

## Vote Bonds May 27

Voters in Precinct Two will have an opportunity to approve or reject a \$150,000 road bond issue in an election to be held in the basement of the Spurlock Chapel Saturday. The proposed bond issue would pave about 15 miles of unpaved roads in the precinct and complete the original paving program which was mapped out at the time road bonds were first voted in the road district.

Issuance of the new bonds will not raise the tax rate in the road district according to County Commissioner E. W. Carter. There is a sufficient surplus in the tax fund raised to retire the present road bonds and the new road bonds at the same tax rate in 18 years, Carter said. This would complete the paving project in the precinct and retire all outstanding road bonds within 18 years, the retirement date being in 1979.

The proposed \$150,000 road bond issue would provide paving to connect the farms of Travis Spurlock, Neal Spurlock, Alvin Spurlock and L. M. Fedric with the paved Spurlock road known as FM119.

It would also connect the farm homes of T. A. Dooley and Roy Browder with Farm-to-Market Road 119.

In the east end of the precinct the new paving would connect the homes of Dean Cluck and Robert Ferguson with FM road 1573.

## FFA Boys And Fathers Have Banquet

Approximately three-fourths of the Stratford FFA boys and their fathers managed to get to the annual father and son banquet Saturday night despite the rain storm.

Joe Ray Brown, president of the chapter, was master of ceremonies.

Dolly Mehner and Jean Anne Ross furnished entertainment by appearing in two pantomimes. Kay Spurlock, soloist, was unable to attend the banquet.

R. W. Standefer Jr. introduced F. B. Mullins, the speaker for the evening. Mullins traced the sacrifices which had been made by each generation in order to preserve the American way of life. He told the boys that the American way was worth making any sacrifice to preserve.

Leslie Parker was given a dozen golf balls as a token of appreciation of the boys for preparing the banquet. Mrs. Jack Dettle, Mrs. N. W. Hudson, Mrs. Kenneth Pickens and Mrs. Charley Lamb assisted the F.H.A. girls in serving the banquet.

Mrs. C. W. Moon, aunt of the bride, was organist. She played the traditional wedding marches, and accompanied Mrs. Roy Chamberlain of Colorado Springs, Colorado, cousin of the bride, as she sang, "Because," "Melody of Love" and a prayer, "Deer Shepherd of Mankind."

Escorted to the altar and given marriage by her father, the bride wore a floor length gown of white embroidered organza, fashioned with a fitted bodice, high neckline, long sleeves, and bouffant hooped skirt, over white satin. She carried a sheath bouquet of snow white roses with a removable corsage of sweetheart roses. Her elbow length veil of bridal veil net was attached to a tiarra of rhinestones and pearls. Her only jewelry was a gold locket, a gift from the bridegroom.

## 1.91 Inches In Downpour Saturday

A downpour of rain accompanied by hail in some localities, left an official reading of 1.91 inches of moisture in the Stratford area. Reports from over the territory indicate that the rain varied from about 1 1/2 to 2 inches. The moisture was needed to give the rapidly developing wheat grains a chance to fill and mature as perfect specimens.

Considerable damage was caused by hail which fell in marble, golf ball and hen egg sizes during the intensity of the storm. Flat felt and asphalt roofs on most of the business buildings in Stratford were damaged. Window panes were broken here and there, roofs of some homes showed damage, and neon signs, flowers and gardens took a beating as lawns were left covered with tree leaves and small twigs stripped from the trees by the hail stones.

Wheat fields in the immediate vicinity of Stratford were damaged to such an extent to result in losses to the producers. Fields of Horace Sneed, Leonard Plunk, Paul Aduddell and F. B. Mullins are reported to have sustained damage up to 60 percent.

Little hail was reported except in the Stratford area. Reports from most fields indicate that the producer probably traded about one percent of his crop for a much needed 1 1/2 to 2 inch rain which came at an opportune time.

