FORTY-FIRST YEAR

CURTAIN FALLS ON FOOTBALL SEASON

When eleven crying, fighting warriors dragged themselves from the gridiron last Friday afternoon, the curtain fell on the 1927 football season of Haskell High School. "Too bad," they said, "that we could not have won that game." And it was. But a victory would hardly have added to the laurels of the 1927 Indians. The Sweetwater Mustangs had previously been soundly outplayed at Sweetwater and then it had been announced that, win or lose, the game was to close the season.

On September 23, the Indians defeated the Seymour Hi team and this team subsequently became the runner-up against Strawn in the district north of us. By a queer break, the Hamlin team defeated the Indians in a game in which the Haskell team ran up 22 first downs while the Pied Pipers were making two. The Stamford Bulldogs fell before the Indians by a score of 25-0 in one of the best played games of the year. Next, the Indians journeyed to Abilene and held the Eagles to 46 points while the Indians totaled 10 first downs against the A team and seriously threatened the goal. The following Friday in a game that had elements of luck for the Indians, the Anson Tigers were defeated 18-0. These were the high points in the race.

Having been declared champion of Section A in this district, the Indians accompanied by a special train went to Sweetwater and engaged the Mustangs who were winners in section B. Although the Mustangs announced "NO ALIBIS," they promptly harbored a mere technicality which ultimately brought them the championship for the Indians went to De Leon on Thanksgiving following the Mustang game and defeated the De Leon team who was winner in section C. The Indians had played peak football in these two big games and were tired and mentally un-done for the return game here with Sweetwater. While the Indians had stirred themselves and drilled for the big game at De Leon the Mustangs were quietly drilling for the game which was to be a triumph of a fresh team against one which was frazzled by the strain of two championship contests.

Let it be remembered that the Indians of 1927 perhaps carried the football honors of Haskell High School higher than any previous team. Certainly they played to a more popular and numerous fandom than any other. The attendance throughout the season was good and the Indians always gave the fans their money's worth. The boys played a clean, hard game and have done much to popularize the town and school in football circles over the state.

ALL HONOR TO THE INDIANS AND COACH OF 1927.

8th GRADE ENGLISH CLASS POST SCHOOL ORGANIZE

The 8th Grade English Class of the Post school organized last Friday and elected the following officers: Rob Simmons, president. R. P. Cautchen, vice president. Lucile Nanny, secretary. The main purpose in the organization of this class is for each member to correspond with some other member of an 8th Grade English Class in another school. In this way they expect to exchange ideas and material which will be a help to all. This class is taught by Miss Sula Mae Ratliff of this city.

Mrs. Luper was buried last Sunday at Jacksonville Cemetery. Two funerals were held for Mrs. Luper, one at the home and the other at the Baptist Church where her surviving husband, Rev. John Luper, is the pastor.

BOYS BADLY BURNED WHEN LANTERN EXPLODES

Hoyle Haley, son of Mr. and Mrs. Walter Haley living 10 miles east of the city in the old Whitt Chapel community was seriously burned about the face and hands when a gasoline lantern exploded while he was pumping it up. The lantern was lighted at the time it exploded. He was in the city with his parents Saturday and was getting along nicely, but his burns were very painful indeed.

HASKELL POULTRY RAISER RECEIVES FINE GOBBLER

Mrs. I. S. Grindstaff of this city who has made a success growing mammoth bronze turkeys, received a fine gobbler from Richland Springs last week to head her flock of turkeys for the ensuing year. The bird was one of beauty and shows type of fine breeding. Mrs. Grindstaff is aware of the fact that you cannot grow good birds from poor ancestors.

