

## Hail And Rain Storm Is Rough Experience For Cameron

The driving hail and rain storm Saturday evening almost cost the life of James Cameron when he stopped to pull a car in which an aged couple were sitting from the barpit back to the pavement on the Gruver Highway.

His crop wiped out in the rain and hail storm, his home damaged, Cameron started to Stratford to bring Jack Morgan to his home. He saw Conde Donelson sitting in his pickup in a barpit at the edge of his field. Cameron pulled the Donelson pickup back on the highway and started to town.

A blinding downpour caused Ray Willmon to stop his pickup. He was driving ahead of Cameron. Willmon did not set his brakes. The downpour let up a few seconds and Cameron saw the pickup backing up rapidly toward him. He sounded his horn in time for Willmon to set his brakes and avoid a crash. The pickup was being driven backwards by the wind and the force of the water running over the highway.

A short distance further up the highway Cameron saw two elderly people sitting in a car in the bar ditch with the water running over the floor boards of the vehicle. Fastening a chain to the car, he pulled them back on the highway. Both vehicles were on the wrong side of the highway when they saw a car approaching at high speed.

The excited elderly couple drove to the right side of the highway, leaving the Cameron pickup almost off the road on the wrong side with the chain stretched across the highway connecting them. Cameron turned his spotlight on the hood of his pickup and waved a flashlight with a red light.

The driver of the approaching car, apparently fearing a stickup, picked up speed and honked his horn. Cameron barely loosened the chain before the car came abreast. When it struck the deep water, the car skidded sideways, missing the pickup by inches.

A man and a woman were in the front seat. Children filled the back seat of the car. The car righted itself and kept on going.

Wheat fields of Harold Bennett, Shuler Donelson, Jack Pugh, O. H. Ingham, Buddy Miller and James Cameron were reported to be hardest hit during the storm.

Ingham had not started combining his wheat. Miller had cut between 20 and 25 acres. Cameron had only cut seven loads of wheat when the storm struck.

Conde Donelson had just completed harvesting his wheat but had not left the field.

Other fields in which damage was reported included those of Jack Vincent, B. J. Wiggins, Curtis Ritchey and Jack Heil.

A television tower was blown down at the Dean Heil home. Window panes were broken in the James Cameron home, the paint was beaten off the north

### Surface Salt Water Pits Are Illegal

This is a copy of a letter received by the North Plains Water Conservation District.

To all operators in Hansford, Hutchinson, Moore, Ochiltree and Sherman Counties, Texas:

In Re: Railroad Commission of Texas pertaining to the elimination of salt water disposal pits in Hansford, Hartley, Hutchinson, Moore, Ochiltree and Sherman Counties, Texas. Gentlemen:

Please be advised that the Commission, at a formal conference held this date considered the above mentioned application and concluded that all unlined salt water disposal pits must be eliminated by July 1, 1962. During the 12 month period allowed for elimination of such pits, it will be necessary for the operators to conduct programs necessary to assure the disposal of salt water produced incident to the production of oil and gas in the mentioned six county area, so that no water will be placed in surface pits that would allow the migration of water down into the fresh water bearing strata. Operators should start eliminating the pits as soon as possible rather than delaying until the effective date of the no pit order so that the contamination of the fresh water strata may be held to a minimum.

A formal order will be forthcoming.

Arthur H. Barbeck  
Chief Engineer.

wall of the house, and one shade tree was blown down.

Sand was washed from the greens on the Stratford Municipal Golf Course and the fairways were hummocked with debris washed over them. Steel framework supporting the concession stand tent was twisted.

A windshield of the John Bonney car was broken out by the hail storm near Perryton. Poe Keener lost the windshield and a side glass from his pickup during the hail storm in Stratford.

The hail is said to have been more severe in the south side of Stratford. Neon signs were shattered. Roofs were damaged and Joe Walsh said that the replacement of glass window panes was exceeding those replaced after the hail storm earlier in the summer.

A plate glass pane was blown out of the office of the Gulf Super Service Station.

Shingles were damaged on the Robert Bolster home and composition siding was damaged on one side of the home, giving it a polkadot appearance.

Leaves were stripped from trees and gardens which had survived the hail storm in the early part of the summer looked as though someone had beaten them with a club.

### Miss Pickens Is Bride Of K. K. Harmon

Mrs. K. K. Harmon

Miss Kay Louise Pickens, daughter of Mr. and Mrs. Kenneth Pickens, became the bride of Kermit Keith Harmon Jr., son of Mr. and Mrs. Kermit Keith Harmon of Climax, Georgia Sunday at Raton, New Mexico.

Rev. G. M. Eastman of Raton read the double ring service.

Miss Marilyn Pinner of Daltart was maid of honor and Ronnie Pickens, brother of the bride, was best man.

The bride wore a white lace dress over white satin. She carried a bouquet of white carnations on a white Bible.

The couple will be at home after July 16 in Massachusetts where the groom will be stationed with the Air Force.

