

Dr. Sandefer Reports On Beer Bill Hearing In Austin Last Week

Report on a strong fight made by prohibition leaders of Texas before a committee of the legislature at Austin during the earlier part of February to prevent the passage of the proposed beer bill by the legislature, was the feature of a talk made before members of the Baptist and other congregations of Floydada at the First Baptist Church last Sunday night, by Dr. J. D. Sandefer, president of Simmons University.

Dr. Sandefer spoke here on an itinerary that carried him through a dozen cities and towns of the western part of the state during the week, beginning at Stephenville Monday. Two to three speeches per day were made by the Baptist leader. His talk in Floydada was preceded by one at Matador in the afternoon, and he is continuing the whirlwind campaign this week in this section. The culmination of the two week's campaign will be staged at Plainview Friday night, when prohibition leaders will converge on that city and an immense rally of prohibitionists will be held.

Dr. George W. Truett, of Dallas, Dr. Sandefer and other leading divines of the state appeared before the committee in its hearings at Austin and argued against a favorable report of the beer bill, which would have made legal the manufacture and sale of 3.2 per cent beer in Texas. Both pro and con arguments were presented before the committee. At the close of the hearing it was announced that for the present the bill would not be brought out on the floor of the legislature. A large crowd heard Dr. Sandefer, whose leadership in educational and religious activities at Abilene and over the western part of the state, has extended over a quarter of a century. Regular services at the Baptist, Nazarene and Presbyterian churches were dismissed to give opportunity to these congregations to hear him.

Baker News

(Too late for last week) Baker, Feb. 7.—Mrs. R. L. Powell returned home from Plainview Friday afternoon after having spent the past week with her son, Avon, who was operated on for appendicitis. She went back to the sanitarium Sunday to await his recovery. She was accompanied by Mr. Powell and son, Garth, and a nephew, Guy Stepp.

The Baker basketball team played Pleasant Hill Friday afternoon at Pleasant Hill. Baker won by a score of 10 to 4.

Several of the young folks of this community attended the party at Mr. Baxter's of the Campbell community.

Cecil Driggers, of Floydada, spent Saturday night with Moody Williams.

Mr. and Mrs. W. C. Colston and family and Opal Colston spent Sunday with Mr. Colston's sister, Mrs. H. E. Bartlett, of the Dougherty community.

Mr. and Mrs. E. L. Norman and sons, Leonard and Buddy, were visitors at Baker Sunday. Mr. and Mrs. W. Williams and family spent Sunday with Mrs. Williams' brother, W. H. Driggers, and family, of Floydada.

Miss Ruby Cothorn, of Floydada, spent Sunday with Miss Gena Mae Owens.

(Too late for last week) Pleasant Hill, Feb. 8.—Miss Abbie Lee Woolsey spent the week-end with Miss Pernie Donathan, of Floydada.

Mr. and Mrs. Jack Gunnels spent Sunday at Plainview.

Mr. and Mrs. Henry Cox and son and Mr. and Mrs. Jimmie Serrells, of Floydada, visited Mr. and Mrs. E. B. Gilliland Sunday afternoon.

Irene Cardinal has been absent from school several days on account of a burn. She returned to school Monday.

Baker and Pleasant Hill played basketball Friday afternoon. The scores were 10 to 4 in favor of Baker. Guy Stepp was high point man for Baker and Dillard Scott for Pleasant Hill.

SLIGHT DAMAGE BY FIRE AT STERLEY SCHOOL FRIDAY

A slight damage of around ten dollars was estimated by W. E. Grimes, principal at Sterley, when a fire which caught around a flue broke out in the school building last Friday. For a few minutes time the fire gained headway but was soon extinguished by the teachers and pupils with the aid of some of the close neighbors. The fire was discovered at the recess period which probably prevented a greater damage.

State Athletic Titles Undesirable, Board Declares

No Games On School Days Is Recommended

Only Eight Football Games Per Season Would Be Permitted In High Schools.

In its biennial report issued out of Austin Saturday, the State Board of Education, took a stand against the playing of athletic games in interscholastic competition on school days, and declared state "titles" are undesirable in football.

The board also recommended that basketball contests be limited to fifteen between December 1 and March 1, and declared that football games should be played on Saturdays and holidays.

Some of the high lights in the board's report are as follows:

"The majority of school executives in Texas believe that state championships in football and basketball are desirable.

"The majority of those queried in other states believe they are undesirable in football and are equally divided on basketball. Practically all the state directors on physical education believe they are undesirable."

Would Limit Tournaments

As to contests on school days, the board reports:

"It is true that some high school coaches wish to be free to attend college games on Saturdays; it is true that gate receipts in some communities will be smaller on Saturday; it is true that some bosses have to work on Saturdays and hence could not participate in or attend Saturday games. None of these reasons has any appreciable weight when compared with the interference with the school program of games on school days."

"Tournaments (basketball) should admit only a limited number of teams," the board said.

"The value of interscholastic sports is questioned by practically none of the school executives who chose to submit statements concerning the same," the board reported.

"Ninety per cent of the public schools of Texas need outside competition. This value can be obtained without interfering with school time and without disorganizing factors. If so, there would be a net educational gain and an increase in educational return for the money expended in public education."

