INTEREST IN CITY MARKET BOUGHT BY JNO. W. MAXWELL

Jno. W. Maxwell has bought an interest with J. T. Howard in The City Market and Grocery in the First National Bank Building, it was announced this week, having gone to work with the firm last week.

In that period he has "jumped more counters than a train could haul," always as an employe, however. His venture into business for himself at this time is his first effort. The business will be continued as a grocery and market, it is announced, the only change being in the personnel of the ownership. W. D. Cordova, who for three months was associated with Mr. Howard, sold to his partner two weeks ago, and the latter has in turn sold an interest to Mr. Maxwell.

Miss Jessie Green Home From Philippine Islands

Miss Jessie Green, who has been for the past four years in the employ of the Federal Government as a teacher in the Philippine Islands, returned to Floydada last Saturday to spend the summer here visiting with her father, J. H. Green and family. Miss Green was reared in Floyd County and taught school in Floydada for a number of years.

She sailed from the Philippine Islands on April 4, and since that time has made a tour of the greater part of the eastern hemisphere, including most of Europe and Asia. She visited many places of interest, in both the Orient and Europe, making stops enroute in China, Japan, Siam, India, Egypt and the Holy Lands. She also visited in Italy, Switzerland, Germany, France and England. In France she visited the battlefields of Flanders, and other points of activities during the World War.

The greatest thrill of her trip, Miss Green reports, was an airplane ride from Paris to London. From London, she sailed for America, and on to Texas to visit with home folk.

Miss Green gave a short lecture at the Methodist Church Sunday evening. She will remain here probably the remainder of the summer.

John K. Fullingim Dies Suddenly In Crosbyton

One of Plains' Oldest and Most Widely Known Pioneers Buried by A. F. & A. M. Wednesday.

The death of John K. Fullingim at Crosbyton last Monday night, marked the passing of one of the Plains' oldest and most widely known pioneers. Death came as the result of heart failure at about eleven o'clock following a light attack of illness at Lorenzo earlier in the evening.

Mr. Fullingim has lived on the plains for the past forty-two years. For the past thirty-five years he has resided in Crosbyton and has run a hotel in Crosbyton for a number of years.

After "coming west," Mr. Fullingim worked for a short time as a cowboy on the Matador Ranch. He came to the plains in 1885 and has been active in the development of this section. He helped to organize Della Plains, Floyd County's first town, and was one of the first persons to have deeds go on file at the plains court house at Estacado. In Crosbyton he served in the capacity of sheriff for a number of years, as well as filling other offices. He helped to organize one of the first Masonic lodges in this section in Crosbyton. He was 59 years of age at the time of his death.

Surviving Mr. Fullingim are two brothers, Bunch of Lorenzo, and Coke of Petersburg; and one sister, Mrs. Ernest Murphy of Dallas. He is also survived by his wife and four daughters. Miss Mattie Fullingim is the only daughter who resided in the parental home. The other daughters are Mrs. Dessie Walters, Crosbyton, Mrs. Irene Coffee, Crosbyton and Mrs. Mae Anderson, Clovis, N. M.

Relatives and friends from all sections of the plains attended the funeral services held Wednesday afternoon in Crosbyton. The procession is said to be the longest ever seen in Crosbyton. Rev. C. E. CIVIC ORGANIZATIONS WANT CLEANER CITY

Mayor Smith Proclaims Monday and Tuesday Clean Up Days.

In a combined drive for a cleaner city, joined in by the city, and civic and business organizations a clean up of premises throughout the community will be attempted Monday and Tuesday of next week, in which all the citizens of the community will be asked to join. Plans for the campaign were laid Wednesday morning at a conference held in Mayor Smith's office and active aid from practically every civic organization is assured.

Monday and Tuesday, July 16 and 17 were decided upon at the conference held Wednesday morning, called by J. G. Wood, chairman of a committee named recently by the Luncheon Club. Present at the conference was Mayor W. D. Smith of the city; Mrs. Geo. A. Linder, representing the Study Club, the Baptist Missionary Society and the East Ward Parent-Teachers' Association; Mrs. J. B. Jenkins, representing the High School Parent-Teachers' Association; Mrs. J. M. Willson, representing the Methodist Missionary Society; Mrs. Lon M. Davis, representing the Women's Council of the Christian Church and the Andrews Ward Parent-Teachers' Association; J. C. Gilliam, representing McDermott Post American Legion; Frank L. Moore, the Chamber of Commerce; and J. G. Wood and G. C. Tubbs from the Luncheon Club.

Clean Up Proclamation

I, W. D. Smith, Mayor, of the City of Floydada, Texas, do hereby designate Monday and Tuesday July the 16th and 17th, as Clean-Up Days for the City of Floydada, Texas, and ask everyone to set aside those days for a thorough cleaning of their premises; and ask the business men to close their places of business on those days until 10:00 o'clock a. m. to aid and promote a general clean up of the entire city.

Given under my hand and seal of said city this 11th day of July, 1928.

