## Rotary Service In Many Lands Shown In Film

The ideal of service as exemplified in the work of Rotarians in many lands provided an interesting film program at the weekly meeting and luncheon of the Rotary Club Thursday in the Highway Drive in dining room.

It traced the beginning of Rotary from the first club organized in Chicago in 1905, and portrayed the development of the Rotary theme of "Service Above Self," along with the many phases of Rotary including the Foundation Fellowship program which promotes better international understanding.

The film was shown by Hooper Wilkinson, and was presented by Thos. B. Roberson, program chairman for the day.

President Wilkinson reminded members of the Club Assembly to be held Jan. 27 with District Governor Robt. R. King. Also, members were urged to make their plans to attend the District Conference March 18-19 in Wichita Falls.

Nobody Won

The settlement of the steel strike—which gave payroll increases of 39 cents an hour to the steel workers—is surrounded by a very big IF.

The IF has to do with whether the settlement will be followed by increases in steel prices that will set off a new round of inflation. That question, apparently, will be decided by the union attitude toward proposed changes in work rules designed to increase man-hour productivity and so offset the wage boost in whole or in part.

An observation made by the Portland, Oregon, Journal, is very much in point: "On the surface, labor can say that it won this strike, but really, nobody won. The steelworkers will never recover what they have lost in wages. The strike has lost markets for U. S. producers to foreign competitors which they may never regain. And if it proves to be the stimulus of a new inflationary spiral which runs throughout the economy, the cost to all segments of our people will be incalculable."

Poll Tax Deadline Near

This is the final week for persons between the ages of 21 and 60 to qualify as voters in 1960 elections by paying the 1959 poll tax. Final date for paying the levy is Jan. 31, and since that date falls on Sunday, prospective voters actually have only two more days in which to pay the tax.

From the voter's standpoint, 1960 will be the time of a number of important regular elections, with the possibility that several special elections may be called during the year.

First balloting will be in the school trustee elections, followed by the city elections, and then the Democratic primaries, with final voting in the general election in November when officials from constable to president will be chosen.

In view of all these important elections, every citizen should qualify as a voter, and then make it a point to express his or her opinion by marking a ballot in every election held during the year.

Political Ring Filling With Hats

With the filing deadline—Feb. 1—almost at hand, the political ring is filling with hats, most of them familiar to Texas voters. Since there's to be no wholesale re-shuffling among top state offices, liveliest interest is focused on legislative campaigns.

Texas Legislative Service's compilation on legislative races indicates about six of the senators running for re-election have opposition or prospects of opposition. Usually the opponents include a representative from the senator's district.

New faces have entered the races in more than 50 of the House districts. In 19 of these the present representative is not a candidate for re-election.

Besides the usual preponderance of lawyers, there are a number of school teachers and former school teachers among the newcomers.

Campaign platforms rest mainly on these issues: Betterment of schools and improvement of teachers' salaries. Revamping or doing away with the new merit plan of auto insurance rates. Providing medical payments for persons on the welfare rolls and raising old age pensions. Enacting stiffer highway safety laws. Developing a comprehensive statewide water program. Solving the state's fiscal problems. This is generally covered in some broad, fairly vague statement, such as "modernizing the state tax system," "eliminating unnecessary expenditures" or finding equitable methods of taxation.

Haskell County History

80 Years Ago—Jan. 16, 1980  
C. R. Cook, who has been engaged in the filling station business here for a number of years, has accepted the agency for the Magnolia Petroleum Company in the Haskell territory. He succeeds W. E. Kirkpatrick, who is entering other lines of business.

Felix Mullino, son of Mr. and Mrs. G. F. Mullino of this city, was on the honor roll of Texas Tech for the last semester.

Poll tax payments for the year had reached a total of 1,500 Wednesday afternoon, according to Tax Collector Ed Fouts. He also reported 796 cars and 65 trucks had been registered to that time.

Mrs. A. P. Kinnison sustained a broken wrist last Friday evening when she slipped and fell on the slippery ice at her home in South Haskell. Her right wrist was dislocated and fractured, causing a very painful injury.

Miss Maidee Watson, who is teaching in the Munday schools, spent last weekend with her parents, Mr. and Mrs. M. B. Watson in this city.