LYCEUM NUMBER DECEMBER 19

The Shubert Male Quartet, third number of the Dixie Lyceum Course, will be here on Monday evening, Dec. 19th, and will give their performance in the High School Auditorium. Chas. Meyers, the noted explorer and lecturer, who died in the early fall, was originally booked for this number, and in substituting the Quartet, the manager of the Lyceum Bureau writes that he has always booked this number for \$250.00. Therefore the Haskell public may expect something excellent. The Shubert Male Quartet gave a performance in many of our leading colleges and universities the past year, also making a coast-to-coast tour of Canada. They are accompanied by Miss Reed, who is a charming and talented violinist.

HASKELL COUNTY FARMERS RETURN FROM MAGIC VALLEY

M. E. Giddens, Walter Nanny and J. W. Adecock all of the Post community returned early in the week from an extended trip to the Lower Rio Grande Valley and a short trip on several occasions to Old Mexico. The trip according to Mr. Giddens was greatly enjoyed by the party especially the trips across the border. They had planned to take a deer hunt while down there, but from what we learn there were attractions more agreeable and not quite so perilous and the party failed not to fully enjoy every occasion that presented itself according to Mr. Giddens. They left the Valley early in the morning last Monday and arrived in Abilene about 12 o'clock the same day, making good time and having no car trouble on the way.

Mrs. W. W. Cowley Laid to Rest in Pinkerton Cemetery.

The funeral of Mrs. W. W. Cowley of Knox City was held at the grave in the Pinkerton Cemetery by Rev. Eiland of Munday, a lifelong friend of the family, last Monday afternoon at 3:30 o'clock. A large congregation of the friends of the family gathered at the grave, to pay their last respects to this wife and mother who was laid to rest beneath a bank of beautiful flowers of richest hues and sweetest fragrance, placed there by loving friends in token of the high esteem in which she was held. Death came Sunday night about 10 o'clock following an operation the day before. Her condition was very serious and little hope was held out for her recovery, but the operation was the last resort and it was hoped that relief might come through the skill of the surgeon, but the disease had set up such serious complications that in spite of all that medical skill and delicate hands could do the end came. Mrs. Cowley was 25 years of age and is survived by her husband and three children, the youngest not quite one year old, her parents and several brothers and sisters, who were present at the funeral. She was a consecrated Christian, a member of the Baptist Church, a devoted wife and a loving mother.

All who knew this good woman loved her; she gave love to all her friends and received love in return. She was and according to those who knew her best nothing gave her more pleasure than to minister to those she loved. Truly hers was a beautiful life and a life so useful and good cannot die, but will live on in the lives and hearts of others. May He who alone can pour balm into bleeding hearts comfort the loved ones in this dark hour of sorrow.

Hard to Get Started

GOLDEST WEATHER OF THE WINTER

The coldest norther of the season struck Haskell Wednesday morning about 1:30 o'clock, according to a number of citizens who reported hearing the roar and rush of the wind when it broke upon the city. According to Judge P. D. Sanders, who keeps a record for the Government of the weather conditions, the thermometer stood 17 above about sunrise Wednesday morning. It was thought by many to have fallen lower the first few hours of the morning after Judge Sanders made the report. There were no clouds or rain with the drop in temperature, but a slight sprinkle of rain fell here Tuesday morning, but the clouds cleared away in the afternoon.

Nothing was saved except two trunks, two quilts and two pillows. All the other contents were destroyed by the flames.

Lewis, carrier of the route, will benefit about 40 families. This extension is in the vicinity of Josselet Switch. THROCKMORTON ROAD BONDS BRING GOOD PRICE

(Throckmorton Tribune) The Commissioners' Court of this county is to be congratulated on consummating one of the most remarkable bond sales ever made in West Texas in selling to the Brown-Crummer Company of Dallas the \$650,000.00 road bond issue on last Wednesday.

The Court, while having the privilege under the election, of issuing 5 1-2 percent bonds, issued 4 3-4 percent bonds, thus saving the people of the county 3-4 of 1 percent per year interest on the bonds, or a saving each year of \$4,875.00 on interest alone.

This indicates that Throckmorton County bonds are regarded by investors as being in the very highest class, classing with Harris, Dallas, Tarrant, Bexar and other well known counties.

