15,000 Tourists at Camp Ground This Season

85 Per Cent of This Number Were Legitimate Tourists, Says Strickland in Letter.

Floydada's Free Tourist Park Grounds during the season now drawing to a close has entertained many more tourists than the residents of the city have any idea, according to G. R. Strickland, who has had the grounds in charge during the past six months, the total number of tourists who actually stopped and made use of the grounds being estimated by him at from 12,000 to 15,000 people. During the heavy run of the summer season 200 to 400 people per night camped here and made use of the grounds.

In a statement this week Mr. Strickland says: "I have had charge of the Tourist Park for six months and have kept it the best I could as I saw it, and I wish to say, for the benefit of those who may not know, there have been something like 2,500 cars in the grounds during night time in that period. This is not counting noon hour. I believe 80 per cent of this number have been nice, legitimate tourists, 35 per cent have been harvest hands, and cotton pickers and 15 per cent bums, or what you call camp ground bums. This last class doesn't care for anything, and are not going anywhere—just existing. They are the ones who care less for free accommodation. I have tried to move them on the best I could. 85 per cent of the people have been nice with the grounds also the free accommodations.

"During July and August there were average of 20 cars a night. Since that time there has been from 4 to 20 cars a night. I believe there have been from 12,000 to 15,000 people on the ground during the six months. Some few have stayed over 48 hours and I had to collect the regular fee, 50c, but the most of them moved on when they found they had to pay. These seemed dissatisfied with Floydada. But most of them were satisfied and complimented Floydada's tourist ground. I would figure that they have left a good many dollars in Floydada for gas, oil and car repairs, in fact everything that belongs to a tourist.

"During July and August 90 per cent were really tourists, cut to look at the country and have a good time. They were complimentary of the city, country, and the spirit of the citizens of Floydada, and I believe this worth while.

"I am for the park. Not counting the money the tourists have spent in town, I think it has been a big advertisement for the town and country. It shows a spirit of good citizenship. It shows that we not only want to help ourselves but are willing to help others.

"Of course, there are some bad things, and some people are undesirable, and we always have them, camp ground or no camp ground. I think what money has been spent on the park has been well-spent. I also think that Mr. Brewer is to be thanked for loaning his investment to the Chamber of Commerce and city for the tourist park for many years. He has now built a beautiful filling station on the corner of the tourist park and is now in position to help keep the park a nice place for tourists."

West Texas Must Meet Competition, Says Head of Santa Fe Colonization Bureau

Inducements Offered Must Compare Favorably With Inducements Offered by Other Sections of U.S.

"Floyd County, and the rest of this vast West Texas agricultural empire is not the only undeveloped country in the world that is open to the prospective farmer who is looking for a new location where he can buy land and farm," is the way C. L. Seagraves, General Colonization Agent of the Santa Fe Railway Company with headquarters at Chicago, sizes up the difficulties confronting Chambers of Commerce and other organizations in West Texas who are working for the development of this country through increased emigration to our farming lands yet undeveloped. "If you had all the undeveloped country in the United States your task would be relatively simple. But you are in competition with many other places with possibly equal advantages for the prospector, which makes your task much more difficult and complex."

Mr. Seagraves was in Floydada last week in company with W. E. Goodloe General Freight Agent of the Panhandle and Santa Fe Railway Company, with offices at Amarillo, and Superintendent J. F. Anton of the Slaton Division. While in Floydada, he had a conference with local Chamber

F. H. S. Squad Wins From Ralls Jackrabbits

The Green and White gave evidence of superior team work and better generalship in their last home game of the season Friday afternoon of last week, and, although the Ralls Jackrabbits occasionally flashed a fine brand of football their work was not as finished as was that of the local boys. The score was 27 to 7.

Ralls Hi made its first and only touchdown in the first ten minutes of play. F. H. S. kicked to Ralls, defending the east goal. Failing to penetrate the line in their first plays Ralls kicked to Green on the 20 yard line. F. H. S. made first downs with Green at quarter and next year's first string men in their positions in backfield, Luttrall at center. However, their second offensive was not so successful and after punting scrimmage started on the Ralls 30-yard line Ralls on the offensive. An end run, a tackle brush and a buck, all from the same formation made downs. In the next offensive Ralls followed an end run for a good gain with a buck, and followed with a 15-yard pass to Gee, who ran through a broken field for 42 yards. He followed by kicking goal.