Mr. and Mrs. Ed Ellis of Fort Stockton are guests of his father, Jim Ellis, and her parents, Mr. and Mrs. Watt Fitzgerald.

Mr. and Mrs. J. F. Morrison and children moved to Abilene this week where Mr. Morrison has accepted a position with an automobile house.

One of the most disastrous fires in the history of Munday occurred Friday morning, when the Guinn Hardware Co. and Akers Dry Goods Co. in that city were completely destroyed. Loss was estimate in the neighborhood of \$100,000.

The farm home of Chas. Druessedow, two miles north of town, burned last Wednesday around 12 o'clock. The fire started in the ceiling and had spread through the roof before being noticed. The family lost practically all their household goods, clothing and furniture.

50 Years Ago—Jan. 22, 1910  
Hon. Pat M. Neff of Waco addressed a large audience at the court house Wednesday night in behalf of the Woodmen of America.

James A. Hankerson, the official stenographer for the 39th judicial district, came in from Anson Wednesday, where he has been engaged with the present term of court. He reports several felony convictions.

Ewing Powell of Mountain Ark., is in Haskell on business this week. Mr. Powell owns quite a bit of land in Haskell County.

The cornerstone of the new Methodist Church building will be laid Jan. 31 under the auspices of the Masonic fraternity. Prominent Masons and churchmen will participate.

Misses Dora and Ella Ballew are visiting their brother, Will Ballew and family at Seymour a few days this week.

Miss Ella Day has returned from her ranch in the southwest part of the state and has resumed her work in the abstract office of Clyde E. Elk-

ins.  
D. M. Cogdell and C. E. Bowers have entered the dry goods business here, and have put in a \$20,000 stock of merchandise.

Low Ellis received a letter a few days ago from John Freeman telling of the death recently of J. Z. Freeman at Mineral Wells. The deceased was well known in Haskell, and was founder of The Hub, men's clothing store here.

T. N. Young and J. T. Reed of the Lone Star community were in the city Thursday. While visiting in our office they stated a new \$1,000 school building had been completed on the site of the original Grass Bur school. Misses D. Thomas and Minnie Greer are the teachers.

The family of J. O. Stark, County Commissioner in Precinct 2, has moved to town in order for the children to attend Haskell schools.

J. D. Stodghill has moved to Fort Stockton.

60 Years Ago—Jan. 27, 1909  
West Neathery of Farmersville arrived this week on a visit to his brother, Dr. A. G. Neathery.

Ed Lanier of the north part of Stonewall County was transacting business here the first of the week.

Dr. J. E. Lindsey returned from St. Louis the latter part of last week, where he took a special course of instruction.

A. E. Rose reports having a good saddle and bridle stolen from his ranch last week.

The band boys are practicing hard and seem to be making pretty good progress.

Major J. M. Bogart left Tuesday for Denver, Colo. He thinks he will be back in Haskell within three or four months.

The young folks had a very enjoyable party at T. G. Carney's Friday night.

Farmers living 18 to 25 miles north of this place have been engaged for the past week or 10 days in hauling their last year's wheat crop through here to market at Albany, a distance of some 60 or 70 miles. Haskell should hurry up her railroad and furnish a home market for all such products.

The cold wave that hit Thursday put an end to the Gal Two... Co. History... H springlike weather we had been having for a week or more and was quite welcome, as some were beginning to fear that fruit buds might get too far advanced and be killed by late freezes.

At the meeting of stockholders of the Haskell National Bank a few days ago the old officers were re-elected, to-wit: M. S. Pierson, president; A. C. Foster, vice-president; J. L. Jones, cashier; and M. S. Pierson, T. J. Lemmon, A. C. Foster and J. L. Jones, directors.

Some Kansas City mutton buyers were here this week but failed to find any sheep for sale, owners having already made their arrangements to feed and carry their muttons through the remainder of the winter.

PEOPLE, PLACES AND THINGS

By A. PATE

We're anxious for Feb. 5 to roll around, bringing an opportunity to hear one of the Southwest's outstanding humorists and speakers. He is Jack Lacy, Amarillo, who was guest speaker at last year's C. of C. banquet meeting and who has been secured in that capacity for this year's event.