The sudden downpour may delay harvest operations which had originally been forecast for June 10.

More than half of the some 500 million pounds of cheese produced annually in the U. S. comes from Wisconsin.

## Beneficial Rains Boost Chances For Higher Wheat Yields

Beneficial rains have been received over parts of the Texas wheat belt, and in some small areas, damaging hail has been received during the last week. In most areas, however, the rains have more than offset the damage caused by hail.

Wheat is ripening rapidly on the south plains and harvest may begin the latter part of May. A slightly better than average yield is expected.

Stratford, Dalhart, Channing, Dumas, Spearman, Borger and Perryton areas are expected to produce an excellent yield. The counties needed rain which was received over most of the territory over the week end.

The Automobile Manufacturers Association estimates that the completion of the National System of Interstate and Defense Highways on schedule will produce net benefits to motorists from 1961 to 1980 of \$98 and 1/2 billion.

### Letter To The Public

I like Stratford and would like to make this my home and so would my wife to whom I have been married for over 20 years. We have a daughter 16 years old. She would also like to live here.

I spent over 20 years in the U. S. Army and retired with an excellent character record. I have done nothing that I would be ashamed of. I have always tried to carry out the orders that have been handed down to me.

Any person or persons accusing me, just look around. Will you take a lie detector test? I will, and this can be arranged. I like the people of Stratford and I want them to like me. The Mayor, Mr. Bryant, and the City Council of Stratford, have a very hard job. My hat is off to them.

Thank you, Walter E. Briles

### POEMS

By Mrs. Teague's Sixth Grade

MY SUMMER (By Rusty Garrison)

In the summer I always have fun, Running, jumping, or shooting a gun.

Or camping by a mountain stream, Which is my most favorite dream.

Proud of the fish that I can catch, The ones that Daddy couldn't match.

And wading in water that is cold as ice, Sure makes that hot sun feel nice.

When I climb a mountain I feel so high, As if I'm almost touching the sky.

Or riding a horse as fast as he'll go, Is more fun than anything I know.

May be just to lie in the sun all day, Nothing to do but to rest or play.

Summer always passes too fast, I wish it would last and last and last.

THE GOOD OLD SUMMER-TIME (By Stephanie Lovett)

In the summer-time we run and play, Then don't come home till end of day.

Lots of us children go on hikes, Others run, some ride bikes.

We like to go swimming and things of that sort, Others take interest in a different sport.

Although at night we're very tired, There is hardly anything of us required.

The next morning, we wake up a flutter, As we eat we talk in a sputter.

Then off we go on vacation, away, Up to the mountains for a seven day stay.

The weather up there is fine and warm, But bees all around you fly in a swarm.

Then it's homeward bound we go, Back to the warmth of the home we know.

MY VACATION (By Bonnie L. Duffey)

When I am in the country, I like the trees and grass, I like the cows and horses, I count them as I pass.

When I am in the city I like the city streets, I like the trucks and taxis, Passing by in fleets.

"The city or the country, I sometimes say to mother, I cannot say which one I like; Better than the other."

Protestant Colleges and Universities, will be the commencement speaker. Baccalaureate services for the graduates will be held at 3:00 p. m. May 28, with Dr. Robert E. Naylor, president of Southwestern Baptist Theological Seminary, as speaker.

MY SUMMER VACATION (By Elizabeth Hidalgo)

We got up really early and got ready to start, It was very cool when we left Dalhart.

We traveled and traveled till we got to new home. Sometimes I wish we were going to Rome.

Again we were ready to go, my brother was so happy he felt like a hero, That was because we were close to Del Rio.

The boating and swimming were all very fine. And I was so happy because this vacation was all really mine.

The bull fight was wonderful, it gave me a thrill. But my heart was saddened when the fighter went in for the kill.

Our vacation was over we were headed for home, But I still wish we had visited Rome.