The bride graduated from Stratford High School with the class of 1960. She attended Amarillo Beauty School and at the time of her marriage she was employed with the Dutch Girl Beauty Salon in Amarillo.

The groom graduated from Climax, Georgia High School in 1958, and is now serving in the Air Force.

The man who likes a good cigar after a meal probably smokes about one a month, nowadays, and that providing he can find one.

### Gaylords' Niece Drowns While Swimming

Suzanne Gaylord of Falls Church, Washington, a 12-year old niece of LaVerne and Hardy Gaylord, drowned in a swimming pool Sunday afternoon. The tragedy took place in a pool where her brother had been serving as a lifeguard. He had been relieved by another boy and was dressing at the time.

Funeral services for the girl were conducted in the First Methodist Church of Falls Church Wednesday and burial was made in Arlington National Cemetery.

She is survived by her parents, Mr. and Mrs. C. L. Gaylord, and one brother, Chancey Earl.

### Falling Pickup Pins Hand Of Homer Blake

Homer Blake's left hand was pinned between the fender and the tire of a falling pickup for about five minutes Monday morning. He was taking the wheels off of the pickup at the time of the accident.

A bumper broke off of the pickup, allowing the vehicle to fall just as he was pulling off the tire. The jack handle flew several feet away. The only person in sight was Mrs. Zelda Dunlap, working in her yard across the street. Being unable to make Mrs. Dunlap hear his calls for help, he set about freeing himself. With one foot he managed to pull the jack back in reach. Working with his free right hand he finally managed to raise the vehicle high enough to free his left hand.

No bones were broken but he suffered a painful bruise across four fingers.

When he asks for our daughter's hand, we are going to urge him to take the one that is always in our pocket.

## Propose 6 Amendments For '62 Wheat Program

### Miss Brewster Plans Summer Wedding

Lynda Carol Brewster

Mr. and Mrs. Alton Brewster of Kerrick announce the engagement and approaching marriage of their daughter, Lynda Carol, to Glen Ray Naugle, son of Mr. and Mrs. Willis Naugle of Stratford. A late summer wedding is planned.

### GOOD HEARING REQUISITE

"Are you a clock watcher?" asked the employer of a candidate for a job.

"No, I don't like inside work", replied the applicant, "I'm a whistle listener".

If travel broadens one, then some of the femmes we've seen lately must have been around the world.

### Major Harvest Is Nearing Completion

Wheat harvest in this area is estimated to be 75% complete, and if weather permits, the major harvest should be completed within 5 days.

Spotted rains and late ripening fields have slowed completion in this locality. Adequate men and machines are available to complete the work.

According to reports, many fields have been harvested, others are partially harvested, and still others have not been touched.

The United States Department of Agriculture has reported that the Texas wheat crop is expected to yield 93 million bushels, some ten percent more than the 1960 crop and second only to the 116 million bushels harvested in 1947. A total of 3,875,000 acres is expected to be harvested with an average of 24 bushels per acre, or 1.5 bushels more than last year which is a record for Texas.

Harvest has been completed except for cleanup operations in the Crosbyton, Dickens and Jayton area.

Harvest is in full swing with above average yields on both dry-land and irrigated acreage in the Littlefield, Muleshoe, Dimmitt, Farwell and Hereford areas.

Harvest is 75% complete and should be completed this week in the Plainview, Tulia, Lockney, Floydada and Silverton territory. Yields have been good with irrigated acreage averaging 50 bushels per acre and dry-land 25 bushels per acre.

Harvest is virtually completed and late ripening fields should be finished this week in the Amarillo, Vega, Canyon, Claude, Panhandle, Groom and Conway area.

Harvest is 75% complete and progressing rapidly in the Pampa, Wheeler, Canadian, Lipscomb and Miami areas.

Rapid ripening of grain, has moved the harvest front to a

(Continued on Page 6)

E. A. Jaenke, Associate Administrator of the Agricultural Stabilization and Conservation Service of the U. S. Department of Agriculture, appearing before the Wheat Subcommittee of the House Committee on Agriculture concerning proposed amendments to H. R. 6400 providing for a special wheat program for the 1962 crop, made the following statement:

The Department of Agriculture is pleased to have this opportunity to comment on the proposed amendments to H. R. 6400, providing a special wheat program for the 1962 crop. The major effects of the amendments would be to:

1. Reduce each farm acreage allotment by 10 per cent;

2. Reduce the 15 acre exemption from wheat marketing quotas to the smaller of 13.5 acres per farm or the highest acreage planted on the farm for harvest in 1959, 1960 or 1961.

3. Require as a condition of price support, that producers plant within their reduced acreage allotments, and increase their acreage of land in conservation uses by at least the reduction in the farm acreage allotment. Payment would be made on this acreage at 50 per cent of the value, at the support price, of the average production of wheat on such an acreage in 1959 and 1960.

4. Provide that producers could further reduce their wheat acreage and the acreage devoted to non-conserving uses, by an acreage up to 30 per cent of their wheat allotment or acreage, in return for payments at 60 per cent of the value of 1959-60 production on such an acreage.