W. D. SMITH, Mayor.

In an effort to get concentrated work in every section of the city, the decision was reached to name captains for the four wards of the town in the clean up drive. Mrs. Geo. A. Linder was elected captain for the southeast section, Mrs. J. B. Jenkins for the southwest section, Mrs. J. M. Willson for the northwest section and J. C. Gilliam for the northeast section. These captains will select their assistants to help in the drive, and every assistant to be named as well as the rank and file of the citizenship are asked to respond cheerfully.

Ask Stores to Close

That the alleys and back lots of the business section itself are in sore need of attention, in many instances at least, is stressed by the fact that stores are going to be asked to close each morning of the drive until 10 o'clock and the time spent in cleaning up. The two hours of closing time each morning will also give clerks and store helpers opportunity to give some time to their own premises, if needed, it was pointed out. Today a committee composed of Lon M. Davis, Geo. A. Linder, J. B. Jenkins, J. M. Willson and Mmes. J. H. Reagan, Jack Henry, T. P. Collins and E. L. A. Angus are seeing the retail establishments with a request that the stores be closed. Closed stores, even for the brief period in the early morning will aid tremendously in impressing the campaign upon the public, Mr. Wood said, while at the same time affording a minimum of inconvenience to the public not actually residents of the city.

The city will arrange to have all non-perishable rubbish carried from the alley ways free of charge and all trash should be burned in the alleys. Each property holder is asked to cut all weeds around his premises, and all owners of vacant lots will be asked to see that he weeds are cut and if not done the city will undertake to cut the weeds at the expense of the owners. Special attention of garage and machine shop owners is asked to the request that they have all wrecked and discarded machinery in shape to be hauled away by the city while the drive is in progress.

REVIVAL MEETING AT DOUGHERTY WILL BEGIN SUNDAY, JULY 15

Beginning at 11 o'clock Sunday, a meeting will be held at Dougherty for two weeks. Rev. Green B. Patterson, pastor of Floydada circuit, will have charge of the meeting, assisted by the Reverends Webb and Webb of Lockney and Miss Ophelia Bartlett of Mayview as pianist.

"Everybody is invited to attend and give their cooperation. Sinners are especially invited to attend," Reverend Patterson said.

All christians are asked to aid in this, the initial or dedication meeting at this new town, and Methodists of Mayview, Newland, Lakeview, Baker, Joe Bailey, Antelope and Wake are expected and requested to take part in the meeting.

Services will be held under a tabernacle which will be erected on the public square at Dougherty.

GREED OF THE CITY

Will H. Mayes in "Texas and Texas" Every city is constantly reaching out, like a huge octopus with its many deadly talons, for something new on which to feed. It must do this to sustain its growth. It must provide from outside itself something on which to feed its increasing population. It becomes grasping and greedy in proportion as it becomes large. It destroys first the neighboring villages taking from them their commerce and leaving them only the production of those things upon which to feed the city. Extending its reach, it draws into its devouring clutches the near-by towns and small cities that are weaker than itself. It tempts with alluring invitations, with attractive offerings of larger stocks of goods and seductive prices, with chain stores, with flatteries through the press, until it robs the smaller place of powers of resistance and of further growth, and makes it its feeder. This is the history of all cities of all ages.

A few of the smaller communities have found ways of meeting and withstanding the encroachment of the larger places. The formula is simple. Their people stick together. They work for the interest of each other in preference to those of the city. They patronize home enterprises even though stocks may not be so large and prices quite so low. They trade at home. They are on neighborly terms with the near-by cities, but careful to see that neighborliness does not result in their own undoing. They produce crops and merchandise with which to supply the cities. They make their own communities so attractive that the local people take pride in them, and the city people seek them for rest and recreation. They show that life is as interesting in the country and the small city as it can be made in the largest city. They are alert and interested in things worth while. Such plans need have no fear of being absorbed by the cities and then left to die.

ANOTHER BIG DEVELOPMENT

Indications point to the probability that the biggest single development that will come from the construction of the plains lines of the Fort Worth & Denver into the plains area will be the building of the company's concentration center for freight and passenger service in this section at Sterley in north Floyd County, around which will grow up, according to rather well established rumor a rather sizeable town to serve the activities that will be certain to develop, if this plan is carried out.

It is most certain that the Denver is constructing the facilities at Sterley for handling quite a bit of business. Whether the rest of the development will follow, including the "town that will dominate the area" as predicted by a high official of the T. & B. V. recently, is yet to be seen.

CHOOSING THE CANDIDATE

People of a community usually like to know what candidates a newspaper favors, not particularly as a guide for themselves in casting their own votes but just because they feel they have a right to know where a public servant, such as this is, stands. So, in the contested races for state offices, we submit the following as the best ticket to vote without any disparagement to the other candidates.

For United States Senator, Tom Connally of Falls County; for governor, Dan Moody of Williamson County; For lieutenant governor, Barry Miller of Dallas County; for state comptroller, S. H. Terrell of McLennan County; for state treasurer, W. Gregory Hatcher, of Dallas County; for state superintendent W. E. James of Travis County; for railroad commissioner, Lon A. Smith of Travis County; for commissioner of the general land office, J. T. Robison of Morris County; For judge of the court of criminal appeals, W. C. Morrow of Hill County.