In addition to the above sale, the Court also made arrangements with the depository for the money to allow the county 3 3-4 percent interest on daily balances. This will mean several thousand dollars to the county.

The Commissioners' Court, as stated above, is to be congratulated on their work for the county, which will no doubt be appreciated by every taxpayer in the county.

Need for a Perfect Anti-Freeze

For years there has been a need for a better anti-freeze for automobile radiators, one that combines all of the advantages of the various anti-freezes that have been used and at the same time does not have their disadvantages. The enormous increase in all year driving has intensified this need greatly.

The U. S. Bureau of Standards

The U. S. Bureau of Standards has gone at length into the subject of anti-freezes for automobiles and their specifications for an ideal anti-freeze are as follows:

- 1—It must prevent freezing at the lowest temperature which may be encountered.
- 2—It must not cause damage to the cooling system through solvent action or corrosion.
- 3—It must circulate freely at the lowest operating temperature.
- 4—It must not lose its non-freezing properties after continued use.
- 5—It should not materially change the boiling point of water when dissolved in it.

Eveready Prestone meets the above specifications of the U. S. Bureau of Standards in every detail.

AN ORDINANCE

An ordinance of the City Council of the City of Haskell, Haskell County, Texas, granting to C. O. Moore, the right and privilege and franchise to lay gas mains along the streets, avenues, alleys and roads and highways and other public places of the City of Haskell, Haskell County, Texas, for the purpose of distributing and selling natural gas to the inhabitants of said City and to others; and also to lay pipe lines in the streets, avenues, alleys, highways, roads and other public places and grounds of said City for the purpose of conveying natural gas through and within said City for distribution of natural gas to the inhabitants of said City, and to others beyond the limits of said City of Haskell, Haskell County, Texas, both for industrial and domestic purposes, and providing for the regulation of the conduct of said gas distribution system.

SECTION 1.

Be it ordained by the City Council of the City of Haskell, County of Haskell, Texas, that subject to the terms, conditions and stipulations mentioned in this ordinance, consent and permission is hereby given to C. O. Moore, Grantee, and to his successors, lessees and assigns, to lay, construct, operate and maintain a system of gas mains, pipes, conduits and feeders for the purpose of supplying and distributing natural gas for light, fuel, power and heat and for any other purpose, to the residents or inhabitants of the City of Haskell, Haskell County, Texas, as rapidly as the said C. O. Moore, Grantee, herein, shall find it practicable to do so; and further, to lay, construct, operate and maintain a system of gas mains, pipe lines, pipe conduits and feeders and the necessary attachments, connections, fixtures and appurtenances for the purpose of conveying, conducting or distributing natural gas from any point beyond said city limits in order to enable the said Grantee to distribute and sell natural gas to the said city of Haskell, Haskell County, Texas, and to the residents or inhabitants thereof and to others.

SECTION 2.

The Grantee herein is expressly given the permit (subject to the provision hereinafter contained) to use the streets, avenues, roads, highways, alleys, sidewalks and other public places as now laid out, or hereafter to be established, for the purpose of laying gas mains, pipe lines, conduits and feeders and the necessary attachments, fixtures, connections and appurtenances for the purpose of conveying or conducting natural gas from any point within said City to any point beyond the city limits of the said City or to any other point, through and beyond the city limits of the said City, and to operate and maintain a system of pipe lines, pipes, conduits, feeders and the necessary attachments, connections, fixtures and appurtenances for the distribution of natural gas within said City to serve the said City and the residents and inhabitants thereof, and others. Provided, however, that where alleys are accessible for laying mains and pipes, the City shall have the right to require that the mains and pipes shall be laid in the alleys instead of the streets, and plans for laying mains must be submitted to the Council or representative before final designation is made.

SECTION 3.

