REPUBLICAN PROSPERITY

A sharp upturn in prices of stock and bonds accompanied by strengthened prices in commodities with wheat selling on an export basis...

Whatever the label, people are glad to have the better outlook, and the better prices, if only just some better.

BLOW FOR BLOW

Grain dealers, particularly the dealers' associations have been in for a lot of criticism during the past few years especially the Farm Bureau people.

WHEAT EXPORT MARKET

Dealers have been too moderate in their claims as to their own merits in their respective communities.

Ways in which grain men have tried to get out of their own ways in which grain men have tried to get out of their own ways...

Washington Front: in Washington where the army is resisting efforts to disburse money from the Bonus bill...

Prof. F. E. Savage, who is teaching in the West Texas State Normal, was here Saturday to cast his vote in the primary.

When people are on the outs, it is generally because of their fondness for rubbing it in.

The desire for wealth increases with wealth.

"Two is company," but three is a bloc that will try to get a law passed.

Whatever Al Smith's failings may be, inconsistency isn't one of them. He still pronounces it "raddio."

Anyway, dull business allows us more time to answer the questionnaires.

Right when he has a year for the outs to be set primary as to unusual enough.

Probably almost forcibly, and Ferguson led off the main surprise of Hunter, an ungodly third. He is very vulnerable.

Ferguson and

Sterling. Wherever he had a chance to campaign he carried county after county. Had Texas not been so big so that he could have gotten over the state more completely he would have been in the run-off and the next governor of Texas.

THE STORY NOT COMPLETE

Although Texas cast the biggest party vote in its history in the July primary, thinking people should bear in mind that the bottom-most note of the current discontent was not sounded.

SOME WHEAT LEFT

Many farmers over Floyd County, working along with their creditors, have not sold their wheat but have held it against the rise in price which seemed inevitable.

Wheat at the levels which prevailed during harvest was much below its intrinsic value. Its production at those figures was ruinous.

HOW TO SAVE WATER

Little things grow into big ones. People who live within the city limits and have been watching their water bills closely, some of them to the damage of their lawns, shrubs and trees, should bear in mind that a few cents spent in keeping plumbing and water appliances in good condition will pay big dividends.

It is not economy to allow things about the place to run down. If you have leaky water boxes, lavatories or bath fixtures give the plumber a job and save yourself some money.

Our Uncle Samuel is gonner issue a lotta new money. Me and Oran Cantwell want ter git ther job o' turning ther crank on this money making machine.

A "little man" is one who whoops for a reform or something without thinking of the profit he'll get.

When people are on the outs, it is generally because of their fondness for rubbing it in.

My campaign is going over big fer cowketcher. Owing to my many duties here in ther office as bull thrower I will not be able to get out and kiss all the babies owing to the limited time, thank goodness, but you go ahead and vote fer me anyhow.

These hot days haz got me in quite a stew and I'd shore like to rush off to ther mountains and cool off but duty and my creditors keep me right here heat or no heat.

You notice ther reports indicate ther business is getting better everywhere. No doubt ther worst is over. If I kin git elected, I promise to keep things on the upgrade and my word is as good as my check.

Our Uncle Samuel is gonner issue a lotta new money. Me and Oran Cantwell want ter git ther job o' turning ther crank on this money making machine.

Believe us, we'll see to it ther there ain't no pore folks left if ther'll jist let us do ther turning act fer a spell.

Wish I wuz a drummer. I know somethin' I'd set my "traps" fer.

They been having quite a time up in Washington trying ter make ther World War veterans go home when lots o' them boys ain't got no home ter go to. It all seems kinder tuff any way yer look at it. Mob rule is wrong but it takes mob rule sometimes ter bring an isolated few face to face with facts.

Their principles may be wrong at times, but at heart I'm fer ther war vets.

Rhe Cloud likes animal crackers. Some things a feller ain't supposed ter mention but ther's a purty cute little fondness she's got so I reckon I'll be justified.

My weakness is Cracker Jack pop corn. Don't reckon I'll ever get over ther little tid bit of kid days. Remember how we uster meet ther folks coming from town. We would hear ther wheels on ther buggy crunching ther rocks about a mile away and we'd tear out ter meet them before they got half-way to ther house.

And I still like my pop corn.

Then there was the little bedbug that wanted inside the watch so it could get between the "ticks."

Reckon I'm too dumb to be a weather profit but I'm hoping that these lakes ain't gonna fool us this year. Always in the past when the

lakes have been full of water we have make good row crops. I got enough faith in history to believe that we will get some rain in a very short time now and make some cotton and raise some feed.

It shore strikes me funny to hear a woman address another as, "Yes, dear." "Hello, hon." "Thank you, darling."

Contemporary Thought

POLITICAL TRENDS

The Canyon News: The usual Ferguson lead was piled up Saturday. It was surprising to see the vote received by Tom Hunter, an unknown political character of little ability.

There were about 1,300 poll taxes in Bailey county this year—all of these were not used at the primary last week.

Chillicothe Valley News: Candidates have won, and candidates have lost. The first primary balloting was held last Saturday.

Those who were defeated for office should make the best of it, and of course will hold no grievance against the electors.

In the governor's race if your particular choice did not win, then don't hold it against the run-off candidates.

Stillwater, Minn., Gazette: The following was taken from a circular sent to retail merchants by a large wholesale house.

Physical exercise and ample sleep are recommended as aids to long life. We are willing to try lots of sleep.

A legislator proposes designating our language as "American." We agree that a lot of the lingo we hear isn't English.

The advantage in being obscure is that one isn't so likely to be investigated.

Flowers and gardens make a city more beautiful and people happier.

It won't be long now before everybody is working for the government.

That economy bill over which Congress labored so long, is going to be expensive.

TO THE VOTERS OF FLOYD COUNTY

I take this method of thanking each and everyone who so liberally supported me in the recent primary, and I am in the runoff August 27th, it being almost impossible for me to make a close canvas of the county in so short a time.