5. Provide for use of actual yields or twice normal yields in computing the farm marketing excess, and increase the penalty rate per bushel to 65 per cent of parity.

6. Repeal the 200 bushel exemption.

Authority would be continued to provide price support to co-operators at a level to be determined by the Secretary between 75 and 90 per cent of parity if marketing quotas were approved, and price support at 50 per cent of parity to co-operators if marketing quotas were rejected.

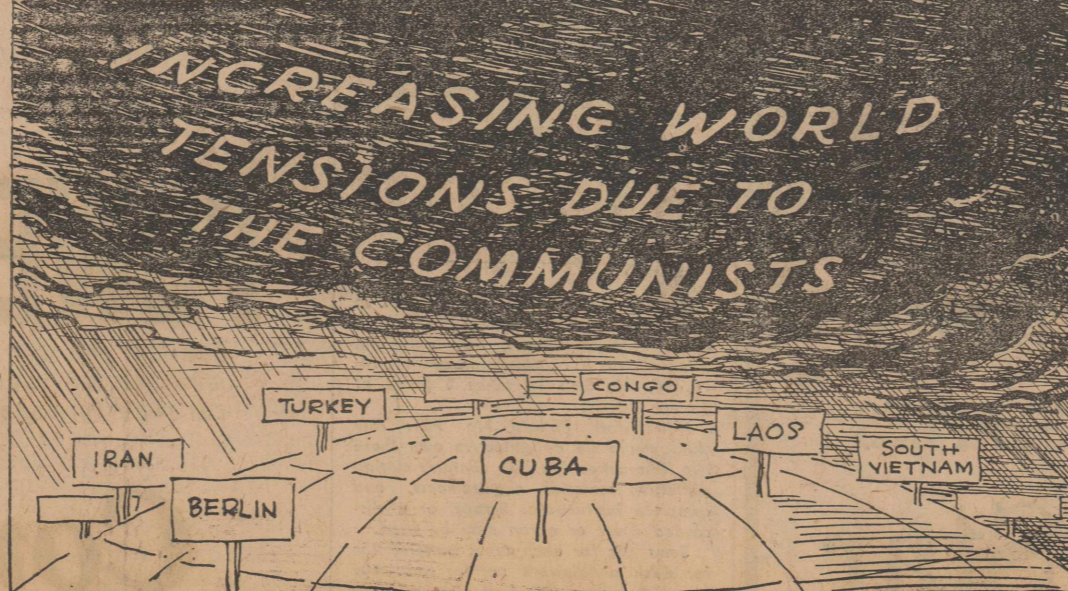

It is estimated that acreage, (Continued on Page 8)

## CONTINUING STRUGGLE, JULY 4, 1961

"IT IS A STRUGGLE FOR MAINTAINING IN THE WORLD THAT FORM AND SUBSTANCE OF GOVERNMENT WHOSE LEADING-OBJECT IS TO ELEVATE THE CONDITIONS OF MEN — TO LIFT ARTIFICIAL WEIGHTS FROM ALL SHOULDERS; TO CLEAR THE PATHS OF LAUDABLE PURSUITS FOR ALL; TO AFFORD ALL AN UNFETTERED START AND A FAIR CHANCE IN THE RACE OF LIFE."

ABRAHAM LINCOLN'S SPECIAL MESSAGE TO CONGRESS

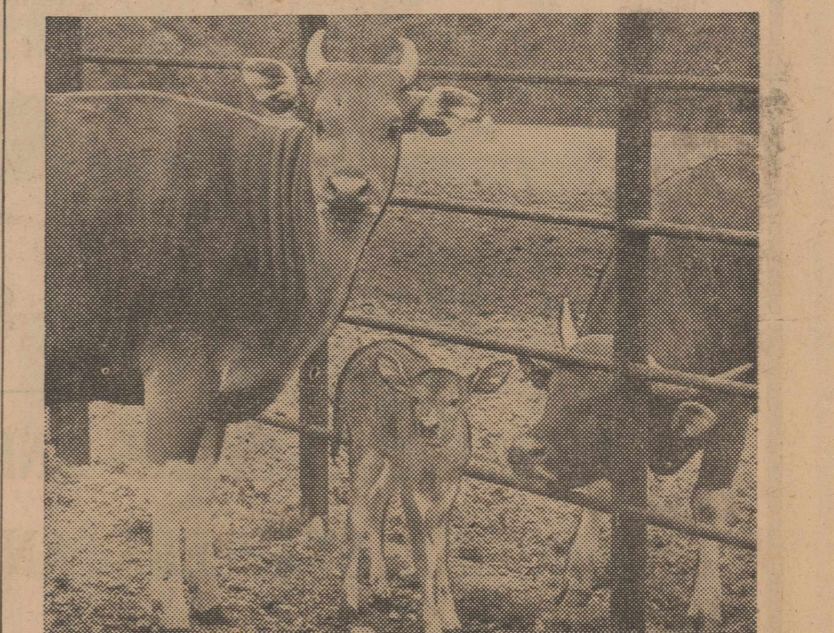

JULY 4, 1861

N.W.N.S. CHAPIN

LOOK THE OTHER WAY . . . These wagon mules seem to be avoiding the sight of the huge metal truck about to pass them on the highway. Naturally, it's competition, putting them out of work.

