VOLUME XXV NUMBER 14

Lubbock, Texas April 12, 1974

## Tornado!

By Capt. Bill Parker  
Weather Instructor

The recent outbreak of tornadoes in Illinois and Kentucky last week signaled the beginning of another severe storm season.

What happened to Xenia, Ohio, was not unlike the tornado which hit Lubbock in May 1970. Fewer deaths from tornadoes have occurred in recent years due to the services provided by the National Weather Service but your safety depends on your heeding the warnings.

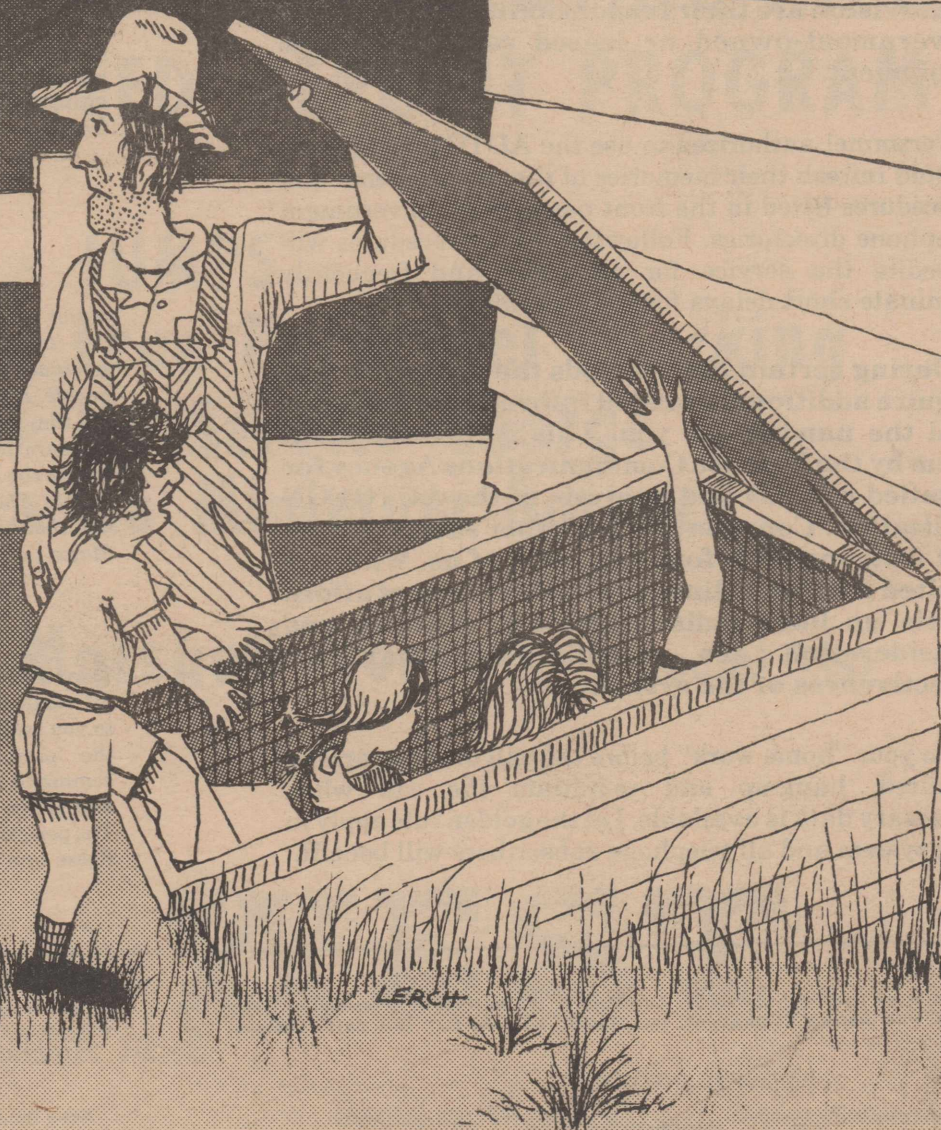

A "tornado watch" means weather conditions are such that tornadoes or severe weather could develop. The "watch" alerts all weather facilities, radio and television stations and Civil Defense agencies.

When a tornado has been spotted, a "tornado warning" will be issued. The sound to listen for is a long, steady whine. However, the time for you to react is not when you hear the siren, but before, when a tornado "watch" is issued.

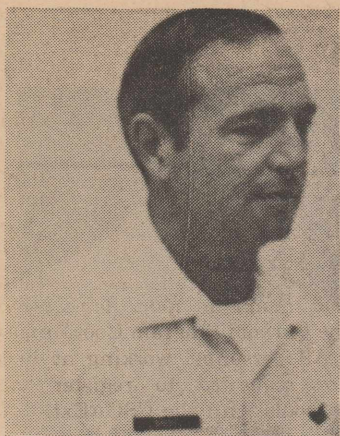

When a "watch" is issued, stay tuned to your radio or television for information about further developments and ask yourself, "What do I want to protect? . . . Where is my family?" Be prepared to move to a place of safety at a moment's notice should conditions warrant, and take these precautionary steps if a tornado is sighted:

- \* Open the northeast windows in your home.
- \* Stand in a central bathroom or closet in your home or go to the basement, if you have one.
- \* In the open, leave your car and lie in a gully or ravine.
- \* Avoid standing under suspended ceilings or in auditoriums.
- \* Stay away from second stories; go to the ground floor or basement.

Remember: those who are the victims of tornadoes are often those who ignore the warnings.

## frame of reference

*"With our limited number of lines at Reese we cannot afford to tie up lines indiscriminately"*

By Maj. George Balog  
2053rd Communications  
Squadron Commander

Personnel working in the offices of the Department of Defense agencies frequently become complacent of the communications that are available for their daily use in the transactions of business for the U.S. Government.

Little or no thought is given to the fact that these services are part of the cost of operating the Department of Defense. Frequent studies are conducted to determine if we are effectively using the systems for which we pay large sums annually.

The AUTOVON is the primary long range communications service at Reese with which most personnel have available and many use daily. The use of this system has fallen under close scrutiny in recent months and it is important that all potential users are aware of the present situation. The criteria of use as established in Air Force Manual 100-21 is restricted to calls that are essential to mission accomplishment that require the timeliness unobtainable by other means and that will withstand the close scrutiny required of the same call by commercial tolls.

The paragraph on unauthorized use specifically states AUTOVON services and facilities will not be used for unofficial calls nor by non-appropriated fund activities. In the interest of good telephone service all managers are reminded that personnel under their supervision are their responsibility for the use of government-owned or leased communications equipment.

Personnel authorized to use the AUTOVON system should refresh their memories of the requirements and procedures listed in the front pages of all government telephone directories. Following these procedures will expedite the service for all users and frequently eliminate short delays for the individual.