Wellington Leader: Recent hot spells in various sections of the country naturally have revived comparisons of heat with conditions of former years.

The record for cold in this country is held by Miles City, Mont., where the mercury sank to 65 below zero in 1888.

Higher and lower temperatures have been recorded in Africa, and Siberia, respectively, although Death Valley's high mark is within two degrees of the world's record, 136 degrees at Azizia, Tripoli, in 1924.

The most equable and pleasant climate in the United States, and perhaps in the world, is enjoyed by Key West, Fla., where the temperature has never gone above 100 nor below 41 above zero.

Muleshoe Journal: It's an old saying, "Every little bit added to what you already have makes a little bit more," and now while much urging is being made to public officials to reduce government expense, it would mean a considerable saving to Texas citizens if the poll tax would be eliminated entirely.

There may be some good reasons for this particular tax; we don't know them, but it doesn't seem right for an American citizen to have to pay for the right to express his opinions and convictions at the ballot box, or else withhold them.

A Farmer's Life "As He Lives It" BY ED HOLMES (Station C. E. H. Farm)

We had a dandy picnic but didn't get to rest much. Too many of the long bill insects trying to suck your blood and too much racket.

I think the boys ought to be warned about two of the girls that were on the picnic. If the way they washed dishes down on the canyon is a fair sample of how they wash them at home, well it would just be too bad! They got into the dishpan with their feet and during the washing, they got so wet that they put their bathing suits on before finishing.

I rather enjoy picnics. In fact we are ready to go again. I gained 6 lbs. on the last one. I am about the best feeding type of hog that I know anything about.

Aunt Lizzie Schmitt who is now 81 years old has a fine lesson for us and I am going to try to take it. She told me that she had only one regret to make in the life she had lived.

She said, "I wish I had laughed at everything that happened!" She is now just as jolly as any person you ever saw, and now laughs at everything.

She has a stroke of paralysis about one month ago and is just now getting to where she can move her right arm and right leg. She says she has been paddling her own canoe for over 25 years.

She has certainly done a fair job and will make you wonder why you are worrying over your small troubles. If you can't laugh, you can't stay like she has.

We pass over some of the greatest wonders and they hardly make an impression on us because they are so common. Boys and girls grow up and take charge of things, become masters of institutions, you might say just overnight.

In the last two weeks my pigs gained from 125 lbs. to 148. I soaked barley in warm separated milk and feed it after 24 hrs. I mix ground oats and feed it sweet to them as their first course, in order to slow up their ravenous appetites then a little later give them the soaked barley and they will take time to chew it.

They get clear, cold water and a good sudan pasture any time they wish. I feed 18 pigs, 18 gallons of separated milk, 32 lbs. of barley and 12 lbs. of ground oats each day. They don't have a mud hole but do have a shade and clean damp ground to root in every day.

Can I make money out of them? Ask Hoover. He is a Republican and should know something about hogs.

My planter is 8 years old and never been to school. Has a plate that I have piled several buckets of feed on but it isn't built right to digest it for it just has one straight tin pipe, so it roots in the ground and if you are in a hurry it just runs it through and buries it whole.

The Kaiser and his sons are said to be behind that revolution in Germany. They must be hogs for trouble.

Al Capone wants to be a cowman. Al should know that a respectable cowman does not do any mavericking.

The Russian Soviet don't believe in officials learning by making mistakes. They shoot them when mistakes bob up.

AUGUST 1 IS SECOND HOTTEST SUMMER DAY; TEMPERATURE READS 102

August 1 brought a temperature reading that fell only one degree short of the record of 103 degrees for the summer set June 17, according to the official thermometer at the West Texas Gas office.

Monday the mercury rose to 102 twice during the afternoon, first between 2 and 3 o'clock and again about 4:30 o'clock. A slight sprinkle of rain fell in Floydada at mid-afternoon Monday but the moisture only added to the humidity. Monday night was unusually sultry.

Tuesday the heat wave loosed its grip slightly the wind from the north cooling off the atmosphere somewhat in the morning.

Up to Wednesday of this week the thermometer had risen past the 100 mark six times this summer. June 16 the reading was 101, June 17 it was 103, June 18 it was 101, July 17 it showed 101, and August 1 it rose to 102 degrees and the same Tuesday.

R. G. LEWIS ATTENDS FUNERAL OF BROTHER NEAR NESHOBA, MISS.

Remains of J. A. Lewis, 66, of Neshoba, Mississippi, only surviving brother of R. G. Lewis, of Floydada, were interred July 12 near Neshoba.

Mr. Lewis returned home Friday noon of last week after attending the funeral of his brother. He was accompanied on the trip by Mrs. Lewis and his grandsons, Reed Lewis and Milburn Pigg, of Vernon. City Buys Warrants With Reserve Funds

Purchase of 1929 Funding Warrants Made by Council in Friday Night Meeting.

The City of Floydada has contracted for the purchase of \$10,000 of its own securities, and in so doing is saving \$1,500 of the principal debt now outstanding against the city. The purchase price is a little higher than the council expected to have to pay for the warrants. Three weeks ago the council voted to buy the warrants with reserve funds if they could be obtained at 80 cents on the dollar. The warrants are to cost 85 cents on the hundred dollars, as contracted Friday night.

Will Simpson of Geo. F. Simpson & Company, contracted to assemble the bonds. Reserve funds of the 1913 Water Works Construction issue, due in 1953, and \$500 of the City of Floydada Sewer Bond issue was used to make the purchase of the city's securities which fall due at a date prior to the due date of the water works and sewer bonds.

Total cost to the city will be \$8,675. Of this amount \$175 is for accrued interest. For this price the city is to receive ten of its \$1,000 series of 1929 Funding Warrants.

S. E. DUNCAN NOW GRANDFATHER

S. E. Duncan received an announcement of the birth of his first grandchild Monday morning. A little daughter was born to Mr. and Mrs. J. R. Duncan in San Antonio, July 28.

