

The Roundup

Heavy rains deal blow to Reese operation

By Sgt. Jeff King

West Texas has really been living up to one of its nicknames, "The Land of Contrast," and most Reese people wish it would stop.

Soaring temperatures, clear skies and drought conditions for months gave way Sept. 11 at Reese to cloudy skies and almost continuous rain. A trace fell Sept. 12 and the showers have since kept coming, as nearly six inches of rain have fallen on the base since that time.

Floods and hazardous conditions have existed in the western half of the state for quite some time due to a high pressure ridge that appears to be stuck over the South Plains. Heavy rainfalls this week have resulted from the combination of this ridge plus the effects of a tropical storm that developed over Baja, Calif. during the weekend. Rainfall amounts on Monday alone ranged from

1.62 inches in Lubbock to more than three inches at nearby Morton, Tex.

Mission Impact

How does this affect the mission? Lt. Col. John D. Herbert, Operations chief, said, "The weather definitely affects student continuity but we still expect to meet our scheduled graduation dates. Rain like this is just one of the problems you face when working with a flying and scheduling environment."

The colonel continued, "We are approximately four days behind in the (Northrop) T-38 (Talon) and two days behind in the (Cessna) T-37 (Tweety Bird) as of today (Tuesday)."

When asked what actions will be needed to be taken when the rain stops Colonel Herbert responded, "There are Operations actions we will have to make. Certainly our flying schedules later will have to be increased. We have faced these types of situations before. We've had more

rain than usual but it's no different than if we had ice, snow or some other factor that may hinder the schedule. We do expect all classes to graduate on schedule."

End in Sight?

When will it all end? TSgt. Ken May of Detachment 11, 24th Weather Squadron, said Tuesday that the conditions then were expected to exist until Thursday. Sergeant May, who says that he gets dirty looks whenever he tells anyone he's a weatherman, added that a new front would follow this one right into the Reese-Lubbock area but that it wasn't expected to drop much rain if any.

I asked him if this weather was any indication of a possible early or severe winter. "If pressure system trends continue this way, yes, there is the possibility. But with West Texas unpredictability," he added, "who can say for sure?"

Looking about at the terrain in this area, one cannot help but ask, "Where does all this water go?" That is an excellent question. The National Weather Service office in Lubbock notes that one inch of water falling on one square mile of land totals 18 million gallons. Lubbock covers 82 square miles. That means that for every inch of rain that falls, a total of nearly 1.5 billion gallons of water hits the ground.

Other Problems

Rain causes problems in other aspects of the Reese mission. Stanley Greenberg, assistant chief for Operations and Maintenance for the 64th Civil Engineering Squadron, stated, "We've had a great deal of freakish type leaks in many of the base structures. Of course this is to be expected in many of the older buildings so it isn't alarming to us.

We're also experiencing setbacks in many of our projects. All paving work has been forced to stop, as have all agricultural projects, roofing work and repainting. We can't sweep the limbs and mud and other debris off the streets and we can't remove the mud the contractors make with our new construction projects," Greenberg added.

About flooding, Greenberg commented, "We haven't had any real problems yet. Of course the picnic area is pretty well covered but no one has complained to us yet about that.

"Seepage damage has been exceptionally low so far," Greenberg exclaimed, "This rain has been a blessing in one way. Our sewage treatment lake was very low. This rain has brought it up to a good level. We don't feel we're in any danger of flooding, however."

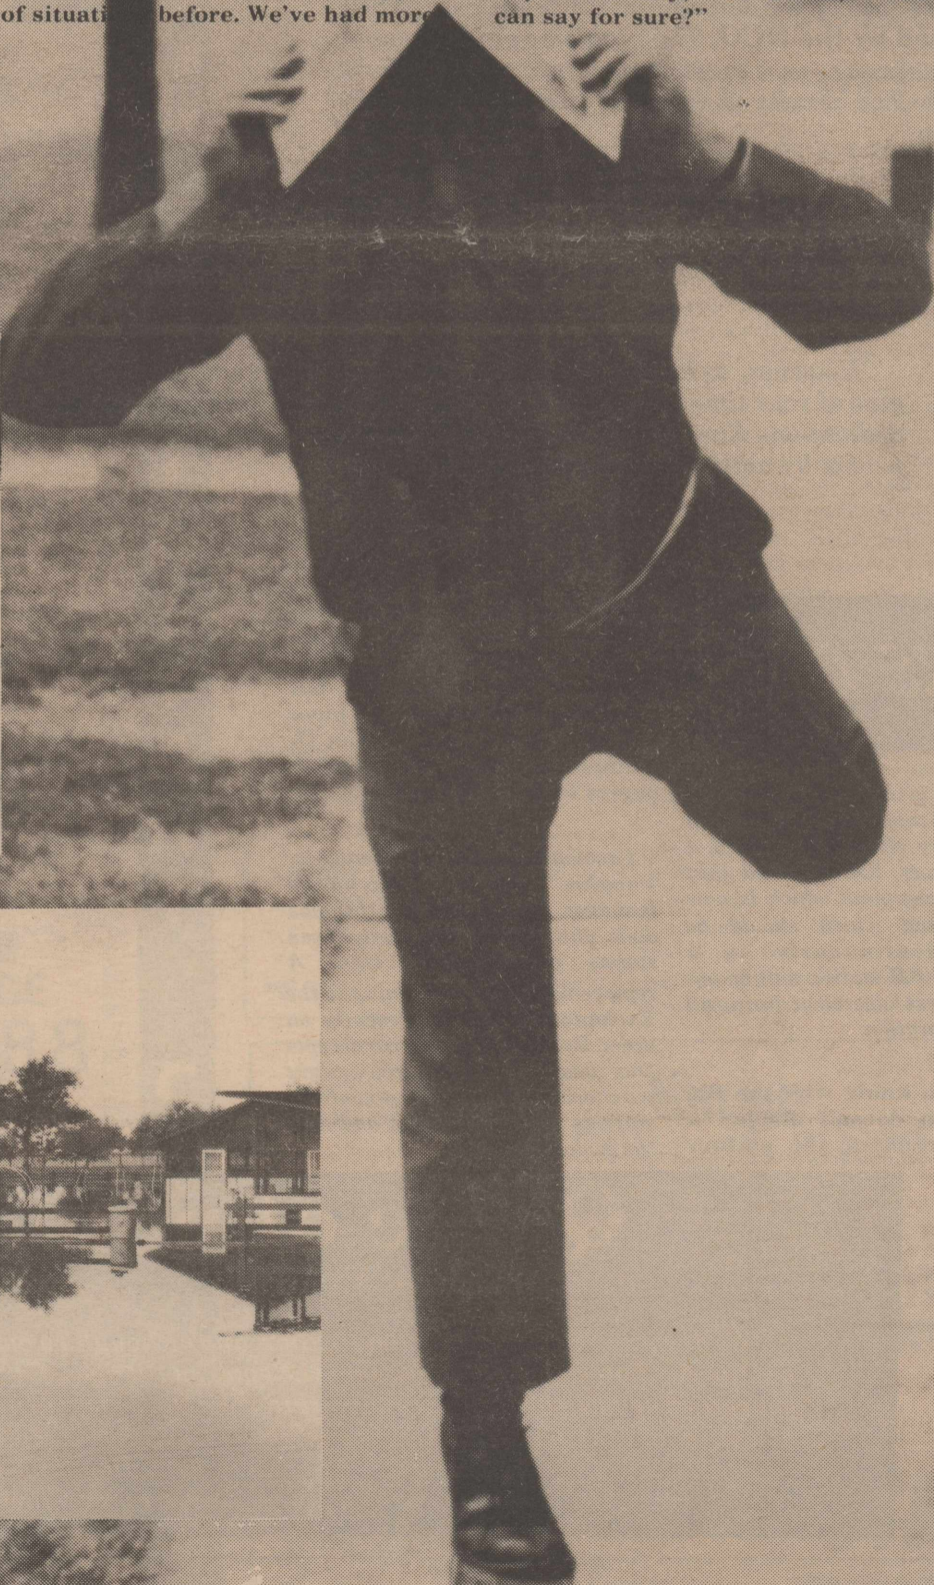

PT Affected

Another program that is hampered by the water is the physical training program including student pilot training and the base intramural sports program. Sgt. Mark Geairn of the Physical Training (PT) Section of the 64th Student Squadron, remarked, "We've had to move all PT classes inside the gym. This greatly limits the number of people we can train at one time. This rain may set us as much as three weeks back.