During certain time periods the operators will require additional detailed information and must dial the number for you. This is directed upon them by the Defense Communications Agency for detailed records and analysis of the AUTOVON utilization. Consideration of other subscribers is not a strong trait found in most of us. With our limited number of lines at Reese we cannot afford to tie up lines indiscriminately, courtesy and consideration are essential for maximum effectiveness of the system.

Do your "home work" before the call or if research is required, hang-up and re-initiate the call when necessary data is available. Let the golden rule apply in this system and all telephone subscribers will benefit.

## Commander's CARE Line

Sir:

I live in Barracks 420 and I would like to complain about the dryers in this dormitory which don't work. I called billeting as you said to do in the last Roundup and they just gave me a lot of bull and said no one is there to work on them over the weekend. The weekend is when most people are using the washers and dryers for their clothes to be ready on Monday.

Airman Cowan

Airman Cowan:

The dryers in 420 were inspected

on 29 March and checked for operation April 2. The dryers were working on both days. The contractor is available on weekends for emergency service and all billeting clerks are familiar with the procedures to obtain this service. The billeting office has been unable to establish the date or the time of your call and therefore cannot identify the clerk that was on duty. The current washer-dryer contract expires on June 30 and the new contract will specify commercial type equipment, in an effort to provide better service.

## letters

Dear Colonel Baxter:

This letter is meant to be more than a letter of appreciation. It is written to tell you (and the personnel of Reese AFB) of an act of kindness by the personnel of the 64th Organizational Maintenance Squadron.

On Friday morning, March 29, at approximately 10 a.m., a dependent wife of an airman assigned to OMS, presented with an acute medical condition requiring the services of a specialist. She brought her eight-year-old boy with her, as she had no one with whom she could leave him. We made this lady an appointment with a doctor downtown at 1 p.m. and subsequently took her there in our ambulance. After her condition was diagnosed here I called the OMS Orderly Room and asked them for help in taking care of the child. Within minutes, A1C Tommy W. Stokes was here, took the boy back with him and insured that he was taken care of during the next four to six hours, until the mother was able to return home later that day.

Maj. James E. Cason and Airman Stokes made arrangements for the wives of personnel assigned to the squadron to check on her every hour on the hour until the husband (who was on emergency leave to Florida) returned home late Saturday night, March 30.

This is the first time in my Air Force career that I have observed such unselfish behavior. I think that all personnel who so generously gave of their time to help this family proved again that Air Force personnel and their families are always ready and willing to "lend a hand" when someone needs assistance. It is truly gratifying to me to know that people CARE.

Sincerely,

Maj. Marie T. Cei, NC  
Charge Nurse  
General Therapy Clinic  
USAF Hospital

Major Cei:

*It is indeed a pleasure to again be reminded that Reese is a base of top-notch people. It's unsettling to hear the gripers, for they are always loud; but it's a real pleasure to hear the real story of what makes the Air Force a fine family in which to live. Thanks for the fine work in OMS and thanks for sharing your story with us, Major Cei.*

Col. Walter H. Baxter III  
Wing Commander

Dear Colonel Baxter:

I would like to express my appreciation to you and the United States Air Force for the participation of troops in your command at the dedication of the George and Helen Mahon Library on March 16. The performance of the Honor Guard from Reese and the band from Sheppard lent

dignity and charm to an event which will be long remembered by the citizens of our community. It was gratifying to see so many base personnel in attendance that day as well.

Please extend a cordial invitation to your officers and airmen and their families to use our library facilities at any time.

It is a pleasure to experience such fine cooperation.

Sincerely yours,

William Stewart  
Library Director

(Editor's note: The following letter was sent to the Security Police Division by a grateful Reese father and then forwarded to "The Roundup.")

Sir:

I would like to express my appreciation to the base Police for the rapid and expert manner in which the below named personnel assisted in locating my little four-year-old daughter.

At 12:50 p.m. on March 18 I called the Security Police Desk and talked to Amn. W.P. Guidry, at which time I told him it was possible that my little girl, Julie, was lost. After giving him the details he instructed me to keep contact with him since I was going to be out looking for her. The complete conservation may have lasted five minutes. By the time I walked out the front door at 105 George, I saw two police cars traveling in different directions looking for her. While out looking for her myself I also met two off-duty SPs looking for her. They were Sergeants M. Roberds and R.L. Vernon. When I returned to the house, Airman Guidry was calling to say Sgt. C.W. Box thought he had located her and would be over to pick me up to go make identification. In the meantime A1C R.L. Sims had picked up my wife at work and brought her to where our little girl was found. A1C H. Anderson came by to see if everything was OK. He had been looking in another area. Outside of my wife being upset and my little girl being scared by seeing myself, my wife and so many police, everything was taken care of just fine, including little Miss Julie. Sergeant Box drove us back to the house where the underlined step was taken care of.

Once again, thanks to the personnel involved in this search. They show a credit to themselves, their squadron and the Air Force and to Reese AFB.

TSgt. Wallace J. Tommie  
Chief, Operations Section.

The Roundup is an unofficial newspaper published in the interest of personnel at Reese AFB under contract with Barron Publications, Inc. Mailing address: P.O. Box 2415, Lubbock, Tex.

### Publisher's Statement

"Everything advertised in this publication must be made available for purchase, use or patronage without regard to the race, creed, color, national origin or sex of the purchaser, user or

patron. A confirmed violation or rejection of this policy of equal opportunities by an advertiser will result in the refusal to print advertising from that source."

News for the Roundup should be delivered to the Information Division, bldg. T-1, no later than 11 a.m. Monday prior to the Friday publication date. Classified ads of a non-commercial nature may be placed free of charge and must also be in to the Information Division by 11 a.m. Monday. Other advertising matter is handled exclusively by the publisher.

# 90-10 plan to begin at Reese

The voluntary carpooling program, encouraged by rising gasoline prices and a national desire to first reduce and then eliminate U.S. dependency on foreign imports, has been widely accepted at Reese, according to carpool officials.

In a recent television appearance at Houston, President Nixon pointed out that although the foreign embargo on petroleum shipments to the U.S. was being lifted, voluntary carpooling and reduced highway speeds would continue as necessary conservation measures. Petroleum production had been reduced by Middle East nations prior to the embargo, and the new level of U.S. imports has not been established yet, according to informed government and media sources.

With foreign oil costing twice as much as that produced in the U.S., the average cost of gasoline rises

with increased imports. Therefore, a plentiful supply of gasoline at this time - even if it were available - would be increasingly expensive.

Accordingly, it is anticipated that the Reese Carpool Program will continue its growth as we move toward 60 and 70 cents per gallon for gasoline.