What your choice may be among these candidates we leave to you, with the suggestion that you forget any prejudices you may have and vote in the forthcoming primary for the man or woman whom you think will best serve the state in each case.

FIRST PRIMARY JULY 28

The date for the first primary of the Democratic Party in the state comes on Saturday, July 28, if you have been too busy in your private affairs to keep up with this kind of information. The second primary will come in August, when the voters will select from the two high candidates in some five state contests and three or four county and precinct contests.

Saturday, July 28, is barely two weeks away. Choose your candidates carefully and don't fail to vote for them, if you plan to go into the Democratic Primary.

PLEDGE IS STATUTORY

The pledge of the Democratic Ticket in the state of Texas is a statutory provision and is intended to protect the various parties of the state against invasion of their free choice of candidates by members of other parties. It takes the place of party registration as practiced in other states, where the requirement is that the voter register his party preference long before any candidates are put up.

That parties have a right to protect themselves against other parties in the

selection of candidates who will most fairly, in the judgement of the franchise holders, represent the things for which the party stands whether it be republican, democrat or whatnot, is an established political fact.

The pledge is a part of the ballot. If it is erased, the ballot is a "mutilated" ballot and cannot be counted legally by the election holders. Right or wrong that is the fact. Voters who plan to erase the pledge, voting a ticket with their fingers crossed, should save themselves the trouble, and the election holders the necessity of throwing out the ballot so cast.

THE AURORA BOREALIS

Scores of Floyd County people saw the unusual phenomenon of nature Saturday night, the Aurora Borealis or northern lights, and hundreds of others are wishing they had been out in the open when the thing occurred.

The Aurora Borealis is visible from Texas latitudes only half a dozen times in a lifetime, possibly less. The display Saturday night was said to be vivid and gorgeous.

MAKING A BETTER TOWN

Floydada is growing rapidly toward the goal of that better city for which every local citizen is striving. It has its private business problems and its general or public problems. The former must have the best effort of the people responsible and the later must not be forgotten either. It is as essential to the welfare of each business that the whole town grow proportionately, that the affairs of general public interest go forward, as it is that welfare of the private business be not neglected.

Towns where this fact is properly recognized grow into cities. Where the public welfare is entirely submerged to the welfare of the individual business, villages grow.

14 YEARS AGO IN FLOYD COUNTY

News items taken from the Floyd County Hesperian files published in Floydada fourteen years ago.

ISSUE OF JULY 16, 1914

The Mission Study Class met at 4 p. m. Monday and had quite an interesting lesson. We have 13 babies on our Baby Roll. Those present at this meeting were Miss Mary Griggs, Mesdames Olsson, Henry, Steen, Amburn, West Flynn, Massie, McCleskey, Shearer, Robbins, and Morris. They will meet again next Monday.

J. C. Newsom, for the past six months a resident of Wichita Falls, is in town on business this week.

Monday morning the six year old son of Mr. and Mrs. Lee Montague was bitten over the eye by a dog while playing at their neighbors' home, that of Roy K. Bruner, of the Hillcrest neighborhood. The injuries are not believed to be serious.

Roy Snodgrass and Pink Maxwell are home from Pampa where they have been working in the harvest fields.

J. F. Conner, of the Hillcrest neighborhood lost a good barn by fire last week, the origin of the fire being unknown. About \$1500 was estimated the loss.

'Round The Square

By Old Battleaxe

Geo. A. Linder says: "Battleaxe, I'm with you on this awning sign argument. I have been trying to get the fellows to do something about them for a long time." Others say—"Stay in there, O. B., "Down with those awning signs!"

So you see, folks, its not a one-man argument. Everybody is for improving the looks of Floydada's Main Street.

What to do about it? Here's what—if you are a merchant, take them down—and put up an electric sign. It may cost more but, Man, it's worth it. Why not?

One fellow round the square said that O. B. was such a deep thinker that his ideas never reach the surface.

Competition between the members of the spit and whittle club and the P. O. saliva slingers is getting keener every day. Smith and Hoover are the main topics of discussion and the main object is to see which can make the biggest mess of tobacco juice on the side walk.

TO HOLDERS OF

Third Liberty Loan Bonds

The Treasury offers a new 3 1/2 per cent, 12-15 year Treasury bond in exchange for Third Liberty Loan Bonds.

The new bonds will bear interest from July 16, 1928. Interest on Third Liberty Loan Bonds surrendered for exchange will be paid in full to September 15, 1928.

Holders should consult their banks at once for further details of this offering.

Third Liberty Loan Bonds mature on September 15, 1928, and will cease to bear interest on that date.

Secretary of the Treasury.

Washington, July 5, 1928.

O. B. is so fond of these fellows that he is going to make every member in good standing a present of a beautiful hand painted, gold inlaid hammer, as a token of his love. We are sure that they will all know how to use them, as they are all old experienced knockers.

