

THE FLOYD COUNTY HESPERIAN

SCHOOL TERM OPENS MONDAY, SEPT. 3RD

Teaching Force To Be Organized Friday and Saturday.

Informal exercises will mark the opening of the three divisions of the Floydada Public Schools Monday morning of next week. Chapel exercises under the various principals will be held at the same hour, beginning at 9 o'clock, at the High School, R. C. Andrews Ward and East Ward Schools. Complete plans for the nine months' term will be launched at this hour, according to Superintendent W. E. Patty.

Teachers' Institute Friday

Faculties for the three schools are complete and the members of the faculty will meet Friday and Saturday of this week in a two-day institute to outline the plans and work out the study schedules for the school term. Teachers from the three schools will meet in one group at the High School and discuss the policies to be followed throughout the school year. The institute will begin at 9 o'clock each morning.

All patrons have been invited to attend the opening exercises of the various schools Monday morning. Supt. Patty is urging the patrons to attend Monday in order to meet the teachers and acquaint themselves with what the pupils will be expected to do at home and at school. Principal W. H. Scoggins will have charge of the exercises at the High School building, Principal A. D. Cummings at the R. C. Andrews Ward and Mrs. A. H. Thornton, principal at the East Ward School.

Students who are of school age are being urged to enroll the first day of school in order to avoid delays and hindrances of the classes. Supt. Patty is calling special attention to the new age rule this year. According to the new rule, pupils who will be 7 years of age on or before the first of February will be admitted but will be required to pay a tuition of three dollars per month, provided, the pupil is not seven years of age before September 1, in which case tuition is free.

Faculties Are Complete

Faculties for the three schools were completed this week when the vacancy caused by the resignation of Miss Fayola Warren was filled. Miss Katherine Burch will fill the vacancy, taking the position of fourth grade teacher at the Andrews Ward. Mrs. O. T. Williams, who was first assigned this grade, will teach the high fifth grade at the same school.

W. Harper Scoggins will again be principal of the high school, and teach science. Troy Jones, Bay-graduate, will coach the F. H. S. interwind athletics and will teach mathematics.

Other high school teacher assignments are as follows: Edwin McFitter, history and economics; H. Cunningham, commercial; O. T. Williams, Vocational Agriculture; Miss Dorothy Biebel, English; Miss Ida Smith, English; Miss Auba Atkins, English and Latin; Miss Pauline Keeton, Spanish; Miss Daltis Roa, History; Mrs. J. G. Clements, Foods; Miss Lucille Hill, Clothing; Miss Jewell Brock, Mathematics and Miss Lena Pennington, Librarian.

The R. C. Andrews Ward faculty is composed of the following: A. D. Cummings, Principal; Dave Waldren, Geography; Miss Lula Belsler, English; Mrs. Violet West Stone, Reading; Miss Sadie L. Miller, History; Mrs. J. H. Green, Arithmetic; Mrs. O. T. Williams, High Fifth Grade; Miss Ruby Norton, Low Fifth grade; Miss Katherine Burch, fourth grade; Mrs. A. D. Cummings, third grade; Miss Eddythe Walker, second grade and Mrs. J. N. Johnson, primary.

Mrs. A. H. Thornton, principal of the East Ward, will have the following faculty members: Miss Fannie Bolding, low fifth grade; Miss Vera Hamilton, fourth grade; Miss Louise Wright, third grade; Mrs. Ernest Hughes, second grade and Miss Browneyes Hawkins primary.

Vocational Home Eco

A vocational type of Home Economics is being planned for the first time this year in the High School, according to Supt. W. E. Patty. This subject will be open this year to the Freshman class for the first time. Also, the third year Home Economics will probably not be offered at the present time. Miss Lucille Hill will have charge of the sewing department and Mrs. J. G. Clements in charge of the Foods department. New gas ranges have been installed in the Foods department.

A few other minor changes will probably be made in the studies this season, also, the Superintendent stated. The Vocational Agricultural Class will probably have a larger enrollment this year than last and it is probable that this department will have to be enlarged.

Install Gas Furnaces

Furnaces at the three school buildings have been equipped this summer with gas burners and the buildings will be kept warm throughout the winter, it is stated by Board Members. Coal heaters will not be used, unless in case of emergency.

the high school building, will be equipped in the near future with steel lockers for the students. Personal belongings may be kept in the cabinets and a lock and key furnished each pupil. This will eliminate the common complaint of "misplaced" material, Mr. Patty stated.

Few changes are being made in the other city school buildings, although it is probable that it will be necessary to make a few rearrangements during the school term.

"Everything is in readiness," Superintendent Patty said in conclusion, "and we are looking forward to the best school year we have ever had."

'Flapper Grandmother' To Be Given Aug. 31

"The Flapper Grandmother," a musical comedy with cast of over fifty, will be presented at the High School Auditorium, Friday evening, August 31 at 8:30 o'clock. The entire cast is made up of local talent and is given under the auspices of the 1928 Study Club.

Mrs. Bill Daily will play the leading role as the flapper grandmother, with O. T. Williams, W. D. Johnson, Mrs. John Reagan and Mrs. A. L. Angus in important assisting parts.

"There will be choruses of ridiculous matrons, good looking Jelly-bands, Debutante flappers, funny door knobs and precious rag dolls," Miss Mary Ella Journey, director, said. "The Flapper chorus is perhaps one of the most attractive features of the show, with their clever songs and dances and originality of costuming."

"This play causes people to laugh who haven't laughed for years. The audience recovers from one convulsion of laughter only to go into another."

"The Club is working hard on this proposition and bringing to Floydada one of the most delightful home talent productions ever staged."

Open Boll Of Cotton August Twenty-Third

J. T. Hinkson found three open bolls of cotton in his field northeast of Floydada on Thursday of last week, August 23, indicating that at least a portion of his cotton has reached maturity.

The bolls shown were of the five-lock variety and appeared to have good length fibre. One of the bolls was left on display at the Floyd County National Bank.

Another farm that of J. T. Carter immediately south of Blanco Canyon at the Day Crossing furnished some sample open bolls for display this week. They were brought in Tuesday by Mr. Carter.

Predictions are being made that the first bales will begin rolling in around September 15. These are based on the assumption, however, that rainy weather does not intervene too much.

MRS. O. R. GOLIGHTLY INJURED IN AUTO CRASH

Mrs. O. R. Golightly, formerly of this county, now of Plainview, sustained a severe cut on the wrist of the right arm one night the first of this week, when a car in which she and Mr. Golightly were riding bumped into a truck that was stopped on the highway four or five miles east of that city. A leader and the artery in the arm were severed when flying glass from the windshield inflicted a serious cut, however they were able to stop the flow of blood and get to a sanitarium before the situation became too serious.

Their car was enroute to Plainview and near the scene of the accident, Mr. Golightly, who was driving, was blinded by the lights of another car that suddenly came around the truck, and was not aware the obstruction was in the road.

Mrs. Golightly is resting well at their home in Plainview, according to information received by relatives here last night.

Covington, Henderson Payne And Taylor Win

Vote In Precincts 3 and 4 Heavier Than In July, Other Boxes Lighter.

E. W. Henderson for Commissioner of Precinct One, Milledge H. Taylor for Commissioner in Precinct Three, W. W. Payne for Commissioner in Precinct Four, and R. C. Covington for Public Weigher Precincts One and Four, were the choices in their respective races for the Democratic nomination, according to the unofficial figures compiled Saturday night last by The Hesperian from returns made from over the county.

In both precincts three and four the vote was heavier than in the July campaign, the races bringing out a considerably heavier vote than was cast in the first campaign. Four boxes in precinct 3 furnished a total vote of 321 against a vote of 224 in the first campaign, and the same number of boxes in precinct four cast a vote of 399 against a vote of 371 in the July election. In boxes in Precinct One, where the race was not so hotly contested, for commissioner the vote was considerably lighter; 748 votes being cast against a July total of 958.

The commissioner's race in Precinct 3 furnished the closest finish of any race in recent political history of the county. Taylor, the winner on the unofficial count, has a majority over his opponent, Walter Wood, the present incumbent.

The race in Precinct Four was almost the same kind of race, Payne receiving twenty-nine votes majority over Rainer. Payne is the present incumbent in office. Henderson and Covington both had easier races, Covington's majority being 223 and Henderson's 126.

On account of the fact that there were no local contests the vote in every box in Precinct Two was light. The vote by boxes as tabulated from unofficial figures at The Hesperian office is given in this issue of The Hesperian.

Brick Work Starts On New Enoch Building

Actual brick laying on the new Enoch building on the East side of the square began Tuesday morning and, weather permitting, the construction work is expected to continue at a rapid rate. Foundation was laid last week-end and the brick construction work under way this week.

The new building will have a frontage of 25 feet, and will be 150 feet deep. It is located immediately south of the present Enoch Building occupied by H. O. Pope and Son, Garage, and is the second brick to be built on the East side of the square by J. A. Enoch during the past two years.

The building will probably be leased this week, but announcements are not being made by the owner at the present time, it is said.

W. E. RAWLINGS AND ROBT. ABERNATHY IN LAND TRADE

This week W. E. Rawlings and Robert Abernathy completed a trade whereby Mr. Abernathy becomes owner of the W. E. Rawlings farm one mile north of Floydada and Mr. Rawlings becomes owner of the Abernathy home on West Kentucky Street.

Total consideration for the Rawlings farm of 202 acres was \$15,146.25. The Abernathy home was valued at \$5,000. The trade was negotiated by Jno. A. Hollums, local real estate man.

On account of the state of his wife's health Mr. Rawlings has been planning for several months to move to Hot Springs, New Mexico, and as soon as they dispose of personal property from off the farm place in a sale in Floydada Saturday, they will leave for Hot Springs to spend the winter.

Corporations Aid In Raising Fair Fund

Finance Committee Reports Funds Practically in Hand for Annual Fair.

Practically completing their work of raising funds for the fifteenth annual free Floyd County Fair H. M. McDonald and R. E. Fry, finance committee, report that less than \$200 is needed to guarantee the \$1500 necessary to defray the expenses of the annual exposition. Believing that all the funds will be secured, preparations for the fair are going forward and contracts for space for agricultural exhibits and advertising are being let.

That the corporations doing business in Floydada are keenly interested in the development of the county and are anxious to cooperate in any worthy undertaking was evidenced by the contributions received from them to the County Fair fund. Leading the donations from these businesses was the \$50 contribution from the Quanah, Acme & Pacific Railway System authorized by Chas. H. Sommer, president. A \$25 check from the Southwestern Bell Telephone Co., was received by the secretary from J. B. Patterson, district manager. Mr. Patterson stated that his company is always willing to assist in making a success of those events that tend to encourage the development of the country. Texas Utilities Company has agreed to furnish lights for the fair buildings during the fair, according to J. B. Scott, district manager.

Although the premium list calls for payment of fifteen dollars to every community filling the score cards in the agricultural exhibits and a similar prize for completing the demonstration exhibit score card, which will increase the total amount of premiums paid the communities, it is the belief of the fair directors that all expenses of the fair can be paid from the \$1500 subscribed and still take care of the additional expenses incurred for free entertainment. The fireworks displays for Friday and Saturday night, September 28, 29, have been ordered and will be fired under the personal supervision of a capable director.

Catalogues, containing a complete premium list of the various events of the fair, are being mailed out from the chamber of commerce office this week.

F. H. S. Gets 3 More Units Of Affiliation

Three additional units of affiliation credit for Floydada High School have been awarded this summer by the University of Texas, Superintendent Patty receiving notice of the increased standing of the work of the local school recently.

One and a half units in vocational agriculture, one-half unit in short hand and one unit in bookkeeping comprise the new affiliation credits given.

WEATHERBEE'S REACH HOME

Mr. and Mrs. W. F. Weatherbee returned home the latter part of last week after an extended trip into Alabama, Mississippi and Tennessee, visiting at Mr. Weatherbee's boyhood home, and at other points, including Muscle Shoals during an absence of several weeks.

They attended the Rogers brothers reunion, which was held at Denton's Camp in Tennessee, and visited at numerous places of historic interest. The grounds where the Battle of Shiloh was fought in the Civil War and the Muscle Shoals power plant were two of the most interesting things to them, Mr. Weatherbee said.

Mr. and Mrs. M. S. Hignight, of Russellville, Arkansas, left for their home the latter part of last week after a brief visit here with Mr. and Mrs. E. T. Hanks. Mrs. Hignight is a niece of Mrs. Hanks.

Supt. Of Schools

Record attendance is anticipated for the opening of the three Floydada Public Schools next Monday morning and Superintendent W. E. Patty, whose likeness is shown above, predicts larger attendance throughout the entire term this year than ever before.

Supt. Patty begins his second year here next week, having had the superintendentcy last year over the school system.

Curb And Gutter Work Begun On California

Actual Paving Work Expected to Start By The First of Next Week.

Lowering of approximately two blocks of city water lines on California Street was complete this week and the proper leads to properties installed preparatory to the laying of several blocks of paving on this street. Proper drainage grading work is under way as well as the laying of new curbs for the paving project. Unless bad weather hinders the work, it is planned to have the actual paving under way on California by the first of next week.

New copper property leads and lowering of water lines on Missouri street are also underway preparatory to the laying of pavement ordered on four blocks of that street from Main to First Street.

A new development on the paving situation this week is a petition by property holders on West Mississippi Street. Approximately seventy five per cent of the property holders on six blocks of this Street have signed a petition requesting the city to issue a paving order extending over six blocks, from Main to Tree Street. However this petition has not been presented to the City Council at the present time. The petition indicates that the property owners desire two-way paving with center parking.

The adjourned hearing on the South Main paving project has been set for September 7, at which time hearing will also be held on five blocks of paving ordered on South Wall Street. At this same time, hearing will be held on a block on Virginia Street from Main to Wall and a block on North Main between Virginia and Jackson.

NO NEW DEVELOPMENTS AT EXPLORATION CO. OIL TEST

There were no new developments at the oil test of the Exploration Company's No. 1 Boon on the C. H. Johnson Homestead Survey two miles north of Sand Hill this week, although the drillers are said to have struck an interesting formation Sunday night that gave off indications of oil. They were in a lime formation yesterday at a depth believed to be around 3,500 feet.

The drilling contract calls for a 4,000-foot hole. Drillers have been working day and night shifts, since completing a fishing job at 1,900 feet some weeks ago.

Cotton Compress, Warehouse Begun This Week By Underwood Interests

Complete County Vote On Boards At 9 P. M.

New Record Made For Receiving And Tabulating Unofficial Returns.

The Hesperian had received ready for tabulation the complete vote in Saturday's run-off primary election Saturday night at 9 o'clock when W. I. True, presiding judge of the Fairmont Box in east Floyd County walked into the office with the unofficial figures on his box, and in five minutes the count in every race was on the boards for the information of Floyd County people, only two hours and five minutes after the polls had closed. It was the best time record made for receiving and tabulating a complete county vote, from senator to constable, ever made in the county. The only other time, at least in recent history, when all the votes in all the races were accounted for the same night was in a recent campaign when the complete vote was accounted for at 1 o'clock Sunday morning.

The figures on the two Floydada boxes were handed reporters for The Hesperian one minute after the polls closed, and at 7:10 W. T. Hopper telephoned the figures from Lakeview box to make the third to report. R. E. Patterson gave the figures on East Lockney at 7:12, J. A. Dunlap the Cedar box at 7:25, and H. A. Krause the Allmon box at 7:27. Almost simultaneously West Lockney and Antelope were reported and Harmony came in at 7:45, simultaneously with Baker. Sunset was reported from South Plains by A. H. Thornton at 7:50 and J. H. Ratjen reported Providence at 7:55, making a total of thirteen boxes accounted for completely before 8 o'clock. The Sand Hill report was received at 8:11 A. R. Hanna bringing in the returns in person, and Center, first in the July primary to report, was brought in at 8:20 by E. C. Austin. Oscar Allen telephoned the Aiken vote at 8:25 and Starkey was received at 8:46, one minute after Goodnight which John Taylor telephoned in. T. S. McGehee telephoned the Lone Star returns at 8:55, and Mr. True walked into the office from his home twenty-five miles east at 9 o'clock sharp.

The total county vote on state and precinct races had been tabulated and the figures given to the state newspapers before 9:20 o'clock.

Only the most whole-hearted aid of the election holders in the various parts of the county made the early tabulations of the vote on the bulletin board possible, and the management of The Hesperian declared the publishers are deeply indebted to the election holders for the good work they did.

Crowd Stays Late

Although there were no county contests on, the interest on the part of the public was keen. A great number of telephone calls were answered and a big crowd came early and stayed late for the returns which were posted on the bulletin board in front of the office. The local contests were not in doubt after 9 o'clock but the returns on the senatorial race between Mayfield and Connally kept the crowds until a late hour. Bulletins by wire from a direct connection with The Texas Election Bureau were posted on all state races every few minutes, more than fifteen hundred words being sent on this and the other state contests.

Figures of the Bureau show, on unofficial count, that Connally for senator, Marrs for state superintendent, and Robison for commissioner of the general land office were winners in their respective races.

Ballasting Of Quanah Track Still Continues

Ballasting and surfacing of the track of the Quanah Reute's extension to Floydada from McBain has been continuing slowly, and sometime will yet be consumed before the work is completed.

A. F. Sommer, vice president of the line is quoted as saying this week that no definite date would be set for the opening of the passenger service over the line until it was known more definitely when the ballasting and surfacing will be finished. The passenger schedule calls for good speed on the run and it will not do to undertake it until the track is in excellent condition, officials have stated on several occasions.

Building of the company's new station has also been slowed up by failure to receive the proper colors and types of brick. However, better time is now being made also on this job by the H. J. Reintjen Company, contractors.