Lacy's quips kept his audience in almost continuous laughter, and persons who have heard him recently say the Amarillo man is better than ever. Remember his description of the depression in the small town where he lived? "Things were rougher than a stucco bathtub," he declared.

Again, in driving home his point against jumping at conclusions, he told of the bantam rooster that flew over the fence to do battle with a peacock after finding colored Easter eggs in nests in his harem.

If you haven't made your ticket reservations for the banquet, better do so today, because indications are the affair will be a sell-out.

At the risk of losing favor with most of the candidates temporarily, we'd like to see a series of political rallies and speaking programs arranged during the coming political campaign.

Most candidates have a dread of speech-making, but we've noticed in the past that the average candidate can do a pretty good job at making a speech once he gets over the initial stage fright.

Last campaign year, one of the best political rallies held in several years was staged at Weintert, sponsored by one of the community's women's clubs. Everyone enjoyed the affair, even the candidates who

had to make brief talk.

We hope the Weintert women will set the pattern again this year, and that civic organizations in other towns and communities sponsor similar events.

It wasn't a laughing matter at all for a time, but members of the Fire Department Auxiliary can now be joked a little about the mix-up which resulted in \$50 worth of handicraft

or hobby material being given away.

The material in the form of sheet copper and patterns the women were using in making plaques, etc., was kept in a storeroom at the City Hall, where it was readily accessible at meetings of the Auxiliary.

Firemen also used the storeroom for an accumulation of used dolls, toys, etc., being assembled for Goodfellows Christmas baskets.

When time came to assemble the baskets, firemen gathered up the toys and carried them to the C. of C. office. Without noticing, they also gathered up the Auxiliary's hobby material, generously including it with the toys.

Goodfellows, in sorting out materials for the Christmas baskets, were a little puzzled about the assortment of partially finished copper etchings, but dutifully included some of the items in each basket.

Now, the Auxiliary will have to start from scratch again, unless they can locate the missing material, which is unlikely.

After a lifetime of smoking cigarettes there has come a parting of the ways and no longer (we hope) will there be scorched spots on our desk or typewriter table along with a sprinkling of ashes over everything in reach.

Although we're keeping our fingers crossed, the whole deal honestly has been easier than anything we've ever tackled. Friends tell us that the first few weeks are easy, that the real craving for nicotine doesn't come until you've been off the weed for several months.

Anyhow, we're on the way to finding out, and statistically, we figure we've already passed up 540 cigarettes, based on our former normal consumption of one and one-half packs daily.

Further, we're getting keen satisfaction out of the realization that we're legally evading that ever-increasing tax the legislators slapped on cigarettes at every opportunity.

And, just to show that our

luck hasn't changed a bit, no sooner had we quit cigarettes than here comes a complimentary package of a new brand, all the way from Durham, N. C.

Friends of ours, Publisher Jetty Clare and Dr. T. W. Williams and their wives, returned last week from Durham where they had visited their children, Dr. and Mrs. Temple Williams, Jr.

While there, the Texas people toured the factory of Liggett & Myers Tobacco Company where Duke of Durham cigarettes are manufactured. At the end of the tour, the visitors were given packages of the attractive new king size Duke of Durham, and an extra pack was included for the Editor.

Although denied the privilege of learning firsthand about the flavor and tastefulness of the Gal Two... People, Places... new cigarette, we will say it has all the earmarks of a quality smoke and if we were a smoker we'd make it our first choice.

The Haskell people noted that in Durham the influence of the tobacco industry, particularly the Duke interests, was apparent in almost every phase of community life.

Too, the Southern tradition is maintained, they noted. People in Durham do not speak of Duke University, it is Mr. Duke's University. Also, Mr. Duke of Durham, and Mr.

Duke's Hospital... always the title of Mister when speaking of the tobacco millionaire.

The month of February has had a tough time in keeping its days together. But some U. S. taxpayers may wonder whether it was worth the trouble.

February wasn't even included in the year when Romulus, one of the founders of Rome, drew up the first Roman calendar, according to World Book Encyclopedia.

Numa Pompilius, the second king of Rome, added it. He took the name from a Latin word meaning "to purify," for February was the month in which the Romans were purified for the religious festivals of the following months.

But Numa tacked "Februarius," as it was called, onto the end of the year. It wasn't until hundreds of years later that it found the place it occupies today.

