For More Efficient Road Building

In a recent editorial, the Fort Worth Star-Telegram endorsed a recommendation that Tarrant County put into effect the system made permissible by the county optional road law of 1947. Several Texas counties have adopted this plan, one of the most recent being Collingsworth County.

This system, which can be adopted by vote of the people of the county, the Star-Telegram points out, would centralize road-building operations, placing them on a county-wide instead of a precinct basis. It would create a county road department, with the Commissioners Court as the policy-determining body and the county engineer as the chief executive officer, responsible to the commissioners for the efficient construction and maintenance of county roads.

The intent is economy as well as efficiency, for the system would do away with the practice of having four separate sets of road-building equipment in the four precincts, substituting a single pool of equipment which could be used in any part of the county as needed. It would provide for the buying of material and equipment under the collective supervision of the Commissioners Court, on the basis of definite specifications and competitive bids.

Under the present system each commissioner conducts his road-building and maintenance operations solely on his own, with little check by others on what he does and with the other commissioners having no say in his operations.

From the experience of counties where the new system has been adopted, it has resulted in a substantial saving of tax money, and at the same time made possible a more efficient program of building needed roads.

Report Due on Miller Creek Project

A final report on the proposed Miller Creek municipal water project should be available early in May, engineers have stated.

That report will provide the information needed by the people of Haskell before they can make a logical decision in regard to securing a permanent source of municipal water. The water problem is one of utmost importance to every citizen in Haskell, and in working out a solution the people will need definite and accurate information. Any solution is going to be expensive, that much is certain.

For that reason, and the fact that the problem is one of vital import to every citizen, engineers have spent considerable time in assembling facts and figures concerning the project which are accurate and dependable.

All of these findings will be presented to the people at an early date, and these figures instead of "hearsay" and rumored estimates—should be used as the basis for appraising the merits of a program of such grave importance to everyone.

Shameful Drain on Resources

Connecticut Governor Ribicoff has pointed out the "shameful waste" of the annual traffic toll. In a message contained in the Travelers Insurance Companies annual traffic safety booklet, "The Road Toll" Governor Ribicoff said:

"Multiply the heartbreak of one violent death. Multiply the suffering of one broken body. Calculate the dollar cost of each day of slow, pain-racked recovery. It adds up to a shameful drain on our physical and economic resources. It represents a shameful waste of money that could be used to build schools, sponsor medical research, redevelop communities, strengthen national defense."

"The Road Toll" presents statistics showing that 1957 produced the largest number of traffic casualties in the nation's history: 38,700 deaths and 2,525,000 injuries. Speed and carelessness, as usual, were responsible for four out of five of the casualties.

Governor Ribicoff outlined a four-point program to reduce the annual toll: "First, make known to your legislators your determination to see a strong highway safety program enacted in your state. Second, insist on a program of safety education which begins in the grade schools and continues through a mandatory program of driver training before young people can receive their licenses. Third, express your support of, and willingness to abide by a program of motor vehicle law enforcement without 'fix' or 'favor'. Fourth, develop within yourself the habits of care, caution and courtesy behind the wheel."

Haskell County History

20 Years Ago—April 9, 1938
Operating budget for the City of Haskell for the fiscal year which began April 1 anticipates expenditures of \$43,824.32, while total receipts of \$47,026.54 are estimated.

A group of 21 Haskell County youths was accepted last Friday at the Wichita Falls recruiting station for the Civilian Conservation Corps. In the group were Joe Edd Bradley, Fayette Timothy Beauchamp, Pat Melvin Ford, Rogers Jim Freeman, Woodrow Wilson Johnson, Otis Walter Lindley, Rudolph Miles, William Richard Loving, Walter Ray Sanders, Raymond Fieldton Speck, Travis Dean Wright, Buford Eliase Bush, James Lee Carrill, Iris Delma Decker, Andrew Lafayette Haynes, Douglas Clay LaDuke, Verna Allen McCasland, Curtis Paul Lauderdale, Robert Hampton Richards, Joz Scarborough, Alton Tuggle.

Weinert's newest business enterprise will open Saturday of this week. It is the Steigler Dry Goods and Variety Store and will be located in the building formerly occupied by the Cooper Grocery. Owners of the new store, Mr. and Mrs. C. S. Steigler, are moving to Weinert from San Antonio.

Fire of undetermined origin, discovered shortly after midnight Saturday, completely destroyed a 4-room frame residence on Balfew Street. The house, unoccupied for several days, was owned by Hollis Atkelson of Stamford. Fire department officials said the loss was estimated at \$8,000.

First rural school in Haskell County to complete the 1937-38 term is the Balfew School, several miles north of Haskell. Eight-month term of the school will close Friday. Mrs. Ralph Duncan is principal, and Mrs. Scott W. Greene Jr. is assistant and teacher.

L. B. Dendy and J. T. Adkins, workmen on the hospital building now under construction, were injured late Friday when they fell about 10 feet when a scaffold broke. Both men suffered broken ribs and bruises. They were carried to the Stamford Sanitarium for treatment.

40 Years Ago—April 27, 1918
Our local merchants have received their first shipment of flour milled from milo maize, which is another wartime substitute for wheat flour.

Sixteen Haskell County boys will leave today for the training camp. Composing the party are Tom Davis, John L. Bieber, Willie S. Taylor, Sam J. Wright, Tom P. Buckner, William E. Dobbins, Charlie A. Thomas, Carl Wigley, John A. Linnam, E. C. Condron, Willie E. Jackson, Arthur G. Davis, Adolph Gerick, John C. Keaney, John J. Wright, Mack Crume.

A hailstorm struck in the Gauntt community Tuesday evening, breaking windows and damaging gardens. Some say it was the worst hailstorm they ever saw in this county.

M. M. Guinn and Charlie Fouts, farmers in the Sayles community are cleaning tanks for pasture during the dry spell. They are doing some good work in the mud, judging from their appearance when seen Monday evening.

The citizens of the Gauntt district will hold an election to vote on a \$4,000 bond issue, with the proceeds to be

used in construction of a modern brick school building.

A 60-year-old Jones County farmer and his son, 26, are being held in Anson a charge of having violated the recently-passed state loyalty law.

T. G. Hart and family motored up from Colbert's Ranch on the Clear Fork Sunday, and spent the day with Mrs. Hart's sister and family, Mr. and Mrs. W. A. Carlisle.

W. T. Morgan of Sayles was in town Wednesday. Mr. Morgan recently moved here from Alabama and will farm here this year.

Willie Ketron of Post and Misses Bonny Cauthen and Golda Mae Chapman of the McConnell community came near having a serious accident Sunday night while on their way to prayer meeting, when the horse pulling the buggy in which they were riding became frightened and ran away.

The young people were thrown out of the buggy, which was torn almost to pieces. Willie was the only person hurt, his right arm being severely bruised.

50 Years Ago—April 25, 1908
J. J. Stein received a new automobile Tuesday and had it out Wednesday for a trial. It is a No. 34 Rambler and is one of the finest machines we have seen on our street.

Some of our citizens are discussing the desirability of a moderate bond issue for the town of Haskell for the purpose of improving the streets and sidewalks and the sanitary condition of the town.

G. R. Couch had the misfortune to get one of his arms broken a few days ago. He was holding a horse by a rope and in wrapping the rope around a tree the horse made a lunge and caught Mr. Couch's arm between the rope and the tree, causing the break.

H. M. Carden, who has been with the electric light company here for some time, left Friday for Belton.

C. L. Jacks has opened a restaurant in the building just east of the Lindell Hotel. He has had much experience in the restaurant business and will conduct a first-class place.

Bert Davis, who is employed in the Herald office, got his arm caught in a job printing press Thursday evening. As a result of the accident, his right arm was broken between the elbow and wrist.

Messrs. A. H. Alexander, K. Collier, George Fields and C. W. Faulkner went off on a fishing excursion Thursday.

James Gill, who has been visiting his sister, Mrs. C. C. Reynolds at this place, left Sunday for his home in Memphis, Tenn.

60 Years Ago—April 30, 1888
Our business men have made up a purse to procure full reports of news on the war with Spain over the telephone line. Mr. Davidson of the W. V. Railway at Seymour has agreed to transmit all the telegraphic news as fast as received. It will begin to come in today.

Dr. J. E. Lindsey and daughter, Miss Minnie, are visiting at Seymour this week.

W. M. Reedy announces that from now on he will keep on hand for sale fresh light bread, or baker's bread.

J. W. Wright got his new residence finished this week and moved into it, and Mr. Johnson has moved into the one vacated by him.

PEOPLE, PLACES, AND THINGS

BY A. PATE

Balmy spring weather last Friday and Saturday was made to order for fishermen, as was shown by the almost steady stream of cars and boat trailers coming through Haskell on the way to the lake. And from all reports, catches at the lake were sufficiently good to satisfy the most ardent fishermen.

Saturday's near perfect weather had a disagreeable ending for several fishing parties that had planned an overnight stay at Scott Memorial Park. The severe windstorm and hard rain which struck about midnight Saturday levelled tents and left occupants soaking wet. Several groups caught in the storm made their way to Haskell and secured lodging after their tents were wrecked. Then, bright sunshine and calm weather Sunday lured most of the visitors back to the lake.