Mrs. H. M. D. Ingram and two children of Greenville, who have been here for several days visiting her brother, H. L. Crow, and family, left Wednesday for Plainview, where they will visit her parents, Mr. and Mrs. G. W. Crow.

Owners of Line Compresses In Texas Unloading Lumber Here.

Materials for the construction of a cotton compress and warehouse on a site purchased two years ago is being unloaded this week for the Texas Compress and Warehouse Company, and the plant will be operated this season, H. F. Underwood, president of the company told officials of The First National Bank Tuesday morning.

Moving Plant Here

Although no definite statement of the plans of the company was obtained by The Hesperian, it is said the company is dismantling and moving a plant from Wolfe City to this point. Quite a bit of machinery was unloaded here nearly two months ago, and this week lumber for the sheds began to arrive. Eight more carloads of materials are said to be enroute, and a big gang will be put to work placing machinery and building the warehouse to have the plant in readiness for this fall's crop.

The capacity of the plant and other details of this nature were not obtained. The expectation is that within a territory adjacent to this point not better served by some other compress there will be twenty-five to fifty thousand bales of cotton the compress serving as a great aid to the concentration and marketing of the crop. A similar plant at Ralls gave that city much profit last season as a cotton market and concentration point, and cotton men are looking forward to the possibility that the plant to be installed here will be a material aid to the cotton raisers and dealers of this section.

GETTING TOO DEMOCRATIC

Texas is getting too democratic, not that it is sticking too close to the principles of the Democratic Party, but that it is drifting into the false theory that everybody should vote on every office and on every issue. The fact that this theory has been exploded as a governmental fallacy doesn't seem to make any difference. The drift is more and more that way. Real statesmen outlined the form of government in this country, intending to make it a representative governmental body. At the same time the drift is toward centralized power, with the result that in the past ten years the powers of all governmental agencies have been increased many fold. Take the two drifts together and we'll have just plain mob rule within a few years, it appears, and we can save the expense of elections and similar things by simply letting the popular idols ride down the streets and selecting the one who gets the loudest applause. They did that with slight variations in the days of the Roman emperors.

BEAUTIFYING PLAINS TOWNS

Several city and inter-city beautifying contests, with varying rules but generally along the same lines, were held throughout the plains area during the past summer, with gratifying results, according to reports. Slaton, Tullia, Canyon, Plainview and Hereford were among the cities and towns in this section which used the contest plan to give a general stimulation to the idea of better and prettier homes.

Pretty homes with greater civic pride throughout a community add to the value of the property, increase the percentage of home-seekers and just generally aid greatly in making a rambling town into a thing of beauty.

MISSISSIPPI STREET PAVING

It begins to look like Mississippi Street will be paved out for several blocks from Main Street west, a petition to the council for a plan on the part of the property owners generally signed, presented soon for the council.

Mississippi Street owners evidently believe in practical value of paving as well as value in adding to the general appearance of a street. They are gratulated on their efforts, hoping the council gives the paving they crave, especially the sentiment on the street to be as unanimous is reports it.

MAKING THE GRADE

It appears this week that the cotton crop in Floyd County is making the grade, that it is going to be at least an average crop. The condition is varying widely, though. In some communities where the rains have been unusually excessive dur-

ing the latter part of July and the first twenty-five days of August the yield is cut largely by the fact that the stalk has been too sappy for fruiting.

In other sections of the county, however, the fruiting has been very satisfactory, and on the whole the county is sure to make an average crop.

East of the Mississippi the story is already told, so far as production is concerned. In South Texas the same fact is true and in parts of central Texas the same. Government figures seem to indicate that the nation's crop will not be too great, and that a good, substantial price is going to be realized.

If Secretary Jardine and his helpers will just attend to their respective jobs this fall and let the chips fall where they may the farmers are going to get a good run for their money, it seems.

FEDERAL ROAD HELP

The Hesperian has said a number of times that it is a matter of common knowledge among road builders and others who are informed that the Federal Government has expended millions of dollars on highways in Texas and that they are planning to expend other millions on roads in this state.

Recently the federal government made up the budget for the national expenditure on good roads for the ensuing three years, the total being \$219,000,000. This is an inconceivably large amount of money. Of the amount Texas gets more than \$4,500,000 a year, or upward of \$13,500,000 in three years. The national government recognizes that good roads are a national as well as a state and local asset. In instance after instance the government is putting up a dollar and the state a dollar for every dollar a county will put up. These statements are repeated, possibly for the second or third time, because in times past men residing in this county, supposedly well informed, have pooh-poohed the statements this newspaper has made of the above tenor.

NOW FOR NOVEMBER

So far as the nominating goes the close of the run off primary voting booths Saturday night told the story in Texas, and the nominees of that primary, together with those chosen at the first primary, will make up the official family of the state, counties and precincts for the next two years, beginning January 1. Their election in November at the general election is a foregone conclusion in practically all of Texas.

However, the fire works is not over. Indeed, it has only begun for the country has a presidential election on its hands that will be a real pyrotechnical display, meaning lots of noise, sizzling and booming. The last two general election campaigns have been jokes so far as the Democratic nominees for president furnishing a real contest. The present one will be a different story. And there will be plenty of bitterness. Like all outstanding political leaders who have a great deal of personality, both the Republican and Democrat aspirants have their intense admirers and their equally intense haters.

In the country as a whole the Republican voters exceed the Democratic followers by several million, hence to expect the Democratic nominees to win while business and other conditions are about normal would be stretching the imagination. At the same time, it is comforting to see the situation shaping itself up for a real contest rather than just a hoax.

Hesperian Want Ads Pay.

UNSIGHTLY ENTRANCES

The part of a house that makes the best and most lasting impression upon a visitor is likely to be the front entrance, or the first room entered. Real estate dealers have learned that it is hard to sell a house with an unattractive front. Why haven't those who are building cities and towns learned this lesson? Usually the shabbiest shacks line the railroad tracks and often they are about all travellers can see in passing through a town. If I were starting on a campaign of civic planning and improvement, I would begin work at the railroad-right-of-way. —Will H. Mayes in "Texas and Texans."

'Round The Square

BY OLD BATTLEAXE

Well readers, if any, probably the biggest change you have noticed in this week's Hesperian is its larger size. We're all dressed up this week and intend to stay this way. Always striving to make this a better paper for Floydada and Floyd County, and this highly literary department is going to do its best to improve, too. That is, if O. B. don't get run out of town by the Saliva Slingers and Non-Pavers.

Boy howdy, one of Floyd County's commissioner races was just like the flapper's date—just neck and neck.

Everything is hotsy-totsy now; When the residents of this city become so interested in paving that they will petition the city to pave their street without even a proposal from the city, as the Mississippi Street folks have done, we are just setting on top of the world. This paving proposition is just like a smile, it is one of the most contagious things in the world.

And as for South Main Street—things look pretty tough. If they don't snap out of it, after Wall Street is paved the highway will automatically change to that street, the city will have spent all of its appropriation for paving and Main Street will simply be S. O. L., B. V. D. and ect.

You folks know that O. B. does a lot of kicking, but his old patched trousers cover as noble a heart as ever beat. And his one weakness is to see a woman doing a man's work. Why last week we saw two pretty girls meet round the square and kiss each other rapturously.

Don't fail to get a copy of the Floyd County Fair catalog.

Thanks, kind readers, for the help you have been rendering O. B. in this column. We are getting lots of things to put in here and we sure appreciate it. We will get them all in sooner or later—just keep on telling us your opinion of local matters.

"You sure hit the nail on the head when you got after the town folks about parking their cars in town" we were told Saturday. "Why, we farmers have got so we don't even feel welcome in Floydada 'cause we have to park in an alley and walk around town," he said. "Last week a merchant's wife even asked a farmer to move his car out from in front of her husband's place of business so she could park there."

A new slogan for Floydada's rough streets—"A Product of General Mutters."

Coach Troy Jones takes charge of his squad next Monday and begins work on his football eleven. Can't tell just yet what the local boys will do this season, but good or bad, this column pledges its influence in supporting the team. How about it, business men?

Hot diggety dog—Floydada's getting better all the time. Willson & Son installed a large electric sign at their lumber yard this week. Congratulations, Jim, now you can afford to cuss the other fellow for not "lighting up Floydada."

Which reminds us—we haven't seen any lights on the dome of the court house yet.

Smile each morning until 10 o'clock. Then you will laugh the rest of the day.

Which is probably the reason this column is no good this week—it was written in the morning.

Locals and Personals

Misses Bama Gene Smalley and Mozelle Brown returned Thursday after a weeks visit in Plainview with Misses Helen and Elizabeth Yates.

Ben Ayres, who attended the University of Texas since February, came Friday for a visit with his parents, Mr. and Mrs. Jeff D. Ayres and family, before the opening of the next school term.

Mrs. Fred Horsbrugh of Amarillo left Saturday after a visit of three days with her sister, Mrs. V. A. Leonard.

Mrs. C. E. Saunders and little daughter Yvonne of Amarillo came last Thursday to join Mr. Saunders who is paving supervisor. They will make their home here until the paving is completed.

Miss Nina Jones of Electra is a guest of her brother W. O. Jones and family.

Wilmer O. Jones, Jr., left Friday for Electra where he will visit his grandparents Mr. and Mrs. S. M. Jones.

Miss Blanche Newsome of Munday left Sunday for her home after a visit with Mr. and Mrs. B. L. Blacklock and family.

FLOYD COUNTY 14 YEARS AGO

News items taken from files of the Floyd County Hesperian published in Floydada fourteen years ago.

ISSUE OF SEPT. 3, 1914.

The fall hog-shipping season opened last Monday when the first carload was shipped by Bonnie Parrish. Already the shipments for the year 1914 have exceeded the shipments for 1913 by four cars. The car shipped Monday was the 30th this year.

Misses Dulce and Winnie Gibson are absent from Floydada visiting near Fort Worth. Miss Winnie will probably return in time to take up her studies in school.

Since the announcement was made that Jim McLain of the Sand Hill neighborhood has a new Ford several of his friends have been desirous of knowing whether Mr. McLain sold his wife's ducks to purchase the auto.

Three or four young Germans who lived in the Hale Center country, left recently, according to the Plainview News for Germany, where they will join the Kaiser's army and fight for the Fatherland.

Floydada Public School will open the 1914-15 session Monday morning. The faculty will be composed of the

following teachers: F. E. Savage, superintendent; Miss Pauline Smith, science and history; Miss Prudence Moorehouse, English and Latin; Miss Roxie Ivey, primary; Miss Annie Irick music; grade teachers, Misses Effie Savage, Julia Collier, Maggie Warren, Mrs. R. H. Baker, Misses Bee Collier and Virginia Rucker.

E. W. Thomas and family of Plainview visited his mother Mrs. C. O. Thomas Wednesday of last week.

Mrs. W. L. Boerner returned Sunday from a visit with her daughter, Mrs. W. S. Posey of Lubbock. Mr. Boerner went to Lubbock Sunday morning and brought her home.

Mr. and Mrs. John A. Marshall and baby of Houston left the latter part of last week after a visit with her mother, Mrs. C. O. Thomas.

Miss Ruth Stapleton, of Lockney, returned home Friday after a few days visit with Miss Pauline Stovall who went home with her for the week end.

Nine-Tenths Preventable

Nine-tenths of all the diseases of the American people can be traced directly to constipation, doctors say. Constipation throws into the system poisons which taint and weaken every organ of the body and make them easy victims for any germs which attack them. Prevent constipation and you will avoid nine-tenths of all diseases, with their consequent pain and financial losses. Herbine, the good old vegetable cathartic, will prevent constipation in a natural, easy and pleasant way. Get a bottle today from FLOYDADA DRUG CO.

Here's the Way We Look at it:

To be the best tire dealers in town we must have the best tires!

That's our aim—to be the best in town! So, there just isn't any other way about it—we sell Goodyear Tires exclusively.

We Know Our Rubber

Believe us, we've put in a long, long time in the tire business. We know just why some tires won't do at all. You may sell a man one of them, but he'll never come back for more. We want every customer to remember us when he needs a tire—and Goodyear Tires satisfy!

A Complete Price Range

Goodyear provides us with a complete line of tires—Goodyear All-Weather Tread Balloons, known as "The World's Greatest Tire," for the man who wants the best tire at any price. And, then, for the man who must have a low-priced tire we have Goodyear Pathfinders—a remarkable tire at a remarkably low figure.

Goodyear Service, too

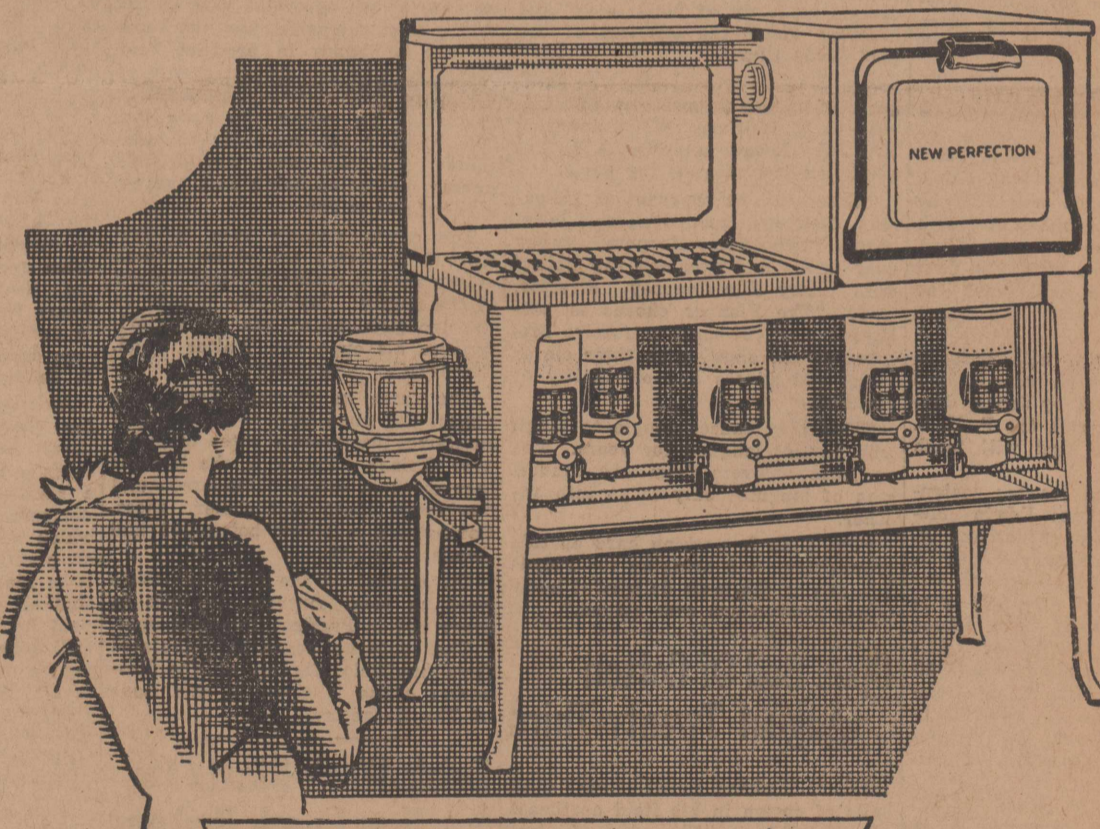

With every tire we sell goes real tire service—we put it on properly, see that the tube is correctly installed and inflated; we give you free inflation to help you keep your tires operating at their best; we check your wheels, see that everything is going right to make your tires last a long, long time.

Make This Your Tire Headquarters—Honest Prices—Honest Tires—Honest Service

Directors Appointed For 15th Floyd County Fair

Harmony News

Harmony, Aug. 27.—Farmers in the Harmony community are very busy preparing their land for wheat sowing after the good rains. There has been a rainfall of about ten inches during the past month and the weeds have grown very prolific during that time.

William Tinnin of Chickasha, Oklahoma, arrived Friday for a visit with his parents, Mr. and Mrs. O. M. Tinnin.

Mrs. J. Treutlen Watson of Charlotte, North Carolina, and Mrs. Alvin N. Oglesby of Goldthwaite, are guests of their mother, Mrs. Chas. Trowbridge. They plan to leave for their home Saturday.

Mr. and Mrs. J. S. Hale left Wednesday of last week for Dallas, where Mrs. Hale was to have undergone an operation Monday of this week at the Baptist Sanitarium.

A message from them Saturday stated that they did not think the operation would be very serious.

Rev. M. P. Hines filled his regular appointment at Carr's Chapel Methodist church Sunday. There was a large attendance.

Ulysis Hale, who has been visiting his brother, J. S. Hale, assisted Rev. Hines in a union meeting at Sand Hill, which closed Wednesday night of last week. The new members of the church were baptized Sunday evening at the home of Mr. Phillips. Mr. and Mrs. R. B. Gary attended the baptizing.

Paul Williams, Roy Hale, Joe Seward and Raymond Williams left Sunday for a vacation trip to Carlsbad cavern.

Gano Scott of Trent, left Wednesday of last week after a visit here with his sister-in-law, Mrs. D. T. Scott.

Mr. and Mrs. Jim Bagwell of Dimmitt, came down Saturday for a visit with their parents, Mr. and Mrs. J. A. Bagwell and Mr. and Mrs. L. E. Williams.

A. L. Battey of Bovina, came Saturday for a visit with relatives.

Carr's Chapel Epworth League had a very interesting program at the church Sunday night with Horace Carr as leader.

E. F. CLINE NEW MANAGER STOVALL RADIATOR SHOP

E. F. Cline and family, of Plainview, recently moved to Floydada, and Mr. Cline has assumed the management of the Stovall Radiator Shop on West Missouri Street.

The shop was established here several months ago, and is one of three owned by the Stovall's.

Plans Mature For Best Fair in History September 26th to 29th.