Base officials have seized the opportunity presented by the carpool program to eliminate obvious traffic hazards emanating from new construction, shifts in the work force, changed traffic routes and increasing numbers of bicycles in use. Some parking on streets is

being eliminated and some changed to horizontal. Bicycle lanes will be inserted on some key streets. Also, some off-street parking areas are being eliminated, and customer parking is being expanded throughout the base.

During the period of these changes, and the re-working of parking lots by 64th Civil Engineering Squadron, new requests for reserved parking spaces for carpools will be held in suspense by the CBPO Customer Service Center (CSC). As soon as the work is completed, required changes in reserved parking for carpools will be coordinated with the members by

CSC and new parking permits issued.

In the meanwhile, carpool members should not attempt to mark the spaces they have requested; only Civil Engineering is authorized to make such markings, and then, only upon the request of the Carpool Program Coordinator.

All personnel working at Reese are requested to register their carpools with the CSC (Ext. 2276) prior to the first day of June if they haven't already done so. Those who wish to join a carpool may seek assistance from CSC at any time.

An early issue of "The Roundup" will carry information regarding specific changes in vehicle parking

## AF announces Wife of Year

WASHINGTON (AFNS) - Mrs. Sherril Presar of RAF Station, Upper Heyford, England, has been named Air Force Wife of the Year.

Mrs. Presar was selected for her involvement in community activities at Randolph AFB, Tex., and at RAF Station, Upper Heyford. Her participation included Officers' Wives Clubs, Family Services, Children-Have-A-Potential, Girl Scouts of America and civilian community service projects. Her husband is Maj. Don L. Presar who is chief of military personnel for the

20th Combat Support Group at RAF Station, Upper Heyford.

Mrs. Presar will be honored at an awards dinner in Washington May 7, along with the wives of the year from the Army, Navy, Marine Corps and Coast Guard. Prior to 1973, each service conducted its own preliminary competition and selected its service finalist. The five service finalists were then judged by a prominent panel of civilian

women, coordinated by the General Federation of Women's Clubs. This year, there will be five individual service winners rather than a single Military Wife of the Year.

Established in 1967 by Harrell International Inc., the Military Wife of the Year program seeks to dramatize the important role American military wives play in contributing to community services.

## Funds personnel to meet

Charles T. Cook and Janice Richey of the Reese Bachelor Housing Branch will attend an Air Training Command-wide conference for Nonappropriated Fund (NAF) personnel to be conducted at Randolph AFB, Tex., April 23-24.

Representatives of NAF offices from all 15 ATC bases are slated to attend the two-day meeting. According to John Kirkin, ATC

NAF personnel chief, the expanded personnel management system for NAF personnel will be the major topic. Invited speakers from Headquarters, U.S. Air Force and command directorates will be on hand for the conference.

Kirkin stated, "This is the first such gathering for NAF chiefs and should provide intensive orientation and training in NAF personnel administration."

Amn. William M. Coddington has been selected as the 64th Flying Training Wing Airman of the Month for March.

Airman Coddington works as a jet engine mechanic in the Flight Line Support Unit of the 64th Field Maintenance Squadron (FMS) and is presently continuing his formal on-the-job training (OJT) for his five level. To date he had completed the first four volumes of his OJT with 96½ per cent course average.

Nominating Airman Coddington for the honor was Capt. Robert L. Clark, commander of the 64th FMS. In his nominating letter, Captain Clark said of Airman Coddington, "He has an exceptional knowledge of the J-69 and J-85 engines and their related systems. His ability to proceed in a systematic manner has aided the engine shop greatly by producing both quality engine installations and major component changes on the J-85 and J-69 engines. Airman Coddington continually strives to achieve a zero defect product for all assigned tasks. He continually seeks additional information to gain knowledge and has the ability to favorably influence, by example, his fellow worker."

In commenting further on the military bearing of Airman Coddington, Captain Clark said, "He strives to set the highest of standards for himself as evidenced by his achievements in housekeeping within his work area and quarters. Airman Coddington's personal appearance is always above reproach, which sets an outstanding example for his contemporaries as well as his subordinates."

Airman Coddington will be honored during the monthly Wing Awards Ceremony at the end of April.

# Rangers not 'Hollywood' types

**By Sgt. Buddy Lerch**

A great many people at Reese, both Texans and non-Texans, have heard about the legendary Texas Rangers, but few people know the real story about the organization.

A pictorial summary of the Rangers, produced by the Institute of Texas Cultures in San Antonio, is on display in the Community Room of the brand new George and Helen Mahon Library, located at 1306 9th Street in Lubbock.

**150 Years of Service**

The Texas Rangers have served their state for over 150 years and have become international famous, but the organization hasn't always been known by its present name. Visitors to the Library will see that in early days the Rangers have been known as "mounted gunmen," "volunteers," "militia" or "ranging companies," among other labels,

some of which were not very complimentary.

Throughout their history the best of the Rangers have been a special breed of men, sometimes feared and often loved by their fellow Texans. The Rangers continue to have a reputation as men who were not afraid to die. . .perhaps the words of a Ranger 70 years ago sums it up: "No man in the wrong can stand up to a fellow in the right who keeps on a-comin'."

**Hollywood Image**

Unlike the Hollywood image of a tall, flat-bellied, romantic-looking giant, wearing a white hat and riding a white horse, Rangers have been small men with boyish faces, pot-bellied men riding an old nag that could have never made it in the movies or tall, skinny dudes with wimpy moustaches.

And their uniform. . .what

uniform? Today's Rangers, while a modern corps of law enforcement officers in the Texas Department of Public Safety, do not have standard clothing. They are often dressed in gabardine, boots and Stetson hats, but not necessarily so. Each member dresses as he pleases. That applies to their guns and badges as well. Most Ranger badges are designed by the man who wears it, usually after an old tradition, using Mexican silver.

The Library show, which will continue until April 19, goes into much more detail about the Rangers, with 150 pictures and large print texts mounted on 48 seven-foot tall display panels. The Mahon Library is open from 9 a.m. to 9 p.m. Monday through Thursday and from 9 a.m. to 6 p.m. Friday and Saturday.

## Scouts garner awards during monthly meeting

Awards were presented to members of Cub Scout Pack 548 March 25 during the pack's monthly meeting.

Den 4 members opened the meeting and boys from Dens 1, 2, and 4 gave a barber shop saving contest with their mothers, as a part of the opening activities.

The Webelos awarded Bobby Schultz with Denner and Kenneth Ballinger with Assistant Denner. They also accepted Douglas Ballinger of Den 4 into the Webelos ranks, as well as Billy Trimble, also of Den 4.

In Den 4, Matthew Reasoner and Troy Johnson won their Silver Arrow point and Douglas Richitir was named Denner. Ronald Gregoril and Avery Williams were both named Recruiters.

In Den 3, Ricky Piper was awarded the Silver Arrow point and

Ronald Ingle was named Denner. Appointed Denner in Den 2 was Raymond Drapo, with David Martin as Assistant Denner.

