

Adopt Harmony Program At Convention Of Demos.

Delegates to State Convention Instructed to Vote for Dry Plank and Dry Candidates.

Democrats of Floyd County in their convention Tuesday afternoon in the District Court Room at 2 o'clock, adopted the "harmony" resolutions, denouncing "corruption, bribery and graft in high office," going on record as favoring a dry plank in the party's platform and dry candidates to stand upon it, but not calling any candidates by name. The resolutions adopted also instructed the delegates from this county to cast their votes as a unit for Dan Moody as a delegate at large to the National Convention, and to support him as chairman of the Texas delegation.

The session was a spirited one for a short time, H. B. Adams, Lockney newspaperman, taking the lead in support of the resolutions opposing Smith, Reed and Ritchie by name, calling for a dry plank and dry platform, but leaving out any reference to the Republican party. He was supported by D. P. Carter in the fight. L. G. Mathews, of this city, led the forces favoring the adoption of the "harmony" platform, which mentions no candidates by name but affirms a stand for a dry plank and dry candidates and flays the Republican party. R. A. Sone, W. J. Berry and J. S. Solomon made speeches favoring the "harmony" platform.

When the vote was called for the "harmony" resolutions were adopted by a vote of 20 to 7, Bert Bobbitt the Lone Star delegate, voting with the six instructed votes from the two Lockney precincts, and one vote not being cast either way. The eight Floydada votes were cast by Ben Hardy under the unit rule.

Lon M. Davis and Mrs. Kenneth Bain were nominated and elected delegates to the state convention, which meets in Beaumont on May 22.

Judge J. N. Stalbird, County Chairman, called the convention to order at 2 o'clock, and was elected permanent chairman of the convention. Tom W. Deen was elected secretary, and R. E. Hearing Santa Fe Cut Off Application May 21

Fort Worth & Denver Will Protest Partition to Hale Center Line At Lubbock.

Hearing on the application of the Santa Fe for a permit to construct a line of railway from Parmerton near Farwell on the Chicago main line of the company to Hale Center on the Amarillo-Sweetwater Branch, a 66-mile line that would bisect almost exactly the triangle formed by the company's lines from Lubbock to Clovis and Amarillo to Clovis and give an immense territory railway facilities that are now without, will be held in Lubbock May 21 by an examiner from the Interstate Commerce Commission.

Formal notice of protest of the new line of railway has been filed by the Fort Worth & Denver Railway Company which company is expected to represent that the new line would affect unduly the revenue anticipated from the line that company is constructing to Dimmitt. The Santa Fe's proposed new line is projected through Olton, now without railway facilities, and a rich agricultural section from one end of the line to the other.

Several weeks ago the Santa Fe's representatives signed contracts for the construction of the line, with citizens of Olton and Hale Center conditioned on the permission of the Interstate Commerce Commission.

Miniature Postex Mills To Be Displayed Here

Complete Operations of Plant in Manufacture of Cloth From Cotton Shown on Small Scale.

Opportunity of seeing a working model of a real cotton mill will be afforded those who visit Martin Dry Goods next Monday, Tuesday, Wednesday and Thursday according to an announcement made this week. A graphic presentation of a miniature of the Postex Mills at Post, Texas, will be shown on these days to the public.

The model is a replica of the entire mill, and shows the various steps through which raw cotton passes before it is made into the finished product. The mechanical display is run by electricity and illustrated by many small lights. It measures seven feet long, three feet wide and two and one half feet high.

The Postex Mills are the manufacturers of Garza sheets and pillow case tubing. The miniature to be shown at the Martin's this week has been shown extensively within the past few months. Only recently the display was given a window in one of the largest stores at Dallas and has been shown in a number of the larger cities.

Each step in the manufacture of cotton cloth is shown in the model and those who have never had the opportunity to visit the larger mill, will find this a very interesting and educating display, according to officials of the Martin Dry Goods Company.

CAR STOLEN IN FLOYDADA THURSDAY STILL MISSING

Thieves who operated in Floydada successfully last Thursday night are still at large with an automobile belonging to E. C. Nelson, and the same party or parties are presumed to have a motorcar taken from a Hudson belonging to J. B. Jenkins, and two spare tires and a motor meter taken from a Chevrolet car belonging to Jeff D. Ayres. The Nelson car was stolen from his private garage and the thief or thieves also entered the garages of Jenkins and Ayres to get the extras he or they wanted.

Broadcasting by radio and by mail had failed to get any results as late as yesterday afternoon. Light showers that fell made it possible to trace the stolen car a short distance out of town early Friday but these tracks were soon lost in the traffic.

The car stolen was a new type of Chevrolet landau sedan.

Band Scores Marked Hit In Concert Wednesday

Spectacular Wedding and "Salute to Ft. Worth" Afe Features of Enjoyable Program.

Floydada Municipal Band, with Prof. A. L. Lundgren in charge, again proved their excellence in presenting a musical program deluxe Wednesday evening when they entertained with a feature concert at the high school auditorium.

Featured in the pleasing program, was a spectacular wedding ceremony, performed in pantomime. Mrs. A. L. Lundgren composed the accompaniment and originated the wedding plan. "The Runaways" was the title of the wedding feature. The bishop, bride and groom in the ceremony were unknown to the audience and carried out the play perfectly. Mrs. Ted Chowning sang the accompaniment to the ceremony.

Floydada's pep song, "Salute to Fort Worth," probably drew more applause than any other phase of the concert. Accompanied by the "Saxophone Family" and sung by the members of the band, the pep song proved to be truly a "peppy salute." The pep song was also written by Mrs. Lundgren.

"The Saxophone Family" proved a hit at the concert, also. The octette was composed of the following band members: Waldo Houghton, Dock Massie, Randall Alexander, R. V. Husky, N. B. Stansell, Floyd Bell, J. R. Borum, and Billie Welch. They drew a number of encores.

Proceeds from the concert Friday night go towards paying the expenses of the band to the West Texas Chamber of Commerce Convention in Fort Worth the latter part of June.

New Railway May Bring Loan Value Adjustments

Worth of the new railway lines into Floyd County to the dirt farmer are beginning to make themselves visible in ways other than reduced mileage in hauling, the portions of the county which have been heretofore most distant from a railway line now coming into the category of territory having railway mileage and consequently better facilities for marketing.