Must Uphold Standards

"We do not view interscholastic athletic contests solely from the standpoint of participants. Properly conducted games are a recreational feature for the whole school population."

Pep squads, bands, and other like school organizations have their respective places in the show or pageant or interschool, competitions and their participation in the same solves many disciplinary problems, encourages scholastic work and furnishes life and color which youth demands. If the school does not supply this need in some form, commercialized recreation, much of which is unwholesome, will take a larger share than it does at present in the weekly program of the youth."

Regarding alleged scholastic favors to athletes, the board said that "honesty of scholastic standards must be upheld even if the whole interscholastic sport program should have to be abandoned to uphold them."

Concerning possible legislation to control interscholastic athletics, the board stated:

Given Special Consideration

"It has been suggested that the board of education should be given certain general regulatory powers, on the ground that the board by working directly with local school boards could strengthen their hands in dealing with a certain mob-enthusiasm that has developed in various communities. Certainly coaches should be required by law to have a certain amount of credit in physical education."

The board gave results of its questioning of the Texas high school inspectors regarding whether "teachers are ever coerced giving special consideration to members of athletic teams either in passing them in scholastic work or in relaxing usual discipline."

"Two of the 15 high school inspectors failed to answer this question," the board stated, "three say 'no,' while 10 say 'yes.' Asked concerning the percentage of schools in which this coercion occurs, one estimates that it occurs in 60 per cent of the high schools, five estimate 50 per cent, one 25 per cent and one 5 per cent. One inspector who says the practice exists fails to estimate the percentage of schools in which it occurs."

"I want my telephone put back, please"

HARDLY a day passes but that some person who gave up his telephone service in recent months orders it restored. In many cases, people feel that it is false economy to be without a telephone . . . that the small cost of the service is repaid many times each month in convenience, in time and actually in money saved.

Some miss the close and personal contact with friends that telephone service makes possible. Others mention the loss of many pleasant, impromptu social "get-togethers" when their friends are unable to reach them by telephone.

It is all true . . . what these customer friends of ours say. Telephone service costs so little and its value is so great that in most instances it really doesn't pay to try to do without it.

If you are missing your telephone . . . just get in touch with our business office. We'll send a man out with a telephone in a hurry.

Want Democratic Party Out Of West March 4

An appeal issued, this week by James A. Farley, chairman of the Democratic National Finance Committee points out the vital importance of having all quotas cared for before March 4, calling attention of the local county chairman and democrats generally to the need of having the National Committee completely out of debt by that date.

"There was never a period in this country's history when a wise and forceful administration was more needed to restore material and spiritual prosperity to the country, and under the leadership of Franklin D. Roosevelt we will have this kind of leadership," the urgent letter states. "But in order to make it effective it is imperative that the Democratic National Committee, which represents the party and which will be active in supporting the policies of the new administration, be entirely free to function one hundred per cent. This campaign is as important as any just concluded and I therefore urge you to the utmost efforts."

All democrats who desire to contribute to the fund which will be used to clean the slate for Texas' quota of the national campaign may turn their contributions over to Homer Steen, County chairman, who will accept for the same and forward to the state campaign director.

THIRTY DAYS LEAVE GIVEN JUDGE DOES NOT MEAN HE PLANS AN EARLY VACATION

Although the Commissioners Court of Floyd County, in its January session, gave Judge Jno. W. Howard a thirty-day leave of absence from the county, this does not mean necessarily that the judge has gone on a thirty-day jaunt, nor that he contemplates so doing.

Many questions have been asked Judge Howard since the order was passed by the court, principally "when he got back off his vacation."

The order was a matter of routine practice followed for years which makes it possible for the judge to leave should urgent business or illness call him from the county at a time when he could not get members of the court together formally to permit him to make a trip. A similar order was passed two years ago by the court, and the judge was absent a few days on three or four occasions during the period.

"The judge can't leave the county legally without the permission of his Commissioners' Court in a resolution or order formally drawn and entered on the minutes," Judge Howard explained this week. And since emergencies quite often might arise that demand the judge to make brief trips on official or private business for a day or several days, the order was entered to make this possible at a time when it might be impossible on account of weather or other conditions for the court to get together and formally sanction an out-of-county trip."

No exceptions are made by the law which gives the Commissioners' Court control over the presence of their judge in the county, it was pointed out.

Here's A Puzzle For You To 'Puzzle' Over Today

28 For the earth bringeth forth fruit of herself; first the blade, then the ear, after that the full corn in the ear.

29 But when the fruit is brought forth, immediately he putteth in the sickle, because the harvest is come.
 30 "And he said, Whereunto shall we liken the kingdom of God? or with what comparison shall we compare it?"

31 It is like a grain of mustard seed, which, when it is sown in the earth, is less than all the seeds that be in the earth;

32 But when it is sown, it groweth up, and becometh greater than all herbs, and shooteth out great branches; so that the fowls of the air may lodge under the shadow of it.

33 And with many such parables spake he the word unto them, as they were able to hear it.

34 But without a parable spake he not unto them: and when they were alone, he expounded all things to his disciples.

Time.—Autumn, A. D. 23, immediately following last lesson.

Place.—On the shore of the Sea of Galilee near Capernaum.