The young lady has been named Beverly Ann.

Mrs. Jesse Massie and baby, Arlen, left Sunday for points in western Oklahoma to visit relatives. She was accompanied as far as Tulsa by Ira and Everett Massie, who had been here for the past two weeks visiting their brother, Jesse. Mrs. Massie plans to be gone some two weeks.

Chas. Bedford left Sunday for Colorado City to spend a week on his vacation.

UNCLE OF DR. J. G. PRUITT IS BURIED IN OKLAHOMA

Dr. J. G. Pruitt and his brother, A. L. Pruitt, returned home Monday night from Waurika, Oklahoma, where they attended the funeral of their uncle, J. W. Carithers, 73, who died suddenly about 9 o'clock Tuesday night of last week.

Funeral services were held at 4 o'clock Thursday afternoon of last week at the Church of Christ and interment followed in the cemetery at Waurika.

Death was due to a heart attack, it was thought.

The deceased is survived by five children and one brother.

Messrs. Pruitt accompanied Gus deCordova to Waurika, Mr. deCordova going to Dallas for a visit with his son, Irving and returning via Waurika.

A CANDIDATE'S TRIALS

A candidate in a neighbor county, who made the race for commissioner in the recent primary says the lot of a campaigner is by no means the following inventory:

"Lost 4 months and 23 days canvassing.

"Lost 1439 hours of sleep thinking about the election.

"Lost 43 acres of corn and a whole sweet potato crop.

"Donated 1 beef, 4 shoats and 5 sheep to a county barbecue.

"Gave away 2 pairs of suspenders, 4 calico dresses, \$5 and 12 baby rattlers.

Poultry Hints

Feeding The Laying Flock for Egg Production by O. T. Williams.

Four Essentials in Flock Feeding. Keep the birds active, especially during the forenoon.

Be careful not to over feed. It is better to slightly under feed, although both should be avoided.

Send the birds to roost with full crops.

Make any change in feeding gradually, i. e. either in the ration or in the method of feeding.

Operations. Feeding the laying flock—at the first trip to the poultry house in the morning measure out a small amount of grain (1 qt. per 100 birds) and scatter it over the floor in a deep litter.

Then see that the grit, shell, and mash hoppers are full. The hoppers should be large enough to hold enough feed to last several days. But it is safe to look at them each day.

Empty, rinse and fill the water vessels each day.

On cold days when the birds are confined, at 10 a. m. scatter a small amount of grain over the litter again to stimulate exercise.

At noon give all of the green feed that the birds will eat. About 5 or 6 pounds per 100 hens.

At least one hour before sun down feed all the grain that the birds will eat. About 5 or 6 pounds.

Feeding the Grain. Grain should be considered as an exerciser. Too much before noon will result in the hens eating so much grain that they will not eat the mash. They will always eat the grain instead of the mash if they can get it. If fed scanty, in deep litter, they will have to exercise in order to get the grain, this will cause them to be hungry and they will eat the mash.

If the hens are light in weight due to heavy production more grain should be fed. If they are getting too fat, the feed should be cut down.

Feeding the Mash. The ration for most of our farm animals require a ration that has about 8 times of carbohydrates and fats as protein. It is not so with the hen. She requires a ration of about 5 times as much of carbohydrates and fats as protein. The reason for this is that eggs are high in protein. Eggs contain 14.8% protein while milk only contains 3.3%. Since most grain contains about 8 times as much carbohydrates and fats as protein, protein has to be added to the diet in some other form. It is done by feeding some form of animal protein. This can best be done by combining it with round grain feeds. There are several mash feeds on the market. They are all good although some higher than home mixed feed. In many cases it will pay to feed them instead of trying to mix your own feed. However good results may be had by mixing your own feed if you know how to balance the proper ration.

Better results will be had if the mash is fed dry in a dry mash hopper and kept before the birds at all times. The hen eats little and often, and there is no danger of her eating too much. Nothing can be gained in feeding the mash damp and there is danger if fed in a sloppy form. Sometimes a flock can be started to eating the mash by dampening it.

Feeding Green Feed. An abundance of green feed is necessary at all times of the year if a high egg production is expected. It acts as a tonic, stimulates the appetite, and also aids in digestion. The birds should be fed about noon. In real cold weather only the amount that the hens will eat before it freezes should be given, as frozen feed is not good for the hen. If cabbage, beets, or turnips are to be fed they can be fed best by sticking them on nails and let the hens peck them. Sprouted oats may be fed in

a trough. About 5 or 6 pounds per 100 birds will be enough. An oat pasture is good.

Feeding Grit, Shells, and Salt. Grit should be hard and sharp, and may be fed in a grit hopper or in a box. It is used in the gizzard to grind the feed, and not itself a feed.

Oyster shells are high in calcium which is used in building bones and egg shells. They can be fed in a hopper or put in the mash.

Supplying Water

Plenty of clean, fresh water should be kept before the hens at all times, as 55% of their body is water and 67% of the egg is water. The feed that is needed to form an egg may be present with the mineral to form the shell, but if the hen cannot get the water to form that needed 67% of the egg, she will not lay any eggs.

The water vessels should be washed every day and a supply of fresh water given. It is good practice to have the water pail upon a stand. In cold weather, better results will be had if the water is warmed, as they will not drink enough if the water is very cold. Keep the water clean. Do not put drugs in it. The chicken will be better off without them and you will save the money. A handful of salts in a gallon of water each month will be alright. Remember that most of the diseases are spread through the water fountain.

LABELS ON CANNED BERRIES ASSURE BUYER OF QUALITY

Pie, without berries, would be much weakened as an American institution. Blackberries, blueberries, huckleberries, and other bush fruits, compete strongly with apples, cherries, and mince meat for popularity in the making of this famous American dessert. And it is possible today for the housewife to buy from the corner grocery store almost any kind of canned berries she wants, according to V. B. Bonney of the Federal Food and Drug Administration.