Following Ralls' kick off to the 8-yard line and a return to the 28-yard line by Bosley, the F. H. S. offensive was not strong enough to make ground and punt formation was called. The scrimmage line formed at the Ralls 40-yard line. Ralls again started downfield with its fake formation, from which bucks and end runs were made with equal success, when Coach Wester ran in Henry and Daily at ends, put Green at half with Carter and Abbott at quarter. The Jackrabbits, failing to make downs, punted and F. H. S. recovered on the 1-yard line. Off tackle plays and end runs that gained an average of more than 5 yards carried the ball down-field for F. H. S. to score. After that time, except for a brief period in the last of the first half and the last of the third quarter the visitors were considerably outplayed. The Green and White scored again in the second quarter, the half ending with a score of 12 to 7 in favor of the Green and White.

The Whirlwinds scored again in the third quarter and in the fourth. In their fifth attempt to kick goal from placement they were successful. No serious injury was sustained by any of the team and they are in excellent condition for their tussle today at Canyon, where they take on the high school Eagles.

Jackson, T. C. U. was referee for the game, Cleere, Oklahoma A. & M. umpire; Scott, head lineman.

"Pay Up Week" Opens Monday, December 1st

Retail Merchants' Association Asks Payment or Arrangement in Unique Campaign Week.

"Pay Up Week" in Floydada will begin Monday, December 1st, and between that date and the night of December 6th, members of the Retail Merchants' Association of Floyd County, including practically all of the retail establishments in Floydada and a number in Lockney, hope to have every account on their books settled or arranged for satisfactorily. The association has been conducting an advertising campaign through the press and otherwise for the past several weeks, with the view of getting over the idea that a man's biggest asset in any community is his credit, and that this credit should be protected by careful attention to his accounts and other obligations.

T. P. Guimarin, secretary of the association, points out that this association is not a collecting agency in the primary sense, that the intention of the association of merchants is to protect dealers and their debt-paying customers from that small class of people who are preying on the confidence of the public. It has the further aim of protecting the man who is honest in his efforts to take care of his obligations, but through misfortune or ill chance is unable to make payments as intended. An interlocking system of credits is used, the local association having membership in the Texas Retail Merchants' Association as well as in the national organization having the same object.

Following "Pay Up Week" a re-arrangement and classification of persons having charge accounts in this territory will be made on the association's records.

P. T. ASSOCIATION MEETING TO BE HELD FRIDAY

Mrs. H. S. Sanders, delegate from the Floydada Parent-Teachers' Association will make her report of the state federation meeting at Amarillo to the club in its meet Friday afternoon of this week.

At this meeting also the count will be made in the membership contest, between opposing sides of which Mrs. M. F. Husky and Mrs. E. C. Henry are the respective captains. The membership contest has resulted in a material increase in the number of members and the interest taken in the Parent-Teachers' Association.

The meeting will be held at the high school building beginning at 3 p. m.

9-YEAR OLD HONOREE AT BIRTHDAY PARTY SATURDAY

Mrs. Fred Zimmerman gave a birthday party to her daughter, Helen, last Saturday afternoon in honor of her 9th birthday. At the luncheon served to the guests little crocheted dolls were the favors.

The little honoree received many pretty and appropriate gifts.

The list of guests included Dorothy Snodgrass, Mary Helen Snodgrass, Gwendolyn Snodgrass, Mary Louise Thurman, Katie Lee Thurman, Jack Thurman, Ruth Rutledge, Carrie Belle Carter, Venita Borum, Joyce Grigsby, Helen Grigsby, and Ava Belle Gamble.

of the Ralls Chamber of Commerce; Homer Sheets of Matador, Claud Warren of Matador, Grover Frier of Matador; and O. J. Overstreet, Field Representative of the Texas Cotton Growers Association.

Judge C. L. Glenn of Matador made an enthusiastic highway address urging co-operation upon the part of Floydada and Floyd County with the Lee Highway Association. Judge Glenn called attention to the work that Motley County has done on her two state highways pointing out that with the building of these two first class roads Motley County during the past four years has found it possible to reduce their tax rate instead of raising it. Judge Glenn is on the Board of Directors of the Lee Highway Association. He was introduced by Judge E. C. Nelson, Jr. who reviewed the needs of Lee Highway through Floyd County. Judge Nelson promised that a great deal of work will be put on Highway 28 through Floyd County in the very near future and that every effort is being made to get the highway straightened through the County from the Hale County to the Motley County line. Nelson pointed out briefly the need of good highways not only for commercial purposes but for use in times of war military purposes. The great part that the highways of France played in the recent World War was stressed.