The Lesson Comment

St. Mark tells in this chapter how that Jesus taught by parables. In the previous verses of this chapter he relates the parable that Jesus used to illustrate the four kinds of hearers; but in this lesson he explains the growth of the kingdom by parables. The parable of the land producing by itself shows that both divine and human agencies are used, but refers to the power of growth in itself beyond the reach of knowledge. The parable of the mustard seed shows great growth from a small beginning, but shows that the growth is gradual. These parables have been proven true in

the history of the church. Immediately following the parable of the Sower, Jesus spoke another parable concerning the growth of the kingdom. This was a fitting time to speak of the growth, since the growth follows the sowing.

In explaining the first parable to the disciples, Jesus told them that to them was given the mystery of the kingdom of God, but to those without, all things were done in parables. But he also thought that they, the enlightened ones, must give light to those who were in darkness. He illustrated this by reminding them that their houses were lighted by a candle placed high so its glow would reach all parts of the room. No one would think of lighting a candle and placing it under a bushel measure or under the bed.

Not one parable, not one teaching of Jesus, but was explained or revealed, after his death and resurrection—not one was left dark. Jesus warned his disciples to be careful how they heard, and having heard aright, to put lessons learned into practice, to keep even small talents in use, lest they grow useless. Talents or gifts not in use become impaired and finally they are entirely lost. The fish in the Mammoth Cave, Ky., are blind. Living in darkness their eyes were not used and finally the sight was entirely lost.

Going back to the planted seed, Jesus reminds the people of how the planted seed sprouts, even while we sleep; by and by it shoots above the ground, grows day by day, and becomes full grown grain ready for harvest.

Sowing the seed is also like planting a tiny mustard seed. The mustard seed in the Orient is about the smallest seed known. But when the

seed sprouts and grows it becomes a great bush, large enough for the birds to roost in its branches and feed from its seed. So the kingdom grows.

Half or All Common School Taxes May Be Paid Without Other Taxes

New Law Effective Feb. 8 Expected To Aid in Keeping Schools Open.

Half or all of your common school taxes may now be paid without paying any other tax, according to a statement from Geo. H. Sheppard, State Comptroller of Public Accounts received this week by Frank L. Moore, County Tax Collector, a law passed by the legislature now in session and approved by the governor having become effective on February 8, permitting this kind of arrangement.

Following the text of the first section of the law, which is self-explanatory:

"In cases where common school district taxes and/or independent school district taxes are collectible from the same roll with any other tax, any taxpayer of any common school district or independent school district is authorized to pay one-half or all of said school taxes prior to the payment of any other tax during the time covered by this Act; and upon such payment or tender of payment of one-half or all of such common school district tax and/or any independent school district tax, together with penalty, interest and costs thereon, if any, such collector is authorized and directed to receive the same and execute in duplicate a memorandum receipt therefor and deliver one copy to the taxpayer and keep the other as part of the records of his office, and the tax collector shall enter the date and amount paid in same memorandum form on the tax roll; and thereafter on full payment of all the remaining taxes together with interest, penalty and costs, if any, as may be shown to be due on such roll, he shall issue his official tax receipt or certificate of redemption as the case may be, in the manner provided by law and include therein the amount or amounts formerly paid."

The law makes provision for keeping proper record of the payments by the tax collector as made by the taxpayer. The law is in force for a period of two years from its effective date and automatically ceases to be operative at the end of the two year period.

Mr. Moore said this week he had a number of inquiries during the tax-paying period from taxpayers who were unable to meet all their taxes but desired to pay a part or all of their school taxes. Some of these, at least, are expected to take

advantage of the new law to help keep their schools in operation as long as possible for the remainder of this term.

JESUS TEACHING BY PARABLE—THE GROWTH OF THE KINGDOM

International Sunday School Lesson for Sunday, February 19. Sub-ject: "Jesus Teaching by Parable—Growth of the Kingdom."

Golden Text.—The earth shall be full of the knowledge of the Lord, and the waters cover the sea. Isa.

Lesson Text.—Mark 4:21-24.

And he said unto them, Is a candle brought to be put under a bushel, or under a bed? and not to be set on a candlestick?

And there is nothing hid, which shall not be manifested; neither was kept secret, but that it might come abroad.

And any man have ears to hear, let him hear.

And he said unto them, Take heed what ye hear: with what measure ye mete, it shall be measured to you that hear.

And he that hath, to him shall be added, and he that hath not, shall be taken even that he hath.

And he said, So is the kingdom of God, as if a man should cast seed into the ground;

And should sleep, and rise night and day, and the seed should spring and grow up, he knoweth not how.

Throw OFF That COLD!

Some men and women fight colds all winter long. Others enjoy the protection of Bayer Aspirin. A tablet in time, and the first symptoms of a cold get no further. If a cold has caught you unawares, keep on with Bayer Aspirin until the cold is gone. Bayer Aspirin can't harm you. It does not depress the heart. If your throat is sore, dissolve several tablets in water and gargle. You will get instant relief. There's danger in a cold that hangs on for days. To say nothing of the pain and discomfort genuine Bayer Aspirin might have spared you! All druggists; with proven directions for colds, headaches, neuralgia, neuritis, rheumatism.

