

# CFC contributions pass '77 mark

The 1978 Combined Federal Campaign is over and Reese people showed their generosity by exceeding the base target by more than \$14,000.

With only a few dollars still trickling in, the base total has topped \$80,479 which is 121.9 per cent of the \$66,000 goal set for this year.

Nearly every unit on Reese went over its "fair share" goal in helping Reese to its largest CFC total in history. Monday's tally broke the previous record

of \$79,703.48 set last year. The organizational breakdown shows Maintenance at 114 per cent (\$19,406.55), Operations with 129 per cent (\$25,745.55), Resource Management hit 122 per cent (\$9,736.75), the Wing Staff stands at 520 per cent (\$1,818.10), Air Base Group turned in 107 per cent (\$13,878.90), the Hospital pledged 161 per cent (\$6,457.20) while the 1958th Communications Squadron came up with 113 per cent of its goal (\$2,015).

Only the combined tenant units failed to reach 100 per cent of their "fair share" target. The combined tenants contributed \$1,419.30 for 77 per cent of their goal. However, two of the units, Weather and the Management Engineering Team, did top the century mark hitting 128 and 155 per cent respectively.

Maj. Bobby Clark, CFC project officer wound up the campaign by announcing the Top 10 individual units during the drive. Listed by per cent of

goal attained, are: Field Maintenance Squadron, Organizational Maintenance Squadron, the Deputy Commander for Maintenance complex, the 54th Flying Training Squadron and the 64th Flying Training Wing staff. Rounding out the top 10 honor roll are the Reese Credit Union, Reese Hospital, the Deputy Commander for Operations complex, the 64th Student Squadron and Detachment-1, 64th Air Base Group.

## BAC acts on 'people' programs

The decision to place at least one toll telephone booth in Reese Village was one of several "people" oriented moves made during the September meeting of the Base Advisory Council (BAC).

Following a survey of Reese Village residents, the BAC approved plans to install a telephone booth near the Family Housing Office across from the main gate. Another booth may be put in at the east

end of the village if a suitable site can be found.

### Laundry room

A Civil Engineering spokesman advised council members that a laundry room will be included in renovation plans for Reese's guest quarters. The facilities are expected to undergo a complete rehab in the near future.

### Watch, shoe repair

Council members pointing

out the need for a watch and shoe repair service here were told by Base Exchange officials that a watch repair and engraving facility is planned for the new base exchange shopping center to be built in 1980. The official noted that there doesn't seem to be enough trade to warrant a shoe repair shop, but, that local cobblers will be queried to see if an on-base pick-up point for shoe repair is practical.

### Talon Inn stays open

The test program extending the weeknight hours of the Talon Inn until midnight has been extended through Oct. 13. In suggesting the extension to the BAC, a Base Exchange spokesman said that the original test (Sept. 11-30) did not receive enough publicity to allow for a "fair" evaluation of the test. The extended hours of operation are being tested to help shift workers.

### Shuttle bus downtown

The BAC is investigating the possibility of setting up a shuttle bus route to Lubbock. A proposed schedule for the shuttle will be presented at the October meeting. In addition, the council is looking into the chance that Citibus (Lubbock's public transit system) might be able to service Reese.

## Personal Affairs, Family Services slate orientation

by 2nd Lt.  
Barbara D. Shippy

All Air Force spouses, particularly those who married recently or are married to first termers, are encouraged to attend the semiannual Family Services/Personal Affairs Orientation on Oct. 17.

Besides providing free lunch and babysitting for the participants, the orientation acquaints spouses with the special rights, benefits and privileges available to their family as a result of their Air Force affiliation. The briefing runs from 9 a.m. to 1 p.m. in Party Room 1 at the Officers Open Mess.

The orientation agenda includes briefings in such areas as personal affairs, casualty assistance, legal services, family services, medical benefits and CHAMPUS,

disaster preparedness, commissary and exchange privileges, education programs, and Morale, Welfare and Recreation opportunities. Col. Monte Montgomery, 64th Air Base Group commander, will also be on hand to talk about the Reese mission.

The orientation is a good source of information for the spouses of "old timers" too, since a lot of new provisions have been added to many of these programs in the past few years.

The Personal Affairs Unit is asking for an R.S.V.P. by Thursday for those attending the orientation in order to plan for the luncheon. Call the unit staff at 885-3643 or 885-3402. Anyone planning on using the free nursery care while attending the orientation, must call the base nursery to make reservations for that day.

