### Sommer Says Disregard Of Law Basis Of Much Of Country's Troubles

Confident belief that the worst of the depression is behind us and that the future will see a gradual improvement in business conditions in spite of liquidations not yet completed, was expressed here this week by Chas. H. Sommer, St. Louis railroad man, and administrator of the estate of Sam Lazarus.

That disregard of the law of the land as such has had much to do fundamentally with the sad financial plight which has been visited upon the country, was a thought expressed by the railroad executive, who declared that big and little "trackets" had undermined substantial business. "We have come back to a more sane regard for real worth, our surpluses are being taken up and business is taking up the slack all along the line," he said.

Mr. Sommer was here for several hours in company with A. F. Sommer, of Quanah, who is general manager of the Quanah Route of which C. H. Sommer is the president. The latter also is interested in a number of other rail properties in the middle west and south. They visited friends here and inspected their line to Floydada.

### Paving Case Trials Expected October Term

Trial of some of the paving cases at the October term of District Court for Floyd County are expected to be held. Pat Howe, attorney for Owen M. Murray, receiver for the North Texas Trust Company, here this week studying the cases, said he expected to be ready for trial. Several defendants have indicated their readiness to go to trial.

### Boost So. Plains Fair With Caravan Friday

Tomorrow afternoon an automobile caravan of Lubbock business men will be in Floydada to boost the nineteenth annual South Plains Fair at Lubbock, the itinerary being planned to have the caravan reach here at 2:45 o'clock, according to the announcement out of the office of the fair received Wednesday. The caravan will lunch at Plainview, after visiting Abernathy and Hale Center. They will be at Lockney at 2 o'clock. From Floydada they go to Crosbyton at 4:15, thence to Ralls, Lorenzo and Idalou and home.

Truman C. Meinecke will be chairman for the day, with B. G. Williamson as his assistant.

### PROTECTIVE LEAGUE WOULD RECOVER STOCK LOSSES

A determined effort to recover losses to plains and panhandle people, variously estimated at \$500,000 to \$1,500,000, put into prior preferred stock of the American Commonwealth Corporation of New Jersey, will be made by a Protective League organized Tuesday in Amarillo. Losers in the stock were represented in towns all over the Texas panhandle and eastern New Mexico.

Seathing denouncement of the promoters of the stock scheme which tricked the stockholders out of their money was made by Gene Howe, Amarillo newspaperman, who was elected president of the league. Judge I. R. Kelso and local employees of the operating companies, including Texas Utilities Company and Southwestern Public Service Company, were lauded, however. Mrs. E. C. Thomas, of this city, Mrs. Cora Mills Vannoy and Mrs. Perkins of Lockney, are listed among those from Floyd County who are members of the organization that will make an effort to recover their losses.

### WATCH FOR IT

You may have an opportunity awaiting you in the Classified Ads of The Hesperian. Someone may have something that will be of benefit or service to you.

Trade, sell and buy with these inexpensive little ads. Every week you will find something new listed. Watch for your opportunity and make the most of it.

This week's classified feature announced by the Palace Theatre is "Speak Easily," showing Sunday, Monday, and Tuesday. Buster Keaton and Irving Durante will furnish you plenty of entertainment so don't fail to see it. Yes! Somebody gets a free pass. Turn to the Want Ad section.

### Scouts Ask For Toys To Prepare For Xmas Gifts

Boys Scouts of Troop No. 44 this week issued a call through their scoutmaster, W. A. Gound, for toys and discarded playthings that will be donated for their annual "Christmas Cheer" gifts. The articles will be repaired, repainted, and during the Christmas season will be distributed to make happy some little boy or girl who might otherwise be overlooked by Santa Claus.

"We will take clothing, also," Mr. Gound said, "and will act as a collecting agency for the Red Cross." S. W. Ross, secretary of the Chamber of Commerce agreed to permit the Scouts to use his office on West California street as headquarters where the gifts may be left.

Last year the Sunday School class at Carrs Chapel donated tops and money that the Scouts used to carry on their goodwill work.

"We will appreciate the cooperation of any groups or organizations in this work," Scoutmaster Gound announced.

Last Saturday the members of Troop No. 44 cut the weeds and cleared off the lot at the W. J. Burke place at the corner of First and West Virginia Streets and received as compensation from Mr. Burke, who is now residing with his family in Dallas, the brick and floor materials of the home that was destroyed by fire several years ago.

The Scouts are planning to use the materials in the construction of a cabin or lodge in the near future, complete plans for which have not been made.

### Second Bale For 1932 Is Ginned Wednesday

O. H. Huckabee, who resides northeast of town, brought in the second bale of 1932 cotton to reach the local market. It was ginned at the Lon Davis Gin and weighed 515 pounds.

J. R. Maddox purchased the bale which brought 6.60 cents and graded strict middling.

The first bale to reach Floydada this year was ginned Thursday morning of last week and was brought in by Jno. Jones of Campbell community. It sold at auction for 6.75.

Rainfall and showers over portions of the county Wednesday night will check the picking that has been getting started in a number of fields this week. The total amount of precipitation in town was .12 of an inch. Rain and cloudy weather at this time will materially hold up the cotton harvest.

### MILLER FAMILY HOPES TO COMPLETE CONTRACT WITH A. & M. COLLEGE SOON

Mr. and Mrs. W. E. Miller and family are in Crosby County this week where they expect to get a sufficient quantity of black-eye peas to complete their contract for 3,000 cans with A. & M. College this year.

Tuesday Mrs. Miller said that they lacked only 677 cans, having shipped the other portion of the order. They spent Thursday, Friday and Saturday of last week near Plainview working in a field there.

### MISS WINNIE BOX ONLY SLIGHTLY IMPROVED; CAUSE OF ILLNESS UNDETERMINED

Condition of Miss Winnie Box, 12 daughter of Mr. and Mrs. Sam Box of Sand Hill, was reported to be only slightly improved this week.

She has been ill and confined to her bed for seven weeks and her condition has been considered serious. Her entire system seems to be poisoned and her case is said to be puzzling to attending physicians, the exact source of her trouble not having been determined, friends said.

### PACE FAMILY MEMBERS HAVE REUNION SATURDAY

Members of the N. B. Pace family residing northwest of town, enjoyed a reunion Saturday. Those present included the parents, four daughters and two sons; Mrs. R. W. Jones, of Olton; Mrs. W. M. Knight, of Sand Hill; Mrs. Aden Glenn, of Happy, and Mrs. R. C. Hollingsworth, of Pleasant Valley; W. W. Pace, of Morrilton, Arkansas, and Perry Pace, of Olton.

### MISS GERALDINE MASSIE STUDIES IN BOSTON SCHOOL

Miss Geraldine Massie is now located at Boston, Massachusetts, where she is enrolled in Prince School of Simmons College, according to word received by her mother, Mrs. W. M. Massie. She will spend the school year there while she takes special work in store service.

### 30 'Little Breezes' Work Out Daily With Coach Dick Stovall

Coach Dick Stovall and a squad of some 30 hardworking lads are literally "making the fur fly" up in the west end of town these days in the vicinity of Andrews Ward as the Little Breezes go through their paces to get "all set" for another big schedule this year.

Eleven lettermen from last year's team are fighting for places in the line-up. In addition to the regular eligibles from Andrews Ward Coach Stovall has a group of boys from high school who are too light to compete for places on the Whirlwind squad and are anxious to participate in football. Boys under 140 pounds are eligible for his team, Coach Stovall said.

A tentative schedule includes games with Plainview Junior High, September 30, Roaring Springs High School, Lubbock Junior High, October 30, and Matador "B" squad. Four games likely will be played here and four return games played.

Lettermen working with the Breezes are as follows: Clovis Johnson, John Eudy, James Jones, Carthel Baxter, Irvin Allen, Louis Hollingsworth, Newell Parker, Malcolm Linder, Gayle Bishop, Ben Eudy, and Wilson Connelly.

Others working out are Junior Rutledge, Cap Felton, Earl Hanks, Joe Dolph Montgomery, Harvey L. Howard, Vernon Dorsey, Buster Davidson, Leo Coward, Quinton Burgett, F. C. Harmon, Eldon B. Howard, Wayne Underwood, Lillburn Cox, Charles Neil, and I. A. Smith.

### JONES FAMILY STRANDED BY HIGH WATERS AT DEL RIO FOR 6-DAY PERIOD

Mr. and Mrs. W. N. Jones and daughter, Mrs. Holland C. Mitchell who returned home Monday after spending over six weeks on a vacation trip in Texas and New Mexico had the experience of being "water bound" at Del Rio for six days and witnessed the flood at its height as it swept south and southwest Texas due to excessive rains recently.

They were stranded at Del Rio by high waters on Devil's River and streams all down-state were out of banks they said.

They drove 3,200 miles while on the trip and only about three hundred miles of the total were outside of Texas. They went from here to Hot Springs, N. M., and then to Del Rio and San Antonio, Brownsville, and Corpus Christi.

On the return they were accompanied as far as Weatherford by Mr. Mitchell. Mrs. Mitchell plans to leave Friday to join him at San Antonio and they will go to Galveston where he will complete his work on his degree at the School of Medicine of the University of Texas.

