

HIGHEST CIVILIAN AWARD PRESENTED — Wing Commander Brig. Gen. Edward Mendel presents Gene Wittner the Air Force Scroll of Appreciation for his actions in December which saved the life of a Reese pilot. The presentation was made April 29. (U.S. Air Force Photo by SSgt. Ron Pack)

Wittner receives highest Air Force civilian award

Gene Wittner was presented the Air Force Scroll of Appreciation April 29 during an award ceremony in the office of Brig. Gen. Edward Mendel, commander 64th Flying Training Wing.

The Scroll of Appreciation is the highest award that the U.S. Air Force can bestow upon a civilian.

Mr. Wittner was honored for his life saving actions following the mid-air collision of two T-38 Talon jet trainers from Reese on Dec. 14, 1976.

Through a quirk of circumstances, Mr. Wittner actually witnessed the accident while working on power lines near Enochs, Tex. Upon seeing three parachutes open in the air, he immediately stopped work, began to contact the appropriate authorities to inform them of the accident, and, with his four coworkers went to the aid of the downed pilots.

Seeing that two of the pilots were uninjured, Mr. Wittner directed his attention to 1st Lt. Robert L. Jones, an instructor pilot with the 54th Flying Training Squadron (FTS) who had hit the ground harder than

the two other pilots. Lieutenant Jones appeared to be unconscious and had stopped breathing.

Mr. Wittner began giving mouth-to-mouth resuscitation to Lieutenant Jones and continued to do so almost continuously for about 40 minutes until they were on the way by ambulance to Methodist Hospital in Lubbock. Doctors at both the Reese AFB and Methodist hospitals credit Mr. Wittner's quick action with saving the life of Lieutenant Jones, who is now undergoing rehabilitation treatment at a Veterans Administration Hospital in Houston.

Mr. Wittner is employed by the Bailey County Electric Cooperative of Muleshoe, Tex. and works out of their Morton Office. He resides in Morton where he serves as the Scoutmaster for Troop 601. Wittner, a native of Three Way, Tex., is a U.S. Navy veteran who has worked for the Cooperative for the past 18 years. He attributes his ability to react decisively in the emergency situation near Enochs to a com-

bination of training received in the Navy, the Scouts, but primarily to the monthly safety programs conducted by Mr. Lawrence Stovall of the Texas A&M University Extension Service for the Bailey County Electric Cooperative.

The Air Force Scroll of Appreciation was first authorized to be awarded on August 30, 1948. Mr. Wittner's was awarded by The Honorable Thomas C. Reed, Secretary of the Air Force at the time of Mr. Wittner's actions, and by Gen. David C. Jones, Air Force Chief of Staff. The receipt of this award is a rare honor as only seven scrolls were presented worldwide during the past two years.

Following the award presentation, Mr. Wittner, who was accompanied during the day's activities by his parents, Mr. and Mrs. Andrew Wittner of Three Way, lunched at the officers club, toured the base facilities, and was hosted by the pilots of the 54th FTS in an informal "thank you" gathering at the squadron.

First combat-ready F-15s fly to Europe

LANGLEY AFB, Va. (AFNS)—Combat-ready aircrews flew 21 F-15 Eagle air superiority fighter aircraft nonstop from here to Bitburg AB, Germany, April 27, increasing the U.S. air combat capability in Europe.

The aircraft were the first increment of Ready Eagle, a Tactical Air Command training and delivery operation to provide a combat-ready wing of three F-15 squadrons to the 36th Tactical Fighter Wing (TFW) at Bitburg.

When completed, the move will have transferred 72 aircraft, 90

aircrews and 552 maintenance personnel for duty with the United States Air Forces in Europe.

FOCAL POINT

Focal point for the Ready Eagle training program is TAC's 1st TFW here. Aircrews destined for Europe are spending an average of 45 days at Langley learning to operate the F-15 as a fighter weapon system. At the same time, the people required to maintain the European F-15s are receiving hands-on training under the guidance of 1st TFW maintenance experts.

According to Col. Larry D. Welch, 1st TFW commander, Ready Eagle is a new approach to reduce the time disruption in the standard methods of equipping and training a wing.

"The normal approach," the colonel says, "would send pilots to the 36th with initial qualification only, and basic technical school or field training detachment qualification (for maintenance technicians). The 36th would then have to bring both pilots and maintenance people to qualified status in theater.

"Considering European weather,

airspace and other limitations, that could be a long process," he says.

SPECIFICATIONS

The Bitburg-destined Eagles cruised at speeds in excess of 500 nautical miles per hour at altitudes of up to 38,000 feet during the seven and a half hour transatlantic flight of some 3,600 miles. Aerial refueling from a Strategic Air Command KC-145 tanker task force enabled the Eagles to cross the Atlantic non-stop.

Aircrews flew the northern

route—up the Atlantic coast over Boston; Halifax, Nova Scotia; and St. John's, Newfoundland. They then crossed the Atlantic to the southwestern tip of the United Kingdom, across the English Channel, over Belgium and finally into the Federal Republic of Germany.

The first cell of six aircraft arrived at Bitburg at 4 p.m., Bitburg time, where arrival ceremonies were held to welcome the 36th TFW's first squadron—the 525th Tactical Fighter Squadron.

Menu board meets, discuss many items

The Installation Menu Planning Board met April 14 to review the menu for May through August and to discuss items brought to the attention of the Food Service Management by patrons of the Wing Dining Hall.

Members of the board were informed that steaks were regularly served for the Sunday dinner meal. They recommended that this be changed and that the day steaks are served be rotated.

An addition to the short order line was also announced. A small variety, three or four meat items, cheeses and boiled eggs will be available upon request. A cold cut sandwich and hamburger will not be offered together, but this does not

limit patrons from returning for seconds of their choice.

A member asked about a shortage of yogurt and skim milk during the breakfast meal. There has not been a shortage in the supply source, however, the short shelf life of these items limits the supply to patrons. Increasing the portion of food given an individual was also discussed. It was pointed out that this could increase the amount of waste, however, patrons will be served seconds unless a shortage occurs.