Thirty years of progress and development have placed Floyd County in the lead in agricultural production on the South Plains of Texas and this progress will be readily recognized during the four days of the Floyd County Fair, September 26, 27, 28 and 29, is the belief of the officers and directors of the Fair Association. The Fair will be held in Floydada this year as usual and is one of the few free fairs in the state. Every preparation is being made for the entertainment of the Fair visitors and officials are making elaborate plans for this season's exposition to be bigger and better than ever before.

As explained by Ed Bishop, Secretary of the Fair Association the Floyd County Fair is promoted for the interest of all the people and is a form of college or school for short course education in production, efficiency and prosperity. A person carrying home from the Fair a corrected idea or a beneficial suggestion has received more benefits than one who was paid a premium but failed to receive an inspiration, he said.

Premiums of award are presented by the progressive business men of Floydada and all work in putting over this Fair is free gratis, as no officer or director receives any compensation for their time.

Premium List Complete
Appointment of all officials and directors for the 1928 Floyd County Fair was completed last week and the various committee heads have already begun active work in outlining the displays. Complete catalog and premium lists were off the printing press this mid-week and are ready for distribution. Everyone desiring a copy of this catalog is requested to write or call for a copy at the Chamber of Commerce office.

Director General of the Floyd County Fair is Ed Bishop, Chamber of Commerce Secretary. Probably the most instrumental committee in making the 1928 exposition a possibility is the finance committee. This group is composed of H. M. McDonald, J. C. Gilliam and J. G. Wood. Next in rank should be placed the General Committee composed of S. N. Tawwater, H. M. McDonald, E. L. Norman and S. W. Ross.

While these committees are very important, the probable success of the Fair rests on the shoulders of the Rural Committee. This committee is composed of Brent Breed, R. B. Gary, W. R. Dooly, E. J. Hoffman, T. J. Campbell, A. F. Shelton, P. L. Orman, W. S. Lakey, J. F. Dollar, C. F. Harris, B. F. Whitfield, W. I. True, C. O. Spence, J. H. Phillips, E. C. Durham, G. A. Tardy, G. L. Pawver, Joe H. Smith, K. Sammann, W. H. Smith, H. A. Krause, W. W. Anderson, G. E. Tannehill, Geo. Stiles, W. E. Meador, A. T. Swepton and H. D. Bloodworth.

Department Directors Named
Directors of the various departments of the show all report this week that they are in position to lend any assistance possible in making arrangements for the fair. O. T. Williams, Vocational Agricultural Teacher of the Floydada High School is in charge of the Agricultural department and reports that he would be glad to meet with the community exhibitors at any time and discuss their plans for making their individual and community displays.

Home Demonstration work will be under the supervision of Miss Blanche Bass, County Home Demonstration Agent. Demonstration booths and 4 H Club exhibits will be given large display room and a great deal of competition is expected in this department.

Director General of the Ladies Department has been selected and Mrs. E. L. Angus appointed to this office. Mrs. Jack de Cordova will have charge of the Art Department and display.

Stronger competition in the Flower Show is expected this year than ever before and preparations for displaying the "beautifiers of Floyd County" are nearing completion. A complete new premium list has been outlined and all who are expecting to make exhibits in this department are requested to get a copy of the premium list and study the requirements closely. At the head of this department has been placed Mesdames E. C. Henry, S. D. Bishop and C. Surginer.

Parade Saturday Afternoon
On Saturday afternoon, the last day of the Fair, a parade of community and organization floats and individual cars will be formed and will parade the city at 2 o'clock. Plans are for five groups to form the parade, namely, the rural communities, Floydada schools, organizations, Boy Scouts and merchants. Cash prizes will be offered in all except the latter group. O. M. Watson, H. M. McDonald, and W. Ed Brown are the committeemen in charge of the parade.

J. C. Wester, E. L. Norman and W. H. Henderson are the members of the Athletic Committee and negotiations are now under way to arrange for two or more football games during the four-day fair. It is probable that the Floydada High School Whirlwind eleven will be seen on the gridiron for the first time this season during the Fair.

Beautiful Fireworks Display
It is the hope and aim of the Floyd County Fair Directors each year to present something new and different in the way of entertainment for the visitors to the Fair. Their plans for a unique program will be fulfilled this year, it is believed, by the presentation of the first gigantic display of special fireworks ever given in Floyd County. This spectacular display is one that is seldom attempted

by County Fairs and its splendor will probably rival the fireworks displays of larger sectional fairs. On Friday and Saturday nights, for almost one hour each evening, the bursting rockets and massive designs in fire will thrill all that witness the display.

As a climax each evening of the display will be a 20 foot reproduction of Niagra Falls. This feature has been given again and again at the larger state fairs and has never failed to please. The fireworks display will cost approximately \$250.

With all the entertainment and other features that are being planned, and with the plans of the various department heads nearing completion, the Floyd County Fair for

1928 has a bright out-look. Unless further complications arise to hinder the work on the exposition, those in charge expect to have, for the Floyd County public, "A Miniature State Fair."

GRADUATES IN HOME EC.

Miss Lula Bell Rushing, daughter of Mr. and Mrs. S. L. Rushing was among the graduates from Texas Technological College August 24, when she was given a B. S. Degree in the school of home economics.

A total of forty degrees were conferred at the close of the summer session of the school.

Nature Thought Everything

Nature thought of everything the human body was made. When body is about to become ill, nature planned danger signals to warn. Thus, if our children grind their teeth when they sleep, or lack appetite, suffer from abdominal pains, or it about the nose and fingers, we should know that they may have contracted worms. Then, if we are wise, we buy a bottle of White's Cream Vermifuge and safely and surely expel the worms. Thus we avoid the danger of very serious trouble. White's Cream Vermifuge costs only 35c a bottle, and can be bought from

FLCYDADA DRUG CO.

An Investment with an EXTRA DIVIDEND

THERE'S a big difference between an investment and a speculation. You can speculate in any old gasoline and hope it will deliver a satisfactory number of miles per gallon. You can invest in Summer Conoco and be sure of an extra dividend—a bonus of extra miles.

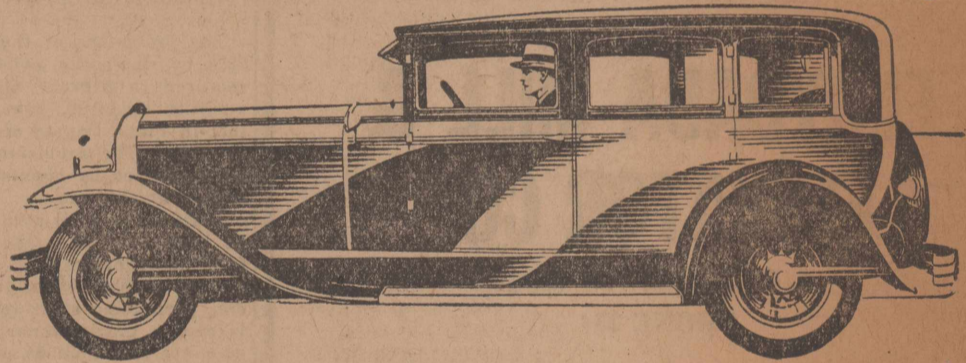

Your purchases of gasoline during the touring season represent a substantial investment. Make sure that the returns from that investment are the highest you can get.

Fill at the Conoco pump.

**New high pressure fueling
... and
New high speed carburetion**

Supplementing the amazing abilities of Buick's improved Valve-in-Head engine—providing brilliant new efficiency and effectiveness at all engine speeds—are two wonderful new Silver Anniversary Buick features.

A new high-pressure gas pump—completely eliminating the old-fashioned vacuum tank—assures a steady flow of fuel under all driving conditions; and a new high-speed carburetor—the most expensive employed on any motor car—produces unrivaled ease of starting, smooth operation and maximum economy.

The world-famous Buick Valve-in-Head engine—with these two engineering advancements—attains the highest

degree of efficiency of any automobile engine of the day... and attains that peak efficiency with any grade of fuel—low-test, high-test or in-between!

Hair-trigger acceleration! Dazzling new swiftness! Matchless hill-climbing—unrivaled ability to maintain a high pace hour after hour and day after day—these are not mere phrases but definite, authentic abilities of the Silver Anniversary Buick.

Take this new Buick out on the highway. Test it to the limit. Learn at the wheel the whole wonderful story of its new engine—new high-pressure fueling and new high-speed carburetion. Prove to yourself—it's the great car of the world!

Hand Exhibits on Display At Fairs

These exhibits will be shown is the Nebraska State Fair at Lincoln, Nebraska, August 31 to September 7; at which an attendance of 400,000 people is expected. For this fair the exhibit being shown in Iowa will be consolidated and additional exhibit articles are being shipped from various portions of the Panhandle-Plains to this fair. At the conclusion of that fair the Nebraska exhibit will go to Geneva, Nebraska, and be on display there September 12, 13 and 14, while the Iowa exhibit will go to the Central Iowa Fair at Marshalltown, Iowa, September 10 to 14.

The exhibit being shown at Belleville, Kansas will continue there until August 31, and will make its second appearance in Kansas at the Hays County Fair, Clay Center, Kansas, where it will be on display from September 4 to 7.

A great many people expressing interest in the Panhandle-Plains section of Texas are registering at the Panhandle-Plains booths at these various fairs, and the names of all of these registrants are being furnished to the various Chambers of Commerce in the Panhandle and to large land owners and real estate organizations that have indicated a desire to get in touch with these prospects.

Mr. and Mrs. N. A. Price and little grandson, of Plainview, were business visitors in Floydada Thursday.

HARLEY LOST \$32 ON BALL GAME LAST YEAR AFTER ALL

While Harley Sadler and his show were in Floydada last week Mr. Sadler related how that, after all, he lost \$32 on the Fort Worth Cats-Sadler All-Star baseball game in Floydada last year.

The game was widely advertised, everybody was anxious to see the Cats in action and see how they stacked up against amateur players of this section, so that the biggest crowd to attend a ball game here in years was on hand at Floydada Baseball Park for the event. The Cats did fairly well, and the gate did, too. It was one of those unusual times when the money came in in big enough sluices to take care of all expenses and have a little surplus. However, Sadler couldn't afford to have any profit from the game on account of its amateur standing, and more especially on account of the income tax law that would have had him busy making reports for the next few years. So, when all other expenses were paid, and everybody got aplenty for their services, the balance was divided out among the players, and various and sundry ones.

It was one ball game that paid its way, and after casting up his balances the "promoter" drove out of town feeling happy. Everything was "hotsy-totsy." Two or three weeks later, while playing at Ralls he got a letter from an insurance agency at Floydada. It was a bill for \$32 for rain insurance for the Cats-Sadler All-Star baseball game.

NORTHERN SCOUTS SEEK PLAINS AND PANHANDLE

Col. A. W. Thomas, real estate auctioneer here in connection with the sale of the South Heights Addition, made a brief but interesting talk to Floydada Luncheon Club members at their noon-day session Monday last at the Commercial Hotel, telling them that this section is now being covered by real estate scouts from the north, where the repeated advertising of West Texas opportunities are beginning to bear fruit.

He has never seen such feed crop prospects in recent years as are now the outlook in this section of Texas, the famous auctioneer said.

P. D. O'Brien, new pastor of the Baptist Church, was elected a member of the club, and a talk he made was as the name he bears would indicate it should be.

J. C. Wester and F. L. Davis told of some of the developments in connection with Boy Scout work in the new Central Plains Area and discussed briefly the possibilities of getting a Scout Camp located in the vicinity of Floydada.

T. S. Stevenson presided at the meeting, which was attended by twenty members and two visitors.

Stock Law In Force In Floyd County Now

The provisions of the Texas Stock Law by which the owner of stock is required to prevent his stock from running at large, have been in effect in Floyd County since December 14, 1921. The provisions of the law were adopted by popular vote in the county at that time.

Besides the civil action which may be brought against the stock owner for depredations of his stock—horses, mules, cattle, jacks, jennets, etc., permitting stock to run at large is also a misdemeanor finable in a sum not less than \$5 nor more than \$200. The provision of the law adopted at the 1921 election is as follows, as given in the Revised Statutes of 1925:

Art. 1370. R. S. 1925. Whoever shall knowingly permit any horses, mules, jacks, jennets, and cattle to run at large in any territory in this state where the provisions of the laws of this state have been adopted prohibiting any of such animals from running at large shall be fined not less than five nor more than two hundred dollars.

CHASING THE RAINBOW

Paducah Post: Not only do the American people like to be humbugged, but we are constantly chasing the rainbow and trying to find its end. There is always something just a little better ahead of us, or something else.

Only a few days past we heard some people on the streets giving Paducah "hail columbia." They claimed that prices here are higher than they were anywhere else. They claimed that our schools and churches were not as good as could be found at some cross roads place. The roads here are not as good as they are somewhere else.

This feature of dissatisfaction is more noticeable during the fall months than any other time. We have never known of a time but what cotton sells for less on the streets—according to some people—than it sells at any other place in the world. We once knew some men who took their cotton from paducah to Childress to sell it. That same day some Childress farmers brought their cotton to Paducah to sell it. Another time we knew of a Motley County man, living beyond Matador, bringing his cotton to Paducah to sell. When he got here he swore that he could have sold it at a better price in Matador than he was offered here.

And so it goes, round and round. The end of the rainbow is just beyond. The good things all lie in some other section of the country than the one in which we live. The "pay streak" can not be found here. All the oil fields are to be located somewhere else. There is not a chance for one to be found in the country in which we live.

Yet after all is said and done the man who accumulates property or any money is the fellow who "squat-tered down" somewhere and stayed "squat-tered." He is the man who could meet conditions as best he could, helped to improve his community when he found a place to help. He is the fellow who has been satisfied to make out with conditions and people as he found them. Think it over and see if you can think of anyone who has built a nest for himself and family and laid away something for a rainy day who has done otherwise.

But the rainbow has a wonderful attraction. It has all the fascinating colors. We would like to find its end, for the old legend said there was a pot of gold to be found there. It's the wanderlust. It has caused men, and sometimes women, to travel all over the earth riding in box cars, on the cowcatcher, on the brake rods, or any way they could find to "go." It caused Tramp A-1 to roam the earth for more than forty years, and at last he laid to rest in an unmarked grave.

The end of the rainbow. It's a fascinating thing. Just beyond and over is where the good things are, just as the golden colors of the rainbow dip down and kiss the earth just a few hundred feet or a few hundred miles ahead.

Although liberal grain feeding to dairy cows results in greater milk production, investigations carried on by the U. S. Department of Agriculture show that it usually pays to feed large quantities of grain only in dairies obtaining a high price for their products. At the dairy experiment farm at Beltsville, Md., records were kept on 23 cows for periods ranging from 90 to 150 days. These cows were divided into two groups, one group being fed the amount required as determined from the feeding standards; the other from 2 to 4 pounds of grain per cow a day more than the other group. With grain at \$40 a ton, it was found that the extra milk resulting from the heavier grain feeding cost from 40 to 50 cents a gallon, an amount somewhat in excess of the usual selling price.

Sugar-cane varieties imported from Java have proved resistant to the mosaic disease when grown in Louisiana, and the sugar-cane industry will be greatly improved by the introduction of these and other new varieties, the U. S. Department of Agriculture believes.

BEN FRANKLIN DISCOVERED GULF STREAM IN LONDON

Discovering the Gulf Stream in London is one of the contributions by Benjamin Franklin to science which has only now been attributed to him. Franklin's study of what has since been called "the grandest and most mighty of any terrestrial phenomena," resulted from the consistent beating by American ships in 1769 of west bound British ships, according to the American Magazine for September.

Franklin heard complaints of British packets being beaten by heavily laden American freighters and, upon being questioned with a Nantucket whaling captain. The captain expressed the belief that there was a "stream" running across the Atlantic with such force that it could cause a difference of speed of seventy miles a day even with a favorable wind. The old whaler charted the flow of the current in the ocean and Franklin named it the Gulf Stream and stated that he believed the main cause of it to be the wind, with differences in temperatures, salinity, atmospheric pressure and rotation of the earth as auxiliary aids.

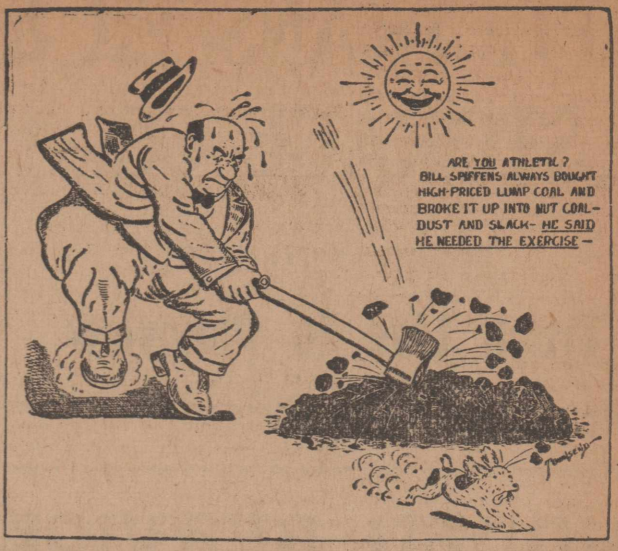

Study of the stream continues constantly, the government Hydrographic office having dropped or caused to be dropped more than 10,000 specially prepared bottles containing records into the stream. The drifting of wrecked vessels also aids the study of the stream, one derelict having been carried back and forth across the west Atlantic for three years and six days.

Scientists have referred to the stream as the greatest warm water heating plant in the world and estimate that without it Northern Europe would be Arctic waste.

If lower grades of beef feeder cattle are to be purchased for immediate fattening in dry lot, the best time to buy them is early in the fall, in order to get them marketed late in the winter or early in the spring. The lower grades usually reach their peak prices before June.