Among the benefits may be an adjustment of loan values in this county of the Federal Land Bank at Houston. Last week Secretary Jas. K. Green, of the Floydada National Farm Loan Association was visited by J. V. Vandermark, secretary of the Federal Land Bank, and E. F. Shropshire, its chief appraiser, both of Houston, and F. T. Collins, of Amarillo, special agent and appraiser. The bank officials spent some forty minutes or an hour here and carefully went over figures presented by Mr. Green, showing the new rail developments in the county, distances from rail lines and markets of lands in the northeast, southwest and southeast portions of the county, which have suffered heretofore for lack of rail facilities. With the new rail lines into this county, Floyd is now served by three major railway systems, he pointed out, with very few farms in the county more than ten miles distant from a market on one of the three railroads.

Two School Districts Ask Boundary Changes

Aiken Wants Strip From Irick and Prairie Chapel; Center Wants Land In Floydada and Campbell.

Two Floyd County school districts are asking for increased land in their respective districts in petitions which have been filed with the County Board of School Trustees, Aiken asking a strip off of the north side of Irick and a strip off of the south side of Prairie Chapel, and Center asking for the transfer of two sections now in Floydada Independent School District, and one section now in Campbell, to Center.

The petitions will be heard by the county board in special session next Monday in Floydada, it was stated at the office of County Superintendent Price Scott this week. Mr. Scott is ex officio secretary of the board.

Petition for the change in the boundary of Aiken, Irick and Prairie Chapel was filed a little more than two weeks ago and at the regular session of the board last Monday oral arguments of residents of the three districts were heard by the board. Representatives of all the districts were present before the board, the county court room being well filled to accommodate the large number of interested citizens. Action was deferred on the matter until next Monday.

The petition from the Center District was presented to the board at its meeting Monday of this week. It asks for two sections out of Floydada Independent School District and one section out of Campbell. This petition will also come up for disposition Monday.

The petitions filed with the county board are based on a law passed by the first called session of the Fortieth Legislature, known as House Bill No. 99, and about which not a great deal of information has been gained by the general public. Superintendent Scott said Monday afternoon that there was apparently no doubt but that it conferred on the county board the authority and duty of making changes in the boundaries of school districts, both common and independent, when in their judgement it seemed proper to do so. The law became effective June 8, 1927.

Aiken Independent District

Laws passed by the same legislature placed authority for the creation of independent school districts also in the hands of the county board of trustees and the board of this county exercised this authority for the first time on April 21 of this year, when, on petition, they created Aiken as an independent district. An election will be held in the district Saturday of this week for the purpose of electing seven trustees for the newly created district. The board has the power to make any common school district into an independent district, according to the interpretation put on the law, and the school board is required to order elections for the naming of trustees, Mr. Scott said.

Hearings on the Aiken petition for additional territory took up the major portion of the board's time Monday. They appointed one new trustee to fill a vacancy during the afternoon, J. H. Carroll being named as trustee at Muncy to succeed J. E. Race, resigned.

BACK YOUR CANDIDATES

It is highly fitting and proper that every citizen should study the men and women who offer themselves for the various positions of trust and emolument in precinct, county, state and nation, and that, after study the voter should back his candidate in every way that is fitting and proper.

One of the ways to back your candidate that is not fitting and proper, is to say or do something against some other man's candidate that you'll have reason to regret when the heat of the campaign is over. If you'll remember that you must live in your community with your neighbors long after you've forgotten who was candidate for what and that it is more important that you have the good will of your friends than it is that your man win, you'll get a view that is both substantial and commonsense.

Not that there is particular danger in this campaign year of anyone so far forgetting himself as to do such a thing in Floyd County, but that this line of procedure is good logic for this and any other campaign year.

THE VOLUNTEER FIREMEN

Volunteer firemen in Floydada during the past sixty days have saved the community hundreds of thousands of dollars through prompt and vigorous efforts to do their duty as members of the fire department. The organization has paid for any expense that may have incurred for the community including expense of furnishing them equipment, many times over. The community has had occasion in the past year to be very thankful for the foresightedness of its councils, and to the boys for their good work.

As long as there are young fellows who like a little excitement and crave action, there'll be material available for a volunteer fire department, provided some recognition is given their efforts, as for instance a gathering place, a recreation hall—and something to do at the place where you want them to be when you need them. Floydada should not be niggardly in providing amply for the fire boys. We have too much property values depending on their efforts. Doubtless every interest will give the council cordial support in anything they do for the volunteer firemen.

"SAVE-A-LIFE" WEEK

Texas and the nation in general have had so many different kinds of "weeks" during the past few years that little attention is paid when it is announced that another one will be had. However, the public in Texas may have been sufficiently appalled in the past few months with the loss of life on the streets and highways by automobile accidents of various kinds that the announcement of a "Save a Life Week" may make some impression.

A study of the mortality statistics of the past few months reveal that of the automobile accidents, the deaths and permanent injuries sustained are occurring as frequently in the case of cars driven by "good" drivers as by those termed "not good." A good driver is a good driver only so long as he has his car under perfect control, is taking no undue hazard with the lives of the occupants of the car he drives and is concentrating on the job he has at hand. Trusting to luck at street intersections, railway grade crossings and when passing other cars is furnishing a good percentage of the tolls that daily wind toward the cemetery.

But "Save a Life Week" is pointed in particular to the automobile driver, whose car is insufficiently equipped to make it a safe vehicle for transportation. Efficient brakes, lights, horn, steering apparatus, windshield wipers are necessary to the proper operation of motor vehicles. Lack of efficiency in these particulars are causes of many accidents. That a motor car owner de-

liberately should consent to risk the lives of the occupants of his car and the lives of the people whom he meets on the streets and highways is unthinkable. But that many of them do it through carelessness or ignorance is proven time and again by accidents that could have been avoided had the driver taken proper precautions beforehand.