### LAST OF CANS ISSUED BY RED CROSS ARE GIVEN OUT

Final distribution was made Friday of cans issued by the Red Cross through the local chapter, according to a report from S. W. Ross, who has had charge of the quota for Floydada.

A total of 1,125 No. 2 cans and 2,275 No. 3 cans were distributed here, he said, to 80 families, averaging 42.5 cans per family. A total of 3,400 cans were purchased and given free to those in need of containers in which to put up vegetables for a winter food supply.

The last sack of the allotment of government flour issued through the Red Cross was also given out last week.

### J. M. WRIGHT GOES TO MINERAL WELLS TODAY

J. M. Wright, who for the past five years has served as sheriff of Floyd County, left this Thursday morning for Mineral Wells where he will spend an indefinite period for his health.

Mr. Wright resigned from the office and E. S. Randerson was named by the court to succeed him September 12.

### SHOWERS LAST NIGHT

Showers yesterday and last night, after nearly three weeks of pretty weather for plowing, gathering feed and maturing cotton, brought a temporary halt to the tremendous rush of farm operations in Floyd County. A freak hail that covered the ground in portions of the Barwise section is reported for yesterday afternoon. No material damage was done, the same report indicates.

Tuesday morning's temperature of 55 was the lowest for the week, and the high for the week was also registered Tuesday afternoon with a 92. This morning the thermometer stood at 62, at West Texas Gas Company's office.

### Entries Urged For 2 Groups In Flower Show

Judges for the Flower Show to be conducted in connection with the Home Demonstration Club exhibits Friday and Saturday in the Manasco Building on West California Street was announced Wednesday. Mrs. Maud Hollums, Mrs. W. S. Goen, and Mrs. R. C. Scott will determine the winners.

It was announced that commercial florists will be permitted to exhibit but will not compete with the amateur flower growers.

Everyone who has flowers is urged to enter some or all the divisions. Places will be selected but no cash prizes will be awarded.

Entries will be received up to 11 o'clock Friday morning, Mrs. J. B. Jenkins, of the committee in charge, announced yesterday. Judging will be made between 12 and 1 o'clock Friday.

The Flower Show will be held in the same building with the club exhibits but will be a distinct and separate show.

Other members of the committee with Mrs. Jenkins are Mrs. W. I. Cannaday and Mrs. R. E. Fry. The show is sponsored by the 1932 Study Club.

Included in the list to be shown are cut flowers and pot plants of all kinds. The show will be free to the general public.

### A. P. Howard Here This Week From New Orleans

Alvin P. Howard, of New Orleans, is here this week, having arrived Monday to spend several days with W. M. Massie & Bro., agents of the Howard Brothers for their extensive land holdings in Floyd, Briscoe, Hall and Motley Counties.

A fair cotton crop is being gathered in Louisiana this fall, Mr. Howard said. The recent Gulf storm hit the coast east of New Orleans, he said, and was not of the intensity it was first feared.

### MRS. A. H. KREIS WINS FIRST ON WOOL RUG AT AMARILLO TRI-STATE

Mrs. A. H. Kreis, of the Campbell Home Demonstration Club, won first place at the Tri-State Fair in Amarillo on her wool braided rug, according to a report on the awarding of prizes the first of the week. She won first place two years ago in the same division. Mrs. N. Williams, a member of the same club, won first place in the event last year.

### LEO JACKSON IS ELECTED PRESIDENT OF F. F. A. AT ORGANIZATION MEETING

Leo Jackson was elected president of the Future Farmers of America at the organization meeting for the school year held Thursday night of last week. Other officers elected were as follows: Lloyd Murray, vice-president; Morris Moore, secretary; James Badgett, treasurer; Harold Bishop, reporter, and Otho Johnston, sergeant-at-arms.

The chapter met again Monday night to outline a program for the ensuing year.

O. T. Williams, club sponsor, told the boys that the F. F. A. of Texas would have a 200-foot booth at the State Fair at Dallas this year. He suggested that they bring their best milo, wheat, etc., to be sent to Dallas to be placed in the exhibit.

### CHILD KILLED WHEN CAR IS BACKED OVER HER BODY

Nulda Gene Ellis, fifteen month old daughter of Mr. and Mrs. Silas Ellis of Lockney, was killed accidentally Saturday when a car driven by her father, backed over the child as he was leaving the yard.

Funeral services for the baby were held Sunday afternoon. Ellis operates a dairy. He was leaving home for town when the accident occurred. He left the baby at the house and did not know she followed him.

### BAPTIST MEETING CLOSED SUNDAY; 29 ADDITIONS

The Baptist revival, conducted by Rev. J. S. Bates, state evangelist of the church, closed Sunday night after two weeks of services morning and evening. There were twenty-nine additions to the church by letter and baptism. Twelve candidates were baptized at a baptismal service at the W. C. Sims home Sunday afternoon.

Rev. Bates left the first of the week for an engagement at Throckmorton for a meeting.

### Five-Year-Old Dies Of Acute Indigestion

#### Body of Frank Carroll Harris Taken To Streetman For Burial

The body of little Frank Carroll Harris, five-year-old son of Mr. and Mrs. R. H. Harris, 425 West Jackson Street, was carried to the former home of the family at Streetman for interment, leaving Saturday morning.

Interment was made Sunday afternoon following funeral services, with arrangements in charge of the Southland Undertaking Company, of Corsicana.

Frank Carroll succumbed Friday night of last week at 11:30 of acute indigestion after an illness of only four days. He became ill Tuesday at noon. Besides his parents he is survived by a sister, Wanda June, seven.

In the party with Mr. and Mrs. Harris on the trip to Streetman for the funeral and interment of their little son, was Mr. and Mrs. J. J. Curry, of Texline, former residents of Floydada, and Jimmy Hardgrove of this city. Mrs. Curry is a sister of Mr. Harris. The Harris family will not return home until about the first of October spending the remainder of this month with relatives in and near Streetman, Mr. Hardgrove returned home this week.

### Re-Finishing Starks Building For Kimble

Work of re-finishing the interior of the J. D. Starks Building on the west side was begun Tuesday morning of this week by R. H. Willis and a crew of men with the expectation that it will be completely re-done by the first of the month. At the same time Wilson Kimble announced that he had leased the re-finished building from the owner and would move his stock of jewelry and optical goods to it from the present location sometime after the first of the month, probably about October 15.

New display windows and new brickwork in the front of the building, together with re-conditioned plumbing, new coat of plaster on the walls, and re-painted walls and ceiling, are included in the contract with Mr. Willis.

The location is next door to the present location of the Kimble Optical and Jewelry Company.

### Magnolia Station No. 2 Will Be Open Saturday

H. O. Cline this week announced the opening date of Magnolia Service Station No. 2 at the southeast corner of the square in the location formerly occupied by the Gulf station. The new station will be open for business Saturday.

Magnolia products, Goodyear Tires and tubs and auto accessories will be handled at the station, Mr. Cline stated.

A. J. Cline will be in charge of the new station and he will be assisted by R. C. Patton.

H. O. Cline will continue to operate Station No. 1 at the corner of West Missouri and Fifth streets.

### A. V. HAYNES BETTER

A. V. Haynes is reported to be much improved this week. His condition has improved since last week and he is gradually regaining his strength, members of the family said. He was critically ill until Wednesday of last week, suffering from a diabetic ailment.

### SINGING AT CENTER

There will be singing at Center Sunday afternoon, September 25 at 2:30. All are asked to bring song books. The public is urged to attend.

### 36 Varieties Of Vegetables Are Put In One Jar

Among the unique features to be included in the annual exhibit of the Floyd County Home Demonstration Club women and girls will be a quart jar containing 36 different varieties of garden vegetables. Mrs. M. D. Ramsey of the Harmony Club prepared the jar just as an experiment.

In the single quart there are the following varieties of vegetables: parsnip, carrot, turnip, cabbage, okra, corn, squash, pepper, cream pea, black-eye pea, cantaloupe, watermelon, rhubarb, yard pea, English pea, Kentucky Wonder bean, green bean, lima bean, dry weather bean, onion, pie melon, pumpkin, salsify, speckled bean, cucumber, Irish potato, sweet potato, beet, asparagus, tomato, and yard pea.

Mrs. Ramsey did not have a rubber to fit the wide-mouth jar used so she "invented" one from an old inner tube.

### J. A. Staley Victim Sudden Heart Attack

#### Death of Wichita Falls Oil Man and Banker Occurred Early Tuesday Morning

J. A. Staley, oil operator and capitalist of Wichita Falls, died shortly after 3 o'clock Tuesday morning of this week at his home there, his death being attributed to a heart attack to which he succumbed within a brief time. He was 72 years of age and a native Texan, having been born near Ringold, Texas.

With Mrs. Staley he had returned the previous evening from a brief vacation trip. His death came during the week of the celebration of the fiftieth anniversary of the founding of the city of Wichita Falls, his adopted home. He lived for many years at Burkburnett, where he had been one of the founders of The First National Bank. He had been actively and widely interested in developments of Wichita and adjoining counties. He was a thirty-second degree Mason.

Funeral services were held Wednesday afternoon from the First Christian Church in Wichita Falls at 3 o'clock, with Dr. H. T. Wood, pastor, officiating. Pastors of three other churches of that city assisted at the funeral. Interment was made in Riverside Cemetery.

