J. B. Jenkins has navigated most every kind of animal that has roamed the west in the good old days. He has recently attempted to navigate a new kind of four-footed animal—a Ford Automobile. His experience in this line has proven as interesting as many of the others. Candidly, he has had a "fal-lin' out" once or twice with his Ford, within the month of his ownership of this new tribe. Recently, returning from Clarendon, he began to notice the queer doings of his car. Its antics were a sight to behold. Before he could throw on his emergency brakes or get ness. When the wrath subsided the public, more or less shamed in this instance, returned its support. A preliminary scoring of the Fry farm and home at the time his 320-acre home was entered, indicated it would likely stand high in a more critical score made up by farm life experts. The farm, it was announced last week, had scored high enough in the eliminations to be among those to be submitted as finalists to the state judging committee. In the finals only ten farmers will be classified this year as Master Farmers and so designated with honors in the fall or winter.

OFFER EXTRA VALUE AUTOMOBILES

The perfected Whippet Four Sedan is actually the lowest priced 4-door enclosed car on the market. Yet its astounding low cost does not reflect the remarkable quality of this smart, lively car. Low-swung, roomy, stylish, it offers every desirable quality of performance—power speed, pickup, flexibility and safety.

The Whippet Four swept aside all previous standards of 4-cylinder performance. It introduced to buyers of light fours such mechanical superiorities as 4-wheel brakes, full force-feed lubrication and silent timing chain. Now the perfected Whippet Four-finer in quality, smarter, an even better performer—is selling at sensationally reduced prices.

The new Whippet Six is the world's lowest priced Six. Yet it offers such fine car features as a 7-bearing crankshaft, full force-feed lubrication, invar-strut pistons and many more.

Every Sale Of A Federal Tire Is A Replacement

Federal does not equip any new cars made. None of the hundreds of cars you see every week wearing the Federal-marked tire equipment were bought by the owner when his new car was delivered to him.

A Federal sale is an outright sale to the customer of tire equipment he prefers to some other make. The "extra service" in Federals is made to stand up by the manufacturers who put in the extra quality that has won the favor and approval of a nation-wide clientile. On this basis—the basis of actual sale to the user—

MORE FEDERALS ARE SOLD IN FLOYD COUNTY THAN ANY OTHER MAKE OF TIRES

Federals year after year have stood up to the demands made of them. User after user who has equipped with no other tire, as a replacement, may be found in this county.

For seven years our firm has studied tires, while giving tire service to Floyd County people. Our experience with all kinds of tires has proved to us that Federals have "It." That's why we are selling them, and recommending them. That's why they are more popular in the county than any other tire.

New low prices effective on Federals make them more than ever the big value of the tire world. And there is a Federal for every need.