In closing, it was brought out that individuals should direct questions or complaints directly to the shift supervisor, resident contract manager, or food service officer at Ext. 2495. This way an individual will receive the right answer the first time.

INTERNATIONAL NURSES WEEK — Lubbock Mayor Roy Bass proclaims the week of May 12 as International Nurses Week. In doing so he recognizes the work of nurses throughout the world. Representing a cross section of nurses in the Lubbock area are (left to right) Sue Barfoot, Public Health Nurse for Lubbock County; Capt. Christin Ratajczak, Operating Room Supervisor; Cindy Cane, Assistant Operating Room Supervisor at Methodist Hospital; and Fran Board, staff nurse at Texas Tech University. A photo feature of nursing services at the Reese Hospital is on page 14. (Courtesy Photo)

FROM THE TRAIL BOSS

Brig. Gen. Edward Mendel
Wing Commander

It seems to me that everyone is for "fair treatment" but that few understand and actively support our programs within the Air Force to achieve that objective. That is, our Equal Employment Opportunity (EEO) and Affirmative Action Plan (AAP). The EEO program is primarily

concerned with the civilian population and the AAP focuses on military personnel, but they have the same intent - fair treatment. They both stress positive action in dealing with the identification and elimination of discrimination due to race, color, religion, sex, and age.

These programs are used as management tools by me, the Deputies, and the unit commanders to help you. They provide a measure of our progress toward eliminating those last vestiges of discrimination in the squadron as well as in the work unit. They work because they focus command attention on the problem areas and facilitate early corrective action.

I am concerned with your perception of our use of statistics to measure change in these programs. Statistics can tell us many things. They are sometimes used blindly. That won't work, particularly when small numbers are involved, so we put a lot of effort into their interpretation. We look at long term trends, at the meaning of each individual occurrence, and finally draw our conclusions after careful thought and analysis.

Some people express the concern that AAP and EEO programs are only for minorities and women. Others believe that we are just playing a numbers game with these statistics. For those who hold these beliefs, I encourage you to find out more about these programs from the Social Actions and EEO personnel, or during our Phase III HRE classes. I strongly believe that these programs are here to provide fair treatment for everyone, for "majority" as well as minority. We view our performance with that in mind.

Let me emphasize that our EEO and AAP are both part of a single program with a single objective - fair treatment for all of our people. We need to make these programs work for us, for all of us, and your understanding and help are needed.

Policy Insight

DoD stops shipping POVs to Japan

On May 1, 1977, the Department of Defense stopped shipping privately owned vehicles (POVs), manufactured after March 31, 1976, to Japan or Okinawa at government expense.

Air Force officials recognize that the embargo is a drastic measure but the figures speak for themselves. The cost and difficulties of taking your 1976 - 77 car to Japan far

exceed the money you might lose in selling it before you depart the states.

WHY BEGAN

As previously announced, the temporary embargo was established because the Japanese Government has begun enforcement of its 1975 emission control standards. These standards call for a heat shield and

warning devices on vehicles made after the March date.

In addition, a POV must pass a tough emission inspection before it can be licensed to operate in Japan. The equipment and inspection requirements also apply to Japanese export models as well as all non-Japanese cars.

Okinawa is a prefecture of Japan,

so all standards and requirements apply to cars destined there as well.

U.S. officials attempted for quite some time to reach an agreement with Japan. The embargo was imposed as a last resort because of financial hardships and inconveniences caused by expensive vehicle inspection and modification

requirements for 1976 and 1977.

Service officials are making every effort to identify Japan-bound personnel as soon as possible and explain the situation. In addition, U.S. officials are still negotiating with Japan to reach an agreement which would eliminate the need for an embargo.

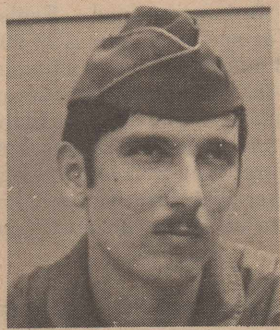

Two Cents Worth

If changes were made to the present military retirement system, would it alter your career plans?

I was promised my benefits so it would definitely affect my career plans.

Ann Joseph Gray
1958 Comm. Sq.

I wouldn't mind contributing to my own retirement pay, but I would like to collect it when I retire and not at a later date.

2nd Lt. Hugh Smith
64th Stu. Sq.

I feel that it would definitely affect my career. When I enlisted it was with the understanding that I could retire after 20 years, I think I deserve benefits if I stay in for the full 20 years.

SSgt. Lawrence Hadsell
64th FMS

I'm in for the job satisfaction right now and changes to the retirement system wouldn't play that important a role in my career plans.

AIC Peter Fotter
USAF Hospital

Commander's CARE Line

(Editors's Note: THE ROUNDUP will publish Commander's CARE Line calls which are of base-wide interest. Names of callers will not be published, but callers should leave their name and duty extension in case their problem needs clarification. All calls are reviewed by Wing Commander Brig. Gen. Edward Mendel. Reese people are urged to use their chain of command or the office of primary responsibility to air complaints or comments, if possible. If not, call the CARE Line by dialing C-A-R-E (Ext. 2273). (Please provide your name and duty section when calling.)

WAPS Testing

I was scheduled for WAPS testing at 8 a.m. After taking my child to the nursery, which opens at 7:30 a.m., I entered the CBPO at 8 a.m. I know it was 8 a.m. because I checked my watch.

I was told that I was too late to test. Isn't it a little bit ridiculous to refuse to admit someone to WAPS testings because their watch is 45 seconds late?

Why can't WAPS testing be held at 8:30 a.m. This would enable people who have family responsibilities to be there a little ahead of time?

We have had this problem in the past and I thought we had it solved—apparently not. With respect to the time to report for WAPS testing, we have moved it to 8:15 a.m. which should give almost everyone time to make it, while still having the prescribed times available for the testing process.

The matter of being late is troublesome, as all present must start at the same time. Thus, there has to be a cut off point somewhere or the late comer is imposing on everyone else by making them wait. For what means, you were clocked as three minutes late. It has been standard practice in the military for many

years to get to appointments early (in the civilian world also if you want to keep your job, get hired, or whatever). With the changed time, there is no reason why people can't make it before the door closes.

