Each year, Community Public Service Company mails to Its more than 5,000 owners a report on the Company's business progress. These owners have voluntarily invested money in Community Public Service stock, money that Is used to pay for the power facilities that are necessary to keep your electric service plentiful, dependable and reasonably priced.

Who are these owners? They are people from all walks of life and from every state in the Union, including many from Texas and New Mexico. Perhaps your neighbor is one, or a relative, or perhaps you.

Unlike money spent in government-supported power systems, money spent by investor-owned companies like Community Public Service Company, costs you nothing in taxes. It does, in fact, produce more taxable income and property. Investor-ownership is free enterprise at work. Investor-ownership means everybody

An Investor-owned, business-managed light & power company