# Help prevent fires!

Sunday through Oct. 14 is National Fire Prevention Week. Although fire prevention is year-round obligation for each of us, the special observance gives us a chance to make sure our prevention practices are sound.

The activities planned by the base fire department during the week include courtesy fire inspections for Reese Village residents and on-base organizations. I urge everyone to take advantage of these courtesy inspections by calling the fire department at ext. 3688 or 3311 and making an appointment for our firemen to help you determine that your home and work areas are in good shape.

Statistics show that most of the fires on Reese and within the Air Training Command are in family housing and dormitory units. In the first

seven months of 1978, ATC suffered 49 reportable fires. That's 15 more than in all of 1977.

Reese has traditionally had one of the best fire prevention records in ATC and this year is no exception. We have had just one reportable fire so far this year and had only two in 1978. But we can and need to do even better.

Please make a special effort to check your areas of responsibility and review your fire prevention procedures to eliminate all fire hazards.

Fire prevention is not the responsibility of the fire department alone. We all must suffer the losses and should share the concern. **Help prevent fires — thanks!**

## CARE Line

*(Editor's Note: All calls to the CARE Line MUST be accompanied by the caller's full name and duty phone so that answers may be provided personally, if space is not available in THE ROUNDUP. All information will be held in confidence and names will be withheld from print upon request. Names and numbers are required in order to give quick, personal responses to legitimate questions. Reese people are urged to use their chain of command or the office of primary responsibility to air complaints or comments, if possible. If not, call the CARE Line (Ext. 3273).*

### Beauty Shop prices

I would like to know why all the prices in the base Beauty Shop were raised as soon as the new contractor took over. I talked with the Exchange manager and he told me the present contract is exactly the same as the previous one yet the prices have been raised on practically all services.

According to the contract, the survey of the surrounding area was to be made and the prices at the base Beauty Shop set at 20 to 25 per cent below the average. A shampoo and set has been raised from \$5 to \$5.25 without any notice. I have checked numerous shops in town and find the cost to be \$6. According to my calculations, with 20 to 25 per cent off, the prices should be either \$4.50 or \$4.80. Some shops in town charge more than \$6.00 which I did not encounter, a \$5 charge for shampoo and set is adequate.

Now this is only one example of prices. I do not feel that I should do the Base Exchange's homework for them so I have not checked out the price of haircuts, perms, etc. Also, have you

looked at the supplies that have been placed in the shop for our use? If not, you are missing a chance of a lifetime. I am sure you don't want these supplies used on your wife's hair and by the same token I don't care to have my hair tinted with some outdated coloring.

Prices charged by Base Exchange (BX) concessions are determined by AAFES through a survey of like civilian businesses in the local community. The average cost of their services is determined and BX prices are established 25 to 30 per cent below the average cost. The survey must be conducted when a new contract is awarded and at anytime the contractor requests such a survey.

On April 11 the Base Beauty Shop contractor requested such a survey and he anticipated there would an increase of approximately 20 per cent on all services. When the survey was completed the outcome was a 5 per cent increase on some items, or 25 cents on some services and none on others. The contractor was not satisfied with this small of an increase and did not put

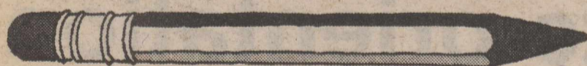

the new prices in effect. He elected to terminate his contract with the BX.

On July 10 a new contract was awarded. The prices which should have gone in effect in June were put into effect. This was the first increase since May, 1976.

The Central Texas Area Exchange Contracting Officer was contacted on Aug. 8 and was requested to review the prices charged at the Beauty Shop. His review indicated that the BX customer is paying 25 percent less than the average cost in the local community. He also stated that Reese prices were well in line with other bases in the area. A copy of the survey is available in the Base Exchange Manager's Office and will be made available for review on request.

The supplies in the Beauty Shop were evaluated and found to be outdated and have been removed. The contractor has been instructed to use only established brands that are well within usage dates.

# Fire prevention is universal

### —An Editorial for Fire Prevention Week—

Don't risk a close encounter with fire!