Surviving the deceased are his wife, three daughters, Mrs. W. H. Hawkins and Mrs. Chester Wynne of Wichita Falls and Mrs. Fred Zimmerman, of this city; and three sons, Luther Staley of Ringold, J. I. Staley, of Wichita Falls and Carr Staley of Frederick, Oklahoma, all of whom were present for the funeral.

Mrs. Zimmerman left Tuesday morning, accompanied by Mr. Zimmerman to attend the last rites for her father.

The death of J. A. Staley, says the Wichita Falls Daily Times, removes a notable Texas pioneer. When he was only nine years old Indians killed his father, M. L. Staley. Until his mother's death in 1881, he was her sole support, trapping small game and hunting birds to make a living.

After residing for several years in Montague County, he and his mother moved to Mills County, and thence to Oklahoma where he founded the first part of a great fortune. He moved to Burkburnett when it was opened in 1907 and was the original trustee of the Fowler Farm Oil Company.

### Cotton Picking Begins In Week Or Ten Days

If good maturing weather continues cotton picking will begin on many Floyd County farms during the next week or ten days. A few farmers had indicated their intention of starting gathering the staple Monday. Whether mid-week showers will change these plans is not known.

First bales have been received at practically every gin in the county.

### MRS. MOORE BETTER

Mrs. Frank L. Moore continues to gain strength, convalescing quite satisfactorily this week. She is in a Lubbock sanitarium where she underwent a major operation ten or twelve days ago. She will be dismissed from the hospital this week-end, it is thought but will spend a few days in the home of John Denman before returning home, according to present plans. Mr. Moore said yesterday.

### Quantity And Quality Both To Be Striven For

#### Marketing Booth and Work Will Be Featured This Year.

Floyd County folks have an opportunity Friday and Saturday to visualize the actual means employed by the women to meet "the depression" and to review some of the worthwhile accomplishments this year in the annual exhibit of the Home Demonstration Clubs in the Manasco Building on West California Street.

Quantity as well as quality is being stressed this year and the show is expected to be the largest ever staged by the club women and girls. The exhibit hall will be open in the general public at 10 o'clock Friday morning. It is planned to have the building open until late Friday night so that employees of stores and others who cannot get to town during the day may see the exhibits.

All exhibits must be in not later than 10 o'clock Friday morning, it was announced by Miss Martha Faulkner, county home demonstration agent, under whose direction the work has been carried forward.

After 4 o'clock Saturday afternoon the items may be removed by the exhibitors. The exhibit will not be open Saturday night. Featured in the exhibits this year will be the marketing booth which will include a display of the products manufactured by Floyd County women that have been standardized under the 4-H Better Products Label.

Miss Pratt to Judge Miss Clara Pratt, Dickens County home demonstration agent, will judge the exhibits and she will be assisted by Mrs. Richard Stovall, of the Floydada High School faculty. No cash prizes or awards will be made but places will be given and the winning articles will be designated with blue, red, white, and (Continued on back page)

### F. F. A. Boys Of F. H. S. Help Prepare Exhibit

O. T. Williams and members of his vocational agriculture classes of Floydada High School are at work on background arrangements for the two Future Farmers of America exhibit which will be put up this week-end at Lubbock for the South Plains Fair. The exhibit sponsored by the vocational agriculture teachers and their classes last year was the object of a great deal of comment from the fair visitors.

Teachers over the South Plains area are co-operating again this year in preparing the exhibits. On one of the 14-foot spaces will be shown "How to farm 200 acres of land the livestock route and meet the depression." The display will bring out some of the best methods of feeding livestock, rations, self-feeders, and also in miniature form will show the method for constructing trench silos and how they may be used in effecting economy on a farm.

In the second space the farmer makes that does not go livestock route. "A comparison be made between the proper method and the method usually followed."

### BROTHER AND SISTER OF MRS. THOMAS VISIT HERE

Mr. and Mrs. J. J. Thomas have had as guests the past two weeks Mrs. Thomas' brother, Amos Eaton and his wife of Heavener, Oklahoma and her sister, Mrs. J. W. Holloway of Watts, Oklahoma, who leave today on their return to their homes.

Mrs. Thomas had not seen her brother for twenty-three years.

### MRS. WILKES IN HOSPITAL AT GAINESVILLE THIS WEEK

Mrs. P. J. Wilkes, of Dougherty, is convalescing satisfactorily this week in a hospital at Gainesville, Texas, according to a report received at The Hesperian office Tuesday from Mr. Wilkes.

Mrs. Wilkes underwent a major operation at the Gainesville Sanitarium some two weeks ago.

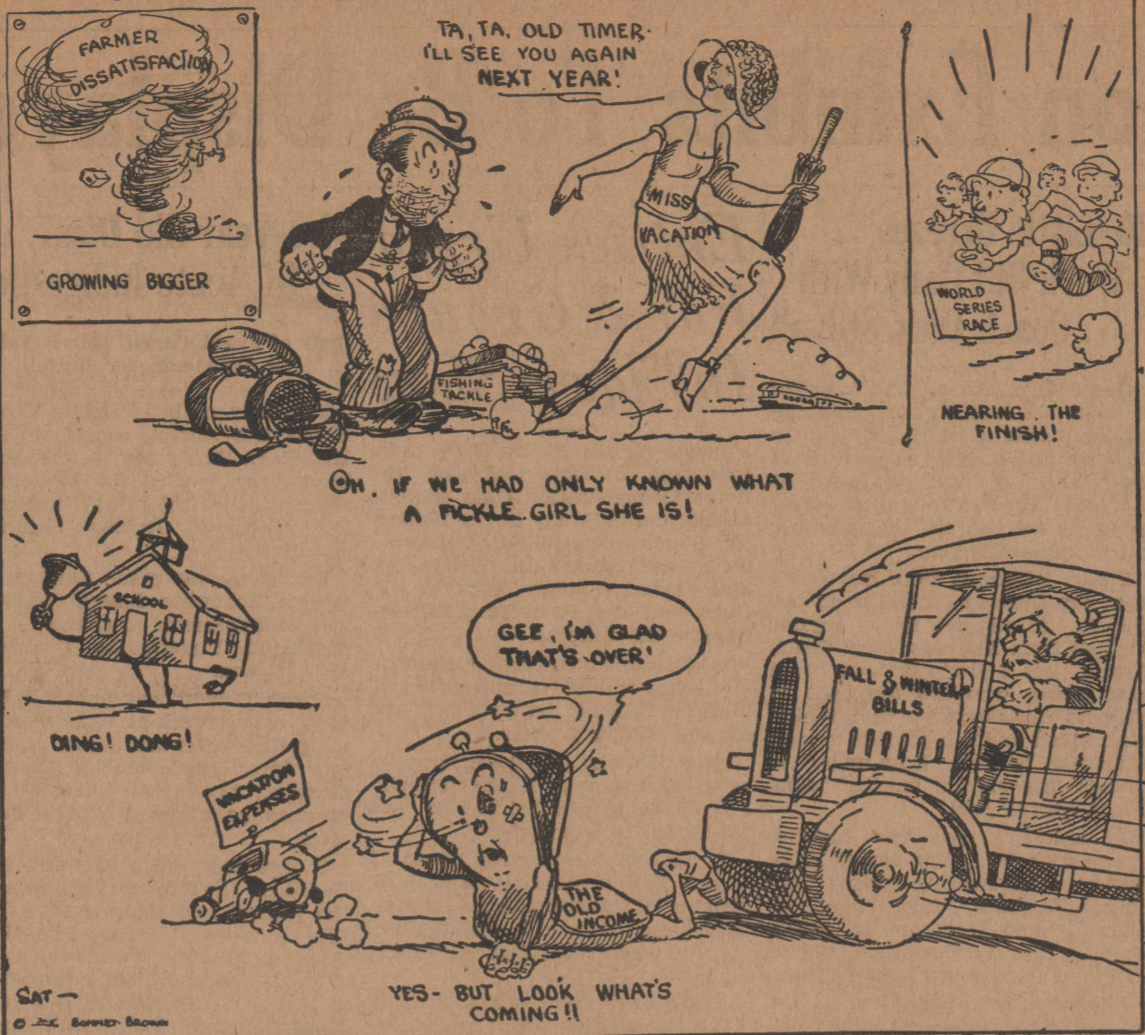

### PROBASCO BABY BURIED

Funeral services were held at 1 o'clock Tuesday afternoon for an infant son born to Mr. and Mrs. Probasco, city. The child lived only a few hours after birth Monday afternoon.

W. N. (Dutch) Brewster conducted the services at the Floydada cemetery.

Little Pen-o-Grams

September

ate organization no longer directs the affairs of the majority party in Texas. They look up the direction of the law as laid down by the legislature...

CUT TEXAS IN TWO

How valuable it would be to the whole of Texas if it were divided into two or three states!

And how much cheaper the machinery of government could be administered if the state were cut into such parts as would have needs and problems in common.

One of the big troubles now in selecting state officials is that the average citizen in West Texas, at least, votes in the same manner for men in responsible position the same way he would reach into a grab bag for a parcel.

Well-informed citizens by the thousands have never seen their state capitol would not know their senators or governor if they met them or him, and vote for men who cannot be conversant with the conditions with which the voters are faced.

Texas people could save a great deal of money and could have a much more efficient, responsive, responsible government if they would only make up their minds to make more states of Texas as it was intended they should do.