Two physicians from Lubbock who fish the lake every opportunity, believe they are in disfavor with the weatherman, according to Virgil Bailey, manager of Hotel Haskell, where the doctors stay when here.

The last pretty day they picked for fishing ended in the season's heaviest snowstorm, the doctors reminded Virgil. "On this trip, you couldn't have wanted prettier weather—and what happens? Rain, hail and a young cyclone. They moaned to the local innkeeper. 'Don't think we'll ever come back,' they chorused. As an afterthought while checking out they cautioned Virgil, 'Be sure and hold reservations for us next week end!'"

In addition to the local hotel, all motels and tourist courts were flashing the "no vacancy" signs all during the weekend. "We had calls for reservations from as far away as Lovington, N. M., and Dimmitt, Texas," one motel operator said Saturday.

Sporting goods stores and establishments handling boats and motor repairs also report a steady pick-up in business during the past few weeks.

About the hardest-pressed to keep up with the booming fishing business are the bait dealers, both here in Haskell and at the park. "So far, I've been a use to

supply all my customers" one of the largest dealers in live bait said. "However, the demand right now is almost double the biggest day's run I had anytime last season," he added.

Supplying the local demand for fishing minnows is big business itself, we learned to our surprise. Strange as it may seem to a lot of "drylanders" like this column, minnows in wholesale lots are trucked here from Minnesota to supply local dealers!

One enterprising Haskell man makes regular trips to Minnesota and brings back thousands of dozens of live minnows for which he finds a ready outlet. He devised and built special tanks on a light truck. Battery-operated air-pumps circulate the necessary amount of oxygen in the tanks to keep the minnows alive, he explained.

He makes the 1300-mile trip about every two weeks. An average load is 1,500 gallons of minnows. Each gallon contains from 1,100 to 1,200 minnows—which adds up to a heck of a lot of fish bait.

Sheriff Bill Pennington, along with members of the Highway Patrol, city police and Game Warden Bert Iverson, had an uneasy hour around noon Sunday, when two fishermen were reported missing at the lake. Later, the two men were located, much to the relief of officers and camp operators who were planning to organize searching efforts.

The men had rented a boat Saturday evening, leaving their car at the lakeside. Around 10 a. m. Sunday they had not returned to their car, causing concern over their safety.

When the storm hit, they were afraid to attempt operating the boat in the rough water, and spent the night on shore, they related.

The windstorm also dealt an

CROP HAIL INSURANCE
Barfield - Turner Agency
Haskell, Texas Phone 288

other blow to the Highway Patrol and Sheriff's Department, when the winds twisted the two-way radio communication tower loose from its moorings on top of the courthouse and toppled the 75-foot tower from the building.

Plans for the Haskell County Centennial will shift into high gear soon, and enthusiasm being shown in plans for the affair assures its success. Pioneers, or "old-timers" are especially interested. For instance, Jim Norman of Rule is compiling a list of all people who have been here since 1908, which figures 50 years or longer. If you can qualify, drop Jim a post card addressed to him at Rule, Texas, giving your name and length of residence in the county.

One enthusiastic Centennial

County School Study Group Completes Review of School Program and Needs

Haskell County's school committee, the so-called "Grassroots" group of the Hale-Aiken Committee of 24, met Tuesday night and compiled the official county report. County Chairman Dale Graham, Rochester, said the report was due in Austin by May 1, along with reports from all other counties in the state.

All eight school districts in the county were studied as to the school program, teacher supply, school construction, and finance, and all districts were represented by committeemen working on the four phases of study. A need for additional teachers was determined by the group, both to improve the current programs in the schools throughout the county, and to relieve some of the present overload situations. Recommendations were made by the committee, Graham said, for improving the teacher supply problem, and some changes were asked in administration of state funds.

Haskell County was found by the study group to be in good shape, so far as school construction is concerned, with no obtainable need predicted. Some neglect in four of twelve named elementary subjects was listed by the group. More adequacy could be obtained in the teaching of health, physical education, music, and arts and crafts, if specially trained teaching personnel were made available. The room for improvement throughout the county was noted in adult vocational education, in special education for the handicapped and for the gifted.

Current active improvement was cited by the group in libraries in the county, though continued betterment was suggested. On a state level, the local group recommended that it would be in the interest of economy if multiple lists of textbooks be replaced. Two minority reports were attached to the official county report, one suggesting that a child psychology course be required of all seniors, the other calling for a longer school year with the result in mind of a better instructional program.

Facts secured from all districts in the county show a present shortage of some sixteen teachers. This figure, the committee determined, would relieve the present overload conditions of some teachers and replace those who are now on a temporary basis, and provide special service teachers now desired. An estimate of 56 additional teachers for the county, for the period 1958-63 was made by the study group. These will be needed to meet larger school enrollments, replace teachers who leave the profession, and to meet future program and service needs. The committee recommended that vocational teachers be per-

mitted to teach additional subjects, a move designed to achieve better utilization of present personnel. More money, greater reward for teaching performance, and relief from extra-curricular activities were recommended by the committee as measures which would attract young college graduates into the teaching profession.

Only one district in the county, that of Rochester, was found by the committee to have a complete and equitable tax evaluation setup presently in operation, and a need for professional assistance in this area in the other districts was noted in the committee's report. Another recommendation by the committee, in the school finance study, was the distribution of the State Available School Fund be made on an average membership basis, rather than the current average daily attendance. Such a change would prevent undue hardship caused by epidemic illnesses, and the like, the committee said. A final recommendation that the Texas Education Agency continue its policy of staying out of redistricting was also made by the group.

No consolidations were anticipated in the county, the committee report stated. Sub-Committee Chairmen were Dan McRae, Paint Creek. Program; Mrs. J. G. Vaughter, Haskell. Teacher Supply; Ed Hester, Haskell. School Construction; and Joe Harper, Haskell. School Finance. Robert R. King of Haskell was vice chairman of the county group, and Jessie Vick served as secretary.

Graham commended the group highly for its interest and its work on the study. Vocational Nurses Group Elects New Officers. The Haskell L. V. N. Division No. 39 of the Texas Association met April 17 at 7:30 in the dining room of the hospital in a business meeting.

The house was called to order by Stella Josselet. New officers for the year were elected as follows: Emma Watson, president; Corky Kruger, vice president; Nell Hambleton, corresponding secretary and treasurer; Mary Kingstone, recording secretary; Stella Josselet, reporter. ATTEND BANQUET HERE. Mr. and Mrs. A. H. Wair of Graham visited Haskell friends and attended the Lions Club anniversary banquet Tuesday evening. Mr. Wair, former city official and businessman here, helped organize the Haskell Lions Club in 1928.

INTEREST WOMEN

Mrs. Glenn Caddell Program Director Weinert Study Club

The Weinert Study Club met Thursday at the Community Center for a regular meeting. The Key of Loyalty—Our Texas Heritage was the program theme. Mrs. Glenn Caddell directed the program and spoke on Texas Un-

der Six Flags and displayed the flags. Mrs. M. W. Phemister reviewed Coronado's Children, by J. Frank Dobie and gave a sketch of the life of Jim Bowie. Mrs. W. C. Winchester spoke on "Lost Nigger Mine."

Roll-call was answered by naming a famous Texan. Hostesses were Mrs. R. E. Hutchinson and Mrs. Elwood Hackney. The next meeting of the club will be April 24 in the dark room at the high school. Mrs. J. E. Jetton will direct the program on Soil Conservation. Guest speaker will be Ray Blackwell of Knox City.

The refreshment table was laid with a pale orchid damask cloth and centerpiece was an arrangement of purple iris and buds on a crystal base. Purple punch, open-faced sandwiches, assorted cookies and salted nuts were served in individual trays of crystal. At the business session Mrs. M. W. Phemister was elected delegate to the state convention in Fort Worth in May.

Attending Thursday's meeting were Mmes. Glenn Caddell, M. W. Phemister, J. E. Jetton, Kenneth Baker, W. C. Winchester, R. S. Sanders, Loyd Lemmel, Elwood Hackney, W. B. Guess, Henry Vojkufka and Melvin Vojkufka. Haskell Teacher Honored at P-TA District Meet. Mrs. Scott Greene, along with 12 other area people, was honored for her outstanding service in parent-teaching work. Haskell math teacher for 14 years, Mrs. Greene was recognized at the 18th district P-TA conference being held in Abilene.

The men and women honored were awarded life memberships in the Texas Congress of Parents and Teachers. Mrs. Jay Weaver of Haskell was among those nominated for district offices. Mrs. Weaver, president of the Haskell Junior High P-TA, was nominated as district vice president. Dr. John McFarland, Amarillo Superintendent, main speaker, said he was happy to see the space age public interest in the schools. "Even if the interest is of a negative nature," he said. Parental example, interest and support he cited as the main keys to firing an interest in learning within Johnny.