SUMMERTIME (By David Cameron)

I'd like to travel far and wide, I hope I can someday. I would like to explore from tide to tide,

In countries far away. I would like to go where the grass is green, The mountains high and towering.

I would like to see the birds on wing, And all the buds a flowering. I would like to see the birds a scurrying

The mighty streams a flowing. I'd love to see the chipmunk hurrying,

And the winds blowing. When the summer-time is over I can no longer be a rover, The old school bell is ringing

While the children round it are singing.

SUMMER VACATION (By Lynda Sutton)

Summer vacation is a time of fun And I'm always glad when it comes.

There are so many things that are new I never know which one to do. There's riding, swimming, and other games

And so many others with none the same. For the rich there are fascinating places

But for us just the same familiar spaces. I always look forward to going to camp

And perhaps finding out who's swimming champ. Then there's the fun of taking a trip

And seeing new things, perhaps even a ship. There are so many more things I'd like to say

But I can't because time is slipping away. But no matter where you and I may roam

I'm sure you agree its always good to get home.

VACATION (By Pam Bennett)

The day school's out, we start our vacation; This time we go to the same old location.

On the Gulf is Port Isabel; What we do there I now will tell.

Into the water goes our boat; At this place we won't need a coat.

We break out the skis and fishing tackle; We head out to sea and tie on a hackle.

The ocean is calm as we troll along; Everyone's happy and singing a song.

The sun beats down; the weather is fine; When I feel a tug on my star-board line.

I pulled and tugged and made a wish That I'd be the one to catch the first fish.

As we reeled in our lines and got under weigh; I thought this had been such a wonderful day.

[To be continued next week]

## Wheat Streak Mosaic Virus Cuts Yields

Wheat yields are being lowered in many Panhandle counties due to infections of wheat streak mosaic virus. This disease causes light green to yellow streaks in leaves and heads do not fill normally, advises Harlan Smith, extension plant pathologist.

A microscopic mite transmits the virus from infected native grasses or volunteer wheat to planted wheat. He points out the mite responsible for transmission of this disease is the tulip mite and not the commonly known brown wheat mite. When the mite is present in large numbers, one may note that top leaves are severely rolled. Mites may be found inside these rolled leaves but only with the aid of a hand lens or microscope.

Early planted wheat is more severely attacked. Late planting, from late September to mid-October, seems to give best control of the disease. This allows growers time to destroy volunteer wheat and frost to kill native grasses so the virus cannot be transmitted to planted wheat. Volunteer wheat should

be destroyed two or three weeks before planting the new crop so mites responsible for transmission will be eliminated.

The Texas Highway Department is divided into 25 Highway Districts, each being responsible for about ten counties and about 2,000 miles of highways.

able work on the floor of the Senate where his forceful arguments command profound respect and attention. I have found his philosophy and judgment to be sound and reassuring and of the quality greatly needed in the halls of Congress during this critical period of history in our nation. I congratulate you and all the citizens of Texas for having as your representative in the U. S. Senate a statesman of his nature and capacity and I look forward to his re-election and the opportunity and pleasure of continuing work with him here in the Senate in dedicated service to our country for the next six years."

John G. Tower, who is campaigning with Republican support in Texas, chatted with the former president about world conditions and about his senate race in Texas in which he hopes to upset the democrats on May 27.

Eisenhower filmed a discussion with Tower which will be viewed in Texas this week. At the conclusion of the filmed interview, the former president, favored twice with Texas' vote, gave his famous grin and told Tower that as a native Texan himself, he felt that it was appropriate for him to comment that he "Hopes Tower wins."

The bouquet adorning the table was an arrangement of white daisies, white pom poms and sprays of blue coralberry in a milk glass bowl. A crystal punch bowl, crystal and silver serving pieces completed the table setting.

Mrs. E. R. Bell and Mrs. Donald Moon served the punch and cake.

Mrs. Clyde Pittman registered the guests.

The newlyweds left immediately for a wedding trip to places of interest in New Mexico.
