Home Demonstration Clubs in Dress Contest

Mrs. A. R. Hanna County Winner; Fairview Club Had Outstanding Display.

In the Dress Contest held last Saturday at Lockney by six Home Demonstration Clubs in Floyd County there were 39 dresses on exhibit. Miss Naufleet Grimes, County Demonstration Agent for Motley County, acted as judge in the contest, and she judged the one-piece gingham dresses from the viewpoints of suitability of article to purpose, beauty and quality of the design, harmony of color and materials, symmetry, accuracy in cutting, perfection of stitches, neatness of finish, laundering possibilities, appearance of dress and cost. The judging was done in the presence of all the contestants so that they might benefit from seeing the good and bad features pointed out in each dress judged.

Fairview Club was one of the outstanding clubs. This club has been organized but six weeks, and with a membership of only 16, it was able to place 6 dresses in the contest.

The County winners are: 1st prize, Mrs. A. R. Hanna, Sand Hill; 2nd prize, Mrs. T. D. McAfee, Fairview; 3rd prize, Mrs. E. R. Martin, Lockney.

FINE PICKLE PEACHES

Floyd County's crop of clingstone peaches has been coming on during the past two weeks and pickled peaches will grace the boards of many homes from the big crop being harvested from the small home orchards as well as from the few commercial orchards of the county.

One of the prettiest displays of clingstone peaches, suitable for pickling, seen locally, was that shown by Nelson Cowand. The peaches were large and uniform, having the appearance of Elbertas. Mr. Cowand calls them clingstone Elbertas for want of a better name. The texture and taste is ideal for pickling.

See End of Round the World Flight in Calif.

Mrs. Elder Morris, County Treasurer, is in receipt of a letter, written September 25 from her sister, Mrs. V. H. Trammell in which is described very interestingly the finish of the World Flyers trip at San Morocco, Calif. Mrs. Trammell, who lives in Los Angeles, motored over to the field to watch the flyers come in and she says of this experience:

"Victor, Henry and I went to Clover Field (San Morocco) Tuesday to see the 'Round the World Flyers' come in. The papers said there were 200,000 people there. We got there before ten and the flyers came in at two-thirty. The parents of Smith, the Com. mandant, live near us a mile or so. There was a bag of gold amounting to \$1,000 given to each of the six flyers. They charged a dollar each for parking the cars and that went to the flyers."

W. N. Brown Acquitted On Charge of Arson

R. M. Broyles Case on Trial—Grand Jury Returns 20 Felony Indictments.

W. N. Brown was acquitted of a charge of arson by an instructed verdict of a jury in district court for Floyd County Tuesday afternoon. He was charged with being an accomplice to arson in connection with the burning of the Highway Garage in Lockney on October 8th., 1921. The case was called Monday.

The R. M. Broyles case was called Wednesday morning, but the regular panel for the week was exhausted when only four men had been obtained for the jury. Twenty talesmen were summoned for duty in the afternoon. The expectation is that the case will be completed not later than tomorrow noon.

At the time of its adjournment Saturday night the grand jury had returned a total of 21 indictments into open court. Of this number 20 were on felony charges. Of these C. S. Carlysie is indicted on three cases of liquor charges. Hoyt McClure is charged with forgery, Paul Schick is charged with assault to murder and burglary with intent to commit a statutory offense.

Thos. W. Oliver is charged by indictment with burglary, as is Leslie Carter. Homer Manley and Duff Beavers each are charged with liquor offenses and Geo. T. Griffin with forgery in five cases. Earl H. Kelley is charged with forgery. Arrests have been made in each of these cases.

Three negroes were indicted by the grand jury, two on liquor charges and one, a negro, for alleged perjury.

Osborne, Bert Battey, T. J. Knight, Ernest Grigsby, G. W. de Cordova, John McDonald, Jerome Watson, Sam Hardwick, J. D. Hopper, W. C. Clubb and G. M. Bullard.

Half Holiday for F. H. S. Friday Afternoon

Floydada High School will be given a half-holiday Friday afternoon, which time is being made up before hand in the school room, to give all the school an opportunity to see the green and white football squad in action at Lubbock. The game will be called at 3:30, it is announced.

Coach Wester will open the Lubbock game with the same line-up he used here last Friday against Plainview. With a wealth of material Lubbock is expected to put a heavy, fast team, with a number of letter men in the squad, on the field, and Wester's rookies have a real job ahead of them. Slaton defeated the Lubbock squad Friday 6 to 0, but Slaton is expected to give Ralls a hard run for first honors among Class B teams in the district. From present dope it appears that F. H. S. will find these two teams their hardest hurdles in the Class B championship contest.

Two or three hundred fans from Floydada, including a large number of the high school boys and girls are expected to go to Lubbock with the team Friday.

INFANT DIES

The infant son of Mr. and Mrs. Otto Austin, which was born on Wednesday last week, died Thursday afternoon at Pleasant Hill.

The baby was buried on Friday at Lakeview cemetery.

Mrs. Jenkins Elected Federation Secretary

Largely Attended Meeting of County Federation of Clubs Saturday at Lockney.

At an all day meeting of the Floyd County Federation of Women's Clubs which was held in Lockney last Saturday, and which was very finely attended, many helpful and inspiring round table discussions touching on subjects very close to every mother and woman present were in order, and the officers for the coming two years were also elected at this time.

The officers chosen for the next term are Mrs. G. M. Tate of Aiken, president; Mrs. Carl McAdams of Lockney, vice-president; and Mrs. J. B. Jenkins of Floydada, recording secretary.

A round-table discussion on the subject of "school days and what they mean to club mothers" was conducted by Mrs. Lon Smith, Mrs. G. M. Tate, Mrs. E. C. Henry and Mrs. Holmes.

Price Scott, Superintendent of Floyd County Schools, discussed the subject "How the Clubs can assist in Solving School Problems" and he strongly urged the club women to assist in getting the school children of the county examined for physical ailments. He gave statistics regarding the number of children in the county having bad gums, bad teeth, bad eyesight, and bad tonsils. The County Federation voted to take active steps immediately in order to remedy the appalling condition of some of the children in the County.