Mr. and Mrs. Lee Montague, of Tucumcari, New Mexico, were here for a short time the latter part of last week on business.

Chester McPeak of Blanco, is visiting his aunt at Pampa. Joe Bailey McPeak is at Bonham, picking cotton.

Strong Plans Big Silver Falls Picnic

A masquerade ball, bathing beauty revue, fireworks display, swimming contest and possibly a rodeo, are among the entertainment features being planned this week by Jack Armstrong, local show promoter while completing negotiations with Bob Webb, proprietor of Silver Falls Lake, to hold a week's entertainment at the lake beginning September 15. Although definite terms have not been made for the entertainment, Mr. Armstrong expressed belief Wednesday that the "Fun Week" would be carried out. Under present plans, the date has been set as September 15, however this date may be changed, Mr. Armstrong said. Definite announcements as to the date, and other features of entertainment will probably be made next week, it was said.

Eggs especially packed for storage in new cases made of odorless white wood, with new fillers and flats; are called "storage packed" and sell for slightly higher prices per dozen than do those packed in other ways.

E. M. Haynes and son, Solon, of Chillicothe, Texas, are here for a visit with Mr. Haynes' cousin, A. V. Haynes and wife.

EAGLE HUNTS FROM WRIST LIKE FALCON OF LONG AGO

Captain C. W. R. Knight, English bird photographer who has just concluded a lecture tour in the United States, owns the only tame eagle in the world which will hunt from his wrist like falcons did in days of old.

Training the eagle, Capt. Knight told a writer for the American Magazine, was one of the most painstaking jobs he has ever attempted, not even excluding dropping himself over cliffs to photograph the savage birds in their aeries.

"When I received this bird," said Knight, "he weighed thirty pounds and was very savage. In order to cure him of fear, I placed him in a dark room, where he would not see strange people and sights. I fed him in the dark at first until he would eat from my hand as I stroked him with a feather. Later I fed him by candle light and then by daylight. He had absolutely no fear of me.

FARMER EVER AT WAR

While farming is apparently the most peaceful of pursuits, in reality the farmer is everlastingly at war. Not with his fellowmen, but with the billions of insects and other animal life which menace his crops on every hand.

The boll weevil, the army worm, the corn borer, the byss moth, the cabbage butterfly and other herds of insects and parasites are working day and night to set his best efforts at naught. And each of these enemies presents a difficult problem.

Without scientific aid in fighting insects, it is asserted by high authorities that in time human life would become extinct. The insects and parasites would completely overrun the earth.

It is some comfort to know, then, that under the auspices of the Department of Agriculture, earnest scientists are working diligently to find better means of controlling these pests, and are meeting with a fair degree of success.

Information of the utmost value to the farmer is available through the county farm agents, bulletins from government sources, articles by experts published in the press, and the example of informed neighbors. He owes it to himself to profit by this information and cooperate with these agencies which stand ready to aid him in his warfare against destructive insect pests.

TECH GRINDING OUT COACHES FOR HIGH SCHOOL ATHLETICS

Lubbock, Texas August 10.—The destinies of athletic teams of five high schools of the South Plains will be ruled by a new crop of coaches during the coming season. The coaches are former athletes of Texas Technological College. Their appearance this year will be the first of a fast increasing group, next year's graduation to lose a number of other athletes of the College who are planning to coach.

Marlin R. Hayhurst, quarterback for the Matadors for the past three years, is to coach at Brownfield. Winfield Nicholas, fullback and captain of the first Tech squad, will direct the Tahoka high school team. J. R. Dennison, Matador linesman, will be at O'Donnell. Kenneth Hemphill, stellar basket ball man, will coach the Spur high school while Clyde Brown, track star for the past three seasons, will coach at Jayton. Four of the men received their degrees from the College this year.

'TELEPHOTO' GETS RIGHT CHICAGO COPS UNIFORM

"Telephoto," the new process of sending pictures over telephone wires, averted a costly delay in starting production of a big "movie thriller," according to the Texas Public Service Information Bureau.

A celebrated screen artist had been cast for the role of a Chicago policeman. At the last minute it was discovered that the wardrobe department was unable to dress him properly, as it lacked the details of a "Windy City" officer's uniform.

From the studio on the west coast flashed an appeal to the police department at Chicago. A photograph of the habiliments of a police officer was immediately transmitted by telephone to Hollywood. Two hours later the actor was properly outfitted for his part.

DERRIS IS THE CAT'S RELIEF

Powdered derris root (from a tropical plant) is exceedingly effective in destroying fleas on cats and dogs, if used when fresh, says the U. S. Department of Agriculture. The material may be mixed when used with two parts of flour or cornstarch and dusted into the hair of the animal with a shaker, or about ½ teaspoonful of the pure powder may be scattered in the hair, especially on the animal's neck and back. If animals are exposed to infested premises this treatment should be repeated after ten days. It is important that animals be kept from beneath dwellings, as breeding of fleas progresses rapidly in such places and it is difficult to treat these places. In general, fleas are more abundant in the summer and fall than at other seasons of the year, and rainy summers are especially productive of outbreaks of fleas. Such outbreaks are always associated with dogs, cats, or hogs. The fleas breed in the dust in the sleeping places of these animals. Fleas may breed in countless numbers under houses, in basements, or in out-buildings when pet or stray animals have access to them. From these centers the fleas frequently spread or are carried into houses and barns. A thorough spraying of such breeding places with creosote oil will usually solve the difficulty. A good force pump, not a hand atomizer, should be used for spraying the creosote oil. If fleas have gotten into the house, an easy and inexpensive method of destroying them is to scatter 5 pounds of flaked naphthalene over the floor and close the doors and windows tightly for 24 hours. Afterwards the naphthalene may be swept into another room and used again, if desired.

A new type of flat for shipping eggs has been devised which has given excellent results in preventing breakage. This is known as the cup flat. Two of the flats placed back to back with the cups facing out are used in the bottom of each side of the case and either one or two flats are used on top as padding. Ordinarily no excelsior pads are used with this pack, although the methods of packing may be combined. The fillers fit down between the cups and are prevented by them from sliding or shifting over the flats.

Chewing gum is hard to remove from clothing, and sometimes leaves a stain. Chewing gum usually contains a gum known as chicle, which has been boiled down, flavored and sweetened. Resins of various kinds are sometimes used. A gum stain can often be softened with egg white and then washed. Prolonged treatment with carbon tetrachloride is also satisfactory, as a rule, although it may be necessary to remove traces of sugar by sponging with water at intervals.

The temperatures of the moon vary tremendously because there is no air blanket to protect it.

SAYS WASTE IN FARMING WOULD WRECK INDUSTRY

What is wasted in farming would wreck an industry and the fact indicates that farming is probably the soundest institution in the country, Farm & Fireside declares editorially this month.

"To begin with," says the article, "\$20,000,000 worth of milk is rejected and returned to dairymen annually because it is not kept clean and cold. Farm fires, caused by lightning, defective chimneys or carelessness, all preventable, cost \$150,000,000 a year and besides 3,500 farmers' lives. Soil erosion is estimated by experts to cost \$200,000,000 a year. One packer reports that nearly one-sixth of all the hams in his week's kill of hogs were damaged by bruises inflicted in shipping, bruises that had to be considered in the price of the hogs."

The article continues, telling of other unestimated losses such as those sustained by expending labor uselessly on worn-out soil or by feeding stock on one grain without balancing the ration with other food.

"No one can estimate the waste of feed and labor involved in giving salable hay and grain to livestock and poultry infested with worms, parasites and diseases, nearly all preventable," says the writer. "Facts like these go far to explain why some farmers are always doing well while others fare badly."

MILK USED IN BREAD MAKING IMPROVES NUTRITIVE VALUE

In making white bread the use of whole or skim milk to supplement the proteins and minerals of wheat flour is strongly recommended by the United States Department of Agriculture. Since bread is a staple foodstuff, the use of milk in bread would insure a better nourished population.

Dry skim milk may be used in bread making with good results. In addition to supplementing the nutritive value it improves the general appearance of the bread loaf and enhances its ease of manufacture.

There are, however, certain differences in flours and in their reaction to skim milk in the dough which influence the ease of bread manufacture and necessitate special attention to certain stages of the process. In order to determine what these differences in flours are and how they affect the handling of bread made with dried milk, a study was made by the Bureau of Dairy Industry of the United States Department of Agriculture.

It was found that the hard spring wheat flours used in the experiments reacted more favorably to the use of dried skim milk than did winter wheat flours. The range of fermentation time in which doughs give good bread is increased by using skim milk. This adds to the ease of manufacture and is a very important property. The lactose of the milk imparts a desirable golden-brown color to the crust of the baked loaf. The texture and color of the crumb are also improved.

Repair and Save Money

Keeping your buildings in repair is one of the best investments you can make. A repair that will cost but a few dollars to make this year, may develop by next year so that it will cost many dollars. We have the necessary materials with which to do this work. Take the time today to check up on your needs and then order the required materials. From—

LOCAL SCOUT TROOP WINS SECOND HONOR AT RALLY

Local Boy Scout troop 43 was awarded second place for the best troop work exhibited during the District Rally of the Central Plains Area last Tuesday at Plainview. Scout troops were represented from Plainview, Floydada, Quitaque, Matador and Abernathy. More than 100 boys entered the various contests.

Two Plainview troops tied for

first place in troop honors with six personal awards each. Floydada Troop 43 won five awards and local Troop 44 won two ribbons. Visiting scouts were entertained at the noon hour by the Plainview Rotary Club. The contests consisted of archery, first aid, swimming, diving, fire by friction, fire by flint, life saving and various other scout test work. Mrs. E. F. Eastridge, Mrs. O. L. Stansell, Mrs. Jno. Farris and E. T. Hanks accompanied the following

members of troop 43 to Sam Rutledge, William Bara, Eastridge, John Farris, Kinris, Carl Marshall, Gaines, Pat Stansell, Herrin Strickland, Hanks, Elwood Patty and Elvin Er. Troop 44 was accompanied by and Mrs. F. L. Davis and W. Gound. The following members attended the rally: Carl Langford, L. Stovall, Cap Felton and Ed Baird.

FALL COATS

Stunning Models \$69.00 to \$125.00

All-Occasion Models \$25.00 to \$49.50

Ingenious, indeed, is the use of fur in smart new coats

Such flattering furs as they are, too—wolf, kit fox, caracul, dyed squirrel, beaver, fitch and seal. You may choose luxurious, dressy coats of suede-like materials, or the more tailored type of new Rodier woollens and smart tweeds. Beautiful warm shades for fall, in new styles, copies of imports.

Martin Dry Goods Co. "The Store With The Goods"

The Peoria Disc Shoe Means More Per Acre

The big secret of extra yields with Peoria Drills is the famous disc shoe. No other machine has it. That's why more and more Peoria's are sold each year. When you buy Peoria Drills with the patented disc shoe, you are getting the best, most scientific machine made. Use a Peoria just one season and you would not take double the price you paid for it.

No Other Has This Shoe

The disc cuts ground, stalks and trash. The shoe opens the furrow and deposits the seed upon a packed seed bed and immediately covers it. Safe from birds and wind. Bearing in discs guaranteed for the life of the drill.

Should any foreign matter, such as stones, nails, bolts or nuts enter the feed, that cannot pass through, the gears will not become broken. Only the wood pin may shear off, which can be replaced by the farmer himself, thereby saving expense and delays. This feature alone is worth \$10 to any farmer purchasing a Drill.

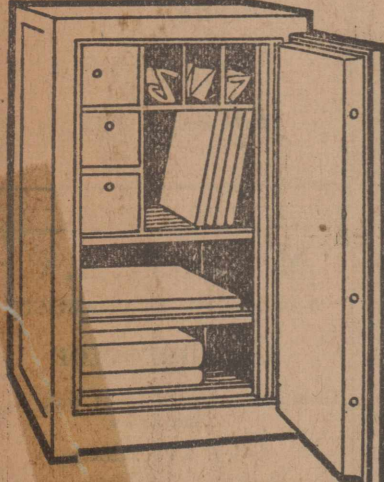

The Peoria is the only one made with positive force feed which actually measures the seed. Economy in seed and more profits for you, follow the use of Peoria Drills.

Peoria Drills are made in all sizes for all conditions. Single and double disc; plain or fertilizer. Also Lister Drills.

NOTICE

Burl Bedford, City Secretary of the City of Floydada, Texas do hereby give notice of the things contained following ordinance.

ORDINANCE NO. 121

ORDINANCE OF THE CITY OF FLOYDADA, TEXAS DETERMINING THE NECESSITY OF LEVYING AN ASSESSMENT AGAINST THE PROPERTY AND THE OWNERS THEREOF ABUTTING UPON A PORTION OF VIRGINIA, MAIN, AND WALL STREETS, AND THE EAST AND WEST ALLEY IN BLOCK 61, OF THE ORIGINAL TOWNSITE OF FLOYDADA, IN THE CITY OF FLOYDADA, TEXAS, FOR A PART OF THE COST OF IMPROVING SAID STREETS AND ALLEYS, AND FIXING A TIME FOR A HEARING OF THE OWNERS, OR AGENTS OF SAID OWNERS, OF SAID PROPERTY, OR OF ANY PERSONS INTERESTED IN SAID IMPROVEMENTS, AS PROVIDED BY CHAPTER 106, TITLE STREET AND ALLEY IMPROVEMENTS, GENERAL AND SPECIAL LAWS PASSED BY THE FORTIETH LEGISLATURE AT THE FIRST CALLED SESSION, MAY 9TH TO JUNE 7TH, 1927, AND THE ORDINANCE OF THE CITY OF FLOYDADA, AND DIRECTING THE CITY SECRETARY TO GIVE NOTICE OF SAID HEARING, AND EXAMINING AND APPROVING THE STATEMENT OR REPORT OF THE CITY ENGINEER, AND DECLARING AN EMERGENCY.

BE IT ORDAINED BY THE CITY OF FLOYDADA: That, whereas, the City Council of the City of Floydada, Texas has heretofore by ordinance duly passed and approved ordered the improvement of the following streets and alleys, to-wit:

- Virginia Street from the East property line of Main Street to the East property line of Wall Street
- Main Street from a point 4.5 feet South of the North property line of Virginia Street to a point 9.5 feet North of the South property line of Jackson Street
- Wall Street from the South property line of Mississippi Street to the South property line of Kentucky Street
- Wall Street from the South property line of Kentucky Street to the South property line of Tennessee Street
- Wall Street from the South property line of Tennessee Street to the South property line of Georgia Street
- Wall Street from the South property line of Georgia Street to the South property line of Houston Street
- Wall Street from the South property line of Houston Street to the South property line of Crockett Street
- The East and West Alley in Block 61, Original Townsite of Floydada, from the East property line of Main Street to the West property line of Wall Street

WHEREAS, plans and specifications for the improvement of said streets and alleys have been duly approved as required by Chapter 106, Title Street and Alley Improvements, General and Special Laws passed by the Fortieth Legislature at the First Called Session, May 9th to June 7th, 1927 and the City of Floydada; and

AS, as required by the said ordinance and statutes, after advertising for bids, the work of improving said streets and alleys, between the points above named has been let to the L. H. Lacy Co. to improve with a six-inch reinforced concrete pavement, including excavating, grading and filling and concrete curbs and gutters, and necessary work in connection therewith, as provided by the said plans and specifications; and

WHEREAS, a written contract has been entered into by and between the City of Floydada and L. H. Lacy Co. the 17th day of August A. D. 1923, for the construction of said improvements;

WHEREAS, the said L. H. Lacy Co. has duly given bond for the performance of said work, and the City Engineer of Floydada has, in accordance with the ordinance and the statutes, filed his report with the City Council to the cost of said improvements, and as to all other matters required by ordinance and statutes;

Now, therefore, BE IT ORDAINED BY THE CITY OF FLOYDADA: That the report or statement of the City Engineer filed with the City Council describing the abutting property and giving the names of property owners, number of front feet and the cost of improvement chargeable against each property and its owner, having duly examined, is hereby approved.

BE IT FURTHER ORDAINED: That the City Council does hereby determine to assess part of the cost of improvements against the owners of the property abutting thereon, and against their property and that the cost of said improvements shall be paid and defrayed as follows:

(a) The total cost of curbs and walks shall be assessed against the abutting property and the owners thereof.

(b) The City of Floydada shall pay an amount equal to the cost of improving all intersections of said streets and alleys with other streets and alleys, said amount being equal to or greater than one-tenth of the total cost of said improvements, (except cost of curbs and walks.)

(c) After deducting the proportion of the costs provided for in sub-sections (a) and (b) above the total cost of such improvements shall be paid by the owners of property abutting on said streets and alleys to be improved, and shall be assessed against them and their respective parcels of land abutting on said streets and alleys and said assessment shall be made in accordance with the provisions of Chapter 106, Title Street and Alley Improvements, General and Special Laws of Texas, passed by the Fortieth Legislature at the First Called Session, May 9th to June 7th, 1927, and the Ordinances of the City of Floydada, That the said assessment shall be made after the notice to said property owners and all interested persons, and the hearing hereinbefore mentioned, and that the said portion of the said cost of improvements to be assessed against such property owners and their property shall be in accordance with the Front Foot Rule or Plan, in the proportion that the frontage of the property of each owner bears to the whole frontage of the property to be improved; provided, that after such hearing, if such plan of apportionment be found to be not just and equitable in particular instances, the City Council shall so apportion all said cost as to produce a substantial equality between all such property owners abutting on said portion of said streets and alleys, having in view the enhanced value of that property, and the benefits derived from such improvements, and the burdens imposed upon them by such assessment, and that in no event shall any assessment be made against any owner or his property in excess of the enhanced value of such property by reason of such improvement. That the proportionate cost of such improvement which is contemplated to be assessed against such owners and their properties shall become due and payable as follows:

One-tenth payable within sixty (60) days after completion and acceptance of the work by the City of Floydada, Texas; one-tenth payable one year after said date; one-tenth payable two years after said date; one-tenth payable three years after said date; one-tenth payable four years after said date; one-tenth payable five years after said date; one-tenth payable six years after said date; one-tenth payable seven years after said date; one-tenth payable eight years after said date; one-tenth payable nine years after said date, together with interest on said date at the rate of eight (8) per cent per annum; and reasonable attorney's fees and all costs of collection in case of default. That the total proportionate part of such improvement which is contemplated to be assessed against such owners and their respective properties, and the names of the owners of property abutting on said streets and alleys, aforesaid, properties to be improved and description of that property, and the amounts proposed to be assessed against them respectively for paving and for curb and gutter, and walks, and grand total thereof; which said sum does not and shall not in any event exceed nine-tenths of the total cost of said improvements, except curbs and walks, is as follows:

School Days Near Again; Here's Floydada Kindergarten Band

HATS

For Fall As
Sponsored By Paris

Deft touches of master creators are indeed noticeable in this exclusive display of chapeaus. Dainty trimmings, adorable shapes, smartest materials, are all combined to make this showing one of the finest we have ever offered.

