NUMBER 2

## Ten Graduates Go To MATS

Ten of the 27 young officers being graduated from undergraduate pilot training at Reese on Feb. 5 are being reassigned to the Military Air Transport Service to pilot transport aircraft.

Reassignment orders received this week also reassign seven of the graduates to permanent duty as instructor pilots in Air Training Command, two of them remaining at Reese. Four graduates go to Tactical Air Command to pilot fighter aircraft, three go to Air Defense Command, one goes to the Pacific Air Force, one to the Air Force Systems Service and one to Strategic Air Command.

Graduation in the Reese theater will terminate 55 weeks of intensive training in which students completed 262 hours of flying training, in addition to military and academic studies.

## Trio Of On-Base Courses Planned

Military personnel have the opportunity of enrolling in any of three high school courses offered on the base: English Composition, Algebra I and Algebra II.

The English composition includes theme subject and plan, function words, variety and clarity, dictionary study, words and grammar review. This course is planned for men seeking to improve their report writing or are preparing for college entrance or for taking the high school or college GED Test.

Beginning Algebra I is a study of fundamentals of introductory Algebra. Topics include general numbers and formulas, simple equations positive and negative numbers, graphs and systems of linear equations.

Beginning Algebra II is a continuation of Algebra I and includes special products and factors, fractions, ratio and proportion, quadratic equations and radicals. Both Algebra I and Algebra II are required for completion of first year high school Algebra and is very essential for entering into college.

Each class meets one night per week for 12 weeks from 6:30 to 9:30 p.m. in Bldg. 915. Algebra I begins Monday, Feb. 3, English composition Feb. 4 and Algebra II begins Feb. 5. A minimum of 15 students are required in each class before it can be given. Enrollment is in the Education Office.

COLONEL FAVER

## Canadian Officer, Assigned To NORAD, To Speak Here

Group Captain H. R. Studer of the Royal Canadian Air Force, presently assistant director, deputy for plans and policies of the Northern American Air Defense Command headquarters at Ent AFB, Colorado Springs, Colo., will speak at the Reese Student Squadron Dining-In the night of Jan. 23.

Captain John M. Root of Class 64-G in undergraduate pilot training will be President of the Mess for the Dining-In starting at 7:30 p.m. in the Reese Officers' Open Mess.

All Reese students will attend the function and awards will go to students with the highest average in officer and academic training in each class and to the highest ranking students in flying in each class. Awards will be based on primary pilot training grades.

Group Captain Studer, native of Callander, Ontario, joined the RCAF in 1940, trained as a pilot and served as a flying instructor in various wartime training stations in Canada during World War II.

For his work he was awarded the Air Force Cross. The captain was out of service

a few months after the war, returning in June, 1946, to command the Air Cadet summer training camp at Mountain View, Ontario. He later became commanding officer of "K" Flight at Trenton, then attended the officers' administrative course at Trenton and became commanding officer of the Central Flying School at Trenton.

Group Captain Studer was graduated from the RCAF Staff College at Toronto in July, 1948, and became chief postings officer in the Directorate of Postings and Careers. In September, 1952, he joined the Canadian Joint Staff Headquarters in Washington, D.C., in 1955 transferring to the directing staff of the RCAF Staff College at Toronto.

In October, 1958, Group Captain Studer was appointed commanding officer of the RCAF Station Gimli, Manitoba, leaving in July, 1962, for NORAD headquarters at Ent AFB.

The speaker formerly was commander for the unit to which Flight Lieutenant Harold Hart of the RCAF was assigned. The flight lieutenant, presently an instructor pilot at Reese on an exchange basis, will be a special guest at the Dining-In.

## Withholding Tax Statements Ready

Withholding tax statements for military personnel will be distributed next week for Calendar Year 1963, Lt. Col. John M. Schmidt, comptroller, states. The colonel asked all personnel to check the social security number shown for accuracy and to report any error promptly to the accounting and finance officer so that correction may be made.

High school students studying English in Istanbul, Turkey, will learn from textbooks collected in this country and flown there by the USAF.

# Colonel Faver Takes Reese Control Friday

Reese will receive its seventh commander since its reactivation in 1949 Friday afternoon as Col. Dudley E. Faver succeeds Col. James A. Gunn III in change of command ceremonies on the flightline.

Reese troops will pass in review after Colonel Gunn presents the command to Colonel Faver.

The new commander comes to Reese from Amarillo Air Force Base, where he has been commander of the 3320th Technical School.

Colonel Faver was graduated from high school in Sweetwater, received his degree magna cum laude from Abilene Christian College and taught school in Leveland prior to becoming an aviation cadet in 1940.

He has served as an instructor pilot, chief of academic and training analysis and as director of operations and training of the Alaskan Air Command. He has commanded an instrument school, served as deputy group commander of a B-47 combat crew and in the Pentagon. He also served as director-ballistic missiles of USAF at Ramstein, Germany, and director of ballistic missiles at Wiesbaden, Germany.