No Air Conditioning

I bowl at the Reese Lanes and it was very, very hot tonight when I bowled. Why can't the air conditioning be turned on?

The bowling alley, like most other facilities on base, has not had the air conditioner turned on yet because of the need to hold down energy consumption. It's a national program which we should all willingly support.

The severe winter we've just experienced did not leave without a trace. It left a grim reminder in the form of a major overdraft on our utilities bank account. The total gas consumption on base exceeded our target by 36.8 per cent. The high rate of consumption during the past winter is going to have to be made up by very prudent use of utilities, particularly electricity for air conditioning. Given the choice, I'm sure that most of us would rather be warm for a short period than freeze. I have approved an air condition-

ing start listing which will allow the Civil Engineers to turn on the air conditioning systems in phases, according to mission priority. Our target, based on our financial situation, and a hard look at weather forecasts, is mid-May. To keep things bearable, we are using fans wherever possible. In the meantime, I guess we will all sweat it out together.

Why No Diet Drinks

With a conscious effort being made throughout the Air Force concerning the physical well being of its members, I am hard pressed to find the reason why at least one dietetic beverage is not being offered at the Chow Hall.

I agree that we need a choice of dietetic beverages, but you just didn't look far enough. We do have beverages at the Dining Hall that should be acceptable to dieters. Most of the fruit juices are low in calories, and we have buttermilk and skim milk, too. Additionally, this past weekend we started serving Tab and Diet Dr. Pepper in the carbonated beverage dispensers on each serving line. Just for added info, you can tell how many calories an average serving of food contains by checking the calorie chart in the serving area.

By Maj. Hiram E. West
Base Civil Engineer

Civil Engineering is a customer service oriented organization which frequently provides repair service to all the organizations and family housing facilities. These repair services are a large portion of the Civil Engineering work load and generally involves a specific customer, you.

In order to improve the service, job and customer relations a Quality Control system was developed which allows the customer to quickly evaluate the specific job just completed by Civil Engineering personnel.

An AF form 1255 should be offered to the customer by the shop personnel working on the job. If it is not offered after the completion of

the job, the customer can request an evaluation sheet. The top of the form will be filled out by the worker to identify the job, and the customer should mark the appropriate blocks for the few short questions in the middle of the form. In order to further aid Civil Engineering in improving their service, remarks on the last third of the form are appreciated, to better emphasize

problems, complaints, suggestions for improvement, or compliments for a good job.

Completing the form should only take a couple minutes. It should then be placed in distribution or dropped off at the Family Housing Office. The form is pre-addressed to be routed to the Base Commander, then the Base Civil Engineer so that

immediate management action can be taken on problem areas, and particularly good jobs can be rewarded or acknowledged.

With your aid and cooperation, the Civil Engineering service can be improved, and because of the diversity and expanse of the work field (the entire base and family housing), your help is extremely important.

"He Restoreth My Soul", a film everyone should see

By Lt. Col. Philip Grimmett
Installation Chaplain

Do you have people who think their problems are insurmountable? People who have given up? If so, "He Restoreth My Soul" is a film which should be seen. The film, which will be shown during the noon luncheon of the Christian Men's Fellowship Wednesday in the Base Chapel, is about Merrill Womach. Womach was badly burned and nearly killed in the crash of his small plane and is a testimony of Womach's life and experience.

It begins at the site in the timber at Beavermarc in Ore. where the crash occurred. The film climaxes in the ward of a Veteran's Hospital where Womach stands before victims of other tragedies and sing of a God who cares and understands suffering. "He Restoreth My Soul," and the magnificent voice of Merrill Womach will delight, encourage, and send you and yours away with a song in your heart.

Christian Youth Group
Under the sponsorship of the Protestant Parish, and with the

direction of 1st Lt. Dave Moreman, and Miss Jan Ingram, a new and exciting youth program has come to be. Each Tuesday the group will meet in the base Youth Center from 4 - 5 p.m. All youths, 7th grade and up, are invited to the center for a time of Bible Study, recreation and refreshments.

Beef For Boys

Many of you have heard of and have been involved with the boys from Great Plains Boys Ranch in Pettit, Tex. Isolated from the bustle of Lubbock, and often time the financial subsidies that a large metropolitan can give, the ranch provides a much needed home for 30 - 35 boys. Even with the sponsorship of a church group, the inflation spiral has limited the amount of beef each boy receives per month to no more than two times per month per boy.

The Protestant Parish has launched a fund raising program via the Chapel in order to provide meat each month to the young men. More than 100 "Beef for Boy" banks have already been picked up at the Chapel Center and many more are available.

The Chaplains are suggesting that at each meal you place some coins or bills in the bank. The banks should be brought to the "Break the Banks" Worship Service May 29. All offerings received that day will go to the ranch with a specific request that as much beef as possible be purchased for the boys. Persons desiring a bank and more information should come by the Base Chapel during duty hours or on Sundays.

Armed Forces Week Special activities honor

Armed Forces Week celebrations are planned for May 16-22. The theme, "Peace through Readiness" will be featured in a 21-minute multimedia show available to local civic groups and schools during the week, explained Project Officer, Maj. Bobby Clark.

The shows, locally produced by Capt. Charlie Yates, are tailored to any size group. More information is available from ... Tynan, Wing Information Office, Ext. 2410.

Also, all local military groups will have displays during the week at the South Plains Mall. The Junior

Officer Council and Enlisted Advisory Council will jointly produce and man the Reese exhibit. Personnel interested in working on the exhibits show contact 2nd Lt. Jim Burden, Ext. 2727 or SSgt. Harry Pope, Ext. 2324.

The Base Chapel will be joined by all local churches May 22, in special remembrance of the contributions of all our military personnel.

Achieving American citizenship something special for airman

By AIC Gary Dybvig

How many people can say that they know the Bill of Rights, who makes the laws, or the Declaration of Independence? For most people these are things that are learned, but soon forgotten after school. Also most people in the United States take their citizenship lightly and maybe for granted. But for one Reese Airman it means something very special.

AIC Fausto Vega of the 64th Air Base Group, Publication Distribution section, has been working for the last 10 months on obtaining his citizenship.