FIRST FAMILY . . . Mother, baby, and father, makeup the "first" family at England's Whipsnade Zoo. Baby is center of attention because she is the first banteng (species of wild ox) born in Britain.

### Soil Temperature May Supply Information For Planting Seed

There are many factors farmers consider before they plant a crop. An important factor to consider before planting a crop is soil temperature. The time the calendar says to go ahead and the soil temperature says to go ahead often do not agree. In a 7 year study at the Lubbock Experiment Station the use of an average soil temperature over a 10 day period has proved to be the safest guide to cotton planting rather than the usual recommended dates for an area.

With a minimum 60 degree average soil temperature, cotton emerges much faster. If you plan to try this method of determining when to plant cotton, be sure to place the thermometer in the soil 8 inches deep, in the center of the listed bed. Take your readings between 7:30 and 8:30 each morning and record them for at least 10 days or longer, if necessary. This will give you an average soil temperature. If it is below 60

# Prejudice Brings Doom

*"There is neither Jew nor Greek, there is neither bond nor free, there is neither male nor female; for ye are all one in Christ Jesus." — Galatians 3:28*

**P**REJUDICE is a blind bull running wild, someone has written.

St. Paul, in the words above, is telling the Galatians that they can not be prejudiced against races, stations in life, or anything else. Christianity is supposed to be above prejudice.

In the long history of the world, however, prejudices have never been stronger, or more violent, than in our modern world. We are prejudiced against races and nationalities and new ideas.

Besides being un-Christian, these prejudices are actually ridiculous — as ridiculous as the Englishman who said he despised all Americans, but had never met one he didn't like.

We must reorganize our thinking, or our prejudices will be our doom.

Read your BIBLE daily and GO TO CHURCH SUNDAY

Religion... ITS LESSONS FOR MODERN LIVING

degrees, wait a while to plant. If it is that or over, you've probably beat the calendar. All seeds absorb water faster from a warm soil than from a cold

one. Soil receives heat four ways: from sun, warm rain water, chemical and physical changes that take place within it. Vegetation and other covers protect soil from the sun's heat so that during summer the temperature of bare land is higher than that of land covered with vegetation and warmer in winter. A very important effect of cover is in lessening or preventing freezing of the

soil which is harmful to crops during early spring.

The kind of soil influences soil temperature principally by reasons of color and texture. Black soils warm more quickly, sandy soils are "early" or warm soils. Soil cover can be obtained by leaving crop stubble on the surface or planting winter cover crops. Cover is beneficial in many other ways, reduces water loss and controls erosion. The amount of cover necessary to have the greatest advantage will differ with soils. Guidance as to the amount of cover best for your situation can be obtained from the Soil Conservation Service assisting your local Soil Conservation District.

"Why, I just read where some government bureau that reports on statistics says that electric service costs me only one and one-third cents out of each dollar that we spend at our house."  
 "Then I found out that the more hours I use Reddy Kilowatt — he's the electric servant, you know — the less he charges for each hour."  
 "You say your electric bill is higher? Oh, ours is, too, but we're using twice as many appliances as we did 10 years ago. Skillet, television, hair dryer, clothes dryer, why, those are just a few of our new ones. You're probably using a lot more appliances, too."  
 "On top of everything else, my Public Service neighbor told me the average hourly wage for that little fellow we were talking about, Reddy Kilowatt, is 21 percent lower than it was 10 years ago."  
 "I can't think of anything else that costs less today than it did in 1951. Can you?"

**SOUTHWESTERN PUBLIC SERVICE COMPANY**

P.S. The government bureau the lady is talking about is the Bureau of Labor Statistics, Consumers' Price Index.

## Expect 25 To Die On Texas Highways

The director of the Texas Department of Public Safety announced today previous holiday experience in Texas indicates 25 persons will meet violent death on the Fourth of July, 1961.

Col. Homer Garrison Jr. said the release of this official prediction "is intended to serve as a challenge to all Texans to prove our estimate is too high".

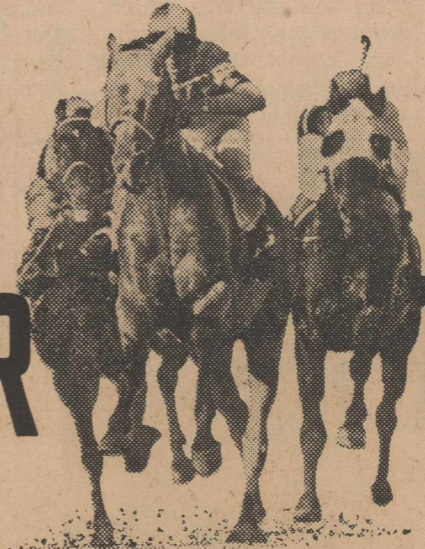

In announcing the grim forecast, Garrison said the DPS will place in effect "Operation Deathwatch" effective from 12:01 a. m. to 11:59 p. m. on July 4, during which traffic deaths, homicides and suicides, and fatal accidents other than traffic will be tabulated against the prediction.