Mrs. Carl C. Goodman of Plainview, past president of the Seventh District of which Floyd County is a part, gave an address on "The Ideal American Home for the average family as to finance, beauty and comfort."

The Mothers Club of Lockney which was hostess to the Federation outdid itself in the unusual and delicious lunch it served to the club members in cafeteria style.

A number of piano and vocal solos were given by Mrs. Pinnegar and Misses Laurean Christian and Broyles.

A very appropriate reading entitled "Little Mother" was given by Mrs. C. C. Clements, and two vocal selections were given by the Lockney High School girls.

The next meeting of the Federation will be held in Floydada the last Saturday in January with the Nineteen Twenty-Two Study Club and the Parent-Teachers Association acting as hostesses.

City Water Supply Is Graded A by Board

In a recent classification of all municipal water supplies in the State as announced by Dr. Malone Duggan, State Health Officer, on last Thursday, it is gratifying to note that Floydada is listed among others under Class A.

Municipal water supplies are classified as follows:

Grade A, Grade B and Grade C. Those towns listed under Grade A are fortunate enough to enjoy water that is reasonably safe for drinking purposes at all times, and have the assurance that it will remain in this condition because reports to the State Board of Health must be submitted each month, giving data concerning daily operations of the water plant and the method of laboratory control. Grade B represents towns whose water supplies do not come full up to the State Board of Health regulations but suggested improvements are being made. Under Grade C, which includes but 9 towns, the water has been found unfit for drinking purposes except when boiled or otherwise treated.

As are wide-awake to the fact that a good, pure water supply is without a doubt the greatest asset that any town or city can have and they are anxious and ready to co-operate in every way to make their own water supply the best that it can be. There has been such a great demand upon the State Board of Health for analysis of water specimens lately that it has been necessary to adopt certain standards to be observed by citizens shipping water. A standard shipping case has been adopted which can be constructed at a nominal cost, the plans for construction being furnished by the State Board of Health upon request, together with other necessary requirements for shipping.

CAR ABLAZE MONDAY

A Ford sedan ablaze in front of the Commercial Hotel Monday evening shortly after 6 o'clock, called out the fire truck. The fire was extinguished before it did much damage to the car, a chemical extinguisher being used before the fire boys reached the scene.

IDALOU COUPLE MARRIED

Miss Linnie Kerr and Rafus Wheeler of Idalou were united in marriage on September 29 in Floydada with Judge E. C. Nelson officiating.

Floyd County Third at Wichita Falls Show

Tex.-Okla. Fair Judging, Completed Tuesday Afternoon, Gives Dallas First, Hale Second.

Floyd County won third again, its exhibit at Wichita Falls repeating the performance at Amarillo last week, when with Maury Hopkins, secretary of the Chamber of Commerce at the helm, it again ran the winners close for first place, the exhibit being judged almost exactly the same number of points below first place winner, Dallas' score was 18 points greater than Floydada's. Hale County was given a nine-point lead over Floyd for second place.

Wilbarger was fourth in the sweepstakes race between panhandle and Oklahoma counties, Childress was a fifth, Throckmorton sixth and Tillman County, Oklahoma, seventh. A telephone message from Mr. Hopkins said the competition was very keen.

Floyd County's exhibits at both Amarillo and Wichita Falls were among the best arranged and decorated, according to the judges scoring. At Amarillo the back-ground bore the legend, "Cast your anchor in Floyd", at Wichita Falls, "Where Farming Pays Best."

At Wichita the scoring was said to be more satisfactory than that at Amarillo, where some complaint was heard. At both shows Floyd County had the best what shown, scoring an almost perfect card for small grains.

Hundreds of oil-belt farmers are seeing the Floyd County exhibit at Wichita Falls and with the tide of immigration already turned this direction from the Wichita Falls district, Secretary Hopkins expects Floyd County to get some visible results this fall and winter from that show. He has been busy answering questions ever since the fair opened. Attendance records have been very satisfactory, he states.

Collection of the exhibit for Dallas has been started. The Amarillo and Wichita Falls exhibits will be used with fresh entries from home in the perishable products.

Floyd County Baptist Workers' Conference

Dr. F. S. Groner has promised to hold a conference with the associational workers, and the pastor and local church workers are urging that other churches in the association be sure to bring a large representation and stay through the day.

Slaton Car Nose Dives Into Blanco River

Slaton Slatonite: Last Sunday Mr. W. E. Abbe and wife went to Silver Falls to spend the day. He left his Studebaker car on the Plains above, and failing to set his brakes, the wind came up and started the car rolling toward the river below. It rolled off the bank and took a nose-dive into the canyon below, falling a hundred or more feet. The car landed in the bed of the river on its nose. Mr. Abbe saw the car roll off the bank and light in the river bed and he naturally concluded that his car would be a complete wreck. He and others went to the car, and found it standing on its nose. The car was righted and he cranked it up and drove it out to the Plains above. Some fortunate stunt for a Studebaker to pull off. The car was only slightly damaged.

Floyd County Woman Wins Prizes in Art

Among the splendid work of many artists showing pictures at the Tri-State Fair at Amarillo last week was a number of paintings by Mrs. O. S. Miller of the Sand Hill community.

Her original painting of the Palo Duro Canyon won first place and a painting of the river in Palo Duro Canyon won second place. A fruit picture won first place in the fruit, flowers, or still life, any medium division.

Mrs. Miller is showing some of her work this week at the Panhandle South Plains Fair at Lubbock.

Randall Won Over Floyd Co. by 1/2 Point

Randall County won second place in the Tri-State Fair Agricultural exhibit, counties division, over Floyd County, which was placed as third, by a bare margin of one-half point. The report printed last week by The Hesperian credited that county with winning over this by 19 points. The actual figures as given County Agent T. Scott Wilson, who had charge of the exhibit, were Randall 879.1 and Floyd 878.6.

Mr. Wilson and Judge Howard, who assisted with the exhibit, returned home Thursday night and Mr. Wilson returned to Amarillo Friday, accompanied by Mrs. Wilson and children to remain until the fair closed Saturday night.

The Amarillo exhibit was shipped to Dallas by Mr. Wilson for exhibition there.