"While most berries are canned in large No. 10 cans and in a limited number of smaller containers, the housewife usually is not familiar with just how much fruit these tins contain," says Bonney. "Her guide is the net-weight statement required by the pure food law to be printed upon the labels of all canned and packaged foods."

"Most canned berries are sold under grade specifications drawn up by the Northwest Canners Association, since the bulk of canned berries are packed in that region. These grade designations are usually printed on labels. Loganberries, for example, are graded as Fancy Choice, and Water or Pie. The grade designation depends on the size and fleshiness of the fruit and on the quantity of sugar added when the berries were packed. These grades apply, in general, for red raspberries which run from Fancy, Choice, Standards, and Seconds, to Water or Pie.

"The grades for strawberries are identical, as are those for raspberries, cranberries, blackberries, and black raspberries, although the concentration of sugar in the solution in the case of the latter two is lower than in the others mentioned. Understanding these grades, a purchaser, by reading the label, can get what she wants."

FLORIDA VINE SHOWS HIGH RUBBER CONTENT

A hybrid rubber vine which yields twice as much rubber as either of its parents has been produced by the United States Department of Agriculture near Miami, Fla. It is a cross between two plants, both native to Madagascar, one long grown in Florida as an ornamental, and the other naturalized in many places in Mexico and the West Indies.

The planting of Madagascar rubber vines as ornamentals is spreading rapidly in Florida, Arizona, and southern California.

The new hybrid rubber vine showed a rubber content between 4 and 5 per cent in monthly periods of analysis, reaching nearly 7 per cent in some cases. The vines of the parent species seldom yield more than

3 per cent.

Because the seed of the hybrid does not run true and produce the same type of plant as the hybrid itself, the rubber workers propagate new plants by cuttings. The vine is a perennial and once planted, a regular production of rubber might be practicable. Propagation methods are being studied to increase the supply of hybrid material, but none is available for distribution at present.

The department is also experimenting with desert plants which grow in southern Arizona and California and which show prospects for rubber production. The most promising is a native milkweed that could be grown in large quantities in the desert districts, in the event that a domestic production of rubber became necessary.

RECIPES AND MENUS

Following are some timely and excellent recipes that you will find worthwhile. They were issued by the Extension Service of A. and M. College.

Candied Watermelon Crescents

1 pound watermelon rind
1 1/2 cups sugar
1/2 cup water.

Use only a thick watermelon rind for this candy. Remove all green and pink from the rind. Soak the rind in lime water, using 1 tablespoon lime to one quart water and allow to stand for 3 hours. Drain and soak in fresh cold water for 1 hour. Drain again and cut the rind into crescent shapes using a commercial cutter.

Cook the crescents until tender. Boil the sugar and water for five minutes. The crescents may be left their natural color and flavored with ginger as directed under Candied Ginger Watermelon Rings. If colored a delicate red, use only the best vegetable coloring and flavor with a few drops of oil of cinnamon or according to taste. If crescents are colored green, have a delicate shade and flavor with a few drops of peppermint. Add crescents and cook until tender and transparent or glassy in appearance. The syrup should be very low and thick. Drain the crescents on a plate to save syrup. Place them on a clean thin white cloth over a rack in a warm place. Dry the slices until they are not sticky (about 24 hours). A very slow oven might be used for the purpose but exercise care to prevent scorching. When the crescents are thoroughly dried, they should be perfectly clear and tender. Crystallize the crescents as follows:

Crystallized Syrup

1 1/2 cups sugar
1/4 cup glucose
1/2 cup water

Boil sugar and water until a good thread hangs from the spoon. Remove from fire and beat a few seconds and keep syrup hot by placing pan in boiling water and keep boiling. Dip crescents at once into syrup, coating the candy with syrup. Place on oiled paper to dry. Remove to slow oven to evaporate any surplus moisture. Place carefully in boxes, using oil paper between each layer. Do not let crescents touch in the box.

Candied Ginger Watermelon Rings

1 pound watermelon rind
1/4 cup glucose
1 1/2 cups sugar
1/2 cup water.

Use only a thick watermelon rind for this purpose. Remove all pink and green from the rind. Soak rind in lime water, using 1 tablespoon lime to one quart water, and allow to stand for 3 hours. Drain and soak in fresh cold water for 1 hour. Drain well. Cut the rind into small pineapple shapes or slices using a specially made cutter for this purpose. The centers from the slices may be prepared at the same time if desired. Cook the fancy slices and centers until tender. Boil the sugar and water for 5 minutes. Secure a good strong ground ginger from the drug store. Make a strong ginger tea using 4 tablespoons of ginger to 1/2 cup boiling water. Let stand a few minutes and strain through 3 or 4 thicknesses of cheese cloth or 2 thicknesses of heavy material. Add the ginger tea and the slices to syrup. Cook until the slices

and centers are tender and transparent or glassy in appearance. The syrup should be very thick. Drain the slices and centers on a plate to save syrup. Place them on a clean, white cloth over a rack and dry in the sun or in a slow oven. Avoid scorching if oven is used.

Let the slices dry until they are free from moisture, about 24 hours. The slices should be clear and tender. Crystallize slices and centers as follows:

Syrup for Crystallizing

1 1/2 cups sugar
1/4 cup water

Boil sugar and water until a good thread hangs from spoon. Remove from fire and beat a few seconds and keep hot. Dip in slices one at a time and coat with thin coating of syrup. Place on oiled paper to dry. Remove to slow oven to evaporate any surplus moisture. Place carefully in boxes using oil paper between each layer. Do not let slices touch in the box.

Watermelon Pineapple Jam

1 quart ground watermelon rind
1 quart granulated sugar
1/2 cup glucose
1 pint water
2 cups grated pineapple (or) one No. 2 can.

