Cotton co-operatives were given par-ticular attention, the saving to cotton growers effected through the organ-ization being pointed to as an enor-mous figure. A fine spirit prevailed throughout the meeting, it was reported from Plainview following the convention, although a heavy rain fell Thursday afternoon that broke into a portion of the entertainment planned by the citizens of Plainview. J. H. Green, president of the Floyd County Farm Bureau, J. D. Christian, cotton association director from this district, and many others from Fleyd-ada attended the meeting. BRANCH TRAIN WRECK

educated young men and women to aid in its development and progress.

### **HEADLIGHT LAW**

Owners of motor vehicles of the State of Texas must have their headlight lenses tested for position, strength and type before September 1st, if they plan to operate the vehi-cles on the highways.

Provision is made for stations over the motoring public to test their lamps. Officials say the new law is badly needed for the protection of the public, the estimate being made that the anti-glare law will reduce very materially the number of accidents on the highways.

Most of the automobiles being built at the present time will approximate-ly meet the requirements of the new law, it is thought, although a certificate from a properly accredited station must be obtained.

**COLD CHECK LAW** 

This and That

As a sort of an insight into some of the things that affect merchants' business: Big wheat crops make more April 20th, 1907, at the Post Office at Floydada, Texas, under the Act of Congress of March 3rd, 1879. than big wheat crops do.

It takes more than a 'short skirt,

the lament is going up that the new cold check law is worse than the old one, and while the legislature was trying to stop up the gaps in the law they made history and the peaches which this they made bigger ones, at Amarillo the law is working.

The county attorney of Potter County is quoted by the Amarillo News as saying: "The check is all the evidence needed for conviction," and comments to the effect that the attorney must be right since he has had a docket full of cold check charges and has been getting convictions right along. The new law makes the uppaid check prima facie evidence that the man who signed it is swindling.

## GEO. W. GOETHALS COMING

The almost sensational announcement was made last week that Geo. W. Goethals, builder of the Panama Canal, would visit Amarillo soon and spend sometime going over the possibilities of the immense irrigation project, which is believed to be possible along the branches of the Canadian River. A giant power plant possibili-ty in the gas fields north of Amarillo will also be investigated by the eminent engineer

That Mr. Goethals is interested in the proposals means two things-one of which is that there are tremendous possibilities for the north plains in the projects, and the other is that big money is planning to come to this territory and help develop it.

### AN EXHILARATING EFFECT

A bottle of Herbine on the shelf at home is like having a doctor in the house all the time. It gives instant relief when the digestion gets out of order or the bowels fail to act. One or two doses is all that is necessary to start things mov-ing and restore that fine feeling of exhil-aration and buoyancy of spirits which be-longs only to perfect health. Price 60c. Sold by

## H. O. Pope & Son Designated as Headlight Testers at Floydada

Attesting the regard in which the firm of H. O. Pope & Son are held as reliable mechanics and thorough-going garagemen, the announcement was recently made of their appointment as headlight testers at Floydada for motor vehicles registered in this county. The latter part of last week the equipment for testing was received by them from the highway department and testing is now being done by the firm. A set fee for testing and adjusting lights is made by law, and unless work other than this is required the charges are 25 cents per car.

H. O. Pope, senior member of the firm has been in the garage, battery and electrical business in Floydada for 11 years, and had been engaged in this business at various points on the north plains ever since the automobile came into use in this section. At this time the firm is specializing in battery and electrical work. Mr. Pope's ability as a practical automotive electrical man is

-Photo by Wilson Studio.

rated high, and the firm carries electrical parts for all cars.