REAL PASSENGER SERVICE

Announcement made last week by Chas. H. Sommer, president of the Quanah, Acme & Pacific Railway Company, that the new line of railway into the plains area, will operate a through passenger train Floydada to Oklahoma City, with complete passenger service, will be hailed with delight by south plains people. It is the kind of thing we have long hoped for and hardly dared to expect. It is in line with promises made by Mr. Sommer more than a year ago, but really a more elaborate fulfillment of the promise than was expected. For that matter, practically everything the new rail line is doing in connection with the extension is on a bigger scale than was promised—ballasted road bed, heavy steel, elaborate passenger and freight station—and now a passenger service that makes possible quick direct travel to the north and east and almost as good service likewise downstate to Dallas and Fort Worth from Floydada.

That the owners of the new line into Floydada are doing rather considerably more than their contract called for is a good augury for the future. It is an indication that the new railroad company is going to make a mighty good "citizen" for this territory.

'Round The Square

By Old Battleaxe

Spring has sprung—and left behind it a sleepy-eyed, yawning people. Every where round the square you will see evidence of spring—not only in the trees and flowers but in the wide-open spaces below the noses of the loafers. The main trouble with these "wide-open spaces" is that they keep opening and shutting—either to spit tobacco juice or to "cuss the country in general." This is just exactly what everybody like to see—if they want to see this county ruin its reputation as a "live awake county."

We humans are just like mules. A mule can't kick while he is pulling, and he can't pull while he is kicking. Neither can you or I.

If some of the pessimists round the square who said last winter that the cemetery association was "just a ying to get some more money" would take a look at the Floydada Cemetery, they will change their minds as to the importance of the drive. The local cemetery is in better shape today than it has ever been—and you will notice there has not been any "cemetery clean-up drives" or "give more money campaigns." Just one big campaign each November, and this keeps a full-time sexton on the job. A mighty good step by the Cemetery Association, and this idea should receive our full hearted cooperation.

"Mother, wouldn't it be nice if you had the toothache instead of sister?"
"Why do you think it would be nice?"
"Because you can take your teeth out and sister can't."

Spring time is advertising time, which brings on the argument "What is advertising." Advertising in the Hesperian is sold on its merits, and all ads should be purchased that way. Advertising is a commodity that should produce results, and while there are many kinds of donation advertising, the wise merchant spends his money where it will do the most good. Ads must produce results. This, we believe, the Hesperian is capable of doing.

Druggist: "Here, sir, is your package. Seventy-five cents, please."
Deaf Old Gentleman (placing nickel on counter): "Thank you. There is your nickel."

Druggist: "But I said seventy-five!"
Deaf Old Gentleman (going out the door): "Well, there's your five cents!"
Druggist: "Well go on, you old fool, I made three cents anyway."

There was a little girl
And she had a little curl
Right in the middle of her forehead.
When she was good
She was very, very good,
And when she was bad she was—
Quite a jolly companion don't you know.

The third annual May pageant of Texas Technological College will be presented on the athletic field the evening of May 12, at 8 o'clock. Approximately 600 students of the college will take part in the affair which is under the direction of Miss Eunice Cox, expression instructor.

The pageant, which is entitled "Within Reach of the Plains People," is to be divided into three divisions: Division one, featuring men of American and Texas history who have exemplified in their lives characteristics worthy of every Tech student and every citizen of the United States; Division two, portraying every department of the four schools of the college; Division three, dealing with the seven educational products which Texas Technological College is endeavoring to inculcate in the lives of those who come under its influence.

THERE IS ONLY ONE FRIGIDAIRE

THIS IS A PRODUCT OF GENERAL MOTORS

In the Frigidaire cabinet everything is fully enclosed. There is no unsightly machinery sticking out like a sore thumb. Take a good long look at the Frigidaire Cabinet then close your eyes and your mental picture will be one of grace and harmony. There are no unforgetful irregularities to mar the picture.

For a number of years a certain automobile manufacturer producing a good car tried to make the public appreciate a new design of the hood. But unfortunately the design was such that seeing it once you could never forget how it looked. This always a mark of ugliness. You would not want anything like that in your home.

You will look at your Frigidaire many times every day for many years. You have a right to demand the beauty of a Frigidaire cabinet.

Western Union Will Be Housed In New Building

Announcement was made last week of the completion of all arrangements for the housing of tenants in the Floyd County National Bank Building, so as to make room for the enlargement and rearrangement of their banking room, the last occupant to be provided for being the Western Union Telegraph Company, which will occupy one-half of the new unit of the bank building going up on the rear of the lot.

Radio Electric Company will move into the new building as soon as it is completed and Western Union's office will be moved from its present quarters in the bank about fifty feet to the new quarters.

The portion of the building to be vacated by the telegraph company will be utilized by the bank in the enlargement program recently announced. A large customers vault will be constructed so as to be conveniently reached from a vestibule and entrance on the south side of the building, and adjacent to it

will be arranged a customers' room. The present vault will have a partition in it removed and the entire space utilized by the bank for its records. New marble fixtures will be installed in the main banking room, to make it much more elaborate and convenient than at present. This work will begin at an early date, possibly this week. Work of re-painting the banking room has already begun.

CHINA RETURNED MISSIONARY TO LECTURE AT CARR'S CHAPEL

A. K. Rieton, returned missionary from China, will give a lecture at Carr's Chapel Sunday night, May 13, at 8 o'clock. It is said that Mr. Rieton has spent twenty years as a missionary in China.

Mrs. E. D. Avary, who has been spending the past two weeks with her daughter, Mrs. A. J. Brown, returned to her home at Seymour Wednesday.

Van Bullard, of Sweetwater made a short visit here Monday with his aunt, Mrs. G. M. Bullard.

Readhimer Building Due For Completion Shortly

Most of the exterior work on the construction of the Readhimer Office Building on West California Street has been completed except for the display windows on the first floor, and interior work is continuing steadily. Indications are that the building will be completed by June first, possibly before, Mr. Readhimer said one day last week.

"I am making the building as modern as possible, spending quite a bit of money that doesn't show on the outside in order to make it possible to accommodate prospective tenants," Mr. Readhimer said. Electric, gas and fitment installations of various kinds are being done in a particularly elaborate manner in order to accommodate possible demands of the future, he pointed out.