Subject to the proviso in Section 2 hereof, the main pipes of the Grantee may be laid in the highways, roads, streets, avenues, alleys and other public places as now laid out or as the same shall hereafter be established, and when laid in highways, roads, avenues, streets, alleys and other public places same shall be laid in accordance with

the lines and grades now established or hereafter to be established by the City, provided that such main pipes and service pipes be laid at a minimum depth of eighteen inches below the grade of streets, alleys or ditches.

SECTION 4.

In the opening and refilling of all openings made by the Grantee, it shall rely the pavements and do all other work necessary to complete restoration of the streets, sidewalks or grounds to the condition equally as good as when disturbed; and when the Grantee shall open any ground in said City for the purpose of laying any gas pipes or for any other purpose whatsoever, the Grantee shall open no more space at any one time or at any one place, nor keep the same open any longer than is necessary to properly execute the work for which same shall have been opened; and it is especially required that in all cases where work requires the exercise of skill, as the laying or relaying of pavements or sidewalks, the Grantee shall employ skilled workmen familiar with the execution of such work. Whenever deemed necessary by the proper authorities it shall have the right to designate its engineer or other person to superintend and supervise the refilling of the highways, streets, avenues, roads, alleys or other public places, and the relaying or refilling of the sidewalks and pavements all of the repair and replacement of pavement, sidewalks and other grounds so disturbed for the laying of the said pipes shall be at the expense of the Grantee.

SECTION 5.

No fees or charge of any other kind shall be imposed upon the Grantee or upon any successors, or upon any consumer of natural gas for the breaking or opening of any highway, street, road, avenue, alley or other public place, or for the laying of any main, service pipe or other connections therein, except as provided herein.

Nothing in this franchise shall be construed in such manner as to in any manner abridge the right of the city to pass and enforce the necessary police regulations for the protection of the citizens of said City and their property and the property of the Grantee.

SECTION 6.

The Grantee shall at all times keep and display the necessary danger signals and proper guards around all excavations and obstructions, and shall keep sufficient space in good condition for the travel of vehicles on at least one side of all excavations and obstructions, and shall as soon as practicable restore all openings on the highways, roads, streets, avenues, alleys, and other public places to condition equally as good as before said openings or obstructions were made.

SECTION 7.

The Grantee shall do no injury to any highway, road, street, avenue, alley, lane, bridge, stream or water course, park or public place, nor in any manner disturb or interfere unnecessarily with electric lines, nor with any public or private sewer or drainage system now or hereafter laid or constructed by said City, or by any authorized person or corporation, but no electric conduits or sewer or water pipes shall be so laid as to interfere unnecessarily with any gas main or pipes which shall have been laid prior to the time of laying such electric conduits, sewer or water pipes. The Grantee shall fully indemnify and save harmless the City from any and all claims for damages for which said City shall or might be made or become liable by reason of the granting of this franchise, as by any reason of any negligence or carelessness on the part of said Grantee, or because of any act or omission of the Grantee in the construction and operation of its system

of mains and pipes. The Grantee shall execute a good and valid bond before beginning work in the City to indemnify the City and save it harmless from any and all damages that may be caused by his failure to perform any and all of his obligations under this Section or under Section 4 and 5 of this Ordinance.

SECTION 7.

The Grantee shall supply natural gas under the terms and conditions herein specified to all applicants not in arrears for any bills for natural gas, service, pipes appliances or other things, owning or occupying premises on or abutting the streets, avenues, or other public places in which such gas mains or conduits are laid.

The Grantee shall have the right to make and enforce a written agreement with all applicants for natural gas; the rate to be charged for natural gas, according to Section 12 hereof, the fixing of the minimum monthly bill and service charge, and specifying an immediate deposit, and fixing the terms and conditions upon which natural gas is to be served to the individual applicant, shall be determined by such contract. Such contracts are to conform with the state laws and regulations governing same.

SECTION 8.