Darth Vader doesn't confine his villainous activity to other galaxies. He spreads his treachery right here on earth, in the form of flame, smoke, heat and toxic gases. These potential hazards flourish everywhere in the 20th century American environment, needing only one mindless act, one stray spark to erupt and cause death and destruction.

Fire Prevention Week Oct. 8-14 is the time to focus on fire safety problems — and possible problems — before they're serious enough to blast their victims out of this world and into the next.

Cloning hasn't reached this planet yet, so take care of your loved ones.

Keep the place where you live free of clutter and unused things that could add fuel to flames and feed a small fire until it grows out of control. Properly use and maintain electrical equipment. If you must store gasoline and other flammable liquids on your property, use only approved safety containers and don't keep them in the house itself.

Monitor everyone who smokes at home. Take seriously the familiar advice "Never smoke in bed!"

Recent studies by the National Fire Protection Association, sponsor of Fire Prevention Week, show that more than half of 3,955 fatal dwelling fires analyzed had smoking-related causes. Such fires were started by cigarettes, cigars and pipes, and by open flames including the matches and lighters used by smokers. Many of these fires were caused by children playing with smoking materials.

First item to catch fire was furniture (29 per cent of the time), followed by bedding (18 per cent) and by combustible liquid or gas (14 per cent).

The living room was the place where 39 per cent of these tragic fires started; 28 per cent broke out in the bedroom; and 14 per cent in the kitchen.

Remember that a close encounter with fire can be breathtaking. Don't risk it. Observe Fire Prevention Week now, and Learn Not to Burn every day of the year.

May fire safety be with you!

THE ROUNDUP is an unofficial newspaper published in the interest of personnel at Reese AFB under contract with Barron Publications, Inc., mailing address: P.O. Box 2415, Lubbock, Texas.

Publisher's Statement

"Everything advertised in this publication must be made available for purchase, use or patronage without regard to the race, creed, color, national origin or sex of the purchaser,

# Columbus Day commemorates American spirit of discovery

By Capt. Rick Campbell  
 ATC Office of Information

Columbus Day is commemorated on Oct. 9. Too often it is viewed as one of those holidays we simply accept as a day off without really every pondering over the significance of its meaning. Actually, Columbus Day is a celebration of an American Spirit of Discovery — that same spirit which kindled the spark that lit a torch for freedom and democracy embodied in this great country.

Today we still cling to the Spirit of Discovery as men and women seek to unveil the secrets of new frontiers under the sea, within the depths of the earth's surface, and in outer space. We, as a people, get excited over the prospects of fascinating and fantastic adventures that lay before us in the future. We do so because we are a nation, born in freedom, who continuously strive to open locked doors and find new ways to expand our horizons.

In the Air Force we have been leaders and explorers in the realms of discovery — from technological advances to better relations between people

of different races and backgrounds. The most devastating obstacle to discovery always lies in the fact that to often people are unwilling to change old methods of doing things. Sir Francis Bacon in his *The Advancement of Learning*, written in 1605, said, "They are ill discovers that think there is no land, when they can see nothing but sea." We must

continue to strive to reach high goals and refuse to accept manmade limitations on our talents and abilities.

Columbus Day should be a time of reflection and looking forward. We can take pride in our contributions through discovery of continued innovations and methods of maintaining excellence which produce the quality of our Air Force.

## Unattended children upsetting Hospital

Recently, the Reese Hospital has had a problem with unsupervised children in the Hospital areas.

These unsupervised children have been disrupting the operations of the Clinics as well as causing discomfort to some of the patients. Parents, (patients), coming to the hospital to be seen are urged to make prior arrangements for care of their children. The children are not allowed in the Examining Rooms, which means in effect that they are left unsupervised.

This not only causes problems for the Hospital Staff but the parent is not getting full

benefit from the visit. Since the parent's mind may be on the unsupervised child, the patient is not fulfilling obligations such as providing pertinent answers to the provider's questions, or listening as the Health Care Provider gives instructions for successful treatment of their ailment. Children are, of course, allowed in the hospital as patients and visitors, however, in consideration for the many other patients visiting the Hospital, the children must be under the direct supervision of a responsible adult at all times.

Members of the Hospital Staff, as well as the patients, will appreciate cooperation for this policy.

# Reese supports 'Gallant Eagle'

GALLANT EAGLE 79, a large scale joint readiness exercise conducted by the United State Readiness Command, MacDill AFB, Fla., is scheduled for Oct. 17 to Nov. 16, with approximately 25,000 military personnel taking part.

