SSgt. Denis G. Moore, AIC Shell Simon, Mrs. Sandy Carter (wife of AIC Robert Carter) and TSgt. Robert S. Dunn.

Awarded tickets May 12 were Mrs. P. Turnbull (wife of SSgt. Dennis Turnbull), SSgt. Eldon L. Mattison, 2nd Lt. Jim R. Wilder, 2nd Lt. Thomas K. Moore, AIC William J. Morris, Mrs. Ann Dinning (wife of Capt. Otis Dinning), 2nd Lt. F. S. Smith, SSgt. Jerry O. Smart, Capt. Walter L. Haug and A2C John E. Herthomp.

Airman Honored For Achievement

A2C Jimmy B. Nelson of the synthetic trainer section has been recognized as an honor student in the instrument trainer specialist course at Chanute AFB, Ill.

The airman, presented with a letter of recognition by Col. William C. McGlothlin Jr., completed the course with a final ATC Standard Score Grade of 91.

"He demonstrated desirable qualities of leadership, loyalty and dependability while maintaining an excellent record of conduct both in school and squadron," said the letter from the training chief.

Key Punch Machine Elimination Saves

Elimination of an unneeded key punch machine in the Reese base supply organization has brought a \$63 per month Cost Reduction Program saving to the base. Saving of \$1879 was effected for the final quarter of fiscal year 1967 and \$756 for fiscal year 1968 and the same amount for FY 1969.

A survey showed the UNIVAC 1050-II effectiveness had increased and the machine was no longer needed. Rent for each machine is \$63 per month.

SUPERVISORS TO MEET

ITHACA, N.Y. (AFNS) — An Air Force open mess supervisors' conference will be held July 6-14 at Cornell University here.

Aerospace is the operationally indivisible medium consisting of the total expanse beyond the Earth's surface. A synonym for aerospace is "sky." At night when the stars are visible what is seen with the naked eye is only a part of this vast medium.

CASH WINNERS—Seven Reese men who proposed management improvement suggestions which won them cash awards assemble to receive checks. Presiding at the ceremonies was Maj. Joe Leewright, chairman, Military-Civilian Incentive Awards committee. Left to

right are: Front Row—Major Leewright, SSgt. Jerry L. Burdick, A1C Clifford O. Boone and A2C Donald B. Thomas. Back Row—Ottis H. Myers, Payton M. Harrell, Ruel G. Nugent and Capt. William E. Johnson.

'Unlucky' Thirteen Shares Awards In Cash For Management Proposals

Eight military men and five civilians have offered management improvement suggestions approved by the Reese Incentive Awards committee. They earned \$225 in cash awards and produced annual savings of more than \$3,000.

SSgt. Jerry I. Burdick won \$25 for proposing a tech order change which has been adopted by Air Training Command.

SSgt. Clifford P. Brown, now in Alaska, earned \$35 for suggesting

voltage change, which saves \$678 in material.

Suggestion Certificates went to TSgt. Galen J. Moore, SSgt. Richard J. Lord and Maj. Theodore J. Trapp for suggestions on parking areas, bird arrestors for ventilators and neckwear for student pilots.

TSgt. William W. Pulliam won certificates for proposing changes in official forms and SSgt. Garza Jr., for suggesting an incentive awards for 3-level airmen.

Capt. William E. Johnson won \$15 for suggesting pre-set radio channel usage, a safety feature.

A2C Donald B. Thomas won \$15 for suggesting a utility table and A1C Clifford Bone earned \$15 with a proposal for a flushing line adapter plug which saves \$73.20.

SSgt. Joseph Mekosh suggested a safety briefing, winning a certificate.

An award of \$15 went to Ottis H. Myers for a suggestion on improvement of panic hardware which saves \$88.79.

Cash of \$95 was won by P. M. Harrell and E. C. Nugent for suggesting hot water heater dip tubes which saves \$1,811.25 a year and are under consideration for ATC approval.