Remove all pink and green from the watermelon rind. Soak rind for 5 hours in salt water using 3 tablespoons salt to 1 quart water. Drain and soak rind in clear water two hours. Drain and cover with clear water and bring to boiling point. Drain and run through food chopper, using a medium or coarse size blade.

For cooking use a heavy aluminum or enamel lined kettle. Combine sugar, water and ground rind and cook until clear and mixture is of medium consistency. Add the grated pineapple about 10 minutes before the rind has finished cooking, when jam has cooked low in syrup and is amber in color. Let come to a boil again and cook slowly for 10 minutes. Fill sterilized, standard 5 or 8 ounce container to overflowing. Seal and process immediately for 15 minutes at 10 pounds pressure. Wash jars and label, store in cool, dark place.

Watermelon Rind Crumbles

Remove all pink and green from the rind. Cut in medium sized pieces. Soak in lime water for three hours, using 2 tablespoons lime or calcium oxide and 2 quarts of water. Drain well. Soak in clear water for one hour. Drain well. Put rind through food chopper using a coarse blade. Add to crystallized syrup and cook until tender and transparent.

Crystallized Syrup

1 1/2 cups sugar
1/4 cup water

Boil sugar and water until a good thread forms, add ground rind. Color with red or green coloring and add oil of peppermint to green, and oil of cloves to the red crumbles.

Place in sun to evaporate all moisture. When dried out thoroughly, roll in granulated sugar. This is an attractive confection for boxes of candy, cakes, or garnishes for desserts.

Watermelon Marmalade

4 cups coarsely ground rind
4 apples peeled and chopped
2 oranges quartered and sliced very thin
1/3 cup glucose
3 lemons (juice)
4 cups sugar
2 1/2 cups water

Remove all green and pink from the watermelon rind. Soak rind in salt water for 2 hours (using 3 tablespoons salt to 1 quart water). Drain and soak in clear water for two hours. Drain and grind rind, using a medium size blade for cutting. Peel and chop apples. Quarter and slice oranges very thin without peeling the oranges. Extract the juice of lemons. Mix all of the ingredients together. Cook mixture in a heavy aluminum or enameled vessel until thick. The mixture will require very slow cooking. When the mixture is thick and amber colored, fill sterilized standard containers (2, 5 and 8 ounce jars) to overflowing. Seal and process immediately for 15 minutes at 10 pounds pressure. Clean and label jars. Store marmalade in cool, dark place. This recipe makes 6 ounce containers. Never cook more than double the recipe at one cooking.

Watermelon Rind Sweet Pickles
7 pounds prepared water melon rind

Chairman

MRS. C. A. CAFFEE

Among the representatives from the Floyd County Home Demonstration Clubs to the annual Short Course at A. & M. last week was Mrs. C. A. Caffee of Antelope. She is chairman of the Floyd County Council.

3 pints vinegar
4 pounds sugar
3/4 ounce cloves (whole)
2 sticks cinnamon.
1 1/2 ounces ginger root.

Prepare 7 pounds of rind. Remove all pink and green of rind. Cut these pieces into uniform strips and then combine the vinegar, sugar and spices, and cook until sugar is dissolved. Add the strips of rind and cook until clear and tender. Seal in sterilized standard containers 5 and 8 ounce sizes. Fill jars to overflowing. Pack rind firmly in jars and use a small bit of stick cinnamon bark for garnish. Clean jar and label. Store in cool dark place.

Watermelon Rind Sour Pickles

2 cups apple cider vinegar
1/2 cup sugar.
1 cup water.

1/2 teaspoon of whole cloves. Boil the above ingredients together for three minutes before adding the rind, which has been prepared in the following manner. (A thick rind melon is preferred)

Remove peel and any pink meat of the melon. Soak rind in lime water over night, using two tablespoons of lime in two quarts of water. Next morning drain and allow rind to soak in fresh cold water (without any lime) for two hours. Drain, drop in boiling water, cook rapidly for ten minutes; drain again and add gradually to the syrup.

Garnish with small thin slices of red and green pepper. Pack firmly into sterilized jars; seal and process for ten minutes at ten pounds pressure.

Always use only pure apple cider vinegar for pickling purposes.

Sweet Pickled Peaches

1/2 peck peaches
1 quart pure apple vinegar
4c brown sugar
1 oz. stick cinnamon
3 cloves for each peach

Select sound fruit not too ripe. Dip peaches quickly in hot water, and peel. Make a syrup by boiling vinegar, sugar and seasonings tied in a cheese cloth bag. Put peaches into boiling syrup and cook until soft. Arrange peaches in sterilized jars. Adjust sterilized rubbers and covers.

Concentrated Vegetable Soup Mixture

1 quart tomato pulp
1 pint corn or

1 pint lima beans
1 pint peas
1 pint beans (snap)
1 pint okra
1 c onion chopped fine
1 1/2 tsp salt.
Cook together tomatoes, peppers and onions put through a sieve to remove seed, and cook to the consistency of catsup. Add corn and other vegetables which have been prepared for canning. Bring to a boil and pack hot. Process No. 1 cans 40 minutes at 10 pounds, and No. 2 cans 50 minutes at 10 pounds.

Pear Preserves

Mellow pears are not good for preserving, but may be used for marmalade. Firm juicy pears such as the Russet or Kieffer are good preserving pears. Quarter, peel, core and measure pears. To every 2 c. of pears use 1 or 1 1/2 c. sugar and 1 c. water. Boil the syrup ten minutes, vigorously. Add pears a few at a time. Cook until pieces become transparent. Remove the fruit from the syrup. Cook the syrup until it reaches the consistency of honey. If desired, slice of pineapple may be added to the syrup twenty-five minutes before removing from the fire. Plump the pears by pouring the syrup over them, and allowing them to stand over night. Pack cold the next morning. Cover with syrup. Remove air bubbles. Process fifteen minutes in water bath.