"It hasn't been easy," says Vega "because you have to know so much

more than the average citizen does besides basic civics."

Born in Havana, Cuba when Premier Fiedal Castro was coming to power, Airman Vega's parents decided that it would be best to leave their home and immigrate to the United States. On December. 5, 1959, at the age of one and a half, Vega and his family left Cuba for the port of Miami and freedom 90 miles away. Most people can't really realize what ten months of meetings, filling out papers, and waiting can mean, just to hear a judge say, congratulations you are now citizens. Such was the case April 28, when Vega took his oath of citizenship.

If you have never witnessed a nationalization ceremony it is quite interesting. There were 78 new citizens sworn in with Vega on this particular occasion. People from 24 nationalities, such as: Chile, Republic of Korea, Germany, Mexico, Israel, Canada, England, Yugoslavia and Switzerland, just to name a few.

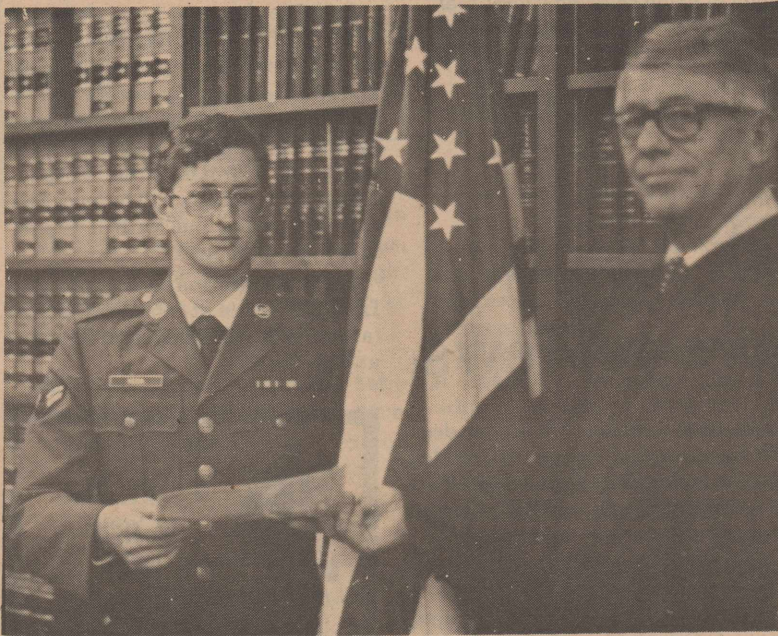

The Honorable, Halbert Woodward, U.S. Federal Judge, presided over the ceremonies. Which take anywhere from three to four hours.

The courtroom was packed, on this occasion. The Nancy Anderson chapter of the Daughters of the American Revolution participated

by handling out American flags to each new citizen. Along with this a speaker is invited to speak to the participants and there is singing of patriotic songs.

Throughout the proceedings a soft hush can be heard while instructions are given and each of the participants are instructed on what will take place.

Seeing all of this take place, one begins to really appreciate that you are a citizen and a sense of pride for the new citizens and yourself take form in your freedom, you may also begin to see what your responsibility as a citizen really is by watching one of these ceremonies.

BECOMES CITIZEN — AIC Fausto Vega is presented his certificate of U.S. citizenship by the Honorable Halbert Woodward. Airman Vega became an American citizen during special ceremonies at the Lubbock Federal Building April 28. (U.S. Air Force Photo by AIC Gary Dybvig)

Camp Instructors Needed

Scout Camp instructors and advisors are needed by the South Plains Council of the Boy Scouts of America for the 1977 Summer Scout Camp Program.

Premissive TDY will be granted. For more details call Captain Ward at Ext. 2204 or 2783.

Equal Opportunity

The civilian Equal Opportunity Treatment (EOT) program here is managed by Al Ourada, Ext. 2801 and Fred Flewelling, Ext. 2184. The military EOT program is handled through the Social Actions Office. Counselors assigned are SSgt. Gilbert Gallo, SSgt. Clyde McDonald and Sgt. Deryel Fletcher. They may be reached at Ext. 2763

Leadership School Graduates

Graduation ceremonies for NCO Leadership School Class 77-G will be at 3 p.m. Thursday in the NCO Open Mess.

Col. Fred D. Barnes will be the guest speaker. All personnel are invited.

First Aid Courses

The Lubbock Red Cross has safety programs scheduled for May 28 in the First Aid. The cost for books is \$5.

A Standard and Advanced First Aid Instructor Course will be taught May 23 - 27 evenings. Evening sessions in Cardio-pulmonary Resuscitation are set for Monday, Tuesday, May 30 and 31. All First Aid Courses satisfy OSHA requirements. Call 765-8534 for registration.

You are invited to attend
Bill and Leona Kent's
LUBBOCK ANTIQUE SHOW

LET'S GO — Amn Tony Ruiz seems ready to go on his first flight in a T-38. Airman Ruiz earned the ride as a result of being selected Crew Chief of the Month from the T-38 Sections. (U.S. Air Force Photo by A1C Lorenzo Gaines)

Base hosts local Scouts May 14

Base scouting organizations will gather at the base picnic grounds May 14 to participate in Reese Scouting Day.

More than 250 scouts representing the Explorers, Boy Scouts, Cub Scouts, Girl Scouts and Brownies are expected.

Some of the exhibits and displays which can be seen, will be, static arts and crafts, demonstrations of scouting skills, such as knot tying and log raising. Skits by the Girl and Cub Scouts will be presented along with games and contests.

The Law Enforcement Explorers will sponsor a bicycle rodeo, bike inspection and a safety lecture.

Activities begin at 1 p.m. followed at 1:30 p.m. by skits. Registration for the Bicycle Rodeo begins at 1:45 p.m. The rodeo and safety lecture will be held from 2-3 p.m. Demonstrations by the Boy Scouts and Explorers will be at 3:30 p.m. From 4-5 p.m. games and contests will be held. The day will round out with a 6 p.m. clean up of the area.

For more information contact 2nd Lt. Mike Norrie at 885-4551 Ext. 525 (after 5 p.m.) or TSgt. Raul Sanchez at Ext. 2545.