Suggestion certificates went to Frank W. Cox for proposing 220-volt electrical conductors and Brenden P. Holland for suggesting an ATC report.

Fare Reduction

Braniff International has announced a one-third air fare reduction with confirmed reservations for all military personnel on leave.

Braniff Staff Vice President Jack Weinhart said the 33 1/3 per cent discount will become effective April 23, subject to Civil Aeronautics Board approval, on all of the airline's flights within the U.S.

Weinhart said that this new program for the benefit of servicemen will be in addition to Braniff's 50 per cent discount for military personnel traveling on a standby basis. Those on emergency leave, he added, also will continue to be able to receive confirmed reservations for half of the normal fare.

"The primary purpose of Braniff's new one-third reduction/confirmed reservation plan is to give all servicemen an opportunity to spend the maximum amount of their leave time with their families," Weinhart said.

Computer Training Undergoes Changes

KEESLER AFB, Miss. (ATCPS) —A new phase of electronic computer basic training has been completed at Keesler with the graduation of the first class of students in the revised version of the computer fundamentals course.

Designed to permit a greater specialization in computer electronics training, the new version of the course allows the student-airman to begin concentrating on practical training in computer circuits and logic in less time than previously possible.

More Parking!

The parking lot for the stag bar is being doubled in construction by Civil Engineers. One side of the street has provided parking areas. The other side of the street is being paved. The construction was started after the Junior Officers Council had suggested it.

M-16 Power Rifle Display Scheduled

One of the most effective weapons since World War II will be on display from 1 to 5 p.m., at Reese on Armed Forces Day tomorrow.

The new M-16 rifle, attributed by many Vietnam veterans as the best in the world, will be demonstrated by marksmanship instructors at Reese for visitors during the Open House.

Visitors to the base will be provided transportation to the Firing Range throughout the afternoon. In addition to the fire-power demonstration, the older M-1 weapon will be on display. Also on display will be the .38 cal., .22 cal., and .45 cal. pistols.

During the M-16 demonstration the weapons will be fired into combat helmets, into concrete blocks, and into 1/4 inch steel. Automatic firing and accuracy firing will also be demonstrated.

BUSIEST TOWER
DAVIS-MONTHAN AFB, Ariz. (AFNS) — An anticipated monthly rate of 25,000 takeoffs and landings by June 1 will make the control tower here the busiest one in the Air Force with the exception of the high-intensity air bases in Southeast Asia.

QUOTE OF NOTE

"I cannot overemphasize the importance of preserving our strategic superiority as the keystone for deterring or controlling non-nuclear conflicts. Only in this way can we maintain in the arena of military operations something in the nature of a controlled environment — an environment characterized by a substantial measure of world order and restraint. Such an environment is a requisite for the effective use of our tactical forces at the lower levels of conflict."—Gen. John P. McConnell, Air Force chief of staff.

The Air Force must maintain a level of aerospace power that will assist the President, the Congress and other Government agencies in attaining national objectives.

DERBY AID—First equipment for building cars for the annual Lubbock Soapbox Derby is given boys sponsored by Reese classes. Handing a car part to Sammy Martinez is Capt. Joseph Breen, assistant project officer. Reese student classes are sponsoring nine boys this year in the derby and class members are providing parts for the cars and counsel in construction.

Student Classes Sponsor Nine Boys In Lubbock's Annual Soapbox Derby

Stepping up sponsorship annually, members of Reese student classes are sponsoring nine Lubbock boys in the annual Soapbox Derby scheduled for July.

Reese classes for the past six years have assisted Lubbock boys in the Derby, financing some equipment and counseling the boys in construction of their midget cars. Last year five boys were sponsored. In 1965 there were four and in 1964 three.

This year members of Lubbock Boys Clubs are being sponsored and guidance in Derby racing and in proper construction of cars will be given by student officers on base and at the homes of the boys. Major Forrest Fenn, chief, officer training, is Reese coordinating officer.