In the meantime, the emper-

or Augustus added to August.

But the word "February" made legal by Amendment to the constitution.

**Mystery Farm No. 13 Identified As the Former Pres Baldwin Farm**

tured in last week's Farm Page, has been identified as the former Pres Baldwin Farm located eight miles east of Haskell, now owned by Mr. and Mrs. George W. Fouts of this city.

The late Mr. Baldwin established the farm some 35 or 40 years ago, and operated it in addition to his ranching interests during his lifetime. The farm originally contained 640 acres, but has been divided among heirs and the place owned by Mr. and Mrs. Fouts contains about 330 acres.

Most of the farm is in pasture, with about 100 acres being cultivated. Leonard Weise farms the place, and occupies the modern farm home. In addition to the farming operations, Mr. and Mrs. Fouts have the place well stocked with registered Hereford cattle to utilize the pasture.

Some oil production has been developed on the Baldwin property in recent years, with several wells on the place now being pumped.

Winner of first prize, \$5.00 in cash given by The Free Press for correctly identifying the farm, is Mrs. Hallie Chapman of Haskell.

Second prize, \$3.00 in cash given by Western Auto Store, advertising sponsor, goes to Mrs. W. R. Edwards, Route 1, Weinert.

Third prize, one year's subscription to The Free Press, goes to Mrs. D. C. Wester, Rt. 3, Haskell.

**Most Taxpayers Use Simplified Form 1040A**

"Treasury records show that one out of every four taxpayers use the simplified income tax Form 1040A," says Clarence B. Dixon Administrative Officer of Internal Revenue Service, Wichita Falls.

Revenue's midget (size of an average bank check) tax form may be used by individuals with total income of less than \$10,000, consisting of wages reported on Form W-2 and not more than \$200 in dividends, interest, and wages not subject to withholding.

Husband and wife may file a joint 1040A return for '59 if their combined income doesn't exceed the stated limits.

"Taxpayers using Form 1040A automatically claim the standard 10% deduction allowed for such personal expenses as contributions, interest payments, medical expenses, and such. Taxpayers with allowable deductions for these items in excess of 10% of their income for '59 must use the standard Form 1040, if they wish to claim them," Dixon explained.

Taxpayers with incomes under \$5,000 may figure their own tax, or have Revenue do the chore. Taxpayers with incomes of \$5,000 or more must figure their own tax.

Form 1040A must not be used when taxpayers claim "head of household" or "surviving spouse" status; dividends received credit or retirement income credit, "sick pay" exclusion; deducts for travel, transportation, or "outside salesmen" expense; or estimated tax payment credit, the IRS representative said.

There's nothing like a new car—and no new car like a Chevrolet. This is the Impala Sport Coupe!

**GO '60 GO CHEVY!**

**NOW—THE CAR THAT STARTS THE SIXTIES WITH SO MUCH THAT'S NEW, SO MUCH THAT'S DIFFERENT ...AND SETS THE PACE WITH LOWER PRICES!**

Chevrolet speaks of the Sixties like no other car—with a broad accent on spaciousness, stirring new concepts in styling and strong emphasis on spirit and thrift.

Step inside this superlative '60 and look at the worlds of room around you: head room, hip room, shoulder-squaring room. Note how Chevrolet's engineers have further flattened and narrowed the transmission tunnel to give the middle man more foot room. Chevrolet's greater roominess is inside where you want it—not outside in useless body overhang.

You'll find economy teamed with performance in a new standard V8, engineered to deliver up to 10% more miles for every gallon, or the strapping Hi-Thrift 6.

And riding comfort in the new one is a never-ending treat, thanks to Full Coil spring suspension. There are also thicker, newly designed body mounts that filter noise and vibration to the vanishing point, more rigid frame and many other engineering advances.

But you'll have to drive the Sixty sizzler yourself—that's the clincher.

Why not see your Chevrolet dealer now—for a drive and the happy details on Chevy's new lower prices.

**Woodsons Attend Showing of 1960 Zeniths, Philco**

Mr. and Mrs. Parks Woodson were in Lubbock the first of last week where they attended a showing of the new models of 1960 Zenith radios, television and stereophonic instruments. New models of Philco refrigerators and television were also shown in Lubbock.