Michael Rose of Den 1 was named Assistant Denner and Recruiter and was given the Silver Arrow point. Darrel Craufutt was named Denner, Billy Trimble was awarded his two-year pin and John Baxley III was given his Bobcat Award.

During the meeting, Pack 548's Cubmaster, SSgt. Marty Johnson, was honored for his work in the program by all of the dens. Sergeant Johnson, who has departed Reese, has been replaced by SSgt. Douglas A. Ballinger.

The next pack meeting has been scheduled for 6:45 p.m., April 25, at the Reese Elementary School. Parents of all Cub Scouts are encouraged to attend this important meeting.

*notice*

Air Force has extended the deadline for taking USAFI examinations. Persons who wish to take one of the tests now have until May 31 to do so. More information about the deadline extension may be obtained from the Reese Education Office, Bldg. 62, Ext. 2469.

## News Briefs

The Reese Latin American Club and the NCO Wives Club will sponsor an Easter Egg Hunt beginning at 10 a.m. at the athletic field behind the Officer's Open Mess. It is open to all military dependents up to the age of 10.

\*\*\*\*\*

The following enlisted promotion quotas have been allocated for May: chief master sergeant, 190; senior master sergeant, 795 (effective after names of calendar year 1974 selectees are released in mid-May); master sergeant, 1,081; technical sergeant, 1,358; staff sergeant, 1,335; and sergeant, 6,699.

\*\*\*\*\*

National Library Week will be April 21-28. The Reese Library will hold an Open House on April 24 and 25 and refreshments will be served.

\*\*\*\*\*

Master sergeant selectees who are eligible and qualified for retraining into AFSC 100X0, First Sergeant, who are recommended by their unit commander for administration of the Supervisory examination, may be administered this examination during the normal established testing cycles as a part of their application procedures. For instructions on how to apply for retraining into this career field, contact the Formal Training Office, Ext. 2744.

\*\*\*\*\*

The following General Electric skillets may have defective parts presenting an electrical shock hazard: model SK-26, 12" aluminum cooking surface; model SK-26AVT, 12" non-stick cooking surface, avocado color; model SK-27AVT, buffet cooking skillet, non-stick cooking surface, avocado color; model SK-27HRT, buffet cooking skillet, non-stick cooking surface, harvest gold color. This notice applies to only production numbers 407 through 411. Production numbers are stamped on the underside of the skillet and on the outside of the carton. Anyone in possession of any of these items should return them to the place of purchase.

\*\*\*\*\*

Safety officials here recently announced that Reese has a very high rate of disabling injuries, both in military and civilian categories. They urge everyone on base to remember this and work with safety in mind in their everyday activities.

\*\*\*\*\*

Air Force strength March 1 was 669,477, compared to 673,380 on February 1. There were 700,856 Air Force personnel in March 1, 1973. Total strength of the Armed Forces on March 1 was 2,194,679, compared to a February 1 total of 2,199,194. The Armed Forces had 2,313,594 members on March 1, 1973.

\*\*\*\*\*

Attention Reese Village occupants: Civil Engineering personnel have started repadding the evaporative coolers on base housing units. Your cooperation in this effort will be appreciated. In addition, the Reese Village watering schedule is being posted daily. The schedule is: Saturday, Monday, Wednesday - officers; Sunday, Tuesday, Thursday - enlisted. There will be no watering on Friday. Full cooperation in this matter from all housing residents will lessen the possibility of further curtailment of this precious utility as the weather gets hotter.

\*\*\*\*\*

Secretary of Defense James R. Schlesinger has approved summer training plans for National Guard and selected Reserve components. The training is designed to achieve maximum effectiveness while continuing the overall 15 per cent fuel savings goal for the Department of Defense.

## Comm operators receive recognition

By MSgt. John R. Brown  
Automatic Digital Network (AUTODIN) operators of the 2053rd Communications Squadron Telecommunications Center have received a Defense Communications Agency Certificate of Recognition for maintaining an error rate of one per cent or less for the period of Dec. 1, 1973 through Feb. 28, 1974.

Over 6,000 AUTODIN messages were processed by operators of the AUTODIN terminal through this period.

Especially noteworthy is the fact that Airmen First Class Cameron L.

Pullen, Thomas A. Daniell and Ricky J. Barton with a combined total of less than four years of service were responsible.

TSgt. Julius B. Lewis, NCOIC of the Telecommunications Center, stated, "I'm extremely pleased with these men. They have a good attitude toward their job and their personal appearance, military bearing and behavior are commendable."

These airmen are doing their part to prove the 2053rd Comm Squadron doesn't follow examples, but rather sets the pace for others to follow.

The 2053rd Comm Squadron is a part of the Air Force Communications Service (AFCS). AFCS provides communications, navigational aids and Air Traffic Control services to Department of Defense agencies on a global basis.

The Wing Dining Hall has announced its menu schedule for this week, subject to change due to nonavailability.

**Today**—Lunch will feature roast turkey and baked flounder, followed at supper by corned beef and Mexican pork slices.

**Tomorrow**—The combined lunch-supper meal will offer roast beef, bratwurst and hamburger pie.

**Sunday**—Chow Hall patrons will be served baked chicken, baked ham and barbecue beef cubes, as well as grilled minute steaks for the lunch-supper meal.

**Monday**—Scalloped tuna and veal loaf will be served at lunch, followed by roast beef and roast pork for supper.

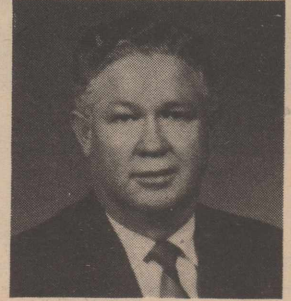

**Tuesday**—Grilled ham slices and baked lasagna will be offered at lunch. Supper will have grilled steaks and roast turkey served.

**Wednesday**—Braised beef cubes and grilled liver will be served at lunch. Supper will feature fried chicken and roast ham.

**Thursday**—Lunch will feature steamship round and braised pork slices, followed at supper by barbecue ribs and chili macaroni.

## LOWER RATES for most Texas drivers

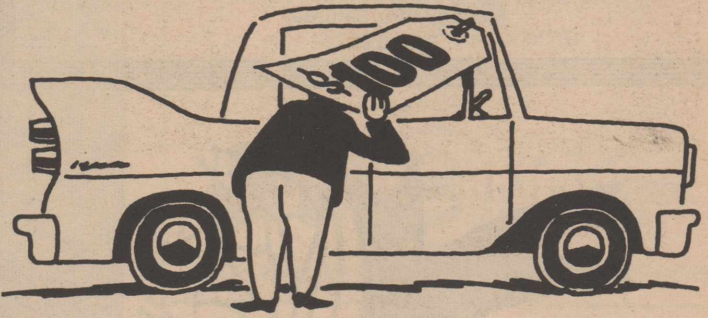

For most Texas drivers, State Farm has rates that are 15% less than rates established by the State Board of Insurance. See me.