By George, the middle man sure catches thunder. The only people who don't worry are those who have too much sense and those who haven't enough sense.

There are exactly thirty-four awning signs on one and a half blocks of Main Street in Floydada—to say the least, people should know who is who round the square.

Since he is always talking about being a "Booster," O. B. was asked this week just what he considered a booster. Here is his answer—"A booster is not the man who talks the most or the loudest or the fellow who can tell the biggest lie about his town. Booster is the man who is willing to give support, both moral and financial to worthy projects, whether they benefit him directly or not. He is the man who will leave his own business and spend valuable time working at a public job, with little or no pay and less gratitude. He is a man who can convince others of the importance of team work—without losing personal friendship. A typical booster, in our estimation, is a progressive, 1928 model, City Councilman. Here's to the City Dads!"

A codfish lays a million eggs. While the helpful hen lays one. But the codfish doesn't cackle. To inform you what he's done. And so we scorn the codfish. The helpful hen we prize. Which indicates to thoughtful minds It pays to advertise.

Aiken News

Aiken, July 3.—The farmers are all busy harvesting their wheat. Most of the wheat in and around this community is making 15 to 20 bushels.

The Sunday Schools are growing steadily. We hope that after harvest everyone will come back and help us out. Bro. Webb filled his regular appointment here Sunday.

C. E. Meredith is critically ill at the Plainview sanitarium. He was resting well at the last report.

Mrs. Copeland was operated on at the Plainview sanitarium last week.

Mrs. G. M. Tate is still on the sick list. We hope she will be well again soon.

Mr. and Mrs. B. D. Wingo enjoyed a Sunday dinner in honor of their sixtieth wedding anniversary at the home of their daughter, Mrs. C. H. Day, who lives west of Plainview.

The Baptist meeting will begin the second Sunday in August and the Methodist will begin the fourth Sunday in August. We are hoping for a great revival during these meetings.

3 Acres of Perfect Seed Bed for the Cost of 1

The 10-foot Emerson-Brantingham GREAT PLAINS One-Way DISC PLOW

Not an Experiment—This tool was developed from the famous Emerson-Brantingham tractor disc plow and disc harrow thereby insuring a substantial one-way disc that has proved to thousands of farmers by actual demonstration that it meets every requirement. Its 20-inch, heat-treated discs, spaced 6½ inches apart, pulverize all of the surface soil thoroughly to a uniform depth and leave the furrow bottom perfectly flat.

The Great Plains Plow is ideal for preparing the seed bed for small grains, for summer fallow and wheatland, and for destroying Russian thistles and cutting up cornstalks. Don't buy until you see the superior features of the E-B Great Plains Plow demonstrated. There is nothing like it!

FIRST SHOWING OF FOUR LINES OF NEW CARS

Irresistible feminine appeal has been added to masculine power in The President, The Commander, The Dictator and The Erskine.

Beauty—Here are delightful new colors from which to choose—Duskblu, Deauville Sand, Sable, Fawn, Antelope Tan and Dauphin Red—with just a dash of antique cunning in the finish of interior door panels and exterior body belt. Smartest of upholstery fabrics—broadcloth, mohair, whipcord and plush—in harmonizing shades.

Charm—Here are alluring new features to increase your pride of possession—handsome winged headlamps—flat radiator cap with the same wing motif—slender, graceful radiator design—all in glistening tarnish-proof chromium—jaunty "polo cap" visor—gleaming

silvered hardware—colorful onyx top for gear lever and horn button.

Comfort—Seats of new design—full cushioned, form fitting lounges—steering wheel (adjustable to your particular needs) responds to your will rather than your muscles—ball-bearing spring shackles give riding ease hitherto unapproached in the most expensive cars—hydraulic shock absorbers—superbrakes which stop the car smoothly, gently in half the distance prescribed as standard.

The ministers have not yet decided whether we will have the Sunday morning services in the churches or at the tabernacle.

The meeting starts Sunday and we hope with a good crowd and interest. We are sure we will have a good company and one that will lead us in a great revival. We are looking for, praying for, talking for, expecting a great meeting. Will we work for it? If we do we will have it.

"The Store for Men"

"Lindy," The Eagle Of The U. S. A.

The following is the prize-winning puzzle submitted in The Hesperian national hero ad puzzle page. The writer awarded a prize of \$3.)
 Charles A. Lindbergh is one of the greatest heroes of America today. He is a brave, daring young man whom everyone worships as the Lone Eagle of America. We know him to be famous by his many daring flights. Few would risk their lives as Lindbergh has willingly done. Not so many years ago he made his first and most famous flight from New York to Paris. This adventure caused Lindy to be known throughout the world.
 Since Lindbergh's trip to Paris he has made many other important air journeys. Among them is his nonstop hop from Washington to the City of Mexico. As a Ceesar of the air, Lindy arrived in the City of Mexico to spend Christmas in the year of 1927. He was ac-

Answer In The Picture Puzzle Ad Contest

The likeness of Col. Charles A. Lindbergh, whose features were used in the national hero picture puzzle ad contest announced June 28 by The Hesperian, and in which first prize of \$3 and second prize of \$2 was offered for the correct solution of the puzzle, together with an essay of less than 400 words written by a boy or girl under 15 years of age.

