

Lone Star Is Planning New School Building

\$4,500 Bond Election Called For March 16 To Supplement \$14,000 Insurance Money.

Lone Star School District trustees have made their plans for a fine new school building to take the place of their building which was destroyed by fire on Armistice Day last year. Plans and final awarding of the contract for the new building depend on the outcome of an election called in the district for March 16, when taxpayers will determine whether or not \$4,500 in bonds will be issued to give a sufficient amount to construct the building. Salvage from the old building and slightly over \$14,000 in insurance money collected will be used in the new plan for constructing and equipping the school.

A rally was held at Lone Star Friday night of last week when the bond issue was discussed. County Superintendent Price Scott and County Judge Wm. McGehee attended the meeting.

While the district has had no building during practically all of the year's school, work of the school has been carried on in the churches. It is hoped, if the bond issue carries, to have the new school ready by the opening of another term.

The plan decided upon by the trustees is a T-shape unit type of building with four class rooms, library and office and a nice auditorium. At present the arrangement is to award a contract for construction subject to a favorable outcome of the bond election, on March 9. The bond election will be held on March 16. G. B. Johnson, J. H. Phillips and Rob Smith, Jr., are the school's trustees.

Motley Co. Road Bonds Carried 3 To 1 Saturday

Motley County's road bond election, from the proceeds of which, with state and federal aid, the county expects to hard-surface Lee Highway east and west through the county, as well as do extensive improvement on lateral roads, carried Saturday of last week by a majority of about three to one.

That county, along with Hale and Floyd, voted on a similar proposal on December 31, when the issue lost by thirty-five votes.

Motley is the third of the eight counties on Lee Highway in Texas to adopt plans for hard-surfacing. Cattle immediately east, and Wilbarger on the Oklahoma line being the other two.

Large Attendance Out For C. Of C. Meeting

Give Support To Plea For Full-Time Deputy Sheriff In North Part Of County.

A large attendance marked the first regular meeting of the Floydada Chamber of Commerce Tuesday night. The membership drive, which started early this month, has netted several new members, many of whom were in attendance at the first meeting.

Robert McGuire, leader of the McGuire forces, was given quite a surprise when the members were told to line up on different sides of the house in order to determine which side had the larger attendance. When the house was called to order again it was found that every man present was lined up with the "William's" army. However several of the "deserters" got back on their own side when the fun was over.

One of the most interested committees appointed recently by the president is the highway committee headed by Roy Snodgrass, who made an interesting report on the progress being made by this committee. A north-south highway from Post to Silverton has long been the object of the towns on which route but up to the present time Floydada has taken only a passing interest in the designation of this road. A delegation from Ralls met with the local committee this week and plans were started on lining up the other towns interested in this project.

The fact that Floydada is missing a part amount of trade by the condition of the road from McAdoo to Floydada was stressed by Mr. Snodgrass. The committee plans on taking this matter in the near future.

G. Stegall, who had attended the P. G. convention in Sweetwater and invited that body of men to meet at Floydada for their next convention, made a report of his trip in which he stated that it was the unanimous decision of the Sheriffs to hold their Augusting in Floydada.

The resolution adopted by the Lockney Chamber of Commerce in which that body asked the Commissioner to place a full time deputy sheriff at Lockney, was read and explained by Stegall and P. G. Stegall. A motion was made and passed that the Chamber of Commerce go on favoring the resolution as adopted by the Lockney Chamber of Commerce and so inform the Commissioner.

A report on the Will banquet which was held at the meeting of the Chamber of Commerce was also made.

I. A. Willis, Pioneer Of Floyd Dies At Paris

Early Day Resident of County Succumbs To Heart Failure And Dropsy Feb. 11.

I. A. Willis, one of the pioneer residents of Floyd County who took up his residence here thirty-five years ago on the section of land where now stands Antelope School in southeast Floyd County, died Friday, February 11, at the home of his daughter, Mrs. B. F. Howard, in Paris, following an illness of some six weeks. Heart failure and dropsy were given by attending physicians as the cause of his death.