"When the weather clears up," Sergeant Geairn added, "the students will be making up their flying times and that will make it that much harder for us to schedule classes for PT. It looks like the students will probably be putting in a little overtime when this is over," he concluded.

SSgt. Raul Martinez of the base gym indicates that the start of the intramural football season will be delayed by at least a week to Oct. 7 "When the ground dries up, Civil Engineers will have to spray for weeds and 'goatheads' before we can start our season."

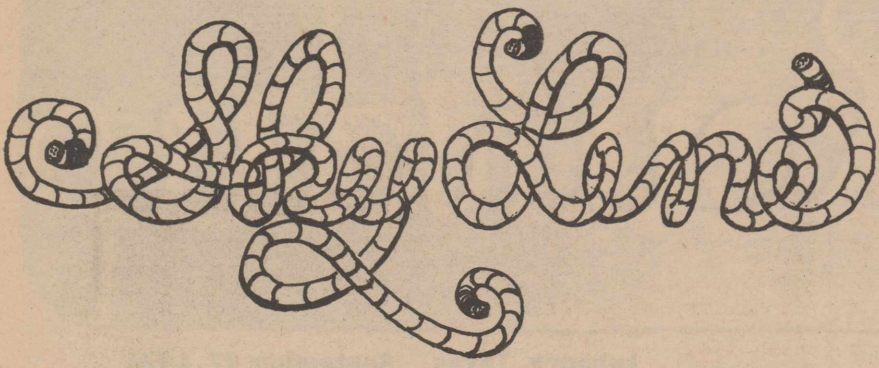

The rain on the South Plains definitely hampers the operations and mission at Reese. Having already rained for 15 days, we have only 25 to go to make 40 days but Civil Engineering Carpenter Section workers insist that the rumor is not true that they are drawing blueprints for an ark.

Reese AFB Open House: Base opens - 12:30 p.m. : Oct. 6
Thunderbirds - 2:30 p.m. :

The ROUNDUP is an unofficial newspaper published weekly in the interest of personnel at Reese Air Force Base of Air Training Command. It is published by Barron Publications, Inc., a private concern which is in no way connected with the Department of the Air Force. Opinions expressed by publishers and writers

are not to be considered an official expression by the Department of the Air Force. The appearance of advertising, including inserts, in the publication does not constitute an endorsement by the Department of the Air Force of the products or services advertised.

"The NCO who gets ahead will be the one who uses all of his skills. . ."

Col. Schuyler Bissell
Wing Commander

The Sept. 1, 1974, Air Force Policy Letter For Commanders contained a speech given by Maj. Gen. Arthur G. Salisbury at the Air Force Sergeants Association Convention. It so appropriately phrased my feelings about the role of the NCO that I would like to share it with everyone at Reese:

"Early in my military career I learned to trust the NCO, to have faith in his abilities. Every time I flew, I placed my life in the reliable hands of my crew chief. Today, many more lives are involved when one relies on a sergeant's advice. Over the years, I have not lost one bit of confidence in his ability to give the right advice at the right time.

"In today's Air Force society we see a need for leadership that can only be exercised by the NCO. The problems are all around us — they will not disappear — we must concentrate all our efforts toward their solution. The results of these efforts will inevitably impact on each of you.

"No longer will anyone be able to do just enough to get by. The NCO who gets ahead will be the one who uses all of his skills and abilities to the utmost. He will lose the security of being just one of the masses.

"However, to accept the responsibility of leadership today is to give of your time, efforts and intelligence wholly; a state of complete dedication. Everything else must be secondary. You must inspire people by actions, examples and integrity."

Commander's CARE Line

(Editor's Note: The Roundup will continue to publish Commander's CARE Line inquiries as long as they are of base-wide interest. All inquiries will be reviewed by Col. Schuyler Bissell, wing commander. All personnel are encouraged to first use their chain of command or the office of primary responsibility to air their comments, if possible. If these methods do not work, call the CARE Line by dialing C-A-R-E. Personnel are urged to give their name, rank and unit when calling.)

Sir:

I am calling you in regard to our mess hall. I believe we should play music on the lunch hour and that we should make announcements . . . like activities going on on the base . . . tell about activities interesting to the military personnel. I believe this would increase participation throughout the base by letting the word get out to all individuals concerned.

Kenneth Hyde

Mr. Hyde:

This is a good idea. We are looking into the possibility of a local FM station announcing these happenings, in which case our FM

system that is used in piping in soft background music in our mess hall will be more effectively utilized. I have, however, been assured that the soft background which is now available and which should be playing continuously on a commercial FM station will be left on by the mess supervisor during all hours of operation.

Sir:

I want to know why the BX gas station doesn't display a sign in front of the station

informing the customer that they are out of regular gas or any other kind of gas when the situation calls for it. On numerous occasions I have waited in line for more than 15 minutes only to find the regular pumps locked. Thank you.

I apologize for the inconvenience. Vaughn Mongan, Exchange manager, informs me that this was done until one of our west Texas storms crumpled the sign. A replacement sign conforming to the Exchange Service is presently on order. By the way, if your car accepts "no lead" gasoline, you might purchase that here at downtown stations' "regular" prices and help the ecological effort.

Quote of note

(An AFNS Feature)

"We do make mistakes from time to time, and although I would like to see the Air Force get more notice for the good jobs it does, I'd be pretty concerned if our successes were so rare that they merited the same attention to the unusual that our mistakes sometimes receive."

— Gen. David C. Jones
Air Force Chief of Staff

Watch out for 'low' interest rates

By Col. Howard F. Dick
ATC Deputy Staff Judge Advocate

Most people have heard about the problems encountered when trying to compare apples to oranges. Similar problems can be encountered when trying to compare various types of interest rates.

For instance, are you aware that an "eight per cent" interest rate can be more expensive to the consumer than a 12 per cent interest rate?

Frequently Air Force and civilian personnel will expend substantial effort to obtain the lowest price for a new car, washer/dryer or set of tires. Then they lose the savings by failing to recognize major differences in the cost of financing.

For example, most reputable business's charge accounts and credit card agencies charge an annual interest rate of 18 per cent versus nine or 12 per cent (depending on the type of loan) charged by Credit Unions.

Some financial agencies advertise loans at interest rates of eight per cent. However, almost without exception, this "eight per cent" is either an add-on or discount rate. Accordingly, if a person borrowed \$1,000 and paid it back monthly, the add-on rate computes out to be approximately 14.7 per cent and the discount method approximately 15.7 per cent annual rate.

Most of us at some time have a need for credit and all of us have a need for sound financial planning. Air Force Regulation 211-26 was designed to provide assistance in meeting these needs.

It provides for the establishment of Credit Unions on Air Force installations. Benefits of being a member are so important to the Air Force family that they are listed on recruiting literature along with medical care, base exchange and commissary.

Unfortunately, not all personnel are aware of the important services that their credit unions provide. They are cooperative associations created for the purpose of stimulating good saving habits and creating a source of credit.

