A. M. Turner Enters Race for Office Of County Clerk

A. M. Turner, banker and far-

mer, and one of Haskell's bestknown business men, has authorized the announcement this week of his candidacy for County Clerk of Haskell County, in the coming Democratic Primary. In making his announcement, Mr. Turner stated that he did so after careful consideration of the many responsible duties in-volved, and with the honest be-lief that his business experience qualifies him to handle the duties of the office in a satisfactory manner if the citizens and voters of the county entrust him with the bruce of County Clerk.

During his 25 years residence in Haskell, Mr. Turner was pri-marily engaged in the banking business for some 15 years of that time, operating the F. and M. of 1947. His business interests have also included farming operations to which he has devoted most of his time in the past 10 years. Actively interested in commu-nity development and civic af-fairs, Mr. Turner has served as school trustee, city alderman, and in numerous civic groups working for the best interests of this sec-

As the opportunity is afforded between now and the primary election, Mr. Turner hopes to see as many of the citizens and voters of the county as possible and place his claims before them personally. In the meantime, he will appreciate any consideration given his candidacy.

Hallie Chapman Is Candidate For County Judge

Hallie Chapman, well known Haskell businessman, this week authorized the announcement of his candidacy for the office of County Judge of Haskell County, subject to action of the Democratic primary in July. In announcing his decision to

seek the office of County Judge, Mr. Chapman stated that he did so after careful consideration of to adjoining buildings, Rule and the responsible duties of the imthe responsible duties of the im-portant office, with the belief that he was qualified to administer the affairs of the office in a satisfactory manner. Reared on a farm and a resi-

dent of Haskell County since boyhood, he was a successful farmer before entering the feed and produce business in Haskell in 1933. Since then, his business career has included farm implement and machinery, and more recently the dry cleaning business. As a farm-er and businessman, he is acquainted at first hand with the problems of the average property owner and taxpayer, insofar as their interests are related to the administration of county affairs. In addition to the management of his business affairs and farmbeen actively identified with civic

and community affairs, having served as a member of the City Council for six years, and as president of the Haskell Chamber of Commerce in 1952-53. Because of his long residence in the county, Mr. Chapman enjoys the acquaintance and friendship of a majority of the citizenship in the county. However, he plans

to make as intensive a campaign as possible in order to discuss his candidacy personally with each voter and solicit their support. Until that opportunity is afforded, Mr. Chapman will appreciate any consideration given in behalf of his candidacy for County

Show Your Appreciation for the Triumph Over Polio

A new kind of celebration has been in full swing throughout this country during January It is a celebration in which you still can have a part if you will,

This month marked the 20th anniversary of the National Foundation for Infantile Paralysis, It was National Foundation leadership and National Foundation money, provided through the annual March of Dimes, that made possible the Salk vaccine and the hope that polio epidemics will be eliminated forever in America.

Think what that means' No more mass imprisonment in iron lungs each summer; no more shriveled arms, legs, hands; no more dread in the hearts of millions of parents each time their children has enrolled in Howard Payne come home with "the symptoms".

The best way to celebrate a blessing like this is to show our gratitude. And the best way to be grateful for the Salk vaccine is to Ark., where they have purchased think about the blighted lives of those for whom it has come too late a farm and plan to make their and do what we can to wipe out or relieve their helplessness. There future home. are, in America, some 100,000 boys and girls, young men and women, who have had polio and who need further rehabilitation.

These people can benefit, some of them tremendously, if modern techniques of rehabilitation are applied to their disability. It is the purpose of the March of Dimes to finance the care they need. The cost will run to many millions. And the March of Dimes looks to usto every one of us-to give what we can to this objective.

Let's not forget those who were not as lucky as we. Let's remember, as the March of Dimes puts it, that "Survival Is Not Enough." Let's give!

Not A Proud Record

Some interesting-and alarming-statistics on traffic fatalities In Haskell County have been furnished The Free Press by the Texas Department of Public Safety

Over a period of 12 years, these figures show that on an average, one person has been killed every 90 days in a traffic accident he will also do automobile repair in Haskell County. This is an average death toll of 4 persons annually, work. year in and year out, since January 1, 1946. And the alarming thing is that last year, 1957, was the worst in the 12-year period, with 7 highway deaths recorded.