Election of Wells as County Chair- man Ratified; Delegates Are Named

Floyd County Republicans, in their convention Saturday afternoon at the county court room, passed resolutions formally endorsing the national Republican administration, the Republican state committee, R. B. Creager, national committeeman from Texas, and Eugene Nolte, state chairman of the party.

The meeting at 2 o'clock followed a thirty-minute session of the executive committee. Dr. J. S. Rinehart presided at the meeting. E. E. Wells, county chairman, called the meeting to order and set the convention to work. Delegates selected to the various conventions of the party are as follows: State convention at Dallas August 9, E. E. Wells; alternate Mrs. Uno. L. Vaughn, Lubbock; congressional district convention at Amarillo, Dr. J. S. Rinehart; alternate Hugh Exum, Amarillo; senatorial district convention, Lubbock, T. C. Russell; alternate, Homer Howard, Lockney; representative district convention, E. E. Wells; judicial district convention, E. E. Wells, alternate, Dr. J. S. Rinehart.

The election of E. E. Wells as county chairman in the precinct conventions on primary day was confirmed and ratified by the convention here, and T. C. Russell was retained as the secretary of the county organization.

Precinct chairmen for the ensuing two years for the party will be as follows: Lone Star, W. S. Rexrode; West Lockney, L. D. Harris; East Lockney, G. B. Harris; North Floydada, T. C. Russell; South Floydada, J. M. Willson; Dougherty, O. L. Britton; Center, J. V. Gilley. In the last named voting precinct the office of chairman was filled by appointment of the executive committee, there being a vacancy in that precinct.

In Loving Memory of E. B. Mayhew

(Contributed)

"Leaves have their time to fall and flowers to fade and die, but thou hast no stated time, oh death." On the night of the 12th of May 1932 just after the shades of night had fallen, and the stars were peeping forth from the heavens, God who doeth all things well, sent his angels to waft home the spirit of our long time friend and loved one, Edwin Brooks Mayhew. He, seemingly was just in the prime of life. We do not understand why he was taken so suddenly and yet we know our heavenly Father doeth all things well. Truly God's ways are mysterious for here we see thru' a glass darkly.

Jesus said "what I do, thou knowest not now, but thou shalt know hereafter." There will come a time if we are faithful when the mist will clear away and we shall see clearly why Edd was taken from us. But today, with bleeding hearts, all crushed and broken yet with faith in God, we pass under the rod and say, Oh, God thy will, not ours be done.

Edd was a man of strong faith; he had such a hold upon God, he lived every day so close to God that in John 15:7 we read: "If ye abide in me and my words abide in you, ye shall ask what ye will and it shall be added unto you." He was a true and consecrated christian, had a wonderful father and mother and both grand fathers were old time exorters and could pray such wonderful prayers that it seemed to me they could bring heaven and earth together in their talks with God. No wonder Edd had such a hold upon God. He loved his family dearly and loved to do things to make them happy and was always praising them in some way, and today, I think he would say: My loving wife, my bosom friend, Dear object of my love, The time's been sweet I've spent with you My gentle harmless dove.

My loving wife do not grieve for me Do not lament nor mourn For I shall with my Savior be When you are left alone.

How often you have looked for me And oft times seen me come, But now I must depart from thee And never more return.

Tho I can never come to thee Let this not grieve your heart, For you shall sometime come to me Where we shall never part.

My dear children, near my heart Which nature seems to bind, It grieves me sorely to depart And leave you all behind.

O Lord, a father to them be And keep them from all harm, And may they love and worship thee And meet their father in the Sav- ior's arms.

My brother preacher, boldly speak and stand on Zion's wall, Revive the strong, confirm the weak And to the sinners call.

And now dear brothers and sister, fare you well Your fellowship I love, Far more than feeble tongue can tell But some we'll all meet above. Anna Carr.

HICKMAN PRICE, WORLD'S LARGEST WHEAT GROWER, BROKE, PRESS REPORTS

Hickman Price, of Kress, the world's largest individual wheat grower, is broke, so states an Associated Press story from Plain- view.

Low prices in 1931 and almost total failure in yield and continued low prices in 1932 are given as reasons for the failure. Price, how- ever, was quoted as saying that his original plan of industrial farming is sound and would be successful under normal conditions.

He made agricultural history in 1931 when he produced more than 500,000 bushels of wheat on 22,000 acres of Panhandle land.

Creditors, expressing confidence in Price, indicated that the prop- erties will continue to be operated by a selected manager and that the vast acreage will be rented to farm- ers in small tracts. "I am living with my wife and son near Kress where we have a few cows, some chickens and a garden," Mr. Price was quoted as saying.

MRS. W. E. SUITE CALLED TO BEDSIDE OF MOTHER AT OLNEY LAST WEEK

Mrs. W. E. Suite left Thursday morning of last week for Olney where she was called to the bedside of her mother, Mrs. R. H. Lawrence. She was accompanied by her brother, Garland Lawrence, who came after her.

Mrs. Lawrence was reported to be in a serious condition. She under- went an operation Saturday morning and latest reports indicated that she was convalescing though still seriously ill.

Mrs. Susie Flannery and son, David, and Mrs. Will Williams and son, Uyron, of Quanah, came last Saturday afternoon for a visit of several days with their father, W. T. Brown and other relatives.

Mrs. L. G. Mathews and daughter, Irene, and Boenita Newsome, returned home Thursday from Cole- man county where they had spent the past two weeks visiting Mrs. Mathew's mother, Mrs. J. E. Feather- erton and other relatives.

Mr. and Mrs. J. R. Archer, 305 West Houston Street, have had as their guests this week Mr. T. O. Wilson, Miss Elnora Merritt, Mr. and Mrs. Bert Afflect of Childress; Mrs. Wilson plans to spend some ten days or two weeks with her sister Mrs. Archer while Miss Merritt and Mrs. Afflect returned to Child- res last Saturday night.