The department's Statistical Services Manager, N. K. Woerner, estimates that 11 persons will be killed in traffic accidents during the 24-hour period, that

# Town Talk

R. R. Peeler of Needles, California was here this week looking after business interests.

Mr. and Mrs. Robert Pendleton and children of Midland spent the week end in the home of Mr. and Mrs. Royal Pendleton. They were enroute to Yellowstone National Park.

Tami and Teri Heydrick of Wichita Falls are here for a three weeks visit in the home of their grandparents, Mr. and Mrs. M. F. Keener. Mrs. Rose-

mary Heydrick brought the girls to Amarillo where Mr. and Mrs. Keener met them.

Mrs. B. G. Borth and Mrs. Kenneth Borth visited in Kiowa, Kansas, from Thursday to Saturday. They brought home with them for a visit, two close friends, Miss Neva Mason of Lawton, Oklahoma, and Mrs. Hester Taylor of Kiowa. Bobby Borth of San Fernando, California, grandson of Mrs. B. G.

FOR AND ABOUT TEENAGERS

## Teenage Divorcee Has Problems

By C. D. Smith

**THE WEEK'S LETTER:** "I ever had, after one and a half years. So I think I am pretty dependable. I also do volunteer work in the neighborhood. I don't drink or stay out late and I very seldom date because of disappointments and heartbreaks I usually have. I was married for ten months. Our decision for a divorce was mutual and there is no hard feelings. But our town is gossip-conscious, and they supposedly know everything there is to know. I wish people knew how much damage they are doing to me personally. I'm determined to sit and take it until it all wears off and a new topic comes along. I have met a boy that I am fond of, six months older than I am, but— a mama's boy. His mother says "no" to his dating a divorcee— when she is one herself. I love this guy very much, but his mother is no match for me. What is one to do?"

**OUR ANSWER:** If he's a "mama's boy," he is no match for you, either. If you are smart enough to recognize this problem beforehand, you should be wise enough to realize that you could never find happiness with a husband who is not ready for marriage. Further, all towns, or some of the folks in every town, are "gossip-conscious". We can't stop people from talking about us—but we can lead the kind of a life that gives them very little to gossip about. As you say, a new topic will come along, sooner or later.

If you have a teenage problem you want to discuss, or an observation to make, address your letter to FOR AND ABOUT TEENAGERS, NATIONAL WEEKLY NEWSPAPER SERVICE, FRANKFORT, KY.

Sonja Guffee of Floydada will spend the Fourth of July holidays in the home of Mr. and Mrs. I. D. Wall.

Triplett first made his home in Sherman County in September of 1907. He will be 86 years of age in January.

Aquilla Triplett and his foster daughter, Mrs. Buster Scott of Amarillo, visited Mrs. Eunice Buster, Mr. and Mrs. Earl Kirkwood and other friends in Stratford Thursday of last week. Mr.

Mrs. J. A. Barris and granddaughter, Marsha Boggs, both of Oklahoma City, are visiting Mrs. Barris' sister, Mrs. H. M. Williams, Mr. and Mrs. George Jeffcoat and Tex.

## Mrs. Lawler Is Honored With Coffee

Mrs. N. S. Lawler of Brady, who is a guest in the home of Mr. and Mrs. W. E. Kelley, was honored with a coffee Monday morning in the home of Mrs. G. L. Taylor, with Mrs. E. W. Butler as co-hostess.

Each guest present was presented a small sheet of blank paper on which she wrote her name, address, age and date she came to Stratford. These were presented to the honored guest, Mrs. Lawler. Mrs. J. R. Pendleton who came here in 1901 and Mrs. A. E. Pronger, who came here in 1904 had been residents of the county longer than anyone else present.

Those attending the coffee were Mesdames Lawler, W. E. Kelley, J. R. Pendleton, Philip Blanck, J. W. Elliott, J. C. O'Brien, Conde Donelson, Cone Donelson, Earl Shirk, A. E. Pronger, F. L. Yates, Barnett Corley, H. M. Williams and Mrs. Williams' sister, Mrs. J. A. Barris, of Oklahoma City.

## Mrs. McDaniel Is Circle Hostess

Mrs. Elma McDaniel was hostess to the Marjorie Stevens Circle of the Baptist Church at 2:30 Wednesday, June 21.

Mrs. E. W. Butler was in charge of the meeting. Mrs. W. E. Pleyer and Mrs. McDaniel led the opening prayers for the two missionaries on the calendar of prayer for the day. Minutes of the previous meeting were read and approved.