CHURCHES

REVIVAL MEETING

City Park Church of Christ
Beginning April 2, which is the
first Lord's Day in April, the Church
of Christ will engage in a revival
meeting of some two weeks dura-
tion. This meeting will be conduct-
ed by home forces. Brother Ran-

dolph, the local minister, will do
the preaching and the singing will
be under the direction of Wilbur
Dennis.

We invite the people of Floydada
and the surrounding communities
to keep in mind the date and make
preparations to attend these ser-
vices where you will be entertained
by the simple preaching of the
Gospel of Christ.

week Bible study and prayer ser-
vice, Wednesday 7:30 p. m.

The minister will use for his sub-
ject, at the morning hour, "Amuse-
ments." We extend to you a very
hearty welcome to attend all of our
services.

SERVICES AT LIBERTY
We were pleased to find such a
sincere group anxious to worship
last Lord's Day at the Liberty school
house.

So interested were they that some
of them came through snow and
mud to get there. We were glad to
meet with such God loving people.
We were glad to have met C. Aus-
tin Smith, one of the teachers at
Liberty school. He stated he was
ready to do anything that was right
to make that community a better
community, one that the Savior will
be proud of when he comes again.

I Thess. 1:7-8. If the Lord is willing
we will be with you next Lord's Day
and plans will be made for the work
there, if you are interested be on
hand to help us.

Class work will start promptly at
10 o'clock. Lesson as suggested by
the International Sunday School
lesson, Mark 4:21-34.
Preaching at 11 o'clock. Com-
munion after preaching.

Other announcements will be
made at the morning service in re-
gard to the evening service.

**SHE FIN
OS JOB IN KITCHEN
PLANNING**
As a new profession for women,
"kitchen planning" has just
turned up in the trade direc-
tions. There is only one
novel way of earning
but she has succeeded
good living out of it,
she launched her new
about the beginning of
n period. She is Mrs.
s, and she has offices

One day in New York
at the office of an architect,
planning ideas were
house plans stage. Another
client's house, ladder measur-
space it requires, asking about
size of the fan, the scale of en-
tertaining, and mands made up
between these two. In the com-
pany, Willis has discovered that
Planner" she has great many kit-
the same defects. For instance,
lack sufficient storage space, with
the result that piled in stacks
faces become cluttered up. Another
common defect is that the sink
and tables are too high. This, of
course, is a low sink without
but many housewives out day after
day find the trouble is she finds, don't
get air. Daylight is be-
it should come from you're stand-
ing in the room, most frequently oc-
curs are preferabl-
ventilation, but wh-
sible the one window
ed from the top. are useful in such
little to run.

If your kitchen is so large and so
old-fashioned that it wastes time and
space, her advice is to build cup-
boards over the ice box and put
everything in one room. Mrs. Willis
suggests in the American Magazine,
over within friendly distance of the
sink. If your husband him to build
with the hammer, get a cupboard near
the kitchen, or buy a net. A table on
cart wheels are excellent for the
purpose) will prove an eliminating
steps.

If, on the other hand, you are cramped
for space, her advice is to build cup-
boards over the ice box and put
slender ones in narrow places. Very
often they can be built in under the
sink, in space that usually goes to
waste. Next, weed out pieces of
china rarely used and banish them
to the cellar or the attic.

Texas, with more than 15,430
miles of railroad, leads all other
states in this respect.

When a gentleman visiting Mr. Edison at Memlo Park asked him to give a motto to a son who was about to enter business, the great inventor replied, "Well, I will give him this—'Never look at the clock!'"

We know that Edison practiced this motto. He would never have accomplished the great things that he did if he had not. One who watches the clock all the time and is more interested in seeing the hands move than he is in his occupation, will accomplish little. Many can look back and see that if they had used spare time for worthwhile study or action, they might have enriched their own lives materially, mentally, or both.

Let us all seek to apply the motto, "Never look at the clock!" If we do we shall have occasion to say that this motto may also be added to Mr. Edison's wonderful gifts to humanity.

Miss Irene Kreis Entertains
Miss Irene Kreis entertained Saturday evening with a party at her home near Dougherty honoring her week-end guest, Miss Maxine Fry. Games of "42" furnished entertainment until a late hour when refreshments were served to the following guests: Misses Macel Jones, Grace Readhimer, Mr. and Mrs. Vard Readhimer, Mr. and Mrs. Lloyd Readhimer, Inez Jones, Stokes Campbell, Cecil Baxter, Maurice Campbell, J. L. Baxter, the hostess, Irene Kreis, and the honor guest, Miss Maxine Fry.

We Wonder Why?
Latane has been hanging around the bank lately?
When the boys will organize "S. H. E." Club?
Verne seems so interested in going to Mrs. Moore's lately?
Irene is going "Frenchie"?
Marion is so "touchy" about the left side?
If our Campus Mudslinger, Virgil slung mud Friday night at Dougherty?
Who'll be the first to wear a sweater?
When Mac will start speaking Spanish to her friends?

There's a rumor... Senior play practice has begun. Let's hope so for "The Early Bird" is said to be a splendid comedy, and every one wants to see how well the cast will act it. The money taken in will help to buy the diplomas. Everybody check March 3 on his calendar for this play.