Air Training Command (ATC) will furnish 127 people (three from Reese) in support of the Air Force operation in the exercise. The ATC participants will be from all command bases, except Vance AFB, Okla., and Gunter AS, Ala., representing a variety of career fields.

Representing Reese on the exercise are A1C Cheryl Smith

and A1C Chris A. Hill, 64th Supply Squadron, and A1C Daniel E. Sweetwater, 64th Civil Engineering Squadron. The three Reese airmen are expected back in mid-November.

Along with the ATC people taking part in the exercise a portion of the flying operation will be from ATC's Maxwell AFB, Ala., and Keesler AFB, Miss.

The exercise will provide the opportunity to plan, test and evaluate Air Force, Army, Navy and Marine Corps resources working together in a simulated combat condition. Members of

the Air Force and Army Reserves and National Guard along with representation from the Naval Reserves will take part in the test.

The U.S. Readiness Command forces come from two major components — Army Forces Command, headquartered at Ft. McPherson, Ga., and the Air Force's Tactical Air Command with headquarters at Langley AFB, Va. Other Air Force commands taking part are Military Airlift Command, Air Force Communications Service, Strategic Air Command and Aerospace Defense Command.

# BAC acts on 'people' programs

(Continued from page-1)

BAC was a proposal to limit parking in Reese Village to one side of the street. Surveys taken by various base units indicated that the majority of Village

residents preferred to keep parking the way it is now.

### Other topics

Some of the other topics covered during the last BAC meeting included: telephones in the dormitories, clotheslines in

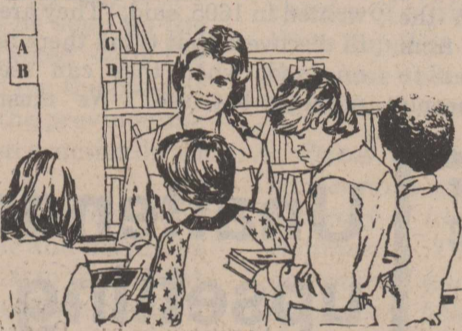

Reese Village, technical courses on base, latrines in the dining hall, optical benefits, curtains in the dorms, need for private party facility for enlisted, publicity for downtown activities and a human relations course for dependents.

# Transportation officials recall Subaru Brats

Recall of 23,000 Subaru Brat vehicles because of fuel tank leaks has been announced by the United States Department of Transportation.

The department was notified by Subaru of America Inc., that the fuel tanks on these vehicles may develop hairline cracks. The problem may be caused by a blockage in the fuel evaporative control system which leads to abnormally high pressure in the fuel tank and subsequent stress failure.

Owners of these vehicles should examine their fuel tanks for bulges or signs of fuel leakage and to contact their dealer immediately if such problems are observed.

### Zig Ziglar's Sales Seminar

Zig Ziglar will be returning to Lubbock to conduct an all day Sales Seminar on Wednesday, November 1 at the Winchester Theater. Ziglar was in Lubbock on February 28 to conduct a Personal Growth and Motivation Seminar to a near crowd of 3,000 people.

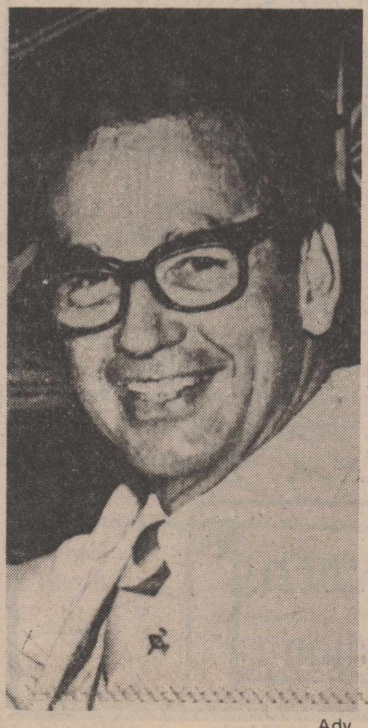

His new book "Confessions of a Happy Christian" was released in May. His first book "See You At The Top" with over 250,000 in print was one of the 10 best-selling religious books in 1977.