# "I came back."

"My master plan after separation from the Air Force was to find a part-time job and go to school on the G.I. Bill. I found one that had a minimal amount of job satisfaction. Also, due to the long hours my job required, there seemed to be no hope for college." S/Sgt Dan V. Weatherman came back to Air Force opportunity. His master plan, like the plans of many young people, just didn't seem to materialize when he left the Air Force.

"Late one evening my wife and I sat down and took a long hard look at what we had in the Air Force. And my current job offered none of those benefits. So I acknowledged my mistakes and decided on a new master plan called the Delayed Reenlistment Program (DEP) of the Air Force."

S Sgt Weatherman returned to the Air Force under the DEP. If you're planning to get out, remember that you have 3 months after separation to return... with the same rank, salary and eligibility for full reenlistment bonus.

But better yet, before you get out take a long, hard look at what you're getting out for.

## Mold yourself in ceramics

Working with clay can be an interesting, useful, fun and even profitable hobby, and Reese has everything you might need to get started.

The Ceramic Hobby Shop, located in the Arts and Crafts Center, Bldg. 340, has a variety of molds, a large working area with tables and chairs for your comfort and storage lockers. All tools, clay "slip" and glazes can be purchased in the Ceramic Sales Store in the same building. Three new kilns are available for "firing" ceramic pieces.

Mrs. Harriet Glazebrook, Ceramic Shop manager and a highly-qualified instructor, is available to assist shop patrons during the hours of operation. Beginning yesterday, she started classes for beginners and advanced patrons interested in ceramics. The course is free, provided the supplies are purchased at the Ceramic Sales Store. Classes will be held at 2 and 7 p.m. every Thursday.

The Ceramic Shop is open from 1:30 to 9:30 p.m. Tuesday through Friday. On Saturdays it is open from 10 a.m. to 6 p.m. and is closed Sundays and Mondays.

SHOP MANAGER—Mrs. Harriet Glazebrook, left, instructs Mrs. Elise Wood in the proper method of cleaning a piece of ceramic greenware, using a special tool purchased in the Ceramic Sales Store. (Photo Courtesy of Joe Perron).

weather wise

## April may prove unpredictable

By Capt. Bill Parker

April weather is characterized by thunderstorms and tornadoes, which are hard to predict, so I'll just give you statistics about the weather of past Aprils and let you do your own predicting. In case you predict tornadic activity and your

predictions come true, read page 1 again now... while you can.

The average daily maximum has been 73 degrees, while the lowest temperature recorded during April was 22 degrees.

The average amount of precipitation for this area is one inch, with an average of four days

during which the precipitation occurs. There is an average of three days of thunderstorms during the month.

Snowfall registers an average "trace" during this month. The wind (or dust) blows at speeds greater than 10 knots 48 per cent of the time.

There you have it. Good luck on your predictions, and I'll see you when the sky clears next month.

# All the time

time is a valuable commodity. that's why, at The College Inn, convenience is a watchword!

## Quality food and lodging for Young Men and Women

The Inn serves 20 meals per week (we skip lunch on Sundays, but serve a mid-morning breakfast and mid-afternoon dinner). We offer a selection of entrees at every meal with no limit on quantity except on Thursday night when we char-broil your steak to order at poolside.

This summer the Inn is open 24 hours daily for men and women residents and their guests. Parking for cars in our off-street ramps. Recreational facilities include two heated pools, color T.V. lounges, pocket billard and ping pong lounges. Weekly maid service is included.

College Inn Room and Board rates for Summer Sessions I and II 1974 are as follows:

\$50.00 Security Deposit plus  
STANDARD DOUBLE: \$182.50 per session, per occupant  
Payable in lump sum or 2 equal installments of \$91.25  
LARGE DOUBLE: \$194.50 per session, per occupant  
Payable in lump sum or 2 equal installments of \$97.25  
DOUBLE SUITE: \$202.50 per session, per occupant  
Payable in lump sum or 2 equal installments of \$101.25  
STANDARD SINGLE: \$220.50 per session, per occupant  
Payable in lump sum or 2 equal installments of \$110.25

Your \$50.00 Security Deposit will be refunded at the end of the session as provided by the contract and assuming there is no damage to your room or furnishings.

## Wives plan Easter fete

Members of the Reese NCO Wives Club will be going to the Lubbock State School tomorrow.

The club provides the Canteen Fund for four boys at the school and, as an extra project, is planning an Easter party for all boys in Pine Dormitory at the facility.

The 35 boys who live in Pine Dorm are of various ages and most are either deaf or partially deaf.

The Easter party will be held from 1:30 to 2:30 p.m. at the State School. All members willing to help with the party are urged to contact Mary Sue Ecklund at 885-4388.

# Movies don't need a moral

By Lighthouse

When Hollywood first started to make movies, they had just one thing in mind and that was to entertain you. There weren't any problems with today's hangup of teaching you an immortal lesson in morality, goodness or the evils of corruption. When you went to a movie, you went to escape into adventure, romance or comedy.

Although there aren't many movies like that any more, every once in a while someone is just crazy enough to make a movie that will entertain you while you sit in front of the screen and when it's all over you can leave without taking a message with you.

### Blazing Mel

I went to see a movie this week called "Blazing Saddles," which was written by Mel Brooks.

If the name Mel Brooks didn't ring a bell, maybe Slim Pickins, Cleavon Little, Richard Pryor, Harvey

Korman, Alex Karras and Dom De Luise might. They are all in it, too. Although the movie is rated R, it is good solid fun that completely refuses to follow the rules of film making and when it's all over, you feel like you just sat through a 90-minute version of the T.V. series "Mash." The one-liners are fast and heavy, background scenes are crazy (an 1890's ice cream parlor named Howard Johnsons—with one flavor) and the time sequences are all wrong, except when you're making a movie for fun.

### Just Fun

This movie is just for fun and entertainment. For the space of 90 minutes worth of celluloid fantasy, you can go back to the early slapstick days of films and enjoy the pratfalls without the preaching. Then when you leave the theater and suddenly realize that you don't have a message to worry about, don't feel cheated, it is the way movies are supposed to be.

This week we have two people to pass on credit to for doing their jobs in an outstanding manner.

Second Lt. Emmett G. McClellan Jr., maintenance support officer for the 64th Supply Squadron, called in about SSgt. Billy J. Sullivan who is the NCOIC of the Receiving Line, Repair Cycle Support Unit. Lieutenant McClellan said Billy is "a dedicated NCO whose maturity and sound judgement compliment his exemplary conduct. He has just recently assumed the job of NCOIC and is doing a really good job."