NOW THE AMENDMENTS!

In November at the general election Texas voters are going to decide the fate of several proposed amendments to the state constitution.

Now will every body who has his mind made up to make a study of these amendments and vote an informed conviction either for or against them, please rise!

THREE FOR DALLAS!

Dallas will have three representatives in the national congress beginning January 1,—or is it still March 4—thanks to our kindly state legislature's failure to "tear up" their favorite's districts and allow the state to be represented on the basis of population.

Now Dallas may have anything good that comes to Texas and the rest of the state will also run. While the rest of the state, especially the country boys, were voting their prejudices and convictions, the Dallas bunch were voting their geography.

DISCARD THE POLL TAX

There is evidence that legislation of the next year will include something on the matter of elections, primary and general. In particular the legislature may be bound to recognize that the political parties have some rights in the management of their party affairs.

When this time comes around the boys from the forks of the creek in particular should insist on the abolition of the poll tax as a part of the qualifications for voting. The parties of the state can protect themselves against imposters if given an opportunity to do so, under a reasonable law. But tens of thousands of loyal Texans are cheated out of a vote by the poll tax law.

And sure enough they were married. Mr. and Mrs. Public clapped their hands with glee and Civic Pride and Progress got three big slices of the wedding cake each, one at the table and two in the kitchen when the cook was out.

Clipped Quips

When a girl looks wise the world has a horrifying fear that she is.

Japanese schoolboys are said to be enthusiastic over English literature, showing that Mr. Sherlock Holmes has at last arrived in Japan.

Maybe the reason most crimes are committed by young people is that young people haven't yet found out that crime does not pay.

As a rule, the holders of longevity records haven't really lived. They've just stayed here.

"POT LIKKER" AGAIN

Chillicothe News: There are quite a number in this community who like their "pot likker." It is very palatable to say the least. We are pointing to the time, not far off, when there will be heaped upon the table turnips, turnip greens and that famous pot likker, corn bread and butter milk.

Who said we are having a hard time living?

The Round-up By The Cowhand Scribe

A TRUE STORY

By D. E. Presson

This is a sad story that has a moral but it is doubted if it will ever be found. It is about a family.

Mr. and Mrs. Public were happy. They had plenty of worldly goods and three dear children, one beautiful daughter, Fair Profit, and two sons, Civic Pride and Progress.

And then things began to happen quite unexpectedly. It all started over an airplane ride. Oh yes, the setting is all quite modern and very very realistic. My how we wish it were only a dream!

It all started over an airplane ride that the lovely Miss Fair Profit took with a dashing young aviator, Lucre Prosperity, who was making a tour of the United States along about this time.

The gal felt hard for this fellow and they kept quite a bit of company with each other and he took her for several giddy spins. No wonder Mr. Prosperity scored such a hit. He was one of the most popular fellows that ever came to any town. He could give dances, put on swell parties, buy fine clothes, had several makes of cars, a yacht, eleven farms, and took all the girls to see all the big sporting events. He had quite a following of friends.

His big passenger plane, The Stock Market Do-Us, was always filled with his friends going on long and wild rides.

Miss Fair Profit was the big shot, however, in Mr. Prosperity's eye. Everywhere one went the other was sure to go. Neighbors nodded their heads knowingly and smiled for they were well pleased with the match.

And sure enough they were married. Mr. and Mrs. Public clapped their hands with glee and Civic Pride and Progress got three big slices of the wedding cake each, one at the table and two in the kitchen when the cook was out.

But Mr. and Mrs. Prosperity didn't live happily for ever and ever am.

Along came a dashing young chap who was always trying to do something for somebody and he was a big help for a time but the gossips got to saying bad things about him and he lost his good reputation. This is Mr. Booster. Glad to meet you.

Mr. Booster finally managed to develop a close friendship with Mr. and Mrs. Prosperity and all went well for a time. One day the hubby returned home and found his wife, nee Fair Prices, in the arms of Mr. Booster. There was a scuffle and a knife flashed. Wife's throat was cut and she passed out of the picture. Old Booster escaped from the avenging hands of the hubby and went into hiding. Mr. and Mrs. Public and the whole United States cursed that fellow Booster and still do to this good day. He might not have been to blame. Who knows?

The very next day Mr. Prosperity and his plane, The Stock Market Do-Us crashed to the ground and the poor chap was almost killed outright but not quite. Nerves were bad, they said. He went to the country to live on the farm until he could recover. He may and he may not.

Mr. and Mrs. Public were not worried until they found that their son-in-laws entire fortune had burned with the plane. Oh migosh. Poor family. Little Civic Pride thought so much of his sweet sister, the late Fair Profit and famous as the wife of the late Mr. Prosperity, that he almost grieved himself to death. He took slow fever and died. Hinky please.

And his brother, Progress, who had shown such promise was stricken that very next week with infantile paralysis and complicated depression of the muscles and he ain't never growed no more. He may outgrow his ailment. There is still hope.

But save your sympathy for the mama and the papa—such a pity for them to have all their dreams crushed and their home torn asunder. Another hinky for Mr. and Mrs. Public.

The end.

We humans are amazed at times at the startling things we "catch" ourselves doing. We wake up to find that we have not been attending church regularly, that we have not paid our best friends a visit in months, that we have let the weeds take the place, that we have not contributed one single deed toward promoting the Brotherhood of Man.

S. A. Greer told the Cowhand the other day that he was quite amused at a story recently about a bunch of sparrows that had frozen to death in the trees at the court house lawn. "It said that the birds were molting and had frozen after getting wet," Mr. Greer declared.

He said he never would forget how tickled he got over the idea that birds molted. "They were just young sparrows and were not covered with feathers; that was all," he said in explaining how it all occurred.

That brings up another serious question for discussion. "Do birds shed their feathers and molt or don't they?"

Get busy and line up. Some say they do and some say they don't. I'm on the side that say they do. My argument is that chickens and turkeys and other feathered animals shed their winter weights and put on their summer flannels then why not sparrows?

Now Mr. Greer he contends that all those birds Mr. Browning picked up were young ones and froze before they got toughened up. Mebbe so. Mebbe so. But get that shore was a big crop of new birds.

And them that are on my side can point out that the mama birds pull out their feathers to feather their nests like some women do their husbands' hair only for a different purpose.

I'll be glad to have some written argument from both sides of this important question that is troubling us all right now along with football and the price of cotton and holes in the bottoms of our shoes.

I was talking with Pete Smith about that big rattlesnake they killed up in the canyons near Amarillo the other day that was six feet in length and had swallowed a jack-rabbit. Its fangs were three-quarters of an inch in length. Pete says just a short time ago he helped kill a diamond rattler down in Blanco Canyon that was bigger than that one up at Amarillo. Gee whiz I wish we could have had that monster on display at the office. Pete said he kills so many of them that it never occurred to him that the snake would be of interest.

"We killed him and I hung him across the fence. I kept his rattlers; they were broken. There were nine rattles and they are big ones," said my friend Pete.

FLOYD COUNTY 14 YEARS AGO

News items taken from files of the Floyd County Hesperian published in Floydada fourteen years ago.

ISSUE SEPTEMBER 19, 1918

W. H. Foster, city, had notice from the Adjutant General's office in Washington, D. C., Monday afternoon that his son, Private Paul Foster, had been made a prisoner of war and that he is located at a prison camp at Darmstadt, Germany. No additional information is given concerning him but Mr. Foster is notified that any such information will be promptly forwarded to him.

Wells Henry, son of Judge F. P. Henry, has been very sick from bronchial pneumonia in a base hospital at Quantico, Virginia, the past few days. Information received through the Red Cross Tuesday indicating that his condition was serious. Judge Henry left this morning to be with his son.

Floydada's first bale was received yesterday afternoon. It was raised by G. I. Dunavant four miles southeast of town and was ginned by J. F. Blanton & Co. The bale weighed 466 pounds and was sold to Martin Dry Goods Co. for 32 1/2 cents per pound, bringing a total of \$151.45. It graded middling.

Among the Floydada people in the Burk Burnett oil field this week are: W. M. Windsor, Geo. W. Foster, Dr. J. H. Massie, T. B. Triplett, R. O. Fields, C. W. Mitchell, F. M. Butler, all of whom have interests there.

Haden Harris, son of J. R. Harris, and Miss Ruth Rawlings, daughter of S. C. Rawlings, were married in Floydada Wednesday evening of last week at 8:30.

M. M. Day, of Lockney, was in Floydada Friday of last week on business.

Contemporary Thought

STOCK TAKING TIME

Loose Leaf Magazine: You sit in your armchair at home, press a button of your radio, and into the room clearly and distinctly come the voices of children singing in Germany, five thousand miles away.

A cowboy in his cabin out in Idaho turns the dial of his radio and attends the World's Series baseball game in New York City with all the vividness of a man seated in his box at the game.

A young woman leaves Harbor Grace, N. P. after breakfast today and tomorrow has tea at Buckingham Palace in London. She has spanned the ocean alone in a tiny air machine.

A few years ago such things were not even dreamed of. Today they are so much a part of our lives that we hardly give them a second thought.

Yet we ought to pause occasionally to consider if we are in step with the wonderful advancement that is taking place in spite of economic stress.

With all the progress around us how little our lives have changed.

How small has been our own progress.