Backed by student classes in the Derby, sponsored by Modern Chevrolet and KCBD-TV, are Sammy Martinez, 12; Rickey Garcia, 11; Willie Sanders, 12; George Rodriguez, 14; Ralph Munoz, 14; and his brother, Isaac, 11; Edward Thomas, 13; Billy Pride, 14; and L. D. Wiley, 15.

Class 68-F is sponsoring two boys, Class 68-B, one, 68-C two, 68-D two and 68-E two.

COMMANDER NAMED
HQ. ATC (ATCPS) — Maj. Gen. Dwight O. Monteith has been selected for reassignment as commander, Lowry Technical Training Center, Lowry AFB, Colo., effective Aug. 1.

Units Get Honors For ZD Activity

WASHINGTON (AFNS) — Seven Air Force units will be honored for accomplishments in advancing the Air Force's Zero Defects program during 1966 at a Pentagon ceremony May 23. Presenting awards to unit representatives will be Air Force Chief of Staff Gen. John P. McConnell.

The Zero Defects program was established by the Department of Defense to motivate individuals to a high degree of excellence in job performance.

Personnel Qualify As Expert Marksmen

A dozen more Reese personnel have qualified for the Small Arms Expert Marksmanship Ribbon. They are Maj. Sheldon L. Brown, Maj. Robert J. Mauel, Maj. Richard L. Moore, Capt. David C. Billow, Capt. Richard H. Dietz, Capt. Michael R. Marcellino, 1st Lt. Philip E. Carey, 1st Lt. David A. Robinson, 2nd Lt. James D. Kyle Jr., MSgt. William J. Melton, A1C William E. Hicks and A2C Olen R. Merry Jr.

Red Cross Readies Holiday Gift Bags

WASHINGTON (AFNS) — Volunteers in nearly 1,400 American Red Cross chapters are off to an early start on the production of Christmas gift bags for servicemen in Southeast Asia.

Goal of the Red Cross is at least 525,000 gift bags. They will be filled with comfort and recreational articles and shipped to ARC field directors in South Vietnam to arrive in time for yuletide distribution.

RECORDING ARTISTS—"The Drifters," recording artists with more than 10 million record sales to its credit, will appear at the Officers' Club May 26. Reservations for 350 persons—first come, first served—are being made. A special price for the evening, including food and drink has been set.

'Fastest Man Alive' To Talk At May 27 Reese Dining-In

Brig. Gen. Frank K. Everest Jr., former world aircraft speed record holder known as "The Fastest Man Alive," will be speaker at the DCO dining-in May 27 in the Officers Club.

General Everest, presently the Air Force director of Aerospace Safety, will discuss efforts to maintain and further safety throughout flying history.

The general recently was honored by being named to the "Flyers"

Hall of Fame." He is the 126th pilot since 1932 to be selected for the honor by the National Shrine to Aviators. His name was added to the Mission Inn Hotel's St. Francis Chapel shrine in Riverside, Calif., beside such names as Wilbur Wright, Jimmy Doolittle, Amelia Earhart and Wiley Post.

Wins Honors

In addition to the recent honor, General Everest has been recognized repeatedly for his contributions to the aerospace program. He was chosen as one of the "Ten Outstanding Young Men" in 1955 by the Junior Chamber of Commerce and in 1956 he was picked by the U.S. Chamber of Commerce as one of the "Greatest Living Americans." A year later he received the Octave Chanute Award and the Harmon International Trophy.

General Everest test flew the Bell X-18 2.3 times the speed of sound in 1954 to become the second fastest human. Later flights in the Bell X-2 rocket plane sent him to an unofficial speed record of 1,957 miles per hour, or 2.9 times the speed of sound.

He holds numerous decorations.

Flies In War

The general was commissioned and began flying in 1942 and flew 94 combat missions over Africa, Sicily and Italy during World War II, shooting down two German planes. Later he flew 67 combat missions from China.

He shot down four Japanese planes before being cut down by ground fire and becoming a prisoner of war.