Colonel Gunn is moving to a new assignment as center executive at Lackland Military Training Center. He has commanded Reese since July, 1962, and was removed from flying status because of a recent illness. He has been in service since 1939 and has held numerous important assignments overseas and in the United States.

Friday night Reese and Lubbock leaders will join in a reception for Colonel Faver and farewell to Colonel Gunn in a gathering at the Officers Open Mess. More than 200 civic leaders, officers and their wives will attend.

Monday night Colonel Gunn was honored at a farewell gathering by the Lubbock Chamber of Commerce at the Lubbock Country Club.

Mrs. Gunn, who with the Gunn children will remain here until the last of the month, was tendered a farewell tea by the Officers Wives Club Tuesday afternoon in the Officers Open Mess. Reese and Lubbock women participated.

The NCO Wives Club will give a farewell coffee the night of Jan. 23 in the NCO Open Mess, with NCO and airman wives invited.

Colonel Faver next Wednesday will begin a series of meetings in the base theater with all Reese personnel. They are scheduled for 9:30 a.m. and 2:30 p.m. on Jan. 22, 23 and 24.

Permanent party officers, including those in tenant units, civilians ranking GS-9 and above, and wage foremen 10 and 11 will attend Jan. 22 meetings.

The following day meetings will be with all non-commissioned officers, civilians GS-6 through GS-8, wage foremen 7 through 9, central base fund workers, and all wage leaders.

On Jan. 24 meetings will be with all airmen below NCO grade, civilians GS-2 through GS-5, and all wage board civilians.

Attendance at one of the specified meetings is mandatory.

## Majors Made 'Permanent'

Four Reese officers were notified Tuesday of their appointment to permanent rank of major in the regular Air Force. They are Majors Lewis J. Cowart, Theodore W. Guy, Herbert Leong and Oscar Medlin. All have been majors in temporary rank status.

Major Cowart came to Reese in July as assistant supply officer. He has been in service 20 years and came to Reese from Germany.

Major Guy, operations and training officer, has been at Reese more than three years, serving in various supervisory capacities in pilot training.

Major Leong, officer in charge of officer training, came to Reese in 1960. He served in the Far East three years and is a native of San Francisco.

Major Medlin, who came to Reese from USAF two years ago, is assistant operations officer of the 3501st Pilot Training Squadron.

## Reese Selects 139 Promotees

One less promotion for airmen has been authorized for February than was made last October at Reese, Lt. Col. David Mold, director of personnel, has stated.

The February quota for staff sergeants is 13, as compared with 10 in October, the last promotion date. Authorized to go to airman first class are 39 airmen, one more than four months ago, while 87 men will move to airman second class, a drop from 92 in October.

Nominations of Reese airmen have been sent to Air Training Command and all selections of men to be elevated have been made. Names of the selectees will be announced as soon as possible.

## Union Dues May Be Made Deductible

WASHINGTON (AFNS) — Civilian employees who are members of employee organizations which have been granted formal or exclusive governmental recognition may voluntarily elect to have union dues deducted from their pay checks. The deductions may begin as soon after Jan. 1, 1964 as payroll processes permit.

WINNER — Outstanding T-38 Organizational Maintenance Man of the Month, A2C Jesse Stanford, left, looks over the hydraulic system of a Talon trainer with his supervisor, TSgt. Clarke Wesson. Col. Joseph E. Payne, Deputy Commander for Materiel, presented Stanford a plaque and a model T-38 during a short ceremony in P-82 Monday. Stanford is from Earlville, Ill., and joined the Air Force in February, 1962. (Photo by A1C Robert F. Langley)

OUTSTANDING — Presenting the Organizational Maintenance Dock of the Month Award for December to Dock Chief MSgt. J. R. Wadkins of Dock 7 in P-82 is Col. Joseph E. Payne, Deputy Commander for Materiel. Members of the crew are, left to right, A1C Mike Batchik, A2C Edward Spade, A3C Roel Garza, and A1C Adrian Haire. The presentation was made Monday with Maj. E. G. Kirby, Organizational Maintenance Squadron commander, and other maintenance officials present.

# Commander's Comments . . .

By COL. JAMES A. GUNN III  
Wing Commander

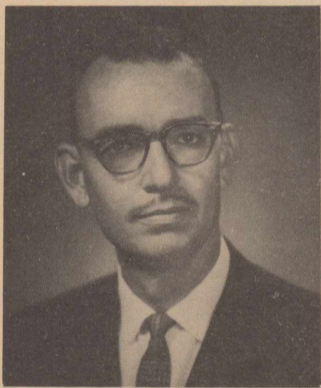

In this final message I would like to express both my appreciation and the appreciation of my family for making our tour of duty at Reese the most pleasant and rewarding we have ever experienced. Goodbyes are never easy, but when I view our accomplishments during the past 18 months my sadness is lessened by the pride I feel at having been part of the 3500th Pilot Training Wing.