OUR DEBTS

If our debts rise up to plague us they ought to.

December 1st to 6th every man in Floyd County who owes a debt that is due and that he does not pay or make arrangements to secure or pay in the future, ought to be kept awake with the nettle rash.

As a considerable departure from local procedure in past years a "pay up campaign" has been instituted by the Retail Merchants' Association in Floyd County, which has as its object calling to the attention of every customer of these stores the debts which they owe to their dealers.

It is interesting to reflect that in this country of ours we have set apart a day for everybody, helped everybody, legislated for everybody—done something collectively of some kind—for every class of people, except the merchant. Had you ever stopped to think how much is asked of the retail dealer and of how little he has ever asked of anybody else? His ad finances the auditorium stage curtains, his donation makes it possible to build the church, he stands the brunt of the fight to raise a bigger budget for the Chamber of Commerce, his name leads the list in the church budget, etc. His name is first on the tongue when somebody must get under the public load and make things go. And he responds cheerfully about 95 per cent of the time—everything from a petition to close up so his customers can't get in the store to trade with him, to a request that he eat dinner with the ladies of the church instead of with his regular customer across the street who runs a restaurant.

Now, he's asking a special favor. And all that favor is, is that we pay him what we owe him. Isn't that fair?

BURR BURNING WASTEFUL

Floyd County soil will have tons and tons less of potash and other chemical properties necessary to the production of cotton next season than it had this.

We like to speak of Floyd County soil as being one which will not wash nor leach out. We like to think of it as being different from that of other sections of Texas, less favored by the handiwork of the creator. And the comparison is really one of merit. This soil will last longer than the soil of the black land belt, for instance, for one reason because it will not wash.

But Floyd County people are doing a wasteful thing. Some day we'll be shipping in (maybe some decades in the future) in cars or by a cheaper method—airplane, possibly?—what we are now having our gins burn in their furnaces or haul away from their furance doors at a cost of several dollars a day. For the burrs the gins are burning are tremendously rich in potash, and possibly other chemical properties. Certainly burrs furnish considerable humous, needed by all soils, and by the tight Floyd County soil in particular.

Just why we should write about such a thing when we know nobody

will heed or be interested, we can't say. Perhaps it is because every visit to the gins, now the center of interest in the county, or every time we see the white smoke coming out of their stacks, we are reminded of the fact. Anyway, it's so.

A NEW IDEA FROM NEAR EAST RELIEF

The "project method" is now the prize idea of the psychologists who enjoy teaching the teachers of the country how to teach.

The best way to teach anybody anything is, according to this modern pedagogy, to set him to doing it—or at least, set him to doing something that will lead his mind in the direction of what the teacher would like to train him into thinking. The aim is to get a habit started which grips muscles first and mind afterward—so that after a while the learner automatically thinks the thing that the habit suggests.

So it interests us a lot to see how smartly the Near East Relief organization, which has often canvassed our community for help to take care of its big army of Armenia orphans, is this year using this particular leaf out of the psychologists' book. It is running a "project method" all its own, and the scheme is keyed in with splendid shrewdness to the double results desired.

There is, in the first place, to be considered the need that everybody acknowledges for more friendly feeling among the nations of the earth. Some, though, seem to think that the nations can be made friendly just by persuading them to resolve to be friendly. But the Near East Relief is brighter than that. It has struck the big idea that in order to make international neighbors feel better toward one another the right way is to get them to doing some friendly thing in company.

What shall that friendly thing be? Right there, the Near East is as ready on hand as a man with a box of matches in the smoking compartment. It knows just what. There are all its many thousands of orphans that need to be supported; ask then all civilization to come in and contribute to make these fatherless, motherless, countryless Armenian children happy and strong. What could be so fine as that for a "project method"—cultivating unity for the world and at the same time imparting fresh young life to all but extinct nation?