Mr. Woodson stated that Zenith, who he said was undisputed leader in television and electronics, made and sold over a million television sets in 1959 and more than a million and a quarter radios.

The meeting and showing was held in the Cap Rock Hotel in Lubbock where the full line was shown.

"There is still no printed circuits in a Zenith hand-crafted TV chassis," Woodson declared, adding: "Zenith has proven that the American public will pay for quality merchandise."

According to Woodson, the president of Zenith predicts that color will be improved in the 60's, making sets more simple, dependable and cheaper, but says color isn't good enough yet for Zenith to put its name on it. Philco isn't offering color either, Woodson said.

New 1960 models are on their way to the Woodson showrooms and will be on display soon.

**Water System Operator Has Important Role**

Meet the man who gets the State Health Department's vote as Man of the Year.

He operates the water system in your home town. Does the task sound prosaic? Then listen to health department sanitary engineers.

Without the commodity he handles, men and cities would slowly die. You use his handiwork with confidence, yet without thought, each time you turn the faucet to drink of the clean, clear water.

Each time you fill the basin to wash your face or brush your teeth or shave you call on him. Or on a hundred occasions during a single, fleeting day.

He and men like him are subjects of prime concern to the State Health Department's sanitary engineering division. The interest stems from the fact that clean water is indispensable to good health.

The Man of the Year retails clean water. Is that important? So important that no tyrant dares deny it to his people. Wars have been fought over it. Once mighty nations have collapsed because supplies were cut off.

The wandering children of Israel faltered in the desert and threatened rebellion until Moses smote a rock and brought forth a spring.

Because of what the Man of the Year does during his eight-hour shift, the 140-plus gallons of water you use daily—assuming you're average—is delivered to you in all its life-giving cleanliness.

Part engineer—part chemist—his badge of honor is his cherished operator's certificate, bestowed by the State Health Department only on those who have proved their ability to handle vital water system assignments.

But the use of water so pervades human life that it loses significance. Thus does the Man of the Year get slighted when the public hands out accolades for service. (A feature of the Health Department Division, Texas State Health Department.)

## Former Haskell Man Beaten By Midland Thugs

A 61-year-old building engineer and former resident of Haskell was brutally beaten and robbed one night last week outside an East Midland tavern.

He was J. E. Redwine, who moved from Haskell to Midland in the early 50's. He was in fair condition at Midland Memorial Hospital with knife wounds in his back and legs and numerous cuts and bruises.

Redwine, who said that he rebuilt automobile batteries as a hobby, said that he was delivering a battery to an east side tavern when he was attacked by three men.

He said he was delivering the battery in response to a telephone call.

Redwine said that three Negro men jumped him as he started to enter the tavern. He fell to the ground and fought them and begged for his life, he said.

After stabbing him and beating him with their fists, the men took about \$42 from his pockets and threw him into a deep ditch. Redwine later managed to crawl from the ditch and across Highway 80 to a motel where police and an ambulance were called.

## Census District Office Opened in Wichita Falls

Establishment of a district office for the 1960 Census of Population and Housing at 3829 Call Field Road, Wichita Falls was announced by Director James W. Stroud of the Census Bureau's regional office at Dallas.

Herbert Gray will be supervisor of the district office. He will direct a force of 20 crew leaders and 325 census takers in the following counties: Archer, Baylor, Cooke, Denton, Foard, Hardeman, Haskell, Jack, Kent, Knox, Clay, Montague, Stonewall, Throckmorton, Wichita, Wilbarger, Wise, and Young.

Taking the 1960 census nationally will require the services of 160,000 enumerators, 10,000 crew leaders, and 400

district supervisors, all temporary workers. The district supervisors, working under the general direction of the permanent regional field directors, are responsible for all phases of the census in their districts. Duties of the district supervisor include the recruiting of crew leaders, obtaining space for crew leader training, recruiting and training a small office staff, reviewing the completed questionnaires, and direct supervision of the field canvass which begins April 1.

Prior to the start of the census, all households will receive in the mail an Advance Census Report Form, a new census-taking device which is designed to speed up the field canvass and provide more accurate statistics. Distribution of this form, which contains the basic population and housing questions, gives the family a chance to assemble information about each member in advance of the census taker's visit.