While science has moved forward at an unparalleled rate, has our initiative become stagnant—our energies inactive? Are we coasting along with the tide?

These thoughts are timely! Right now—with the turn in business—is the time to take stock of our shortcomings, to shake off old habits of sluggishness and pessimism, to pull up our belts a few notches and to go in step with the things about us—the most remarkable opportunities the world has ever known.

TAIL OF A SHIRT

Memphis Democrat: It seems to us as if almost everybody must be pretty near out of clothes by this time. We don't see how the necessity for new clothes can be met without having some effect upon general business conditions. We notice in the fashion papers and on the streets that women's skirts are getting longer and their sleeves bigger. That ought to mean a large demand for fabrics of all kinds, and that, in turn, ought to mean a better demand for cotton and wool and silk and rayon, out of which to manufacture the fabrics.

We don't think American women are going to dress out of fashion very long, and while it was easy enough to cut down the long skirts and cut off the long sleeves, it is not going to be so easy to make over a short-skirted, sleeveless dress into one with full sleeves and a long skirt.

We don't remember the name of the political economist who pointed out, many years ago, that if he could be Emperor of China and issue a decree that every Chinaman's shirt tails must be three inches longer, it would double the business of the Manchester cotton mills.

Hester West Tells Of Ocean Trip To China

Third Article From Local Girl Describes Voyage to do Missionary Work For Church.

Following is the third article from Miss Hester West, daughter of Mr. and Mrs. John L. West, of this city, who left last month for China where she will do missionary work for the Methodist Church. The two preceding articles told of her experiences in the United States and the actual sailing for China. The letter was mailed in Yokahama. It reads in part as follows:

The next morning when we waked we knew by the pitching of the boat that we were really out to sea and outside of the harbor. We got up bright and chipper but the constant rolling of the boat made us sick in a very short time the wind was having great sport teasing our boat. It was in turn teasing our boat. To get even we were being teased by it. We had all the symptoms of sea sickness but how could we see the fish starve? The next day it was smoothed and since then we have become adjusted and don't pay the wind's pranks any mind at all.

We sleep, play deck tennis, quito, shuffle board, checkers, chess, forty two, dominos, read, go walking on the deck, take a nap in our deck chairs or in our bunks. Talk to the many interesting people on the boat and amuse ourselves by writing our varied experiences. Before I forget I must tell you that the porter on the car where we lived from Monday to Friday was a Fiske graduate and lived in Calgary, Alberta. He soon found we were from Scarritt and that we loved Fiske. From that time on we had a sworn friend. He was able to make our long journey a very pleasant one by his advice and his kindnesses to us. He loves Scarritt and Scarritt folks. We all hated to tell him goodbye at Vancouver for he was a very interesting person.

Two days ago we passed within seeing distance of the Aleutian Islands. They looked more like icebergs than anything else I know of. We were about 50 or 75 miles of them. I saw 3 of them. It has been cool and either foggy or misty ever since before we got to St. Louis. Some days it has been really cold. When we passed the Islands we turned southwest, and gradually the weather is getting warmer. They say it will be very hot when we get to Kobe.

We have been turning our watches back about an hour every night since we set sail. Day before yesterday was Thursday and yesterday was Saturday! It's a fact. We crossed the date line and lost Friday clear light.

We have movies about twice a week here. I went once but didn't like that type of picture. Had a Fancy Dress Ball last night. I went and watched for a while. Since a large percentage of the passengers are missionaries who don't dance, there was not a large crowd on the floor.

Tonight we are to have a sacred singsong and a sermon by one of the missionaries. I'm glad because I am hungry to hear some religious songs and service. On Wednesday we are to land at Yokahama, Kobe on Thursday and Nagasaki on Friday. On Sunday morning at 9:00 we are to land at Shanghai, the port of my adopted land-China. I am going to mail this letter in Yokahama so it can carry back the news that I am well and happy with the prospects of my new work to cheer me on. Remember that I will be thinking of my friends back in the states ever so many times, and will be praying that the affairs of my country will be so regulated that our work here in the Orient and all over the world will not be the part of

those whose are ashamed of nation.

Much love to all, Hester D. West.

### Quarterly Conference Lockney Circuit On Next Sunday At McCoy

Quarterly conference of the Lockney Circuit, to be held Sunday afternoon next, September 25, with the McCoy Methodist Church, will be preceded by preaching Saturday night and Sunday morning by the presiding elder of the district, Rev. E. E. White.

Church officials from the various churches on the circuit are expected to be represented in the quarterly conference Sunday afternoon. Plans are being made to have dinner on the ground Sunday at noon.

Rev. A. C. Jones, of Lockney, is pastor of the circuit.

### Baptist Convention Date Change Is Made

The Executive Board of the Baptist General Convention of Texas meeting in Dallas, September 13, voted to change the date for the meeting of the Baptist Convention from November 9 to November 16. The Convention voted last year to meet in Abilene in 1932.

Plans were completed for the raising of \$600,000 for missions and benevolences by means of the Every-member Canvass Campaign now in progress among the 490,000 Baptists of Texas. Dr. J. Howard Williams, Executive Secretary of the Board, was placed in charge of the campaign, and he has appointed seventeen organizers in as many districts representing every portion of Texas.

The campaign will continue until October 30. The final week, October 23-30, is designated as pledge week, at which time every Baptist in the state will be solicited for a pledge to the \$600,000 fund.

The money raised by this campaign is to be used by the Baptists for their work of missions and benevolences; every Baptist institution is to share in the funds, whether it is in Texas, in China or elsewhere. The proportion of the funds to go to each institution will be worked

out at the meeting of the State Convention to be held in Abilene November 16.

### First Bale Premium \$36.60; Sold Thursday

The first bale of cotton to reach the Floydada market for the 1932 season, received at the Texas Cotton Co-operative Gin Wednesday night of last week and sold Thursday-afternoon, brought the grower, Jno. A. Jones, of Campbell \$6.75 per hundred, a premium of three-quarters of a cent over the market for the day. In addition a premium list of \$36.60 was made up among the business houses of the city and turned over to the grower.

J. R. Maddox purchased the first bale. It was middling grade, with seven-eighths inch staple, and was auctioned off on the square.

Donors to the first bale premium included The First National Bank, Mallory Grocery, White Drug Company, M System Grocery, Westers Bakery, Finkner Motor Company, Westmoreland Battery Company, Martin Dry Goods Company, Ben Capes of S. A. Rider Company, Chicago, H. & B. One-Stop Station, Curley's Cafe, L. G. Withers, M. D. Jones Dry Goods, C. P. Looper, K. A. Osburn, Rutledge & Company, Stansell & Collins, Floydada Sheet Metal Works, Hull & McBrien, Arvine Drug Co., Star Cash Grocery, J. U. Borum cotton, Rainer, Shoe Shop, Floydada Drug Co., Speer's Variety, Baker, Hanna & Co., Woody Drug Co., Pelton-Collins Grocery Co., Wilson Kimble, J. W. Jones, B. K. Barker, Kirk & Sons, Willson & Son, J. A. Enoch, Floydada Creamery, South Plains Lumber Co., Howard Cline, Consumers' Fuel Association, Del Rue Cafe, J. C. Penney Co., Floydada Insurance Agency, J. B. Bishop, Geo. B. McAllister, Tom McClung and V. L. Elliott.

Last year's first bale was raised by J. T. Carter. It reached this market on September 7 and brought the raiser 6 cents even, a premium of 85 cents above the market for that day. The opening market this year thus is indicated to be slightly more than a cent above the opening spot market last year.

#### 19.52 PROTEIN TEST

The highest test for protein content of wheat that has come to our attention is one from a crop grown by J. A. Goins on the J. M. Massie place five miles north of Floydada on the Silverton road. Field representatives of A. & M. College in July assembled samples from many farms over this section and a sample from the Goins field tested 19.52 protein content.

Mr. Goins has already sold the wheat from this particular field, and expected to sell on the market at the time the sample was taken. However, he was interested and asked for the report, which he received last week.

#### CARD OF THANKS

We are deeply grateful for the kind and thoughtful assistance rendered us during the serious illness of our husband and father, A. V. Haynes. We sincerely appreciate everything that has been done by our neighbors and friends. His condition is much improved at this time and we all feel that the loving care of his friends, the expressions of interest with beautiful flowers, and the untiring efforts of Dr. Lon and Dr. Geo. Smith, all contributed to his passing successfully a crisis in his illness.

Mrs. Buck Formby left Thursday of last week for Los Angeles, California, where she will make her home. Mrs. Formby was accompanied to Carlsbad, New Mexico, by her mother and father, Mr. and Mrs. R. A. Burrows. She was met there by Mr. Formby's sister.

### A Farmer's Life

"As He Lives It"

BY ED HOLMES

(Station C. E. H. Farm)

This is being written as I sit in the hog barn at the Amarillo Tri-State Fair. The fair seems bigger and better than ever. There are all colors, types and sizes of hogs.

I had stayed at home so long and looked at my pigs until I thought they were the best in the world. If you learn something when you lose, well I am sure to learn something up here.

Judging of the Durocs will not take place until too late to be printed this week. If I am any judge, it is just too bad for my pigs however.