Mr. Willis was 79 years of age at the time of his death. He was a native of Virginia, coming from Mills County, Texas, to this county in an early day. Twenty-one years ago he left Floyd County and took up his residence at Monument, N. Mex. Last year he moved from that state to the Ozark Mountains to make his home, he told friends at the time, until his death. He was in Floydada visiting his son, R. H. Willis, and renewing old acquaintances while enroute to Arkansas.

Besides settling the place near Antelope, Mr. Willis also improved the farm where J. W. Howard now resides. He sold the place to Judge Howard.

Like the greater number of Texas pioneers Mr. Willis was a man of many accomplishments and it was he who constructed the first vault that ever housed the public records of Floyd County. This vault has since been discarded to make room for more commodious quarters for the records.

Although all of his family were reared here none of the children now reside in this county. The sons and daughters of Mrs. B. C. Willis of Lakeview are his grandchildren. Bob Willis, the last of the children to move from the county is now making his home at Amarillo.

Other surviving children are Ernest, Scott and Landrum Willis, sons of Wyoming; Mrs. Mary Attaway, of Phoenix, Ariz., and Mrs. Frank Howard, of Paris, Texas.

Mr. Willis became ill early in January and with his wife, who survives him, went to Paris in the hope of recovery. His condition rapidly grew serious and he was confined to his bed shortly after arriving at that place. Remains were interred at Paris.

The name, "Hen Party" derives from the admission fee. Admission for the party will be one hen, or one dollar for everyone. "We don't care which you bring, but just so you come with one of the two, and we guarantee that you will get your money's worth" J. L. Speer, principal at the Sand Hill school stated. Marshall Will Re-Build Grain Elevator At Once

New Structure Will Take Place of \$27,000 Building Burned Down Thursday Night.

Plans are already being made by L. A. Marshall of Marshall Grain Company to re-build at once an elevator on the site of the large grain elevator of the company destroyed by fire, together with some \$2000 worth of grain shortly before midnight of last week. This statement was made by Mr. Marshall the first of this week, who declared that the elevator would be re-placed at once.

Fire, which completely destroyed the elevator, originated in the loading house and was burning strong when discovered. It burned the elevator down in a very short time, a heavy wind fanning the flames and making the efforts of the fire department fruitless. The blaze broke out about 11 o'clock and the large iron clad building was entirely consumed within an hour.

The building cost \$27,000. Mr. Marshall had \$13,000 insurance on it, and the grain, consisting of wheat and maize, was also covered by insurance.

For a time the intense heat and flying cinders threatened practically the entire section of the industrial district. Only one blaze of this nature occurred, however, this being a frame building nearby owned by C. W. Mitchell and occupied by the Floydada Mattress Factory. This blaze was extinguished, however, with a loss apparently less than \$100.

The loss of approximately \$18,000 was partially covered by insurance. The Panhandle Produce Company are owners of the Floydada Produce Company of this city, and part of the poultry and eggs destroyed in the flames were purchased here, Carey Stark, manager of the Floydada house stated this morning.

OPPORTUNITY FOR OIL TESTS

With the announcement that Exploration Oil Company has completed blocking acreage in Motley County for two oil tests that company will make in that section, it is brought forcibly to mind that with the signing up of a few thousand more acres in Floyd County, two and possibly three tests by this company can be gotten under way in this county.

Floyd County is the wildest kind of wild cat territory so far as oil tests are concerned, and several local men, interested in seeing the tests made and the possibilities here brought to light, have been working in an effort to get the oil companies and the land owners interested at the same time.

Our information is that the larger companies, able to do wildcatting set aside a certain amount each year for wildcat operations and that when these plans are made it is not often, if at all, that they are changed. Floyd County is in the plans of the Exploration Oil Company for three tests this year. If these tests could be materialized they would be of great cash value to the country in the new money they would bring into the country. It is one of the possibilities that some time will elapse before a similar opportunity presents itself in this county.