'The Early Bird'
This is the title of the play

chosen by the Seniors to present March 3 drama given in three acts. The characters are old friends in the business, and the play is scheduled to go over big.

Verne Eastridge, Kinder Farris, and P. W. Bell attended the Hi-Y Convention at Plainview.

Latane Hale spent the week-end with Edelle King. Alta Lloyd visited last week-end. Mrs. Odus Stephens and Mr. Stovall attended the meeting of the Teachers in the Lubbock last Saturday.

Irene Kreis spent her home at Fry accompanied by Helen Griggs and Virgil Crawford. Stokes and Maurice visited in their homes. Annie Laura Goen spent Saturday afternoon in Lockney.

Track and Field
The issued Monday to the field athletes, who have started training for the hard season ahead of them. Several members of the team expect to compete in the Fat Stock Show Meet at Fort Worth, which will be held in March. A few dual meets will probably be held near-by to warm before the athletes compete in the county meet, following or prior to the county meet. The whirlwinds will display their wares at the Tech relays, held at Lubbock. The district meet will be held two weeks after the county meet.

The whirlwinds expect to go far toward winning the district meet this year. Last year they placed third, and with most of last year's material back this year, they should win the meet. The lettermen returning are

well Gamblin, Floyd Murray, Verne Eastridge, Lloyd Murray, and Malcolm Bridges. Other men out for the team are Leo Jackson, P. W. Bell, James Badgett, Garth Powell, J. C. Powell, Kyle Glover, Wilson Connelly, and Ralph Tubbs.

Jokes
Rolein S: If I do say it, you are the only girl I ever loved.
Irene Mathews: If I do say it you are the only fellow who ever made me believe that lie.

Stokes C: Would you-er-advise me to-er-marry a beautiful girl or a sensible girl?
Virgil C: I'm afraid you'll never be able to marry either, old boy.
Stokes: Why not?
Virgil: Well, a beautiful girl would do better and a sensible girl would know better.

Cop: What do you mean wobbling all over the road like that? Why don't you use both hands?
J. R.: But officer, I daren't let go the wheel.

It seems as though Otho Johnston has made a decided change since the night of the junior play. Oh well, time has taught him to forget.

Leo Jackson and Clifford Goughly say that they had a very easy time in helping to win the Floydada Basketball tournament and the gold basketball.

We wonder why Kinder Farris and P. W. Bell went to Turkey Saturday night.

A TRIBUTE
On February 10, 1933, during the gentle, still hours of the early morn, Death came into our midst and took our friend, J. A. Summers. Daddy Summers as he was affectionately called, had been in ill health for many months, his death did not come unexpected, he had many times expressed his willingness to go. He was almost 70 years of age, having been born June 4, 1863. He with his family lived many years near Haskell, later moving to Oklahoma, near Cordell, but for the past 8 years had made his home near Floydada.

He obeyed the gospel, embracing the faith of our Lord more than 40 years ago and lived a constant believer in the faith. His kind and gentle smile and loving counsel will ever be a sweet memory and guiding star in the lives of the devoted wife and children that he has left to mourn his death. The children are Miss Florence, who resides at the family home, Mrs. R. B. Hooten, of Vineyard, Mrs. Homer Kennamer and Mrs. Reece Brubbs of this city and a son, Albert, of Alice, Texas. He also leaves 2 sisters and 2 brothers.

Death is the universal tragedy of life and we can but say "I will go to him but he cannot return to us." Funeral services were held Saturday afternoon at the Church of Christ on Wall Street, the little church he loved so well, and as long as his health permitted he always attended services and his tender hand-clasp and helpful words will be greatly missed for he was loved by all who knew him. Bro. Ohmer Kirk spoke words of comfort to the relatives and friends.

We tenderly laid him to rest in the Floydada Cemetery beside the grave of his son, Warren, who preceded him in death some five years ago.

His many friends extend sympathy and condolence to his bereaved family and other near and dear relatives. There are gains for our losses, there are balms for our pains for in the sweet hereafter we shall meet our friends again.
A Friend.

The senior class met February 1 and elected the following officers: Arlon Miller, president; Melba McLain, secretary-treasurer and Mr. Travis as sponsor. We voted to get class pins this year.

In order to get the pins we are selling pop-corn, candy and peanuts at all the entertainments held in the auditorium. We will appreciate all consideration shown us.

Friday, February 3, the school had a mixed chapel program. The program was as follows: Bible reading, Mr. Travis; prayer, E. N. Lamb; play, "A morning in school a la Ventriloquist," seventh and eighth grades; song, "We've got the Mumps," four pupils; Gifs, Pauline Roberts, reading, Glenna Holmes; song, high school pupils. Our next chapel program will be given Friday, February 17. The high school will have charge of the program. Every one is invited to come.

P. T. C. Play
There will be a play presented in the auditorium Friday night, February 17. Liberty will present this play entitled, "Jane takes a Hand." The admission will be twenty cents (tickets or ten and twenty cents).

This community is getting up another play now entitled, "Wild Ginger." This is an excellent play. The date set for the play will be March 3.