Mrs. Pleyer taught the lesson from the mission study book on "Intercessory Prayer". The chapters studied were "Talent of Intercession" and "For Whom Christ Made Intercessory Prayer".

The meeting was closed with prayer by Mrs. W. P. Brooks.

During the social hour, the hostess served refreshments of ice cream and cookies to Mesdames E. W. Butler, W. P. Brooks, W. O. Cook, Mollie Ellison, W. D. Ellis and W. E. Pleyer.

The next meeting will be in the home of Mrs. E. W. Butler.

## New Arrivals

Mr. and Mrs. Grover Hampton announce the arrival of a grandson, Richard Lee McGlothorn, whose parents are Mr. and Mrs. Dennis L. McGlothorn of Seattle. Richard Lee weighed in at six pounds seven ounces, when he arrive June 18 in a Seattle Hospital. His paternal

remain here until his return.

Mr. and Mrs. Byron E. Tyler and Mark of Guymon, returned home Wednesday night, after visiting for several days in the home of her parents, Mr. and Mrs. G. C. Dortch.

Little have two daughters, Gwendolyn and Deon and another son, Mark. Mrs. Little's mother and sister, Mrs. E. P. Sherwood and Joy, of Borger are guests in the Little home. Mrs. Sherwood plans to return home this week end.

## CARD OF THANKS

I would like to express my appreciation and gratitude to all of those who brightened my recovery with cards, flowers and calls. Thank you very much.

Donna Boner

**NUTS! WE'LL NEVER GET AT THE GRAIN IN THAT**  
**Timberib**  
**BUILDING!**  
**LET'S MOVE ON MATILDA!**

You shut the door on damage to your grain when you store it in a permanent, versatile Timberib building. At the same time you get post-free space which permits mechanized grain handling.

When not used for grain storage, your Timberib building is ideal for machine storage, loafing barn, or utility building. And the cost? It's the lowest of any comparable building—

**The Building Qualifies for the New 95% Storage Facility Loan, and will pay for itself within two years.**

Please send me more information on a ..... foot by ..... foot building holding ..... bushels of grain.

Please tear out and return.

This year the importance of the Fourth of July is emphasized by the affairs of the world. On this day we Americans observe the founding of a country that is unique among all nations. This uniqueness arises from the fact that the people of America are the government. They decide what is best for themselves. They make their own laws, govern their own conduct. They are free to think as they please. They are free to do as they please. America achieves its goals of Liberty and Freedom in a way that satisfies a majority of its citizens. Its flag symbolizes these precepts of utopian life — as the happiness of its people typify America's great success.

the records show at least one law violation is involved in most fatal accidents in Texas. "This should prove", he said,

Soldiers Home Before Entering Army Schools

Billy Stone, son of Mrs. Bess Stone, and Rommie Feemster, son of Mrs. Alex Coats, are home on furlough after completing basic training at Fort Hood. Feemster is being sent to an electronics school at Fort Gordon, Georgia. Stone will enter an army administration school in Indianapolis, Indiana.

Its Time To Select Beauty Contest Girls

Stratford business and professional men and women are reminded that it is time to contact their entrants for the annual beauty contest.

Miss Stratford and Little Miss Stratford will be crowned on the 6th of September in the high school auditorium.

Floyd Brannan will accept entrance fees or an advertisement in the County Fair Book.

Names of the contestants should be filed with Mrs. Jack Vincent.

The annual beauty contest held during the county fair and Stratford Jamboree is sponsored by the Nu Beta Chapters of Beta Sigma Phi. All proceeds raised from the beauty contest are turned over to the jamboree committee.

Miss Stratford will be judged in a formal and in a bathing suit. Little Miss Stratford will be judged in a Sunday dress.

Major Harvest

(Continued from Page 1)

line from McPherson to Syracuse in the Kansas harvest. South border counties are virtually completed and the released machines and labor from those areas are taking care of shortages north as needed.

The Oklahoma wheat harvest progresses rapidly toward the finish under ideal weather conditions. An adequate supply of men and machines remain in all areas. As the operators finish their commitments, many of them are following the harvest northward.

Among the Sick

Mrs. Clifton Muir was brought home Wednesday from Dumas Memorial Hospital where she was admitted as a patient Thursday of last week. She underwent major surgery Friday morning.

Mrs. Claude Allen was admitted to Memorial Hospital in Dumas as a medical patient Wednesday afternoon.

Mrs. Owen Palmer has returned home from Dumas where she was a medical patient in Dumas Memorial Hospital.

Mrs. Lyall Murdock has been in Dumas Memorial Hospital for a checkup and tests. She was brought home Wednesday.

National Stubble Mulch Contest Judges Named

Judges for the first National Stubble Mulch Contest, to be held July 26-28 in Wichita Falls, have been selected, reports Jack Barton, extension soil and water conservation specialist. They are Edd Roberts, Oklahoma extension conservationist, Dolph Craig, SCS agronomist, and C. E. Van Doren, superintendent of the Soil and Water Research Field Station at Bushland.

