Department Boys To Practice Fire Fighting

ee Fires in As Many Weeks Prompt Re-Organization and Team Work Fire Practice.

scared into action by the possibility a conflagration of large proportions Floydada, by the three fires which have broken out in the business dis-trict in the past three weeks, active measures for more team work in the fire department and a more general understanding among the fire boys of measures necessary to take to prevent spread of fire, was undertaken this week by the city. The first step was the re-organization of the department, with two squads and set weeks named each in which to practice. At a meeting of some twenty-six volunteers Tuesday evening at the city office, C Tom Goslee, J. E. Jackson, Mac the berly, M. T. Bosley, Lon Goode, Roy Baker, Roy Eubank, Rip Snodgrass, John Reagan, H. M. Kyle and L. V. Rogers. This squad will practice the Rogers third weeks of the month and the beautiful the beautiful the beautiful to the beautiful the beautif

and Mrs. Della Aytes, of Round Timbots the property owners from \$150,000 bers, Baylor Country, won third.

The winner of second honors in Class No. 1 was Mrs. Ella Martin, of Graham, Young County. Third place went to Mrs. D. A. Stevens, of Tahowasn't because the department was well-organized or practiced," Judge Henry said. "These are good teams and No. 2, had kitchen

plans to do to help the boys is to keep the spectators out of the way. Spectators should not get inside the spectators should not get inside the spectators of the way. Spectators should not get inside the spectators should not get inside the spectators of the spectators should not get inside the spectators of the spectators should not get inside the spectators should not get inside the spectators of the spectators should not get inside the spectators of the spectators should not get inside the spectators of the special spectators of the spectators of the spectators of the specta spectators should not get inside the fire line, which is 100 feet from the scene of the fire. We are counting on the nozzle men to drown about half of the next crowd that goes to tramping around in the way. Another thing we want to ask is the return, by citizens who have them, of the fire fighters' can water proof coats. Several slickers or water-proof coats. Several of these are out in town, property of the city being used by private individ als at their convenience."

The judge intimated action would be taken to recover the coats if the individuals who held them do not volunteer to return them at once. He added the thought that every \$100 more added to the fire loss in Floydada would mean that much higher cost of fire insurance to the property owners here, in addition to the loss sustained by those whose property burned.

the Extra Process for Extra Miles!

Breaks all Tire Records

The 500 Mile Speed Classic at Indianapolis has always been a Battle of Tires. In 1911, Firestone won with fabric tires at 74.59 miles per hour. In 1920, Firestone won with cord tires at 88.55 miles per hour. In 1925, Firestone won with Full-Size Gum-Dipped Balloons at the record breaking average speed of 101.13 miles per hour. In 1926, Firestone again won with Full-Size Gum-Dipped Balloons. The ten cars to finish "in the money" were all Firestone-equipped. They went the distance without a single blowout and with but two tire failures—one due to a puncture and the other to a leaky valve.

rough brick track.

This performance is even more remarkable when you consider the terrific speeds at which the cars traveled over this fifteen-year-old,

Experienced race drivers will not risk their lives or chances

The largest taxicab companies in the world standardize on Firestone Gum-Dipped Tires. W. R. Rothwell, taxicab operator, Detroit, Mich., writes: "Two of my Firestone Gum-Dipped Tires have run 76,000 miles."

Hundreds of thousands of car owners voluntarily testify to the safety, comfort and economy of Full-Size Gum Dipped Balloons. W. H. Peacock, Birmingham, Ala., testifies: "I have had Firestone Balloons for thirteen months and they have delivered in that time 24,469 miles." H. C. Staehle, Minneapolis, Minn., says: "My Firestone Balloons have gone 49,900 miles and are still in good condition."

These records of endurance, speed, safety and mileage could only have been made because of Firestone development of the Gum-Dipping process which insulates and saturates every fiber of every

cord with rubber, reducing friction and heat and building greater strength and endurance in the cords—assuring you at all times—

> J. R. MADDOX, 144tc Sheriff Floyd County, Texas.

NIGGARDLY HOST

From the Boston Transcript. A Scotch minister was on his usual visiting rounds when he came across one of his old friends. "And

how has the world been treating you, Jock?" he inquired. "Very seldom," answered Jock sadly.

At midnight on December 31, a pig is liberated on the floor at many German parties, for it is considered a good omen to touch a pig on New Years'

Suffered weak, nervous

-through-through-through-through-through-

I WAS in a very weakened, run-down condition, surely in need of a tonic and builder," says Mrs. J. R. Wrenn, of

Anna, Texas. "I was so weak I had to go to bed, and kept getting weaker.
"I suffered with my back so much. I was very nervous, couldn't rest good at night. I

couldn't eat anything-I just

wasn't hungry.
"I had read so much of Cardui, I thought best to use it. I took seven or eight bot-tles, and by the time I had taken them I was stronger than I had been in several years. I can highly recom-mend Cardui."