Mr. and Mrs. J. G. Wood and daughter, Jesse Mae, left Tuesday morning for Decatur where they will visit for some time with Mrs. Woods' parents, Mr. and Mrs. T. P. Guimarin.

Democratic Delegates Chosen For Convention At Lubbock Sept. 13

Harmonious Convention Pledges Support to National Ticket Saturday Afternoon.

Delegates from Floyd County to the Democratic State Convention were named by the Democratic Convention in Floydada Saturday afternoon in a harmonious meeting in which were seated delegates from two boxes at Floydada, two at Lock- ney, Baker, Aiken, Center and Providence. These delegates are C. F. Ramsey, H. M. Mason, A. R. Meri- wether, of Lockney; Homer Steen, A. C. Goen, Tony B. Maxey, Jeff D. Ayres, L. G. Mathews and R. E. Fry, Floydada. Alternates named are A. J. Folley, and G. C. Tubbs, Floyd- ada; J. N. Stalbird, Lester Honea, A. P. Barker and H. B. Adams, Lockney; J. E. Newton, Dougherty; and T. E. Cowart, Providence.

A resolution submitted by Jeff D. Ayres and carried without dissent- ing vote was the only order of busi- ness given attention, except for the naming of the delegates. This resolu- tion was a brief one endorsing the national platform, pledging the con- vention's support to the democratic nominees, Roosevelt and Garner and instructing the delegates to the state convention to vote as a unit.

A. C. Goen, of Floydada, presided at the convention and S. W. Ross was secretary.

The following were seated as de- legates: South Floydada, H. G. Mc- Chesney, L. G. Mathews, Jeff D. Ayres, S. W. Ross, T. W. Whigham, Mrs. W. C. Grigsby, Mrs. Ella John- ston, J. H. Shurbet, Tony B. Maxey, O. M. Watson, R. E. Fry and A. C. Goen; North Floydada: O. T. Wil- liams, Lon M. Davis, W. L. Fry, J. C. Wester, J. N. Johnston and A. D. Cummings;

West Lockney: H. B. Adams, C. F. Ramsey, A. R. Meriwether, Leonard Brewer; East Lockney: Lester Honea, Tom Husky; Baker: Claude

Fawver, A. A. Jones; Center: L. H. Lewis; Aiken: J. E. McAvoy, J. W. Jennings.

Tabulated returns of the general primary were made in a session of the executive committee Saturday morning, which lasted from 9:30 to 12 o'clock. No changes were made in any of the final counts as pre- viously reported.

Mrs. G. Hampton and daughter, Evelyn Doris, of Abilene and Mr. and Mrs. N. H. Cush of Baird were week end guests of Mr. and Mrs. Robert Medlen and family. Mes- dames Hampton and Cush are sis- ters of Mrs. Medlen.

Mr. and Mrs. Lee Wilkinson and children and Miss Emma Lou Mc- Kinney spent from Friday to Sun- day visiting in Wichita Falls with Mrs. Wilkinson's mother, Mrs. M. F. Swain, and son, Floyd, who accom- panied them home to spend a week.

Mr. and Mrs. C. Thorpe of Peters- burg, came Sunday afternoon for their son, Wayne, who had spent the past week visiting with his aunt, Mrs. Maud Merrick.

Mr. and Mrs. E. C. Thomas left Tuesday morning for Ruidoso and points in the mountain region of New Mexico on their vacation trip.

Mrs. W. D. Smith and Mrs. P. T. Rucker, of Fort Worth, arrived Mon- day for a visit with Mr. and Mrs. H. M. McDonald. They spent Tues- day in Lockney and will also visit in Plainview before returning home. They plan to spend the week-end here.

Only the NEW NuGRAPE Has Their Delicious Flavor

You'll admit there is a goodness in the flavor of grapes— and that's why the New NuGrape is different from all artifi- cial flavors—different as gold and brass.

In a certain valley, made rich and productive by reason of the mois- ture, in season, from surrounding hills—a famous brand of grapes is raised. The vineyards are renowned for the rich, wine-like flavor of the great purple clusters of fruit. And it has been our obligation to YOU, to transport that natural delicacy of flavor—to your home —to places where soft drinks are sold.

The New NuGrape — made exclusively with Welch's Grape Juice — costs no more than any artificial grape substitute. It's now on sale everywhere for 5¢.

Whiteflat Pioneer Is Buried Monday Morning

Funeral for Mrs. W. A. Spray, 68, of Whiteflat, was held Monday morning of this week at 10 o'clock at the Whiteflat Baptist Church and interment was made in the Whiteflat Cemetery. Rev. G. W. Tubbs, of this city, a former pastor of the deceased, assisted Rev. H. M. Burnham, the church pastor, in the conduct of the funeral.

Mrs. Spray's death occurred Sunday morning at 9 o'clock. She was one of the pioneer settlers of the community and is survived by her husband, one son and five daughters.

NIECE DROWNED NEAR HUGO, OKLA.

W. H. Seale of this city received word last week of the drowning of his niece, Mrs. A. L. Jones and her husband of Oklahoma City, in Mount Fork River near Hugo, Oklahoma. The accident occurred July 20 while the party were on a picnic. A number of the party were swimming when Mrs. Jones and her sister Miss Mary Downing were caught in a current and Mr. Jones attempted to save his wife. Both were drowned. Miss Downing was saved. The bodies were not recovered until the next day, one at 6 o'clock and the other about noon.

Funeral services were held at the Methodist church in Hugo, July 23, burial following. The couple leave a small daughter two years old and a number of other relatives. Relatives from here and Lubbock were unable to attend the funeral on account of the serious illness of Mr. Seale's sister, Mrs. Josephine Fowler, of Abernathy.

Mrs. Bert Smith and daughter, Coletta, of Amarillo are here visiting with her father, J. D. Wilkinson.