The national contest will be judged in four parts. These parts were: Amount of residue left on the surface; depth of plowing, which includes alternate depths, weed control and seed bed preparation; uniform-

Postal Employees Are Handling More Mail

A recent story attributed to Frederick C. Belen, Assistant Postmaster General for the Bureau of Operations is of interest to Postal employees. Mr. Belen stated that postal employee productivity had increased 40 per cent since 1945.

The Post Office Department today has a deficit of nearly \$900,000,000 and in 1945 had a surplus of \$165,000,000, yet the employee is more efficient today than in 1945. He further pointed out that 78, 282 pieces of mail were handled per employee in 1945, and today that an employee is handling 115,058, which is an increase of over 40 per cent. These figures were brought out because of the fact that some critics are blaming the deficit on Postal employee inefficiency.

Kansas Editor Writes New Book About Cimarron

Harry E. Chrisman, Liberal, Kansas newspaper advertising man for the past 12 years, is celebrating his state's centennial year with the recently published work, "Lost Trails of the Cimarron".

The book is concerned with early days in western Kansas and the Oklahoma Panhandle. The books 300-plus pages tell the story of western settlement through many individual vignettes of old-time cowmen and buffalo hunters. The stories are all taken from

ity of plowing; and safety in operation of equipment.

Practicing stubble mulching can mean more money for the farm operator, says Barton. All farmers in the nation interested in residue management are urged to attend and compete in the National Contest.

original sources and personal interviews.

Chrisman was born in a sod house on the Nebraska plains and worked on cattle ranches as a boy. He was educated in New York state and at Denver University and is presently on the staff of The Southwest Daily Times at Liberal.

The average person speaks about 10,000 words a day. We've always said that the wife was far above the average.

### Freeport Plant Offers New Hope For Obtaining Water

(By Walter Rogers)  
Desalinization of Water

On June 21st the President of the United States pressed a button in Washington, D. C. that started the flow at Freeport, Texas, of fresh water produced from the sea. It heralded the completion of the first saline water conversion plant in a long-range government program designed to produce the answer to one of man's oldest problems. It is the hope of all of us that effective answers to this problem can be found at an early date. However, we must recognize that the proper attack must be on a long-range basis. If we can find the solutions early, the research and development program can be terminated. On the other hand, if the answers are not forthcoming quickly, we must not run the risk of wasting money on short-range, ineffective programs. Man lives by the theory of elimination. He moves step by step as he probes into the future. He can only discover by repeated attempts to gain the desired result. In other words, "If you don't succeed the first time, try, try again". It was this philosophy that the first flight of the Wright brothers blossomed into the jet airliners of today.

We know that the vast waters in the sea, as well as the brackish waters underlying the earth in many places, can be changed

into life-giving fluid that can be utilized not only for human consumption, but for all other domestic and industrial needs of man. The question is, as to how this can be done so that it will be economically feasible. Whether or not this can be done by perfecting present known methods, or whether it will be done by new and unknown methods, is our responsibility. It must be accomplished and it can only be done by proper research and development. It must be done, because this accomplishment during our generation would go down in history as the greatest single step ever taken by mankind to bring about universal peace.

I was honored to be present

From C. D. Karnes, Sondheimer, Louisiana: I remember the days of my youth, on a small farm near a small town in the coal fields of Central Illinois. Our town was alive with community interest and seldom failed to stage Fourth of July picnics, Labor Day parades, free fish-fries, and barbecues, in a beautiful grove adjacent to town.

Youth and age were happy in local amusements . . . our national leaders were statesmen . . . the Supreme Court was a beacon of wisdom and respect . . .

Immigrants were coming to America, to seek a new life. Mining operations, and the labor force in our community were composed of Polish and Italian immigrants. The town and mine owners prepared lavishly for the 4th of July. Three dance floors were laid off in the shady sections of the grove. The mine provided cases of lemons, sugar, new wooden barrels—free lemonade for all. Local youngsters occupied one dance "floor"; the Polish workers another; the Italians the third.

Young Americans, to the fiddle and guitar, danced the waltz, two step, and country square dance, some old timer doing the calling. Among the Polish and Italian groups, this was a big family affair, young girls, matrons and grandmothers, dressed sometimes in the styles and colors of their native lands. The Poles would start with folk dances, then the Polonaise, waltz, a Schottische, and most certainly the Mazurka and perhaps a polka. The Italians had their Neapolitan Street dance, the Gavotte, a Strauss waltz and a polka.