In addition to the many friends we have met here, I think my most striking remembrance will be the tremendous amount of teamwork and cooperation put forth toward the successful accomplishment of the mission. Everyone has contributed immensely in making this wing one of the finest organizations in the Air Force.

A tremendous job remains to be done here and I know that you will extend to your new commander the same loyalties and sincere efforts which you have exhibited in the past. Because the Air Force is a dynamic, changing organization, we cannot afford to reminisce upon past accomplishments. I know that you, too, look to the future and its challenges at Reese in a most professional manner. My compliments and best wishes to each of you.

"We are targeting our bombers and missiles mainly against the Soviet's offensive aerospace weapons that could injure us right now, rather than his population center that could not influence the decisive phase of a nuclear conflict."—Gen. Curtis E. LeMay, Air Force chief of staff.

OUR NEW MILITARY REPRESENTATIVE WANTS TO PUT YOU IN THE RIGHT FORD

## SPEAKING OF WISDOM . . .

"KNOWLEDGE CAN GIVE US NUCLEAR FISSION; ONLY WISDOM AND UNDERSTANDING CAN ASSURE ITS APPLICATION TO HUMAN BETTERMENT RATHER THAN HUMAN DESTRUCTION."  
FORMER PRES. EISENHOWER

## Parson-to-Person Anxious Moments Fill Life; Faith In God Assuring

By Chaplain Wayne L. Stork

An old man, seasoned by the number of his years, told this experience of his life. "When I was a boy I went out in a boat on a river with my brother and decided to swim back to shore. But before I covered the full distance, it was evident that I had either underestimated that distance or over-estimated my strength."

He said, "still vivid is the memory of those threatening moments when I would stop swimming and try to rest my foot on the bottom of the river. I was hoping to find a place to stand. But finding no place to stand, I had no choice but to swim farther, then try again to find bottom."

Our modern lives are made up with moments of anxiety. It's this seeking for a foothold and finding none that best describes our feelings in those desperate moments of need. In each of our lives, there will always be the "eleventh hours."

In these moments of distress, may we pray with the Psalmist — "Save me, O God! for the waters have come up to my neck . . . There is no foothold!" Then may we place our faith and trust in Him.

## Chapel Schedule

Your are invited to participate in the following services of worship for the coming week. Free nursery service is available during all scheduled Chapel services.

CATHOLIC:  
Masses: 9 a.m. and 12:15 p.m. Sunday; 12 noon, Tuesday thru Friday; 9 a.m. Saturday.

Confessions: 7 p.m. and 8 p.m. Saturday; 30 minutes before each Mass.

PROTESTANT:  
Sunday School 9:45 a.m. for all ages.

Worship Service: 10 a.m. and 11:00 Sunday, Chaplain Wayne L. Stork in charge of first service, Chaplain Robert M. White of second.

Protestant Youth of the Chapel meet at 4:30 p.m. in the Chapel Annex.

JEWISH:  
All Jewish personnel are invited to attend services at Congregation Shaareth Israel, 1703 23rd Street, Lubbock. Services begin at 8 p.m. each Friday.

## Air Force Highlights

Two boards are scheduled to meet in USAF headquarters April 6 to select and recommend Reserve of the Air Force officers for permanent promotion to lieutenant colonel.

A TAC squadron of F-104 Starfighters claimed a new record in flying non-stop January 6 from George AFB, Calif., to Moron AB, Spain, the first non-stop deployment of tactical fighters from the west coast to Spain.

Administration of overseas dependent schools will be placed under the central of the Department of Defense, beginning July 1.

Lubbock, called the "City of Churches," has 194 churches representing virtually every denomination.

## Community Sense Needed

(Prepared by the USAF Chaplain Board)

Jet travel has made the world a neighborhood. It's still a long way from being a brotherhood — but it's not because interested people are not trying to develop the sense of unity. Not the least among those involved in developing a community sense is the Air Force.

Most of us are sensitive to the needs, aspirations and potentials of our fellowmen. This is true both in our assignment in the United States and overseas.

Stationed within the continental limits of the United States, the average Air Force family finds itself settling in a community where customs, attitudes, and even speech patterns may be different from those "back home." A few react to these conditions by walling themselves away from the new community. Most of us, however, find it vastly more rewarding to enter into the life of the new community. We gain friends by lending our talents in volunteer work involving schools, churches, recreational activities, and in health and welfare projects.

Overseas, our families find themselves literally in "foreign" conditions. The language, customs, clothing, climate and forms of government of the people among whom we reside may be completely strange to us. We can run away from the reality of our new environment and confine ourselves to the base — or we can gain a world of knowledge and win friends in abundance during our overseas assignments. It will depend upon whether we have developed our "sense of community" strongly enough to include our world neighbors wherever we may find them.

In a world torn in places by conflict, and struggling in others to escape starvation and disease, we cannot hold ourselves aloof from the needs of our neighbors. We speak of all peoples as our neighbors: our efforts can help consolidate us as a brotherhood.