The Hat Shop

Mrs. E. P. Nelson - Props. - Ruth Brown Hall

In a few days the school bells will be ringing again, which is a reminder that this will be the first year for a large number of kiddies in Floydada public and private schools, some of whom will be emulating the above class of little fellows, children of Floydada parents. These tots were the 'band' in the kindergarten class of Mrs. Harper Scoggins and were presented as one of the principal features in the closing exercises of the kindergarten last year.

THE STATE OF TEXAS

To The Sheriff or any Constable of Floyd County.—GREETING: YOU ARE HEREBY COMMANDED That you summon, by making Publication of this Citation in some newspaper published in the County of Floyd, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published once each week for four consecutive weeks previous to the return day hereof Geo. F. Stevenson, W. V. Thornton, H. L. Borders, C. L. Young, Horace Thomas, the Heirs of Geo. F. Stevenson, The heirs of W. V. Thornton, the heirs of H. L. Borders, the heirs of C. L. Young, and the heirs of Horace Thomas, whose residences are unknown, and the names of the several heirs of the several parties above mentioned being unknown, to be and appear before the Honorable District Court at the next regular term thereof, to be holden in the County of Floyd, State of Texas, at the Court House thereof, in Floydada, Texas, on the 24th, day of September, A. D. 1928, then and there to answer the petition filed in said court on the 21st day of August, A. D. 1928, in a suit numbered on the docket of said court, No. 2097, wherein J. C. Dial and his wife, Lula M. Dial, are plaintiffs, and Geo. F. Stevenson, the heirs of Geo. F. Stevenson, W. V. Thornton, the heirs of W. V. Thornton, H. L. Borders, the heirs of H. L. Borders, C. L. Young, the heirs of C. L. Young, Horace Thomas, the heirs of Horace Thomas, and Mrs. E. E. Patric, a widow, are defendants.

The nature of plaintiffs' demand being as follows, to-wit: A suit in trespass to try title to recover the title and possession of a certain tract of land situated in Floyd County, Texas, described as follows, to-wit: Fifty acres of land out of and a part of the D. F. Davis Homestead Donation Survey, patented to R. E. Davis as assignee of the said D. F. Davis by Patent No. 492, Vol. 27, more fully described by metes and bounds as follows, to-wit: BEGINNING at the Northwest corner of the said D. F. Davis survey for the

Northwest corner of this tract; Thence South 712.5 varas for the Southwest corner of this tract; Thence East 475 varas for the Southeast corner of this tract; Thence North 475 varas; Thence West 237 1/2 varas; Thence North 237 1/2 varas; Thence West 237 1/2 varas to the place of beginning. Plaintiffs claiming title as follows:

Patent No. 492, Vol. 27 from the State to R. E. Davis. Deed from R. E. Davis and wife to Geo. F. Stevenson, dated February 24th, 1896. Geo. F. Stevenson and wife to W. V. Thornton, dated March 15th, 1897. Deed from W. V. Thornton and wife to H. L. Borders, dated July 23rd, 1900. Deed from H. L. Borders and wife to Mrs. E. E. Patric, dated Oct. 21st, 1899, and correction deed dated April 20th, 1916, from Geo. F. Stevenson, the first in which he is joined by his wife, to Mrs. E. E. Patric, who plaintiffs allege is one and the same person as Mrs. E. E. Patric, she having been married at one time to a man by the name of Barre. Deed from Mrs. E. E. Patric joined by her husband, L. T. Patric, to C. L. Young, dated Oct. 9th, 1900. Deed from C. L. Young to Horace Thomas, dated March 28th, 1903. Deed from Horace Thomas and wife to the plaintiff, Lula M. Dial, dated August 1903.

Plaintiffs further set out that the name of the County was omitted through clerical error or oversight from several of the deeds, and that it was intended that the land should have been described and set forth as being in Floyd County, Texas; also, that through an erroneous impression at the time of drawing the deeds, it was thought that this 80 acre survey and the 80 acre survey adjoining on the East was one and the same survey and constituted a 160 acre survey, and the field notes were drawn on the basis of such 160 acre survey, but in fact the land herein sued for was intended to be conveyed; and plaintiffs ask that the cloud be removed from title by reason of such errors; also, the plaintiffs plead the five and ten years statutes of limitation as provided for by law.

HEREIN FAIL NOT, And have you before said court, on the first day of the next term thereof, this White, with your endorsement thereon, showing how you have executed the

Floydada, Texas

same. GIVEN UNDER MY HAND AND SEAL OF SAID COURT, at office in Floydada, Texas, this the 21st day of August, A. D., 1928.

T. P. GUIMARIN, Clerk, District Court, Floyd County, Texas.

(SEAL) By Mabel Jenkins, Deputy.

Mr. and Mrs. Floyd V. Adams of Wayside spent last weekend with her sister, Mrs. W. C. Grigsby.

Jacoby DeLoach left Sunday for Marshall where he was called because of the illness of an uncle.

Would You Know One If You Saw It?

If you ever came face to face with a germ, would you recognize it? Of course it is not likely that you ever will see a germ, unless you own a tremendously powerful microscope, for you would have to magnify one over a thousand times to make it as big as a pin head. But you should recognize the fact that these tiny germs can get into your blood streams through the smallest cut, and give you typhoid fever, tuberculosis, lockjaw, blood poisoning, and many more dangerous and perhaps fatal diseases. There is one sure safeguard against these dangers — washing every cut, no matter how small, thoroughly with Liquid Borozone, the safe antiseptic. You can get Liquid Borozone at FLOYDADA DRUG CO.

BLACK FLAG

Liquid . . . the deadliest known killer of insects— costs only 25 cents for the half-pint size. Then why pay 50 cents—the price of other liquids?

Money back if not entirely satisfied

Black Flag comes in two forms— Liquid and Powder. Both are sure death to flies, mosquitoes, roaches, ants, bed-bugs, fleas, etc.

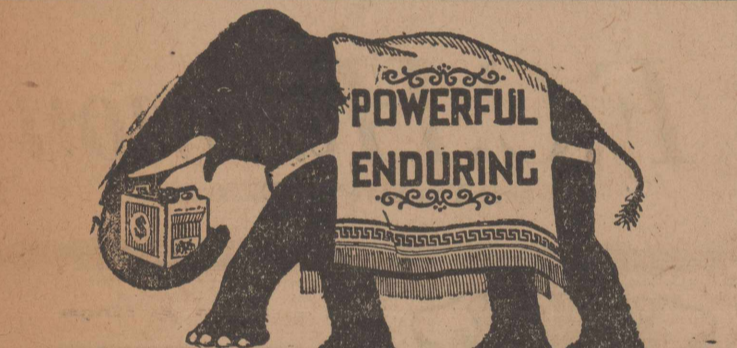

A cent a pound More on 2000 pounds of Hogs

A man living near Clyde, New York, had 2000 pounds of hogs to sell. He telephoned a dealer who offered him nine cents a pound. He telephoned a second dealer who offered nine and a half cents, and a third who offered ten cents. He sold to this dealer. If it had not been for the telephone calls he probably would have sold to the first one. Amount earned by telephoning, \$20.

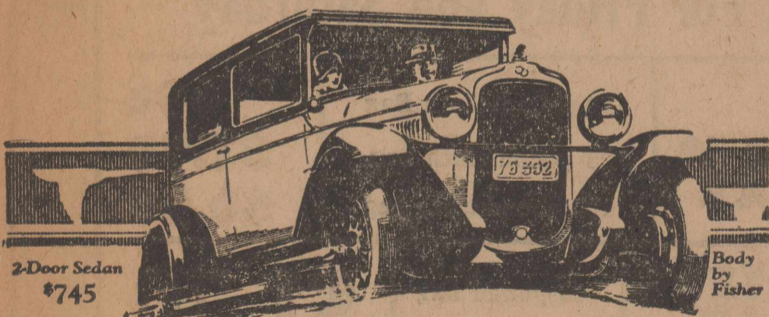

The telephone earns money for the farmer. Finds where and when to sell at the best price. Runs rush errands in emergencies. Orders a machine part when there is a breakdown. Calls relatives and friends. Brings the doctor in a hurry. Pays for itself many times over.

The modern farm home has a telephone.

LOST Time from Work

Mr. Albert Garland, of Somerset, Ky., recently said: "I used to work in the mines, but lost quite a bit of time on account of sick spells I had. I would get to having a bad taste in my mouth, and a very dull, tired feeling and ache. My mother told me to try Black-Draught, which I did, and after a few doses I felt much better. Now I take it as soon as I feel the least bad, and I don't get down. I certainly can say that it has done more for me than any other medicine I have ever taken. I never get without Black-Draught. If I go on a visit, I take a package along in my suitcase. My health is better now than it has been in years." Black-Draught is prepared from medicinal roots and herbs, of highest quality. Price 25c. Try it.

J. J. FRIZZELL'S CAR STOLEN

A Ford touring car, 1926 model, belonging to J. J. Frizzell, who lives between Floydada and Lockney, was stolen from the east side of the court house square Saturday night. Mr. Frizzell's son had driven the car to town and parked it about 9 o'clock that night and missed it when he started home about 11 o'clock. No trace of the car has been found.

Coach Jones Arrives To Start Grid Work

New Whirlwind Leader Will Have Clean Slate to Start Season.

J. H. Jones, the man who has the job of building an irresistible Whirlwind, arrived in Floydada Wednesday afternoon and immediately upon arrival began a thorough research for material to work with. Jones is the new coach of the Floydada High School Whirlwind athletes and is already laying plans for his football eleven. First practices and work-outs by the new recruits will begin next Monday on the afternoon of the first day of school.

Coach Jones hails from Baylor University. He is a two-letter man, lettering in both basketball and track. Four years ago he set a new Southwestern Conference record in high hurdles. He was also a member of the Baylor football squad for two years.

The new coach is about six feet tall and weighs approximately 165 pounds. He has muscles hardened from out door work. He returned last week from Ann Arbor, Michigan, where he spent six weeks attending a special athletic coach's school. He made a special study of football tactics and strategy under Fielding H. Yost, nationally famous football coach. In making a study of football, the coaches received a two hour lecture each morning and each afternoon the principles were put to a test by the coaches themselves on the gridiron. Mr. and Mrs. Jones made the 1500 mile trip by auto.

Coach Jones has practically a clean slate to start the 1928 season. All of last year's gridiron stars graduated and only a few of the second year letter men remain for the new coach to begin the season. The letter men who remain in the squad this year are linemen and a complete new backfield must be built.

Although second year gridsters will be lacking in this year's line-up Coach Jones feels that there is an unlimited supply of raw material in the large number of new students that are expected to enroll from the rural schools. From this new material he will shape his new Whirlwind squad.

OLD TIMES IN THE SOUTH

The land was cleared by grubbing the underbrush and girdling the trees with the axe or fire and leaving them to stand. The limb, bark, and trash from these trees kept the land loose and fresh for years.

Piling the trees constituted the log-rolling so famous in the South. In reality the logs were carried, not rolled. They were carried on sticks, called hand-spikes, about four feet long. The spikes were placed under the log and a man stood at each end. At a signal from the foreman, all rose and moved slowly forward. The rule was to stand close to the log, shoulders well back, and make short steps. The men were matched according to age and strength.

Oxen eventually took the place of the log rolling and it was much quicker. A good team of oxen could do the work of a dozen men.

The old worm zigzag fence was built of 10-foot rails cut from the clearing. The openings were slip gaps, draw bars, and pole gates. The standard gate was pig tight, bull strong, and horse high.

The first plowing was done with a jumping colter or cutter. This plow cut all the small roots and jumped the big ones. Hence its name. Land cut, cross cut, and harrowed was ready for planting. The rest of the plowing was done with the bull-tongue plow and one horse.

Everything was grown that went on the table except salt and coffee. During the war we furnished these. We dug up our smokehouses, dripped the dirt in ash hoppers and boiled it down, and made our own salt. It was brown but answered the purpose. We made coffee from rye, crisp potatoes, etc., and sugar from the sap of the maple tree, and supplemented it with honey and sorghum.

Biscuit bread was a little scarce. My grandfather harvested his first wheat crop with a reap hook, threshed it with a pole, and fanned the chaff off with a sheet.

My father cut his first crop with a scythe blade, piled it on a big flat rock, tramped it out with horses, cleaned it with a fanning-mill, ground it on a corn mill, and sifted it through a sieve. But with the advent of the reaper and thresher biscuit became plentiful.

Road Tax Collected By Muddy Roads Big

Travel In South Crippled By Flood Waters; Cost Terrific.

Thousands of miles of rural roads in North and South Carolina, Virginia and Georgia were entirely useless during the recent rain and flood siege, a wide-spread investigation reveals.

In times of six-inch rainfalls in 24-hour periods, when swollen streams threaten both human life and livestock, when flood supplies and medical attention are needed, then the full value of well paved roads is emphatically pictured, and the lack of them intensifies the trouble ten-fold.

Out of Atlanta there were but two roads which could be traveled during the flood without danger and with any degree of comfort. These were the permanently paved highways leading to Macon and to West Point. These highways served as though nothing unusual had occurred, as though elsewhere hundreds of anxious rural citizens were not to be found at all hours of the day and late into the night prying cars from mud-holes, or else deserting them on the theory that one mud-hole is no better than another.

No through state highway could be traveled, with the exception of the 50-mile stretch of concrete leading south from Savannah on the Coastal Highway.

These anti-travel conditions have been encountered many times by motorists in many states for even rainfalls of far less disastrous proportions have converted passable dry-weather roads into sloughs of despond.

To calculate the cost of roads susceptible to unusual weather conditions is next to impossible, for so many factors of astounding proportions must be considered. First of all, the routine of every day business and every day life, is halted. Then, there is the actual physical loss of washouts, destroyed and weakened road surfaces and the cost of replacement. The wear and tear on the automobile and the many extra costs of car operation on poor roads when they become usable once again are big items.

A Georgia editor in writing of the situation in his state utters a truism that is applicable to any community: "There can never be any progress in completing durable surfacing so long as the millions of dollars poured annually into the road fund must be used to rebuild shoddy paving, and to maintain thousands of miles of sand-clay and unpaved roads that blow away in dry seasons, and wash away in wet seasons, and are never perfect at any time."

Herein are contained sound reasons for bond-issue road building. By making readily available the assured road building income of a few years hence, the state passing a bond issue is enabled to go ahead on a wholesale road purchasing plan, rather than the piece-meal "pay-as-you-go" plan which limits the mileage of upkeep-saving pavements.

POT OF GOLD SAVED AUTHOR OF "MAN WITH HOE"

Discovery of an actual pot of gold by Edward Markham, author of the noted poem "The Man With the Hoe," was responsible for giving this and other classics to the world, according to M. K. Wisehart, writing in the current number of The American Magazine.

Markham, who with his sturdy pioneer mother had moved from Oregon to California to become ranchers while his father farmed in the adjoining state, developed a thirst for poetry from a country schoolmaster who, for a brief time, recited excerpts from the classic during recesses. There was not a book of poetry in the whole county at that time and not enough money in the slender household to purchase them. Young Markham toiled on in the fields and finally saved enough to buy a few coveted volumes including an unabridged dictionary.

But higher education was still not in sight until one day while digging for soap root with which to do the family washing, his pick struck an old cloth beside a huge stone. He continued digging and, within a few minutes, had unearthed nine hundred dollars, buried long ago by some lost miner. The money enabled him to go to the state normal and while there he saw the Millet picture, "The Man With the Hoe," which inspired his poem. From that time Markham had a rapid rise in both wealth and fame but a few years later lost nearly all his wealth. He now lives in a modest house in Saten Island, New York, and by his lectures and writings he makes a comfortable living although well over seventy years old.

TO THE VOTERS OF PRECINCT 4

I want to thank the voters of Precinct Four for the large vote given me in the recent run-off campaign for Commissioner, and although I failed to get the office I want to say that the efforts of my friends and supporters are thoroughly appreciated just the same.

With best wishes,
Respectfully,
Earl Rainer.

Small articles of wood on the farm such as fence posts, poles, and hog and chicken houses, that are exposed to much dampness and consequent rot, may be made more durable by preservative treatment with coal-tar creosote. Good results can be obtained by heating the wood in the creosote oil in an open tank and allowing the wood and oil to cool together. This treatment will enable wood to last 3 to 5 times as long as untreated wood.

Remington Portable typewriters write good and last long.

SOUTH HEIGHTS ADDITION LOTS SOLD AT AUCTION

Every lot in South Heights Addition was disposed of in the novel auction sales by J. B. Couric, promoter of the new three block addition in south Floydada out of the original Bartley lands last week, the sales being featured by the presentation of dollar bills, candy, and five and ten-dollar gold pieces for bidders, guessers on sales volume and individual sales.