Presiding over the conference was Mrs. Bob Herren, Haskell, 18th District P-TA president, and Mrs. Robert Counts, Lueders, vice president. Official Highway Travel Map Now Available. It's here! It's new! It's free! The Texas Highway Department today released the big new 1958 Official Highway Travel Map. Maps may be obtained by writing the Texas Highway Department, Austin 14, Texas, or at the Highway District Offices and Travel Bureaus. County tax offices have map cards available for requesting copies of the map. The Official Highway Travel Map is used by all state and governmental agencies in Texas for determining highway distances, mileage, zones, and like information. The same map is used by Texas tourists seeking roads to recreational and historical attractions throughout the state. The reverse side of the map reflects in full color some of the outstanding scenic and recreational facilities in Texas. Texas' new 1958 travel map is the answer to today's demand for more and more travel information. The steady growth of Texas from a state with a population of slightly over seven million just ten years ago to its present estimated population of more than nine million is reflected by the information shown. The number of cities and towns indicated on the 1948 map was 567. Today, there are 1,812, an increase of 1,245. State and U. S. highways have been increased by 2,026 miles—a 16,506 mile increase. The map reflects a total of 43,292 miles of highways. Roadside parks, long cherished by Texas highway users, were not shown on the 1948 map. Today, 1,026 roadside parks are pinpointed as pleasant stopping places. Divided highways also show a startling jump in the ten year period. In 1948 there were 110 miles of divided roads shown. Now there are 1,007 miles marked on the map with the black bands and red center indicating divided highway miles.

WEEKEND VISITORS. Mr. and Mrs. Tom Patterson of Lubbock spent the weekend here, guests in the home of their parents, Mr. and Mrs. O. E. Patterson. HASKELL VISITOR. Mr. and Mrs. John L. McCollum and Mrs. Jack Morris visited last week with Mr. and Mrs. N. I. McCollum. Mr. and Mrs. McCollum returned with them to Dallas for a visit.

Junior High P-TA Will Install New Officers May 1

The Haskell Junior High P-TA will meet Thursday, May 1 at 3 p. m. in the Visual Aids Room. The director of the program, "What Has Our Partnership Venture Revealed?" will be Mrs. J. D. Weaver who is the retiring president. There will be installation of officers for the year 1958-59 by Mrs. Leon Pearsey. Plans are being made to have a cake sale after the meeting. You are urged to attend this last meeting of the year and bring some one with you who does not regularly attend. Hostesses will be the Hospitality Committee.

Hints Given for Controlling Weeds And Grass

The second highest cost item in cotton production is for grass and weed control. Fred C. Elliott, extension cotton specialist, says on the average, 10 hours of labor are required an acre for this one item. But, he adds, this figure can be reduced if recommended control practices are followed. Last year the State's cotton producers saved an estimated \$16,000,000 by using rotary hoes, chemicals and oils in their efforts to keep weeds and grass under control. Rotary hoes on 44,798 farm tractors were used in 150 counties to cut more than \$15 million out of the hoe bill. Elliott points out that rotary hoe equipped tractors should be operated at high speed for best results, around 6 miles per hour.

Later on, with five gallons of naphtha an acre was used on 21,000 acres in 53 counties to cut the weed and grass control cost by \$65,000, reports Elliott. The cost of application was \$1.00 an acre and oiling shoes with a gage wheel arrangement permitted the operators to travel at fourth gear speeds. In one county, five gallons of naphtha an acre was applied as a fine spray on grass in the drill with 95 per cent of the grass killed. This treatment cost a dollar an acre; eliminated hoeing and saved the producers a gross of \$7 an acre. SUT-TREATMENT OF Johnson grass can eliminate the pest in one year while a full crop can be produced on the treated acreage. Elliott advises cotton producers who would like detailed information on the recommended weed and grass control practices to contact their local county agents for the desired information.

CHILDREN VISIT IN EASTERLING HOME. Weekend visitors in the home of Mr. and Mrs. D. R. Easterling were five of their children and their families. Present for the weekend were Mr. and Mrs. Doyce F. Easterling and five children of Carlsbad, N. M.; Mr. and Mrs. Kenneth R. Easterling and daughter of San Diego, Calif.; Mr. and Mrs. Frank A. Atkinson and two children of Haskell; Mr. and Mrs. Dale Dunlap and two children of Haskell; Mr. and Mrs. Hollis E. Pitman and son of Waco.

Children Honor George Moeller On Birthday

Honoring their father on his 73rd birthday, the children of George Moeller planned a surprise party for him, Tuesday, April 22. Those attending met at Irby Hall late in the afternoon for a picnic lunch and later played dominos and 42. Attending were all the children and their families, also his brothers, Pete, Charley, and Frank and their families. Also Mrs. Albert Peiser, Mr. and Mrs. Charley Tielchelman, Mr. and Mrs. John Steiwert, Mr. and Mrs. Robert Steiwert and Mr. and Mrs. Joe Zelisko.

AAUW Plans Final Meeting of School Year April 28

The AAUW will hold their last meeting of the year in the Texas Cafe dining room, Monday at 6 p. m. Members are urged to attend this important business meeting. New officers will be installed at this meeting and members will hear a tape recording of a hearing climie held recently in Austin.

Tricks Will Keep Ill Youngsters Contented

Keeping a convalescent child in bed, quiet, and happily entertained is a real problem at times. Masles, mumps, and chicken pox have been doing their share in placing the youngsters on the sick list this year. Barbara McAnelly, county home demonstration agent, offers these suggestions for keeping the youngster happy, while "on the mend." Provide plenty of "just looking" activities. A gay ballet dancer or airplane hanging on a string near the foot of the bed. Each day add a new surprise, a new member of an imaginary family, a new animal or bird, or anything else which amuses him.

Many a child has been amused by the simple device of catching sunlight with a pocket mirror. When it begins to get dark, a flashlight will bring him minutes of pleasure when he explores dark corners. "Surprise" is a magic word to a child. Plan a simple, gayly wrapped surprise box. The gifts need not be purchased. A cookie brightly wrapped, a post card, a picture book, a pipe cleaner doll, funny drawings, or even a paper party hat will entertain a child. A picture puzzle can be made for a young child from a picture post card. Cut the card into four or five irregular shapes. Paper work can be fun for the child. Wrapping paper, paper bags, colored paper, paper dollies, paper plates, greeting cards and old magazines can be used. With a pair of sharp, but blunt scissors and paper, the child can be kept occupied for a long time. Remember, don't give the child too much at one time. It's tiring and confusing to the child, and extra work for you.

Planning Increases Production, Cuts Waste In Gardens

"Plan before you plant" is a basic rule for successful vegetable gardening, says B. G. Hancock, extension horticulturist. For instance, many vegetables grown in the home garden are wasted because too large a quantity of one vegetable matures at the same time. With few exceptions, vegetables remain edible for only a short period after they reach maturity. Top quality is even more transient. One way to avoid too large a crop at once, then nothing, is to make succession plantings of the same vegetable, suggest Hancock. Plant only enough seed of crops like sweet corn, radish, and beans to provide the amount that can be used within a short period. Then after two or three weeks, plant another lot to mature after the first harvest has been exhausted. Or, if the variety used will not do well later in the season, plant other varieties that mature later. This kind of planning calls for a careful study and must be done well ahead of planting time. It also requires the purchase of more seed, therefore a somewhat larger investment. But these things pay off in greater satisfaction at harvest time. Another thing to look for in studying the seed varieties is the height to which they will grow. Tall-growing crops should be planted together and low-growing ones together (preferably to the east of the taller ones) to avoid shading the lower plants. Vegetables need about 8 hours of full sunlight to produce well.

There are more than 10,000 known species of beetles in the United States. Weeds often cause a tremendous reduction in pasture and hay yields, says E. M. Trew, extension pasture specialist. Their control is essential for best returns. The methods of control he mentioned are prevention, cultivation, mowing and chemical control. Favorable prices and rainfall have halted the downward trend in livestock numbers, points out Alvis Wooten, extension economist. This year's inventory showed a monetary increase of 58 per cent over last year's. This sharp increase is due to both increased price and numbers.

Paint Creek . . . Community News

MRS. GENE OVERTON

This past weekend must have been some sort of record for fishermen at the lake. There was hardly room to pass cars parked along the lake roads. R. V. Earles Camp could have rented 50 more boats than they had, and many fishermen tried all the camps and were unable to rent boats. The Earles sold 9 gallons of minnows Saturday. It looked like a city street. When the storm came up and the cars started leaving the camps at midnight, there was a regular procession along the farm to market roads, and the car lights made it look like a line of city street lights. The community men say it is so good for the lake for the crappie to be thinned out. Most of our visiting fishermen are from the Plains country.

Clarence Raughton has been seriously ill this week. He began hemorrhaging Saturday afternoon and was given four transfusions that did no good. Monday morning he underwent surgery to tie off the damaged artery and has been doing just fine today. His Fort Worth doctor will be here Wednesday. Mr. Raughton's son Rudy was pitching a ball game in Houston when he received word that his father was so ill. He arrived early Sunday morning.

Mr. and Mrs. Jesse Cook and Carolyn and Dan McRae were in Big Spring Saturday to visit the campus of Howard County Junior College.