Zora Belle Pittman, age 13, of Route 1, was awarded first prize of \$3, with an essay 277 words in length. Lillian Barker, of McAdoo, Route One, was awarded the second prize of \$2. Her essay contained 363 words.

Response to the announcement was gratifying, one solution and essay coming from far-away California, being submitted by 7-year-old Ruby Moore, of 426 Oakwood Ave., Inglewood, California. The prize winning essay is published in another column of this paper this week, as well as the original puzzle ad page from which the solutions were constructed. The first letter in the ads put together form the name and the pieces properly patched together make the likeness. A number of excellent manuscripts, well-written and showing careful preparation, were submitted. Among those submitted worthy of special mention were the following: Mabel Tubbs, city; Margaret Sims, Floydada; Hazel Borum, city; Enid Seoggin, city; and Margaret Louise Anderson, city.

claimed by a huge crowd which had been waiting several hours for him. The streets of Mexico were decorated with the American flag in honor of Lindy's visit. Many of the Mexican customs were broken so the people might honor the Eagle of the U. S.

Lindbergh is not noted for his flying alone, but for his many other kind deeds and his lovable disposition. He is considered one of the best all-round men of the present time.

His outstanding achievement, I think, is the friendship which he has gained. Lindy has many valuable friends wherever he may wish to go. He has also gained a prominent place in the history of heroes which will live for years to come. Charles A. Lindbergh is foremost in the heart and mind of most every boy and girl.

—Zora Belle Pittman, age 13, Route 1, Floydada, Texas.

Questions On Health With The Answers

(By State Health Department)
What is Ptomaine Poisoning?

1. Sunday night supper—nearly always something canned—this time "canned salmon; we saw, we ate, we suffered from this "simon" as the cook called it. Please tell me just what ptomaine poisoning means and how caused? (Mrs. J. M. D., Burnet.)

1. Ptomaine poisons are the products of germ life and cause serious disturbances of the digestive organs. Gen-

erally speaking, ptomaines are the results of the decomposition of food stuffs. This decomposition is caused by bacteria. In the process of the growth of these bacteria, a poison is produced which effects a violent disturbance when introduced into the digestive system. Sausage, spoiled fish, cheese, ice cream, milk, canned meats and vegetables are the foodstuffs most commonly responsible for ptomaine poisoning. Cooking does not always destroy the ptomaines, it kills the bacteria, but poisonous products sometimes remain. Unfortunately our sense of taste does not warn us in the majority of instances of the presence of these poisons. This is due often to the common practice of over-seasoning our food, our excessive use of condiments. Ptomaine poisoning, as a rule, develops a few hours after eating and progresses rapidly. In the treatment of ptomaine poisoning, the first essential step is to wash out the stomach and to empty the intestinal canal of as much of the decomposed food as possible. These remedies may be taken while waiting for the arrival of the physician.

2. My four little boys are perpetually in trouble—cut toes and fingers, deep wounds on their heads or heels, and I just cannot send for the doctor every day; so please give me some general directions against infection. (Mrs. Monroe, Eden.)

2. You need not worry unnecessarily over a cut finger or toe, although it is easily possible for any cut or abrasion sufficiently deep to draw blood to become infected. Through puncture, scratch or cut some of the many micro-organisms may find entrance and result in infection. Such instances can indeed occur daily where restless little boys are at play and one must be ready with "first aid" for the injured. First of all, the wound should be thoroughly cleaned, preferably with water which has been boiled. After this is done, some antiseptic should be applied. A 2% solution of carbolic acid or tincture of iodine applied around the edge and di-

rectly in the cut will satisfactorily disinfect small wounds, and either remedy may be easily obtained. A piece of sterile gauze or linen should next be applied. A wound should under no condition be hermetically sealed. Some of the most dangerous infecting agents are those which thrive only when air is excluded. Among these is the deadly germ of tetanus or lockjaw. For this reason, court plaster is not a suitable dressing. Deep cuts and wounds of a serious nature should always be treated by a surgeon.

I, Burl Bedford, City Secretary of the City of Floydada, Texas do hereby give notice of the things contained in the following Ordinance.

ORDINANCE NO. 114

ORDINANCE OF THE CITY OF FLOYDADA, TEXAS, DETERMINING THE NECESSITY OF LEVYING AN ASSESSMENT AGAINST THE PROPERTY AND THE OWNERS THEREOF ABUTTING UPON A PORTION OF CALIFORNIA STREET AND MISSOURI STREET IN THE CITY OF FLOYDADA, FOR A PART OF THE COST OF IMPROVING SAID STREETS, AND FIXING A TIME FOR A HEARING OF THE OWNERS OR AGENTS OF SAID OWNERS OF SAID PROPERTY OR OF ANY PERSONS INTERESTED IN SAID IMPROVEMENTS, AS PROVIDED BY CHAPTER 106, TITLE STREET AND ALLEY IMPROVEMENTS, GENERAL AND SPECIAL LAWS OF TEXAS PASSED BY THE FORTIETH LEGISLATURE AT THE FIRST CALLED SESSION MAY 9TH TO JUNE 7TH 1927 AND THE ORDINANCE OF THE CITY OF FLOYDADA, AND DIRECTING THE CITY SECRETARY TO GIVE NOTICE OF SAID HEARING AND EXAMINING AND APPROVING THE STATEMENT OR REPORT OF THE CITY ENGINEER, AND DECLARING AN EMERGENCY.