Col. A. W. Thomas, of San Antonio, conducted the auction sale. Ownership of the forty building sites in the new addition was scattered out among a score of buyers.

JUDGE MAYFIELD LOSES IN HALE CO. PRIMARY CONTEST

Judge Geo. L. Mayfield, of Plainview, lost in the run-off primary vote Saturday of last week, his opponent being E. C. Abernathy, of Abernathy, who won by a slight margin.

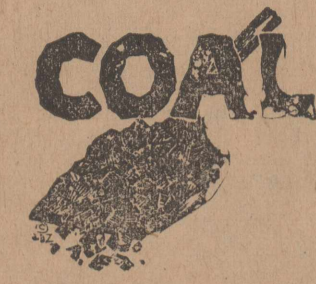

Among other local contests in the plains region of interest to Floyd County people are the sheriff's races in Lubbock, where Bud Johnson was beaten by Wade Hardy, in Swisher where Walters was beaten by Mosley for Sheriff and in Potter County where Thompson won the nomination for sheriff over Burton Roach. B. M. Towery, Hale County Assessor, was beaten by J. M. Johnston in the run-off.

In Amarillo the sheriff's office is a rich plum, the salary and fees of the office being estimated at \$25,000 to \$50,000 per year.

Mr. and Mrs. H. L. Crow and children returned Saturday from a vacation trip to their old home at Santa Rosa, where they visited friends and relatives. A fishing party was included in the entertainment provided for them during their stay in that city. They also visited in other points in Mexico.

Locals and Personals

Kenneth Henry, who is attending college at Siloam Springs, Ark., and who was expected to spend several weeks this summer with his parents, Mr. and Mrs. E. C. Henry, will not be able to make the visit according to a letter received by his parents this week. He has been attending the summer term and the fall term begins so soon after the dismissal of the summer term that he decided not to make the visit.

Jack Deakins manager of the Floydada Theatres, returned Tuesday from two weeks vacation trip spent at Chattanooga, and Knoxville, Tenn.

Judge E. C. Nelson, Jr., of Amarillo, was a business visitor in Floydada Friday.

Mr. and Mrs. Clarence Snodgrass and little son, Clarence, Jr., of Amarillo, visited relatives in Floydada Tuesday. They came down for their little daughter, Billy Max, who has been here for three weeks visiting her grandparents, Mr. and Mrs. C. Snodgrass, and Mr. and Mrs. M. F. Hampton.

Mrs. C. H. Davis, who recently underwent an operation at Lubbock, went to Lubbock Tuesday for treatment. She was accompanied by her sister, Miss Annie Lee Durham, of Steeling City, and Mr. and Mrs. J. C. Gilliam.

Mrs. Frank Moore and son Joe, Dick, returned Sunday from a two weeks visit in Amarillo, with relatives and friends.

Mrs. Edwin Heald and children, who spent the summer at Lubbock, came over Monday to again make Floydada their home. Mr. Heald, who is employed at the Farm Bureau Gin Company of Lubbock, is expected to join his family in about a month.

Mrs. Darwin Sayner of San Angelo, left Thursday for her home after a visit here with her sister, Mrs. Jim Lawlis.

Guests of Mrs. Joubert Clement Tuesday were her mother, Mrs. J. L. Craig, and sister Mrs. R. Q. Silverthorn of Plainview.

Charles L. Thomas of Marfa left the latter part of last week after a visit with his mother, Mrs. C. O. Thomas.

Mr. and Mrs. G. L. Snodgrass and children, H. M. Miller and son, Everett, Lois Williams and Miss Kathleen Snodgrass returned Monday from a two weeks vacation trip to Sulphur, Oklahoma and Oklahoma City.

Mr. and Mrs. Harold Craig and son, Dick, of Plainview and Mr. and Mrs. Robert McGuire spent Sunday in Altus, Oklahoma.

Miss Adelaide Scott has accepted a position as bookkeeper with Baker-Campbell Co. and began her work Tuesday of last week.

Misses Jimmie May and Maude Colvin of Ennis were weekend guests of Mrs. C. M. Wilson. They attended school at Colorado University this summer and were on their way home.

Mr. and Mrs. Roy Snodgrass and son Tom Roy, Mr. and Mrs. Luther Fry and John W. Maxwell spent last week end with Mr. and Mrs. Bob Echols of Matador.

Miss Mildred Houston returned Saturday from a weeks visit with her cousin, Mrs. Keith Gamble of Dalhart.

V. A. Leonard returned home last week from Glenrose, where he spent a few weeks for his health.

W. C. Fyffe, of Plainview, has been here this week on a visit with his son D. W. Fyffe and family.

Tom Brazier and Miss Ottie Lee Hefner, of Canyon spent last weekend here visiting with Miss Mildred Abernathy and other friends. They were accompanied by Miss Abernathy who has been attending school in Canyon.

Mr. and Mrs. J. N. Gullion spent Sunday in Quanah visiting with relatives and friends.

S. H. Mitchell, district representative of Purina Feeds with headquarters at Plainview, visited the local dealer, Floydada Mill and Elevator, Tuesday and Wednesday of this week.

Miss Audrey Mae Borum returned Sunday from Canyon where she attended the Teacher's College the last half of summer session. Miss Borum will go to Childress next week where she has a position as primary teacher.

Dr. and Mrs. A. R. Taylor and children, of Vernon, spent last week-end here visiting with Mrs. Taylor's parents, Mr. and Mrs. H. E. Smith. They were accompanied home Sunday by C. C. Hawkins, of Chico, who had been visiting here for the past month.

New Assistant: "Gentleman asks if this flannel shirt will shrink." Proprietor: "Does it fit him?" "No, it's too large." "Yes, of course it shrinks."

THE STATE OF TEXAS

To The Sheriff or Any Constable of Floyd County, Greeting:

YOU ARE HEREBY COMMANDED TO SUMMON, the heirs and legal representatives of J. D. Roberts, C. L. Newport, M. B. Crow, Mrs. J. H. Tackett, Caroline V. Price and James B. Price the names and residences of such heirs and residences of such heirs and legal representatives being unknown to the plaintiffs, and in the same manner you will also summon C. L. Newport, Thos. L. Price, Celeste B. Thomas and her husband Cecil W. Thomas, Juliet Ada Gibson and John G. Gibson and Mrs. Nettie C. Latham, all of whom are nonresidents of the State of Texas, and in the same manner you will summon M. B. Crow, Mrs. J. H. Tackett and J. D. Roberts whose residences are unknown and in the same manner you will also summon the unknown owners of lots 15 and 16 Block No. 85, in the town of Floydada (Floyd City) Texas, by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein; but if not in the nearest county where a newspaper is published, to appear at the next regular term of the District Court of Floyd County, Texas to be held at the court house thereof in Floydada, Texas, on the fourth Monday in September 1928, the same being the 24th day of September 1928, then and there to answer a petition filed in said court on the 15th day of August 1928 in a suit numbered 2086, on the docket of said court, wherein J. G. and C. M. Martin are plaintiffs and the heirs and legal representatives of J. D. Roberts, C. L. Newport, M. B. Crow, Mrs. J. H. Tackett, Caroline V. Price and James B. Price are defendants and C. L. Newport, Thos. L. Price, Celeste B. Thomas and her husband Cecil W. Thomas, Juliet Ada Gibson and John G. Gibson, Mrs. Nettie C. Latham, M. B. Crow, J. D. Roberts and Mrs. J. H. Tackett and the unknown owners of said lots 15 and 16 Block 85, are defendants;

The nature of the plaintiffs cause of action is suit in trespass to try title to recover lots 15 and 16 in Block 85, Floydada (Floyd City) Texas and being out of section No. 65 Block 1 said county and alleging that the plaintiffs on the 14th day of August 1928 were lawfully seized and possessed of said lots above described holding and claiming the same in fee-simple and that on said day the defendants entered thereon and ejected the plaintiffs therefrom and withhold from them the possession thereof to their damages, etc;

Plaintiffs fully set up title to said lots in their petition designating title thereto from Caroline V. Price, the patentee of said land from the State of Texas; through various persons by regular chain of title without interruption;

Plaintiffs further set up title and ownership in said lots under the three, five, 10 and 25 year statutes of limitations alleging that they and those under whom they hold said lots now have and have had peaceable and adverse possession thereof, under a claim of right, in good faith under deeds and instruments of title duly recorded, continuously cultivating using and enjoying the same and paying taxes thereon for more than five years and under title from and under the State of Texas and under deeds and instruments of title duly recorded in the deed records of Floyd County, Texas now having and have had such peaceable and adverse possession with use cultivation and enjoyment continuously for more than 25 years, for more than ten years, for more than five years and for

more than three years continuously prior to the filing of this suit, plaintiffs setting out and claiming title and ownership to said lots under the statutes of limitations above described setting the same out in their petition fully. And alleging that J. G. Martin owns an undivided 5-8 interest and plaintiff C. M. Martin an undivided 3-8 interests in the lots sued for and asked judgment for title accordingly and general relief.

Herein fall not, but have you before said court on the said first day of the next term thereof, this writ with your return thereon, showing how you have executed the same.

Witness T. P. Guimarin, Clerk of the District Court of Floyd County, Texas.

Given under my hand and seal of said court at Floydada, Texas, this the 15th day of August 1928.

(SEAL) T. P. GUIMARIN,
Clerk District Court Floyd County, Texas.

Issued this the 15th day of August 1928.

T. P. GUIMARIN,
Clerk District Court, Floyd County, Texas. 255tc

NOTICE BY PUBLICATION OF FINAL ACCOUNT

No. 354

THE STATE OF TEXAS

To the Sheriff or any Constable of Floyd County—GREETING:

Lou T. Cooksey, Guardian of the Estate of Frank Doyle Brown, Arthur Sylvester Brown, Hattie Ruth Brown and William Carl Brown, Minors, having filed in our county court her final account of the condition of the estate of said minors, together with an application to be discharged from said Guardianship.

YOU ARE HEREBY COMMANDED, That by publication of this Writ for twenty days before the October 1928. Term of County Court, in a newspaper regularly published in the County of Floyd you give due notice to all persons interested in the Account for Final Settlement of said Estate, to file their objections thereto, if any they have, on or before the October Term, 1928 of said County Court, commencing and to be held at the Court House of said County, in the town of Floydada, Texas, on the Third Monday in October A. D. 1928, same being the 25th day of October 1928 when said Account and Application will be considered by

said Court.

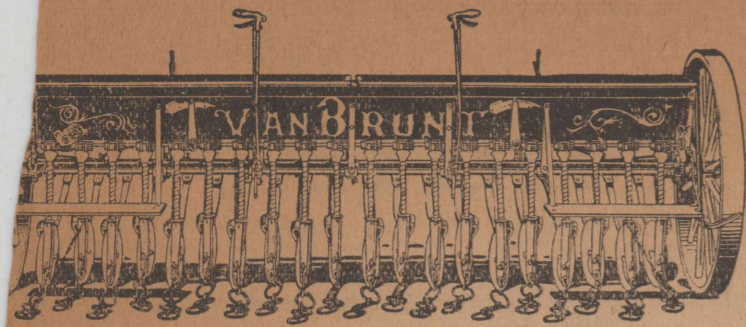

WITNESS Tom W. Deen Clerk of the County Court of Floyd County.

Given under my hand and seal of said Court, at my office in the town of Floydada, Texas, this 28th day of

August A. D. 1928.

(SEAL) TOM W. DEEN,
Clerk C. C. Floyd County.

A true copy, I certify:
P. G. STEGALL,
Sheriff Floyd County.

Paves the Way to Bigger Profits

YOU get uniformity in depth of seed furrow, in planting depth and in covering—the kind of planting that results in bigger yields per acre—when you use the adjustable gate force-feed, non-sagging, steady-running

John Deere-Van Brunt Grain Drill

This drill will, with proper care, maintain its remarkable planting efficiency for many years. It is built strong like a bridge. The frame is supported by extended wheel hubs—drill will not sag; the wheels will always run true.

There are so many good things about the John Deere-Van Brunt Grain Drill we want to show you. We have these drills in several types and sizes. Come in and look over our complete line.

Handles many kinds of seed without pushing or damaging. The Van Brunt adjustable gate force-feed compels an even, continuous flow of seed at all times.

An investment made today in a John Deere-Van Brunt Grain Drill will pay you handsomely for years to come. Remember, it cuts furrows, plants the seed and covers the rows all in one operation—a labor-saver.

Tilting lever keeps the frame level under all conditions and enables you to plant deep and plant shallow.

Handles alfalfa just as easily as it does bearded oat-

THE STATE OF TEXAS

TO THE SHERIFF OR ANY CONSTABLE OF FLOYD COUNTY—GREETING:
 YOU ARE HEREBY COMMANDED, That you summon, by making Publication of this Citation in some newspaper published in the County of Floyd, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published once each week for four consecutive weeks previous to the return day hereof, W. D. QUILLIN and FRED WALCOTT, whose residence is unknown to be and appear before the Honorable District Court at the next regular term thereof, to be holden in the County of Floyd, at the Court House thereof, in Floydada, Texas, on the 24th day of September, A. D. 1928, then and there to answer plaintiff's first amended original petition filed in said Court on the 20th day of August, A. D. 1928, in a suit numbered on the docket of said Court No. 2060, wherein Guy Jacob and Mrs. Sallie B. Slaton are plaintiffs, and A. H. McGavock and Dimple McGavock, A. R. Meriwether, The First National Bank of Plainview, Texas, W. D. Quillin and Fred Walcott are defendants.
 The nature of the plaintiffs' demand being as follows, to-wit: A suit upon ten promissory notes executed by A. H. McGavock and Dimple McGavock, dated September 26th, 1924, for the sum of \$650.00 each, payable to J. H. Slaton and Guy Jacob, or order, on or before January 1st, 1926, 1927, 1928, 1929, 1930, 1931, 1932, 1933, 1934 and 1935, bearing interest from January 1st, 1925 until maturity, at the rate of 8% per annum, payable annually January 1st, as it accrues, and providing that past due principal and interest shall bear 10% interest, and providing that failure to pay principal or interest when due shall, at the election of the holder, mature all said notes, and providing for 10% attorneys fees, if placed in the hands of an attorney for collection, and given as part payment for all of the South one-half of Section No. 11 in Block D-2, Certificate 4/591, situated in Floyd County, Texas, conveyed to said defendants, A. H. McGavock and Dimple McGavock by J. H. Slaton and Guy Jacob by deed dated September 26th, 1924, and to foreclose an express and Vendor's Lien against said land securing said notes, and alleging that The First National Bank of Plainview, Texas holds a note for the sum of \$933.33 and that A. R. Meriwether holds a note for the sum of \$933.33, and that Fred Walcott holds a note for the sum of \$933.33, given by W. D. Quillin to A. H. McGavock as part of the consideration for the conveyance made by said A. H. McGavock and Dimple McGavock for said land to said Quillin, which last mentioned notes are alleged to be secured by the Vendor's Lien against said land subsequent, subordinate and inferior to the plaintiff's Vendor's Lien, and praying for judgment in favor of plaintiffs against the defendants, A. H. McGavock and Dimple McGavock, for the principal, interest and attorneys fees on said ten notes, for costs of suit, and for foreclosure of their Vendor's Lien, as same existed September 26th, 1924, and that the interest of the defendants be disposed of, that the Clerk be ordered to issue an order of sale and that it be ordered that the proceeds of such sale be applied first to the payment of the plaintiffs' debt, interest, attorneys fees and costs of suit, and, second, to the payment of the said debts of The First National Bank of Plainview, Texas, A. R. Meriwether and Fred Walcott, and the balance, if any, paid

Communities Have Returned Contracts

Eight rural communities in Floyd county have contracted for space in the agricultural building for their exhibits. Included in this number are communities which have ever exhibited at the County Fair before but are anxious to demonstrate the productivity of their soil and the spirit of co-operation of their communities.

The list of exhibitors now include the following: Blanco, Harmony, Pleasant Hill, Aiken, Lakeview, Campbell, Allmon, and Starkey. Many of these will also have some demonstration exhibits and entries in the parade.

Although space for only twelve communities had been arranged by the management of the fair a change has been made this week and efforts to take care of every exhibit in the county will be made. Contracts for many as six more spaces are expected to be signed before the opening date of the Fair.

A change in the time allotted to each community to arrange its exhibit has been made and every exhibitor will have the entire day Wednesday, September 26 to arrange their exhibits. This change is being made so that it will not be necessary for those arranging the exhibit to come in and prepare the show taking more than one-half day off from their work. The exhibit, under the new ruling, must be ready by Thursday morning at 8 o'clock.

MAYVIEW MASS MEETING POSTPONED FOR REVIVAL

On account of the fact that a revival meeting is in progress at Mayview this week, the mass meeting called for last night at that place to discuss school district consolidation has been postponed to Monday night, September 10.

The mass meeting was called by County Superintendent Price Scott at the request of interested parties, and notice sent to all residents of Mayview and Newland Districts so as to give all taxpayers an opportunity to discuss the proposal of consolidating the districts and building a school at Dougherty at the meeting.

CAR IS OVERTURNED

While out joyriding Sunday afternoon Mina Lee Solomon's new Ford sedan overturned about three miles northwest of Lockney. He attempted to turn a corner at a rather high rate of speed, it was stated, and the car turned over two and one-half times.

Mr. Solomon was accompanied by Ralph Gordon and Noble House. The boys received some bruises and scratches but none of them were hurt seriously. The car was not damaged a great deal.