"The net of the relevant factors is that the U. S. nuclear force is manifestly superior to the Soviet Union's."—Robert S. McNamara, secretary of defense.

Bordelon received \$140 for his suggestion dealing with attaching brackets for the anti-icing valve on J-85 engines. Stubbs received \$20 for his suggestion concerning an anti-ice valve butterfly.

### Suggestion Program Here Receives USAF Honor; Supervisors Recognized

Sixteen supervisors who assisted in securing renewed recognition for Reese in the Civilian Suggestion Program have been honored. Each had 50 per cent participation or better in their units. Citing assistance of the supervisors in the Air Force Coat Reduction Program, Col. Richard A. Steele, base commander, told the supervisors individually in letters of appreciation:

"I wish to express my appreciation to you for your efforts in promotion the Suggestion Program among your subordinates and throughout your working area.

"Your efforts materially assisted Reese Air Force Base in achieving a better than 25 per cent participation rate in the Civilian Suggestion Program during Fiscal Year 1963. This was the eighth straight fiscal year Reese earned the Chief of Staff's Certificate of Achievement.

"I trust you will continue encouraging all of your subordinates and co-workers to actively participate in the Suggestion Program."

Mary H. Lundy of civilian personnel was honored for 250 per cent participation in the Suggestion Program. Seven other supervisors were recognized for 100

per cent participation. They were TSgt. Robert C. Snyder, publications; SSgt. Wayland Sanders, personnel; Annie L. Sasser, transportation; Billy W. Muncy, clothing sales; Leslie J. Roper, civilian personnel; Jack M. House, field maintenance; and Robert H. Curry, base supply.

Other supervisors recognized, with percentage of participation, are: SMSgt. William V. Hill, civil engineers, 60; Robly F. Evans, civil engineers, 67; Sinia R. Harris, civilian personnel, 75; Carl Sanders, field maintenance, 70; Clarence L. Read, field maintenance, 84; Loy A. Mouser, field maintenance, 60; Foy A. Naler, field maintenance, 75; and Malco H. Nickell, base supply, 75.

#### EXPERIENCED?

CASTLE AFB, Calif. (AFNS) — Officials of the 924th Air Refueling Squadron here believe that Tsgt. Joe D. Hays is the first boom operator to accumulate 3,000 flying hours in the KC-135 Stratotanker. He became a "boomer" on the jet tankers in October 1958 after flying 2,000 hours in KC-97 tankers. In more than 4,000 hookups, Hays has transferred about 14 million pounds of fuel.

**REESE YOUTH** — Dianna Prindle, daughter of MSgt. and Mrs. William F. Prindle, is in the 10th grade of Frenship High School, where mathematics and Spanish are favorite subjects. She enjoys tennis, softball, horseback riding and swimming. Dianna is an officer in the Frenship Spanish Club.

Air Force Good Conduct Medals have been awarded MSgt. Ebbie N. Grant and TSgt. Russell L. Johnson for three years of exemplary behavior, efficiency and fidelity.

### Teams To Offer Personnel Help

Randolph AFB, Tex. (AFNS) — Personnel officers throughout the Air Force can now look to the USAF Military Personnel Center here for direct, personalized aid in solving some of their knottier problems.

Six Personnel Assistance Teams, each consisting of five personnel specialists, have been formed to make regularly scheduled visits and to respond to special assistance requests from field commanders.

In making a visit, the team reports first to the major air command before visiting subordinate consolidated base personnel offices. Commanders and personnel officials are briefed at each headquarters level.

Problems and questions are solicited. The team make on-the-spot suggestions and attempts to identify and correct weak areas, faulty procedures and undesirable trends.

After completing the visit, which usually takes a week, the team again briefs the commander

and personnel officials on its observations, findings and recommendations. A written report is given to the personnel officer for reference.

IN APPRECIATION — Mrs. Lois Halpern, right, chairman of the Reese Family Services office committee the past six months, is congratulated by Col. Richard A. Steele, Air Base Group commander, on being awarded service pins and a Family Services uniform in appreciation of services. Mrs. Judy Hilt, center, program chairman at the awards function, looks on.

### New Officers For Family Services Installed; Awards Made Volunteers

Service pins were presented and new officers were installed at a semi-annual gathering and coffee of the Reese Family Services unit last week.

Mrs. Ann Kight became coordinator for the first six months of 1964, with Mrs. Millie Cowart as assistant. Mrs. Freda Prindle became personal services committee chairman with Mrs. Louise Lucas as assistant. New publicity chairman is Mrs. Dottie Watson, with Mrs. Janice Miller as assistant. Mrs. Marilyn Neal is welcoming committee chairman and Mrs. Sherri Zimmer assistant. The casualty-emergency committee is headed by Mrs. Edna Leong, assisted by Mrs. Faye Childs.

Pins denoting 100 hours of volunteer work to the Family Service Center were awarded Joy Austin, Yvonne Hritz, Lois Halpern, Kathy Hardenbrook, Ann Kight, Edna Leong, Jan Schneider, Mollie Callahan, Pat Hall and Judy Hilt. Two hundred fifty hour pins went to Karen Belvin and Pat Hall.