Land owners should get in the state of mind to seek an oil test or two or three in this county this year while the oil companies are willing to make the tests. Another year might bring another condition, and with it a lost opportunity for an oil test.

GYM DEMONSTRATES ITS VALUE

The gymnasium-auditorium, which was made a part of the new ward school building in west Floydada, has already proved its value to the community. Its beauty as well as its practical utility both as an assembly room and auditorium, as well as a gymnasium, have already been the subject of compliment from visitors.

Those who took the lead in insisting on the plans for such an arrangement of the Andrews Ward School ought to

be gratified with the worth this new idea in school construction has demonstrated.

SCHOLASTIC CENSUS

Scholastic census days beginning March 1. Floyd County residents should assist census enumerators to see that all scholastics in the county are listed. Each child overlooked will cost the school district in which the child resides at least \$11.50, possibly considerably more.

FOUR FREEZING DAYS

Of material aid in holding back the luxuriant growth of the early wheat crop, Floyd County experienced four days in last week when the temperature was below the freezing point for several hours daily.

A large portion of the Floyd County wheat crop is early planted and the heavy rains, coupled with high temperatures have given it a growth that will make it subject to damage if late freezes occur this spring, if the remainder of February and March do not have some freezing weather to aid in keeping it back.

BAG WORM DAMAGE

Bag worms, imported into this county with the introduction of evergreens, are becoming a real menace to various kinds of trees over the county, fruit trees of various kinds as well as several varieties of shade trees being subject to the attacks of these larvae-propagated pests.

Spraying or expensive remedies of any kind are difficult to apply, it is said, the most difficult and least expensive manner of exterminating the bagworm being to get into the tree during the winter or spring and pull the larvae-nests from their fastenings and burn them. To pull them off and throw them on the ground does not kill the larvae, it is said. The first warm day of spring will hatch the little moth on the ground just as well as on the tree.

Sycamore trees of the shade trees are the most susceptible to the attacks of the bag worm, which chokes the trees in summer by cutting up the leaves. Apple trees and plum trees and possibly other kinds of fruit trees are subject to attacks of the bag worm.

If you have evergreens on your premises watch them for any signs of the worm, and don't try to spray your shade trees to kill them there. Get up in the trees and pick them.

At the close of the service \$366 was pledged by just a few. Mr. Payne made a good talk and made a motion that the church go 100 per cent in favor of raising money for this cause. ORIENTAL STUCCO

J. C. WOOLDRIDGE LUMBER COMPANY

Farmers who know the sturdy John Deere marvel at its great power. They see this compact, light weight tractor—hundreds of pounds lighter—out-performing larger, heavier tractors in difficult conditions in the field and at the belt.

Here's the Reason:

This 15-27 H. P. tractor weighs only 4,000 pounds—hundreds of pounds lighter than other tractors of the same rating; power ordinarily wasted in moving excess weight in the field is applied to the drawbar of the John Deere.

The John Deere is hundreds of parts simpler—it's the tractor of fewer and sturdier parts. Fewer moving parts reduce friction, one of the biggest

power thieves in many other tractors. Belt pulley is mounted directly on crankshaft—no power loss. All operating parts of the John Deere are automatically oiled and completely housed in a dust-proof case—oiling is positive, dust and sand cannot get in to cause friction, loss of power, and undue wear.

John Deere one-piece frame holds all units in permanent alignment.

The great power of the John Deere will surprise you. Drop in and see this sturdy tractor next time you are in town. Let us arrange a demonstration.

11 Chattel Mortgages January 1 To Feb. 18

Remarkable changes in the form of handling security in this section have taken place in the period elapsing since the World War, brought about principally, it is said by the rediscout requirements of the Federal Reserve Banks, so that a large per cent of the loans made and merchandise sold on time is now based on chattel mortgages.

This year the clerk's office is keeping one employe busy almost all the time recording chattel mortgages, 811 of which had been filed for record in the period from January 1 to February 18 in the county.