Mr. and Mrs. W. A. Montgomery were in Grand Prairie over the weekend where they visited their daughter Mrs. Boyd Cathey. Mr. Cathey and Elizabeth and she were in Dallas and Ft. Worth. Sgt. and Mrs. John Missouri of Takoma, Wash., are here with

Mrs. Missouri's son and family, Mr. and Mrs. Frank Pustovsky. They came also to visit Mrs. Missouri's father, Jacob Muehlestein, who has been ill.

Mrs. Adolph Vrazalik underwent major surgery in the Haskell Hospital Monday morning.

Mr. and Mrs. Ray Overton Sr. and Mr. and Mrs. George Free spent Sunday in Haskell with Mr. Mrs. Ray Overton Jr. and Mary Margaret. The occasion was the first birthday of Mary Margaret.

Mr. and Mrs. J. B. Doty have a new granddaughter, Sarah Marie Doty who was born to Mr. and Mrs. Donnie Doty Thursday, April 3. The little lady has ten grandparents. Her mother is the former Natoma Roberts, daughter of Mr. and Mrs. E. G. Roberts.

Besides Mr. and Mrs. Doty and Mr. and Mrs. S. G. Roberts, Pittsburg, Texas, on her mother's side, and Mr. and Mrs. E. M. Doty of Ballinger, and L. Z. Watts of Avoca on her father's side.

Mr. and Mrs. Frank Botts who moved to the Ragsdale place in our community in January, have a new baby daughter named Judy Dianne, born week before last. She made the third daughter for the Botts family, and they have three sons.

Mrs. Emma Alston and sons Lindbergh and Chester visited Mr. and Mrs. Waldo Montgomery in Houston last week.

Mr. and Mrs. James Ross Mickler and family moved to their new home at Veda's Camp last weekend. Mrs. Jess Mickler and Mr. Bill Mickler helped them move.

Chris and Don Hager attended the funeral of R. J. Turner, 22 years old, at Quitaque Monday, April 7. He and Cotton Rhodes were in a car wreck at Spur. Cotton is in an Abilene hospital suffering from cuts and bruises.

Mr. and Mrs. Albin Hokanson have a new electric pump and water heater.

Mr. and Mrs. Charlie Ervin and children from Austin spent last weekend with Mrs. Ervin's parents, Mr. and Mrs. Lee Bohannon.

Woodrow Smith's mother, Mrs. Smith, died Saturday in Houston. Woodrow and his brother Don of Stamford left immediately for Houston and attended the funeral services for her.

Gene Mickler and Douglas Kendrick of Fort Worth spent last weekend with Mr. and Mrs. Bill Mickler.

Allen Isbell was a business visitor in Abilene Tuesday.

Last week the first, second and third grades had their annual train ride and field trip to Abilene. They were taken to Sweetwater by bus where they boarded the train to Abilene. In Abilene they visited the Coca Cola Co. and a bakery. Mack met them in Abilene and brought them home on the bus. Mrs. W. M. Owens and Mrs. Irene Ballard are the teachers of these grades.

Mr. and Mrs. Fred Shaw and Mike were in Sweetwater over the weekend with their daughter and family, Mr. and Mrs. Lloyd Weems. Mrs. Weems recently had major surgery.

The fourth, fifth and sixth grades of Paint Creek with their teachers, Mrs. Lilla Heflin and Mrs. W. C. Taylor and bus driver Mack Earles spent Tuesday in a field trip to Dyess Air Base in Abilene. They had lunch on the base and were given a directed tour of the base.

Gene Overton attended the Aggie Muster meeting at the Corral in Haskell Monday evening.

Mrs. Gene Overton and Mike were in Rule Monday evening where they visited her parents, Mr. and Mrs. L. W. Jones Sr., and her sister, Mrs. Charles McBeath and Mrs. McBeath of Amarillo.

It is baseball time, and games have been matched with Haskell and Throckmorton for this week. Paint Creek plays Haskell Wednesday afternoon at the Haskell ball park. They went to Throckmorton Monday afternoon and lost 12-2.

The happiest children we've seen this past week were the little Boxes. Their daddy, Staff Sgt. Joe Allen Box is home after 13 months in Alaska. Amy and Joe A. had almost forgotten him, but they all

Home-Baked Bread And Rolls Tasty, Easy to Make

The odor of something good cooking almost always causes your mouth to water in anticipation of something good to eat. Perhaps the aroma which does this more than other is the warm fragrance of freshly baked bread. To many people it means "home!" I know of no other food which will cause more comment than home-baked rolls or bread.

In many homes home-baked products are considered company fare; but it need not be. Bread is easy to make and can be more fun for you than any other type of cooking. You're working with something alive. You can get the same satisfaction in your finished products as an artist or sculptor gets from their work. But, best of all, is the reward you get when you see your family's beam of approval as they enjoy this wonderful food.

Foundation recipes can be made up in a wide variety of shapes and with many spices, fruits and nuts added.

Foundation Sweet Dough

2 cakes yeast
1-4 cup lukewarm water
1-4 cup shortening
1/2 cup sugar
1/2 teaspoon salt
2 beaten eggs
1 cup scalded milk
5 cups sifted flour (approximately).

Soften yeast in lukewarm water (if using dry yeast follow directions on package). Add shortening, sugar, and salt to scalded milk. Cool to lukewarm. Add softened yeast, eggs and enough flour to make stiff batter. Beat well. Add enough flour to make a soft dough. (It may be more or less than the five cups.) Turn out on lightly floured board and knead until smooth. Place in greased bowl; cover and let rise until double in bulk. A good test is to press two fingers deeply into the dough; if the holes remain when fingers are withdrawn, the dough is ready.) When light, cut down and shape as desired. Let rise and bake to specific directions for shapes selected.

Holidays usually have their traditional foods. One of these for Easter is the Hot Cross Bun. These buns were originally served in England in the pre-Christian era in honor of the Goddess of Spring. Later, the cross was placed on the bun in a missionary spirit. Many homes of today serve Hot Cross Buns for Easter morning breakfast after the Sunrise Service. These buns plus broiled grapefruit halves, fried ham and eggs, and plenty of milk or cocoa satisfy the hungriest of appetites.

Hot Cross Buns
Prepare Foundation Sweet Dough. Knead in 3/4 cup seedless raisins, 1 teaspoon cinnamon and 1-4 teaspoon nutmeg. Divide dough into 24 pieces and form in balls. Flatten slightly. Place about two inches apart on greased baking sheet. Cover and let rise until double (30 to 35 minutes). Just before baking, cut a cross in the top of each bun. (Use scissors or sharp knife dipped in flour). Bake until browned in a moderate hot oven (400 degrees) for 15 to 20 minutes. To make a glaze, a minute before taking them from the oven, brush with milk or slightly beaten egg white, and sprinkle with sugar. Then return to oven a minute to glaze. Let cool slightly, then make cross in cuts with a simple confectioner's sugar icing (sift a little sugar into bowl, moisten with cream or milk to spreading consistency. Add flavoring if desired.)

Buns may be made ahead of time, baked and wrapped in aluminum foil for one day or wrapped and kept in the freezer for several days. Just leave them in their wrapping and pop them in the oven to heat and you will have buns as good as the day they were baked.

Beaumont is French for "Beautiful hill."

are getting acquainted again, and we are so glad for Barbara and the children, too. He will have a 30 day leave and then they are to be stationed in Fort Worth. School board members, Ira Coleman, Paul Fischer, Gene Overton and newly elected Supt. Pat Morrison were in Seguin Saturday interviewing prospective teachers.

Weed Control Is 'Must' For Proper Pasture Growth

Weeds often cause tremendous reduction in pasture and hay yields by stealing moisture, plant food and light from desirable pasture plants, warns F. W. Martin, county agent.

They also lower hay quality, harbor insects and diseases, and increase labor and equipment costs. Weed control is essential for best returns from productive pastures and meadows, but is not always profitable, says Martin. It is profitable only if the pasture or meadow is productive.

Weeds may be controlled several ways, points out the county agent. The best way is through prevention. Weeds are a minor problem in good stands of adapted grasses that are fertilized as needed and properly grazed or utilized.

Cultivation is still an excellent means of control. Most annual weeds of seedling perennial weeds are easily killed by plowing.

Another effective method of weed control mentioned by Martin is mowing. Properly timed mowing will kill most pasture and meadow weeds. The best time to mow is when the worst weeds begin to bloom. They are weakest and damaged most by mowing when in bloom. The county agent advises starting in time to mow all the pasture before the weeds produce seeds.

Chemical control usually is fast, cheap and effective, says Martin. One spraying at the right time often gives near-complete control for one season.

Get a copy of State Herbicide Regulations and study them, he suggests. It is important to know how they can affect you.

Haskell Soldiers Home on Leave From Ft. Carson

Pvt. Franky Don Mullins and Pvt. Duane Baccus came home on leave Saturday from Fort Carson, Colo., where they had completed 10 weeks of basic training. After a 12-day furlough with homefolks, they will report at Fort Carson May 2 for further duty.