Coming—The Hambone Quartette
in person. Radio and concert artists with an evening of real entertainment. They bring to you sacred, popular, spiritual and stunt songs. Closing with a negro minstrel at the school auditorium, Thursday evening, February 16. Admission will be fifteen and ten cents or canned goods. Tickets require a number 3 can, children a number 2 can and the whole family five number 2 cans.

Class Reports
Primary room: teacher, Miss Meredith, reporter, Kenneth Cates: The weather has been so bad for the past week that the attendance has been rather low.
We are very glad to have Sidney Horton back in school after an absence of five weeks.

Ovelene McLain, Kenneth Cates, Russell Lee Swaffer and Mary Helen Mickey received prizes in reading and spelling for last month.

Third and fourth grades: teacher, Mrs. Travis, reporter, Sammie Box: Our new doctor and nurse for this month in our health club is Kenneth Mickey and Sammie Box.

Tuesday was a great day in our room. The postman delivered our valentines to us. We had a short valentine program also.

The third and fourth grades have pupils entering in spelling and declamations for the Interscholastic league work.

Fifth and sixth grade. Teacher, Miss Hanna, reporter Laveta Mae McFarland; Margaret Horton is back in school this week. She has been absent for some time.

The fifth and sixth grades mailed valentines to Jewel Box Monday. She is in the Plainview sanitarium. We were glad to receive word that she is improving.

The fifth and sixth grades had a party and valentine box Tuesday afternoon recess.

The fifth and sixth grades have ordered English note books which we think will be very interesting to study along with our English.

Seventh and eighth grades, teacher Mrs. Strickland, reporters Dot Smith, seventh grade; Granville Lee Mooney eighth grade. The eighth grade had a debate. The question was: Resolved, that Alexander the Great was a greater man than Julius Caesar. The first day there were no judges and the whole class took part. The next day four pupils debated and we had judges. The negative side won.

We are glad to have the pupils back in school who were absent on account of the bad weather.

Days Work on Problems of Country With Complications

of Membership Represents
Consuming Areas Rather
Than Producing.

(Something of the problems which face a congressman desirous of meeting the conditions which face the agricultural section of America, is given in the article below, presented by Marvin Jones, representative of the Eighteenth District in Congress.)

By Marvin Jones

I feel that the people of our section would be interested in the program on which a number of us have been working during this session of Congress.

We have been doing everything possible to get the members of the House and the Senate to realize just how serious conditions are. Ordinary remedies will not be sufficient, for these are not ordinary times. We are face to face with grim facts which call for emergency action.

In the first place, there should be a stay of foreclosures until such time as the necessary legislative program can be worked out. The House has already passed a measure of this kind. I hope the officials of the various states will take such action as is necessary to supplement the work of the Congress.

In my judgment, it is absolutely essential that a program of refinancing and, if possible, a scaling down of principal and interest rates and a refinancing of farm mortgages on a long-time basis be accomplished. A number of us have been working in every possible way toward this end.

This republic is anchored in the farm homes of America. Wholesale foreclosures on the part of mortgage companies would be detrimental to the companies as well as to the farmers and others who are interested. I hope they are beginning to realize the truth of this proposition.

Another matter that needs immediate attention is a complete revamping of our entire currency system. The price of the American dollar is too high when measured in the terms of commodity prices. There should be a readjustment in such a way as to make our unit of money a true measure of values. This would automatically increase commodity prices and enable people to pay debts.

Every thinking person realizes that taxes bear too heavily on the farm and ranch. While this is largely a local matter, depending upon action of state and local authorities, nevertheless, the expenses of the federal government should be reduced in every possible way. Many bureaus should be abolished and the activities of others curtailed. I have repeatedly urged this before the economy committee and have offered numerous amendments to accomplish this end.

Our freight rate schedules are too great a burden on the products of the farm and ranch. Freight rates at the present time are all out of proportion to the value of commodities.

I am also glad to know that the President-elect has declared that something must be done in reference to the excessive short selling and gambling in the stock market. He has declared for a correction of these evils, and I shall be more than happy to join him in supporting such a program.

The individual members of Con-

gress are sometimes criticized for not taking action more quickly. Some of this criticism is just. However, I think it is but fair to detail some of the difficulties under which we who represent farming districts are working.

There are 435 members of the House, each representing a different district. A majority of these members represent consuming rather than producing districts. Again, a clear majority, to-wit, 228 of the 435 members of the House of Representatives, live north of the Ohio and east of the Mississippi river. It takes a majority of the members of the House to pass any kind of legislation. I mention this fact to show the complications which any program must face.

Practically all of the members of Congress who represent farming and livestock districts have been earnestly working toward a solution of the grave problems which confront the country, and I feel it is but fair that the public should know this fact.

Again, not all of the difficulties will yield to legislative remedies, but certainly there are some conditions that can be helped. Most certainly our financial system can be revamped in the interest of the people, and the long-time discriminations in our tariff barriers and freight rates which have had the effect of paralyzing the agricultural sections can be removed and thus an unhindered opportunity given for equality in the operation of the laws of our country.

Protective League Purposes Explained

Purposes and plans for the recently organized Farmers' and Home Owners' Protective League of Floyd County were outlined in an article submitted this week by Ed Holmes, secretary of the organization and signed by the officers and Board of Directors.