Year service pins were awarded Karen Belvin, Pat Hall, Betty Woodruff, Ellen Longwell, Mollie Callahan, Pat DeShaies, Yvonne Hritz and Barbara Wolfe.

Family Services uniforms were presented Jan Schneider, Lois Halpern, Mollie Callahan, Joy Austin, Judy Hilt, Kathy Hardenbrook, Judy McDonald and Millie Cowart. Each served 25 hours during the past six months and attended the Dependents Orientation Course.

Mrs. Hilt moderated the pro-

## Club Activities

### Youth Club

A "bake your own" pizza party will be held by pre-teens and junior and senior teen Youth Club members from 7 to 10 p.m. Friday. Casual clothes will be worn. Junior and Senior Teens will have a disc jockey dance Saturday night at the Youth Center. Teenagers of Lubbock and surrounding communities will attend. A small charge will be made. Clothes are to be sport shirt and coats for boys, party dresses for girls.

Bowlers are asked to prepare for prize competition in the bantam, junior and senior divisions. Play starts after 21 practice games, starting at 9:15 a.m. Saturday at the Reese alleys. Prizes will go to the most improved bowlers.

A pancake breakfast from 10 a.m. to 2 p.m. Sunday is planned at the Youth Center. All persons are invited. A floor show is scheduled about noon. Proceeds will go to help Youth Club activities. The base nursery will be open to accommodate small children.

Indoor track practice will be from 2 to 4 p.m. Saturday in the base gymnasium. Basketball practice is 4 to 6 p.m. Saturday and 3 to 6 p.m. Sunday.

Basketball awards will be made at a banquet the night of Feb. 24 at the Youth Center. Players, coaches and managers will be free, with parents paying \$1.

Track and field practice for boys and girls is set for Tuesday and Thursday on the field across from the Youth Center. Other sessions are from 4 to 6 p.m. Jan. 28 and 30.

A golf tournament for boys and girls is scheduled for Saturday, Jan. 25 on the Reese course.

Free classes in photography, leathercraft, show routines, sewing, etiquette cooking, art, bridge, chess, flower arrangement, bowling and other fields is available at the Youth Center.

Physical fitness classes to prepare boys and girls for Junior Olympic competition have started.

### NCO WIVES CLUB

By Diane Carlson

A surprise shower was given last Friday for Norma Schmitt in the NCO Open Mess, with many members of the NCO Wives Club attending. Hostesses were Janie Harmon, Adeline Miller, Alice Senne and Dee Wilson. Numerous lovely gifts were given the honoree.

All NCO Wives and airman wives are invited to the farewell coffee for Mrs. James A. Gunn III at 7:30 p.m., Jan. 23, in the Couple Room of the NCO Open Mess.

Reservations should be made by noon of Jan. 21 by calling Adeline Miller at Extension 208 or 622. Games and refreshments will be included at the coffee.

### OSI Seeks Qualified Officers and Airmen

The Office of Special Investigations (OSI) has requirements for experienced, highly-qualified officers and airmen for duty in the OSI technical security program. Officers with AFSC's 3034/8834 and airmen with AFSC's 30454/82130 perform highly technical duties, airmen draw proficiency pay and all possess OSI special agent status.

Interested personnel are being urged to confer with the wing personnel division to determine qualifications and interviews will be arranged for qualified personnel with the OSI agents here.

Officer AFSC's required are 3034 and 3044, with airmen 30150, 30151, 30152, 30153, 30454, 30455, 30530, 30650, 30750, 36350, 31552 and 31553.

All Reese pets must be registered with the base Veterinarian.

gram, which included talks by Col. Richard A. Steele, Air Base Group commander, and Lt. Col. David T. Mold, director, wing personnel division.

Colonel Steele cited that the Air Training Command inspector general was favorably impressed with Reese Family Service, adding that the work here was recognized throughout the command.

Colonel Mold, pointed out in his words of appreciation to workers, that volunteers were the backbone of Family Services.

### Secretary Gives 10-Point Check For Appraisal

WASHINGTON (AFNS)—Secretary of the Air Force Eugene M. Zuckert has outlined 10 points which he said must be used in measuring United States military power against the job it might be called upon to do.

The points are arms control, crisis management, deterrence, flexibility, controlled response, multiple option, survivability, damage limitation, threshold of negotiation, and termination capability.

Speaking before members of the Harvard Business School of Washington here, Secretary Zuckert said his remarks related specifically to the U.S. Air Force but applies across the board to all of the nation's military force requirements.

Arms control, he said, is now a military requirement in itself and a necessary part of the defense package. It is both an end—in terms of possible relief from the burden of arms investment—and a means — in terms of the job the military has to perform.

Reese has about 75 T-37 and 80 T-38 aircraft assigned for pilot training.