SLAUGHTER HOME IN FLOYDADA DESTROYED BY FIRE SATURDAY

The home of Mrs. G. V. Slaughter on East Mississippi Street, was destroyed by fire Saturday night about 9 o'clock in a fire which apparently was ignited from a metal flue in a room used as a kitchen, the house representing a loss to the owner of some three or four thousand dollars, and to John McCleskey and family probably \$100 worth of household effects. The McCleskey family was moving from the house to another to make their home when night overtook them and the removal of a stove and miscellaneous items was deferred until Monday. These were consumed in the fire.

The fire department had two streams of water concentrated on the building soon after the alarm sounded but the fire in the large building was so well under way that the salvage is expected to be very little.

Offering bodies by Fisher, the Pontiac Six brings to the low-priced field not only the style and smartness, but also the luxury, roominess and staunch construction inherent in Fisher design.

Embodying the G-M-R (General Motors Research) cylinder head, Pontiac combines amazing smoothness and silence with economy of operation, using ordinary gasoline.

And providing the thermostatically-controlled cross-flow radiator, it practically eliminates losses of water and alcohol and assures the proper temperatures for highest engine efficiency.

Bodies by Fisher—G-M-R Cylinder Head—Cross-flow Radiator . . . here are three big features found in no other low-priced six that no buyer of a six in Pontiac's class can afford to overlook. If the New Series Pontiac Six offered no other exclusive advantages, it would still hold its rightful position as the world's finest low-priced Six.

Lee Slaughter Given Party
On First Birthday.

Lee Slaughter, son of Mr. and Mrs. G. V. Slaughter, Jr., was one year old Thursday, May 3, and his mother gave a party for him in the afternoon at their home in celebration of his first birthday. Games were played by the little tots and a number of pictures were made of them to preserve the memory of the occasion. Miniature ducks were given as favors.
A large cake centered with one wee candle was cut and served with ice cream

LOST

Time from Work

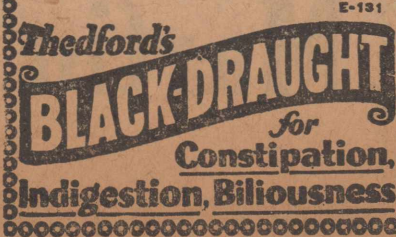

Mr. Albert Garland, of Somerset, Ky., recently said:

"I used to work in the mines, but lost quite a bit of time on account of sick spells I had. I would get to having a bad taste in my mouth, and a very dull, tired feeling and ache.

"My mother told me to try Black-Draught, which I did, and after a few doses I felt much better. Now I take it as soon as I feel the least bad, and I don't get down. I certainly can say that it has done more for me than any other medicine I have ever taken.

"I never get without Black-Draught. If I go on a visit, I take a package along in my suitcase. My health is better now than it has been in years."

Black-Draught is prepared from medicinal roots and herbs, of highest quality. Price 25c. Try it.

to the following: Betty Ray Abston, Auralee Dumas, Dorothy Dumas, Ray Keith Day, Eugene Wilkinson and Lee Slaughter, the honoree.

The mothers who accompanied the children and were present during the afternoon were: Mrs. Otis Abston, Mrs. Lee Wilkinsin, Mrs. Joe M. Day and Mrs. Hugh Dumas. Miss Minnie Schneider was also a guest.

M. E. Society Makes Plans
For District Meeting.

A short meeting of the Woman's Missionary Society of the Methodist Church was held Monday afternoon to make plans for entertaining the Plainview District Meeting to be held at Floydada May 23 and 24. Mrs. C. R. Houston presided in the absence of the president, Mrs. J. M. Willson. Committees were appointed to take charge of the various activities of the meeting.

The Society will meet again Monday afternoon with Mrs. Ben Hardy at 4 o'clock instead of 3 o'clock. The Bible

study will be had at this time with Mrs. W. W. Porter as leader.

Surprise Birthday Dinner
Given Sunday.

Mrs. J. J. Foster was surprised Sunday with a birthday dinner given by her four children. Arrangements were made during the week to see that Mrs. Foster attended church Sunday without fail. When they returned home a bountiful feast was found waiting them. Table flowers used in the dining room were cream and pink roses and geraniums.

A chair was placed by the table filled with pretty gifts and in the midst of the feast was a very pretty birthday cake with 72 candles burning, yet Mrs. Foster did not think of her birthday. When they opened the door and walked in view of the feast the house was quiet, not a sound to be heard. While they were looking and discussing what this could mean the doors swung open and a crowd of forty entered the room to rejoice with them.

Those present were Mr. and Mrs. A. Barnett and family of Wake; Mr. and Mrs. J. H. Poore and family, of Lakeview; Mr. and Mrs. L. A. Hodge and family, of Lakeview; Mr. and Mrs. C. E. Bartlett and family, of Mayview; Mr. and Mrs. C. Foster and family, city; Mr. and Mrs. John Shurbet, city; Mr. and Mrs. C. J. McClure and family, of Crosbyton; Miss Ima Johnston, city.

At five o'clock supper was served, then all returned home, wishing Mr. and Mrs. Foster many more happy birthdays.

F. O. B. FACTORY

BY traveling 5,000 miles in 4,751 consecutive minutes, the Studebaker Dictator has established a record unequalled by any stock car under \$1400—comparable to the existing world record of 5,000 miles in 4,559 minutes made by The Studebaker Commander last fall.

And not one, but two Dictator Roadsters, fully equipped, each traveled 5,000 miles in less than that number of minutes. The run was made at the Atlantic City Speedway, April 20-23, under the supervision of the Contest Board of the American Automobile Association. Before and after the run, the cars were checked by the Technical Committee and were pronounced strictly stock models.

CLAIMS vs. FACTS

Automobile advertising is full of extravagant claims of performance. But Studebaker offers you definite FACTS supported by the certificate of the highest motoring authority. Under A. A. A. supervision

The Commander has made a record never approached by any other car on earth (25,000 miles in less than 23,000 minutes). The Erskine and The Dictator have made records unequalled by any other stock cars at or near their prices.

The high quality of materials, the precision workmanship, the rigid inspections and the engineering genius in the Studebaker Dictator are proved not only by its ability to travel 5,000 miles in less than 4,800 consecutive minutes, but also by the fact that any Dictator can be driven 40 miles per hour as soon as it leaves the assembly line at the factory.

Backed by Studebaker's 76-year reputation for quality and value, The Dictator offers champion performance at a low One-Profit price.