I sure enjoyed the Banquet given the exhibitors by the Kiwanis Club in the Amarillo Hotel. The eats were fine and they had a snappy program that made us feel like we were welcome. They sure do things in a big way up here. President J. A. Hill from Canyon made a short talk that was appreciated very much.

There is a fine crowd that seems to be just milling around looking things over.

I just can't understand how there can be a depression when such a crowd in West Texas will gather in one place with so much fine stock and exhibits of all kinds, to have a week of celebration. There must certainly be wealth, brains and work co-operating together in the human race that at the first glance is overlooked.

At the best, we overlook the things that keep the world going so fine. Alma is at home, keeping things going smooth while I try to learn how to grow better livestock and beat the other boys showing them, thus getting the money to establish just one more American home, among millions of others.

There is a sign on the highway that reads like this: "School, don't kill a child!" then in almost as plain letters that were scratched in the paint said, "Kill a teacher."

### Seeding Started On Callahan Wheat Fields

Seeding of the fall wheat crop has begun in Floyd County, one of the early beginners being the Stringer Estate, with extensive wheat lands in the west part of the county.

E. W. Merriott, who is interested in the big wheat project, said last week that the planting of a 1200-acre field was begun on Monday of that week. The land was in fair condition, he said, and a crop of winter weeds that came up with the cool weather and rains of two weeks ago, is being killed by the drills as the wheat is being planted.

A few other crops are also being put in the ground beginning this week, especially in cases where the total acreage being handled is large.

#### FIRST FROST IN SOUTH DAKOTA SEPTEMBER 12

The first frost of the season fell at Agar, South Dakota, where Mr. and Mrs. J. S. Stewart, former Floydada residents, now reside. Mrs. Stewart is the former Ora Scoggin, daughter of Mr. and Mrs. R. E. Scoggin of this city.

In a letter to her parents recently Mrs. Scoggin also told of the harvest now in progress in their vicinity. Mr. Stewart is a carrier on a route out of Agar.

C. H. Brazier, of Crosbyton, was a business visitor in Floydada Monday of this week.

### 'Red Headed Woman' Comes To The Palace Theatre For Week-End

Jean Harlow Shown in Vivid Character Study From Widely-Read Novel.

Jean Harlow, of the famed platinum-blond tresses, offers a surprise to filmgoers in her latest screen role, as the heroine of "Red Headed Woman," opening tomorrow at the Palace Theatre.

In order to play the title-role in Metro-Goldwyn-Meyer's filmization of the sensational Katherine Brush best-seller, Miss Harlow was required to change her hair to a flaming red, a change which is reported to make quite a difference in her appearance and personality.

"Red Headed Woman" presents a vivid character study of a woman who stops at nothing to gain her unscrupulous ends. Starting out as a stenographer, with her only weapons as generous supply of sex-appeal and an overwhelming ambition for wealth and social prestige, she ends up with her hands on a title and its accompanying millions. In her wake, however, she leaves a trail of broken hearts, disrupted homes and disillusioned men.

The story is said to give Miss Harlow the greatest acting opportunity of her career. That the film version also has its share of humor is guaranteed by the fact that the novel was adapted to the screen by Anita Loos, author of that side-splitting satire, "Gentlemen Prefer Blondes," and was directed by Jack Conway, responsible for many William Haines comedy hits, as well as the Barrymore mystery satire, "Arsene Lupin."

A strong cast appears with Miss Harlow, including Chester Morris of "Alibi" and "Miracle Man" fame in the male lead; Lewis Stone, in the role of the father who attempts to "buy off" the red-haired siren; Lella Hyams, as the wife whose domestic happiness falls about her ears; Una Merkel as a wise-cracking beauty-parlor employee; Henry Stephenson, recently seen on the New York stage in "Cynara"; May Robson, who scored as the mother in "Letty Lynton"; Charles Boyer and Harvey Clark.

The picture has been lavishly produced with scenes ranging from a small American suburban town to New York and a reproduction of the famous Longchamps raccourse near Paris.

Red headed women will be admitted to see Jean Harlow's characterization free either Friday or Saturday, Jack Deakins, manager of the Palace said Monday.

#### SEPTEMBER DAHLIAS NOW AT BEST IN FLOYDADA

Of many dahlia growers in Floydada, Rev. I. A. Smith, pastor of the First Methodist Church, is one of the most enthusiastic, the culture of flowers in general and dahlias in particular being one of his hobbies.

Three dahlia blossoms brought to the Hesperian office Tuesday morning to adorn it, were the Miss Warner, an orchid-hued flower, the Jersey Beacon, having a reddish orange petal tinged with tan, and a Cigarette dahlia of almost the same hue. It is called the Cigarette because the petals roll like a cigarette when in full bloom. This last-named does not run true to color each year, Rev. Smith said. In fact, it quite often grows different-hued blossoms on the same stalk.

The culture of dahlias is a very interesting study, the minister said, and as a hobby has proven quite a pleasure to him.

In the Smith dahlia garden at the Methodist Parsonage, 127 West

Kentucky Street, are twenty-five possibly thirty varieties of dahlias. Rev. Smith likes to put his bulbs out early and get a long flowering season. As a result the blooms are not so large as the late-plantings which, however, have the disadvantage of the short flowering season.

Miss Alice Joy, dream girl of radio land, will be starred in the "Dream Girl Follies," which is now being produced and will be presented as the auditorium attraction at the 1932 State Fair of Texas. Miss Joy is known to millions of radio listeners as the dream girl, and comes to the State Fair of Texas with a long list of stage successes to her credit.

Delbert Eubank returned last week from Austin where he spent two or three weeks.

# It's Here! The New John Deere Cotton Picker

Here is shown the new Model 31 John Deere Picking Machine

## What It Will Do

1. Picks 7 to 8 acres a day.
2. Eliminates large portion of dirt, leaves few on plant
3. Gets 98% of cotton off the stalk and a good percent of that on the ground.
4. Easy and cheap to operate, few running parts
5. Two horses all that is required to pull it.
6. Has automatic dumper; hopper can be dumped by a lever handy to the driver.
7. It may be used successfully before frost green cotton when a large per cent of the cotton is open and the remaining unopened bolls are mature.

John Deere Farm Implements  
Floydada, Texas

Mr. Gene A. Howe, Amarillo, Chairman, and Messrs. Arthur Duggan, Littlefield, C. W. Warwick, Canyon, Byron Dickenson, Lubbock, Herbert S. Hilburn, Plainview, George Broom, Amarillo, and Dr. G. T. Vineyard, Amarillo,

Members of a committee organized for the purpose of protecting interests of certain stockholders of the American Commonwealths Power Corporation residing in the Panhandle of Texas and Eastern New Mexico.

Gentlemen:

It will be perfectly obvious to the members of your committee, I think, that the present is an inopportune time for the writer to discuss the question of the proper type of reorganization of either the American Commonwealths Power Corporation or the American Community Company, primarily because the question of the treatment of the Six Dollar preferred stock represented by your committee, together with all other classes of stocks, bonds and debentures of said companies, is now the subject of serious consideration on the part of protective committees organized shortly after the appointment of receivers for said companies.

The writer has at all times taken the position with the receivers of said companies and also with the protective committee representing the American Community Company debenture, five and one-half percent bonds, that any reorganization plan that does not adequately provide for the security holders, represented by your committee, in a perfectly fair manner cannot be consummated. Any constructive plan for protecting the interests of the Six Dollar preferred stock represented by you will have my sincere and active support.

I realize the difficulties which will be encountered by your committee in its efforts to find a plan that will prove to be workable and acceptable to interested parties represented by your committee, nevertheless, I believe a plan should be devised which will, in your judgment, be for the best interests of the parties represented by you and the people residing in Eastern New Mexico and the Panhandle of Texas, and to that end I am pleased to assure you that I stand ready to render any assistance within my power to put into effect any measures or plans decided upon by you for the purpose of protecting the common interest of all parties concerned.

Very truly yours,

I. R. KELSO.

Amarillo, Texas.  
September 21st, 1932.

### Sunday School Lesson

#### VIEW WITH MISSIONARY APPLICATION

National Sunday School lesson—Sunday, September 25.

Text.—Ask of me, and I will give thee the heathen for thine inheritance. (Psalm 2:8.)

Text.—Scripture taken from the quarter.

Nov. 22:6—

A child in the way he will be found when he is old he will be found from it.

Exodus 4:12-13—

## Hesperian Cross-Word Puzzle Number 62

Now therefore go, and I will be with thy mouth, and teach thee what thou shalt say.

And he said, O My Lord, send, I pray thee, by the hand of him whom thou wilt send.

Lesson 3—Exodus 12:28—  
An dthe children of Israel went away, and did as the Lord had commanded Moses and Aaron, so did they.

Lesson 4—Exodus 14:15—  
"And the Lord said unto Moses, Wherefore criest thou unto me? speak unto the children of Israel, that they go forward."

Lesson 5—Exodus 16:4—  
"Then said the Lord unto Moses, Behold, I will rain bread from heaven for you; and the people shall go out and gather a certain rate every day, that I may prove them, whether they will walk in my law, or no."

Lesson 6—Exodus 20:4—  
Thou shalt not make unto thee any graven image, or any likeness of any thing that is in heaven above, or that is in the earth beneath, or that is in the water under the earth:

Lesson 7—Lev. 19:18—  
Thou shalt love thy neighbor as thyself: I am the Lord.