The Grantee shall lay its service pipes from its main pipes to the consumers' property line at its own expense; from the property line to the meter, the Grantee shall have the right to lay the service pipes at the consumers' expense at a reasonable price to be fixed by written contract with the individual consumer; from the meter on the consumer shall have the right to select his own gas fitter to lay his pipes and install his fixtures.

The Grantee shall have the right to make and enforce as a part of the condition under which it will supply natural gas for heat, light, power, fuel or other purposes as herein provided, all needed rules and regulations not inconsistent with law and provisions of this franchise.

SECTION 9.

The Grantee shall furnish promptly to the proper authorities any and all information which may be asked for by them in regard to the size, location or depths of any of the pipes, mains, conduits or service pipes, in any form whatsoever, and any other information

in regard to its occupation of roads, highways, streets, avenues or public grounds of said City, which they may demand. Whenever the word Grantee occurs in this ordinance it shall mean and it shall be understood to be C. O. Moore, his successors, lessees or assigns, and wherever the words "authorities" or "Proper Authorities" occur in this Franchise they shall mean and shall be understood to mean the authorized officer or officers, committee or board representing the City of Haskell, Haskell County, Texas, or Grantor.

SECTION 10.

This Franchise shall take effect and continue and remain in force for a period of thirty (30) years from and after date of its final passage, and upon the payment by the Grantee of the consideration of Ten (\$10.00) Dollars annually and the written acceptance by the Grantee of the terms and conditions of this Franchise.

SECTION 11.

Be it further ordained by the City Council of the City of Haskell, Haskell County, Texas, that C. O. Moore, Grantee, his successors, lessees and assigns shall have 90 days from the final passage and approval of this ordinance, and not longer, in which to begin the actual laying of pipe lines and laterals for the distribution of natural gas in the City of Haskell, Haskell County, Texas. A failure on the part of C. O. Moore, Grantee, his successors, lessees or assigns, to comply with the foregoing provision of this section as to the time in which to begin the work shall render null and void this ordinance.

And if C. O. Moore, Grantee his successors, lessees or assigns shall within 90 days from the final passage and approval of this ordinance, begin the actual laying of pipe lines and laterals for the distribution of natural gas in the City of Haskell, Haskell County, Texas, then C. O. Moore, Grantee, his successors, lessees or assigns shall have six months and 8 days from the final passage and approval of this ordinance, to lay gas mains and laterals into the City of Haskell, Haskell County, Texas, and be ready for the distribution of gas to consumers. And a failure on the part of the said C. O. Moore, Grantee, his successors, lessees or assigns, to comply with the last mentioned provision of this Section as to the time fixed shall

render null and void this ordinance.

SECTION 12.

Be it further ordained by the City Council of the City of Haskell, Haskell County, Texas, that the maximum rate charges as per Section 7, for domestic consumption of natural gas for the first ten years shall be as follows: 1M to 25M C. ft. \$85 per M. All over 25 M. Cu. ft. \$75 per M. Less 10 cents per M Cu. ft. discount if paid on or before the 10th day of Month following month of consumption. Also an additional service charge of \$5.00 per month per consumer shall be made and the total minimum charge per month shall be \$2.56. When gas hereunder is used for manufacturing, or industrial purposes or used by educational institutions, the said C. O. Moore reserves the right to enter into special contract with such manufacturing, industrial or educational institutions, firms or corporations, provided the maximum rate shall not exceed \$50 per thousand Cubic feet.

SECTION 13.

NEWS OF THE WEEK FROM THE HOWARD COMMUNITY

Mr. I. C. Cavitt and daughter Alma of the Pleasant Valley community spent Sunday with Mr. and Mrs. R. L. Medford.

Mr. H. C. Hammer of this community attended the singing convention at Rose. He reported a fine singing. The next convention will meet with the Howard people at the Baptist Church next first Sunday. Everyone invited to come.

Miss Gunn, the Home Demonstration Agent, was with us Thursday morning December 1st. She discussed the 4-H Club very interestingly. The girls were given membership cards and seemed to be eager to enter this work.