Both young men graduated from Haskell High School and attended Fayetteville Junior College at Fayetteville before enlisting in the Army. Pvt. Mullins is the son of Mr. and Mrs. Raymond Melton, and Pvt. Baccus is the son of Mr. and Mrs. Willie Baccus, all of Haskell.

PARENTS OF SON

Mr. and Mrs. Billy K. Fry, formerly of Haskell, are announcing the birth of a son, born Tuesday at 1:30 p. m. at Corpus Christi where he is stationed with the U. S. Navy. The infant weighed seven pounds 8 ounces. Grandparents are Mr. and Mrs. Harvey Fry and Mr. and Mrs. D. C. Wester of Haskell.

HERE FROM DENVER CITY

M. H. Post of Denver City, former Haskell businessman, was here Tuesday to attend the 30th anniversary banquet of the Lions Club. Mr. Post was a charter member of the local civic club.

Weinert News

By MILDRED GUESS

Mr. and Mrs. J. E. Williams entertained their daughters and families this past week. Mr. and Mrs. D. C. McCardell, Julia and Don, who have been in England the past three years, and Mr. and Mrs. J. W. Wright and Ruth of Fort Worth. Miss Jew Williams of Hale Center was also a guest. Miss Williams visited other relatives and friends in Weinert. The McCardells left Fort Worth by train for New York City and will fly home to England for another two years. He is in Civil Service.

Mrs. J. W. Liles has returned from a week's visit with her daughter and family. Mr. and Mrs. Pat Mayfield in Fort Stockton.

Weinert received .95 of an inch of rain during the week, including Saturday night's total. Six TV antennas were blown over and considerable roof damage was reported over town. Shrubs and trees took a beating. A 60 MPH wind blew for an estimated 30 minutes.

Some school children are still suffering from measles, chicken pox and reactions from them.

Barry Therwanger, 21-month-old son of Mr. and Mrs. Bobby Therwanger of Abilene, who broke his leg in a jump from his bed Saturday a week ago, was able to be moved to his home from Hendrick Memorial Hospital Sunday afternoon. He will be in bed four or five weeks with his leg in traction. Their address is 1810 Vogel, Abilene.

Mrs. Frank Oman who is recovering from major surgery at Wichita Falls Bethania Hospital, will be moved to her home Tuesday.

HASKELL, TEXAS

News from Rule

BY MRS. FAYE DUNNAM

operated by Mrs. Paul Smith. Mr. and Mrs. Smith have recently moved here from Stamford where they had a cafe. Mrs. Smith has been in the cafe business for about 25 years.

Mrs. Smith is the mother of Mrs. Buddy Rial and Mrs. Rial is working at the cafe. Mr. Rial is with Haliburton.

State FHA Meet
Mr. and Mrs. Robert Brown and children and Jan Ouseley and Sue Fischer went to San Antonio last weekend, and Mrs. Brown, Jan and Sue attended the State FHA meeting. Mr. Brown and the children visited with Mrs. Brown's parents.

Mrs. Ruth Knapp of Pearland, Texas, has returned home after visiting with Mr. and Mrs. Albert Ball.

Mrs. Bobby Moore of Big Spring is visiting her parents, Mr. and Mrs. Lonnie Martin. Mrs. Martin is in the Haskell Hospital following surgery.

Students Present May Fete
The students of the third, fourth and fifth grades will present a May Fete on May 1 at 8 p. m. in the school gymnasium. Admission will be 10c for students and 25c for adults.

Ralph Yarborough's Report
Letters I have received from officials of scores of Texas cities indicate that the Community Facilities Act passed by the Senate will help build many public improvements in our state.

What is more important, this anti-recession measure will help get men and women back to work fast in the towns where unemployment is heaviest.

The Community Facilities Act, which I had the honor of co-sponsoring with Senator Fulbright of Arkansas and other senators, establishes a \$1 billion revolving fund for loans to states, counties and cities, school districts and other political divisions.

The money is made available for 50 year loans at 3 1/2 per cent interest for construction of schools, libraries, city buildings, sewage systems, waterworks, and other public improvements.

The bill is a get-men-back-to-work and anti-high-interest-rates measure rolled into one. Cities where many men and women are without jobs can borrow funds to build needed public buildings and have 50 years to repay the money at low interest rates.

Availability of such money is bound to drive down interest rates. In fact, the current Federal loan interest rate to local governmental units is from 4 1/2 to 4 5/8 per cent. This bill immediately chops interest one percentage point.

Some of the city officials who have written me indicating their communities probably would benefit under this program include Edinburg, Donna, New Braunfels, Cisco, Kerrville, Vernon, San Benito, Westaco, Brownwood, Laredo, San Angelo and others.

There is every reason to believe the bill, which passed the Senate 60-26, will pass the House, and I have high hopes the President will sign it.

Premiums Total Over \$88,000 for 1958 State Fair
State Fair of Texas in 1958 will award a total of more than \$88,000 in premiums for its Pan-American Livestock Exposition and Junior Livestock Show.

This total is the highest ever announced for the fair, exceeding even the record total awarded in 1951, and more than \$2,000 more than the 1957 fair.

MAJOR THEO MOORE IS VISITOR
Major Theo Moore of Fort Boone, Iowa, spent several hours here Friday visiting his parents, Mr. and Mrs. O. L. Moore and other relatives. Major Moore was en route from San Antonio in an Army plane being returned to Ft. Boone. For the stop here, he landed near the farm home of his sister, Mr. and Mrs. Henry Harris northwest of town.

Class Entertains
The Mary Martha First Baptist Church party last Friday at the home of Mrs. W. G. Jenkins. Eighteen classes and several visitors were present.

The party was decorated with green, purple and white. Members were dressed in costumes of different vases, and a sack lunch was served.

Miss Mable Gibson won first place in the sack lunch contest.

Tomado Safety Rules Can Help Save Lives

To know what to do when a tornado is approaching may mean the difference between life or death.

The following tornado safety rules compiled by the U. S. weather bureau, if followed, will afford maximum protection when a tornado threatens.

There is no universal protection against tornadoes except underground excavations. When time permits, go to a tornado cellar, cave, or underground excavation which should have an air outlet to help equalize the air pressure. It should be kept fit for use, free from water, gas, debris; and preferably equipped with pick and shovel.

If you are in open country: Move at right angles to the tornado's path. Tornadoes usually move ahead at about 25 to 40 miles per hour. If there is no time to escape, lie flat in the nearest depression, such as a ditch or ravine.

If in a city or town: Seek inside shelter, preferably in a strongly reinforced building. Stay away from windows. In homes, the southwest corner of the basement offers greatest safety, particularly in frame houses. People in houses without basements can sometimes be protected by taking cover under heavy furniture against inside walls. Doors and windows on the north and east sides of the house may be opened to help reduce damage to the building. Standing against the inside walls on a lower floor of an office building offers some protection.

If in schools: In city areas, if school building is of strongly reinforced construction, stay inside, away from windows, remain near an inside wall on the lower floors when possible. Avoid auditoriums and gymnasiums with large, poorly-supported roofs. In rural schools that do not have a strongly reinforced construction, remove children and teachers to a ravine or ditch if storm shelter is not available.

If in factories or industrial plants: On receiving a tornado warning, a lookout should be posted to keep safety officials advised of the tornado's approach. Advance preparations should be made for moving workers to sections of the plant offering the greatest protection.

Keep calm. It will not help to get excited. People have been killed by running out into streets and by turning back into the path of a tornado. Even though a warning is issued, chances of a tornado striking one's home or location are very slight. Tornadoes cover such a small zone, as a rule, that relatively only a few places in a warned area are directly affected. You should know about tornadoes though, "just in case."

Keep tuned to your radio or television station for latest tornado advisory information.

Tornado Information
Where Tornadoes Can Occur: Any place in the United States at any time of the year. They happen most frequently in the midwestern, southern and central states from March through September.

How Often Do They Occur: The records show that the average number of days with tornadoes varies from about 12 per year in parts of the Mid-West to less than one per year in the Northwestern and far Western states.

How To Recognize a Tornado: Usually observed as a funnel-shaped cloud, spinning rapidly, and extending toward the earth from the base of a thundercloud. When close by, it sounds like the roar of hundreds of airplanes.

Tornado "Weather": Hot, sticky days with southerly winds and a threatening, ominous sky. However, many such days occur without tornadoes.

Clouds: Familiar thunderstorm clouds are present. An hour or two before a tornado, topsy-turvy clouds often have a greenish-black color.

Precipitation: Rain, frequently hail, preceding the tornado, with a heavy downpour after it has passed.

Time of Day: Mostly between 3 and 7 p. m., but they have occurred at all hours.

Length of Path: Usually 10 to 40 miles (the average length is 16 miles), but they may move forward for 300 miles.

Speed of Travel: 25 to 40 miles per hour average, but they have varied from 5 to 139 miles per hour.

Wind Speed: Estimated as high as 500 miles per hour within the tornado.

Causes of Destruction: 1. Violent winds which uproot trees, destroy buildings, and which create a serious hazard from objects blown through the air.