Lesson 8—Exodus 14:15—  
And he said, My presence shall go with thee, and I will give thee rest.

Lesson 9—Exodus 25:21—  
And they came, every one whose heart stirred him up, and every one whom his spirit made willing, and they brought the Lord's offering to the work of the tabernacle of the congregation, and for all his service, and for the holy garments.

Lesson 10—Isaiah 5:22-23—  
Woe unto them that are mighty to drink wine, and men of strength to mingle strong drink:

Which justify the wicked for reward, and take away the righteousness of the righteous from him!

Lesson 11—Numbers 10:29—  
We are journeying unto the place of which the Lord said, I will give it you: come thou with us, and we will do thee good: for the Lord hath spoken good concerning Israel.

Lesson 12—Numbers 13:30—  
And Caleb stilled the people before Moses, and said, Let us go up at once, and possess it; for we are well able to overcome it.

Time and Place—Moses died on Mt. Nebo, in the land of Moab, east of the Dead Sea, B. C. 1459.

The topic given this lesson is, "What the world owes Moses." Since we call this a Missionary Review, let us think of it under the following topic: How Moses helps the church to see its world-wide mission. Moses was trained for God's service, saw God, heard God, obeyed God, and was a successful leader for God. He moved at God's command, delivered God's commandments unto the people, and was honored in his death because he had honored God in his life. Truly, he was a guiding, interceding and teaching missionary. He guided God's people through difficult places: prayed for them in times of great danger, and gave them the foundation of the most valuable system of laws and ethics the world has even known.

The Lesson Comment  
We could wish there were one more Sunday in this quarter, a Sun-

day when we might go with Moses the last mile of the way. We saw him first in his little cradle, hidden among the flags and rocked on the bosom of the Nile. We should love to stand with him on the crest of Mount Nebo, where he looked across to the Land of Promise to which he had led his people. He had installed Joshua as leader in his stead, had bade the people good-by, and with his hand in that of his God had gone up the mountain. We do not know what passed between God and Moses at this time, but at the least, God gathered his tired servant in his arms and laid him gent-

ly to rest in the heart of the mountain. It was a long step from the Nile to this mountain-top experience, and the years covering that period embraced a world of pathos, sorrow and heartache. But it was a glorious walk with God, a glorious life, with a most glorious death. The Golden Text of Lesson 1 tells us where missionary work should begin—in the home and at the very beginning of a child's life. Train a child up in the way he should go, as Moses was trained.

Being properly trained at home, Moses was in a position to lead his own people out of the darkness of bondage, into the freedom of light. There was need of great patience in dealing with the murmuring people of Israel. You remember how Moses begged the Lord to forgive the sinning people, and earnestly said: "If thy presence go not up with us, carry us not up hence." He could not afford to go on with his undertaking unless Jehovah led the way.

Mr. and Mrs. John Richards, of Paducah, were guests Sunday of Mr. and Mrs. A. V. Haynes. Mrs. Richards also visited her mother, Mrs. Mollie Gibson, of Vernon, who is spending the week here with her brother, Mr. Haynes.

## Quantity And Quality Both To Be Stressed

(Continued from page 1)

Yellow tags. First place winners will be sent to the State Fair at Dallas early next month.

Exhibit of the work by the Home Demonstration Club girls will be one of the outstanding features of the show this year.

Fair committees are as follows: Standing exhibit committee: Mrs. A. H. Kreis, Campbell; Miss Blanche Ramsey, Harmony; Mrs. H. H. Meador, Lone Star. The members were appointed the first of the year to make plans for the fair.

Committee to receive and place the exhibit: Mrs. L. C. Wheeler, Blanco; Mrs. M. D. Ramsey, Harmony-Allmon; Mrs. Roy Thornton, Starkey; Mrs. S. H. Horn, South Plains.

Judging committee: Mrs. W. M. Knight, Sand Hill, secretary; Mrs. S. M. Lester, Liberty, Mrs. W. S. Poole, Antelope, Mrs. Webb Taylor, Fairmount-Edgin, Mrs. Clyde Baxter, Lone Star, Mrs. S. D. Scott, Pleasant Hill, Mrs. C. O. Spence, Center, Mrs. D. D. Shipley, Lakeview, assistants to the judge.

Carnival booth committee: Mrs. J. B. Turner, Blanco-McCoy; Mrs. S. J. Latta, Campbell, and Mrs. A. R. Hanna, Sand Hill.

Marketing booth: Miss Blanche

Ramsey, Harmony, in charge. In connection with the Home Demonstration Club girls' and women's exhibit will be a Flower Show and an exhibit of woodcraft by the Boy Scouts.

### To Conduct Booth

The only entertainment feature this year will be a special booth which will be under the supervision of the club women and the proceeds realized will be used to defray the expenses of sending the exhibit to the Dallas Fair.

Definite decision to hold the fair was voted by the club women at the County Council Saturday. The announcement was made that in spite of the fact that the Commissioners' Court had discontinued the county's home demonstration appropriation effective October 1, plans to have the fair would be carried out as announced previously. Miss Myrtle Murray, district home demonstration agent was here in session with the council.

### Strong Interest Expected

Interest is expected to be more pronounced this year owing to the fact that the exhibit will be the only "fair" the county will have this year.

Included will be canned products, wardrobes, posters and record books entered by members in the 18 women's clubs and the ten girls' clubs. The individual exhibit will be scored as follows: 100 per cent filled score card, 100 points, 50 per cent

filled, 50 points, and less nothing; each club filling the club exhibit completely will receive 100 points.

For the items first place will get 10 points, second 5 points, and third will get one point, it was explained.

Posters will be scored on record, originality, arrangement, emphasis on important points, and neatness.

The individual exhibit for each club woman will include the following:

- 4 quarts canned vegetables (in standard containers.)
- 2 quarts canned fruit.
- 1 pint green tomato pickle.
- 1 pint cucumber pickle.
- 2 pints relish.
- 1 pint watermelon rind pickle.
- 2 containers of jelly.
- Each club exhibit will include:
  - 1 uniform poster of Poultry Demonstration's record up to date.
  - 1 uniform poster of Food Supply Demonstrator's record up to date.
  - 1 uniform poster of Wardrobe Demonstrator's record up to date.
  - 1 hooked rug (wool) or (hemp).
  - 1 braided rug.
  - Woman's wash dress.
  - Boy's cotton suit.
  - Girl's cotton dress.
  - Guest towel.
  - Pillow slip with plain finish.
  - Dresser scarf.
  - Secretary record book up to date.
  - Women's clubs planning to take part in the exhibit which will reflect some of the things that have been accomplished in a program for better homes and happier, healthier families in Floyd County are as follows:

Antelope, Blanco-McCoy, Center, Campbell, Cedar Hill, Fairmount-Edgin, Harmony-Allmon, Irick, Lakeview, Liberty, Lone Star, Pleasant Hill, Pleasant Valley, Prairie Chapel, Roseland, Sand Hill, Starkey, and South Plains.

Ms. C. A. Caffee, of Antelope, is chairman of the County Council of the clubs staging the exhibit which will be free and open to the general public.

Girls Home Demonstration clubs that will take part are as follows: Antelope, Baker, Sand Hill, Lakeview, Irick, Fairview, South Plains, Liberty, McCoy, and Starkey.

The clubs have a combined membership of 710 members, 543 women and 167 girls.

"We would like to have everybody turn out to see our exhibits as if it were a county fair," said Miss Faulkner in issuing a general invitation to the public.

### Sanitarium Notes

Lavada West, Lakeview, underwent an appendicitis operation Thursday of last week.

Mrs. Ernest Tommie, city, had an appendix operation Saturday.

Erna Mae Brown, McAdoo, had a tonsilectomy Sunday. Dr. Parkhill, of Crosbyton, accompanied the patient.

Chester Burke, McAdoo, had a tonsil operation Tuesday and was dismissed Wednesday.

### VOC. AG. BOYS SELL 'ROOSEVELT, GARNER' POSTERS FOR AUTOS

Cardboard posters carrying the names of "Roosevelt and Garner," nominees of the Democratic party for president and vice-president, respectively, are making their appearance in Floydada this week as the result of a sales campaign being conducted by members of the vocational agriculture classes of Floydada High School of which Principal O. T. Williams is teacher.

The funds realized from the sale of the posters will go in part to help defray expenses of two members of the class to the state convention of F. F. A. boys to be held in Dallas in October, if present plans mature. The other portion of the money will go to the national Democratic campaign fund, it was explained.

The posters are being sold for 20 cents each.

### HARMONY-ALLMON H. D. CLUB DISCUSS ANNUAL FAIR

The Harmony-Allmon Home Demonstration Club met Monday afternoon in the school auditorium at the Harmony school to discuss the fair preparations.

A round table discussion was held on "the advantage of each woman filling the individual score card;" Mrs. Mankin discussed "what we do to improve our exhibits;" Mrs. Battey "plans for our exhibits;" and Miss Faulkner gave a discussion of "putting up exhibits."

Mr. and Ms. Lawton Thomas were in Plainview Tuesday night.

## Wheat Outlook for Fall

(By O. T. Williams, Vocational Agriculture Teacher of Floydada High School.)

The farmers indicate that they will plant about 39,805,000 acres of winter wheat this fall. This would be only a small decrease from the area planted last fall of 40,172,000 acres.