Then Sgt. Ernest Baker called in about somebody who doesn't work for him but who he comes in contact each day. Sergeant Baker was talking about A1C Jon Schwinkendorf. He said that Jon always has a good attitude and gives real cooperation to the people in CBPO, where Sergeant Baker works. Jon is assigned to the Data Automation Section of the Comptroller Division.

# Speaker shares experiences

By 1st Lt. "Pete" Peterson

Lt. Col. William Finn was last week's guest speaker in C Flight.

Colonel Finn discussed at length his experiences in Southeast Asia flying the Republic F-105F Thunderchief. He flew "Weasel" missions (Surface-to-air missile suppression).

Capt. Wayne Griffith, C Flight commander, has even more in store for the students of Undergraduate Pilot Training Class 75-02. He, along with Captains Lamar Smith and Dick Hall, have plans for a combined lecture concerning the missions they flew in SEA. Captain Griffith flew the "Jolly Green," Captain Hall the North American Rockwell OV-10 "Bronco" and Captain Smith flew the Douglas A-1 "Skyraider." This should be quite a show.

Capt. Dave Mann has returned to E Flight from Squadron Officers School at Maxwell AFB, Ala. Speaking of S.O.S., Lt. Col. Richard A. Ingram, 54th Flying Training

Squadron commander, feels that the school has improved its "Couth" Program, as upon Capt. Dick Hall's return he actually got himself a legitimate date!

Maj. Gene Stamps has returned from Randolph AFB, Tex., and "Charm School." Major Stamps is now Chief of Academics in the 64th Student Squadron.

# Boy Scouts need many volunteers

Volunteers are needed to serve at the South Plains Boy Scout Council camps this summer.

Permissive temporary duty will be authorized for one-to three-week periods, depending on manpower requirements and supervisor approval.

The camps will run from June 9 to June 29 and from July 7 to Aug. 17.

Any personnel interested should arrange tentative dates to be TDY with their supervisors and then contact Capt. Dorin E. Balls at Ext. 2870 or 2879 or 2nd Lt. Hugh Cameron at Ext. 2840 before April 19.

# Photo hobby shop offers new classes

Yesterday was the first of many Photo Hobby Shop classes on color slide developing.

Dennis Mehrenberg is instructing the classes from 6 to 9 p.m. every Thursday free of charge.

The Photo Hobby Shop is located in Bldg. 340. The new hours of operation are Tuesday through Friday, 5:30 to 9:30 p.m.; Saturday, 10 a.m. to 6 p.m. and it is closed Sunday and Monday.

## E-8 board gives quotas

WASHINGTON (AFNS) - The names of master sergeants selected for promotion to senior master sergeant will be released in mid-May, according to Air Force personnel officials.

An Air Force central selection board convened March 18 at the Air

Force Military Personnel Center at Randolph AFB, Tex., to consider approximately 29,000 master sergeants for promotion.

### SELECTIONS

The selection objective (promotion quota) for this cycle is 4,362 which

will result in the selection of approximately 15.1 per cent of the eligibles in each superintendent Air Force specialty code. Selected airmen will be promoted in monthly increments, beginning in mid-May, to fill projected vacancies occurring between May 1974 and May 1975.

## Mathis plans Carlsbad tour

The Mathis Recreation Center will sponsor a tour of Carlsbad Caverns, N.M., sometimes known as "God's Picture Gallery," via chartered bus at 7:30 a.m. April 27.

The trip to the beautiful natural cave formation, which observed the 50th anniversary of its opening last year, will last all day, with the bus returning to the Mathis Recreation

Center at approximately 7:30 p.m.

According to Ken Hyde of the center, the cost of the tour will be \$15 per person. This fee includes bus charge, park and cavern fees and box lunches. He added that family participation will be welcomed.

Payment may be made or more information may be obtained at the center, Bldg. 310, Ext. 2787, in advance.

Also announced was the formation of a Free Theatre Guild. Anyone interested in taking a self-improving step forward by directing, acting or serving as theater technicians should attend.

"All military personnel and their dependents are invited to share in the newly formed guild to make it a base project that will bring happiness to many at Reese," according to Hyde.

## Crime rate statistics on rise in '73

Col. Wilson E. Speir, director of the Texas Department of Public Safety, recently announced that the Texas crime rate rose 3.1 per cent last year.

Colonel Speir said that 492,654 major offenses were committed during 1973. In 1972 the major offenses were counted at 472,011.

The urban crime rate rises 4.9 per cent in 1973 but the rural rate was down 12.7 per cent.

The largest increase in Texas crime was in the robbery category, which rose 17.1 per cent. Murder and homicide were down 2.1 per cent. Rape was up 1.5 per cent; burglary, 2.8 per cent; aggravated assault, 1.1 per cent; theft, 2.9 per cent and auto theft, 2.4 per cent.

Colonel Speir noted that if major crimes in Texas last year were evenly distributed as to frequency, there would have been one such offense every minute of the day.

The highest area rate increase was for cities between 10,000 and 25,000 population. This increase was 12 per cent.

Population estimates compiled by the Census Bureau and obtained through the FBI were used to calculating the rates in the recently-released 1973 report.

## flick flack

This week the theater offers a full schedule of drama, music, comedy and motorcycle thrills, including another dose of martial artistry.

The base theater schedules features at 8 p.m. Tuesday through Sunday, unless otherwise noted. The special Saturday matinee begins at 2 p.m. Tickets may be obtained at the theater one half-hour before showtime.

### Tonight

"The Red Tent," starring Sean Connery and Claudia Cardinale. Rated PG.

### Saturday Matinee

Winner of six Academy Awards, including Best Picture, "Oliver" is the musical adaption of Charles Dickens' classic novel "Oliver Twist." It is the story of a little orphan who ventures from his home to London only to be adopted by a den of boy pickpockets who get him into many exciting adventures. An enjoyable film for the entire family, it is rated G.

## at Mathis

The Mathis Recreation Center starts off this week's activities with a Good Friday slide presentation and some Easter activities.

**Tonight**—Good Friday Biblical slide showing begins at 7 p.m.

**Tomorrow**—Pre-rehearsal for the Base Talent Show, scheduled for the 17th of June, starts at 2 p.m.

**Sunday**—Easter Sunday. A golden egg hunt will be held for military personnel in the afternoon beginning at 3 p.m. Come out and enjoy Easter Sunday activities at the center.

### Saturday Evening

What happens when you teach a team of guard dogs to rob banks? "The Doberman Gang" proves that it can be done with efficiency and success. Byron Mabe stars as the mastermind behind the robbery who tricks an ex-Air Force dog handler to train the dogs for him for the crime. An exciting G-rated adventure.