Credit unions provide customers with low cost loans. The services are especially important to airmen in pay grades E-1 to E-3. Frequently, credit unions are the only source of credit to these airmen other than small loan companies. Small loan companies normally charge up to 30 per cent interest annually while the credit unions charge nine to 12 per cent.

No one should borrow money unless necessary, but if necessary, borrow on the best terms available. Plan your future on a sound financial basis.

Get the facts — always compare the credit terms available to you. Then make your decision.

THE ROUNDUP is an unofficial newspaper published in the interest of personnel at Reese AFB under contract with Barron Publications, Inc., mailing address: P.O. Box 2415, Lubbock, Tex.

Publisher's Statement

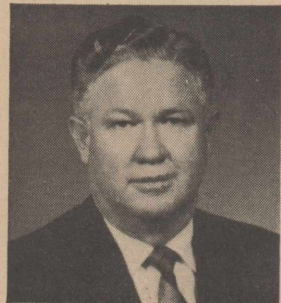

"Everything advertised in this publication must be made available for purchase, use or patronage without regard to the race, creed, color, national origin or sex of the purchaser, user or patron. A confirmed violation or

rejection of this policy of equal opportunity by an advertiser will result in the refusal to print advertising from that source."

News for THE ROUNDUP should be delivered to the Information Division, Bldg. T-1, no later than noon Monday prior to the Friday publication date. Classified ads of a non-commercial nature may be placed free of charge by Reese personnel if they are in to the Information Division by noon Monday prior to the Friday publication. Other advertising is handled exclusively by Barron Publications, Inc., phone 763-4551.

Congressional act increases SGLI

WASHINGTON (AFNS) - The Veterans' Insurance Act of 1974, passed by Congress in May, increased and expanded Servicemen's Group Life Insurance (SGLI) coverage. Details on these additions have been provided by the Air Force Military Personnel Center.

Military members leaving active duty with SGLI in force will continue to have the 120-day extension without cost (or the one-year disability extension if qualified as determined by the Veterans' Administration). At the end of this extension, SGLI may be converted to the new Veterans' Group Life Insurance (VGLI). Conversion to a commercial policy will be available

under the revised SGLI program, only after expiration of VGLI.

Before the end of the 120-day extension of SGLI, members must make application and pay the first premium to the Office of Servicemen's Group Life Insurance (OSGLI).

The OSGLI will be the "insurance company" for veterans insured under the SGLI. That agency will receive premium payments and handle other transactions such as beneficiary and address changes and claims during the maximum 60 months of coverage. Monthly premiums to OSGLI cannot be paid by government allotment.

At the end of the VGLI coverage, veterans will have the privilege of converting to an individual commercial policy with any company then participating in the SGLI program. Information, including a current list of companies and a document evidencing their conversion privilege, will be provided by the OSGLI before the end of the VGLI coverage. It will be the responsibility of each veteran to convert after being advised by the OSGLI to contact the participating company of their choice.

If while covered by VGLI, a veteran returns to active duty for a period of more than 30 days and does not decline SGLI coverage which will then automatically apply, his VGLI will end. Members in this situation have 60 days to convert their VGLI to a commercial policy. Veterans returning to active duty for more than 30 days who participate in SGLI will again be eligible for VGLI upon future separation or retirement.

Members of the Ready Reserves eligible for the new full-time SGLI coverage do not have the VGLI conversion privilege (except those retired or retiring with 20 good years or more of service creditable for retirement pay but have not reached age 60, who are eligible for the new retired Reserve SGLI coverage).

Reservists with the part-time duty coverage have the VGLI conversion privilege only in the event of a disability incurred on duty (service-connected) that renders them uninsurable.

VGLI application forms may be obtained from any Veterans' Administration regional office or from the OSGLI.

GIRL FRIDAY

Marilyn Yoakum has been working for the Reese Security Police Division for over one and one-half years. She ends her job with the division today for one at Eglin AFB, Fla. While here, the Lubbock native also participated in the Women's Softball League on the season champion team, the Red Hots, as catcher and was named to the Reese Women All Stars. She "sews a lot" and likes all kinds of sports. She is married to Sgt. Mark Yoakum, who is presently assigned in Thailand. **THE ROUNDUP** wishes Marilyn good luck on her new job at Eglin. (U.S. Air Force Photo by Sgt. Buddy Lerch)

Attache slots open for certain NCOs

Openings for noncommissioned officers to serve as attaches in foreign countries have been announced by the Reese Consolidated Base Personnel Office (CBPO).

A requirement exists for a senior or chief master sergeant with an Air Force specialty code (AFSC) of 70490 in Zaire with a reporting date of June, 1975. The person selected must be able to speak French.

All other openings announced by the CBPO are for persons in the grades of staff, technical or master sergeant. An NCO with AFSC A43171A, able to speak Spanish, is needed to report for duty in Argentina in June, 1975. Training for this position will begin next month. Another person with AFSC A43171A must report to Honduras in June, 1976. He or she must also be fluent in Spanish and training will begin for this assignment in October, 1975.

Two other openings were announced for NCOs who are fluent in Spanish. A slot is open for a person with AFSC 70250 to report to Venezuela in May, 1976 with training for the assignment beginning in October, 1975. Another position must be filled in June, 1976

in Honduras for someone with AFSC A29373. Training for this assignment will begin in October, 1975.

Two of the remaining slots are for people who speak French. A reporting date of January, 1976 has been set for a person with AFSC 70270. The location is Chad and training for the job begins in April, 1975. Another NCO, in AFSC A43171A is also needed in Chad. The reporting date for this assignment is November, 1975 with training beginning in January 1975.

The last assignment presently needing to be filled is for a person with AFSC 23374 to report to the U.S.S.R. in January, 1976. Training for that position will begin in October, 1975. Single personnel are not eligible to apply for this assignment.

Persons applying for these positions must have or be eligible to possess a top secret security clearance. Also, the last three Airman Performance Reports must have an overall rating of 9.

Applications or questions on the subject should be directed to the Assignments Section of the CBPO at Ext. 2402.

FOUR MONTH LENDER

Jensen wins September honor

"... outstanding ability and dedication to patient care..."

Amn. Lance S. Jensen, an operating room (OR) specialist assigned to the Reese USAF Hospital, has been named Wing Airman of the Month for September.

As an "OR" specialist, Airman Jensen's work takes him into the operating room, central nursing supply and the surgical clinic. In all of these areas, his "outstanding ability and dedication to patient care reflect favorably on his unit and the Air Force," according to Capt. Billy R. Solesbee, commander of the Medical Squadron Section.

Captain Solesbee went on to say that the knowledge and capability displayed by the airman "far exceed what is expected of an individual of his rank and time in service."

Works Extra Hours

"Because of an increased workload, Airman Jensen has voluntarily worked extra hours. This has contributed immeasurably to maintaining a smooth flow of patient care," the captain added. "He is invariably the first to arrive for duty and the last to leave."

During his off-duty hours, the energetic airman is enrolled in off-duty education at South Plains College and is active in community and squadron affairs after work. He has instructed Boy Scouts on first aid and is active as a little league coach. An athlete, he participates on the squadron softball and golf teams and "has always volunteered his services for squadron functions," according to Captain Solesbee.

WING'S TOP AIRMAN - Amn. Lance Jensen examines two young patients as part of his job at the Reese USAF Hospital. An operating room specialist, Airman Jensen "has contributed immeasurably to maintain smooth flow of patient care," according to Medical Squadron commander Capt. Billy R. Solesbee. AAFES announces recall of silver-plated items

DALLAS (AFNS) - The Army and Air Force Exchange Service (AAFES) has recalled silver-plated baby cups and brady cordials made by the Leonard Silver Co., Boston, and sold by exchanges in the Pacific area.

The following identification is stamped on the bottoms of the baby cups and brandy cordials: "Leonard E.P.N.S." The products are packaged in individual boxes labeled: "EALES 1779, E.P.N.S. Made in India."