An area of 39,805,000 acres sown would result in a harvest area of approximately 35,000,000 acres, as an average of 12 per cent is abandoned each year. This area is expected to produce about 510,000,000 bushels. At present acreage levels the spring wheat crop with average yields, would be in the vicinity of 275,000,000 bushels, making a total of about 785,000,000 bushels.

Domestic utilization in the United States may be expected to average a little over 650,000,000 bushels. This would give the United States a carry-over of about 100,000,000 bushels. We had a carry-over this last year of 363,000,000 bushels. July 1 the world carry-over of wheat amounted to 669,000,000 bushels.

During the past two years, about 100,000,000 bushels of wheat has been

fed. This has helped to cut down the carry-over. This year, however, it is not expected to be so large as the largest feed crops are being produced this fall, than in the last 5 years.

Unless there should be an exceptionally short world crop, it appears that the reduction in the world's present burdensome stocks is more likely to result from an increased consumption than from a declined production.

Among the elements retarding the reduction in present large stocks of wheat are the very high tariffs, the import and milling quotas and other restrictions. These have had a direct tendency to maintain high prices in the importing countries and consequently to restrict consumption and to maintain or increase their production. There has thus far been little evidence of any general tendency to relax these restrictions or international trade.

I see nothing that would indicate any brighter, near future for wheat. These facts were given out by the Bureau of Agriculture Economical, Washington, D. C.

### FORT WORTH NEWSPAPERMAN WIFE AND SON IN WRECK

J. Montgomery Brown, Fort Worth newspaperman, together with his wife and son, Clay, had a miraculous escape from serious injury on the highway three and a half miles out toward Lockney yesterday afternoon when a tire picked up a twenty-penny nail and their car began spinning in the road and overturned completely before it could be stopped.

R. C. Henry, manager of Conoco Station No. 1, took charge of the family, had their car injuries repaired and after they had regained their calm, the party again were on their way last night. They were Los Angeles bound. Mr. Brown was formerly an executive on the Fort Worth Record and recently has had the Commercial Recorder there.

### ENGLISH PREFER PORK WITH MODERATE CURING

Discovery that American Wiltshire sides have been more heavily cured than apparently was necessary may be important in helping the United States regain part of this British pork market which has been lost in recent years, the United States Department of Agriculture says.

To study the reaction of the English market to our product and to compare the Wiltshire sides from American hogs with those of other countries, the department shipped to England 70 sides from hogs raised in Montana. There an experienced British buyer selected four of the 70 Wiltshire sides as well as four each from Denmark, Poland, Ireland and Sweden, and shipped them to this country where they were thoroughly analyzed.

The Danish sides had the least salt. The American sides had a moderate amount of salt in the shoulder but relatively more in the other cuts and in certain respects were quite unpalatable on account of excessive saltiness. Since all the sides of foreign origin arrived here in good condition, some with less curing than the American sides, it appears that the heavy curing of the American meat was unnecessary as well as undesirable. By modification in our curing practices we may win greater favor with the British for our product, the department believes.

Mr. and Mrs. Robert A. Sone and son, Robert, Jr., left Monday for Sweetwater, where they will make their home. Mr. Sone will engage in the practice of law there.

Mrs. Tom Rowell and two sons, Tom and Lynn Joe, spent from Monday to Wednesday of last week visiting her parents, Mr. and Mrs. F. D. Roan. They were accompanied on the return trip to their home in Vernon by Mrs. Roan and daughter, Mary, and sons, W. T. F. D. Jr., and Harold and Wayne Roan who will visit in Vernon for an indefinite period.

Frank M. Dougherty, of Tubac, Arizona, spent a short time here and at Dougherty last week-end. He was the guest of his sister, Mrs. John Mayo and Mr. Mayo at Dougherty.

Mrs. Calvin Steen left the latter part of last week for Mineral Wells to spend a few weeks on a visit with friends and taking the mineral baths.

C. W. Ginn is in Tulla this mid-week on business.

Kyle Glover returned Sunday from Slaton where he spent the week-end visiting friends and relatives.

Mr. and Mrs. Clement B. McDonald, of Quitaque, were in Floydada Sunday, visiting in the home of Mr. and Mrs. L. C. McDonald.

## Judge Howard Returns Does Hesperian Favor

**Machinery Belt Brought to Office Proves to Be Property of Newspaper.**

Judge J. W. Howard brought The Hesperian a piece of machinery belonging the first of the week as a favor to the loser, suggesting that a Want Ad might find him and get the belting back in the owner's hands. The trip of the judge was not without its value for the owner was found, but the want ad was unnecessary. The belting belonged at The Hesperian office.

Some of the neighbors saw the piece of belt thrown in the weeds near the Howard home by a small lad, who, it appears, planned to retrieve it later and realize something from it. Petty thievery, as well as the major type, has been on the increase of recent months, and the judge expected the owners to be found close to hand. Which was correct again. The belting, through carelessness, or faith in the mine run of humanity, had been left in the coal house at the printing office. The little boy saw it and could not resist, doubtless. At any rate it was picked up in the grass at the side of a street by Judge Howard, brought to The Hesperian office for restoration to the owner,—and sure enough it was.

L. G. Mathews made a business trip to Fort Worth and Lubbock last week. He spent Friday trying a case in Fort Worth and Saturday on a case in Lubbock.

Miss Mildred Welborn left Friday of last week for Waxahachie, where she began fall term work in Trinity College.

Among the Floydada boys who will attend Texas Technological College the fall term is Harold Terry, who last year was a student at Cameron A. & M. College at Lawton.

Mr. and Mrs. C. M. Martin and son, Jack, returned home the latter part of last week after an extended visit at St. Louis, Missouri, with Mrs. Martin's sisters, Mesdames Lewis Sanders and Gordon Gillespie.

C. W. Mitchell of Big Spring and R. B. Mitchell, of Plainview, were business visitors in Floydada Monday of this week.

Pat Howe, Dallas attorney, was in Floydada several days last week and this on professional business.

Misses Jewel Woolsey and Annie Jewell Fawver left Tuesday morning for Canyon, where they will matriculate in West Texas State Teachers' College for the fall term.

"The Dream Girl Follies," will bring a company of more than 100 to the State Fair Auditorium, and has a chorus of fifty, forty of whom are girls. The revue is being produced by Ernie Young, widely known Chicago producer, and changes the style of the State Fair Auditorium attractions from operetta to revues.

## Facts of Interest to Farmers ON COST OF GINNING COTTON

PRESENTED BY FLOYDADA GINS

It should be taken into consideration that the figures from the U. S. Department of Agriculture presented here were tabulated from records in the black land farming section of Texas. In Floyd County and sections of West Texas gin operating costs are considerably higher due to a much more rapid depreciation of machinery caused by sand and dirt deposited on wearing parts from the cotton. Then, too, gin men of this territory also have from \$6,000 to \$8,000 more invested in their individual plants to give better samples and turn outs from "bollie" and sand-laden cotton. Floyd County gin men have gone to heavy expense in installing cleaners to insure a better sample for their customers. A price of 34 cents per hundred pounds of seed cotton ginned in the black land region was the average cost while in this territory the average charge runs around 30 cents this year in plants where operating costs, depreciation, and investments are much greater.

#### The Cost of Ginning Cotton in North Central Texas

**EXPLANATION:** This survey was conducted in Dallas, Ellis and surrounding counties, all gins were taken in the territory covered. The study was made by experts selected by the government, they were assisted by auditors and appraisers. The survey covers 81 gins, and gives in detail cost figures for ginning.

Verbatim Extracts from pages 2, 3, 36 and 38

The cotton gin performs certain functions and services which are indispensable in the marketing of cotton. It is of interest to the gin operator, therefore, as well as to the producer and consumer, that the most efficient methods and practices be followed in gin operation. In any business, costs should be known to the individual engaged therein, that he may more intelligently influence the charge or price for the service he renders. Furthermore, should his costs be higher than the costs of his competitors, a thorough knowledge of the various cost factors is essential to a prompt adjustment of his business to a more efficient level. Costs are relative, and without a comparative cost analysis it is difficult for an individual to know whether his costs are high or low in relation to those of the group of which he is a member.

As new methods and practices are developed, and more and more men in an industry observe and practice efficient methods, a greater share of the savings effected may be passed on to the consumer. In the case of cotton ginning, if costs can be materially reduced, then unquestionably, ginning charges may be lowered, and both the grower and ginner would profit thereby.

Volume is a major factor in determining the cost of ginning. In the area covered in this study, plants with a volume of 1,000 to 1,500 bales had an average cost of \$6.97 per bale, whereas plants with a volume of 3,000 to 3,500 bales had an average cost of \$4.58.

#### ITEMIZED COST

The average cost of ginning cotton per bale for the 81 gins, bagging and ties not being included, was \$5.63 per bale.

Divided as follows:

Management	\$.74
Labor	1.39
Power	.72
Insurance	.37
Taxes	.11
Office Supplies	.08
Maintenance	1.21
Interest	.88
Incidentals	.13
Per bale cost	\$5.63

Or 34 cents per hundred pounds of seed cotton ginned.  
The plants included in this survey received \$666,212 for ginning 120,000 bales of cotton, while on the other hand the plants incurred a total expense of \$681,632, or a net loss of \$15,420.