About 66 per cent of the mortgages filed are crop liens, a study of the records shows, principally liens on wheat and cotton. Banks lead in the number of mortgages filed, with automobile credit companies second.

THREE RIBS BROKEN WHEN CAR TURNS TURTLE ON ROAD

Ed Patton, of Matador, sustained severe bruises and three broken ribs Friday evening on the Matador Highway immediately east of Floydada when a high-powered car driven by Foy Boen, with the Exploration Oil Company, making his headquarters in Floydada, overturned. Boen was not injured and Patton was able to return to his home Matador Sunday.

The condition of the car indicated it turned completely over, and the radiator and the rear top bows being smashed on the car, which was a touring model Chrysler. The accident occurred so quickly that neither occupant knew how it happened. Following the accident the car was standing on its wheels pointing in the same direction they were going before the accident occurred, according to Claude Wither- spoon who viewed the wreck shortly after it occurred.

HEINZ ANNIVERSARY SALE AND DEMONSTRATION HELD

F. E. Mangum, of Oklahoma City, in Floydada Saturday for a demonstration and sale of Heinz Products at the Baker-Campbell "M" System store, said Saturday night he was highly pleased with the results obtained.

The sale and demonstration was in celebration of another anniversary in the company's long business career.

'Round The Square

"Floydada—the best lighted town on the plains." That's what they will soon be saying about this place. New street lights sure do improve the looks of this town.

And it won't be long before the business section will have large light posts on every corner, too.

"Come to the Panhandle," says the Clarendon News. It is a wonderful place. Only last week burglars entered the home of a country newspaper man and got away with over fifty dollars worth of jewelry. Can you beat it in any other section of the world?

Lots of good basketball material went to waste last Saturday. F. H. S. lost in the district tournament just because they fell down on the job, not because they did not have a winning team. But there is no use to howl about a loss, they didn't win and we might as well be good losers.

The thing to work on now is a baseball club. Floydada High has not had a nine that were district winners in several years but this year should be an exception.

Somebody 'Round the Square last week said: "If I get my hand stepped on just once more, I am going to stop smoking altogether."

The Clarendon News has a little editorial that might well be applied to Floydada. The News says "All progress brings added requirements. Clarendon's added paving brings home the need of a street sweeping machine, and we are sure that the 'city dads' will provide something of that nature in the course of a short time."

The editor of a near-by country newspaper wrote to one of his subscribers in reply to a complaint: "Brother, don't you stop your paper just because you don't agree with the editor. The last cabbage you sent us didn't agree with us, either, but we didn't drop you from our subscription list on that account."

This could not be the case with the Hesperian, as nobody 'Round the Square nor any where else has made us a present of cabbage or anything in some time. But it won't be long now till old Official Taster will wake up again.

We like to have been run down by a car and arrested for jay walking last Saturday. But it could not be helped. We had to walk down the middle of the street to get past the street preaching.

An exchange has the following head line: "Negro shot Near negro quarters." We don't know where that is, but it sounds serious.

Why We Fit Tillyer Lenses

In a few words, we use this latest optical development because it gives you lenses that have our prescription ground accurately from margin to margin. Ordinary lenses give clear vision only through the center—through the margins, the vision blurs and may cause eyestrain. Stop·Look·Listen!

American railroads are the safest in the world to ride on. They are safer than any other kind of transportation. But you can make them even safer by being more careful. The welfare of yourself and family may be involved. ▽

The railroads are making a vigorous effort to **reduce accidents.**

Won't you help?

You can help in many ways and especially by observing these ten don'ts.

DON'T cross railroad tracks, either walking or driving, until you stop and look in both directions, whether view is obstructed or not.

Stop—look—listen!

DON'T try to cross tracks in front of an approaching train. It pays to wait.

DON'T cross a track after a train has passed, until you have made sure no train is coming from the opposite direction.

DON'T walk or stand on railroad tracks. If compelled to walk in railroad yards, avoid walking between the rails of any one track. There is usually room between the tracks.