The two items have been found to contain levels of leachable lead which exceed Food and Drug Administration guidelines, AAFES officials said.

Exchanges have removed the potentially hazardous items from sale. Customers who have purchased the items are requested to return them to the nearest exchange for a refund.

Assignees warned of Canal conditions

RANDOLPH AFB, Tex. (AFNS) - An increasing number of persons who accept concurrent travel of dependents to the Canal Zone are faced with severe personal inconveniences upon their arrival. Military family housing units are too limited to meet the needs; therefore, many families must obtain housing on the economy, an Air Force Military Personnel Center message to consolidated base personnel offices read.

Housing on the economy is becoming progressively more difficult to obtain. "Although a housing allowance is paid to eligible persons, it seldom equals the expenses," the message continued. Housing costs continue to spiral and units are below United States standards. Monthly housing costs are currently above \$300 for rent, over \$40 for electricity and gas (with an initial deposit of \$100), and an additional \$60 or more for air-conditioning.

Of particular concern is the total absence of offbase recreational areas for children. Most apartment

buildings are of the high-rise type. Many are five and six stories without elevators and lack play areas for children.

Tropical rains eight months out of the year cause severe mildew problems since most offbase units are not air-conditioned.

Transportation within the Republic of Panama is such that privately owned vehicles are an absolute necessity.

Many wives and children are unable to adapt to the local cultural / social environment and those unable to speak Spanish have an additional barrier.

Many dependents suffer from asthmatic conditions. The climate aggravates these conditions and has caused many to return to the States early.

The U.S. Southern Command does not want to discourage married persons from seeking assignment to the Canal Zone since such an assignment can be an extremely challenging and rewarding experience for the member and his family.

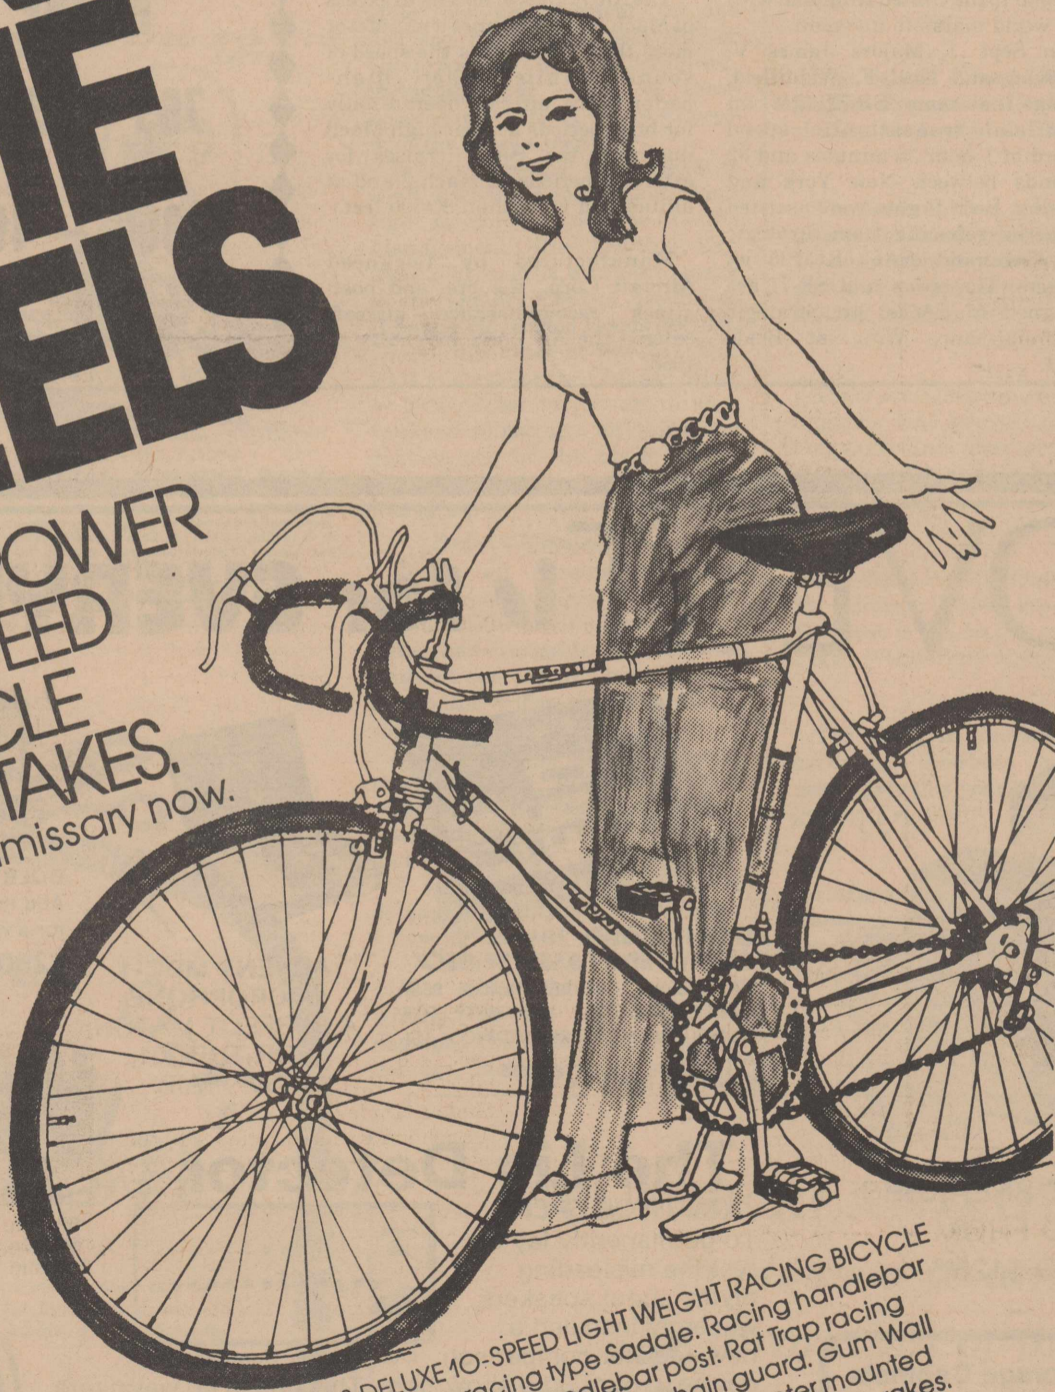

However, all persons with approved concurrent travel to the Canal Zone should be advised of the current situation and that it is not expected to improve. "Persons should be encouraged to reconsider concurrent travel unless onbase housing will be available upon arrival," the message concluded.

CRAFT SALE - Mrs. Joyce Rooney, left, and Mrs. Mary Walker put the finishing touches and price tags on several items that will be for sale Oct. 5. The wives of members of Undergraduate Pilot Training Class 75-03 will hold the Craft Sale in front of the main exchange Oct. 5. Items will range in price from 55 cents to \$5.50 and proceeds will go toward graduation functions planned by the wives. (U.S. Air Force Photo by Sgt. Buddy Lerch)

OWC slates October luncheon

By Nancy Feibelman

"Autumn Fashions" will set the atmosphere for the Officers' Wives Club October Luncheon, scheduled for Thursday in the Officers' Open Mess.

A style show, presented by Mi-Rees, will be the featured program. Mi-Rees has recently returned from the Dallas Fashion Mart with new styles ranging from the most casual to the most formal.

Refreshments will begin at noon, with the luncheon being served at 12:30 p.m. The menu consists of a half Cornish hen with rice dressing, pineapple and mandarin orange salad, broccoli with cheese sauce, a peach tart, rolls and tea or coffee.