### Sunday

"On Any Sunday" is the story of the daredevil riders who bring their cycles out each Sunday to race, not only against each other, but sometimes against death itself. Brought to the screen by Bruce Brown, who produced "The Endless Summer," the film is packed with exciting races and crash scenes. Rated G.

### Tuesday

A thriller double feature comes to the screen with "The Battle of the Amazons," a story of lusty women who raid villages for male slaves and "Bamboo Gods and Iron Men," the story of a prize

fighter who becomes the unwitting carrier for a smuggling operation. Both features are filled with the martial arts and some sex and are rated R.

### Wednesday

Walter Matthau stars as "The Laughing Policeman" who investigates the death of his partner, killed along with many other passengers by a gunman who shoots up a city bus. Lack of motives and the absence of clues frustrates the detective but makes him all the more determined to bring the killer to justice. There is violence not suitable for pre-teens in this R-rated flick.

### Thursday

"Black Belt Jones" a martial arts expert, must battle the Mafia in order to keep his school of self-defense open. The school, located in the heart of the Watts district of Los Angeles, is being threatened by the underworld and it takes Jones, his girlfriend and the schools students to battle for its survival. Violence and sex might offend some in this R-rated movie.

**Monday**—The Take Off Pounds Sensibly (TOPS) Club meeting will take place in the center at 6 p.m., followed by the Boondock Rodeo Club meeting at 7 p.m. Anyone interested in joining either of these clubs is invited to attend.

**Tuesday**—Two activities take place in the center tonight, both starting at 7 p.m. For the kitchen artists, the Chinese Cooking class will hold its weekly activity and Mathis will be showing both sports and recreation films.

**Wednesday**—If you're interested in broadening your

language horizons, a language by record course will be conducted in the center beginning at 7 p.m. If you are just interested in English, but reading it faster, a speed reading course information center will be set up for potential students.

**Thursday**—The Officer's Wives Club will be holding their bridge tournament in the center at 9:30 a.m. In the evening, the Free Theater Guild will be holding a meeting at 7:30 p.m. for aspiring actors and actresses.

## at Open Messes

Tonight at the NCO Open Mess the music will be provided by the band "The Directory."

Tomorrow night, "The Sage" will be providing the musical entertainment, followed Sunday by "Discotheque" with Nathaniel Stowe. "Discotheque" is a regular feature at the NCO Open Mess each Sunday and Thursday night. The mess dining room is open

from 10:30 a.m. until 1:30 p.m. and from 5 until 9 p.m. Monday through Friday. Tomorrow the dining room will be open from 9 a.m. until 9 p.m. and will be closed on Sunday.

Dancing to the music of "Sage" beginning at 9 p.m. tonight will start off the week's activities at the Officers' Open Mess. Also tonight the mess will feature the New York

Strip steak with a free glass of wine for only \$4.95.

Sunday there will be a special Easter Sunday brunch beginning at 10:30 a.m. and continuing until 2:30 p.m. Wednesday will again be Steak Night and on that same evening, the mess will host the Texas Tech ROTC Arnold Air Society Dining Out.

## Pilots make life-long friends

By 1st Lt. Edward B. Hayden

The training of an Air Force pilot requires the resources and talents of numerous support agencies. One such agency, the student pilot is first to meet in the Undergraduate Pilot Training program, is the Aircrew Life Support Section.

This Personal Equipment Branch, more commonly called the "P.E. Shop," is responsible for fitting, servicing and inspecting the flying gear for over 650 instructor and student pilots.

### Eight Workers

At Reese, eight highly-skilled individuals are directly involved in this demanding task. Sgt. Walt Sparrow, A1C Ed Kishbaugh and Bill Wright maintain the 35th Flying Training Squadron (FTS) P.E. Shop, while Sgt. Owen Blackman, A1C Virgil Watson and James Enger perform their duties in the 54th FTS. MSgt. Donald A. McFarlane is the Life Support NCOIC, assisted by TSgt. William R. Rawson.

A student receives his gear from the Equipment Management Office and then comes to the P.E. Shop for fitting. They custom-fit the helmet and match an oxygen mask to the face. The student is then advised to "take it home wear it and get used to the confinement of the helmet and mask," according to Sergeant MacFarlane.

Following a "ride" in the altitude chamber, where the equipment is

**MASK REPAIR**—A1C Ed Kishbaugh of the T-37 Personal Equipment Shop insures that an oxygen mask is working properly before issuing it to a pilot. (U.S. Air Force Photo by A1C Willie Shirley)

put to the test by simulating high altitude flight, the shop makes any last needed adjustments. Sergeant MacFarlane stressed, "The importance of a proper fit cannot be overemphasized due to the dangers associated with flying at altitudes up to 40,000 feet."

### Parachute Issue

Prior to a UPT student's first flight in the Cessna T-37 "Tweety," he is issued and fitted with a parachute, which is designed to open automatically in conjunction with the aircraft's ejection seat should the student need to "punch out" during flight. The "chute" contains a small survival kit containing many useful life-saving devices.

When the student enters the Northrop T-38 Talon phase of training, he is issued a "G-suit" to wear. When subject to "G" Forces (which increase as speed increases) rubber bladders in the suit inflate and squeeze the pilot's legs. This stops "pooling" of blood in the lower extremities and helps prevent excessive fatigue, visual dimming and even "blackout" due to aircraft forces.

"Of course," Sgt. MacFarlane says, "all this equipment needs regular maintenance and inspection. Helmets and masks

have to be serviced and cleaned while the parachutes are inspected every month and repacked every four months."

The Personal Equipment Shop has its problems like any organization. The members feel their most overwhelming difficulty is the volume of equipment they handle. Here, nine people are authorized to service 650 pilots, whereas a typical Tactical Air Command fighter squadron would have as many servicing 150 pilots.

### Reese Can Be Proud

To be sure, Reese AFB can be proud to know its Life Support Branch is one of the finest. This was certainly evidenced by the "outstanding" rating they recently received from the ATC Surgeon General inspection team and the more recent ATC IG's favorable comments on their operation.

Surely the satisfaction of their job may only come when a smiling and thankful pilot returns with an expended parachute he used to save his life. And I'm sure I speak for all pilots in the 64th Flying Training Wing when I say we sincerely appreciate the professional attitude and skill they give in the performance of their vitally important task!

# Pilots huff 'n puff through yearly run

By 1st Lt. Edward B. Hayden

Last Friday saw the joggers of Section I huffing and puffing around the track to fulfill their annual mile-and-a-half run. With Lt. Col. John Herbert setting a blistering 10½-minute pace, many IP's found the 16½-minute maximum more their speed. However, our haggard aviators still had the reserve energy to hobble their way to the O-Club to exercise a few 12 oz. armlifts.

As the dust begins to settle, we see the following changes within the squadron. A Flight welcomes 2nd Lt. Earl Smith to their instructor ranks. Earl enjoys being an instructor, though he may wonder if he really is with a call sign of 217.