2. Differences in air pressure which can hit automobiles and can cause buildings to collapse.

I-L Band Contests Due This Week at McMurry College
McMurry College in Abilene will be host this week to 38 high school and 10 junior high school bands in the University Interscholastic League Regional II Band and Orchestra Concert and Sightreading contest.

The three-day contest will begin Thursday and end Saturday. Haskell will compete in a field of 12 bands in the 2-A division which will include Stamford, Anson, Hamlin, Brady, Dublin, De Leon, Ranger, Eastland, Coleman, Cisco, Winters.

The meet not only will include band and orchestra competition, but also student conducting, sight-reading and solo and ensemble performances.

Chippendale furniture bears the name of its creator, and 18th century English cabinetmaker and wood carver.

Livestock Trend Reverses With Decrease Noted

Adequate rainfall along with more favorable prices has halted the downward trend in livestock numbers in Texas, according to Alvin Wooten, extension economist.

All livestock and poultry on farms and ranches were valued at \$93 million at the beginning of the year, or 58 per cent above the \$623 million inventory value a year earlier, points out Wooten. This sharp increase in value is a reflection of both the increased prices and numbers.

The total number of cattle and calves on Texas farms and ranches Jan. 1, 1958, was estimated at 7.7 million head. This is the same as a year earlier but 9 per cent below the 1947-56 average of 8.5 million head.

The number of sheep on the same date was estimated at 4.7 million head—a five per cent increase over a year earlier. This is the first significant increase in inventory in a number of years. In spite of a much smaller lamb crop, the number of ewe lambs held was 30 per cent above a year earlier.

Rochester GI Takes Part in Training Exercise in Korea

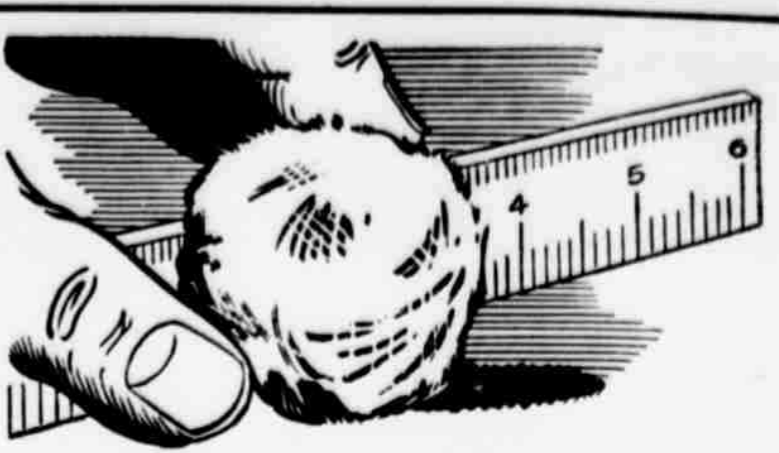

1st Cav. Div. Korea (THINC) — Army Pte. Jearald D. Speck, son of Mr. and Mrs. Walter J. Speck, Rochester, recently participated in a field training exercise with the 1st Cavalry division in Korea.

Speck is assigned to Headquarters Company of the division's 4th Cavalry. He entered the Army in May 1957 and completed basic training at Fort Polk, La.

The 23-year-old soldier is a 1952 graduate of Rochester High School and a 1957 graduate of Harding-Simmons University, Abilene. He was employed by First National Bank, Abilene, in civilian life.

Former Resident is Visitor Here

Mrs. Lon Gardner of Albuquerque, N. M., was a visitor last week in the home of her sister, Mrs. Wayne Perry and Mr. Perry in the Paint Creek community. Mrs. Gardner, member of an early-day family in this section, formerly lived here and in Rule before moving to New Mexico a number of years ago.

BIG AS GOLF BALLS . . . that's the kind of hail Mother Nature can throw at you just when your crop is least prepared to stand an injury. An entire year's work can go up the flue.

Why take a chance when hail insurance is so inexpensive. Let us quote you the rate.

247 HASKELL, TEXAS

By HUGH WILLIAMSON

Strange and wonderful things turn up as scientists of this day and age pursue knowledge. A good example is the new fishing rod material developed by the genius-type workers on guided missiles.

The stuff is called Missillite, which Conolon now is using to make rods that are reputed to be stronger than glass. The new material is a combination of fiberglass and resin.

"Splat" Fishing
One of the outdoors magazines recently published a yarn about "splat" fishing, which is much the same thing we know as skitter fishing.

Anyways, these "splat" fishermen used a stout cane pole and a shortish, heavy line. Fishing from a boat at night, in very shallow water right along the bank, they used a long shank hook baited with pork rind.

They dropped the bait out on shore, then pulled it in so that it plopped into the inches-deep water. When the bass took it they hoisted him right in, taking no chances on losing him in the brush.

The system, with many various works—as many old-timers in Texas and elsewhere know very well. It is a form of what you call "meat" fishing, as opposed to "sport" fishing.

Sometimes sport fishing pays off, sometimes it doesn't. When it fails, a man will be tempted to go after fish by whatever means.

The other afternoon, I wished for one of those skittering rigs. The weather was warm, so I figured the bass might be congregated where a spring-fed stream empties cool water into the river.

No fish responded, but I saw a big bass splash twice by an old stump, not 20 feet from where I was fishing from the bank. I dropped a topwater lure on the spot, and the bass took it immediately—took it under the stump where my four-pound spinning line wasn't anything like enough to pull him out.

If I'd been skittering, of course, it would have been a different story. Or maybe if I had been in a boat, casting into the bank with a bait-casting outfit, it would have been all right.

Tackle Argument
Talk about debates, you can get into one plenty fast when you bring up fishing tackle.

There's the purist who wouldn't look at anything but a fly rod, and who wouldn't think of using anything but a dry fly. He fishes for trout and nothing else.

Then, there's the fly rod man who will not only use his rig to cast wet as well as dry flies, but will go so far as to fish for types other than trout and who, upon occasion, might slip a worm on his hook if nobody is looking.

In our part of the country we favor the casting outfit because the heavier lines help us get our bass out of the lily pads and brush.

Aristocrats of the casting school would never use anything but a topwater lure. Down the scale you find those degraded people who use deep runners, spinners and spoons. Then, there's the fellow who will bait his hook with minnows, worms, crawfish, shrimp, or anything else the fish will bite.

There are several categories of spin fishermen. At the bottom of the heap are the cane pole and trotline fishermen. They catch the most fish. I am not going to talk about the bait they use. Least of all am I going to talk about catfish bait.

Who's kidding whom? If somebody tells me I can catch a 15-pound blue cat by using a dog's tail for bait, Poopsie had better get under the house.

In 1957, 1,830 Americans were killed in train-car crashes. 53,000 Americans were injured in car-bicycle mishaps in 1957.

In 1957, 2,525,000 Americans were injured in traffic accidents. Speeding was blamed for 13,200 deaths on U. S. highways in 1957.

In 1957, 7,500 pedestrians were killed by autos in the U. S. Jaywalking was costly in the U. S. last year—2,600 were killed. More than 95 per cent of vehicles involved in fatal accidents on U. S. highways in 1957 were in apparently good condition.

Bad driving conditions prevailed in less than 15 per cent of the fatal highway accidents in the U. S. in 1957. More than 21 per cent of 1957 U. S. highway deaths occurred on Saturdays.

Weekends are the most dangerous time to be on U. S. highways. In 1957, more than 55 per cent of all fatalities occurred on Fridays, Saturdays, and Sundays.

During 1957, there were 1,300 fewer highway traffic fatalities than in the previous year. Nearly 27 per cent of U. S. drivers involved in 1957 traffic fatalities were under 25 years of age.

Passenger cars were involved in over 7 per cent of all U. S. traffic fatalities in 1957 and in 86 per cent of traffic injuries. In 1957, there were over 370 persons killed while crossing at an intersection with signal. Remember, cross cautiously.

Former Haskell Rural Carrier Is Retired

A career spanning 38 years in the U. S. postal service officially ended recently for a former Haskell carrier, W. H. Morris, at Seminole, Okla.

Morris, who was a rural route carrier out of the Haskell office for a number of years, transferred to Marlow, Okla., in the late 40's and later to Seminole.

The veteran carrier became eligible for retirement in February. His co-workers in the Seminole post office presented him with a fine spinning rod and reel as a retirement gift.

Morris and his wife have purchased a home at Tishomingo and he is looking forward to "a little fishing" and entertaining his five grandchildren at Lake Texoma when they come to visit.

Morris' postal service career began at Cisco, Texas, Feb. 1, 1920, when he was signed on as a temporary clerk. Later he came to Haskell, and next transferred to Oklahoma.

Mr. and Mrs. Morris have two children, Mrs. Dorothy Harris, Arlington, Texas, and Jack Morris, Duncan, Okla., and five grandchildren.

Mrs. C. M. Kaigler, Lubbock, Retires After 50 Years as Expression Teacher

After more than 50 years of teaching elocution, speech, and expression, Mrs. C. M. Kaigler of Lubbock, formerly of Haskell, has retired from an active schedule of teaching.