BE IT ORDAINED BY THE CITY OF FLOYDADA: That, whereas, the City Council of the City of Floydada, Texas, has heretofore by ordinance duly passed and approved ordered the improvement of the following streets, to-wit:

- California Street from the West Line of Fifth Street to the West Line of First Street; Missouri Street from the West Line of Fifth Street to the East line of First Street.

AND WHEREAS: Plans and specifications for the improvement of said streets have been duly prepared and approved as required by Chapter 106, Title Street and Alley Improvements, General and Special Laws of Texas passed by the Fortieth Legislature at the First Called Session May 9th to June 7th, 1927, and the Ordinance of the City of Floydada; and

WHEREAS, as required by the said ordinance and Statutes, after advertising for bids, the work of improving said streets between the points above named has been let to the L. H. Lacy Co. to improve with a six inch reinforced concrete paving, including excavating, grading and filling and concrete curbs and gutters and other necessary work in connection therewith, as provided by the said plans and specifications, and

WHEREAS, a written contract has been entered into by and between the City of Floydada and L. H. Lacy Company on the 28th day of May, A. D. 1928, for the construction of said improvements;

WHEREAS, the said L. H. Lacy Company has duly given bond for the performance of said work, and the City Engineer of Floydada has, in accordance with the ordinance and statutes, filed his report with the City Council as to the cost of said improvements and as to all other matters required by ordinance and statute;

Now, Therefore, BE IT ORDAINED BY THE CITY OF FLOYDADA: that the report or statement of the City Engineer filed with the City Council, describing the abutting property and giving the names of property owners and number of front feet and the cost of improvement chargeable against each property and its owner, having been duly examined, is hereby approved.

BE IT FURTHER ORDAINED, that the City Council does hereby determine to assess part of the cost of said improvements, against the owners of the property abutting thereon, and against their property, and that the total cost of said improvements shall be paid and defrayed as follows:

(a) The total cost of curbs shall be assessed against the abutting property and the owners thereof. (b) The City of Floydada shall pay an amount equal to the cost of improving all intersections of said streets with other streets and alleys, said amount being equal to or greater than one-tenth of the total cost of said improvements (except cost of curbs).

(c) After deducting the proportion of the cost provided for in sub-sections (a) and (b) above, the total remaining cost of such improvements shall be paid by the owners of property abutting on said streets named to be improved, and shall be assessed against them and their respective parcels of land abutting on said streets, and said assessment shall be made in accordance with the provisions of Chapter 106, Title Street and Alley Improvements, General and Special Laws of Texas passed by the Fortieth Legislature at the First Called Session May 9th to June 7th, 1927, and the Ordinance of the City of Floydada. That the said assessment shall be made after the notice to such property owners and all interested persons and the hearing hereinafter mentioned, and that the said portion of the cost of improvements to be assessed against such property owners and their property shall be in accordance with the Front Foot Rule or Plan in the proportion that the frontage of the property of each owner bears to the whole frontage of the property to be improved; provided, that after such hearing, if such plan of apportionment be found to be not just and equitable in particular instances, the City Council shall so apportion all said cost as to produce a substantial equality between all such property owners abutting on said portion of said streets having in view the enhanced value of that property and the benefits derived from such improvements, and the burdens imposed upon them by such assessments, and that in no event shall any assessment be made against any owner or his property in excess of the enhanced value of such property by reason of such improvement. That the proportionate cost of such improvements which is contemplated to be assessed against such owners and their properties shall become due and payable as follows:

One tenth payable within sixty (60) days after completion and acceptance of the work by the City of Floydada, Texas; one tenth payable one year after said date; one tenth payable two years after said date; one tenth payable three years after said date; one tenth payable four years after said date; one tenth payable five years after said date; one tenth payable six years after said date; one tenth payable seven years after said date; one tenth payable eight years after said date; one tenth payable nine years after said date, together with interest from said date at the rate of eight (8) per cent per annum, and reasonable attorney's fees and all costs of collection in case of default. That the total proportionate part of such improvement which is contemplated to be assessed against such owners and their respective properties and the names of the owners of property abutting upon said streets aforesaid, properties to be improved, and the description of that property and the several amounts proposed to be assessed against them respectively for paving and for curb and gutter, and the grand total thereof, which said sum does not and shall not in any event exceed nine-tenths of the total cost of said improvements, except curbs, is as follows:

However, said notice by registered letter shall be cumulative only, and notice by publication shall be full, due and proper notice of said hearing, and shall not be necessary to the validity of said notice of hearing to name any property owner abutting on said street, and the fact that any such property owner or owners are incorrectly named or not named at all shall in no wise affect the validity of the assessment against said property nor the personal liability against the real and true owner or owners of said property. No errors or omissions in the descriptions of the properties abutting on said street shall in any wise invalidate said assessment, but shall be the duty of such property owner or owners whose property is incorrectly described to furnish a proper description at the hearing or hearings provided for. BE IT FURTHER ORDAINED, BY THE CITY OF FLOYDADA: That the fact that the improvement of the streets herein named is being delayed pending the taking effect of this ordinance, and that the conditions of said portion of streets endangers the public health, safety and property and creates an urgent public necessity for the immediate prevention of the public peace, property, health and safety, requiring that the rules providing that no ordinance shall be in force until ten days after its date of its last publication, and requiring that said ordinance be published once a week for two consecutive weeks in the newspaper published in the City of Floydada, be and the same are each hereby suspended, and that this ordinance shall and is hereby passed as an emergency measure, and shall take effect and be in force from and after its passage.

W. Edd Brown Family Having Time of Their Lives On Trip Through East

The following letter was received July 5 from Edd Brown who, with his family, is making an extended tour of the East:

To The Hesperian, Floydada, Texas:

As most of our time for writing is taken up in traveling I thought I would write a general letter to our Floydada friends through your good paper if I may infringe upon the good nature of The Hesperian force.

We are now at Washington D. C. where we arrived last Friday (this is Sunday). Leaving Floydada we went first to Dallas and Denton, Texas, where we visited friends and relatives for about ten days. Next we went to Monroe, La. where we visited relatives for about a week. Monroe is an old typical southern town with old, dingy store buildings of Civil War days right alongside modern sky scrapers. Streets and avenues run in all directions, about as in San Antonio, Texas. All about Monroe can be seen many old plantations conducted much as they were during the Civil War times.

From Louisiana we went to Vicksburg, Mississippi. Here we found a most interesting city, live, wide-awake in some sections and old fashioned and half asleep in others. We crossed the Mississippi here on the ferry. Old southern negroes, with the old southern dialect, seemed to be everywhere. These negroes are courteous in the extreme to all whites.

We drove through the Confederate cemetery at Vicksburg and were much impressed by the grandeur of this old, sacred burying place.

From Vicksburg our route carried us to Mobile, Alabama and Pensacola Florida. At Gulfport and Biloxi, Mississippi, we saw some beautiful summer homes built facing the gulf. These two cities are built in such shape that they are really one town although some fif-

teen miles apart according to the map. We passed through these places on our way to Florida from Vicksburg.

We left Pensacola and went to Montgomery Alabama. On our way through Alabama we passed through Tuskegee, the home of Booker T. Washington's world famed negro school—Tuskegee Institute. This is indeed a great school if one is to judge by the great array of school buildings and dormitories.

Atlanta, Georgia, was our next stop after leaving Montgomery, Alabama. Atlanta furnished the tourist an "eye full." There are so many points of interest here that it would take weeks to see them all. The painting, "The Battle of Atlanta," housed in a circular building 400 feet in diameter by 50 feet in height, impresses me as being the most wonderful painting I ever saw. In it was used 8000 pounds of paint. It portrays vividly the siege of Atlanta and all the officers and many soldiers are shown in almost life size and are easily recognized. As we were viewing this great canvas an old man stood near us who lived in Atlanta. He was the son of one of the soldiers shown in the picture. His explanation of the picture was very interesting.

Stone Mountain, about 20 miles north east of Atlanta, will some day be one of the wonders of the world. The great piece of sculpture of the Confederate Warriors being cut into the side of this mountain is not any way near complete. They estimate that about eight years will be required to finish this work. The statue faces away from Atlanta to the north east. The mountain (in my guess) is about 1500 feet high and a half mile long. It is solid marble or granite.

At the topmost part of Stone Mountain the modern Ku Klux organization had its beginning under the direction of Rev. Simmons. A bronze marker shows the spot where stood the "Fiery Cross,"

according to citizens of Atlanta. We saw the marker but one must write to Washington D. C. for information, so says the inscription on it.

From Stone Mountain top we had a wonderful view of the country around Atlanta.

South of Atlanta for perhaps 50 miles are some of the finest and largest peach orchards I ever saw. Peaches, fine and luscious, were sold all along the roadside at 25c to 35c for a large basket. The fact that this section of Georgia produced peaches in abundance doubtless accounts for Atlanta's "aristocratic" street being called "Peach Tree" street.

Another industry that is now thriving in south Louisiana, Mississippi, Alabama, and north Florida is pecan growing. Thousands of acres are set to soft shell varieties of pecans in the section mentioned and the trees in the older orchards remind one of the English walnut groves of California. This is evidently a new business for this country as none of the trees seem to be more than ten years or so old and many are newly set out.

We were surprised to find no rocks, not even small ones, from the eastern part of Texas to near Atlanta. There may be other routes that are rocky, but not so the way we came.