GENERAL EVEREST

CAPTAIN WINS
HQ. ATC (ATCPS) — Capt. Gurney D. White, an Undergraduate Pilot Training (UPT) student at Williams AFB, Ariz., was the recipient of the Orville Wright Achievement Award for UPT Class 67-G. The award, given by the Daedalian Foundation to the outstanding graduate in each UPT class, was presented during graduation ceremonies at Williams.

Flying Safety Is Everybody's Business (TOPS)

Pilot Training Program Expansion Detailed In Official Senate Report

Pilot training will continue to expand, Gen. Bruce K. Holloway, Air Force vice chief of staff, told the U.S. Senate armed forces committee.

"For fiscal year 1967," he testified, "our training program for the Regular Air Force is expected to produce 2,760 pilots as compared to the figure of 1,969 produced in FY 1966.

"We are increasing the rate, and plan to produce 3,067 in FY 1968, and 3,247 in FY 1969. The long-lead time associated with pilot training precludes achievement of the 3,247 annual rate any earlier.

"If it is determined that additional pilot training capacity will be required beyond 1968, it will be provided. We are working closely with the OSD staff to re-evaluate pilot requirements and project these figures for the ensuing years.

"In summary, we are meeting Southeast Asia operational requirements for pilots and will continue to do so. Our operational capabilities elsewhere are being maintained at an adequate level. Looking toward the longer-range future, we are expanding pilot training to our maximum capability through 1968. We are now engaged in a detailed study of our

pilot requirements which will form the basis for future determination as to the size of our total pilot inventory and the training bases necessary to sustain that inventory."

BOARD TO MEET
RANDOLPH AFB, Tex. (AFNS) — A central board will meet at the Air Force Military Personnel Center July 10 to consider reserve line officers for appointment in the Regular Air Force.

Record Praised

It is especially appropriate on this Armed Forces Day for our Nations to pause for a moment and consider the achievements and sacrifices of the men and women of the United States Army who have contributed so much in the defense of freedom throughout the world.

The magnificent record of performance of our forces in Vietnam has not been excelled in the history of our Nation. The courage and sacrifice of these soldiers stands as an inspiration to Americans everywhere.

With equal devotion to duty, troops are standing watchfully alert in Korea, in Europe, in Alaska, and in many other areas of the world in support of our national policies. If called upon, they would match the courageous performances of our men in Vietnam.

Supporting these forces overseas with selfless dedication are the many thousands of men and women here at home in the United States.

I take pride in joining my fellow Americans today in expressing admiration and respect for the members of our Armed Forces and for their sacrifice on behalf of the security of our Nation and of free men everywhere.

—Stanley R. Resor,
Secretary of the Army

Balloon Elimination Brings \$112 Saving

Elimination of balloons for measuring the heights from the ground to low clouds has brought a \$112 annually savings in the Reese Cost Reduction Program.

The Weather Detachment measured the ceiling by balloons and a rotating beam ceilometer. Tests showed the Rotating Beam Ceilometer did the work accurately, with pilot reports as backup.

Elimination of the balloons also eliminated use of quantities of helium.

CIA Asks Retirees Request Employment

Military personnel on the verge of separation this week were invited to apply to the Central Intelligence Agency for future work.

Personnel with college degrees in business, accounting, finance, language, and a variety of other subjects may apply, it was said, and personnel without degrees but experienced in communications, OSI, electronics, logistics and other fields also are needed, it was announced.

Inquiries and applications should go to the director of personnel, Central Intelligence Agency, Washington, D.C. 20505.

REGISTRATION NEAR

Registration for Junior Olympic swimming will take place at 1 p.m. June 1 and 2 in the Youth Center.

In order to take part in youth center activities, participants must be members between the ages of 6-18 holding a youth center card. A \$2 semi-annual membership fee is levied the first child of the family. Other children of the family pay only a \$1 membership fee.

HITS TOP HOUR

BUNKER HILL AFB, Ind. (AFNS) — A General Dynamics B-58 Hustler of the 305th Bomb Wing here has completed more than 2,000 hours of flying time.