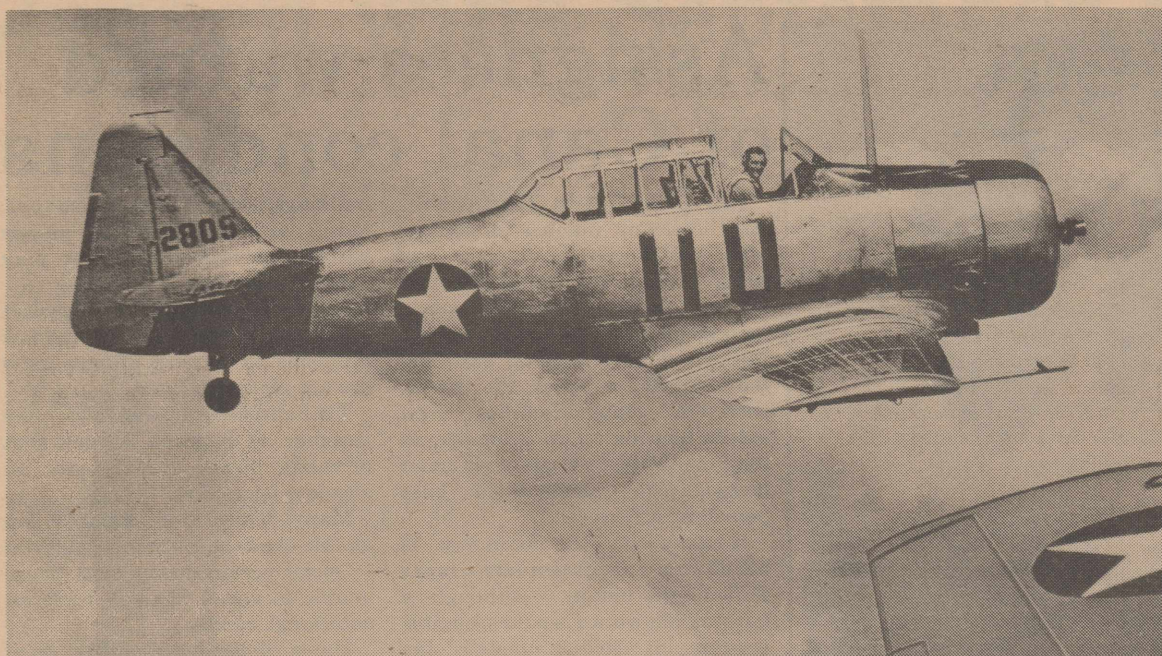

The women of Logistics will serve as the sponsors of the luncheon, with Mrs. Alain Boughton serving as senior hostess for the afternoon. Co-hostesses are Mmes. Albert Mullen, Don Morris, Robert Clark, Michael Rydjord, Rodney Berlin, Richard Woods, Ronald Ford, Stanley Phariss, Howard Creek, Michael Dunn, Lloyd Mertens and Frank Sobotka.

Reservation deadline for the event is noon Monday. Reservations may be made by calling Katie Barnett, 795-4186, or Barbara Parks, 797-3053.

TRAVEL BY PHONE

ONE OF MANY - The North American T-6G "Texan" was one of the most widely used and best known trainers in Air Force history. Originally purchased in 1937 as the BC-1 (Basic Combat), it gained great fame during World War II as the AT-6. Practically every fighter pilot in that war received training in this airplane before graduating from flying school. This trainer was used at Reese from 1942 to 1951 and will be one of the aircraft on display during the Oct. 6 Open House. (U.S. Air Force Photo)

SR-71 wins sky race establishing new record

WASHINGTON (AFNS) - An Air Force SR-71 raced the sun Sept. 13 from London to Los Angeles — and won. Crossing seven time zones, the Air Force's most sophisticated operational aircraft covered the 5,645 mile east-to-west route in 3 hours 47 minutes and 39 seconds, establishing an initial world speed record between the two cities.

Capt. Harold B. Adams, pilot, Albuquerque, N.M., and Maj. William C. Machorek, reconnaissance systems officer, Jersey City, N.J., left the London starting point at 1:11:45 p.m. London time. The crew crossed the Los Angeles "gate" at 8:59:24 a.m. Pacific daylight time (PDT). Average groundspeed for the

nonstop transatlantic, Canadian and Western U.S. dash was 1,480 miles per hour.

The SR-71 landed at Beale AFB, Calif., completing a record-shattering overseas training mission to the United Kingdom with two world marks to its credit.

On Sept. 1, Majors James V. Sullivan and Noel F. Widdifield, flying the same SR-71, set an unofficial transatlantic speed record of 1 hour 55 minutes and 32 seconds between New York and London. Both flights were assisted by aerial refueling from Strategic Air Command (SAC) KC-135 jet tankers. The crews and SR-71 are assigned to SAC's 9th Strategic Reconnaissance Wing at Beale AFB.

The Federation Aeronautique Internationale, the accrediting organization for all aviation records, will be asked to certify both speed records.

The SR-71 flies at speeds in excess of Mach 3-plus (33 miles a minute) or more than three times the speed of sound. While other high-performance aircraft operate only for brief periods at their high Mach numbers, the SR-71 cruises for extended periods at Mach 3 and at altitudes of more than 80,000 feet.

Manufactured by Lockheed Aircraft Corp., the pre- and post-attack reconnaissance aircraft entered the Air Force inventory in 1966.

The Lie Detector

(NOT FOR SALE)

To permanently lay to rest the misleading myths about speakers, we recently installed a new speaker comparison

Our Speaker Comparator device in our audio showroom. This unit in no way alters the sound quality of the speakers connected to it. What it does is enable you to compare speakers of varying efficiencies at the same volume level. Our comparisons are instantaneous because even a one or two second delay in switching would be sufficient to cause you to forget what the first pair sounded like before you heard the second pair. Only with this kind of comparison can you hear and evaluate all the performance characteristics of the speakers you are considering and on the basis of concrete information make a rational choice.

Do not sign that paper until claim is completed

(Editor's note: This is a continuation of the story in last week's ROUNDUP about your rights and obligation as a property owner during a military move. The author is NCOIC of the Claims Section of the Staff Judge Advocate.)

By Sgt. R. Scott Lynch

Do not sign anything until:
—You have accounted for every item shipped. If you need additional space, turn over the document and continue on the reverse side or continue on a separate piece of paper, insuring that the top is properly labeled (for example, "GB/L #F-159687 Exceptions Continued"). Also insure the carrier's agent also signs this extra piece of paper when he signs your copy of the inventory, Form 619, or Government Bill of Lading.

—Every item is unpacked and the cartons and packing material are removed by the carrier. If the carrier arrives late in the evening and does not finish unpacking, do not sign anything. Instruct him to return in the morning and finish the job. Do not sign the inventory or any other document until the job is completed. If the carrier fails to arrive at your residence until after 5 p.m., you may refuse to accept the shipment and insist the carrier come back. This is at no expense to you.

Carrier Must Accept

Note that the carrier must accept your notations (DoD Basic Storage Agreement and/or Tender of Service). If he disagrees, without disturbing your notations he may state his disagreement on the delivery inventory, Form 619 or Government Bill of Lading, including your copies of these documents. He must sign your copy with the noted exceptions.

In case of refusal to cooperate or conflict with this instruction, do not sign anything. Call the Traffic Management Office, 885-4511, Ext. 2550, 2551, or 2552, and ask to speak to the Quality Control Section or Inbound Household Goods Section. Or call this office at 885-4511, Ext. 2506 and ask for the Claims Officer or NCO. After duty hours or on a weekend do not sign anything and contact one of the above offices immediately the first duty day thereafter.

Report Missing Items

Report all missing items by notifying the Quality Control Section of the Traffic Management Office and request tracer action be initiated and that you be provided a copy of the written communications concerning the tracer actions.

