A MISSOURI MOB.

Joplin, Mo., was the scene of a desperate and disgraceful mob and riot last Wednesday night in which a negro was hanged and all of the negroes run out of the place and many of their houses burned.

The negro was in jail on a suspicion of being the negro who killed a policeman the night before. The negro protested his innocence and the mayor and city attorney exerted their utmost influence to save the victim and stop the mad destruction of property by the mob, but to no purpose. After telling of the mayor's efforts to appease the mob, the account continues:

But the mob did not disperse. Instead a rush was made through Main street, and every negro was driven to the North part of Joplin, where the colored population lives. Then the mob charged down on the quarter. Stones were thrown, doors were broken in and finally several houses were fired. The fire department responded, but many of the houses were burned to the ground.

The mob made endeavors to prevent the fire department from extinguishing the flames, and were partly successful.

All the officers of the city, township and county were called out, but the mob swept them aside and proceeded with the rioting. Mayor Trigg ran from corner to corner, and mounting boxes made earnest appeals to the mob to cease, but, cheering the Mayor vociferously, the mob swept on and the depredations continued. The saloons were hurriedly closed by the Mayor. After the hundreds of frenzied men composing the mob had vented their wrath in the North end of the city, they rushed to the Southern end, where a number of negroes lived. Their houses were vacant, and not a negro could be found. Three more houses were fired and two were burned.

All efforts to reason with the rioters were futile. The streets are thronged, and at midnight the whole city is in an uproar. shing Goods, So far as is known no fatalities Cooking and have occurred, although many Ammuni- persons received minor is insign This discounts