DISPLAYS INSIGNIA

WASHINGTON (AFNS) — The Air Force is asking its major units to send their emblems to headquarters for permanent display in the corridors of the Pentagon.

AIRCRAFT PROPOSED

WASHINGTON (AFNS) — A rescue aircraft able to take off vertically and hover like a helicopter, then fold and stow its rotor blades in the fuselage and fly as a high-speed jet airplane, has been proposed by American builders.

ROUND ABOUT REESE

By SSgt. Vic White

Who said that M-May was a M-Merry M-Month?—with temps dipping to nearly freezing this past week—who needs it—and wouldn't you know it would with everybody trying to keep the grass green and the flowers blooming—and the pools opening?—(brrr!)—

At the clubs: the "Ad Libs" play tonight and tomorrow at the O' Club—Jess Gayer tonight at the NCO Club—Ted Trapp tomorrow and "The Raiders" on Sunday night (the latter for all base personnel regardless of rank)—the Service Club wants y'all to come roller skating Tuesday night—and to see Hypnotist Bill Risley Sunday evening May 28—

Girl Scout day camp final registration is on Monday and Tuesday—please call Mrs. Crouthamel in the Village at 2676 on these days—the GS Neighborhood Chairman, Mrs. Fraser, urges you to join up—at least 20 girls are needed—Don't Miss—the Children's Ballet at the Youth Center at 7:30 p.m. tonight—a delightful ballet—free of charge—featuring Reese children under the direction of Miss Annice Watt—

Have you heard this one?—two Lubbock psychiatrists passed each other on the street 't'other day: "you're fine," said one. "How am I?" (oh, no!) Fire safety inspections will be conducted in the Village on the first four duty days of June, July and August—Did you know?—you may create a tax free education fund for your children by registering U.S. Savings Bonds in your child's name?—

"There will be no let-up in cost reduction efforts despite the changes in the Cost Reduction Program reporting system," so sez Lt. Gen. T. P. Gerrity—Security Tip: "Talking around" security matters, so say security police, is just as serious as talking directly about them—and this is a maximum breach of security punishable by as much as 25 years in prison and/or a fine of \$25,000!—

Next luncheon for civilian gals at Reese—May 25 at the NCO Club—reservations and \$\$ due by May 23—Sue Ann Lambert is the girl to see—and she has extended many thanks to the NCO Club for the terrific luncheon and program last time which all the gals enjoyed so much—

A good bet: next Tuesday at 9 p.m. on Channel 13, KLBK-TV—a special showing of the 1967 National Drivers' Test—informative—fun—and encouraged by USAF safety officials—test forms are available at your Base Safety Office—At the movies: Doris Day and Dick Harris in "Caprice"—Thursday and Friday—recommended for adults—"Chuka"—with Rod Taylor and Ernest Borgnine Sunday, (Borgnine, incidentally, happens to be a 20-year military vet)—and Disney's "The Ugly Dachshund" next Saturday, May 27—

AF Day tomorrow—and what an exciting one it promises to be—with all kinds of demonstrations, displays and activities—in the refreshments department—the Reese OWC will have delicious cakes and cookies for sale—Don't Forget: the commissary store closes for inventory Wednesday—

"An eye-opening book with the majesty, misery, romance and muddle of a great continent,"—that's how Mrs. Fuller, our base librarian describes an exciting new book now in stock—John Gunther's latest "Inside South America"—

Spookagram: who was the officer with the Ivy League haircut seen taxiing his car too fast to check out the AP in his 6 o'clock position recently (he got a free ticket)—

Thought for the week: "a person's nose is used nine-tenths for breathing and one-tenth for smelling—which leaves positively nothing for probing into other people's business"—(author unknown)—That's life!