### New Airman Offers Variety Fare

WASHINGTON (AFNS) — The February issue of The Airman magazine offers a dozen important articles, interesting features and departments including "Pentagon Personal" and other recent editorial innovations.

First is "Triple Play in Air Defense," which describes international teamwork in an electronic ballgame. A second major feature brings readers up to date on the rapid progress in aerospace research and takes a look into what the future holds. "First Step to the Stars" tells just how far man has progressed toward genuine space travel.

Next in the February issue is a picture story on realistic desert survival training conducted at Stead AFB, Nev., for the astronauts.

"Bush Pilots in the Heartland," an account of unusual human endeavors in conducting airlift support for the nation's air defense forces, and "The Voice Heard 'Round the World," depicting the role of MARS in Air Force communications, are two more arti-

cles that promise interesting reading in The Airman.

Three heavyweights hold the end of the reading line and include "Airpower's Magic Carpet," the story of an invention that helped win the war; "They Protect Our Reins of Command," revealing the role of the Air Force Security Service, and "Halo in the Heavens," a description of a little known and unusual Air Force communications experiment.

Also in the second issue of The Airman for 1964 are the usual departments, popular short subjects, and more light and humorous items including cartoons by Schuffert and Tippit.

### Twin Problems? Solutions Ready

WASHINGTON (AFNS) — If you have the problem of a cube with too much weight, and it's costing you money, don't sit around and worry about it. Take your cue from civilian employees at Kelly AFB, Tex. who had a twin problem and solved it.

A redesigned shipping crate for J-75 afterburners by packaging specialists at Kelly substantially solved their twin problems of weight and cube that accompany movement of material in the Air Force logistic system.

N.C. Taylor, A.H. Valdez and W. W. Rosenbusch undertook the redesign problem after aerial ports asked for a lightweight crate to replace the heavy cylindrical metal cans being used to package the 800-pound afterburner assembly.

They chose slotted-angle steel for its light weight, structural strength, rigidity and ease of assembly. Nineteen days later, the new package design was completed.

The new package reduced gross weight by 2,455 pounds and occupied 224 less gross cubic feet than the old package. Labor and materials savings amounted to \$2,364.62 per afterburner. Cost of the old container \$2,500; cost of the new \$135.38.

In approving the design, cost reduction officials pointed out that not only does it help solve the dead-weight problem in shipping by either air or surface transportation, but it also points the way toward other similar redesign efforts.

### Wives Of Reese Students Appear In Lubbock Play

Dramatics may take precedence over flying in the minds of Class 65-C members the weekends of Jan. 23-25 and Jan. 31-Feb. 1. Four wives of students in the class are appearing in the Lubbock Theater Center production of "The Women."

Taking leading parts are Jo Beth Harris, wife of 2nd Lt. William L. Harris; Patricia Schutz, wife of 2nd Lt. Van Wyck Schutz; and Charlotte Murphy, wife of 2nd Lt. James L. Murphy. Cast in three different roles is Mrs. Betty Jean Wickman, wife of 2nd Lt. Robert Wickman.

The play is scheduled for 8:15 p.m. in the Theater Center the nights of Jan. 23, 24 and 25 and Jan. 31 and Feb. 1.

Mrs. Harris spent five years in public relations after graduation from college. She participated in the Tulsa Little Theater activities and appeared in "The Women" there.

Mrs. Murphy was in plays four years in high school and later at Monticello Junior College.

Mrs. Schutz, graduate of the University of Wisconsin, played in summer theater in such productions as "Kiss Me Kate", "Allegro" and "Brigadoon." She began summer theater in 1953.

Mrs. Wickman plays a nurse, fitter and Helene in the Lubbock play. She and her husband were interested in drama at the University of Washington and she appeared in numerous plays.

### Kimball Takes Handball Crown

Captain Richard Kimball of Air Base Group emerged from the recently completed Reese handball tournament as base champion, defeating every opponent facing him. Earlier, he and Maj. Ernest Wilkerson had copped the base doubles title.

Kimball defeated Capt. Edward Mentzer, 3500th PTS; SSgt. Glenn Whitsett, Student Squadron; and AIC Dale Dixon, Hospital, to reach the finals. Dixon downed Captain Mentzer in a three-game squeaker to gain the finals berth against Captain Kimball. In the double elimination affair, Kimball took the match, 21-19, 10-21, 21-6.

In first-round matches, A2C Greg Cantu, ABG, defeated 1st Lt. Richard D. Norton, 3500th PTS; Dixon dropped 1st Lt. Clyde B. Finley, 3500th PTS, and Whitsett beat Capt. George Manspeaker, 3500th PTS. In the second round of the winners' bracket, Dixon dumped Cantu.

In the losers' bracket, Mentzer eliminated Manspeaker and Finley chased Norton from the tourney. Cantu then bowed to Mentzer, Finley lost to Whitsett and Mentzer continued his winning ways by defeating Whitsett. Then came Mentzer's downfall to Dixon.

