Rotary Speaker Reviews Haskell's Early History

A brief outline of Haskell's early history was given members of the Rotary Club at the regular meeting and luncheon Thursday noon, by Mrs. Carolyn Pippin, whose grandfather, the late R. E. Sherrill compiled a "History of Hascell County.

In her interesting talk, Mrs. Pippin dealt principally with the establishment of the first church in Haskell and the subsequent buildings erected by various denominations.

An itinerant preacher held the first church services in Haskell in 1884, in the home of an earlyday family. History records that several years passed before the community's first church building was built.

communty, Mrs. Pippin related. A public dinner was held which re-sulted in raising the sum of \$91. and this money was used for the initial purchase of lumber for a church building, with the material being hauled by wagon from Al-

bany or Abilene.
"This first building, a Methodist Church was completed in the Spring of 1890 when the people of the little community heard the ringing of the first church bells calling them to worship," the speaker related.

Subsequent building by other de-nominations and a brief history of each church concluded the historical review.

Program Chairman Bill Ratliff introduced the speaker. President-elect Tom Barfield presided in the absence of club president Robt. R. King, and Song Leader Tom Roberson led the group in a sing-

Why Can't We Be First?

Not many weeks ago several youths from our county were Frances Melton is principal of the killed. Circumstances considered responsible for the mishap are well known, but the cause of the tragedy lives on-why do we let it?

In a recent Saturday Evening Post, Gov. Goodwin J. Knight of California tells how drunken drivers of his state are being handledcailed and fined without discrimination. No amount of pull, influence or money can way-lay the punishment of this killing offense. Because of this definite action many 'good' citizens are finding it much more advisable to stay away from their automobiles when they have 'had a few' than to suffer the business, socia, and moral embarassments that come from having it known they have spent a sobering up period in jail,

Ordinarily, a soap-box is not the best place to accomplish a moral victory in teaching. In this case, however, how is it going to school, won first place in Senior profit the children of our morally conscious, dry community to teach them by our actions only to have them run down by some intoxicated person who happens to be flying through on our county's roads?

Just a few nights ago a man stopped at a local service station. He was drunk to the staggering point. Yet, when offered aid in finding lodging for the night until he was in safer driving condition, he refused aid and bragged of how far he had come and how far yet he planned to go. Thank God he made it out of our area without taking some lives competition. Mrs. C. M. Kaigler with him!

Even with the hard-working conscientious, honest law officials we are fortunate to have within our county, they are unable to make these arrests stick with the inappropriate law, and knowing too that political pull, exorbitant false arrest suits, and future discriminations against them will often be the only result.

It is on the state level this problem must be approached. Texas traffic fatalities caused by drinking drivers has surely reached the appalling point which warrants action. Don't you wonder what would result if you, Mr. or Mrs. Reader, were to mail a letter to your state result if you, Mr. or Mrs. Reader, were to mail a letter to your state the Foster community, was pretty representatives and governor about this editorial and Gov. Knight's badly hurt las week when O. J. accomplishments against drunken driving?

We can sit complacently by and count it off as the other fellow's business and do nothing, as we have done so well in the past. Yet it is our community, our county, and our state, and most important, the future abode of our children. Would it not be worth the effort, as citizens of Haskell County, to begin the ball rolling against this 'murder by bottle' in our state before we supply more of its for the benefit of the Red Cross.

Sales Tax A Threat To Texas Farmers

Much in the air these days is a word that turns stale the sweetest spring breeze-taxes.

The opinion among many is that state governmental costs are rising above state revenues to such a degree that some new form of taxation will inevitably be the top order of business for the next legislature. And, sadly for the Texas farmer, the fashionable turn of (Mack) Mauldin, former Haskell been too costly. islature. And, sadly for the Texas farmer, the fashionable turn of tax talk lately has been for a type of general sales tax.

Any type of sales tax would impose on Texas farmers and ranchers a greater hardship than on almost any other occupational class. And they are the very people who can least afford it.