Dougherty News

(By Mrs. W. D. Newell)

The poets have said of this month that it was one of "gold and purple, when the sun throws a golden glory on the ripening grain and yellowing fields." This description is brought forcibly to our minds when we see the feed crop in its ripening stage as it is now.

Some of the feed is needing rain badly, especially the young feed. The cotton fields, however, seem to be thriving on the hot weather the past two weeks.

CHURCH NEWS

Baptist Meeting Date Set
 The Baptist meeting will start here next Thursday evening, August 4. This has been announced as a community meeting with Rev. I. J. Lloyd assisted by Rev. S. M. Crawford doing the preaching. Everyone invited to come and assist in this revival.

The Fairview Woman's Missionary Society presented a play entitled, "Home Acres," at Dougherty last Friday evening. This was an exceptionally good play and well presented. The proceeds amounted to \$4.75.

Brother Dickerson from the Center community preached a good inspiring sermon Sunday morning on the subject of "Feed My Sheep." He filled the vacancy of Rev. F. O. Garner who had an appointment at Tulsa Sunday morning.

Rev. F. O. Garner was here for his regular appointment Sunday night and delivered a good and appropriate sermon.

The League here voted to extend our invitation to the Fairview Epworth League for Sunday evening, August 14. It will be announced later whether or not this invitation is accepted.

League Program for Sunday Evening August 7

Subject: "Treasures," leader Mrs. W. D. Newell.
 Topics for discussion of things that are real treasures to us: "A Healthy Body" by Floyd Blankenship.

"Ability to appreciate the good, the true, the beautiful in the realms of literature, art, music and nature," by Mrs. Frank Bass.
 "Opportunity to be of service to the world" by Miss Grace Readhimer.

"Love and Respect of Friends" by Miss Thelma Crawford.
 "The comradeship of Christ" by Mrs. T. J. Campbell.
 Reading by Virgil Crawford.
 "The love of the Heavenly Father" by Mrs. I. J. Lloyd.
 Benediction.

Several people in the community met Monday morning in the Methodist cotton crop with their hoes and plows and cleared out some of the weeds. They were furnished dinner by the ladies and Rev. F. O. Garner assembled cold drinks for the crowd which was a donation from several business houses in Floydada. The White Drug, Arwine Drug, Star Cash Grocery, Mallory Grocery, M. System, C. P. Looper, and The Hesperian Publishing Company were names of the businesses that made donations.

Rev. Garner expressed his appreciation for the ones who helped in this work.

Boy Badly Burned
 Willard Edwards, son of Mr. and Mrs. G. C. Edwards is in bed suffering a very painful and serious

burn received last Thursday night while plowing. He had finished filling a tractor with gasoline when a lantern was ignited by the fumes. The flames at once caught the boy's clothes and would have been much more serious had he not torn his clothes off. Bobbie Owens, another boy in the same field helped him get the fire out.

The skin on the front of his right leg from his knee to the ankle was burned away with deeper burns around his ankle.

He is doing as well as could be expected but will probably be laid up quite awhile.

Man Scalded on Face and Chest
 Last Friday afternoon Paul Newberry was painfully burned when he attempted to fill the radiator of his tractor with water. Steam escaped from the radiator cap striking his chest and face and burning him. He is still unable to work.

Little Jimmy Bass son of Mr. and Mrs. Frank Bass, had a minor operation performed on his ears last Monday in the Lubbock hospital. He was able to return home the same day and is improving.

HUGE PLOW IN OPERATION

What is said to be the largest plow in the world has been operating in Orange County, Calif., and is described by A. A. Young, assistant irrigation engineer, of the United States Department of Agriculture, stationed at Santa Ana. It is the only plow of its kind and was designed and built to meet an unusual condition existing in the lower Santa Ana River Valley adjoining the seacoast.

Originally this area was fertile land, but overflows from the Santa Ana River during floods deposited 1 to 2 feet of sand upon the rich soil and made it useless for crop production. Later this sand deposit was covered by a growth of Bermuda grass.

The plow is intended to turn the sand under and bring the rich soil to the top. It has two shares. The smaller one, which is of good size, is set forward and higher than the larger share which is able to plow a furrow 36 to 42 inches in depth and 3 feet in width. The forward share turns the surface sand and Bermuda grass into the deep furrow where it is covered by the fertile soil turned up by the larger share.

The plow is 4 feet high and 22 feet long. At turns, it is raised and lowered by a hydraulic lift. It is reported to weigh about 1 ton and to have cost \$2,000. It is drawn by three heavy tractors running low gear and is reported to be capable of plowing 5 acres a day.

WEED SEED

Here's weed news for the farmer—but it's bad.

Seeds of wild morning glory, buried for 30 years, sprouted almost at once after being unearthed and planted, the United States Department of Agriculture reports.

The seeds were buried as part of an experiment to discover how long seeds may lie in the soil and still grow, and to discover how long seeds must be buried to be killed.

The morning glory will be given further opportunity to prove its "staying power," as some seeds buried 30 years ago are still in the ground and will not be removed for 10 more years.

Mr. and Mrs. R. C. Covington and daughter, Thelma, left Wednesday of last week for Hot Springs, New Mexico, where they planned to spend some three weeks for the baths.

Ed Bishop, secretary of the Dalt Chamber of Commerce, was in Floydada for a brief visit Sunday with his mother, Mrs. Jennie Bishop. He was enroute to Austin for the meeting this mid-week of the State Highway Commission.

Mr. and Mrs. J. R. Maddox visited in Lubbock Saturday and Sunday with their daughter, Mrs. Hays O'Neal. Mrs. Maddox remaining for a further visit with the O'Neals.

Judge L. G. Mathews made a business trip to Pecos the latter part of last week.

Preston Martin, brother of J. G. and Claud Martin, of this city, was here a short time Wednesday afternoon. He was en route home to Weatherford after a business trip to Amarillo. He was accompanied by J. H. Doss, who spent a few minutes while here with his old-time friends, A. V. Haynes, and J. N. Johnston.