Green and White Bests Plainview High Squad

High School Squad Victorious—Ancient Encounter of Season—Ancient Enemy Victims.

The green and white of Floydada High School was triumphant in their first encounter of the season on the gridiron, earning a well-deserved victory over Plainview High School at the Floydada Baseball Park 21 to 0, last Friday afternoon before a crowd of several hundred fans of Plainview, Floydada and neighboring towns.

On a heavy, slow field under a sun as hot as midsummer the boys tugged and sweated, but no scoring was done in the first half. F. H. S. put the most inexperienced team it has had in six years on the field. Of the squad's first line up when the whistle blew for the kick off by Plainview the green and white had only one letter man playing in a position he had ever held down before. Last year's graduates depleted the ranks so badly that Coach Wester was forced to re-build his team, throughout. Kenneth Henry, formerly an end, was at quarter and was the field general. Frank Luttrall was at left tackle and Herschel Green at left half. Bill Daily had his regular position at left end.

The lads went into the fray gamely enough but their playing did not show the self-confidence in the first half that the second half displayed, stage fright having them nervous. However, as they repeatedly held their opponents for downs and forced them to punt, they gained confidence and showed to much better advantage than the Plainview school in the second half.

On the kickoff Plainview recovered, but failed to make downs with three bucks. The ball went over and on Floydada's first offensive play of the season Green went around the end for 15 yards on the third down. Their offensive was soon stopped when a pass was intercepted and the visiting squad again tried the line backs to no avail. F. H. S. punted and P. H. S. again tried line backs for three times with no material gains before punting on the fourth. The green and white made a 12-yard gain with an end-run, and repeated the gains for down twice in succession for 23 yards when Plainview intercepted a pass on their 20-yard line and punted to their 52-yard line. Floydada punted to Plainview's 10 yard line and the ball was returned on a punt to the Plainview 42 yard line when the quarter closed.

Starting the second quarter with a long end run the ball was fumbled and Plainview recovered. A buck and a pass failing, they punted to Floydada's 24 yard line. In a punting duel for the remainder of the quarter during which time downs was made only one time by either team, when the visitors completed a long pass for 30 yards, Plainview had slightly the best of F. H. S. and the half was called with the ball on Floydada's 15 yard line, neither goal line having been seriously threatened.

In the second half Floydada kicked to Plainview's 8-yard line and started an offensive when Plainview fumbled and Floydada recovered on the 12-yard line, that put them within 1 yard of Plainview's goal line, but the punch was lacking and the ball went over. The Plainview Hi punter failed to kick far enough out of danger and the green and white would not be denied when they again started an offensive from the Plainview 24-yard line. A pass failed, but two end runs and a fake play gained 16 yards. On the first down following Henry bucked the line for 8 yards and the first score for F. H. S. for the season of 1924. A pretty pass was completed for the extra point, Bosley to Daily.

Following the kick off F. H. S. made a 15-yard gain with a pass from the line of scrimmage on their 20-yard line, but a long end run was broken up when the ball was fumbled and Plainview recovered deep in their own territory. Still trying the buck- (Continued on page 8).

Exhibit Needs Many Varieties of Vegetables

SOS Call Sounded by Maury Hopkins Who Says Must Have Vegetables for Dallas Fair.

Have you any vegetables of any the classes listed below that you spare for the use of the Floyd County Exhibit at Dallas? Maury Hopkins who has been at Wichita Falls setting up the Floyd County Exhibit there has wired that he can't leave that city until after the judging is completed—probably the middle or latter part of this week, and meanwhile the vegetable class in the Dallas and Wichita Falls exhibits of this county are going to be badly deteriorated to use a Dallas and a practically new list of the entire vegetable class will be needed if Floyd County gets in the running at the big Texas event.

If you do have any of the vegetables in the list below Mr. Hopkins asks that you advise his office, or you can leave your name at The Hesperian office. It is the experience exhibitors that sometimes the some small vegetables or other shortage in an exhibit means interference in a good showing and showing at a fair, if the general of the exhibit is good.

- Mr. Hopkins needs the following:
 - 1 peck any early variety of potatoes;
 - 1 peck any late Irish potatoes;
 - 1 peck pumpkin;
 - 1 peck white yams.
 - 6 pods bell pepper;
 - 12 pods green beans;
 - 1 peck any variety of onions;
 - any variety of turnips;
 - 6 bunches carrots;
 - 12 parsnips;
 - 12 radishes;
 - 12 green sweet corn cobs;
 - 5 cabbages;
 - 4 cauliflower;
 - 10 long string beans;
 - gallon dry bean bunches celery;
 - 4 bunches 12 each garlic;
 - 4 winter squash;
 - 2 cawshaws;
 - 2 gourds;
 - 2 pumpkins;
 - 2 watermelons;
 - 4 cantaloupes.

Mrs. C. B. Reed, thirty-eight, Lula, Oklahoma, a member a party of five enroute from Floydada to Quitaque, was drowned in Sunset Tuesday afternoon about 1 o'clock when the car in which she were riding, ran off the road and into about a foot of water. Mrs. Reed body was pinned underneath the rest of the party extricating the selves from the wreck. Mrs. Reed badly strangled before her head could be raised above the water by her husband, Rev. C. B. Reed. With portion of her body under the car was impossible to restore respiration. In the party, besides the deceased were Rev. YOUR NEWSPAPER

The Hesperian doubtless lacks something of being as good a newspaper as you think Floydada and the great country surrounding it is entitled to have.

One way you can help to make it a better newspaper, without trouble to yourself is to let us have the news. If you have visitors, tell us. If you know of a development story, tell us. If you are leaving on a vacation, let us send you the paper while you're gone and incidentally tell your neighbors about your goings.

CARING FOR THE HELPLESS

The Hesperian is heartily in accord with the demand of the people of the state of Texas for a reduction in taxes and has arrived at the conclusion that there must be a halt in state expenditures to allow business to adjust itself to the higher plane of taxes already imposed. However, we won't attempt to suggest where the halting take place, except possibly to say that Texas might await a more seasoned trial of some of the innovations introduced over the country until we see how they work out, meanwhile not neglecting some of the basic duties the law owes to its unfortunates.

