Floydada, Texas 79235 (USPS 202-680)

Volume 109 Number 40

KARA PARKHURST, 16 month old daughter, of Joel and Amber Parkhurst, of Amarillo, sits among "Pumpkin Pyle" pumpkins in Floydada. Kara's grandparents Robert and Paula Pyle, of Floydada, are pumpkin producers and operate the "Pumpkin Pyle" business on Hwy. 62 south of Floydada, along with Kara's greatgrandparents Louis and Viginia Pyle, and Uncle Jason Pyle of Floydada. Kara's other grandparents are Sterling and Gleynn Earl Cummings of South Plains.

By Darwin Robinson

The 2005 Floyd County pumpkin harvest has been going strong for the past month. The pumpkin crop has been good this year, according to certain county

"Pumpkin acreage in Floyd County this year was around 1500 acres, about the same as last year," said Floyd County Extension Agent J.D. Ragland. "Each" acre of pumpkins can produce around 20,000 pounds. That will be a total of possibly 30 million pounds of pumpkins in Floyd County. We grow more pumpkins than any other county in Texas," said Ragland.

"There may be a shortage of the Big Mac variety of pumpkins this year due to the early hail damage. Other than that, we have had a good year, harvest-wise, with our pumpkin crop," said Ragland.

Tim Assiter, co-owner and manager of Assiter's Punkin Barn south of Floydada, told the Hesperian-Beacon, "This has been a good year for pumpkins. We have had a good crop and the demand for them has been good. We are about through with our retail harvest this year, but we will still have Halloween pumpkins through this month."

our shipments south, but they are picking up again this week. Many of our different varieties are going away, but our most popular variety this year was the 'Peanut Pumpkin.' It is a French variety that is pink. It is really hot this year and we just happened to plant a lot of it. The White Pumpkin also has given us good quality and good yield this year," said

Gary Carthel, co-owner of Heptad Vegetable and Speciality Company of Floydada, told the Hesperian-Beacon, "Our pumpkin harvest this year was pretty good. We are about 75 percent

"Hurricane Rita stopped all through. Our biggest problem is the Hesperian-Beacon, "We have the high price of diesel in shipping our pumpkins by freight. We have had a good crop and we have already shipped around 100

Mac Hickerson, manager and owner of Hickerson Pumpkin Patch of Floydada, said, "We are only about 60 percent through. All our shipments to San Antonio and the HEB Food Stores were stopped by Hurricane Rita. We have just now sent one load there this week. Our fuel and freight prices have gone up by 30 percent this year."

Local producer Jon Jones of Jones Pumpkins of Floydada told caused a cut back on our orders.'

40 acres of pumpkins this year and we have harvested about one-half of them so far. The yields are good and the quality is good this year."

Paula Pyle of 'Pumpkin Pyle', a wholesale pumpkin outlet just south of Floydada, said, "We have had a good pumpkin harvest this year because it did not rain during harvest. The pumpkin colors are brighter this year than usual, and the sizes and quality are good."

Concerning high fuel costs this year, Pyle said, "It has hurt everyone and it definitely has

Punkin Day is Saturday

Southern Living magazine has notified the Floydada Chamber of Commerce that they will be in town for "Punkin Day", October 8. Known for beautiful photography the magazine will highlight the colorful pumpkin and help promote Floydada in the process.

The Chamber of Commerce is encouraging Floydada businesses and residents to decorate the town with pumpkins and fall colors and put their best feet forward to welcome Southern Living and the hundreds of other visitors who will be town for the harvest festival.

Punkin Day activities will fill up the day Saturday. A schedule of events is printed inside this edition courtesy of Floydada's First National Bank.

The courthouse square will be full of Arts and Crafts booths which will be open for business at 9:00 a.m., however some activities will start even earlier.

A 5K and 1 mile Fun Run begins at 8:00 a.m. in front of Farm Bureau, and a motorcycle bead run registration gets started at 8:30 a.m.

Classic cars will be parked at Oden Chevrolet and don't forget the bake sale and book sale at the

Pumpkin games for youngsters will take place on the courthouse lawn and the grass lot next to First National Bank beginning at 9:30 a.m. Games include pumpkin pie relay race, pumpkin drawing and carving, pumpkin toss, pumpkin bowling, and tricycle and stick horse races.

Teens and adults can also participate in pumpkin games, such as the wheelbarrow races, pumpkin pie relay, and the pumpkin motorcycle games.

Entertainment will be held under the pavilion from 10:00 a.m. to 4:00 p.m., and will feature local artists.

Don't forget to buy you Cow Patty Bingo tickets and get your chance to win either \$500 (for first place), \$300 (for second place), or \$200 (for third place).

Yearbook staff honored t

The 2005 Whirlwind year-rent senior editor, Jeffri Vaughn. book has been chosen as a semifinalist in the Taylor Publishing's Yearbook Yearbook.

Of the more than 8,000 yearbooks that Taylor Publishing prints across the nation each year, less than ten percent are chosen book.