Send contributions to this column to The Old Timer, Community Press Service, Box 39, Frankfort, Kentucky.

at the Freeport ceremonies, as the legislation making possible the research and development in this field was handled by a subcommittee of which I am chairman. It was indeed gratifying to see the physical results of what can be produced by a free nation with the government and private enterprise working hand in hand for the betterment of mankind. The ceremonies were most impressive and were attended by the Vice President of the United States, Lyndon B. Johnson, whose long record in support of this program was written in the Senate; the Honorable Stewart L. Udall, Secretary of the Interior; several United States Senators and several members of the House of Representatives; Lieutenant Governor Ben Ramsey; and other State officials. Private enterprise was represented by leaders in the industrial and commercial fields of this

country.  
Let us all hope that this occasion which took place in the State of Texas will constitute the beginning of man's conquest of one of his most dread enemies, "drouth".  
**The Berlin Issue**  
The Berlin issue could turn out to be the number one issue in this decade. There is no doubt but that Krushchev so considers it. Some feel that he would rather have the issue than a settlement. This, however, appears to be wishful thinking. The Berlin question has already been pushed by Krushchev to the point that some settlement is expected by the other countries of the world. Undoubtedly Krushchev realizes this, because he has as much, or more, at stake than does this country. He also realizes that war is not and cannot be the answer to this dilemma. It can probably be concluded also that he realizes

the futility of war as a solution to problems, as compared to the additional problems created. Our position must be firm and he must understand that we will not vacillate. Unless this position is maintained, our position in the eyes of the world and each area could be seriously jeopardized.  
In passing, I would make the following observation, although

the Germans have been our enemies twice in this century, it is difficult to visualize people of the German stock remaining complacent under a Russian boot heel.  
Mortality rate of persons contracting cholera is 30 to 80 per cent.

## Jamboree Activities Will Be Held On County Fair Grounds

Stratford Jamboree and Sherman County Fair activities will be held on the fair grounds, it was decided at a recent meeting of the jamboree and fair committee. These activities will include the barbecue, concession stands, community recreation, children's rides and the end of

the grand parade. The committee is urging each organization, church and school class to operate a concession in order to make a better celebration. Ernest Goule has been placed in charge of the placing of concessions on the fair

## Holly Harrington To Attend Convention

Holly Harrington

Holly Harrington, daughter of Hollis E. Harrington, will attend the national convention of Alpha Sigma Alpha, national college social sorority, to be held in the Grand Hotel at Mackinac Island, Michigan, July 5-9. Miss Harrington is vice president of the sorority's Sigma Sigma chapter at Western State College of Gunnison, Colorado.

grounds. "American Heritage" has been chosen as the parade theme. The parade committee is composed of Sam Wohlford, chairman; Owen Hudson, parade marshal; and Janet Riffe, secretary. The jamboree dance will be sponsored by the jamboree committee.

### Propose 6

(Continued from Page 1)

production, and carryover stocks of wheat would be affected about as follows:

1. With a modest increase in wheat price supports, this program could be expected to result in an increase of about 10 per cent in net farm income to our nation's wheat farmers;
2. Harvested acreage of wheat would be reduced by at least 5 million acres by the reduction in the acreage allotment, and by at least an additional 5 million acres if response to the voluntary part of the wheat program were similar to the response to the 1961 feed grain program;
3. Production of wheat would be reduced to about 1.1 billion

**Perk Up those Foods**  
Sponge cake takes on a party look when you frost it with whipped cream into which have been lightly mixed a few spoonful of well-drained fruit cocktail. This makes a good dip or sandwich spread: combine softened cream cheese with chopped roasted almonds and minced sweet pickle; season with chili powder and celery salt.  
Shape your next meat loaf in a ring mold pan and when baked serve with the center filled with canned apricots which have been simmered in cloves and cinnamon for spicing.

**HELEN'S FAVORITE:**  
Broiler Quickie (Serves 4)  
1 pound pork sausage links  
1 small can green peas  
Butter  
4 drained peach halves  
Brown sugar  
Empty peas into broiler pan; dot with butter. Place pork sausages over peas with peach halves, sprinkled with brown sugar. Broil 3 inches from heat, turning sausages, and brown on both sides.

Canned green beans can be folded into a tangy gelatin mixture with chopped cabbage and celery for an interesting combination.  
Blend prepared mustard with soured cream, add some slivered almonds and serve over green beans, cauliflower or broccoli.  
Make your next sundaes sumptuous with several different kinds of berries. Top with toasted coconut.  
Muffins take on glamor if they're topped (just before they finish baking) with some evaporated milk, slivered almonds, maraschino cherries and coconuts.

bushels; and  
4. An opportunity would be provided to reduce total wheat carryover and CCC stocks.

Girls, you can't make your husband feel like a Pagan God by placing a burnt offering before him at mealtime.

## Cmdr. Divine Visits Parents In Stratford

Commander Forrest M. Divine, USN., of Norfolk, Virginia,

It Pays — To Read Star Ads

arrived Friday for a visit with his parents, Mr. and Mrs. Ira D. Divine. Divine has been in the navy since the beginning of World War II. During the war he saw service in the Southwest Pacific.

During the last 30 months he has been stationed at Madrid, Spain. Other 30 month assignments include Tokyo, Japan,

San Diego, California, Norfolk, Virginia and Washington, D. C. Commander Divine attended the Texhoma schools, Panhandle A. & M. College at Goodwell, and graduated from Colorado State University Law School. He is assigned to the Naval legal department.