Ø

8

8

Ø

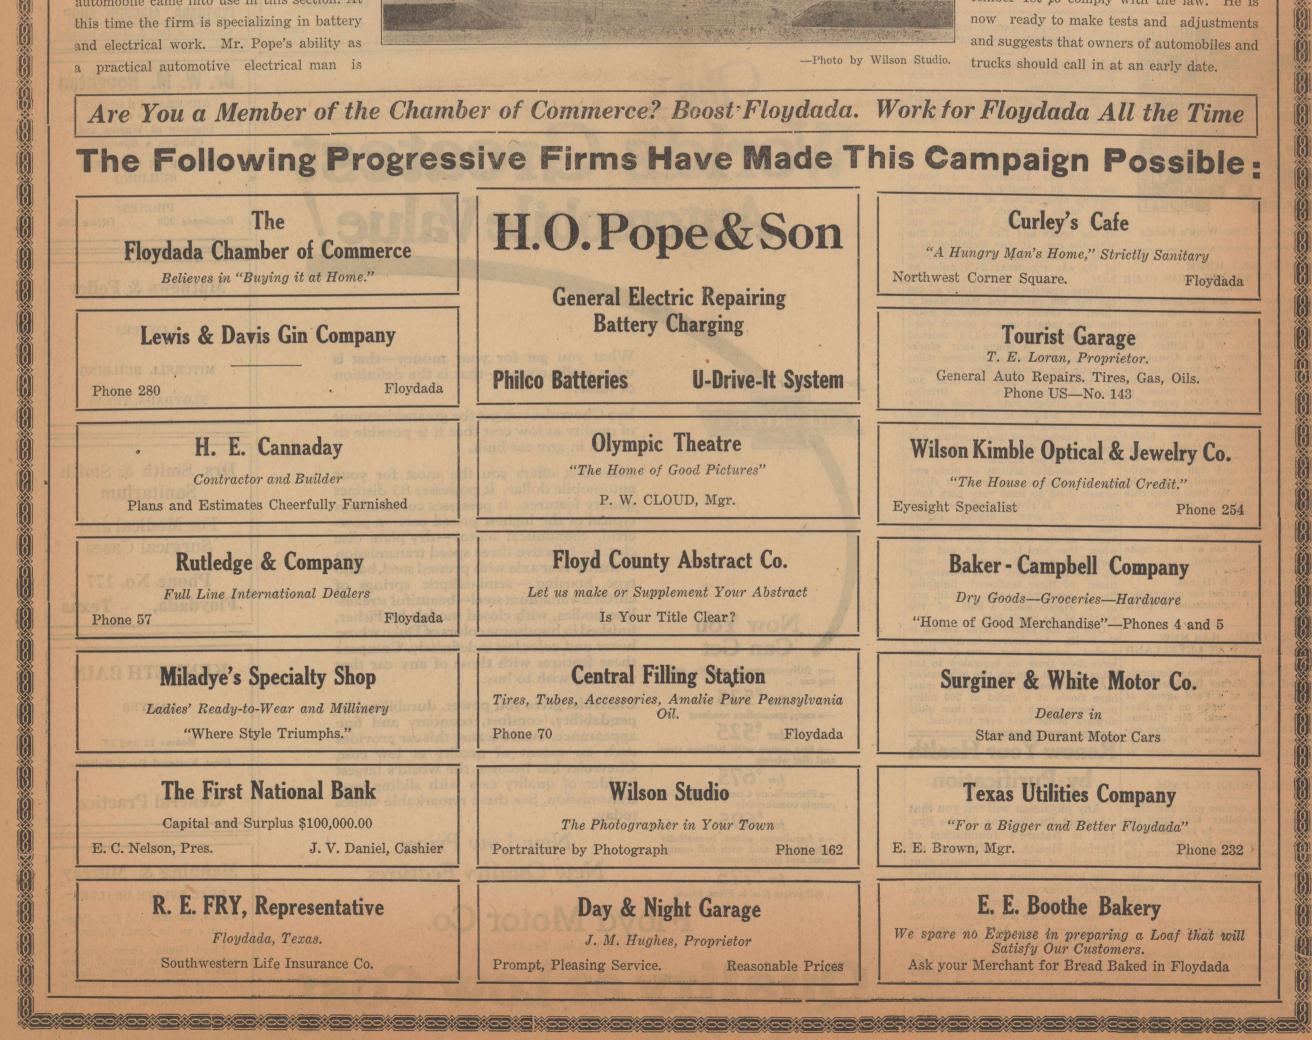

Philco Batteries are sold by this firm. Mr. Pope is firm in his belief that this is the best battery for the money, and his belief is based on a number of years of experience.

R. L. Henry and E. F. Eastridge are two employes of the firm. Both are trustworthy and know their business well. Mr. Henry was one of the first men in Floydada to take up automobile repair work in Floydada some eighteen years ago. He is considered one of the best all-round repair men. in Floydada.

A feature of the light testing work he is now doing to which Mr. Pope calls attention, is the fact that all automobiles in the county must be tested and adjusted by September 1st to comply with the law. He is now ready to make tests and adjustments and suggests that owners of automobiles and trucks should call in at an early date.

## SHOWERS INTERFERE WITH PETERSBURG BAND CONCERT

Between intermittent showers of rain from threatening skies, the twenty-five piece Petersburg Concert Band under the direction of Tom Collum, formerly of this city, presented a well-rounded program Sunday after-noon to an audience of some three hundred persons, most of whom sat in their cars parked around the court nouse lawn, where the concert was given. Popular music and regular band selections were rendered. Macyl Burke and Parker Shipley, saxaphon-ists with the Floydada band, took part in the program.

A number of Petersburg residents accompanied the band and were guests in the city for a short time. Among the visitors who were here with their families were: W. R. Tisdell, R. A. Jefferies, Roy Smith, H. H. Robinson, E. B. Shankle, J. J. McDaniel, C. P. Thorp, A. S. J. Martin and E. C. Reagan and others. C. Phillips, M. J. Gregory were also among the Petersburg visitors.

## THE FLIVVER

The flivver is my automobile, shall not want. It maketh me to lie down in muddy roads; it leadeth me down in muddy roads; it leadeth me into trouble; it draweth on my purse. I go into paths of debt for its sake. Yea, though I understand my flivver perfectly I fear much evil lest the ra-dius rod or the axle might break; it hath a blowout in the presence of mine enemies. I anoint the tire with a patch. The radiator boileth over. Surely this thing will not follow me

a patch. The radiator boileth over. Surely this thing will not follow me all the days of my life, or I shall dwell in the house of poverty forever. Moral: Equip your flivver with one of the new improved cuckoo clocks. When the car reaches a speed of thirty miles an hour the bird will come out and sing, "Nearer, My God, to Thee" and at forty miles an hour, "Lord, I Am Coming Home." Slow down.—Ex.

86-Hail In days gone by Miss Mary had Wherever she would go To cheer her up and make her glad A lamb as white as snow.