When the man approached me I thought he was a produce salesman. He snarled out: "Say Bud, I noticed you didn't pay my income tax this year, and I'll see you at 3:00 o'clock this afternoon."

I gave him a minute, and asked him if he would eat and relax. HE DID. After he finished his meal, he smiled apologetic like and said: "Say I won't check you this year, for I can save more by eating with you than I can checking you"

### New Farmers Union President Rips GOP Administration's Farm Policies

Members of the Haskell County Farmers Union elected officers and directors for the current year Monday night, and heard a blistering denunciation of the Republican administration's handling of the

farm problem. The speaker was H. K. Henry, who was elected president of the organization. In the course of his talk, Henry also took some pointed jabs at a rival farm organization.

All officers were elected by acclamation. Henry succeeds retiring president Maurice Gannaway. Other officers are R. A. Shaver, first vice president; Joe B. Cloud, second vice president; H. R. Fischer, secretary and treasurer.

Named as community directors and alternates were: Paint Creek—J. R. Perry, director; Roy Medford, alternate.

Haskell—J. A. Landess and C. G. Burson Jr., directors; Shelby Johnson, Don Nanny, alternates.

Weinert—J. C. Dunnam, director; O. T. Sturdy, alternate. Rule—Joe B. Cloud, T. K. Kevill Jr., directors; Paul Bell, Leroy Casey, alternates. Rochester—Johnnie Wyatt, Lewis Nanny, directors; Grady Newsom and Gene Rose, alternates.

Sagerton—W. A. Fischer, director; D. W. Counts, alternate. Allen Strickland, past president, presided for the meeting held in the community room of the Haskell National Bank.

In his talk, Henry described the plight of the farmers as a fight for survival, in all agricultural pursuits.

"During World War II and the Korean conflict the nation's agricultural machine was geared to produce food and clothing for 12 million military men and women. When those conflicts ended the ability and capacity to produce continued. Surpluses started to accumulate and reduction programs were installed. These programs have been continuous since 1953, and the end is nowhere in sight.

"However, a year previous to 1953 disaster had struck the farmer in the form of a Republican victory in the national elections.

"Some people claim we are all gullible to some extent. However, I defy any man to name one thing the Republican Party has done for the farmer from the Civil War up to now," Henry challenged.

"On money lending they have shown much more concern than for the farmer. Interest rates have risen, and the President has recently asked Congress for a higher rate on long-term Government obligations," the speaker declared.

Taking a swing at a rival organization, the speaker continued "When the Republicans came to power, they took unto themselves as their very own another farm organization to which most, if not all, of those assembled here one belonged. We began to hear about a sliding scale, and soon we read in the papers that the farm organization to which you and I belonged had voted solidly for a price scale unfavorable to us! Many times these things to which you and I supposedly had given approval, we had not so much as been consulted on. I flew the coop—and so did many of you. That is how the Farmers Union came to be in Haskell County."

In closing his talk, Henry said: "Probably not one man here actually likes government controls of any kind, for we are mostly an independent lot. However, with farm sur-

pluses not entirely our own doing, we have no choice but for a regulated economy until a free supply and demand can regulate price. Otherwise, still further migrations from the farm are in prospect over the next few years, and if we do not work for a farm organization that will properly represent our wishes and a political party that will lend a sympathetic ear to our tale of woe, those of us gathered here may lead that exodus from the farm."

### In and Out the Tee Pees

BY SUZANNE LANE

Dorothea Rueffer, Jane Ann Sego, and Betty Rexrode, all students of HHS, presented a business program for the Business and Professional Women's Club. After Mrs. R. C. Couch Jr., the girls' teacher, gave a short talk on business, she gave the girls 3 minutes of shorthand dictation. Then the girls either read it back to her or typed it.

The B&PW Club is offering a business scholarship to a senior girl who is outstanding in business work and who plans to continue studies in business either in college or business school. This is the first year the scholarship has been awarded and it will be a \$50 cash scholarship.

Just to prove that HHS is truly interscholastic, the members of the speech department who went to Abilene and presented the program "Birth of the League," at the 50th anniversary celebration of the Interscholastic League, were looking at the Interscholastic League paper this week and noticed that their pictures were in it.