Do not rely on any statements made by the driver or other employee of the carrier. You must take exceptions to every damaged and missing item.

If you later discover additional damage or loss you must take the following action:

—Immediately notify the carrier or the delivery agent, in writing, of the items lost or damaged, completely describing the damage. Include in your letter: (1)

GB/L number, (2) your name and address, (3) the date of delivery, and (4) the inventory numbers of the lost or damaged articles. Retain a copy of this letter to include in your claim.

—Institute tracer action by notifying Quality Control Section of the Traffic Management Office as stated in paragraph 5 above for any and all missing items.

If you have a claim, pick up the claim forms at the Legal Office, Bldg. T-6, as soon as possible after delivery, but in no case more than five days following delivery.

Do not dispose of any damaged

items until authorized to do so by the claims personnel.

By following all of the above instructions you will adequately protect any subsequent claim you may have regardless of whether it is against the carrier or the government. Failure to follow these instructions may result in a lack of evidence to substantiate your claim, which can result in a denial of the claim.

Feel free to contact this office at any time to obtain additional instructions.

Inconveniences face Clark concurrent travel assignees

Reese members who have been assigned to Clark AB in the Philippines and who accept concurrent travel should be prepared to face financial hardship and severe personal inconvenience, a message to the Personnel Division stated.

Pacific Air Forces advises that the current and projected family housing situation there is becoming progressively more difficult.

As a result of inflation, the energy crisis and entitlement to dependent travel for E-4s with two years' service being enacted, the cost of living has increased while the number of available housing units remains severely limited.

As a result of the energy crisis, the cost of utilities has tripled. Monthly electricity costs of \$100 and cooking

gas costs of \$25 a month are frequently encountered. There is also some delay in obtaining approval for increased energy requirements.

In addition, a considerable waiting period is required in obtaining critical items of household furnishings such as gas stoves — three months, living room furniture — two months, washers and dryers — four months, and double beds — five months.

Officials said persons with approved concurrent travel to Clark AB should be advised of the current and projected situation with particular emphasis upon the huge increase in off-base housing costs and the delays in obtaining government furniture. Personnel should be encouraged to reconsider bringing their dependents

concurrently since they may wish to change their tour election to unaccompanied after viewing the situation.

Members who still elect to come concurrently should be encouraged, when possible, to bring such major household items as refrigerators, stoves (bottle gas stoves only), washers, double beds and lamps. Should these items cause an individual to exceed the 2,000 pounds or 25 per cent of the authorized weight limitation, a request for excess weight allowance, which includes a statement that the member will serve the accompanied tour and which itemizes the excess items, should be submitted.

Members should have sufficient cash available to buy or rent needed items from departing families or on the local economy.

Immunization Clinic announces flu shots

Right around this time of year, the old "flu bug" comes out of hiding to infect as many people as it can. But the Reese USAF Hospital will again bring out the serum to thwart the "bug's" efforts.

All military personnel will be required to receive the timely influenza immunization either from

6 a.m. to 4 p.m. Thursday or from 6 a.m. to 6 p.m. Oct. 4 in the base gym.

SMSgt. Al Chock, NCOIC of the Hospital's Nursing Services, noted that any military person allergic to the vaccine must report to the Allergy Clinic before Thursday.

The shot is mandatory for all Reese military personnel but civilian employees have the option of taking the shot or not. In any case, persons receiving the inoculation must have their shot records with them when they report for the shot.

Military dependents may receive their flu shots after Oct. 14 during normal duty hours at the Hospital's Immunization Clinic.

Let's keep the "bug" at bay — get your flu immunization.

THE MAN BEHIND THE MISSION

Billy Wright, a life support technician with the 35th Flying Training Squadron Life Support Section, has worked at Reese since 1956. He has been in the Navy Reserves for more than 20 years, serving as an ordinance specialist. He enjoys hunting and fishing and his wife Bettye. (U.S. Air Force Photo by SSgt. Dennis Mehrenberg)

entertainment

flick flack

A musical adaptation of one of Mark Twain's classics, a story of three Texas farm boys turned bank robbers and an hilarious spoof on frontier days top this week's schedule of features at Simler Theater.

The base theater features showings at 8 p.m. Tuesday through Sunday, plus a special Saturday matinee. The box office opens 30 minutes before showtime.

Tonight

Elizabeth Ashley, Ann Sothern and Burgess Merideth star in "Golden Needles," a story of a worldwide search for an ancient statue with golden acupuncture needles. The statue holds the power to rule the world. The show is rated PG, parental guidance is suggested.

Tomorrow Matinee and Evening

A musical adaptation of the Mark Twain classic, "Huckleberry

Finn" stars Jeff East and Paul Winfield. Huck is kidnapped by his father, who was thought to be dead, from the family who took Huck in. The evil father demands a ransom for Huck's return, but the wily boy escapes with the family's slave, hoping to reach safety in Cairo, Ill. They travel up the river on a raft and have many adventures in this G-rated flick.

Sunday

Lee Marvin and Garry Grimes star in "The Spikes Game," a story of three farmboys who befriend a wounded bank robber, who promises his future help should their paths ever cross again. Soon after the boys fall into a life of bank-robbing on their own, and they do indeed meet their crooked friend again in Mexico. He is persuaded to train the boys as members of his gang, and the results are adventurous to say the

least in the PG-rated feature.

Tuesday and Wednesday

"Mame" is a high-spirited and funny show, rich in visual and auditory delights. Lucille Ball portrays the slightly scandalous Auntie Mame, a swinger and wonderful woman who lives in the full joys of life. Robert Preston and Beatrice ("Maude") Arthur costar in the enchanting PG flick.

Thursday

If you've ever turned up your nose at western movies, "Blazing Saddles" will turn it back down. A madcap assault on all the old sagebrush cliches, Harvey Korman's satiric effort will keep the audience howling with seemingly unrelated scenarios and wild antics. The R-rated movie repeats Friday and Saturday nights; patrons under 17 require an accompanying parent or adult guardian.

at Mathis

The Mathis Recreation Center will feature a special trip to the Panhandle South Plains Fair for interested military personnel to kick off this week's Center activities.

Tonight - The bus will leave Mathis for the Fair at 6 p.m. A drawing will also be held for two free tickets to the Emmett Kelley Jr. One Ring Circus at the Fair.

Tomorrow - National Hunting and Fishing Day activities will get under way at 4:30 p.m. For a

detailed schedule of special events in observance of the occasion, look on Page 12. The weekly pool tournament will commence at 5:30 p.m.

Sunday - The pinocle tournament will kick off the day's activities at 1 p.m., followed by the weekly table tennis tournament at 2 p.m. and coffee and donuts at 3 p.m.

Monday - T.V. Football will begin at 8 p.m.

Tuesday - A "King Pong"

tournament will begin at 7 p.m., followed by a meeting of the Lubbock Bass Club at 7:30 p.m.

Wednesday - Hap Pope will be the featured caller at the United Fund Benefit Square Dance at 6 p.m. See Page for more details on the benefit.

Thursday - A drawing for free tickets to the Texas Tech - Oklahoma State football game will be held at 5:30 p.m. Films will take over at 7 p.m., followed by a British Wives Club meeting at 7:30

at NCO Open Mess

The Raiders begin the week's entertainment slate tonight at the NCO Open Mess with a dance.

Dancing music tomorrow evening will feature the Nivicos. The mess dining room is open from 10:30 a.m. until 1:30 p.m. and from

5 until 9 p.m., Monday through Friday and from 9 a.m. until 9 p.m. Saturdays. It is closed Sundays and holidays.

The mess now features pinocle tournaments each Monday at 7 p.m. The tournaments will last as

long as participation warrants. The tournaments are open to the entire mess membership.

Discotheque entertainment is offered every Tuesday, Thursday and Sunday evening in the mess.