E Flight ups their instructor-student ratio with the addition of 2nd Lt. Bruce Hollister. While in D Flight, Captains Dave Chesnut, Gordy Isachsen and John Browning are on the move. Dave has assumed the position of D Flight Assistant Flight Commander while Gordy becomes a student favorite with his move to Check Section.

John leaves the squadron to take on the duties of a Class Commander in the 64th Student Squadron.

Capt. Les Hodson is F Flight's newest IP and comes to Reese from a T-39 assignment. Slipping into F Flight's Assistant Flight Commander slot is Capt. Bob Meadows.

Recently, you may have seen some familiar crew chiefs' faces around the squadron. This is part of a Junior Officer's Council program to promote better job understanding between the pilots and crew chiefs. Coordinated by 1st Lt. Bob Osterholtz, crew chiefs are invited from the line to see our end of the operation. So let's all actively join in to encourage this worthwhile program.

## How to buy a bug a little bit at a time.

First say to yourself, "I'd like to buy a bug a little bit at a time."  
And if you've got \$237<sup>00</sup> for a cash down payment, you can have the whole car and pay for it little by little \$85.23 a month for 36 months.  
(If you don't have an adding machine handy, that works out to a deferred payment price of **\$3474<sup>31</sup>** which includes a finance charge at an **ANNUAL PERCENTAGE RATE** of 11.08%)  
Along the way, you get a little financial help from the car.  
Such as an average 25 miles to the gallon. Pints of oil to fill it up instead of quarts of oil. And no outlays for antifreeze at all.  
Of course, you might be the kind that says to himself, "I don't like borrowing money."  
In that case the cash price is \$2837<sup>00</sup>

## HOW TO CUT BACK WITHOUT CUTTING DOWN.

You want a luxury car but can't afford the luxury of poor gas mileage. Get a Volvo 164.  
It gives you air conditioning, lets you sit on leather, and offers almost as much front legroom as a Cadillac deVille. And still gets about 50% better gas mileage than most comparably priced domestic sedans.\*  
Test drive our 164. For a luxury car, it's an economy.

## AF directive gives 8 uniform changes

RANDOLPH AFB, Tex. (AFNS) - An orange day-glow lightweight vest for optional wear by cyclists is one of eight revised uniform items approved by Gen. George S. Brown, Air Force chief of staff.

Another change expected to create considerable interest is an optional texturized polyester serge Class A uniform, Air Force Military Personnel Center officials said.

Adoption of highly polished 0-6 insignia of the Navy and Marine Corps as the Air Force standard is another change. Air Force 0-6's have worn the oxidized-finished insignia.

Other new authorizations make the wear of black gloves, as an alternative to gray, optional for male personnel and, when authorized by the local commander,

optional wear of the gray scarf with the work utility uniform.

A USAF Honor Guard shoulder arc for the blue service uniform has been approved for members of that organization. Subject to the approval of their major command, enlisted major command honor guard members may wear the command crest on the collar of long-sleeve blue shirts.

Also approved is an Air Force Reserve recruiters badge, similar to the one worn by active-duty recruiters.

The eight new authorizations will be covered in a pending revision to AFM 35-10, "Dress and Personal Appearance of Air Force Personnel."

# Base teams need players, coaches

The base gym has announced a few news items about forthcoming athletic activities at Reese.

The Reese bowling team will depart for Lackland AFB, Tex.,

Monday to represent the base in the Air Training Command Bowling Tournament. The base sends along with them a wish of success in the competition.

Gym officials are still searching

for permanent party active duty personnel who are interested in playing or coaching either intramural or base team fast and slow pitch softball. For more information, call Sgt. Rod Wilson or

SSgt. "Marty" Martinez at the gym, Ext. 2207 or 2783.

Registration deadlines for three sports were also announced. Racquetball doubles competitors are reminded to enter on or before Thursday. The racquetball tournament begins April 22.

The deadline for badminton singles will be April 25. That tournament is scheduled to get under way April 29.

Finally, the last day for entry in men's and women's tennis singles and doubles will be May 9. That competition will begin May 13.

## Dependent tops in pole vault

Randy L. Clabaugh, son of TSgt. and Mrs. Donald D. Clabaugh, set a new district record in the pole vault event in the 4A District Track and Field Meet in Plainview, Tex. Saturday.

Bettering the previous district record of 14 feet, the 17-year-old Coronado High School junior jumped 14 feet, 3 1/2 inches. This not only topped the district record by three-and-a-half inches, but it also

set a new school record by half an inch.

Randy, who has been pole vaulting since the eighth grade, easily placed first in the meet against ten other hopefuls in the same event. The second place vaulter only cleared thirteen feet during the competition, over a foot less than the Reese dependent.

His effort qualifies him for the regional track and field meet to be held at the Coronado High School athletic field on April 20.

## Golf Association holds organizational elections

The Reese Women's Golf Association held its first meeting of the year April 2 at the Golf Clubhouse.

The newly-elected officers named during the meeting are Ginger White, president; Mary Anne Mabry, vice president; Virginia Adams, secretary-treasurer; Debbie Ranson, tournament chairwoman; Flo McGuire, handicap

chairwoman; Karen LaMontagne, rules and Patti Chambers, publicity.

The organization urges everyone to join them every Tuesday morning from now through September for "fun and exciting tournaments." Tee-off times will be between 8 and 11 a.m. each week.

For further information contact Ginger White at 885-2329.

## 'Beat the Masters' play challenges golf amateurs

A "Beat the Masters" Handicap Golf Tournament will be sponsored by the Reese Golf Course, beginning at 8 a.m. tomorrow.

Players in the tourney will be assigned to teams by the course manager. A shotgun start at 8:30 a.m. will begin the competition.

Players must be at the new clubhouse by 8 a.m.

The \$3 entry fees will all be returned to the winners in gift certificates. The team with the low score that beats the low Masters score during the day will emerge as winner.

Ready to party! Hug-me-close turtletop with multi-color posies, pastel piping. Snuggled to a free-flowing dirndl skirt. Vicky Vaughn keeps it fresh in non-wilting polyester double knit, machine washable/dryable. White/Blue or White/Pink. 5-15. \$31.00

If you think "doing it yourself" makes you a better wife...  
O.K....bake his bread from scratch.  
But don't freeze your own chicken.

If you bake bread from scratch, it may be fresher. If you bake a cake from scratch, it may be richer. If you freeze your own chicken it can't be fresher or have more flavor than...

Tasty Bird is frozen at the peak of fresh flavor by the individual piece in a tunnel where the temperature stays at 40 degrees below zero. If you really want him to have only the best... and only the freshest... look for Grade A Tasty Bird, the quick frozen chicken you don't have to defrost.