The article reads as follows: The Farmer's and Home Owners Protective League organized in Floydada, January 27th with 33 charter members. We are a growing organization and mean to get done just what the name implies. In the name of justice we are banding together.

As directors and officers of this League in Floyd County we want this information understood, that we may be more effective in getting the most good done in the shortest time. Our purpose is to help each other in arranging our obligations with our creditors, if possible and keep the present owner who has spent his life working for it, in his own home. The undersigned will act as a go-between for you and your creditors, if you are a member of this League, and sign a statement to this effect also giving the facts of the case. A form will be ready for your convenience in a few days, that you may fill in, stating the facts that we want.

We ask that you do not wait until your case is in the hands of the court before you ask our help. Our hands will then be tied, to a greater extent, and we can't be of so much service to you.

We now have 98 members in only five communities that have had a chance to join this league. A meeting in every community in Floyd County will be held in the near future to outline more fully the purposes of this league and give every citizen of Floyd County a chance to join the League, helping us and thereby helping yourself. Attend one or more of these meetings.

A regular meeting of the officers and directors will be in the District Court Room, Floydada, Texas, Saturday, February 25th, 1:30 p. m. Any member or non-member wishing more information will be welcome at this meeting.

Our main purpose is to stop foreclosures and the confiscation of our property during times when we can't meet our obligations, through no fault of our own when prices are far below cost of production. We are affiliated with the Farmers' Protective League of America. We need your support. You need ours.

John L. West, President Floyd County F. & H. O. P. League, Wm. Finkner, vice-president, Ed Holmes, Sec.-Treas., S. A. Greer, R. B. Gary, W. B. Jordan, H. P. Puckett, and J. D. Christian, directors.

Dougherty News

(By Mrs. W. D. Newell)

The "County Merger" plan we've been hearing about ought to give the economist something to think of. Way back fifty or sixty years ago our counties were laid off for the mode of traveling. Time, however has changed our mode of travel until it is easier for a man living in one county to travel through two or three counties than it was then for most of the country people to reach their county seat.

In other words we could turn four counties into one and still be far ahead of our grand fathers and think of the savings in the cost of three sets of county officials.

Dougherty Ideal Location

Now, if this plan were to be taken seriously by Floyd, Motley, Dickens and Crosby counties, Dougherty would be the ideal location for the seat of government as it would be more centrally located.

One reason this merger plan should take well with the counties is there are so many counties needing larger courthouses and one would be so much cheaper than two or three.

Now that the Highway Department has assumed the bond indebtedness for road improvement there should not be any great controversy over one county assuming another's debts.

We have progressed some ways, why not be progressive in government?

The Dougherty people will do well to spend a while visiting our grocery stores. We have bargains here at home that are as attractive as you'll find in the county. Give your home man a chance.

The Passing Years

Emphasize the greatness of the Father of His Country.

And as the day approaches when we do him honor, see more clearly the part that Justice, Honor, Play and Conscientiousness in dealings with his Fellow Man had do in making him First in War, First in Peace, and First in the Hearts of his Countrymen.

As we believe in the greatness of George Washington, so must we believe in the things which made him great.

Suggests Wage Cuts

In my opinion the wage scale for 1933-1934 school term should be set on a basis of \$60 for the Ward schools and \$75 for the High Schools. This scale might not meet the approval of the State Department and it may not be agreeable to the teachers as a whole. But, I believe such a wage scale would be in keeping with the income of the Floydada Independent School District and with the ability of the tax payers to meet their taxes. I feel very confident that this suggestion is not to meet the approval of many teachers in our schools and it will not be in accord with the wishes of some of the school parents. But, I truly believe that more than 75 per cent of the school parents and tax payers will heartily support me.
The attitude of the State Department of Education: They are of the opinion that they appreciate school problems here and we are facing in the way of raising income for school purposes. Furthermore, so long as we have very best and maintain school standards to the ability, we are not going to give a great amount in affiliation credits. We can be sure for we have some pretty practical timber in the department now.
There has been no little criticism in the past few years on the part of using men and their salaries in the school system. The Board has looked upon this with considerable disapproval while. There may be a condition of this kind present in Floydada schools at present term. This is a matter of interest to all parties should

be considering.
"Bear in mind, please, that most of the matters mentioned will likely come up for attention at the next regular board meeting which will be the first Monday night in March. If action taken by the board at that time is not in accord with your ideas of running Floydada's schools, no one will be to blame more than yourself if you do not make known your wishes to the Board and offer your suggestions. The schools of Floydada are your schools. What do you want done with them?"

LORRAINE BRITTON FIREMAN SUCCEEDING LACE MARTIN EFFECTIVE ON MARCH FIRST

Lorraine Britton, for a number of years a member of the volunteer fire department in Floydada will be on the city's payroll for the first time beginning March 1, when he succeeds Lace Martin, whose resignation as a paid fireman was turned into the city council at its meeting this week.
Martin has served the department as its paid member since the resignation last fall of Horace Kincaid. He will engage in other activities.