QUOTE OF NOTE

"This is the first war in our history to be fought on our side largely by professionals. This is particularly true of the air war. Today more than 50 per cent of our officer corps and nearly 90 per cent of the noncoms are professionals—not only in skills and competence but also in the sense that they have more than 10 years service. They have, of course, been given a tremendous assist by the Reserves and National Guard even though none of the Reserve Forces have been called to active duty." — Dr. Harold Brown, secretary of the Air Force.

Reese Bowler Wins In MAC

A sports communique from Military Airlift Comamnd headquarters listed a familiar name in Reese bowling circles, SSgt. Willie F. Hendricks, as one of the six all-events winners in the Air Force Communications Service bowling tournament at Scott AFB, Ill.

Sergeant Hendricks, 2053rd Communications Squadron at Reese, bowled a 3,459 for the 18-game tournament, the third highest score in the tournament all-events competition.

Sergeant Hendrick's score qualified him for the United Command bowling competition at Maxwell AFB, Ala.

McKenzie Hurls Another Victory

In intramural softball action Field Maintenance's pitching ace, Stan McKenzie led his team to a 2-0 victory over Supply, hurling a one-hitter and striking out 14 batters.

FMS scored their runs in the fourth and sixth innings with a pair of hits in each.

Organizational Maintenance out-hit the 3500th Pilot Training Squadron to gain a 13-10 victory. "Big guns" for OMS were John Mayfield, who went four for four, and Ray Kalisz and Larry Moore, who went two for four.

Air Base Group made it four in a row without defeat with a 8-3 victory over the Hospital team.

Paul Barber scattered seven hits and struck out eight Medic batters to gain the victory.

Supply came from behind in the sixth inning with five runs (three earned, two unearned) to gain a 8-6 victory over Communications.

Supply's Emmett Poynt led the sixth inning rally and went two for three for the game with a single and double.

AFCS's third baseman, R. A. Levesque, tallied four runs batted in with a triple and single.

AFCS's Joe Hendrix homered in the third with one man on.

Catcher Bill Gradinger's solo homer in the seventh inning tied the game 4-all, enabling the Student Squadron to come back in the eighth to capture a 5-4 ball game from Supply.

Kint Alverson was the winning pitcher.

The 3501st PTS team batted its way into a 11-5 victory over OMS. John Moynihan went two for four with a run batted in.

AIRLIFT HEAVY

HQ, MAC — MAC crews flew 73 aeromedical evacuation missions in the Pacific area last month, most for any 30-day period. Many of the patients carried were Vietnam casualties who were being airlifted to hospitals in the United States.

LUBBOCK

Manager, Apt. 118, East Side

READY—Little League baseball is just about to start at Reese, with registration indicating a spirited season. This boy is ready.

Holiday Tourney Planned In Golf

A member-guest golf tournament played over 18 holes with the Callaway system used as the method of scoring is planned for Memorial Day, May 30, on the Reese golf course.

While it is called a member-guest tourney, it is also possible for two military members to play as partners or a member may invite a civilian guest to play as his partner.

The tournament is open to both men and women golfers.

Entry fee is \$2.50 per team and all entry fees will be returned in merchandise prizes. Green fees also will be charged.

In the Callaway system of scoring, handicaps are not used and net scores are computed on the basis of what each player shoots. Everyone has a chance to win.

Ken McGuire, Reese golf pro, urges all to sign up now in the pro-shop or call ext. 412. Ken urges Reeseites to "stay off the highways and play golf" for the Memorial holiday.

Softballers Win Two From Cannon

Reese base softball team took a Saturday afternoon doubleheader from Cannon AFB, the defending Tactical Air Command champion, by wide margins.

Stan McKenzie allowed five hits in the first game and struck out seven men to allow a 15-2 victory for the Reese team. Phil Scruggs drove in four runs with a homer and a double. Ken Hyde and Al Clark also hit homers.

In the second game of the doubleheader John Mayfield pitched and batted the Reese team to a 13-7 victory.

Mayfield's circuit clout in the third inning sealed the victory for Reese. He had a pair of homers and drove in five runs for the game.