Mr. and Mrs. Marvin Medford are with his parents this week. Marvin is suffering with his arm, which was wrenched out of place while helping to build a tank. He was improving at the last report.

Howie Haley was seriously burned Monday night when a gas lantern exploded as he was lighting it. We hope for him a speedy recovery.

Mr. Hudson has returned from the Plains. We understand he has located out there where he will live next year. We regret to lose "Sport" and family from this community.

Mr. and Mrs. Clyde Foote attended the Teacher's Institute at Rule Saturday.

Mr. and Mrs. Bathrop and family have moved on Mr. A. J. Josselet's place in this community.

A shower party that was given at Mr. J. R. Demore's in honor of the newly weds. Mr. and Mrs. Marvin Wheatley, was enjoyed by those present.

Quarterly Conference will be held at Morris Chapel Saturday and Sunday, the 10th and 11th of December. Bro. J. H. Hamlin, our Presiding Elder, will preach Sunday morning.

Rose Home Demonstration Club
The Rose Home Demonstration Club met Friday at the home of Mrs. J. A. Newby and canned a beef. Mince-meat, meat loaf, chili, soup, stock, roast, steak and liver paste were canned. Each lady brought a dish and at noon we had a bountiful feast.

Several visitors were present and we are always glad to have them. There will be only one more meeting until the new year's work starts.

Mr. and Mrs. Earl Atchison of Irby were Haskell shoppers Saturday. They report everything getting along nicely especially the White Leghorn hens.

C. Wheatley of the Electric Shoe and Top Shop on Depot street gave us his renewal for the Free Press and said "Let it come as usual." He has been in Haskell the past two years and has made lots of friends and is well known over the county for his good work.

The richest laugh of the season awaits you, Dec. 16th, High School Auditorium, Home Talent Play.

TO OUR PATRONS

Beginning January 1st, we will collect for laundry ON DELIVERY, or if you are employed in town we will be glad to call at your place of business and get the money. Heretofore it has taken from 7 to 10 days each month to collect and then we do not always get the money.

We believe all our customers will be glad to cooperate with us. It is well known that most of our pay-roll is spent in Haskell and anyone engaged in business is bound to get their share.

We will endeavor to pick up your bundles at the same time each week and deliver the same way, so that you can look for our driver about the same time each week. We also desire to get your laundry on the first trip in the morning, thereby saving us time in not having to double back and make the same trip twice.

Please list your articles and place name on slip together with instructions as to what kind of our various services you wish. We finish Rough Dry, Wet Wash and Thrift Service. Phone us for any information you want.

We use soft water—even softer than rain-water. We would be glad if you will pay us a visit and drink some of it. You will see for yourself that it does not contain any harmful chemical and is as good or better than cistern water.

Again we thank you for past patronage, and hope you will help us to give the best service in any way you can.

"We Don't Meet Prices---We Make Them"

"..You're there with a Crosley"

..whenever the world's finest music is played!

Copper coil shieldings and neutralized radio frequency stages are only two of nine major features of this amazing receiver.

Crosley's leadership in the popular price radio field is now augmented by license to use the utmost important radio principles of The Radio Corporation of America, The General Electric Co., The Westinghouse Co., The American Telephone & Telegraph Co., and the Hazeltine and The Latour Corporations.

The Crosley is totally shielded. Copper shields cover coils, cadmium-plated steel covers the condensers. Wiring is completely shielded from both. The Crosley is completely balanced. It is a genuine neutrodyne.

The Crosley is equipped with Acuminators—secondary adjustments to be used only on weak, distant signals and when cruising for far-away stations that ordinary one dial sets miss entirely. The Crosley possesses a volume control by which strong local dancing volume can be reduced to a whisper without distortion or detuning.

The Crosley operates with a single tuning knob which turns an illuminated dial. This feature for shadowy corners is greatly appreciated.

Crosley Radio is licensed only for Radio Amateur, Experimental and Broadcast Reception
