# HOW TO GET RICH SLOW (but sure)

Every dollar you invest in Series E Savings Bonds grows 331/4 % bigger in 7 years and nine months. You can count on it.

It's not as exciting as drilling a wildcat oil well, or diving for sunken gold. But it's mighty reliable. Especially when you use the Payroll Sav-ings Plan to help you make sure you buy Bonds regularly.

This famous plan takes the back-sliding out of saving money by making it automatic. You just tell your em-ployer you want him to set aside a small amount from your check each

(\$4.33 a week will add up to twelve \$25 Bonds a year. But you can have more or less deducted as you choose.)

Then you forget all about it. Savings come easily and almost painlessly. You never see the small amount that's deducted so you hardly miss it.

There's a unique satisfaction to saving money this way, too. Every-time you slip another Bond into your

pocket, you know you're helping your country as well as yourself. Uncle Sam uses the money to help America resist the forces that threaten our freedoms.

Another thing about getting rich slow with U. S. Savings Bonds is that almost anybody can do it. So why not sign up for Payroll Savings before next payday?

#### Quick facts about Series E Savings Bonds

- You get \$4 for every \$3 at maturity
- · You can get your money when you
- · Your Bonds are replaced free if lost,
- destroyed or stolen
   You can buy Bonds where you work