DON'T let your children play around rail-

road tracks or trains. Teach them to play elsewhere.

DON'T get on or off a non-passenger freight train, or crawl under it.

DON'T attempt to get on or off a moving passenger train. Wait until it stops.

DON'T be careless when stepping on or off a standing passenger train. Watch your step.

DON'T stand on platforms of passenger cars. It is safer inside.

DON'T place hand or arm in an open window. The window may close unexpectedly.

Two-thirds of all railroad accidents are incurred by persons going on railroad tracks without stopping, looking and listening.

You share in the **responsibility** for these accidents.

Your co-operation means **greater safety.**

Freshmen-Sophs Entertain With Kid Party.

An unusual custom was inaugurated in the Floydada High School last Friday evening when the Freshman class entertained the Sophomore class with a Kid party at the Andrews Ward Gymnasium. This is the first time that such an entertainment was held, and it is believed that it will be made an annual affair.

Some eighty Freshmen and Sophs were present at the party, each dressed in kid clothes and acting the part of children. They got lots of "kick" out of seeing Miss Pearl West and Mr. A. D. Cummings "all dressed up and no where to go." After games of "Ring

P. T. A. Continues To Serve Lunch.

In honor of Washington's birthday a program very fitting for the occasion was given at the regular meeting of the Parent-Teachers' Association Friday afternoon by the school children of the fourth and fifth grades.

The greater part of the afternoon was given to the program and very little business was brought up other than the decision to continue to serve lunch each Tuesday at the cafeteria to the general public. Well prepared lunches are served by the association and have been enjoyed on each Tuesday of the week by not a very small crowd.

Friday afternoon, March 4, at 3:15 o'clock will be the next regular meeting date.

With drums beating and colors flying the guests arrived at the mansion where they were most graciously entertained from 2:30 until 4:00 o'clock.

Fern Pinker and Virginia Belle Gamble read for the guests. General Washington delighted his little merry makers by summoning "Moses" (the stable boy colored) to do several songs and dance numbers. STARKEY 4H CLUB

The Starkey 4H Club met Tuesday, February 15. There were fifteen members present. Miss Bass gave us instructions on making the sewing bags and hot dish holders. Only a few of the girls got stars this meeting. We hope each girl will try to get stars every time as it will make our record look so much better if all of the girls get stars at each meeting.

To get stars at the next meeting the second year girls must have their sewing bags turned in and have their patch and apron cut. The first year girls must have their cup towels and hot-dish holders turned in and have their cap and apron cut.

Miss Bass is going to give a slumber party to the girls' club having the most entries in the dress contest. We are working for a 100 per cent record. She is also planning for an encampment for all of the club girls of the county if they complete their club work as they should.

Our next meeting will be held Saturday, March 1, at 1:00 o'clock. Remember the date and have your sewing at the club room ready for a star.

HARMONY DEMONSTRATION CLUB

The Harmony Home Demonstration club met Wednesday, February 16, with Mrs. Robert Gary in one of the most profitable and enjoyable meetings of the year.

The morning was spent in rug making, at noon a sumptuous dinner was served. After dinner the president, Mrs. Parkey, called the meeting to order, and after a short business session, the meeting was turned over to the leader, Mrs. Erx Williams. Each one present answered to roll call with a thrift habit. Mrs. Trowbridge talked on "Gardens as a Means of Economy." Mrs. Tinnin told us how to make use of leftovers. Mrs. Scott gave her actual experience in keeping household accounts, which was not only interesting but very profitable for all of us.

The next meeting will be with Mrs. L. A. Williams, March 2. The subject is "Trees and Shrubs," with Miss Fannie Harris as leader.

SAND HILL DEMONSTRATION CLUB

The Sand Hill Home Demonstration club met at their club room Wednesday, February 16, with thirteen members and one new member present. Miss Bass was also with us and five visitors from the Campbell community. They were, Mrs. Womack, Mrs. Horn,

Mrs. Bethel, Mrs. Jackson and Mrs. Amburn. We were indeed glad to have these ladies with us and hope they will visit our club again.