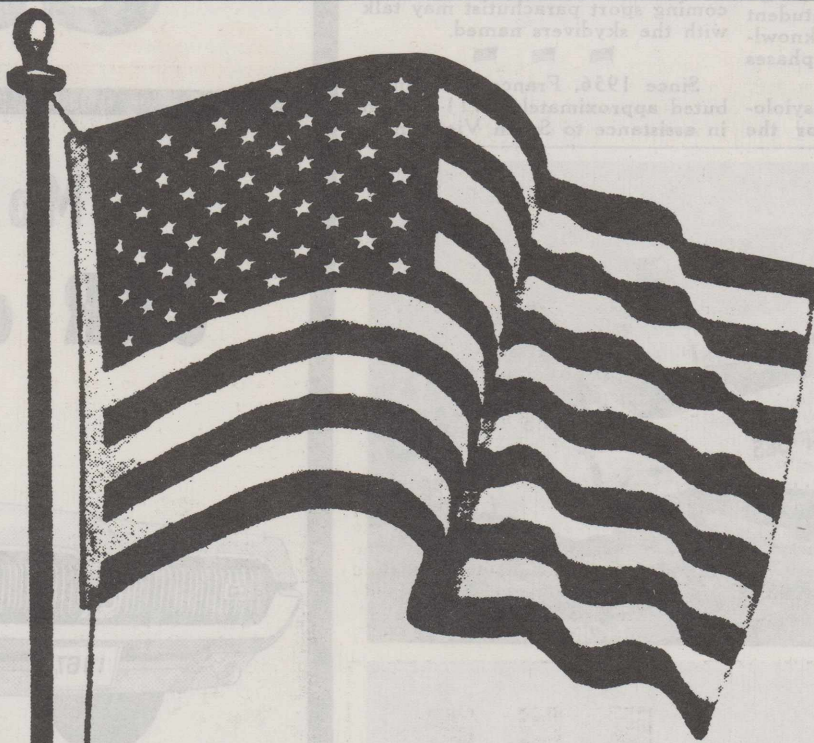

Phil Scruggs with two for three and Ken Hyde with three for four helped the Reese cause.

The base softball team will engage the Texas Tech varsity team Saturday, Armed Forces Day, at 4 p.m. on the diamond behind the base hospital. Refreshments will be served.

Beautification 'Mums' Donated

An additional 5,000 chrysanthemum plants have been donated to Reese by Marshall Pennington, business vice president of Texas Tech, and will be distributed soon.

For several years Pennington has donated thousands of mum bushes to Reese in cooperating with the base beautification program. Base units wishing some of the new plants may call Civil Engineering.

★★USAF VIETNAM BATTLE REPORT★★

Boeing B-52 Stratofortress bombers of the Strategic Air Command have arrived in Thailand for bombing operations against Communist targets in Vietnam.

The first three Stratofortress jets landed at U-Tapao early last week. The giant bombers set down at their new station after flying from their former base in the Western Pacific and bombing an enemy camp and storage area near Saigon.

Additional B-52 bombers are expected in Thailand this month. Officials have not stated how many of the big aircraft will be stationed at U-Tapao at any one time.

Flying from Thailand instead of from their Western Pacific base, the B-52s will be able to complete

their missions in from two to five hours. It takes 12 hours from the Western Pacific.

EVACUATION AIRLIFT

First air shipment of a mobile aeromedical evacuation center from Travis AFB, Calif., to Vietnam has been completed with delivery of a 56-foot van to Da Nang AB by a Military Airlift Command Douglas C-133 Cargomaster.

Loading crews of the 60th Aerial Port Squadron eased the 12-ton van onto the big turboprop aircraft, largest military transport plane in the nation, with a bare inch of clearance. Size of the van, which measured 10 feet wide and nearly 11 feet high, posed a loading problem because of the angle of approach at the point of entry.

RESCUE CENTER

The Pacific Aerospace Rescue and Recovery Center at Hickam AFB, Hawaii, has assumed command of all Aerospace Rescue and Recovery units in the Pacific. The move initiated a world-wide rescue reorganization plan.