Wild plums, blackberries, strawberries and flowers of every description are to be seen along the road, in profusion, all through south Mississippi, Alabama and Georgia.

From Atlanta we went to South Carolina, North Carolina, West Virginia and Virginia. There is some real rough country through these states but most of the way the roads are good. The roads climb around the mountains, up and down and winding all the time. I almost wore my brakes out in going through this section. The Carolinas and West Virginia are just about all hills and ravines. It is a sight worth seeing to see the "hillside" farms in the states mentioned. This also applies to much of Virginia. I have often heard of farmers suffering the misfortune of having their stock fall out of the fields or pastures into the road or on top the house. I believe these tales now for I have seen many farms where this could easily be done.

Through much of North Carolina and Virginia we saw tobacco growing on hundreds of farms. (We called them patches). Judging from the crops we saw along the road, an acre to five acres must be an average crop for one man, unless one man has several patches scattered about. We saw about as many patches (the same small sizes) of corn as we did tobacco. They do not raise cotton through this section or at least we didn't see any. It is perhaps too cool for cotton.

Through Mississippi and Louisiana in the southern part, we saw cotton up knee high. Around Montgomery, Alabama, and Atlanta, Georgia, it was about two to six inches high.

We found it hot all the way from Denton until we got to Troy, Alabama. Since leaving Alabama it has continued to get cooler all the way. We sleep under cover all the time now. In passing through Virginia we stopped at Roanoke, Lynchburg, Richmond, Fredericksburg, and many other less important points. These places, especially Richmond and Fredericksburg, are vitally associated with the early history of the U. S. The old capital of the Confederacy is located at Richmond. Old churches and various buildings that are more than 200 years of age are scattered throughout the town. We visited the church where Patrick Henry made his stirring "give me liberty or give me death" address. His pew in the church is still as he left it. It has his name inscribed on the railing. Tombs in the burying ground, all around this church, show dates in excess of 200 years. Edgar Allen Poe's mother is buried here and a beautiful marble shaft marks the tomb. It would take a week to tell of all the interesting things connected with this beautiful old city.

Fredericksburg is no less interesting than Richmond. Buildings of various kinds ranging from 100 to 200 years old are everywhere to be found. This town presents the appearance of a very old, peaceful and quiet place, satisfied to live as did their forefathers a hundred years or so ago. There are some evidences of modern business and "pep," but for the most part, this town is really an old fashioned place with traces of pioneer days to be seen all about. Here is the home of Washington's mother with its furnishings as she left them; the home of James Monroe and his office with its furnishings as he left it; the boyhood home of George Washington with sprouts from the famed cherry tree grown now into large trees as large as the original tree that he cut down. His original office or shop where he worked is still standing. Even the original shingles are still on the roof. There is a kind of shed built over this old building to protect it from further ravages of time and weather.

Much of the early history of the U. S. is in and around this old town. Some of the bloodiest battles of the Civil War, the Revolutionary War and the Indian Wars were here and close about. La Fayette was many times a guest in the Washington home here. All along the road are to be found markers calling attention to facts of history connected with Lee, Sherman, Grant, Hood, Capt. Joe Smith, Pocahontas, Cornwallis, Washington and scores of other notables in history.

I almost forgot to mention our visit to old Appomattox Court House where Lee surrendered the Southern army. It is pathetic to see the decay and desolation all about this historical old place. The old court house was destroyed by fire. The old jail and post office buildings are still standing, but in a very poor state of repair. The old tavern still stands and is occupied by a family as a residence.

In 1893, the old house where Lee made the surrender, was razed to be taken to the World's Fair at Chicago. For some reason it was never taken and the old material that has not decayed is still piled around in the yard. Trees, some as large as a man's body, are now growing where this old house stood, having grown up from sprouts since the removal of the house. The old gateposts where Lee and Grant tied their horses when they met to discuss the terms of surrender, are still standing. On the hill top, just before reaching Appomattox

the graves, (about half marked "unknown") of about a score who were killed while the surrender was being discussed. Hearing the shots, Lee and Grant sent a runner to the scene of the fight instructing the soldiers to cease firing as the war was ended. But for these few brave soldiers

"The muffled drum's sad roll has beat the soldiers last tattoo,
No more on life's parade shall meet that brave and fallen few."

Well I could write all day and not begin to tell what we have seen. We

are leaving Monday, July 2, for Boston, Massachusetts, by way of Baltimore, Philadelphia and New York.

All are well and having a big time. Hope conditions in Floyd County are improved. In all our trip there is no place that has so many good points as Floyd County.

I trust I have not made my letter too lengthy. Kindest regards to all friends.

Mrs. C. O. Thomas and daughter, Miss Virginia, arrived Tuesday from San Antonio, to again make Floydada their home. They left here in October of last year and have since visited Mrs. Thomas' son, Ralph, in California, and a daughter, Mrs. John Marshall, at Houston. Both Mrs. Thomas and daughter are just able to be up after undergoing operations in a hospital at San Antonio. They will occupy one of the apartments at Mrs. Goen's new duplex.