Tourist Finds Floydada A Town 'With A Heart'

Arkansas Man Says Sample of Hospitality Here Indicates 'City of Mighty Good Folks.'

Clay C. Sisemore, of Newport, Arkansas, in a letter written last week to Mayor W. D. Smith, of Floydada, has high praise for the people of the town for the "sample" of hospitality he got here when he was ministered to by a local garageman, physician and nurse following an accident on the highway some two miles out.

Mr. Sisemore, who is manager of The New Furniture Store, at 113 Laurel Street, Newport, was enroute on April 19 over Highway No. 28 from Bellevue, New Mexico, with his wife and two daughters to their home. Two miles before reaching Floydada one of his wheels ran over an empty bottle causing his car to turn over when the tire blew out. All the family was considerably shaken and Mrs. Sisemore sustained an injury to her left shoulder and arm. The shoulder blade, thought broken, was found not to be. A Barker Brothers wrecking car went out for the car, and a local physician and nurse answered the call, giving needed treatment at the Smith and Smith Sanitarium. After receiving attention here the family proceeded on their journey, evidently arriving home safely. The store conducted by Mr. Sisemore has for its slogan "The Store with a Heart," which gives point to the letter below addressed to "The City of Floydada" and forwarded to Mayor Smith:

"Just a few dags ago Mrs. Sisemore, our two daughters and myself had the misfortune to have an automobile accident just outside your beautiful city. Dr. Smith, a nurse, and Barker Bros. Garage took us in and cared for us and the car.

"If the balance of the folks in Floydada are as hospitable, then we truly believe it to be 'The Best in the World.' Should we at any future time look for a town in which to locate, sincerely Floydada will receive from us a consideration that will be almost selfishness. We know Floydada must contain some mighty good folks from the sample that

Geo. H. Baker Died At Anson Thursday, May 3

Pioneer Merchant of West Texas at Anson Since 1891, Succumbs to Heart Failure.

Geo. H. Baker, 67, Anson merchant since 1891, died in that city Thursday evening of last week, May 3, his death coming suddenly due to heart failure while resting at his home.

Funeral services were held and interment made Friday afternoon at Anson. W. A. Baker, of this city, a brother, being among those who attended the funeral service. Mr. Baker left Floydada Friday morning early and returned home Saturday night.

The deceased had been engaged in the mercantile business at Anson for thirty-seven years, or practically since the opening up of that section of the state with the first wave of settlers. He was a brother of the late J. D. Baker, of Weatherford, famous as one of the founders of Baker, Poston Company and Baker, Hanna & Company as mercantile establishments in the southwest.

Geo. H. Baker is survived by one brother, Lige Baker, of Anson—and three sisters. The sisters are Mrs. Mary Sparks of Oakman, Ala.; Mrs. S. H. McCarty, of Canyon, and Mrs. C. B. Goodwin, of Silvertown. Of his immediate family, he is survived by his wife and seven children.

LOCKNEY HIGH TAKES LOSING AT HANDS OF WHIRLWIND NINE

Lockney high school nine were the victims of the F. H. S. sluggers when they went down for a 9 to 4 defeat Wednesday of last week on the local diamond. The Longhorns put up a hard struggle before they were carried away by the Whirlwinds with the result that this was one of the hottest games the Whirlwinds have had this season.

Captain Dixie White hurled the ball for the local squad and to his good mound work is due much of the credit for winning the game. A small delegation accompanied the Lockney players and a fairly good crowd of local fans witnessed the clash between the rival schools.

With Captain White at the wheel, the following men composed the Floydada nine: Hanna, catcher; Ashton, first; Hill, second; Palmer, third; Carter, short stop; Mowery, left field; Evers, center field and Wilburn right field.

WOULD HAVE STANDING REWARD FOR COYOTES IN HIS SECTION

S. A. Greer who was in town Saturday from Brookfield Farm on business is being bothered every year by coyotes which cause him a loss in his sheep, turkeys and chickens, and he would like to do something about it.

"I'd like to side four or five men in the southwest part of the county and pay a reward of \$5 for every dead coyote within a distance of three miles of Blanco Canyon. Every year these coyotes cost me sheep or poultry and we could make it interesting to hunters to get these animals out of the way, and at the same time not be out so much money to make it burdensome," Mr. Greer said.

Last year Mr. Greer paid several \$5 reward out of his own pocket for these varmints. It is his idea that farmers and stockmen living near Blanco Canyon are being out a good many dollars every year on sheep, chickens and turkeys on account of the coyote and that they could well afford to pay a modest reward for coyotes jumped in a distance of three miles on each side of the canyon. Others who might be interested should write Mr. Greer on Route 4, Floydada, or telephone him.

C. B. Hicks, of Abilene, spent the first of the week here on a visit with E. E. Boothe. Mr. Hicks is associated with Minter Dry Goods Company of Abilene, and he and Mr. Boothe were boyhood friends and schoolmates.

ATTEND DISTRICT CONVENTION OF FARM LOAN ASSOCIATIONS

A. A. Beedy, president, and W. A. Cates, one of the directors, of the Floydada National Farm Loan Association, attended a meeting last Friday in Plainview of a convention of farm loan associations in the panhandle area.

Judge M. H. Gossett, of Houston, president of the Federal Land Bank, and other officials of the bank at Houston, were present for the meeting and addressed the assembly of association officials.

Tom and George Stiles returned the latter part of last week from Andrews County where they spent a few days on business.

Protect Your Investment in Your Model T Ford

THE Ford Motor Company is making a new car, but it is still proud of the Model T. It wants every owner of one of these cars to run it as long as possible at a minimum of expense.

Because of this policy and because of the investment that millions of motorists have in Model T cars, the Ford Motor Company will continue to make parts until, as Henry Ford himself says, "the last Model T is off the road."

More than eight million Model T Fords are still in active service, and many of them can be driven for two, three and five years and even longer.

So that you may get the greatest use over the longest period of time at the lowest cost, we suggest that you take your Model T Ford to the nearest Ford dealer and have him give you an estimate on the cost of any replacement parts that may be necessary.

You will find this the economical thing to do because a small expenditure may enable you to maintain or increase the value of the car and give you thousands of miles of additional service.