Roll call was answered with one thrift habit. The subject was very interesting. We never get too old to learn these days and we always get new ideas from our lessons.

Our next meeting will be held Wednesday, March 2, with Mrs. A. R. Hanna as hostess. Mrs. Tom McLain will be leader. Subjects to be discussed are: "Reasons for planting Trees," Mrs. Weems; "Varieties to Select For the Home Ground," Mrs. Pope; "Location of Trees and Shrubs," Mrs. Miller; "Planting of Trees and Shrubs," Mrs. Collins.

Friday night, February 25th we will have a hen party at the school house. Everybody bring a hen or a dollar. Spelling and old fashioned games will furnish amusement. Come and let everyone have a good time.

Old time refreshments will be served. Those who care to may come dressed in colonial style.

MAYVIEW CLUB

The Mayview Home Demonstration Club met Monday, February 21, at the home of Mrs. C. E. Bartlett. Eight members were present and two new members. We will be glad to have more of the ladies join. They are missing some very interesting work.

A very interesting business session was held. Several different subjects were discussed by the members. We discussed our fair work and each member took a part in the work. We are very sorry that Miss Bass can not meet with us twice a month but we are very glad to have her with us once a month as we surely do miss her.

Our next club meeting will be held March 7, with Mrs. J. W. Miller as hostess. The subject will be "Trees and Shrubs." Mrs. T. J. Campbell will be leader of this meeting. The program will be carried out as follows:

"Reasons for planting trees and shrubs"—Mrs. H. L. Handley; "Varieties to select for the home grounds"—Mrs. J. D. Glover; "Location of trees and shrubs"—Mrs. R. W. Lotspeich; "Planting of trees and shrubs"—Mrs. C. E. Bartlett.

At our last meeting, chocolate pie was served to the following guests: Mesdames T. J. Campbell, L. E. Cardwell, F. T. Emert, H. L. Hanley, R. W. Lotspeich, J. W. Miller, J. D. Glover and Misses Thelma and Jewell McNeill.

CAMPBELL DEMONSTRATION CLUB

The Campbell Demonstration Club met at the home of Mrs. W. H. Bethel Tuesday afternoon, February 15th. We

had a splendid meeting. There were twelve regular members and one new member, Mrs. Barkley Chestnut. Miss Bass also met with us. Our club is planning a clothing contest to be held about the first Tuesday in May, which we hope will be helpful and interesting to our club. The subject of our lesson for this meeting was "Thrift," led by Mrs. Joe G. Cover. Other subjects discussed were: "Gardens as a Means of Economy," Mrs. W. A. Amburn; "Use of Left Overs," Mrs. S. H. Horn; "Bargain Sales," Mrs. A. C. Jackson; "Economy in Clothes," Mrs. E. J. Womack; "Keeping Household accounts," Miss Bass.

Our next meeting will be held Tuesday, March 1st, with Mrs. Mal Jarboe as hostess.

PLEASANT VALLEY CLUB

The Pleasant Valley Home Demonstration Club met last week on February 11, with Mrs. Fry. Gardening plans were discussed at this meeting. Miss Bass was present and expressed her desire for a greater variety of vegetables to be grown. It was all so interesting that we can hardly wait until gardening time.

The progress made on the rugs seems very satisfactory at the present time. We only hope others will show as much interest in rugs. The next meeting will be held with Mrs. Rivers, on Friday, February 25. As spring comes and work begins anew we hope others will take interest in the club work which goes hand in hand with better gardens, better chickens, and better homes.

McCOY 4H CLUB

The McCoy 4H Club Girls met last Thursday, Feb. 17. All of the members were present but four. Out of the fourteen members who were present, twelve received stars. This is good and every member is going to be present next time and all get stars. We are gradually improving all time. When we all once catch up it will not be any trouble to stay up.

The house was called to order by the president and roll call was answered by each girl stating what she had done toward her home project.