A panel of judges from across the nation select the finalists to be published in Yearbook Yearbook. Books are chosen to be semifinalists from the overall look of the book, but the final selections are the individual

"The staff worked so hard last year, so we were thrilled to be included in this pretigious honor," said Anne Carthel, Whirlwind staff advisor.

Staff members were surprised with the announcement when Carthel brought brownies and balloons for the celebration.

"We were so curious when Mrs. Carthel came into class with a big balloon bouquet," said cur-

"We just kept asking her about them, and finally she told us. We were so excited!"

The staff talked with new members about the reasons the book had been so successful.

"Our favorite part of the book for this honor. Semi-finalists are last year was the great team efasked to submit six of their most fort put in on the book and on outstanding spreads from their every page and section. We tried to really bring out the personality of the school and the student body," said Tabi Barrientoz, senior staff member.

> Many new changes were made in the production of the book last year.

"We were even more excited when we realized that it was the first digitally produced book and the first book produced on the new Indesign software," said Carthel. "We were also blessed to have a staff with enormous talent in art, design, and writing."

Staff members for the book included Ana delaCerda, Kristan Lackey, David Mancilla, Megan Moralez, Tabi Barrientoz, Jeffri

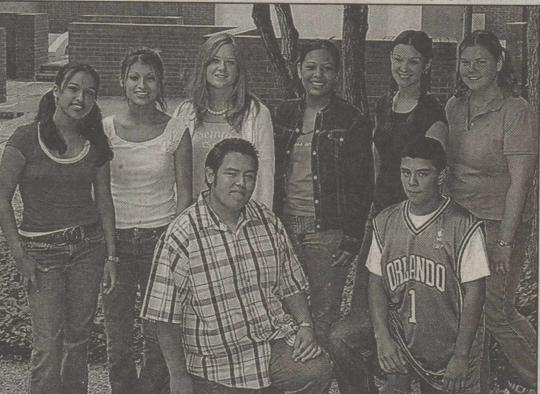

Vaughn, JoAnn Caballero, and Abran Enriquez.

The FHS Whirlwind

including several opening pages, entered. Entries are due by Oc-

tober 5, and the staff will be notified when judging is complete.

FHS YEARBOOK STAFF OF 2005 HONORED--The 2005 Whirlwind Yearbook staff have been recognized for their excellence with a nomination as semi-finalist in the Taylor Publishing's Yearbook Yearbook (see story). The staff included: (back, l-r) Tabi Barrientoz, Megan Moralez, Kristan Lackey, Ana delaCerda, JoAnn Cabellero, and Jeffri Vaughn; (front, I-r) David Mancilla and Abran Enriquez.

La Esperanza burglarized

The La Esperanza Oil and Gas Lease Company, located in the 100 block of W. California in Floydada, was burglarized Thursday night, September 24.

Entry was made into the office by someone throwing a brick through the glass door.

According to Floydada Police Chief Darrell Gooch the alarm company log shows entry into the building at 11:30 p.m.

"The alarm did not sound when the glass was broken--it went off when the burglars entered the building," said Gooch.

"We believe the burglars weren't expecting the noise of the alarm and when it went off they got scared and only snatched up a computer monitor and ran off."

According to Gooch the alarm company never called the police dispatcher to notify them of the

"The alarm automatically resets and the broken door was then noticed the next morning at 9:30 a.m.," said Gooch.

More warning signs:

At least 200,000 Louisiana vehicles are estimated by officials to have been damaged as a result of Hurricane Katrina, and now Rita has damaged more vehicles along the Texas coast. Citizens throughout the region should be aware that flood damaged vehicles, could soon appear on the market.

Texas titles are issued with salvage/flood damage brands and citizens are advised to look for such remarks on a vehicle title. They may also call TxDOT's Vehicle Titles and Registration Division's Customer Help Desk at (512) 465-7611 to search for "flood damaged" and other registration and title brands by vehicle identification number. TxDOT's Web site has a list of vehicles damaged by Texas floods in 2001-02, this list will be updated as additional vehicles are titled with the flood damaged

The State of Florida provided TxDOT with an online link to its flood damaged vehicle database after the 2004 hurricane season (https://www6.hsmv.state.fl.us/ rrdmvcheck/mvchecking).

"Consumers should be aware that some states do not carry forward flood damaged brands," said Mike Craig, Interim Director of TxDOT's Vehicle Titles and Registration Division, "so purchasing commercial car histories is a good idea, since they contain information from all states."

Because there is no guarantee vehicle damage will be reported, the best way for consumers to protect themselves is by having a reputable mechanic do an inspection of the vehicle to look for signs of water damage.

How to spot potential flood

* Search from under the dashboard with a flashlight for mud, grit, rust or mold.

* Search for mud and grit in the engine compartment, including wires, alternator, starter motor and power steering pump crevices.

* Inspect the vehicle's undercarriage for rust and flaking.