B-1 PILOT SAVER - The first high-speed test of the entire crew escape system for the Air Force's B-1 strategic bomber has been successfully completed. Photographs show critical steps in the operation of the system designed to save the lives of the B-1 strategic bomber crew in the event of an emergency requiring escape from a crippled aircraft. First in the series (from left) shows moment of separation of the crew capsule from a mockup forward fuselage while the rocket sled moves at 355 miles per hour. Second photo shows two small solid-fuel rocket motors boosting the crew compartment/escape module to an altitude permitting automatic deployment of parachutes. Third photo catches the three main parachutes as they begin to deploy for a soft landing. Final photo shows the capsule just after landing, as the Apollo-type parachutes deflate. The capsule reached an altitude of 507 feet during the test which took less than 20 seconds from start to landing. (U.S. Air Force Photo)

NEW CLASS - SSgt. Timothy A. Coe gets a few belt-making pointers from leathercraft instructor J.C. Kulm. Kulm, presently Lapidary Hobby Shop instructor, will be teaching leatherworking techniques at the Arts and Crafts Center beginning Wednesday. (U.S. Air Force Photo by A1C David McGill)

Leathercraft course set for Center

The Reese Arts and Crafts director, Joseph A. Perron, has received many requests from Reese personnel for classes in leather craft. He now says "We are happy to announce that your requests have been answered."

Beginning Wednesday, the Center will offer leathercraft classes two days a week as long as interest warrants. J.C. Kulm, the Center's highly qualified lapidary instructor, is also a superb leather craftsman, and will be instructing the course.

Every Wednesday and Thursday, the Center's Lapidary Shop will be transformed into the Leathercraft Hobby Shop. The free classes will begin at 5:30 p.m. and end at 9 p.m.

Tools for working the leather will be provided. Precut leathercraft kits for belts, wallets and purses will be sold in the Ceramics Sales Store, located in the same building.

All Reese hobbyists are invited to take advantage of the new offering. Call Perron at Ext 2141 or drop by the Arts and Crafts Center to sign up.

THE SWEETEST THING ON EARTH

Anglers hook fish during Mathis trip

Five Reese people traveled to Lake Colorado City, near the town by the same name south of Lubbock, on an overnight fishing trip sponsored by the Mathis Recreation Center Saturday and Sunday.

Ken Hyde of the Center led the eager anglers Phil Scruggs, Doug Foust, Ed Farington and Buddy Lerch to the lake Saturday morning. They then set up camp, after partially discovering how to pitch the Special Services tent. Hyde brought his well-equipped bass boat and camping van and all the supplies needed.

The weather remained windy, overcast and occasionally drizzly, and the fish seemed slightly reluctant to bite. The group collectively boated seven fairly good-sized bass the first day, followed Sunday by five more bass in a much shorter duration of fishing.

Hyde remained top fisherman throughout the trip, taking half of the dozen bass landed during the trip. The others kept "plugging," though, and came up with some nice fish. All of the catches were on artificial lures.

Saturday night the anglers were rewarded for their efforts with a fresh fish fry, complete with hash brown potatoes and baked beans.

Everyone reported having a "great time" on the trip.

The Mathis Recreation Center is currently planning another such trip for some time in October. Watch THE ROUNDUP for more details.

PROUD ANGLERS - Four Reese anglers show off their second day's catch hooked during a special Mathis Recreation Center-sponsored fishing and camping trip to Lake Colorado City Saturday and Sunday. The fishermen (from left) are Doug Foust, Ken Hyde, Buddy Lerch and Ed Farington. (U.S. Air Force Photo by Sgt. Buddy Lerch)

Mathis honors outdoorsmen

The Mathis Recreation Center will sponsor a special observance of National Hunting and Fishing Day tomorrow with featured films, speakers and other related activities.

The observance will kick off at 4:30 p.m. with hunting and fishing films. A casting contest will follow at 6 p.m., with both a junior and senior division contest. The junior

division is for casters 16 years of age and less.

Sporting Talks

Speakers will begin talks on various outdoor activities at 7 p.m., with Gary Oakley and George Box scheduled to speak first on spinning lures.

An informative talk on the art of taxidermy will be given by Milt Audrey at 7:30 p.m.

At 8 p.m. a slide presentation is scheduled which will depict local fishing areas and tournaments. These areas include Lake Amstead and Toledo Bend in Texas and various Oklahoma lakes. Following the slides, another film will be shown on the "hottest bass-fishing lake in the world," Lake Guerrero in Mexico.

The activities, cosponsored by Mathis and the Lubbock Bass Club, will continue at 9 p.m. with a seminar on fishing in lakes in the local area.

Throughout the afternoon, a boat display will be set up by local sporting businesses, free pamphlets and other materials will be handed out and hourly free drawings will be held for prizes donated by local firms and the Lubbock Bass Club.

Everyone in the South Plains area is invited to attend the celebration.

Proclamation

In a letter proclaiming the observance, Lt. Col. Richard A. Ingram said, "Because of the outstanding contributions that America's hunters and fishermen have made to conservation, recreation and the economy, they are deserving of special recognition."

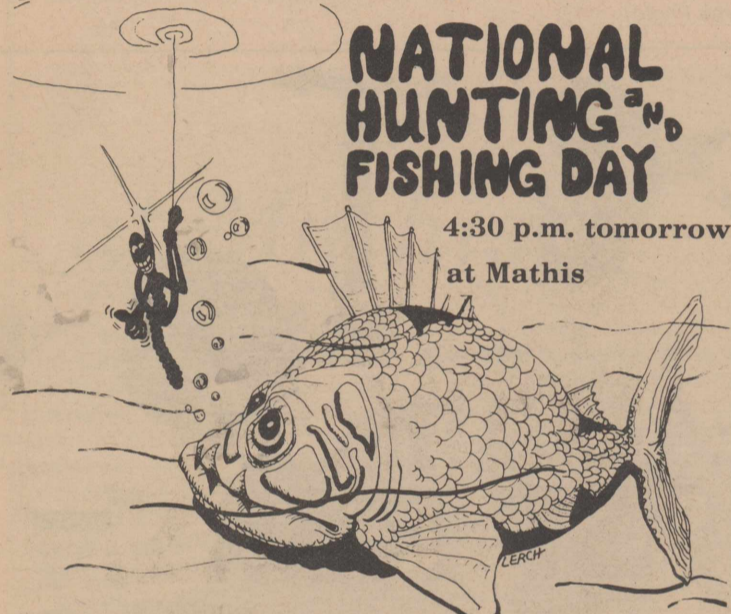

The letter continued, "They asked that they themselves be required to buy licences and that the money collected be used to support state conservation agencies. In the last 50 years alone, these sportsmen have provided \$2.5 billion for conservation purposes."

The letter continued, "Since the turn of the century, hunters and anglers have been the leaders in nearly all major conservation programs. These sportsmen-conservationists are responsible for the founding of state fish and game departments in all 50 states. They asked that they themselves be required to buy licenses and that the money collected be used to support state conservation agencies. In the last 50 years alone, these sportsmen have provided \$2.5 billion for conservation purposes.

"I urge all our citizens to join with sportsmen-conservationists in a rededication to the wise use of our natural resources and their proper management for the benefit of future generations," the letter continued.

NATIONAL HUNTING & FISHING DAY

4:30 p.m. tomorrow at Mathis

DoD issues pardon policies, procedures

WASHINGTON (AFNS) - Fort Benjamin Harrison, Ind., has been selected as the centralized Clemency Processing Center to be used by all services to process deserters who desire to return under the President's alternate service program.

Department of Defense officials willful and persistent unauthorized director of Selective Service for their parent service concerning eligibility for participation under the alternate service program.