No matter where you live you can get these Ford parts at the same low prices as formerly and know they are made in the same way and of the same materials as those from which your car was originally assembled.

Labor cost is reasonable and a standard rate is charged for each operation so that you may know in advance exactly how much the complete job will cost.

ROSELAND CLUB MEETS

The Roseland Home Demonstration Club met with Mrs. Irvin Bennett on Friday afternoon, May 4. Thirteen members and four visitors were present. After the usual business meeting, Miss Bass gave a salad demonstration, by combining fruits and vegetables. We learned many ways of making salads. All the ladies and children present were served some of the salads with delicious angel food cake made by Mrs. Bennett. The next meeting will be held on May 18. We meet at the club room.

CAMPBELL CLUB

The Campbell Home Demonstration Club met Thursday afternoon, May 3, at the home of Mrs. E. J. Womack. Twenty-three members, one new member and one visitor were present.

After a short business session, Miss Bass gave a demonstration on yeast bread.

The next meeting will be with Mrs. A. C. Jackson, May 15.

PRAIRIE CHAPEL CLUB

The Prairie Chapel Home Demonstration Club met at the school house Tuesday afternoon, May 8, with thirteen members present. We had an interest-

ing program on "Plans and arrangement of a home." We also discussed our fair work and decided who would make the different articles.

Our club did not win any prizes in the Home Improvement Contest but we all came back full of pep and determination to give the old clubs "a run for their money" next time.

Our next regular meeting will be held on May 22, at the home of Mrs. Clayton Weathers. Do not get confused on the date, there are five Tuesdays in May. We hope every club member will make a special effort to attend this meeting as Miss Bass will give a demonstration on quick yeast bread.

STIFF COMPETITION FOUND BY ATHLETIC ENTRIES AT AUSTIN

Entries representing Floydada High School and District No. 2 of the Inter-scholastic League of Texas, who went from Floydada last week-end to the state meet held in Austin, ran up against real competition for honors in the state event, coming home without having placed in any of the events in which they were qualified.

Superintendent W. E. Patty accompanied the boys to Austin. He said upon his return that nearly one thousand boys were entered from all portions of the state and that records that are likely to stand for sometime were hung up, some of them dangerously near to national as well as state records.

Entries from Floydada were John Edwards, shot put and mile relay; Marshall, discus throw; Harold Porterfield, Raymond Williams and Weldon Moore, mile relay. Of this number Porterfield and Edwards stayed over a day in Waco to visit with relatives, the remainder of the contingent returning home Sunday.

Locals and Personals

F. J. Barkhurst agent for the Santa Fe, returned home Sunday from Fort Worth, where he spent a week on a vacation.

Mr. and Mrs. T. G. Hall and children, who have been making their home at Ralls for several months, returned the latter part of last week to Floydada to make their home.

John Gamble and Ernest Carter, who are attending school at West Texas State Teachers' College at Canyon, spent last week-end here visiting home folks.

Bud Kelly, of Post, spent Monday here visiting with friends. Kelly was formerly employed with the "M" System store in this city. He was accompanied home Tuesday by his sister, Miss Peggie Kelly, who spent last week-end here visiting friends.

Friends and relatives of Floydada are in receipt of announcements of the birth of a baby girl named Barbara Jean, to Mr. and Mrs. Sam Brewer, of Shawnee, Oklahoma, May 7. Mr. and Mrs. Brewer formerly lived in Floydada.

Talkfest At Campbell Enjoyed By Full House

Residents of Floydada and Campbell Spend Two Hours in Informal Gathering Monday Evening.

Campbell school house was well-filled with people of Campbell and Floydada Monday evening, when residents of the two communities enjoyed a two-hour program of kidding, jokes and music, the visit being made by the residents of Floydada on invitation of Campbell people.

G. C. Tubbs, chairman of the Floydada Luncheon Club committee on Inter-Community Relations, acted as master of ceremonies. He introduced and put through their paces several orators and musicians for the amusement and edification of the assemblage. Some of the speakers chose to sing, while some of the singers chose to speak, proving their talented versatility. "This is just an informal get-acquainted affair," Mr. Tubbs explained, "which accounts for the fact that there is no set program. In Floydada, we feel that good relations between communities depend on understanding and acquaintance, and we're out at Campbell to meet you in your home community and get acquainted," he said.

F. L. Davis gave a scientific lecture, when he was called upon, and Lon M.

Davis and A. J. Folley, in their respective turns, introduced as singers, also talked. However, Ed Bishop gave a good rendition of a part of a popular song hit with Miss Blanche Bass accompanying him at the piano. His song was interrupted by the audience clamoring for an encore.

Glad Snodgrass assigned the subject of prohibition, presented arguments in favor of an "uninstructed" delegation. Ben Hardy and Joe Smith responded to introduction with brief talks. Hardy had as his subject, why Methodist preachers have the reputation of liking fried chicken. Smith gave some historical information.

Mrs. George Stiles, of Campbell, expressed for the community appreciation of the visit of the Floydada people and invited them back often.

A string band composed of B. Martin, C. C. Lively, R. C. Dunavant, Oliver Allen and Chester McPeak furnished music for the evening. Their efforts were well received and heartily applauded.

About twenty-five Floydada people were present, the small number being accounted for by the fact that programs incident to the closing of school are in progress, and in part by illness in the community. The band could not appear on account of preparation for a program in Floydada Wednesday evening.

B. Marshall left Wednesday afternoon for Abilene, where he will visit his brother, Ira, and attend a track meet.

FOUR MEMBERS FLOYDADA GUN CLUB AT SWEETWATER SHOOT

Four members of the Floydada Gun Club—O. J. Dudley, R. C. Henry, M. H. Martin and B. K. Barker—attended the first day of the two-day competition for more than \$1100 held by the Sweetwater Club at Sweetwater Tuesday and Wednesday of this week, and one member, Dudley, remained over for the Wednesday events.

The local men drew down something over \$40 in prizes at the shoot on the first day.

Sixty-eight trapshooters, some of them among the best in the state, were engaged in the contest Wednesday, San Antonio, Dallas, Beaumont being among the cities represented.

