The Houston show is the largest rodeo in the world.

March of Dimes Collect Over \$2000

The County Chairman and the Board of Directors of the National Foundation, Young County Chapter, feel that the 1966 March of Dimes was a success. Over \$2000.00 was collected. Much of the credit should go to the Young County newspapers, The Graham Leader and Reporter, The Graham News, The Olney Enterprise and The Newcastle Register, to Radio Station KSWA, to Mrs. R. C. Wade and Mrs. Nova Siller of Olney, Mr. and Mrs. Horace Morgan of Newcastle and Mrs. Gayle Bullock of Graham, to a number of organizations including the Gray-Barr Post, American Legion of Olney, and to all who gave.

Please accept our thanks and the gratitude of the numerous children and people who will benefit from your contributions

Methodist WSCS completes study

The Women's Society of Christian Service of the Newcastle Methodist Church has just completed a study of the book, "Acts Then and Now." The Study pointed out how the "Book of Acts" could be applied to the space age era. It also pointed out some interesting highlights from the period of history in which the "Book of Acts" is believed to have been written.

The study was lead by Mrs. Jerden Davis, Vice-President. She was assisted by Mrs. Wylie Burch, Mrs. C. N. Weems, and Mrs. Jessie Larimore. Hostesses for the sessions were: Mrs. J. B. Kee, Mrs. C. N. Weems, Mrs. Truett Wilson and Mrs. Wylie Burch.

Mrs. Elzy Smith returned home Monday from the Olney hospital where she had been a medical patient.

DIET FOR ARTHRITIS

What is the best diet for people with arthritis?

This is a question which comes to practicing physicians, and to all the organizations which offer informational services by mail. What shall I eat to prevent arthritis? What shall I eat when I have arthritis? What should I avoid eating, to help my arthritis?

There are really two answers. One, given far too often, is hopeless and needlessly discouraging. There is no diet which will prevent or cure arthritis. Is this a true answer? Well, it is and it isn't. It is true that there is no dietary formula for well persons that will insure them against developing arthritis. Neither is there any dietary formula for persons with arthritis that will assure them of a cure.

A Positive Answer
 But there is another answer, and it is a more encouraging one. This is a positive answer, one that sweeps away some of the misconceptions of the past. It is: proper diet is an important factor in the successful treatment of arthritis. True, it is not a cure in and of itself, but it is hopeful and helpful.

In the past, arthritis patients were deprived of protein, on the false assumption that too much protein was partly responsible for arthritis changes. They were also deprived of calcium, on the ground that changes in the bones and joints were necessarily due to over-supply rather than to faulty body utilization of this nutrient. Now, specialists dealing with

arthritis emphasize that a fundamental principle in dealing with this disease is good nutrition, including adequate supplies of calcium, protein, minerals, vitamins and, indeed all good nutrients — the four basic food groups we keep emphasizing in this column.

Overweight is to be avoided to minimize stress on the weight-bearing joints, but good nutrition is to be maintained by balanced diet.

Don't Eliminate Good Food
 This puts an end to the elimination of meats, fish, eggs and cheese from the diets of arthritic patients. It ends the banning of milk and its products, for fear of too much calcium.

It recognizes the protein contributions of dairy products as well as their calcium content. It recognizes that the cause of arthritis, as yet undetermined, has certainly not been demonstrated to be dietary. It recognizes the clinical experience that well-nourished arthritics who are not overweight do better than poorly nourished ones suffering from dietary insufficiencies on top of their arthritis.

Your Doctor Knows Best
 The diet for any and all arthritics is that prescribed by their attending physicians in the light of their weight, their dietary requirements in relation to general health, and such special needs as may be determined by allergies, racial and religious customs, and other factors known only to the attending physician.

Mrs. H. P. Moore was in the office recently and renewed her allegiance to this "religious weekly." She also renewed the Register for another year for her daughter,

Mrs. Fay Bell at Carrizo Springs as a birthday gift. Thanks a lot.

Mrs. Lois Williams was admitted to the Olney hospital Monday as a medical patient.

Salad With Deep Sea Flavor

Happy summer days are gone, but need not be forgotten. Conjure up memories of sea and salad days with an exotic new crab-and-rice dish. A breeze to prepare, this chilled and sparkling flavor-combination of Chinese vegetables, pineapple juice and mayonnaise is guest-proof, too. It can be kept for hours in the refrigerator and served at your convenience. The recipe may be doubled to serve twelve, if desired.

Tropical Crab Salad

- 1 cup uncooked rice (NOT precooked variety)
- 1 unsweetened pineapple juice
- 2 pkgs. (6-oz.) frozen Alaska King crab meat, thawed and drained
- 1 (1-lb.) can mixed Chinese vegetables, drained
- 1 (5-oz.) can water chestnuts, drained and sliced
- 1 cup thin diagonally sliced celery
- 1/4 cup light cream or unsweetened pineapple juice
- 2 cups real mayonnaise
- 1/3 cup chopped scallions
- 2 teaspoons curry powder
- Salad greens

Cook rice according to directions on package, substituting unsweetened pineapple juice for water. Toss with crab meat, Chinese vegetables, water chestnuts and celery. Gradually blend cream or pineapple juice into real mayonnaise. Mix in scallions and curry powder. Toss with rice mixture, mixing well. Chill. Serve on salad greens. (Makes 6 servings.)

TIME Means Every Thing

Fast recovery from illness often depends on how quickly your prescribed medicine can be made available. That is why a prescription is always a "rush order" here.

Your medicine is prepared in a matter of minutes thus enabling you to obtain its benefits sooner. Time waits for no man—and when you are ill, it can mean everything.

WYNNE CHESTER SAYS:

Here's an Integral Part of Our History

In 1866, just a century ago, a little-heralded event took place in New Haven, Connecticut, which was to have far-reaching effects. It eventually helped change the course of history, helped build a nation, and created a world-famous name which is now part of Americana. That event was the formation of a fire arms and ammunition company called The Winchester Repeating Arms Company.

Winchester's great contribution lay in developing the world's first successful repeating arms; these proved of immeasurable importance in the settling of our Western plains. At one time, in

fact, "Winchester" was a household name meaning any repeating rifle. It also became known as "The Gun that Won the West." The pioneers depended on the Winchester to defend themselves against marauding Indians and outlaws, and to provide food for their families. It can safely be said that, without it, a lot more time would have been needed to tame the old Wild West. Buffalo Bill Cody called his Winchester "the boss." Teddy Roosevelt's favorite rifles were Winchester's, and... but there are so very many informative and intriguing stories to tell that I'll have to let some of them wait for future columns.

WE REMEMBER . . .

The 24th Infantry Division "The Victory Division" Korea July 1, 1950

When the North Koreans invaded the Republic of Korea they were opposed by an army of about equal size but without armor or anti-tank weapons. The Reds, amply supplied with Russian-made equipment, easily advanced against the defenders.

The first American troops committed to aid the ROK forces were 1,000 infantrymen of the 24th Division. They were flown from Japan where they were on occupation duty to Pusan. From the port city they moved north by rail and truck.

On July 3d, nine days after the invasion, the Americans entered action. Without tanks, outgunned and outmaneuvered the infantrymen could fight only delaying actions to gain time. The defense moved back to the Pusan perimeter and from there launched a counter-offensive in November. To the 24th Infantry went the honor of being the first combat unit in history to fight under the banner of the United Nations.