Talon Talk

Column back again, receiving rave reviews

By 1st Lt. Jim Nelson

We're back again again for another column after last week's rave reviews. Thanks to all three of you for reading. Thanks also to the Information Office for the instant promotion, but it's still lieutenant for the next few months.

This week's issue is dedicated to two of the Talon's finest, Lieutenants Crosby and Terry Greers. Cros is our IP of the month in the 54th and Terry is the RSU controller of the quarter.

Cros has been singled out for his outstanding efforts with Gorilla flight. After four complete classes of students passing through the 54th, he's seen just about all of it at one time or another. He's another fine product of the Willy pilot training program: trained in sun; groomed in

dust. Cros is as able behind the desk as he is in the cockpit. His added duties include EPQ officer and RSU controller as well as flight Geritol control officer for Gorilla lead.

Terry has been recognized controller of the quarter by a jury of his peers for his outstanding accomplishments in the mobile unit. It seems everytime Terry takes someone else's mobile tour he gets added benefits. The first time was for Terry Branson's two wheeled approach and landing, and the second was for Greg Zeno's blown tire spectacle. Well done from all of us.

Questions for the week: Is Talon lead really trading in his wings for mouse ears and a job with Disney as a vocalist? Is Check Section lead also leaving for a job on the Laverne and Shirley show as a stand-in for Squiggy?

SSgt. Chmitlin receives BA degree in psychology

During commencement exercises at Lubbock Christian College (LCC) this past Saturday, one of the 149 graduates receiving degrees was SSgt. Tommy Chmitlin, of 64th Air Base Group.

Sergeant Chmitlin, was one of the 38 graduates to receive his Bachelor of Arts degree. He received his degree in psychology.

Delivering the message was Charles Hodge, minister of Rosemont Church of Christ, Fort

Worth. The address to the graduates was given by Congressman George Mahon of Lubbock.

LCC President Dr. Harvie M. Pruitt, and Dean, Dr. Jerry D. Perrin conferred the degrees upon the class, while the diplomas were presented by J.C. Hancock, Vice-Chairman of the LCC Board of Trustees.

Sergeant Chmitlin is the son of Mrs. Mary Chmitlin, and is a 1970 graduate of Cory-Rawson High School, Rawson, Ohio.

Rooney welcomes sister

By 1st Lt. Mike Dendinger
Congratulations are in order this week for young Sean Rooney, who took delivery of a new baby sister recently. Heather rang the doorbell at 8 pounds, 4 ounces, and is doing fine. Sean told us he couldn't take all the credit himself, and wanted to thank his parents (Pat and Joyce) for the small part they played.

Andy Lafrenfire, John Boggs, and some others asked me to print some blanket answers to questions they've been asked most often lately. The answers are: 1. "No, I don't have an assignment yet." 2. No, I don't know when I'll get it." 3. "Yes, you'll be the first to know." 4. "Down the hall, second door on the right." and 5. "The Doc said it would clean up soon."

Congratulations to Jim DeGarmo of "B" Flight on being named the official squadron gourmet. Confused over the appointment, a disappointed Phil Bently observe "Gee, I din't even know he could cook." Jim told us he specializes in sea food, and is looking forward to treating us to some of his dishes.

Be sure to read next month's copy of Air Force Magazine, in which "Crosswinds" will be featured in "The Wayward Press."

Toad 01, IDENT

This week's winner is Jeff Fine. Jeff wanted to talk to Rundown one day, but their transmitter was out. A Transcript of Jeff's transmission reads: "Hello Rundown? This is Nail

26. If you can hear me, don't answer. Oh, of course you wouldn't answer - your transmitter is out . . ." It goes downhill from there, folks. Jeff Rundown won't pick it up, But IDENT anyway.

Dear Dinger,

I notice that you often refer to Lt. Col. Andy Flowers in your article. Some people on base might not know who he is, and it would be much more clear if you referred to him as "Joyces' Husband."

A Fan

Dear Fan
Yes Ma'am

StuRon News

Brower gets command

By Capt. Cliff Napolitano
The squadron went through another rearranging Monday, as Lt. Col. Barry S. Brower assumed command. Welcome Colonel and Sharon Brower!

It looks as though MPC has done it again. . . they have kept our athletic recruiting program alive and well. In a rather informative staff meeting/locker room talk, Colonel Brower mentioned his prowess with a bowling ball. So rest easy Lee Steverson . . . the squadron bowling team is safe. Colonel Brower also outlined his past history for us. I, along with many of our number, was delighted to hear that the colonel is an art lover. . . his references to "GOYA" were inspirational.

And speaking of inspirational, how's this: Capt. "Two shoes" Davis is so sure we are going to win

intermural softball that he volunteered to play the first game with two right shoes. What a sportsman: Don't be too hard on Jerry though, this whole week he has been wandering around singing under his breath, "Mother-in-Law, mother-in-law!" And who is that masked visitor from the North, Jerry?

Capt. Wayne Hodges is still recovering from his second round bout with his sunglasses, wig and party spirits of last Saturday night. At last count it was a split decision.

When you get a chance, drop in and see Charlotte's new "Space fan." You can recognize it immediately . . . it's the one without any fan blades. Quite a novel idea, either Charlotte is way ahead of her time. . . or . . . I've got some real nice swamp land in Florida I can let her have at a steal of a price.

Mr. and Mrs. Thomas N. Goode on the birth of a son, Brandon Thomas, born 10:59 a.m. April 29, 1977 weighing 7 lbs. 12 1/2 ozs. at St. Mary's of the Plains, Lubbock, Texas.

NOTICE — If you have a new baby that has not been reported in "The Roundup", please call 763-4551 or 795-6991 or 885-4511 ext. 2410.

Savings Bonds drive set for May 16 kickoff

On May 16 Reese will launch a month long drive to encourage payroll purchases of U.S. Savings Bonds.

A total of \$7.6 billion worth of savings bonds were sold last year. Federal employees bought \$1.1 billion worth. The Treasury Department's U.S. Savings Bonds division hopes federal employees will buy at least that many this year—and that the total sales figure will reach \$8 billion.

Thirty-one per cent of Air Force members bought bonds in 1976. About 43 per cent of Air Force civilians also bought.