Mrs. Kaigler was born and reared in Waco. After her marriage she went with her husband to a small town near Lutkin, in East Texas, and began teaching elocution in 1906.

The subject has been called elocution, expression and speech during her years of teaching and she thinks that "expression" is the best name for the subject. She and her husband moved back to Waco later and she taught expression there. Mrs. Kaigler later taught in Haskell High School approximately 20 years. She began teaching in Lubbock in 1940, offering private speech lessons in her home. Mrs. Kaigler formerly was superintendent of the Primary Department of Lubbock First Methodist Church and has been active in other church work.

Mr. and Mrs. Kaigler have five daughters, Miss Louise Kaigler, Mrs. E. E. Wickliffe, Mrs. Patsy Rogers, and Mrs. Charles Kay of Lubbock; Mrs. L. A. Howsey, Denton, and one son, Thomas A. Kaigler of Midland.

Vacation Bible School Clinic Scheduled

Between fifteen and twenty churches are expected to be represented on Friday, April 25, at a Vacation Bible School Clinic sponsored by the Haskell-Knox Association of Baptist churches and held at the First Baptist Church of Rochester, of which the Rev. Herb Barker is pastor.

Because of the illness of the Association's Vacation Bible School Director Rev. A. L. Eubanks of Paint Creek, the Clinic is under the direction of the Association's Sunday School Superintendent, the Rev. Marvin E. Burgess of Gillespie.

Beginning at 9:30 a. m. and continuing until 3 p. m., the Clinic will demonstrate the latest Vacation Bible School techniques for each age group. There will also be displays of creative activity materials and projects.

The Rev. V. D. Walters, District Vacation Bible School Director, will be present to lead a conference of pastors, principals and secretaries. Other conference leaders are Mrs. J. L. Mullins of Haskell, intermediates; Mrs. Marvin E. Burgess of Gillespie, Juniors; Mrs. Rodney Dowdy of Rule, primary; Mrs. Aubrey Simpkins of Rule, beginner; Mrs. Herb Barker of Rochester, nursery.

Everyone is asked to bring a sack lunch, and the host church will serve the drink. A nursery will be open to care for pre-school children and infants.

The Concord, Mass., municipal matters are still decided upon at town meetings.

Sagerton News

By MRS. DELBERT LEFEVRE

Mr. and Mrs. John Angerman and family of Waco visited with Mr. and Mrs. August Angerman from Thursday through last week end. While here, Mr. and Mrs. August Angerman, Mr. and Mrs. John Angerman and family, and Mr. and Mrs. Albert Stremmel, Hilda and Emil spent the day at Stamford Lake Friday.

Mrs. John Clark is in Midland visiting her daughter, Mrs. Leslie Cobb and family. James Lehrmann of Stamford visited with Mr. and Mrs. C. K. Holt Sr. Mr. and Mrs. Cliff LeFevre spent last weekend visiting with relatives in Wortham and Teague.

The Sagerton P-TA will meet Monday evening, April 28, for the last meeting of the year. The Stitch and Chatter Club met with Mrs. R. O. Gibson Wednesday April 16. A quilt was pieced for the hostess. Those present were Mmes. Nix Sheid, Ben Hess, Cliff LeFevre, M. Y. Benton, John Clark, Will Stegemoeiler, G. A. Leach, Ethel Laughlin and the hostess.

Mrs. G. A. Leach, Mrs. John Clark and Mrs. Vernon Mayfield attended the instruction classes for Vacation Bible School in Stamford at St. John's Methodist Church Tuesday of last week. Mr. and Mrs. Bill Rife of Dublin, former residents of Sagerton, visited with friends here Monday afternoon of last week.

Mr. and Mrs. Emil Kainer and Mr. and Mrs. J. D. Kupatt and children of Rule attended a birthday party in honor of Kenneth Wayne Bradshaw, son of Mr. and Mrs. Bill Bradshaw at Anson, April 16. Mr. and Mrs. Melvin Lewis of Aspermont visited with Mr. and Mrs. Emil Kainer Thursday of last week.

The members of the Zion Lutheran Church will hold their quarterly Business Meeting next Sunday afternoon at 3:00. Mrs. Terry Gholson, daughter of Mr. and Mrs. Cliff Gholson was a patient at the Stamford Hospital part of last week suffering with a throat infection. She was released Friday.

The measles, the 3-day type, are still going around in the community. Mrs. George Apple, the former Elyzabell LeFevre, daughter of Mr. and Mrs. G. W. LeFevre, was honored with a bridal shower in the home of Mrs. F. A. Ulmer Monday afternoon, April 21. Approximately 40 guests registered during the afternoon.

Hostesses were Mmes. John Clark, Cliff LeFevre, M. Y. Benton, Melvin New, Herbert Stremmel, Chas. Clark, Delbert LeFevre, Glynn Quade, F. A. Ulmer, Pat Sellers and Reece Clark. Mr. and Mrs. Emil Kainer and Mr. and Mrs. Herbert J. Kainer attended a chicken barbecue in the home of Mr. and Mrs. Wm. Barnett Friday night. Mrs. Bertha Freeman and children were also present.

Guests in the Emil Kainer home Sunday were Mr. and Mrs. Herbert J. Kainer, Mr. and Mrs. J. D. Kupatt and family of Rule, Mrs. Bill Bradshaw and family of Anson and Mr. and Mrs. Albert Stremmel, Hilda and Emil. Mrs. Emil Kainer spent Saturday with her daughter, Mrs. Bertha Freeman and children in Stamford.

Guests in the home of Mr. and Mrs. Norvell Lehrmann and family Thursday evening April 17, were Mr. and Mrs. Jack Monse and Diane, Mr. and Mrs. Leo Monse and Henry Hagemeister. The occasion was Mrs. Lehrmann's birthday.

PARENTS OF SON

Mr. and Mrs. Edwin E. Williams of Wichita Falls are announcing the arrival of a son, Ralph Edwin, weight seven pounds, one ounce, born Sunday, April 13. Grandparents are Mr. and Mrs. W. D. Gilliland and Mr. and Mrs. E. A. Williams of Haskell.

Otto Lehrmann celebrated his birthday April 16. Those present were Mr. and Mrs. Carl Opitz and family of Abilene, Mr. and Mrs. Clancey Lehrmann and children, Mr. and Mrs. Leo Monse Sr., Mr. and Mrs. Norvell Lehrmann and family, Henry Hagemeister and the honoree and his wife.

James Lehrmann of Stamford spent the weekend with Mr. and Mrs. Norvell Lehrmann. Sara Lehrmann visited with Frances Mrazek in Aspermont over the weekend.

Mr. and Mrs. Macon Ulmer and family of Plainview spent last weekend with Mr. and Mrs. F. A. Ulmer.

Local Legion Post Will Be Honored At District Meet

Rogers-Cox Post No. 221 is one of eleven Legion posts to be honored at the annual Spring Convention of the 19th Congressional District of The American Legion, to be held April 26-27 at Brownfield.

The 11 posts will be presented with citations for having exceeded their 1958 membership quota by the time of the convention.

Posts and their Commanders to be honored are: Haskell, Dr. Wm. J. Kemp; Big Spring, J. V. Gregory; Denver City, Robert L. Wells; Lamesa, Leonard L. Bruner; Lockney, Walter J. Hodel; Lorraine, B. B. Boies; Lubbock No. 575, Julius Williamson; Olton, Howard L. Hall; Rails, Clinton McReynolds; Rule, James H. Moore; and Seminole, C. C. Ward.

CARD OF THANKS

I take this means of expressing my sincere thanks to my friends, my pastor, Sunday School and Training Union, for the beautiful flowers, cards and other gifts sent to me while I was in the hospital; also the doctors and nurses for their untiring efforts. Your thoughtfulness will always be remembered. May God bless each of you.—Fannie Roberts, 17p

VISITS NEW GRANDSON IN WICHITA FALLS

Mrs. W. D. Gilliland has been visiting in the home of her daughter and new grandson in Wichita Falls, Mr. and Mrs. Edwin E. Williams. Newcomer in their home and grandson of Mrs. Gilliland is Ralph Edwin, born April 13.

HASKELL VISITORS

Mrs. J. F. Copeland and daughter Tiny of Floydada, spent last weekend here in the home of their daughter and sister and family, Mr. and Mrs. Billy Ray Lusk and Jimmy Ray.