After we were through with our business, Miss Bass took charge and first took up all work that was ready for inspection. Nearly all articles that were graded received an "A." Miss Bass then instructed the second year girls on their home improvement articles, since nearly all have their required sewing for the year finished.

Miss Bass instructed the first year girls on their uniform aprons. Most all the second and first year girls chose pillow cases for their home improvement. However some chose dresser scarfs.

Miss Bass gave all of us tape lines and thimbles. We were very proud of them and now we have no excuse for not having them with us. She told us that she was going to give a slumber party to the club who had the most entrants at the dress contest. Since we happened to be the lucky club last year to get the party, we are very enthused over this again, and we are going to try even harder than last year.

Plans are being made for the clubs of this county entering the two days encampment which will be held on the Blanco Canyon. We are looking forward to this.

MAYVIEW 4H CLUB

The Mayview Girls 4H Club met Monday, Feb. 21. The president took charge and a very interesting meeting was held. Miss Bass explained how the club might earn money to send one of its members to the Dallas Fair or the A. & M. Short Course.

The second year girls sewing bags were turned in and graded. They were very nicely made and Miss Bass was well pleased with them.

The first year girls have finished their cup towels and are now making the hot dish holders.

Some of the girls have already started their poultry work. We are all looking forward to a great success with our poultry this year as well as a successful garden.

SUNSET GIRLS' CLUB

Miss Bass, the county demonstration agent, met with the girls of Sunset February 18 in order to organize a 4H Demonstration Club. The charter members are: Vera Wilson, Lee Hope, Lowell Haverty, Neva and Ieta Ormon, Helen and Geraldine Upton, Madie and Ona Wooton, Addie Mae and Pauline Gilliland, Bulah Cummings and Ruth Childress.

The following officers were elected:

MRS. J. H. MASSIE UNDERGOES OPERATION IN DALLAS HOSPITAL

Mrs. J. H. Massie, wife of Dr. J. H. Massie, of Wichita Falls, and former resident of Floydada is in a Dallas Hospital recovering from an operation which she had performed on her knee a few days ago. Mrs. Massie threw her knee out of place several weeks ago in climbing from a berth, while she and Dr. Massie were returning from a trip to New York City.

The injury was thought to be slight

at the time but proved to be very serious and she will probably have to remain in the hospital for about two months, Dr. Massie said.

Dr. Massie still has extensive land holdings in the city and was here for two days this week looking after business. He was accompanied by Mrs. Massie's brother, Arch Collins. Both left Tuesday, Mr. Collins for Wichita Falls and Dr. Massie for Dallas to be with his wife.

Whirlwinds Defeated In District By Southland

Floydada Cagers Lose In Last Minute of Play In Second Preliminary Game At Lubbock Saturday.

Losing to Southland, 29 to 26, in their second preliminary game last Saturday at the meeting of District Two basketball teams in Lubbock, the Floydada Hi Whirlwinds were eliminated from the race for the district championship. The Whirlwinds held a large lead throughout the game, but with the score tied and less than one minute to play, the Southlanders staged a rally and scored three points to win the game and enter the semi-finals with the Ralls Jackrabbits.

The Jackrabbits defeated the Southland quintet 10 to 37, and in turn defeated Wellman 25 to 21, in the final

game winning the title of champions of District Two, for the second successive year. The Ralls five will meet the Canyon team, winners of District One, in Canyon this week for bi-district honors and the right to enter the state meet at A. & M. College.

In the first preliminary game the Whirlwinds entered during the meet, they had an easy victory over the Levelland cagers and blew the Hockley county team out of the tournament with the highest piled up score of the meet. The score was 45 to 14. From the showing the wearers of the Green and White made in this game, it was expected that they would enter the finals, with good prospects of winning the meet. Coach Jay substituted his entire second team in the latter part of this game, and they continued to pile up the score against the Levellanders.

Although the F. H. S. boys were "doped" to have an easy victory over Southland and probably be one of the best

cagers at the tournament, their loss at the hands of the smaller team came as a surprise to many. Eubank, crack forward for the Whirlwinds, was taken from the game in the last quarter because of four personal fouls. At this time his services were especially needed because of the rally staged by the victors.