A view from

George Bush has voters of a conservative bent right where he wants them: with very little happiness and no place to go.

The result is very simple, in our opinion. Conservatives continually must pull Bush's chestnuts out of the fire, lest people like John Kerry's supporters benefit from the flame. It may be true that that's merely the way politics works, but it does not make for happy campers.

Political labels are indistinct appellations, anyway, but we know of no real conservative who is completely happy with George Bush's handling of either the Mexico-U.S. border situation, or the Mid-East Arab-Jew problem. In our view the former is much more tractable than the latter religious mess, which dates all the way back to Moses' version of the Abraham-Sarah marriage

(Our southern border situation could be easily handled, in our view, simply by the President enforcing laws already on the books, as generous as those laws are relative to immigration. We hesitate to get too deeply involved in the Abraham (or, Abram) mess, lest we generate a host of e-mail on one side or the face casing has been set to 704 other, or both. Suffice to say, as we remember our Bible, Abraham (then called Abram) found himself with an aging wife and his wife's young Egyptian maid-servant. His wife couldn't have children at the time, as we remember the story, and she persuaded Abram (or Abraham) to take unto himself the young Egyptian maiden as a wife, sort of. The resulting child, called Ishmael, ultimately caused great jealously and unhappiness on the part of the two women, especially Sarah, who persuaded Abraham to banish her and the child to the wilderness, which he did, being the ungrateful wretch he was. Muslims claim decent through Abraham's first son, Ishmael from Hagar, rather than his second son, Isaac from Sarah,

through whom Jews claim spiri-

own recollection is that God told Abraham, or rather that Abraham said God told him, he would bless Hagar and make her the mother of "Great Nations." Not being Muslim, we don't know how Muslims can stretch that promise, if it was a promise, all the way to Mohammed's founding of the Muslim religion six hundred years later. But then, we have learned not to make definitive comments about almost any religion. Some, judging from the email we sometimes get, believe we occasionally have unfair comments about Judaism, which we see as being at odds with Christianity, and which most Jews do as well.)

But, back to the Bush thing. George Bush is a lot more like Nixon, in our view, than he is like his dad, not that his dad was such a conservative, either.

There was nothing conservative about Nixon's approach to civil rights. There was nothing conservative about Nixon's approach to the size of the central government, witness the envi-

ronmental bills. As far as the current Bush is concerned, there is nothing conservative, in our view, about being profligate with tax money. Nor is there anything conservative about supporting a situation in which young American boys (and now girls) are called on to give up their lives in the interests of some foreign power. There is nothing conservative, in our view, about turning a blind eye to our porous borders in the hope that time will take care of the problem. The list could go on.

The real injustice, in our mind, is that so many have no place to turn. There is not a great deal of difference between the current situation and the situation facing Lyndon Johnson during the Vietnam war. The nation had, Lyndon was fond of reminding us, "only one President." The implication being, of course, we had to support the one we had

tual descent through Issac. My even if his decisions were stupid. The one real thing that keeps conservatives on the reservation (and we are not talking about the neo-conservatives, who are mo-

tivated only by our policy toward

Israel) is the hope that the nation will derive some judicial benefit via Supreme Court appointments. To this date, at least, most citizens can rejoice. A lot of us, remembering Clinton's pick of

Ginsberg, and Bush's dad's pick

of Souter, will keep our fingers

crossed. But for now, we can be

grateful. John Roberts, at this moment, looks like a good choice.

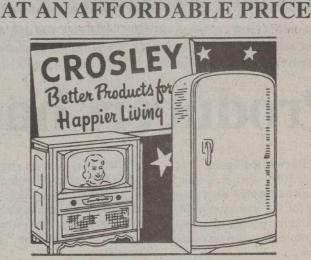

By: Ken Towery

The new pick, Harriet Miers, is simply one wherein most of us will continue to keep our fingers crossed. We know nothing about her. We know not whether she will rule this way or that way on issues that are critical to the manner in which American must live their lives. Quite frankly, we do not expect much, but we hope. And, I suppose, that's about all many of us can look forward too: a little hope and hard work.

IRST NATIONAL BANK

Floydada Council borrows \$750,000 for projects

By Darwin Robinson

The Floydada City Council met in Special Session Friday, September 30, and approved an ordinance to issue a Tax Note of \$750,000 to be used for capital projects improvements.

The motion passed with Council Members Clar Schacht, Sheldon Sue, Bettye King and Jon Nielson voting in favor, while Council Member Ruben Barrientoz abstained. Council Member Monte Williams was not present for the meeting.

The tax note will be held by First National Bank of Floydada at 4.25 percent interest over the next 7 years, at an interest cost of \$126,419.79.

At the council's regular meeting on September 20, when the same tax note vote failed for lack of enough council members that would vote, Vince Viaille, Vice President of First Southwest, Inc. of Lubbock, told the council, "This local financing will be

early."