Where to Write

Military absentees have no other pending charges and who elect to take part in the program may seek instructions by writing to:

Air Force - U.S. Air Force Clemency Information Point, (AFMDC/DPMK) Randolph AFB, Tex. 78148

Army - U.S. Army Clemency Information Point, Ft. Benjamin Harrison, Indiana 46216

Navy - Chief of Naval Personnel, (Pers 83), Department of the Navy, Washington, D.C. 20370

Marine Corps - Headquarters, U.S. Marine Corps, (MC), Washington, D.C. 20380

In addition, information may be obtained by calling one of the following telephone numbers:

Air Force: (512) 652-4101
Army: (317) 542-3417
Navy: (202) 694-2007
Marine Corps: (202) 694-8526
Coast Guard: (202) 426-1830

Persons who wish to participate in

the program will be required to execute a reaffirmation of allegiance and pledge to perform a period of alternate civilian service. Those against whom other charges under the Code of Military Justice are pending will not be eligible to participate in the program until these other charges are disposed of in accordance with the law.

Officials said participants in the program will be separated with an undesirable discharge.

No Benefits

The Veterans' Administration (VA) will be advised that the recipients were discharged for willful and persistent unauthorized absence. They will thus not be eligible for any benefits provided by the VA.

The length of required alternate civilian service will be determined by the parent services for each individual on a case-by-case basis. The length of service will be 24 months, but may be reduced for military service already completed or for the other mitigating factors as determined by the parent service.

After being discharged, each individual will be referred to the director of Selective Service for assignment to prescribed work. Upon certification that this work has been satisfactorily completed, the individual may submit the certification to his former service. The service will then issue a special new type of discharge - a clemency discharge - which will be substituted for the previously awarded undesirable discharge. However, the clemency discharge does not bestow entitlement to benefits administered by the VA.

Red Cross signs new volunteers

The September Red Cross volunteer orientation and coffee recently added 11 new members to the Reese division.

Signing up at the orientation to serve were Lynda Orzechowski, Linda McGuire, Carolyn McGinty, Dot Kasik, Betty Ann Gibler, Lyna Dwyer, Micki Crooke, Suzanne Brown, Sally Pearne, Sandy Agnew and Kay Rasmussen.

Guest speaker at the orientation was Chaplain (Maj.) James W. Milsap. Guests at the coffee included Lt. Col. Clare M. O'Brien, chief nurse, and Frances Beale Whiteside.

The Red Cross volunteers also announced they held a farewell coffee this week for Colonel O'Brien. Colonel O'Brien leaves today for an assignment at Plattsburg AFB, N.Y., after serving as head of all Red Cross volunteers among her many other duties while at Reese.

LOOK. NO ASTERISKS.

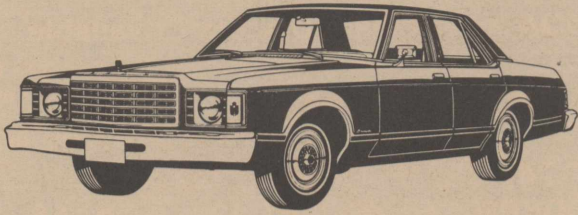

Asterisks are a sure sign that the model you want is going to cost more than you thought. Volvo has come up with an ingenious device to replace asterisks: standards. They allow every Volvo 145 to come fully equipped, at no extra cost, with extras like:
Fuel injection
Four-wheel power disc brakes
Whitewall radial tires
4-speed synchromesh transmission
Infinitely-adjustable front bucket seats
Ten-outlet heating and ventilation system
Rear window defroster/defogger
Rear window washer/wiper
Tinted glass all around
Four 3-point retractable seat belts
Child-proof rear door locks
12-month warranty with unlimited mileage
Of course, with all these standards, you may wonder if the Volvo 145 has any options. Yes. Air conditioning and automatic transmission with power steering. It's the only way to spend more money and get more car.
VOLVO
A lot more car than you bargained for.

ten pin alley

New leagues see pins fall at bowlers' command

By Sonny Serutan

The leagues have started and the pins are cooperating pretty well with our bowlers. Some of the guys have found the range and are getting a good jump in their leagues.

The Reesette League on Sept. 16 had Gladys Mele bowling a 185 game and a 534 series. In the same league, Rusty Grady had a 186 game and a 512 series and Ginny Kerekes knocked them down for a 180 game.

On Sept. 17 the Supersonic League had . . . Supersonic League? (Well, I don't name 'em — I just report 'em.) Anyway, the Supersonic League had Cindy Isaacs taking all honors with a 168 game and a 480 series.

On the same night the Intramural

League had the pins jumping. Richard Larmond led the way with 171, 202, and 236 games for a fine 609 series. Good thing the evening ended when it did or he would have bowled a 300 game. Some other good sets were bowled by Earl Morris and Dennis Fuller, both with 564 series. Dave Doukus had a 562 series. Deek Hubany had a 227 game and a 560 series and "Big Mac" McIntyre had a 559 series.

The Ball and Chain League must have really had a ball on Sept. 19. Karen Thin bombed in a 188 game and 515 series. Denny Hodoyz had a 200 game.

I think the secretary of this league may have been drinking. Anyway, he reported that Charles Buck had a 527 series. He also said that Paul Lewis (a 178 average) had a 448 series and his wife Mary (a 123 average, triplicate last week, remember?) had a 513 series. Now, who would believe that? He had better start drinking coffee — that other stuff is getting to him . . . you don't think he could be right, do you?

On Sept. 20 the Cotton Pickers took to the Lanes. Betty Payne had a 479 series for the women and Chuck Zullo led the men with a 552. High game honors went to Hassie Tinsley (172) and James McIntyre (208). James McIntyre is really "Big Mac" bowling with his wife and acting respectable.

Sonny's Place is running a special you had better drop over and check out. It will save you a little money.

We are still having a problem with live entertainment. Betty Payne's piano playing finger has healed but she has forsaken the music field to make her fortune in other areas. I understand she does some fantastic things with popcorn.

If the lady that bowled with the two left shoes would come over we would like to audition you or maybe just take a picture of your feet, providing you really have two left feet.

Sonny Says — "Bowling is a game of competition — try to compete fairly and you will enjoy it more."

Gym issues IM bowling standings

Intramural Bowling League action is barely underway at Reese and the "powers to be" may be already evident, according to the base gym.

Action at Reese Lanes has revealed the following standings thus far:

Team	Wins-Losses
Dental Clinic	8 - 0
64th ABGp	7 - 1
64th Supply Squadron #1	7 - 1
35th FTS	7 - 1
64th OMS #1	5 - 3
64th Student Squadron #2	5 - 3
Comm Squadron	4 - 4
64th FMS #1	4 - 4
64th Student Squadron #1	4 - 4
64th Supply Squadron #2	4 - 4
Hospital	3 - 5
C.E.	2 - 6
64th OMS #2	2 - 6
Weather Det.	1 - 7
54th FTS	1 - 1
64th FMS #2	0 - 8

The gym also announces that flag football action will begin Monday. Intramural action games will begin at 5:15 p.m. The gym urges all personnel to "come out and root for your squadron's team."

Could George Washington have had someone like this on the other side of the Delaware motivating him? Theresa White is waiting at Navarre Beach, Florida. All ashore that's going ashore!

AJBC keglers set beginning tomorrow

The American Junior Bowling Congress (AJBC) Leagues will begin tomorrow, with the Bantam League taking to the Reese Lanes at 9 a.m.

Parents are requested to bring the young bowlers to the Lanes about 15 minutes early. Reese Lanes officials also stated that they should have at least \$2 with them — \$1 dollar for

their AJBC card and the other one for bowling fees and the prize fund.

The Junior-Senior League will start right after the Bantams are finished. This group should bring at least \$2.50 with them, as they will bowl three games, compared with the Bantams' two.

Bowlers with 1974-75 AJBC cards may deduct \$1 from the above fees.