Farmers and ranchers must invest more money to produce their narrow profit margin than practically any other business, and most of their purchases are at the retail level where sales taxes normally occur. Regular purchases of every farmer and rancher on such essential items as feed and seed, farm implements, machinery and building materials could run up a staggering tax bill-staggering enough, in fact, to deal the final blow to already-squeezed farm profits.

In addition to the burden of taxes paid on everything they have to buy to produce a crop and make a living, our farm people would also suffer along with everyone else on taxes paid out for normal

Taxation which discriminates against a working class of people is unfair taxation.

Times are trying enough for rural people as evidenced by continued migration away from the farms. With mounting Federal taxation besetting farmers on one hand and rising production costs cramping them on the other, surely they must be spared an additional and unnecessary blow at the state level.

"Don't you know that with the reputation Haskell has for feuding and fussing, no tornado would head this way without a police escort?"

However, we believe people feel safer nowadays in regard to tor-nadoes as a result of the scientific advances which make it possible to detect the apporach of storms, as well as report when weather conditions are such as to spawn

All of this can probably be credited to radio, which has come a long way in the past 30 years or so, as many local people can recall.

Back in the early 20s, when the first crystal radio sets made their appearance in Haskell, two local pranksters had a group of avid radio hams believing that their set had tuned in on a St. Louis broadcasting station, a feat which today would be equivalent to picking up a Singapore TV program on a portable set in Texas.

Ernest Grissom, now of Abilene, had purchased a crystal radio set which was installed in his dry goods store on the north side of the square. Using headphones, two or three persons at a time could hear faint radio programs broadcast from Dallas and Forth Worth, over the set.

One Sunday afternoon, when Ernest and several friends were enjoying the radio, Bill McDonald and "Spot" Lemmon had a brilliant idea. McDonald operated a shoe repair shop near the Grissom store. He and "Spot" climbed on the roof and hooked McDonald's telephone line on to the radio an-

Then began a program rivalling Orson Wells' wildest dream. Startled radio listeners in the Grissom store heard what they were told was station KLAM, St. Louis. Excitedly passing around the head-phones, they heard "Spot" and Bill's disguised voices broadcasting a National League ball game, interspersed with news flashes of storms and floods, gangster slayings and other "late" dispatches one telling of a fiery holocaust which at the very moment was sweeping through the Kansas City livestock, yards.

Mrs. M. E. Lancaster, Pioneer Resident In County, Observes 97th Birthday

One of Harkell County's oldest residents, and a pioneer in point of residence here, Mrs. M. E. Lanaster, observed her 97th birthday Friday, April 25. Each year on Mrs. Lancaster's

birthday, a family reunion is held at Possum Kingdom Lake, but this year because of weather condi-tions the reunion was postponed to a later date. Although she is nearing the century mark, Mrs. Lancaster looks forward to the annual event and enjoys seeing all her children and great-grandhildren at these meetings.

In recognition of her anniversary, Mrs. Lancaster was honored with a birthday dinner Sunday, April 27 in the home of a grandson and family, Mr. and Mrs. Giles Lancaster.

Born in Missouri Mrs. Lancaster was born April 25, 1861, in Carter County, Mo. Her parents were Wyatt W. Williamson and his wife, the former Mollsie Ann Gravens of Moore County, North Carolina, who mov-Missouri during the Civil take this means War. Her father was a Confedery appreciation to ate soilder and died in a Federal brought the family to Stone County, Ark., when Mrs. Lalacaster was five years old. Her mother died when she was eight years old and she lived with an uncle Adam Brewer, until her marriage

o A. L. Lancaster Feb. 7, 1882.