Mr. Ziglar is rated the nation's number one motivator. He has been recognized three times in the Congressional Record of the United States for his work with youth in the drug war and for his

activities in selling America and the free enterprise system. Zig is rated by his peer group, as well as audiences everywhere as one of the best and most versatile speakers in America. He has appeared on the same platform with such outstanding Americas as Ronald Reagan, Dr. Norman Vincent Peale, Paul Harvey, Art Linkletter, General "Chappie" James, as well as several United States Senators, congressmen and governors.

Mr. Ziglar's topic areas of his Sales Seminar will include "The H-E-A-R-T of Your Sales Career," "You Don't Have To Be A Born Salesman," "Imagination in Selling" and "Emotional Logic in Selling."

# Fire Prevention Week observance starts early

Reese firefighters have lined up several activities in observance of National Fire Prevention Week, Oct. 8 through 14.

The base firemen got a jump on the observance by holding a Fire Prevention Poster Contest at the Reese Elementary School on Tuesday. Members of the Officers Wives' Club served as judges. On Thursday, Sunshine Sally, a local children's star on KLBK (Channel 13), was expected to join base firemen on a visit to the Reese School.

Tomorrow, antique fire engines from Shallowater, Lamesa and Lubbock will highlight a parade through Reese Village. The Wolforth High School Marching Band is scheduled to play in the parade which is slated for a 1 p.m. start.

throughout the base on Thursday. Awards for the base contest will be presented on Oct. 13. There will also be more courtesy fire inspections.

Transportation will be provided Oct. 14 for those wanting to watch a "fuels" fire fighting demonstration. The exercise is set for 10 a.m. (weather permitting) with a bus taking spectators to the site from the fire station.

Throughout the extended observance, vintage and modern fire fighting equipment will be on display from 10 to 11 a.m. and from 1 to 3 p.m. daily near the Base Exchange.

Ahead of our time since 1887

## Wing time line

by Sgt. Jeannie Walton

As of Monday, the 64th Flying Training Wing was behind in flying hours for both T-37 and T-38 aircraft. The classes with aircraft and days ahead or behind are:

Class	A/C	+/- days
79-05	T-37	+6
79-06	T-37	-7.7
79-07	T-37	-6
79-01	T-38	+8
79-02	T-38	-4.1
79-03	T-38	-3.9
79-04	T-38	-0

## DON'T WASTE ENERGY!

In cold weather, lower thermostats to 68 degrees during the day and 60 degrees at night. If these settings reduce the temperature an average of 6 degrees, heating costs should run about 15 percent less.

**AF outlines policy on abortions**

The Department of Defense announced Saturday that in order to conform with the provisions of a joint resolution on abortions which has been approved by the House of Representatives and is at present pending before the Senate certain policies are now in effect.

Until further notice, Department of Defense appropriated funds will not be used to pay for performing of abortions except: (A) Where the life of the Mother would be endangered if the fetus were carried to term, or (B) where such medical procedures are necessary for the victims of rape or incest, when such rape or incest has been reported promptly to a law enforcement agency or public health service, or (C) where, in the opinion of two physicians, severe and long lasting physical health damage to the Mother would result if the pregnancy were carried to term, or (D) where medical procedures are necessary to terminate an ectopic pregnancy.

Consequently, claims under the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) for abortions performed after midnight, Sept. 30, 1978, will not be paid (unless the Congress by subsequent action permits payment) unless they come within the criteria for payment contained in the preceding paragraph. Claims for abortions performed prior to midnight Sept. 30, 1978, will not be barred and will be payable without regard to such restrictions.

This action does not affect payments for procedures to prevent pregnancy.

**Supply, FMS workers lose some parking slots**

Sometime between today and Oct. 15, construction on a new paint storage facility will knock out about 40 parking spaces for certain Supply and Field Maintenance workers.

According to base officials, the triangular shaped parking area between Hangerline Road, 4th Street and "B" Street will be blocked off while work crews construct a new paint storage facility. The construction is expected to take up to three months to complete. Once finished, about 15 parking spaces will be available for base workers.

The construction will hit workers in bldg. 250 (Supply

and Bldg. 52 (Field Maintenance) the hardest.

The spokesman acknowledged that the project will increase the parking problem in that area. However, he also noted that two plans are being considered to renovate the concrete slab where bldg. 51 once stood into a parking space for about 100 vehicles.