Lubbock has a mayor-council-manager municipal government with a mayor, four city commissioners and a city manager.

### Increase In Military Pay Included In DOD Budget

The Armed Forces Press Service reports that a military pay increase of about two and a half per cent is included in the Department of Defense Fiscal Year 1965 budget.

The proposed increase has been recommended by Secretary of Defense Robert S. McNamara, "to balance the military pay with the pay of other personnel in our society."

The secretary also said that the expenditures for the Defense Department in FY 65 will be \$1

billion less than the expenditures in 1964.

"This \$1 billion savings can be made without in any way reducing the defense of this nation," McNamara said. "As a matter of fact, I believe the budget that will be submitted to the Congress will yield defenses superior to those at any other time in our history in peacetime."

The secretary added that the savings will be "the result of following the instructions of The President to economize in every way possible to increase our efficiency and our productivity in every way possible."

### Awards Program Gets Recognition

WASHINGTON (AFNS) — The 10th anniversary of the Civil Service Incentive Awards Program will be marked this year by presentation of national awards to some employees and their supervisors.

The awards will be presented in the nation's capitol on Nov. 30, 1964, to personnel making the most notable improvements in federal operations through suggestions or special achievements during the year.

Award winners will be selected from employees nominated by their agencies for achievements in such areas as cost reduction, increased productivity, methods improvement, manhour savings and advancement of their agency mission.

Supervisors will be recognized who have done a particularly effective job in encouraging or helping their employees make contributions. Managers or program officials at the operating level who have made the most significant contributions of the year to cost reduction or productivity will be selected for honorary distinction.

### SCIENTISTS HONORED

Three Lockheed scientists have been awarded the Air Force Systems Command Outstanding Achievement Award for contributions to the development and operation of the Air Force Satellite Control facility at Sunnyvale, Calif.

### MEDALS GIVEN

Awarded Air Force Good Conduct Medals for behavior and performance during three year periods are SSgt. Sterling C. Burris, SSgt. Marshall L. McGill, SSgt. Billy J. Sadler and AIC John A. Charlton.

WASHINGTON (AFNS) — The George AFB, Calif., Protestant Choir won the recently held eighth annual Air Force Chapel Choir Contest. Thirty-three choirs competed.

### System Detects, Reports Distant

ANDREWS AFB, Md. (AFNS) — The Air Force Systems Command has announced it has under development an electronic system which can automatically and rapidly detect and report nuclear bursts occurring miles away from a sensor.

The system, called a Nuclear Detonation Detection and Reporting System (NUDETS), is designed to provide data which will assist the nation's leaders in analyzing a nuclear attack and making evaluations for fallout warning, prediction and damage assessment.

A prototype four-sensor single computer system is already in place surrounding the Washington, D.C. area. The sensor sites are located in West Virginia, Pennsylvania, Virginia, and Maryland. The Pennsylvania site also houses the "brains" of the system, a standard computer which digests the coded information relayed from the sensors.

### Overseas Selection Rules Get Changes

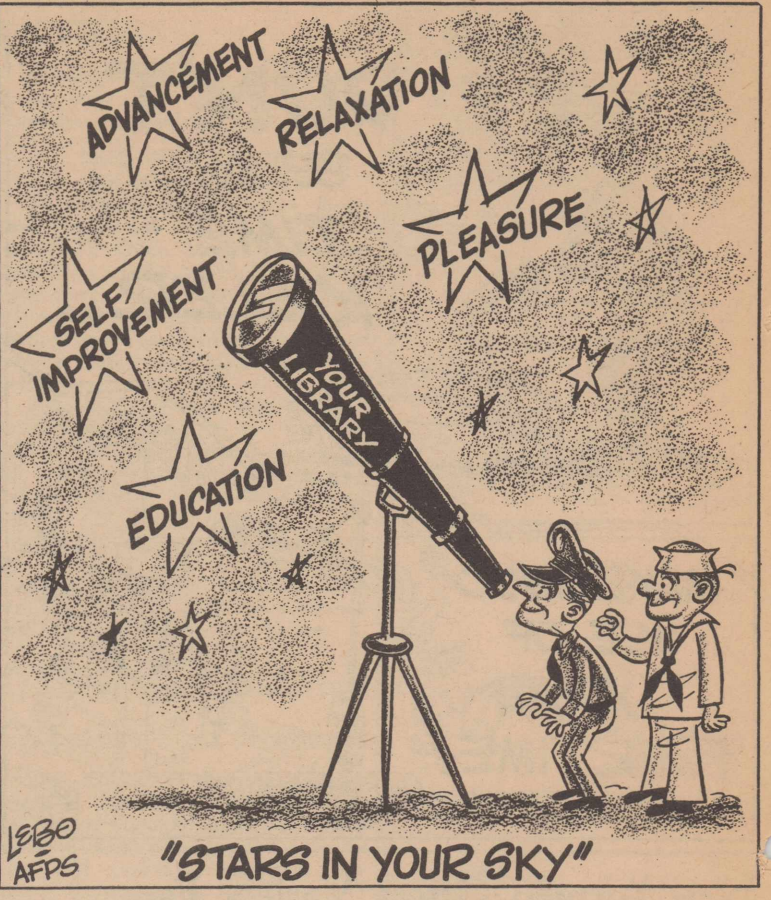

WASHINGTON (AFNS) — The Air Force has acted to make more first term airmen eligible for overseas shipment.