In 1894, Mr. and Mrs. Lancaster moved to Texas, making the trip

in a covered wagon, and settling

Killeen, in Bell County. After farming in Bell County for everal years, Mr. and Mrs. Lan-aster decided to move their famy to Haskell County in 1903. They ravelled in covered wagons, bringing their household posses-sions. The trip required labout three weeks. After arriving here, Mr. Lancaster purchased a farm seven miles northeast of Haskell. half century she has lived here, Mrs. Lancaster recalls many early-day experiences. Neighbors were few, and there were no graded roads. Farming was new this section, and there were very few acres in cultivation in a surrey in going 10 miles to

After the death of her husband on June 13, 1927, Mrs. Lancaster continued to live on their farm until 1945, when the farm was sold. Since that time she has made her home with a daughter and son-in-law, Mr. and Mrs. Earl Atchison. Although nearing the century mark, Mrs. Lancaster is still active. One regret is that she cannot walk very far, but she enjoys riding in a car. She has been a member of the Methodist Church

since early childhood. Mrs. Lancaster is the mother of seven children, six of whom are living. One son, W. F. Lancaster, died in Bakersfield, Calif. Her children are H. B. Lancas-ter of Abliene, Texas, F. H. Lan-

caster of Royse City, Ray Lancas-ter of Irving, E. L. Lancaster, Mrs. Earl Atchison, and Mrs. She has 25 grandchildren, 43 great-grandchildren, and four great-great-granchildren.

Those attending the birthday dinner given Mrs. Lancaster Sunday were Mr. and Mrs. Willard Mercer and Mr. and Mrs. Bill Richards of Abilene; Mr. and Mrs. Earl Atchison, Mr. and Mrs. E. L. Lancaster, Mrs. Bertie Atchison, Mr. and Mrs. Giles Lancaster, Immy and Gene all of

Sunshine Sewing Club Meets With Mrs. Chas. Smith

The Sunshine Sewing Club met Tuesday May 6, in the home of Mrs. Chas. Smith with Mrs. D. A. Jones as hostess.

The house was caled to order by the club president, Mrs. Chas. Smith. The members joined in singing the club song. Mrs. John Fouts led in prayer. Mrs. Sam Parks read the minutes, in the absence of the secretary, Mrs. Jack Johnson, Mrs. Thalia Jenkins called the

roll and received dues. The members responded with a helpful hint as her name was called.

Reports from the flower and card chairman, Mrs. D. A. Jones, was given. We are glad to report that one of our members, Mrs. John McMillin is recovering nicey from a recent illness.

The club members are looking forward to a joint meeting with the Rainbow Club with great anticipation in the near future. Each member will invite a guest. And each lady is asked to bring a covered dish. After the business session gifts

were distributed to the members from their secret pals. Some lovey and useful gifts were received.

Games were played.

The hostess, Mrs. Jones, assisted by Mrs. Smith, served a refreshment plate to the following members and one visitor: Mrs. Hallie Chapman, visitor;

Mesdames T. P. Perdue. Calvin Wheeler, Virgil Brown, Frank Mc-Curley, Sam Parks, Thalia Jenk-ins, Charles Smith, D. A. Jones, Barney Swinson, Claude Ashley, John E. Fouts.

Classroom Teachers Group Re-Elects

Officers Classroom Teachers of Haskell held their final meeting Monday April 28, in the Junior High Li-

The purpose of this meeting was to elect officers for 1958-59. The entire slate as presented by the nominating committee was ac-cepted by the group. The com-mittee felt that it would be wise to keep the same officers for another year. The following were

President, Mrs. K. H. Thornton; first vice president, Mrs. Bill second vice president, V. Woodard: secretary, Woodard; Mrs. F. W. Martin; Mrs. Edwin Jeter.

A few highlights about the state meeting of CTA in San Antonio were given by Miss Hunt, Mrs. Greene, Mrs. Martin and Mrs. Thornton

A number of ideas and plans were discussed for next year's The president expressed the hope that more teachers would attend district meeting in Min-eral Wells in October. At these meetings the officers of the district and the state officers really give out the information as to what classroom teachers propose to do for their members.