Mrs. McCollum's Homemaking III 4th period class have purchased new cook books. Each girl bought a Better Homes and Gardens cook book and the new books will serve as the girls' text books this semester while they cook.

The time has again arrived for term themes. All Indians are working diligently on the term theme cards. The rush has begun for reference books and the knowledge to use them.

This is a lousy depression. Everybody's working and everybody's broke. At least we didn't have to work in the last one.

### E. E. Welsh For Commissioner, Prec. No. 3

E. E. Welsh, well-known Haskell resident, has authorized the announcement this week of his candidacy for the office of Commissioner in Precinct No. 3, subject to action of the Democratic Primary.

Mr. Welsh stated that his decision to enter the race for Commissioner was made after careful consideration of the responsibilities involved, and with a sincere desire to be of service to the precinct and Haskell County.

A successful farmer and stockraiser, he has lived in Haskell County 37 years and in precinct 3 for 28 years. He recently retired from active farming, and is in position to devote his full time to the office, if elected.

His long residence in the precinct has acquainted him with the needs of that section, as well as the entire county, insofar as they are administered by the County Commissioner. He also knows at firsthand the problems of the farmer and taxpayer, and realizes that full value should be received for every tax dollar collected and spent.

As the campaign progresses, Mr. Welsh plans to see as many voters in Prec. 3 as possible in order to discuss his candidacy with them personally. He will also welcome an opportunity to discuss the needs of the precinct with the voters and taxpayers, and will be glad to have their suggestions on meeting these needs, if he is elected as Commissioner.

Until he has an opportunity to present his claims personally, Mr. Welsh solicits and will appreciate the careful consideration of his candidacy by the voters of Prec. No. 3.

### Retired Colored Farm Worker Dies Friday

James E. Mills, 73, retired colored farm worker who had lived in Haskell County since 1910, died at 1 p. m. Friday, Jan. 22 in the Haskell Hospital, where he had been a patient since Jan. 20.

Funeral service for Mr. Mills was held at the Hopewell Baptist Church in this city at 2:30 p. m. Sunday, Jan. 24, with the pastor, Rev. Otis Jackson, officiating. Burial was in Willow Cemetery under direction of Holden Funeral Home.

Only immediate survivor is a half-sister, Mrs. Willie B. Henderson of Abilene.

Keep in the rut too long and you'll dig your own grave.

State Senator George Moffett of Chillicothe, veteran legislator, is unopposed in his bid for re-election from the 23rd Senatorial District. The district includes Haskell, Archer, Baylor, Cottle, Foard, Hardeman, King, Knox, Throckmorton, Wichita, Wilbarger and Young Counties.

### Central Baptist Church to Host Singing Tonight

A program of singing will be held at the Central Baptist Church tonight (Thursday) beginning at 7:30 o'clock, and all singers and music lovers are invited to attend.

Truett Cobb, who is assisting with plans for the program, states that 200 new song books will be on hand for use of the audience. Everyone who enjoys singing and old-fashioned music is invited to attend the program.

### RETURN FROM VISIT IN DURHAM, N. C.

Dr. and Mrs. T. W. Williams and Mr. and Mrs. Jetty V. Clare returned Wednesday of last week from a 10-day visit in Durham, N. C., with their children, Dr. and Mrs. Temple Williams Jr. The Haskell people made the trip by rail and visited in Washington, D. C., and other points en route.

Nowadays men don't talk about women as much as they used to. Most of today's conversation is devoted to overtime and time-and-a-half.

Some workers have lots of "get-up-and-go" when it's time to get up and go home. Yes, sir, they're the ones who get "fired with enthusiasm."

Many a housewife spends two hours a day telling her neighbor she doesn't have enough time to do her housework.

A person with charm is one who can make another feel that both of them are pretty wonderful people.

### HHS Grad Named To NTSC Physics Institute

Denton—James Milton Dismuke, a 1951 graduate of Haskell High School, is one of 21 students named members of the student section of the American Institute of Physics at North Texas State College in the fall semester.

Dismuke is a physics major. Golfing businessmen often feel that if they shoot above par they are neglecting their golf, and if they shoot below par they are neglecting their business. You'll be happier if you are necessary to somebody.