More "dope" that the Floydada team should have been among the winning teams is presented in the fact that they have twice defeated the Ralls Jackrabbits, winners of the tournament. The Ralls aggregation was eliminated in the semi-finals in the practice South Plains tournament held here recently.

The first string line-up of the F. H. S. cagers were: Edwards and Webb, forwards; Swain, center; Eubank and de Cordova, guards. Hanna was substituted in the last quarter for Eubank.

Currants Received From Greece In Appreciation

This week the Junior Red Cross children of Floydada received a box of Corinthian currants from the children of Greece sent through the Junior Red Cross. These currants were in appreciation of the Christmas boxes received by the Greek children from the children of this city. The Junior Red Cross children of Floyd County sent 50 Christmas boxes which were distributed in the foreign countries this past Christmas.

The Junior Red Cross of Floyd County was reorganized in October under the supervision of Mrs. Lon V. Smith county Chairman. Through international correspondence and exchange of gifts it is intended that the Junior Red Cross work will bring about a world friendship among the children of the nations.

Preceding the arrival of the currants a short letter was received by the primary East Ward children from a girl at Piraeus, Greece. The letter was addressed to Mrs. G. F. Klebold, teacher at East Ward school and is as follows:

Dear Mrs. G. F. Klebold:
How glad all the poor refugee children are when the pretty gifts have been given to them.
With all their heart say a great thank and a loud cheer for the kind Americans who ever from to the poor refugees their gentle sentiments.
Though I am a poor refugee I take the American lessons, since two months, because I love this language very much. Will you have the kindness to answer me? That will be for me a lesson.
Yours truly,

Ford Dealers To Stage Economy Run March 2nd

Eliminations For Entrants From Floydada, Lockney, Plainview And Hale Center Feb. 28.

Plans to stage a big Ford Economy run, open to owners of this make of car in the Floydada, Lockney, Plainview and Hale Center trade territories have been announced by Barker Bros. here, who jointly with Lockney Auto Co., of Lockney, L. P. Barker Co., of Plainview, and Winn Motor Co., of Hale Center, will sponsor the run, to be held on March 2.

B. K. Barker, manager of Barker Bros., in making the announcement of plans for the contest, said that eliminations to determine the entrants from Floydada will be held on February 28, when a large number of entrants are expected in each of the two classes—open and closed types of cars. From this number a representative in each division will be chosen. At present the plans are to run by way of Lockney to Plainview in the local eliminations, around the court house there and back toward Floydada.

Liberal prizes are being offered in both the elimination and the final race. "No entry fees will be charged and no red tape is connected with the matter.

Cars will each have a measured gallon of gasoline put in them, and the hoods will be sealed," Mr. Barker said. Judges and observers will be sent with the cars to check up on the mileage.

The contest is staged to direct attention to new features of the Ford, which have added greatly to the economy in the use of gasoline, Mr. Barker explained. Recently in Fort Worth a similar contest was staged in which the winning contestant got in excess of forty miles from a gallon of gas, and in a similar contest conducted at Dallas the winning car traveled more than fifty-seven miles.

Bad Color (liver trouble)

"OCCASIONALLY I am troubled with spells of constipation and inactive liver," says Mrs. John L. Pence, Broadway, Va. "I always use Thedford's Black-Draught when I feel a spell of this kind coming on, for it saves me a bad headache. My color gets sallow at times. I get real yellow, showing that the trouble comes from the liver.

"I have found Black-Draught to be the finest kind of a remedy for this. I take Black-Draught and make a tea out of it, and take it, along in small doses for several days. I have never found anything that served me so well.

"Since I have known about Black-Draught, I have not suffered nearly so much with headache, caused from indigestion. If I find my tongue is coated, and I wake up with a bad taste in my mouth, I know I have been eating indiscreetly, and I immediately resort to Black-Draught to straighten me out."