**NOTICE OF ELECTION OF TOWN
 OFFICERS FOR TOWN OF
 O'BRIEN, TEXAS**
 The State of Texas
 County of Haskell
 To the Qualified Electors of the
 Town of O'Brien, Texas:
 Take Notice that an election will
 be held on the 10th day of May,

1958, at the Community Building
 in the Town of O'Brien, Texas,
 for the following purpose and to
 elect:
 "Electing a Mayor, a Town Mar-
 shall, and Five Aldermen for
 the Town of O'Brien, Texas."
 Every person who has attained
 the age of twenty-one years and
 who has resided within the cor-
 porate limits of said town for six
 months next preceding the date
 of said election and is a qualified
 elector under the laws of the
 State, shall be entitled to vote at
 said election.
 No person shall be eligible to
 any of said offices unless he pos-
 sesses the requisites provided for
 electors at such election.
 D. S. Gothard has been appoint-
 ed to serve as presiding officer
 of said election, and shall select
 two judges and two clerks to assist
 in holding same.
 Said Election shall be held in
 the manner prescribed for holding
 elections in incorporated towns
 under the provisions of the Con-
 stitution and laws of the State of
 Texas.
 Witness My Hand and Seal of
 the County Court of Haskell
 County, Texas, this the 11th day
 of April, 1958.
 Alfred Turnbow, County Judge,
 Haskell County, Texas. 16-17c

NOTICE OF ELECTION
 Notice is hereby given that an
 election will be held Tuesday, May
 6, 1958, at the City Hall in Wein-
 ert, Texas, for the purpose of
 electing two directors to serve 2-
 year terms for the Haskell County
 Water Supply District No. 1. Polls
 will be open from 8 a. m. until
 7 p. m. Retiring directors are R.
 N. Mathison and Eddie Sanders.
 By order of the Board of Di-
 rectors of Haskell County Water
 Supply District No. 1.
 Russell Rainey, President.

South Side Chapel Organizes Boys Baseball Team

A baseball team of youngsters in the 9 to 13 age group has been organized under the auspices of the South Side Chapel. Rev. Marvin Moseley has supervision of the team, assisted by "Happy" Hendrick.

The ball club started practice last week, and is anxious to match games with other teams in this age group.

Members of the team include John Payne, Ray Thomas, Wesley White, Thomas White, James Isbell, Ray Howell, Gerald Hunt, James Brooks, Earnest Brooks. Other boys interested are asked to join the team at any of the regular work-outs.

Centennial—

(Continued from page 1) 16, and formal request from the Centennial was presented by Dr. Vaughter and Mrs. Pippin asking use of the stadium for the Calvacade program.

Following lengthy discussion, Board Member Joe Harper moved that use of the stadium be granted provided no livestock or vehicles were permitted on the field. Second by Ed Hester resulted in a 3-2 vote for the restricted use. Voting for the motion were Harper, Hester and J. A. Bynum, and against, Clinton Herren and Jean Elliott. At a suggestion that any action should be unanimous, a second vote resulted in the five trustees voting as a body for the motion.

Final Effort

Following Wednesday night's Board action, a meeting of interested citizens was held Monday afternoon at the Texas Theatre for the purpose of trying to work out a compromise on the problem.

Attending the meeting were 41 persons, including Supt. Robt. F. King and three Trustees. Joe

Harper, J. A. Bynum and Jean Elliott.

Mayor Ira Hester presided, and following explanation of the meeting, Mrs. W. R. Johnson read several letters from neighboring towns relative to similar programs held on football fields. The information was that no damage had resulted which could not be repaired, and that the field would not be left in hazardous condition.

Speaking in favor of using the field and expressing belief that no irreparable damage or hazardous condition would result, were Jetty V. Clare, Myron Biard, Roy Johnson, Royce Adkins, George Neely, Tom Barfield and Dr. T. W. Williams.

Reiterating their belief that damage to the field could not be repaired before date of the first home football game, were Supt. King and Trustees Harper and Bynum.

When asked whether their decision would be changed if date of the program was moved up two weeks—to July 27—neither Supt. King, Harper nor Bynum would indicate whether this might be the basis for further consideration on their part.

At the close of the meeting a standing vote was taken of those who felt that the use of the field should be permitted for the Centennial. With the exception of seven persons, including the school officials, all present voted in favor of using the field.

Then as the crowd thinned, Harper asked that a poll be taken of those who "Think the Board is 100 per cent wrong in its decision." Approximately 90 per cent voted the opinion that the Board was wrong.

Community representatives who were directing plans for the Centennial included the following:

Mattson: Mrs. Lucille Marlow, Mrs. Morris Gibson.

Weinert: Mrs. Mabel Derr, Harlan Weinert.

O'Brien: Burt Davis, A. A. Cox.

Paint Creek: Morris Haynes, Ray Perry.

Sagerton: Irene Stewart, Johnny Spitzer.

Rochester: Phil Simmons, Mrs. R. A. Shaver.

Rule: E. O. Morgan, Jim Norman.

Haskell: Myron Biard.

Homemade compost will greatly improve the structure of garden soil and result in better production, according to B. G. Hancock, extension horticulturist. Grass clippings, leaves, weeds and plant residue are a few materials that he says will make suitable compost.

First successful beet sugar factory in the United States was built in 1870.

McRae—

(Continued from page 1) tic standards of the school, Paint Creek graduates attending colleges and universities are consistently rated among high-ranking students.

One of the most recent improvements under Supt. McRae's administration was the installation of a pipeline from Lake Stamford and building a filter plant at the school. As a result, in addition to an adequate water supply, the football field has been planted in grass and gives the school one of the best turf fields in the area.

Among the many recognitions for the school was the awarding this year of a plaque as second high ranking school in the state in driver education training.

Other recognition for Paint Creek School has come in articles and pictures in numerous publications, including Life Magazine, teachers magazines, and the Progressive Farmer as well as area daily newspapers. Also, Paint Creek School was featured in Humble Oil Company's "Texas in Review" TV program.

In February of this year, Supt. McRae's contract was extended for one year, and in March, all members of the faculty were re-elected for the 1955-56 term.

Weinert Junior Class Play To Be Given Friday

The Weinert Junior Class will present the class play, a hilarious western thriller entitled "Desperate Ambrose" Friday, April 25, at 8 p. m. Donald Payton is author of the three-act farce-comedy.

Members of the cast are: Daniel, Danny Earle; Ambrose Groves, David Phemister; Bert Miller, Jerry King; Sheriff Crandell, Carroll Hargrove; Hoot Owl Pete, Leon Kreger; Slinkweed, Jimmy Alexander; Beth, Jean Hutchinson; Posie, Sharon Caddell; Nancy Martin, Linda Dunnam; Anne Martin, Louise Hix; Mrs. Spool, Nell Rainey; Lena, Peggy Turnbow; Judge, David Boykin; Two Trunkmen, Bobby Jenkins and Bob Raynes.

Alexander Graham Bell was trained to be a teacher of music and elocution.

The Liberty Bell was cracked in 1835 when it tolled for the death of Chief Justice John Marshall.

Berlin is the largest city on the European Continent.

Bermuda grass thrives best in the extreme South.

Coffee was first used in Abyssinia in the ninth century.

School Trustees Hear Centennial Request; Re-Elect All Teachers

The Haskell School Trustees, in regular session, approved a motion to permit the Haskell County Centennial Organization to have the use of Indian Field for their calvacade providing no livestock or vehicles were entered on the field.

In other action, the election returns were canvassed and approved and the board organized with Bill Holden as president. Other officers are Clinton Herren, vice president and J. A. Bynum, secretary.

The teachers in the Haskell School System were re-elected for next year by the trustees and Holden appointed a committee to procure four residents to serve on the Board of Equalization. Ed Hester was appointed chairman of the committee, with Clinton Herren and Jewel Bynum. A committee, Joe Harper, Clinton Herren and Ed Hester was appointed to contact Viars Felker, local businessman and ask him if he would fill the unexpired term of Cecil Gregory, who has moved to Stamford.

Appearing before the board were Dr. J. G. Vaughter and Mrs. Jack Pippin, co-chairmen of the Haskell County Centennial Association. They made a formal request that the association be permitted the use of Indian Field for the five performances of the Calvacade, planned for early August. The field would be needed for a dress rehearsal, also, they said.

Dr. Vaughter and Mrs. Pippin explained the formation of the organization up to the present time. Mrs. Pippin read letters from the Chambers of Commerce at Wichita Falls and Brownwood which stated that little damage was done to the football fields where they had held their respective celebrations recently. When questioned by the board, Mrs. Pippin and Dr. Vaughter stated that Haskell's Calvacade scenario has not been completed and they did not know what action would be taken on the field. A letter from a representative of the producing company, John B. Rogers & Co., was read which stated the scenery for the production could be erected without digging holes in the field.

Although the board had taken previous action denying the association use of the field, Joe Harper moved that the earlier action be rescinded and the current request of the association be considered the formal request. The motion was seconded by Ed Hester and unanimously approved. After prolonged discussion,

Harper made the motion that the association be permitted use of the field with the "no livestock and vehicle" restriction. The motion was seconded by Hester. The first vote had Hester, Harper and Bynum in the affirmative with Herren and Elliott against. After further discussion, a second vote was taken and the board unanimously approved the motion.

EVINRUDE MOTORS

Ole Evinrude invented the outboard motor and they have held top place ever since.

We are proud of our Evinrude Dealer Franchise. Even more so, now that competition pays a bonus for them in order to have a first line motor for personal use and to offer their customers. No higher compliment can be paid a product.

When you buy your new Evinrude motor from a franchised dealer, it is fully guaranteed by the factory and only then.

For tops for fun or fishing, mount a Glastron or Lone Star Boat on a Gator trailer and hang an Evinrude Motor on the transom. This is a combination that can't be beat.

We are franchised on all these and many more top brands of merchandise.