We have in mind particularly the unfortunates all over Texas who are held in the jails of various counties to await room in asylums where they can get the treatment to which humanity entitles them. Just recently Floyd County sent a man to an asylum who had been in Floydada practically a year and lived long and usefully in it. She had raised a good family. Physical infirmity caused her to be unbalanced, an unfortunate condition that may come home to any one's time. And yet, while Texas was howling for expenditure of the state money a thousand different ways, this good woman sat in jail under guard, victim of circumstances and ward of the state just the same. As humane as treatment locally could be, no opportunity could be provided for her recovery from the malady and her ultimate return as a useful member to her household.

Texas must care for its unfortunates. Surely, the other things we think we must have can wait for that.

THE ROAD HOG

The road hog, so known because he tries to root other automobiles off the best part of the road whether or not he has right of way, is decreasing in number although the number of automobile owners is growing daily in this country.

But the few remaining hogs are full of gall as ever. Taking advantage of one of the cardinal attributes of human nature—the avoidance of danger and the protection of one's self and one's property, the road hog crowds over and throws on the power. Occasionally such a one gets stopped but ninety-nine times out of a hundred the other driver takes the ditch and turns the road over to him, being red the while.

RAH FOR SAND HILL

Sand Hill Community and the progressive citizens which compose it are entitled to words of commendation for their enterprising preparations to give a community fair to which in-

identally they are inviting their neighboring communities not only to attend but to exhibit as well.

We venture the assertion that Sand Hill will have assembled an exhibition of the products of the orchard, garden, field and home that will be a liberal education for the citizens who attend; and the resident of the county who can attend and does not will be poorer for not having done so.

Congratulations to Sand Hill in advance of their show.

TYPEWRITING IN SCHOOL

Typewriting as a study that will be of value in everyday life after school days are over and forgotten (partially at least a few years since would have been thought of as heresy. Today it is accepted as the proper thing, and quite properly, we think.

In every branch of life's endeavor the typewriter is growing more and more in evidence as a time-saver and a simplifier of business transactions. Hence, its use may be compared to the study of arithmetic, which is also studied in school that the boy or girl may make the calculations they'll need to make in after life, with ease.

Admitting that some of the lads and lassies will take typewriting to keep from taking solid geometry, or some such, its practical value in later life will surpass the practical value of some of the other studies which will be pursued in high school.

Hence, we find ourselves in hearty accord with the idea of the teaching of typewriting in the schools of Floydada.

CUT THE MEXICAN FIRE WEED BEFORE IT TAKES THE TOWN

Randall County News: A warning has been sounded by those who know something of the Mexican Fire Bush that has gotten a start in Canyon. The weed must be destroyed, or it will soon take the town and surrounding country.

It is stated by those who have seen the bush grow, that it is next to impossible to kill it out once it gets a foothold in a community. The bush has millions of seeds. It is more prolific than the thistle and much harder to kill.

All citizens are called upon to kill the weed before time for frost, as the seeds rapidly scatter after that time.

Center News

Center Sept. 30.—We are having weather to make one want a stove up and a fire in it early these mornings.

Bro. Hull came for his Saturday and Sunday appointment and accepted the church for this year.

Mr. Golightly and family entertained quite a crowd Sunday. Among those who were there were Mr. Noland and family, O. H. Johnston and family, some of the King family, and perhaps others.

W. B. Jordan and family took Sunday dinner with G. C. Tubbs and family, of Floydada.

W. H. Henderson, of Burkburnett, came in Saturday after his father, J. B. Henderson, who spent the past month here with his daughters, Mesdames G. C. Tubbs and W. B. Jordan. They are to leave today for home.

Quite a large crowd was out to help head maize for Mitt Bullard last Wednesday. He has a large crop and they didn't lack much finishing the job.

Silas Foster spent Friday night with Mrs. A. C. Jackson and family.

Mrs. Belden received the sad news last Sunday of the death of her sister-in-law in Kansas. The news came too late for Mrs. Belden to reach there in time for the funeral.

W. B. Jordan attended the Tri-State Fair at Amarillo last week.

Two Green and White Exes Make Buffaloes

Two exes of Floydada High School, one a star lineman and the other in the backfield of the '23 and '24 teams of the green and white, have made the Buffalo Squad, first team of the West Texas State Teachers' College.

They are Leroy McDonald, son of Mr. and Mrs. L. C. McDonald, and Maurice Burke, son of Mr. and Mrs. W. J. Burke. The latter went out for end but was soon transferred to the quarter position. He is the most brilliant player, perhaps, that F. H. S. has produced.

With the opening of school last week they were put under the personal supervision and instruction of Eckhardt, the famous Texas player of the '24 team, along with the rest of the squad.

THE DALLAS NEWS WILL MAKE BARGAIN DAY RATES

We are in receipt of a letter from The Dallas News, stating that reduced mail subscription rates will be announced not later than Dec. 1. This will be the first offer of this kind to be made by The Dallas News. This is no doubt good news to many newspaper readers who buy their daily newspaper by the year.

Tom Collum Resigns With Local Band

Tom Collum, for the past several months director of the Floydada Concert band, has resigned as director of the band here and this week is moving with his wife and son to Lockney, where he will direct the band, and teach music.

A statement given out by Mr. Collum assigns as his reason for the change the failure of Floydada people to properly support the band here. Mr. Collum has been dividing his time between the Lockney and Floydada organization the past two or three months.

BIRTHDAY PARTY

Recently Mrs. S. W. Meharg of Plainview entertained with a party from 4 to 6 o'clock in honor of the sixth birthday of her little niece, Mildred Houston. After playing many games the children cut the birthday cake and were served ice cream cones. The honoree received a number of beautiful little gifts.

Little Mildred Houston is the daughter of C. R. Houston of Floydada.

Lubbock Fair Boosters Get Cordial Welcome

Boosters for the Panhandle and South Plains Fair, who visited Floydada Thursday afternoon last on a long day's run telling of the wonders they would have to show the world during their fair, got a cordial reception in Floydada. It was noisy, too, made so as much by the visitors themselves as otherwise.