This year in addition to trying to

boost those percentages, canvassers will try to persuade current bond buyers to increase allotments (which for military members start at \$6.25 per pay period).

Series E bonds, the type that is most popular with military people, begin paying interest after they've been held only two months. Increased at set intervals, the interest rate averages six per cent by the time these bonds are mature—in five years.

Throughout that period, and for as long as the bonds are held, Federal taxes are deferred, and bonds are not subject to state or local taxes.

Club sponsors contest

A contest to select a little Mr. and Miss Reese co-sponsored by the Enlisted Wives Club and the NCO Club will be held at the NCO Club at 3:30 p.m. Sunday.

Members of the NCO club may enter their children who are between

the ages of three and six. The entry fee per child is \$1.00. Entry blanks and a snapshot of the child can be brought to the NCO Club tomorrow, between 11 a.m. and 1 p.m.

Winners will be selected by the entire audience the day of the contest on their poise and personality.

Women receive invitation to annual Chamber event

The Women's Division of the Lubbock Chamber of Commerce will be hosting their annual Military Wives Coffee between 10 - 11:30 a.m. Tuesday, according to Mrs. Arnold Maeker, chairman of this year's event. The informal "get acquainted" coffee will be held in the Terrace Suite of the Lubbock Memorial Civic Center.

A special invitation is extended to the wives of all current, and retired, military personnel. Also invited are all women in the military who are stationed in the area. They need not be married to someone in the service.

This coffee has been hosted for the past seven years, by the Women's

Division, as a way to help make these ladies feel more welcome into the community. Reservations for the coffee may be made by calling the Chamber of Commerce at 763-4666, Ext. 55.

Mrs. W.B. (Dub) Harris Jr., President of the Women's Division, stated "We hope that all the ladies affiliated with the military will make reservations and come to this coffee in their honor. Their honor. Their contributions and involvements in the community are appreciated and we want to make them feel more a part of the community."

Spring Auto-Cross

The Municipal Coliseum parking lot will be the site of the West Texas Corvettes "Spring Fever Auto-Cross" this Sunday. Drivers will be bringing their sports cars from as far away as El Paso and Albuquerque to compete in the regional event.

Auto-cross racing, one of America's fastest growing sports, allows public sports cars enthusiasts to match their driving skills against the course and the clock. Only one car runs a laid out course at a time and points are given for time and driving ability. Drivers and cars are placed in classes according to the model, make, and engine size of the car.

Trophies will be awarded to all class winners at the event and spectators are invited to witness the excitement of auto-cross racing at its best. A drivers meeting will be held Sunday at 1 p.m. and the first car out will be at 1:30 p.m.

Busy time at Mathis tonight, tomorrow

This weekend will be a busy time at the Mathis Recreation Center as dances will be held tonight and tomorrow night.

"Mexican Expression" will perform tonight from 9 p.m. - 1 a.m. There is a \$1 admission charge for the performance.

Tomorrow evening "Flash's Mobile Disco" will be at Mathis. The dancing will begin at 9:30 p.m. and there is no admission charge.

The recreation center would also like to remind everyone about its upcoming tours.

A trip to the opening night performance of the Texas Pageant is still being offered. The tour will leave from Mathis at 6 p.m. June 17 and will return to Reese as soon as the show is over. Price for the tour is \$12 which includes bus transportation and admission to the pageant.

Also being offered in June is a tour to Six Flags Over Texas. The tour will depart June 3 and a choice of staying one or two days at the park is available. Price of the trip is \$45 per person for the one day tour and \$61 for the two day stay.

Additional details on these tours and others may be answered by calling Bob McFall at Ext. 2787.

AT MATHIS — "Flash's Mobile Disco" will be at the Mathis Recreation Center tomorrow night for an evening of dancing beginning at 9:30 p.m. Admission is free. (Courtesy Photo)

Games, fun tonight at O'Club

Games Night is tonight! It will be run on the same basis as March's games night. The fun begins at 7:30 p.m. at the Officers' Open Mess and admission is \$2 per person.

There will be free hors d'oeuvres, door prizes, dancing and to top the evening off — a surprise event at midnight (or thereabouts). All club members are invited to come out and have a good time. The dining-room will be open.

The Junior Officer Council would like to thank everyone who helped with recent Easter Egg Hunt and the benefit basketball games. Both were a success and \$180 was raised from the game to donate to the Lubbock State School for their new activities center.

National Hospital Week

Programs begin here

By Maj. Roger Burke

Sunday - May 14 is National Hospital Week. The theme this year is "We put care in health care."

The staff at Reese Hospital is dedicated to this philosophy, and strives to provide comprehensive health care to all who use the hospital's services. To put "care" in health care, many programs have been initiated to expand hospital services and provide an "I Care" attitude by the hospital staff.

During National Hospital Week, the Hospital Pharmacy Staff will be conducting the Save A Child's Life program. This is an effort by the Pharmacy staff to take dangerous drugs out of the reach of children and to increase parental awareness as to the increasing number of accidental poisonings. Further details will be in the next edition of the ROUNDUP.

Hypertension Clinic

In addition to the Save A Child's Life program, the hospital's new Hypertension clinic will begin operating next week. The clinic will provide hypertension screening and instruction on the effects of

hyperension (high blood pressure) and ways to prevent it. Free blood pressure screenings will be conducted at the following locations:

- Monday from 8:30 - 10 a.m. at CBPO
- Tuesday from 9 - 11 a.m. in the Commissary
- Wednesday from 9:30 - 10:30 a.m. in Bldg. 820 and from 11 a.m. - 1 p.m. at the Base Exchange.
- May 13 from 11 a.m. - 1 p.m. in the Lubbock National Bank branch office.
- May 14 from 10:30 - 2 p.m. at the Base Exchange
- Monday - May 13 from 1-4 p.m. in Hospital Lobby.

A 12 minute film on Hypertension entitled "What Goes Up" will be shown in the Hospital General Therapy Clinic Tuesday from 1 - 4 p.m.

Special Presentations

Also this week, the hospital's out patient department will present a series of programs from 3 - 4 p.m. in the clinic's teaching room. Everyone is welcome to attend one or all of the following programs.