Abilene Educator Guest Speaker at B&PW Club Meet

Avis E. Deavers of Abilene, in-structor of Business Education in Abilene high school and Public Affairs chairman of the Texas Federation of Business and Professional Women and candidate for state secretary, was guest speaker at the regular session of the Business and Profession Work men's Club Tuesday evening at 7:30 at the Texas Cafe. In her discusson of "Women"

she pointed out the women of the Bible, the various queens in our history, our present day women leaders and their responsibilities how they were met and fulfilled. Veta Furrh and Elizabeth Stewart, the Public Affairs committee, presented a gift of appreciation from the committee to the guest, and acted as hostesses for the program.

Stella Trice, a charter member of the local club, was presented the annual award and designated as the "Woman of the Year." Nettie McCollum made the presentation, commending the re-cipient on her leadership, personality, attitudes, congeniality and participation in community af-

Mrs. L. H .Casselberry and two sons of Tolleson, Ariz., were visthe giving in order to itors here last week in the home of her parents, Mr. and Mrs. Leon Pearsey and with other rela-tives and friends.

CARD OF THANKS

I would like to take this means of expressing my sincere thanks to the doctors and nurses for their service while I was in the hospital. Also for the flowers and cards and other gifts, and all good deeds done for me. My prayer is may God bless each of you.—Mrs. C. V. Schwartz.

CARD OF THANKS

We desire to express as best we can in words our sincere appreciation to our friends and neighbors for the many acts of kindness extended during the darkest hours of our life. We are grateful for everything that was done for us, for the floral tributes to our loved one, the food brought to our homes, the comforting words and messages, and every thoughtful deed which helped lighten our burden. May God bless each of you is our prayer.—The Rupert Adams Family.

There are some 30 active volcaoes on the Pacific side of Cenral America. Texas ranks fifth in the nation

in number of air passengers carried each year. Use of electric power in Texas began in the 1880's. First power plant was at Galveston.

Time Lapse Needed Deborah SS Class Meeting and Social To Hit Brakes Lets Held Tuesday Car Really Roll

Evely one knows you can't stop a car on a dime.

But do you realize just exactly how far your car does travel be-fore it can be stopped?

"It's a lot further than you may think," the National Safety Coun-

cil says. Tests show it takes the average driver, under most conditions, about 3-4 of a second to react to

an emergency and hit the brakes. At 15 mph, in the time it takes to react, you've traveled at least 17 feet—theoretically, over three six-feet-tall man. It takes another 14 feet-about two more

only 15 mph! Most motorists, though, don't drive quite that slow. Let's assume you usually whiz along at, say, 60 mph. A pretty reasonable speed, you'd say.

Keep your eyes on the road and reach for a cigarette lighter. Put the cigarette in your mouth, glance down and flick the lighter. That flick and initial puff on the cigarette took about two seconds. During that time, you traveled at least 176 feet-more than half the distance of a football field.

If you saw an accident situ-ation ahead after looking up and hit the brakes immediately, be-fore you could stop your car would have traveled 366 feet further-equal to another football field, and then some.

Your trouble may not be light-ing a cigarette. But everyone's distracted sometime or other by something in the car. Best pro-tection is to be alert, and hold down your speed so if you do face a situation, you'll have time to

stop safely.

If you do find yourself facing an emergency, you'll be better able to stop in time if your tires and brakes are in good condition. An emergency is no time for add-

If, despite all you rprecautions, you find yourself in an emergency, remember this tip: Better that you head for the ditch than ram an oncoming car. the "Stay alert—stay alive," Council says. "Think ahead."

A U. S. census has been taken every ten years since 1790.

Members of the Deborah Sunday School Class of the First Baptist Church met Tuesday evening in the home of Mrs. Hallie Chapman for a regular business meet-

ing and social.

Mrs. J. F. Cadenhead Sr. brought the inspiring devotional message opening the meeting. After the business session, members enjoyed a social hour. Twelve class members

Members of the club plan to go bowling May 29. Fifteen mem-bers were present.

Next meeting of the club will be June 12, when a 42 Party will be held in the home of Evelyn Cobb. Husbands of members will be invited as guests.