City Manager Gary Brown said part of the money would be used for three groundwater monitoring wells to sample the City's water at a cost of around \$75,000.

According to Brown, other projects needed are lift stations, sewer lines, a booster house, pumps and water tanks' upkeep. 'The sewer lines to the ponds are in bad shape," said Brown.

The council also passed a

more flexible and can be prepaid \$6.00 increase in monthly sewer trict 3. charges that will start November 1st, 2005. "This is to help pay for part of these mandatory capital projects expenses," said City Manager Brown.

> In other matters, the council approved a recommendation from the Planning and Zoning Commission for variance in the Zoning Code for Eric Cornelius to place a mobile home in R-3 Single Family Residential Dis-

ing just what is assisted living and who will want to live there and why is it important to have a residents like this in our area. "Aging in Place" by minimizing the need to move is just one of the reasons that Shepherd's Meadow is an important asset to

Assisted living is not a skilled nursing home or a rest home. By definition of the Assisted Living Federation of America, it is: a special combination of housing, support services, health care, and personal assistance designed to respond to the individual needs of those who need help with activities of daily living. These may include dressing, eating, bathing, transferring, and toileting. Also, added to the list of major instrumental activities of daily living is meal preparation, taking medication, housework, shopping and traveling and money manage-

Assisted living can be a positive experience for those who need help with any of these activities. There also are those who are tired of the responsibilities that go along with maintaining their home and yard. Others may feel a need for a more secure and safe environment or desire to travel more but still have a place to come home to without worrying if everything is all right at their house. Assisted living can be the answer to all of these.

Prescription Drug help

If you are a Medicare beneficiary with limited income and resources, you may be able to get extra help paying for prescription drugs.

Beginning January 1, 2006, a new program will provide prescription drug coverage under Medicare. If you have limited income and resources, you may be able to get help paying for your monthly premiums, deductibles and co-payments under this prescription drug pro-

If your annual income is below \$14,355 for an individual (\$19,245 for a married couple living together), you may not have to pay monthly premiums or deductibles, and you could pay as little as \$2 for your co-pay-

Even if your annual income is higher, you still may be able to get some help with your monthly premiums, annual deductibles and prescription co-payments. Some examples where your income may be higher include if you or your spouse:

*Support other family members who live with you;

*Have earnings from work; or *Live in Alaska or Hawaii.

To Qualify: Your resources must be limited to \$10,000 for an individual (\$20,000 for a married couple living together). These resource limits can be slightly higher (an additional \$1,500 per person) if you will use some of your money for burial expenses. Resources include such things as bank accounts, stocks and bonds. We do not count your house and car as resources.

What should I do next?

If you have both Medicaid with prescription drug coverage and Medicare, Medicare and Supplemental Security Income, or if your state pays for your

Medicare premiums, you automatically will get this extra help. You do not have to do anything. Also, from June through Au-

gust 2005, millions of Medicare beneficiaries who may be eligible for the extra help will be mailed an Application for Help with Medicare Prescription Drug Plan

Costs (Form SSA-1020). If you receive an application, you should complete and return it as soon as possible. If you do not receive an application in the mail or do not want to wait, you can get one by calling Social Security at 1-800-772-1213 (TTY 1-800-325-0778).

Beginning July 1, 2005, you can also apply online at www.socialsecurity.gov.

After you apply, Social Security will review your application and send you a letter to let you know if you qualify for the extra help. If you qualify, you need to enroll in a Medicare-approved prescription drug plan to get help with your prescription costs. You can select a plan between November 15, 2005, and May 15, 2006, but the earlier you enroll in a plan, the sooner you can begin to save money on your prescription drugs.

How can I get more information?

For more information about getting help with your prescription drug costs, call Social Security at 1-800-772-1213 (TTY 1-800-325-0778) or visit

www.socialsecurity.gov. To learn more about the Medicare prescription drug plan, call 1-800-MEDICARE (1-800-633-4227)

www.medicare.gov. Beginning in October 2005, you also will be able to get information on the drug plans available in your area.

Managing diabetes through good measurements

By Melissa Long

Eating the right foods at the right times is vital for good diabetes management, but don't forget the foods must also be eaten in the right quantities. That's why carefully measuring serving size is so important.

Portion size is the key to good blood glucose management, as is selecting foods wisely and then eating them in the right amounts throughout the day.

According to the USDA Food Guide Pyramid, a healthy daily diet contains six or more servings of breads, cereals, rice and pasta; three to five servings of vegetables and two or four servings of fruits; two or three servings of milk, yogurt and cheese; two or three servings of meat, poultry, fish, beans, eggs or nuts; and small amounts of fats, oils and

A popular meal plan uses exchange lists, where foods are given a certain value-starch exchange, milk exchange and so on which can then be mixed into a healthy daily menu. One exchange is a single serving, and can be substituted for other exchanges in a healthy manner. These easy-to-use substitutions can help people with diabetes count calories, maintain their blood sugar levels and obtain nutrients. More information is available from the American Diabetes Association and the American Dietetic Association.