The Lubbock band dispensed music for the occasion, and the visitors, more than a hundred in number, were welcomed to Floydada by Judge E. C. Nelson, Jr., on behalf of the citizenship in a brief address. In the course of his address Judge Nelson declared that West Texas has just begun to grow, that its history still lies in the future. He declared that the next 5 years will see a greater degree of development in this section than has the past 15. Praising the hospitality of West Texans, commending very highly the efforts of the Lubbockites in backing the South Plains Fair, he expressed the hope that the visitors would enjoy their stay in Floydada as much as did the residents of this city.

Responding in behalf of the boosters, M. M. Dupre, superintendent of the Lubbock Public Schools, extended a cordial invitation to every man, woman and child in Floyd County to attend the fair on the 1st, 2nd, 3rd and 4th of October. The world is looking to the south plains for its cotton, we must have a farmer on every 160 acres of land, and to this end must cooperate to develop the country. That the South Plains Fair offered a big opportunity to increase development in this section, he stressed as a vital reason for its moral support by every interest of the South Plain.

The caravan was headed by Louie F. Moore, president of the Lubbock Junior Chamber of Commerce and A. B. Davis, secretary of the Fair Association. Souvenirs for the kids were dispensed very plentifully as were advertising materials for the fair. The itinerary for the day was one of the longest ever attempted by an automobile trade trip in a day in this section. Plainview, Lockney, Floydada, Petersburg and Estacado all were visited on the last leg of the day's trip, the first half day having led northwestward from Lubbock as far as Mule Shoe, thence eastward by Olton.

CARD OF THANKS

Upon our return from Corpus Christi, where we buried our wife and mother, we feel so deeply grateful to the friends and neighbors we have found in Floydada for their many kindnesses during her illness, that we wish as best we can to express this appreciation through The Hesperian.

"Pep" Keynote of High School Publication

The first issue of the "Tatler", Vol. IV, came out last Friday just before the football game between Plainview and Floydada was played on the home field. With "pep" as the keynote of the little publication, no better moral support could have been given to spur on the efforts of the young football heroes when they were just about to go out to the first battle of the year.

But this "pep" stuff is not exclusively for the use of the football men or other sports alone—it can be used with great advantage all over the school, and the same kind of stuff can be applied quite successfully to getting one's lessons done thoroughly just about all the time. We love the youthful exuberance and fresh enthusiasm that characterizes every page of "The Tatler". We are strong for this paper.

Under the direction of its editor-in-chief, Tom Bishop, we may expect "The Tatler" to reach literary heights hitherto unknown in the life of the publication.

DICKENS-McADOO HIGHWAY TO BE HARD-SURFACED

Bids are being advertised for and will be received by County Judge Brummett up to October 21st for the grading, hauling and hard-surfacing of the highways from Dickens west up on the plains through the McAdoo country and on to the west line of Dickens county.

County Engineer J. W. Alger, who has been here surveying and superintending road work for the state highway department during the past year, has just completed the survey of this road and made an estimate of the cost of building the road and also the construction of a bridge over Duck Creek where the highway crosses.

Gravel will be used for hard-surfacing under the Cap Rock, while on the Plains to the county line, the white chalk or lime rock found in Blanco Canyon will be used for hard surfacing.

Mr. Alger estimates that approximately seventy-five thousand dollars will be spent by the highway department in this road improvement and bridge construction.

The state highway department is now maintaining the state designated highways throughout Dickens County, and will spend several hundred thousand dollars in maintenance, improvement and extensions of the highways. Dickens was the first county in West Texas to hard surface roadways and adopt a system of main highways and secondary roadways throughout the county. The Highway Department, in talking over the highways, will make

Dickens county a model of good roads construction and maintenance.—The Texas Spur.

HER MAMMA'S PHOTOGRAPH

"Please, can't I have mamma's photograph first, before they put me to sleep?"

Never a cry nor a whimper had the fair haired child made since a heavy truck wheel had crushed her little body. She had been playing in the street in front of her home. She was eight years old. Her mamma had died in giving her birth, and Annie knew her face was in her photograph.

The doctor saw that there was only a slim chance of saving her. There was quick, desperate work with the knife. Through hours under the anesthetic the little hand never relaxed its hold on the photograph.

When Annie came to herself she gossiped cheerily with the nurse about her mamma, hugging the photograph, as if it were a human thing, to her heart. Not a word of complaint came from the steadily whitening lips. The little girl was in a happy world of her own—her's and her mamma's. So little can make the sorrows of the world sink away, ashamed, before a radiant hope!

This is no "made-up" story. It happened just as related. And when Annie's little hand stiffened in death it still held the photograph which went to the grave with her.

It was a little thing—that mamma's photograph, finger-marked by much

tender fondling. But it was enough to create hope that filled Annie's soul with joy ineffable, to rout pain and fear, to cheat death of its terrors—enough to turn the stone head-rest of anguish into a downy pillow of peace. Yes it was enough. It was the door through which Annie, smiling, stepped into heaven, where she found her mamma, no doubt.

Approximately 25 per cent of the wool clip this year will be graded on the basis of the United States official grades for wool, the United States Department of Agriculture estimates. The grades are being used by prominent wool dealers in Chicago, St. Louis, Philadelphia, and Boston and by the Southwestern Farm Bureau Wool and Mohair Association, the Virginia Wool Growers' Association, the Pacific Wool Growers' Association, members of the National Association of Wool Manufacturers, the National Wool Warehouse, and other licensed warehouses.

More than \$1,000,000 each year is realized annually from fragments of school lands which have escaped sale in the Chicago school district. This amount is paid in lease rental by owners of the Tribune Building, the Majestic Theatre Building, the Rand McNally Building, the Crilly Building, the North American Building, and others.

The first bathtub in America was exhibited by Adam Thompson at Cincinnati in 1842. It was supplied with water from a tank in the attic and was strongly denounced as injurious to health.

DRIVE ON THE RIGHT SIDE—WALK ON THE LEFT

"Somebody tells me that in walking on public roads I should walk on the left side. Is that correct?"

It is. On this point Mr. H. K. Witherspoon, of the North Carolina Highway Commission, says: "It is against the law for pedestrians to walk on the right side of state highways. The reason for this regulation are obvious. No traffic will be moving in their direction road, since motor vehicles keep to the right. On the left side of the road they will be facing the vehicle that is on that side of the road, whereas on the other side of the road they would have their backs to traffic. On the left side of the road there is no danger of being run over.—The Progressive Farmer.