• Monday: Information About Allergies presented by the Immunization Clinic.

• Tuesday: Hypertension information presented by the providers in the Primary Care Clinic.

• Wednesday: Minor injuries (cuts, scrapes, and burns) presented by PA Dupre.

• Thursday: Birth control presented by Maj. Charlotte Gordon.

• May 13: Insect Bites presented by Capt. Joseph Piccone.

For more information on these programs call Ext. 2285.

Patient Affairs Advisor

Another of the hospital's "I Care programs" is that of the Patient Affairs Advisor. He is the patient's advocate and representative. His job is to assist the patient in obtaining the best medical care possible. When a patient has questions concerning services available, how to make an appointment, issue compliments or complaints, the Patient Affairs Advisor is there to help.

A Hospital Advisory Panel

A Hospital Panel has also been established to discuss various ways the hospital can better meet the needs of the patient population. Representatives from various organizations and the Reese community such as the Junior Officer Council, Enlisted Advisory Council, NCO and Officers' Wives' Club, Air Force Sergeants Association and the Retired Officers Association are invited to discuss programs that will improve patient care and hospital services.

Wrong idea exists on double jeopardy

By Capt. Carson F. Grimm

When an Air Force member gets into trouble "downtown," whether it involves a simple traffic ticket or a serious criminal conviction, he often faces adverse administrative action on base. These actions can range from suspension of base driving privileges to discharge.

As a result of these actions, many members feel they are being subjected to double jeopardy and that the "system" is unfair. This problem is created by a misunderstanding of the meaning of double jeopardy.

Double Jeopardy only applies to being criminally tried twice by the same sovereign, or jurisdiction, for the same offense. Trial by a state court does not bar a federal or military trial. Double jeopardy also does not bar non-criminal or administrative action based on the same offense as a criminal trial.

Air Force policy prevents use of court-martial or Article 15 for an offense for which a member has been tried in civilian court.

However, some non-criminal actions are considered appropriate. These actions are based on the need to maintain a combat ready quality force. For example, A problem driver who has been identified by his civilian driving record is a threat to others on base and needs help. Therefore, he will usually have his on base driving privileges suspended and be referred to remedial driver training. Similar justifications exist for withholding promotion, Drug and Alcohol Rehabilitation Programs, administrative discharge, and other force management actions.

You, the Air Force member, can avoid these kinds of actions by simply practicing good citizenship, that is by carefully observing all laws and regulations, both civilian and military. If you do get into trouble and adverse administrative action is contemplated against you, remember that you do have rights. Immediately contact the Legal Office or Area Defense Counsel so that your rights can be protected.

Presentations highlight Mormon Open House

The Church of Jesus Christ of Latter-Day Saints (Mormons) will hold an Open House from 7 - 10 p.m. today at 3211 58th St.

Through displays and presentations information will be given regarding the Family Home

Evening program, a family togetherness project. Skilled geneologists will be available to discuss how to search for one's ancestors. Methods for preserving and storing food will also be demonstrated. Admission is free.

Nurses Week honors birthday of Nightingale

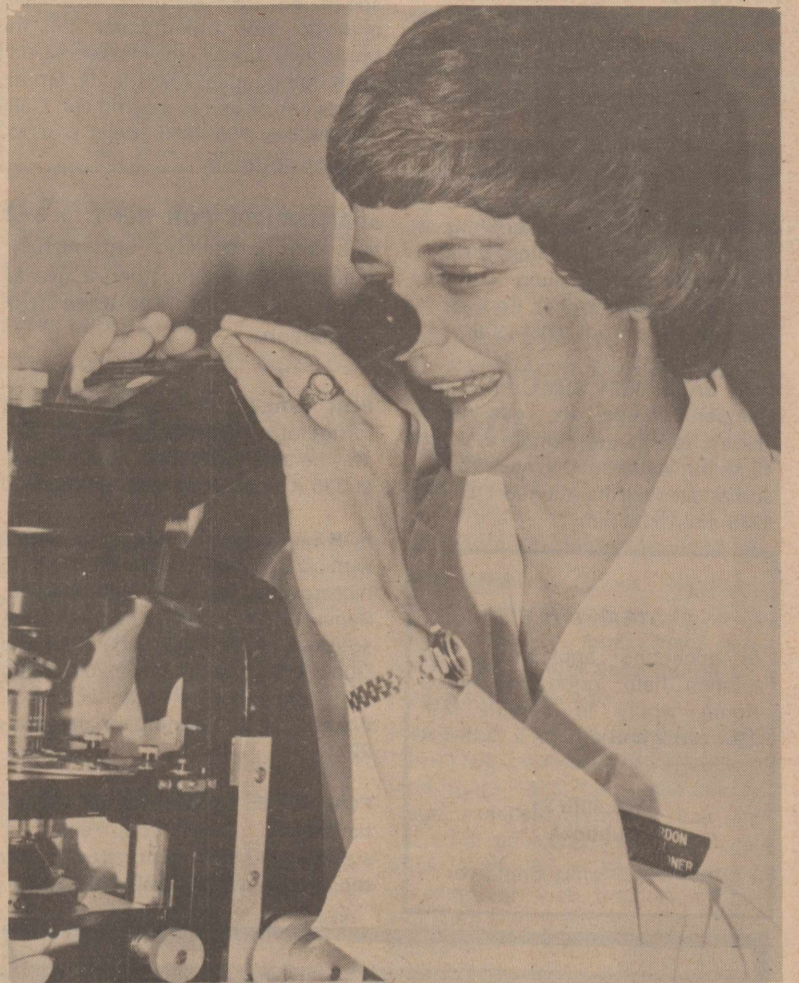

Each year, nurses throughout the world celebrate International Nurses Week during the week of May 12. Florence Nightingale's birthday.

Nursing has come a long way since the Crimean War but in principle and integrity it has remained unchanged. Nurses are generally dedicated professionals who practice an art and a science which has increased in complexity, responsibility and challenge in recent years.