Knowing what each exchange contains is important. For example, one starch exchangebread, cereal, croutons, rolls, pasta, tortillas, etc.- has 15 grams of carbohydrate, three grams of protein, one or less gram of fat and 80 calories. One fruit exchange provides 15 grams of carbohydrate and 60 calories, while one milk exchange provides 12 grams of carbohydrates, eight grams of protein and differing amounts of fat and calories.

Counting carbohydrates is also a popular method of building healthy menu plans. This method provides several choices of carbohydrates for each meal

Some canned vegetables have sugar added; although these products can be used, a better choice would be fresh or frozen vegetables without the added sugar.

Regular bread also has some sugar added, but it's a small amount in comparison to the ma-

jor ingredients. Foods that are labeled "dietetic" may be low in fat and sugar, but they still contain calories and so shouldn't be eaten in mass quantities, any more than

CHAIR HOLLING LONG

Wildcats hold on to defeat Whirlwinds

By Bill Gray

Littlefield scored twice in the fourth quarter to pull out a hardfought, 21-6 defensive battle over Floydada at Wester Field last Friday. The Wildcats improved to 5-1 on the season and will open District 2-3A action at Lubbock Cooper tomorrow night. The Whirlwinds finished their non-district portion of their 2005 campaign at 1-4 and will host the Olton Mustangs in the District 6-2A opener this week.

- Both teams exchanged a couple of punts in the scoreless first quarter. Early in the second period, Littlefield quarterback Matt Hall ran for 37 yards to get the Wildcats out of a deep hole. Approximately two minutes into the second quarter, Hall connected with Depatrick Rosemond for a 48-yard scoring strike. Colby Huseman added the conversion for a 7-0 Littlefield lead, which would be all the points on the board in the first

Highlighted by a 16-yard pass from Payte Beedy to Paul Marmolejo and a nifty 23-yard run by Taylor Beedy, the 'Winds attempted to get a drive going midway in the second period, but were unable to advance past midfield. Littlefield's next series was stymied by Lance Terrell's interception of a Matt Hall aerial,

unit and it showed.

Defensively, we did improve

26 to 14.

which was first tipped by Aarhon Flores. A 6-play, 31-yard drive by the Whirlwinds was cut short by the halftime horn.

The third quarter was mostly a defensive struggle as neither team was able to mount a serious scoring threat. Midway through the final period, it only took the Wildcats three plays to hit paydirt again. Hall appeared to be stopped at the line of scrimmage, but bounced off to the outside and skirted down the sidelines for a 51-yard scoring sprint. After holding the Whirlwinds to three-and-out, Blake Demel capped a 4-play, 52-yard Littlefield drive with a 19-yard run for an insurance touchdown.

Following the ensuing kickoff, the Whirlwinds avoided a shutout by responding three plays later with Payte Beedy hitting Jacob Reddy in stride for a 76yard pass-and-run for a score. Floydada was penalized 15 yards during the try for extra point, and the second attempt by Brandon Rainwater was short, leaving the Whirlwinds down 21-6 late in the final period.

Coach Lee Hurt commented, "I was very proud of how we fought back, even late in the game and down by 21 points."

FHS Girls Cross Country Report

By Coack Watson

The FHS Girls Cross country team ran at the Lubbock ISD Invitational Meet held September 24, 2005.

I his was a very good practice for the upcoming district meet. There were 361 girls running in this division and everyone from our district was here.

The girls all improved their times by at least 45 seconds from last week. We know what we

need to improve on and what are goals for district are now. Everyone did great and I am very proud. Thanks to everyone that came and supported us.

Meet results are as follows: Morgan Norrell - 13:45.53; Marlen Carmona - 14:27.37; Jackee Wickware - 15:24.85; Jennifer Leatherman - 15:39.22; Blanca Garza - 15:46.32; LaToya Glenn - 15:56.00; Crystal Alvarez - 16:09.80.

Covington. Covington connected Floydada 7th & 8th Grade Breezer Report

help support our Breezers.

8th Grade Breezers 8th Grade Farwell By Coach Ayala

The 8th Grade Breezers traveled to Farwell and won their second game of the season 34-0. The defense really controlled the game from start to finish. With strong play from our front line, Lupe Palacio, Joey Martinez, Teddy Summers and Camron

McHam, the Farwell offense had little success in running or passing the ball. The defense gave the offense great field position and only allowed Farwell one series inside the 50 yard line. Great job as a team effort.