The Center is composed of one group, eight squadrons and six detachments located in Thailand, South Vietnam, Korea, Japan, Okinawa, Philippines, Guam and Hawaii, with a manning of approximately 2,500 officers and airmen.

PLAGUE IMMUNIZATION

The medical civic actions program (MEDCAP) at Khue Trung II hamlet near Da Nang is underway with plague immunization for more than 450 local residents.

The immunization program, begun in mid-February, was concentrated in the underprivileged section of the hamlet involving some 100 Vietnamese families.

VNAF F-5 TRAINING

Thirty-one Vietnamese Air Force (VNAF) pilots are returning to Vietnam after completion of Northrop F-5 Freedom Fighter combat crew training at Williams AFB, Ariz.

VNAF pilots receive the first of their F-5s this month. The squadron will be officially activated June 1 at Bien Hoa AB.

RUBBER STATION

A rubber gas station is in operation at Bien Hoa AB.

Instead of ordinary gas pumps the fuel distribution section of the 3rd Supply Squadron uses 50,000-gallon rubber bladders to store JP-4, life blood of the North American F-100 Super Sabre.

Reese Parachutists Earn 'Veteran' Title With Free Falls, Other Leaps

By MSgt. M. Garza

Ever wonder what it's like to fall more than two miles in 60 seconds? Every weekend 1st Lt. Jerome Landry and A1C John T. Winklepleck of the Confederate Skydivers of Lubbock enjoy this rather unusual thrill.

Lieutenant Landry, base communications officer of the 2053rd Communications Squadron (AFCS), has been an avid skydiver since 1962. He holds a Parachute Club of America Jumpmaster's license and recently qualified for his Expert Parachutist license with more than 200 free fall parachute jumps.

The lieutenant says of jumping from 'chutes at altitudes of 3,000 to 17,000 feet: "It beats playing golf every weekend."

Conducts School

In his capacity as Instructor-Jumpmaster for the Lubbock Parachute Club, he provides a 12-hour ground school for the would-be parachutist. The training covers all aspects of sport parachuting, with special emphasis continually on the safety of the parachutist.

Lieutenant Landry adds that training is a continual thing, with OJT following the student through his first jump until the student has demonstrated complete knowledge and proficiency in all phases of sport parachuting.

Airman Winklepleck, psychological training instructor for the

Hospital, underwent jump training at the U.S. Army jump school at Fort Benning, Ga. He started skydiving about a year ago and has become quiet adept at free fall relative work, with more than 50 sport parachuting jumps to his credit.

Airman Winklepleck is quick to admit that his skydiving experience has aided him immeasurably in the performance of his duties as para-sail instructor.

Lieutenant Landry, Airman Winklepleck and Richard Honey, Texas Tech engineering student, in a Cessna 185 flown by instructor pilot Ronnie Gardner, made West Texas history April 9 by forming the first three-man star in this area. This star was accomplished by the three skydivers exiting the aircraft within seconds of each other, then maneuvering their falling bodies into optimum position to make contact with each other.

The three-man aerial hookup was completed approximately 25 seconds out of the aircraft and the three jumpers stayed in physical contact until opening altitude at 2,500 feet.

Reese people interested in becoming sport parachutist may talk with the skydivers named,

Since 1956, France has contributed approximately \$111 million in assistance to South Vietnam.

TRAINERS—The T-38 and T-37 jet trainers used at Reese in the undergraduate pilot training program will play a prominent part in tomorrow's Armed Forces Day activities here. They will be on static display and perform fly-bys.

"During the last eight years, 53,000 Vietnamese—a large share of them teachers, policemen and elected and natural leaders—have been killed or kidnapped by Viet Cong. Translated to the United States, that would be more than 600,000 people, with emphasis on mayors, councilmen, policemen, teachers, government officials and even journalists who would not submit to blackmail."—Gen. William C. Westmoreland, commander, U.S. Military Assistance Command, Vietnam.