This is not the type of record we like to claim for Haskell schoolhouse, located about five County. Particularly when we KNOW that virtually all traffic deaths miles southwest of Haskell, was can be prevented by the simple practice of safe driving rules and Friday morning. The building and common courtesy on the highways.

Better Outlook for Cotton Farmer

Haskell County farmers who can grow high quality cotton in 1958 can look to a brighter future. That's the prospect facing growers from the building. as they make their crop plans for the current year, according to cotton economists attending a recent American Farm Bureau cotton Gholson Grocery for the past sev-

These are the elements that make 1958 look good: shortage of a place east of town high quality lint, lower carryover than in several years, big increase in CCC stocks, and lesser threat of foreign cotton pronaction. This High School, has resigned and acmeans that in 1958, cotton prices are likely to be higher than in 1957.

What should cotton growers do in 1958? Best thinking of the of experts is to plant your full allotment, use fertilizer according to soil Nashville, Tenn. tests, carefully control insects and cut out all hand labor possible in growing the crop. Then, harvest so as to get the best grade possible.

We've always been a little skeptical about this business of 'witching' for water with a forked green bough from a tree, despite the fact that we've seen some good wells which assertedly were located in this manner.

And some good friends of ours like Mike Campbell and Rufe Highnote have demonstrated this uncanny ability to determine the location of the underground water. They were right, too, as many people in Haskell and Stamford will attest.

Now, to cap it off and prove that this is not altogether a man's world, a prominent West Texas newspaper woman tells us she can locate water well sites by this method of witching. Claims she was skeptical about the business until she tried her hand at it. A Congress.

When volunteer firemen responded to the Sunday night alarm of fire in the north side business section, some of the veteran members could not help feeling apprehensive. They recalled the same type of blaze in the early part of 1950 which destroyed two buildings on the north side, after firemen apparently had the conflagration under control. Fearing a repetition, neighboring firemen were called from Rule and Throckmorton. Their assistance made it possible to subdue Sunday night's blaze in fairly short order.

Politics continues on the upswing in Haskell County, with two offices apparently claiming the major interest of would-be officeholders.

Most popular office at the start was that of Justice of the Peace, with four candidates seeking the

Gaining in popularity however, is the office of County Judge, where at the first of the week there were three avowed candidates. And, according to rumor, entry of a fourth candidate was virtually assured.

At that rate, should contests develop in a few more races in like manner, a long ballot could be shaping up for voters in the July primary.

With interest currently centering on county politics the spotlight will likely shift within the next few weeks to the earlier 1958 elections due in April-the city election and local and county school trustee elections.

Both the city and school trustee elections will probably be routine affairs, with no out-and-out contests expected to develop for any of the posts to be filled.

Annual Banquet Honors Weinert Football Team MILDRED GUESS

The annual football banquet honoring the Weinert Bulldogs football squad was held Thursday evening in the Weinert High School auditorium at 7:30.

The decorations were under the directions of Mrs. Elwood Hackney, Mrs. Clyde Walker and Mrs. W. B. Guess. The pep squad girls assisted with plate favors and place cards. Royal blue crepe paper with white stars centered the long banquet tables laid with white paper. Streamers and bows of the crepe paper were placed at points of interest. A miniature football field was built in the center of the auditorium floor with seats for the football sweetheart and hero. The centerpiece for the head table was an arrangement of blue roses on a styrafoam base around the district 4-B champion-

The first community singing unfler the new schedule will be held Tuesday evening, Feb. 4, beginning at 7:30 o'clock, Mr. Cobb announced

Two hundred new song books will be available for those atending, and everyone who enjoys good singing and music is invited o attend and take part in the evening's program.

Motorists Asked Not to Drive Over Fire Hose

As a result of damage to fire nose caused by careless motorists driving over the lines during and after Sunday night's fire, it may become necessary to prosecute motorists for this offense in the liture fire department officials said this week

When going to a fire, all we ask of motorists is that they do not block or interfere with equipment, and to remember that someimes it is necessary to move hose ines and trucks," a spokesman for the department said. "Most important of all, please do not drive across hose lines, which are expensive and easily damaged," he declared.