FAIRS AND RACES

Fairs are Essential

It has long been known by those who have been identified with the progress of farming and the betterment of the stock-raising industry that the county fairs are necessary and vital to the life of both. Besides the social features, these fairs and exhibitions gives one farmer an opportunity to compare his products with those of his neighbors. The large and small fairs are an integral part of the life of England, France and all other strong nations of the Old World. It is not accidental that one farmer produces better corn than another. Many elements enter into the success of the farmer and stockraiser. The grade of seeds, the methods of cultivation, the time of planting; and in case of stockraising, the selection of the best blood, the kind of food, the manner of feeding and proper shelter—these, and many other elements, bring success. At the fair the producer has an opportunity to compare these products and learn his neighbor's methods, all of which inures to the common good of all. The fair creates competition between farmers. This means better corn, eggs, butter, milk, preserves, fruits, meats—in fact, most things that are vital to the life of the nation, both in the city and the country. It not only increases the wealth of the farmer, but betters the health and prosperity of the Nation. Nothing is truer than the saying that "Competition is the life of trade."

Wholesome Amusements Necessary

It is also proven that the fair cannot exist without some sort of amusements in conjunction with the exhibits of farm products. The fair associations have struggled along in an effort to supply these added amusements with carnivals and vaudeville acts. These travelling artists are all right in their way, and could not be done away with entirely, but they are no longer attracting the crowds. The people have grown tired of throwing hoops at dolls, seeing ballyhoo shows and the like. They are no longer attractions to any great extent.

Horse Races Draw Crowds

Europe learned three hundred years ago that there is only one attraction that is self-supporting and that will keep the fairs alive. This is the age-old sport of horse racing. The fairs in Texas that exist without it are supported by costly advertising and private contributions, and the natural result is that they are slowly becoming extinct. Higher class racing means bigger gate receipts and, therefore, bigger and better fairs.

Racing Needs Regulation.

Racing cannot exist without State regulation. It is a sport, but it is a business as well. Without uniform rules and regulations we cannot expect to get the best horses. To illustrate this need one instance will suffice: There is a scale of weights according to age, etc. It has been proven that a pound more in weight carried means a difference of from a half-length to a length of a horse in one mile, according to the state of the track. A horse which could win handily when properly weighted, may be easily defeated by being made to carry just a few pounds more than its opponents. No regulation as to this, or of any other sort, exists in Texas, because racing is in a sense outlawed.

Present Methods Expensive

The operation of a racing stable is an expensive business. Horses, freight, feed, equipment, veterinary fees, medicines, shoeing, jockeys, helpers, etc., all cost money, and in order for the horsemen to keep going the purses must be large enough for them to at least break even. The fairs cannot pay these without large private subscriptions. These subscriptions are now obtained in the form of actual donations, or in many other forms, such as high-priced catalogue advertising, costly booth spaces, etc., which are now paid for by the merchants, bankers, church organizations and the like. These expenses increase the cost of doing business, for which a few pay. The burden is too heavy, and the contributors have tired of it, and therefore, the fair is fading out. The small country fairs are not the only sufferers. The large expositions are becoming bankrupt and cannot exist much longer.

Contribution System Is Remedy

There is only one remedy, and that is a reasonable racing law. With such a law, the large and small fairs would not only be self-supporting, but would be able to grow bigger and better. The contribution system is successfully used all over the world, except in a few States in America. Last year several state legislatures passed racing laws legalizing this system and creating a commission to control racing. They have found that these laws are immensely popular.

Contribution System Explained

Under the contribution system the spectators contribute a small amount, usually two dollars, toward the entry of a horse. The whole amount thus contributed is received by the fair association, which issues a ticker or receipt for each payment, upon which is printed the name or number of the horse which the donor has selected as the probable winner. After the race is run, the fair association puts the whole amount together and after deducting a small percentage out of which it pays the purses and other expenses, divides the balance among the holders of the tickets on the winning horse. Those who donated toward the entry of the losing horses do not receive any return for their donations, but those who selected the winning horse receive back their money plus their pro-rata part of what ever surplus may exist after the fair association deducts its percentage.

Bookmaking Harmful Drinking Tabooed

The next worst enemy to racing is the bootlegger. Jockeys and exercise boys are young athletes who must be kept away from dissipation. A jockey's contract is salable like that of a professional ball player, and many stables pay from \$50,000 to \$100,000 for a good jockey's contract. Nor can a trainer successfully train a horse and be under the influence of booze. There are many rich stables in the North and East that now are forced to go to Mexico or Cuba in the winter, but which would rather come to a clean State like Texas.

TRUETT BUTLER TO RETURN

Truett Butler, who will be associated with the Martin Dry Goods Company beginning September 1, will move Saturday with his family from Amarillo to make his home here. Mr. Butler has been connected with the American State Bank of Amarillo for the last two years, having moved there from this city.

MILDRED OLSON ILL AT ABILENE

Miss Meldred Olson, who is attending the Academy at McMurray College, Abilene, became suddenly ill with appendicitis Sunday and underwent an operation in the Baptist hospital at that city Sunday night at 6 o'clock.

Her parents, Mr. and Mrs. O. B. Olson, were notified of their daughter's illness and they left Sunday night to be at her bedside.

Mr. and Mrs. Allen Davis of Simla, Colorado, and Mr. and Mrs. L. L. Davis and two children of Joplin, Mo., left Friday for their homes after a visit here with the Messrs. Davis's parents, Rev. and Mrs. F. L. Davis. They were also accompanied by W. D. Casey of Heyworth, Ill., a nephew of Rev. Davis, who spent the greater part of the summer here.

Let's get Baby's Photograph THIS WEEK

Wilson Studio PHOTOGRAPHS Live Forever

Mr. and Mrs. W. R. Dooley and family returned Friday from a three weeks visit with her parents, Mr. and Mrs. Ed Wood of Denton, and his parents, Mr. and Mrs. G. W. Dooley of Wilder, Tennessee and other relatives.

E. W. Thomas and family of Plainview spent Sunday with his mother Mrs. C. O. Thomas.

Mr. and Mrs. Pete Solomon and children of Dallas, left Monday for their home after a visit here with his uncle, J. S. Solomon, and family.

Mr. and Mrs. H. H. Baughm and family of Ranger came Saturday to spend a week with her sister, Mrs. W. R. Dooley and family.

The Hesperian \$1.50 per year.

Mrs. Maggie Poole and daughter, Dolly, of Burleson, arrived Sunday for a visit with her son, W. S. Poole, and family, of the Antelope community.

Mrs. C. O. Thomas and daughter, Virginia, moved Wednesday to their home at 603 Wall Street, which they recently purchased from S. S. Sloneker of Plainview.

Seeding Time Binder Time

Soon it will be time to sow another wheat crop. Will you use an old Drill, and a Drill too small for your power equipment, or will you save time and money, and equip with a new McCormick-Deering Double-Run Feed tractor drill, in the 16 hole, or 20-hole size? Let us show you the difference in this drill, and the ordinary horse drill, and we can thoroughly convince you of the economy of new seeding machines over the old.

The new improved McCormick-Deering Row Binders are far superior to anything on the market, and you should have one to save what promises to be the best feed crop we have had for years. The Binder is easier to get to for adjustments, makes a better bundle, pulls lighter, and has fewer working parts than the old McCormick and combines all the good features of both the McCormick and the Deering machines. We have them in stock, with and without tongue trucks, and we CARRY THE REPAIR PARTS IN STOCK. DON'T BE DELAYED DURING HARVEST BY HAVING TO WAIT FOR REPAIRS TO BE ORDERED.

Rutledge & Company

FULL LINE INTERNATIONAL DEALERS

Authentic Styles In Ready-to-Wear

To be perfectly frank about it, we don't know what they are!

We don't know whether skirts will be lengthened or shortened next season. We can't tell you what are the most popular colors, and we don't know where the waist line is likely to go next.

We do know, however, where we can get this information, and that is the point of this little message.

Merchants and clerks in Floydada who deal in either masculine or feminine apparel, are informed on the style tendencies. Not only do they have the merchandise, they also have the information.

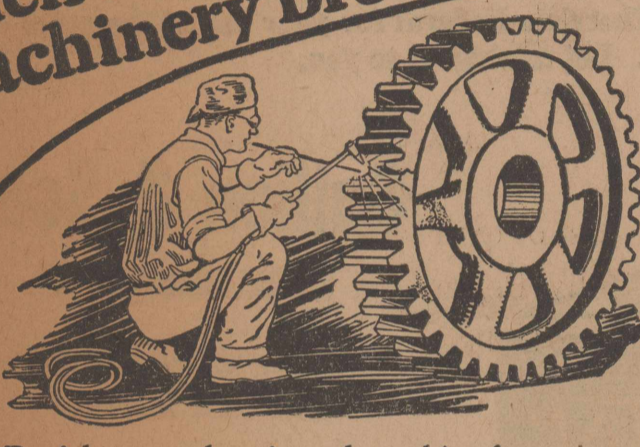

We have never found a merchant or salesperson yet who was not willing to give this information if we asked for it. It is a part of the retail business—of store service.

The stores of Floydada welcome the opportunity, always, to discuss the prevailing styles with visitors. It is a convenient and never-failing source of reliable information. We know, because we have tried it.

Servants At Your Call!

WEALTH Among the ancients was reckoned by the number of servants in the home. In the yesteryear of modern time one servant in a family was considered a luxury.

TODAY every family—poor or rich—may have as many servants at their command as needed, and all this at a cost of but a fraction of the family budget.

The modern servant is electrical. It is always ready to do your bidding—never tiring—never complaining and no afternoons off.

Household drudgery is now a thing of the past. Wonderful electrical devices make housework a pleasure and milady gains many hours of pleasure and social duties.

Farming and Ranching are now done scientifically. The lazy and costly farm or ranch hand has passed into history.

In spite of its constantly increasing usefulness and availability the cost of this service has steadily decreased, while all other costs have increased.

Are you enjoying the full time—usefulness of these servants? One of the distinctive privileges of this company is the opportunity to explain to you without cost just how you can use these modern electrical appliances.

Sunset News

(Too late for last issue)
Sunset, August 29.—The Methodist Revival started Sunday with Rev. Green B. Patterson of Floydada in charge. Rev. Lance Webb has charge of the singing and we are having some fine services.
Those taking dinner in the Haverly home Sunday were: Mrs. C. L. Knierim and children, Lola and George; Misses Oleta Orman, Helen and Geraldine Upton, Neva Orman, Grace Pheagan and Reuben Pheagan.
Rev. Patterson took dinner with Mr. and Mrs. Hartman Sunday.
The girls who spent Monday with Miss Bessie Shearer were: Misses Helen and Geraldine Upton, Oleta and Neva Orman, Mary Nell and Orabelle Calahan.
Lowell and Carl Jarrett and Alvin and W. H. Wooten spent Saturday night in the breaks coon hunting.
Mr. and Mrs. G. Milton and daughter, Mrs. S. Yearly were Floydada visitors Monday.
Reverends Webb and Webb with Reverend Patterson visited Mr. and Mrs. R. L. Orman Monday.
Those from this community who attended the Old Settlers reunion were Mr. and Mrs. S. Yearly and son; Mr. and Mrs. Charlie Jarret and family, Mr. and Mrs. Charlie Knierim and children, Mr. and Mrs. Walter Wood and son, T. L., Mr. and Mrs. J. G. Shearer and family and Luttrell Graham.
Maurine Shearer returned Sunday from Tulsa after a six weeks visit with her grandmother.
Quite a few enjoyed the party at the Milton home Saturday night.
Misses Ethel and Elsie Myers have been visiting in Amarillo the past week.
Charlie Sanders and son, Dave, and daughter, Mrs. C. C. McGehee of Wichita Falls spent Friday night and Saturday with their daughter and sister Mrs. J. G. Shearer.

Harmony News

(Too late for last issue)
Harmony, Aug 21.—We are having more rain, which we don't need now, as this brings the total up to about ten inches and is delaying plowing.
Mr. and Mrs. Erx Williams and family of Dimmitt visited the weekend with their parents Mr. and Mrs. L. E. Williams and Mr. and Mrs. M. W. Baird.
Mr. and Mrs. Earnest Bakwell of Dimmitt are visiting his parents, Mr. and Mrs. J. A. Bagwell.
The Home Demonstration club met with Mrs. J. S. Hale this week with very good attendance.
Rev. M. P. Hines, our pastor and Rev. Eulas Hale are holding a union meeting at Sand Hill. Rev. Hale is a brother to J. S. Hale where he has been visiting. Another brother, Andy Hale of Chillicothe and their mother has been visiting also in the Hale home.
Mr. and Mrs. Chas. B. Smith went to Quanah Saturday to meet her sister, Mrs. Corene Watson and daughter from South Carolina. She is visiting with her mother, Mrs. Charles Trowbridge, also. Another sister, Mrs. Stella Oglesby and children of Goldthwaite, Texas are visiting also.
B. F. Brooks is on the sick list this week.
Mr. and Mrs. J. S. Hale left today for Dallas where she is to undergo an operation.
The Carrs Chapel Epworth League had a business session Sunday night.
Canning corn is in order this week. There are about ten pressure cookers in this community and I am sure there has been 1000 cans of corn canned this week, besides other vegetables.

Locals and Personals

Mr. and Mrs. Walter Collins and children returned Tuesday afternoon from a three week's vacation trip. They toured Southern California.
Miss Helen Dudley, of Abilene, is a guest this week of Miss Minnie Norton.
Mr. and Mrs. R. C. Gee, of Amarillo, spent Sunday here visiting with Mrs. Gee's sister, Mrs. Ray Belcher. They were accompanied by Clovis Gee, also of Amarillo.
Misses Daltis Rea, Ruby Norton and Sudie Miller, returned home Monday from a three months tour in the Western States. They spent several weeks in California.
Miss Rita Adrian, of Trent, spent last week-end here visiting with Miss Minnie Norton.
Mrs. W. R. Ivey and son, DenyC, and Bob Prichard of Big Spring; Mrs. E. C. Henry and Mrs. C. Surginer spent Thursday of last week at Quitaque, visiting Garner Surginer. Mrs. Ivey and son and Mr. Prichard left Saturday for their homes.
Mrs. George V. Smith and daughter, Margaret, Mrs. R. C. Henry and Miss Lois Covington returned Monday from a visit of several days at Denton and Dallas. Mrs. Henry visited at Dallas with Mrs. W. J. Burke formerly of this city, while Mrs. Smith and daughter and Miss Covington visited at Denton, with Mr. and Mrs. L. L. McCombs. Margaret spent about two weeks visiting Mr. and Mrs. McCombs.
Mrs. T. M. Bartley and daughters, Louise and Erin, left Wednesday of last week for their home at Waco, after a visit here with her father, F. P. Henry. They went by Weibert to visit Mrs. Bartley's cousin, Mrs. Pitzer Baker, and family. Mr. Bartley also visited here but left earlier in the week.
Fred Brown left Tuesday for Dallas where he will undergo treatment for his eye. He was accompanied by his brother Edd.
Mr. and Mrs. Eddie Williams of Dallas arrived Monday for a visit with his grandparents, Mr. and Mrs. W. T. Brown and other relatives.
Mrs. J. E. Eubank returned Wednesday of last week from Abilene where she spent two weeks with her daughter, Mrs. C. Y. Carter, and Waco where she spent two weeks with her sister, Mrs. Bessie Nowlin.

Miss Lena Stephens of Midland, arrived last week for a visit with her grandmother, Mrs. M. F. Stephens. Miss Stephens formerly lived at Floydada about three years ago. She plans to leave next week for Ft. Worth where she will attend T. C. U.
Miss Ora Scoggitt returned Saturday from Canyon, where she has been attending West Texas State Teachers' College. She will teach this coming school term at Hillcrest.
Mrs. Addie Thagard of Los Angeles, California, arrived last week for a visit with her son, Flynn Thagard and family, and her daughter, Mrs. Oliver Allen, and family, and also friends.
Mrs. M. L. Dennis returned to her home at Moran Monday after a visit of a month here with her niece, Mrs. J. L. Carathers, and family.
M. W. Dunn of Bridgeport arrived Monday for a month visit with his daughter, Mrs. J. L. Carathers.

Center News

Center, August 28.—We had our business session of the church Sunday morning when we called a pastor, elected our church and Sunday school officers for the year. Brother Bost was called again, haven't had his answer yet.
Bro. C. E. Meredith preached a good sermon for us Sunday night. Mr. and Mrs. Herbert Meredith and baby attended church here at that time.
Several of our people have been attending the meeting at Fairview the past week. They are having some fine preaching and a number of conversions.
Those who attended church at Fairview Sunday were Mr. and Mrs. Fields and children, Mr. and Mrs. Crabtree and Mrs. Jernigan. Mr. and Mrs. A. L. Spence went after the man business at conference was over.
Mrs. G. W. Bryant, F. O., T. L., and Miss Georgia went to Post Saturday to visit their son and brother. They returned home Sunday.
Mr. and Mrs. Arthur McCada and children took Sunday dinner with Mr. and Mrs. W. L. McCada.
Mr. and Mrs. Winters came to singing Sunday afternoon. Mr. Winters' mother visited with her cousin Mrs. W. L. McCada whom she had not seen for seventeen years.
Mr. and Mrs. J. I. Carpenter had as their guests Sunday their children from Ralls.
Inez Spence and Ruth Jordan visited Catherine Tubbs Sunday.
Mr. and Mrs. T. L. King left Friday for Lubbock and on to Robert Lee for a visit with their parents. They expect to be gone a week or ten days.
Mr. and Mrs. C. O. Spence started

on a trip to Runnels county to visit her mother and other relatives but they struck so much mud between Ralls and Post they came back to try it again Tuesday.
Miss Alma Montgomery visited Miss Gertrude Lightfoot Sunday after singing.
Mr. and Mrs. W. L. McCada and sons, Grady and Hansel returned Friday from a visit with a son and daughter at Byars, Texas, and Ryan, Oklahoma.
Tom Jernigan has gone to Kent County to visit his father.
Mrs. Elvis Gill is doing fine, expects to come home Wednesday.
Harold and Clara Tubbs are spending the week with their grandmother Tubbs.
Mrs. Montgomery and children, Mr. and Mrs. Claud Carpenter and Claudine, Marie Tubbs, Mr. and Mrs. C. O. Spence and sons and G. W. Bryant were dinner guests at the Jordan home Sunday. Roy O'Brien visited Sunday afternoon.
Friday night is our regular Club night. We hope to have a good crowd out.