CHAPTER XIII.—After Jack's return the ferment in the colonies increases and a general congress is held in Philadelphia. The Hares return to America.

CHAPTER XIV.—After the battle of Lexington Jack and Binkus enlist under Washington, distinguish themselves in scout duty and are made colonels. Jack is captured by soldiers commanded by Lionel Clarke.

CHAPTER XV.—In the Boston jail Jack finds Binkus also a prisoner. After weeks of suffering they are released when the British evacuate the city.

CHAPTER XVI.—The Declaration of Independence is adopted and signed, Jack being present as aid to John Adams. In fighting against Clinton's forces Jack is badly wounded.

CHAPTER XVII.—Scouting in northern New York, Binkus and Jack rout a band of Indians who are burning a white man.

CHAPTER XVIII.—The scouts rescue the widow and little son of the murdered settler and take them to Oriskany.

CHAPTER XIX.—Jack and Solomon are ordered to report to General Schuyler at Albany, and there witness the first Fourth of July celebration.

CHAPTER XX.—With Herkimer's regiment the scouts run to an ambush and both are wounded.

CHAPTER XXI.—Having recovered from their wounds, Jack and Binkus start for Washington's camp near Philadelphia. On the way Solomon soundly thrashes an officer who criticises the commander in chief because he has suffered severe defeats.

CHAPTER XXII.—The winter in Valley Forge is full of hardships and suffering, but Washington displays his qualities of greatness. In the spring of 1778 the general gives Jack letters to carry to Franklin in France.

CHAPTER XXIII.—Jack joins Franklin in Paris and finds him greatly admired by the French.

CHAPTER XXIV.—At a pageant in honor of Franklin, Jack takes the part of Washington, and Margaret appears as Human Liberty.

CHAPTER XXV.—In Philadelphia Benedict Arnold displays to Jack his dissatisfaction and the latter reports it to Washington, who excuses Arnold.

CHAPTER XXVI.—In April, 1780, Margaret and her mother come to New York. It is the blackest period for the Americans. Arnold is to be in command of West Point and Jack learns he is plotting treachery.

CHAPTER XXVII.—Jack again warns Washington about Arnold and is made the latter's aide with rank of brigadier general. A British ship comes up the river with a flag of truce and the Arnolds plan to get Washington there for the wedding of Jack and Margaret.

CHAPTER XXVIII.—Major Andre is captured with the papers that prove Arnold's treason.

CHAPTER XXIX.—Margaret and her mother come to West Point. Arnold learning of the capture of Andre, flees to the British ship. Binkus is fatally wounded, dying in Washington's arms.

In 1787 Jack writes to his wife Margaret in Albany, telling of his visit to Washington at Mount Vernon and Franklin in Philadelphia.

Soon after sunrise came a solitary horseman, wearied by long travel, with a message from Colonel Jameson to Arnold. A man had been captured near Tarrytown with important documents on his person. He had confessed that he was Adjutant General Andre of Sir Henry Clinton's army. The worst had come to pass. Now treason! disgrace! the gibbet!

Arnold was sitting at breakfast. He arose, put the message in his pocket and went out of the room. The Vulture lay down the river awaiting orders. The traitor walked hurriedly to the boat landing. Solomon was there. It had been his custom when in camp to go down to the landing every morning with his spy glass and survey the river. Only one boatman was at the dock.

"Colonel Binkus, will you help this man to take me down to the British ship?" Arnold asked. "I have an engagement with his commander and am half an hour late."

Solomon had had much curiosity about that ship. He wished to see the man who had gone into the bush and then to Smith's with Arnold.

"Sart'n," Solomon answered.

They got into a small barge with the general in the cushioned rear seat, his flag in hand.

They came up to the Vulture and made fast at its landing stage where an officer waited to receive the general. The latter ascended to the deck. In a moment a voice called from above:

"General Arnold's boatmen may come aboard."

A British warship was a thing of great interest to Solomon. Once aboard he began to look about him at the shining guns and their gear and the tackle and the men. He looked for Arnold, but he was not in sight.

Among the crew, then busy on the deck, Solomon saw the Tory desperado "Slops," one time of the Ohio river country, with his black pipe in his mouth. Slops paused in his hauling and reeving to shake a fist at Solomon. They were heaving the anchor. The sails were running up. The ship had begun to move. What was

the meaning of this? Solomon stepped to the ship's side. The stair had been hove up and made fast. The barge was not to be seen.

"They will put you all ashore below," an officer said to him.

Solomon knew too much about Arnold to like the look of this. The officer went forward. Solomon stepped to the opening in the deck rail, not yet closed, through which he had come aboard. While he was looking down at the water, some ten feet below, a group of sailors came to fill in. His arm was roughly seized. Solomon stepped back. Before him stood the man Slops. An insulting word from the latter, a quick blow from Solomon, and Slops went through the gate out into the air and downward. The scout knew it was no time to tarry.

"A night hawk couldn't dive no quicker ner what I done," were his words to the men who plucked him up. He was speaking of that half second of the twenty-fourth of September, 1780. His brief account of it was carefully put down by an officer: "I struck not twenty feet from Slops, which I seen him jes' comin' up when I took water. This 'ere ol' sloop that had overhauled us goin' down were nigh. Hadn't no more'n come up than I felt Slops's knife rip into my leg. I never had no practice in that 'ere knife work. 'Tain't fer decent folks, but my ol' Dan Skinner is allus on my belt. He'd chose the weapons an' so I fetched 'er out. Had to er die. We fit a minnit thar in the water. All the while he had that d--n black pipe in his mouth. I were hacked up a little, but he got a big leak in him an' all of a sudden he wasn't thar. He'd gone. I struck out with ol' Dan Skinner 'twixt my teeth. Then I see your line and grabbed it. Whar's the British ship now?"

"Way below Stony P'int an' a fair wind in her sails," the skipper answered.

"Bound fer New York," said Solomon sorrowfully. "They'd 'a' took me with 'em if I hadn't 'a' jumped. Put me over to Jasper's dock. I got to see Washington quick."