The Breezer offense with

our first home game of the year from a Steer running back causand we want everyone there to ing the ball to bounce up into the air. Our trailing lineback Joseph Segura picked it off in stride and ran it in for our second score. Joseph Segura scored the extra point on a Jordan Cornelius pass. David Diaz scored on a well blocked trap play from 56 yards to band competition. out. David also scored the extra point to make the score 22-0. On the next drive, Joseph Segura scored from 24 yards out on well executed counter play. The extra point failed, (28-0). Our last score came late in the 4th quarter with a 6 yard sweep play by our running back Damion Pleasant. The

extra point failed, 34-0. Overall, we are very proud of the effort our Breezers gave in the Farwell game. The fans, our pep squad and cheerleaders that made the trip to cheer for the Breezers are really appreciated. They did

a great job. Next week we will be playing our first home game against the Littlefield Wildcats. This will be a much tougher game than the

Letter of Apology

I, Mathew Reay, am responsible for the destruction of the Floyd County Supply sign. I'm very truly and deeply apologetic for my actions. I have not only let down myself but a lot of other people as well. First of all, Lindan Morris is a good man and has done nothing wrong to deserve this kind of treatment from me. He has never tried to keep something from me that was my business nor destroyed any of my property.

Jerry Edwards has done nothing wrong to me, but has shown me graciousness and kindness. I have cost the Lockney Police Department some of their time and money and am sorry for that.

Last but not least, the two people that I am most ashamed to have disappointed are Kay and Kyle Brock. These two loving people have done nothing but show me love and caring. They didn't have to, but chose to anyway. They have been there for me when no one else would, when I really needed someone, and I let

them down. I don't know if I am ever going to be able to forgive myself for that. I know that trust is a very hard thing to get back once someone has lost it, but I just hope that you all can find it in the graciousness of your hearts to forgive me for what I have done.

Mathew Reay

DISTRICT CONSERVATIONIST, Jim Bob Clary presents the conservation planning program, "Your Land, Your Investment, **Courtesy Photo**

Conservation planning program held Sept. 28

Farmers and ranchers in Floyd tionist in Floyd County. County had the opportunity to "get back to basics" with their. land management approach in a conservation planning meeting with the USDA-Natural Resource Conservation Service (NRCS) and the Floyd County Soil and Water Conservation District (SWCD) in Muncy on September 28.

While many participants were experienced producers with established land management goals, the training at the meeting helped them approach those goals in a new way - through maintaining and improving natural resources on their land.

The main topic of conversation was the new conservation planning sign-up initiative developed to provide new opportunities for landowners and producers through conservation assistance. USDA-NRCS and the Floyd County SWCD worked hand in hand in a cooperative effort to address these new opportunities for improving environmental performance that can maintain productivity.

With the recent program announcement from Agriculture Deputy Secretary Chuck Conner about the conservation planning sign-up, Texas NRCS presented farmers and ranchers in Floyd County with a program entitled "Your Land, Your Investment, Your Plan"

Over 80 landowners and producers attended the event at the Unity Center between Floydada and Lockney.

Floyd County SWCD member, J.O. Dawdy made the opening remarks and introduced. director of the Texas State Soil and Water Conservation Board; Mickey Black, USDA-NRCS assistant state conservationist for the High Plains and South Plains regions; and Jim Bob Clary, USDA-NRCS district conserva-

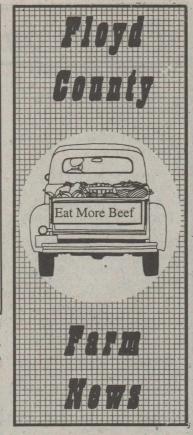

The purpose for the meeting was to inform local landowners and producers about the availability of conservation planning assistance. Rex Isom encouraged farmers and ranchers to take advantage of this planning opportunity, saying, "We are one of nine states to be piloted in five areas of the state. This voluntary planning program helps us get back to the basics of planning, and we fully support the effort."

Although many farmers and ranchers in this area have performed excellent stewardship over the years in applying sound conservation, the pilot project was developed to emphasize the importance of conservation planning to help farmers and ranchers be better prepared to apply for conservation programs and to comply with federal, state, tribal and local environmental regula-

Flora McNeill, a 90-year-old landowner in Floyd County, attended the meeting and stated, "This opportunity gave me a lot of new ideas about my land. We all should be concerned about our natural resources, particularly our water." McNeill is planning to contact her local NRCS office in Floyd County to learn more about how conservation planning might provide benefits to her

Conservation planning signup is being established by the NRCS to enable landowners and operators to plan in a comprehensive approach to implement practices and apply for conservation programs in the future.

For more information about speakers, Rex Isom, executive conservation planning assistance please contact your local NRCS and SWCD offices at the UŞDA service center. They are listed under USDA in the telephone book. Contact and program information can also be found at www.tx.nrcs.usda.gov

AG TOUR--The Floyd County Cooperative Extension Ag Tour was recently held on September 20. Three tour stops were featured on this year's tour: Irrigated Crop/Forage Livestock System, Drip Irrigation, and No Till Dryland Cotton. All three sites were studies currently involved within the Floyd/Hale County Water Project. A total of 75 producers attended with Senator Robert **Courtesy Photo** Duncan making the noon luncheon address.

Assistance Act of 2005" that would provide aid to farmers impacted by the hurricanes, other weather-related disasters and escalating energy prices.