Drivers should expect the construction site to be closed to parking sometime next week.

# Senators hit 69 twice, sweep weekend series

The Sheppard Senators scored 69 points twice last weekend and made each offensive tally stand up as the swept two games from the hosting Reese Rattlers, 69-60 and 69 to 58.

"We had to go with a really small lineup against the Senators," said head coach Nate Jones after the two losses, "but, we will have Don Fuller back with us for our games against the Holloman 49ers (Oct. 14 and 15) and that should make the difference."

The Rattlers, whose starting unit averaged less than six foot

tall, looked like Lilliputians among the Sheppard cagers who averaged about 6'5" across the front line.

"Despite the losses I think we have the foundation of better team this year than we have had here in quite some time," stressed Jones. "We don't have any super stars on the squad and the result is a team oriented group of guys that can play ball together."

Another plus for the '78 edition of the Rattlers is the emergence of Randy Core (6'3") as a scoring threat at center.

"Randy played exceptionally well at both ends of the floor for

us," points out Jones. "last year we had very little offense from the center position."

Core averaged 12 points per game against the tall Senator lineup.

Willie Hollis, one of the commands most consistent guards had to play forward against Sheppard but with the return of Fuller to the line-up he will be able to play his normal position in future games. Hollis led the Rattlers in scoring with 33 points in the two games.

Also reaching double figures against Sheppard was Terrance "Bo" Wilson with 22 points over the weekend.

## Forwards play 'team' ball

The Rattler forward line will not overpower anyone this year, but, head coach Nate Jones says his cornermen may be the best bunch of shooters Reese has had in several years.

Don Fuller, the only 1977 regular among this year's

forwards, is probably the best of the lot. At 6'2" he has an excellent touch (averaged 20 points per game last year) and is a solid high percentage shooter as well.

Newcomer Terrance "Bo" Wilson is only 5'11" but brings a lot of firepower into the starting rotation.

"Wilson is the kind of high percentage shooter we needed to team with Fuller," says Rattler mentor Nate Jones. "He is a good leaper and has excellent hands."

Alex McClanahan is a returning letterman from last year's 7-5 squad. At 6' even he provides some rebounding help but is expected to make his

biggest contribution as a swingman — playing forward and guard.

Savington Nickens, another top reserve off last year's squad rounds out the forwards for Jones. Another strong leaper he is a streak shooter that can light up the gym when hot, but, as with McClanahan has yet to show enough consistency to break into the starting lineup.

Forecast: rebounding may be a problem for the Rattler forwards this season but the steady scoring the front line should provide will offset their lack of height. Overall, the team may be improved from 1977 at forward because of the "team" attitude carried by all players.

# FMS forfeit keeps Supply on top of football standings

Supply Squadron raised its record to 5-0 without playing a single down and the 54th picked up a key win over Sturon-1 as the two unbeaten squads remained on top of the intramural flag football league standings.

Supply, now 5-0 on the year and in hot pursuit of its second straight major sport title, received a forfeit victory from slumping Field Maintenance. Supply, which won the intramural softball title a few months ago, holds a one-game edge over the unbeaten 54th FTS.

Sturon-1 came close to upsetting the 54th last week, but the second ranked gridders held on for a 17-13 win, the team's third victory in as many starts this year. Air Base Group logged two shutouts during the week, they go 3-1 on the season and keep contact with the leaders.

Ron Benivedas keyed the offense throwing for four Group scores in the 14-0 and 20-0 blankings of Field Maintenance and the Hospital respectively.

In other loop games, the 35th FTS forfeited to Sturon-2 and the Civil Engineers handed Organizational Maintenance Squadron a forfeit win.

The standings in the intramural flag football league, as of Monday, were:

Team	W	L	GB
Supply	5	0	—
54th	3	0	1
Group	3	1	1½
OMS	3	2	2
Sturon-2	2	2	2½
1958th	1	2	3
35th FTS	2	3	3
CE	2	3	3
Hospital 1	3	3½	
Sturon-1	1	3	3½
FMS	1	5	4½

## Steals pigskin

Sherman Chew (24) steps in front of an unidentified Field Maintenance Squadron receiver to intercept a pass during Air Base Group's 14-0 win over FMS last week. Group notched two shutouts during the week to move to within one and one-half games of the flag lead. (U.S. Air Force photo by Jim King, LSI)