"Washington has gone up the river."

"Then take me to quarters soon as ye kin. I'll give ye ten pounds, good English gold. My God, boys! My ol' hide is leakin' bad."

He turned to the man who had been washing and blinding his wounds. "Sodder me up best ye kin. I got to last till I see the Father."

Solomon and other men in the old army had often used the word "Father" in speaking of the commander in chief. It served as no other could, to express their affection for him.

The wind was unfavorable and the sloop found it difficult to reach the landing near headquarters. After some delay Solomon jumped overboard and swam ashore.

What follows he could not have told. Washington was standing with his orderly in the little dooryard at headquarters as Solomon came staggering up the slope at a run and threw his body, bleeding from a dozen wounds, at the feet of his beloved chief.

"Oh, my Father!" he cried in a broken voice and with tears streaming down his cheeks. "Arnold has sold Ameriky an' all its folks an' gone down the river."

Washington knelt beside him and felt his bloody garments.

"The colonel is wounded," he said to his orderly. "Go for help."

The scout, weak from the loss of blood, tried to regain his feet but failed. He lay back and whispered: "I guess the sap has all oozed out o' me but I had enough."

Washington was one of those who put him on a stretcher and carried him to the hospital.

When he was lying on his bed and his clothes were being removed, the commander in chief paid him this well deserved compliment as he held his hand:

"Colonel, when the war is won it will be only because I have had men like you to help me."

Soon Jack came to his side and then Margaret. General Washington asked the latter about Mrs. Arnold.

"My mother is doing what she can to comfort her," Margaret answered.

Solomon revived under stimulants and was able to tell them briefly of the dire struggle he had had.

"It were Slops that saved me," he whispered.

He fell into a deep and troubled sleep and when he awoke in the middle of the night he was not strong enough to lift his head. Then these faithful friends of his began to know that this big, brawny, redoubtable soldier was having his last fight. He seemed to be aware of it himself for he whispered to Jack:

"Take keer o' Mirandy an' the Little Cricket."

Late the next day he called for his Great Father. Feebly and brokenly he had managed to say:

"Jes' want—to—feel—his hand."

Margaret had sat beside him all day helping the nurse.

A dozen times Jack had left his work and run over for a look at Solomon. On one of these hurried visits the young man had learned of the wish of his friend. He went immediately to General Washington, who had just returned from a tour of the forts. The latter saw the look of sorrow and anxiety in the face of his officer.

"How is the colonel?" he asked.

"I think that he is near the end," Jack answered. "He has expressed a wish to feel your hand again."

"Let us go to him at once," said the other. "There has been no greater man in the army."

Signals of Service

You've noticed the lines of telephone and electric light poles as you speeded by on trains or in automobiles. These power and communication lines which stretch along the roads, streets, and alleys are the outward signs of the little-seen service you so greatly depend upon to make your home and business what it is today.

Holes alone represent a big investment in your behalf. Placed end to end the holes dug for telephone, electric light, and trolley poles would make a tube reaching to a distant planet.

Then there are the cross arms, the wires, the insulators. Add to these visible signals of every day service the expensive intricate plant equipment that is back of the button (or the receiver) and the total of investment reaches a mighty big figure. Public utility plants in Texas represent a cost of more than five hundred million dollars. Yet the cost to the average family for utility service is but about four per cent of its income. It is insignificant compared with the value received and the investment involved.

Neighbors' Help is Deeply Appreciated

Mitt Bullard, of Center, has been quite ill for sometime and has been forced to neglect the gathering of his crops on that account. Seeing his misfortune the neighbors "framed up" on him and Wednesday of last week left their work and spent the day in his field gathering his feed crop, handling thirty-five tons of maize in the day.

In a statement to The Hesperian Mr. and Mrs. Bullard said: "It is hard to find words to express our gratitude to those who have so faithfully and willingly helped during my illness. We wish to thank all of you who have helped in any way, and especially those who left their own crops and came last Wednesday and headed some of our maize. There were twenty men, ten boys and seventeen wagons. Thirty-five tons of maize were headed besides other work done. We could not be any way but thankful and pleased with the good spirit in which the men came and worked. It makes a person feel that we still have brotherly love and big hearts in our good country."

Those who came for the feed gathering were A. C. Jackson, N. C. Austin, Chas. Wagner, Ira Medley, Ed Bullard, Mc. Bill Beedy, Lewis Bullard, Mr. Lightfoot, Mr. Foster, W. B. Wilson, G. B. Change of Life

"When change of life began on me," says Mrs. Lewis Lisher, of Lamar, Mo., "I suffered so with womanly weakness. I suffered a great deal of pain in my back and sides. My limbs would cramp. I didn't feel like doing my work, and there are so many steps for a woman to take on a farm. I was very anxious to get better. A friend recommended

CARDUI
The Woman's Tonic

to me and I began using it. I certainly improved. I went through change of life without any trouble. I can highly recommend Cardui." At the age of about 40 to 50 every woman has to pass through a critical time, which is called the Change of Life. At this time, great changes take place in her system, causing various painful and disagreeable symptoms. If you are approaching this period, or are already suffering from any of its troubles or symptoms, take Cardui. It should help you, as it has helped others. Sold by all druggists: E-98

Green and White Bests Plainview High Squad

(Continued from page 1).
ing and punting game the visitors lost the ball when it was punted out of bounds at the F. H. S. 40 yard line. Making downs with three successive end runs, the F. H. S. squad lost 11 yards on a fake play, but two end runs and a line buck regained the lost ground and made their downs. Another end run and a line buck put Herschel Green over the line for the second score, and an easily completed short pass completed the extra point. Score, Floydada 14, Plainview 0.

After Floydada kicked to Plainview and the line of scrimmage formed on Plainview's 48 yard line after a return of almost 30 yards, the quarter closed with the visitors in possession of the ball on their 34 yard line.

The fourth quarter was also disastrous to the visitors. In a passing duel F. H. S. had the better of the play. After a line buck from the 34-yard line, Plainview's passer waited a half second too long to have his throw blocked. F. H. S. followed with a 12-yard gain by passing, but in their next offensive lost the ball when a pass was intercepted and Plainview started offensive play from their 30-yard line. F. H. S. penalized 5 yards, offside, only penalty of the game. Bosley intercepted a pass and ran 40 yards for touchdown. F. H. S. passed for the extra point. Score F. H. S. 21, Plainview Hi 0.