CHASING THE RAINBOW

Paducah Post: Not only do the American people like to be humbugged, but we are constantly chasing the rainbow and trying to find its end. There is always something just a little better ahead of us, or something else.

Only a few days past we heard some people on the streets giving Paducah "hail columbia." They claimed that prices here are higher than they were anywhere else. They claimed that our schools and churches were not as good as could be found at some cross roads place. The roads here are not as good as they are somewhere else.

This feature of dissatisfaction is more noticeable during the fall months than any other time. We have never known of a time but what cotton sells for less on the streets—according to some people—than it sells at any other place in the world. We once knew some men who took their cotton from Paducah to Childress to sell it. That same day some Childress farmers brought their cotton to Paducah to sell it. Another time we knew of a Motley County man, living beyond Matador, bringing his cotton to Paducah to sell. When he got here he swore that he could have sold it at a better price in Matador than he was offered here.

And so it goes, round and round. The end of the rainbow is just beyond. The good things all lie in some other section of the country than the one in which we live. The "pay streak" can not be found here. All the oil fields are to be located somewhere else. There is not a chance for one to be found in the country in which we live.

Yet after all is said and done the man who accumulates property or any money is the fellow who "squatted down" somewhere and stayed "squatted." He is the man who could meet conditions as best he could, helped to improve his community when he found a place to help. He is the fellow who has been satisfied to make out with conditions and people as he found them. Think it over and see if you can think of anyone who has built a nest for himself and family and laid away something for a rainy day who has done otherwise.

But the rainbow has a wonderful attraction. It has all the fascinating colors. We would like to find its end, for the old legend said there was a pot of gold to be found there. It's the wanderlust. It has caused men, and sometimes women, to travel all over the earth riding in box cars, on the cowcatcher, on the brake rods, or any way they could find to "go." It caused Tramp A-1 to roam the earth for more than forty years, and at last he laid to rest in an unmarked grave.

The end of the rainbow. It's a fascinating thing. Just beyond and over is where the good things are, just as the golden colors of the rainbow dip down and kiss the earth just a few hundred feet or a few hundred miles ahead.

We Have Our Doubt About This One

Iowa, City.—While fishing in a river, Francis Suepel landed two fish in one cast. He hooked a three-quarter pound catfish.

As he pulled it in a ten and a quarter pounder attempted to swallow the little one.

CITATION BY PUBLICATION

THE STATE OF TEXAS,
To the Sheriff or any Constable of Floyd County—GREETING:
YOU ARE HEREBY COMMANDED, That you summon, by making Publication of this Citation in some newspaper published in the County of Floyd if there be a newspaper published therein, but if not, then in the nearest County where a news-

paper is published once each week for four consecutive weeks previous to the return day hereof, C. L. Newport, Eva Newport, J. N. Hairgrower, Eva Hairgrower, James B. Price, Caroline V. Price and J. K. Gwynn and the legal representatives and heirs of the above whose names and residences are unknown, to be and appear before the Hon. District Court, at the next regular term thereof, to be holden in the County of Floyd, at the Court House thereof, in Floydada, Texas on the 24th day of September, A. D. 1928 then and there to answer a Petition filed in said Court, on the 31st day of July, A. D. 1928, in a suit numbered on the docket of said Court No. 2073, wherein J. E. Swinson is plaintiff and C. L. Newport, Eva Newport, J. N. Hairgrower, Eva Hairgrower, James B. Price and wife, Caroline V. Price, and J. K. Gwynn, and the heirs and legal representatives of the said C. L. Newport, Eva Newport, J. N. Hairgrower, Eva Hairgrower, James B. Price, Caroline V. Price and J. K. Gwynn, whose names and residences are to plaintiff unknown, are defendants. The nature of the plaintiffs demand being as follows, to-wit:

1.
That on or about the 15th day of July A. D. 1928, the plaintiff was lawfully seized and possessed of the following described land and premises, situated in Floyd County, Texas, holding and claiming the same in fee simple to-wit: All of Lot Number Nine (9) in Block Number Eighty-Seven (87) of the town of Floydada (Floyd City) in Floyd County, Texas as shown by the plat of said town of record in the Deed Records of Floyd County, Texas, Volume 2-F, page 294.

2.
That on the day and year aforesaid the defendants unlawfully entered upon said premises and ejected the plaintiff therefrom, and now unlawfully withhold from him the possession thereof, to his damage in the sum of One Thousand and no/100 (\$1,000.00) Dollars.

3.
Plaintiff would further show to the court that he and those whose estate he has and under whom he claims, claiming the above land and premises under deeds duly registered in the Deed Records of Floyd County, Texas, has had peaceable continuous and adverse possession of the above described land and premises cultivating, using and enjoying the same, and paying all taxes due thereon for a period of more than five years next preceding and before the commencement of this suit, to-wit, July 31, 1928, and for a period of more than five years before July 15th A. D. 1928, and for a period of more than five years after defendant's cause of action accrued, if any, and this the plaintiff is ready to verify.

4.
Plaintiff would further show to the court that he has had peaceable, continuous and adverse possession of the above described land and premises, cultivating, using and enjoying the same, having the same enclosed by fence, for a period of more than ten years next preceding and before the commencement of this suit, to-wit, July 31, 1928, and for a period of more than ten years before July 15th, A. D. 1928, and for a period of more than ten years after defendant's cause of action accrued, if any, and this the plaintiff is ready to verify.

Wherefore plaintiff prays the court that defendants be cited to appear and answer herein, and that plaintiff have judgment for the title and possession of the above described land and premises, and that writ of restitution issue, for damages and costs of this suit, and for such other and further relief, both general and special, as in law and equity he may be justly entitled.

HEREIN FAIL NOT, And have you before said Court, on the said first day of the next term thereof, this

Writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Floydada, Texas, this 31st day of July A. D. 1928.
(SEAL) T. P. GUIMARIN,
Clerk District Court, Floyd County, Texas. 254tc

CITATION BY PUBLICATION

THE STATE OF TEXAS,
To the Sheriff or any Constable of Floyd County—GREETING:
YOU ARE HEREBY COMMANDED, That you summon by making Publication of this Citation in some newspaper published in the County of Floyd if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published once each week for four consecutive weeks previous to the return day hereof Mrs. E. C. Hardy and husband J. F. Hardy, G. H. Overhuls Adolph Fisher, R. M. Emerson, and the unknown heirs and legal representatives of said parties deceased, if any, all being parties whose residence is unknown, to be and appear before the Hon. District Court, at the next regular term thereof, to be holden in the County of Floyd, at the Court House thereof, in Floydada on the 24th day of September 1928 then and there to answer a Petition filed in said Court,

on the 8th day of August A. D. 1928, in a suit numbered on the docket of said Court No. 2075, wherein H. C. Bosley is plaintiff and Mrs. E. C. Hardy, J. F. Hardy, G. H. Overhuls Adolph Fisher, R. M. Emerson and the unknown heirs and legal representatives, of said named defendants, deceased if any, are defendants. The nature of the plaintiffs demand being as follows, to-wit:

Plaintiff brings suit in Trespass to Try Title to recover of and from defendants the following described land and premises to-wit:

Lot No. Ten (10) in Block No. Sixty-two (62) in the town of Floydada (Floyd City) in Floyd County, Texas. Plaintiff by special plea alleges in substance that he claiming said land under a deed duly registered has had peaceable continuous and adverse possession of said land and premises occupying using and enjoying the same, and paying all taxes due thereon according to law for a period of more than five years after each defendant's cause of action had accrued and before filing of this suit; plaintiff further alleges that he has had actual adverse peaceable possession of said land, using and enjoying the same and claiming to have good and perfect title to same for more than ten years after each defendant's cause of action had accrued and before the filing of this suit; and plaintiff claims said land under both the five and ten year

statutes of limitation, and prays that he have judgement for the title and possession of the same against defendants with writ of restitution and for damages and costs of suit.

HEREIN FAIL NOT, And have you

before said Court, on the said first day of the next term thereof, this Writ with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of

LABOR DAY

Monday September 3

"It is to labor, and labor only, that man owes everything possessed of exchangeable value. Labor is the talisman that has raised him from the condition of the savage; that has changed the desert and the forest into cultivated fields; that has covered the earth with cities, and the ocean with ships; that has given us plenty, comfort and elegance, instead of want, misery and barbarism."

—McCulloch.

FARMER EVER AT WAR

While farming is apparently the most peaceful of pursuits, in reality the farmer is everlastingly at war. Not with his fellowmen, but with the billions of insects and other animal life which menace his crops on every hand.

The boll weevil, the army worm, the corn borer, the bypsy moth, the cabbage butterfly and other herds of insects and parasites are working day and night to set his best efforts at naught. And each of these enemies presents a difficult problem.

Without scientific aid in fighting insects, it is asserted by high authorities that in time human life would become extinct. The insects and parasites would completely overrun the earth.

It is some comfort to know, then, that under the auspices of the Department of Agriculture, earnest scientists are working diligently to find better means of controlling these pests, and are meeting with a fair degree of success.

Information of the utmost value to the farmer is available through the county farm agents, bulletins from government sources, articles by experts published in the press, and the example of informed neighbors. He owes it to himself to profit by this information and cooperate with these agencies which stand ready to aid him in his warfare against destructive insect pests.

TECH GRINDING OUT COACHES FOR HIGH SCHOOL ATHLETICS

Lubbock, Texas August 10.—The destinies of athletic teams of five high schools of the South Plains will be ruled by a new crop of coaches during the coming season. The coaches are former athletes of Texas Technological College. Their appearance this year will be the first of a fast increasing group, next year's graduation to lose a number of other athletes of the College who are planning to coach.

Marlin R. Hayhurst, quarterback for the Matadors for the past three years, is to coach at Brownfield. Winfield Nicholas, fullback and captain of the first Tech squad, will direct the Tahoka high school team. J. R. Dennison, Matador linesman, will be at O'Donnell. Kenneth Hemphill, stellar basket ball man, will coach the Spur high school while Clyde Brown, track star for the past three seasons, will coach at Jayton.

Four of the men received their degrees from the College this year.

'TELEPHOTO' GETS RIGHT CHICAGO COPS UNIFORM

"Telephoto," the new process of sending pictures over telephone wires, averted a costly delay in starting production of a big "movie thriller," according to the Texas Public Service Information Bureau.

A celebrated screen artist had been cast for the role of a Chicago policeman. At the last minute it was discovered that the wardrobe department was unable to dress him properly, as it lacked the details of a "Windy City" officer's uniform.

From the studio on the west coast flashed an appeal to the police department at Chicago. A photograph of the habiliments of a police office was immediately transmitted by telephone to Hollywood. Two hours later the actor was properly outfitted for his part.

DERRIS IS THE CAT'S RELIEF

Powdered derris root (from a tropical plant) is exceedingly effective in destroying fleas on cats and dogs, if used when fresh, says the U. S. Department of Agriculture. The material may be mixed when used with two parts of flour or cornstarch and dusted into the hair of the animal with a shaker, or about 1/2 teaspoonful of the pure powder may be scattered in the hair, especially on the animal's neck and back. If animals are exposed to infested premises this treatment should be repeated after ten days. It is important that animals be kept from beneath dwellings, as breeding of fleas progresses rapidly in such places and it is difficult to treat these places. In general, fleas are more abundant in the summer and fall than at other seasons of the year, and rainy summers are especially productive of outbreaks of fleas. Such outbreaks are always associated with dogs, cats, or hogs. The fleas breed in the dust in the sleeping places of these animals. Fleas may breed in countless numbers under houses, in basements, or in out-buildings when pet or stray animals have access to them. From these centers the fleas frequently spread or are carried into houses and barns. A thorough spraying of such breeding places with creosote oil will usually solve the difficulty. A good force pump, not a hand atomizer, should be used for spraying the creosote oil. If fleas have gotten into the house, an easy and inexpensive method of destroying them is to scatter 5 pounds of flaked naphthalene over the floor and close the doors and windows tightly for 24 hours. Afterwards the naphthalene may be swept into another room and used again, if desired.

A new type of flat for shipping eggs has been devised which has given excellent results in preventing breakage. This is known as the cup flat. Two of the flats placed back to back with the cups facing out are used in the bottom of each side of the case and either one or two flats are used on top as padding. Ordinarily no excelsior pads are used with this pack, although the methods of packing may be combined. The fillers fit down between the cups and are prevented by them from sliding or shifting over the flats.

Chewing gum is hard to remove from clothing, and sometimes leaves a stain. Chewing gum usually contains a gum known as chicle, which has been boiled down, flavored and sweetened. Resins of various kinds are sometimes used. A gum stain can often be softened with egg white and then washed. Prolonged treatment with carbon tetrachloride is also satisfactory, as a rule, although it may be necessary to remove traces of sugar by sponging with water at intervals.

The temperatures of the moon vary tremendously because there is no air blanket to protect it.

Prominent Texas Tire Man Dies In N. Mex.

C. T. Shook, of Dallas, president of the Shook Rubber Company, Texas jobbers for Federal Tires, died Monday morning of this week in Santa Fe, New Mexico, after suffering a stroke of paralysis at the home of a brother, O. B. Shook, on the Sunday previous. Mr. Shook was visiting with his brother while on a vacation. He was in excellent health, apparently, when the paralytic condition developed suddenly.

The deceased was forty years of age. Funeral services were held Wednesday and interment made at Dallas.

Shelly Shook, of Plainview, is a brother. Gullion & Son, local Federal dealers, were much surprised to learn of the illness of the head of the distributing company. Recently, while on vacation, Elza Gullion called on Mr. Shook and found him enjoying wonderful health.

Autra James has gone to East Texas for a visit.

Orville Lowe spent Friday night with Clarence Strickland.

Miss Olive Mathis and Mr. Edward Thomas were married Sunday, August 19. We wish for them a happy and successful married life.

The Baptist meeting began here Sunday.

Some Appetite!

Lexington, Ky.—One and one-fourth pounds of canned salmon, two and one-half pounds of pork and beans, one and one-fourth pounds of onions, one half jelly roll, one half pound of candy, one half pound of oranges, one half pound of crackers, three bottles of "pop" and three glasses of water.

This ten and three quarter pound supper was eaten in a restaurant by Charles Belt, seven, who suffered no ill effects.

Hot Stuff!

Pittsburg.—Edward Fisher was fined \$50 for tossing hot penny among two score youngsters who were serenading a wedding couple. His act resulted in slight burns to several boys and girls.

Although liberal grain feeding to dairy cows results in greater milk production, investigations carried on by the U. S. Department of Agriculture show that it usually pays to feed large quantities of grain only in dairies obtaining a high price for their products. At the dairy experiment farm at Beltsville, Md., records were kept on 23 cows for periods ranging from 90 to 150 days. These cows were divided into two groups, one group being fed the amount required as determined from the feeding standards; the other from 2 to 4 pounds of grain per cow a day more than the other group. With grain at \$40 a ton, it was found that the extra milk resulting from the heavier grain feeding cost from 40 to 50 cents a gallon, an amount somewhat in excess of the usual selling price.

Sugar-cane varieties imported from Java have proved resistant to the mosaic disease when grown in Louisiana, and the sugar-cane industry will be greatly improved by the introduction of these and other new varieties, the U. S. Department of Agriculture believes.

Pit or underground trench silos are considered the most economical means of storing silage on ranges in the Southwest. The feed is put in a trench and covered with earth to a depth of about 2 feet. Silage stored in this way will keep for several years without deterioration.

The Hesperian \$1.50 per year.

A Fashion Exhibit of Fall Frocks \$19.50 to \$37.50

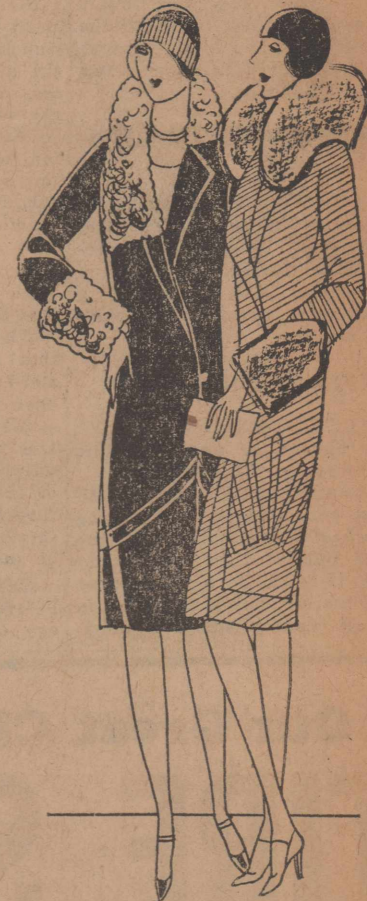

Satins . . . Chiffons . . . Transparent Velvets . . . in fact all the leading Fall fabrics. Beautiful Fall colors in a prominent showing . . . new fashion ideas that will win admiration from fashionable women.

Special Fall Coats

\$16.50 to \$57.50

Fall and Winter Coats are smartly fur trimmed. Developed in the new Fabrics for Fall. You will do well to see our coats before you buy the kiddies' school coats.

We'll save you money.

Special Fall Frocks

\$11.95 to \$16.50

This group will attract attention of value-wise women. A price that offers unusual savings on finest of Fall Frocks at the very start of the season. A smart collection of fabrics, color and styles.