Thousands of other women have found that the tonic effects of the purely vegetable ingredients of Cardui were just what they needed to help restore their appetites, to help bring them easily and naturally back to normal health and strength. Its action has been found to be of great benefit in many common fe-

male ailments. Buy it at your druggist's.

ONE-THIRD ALL DEATHS 1925 DUE

Approximately one-third of all deaths n the state for 1925 were due to pre-NOTICE OF APPLICATION FOR PROventable diseases, according to reports night, when it was decided to ask total of 42,251 deaths were reported for the Sheriff or any the year, and of this number 15,078

ginal plans of the Chamber of Commerce to banquet the trustees of the County.

Before the meeting was turned over to the County Club members, a short to the County of Thomas and the County of Thomas and the County of the County of Thomas and the County of Thomas

Turns Mountains into Mole hills

OR years the carbon knocks, clicks, pings or detonation in automobile engines have been a menace to motor efficiency and a sore spot to the motorist. GULF No-Nox Motor Fuel has turned the old time carbon bugaboo into an asset, in fact it has

No-Nox and Carbon are **Power Twins**

put carbon to work.

Compression is power—Carbon adds compression—No-Nox withstands compression and the combination gives wonderful motor efficiency.

GULF No-Nox Motor Fuel not only withstands the high compression of the modern automobile engine—but also the added higher compression caused by carbon deposits on the walls and piston head which increases with the age of the car; -clicks and knocks are eliminated-greater efficiency is accomplished—followed by more power and greater mileage.

This Guarantee goes with it

GULF No-Nox Motor Fuel is Non-Noxious, Non-Poisonous and no more harmful to man or motor than ordinary gasoline—that it contains no dope of any kind—that the color is for identification only—and will not heat in summer driving.

GULF No-Nox Motor Fuel is priced three cents per gallon higher than ordinary gasoline—and is worth it.

per mule per day for the 200 days at Mr. and Mrs. Hollomon will make work. For the other 165 days they should have about 15 pounds a day if Rev. G. P. Humphries, formerly pas- not on pasture, but if on pasture they

will require little or no hay.

For 200 days, 10 mules receiving 10 pounds of hay each per day will consume 10 tons. If fed 15 pounds a day for the 165 days when idle, or doing very light work, they will consume about 12 tons more, making a total hay requirement of about 22 tons for the year. Unless the mules are on pasture more than working mules ought to be, it is shipworms. They honeycombed its tim- year. Unless the mules are on pasture more than working mules ought to be, it is not safe to count on less than two According to the law in Argentine tons of hay per mule per year. To produce the 22 tons of hay will require 22 acres at one ton per acre, and about 15 acres if the yield is 1.5 tons per The mistake is often made of estimating two or three tons per acre, but 11/2 tons is much nearer the aver-

> Somewhat less corn may be used if grass hays, fodder, etc., are used, for then the corn ration should be reduced 3 to 4 pounds per mule per day and 1½ to 2 pounds of cottonseed meal or some other rich protein substituted.

OLDEST CONTINUOUS MASONIC LODGE

1, located here, claims the distinction of being the oldest continuous Masonic lodge in the United States. It was founded on February 10, 1734, according to the records of the Grand Lodge of England. The record of the member-ship of the lodge on August 19, 1756, shows ten Master Masons, nine Fellowshows ten Master Masons, nine Fellow-craftsmen and seventeen Entered Ap-prentices. An extract from the old minutes, recently returned to the lodge from the Congressional Library, reads

as follows: "That every Member shall pay a Quarter's Lodge Money when ye Quarter commences, & ye Money to be paid ye Lodge Night before such Feast. And all savings to any Member by his being absent any Lodge night shall be allowed him at ye Commencement of ye next Quarter towards ye defraying

his next Quarterly Expenses. "No Person shall be made a Bror on a public Lodge Night, but any Person after being duly elected shall be made (a Bror) at any other convenient Time & when the Master thinks proper." & when the Master thinks proper."

VIVIANI'S MEMORY PRODIGIOUS

One of the sources of the late Rene Viviani's eloquence was his profound knowledge of French literature. He knew by heart thousands of verses and could recite entire acts of the classic tragedies without an error.

He demonstrated this at the time of

his baccalaureate, when he agreeably surprised the examiner by his accurate analysis of "The Cid." 'Can you recite a few verses of it?"

the examiner asked.

"Certainly," said Viviani, and had recited the whole of the first act before he was halted. On another occasion he recited the whole of "Horatius" and "Phedre" from beginning to end.

Farmers are the largest users of power in the United States, with the single exception, of the railroads. Nearly sixteen billion horsepower hours are used annually on farms. the examiner asked.