In an interim change to AFM 35-11, the Air Force announced that first termers will be selected for overseas assignment without regard to base residency requirements. The change also shows that first term airmen having at least 24 months retainability upon arrival at the port of embarkation may be assigned to 36-month overseas tour areas on an equal basis with career airmen.

Commands were told to put the change into effect not later than the January, 1964, overseas selection cycle. This means that first airmen affected by the new policy will be going overseas in June.

### MANUAL REVISED

WASHINGTON (AFNS) — Judge Advocates of three services are revising the 1951 edition of the Manual for Courts-Martial to bring it into accord with considerable law cases, statutes and executive orders which have arisen since that time.

### 'We Are Very Fine Thanks To You' Says Korean Lad For Reese Gifts

Deep appreciation for Christmas boxes sent from Reese to an orphanage on Paengnyong-Do island, off the North Korean coast, is expressed in a letter from a youngster in the orphanage to MSgt. Albert Battistoli. The sergeant, while on the island prior to coming to Reese, worked with the orphanage during off-duty hours. He collected several boxes of clothing for Christmas on the island.

"My Dear Mr. Batt:" wrote Oh Jin Gun.

"We are very fine thanks to you. We had a Merry Christmas by your many clothings present.

"We received so many clothing you sent us from Captain Jeffers on just Christmas Eve. (Captain Jeffers is present to help the orphanage.

"We never forget your kindness and all love to us.

"When you stay here, we were very happy and have good times. After we shall grow up, we can't forget your kindness.

"We will be eternally keep for you in each mind.

"We know that you always

care to us. I sent a letter to you. Did you saw my ugly letter?

"I want your answer. Would you please help my English study. If you want Korean new stamps, I will send to you some.

"I best wishes your health and happy New Year.

"I am close here. I hope to hear from you soon.

"Good-Bye."

"Sincerely your,

"Oh Jin Gun."

### Doctor's Notebook

(AFNS) — A wart is usually a small, brown, rough lump or thickening of the skin. They are superficial and never cause or turn into cancer. Warts are common at all ages, but in children, six times more common in girls than in boys. In adults the distribution is 50-50.

Warts are caused by a virus which infects the skin. You can "catch" warts, but not very easily, so there are no epidemics. Probably some people are more susceptible than others. Even though this is an infection, there are no antibiotics which cure. When warts are bothersome, such as those on the hands, feet, belt line, scalp, or face, they should be removed by a doctor. Most drugstore "wart cures" contain acids which burn and are likely to cause more harm than the wart. Different types of warts in different places require different kinds of treatment, and this can only be decided by a doctor.

The space age has given us a new treatment for warts, liquid nitrogen, a by-product of rocket operations. The temperature of liquid nitrogen is about 410° below zero and it freezes warts to death better than anything else we can easily get. It must be used by a doctor — this is a form of surgery, requiring a delicate touch so that no scar will be left. Not every clinic can get liquid nitrogen; but most skin specialists can.

Warts which are no bother should be left alone; they probably will go away by themselves. Some people think they can "wish away" warts. Others treat with hypnosis. If we could make warts appear, as well as disappear, by hypnosis, we would have more confidence in this method.

### Army Secretary Wins Promotion

WASHINGTON (AFNS)—President Johnson announced that Roswell L. Gilpatric has resigned as Deputy Secretary of Defense, effective Jan. 20, and that the present Secretary of the Army Cyrus R. Vance has been named to succeed him.

The new secretary of the army was announced as Stephen Ailes who had been under secretary of the army since 1961.

The new changes make Vance the second-ranking official in the Pentagon, under Secretary of Defense Robert S. McNamara.

### Electronic Computers Taking Over Reese Military Pay Records May 1

The manual maintenance of Air Force military pay records will be discarded during 1964 as "Project AMPS" (Accrued Military Pay System), using modernized electronic computers, goes into operation at all Air Training Command bases.

In the program several bases will be responsible for computer operations, handling pay records of other bases as "satellites." Tentatively on May 1, Amarillo AFB will begin computer operation on pay records, with Webb and Reese as "satellites." Other main computer bases will be Randolph, Stead, Laughlin, Lackland, Chanute, Mather and Williams AFB's.

The world-wide AMPS program, designed as an improved co-ordinated system of writing and reporting military pay throughout the 13 Air Force commands, is planned for full op-

eration by July 1.

In ATC during the conversion to the computer system at each base, changes to individual pay accounts will be accepted only in cases involving members to be separated or transferred and when severe financial hardship would result if the posting were delayed.