CONDITION OF D. M. WILLSON NOT SATISFACTORY, IS REPORT

The condition of D. M. Willson, widely known in Floyd County, is not satisfactory, according to reports from Fort Worth where he is in a sanitarium. Mr. Willson suffered with influenza for some weeks the past winter and he is gaining strength very slowly, if at all.

J. M. Willson, his son, returned to Floydada Tuesday after a brief visit with his father and will return to Fort Worth probably the latter part of this week. Mrs. T. R. Nichols, of Silverton, only daughter of the family, is at Fort Worth, having gone down with her brother the latter part of last week.

County's Scholastics Show Material Decrease

Net Loss of 166 Pupils Credited to Big Increase in Wheat Acreage Over Floyd County.

Correctly or not a net decrease of 166 in the scholastic population of Floyd County for the year 1928, as compared with 1927, is credited generally by scholastic census enumerators over the various districts to the fact that the county has been going more and more to wheat, large wheat fields displacing numerous families in practically every section of the county.

Out of thirty-two common, consolidated and independent school districts in the county, only ten show an increase in scholastics while for every district showing a small increase there are two districts showing a decrease.

The figures given below, while not officially approved are nearly correct. They were made following a check of the various enumerator's reports by County Superintendent Price Scott. His rolls in turn will be submitted to the State Superintendent's office for an additional check against possible duplications before they are made official.

The total for the county for this year are 3,367 against last year's total of 3,533. The figures by district, showing loss or gain in each, are as follows:

ONLY ONE BOY IN COUNTY ENROLLED FOR C. M. T. C.

Up to the latter part of last week only one Floyd County boy had enrolled for attendance at a Citizens Military Training Camp this summer, according to a report from Charles B. Clark, Chief of Staff for this area in the enrollment of young men for citizen's military training. The Floyd County boy who has enrolled is Freeborn E. Durrett, of Lakeview.

Dickens County is also represented by only one enrollment, in the person of Midton McDonald, of McAdoo. Two applications have been made from Hale County and none from Motley.

The period for enrollment closes on May 15, Colonel Clark warns, and those who desire to enroll should do so before that date. Roy L. Snodgrass is enrollment chairman for this county.

More Efficient Force To Fight Fire Planned

Volunteer Fire Department Names Elza Gullion Chief, Lorraine Britton Assistant Chief.

Plans for a more efficient volunteer organization to fight fire in Floydada were made by the Volunteer Fire Department at a called meeting held at the Commercial Hotel Dining Room Friday evening of last week, Elza Gullion being elected chief and a meeting late set for the first practice.

Lorraine Britton was elected assistant chief and Ed Bishop secretary-treasurer of the organization. Tuesday evening of this week was set as the time for the first practice work. Study of the equipment with which they are to fight fires, including the fire trucks, chemical engine and hose, it was decided, would be made at the first few meetings, as well as competition in time for hooking up hose and pumper and putting a stream of water through the hose.

A feed preceded the discussion and election of officers. Ed Bishop, Homer Steen and City Marshal G. R. Strickland were among those who made talks. In his talk the marshal told the fire boys it was his plan to work with them in any manner possible to make their organization more efficient and membership in the department more desirable. Among other things determined upon at the meeting was that the membership of the department should be limited to twenty-five and that missing as many as four practice meetings or fires or both, would automatically suspend a member from membership; and that new members should be voted into the organization by the seventeen charter members present.

Members reporting for the meeting were Horace Kincaid, Ralph Crager, George Sherrill, Cecil Gibbs, Roy Eubank, Daily Bishop, Theron Bishop, Elmer Wood, L. V. Rogers, Lorraine Britton, Frank Boerner, D. Johnson, John Lewis, Glen Moss, Eddie Bishop, Elza Gullion and Virgil Shaw.

Practice meetings will be held weekly on Tuesday evenings at 6:15 o'clock until a change in the plans is made.

Many Attend Opening Of Elektrik Maid Saturday

Hundreds of Floyd County folks were the guests last Saturday of "The Elektrik Maid" when the formal opening of the "Elektrik Maid Bake Shop" was held. Refreshments of juleps, cakes and rolls were served to the many visitors. Approximately one hundred dozen cakes were served Saturday.

M. Easterling, manager of the new shop, was highly pleased with the welcome to the "Elektrik Maid" given Saturday by the Floyd County public. "We are here to stay, and we believe that the public heartily appreciate our first efforts," he said.

The new bakery is located in the First National Bank building on West California Street, in the section formerly occupied by the City Market. All machinery and equipment, including the oven, is run by electricity. "The Elektrik Maid" bread was put on the local market Saturday. Cakes and pastries are other specialties of the new bake shop.

J. E. Hill, of Amarillo, vice president of the Floyd County Lumber Company, was a visitor in Floydada the first of the week, with General Manager W. I. Cannaday of the firm.

Rev. W. R. Hill, Th. M., Pastor
The Sunday School, for Bible Study, meets at 9:45. Mr. Ozro Stevens is our new Supt. We have a number of new general officers, and you will be delighted to know them in their new activities. We had 284 present last Sunday, an increase of 24 over previous Sunday. Our aim for next Sunday is 300 present. Our new methods are bearing fruits and we are making worthy progress toward the really great things that are to be ours when we get into our new building. Let each member strive to build the S. S. while we are building the building. The building would just be our disgrace if we failed to build the organizations as well.

The Preaching Service will be at 11 o'clock. The pastor will try to bring a bright, brief, and helpful message. Let our people plan to come in a mood for worship.

The Young People's meetings are all at the usual hours.

There will be no night service of worship on account of the Annual Commencement sermon of the schools of

the district. The pastor will be away for some days in attendance upon the Southern Baptist Convention at Chattanooga, and will represent this church as its elected messenger.

Visitors are cordially invited to all the services, and to worship with us. Come and welcome!

FIRST CHRISTIAN CHURCH

To You and Your Family

Let us all on this day set
Apart to honor Mother dear,
Her memory cherish, if she's
Gone, affection show if here
And if she lives in Floydada,
Let's show we love her much
By bringing her with us that day
To Sunday School and Church.

Should she be living elsewhere,
Come anyway, then write
A loving letter to her, ere you
Retire that night.
If she but live in memory and
Sleeps beneath the sod,
Turn your footsteps Sunday to
The house of your Mother's God.
First Christian Sunday School,
That this tribute you may pay,
Invites you sons and daughters,
To meet with us that day.
A welcome warm awaits you and a

Muncy Elected Anti-Theft Assn.