P. H. S. kicked to Floydada, Henry returning for 15 yards to the 24-yard line. An end run and two passes failing F. H. S. punted and P. H. S.

returned to the 42 yard line. An end run lost ground, a pass failed, and punt was blocked, F. H. S. ball on Plainview 38-yard line. Failing downs Daily punted out of bounds on P. H. S. 10 yard line. Punt to Floydada's 55-yard line. Two successive efforts at punting by Floydada were blocked, Floydada recovering the first but losing the second for a net loss of the ball and 10 yards. Four trials at passing P. H. S., however, failed and the ball went over in mid-field, and the game closed with Floydada in possession of the ball after an end run and a line buck had netted 8 yards gain to the Plainview 42-yard line. Score F. H. S. 21, Plainview 0.

Edwards of Matador officiated the game, Hillhouse of Plainview was umpire and Moore, Floydada, head line-man.

Both coaches substituted freely. Wester sent in 8 subs. They were E. Carter and Pierce, for Daily and Cates; Lewis and Eubank, half backs, for Abbott and Green; Scott, Williams, Swain and S. Carter lineman.

The game served to give the entire F. H. S. team much needed self-confidence and strengthen them greatly for their second game of the season tomorrow when they are to tackle the heavy Lubbock team, another Class A squad.

Many interested spectators from Floydada witnessed the game between the Oklahoma A. & M. and W. T. S. T. Home Economics New Hi School Department

Subjects in Progress are Cookery, Sewing, Design and Physiology—Laboratories Efficient.

(By Mrs. G. J. Clements).

A new department has been introduced into the Floydada High School this year—that of Home Economics. The work is well under way now and the Home Economics rooms are constantly the scene of girls working away on homemaking activities.

The laboratories are equipped most efficiently and are also very attractive. The guiding rules in planning this equipment were economy, convenience and sanitation. All have been carried out well. The board of trustees has taken a special interest in this work, and the result is, that things have been done as they should be done right from the first.

The subjects in progress now are Foods or Cookery; Clothing or Sewing; Design; and Physiology. Those girls taking foods and Physiology now will take Clothing and Design after Christmas, and vice versa. This constitutes first year work in Vocational Home Economics. The subjects appear on the school program in the order named, each covering two periods.

There are many purposes in Home Economics work, but essentially they may all be summarized as follows: to teach High School girls "home-making"—that is, to teach them to carry on all of the activities in a home successfully. This includes planning for and the preparation and serving of healthful, appetizing, economical meals; choice of sensible, attractive clothing; care and construction of garments; management of the home; home nursing; care of children; etc. All these things can not be covered in one year, but half of it is considered first year work and the other half, second year work.

This year we have many things to work for. First, we are working for two units of affiliation. Second, we are working to build up the already splendid school system here. There are a number of means to these ends, but too many to be discussed here.

One of the foremost is the Texas Clothing Contest next spring. Girls doing the best work have an opportunity, through the contest, to win honors for their school and for themselves. We are already making definite plans for this contest.

These are only a few of our plans for the present year. One of our big plans for next year is that we can provide hot lunches at a minimum cost for the school children. We were unable to start this plan this year, but hope to be able to do so next year.

Praise Given Work of Miss Faulkner Here

Miss Mamie Lee Hayden, District Home Demonstration Agent for District No. 3 (The Panhandle), who has been judging at the various fairs taking place in her district, spent the first part of the week with Miss Mabel Faulkner, Home Demonstration Agent for Floyd County. After inspecting the Home Demonstration work being carried on throughout the county she declared she is very well pleased with what has been accomplished so far. She says that Miss Faulkner is doing splendid in her county work, and that this fact was exemplified when she had occasion to view the quality of dresses on exhibit at the Dress Contest held at Lockney last Saturday, for an exhibit of that kind could not have been held without involving a great deal of hard work and preparation.

On Monday morning she met the women at Providence and organized a Women's Club at that place.

Monday afternoon Miss Hayden went to Lockney to meet the club women there for the expressed purpose of formulating plans to establish hot lunches in the Lockney school. Committees have been appointed to further this work.

The interest and co-operation that has been given everywhere to Miss Faulkner as Home Demonstration Agent for the County is exceedingly gratifying, Miss Hayden asserts.

Demonstration Clubs Preparing for Exhibit

The various Home Demonstration Clubs all over the county are very busy at present getting ready for the Exhibit they are planning to give at Floydada on November 1. Since none of the clubs have been organized much more than two months, it was deemed more advisable not to hold a Fair this year, but to have an exhibit of the best samples of work that each club is doing. In this way it is hoped the public may get a good idea of just what these clubs are trying to do. Club members will also benefit by being able to see what other clubs are doing and by comparing the work of their own club with that of others they can learn and be inspired to do better.

Samples of canned goods, dried fruits, preserves, jellies; samples of different kinds of embroidery; samples of made-over garments and made-over hats, etc., samples of everything that the different clubs are engaged in will be found on exhibit.

Each club will also have on exhibition a complete written report of the various activities of that particular club.

It is hoped that money prizes can be offered to winners in this exhibit.

Boys Suits and Overcoats

THE following improved features adopted in the making of the factory wear—
1—Falling of the coat at bottom and at the sleeve edge. This keeps the lining in place and roughest wear.
2—Taping of all edges in the coat. This assures a straight and smooth edge which never frays.
3—Extra piece of stay on the inside of all pockets and bar-pockets that will withstand every strain.
4—Careful fashioning of the coat long in fabric last. Front and back are properly sized to give real body and substantial finish.
5—Full lining of knickers, with all seams and seam-panels covered—a feature of sanitation and comfort.

How far should quality go?

In Sonny Boy Suits it should go further than the fabric and lining.

Quality is in materials, styling, designing, tailoring and every little detail that makes or mars a perfect suit.

And yet, Sonny Boy Suits cost no more than the ordinary kind.

They all have two pair trousers, full-lined and taped seams.
