Jamous FAST STARTERS EVEN A SOUND TRAVELS SLOWER IN COLD WEATHER THE "BANG" OF A SHOTGUN-OR ANY OTHER SOUND-TRAVELS 1266 FEET A SECOND IN HOT SUMMER AIR. BUT WHEN THE TEMPERATURE IS ZERO, THIS SPEED OF 863 MILES AN HOUR IS REDUCED TO 741 MILES AN HOUR. NEVERTHE-LESS, YOUR EARS WILL HEAR YOUR MOTOR START WITH TRULY SENSATIONAL SPEED IN FREEZING WEATHER, IF THE TANK IS FILLED WITH PHILLIPS 66 GASOLINE. ITS HIGH TEST GIVES AMAZINGLY QUICK STARTING. AND PHILLIPS 66 GRAVITY RIGHT NOW RANGES FROM 65.6° TO 72.4°.

PHILL-UP WITH PHILLIPS . THE GASOLINE OF CONTROLLED VOLATILITY

"HIGHEST TEST"

at the price of ordinary gasoline

When you say "Hello" to Phillips 66 . . . the greater gasoline, you say "Good-by" to slow, hard starting in winter.

You know what happens with low gravity gasoline in freezing weather: The starter grinds. The battery drains. But your motor stays as silent as the Sphinx. With Phillips 66 in the tank, what a tremendous difference! You merely touch the starter with your toe—and quick as a wink -your cold motor snaps into life!

No coughing, spitting, sputtering, or complaining. Your engine warms up quickly and gets under way as smoothly as a locomotive under full steam. Besides you get better pick-up, snappier get-away, and more miles from every gallon. All without paying a penny of extra price for these high test benefits of Phillips 66—because Phillips is the world's largest producer of natural high gravity gasoline. Stop for a trial tankful tomorrow at the Orange and Black 66 shield