For now there is no timetable for consideration and passage of any 2005 disaster assistance, but the good news for growers is that awareness of their situation continues to rise in Washington.

The recent weather problems along the Gulf Coast have certainly helped gain Congresses attention. The next step will be to harness that attention and direct it toward passage of an agriculture assistance package that is available to all producers who suffered weather-related losses in

TCE Cotton Profitability Workshops scheduled

Cotton producers can get a leg up on planning their management strategies for 2006 at a cotton profitability workshop sponsored by Texas Cooperative Extension

The program will be designed to take a long, hard look at the impacts of higher 2006 production expenses, and how this situation may affect operating strategies next year. Because they will have to face higher energy costs for irrigation, fertilizer, fuel and ginning, the workshop will also examine rental arrangements, how energy prices affect them and include discussion on how

they might need to be adjusted. The first workshop is slated for October 7, from 9:00 a.m. to noon in the auditorium at the Texas A&M University System Agricultural Research and Extension Center at Lubbock. The cen-27 on FM 1294.

Three subsequent workshops are slated for December 20 in Plainview, February 22, 2006 in Muleshoe, and March 23, 2006 in Plains.

Jeff Pate and Jay Yates, Extension risk management specialists based at Lubbock, will provide an outlook for fuel, fertilizer, other farm inputs, and crop prices farm program payments and pos-

Proposal announced for Farm Service Agency

Agriculture Secretary Mike Johanns announced today that he is opening a dialogue with state and congressional leaders to discuss how best to modernize the Farm Service Agency (FSA) to ensure it meets the needs of farmers and ranchers in the 21st Century

"FSA is an agency with a strong record of service to farmers and ranchers," said Johanns. "To continue that tradition we must examine our future course with vision and an understanding that producers' needs are changing.

engaging stakeholders, local, and state congressional leaders to develop proposals that will help us chart the course for the agency's future. My hope is that we can agree on a plan that will make it possible to invest in equipment, technology and our employees. We want to ensure that top notch service is provided to our farmers and ranchers long into the future," Johanns said.

The FSA dates back to the 1930's when one in four Americans lived on a farm and it was necessary to maintain a presence cultural activity. The state execu-

in virtually every rural county to tive directors will work with changed dramatically since that time, as have farm programs, while the structure of FSA has undergone fewer dramatic changes. While many farmers are equipped to conduct business via the Internet, FSA technologies do not fully support web-based ser-

Our country and our leaders need prayers

> **Punkin Day** October 8th

We want to thank everyone who called, came by to visit, or just asked about Rion while he ws recovering in the hospital.

A special thanks to Mindy, the Longhorn trainers and the staff at W. J. Mangold Memorial Hospital for the wonderful job they do. And thank you for your prayers.

Chuck, Ronda, Rion and Dylan

Public Notice

ORDINANCE NO. 05-15

AN ORDINANCE OF THE CITY OF FLOYDADA, TEXAS AMENDING THE CODE OF ORDINANCES BEING APPENDIZ A, FEE SCHEDULE, ARTICLE 7,000, UTIL-ITY FEES, SECTION 7.500 (a) AND (b) SEWER RATES ESTABLISHED; PROVIDING FOR PARTIAL INVALID-ITY, REPEALING ANY ORDINANCES OR PARTS OF ORDINANCES IN CONFLICT TO THE EXTENT OF SUCH CONFLICT

WHEREAS, the City of Floydada maintains a substantial and legitimate interest in setting fees for utility fees including sewer

WHEREAS, the City of Floydada as empowered by the statutes of the State of Texas to govern its fees and services:

Part 1 Appendix A, Article 7.000 Utility Fees.

Sec. 7.500 Sewer Rates Established

(a) The monthly service rate or charge for service furnished by the sanitary sewer system shall be as follows:

Residential Rate

\$14.85 base plus \$.60 per 1,000 gallons of water used during the months of November, December, January and February

Business Rate

0-5,000 gallons -

\$15.40 minimum plus \$.60 per 1,000 of water used during the months of November, December, January and February

6,000-12,000 gallons - \$18.40 minimum plus \$.60 1,000 gallons of water used during the months of November, December, January and February

13,000-20,000 gallons - \$21.40 minimum plus \$.60 per 1,000 gallons of water used during the months of November, December, January and February

21,000-50,000 gallons - \$24.40 minimum plus \$.60 per 1,000 gallons of water used during the months of November, December, January and February

(b) This monthly charge for service will be in effect each year for 12 months. In March of each year, the winter average for water usage will be recalculated for the months of November, December, January and February. Should a customer not have an established water usage for the months of November, December, January and February, a charge of \$17.50 will be assigned until the customer receives their average water usage.

Part 2 Severability.