CLAUDE T. SENT TO JAIL

Claude T. Davis, held in the Floyd County jail for the past few months on a charge of assault with intent to murder, was sentenced to a thirty-day jail sentence in the verdict.
A thirteen-year-old boy, Vernon Martin, was the principal witness by the state for proof of identification. The lad swore to having seen the man at a rendezvous near Leo Tibbetts place two or three hours before the gunfight, in which Clarence Stinson lost a leg, and officers and fugitives shot up all available ammunition.
Stinson and Jodie Edwards, charged with the same offense as Davis, have already accepted two five-year sentences, one each for the assault and one each for receiving and concealing stolen property. Claude Davis is yet to be tried on the charge of receiving and concealing stolen property in this county. Indictments also have been lodged against him in Motley, Briscoe and Hall counties involving alleged thefts and burglaries, a total of four charges having been filed.
Two bonds of Ralph Jones of this county were declared forfeited by Judge Kenneth Bain Monday morning when he failed to make appearance on indictments alleging burglary and theft. Each bond was in the sum of \$750.
The grand jury which had recessed until February 15 early in the term, resumed its work Wednesday.

PAVING SUITS FILED IN DALLAS DISTRICT COURT

As indicating a change of policy in efforts to collect on Floydada paving liens, citations have been served this week by Floyd County officers on four property owners in Floydada citing appearance in the Ninety-Fifth District Court at Dallas for trial of suits instituted to foreclose the existing liens.
Each of the four cases is a new one, none of the cases originally filed here being involved. Plaintiff in each case is Owen M. Murray, receiver for the North Texas Trust Company, original holders of the paper, affairs of which were taken over a few months ago.

NO ONE IMMUNE AGAINST CARBON MONOXIDE

Carbon monoxide gas, odorless, tasteless and invisible, quietly and painlessly steals life from him who either through ignorance or carelessness, runs his car in a closed garage. Perhaps the engine needs warming; perhaps an irritating rattle or squeak must be found. It may be annoying to tinker with a running motor, while you shudder from the chill of a wintry, biting wind. It may be slightly inconvenient, as far as your personal comfort is concerned, to be forced to shiver from sudden contact with the bitter cold of a windless winter morning, while the engine is warming up. However, such minor, short-lived discomforts are inconsequential when compared with the utter finality of death.
You are not immune to this poisoning. Others, through carelessness have ended their days by the carbon monoxide route.
Remember during the winter season that carbon monoxide gas plays no favorites. Give it half a chance and your chance to enjoy a prolonged life has vanished.
Of course, if carbon monoxide gas had the warning rattle of the snake, or the growl of a wild beast, deaths from this cause would be practically non-existent. However, that is exactly where the non-terrifying deadliness of the substance comes in.
Possessing all the cunning characteristics of the super-criminal, it stealthily and unexpectedly creeps up upon one and slays before the victim is even aware of its presence. Odorless, tasteless and invisible, it suddenly grips the careless to itself and painlessly but none the less inexorably crushes out life.
Every one will agree that the automobile, as an instrument of death and accident, is quite sufficiently powerful without giving to it the added ability to snuff out life in the closed garage. Why permit it to do so?
Avoid carbon monoxide as you would a poisonous snake.—Texas State Department of Health.

Judge O. R. Tipps, of Silvertown, was in Floydada Tuesday on business.

BOOTHE CAFE LOCATION FORMERLY BY WHITE KITCHEN

Announcement was made this week of the removal of the Boothe Cafe from the west side of the square to a new location formerly occupied by the White Kitchen Cafe on California Street.
Otis Boothe, manager, and Mrs. Boothe are serving the trade during the day and Buster Smalley has been employed for the night shift, thus affording 24-hour service to the patrons.
The White Kitchen Cafe was operated by Bob Roberts and Melvin Henry.

LITTLE FIRE DAMAGE

Damage by fire was negligible to the home of Mrs. W. W. Kimble on West Hallie Avenue early Monday night when a blaze started from a gasoline stove. The fire had been extinguished when the fire department arrived.

SCIENCE TO DEFEAT USELESS OLD AGE

A new era in the field of science has been reached in which the life span will be lengthened, and we shall see within the next twenty-five years a greatly improved human efficiency, prophesies Chester T. Crowell, in an article in the *Rotarian Magazine*.
"The long warfare against disease with all of its remarkable victories may be put down as, thus far, almost entirely defensive," he declares. "The battle of the microscope was a sort of preliminary scrimmage, a mere practice work-out to prove certain facts and theories. Now that this has been done, the way is opened for a keener examination of more intricate problems that previously were not worth wasting time over, since practically nothing could be accomplished toward their solution."
"Scarcely any scientist," he continues, "doubts that anything can be done to mend the declining powers of what is now regarded as old age. Relieved of the arduous warfare against diseases that have more than once threatened to sweep the human race from vast areas of the earth's surface, they turn their attention to the mysteries of the glands and nerves. They note that the body is a machine that wears out in spots rather than after the manner of the one-horse shay, but problem not only can be solved but every part of the accumulated information of centuries of effort bears upon it."
"Definite progress is already being made," the author notes. "Experimental work goes on in every civilized nation. And, because of achievement in totally unrelated fields, these workers can exchange data, check their observations, or even carry on different parts of the same experiment on separate continents unhampered by distance. To assume that anything less than new marvels will have come from these experiments within the coming quarter of a century would be pessimistic indeed."