Annual Pinkerton-Whitman Reunion **Held Saturday**

Annual reunion of former residents in the Pinkerton and Whitman communities, held Saturday afternoon in the American Legion Building was well attended, with many out-of-town visitors regis-

tering.
The get-together is held on the first Saturday in May each year for families and their descendants who at one time lived in the two rural communities.

A highlight of the event was basket dinner, after which several hours were spent in singing, re-newing old acquaintances, and reminiscing.

Out-of-town guests were from Rising Star, Earth, Brownfield, Stamford, Rule, Rochester, San Aspermont, Arlington, Girard.

Henry W. Smith is president of the reunion association, and Mrs. G. F. Mullino is secretary.

Pinkerton Baptist Church Joins In BGCT Program

The Pinkerton Baptist Church of Rule is participating in the 1958 Texas Baptist Church Achievement program sponsored by the Baptist General Convention of Texas, pastor C. M. Slate said this

Designed to stimulate interest in small-church work the program recognizes outstanding pastors and achievements by churches in areas of church, community and world improvement.

More than 335 Texas Baptist town and country churches participated in the program last year. Each church participating to the program sets up goals for advancement in the three areas. An inventory questionnaire furnishes suggestions for projects, such as health education, community recreation, citizenship training, race relation studies and world mis-

Fort Worth Individual churches, however, select their own projects for the

program. Winning pastors in each of the BGCT's 17 districts receive a parchment scroll and the church a metal plaque which may be dis-

played in a prominent position outside the building.

Churches in the open country and in towns up to 2,500 population are eligible to enter the program. Approximately two-thirds of all Texas Baptist Churches are classified as town and country congregations. The program has been expand-

ed this year to include all Spanishspeaking congregations regardless of location. and scrapbooks are Records made under the direction of three

special committees. The scrap-books are the basis for judging on the associational district and statewide levels.

Darwin Farmer, direct missions associate for the BGCT, is in charge of the program. He said surveys among participating churches show rate of baptisms nearly twice as high as the gen-eral average for all churches.

er steer yearlings ranged from operate in an educational prog-\$27.25 downward in most sales, gram that is of special benefit to above. Feeder steers ranged from \$27 downward, some 800 pound cattle at that figure. Replacement cows cashed at \$19 t₀ \$22.

Letters to the Editor -

COMMEND BOARD The Haskell School Board: We wish at this time to express our appreciation for, and confidence in, our present School Board, Realizing your responsibility to the people of your district, we know that it is impossibility to the people of your district, we know that it is impossibility to the people of your district, we know that it is impossibility to the people of your district, we know that it is impossibility to the people of your district, we know that it is impossible to the people of your district that the peo ble to know at any given time the wishes of every individual. We York on or about the 4th day of July A. D. 1875, that it is his bona

therefore elected you to your offices in confidence that you would carry out your obligations to the very best of your knowledge and ability. We believe and maintain that

you have never betrayed that confidence. Right or wrong, you have stood on those principles. We therefore, commend you and

extend to you our wholehearted confidence and support.

Mr. and Mrs. Fred Brown.

NOT PROGRESSIVE? came one of the leading farmers Editor, Haskell

Free Press: Please change my address on your mailing list to 802 N. W. 10th St., Andrews, Texas.

I was quite "hacked" when I read the paper yesterday to learn that the Centennial plans had 'hubbed a stump.'

Haskell's football team played football for years on the old race track that belonged to the Fair Association, and now they are afraid someone will damage their sod. It looks to me like Haskell needs a good clearting in the school board and administration.

The people of Haskell sat back and let Stamford build their lake. Maybe they will let Rule hold their Centennial Celebration for them. I'm sure it's a good thing I'm not in the newspaper business there because I would say a few things that I probably shouldn't. I'm glad that I probably shouldn't. I'm glad to say that I live in a town that is progressive. Andrews has progressed more in the past 10 years than Haskell has in the last 50.

Excuse me for blowing my top

but that's the way it happens to strike this ex-resident of Haskell. Yours very truly, Paul W. Roberts.