Effort to Curb Poultry Thefts
ough Organization Will be
Made in County.

E. L. Muncy, prominent Floyd farmer, was elected president of the newly organized Floyd County theft poultry association at a meeting of representatives of eighteen county communities in the Floyd Chamber of Commerce office last Saturday afternoon. J. W. Howard, of the Starkey community, was elected as vice-president and Mrs. O. S. Miller, of the Center community, secretary-treasurer.

"Floyd County farmers have invested thousands of dollars in fine poultry and poultry equipment and it is a matter of business to take care of our investments with ample protection," Mr. Muncy said in opening the meeting which was presided over by Mrs. Miller. Thefts in this county the past several years have amounted to a vast amount, according to the opinion of those present at the meeting, and any movement that will tend to curb poultry thieving will be welcomed by the producers, it is believed. The co-operation of the county officials was promised by P. G. Stegall, sheriff and R. A. Sone, county attorney.

The executive committee that will assist the officials in the organization was selected from well known farmers in the different sections of the county. Herman Krause of Allmon, Miss Anna Sims of Roseland, Karl Sammann of

Providence and W. I. True of Fairmount compose this committee.

A membership drive has been started and captains appointed in each community by the president. Five hundred members is the goal set. Each member is furnished with a membership card on which is shown his poultry marks. This will be kept in the secretary's office and referred to whenever a theft is reported. The importance of this was stressed by Sheriff Stegall when he said that the punishment of the criminals depended entirely upon the evidence produced during the trial and that it was especially hard to secure evidence in poultry thefts as so few could identify their fowls.

The captains of each community are as follows: E. A. Henry, Irick, Mrs. W. C. Hubbard, Pleasant Valley, J. A. Smalley, Muncy, A. T. Pratt, Pleasant Hill, E. C. Austin, Fairview, Mrs. Mary Grigsby, Starkey, Oscar Allen, Aiken, Mrs. J. N. Nelson, Sunset; W. R. Dooley, Sand Hill; Mrs. Dave Batty, Harmony; Tom Hopper, Lakeview; G. R. Tibbitts, Fairmount; Tom King, Center; Mrs. A. T. Swepton, Hillcrest, T. S. McGehee, Lone Star; Carl Lemons, Cedar Hill; C. V. Ford, Liberty; A. F. Norton, McCoy; John Smitherman, Roseland; Mrs. C. E. Bartlett, Mayview, G. L. Fawver, Baker, Mrs. Joe H. Smith, Antelope, R. J. McLaughlin, Providence; Mrs. J. D. Christian, Blanco, Mrs. Roy Foster, Allmon, Frank Walters, Prairie Chapel, Mrs. Joe M. Smith, Campbell; Mr. Wilson, Ramsey; Fay Guthrie, Lockney and Ed Bishop, Floydada.

The annual meeting date was set for first Tuesday in April in the County Court room at 2:00 p. m.

Plan That Works

The plan adopted by the association formed in this county is one which has been found to work in New York State, Nebraska, and several counties in middle-western states. Crooks who thieve from the farm folks have been operation with more or less security, it is pointed out. Seldom have they been caught, jailed and prosecuted for the reason there has been no organized fight against them. They work rapidly, sell the stolen goods at a nearby market and move on to the next victim. Most farm property, such as chickens and hogs are not marked for positive identification. It is difficult to identify such property with the result that the peace officer is greatly handicapped when he gets into the court room because he doesn't have the witnesses with which to work—everything has favored the thieves.

Since the plan adopted has been found to work elsewhere Sheriff Stegall and those who have formed the association see no reason why it should not work in Floyd County. It takes organization, but a strong anti-theft association means security. What such an organization can mean to the county is summed up in the following:

It gives you a method whereby you can positively identify your poultry and hogs—the two major items of theft and heretofore hard to identify.

It assures you of the constant co-operation of local peace officers, poultry buyers and other agencies for apprehending thieves.

It creates a fund from which re-

wards are paid for the apprehension and conviction of thieves.

It enables farmers to present a united front in their fight against the crooks.

It virtually stops thefts because the thieves find that stealing from farmers no longer is an easy job and that retribution comes quickly and effectively.

It makes possible the registration of identification marks on poultry and livestock for the assistance of peace and prosecuting officers.

One Hundred Eighty Children Presented in Pageant.

East Ward School auditorium was packed to capacity with many standing when one hundred and eighty children of the school were presented in a pageant Friday night. The audience was kept continuously entertained during the program by the costumed youngsters ranging in age from the first grade on through the fifth. The pageant, entitled "America's Child" was depicted in the development, heritage and at last the dream of our forefathers was realized in America's child of today, Father Time having granted the aid of the European countries in planting the seed that germinated in the mighty nation of today.

Patriotism was the general theme of the pageant and the folk dances and skits marked with grace and charm gave one a glimpse of fairyland. The finale which was a review of all of the cast marched across the stage and down the aisles and gave to the house a closer view of the gorgeous costumes and the smiling faces of the children busy in their make-believe.

The pageant was given under the supervision of Mrs. A. H. Thornton assisted by her teachers, Mrs. G. F. Klebold, Mrs. Hazel Hughes; Misses Lela Swain, Emma Lou McKinney and Vera Hamilton, and the mothers of the town who helped make it a success.

SHOWERS OF VARYING AMOUNTS FALL IN COMMUNITIES OF CO.

Showers of varying amounts, running from four-tenths of an inch at Floydada to three-quarters of an inch or more in the extreme southwest part of the county, with an occasional section reporting around an inch, fell over Floyd County Thursday and Friday of last week, in a general rain period, when an area extending from Oklahoma south past Sweetwater and from east of Floydada to Roswell in New Mexico, had more or less rainfall.

In some sections the moisture was sufficient to make sod-breaking and planting possible. Reports of extensive planting in Floyd County were recorded this week at The Hesperian office, although the planting is not general, some preferring to await a better season.

What is still the big question mark in the county. Whether the rain is sufficient and earlier enough to save the crop or a part of it on a profitable production basis is still to be determined, most growers say who have been asked by reporters for this newspaper.