(U.S. Air Force Photos by SSgt. Ron Pack)

LET'S HAVE A LOOK — Primary Care Nurse Practitioner Capt. Joseph Piccone is an example of the increasing responsibility nurses have assumed. Captain Piccone may be able to treat this lady's ailment himself. This will leave a doctor with more time to care for other patients.

GOOD NEWS — A nurse's responsibility has also increased in specialized fields of medicine. Maj. June Gordon, OB/Gyn Nurse Practitioner, is capable of diagnosing and treating a variety of illnesses without a doctor's aid. Of course a doctor is available if she needs help.

NUMEROUS CHECKS — Nursing someone back to health requires constant observation of numerous factors. SSgt. John Harrison makes a few of these checks in the form of blood pressure and temperature readings.

MODERN NIGHTINGALE — Stella Mercer, Registered Nurse, prepares a patient's medication.

League Opens

Red Sox win, routs Pirates 16-3

Bert Woods and Anthony Miller drove in five runs apiece as the Red Sox routed the Pirates 16-3 in the opening game of the Youth Baseball League Saturday.

The winners looked sharp defensively by getting two double plays and were never in trouble during the one-sided contest.

The Pirates had opening game jitters by committing five errors and walking 15 batters.

A nine-run explosion in the 1st inning, sparked by a double by Jimmy Bradford and a triple by Chris Bennett, propelled the Braves to a 14-11 victory over the Tigers in the day's second game.

The two teams blasted 20 hits during the contest which wasn't decided until the last inning. Clutch relief pitching by Bennett in the final stanza in which he struck out the side after the Tigers scored three runs spelled the difference.

GET READY — David Perry pitches to Bert Woods during the season opener between the Red Sox and Pirates Saturday. Catching for the Pirates is Billy Seward. Red Sox won the game 16-3. (U.S. Air Force Photo by A1C Lorenzo Gaines)

Soccer team out plays foes in weekend outings

"We outplayed both teams this past weekend," said Edmond Ford, Coach of the base soccer team, after winning both Saturday's and Sunday's games. With these two games over, the team now has a 4-1 standing in the Floydada

Independent Soccer League of Lubbock.

Jim Johnson scored in the first half to even out the score at 1-1, during Saturday's game against, Wells-Carp. In the second half of the game Allen Patriquin scored to end the scoring for both teams, showing Reese winning 2-1.

Kappa Alpha (KA) played here in Sunday's game and came up short. KA scored first and on the pursuing kickoff, Allen Patriquin scored to even up the score at 1-1 in the first half. During the second half Patriquin again socked the ball through the net, to give Reese a 2-1 lead which was never relinquished.

This Sunday's game will take form in a Soccer Tournament beginning at 10 a.m. here at the track field. The tourney will be an all day event with teams from Reese, Lubbock Christian College, the Old Timers and an all League team, made up of members from the Floydada league, playing each other in the final game. Everyone is invited to attend.

HARD TO BELIEVE — Brig. Gen. Edward Mendel jumps for the opening toss against a ringer put in by the Junior Officers' Council (JOC) in a basketball game played last Saturday. In the game the junior officers challenged the senior officers in a game played to raise money for the Lubbock State Children Home. Junior officers won 42-40. In the preceding game, the (JOC) women defeated the Officer Wives' Club 26-12. Both games raised \$80 to support the Home. (U.S. Air Force Photo by A1C Gary Dybvig)

MWR hosts Super Star contest, unlike any other

Super Star events are a common thing to see and read about lately, but not like the contest, soon to be held, here. This will be a test of strength and competition.

Morale, Welfare and Recreation Division is sponsoring the base wide Super Star Contest that will be held over a six week period starting May 23.

Four people from each squadron will be selected. The method of selecting is up to the squadron.

Orderly rooms have been provided a list of team and individual events from which each participant will have to choose. A brief explanation of the events are also provided with the list.

Some of the individual mandatory events are: Basketball (Free throw), one and half mile run, and an obstacle course. Teams must compete in one of the following: tug-of-war, basketball or volleyball.

After the squadrons have selected the team, the individuals must select their team and individual events they will compete in. These must be forwarded to the base gym not later than May 16.

Along with the mandatory events, team members must select eight events among the following: Weight

lifting; 100,200,400 meter run; bicycle race; broad jump; golf; swimming or push ups.

their orderly rooms as soon as possible. If there should be any other questions concerning any of the events contact the base gym at Ext. 2207 or 2783.

Interested persons should contact

Bowlers like lanes, first open laid to rest

By Sonny Serutan

low I thought it was inop.

Sonny says, "Congrats to the winners - for the rest of you, Keep it rollin."

The First Reese Open has been laid to rest. The bowlers found the lanes to their liking and got in the groove early in the tournament.

The "Tired" and Retired team took the team event with a 2410 score. That's a pretty good score for our old guys. Warren, Inc. was second and the Shut-in team finished third.

Mel Wright and Johnny Walker won the doubles with a 1278. They got off to a slow start but came on strong the second and third games.

Lonnie Awtrey's 664 took the singles championship. (Lonnie also placed in the All Events Category.)

Connor Russell took the All Events Championship with a 1900 plus score to round out the prize list.

The "Gray Fox," George Stepnick, came down from Amarillo and brought three of his ringers with him. The heat really got to these guys. One guy was so warm he almost dropped his beer can. He was overed, though. Speedy Danny Albright would have caught and rank it before it hit the floor. Well, better luck next year, guys. Maybe Danny will teach George, Al and Tony to bowl before our next shoot-out.

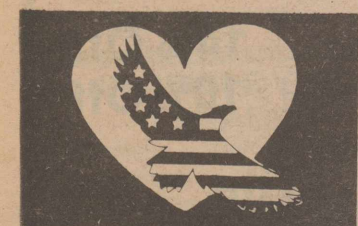

Notice the Maintenance Complex as a corral now. I've been expecting to see a Pinto or a Mustang parked in it.

S.S. really bomb out this week. His ct was really bad. Their GSI was so

Ball league considered by Youths

Youth Activities is considering sponsoring a T-Ball baseball league for boys and girls ages six and seven.

If a sufficient number sign up and adult volunteers can be found the program can be offered. Also required is a parent or parent group act as league organizers. Call the Youth Center at Ext. 2820 if interested in playing or volunteering.