SIN-TENNIAL? To the Editor:

Outside of the Atomic Bomb, we never knew of anything of such importance and covering so wide and broad a scope, being concentrated and exploded on so small a plot of ground, 100 yards by? Well, how wide is a football field?

A Reader.

4,000 COMMUNITIES ERR? Editor, The Free Press: Submitted herewith is a copy of a letter dated April 28 received by the Board of Directors of the

Centennial Association from John B. Rogers Producing Company. "No doubt the members of the Board of Trustees of the Haskell medium slaughter calves sold from \$17.50 to \$24, and culls cashed at \$14 to \$17.50.

Good and choice stocker steer calves drew \$26 to \$31, and stock-

> tacles have been acclaimed as a 'Must' by many of our outstanding educational leaders in the coun

try.
"The Pageant Spectacles have been staged in college and high school stadia and have cost a hundred times or more than the football field at Haskell. The educational values to be derived, in the opinion of School Boards of more than 4,000 other communi-ties, has been felt to be more im-portant than the cost of a few

pounds of grass seed.
'It is unfortunate for the people of Haskell County that apparently in the minds of the people entrusted to head your school system the athletic program is more important than the cultural, artistic, and educational phases of our life. "We are indeed sorry that we will not be able to bring the many

America's best-loved humorist also was one of the best-informed persons in his time. Nothing, it seemed, escaped his notice. His comments on the passing scene were applauded and repeated by millions the world over. "All I know is what I read in the papers" became his trade-mark. Will Rogers recognized that newspapers, more than any other media, are the common source of information of all the people. The simple fact that everyone knew immediately what he was talking about provided an important basis for his fabulous popularity.

RAINFALL ZONES on this map of the Brazos River watershed show why the Brazos River Authority wants to build new dams in the upper and central portions of the basin as well as in the lower reaches. Rainfall diminishes fast from the Houston area going westward. But all areas of the Brazos Valley, even in the central areas, have a vast potential for municipal, industrial and farm growth—if they can save their limited supply of water that now runs wastefully to the Gulf. Likewise, dams in these areas will save water that can be released for users downstream. Many of these projects would also help control floods. The best reservoir sites are in areas of lesser rainfall. Storing the water can spread the time of use. The Brazos River Authority's engineers have weighed all possible dam sites, as well as local needs throughout the watershed, in planning the river's development.

Report Released on Livestock Disease *'Leptospirosis'*

Haskell County Agricultural Agent F. W. Martin, today re-leased a report from the Texas Agricultural Experiment Station on the livestock disease "lepto-spirosis." Once thought to be unimportant to the livestock industry, this disease is now known to be causing extensive losses.

Surveys conducted during 1956 and 1957 by the Texas Station show the disease to be widespread in cattle and swine of the state. More than half of the herds test-ed had animals that were positive to the leptospira test. Sheep, goats and horses may also be affected, but the extent of the disease among these animals is unknown. Deer and several other types of wildlife suffer from the disease and may serve as a res-

Leptospirosis has a wide range of symptoms that makes a diag-nosis in the field difficult. It may affect most of the animals in a herd without recognizable illness. On the other hand, there may be numerous abortions an dup to 55 per cent death loss among grown animals. But usually the death losses are confined to calves and one out of three of those affected may succumb.

The first symptoms are a high temperature, coffee colg.ed or

eye and mouth become pale and man Kretschmer, Haskell; Mrs. take on a decidely yellow color Vernay Teague and infant son. due to the extreme destruction of red blood cells.

Letospirosis is relatively mild chester; the pigs may be born dead or die after birth. It may pass through a herd of feeder pigs without symptoms being observed.

County Agent Martin emphasized the importance of calling your veterinarian immediately if lepospirosis is suspected in your herd. If treated early, most cases espond well to some of the newer drugs. He stated that observaions by the Texas Experiment Station indicated considerable benefit from vaccination against Station his disease. The bacteria now available provided immunity in cattle and swine for a period of six months or more.

There 80 small islands in the 19p Aleutian chain.