It is hereby declared to be the intention of the City Council that the sections, paragraphs, sentences, clauses and phrases of this Ordinance hereby amended and adopted are severable and, if any phrase, clause, sentence, paragraph, or section shall be declared unconstitutional by the valid judgment of any court of competent jurisdiction, such unconstitutionality shall not effect any of the remaining phrases, clauses, sentences, paragraphs or sections, since the same would have been enacted by the City Council without the incorporation of any unconstitutional phrase, clause, sentence, paragraph or section.

Part 3 Repeal of Conflicting Ordinances.

That all ordinances or parts of ordinances in conflict herewith repealed, to the extent of such conflict.

Part 4 Effective Date.

This Ordinance and the revised sewer service rates specified herein shall become effective and shall apply to all sewer service accounts for which billings are issued on or after October 1, 2005.

PASSED AND APPROVED THIS 30th DAY OF SEPTEM-BER, 2005.

> BOBBY GILLILAND, MAYOR CITY OF FLOYDADA

ATTEST: KAREN E. LAWSON **CITY SECRETARY**

Public Notice

ORDINANCE NO. 05-14

AN ORDINANCE authorizing the issuance of "CITY OF FLOYDADA, TEXAS, TAX NOTES, SERIES 2005", specifying the terms and features of said notes; levying a continuing direct annual ad valorem tax for the payment of said notes; and resolving other matters incident and related to the issuance, sale, payment and delivery of said notes, including the approval and execution of a Paying Agent/Registrar Agreement; and providing an effective date.

WHEREAS, pursuant to V.T.C.A., Government Code, Chapter 1431 (hereinafter called the "Act"), the City Council is authorized and empowered to issue anticipation notes to pay contractual obligations to be incurred (i) for the construction of any public work and (ii) for the purchase of materials, supplies, equipment, machinery, buildings, lands and rights-of-way for the City's authorized needs and purposes; and

WHEREAS, in accorance with the provisions of the Act, the City Council hereby finds and determines that anticipation notes should be issued and sold at this time to finance the costs of paying contractual obligations to be incurred with (i) the construction of improvements and extensions to the City's Waterworks and Sewer System and (ii) professional services rendered in relation to such project and the financing thereof; now, therefore,

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY
OF FLOYDADA, TEXAS

SECTION 1. Authorization - Designation - Principal Amount—Purpose. Notes of the City shall be and are hereby authorized to be issued in the aggregate principal amount of \$750,000 to be designated and bear the title "CITY OF FLOYDADA, TEXAS, TAX NOTES, SERIES 2005" (hereinafter referred to as the "Notes"), for the purpose of paying contractual obligations to be incurred (i) the construction of improvements and extensions to the City's Waterworks and Sewer System (ii) professional services rendered in relation to such project and the financing thereof, in conformity with the Constitution and laws of the State of Texas, including V.T.C.A., Government Code, Chapter 1431.

SECTION 2. Fully Registered Obligations - Note Date - Authorized Denominations - Stawted Maturities - Interest Rates. The Notes shall be issued as fully registered obligations only, shall be dated September 15, 2005 (the "Note Date"), shall be in denominations of \$5,000 or any integral multiple thereof, and shall become due and payable on February 15 in each of the years and in principal amounts (the "Stated Maturities") and bear interest at the per annum rate(s) in accordance with the following schedule:

Year of tated Maturity	Principal Amount	Interest Rate
2007	\$ 110,000	4.25%
2008	115,000	4.25%
2009	120,000	4.25%
2010	130,000	4.25%
2011	135,000	4.25%
2012	140,000	4.25%

The Notes shall bear interest on the unpaid principal amounts from the date of delivery to the initial purchaser (anticipated, November 3, 2005) at the per annum rate(s) shown abovein this section. Interest on the Notes shall be calculated on the basis of a 360-day year of twelve 30-day months, and such interest shall be payable on February 15 and August 15 of each year, commencing February 15, 2006.

FULL TEXT OF THE ORDINANCE NO. 05-14 MAY BE READ AT CITY HALL, 114 W. VIRGINIA, FLOYDADA, TEXAS, DURING NORMAL BUSINESS HOURS.

10-6c

Contest Rules

Any subscriber or purchaser age 7 or older is eligible to enter this contest. Only one entry per week per person.

To play, circle the number of the teams you believe will win on the official entry form. To indicate a tie, circle the numbers of both teams playing the game. Also, write a guess of the combined total points to be scored by the two teams listed in each of the tie-breaker games.

Only entries on official entry forms brought to a Hesperian-Beacon office in Floydada or Lockney no later than 5 p.m. on Friday will be accepted. *Photocopies and mail entries will not be accepted.*

Three cash prizes are awarded each week. In the event of ties (the same number of correct games and equal scores on the tie breakers), prizes will be combined and shared equally by those tied. The tie-breaker scores will be used only to break a tie on the number of games correct.

Print your name and address plainly on the official entry form and double check your choices before clipping out the entry form and depositing it at a Hesperian-Beacon office before 5 p.m. on Friday.

Entries are limited to one per person per week. Weekly winners are limited to one per household.