But the Near East pushes its up-to-date psychology even farther than that and applies it still more practically. It has a "project method" not only for the nations but for all sorts and kinds of homes in this country and everywhere. Giving to orphans or others doesn't always thrive on the mere sight of the contribution plate coming around. The contribution plate

is all too apt to start up "inhibitions"—there is another psychological slang word for you. The Near East therefore proposes to substitute a different plate of more pleasant associations—the dinner plate. It has chosen Sunday, December 7, and called it Golden Rule Sunday.

On that Sunday you are to look at your dinner plate and think about the Golden Rule—the Golden Rule, which is approved by all the various kinds of folks in the world, whether they practice it or not. You undoubtedly approve it yourself—but have you ever been this close up against it?

The "project" is that this dinner plate of yours on Golden Rule Sunday is to be made—if you are game for it—just as near as possible like the dinner plate that the orphans of smashed Armenia look at every day. Oh, no, you are not going to starve. Those orphans are not starving; the Near East Relief wouldn't be any "relief" if it starved its children. They have enough, but no extras—no salads or desserts, nor any "best cuts" from a fancy meat shop. And that unadorned food simplicity is what you, and your family are asked to try for just one meal—an "orphans' dinner"—the scant essentials. That's what you are to look at and sample just once—and in the light of the experience try to think how you would like to have the Golden Rule applied if you were the misfortunate charity dependent and the Armenians had all the luxuries.

Oh, well, if you're a hopeless tightwad, you had as well stay out of the game; it isn't for you. But if you are anything of a sport, eat your 7th of December dinner by this plan, just for the fun of seeing how much the "project method" can educate out of your pocket by means of the Golden Rule.

FORD SHIP FIRST FROM DETROIT FOR FOREIGN PORT

Detroit, Mich.—Detroit sent its first ship to a distant foreign port Wednesday afternoon, Nov. 5th, when the Steamer Onondaga of the Ford Motor Company's fleet sailed from the River Rouge plant for Buenos Aires, Argentine, South America. It carried a cargo of manufactured automobile parts, the first of the kind ever exported direct from any Great Lakes port.

The Onondaga left the dock of the Ford plant at 12:30 o'clock, nosed her way down the Rouge to the Detroit river and then headed out into the open water with Montreal, Canada, as the first stop of the voyage to the South American coast.

Departure of the Onodage created something of a furor in the offices of the customs officials here, where clearance papers were issued for the first time to a ship sailing to a foreign port.

Abolish "Blue Monday"

"Blue Monday" gained its name in the days when the family washing was the regular chore for Monday. Everybody had to "turn in" and lend a hand with the work and there was a worn out family when night came. No wonder it was called "blue" Monday. You can abolish this one-a-week nuisance by sending your washing to us. Our service is quick and efficient. Phone 208.

West Must Meet Competition, Says Santa Fe

(Continued from first page) he a man who has plenty and to whom the terms are immaterial? The last question must be answered in the negative. Your prospective citizen is usually a man who is not doing as well as he likes in the country where he is. He is not a man of great means. If he were the chances are he would be well satisfied where he is, and would not be looking over the fence into your country. Your potential citizen is a man who has a little money and is not contented where he is living. Therefore your terms for buying your land must be such that he can meet. The first payment should be nominal. Never should your new man spend all of his cash and capital for the first payment on his land. If he does, nothing is left with which to make improvements and withstand the hardships attending a possible lean year or so which come in every agricultural country, even should he move to your community. The chances are however he will go where he can buy on the terms that are the easiest.

"Not only should the first payment be nominal, but the next payment should be at least two or three years later. This gives the new citizen an opportunity to readjust himself to the new conditions about him, and a chance to make something from the land itself. Nothing but interest should be payable for the first two or three years.

"Of course the price of the land is another factor to consider. Land values over all of West Texas are pretty well in line and are attractive. For that reason your problem is more of terms rather than of valuations.

"West Texas gets most of its immigration from other portions of Texas and from Oklahoma and Arkansas. Some comes from Kansas. For that reason, your advertising should be directed where it will reach the people in these localities."

DOG'S GREAT INTELLIGENCE

Buck, the giant St. Bernard, hero of Jack London's "The Call of the Wild," which will be shown at the Olympic Theatre today, is another almost human canine.

He was raised from a puppy by Producer Hal Roach, who had the sole idea in mind of developing the beautiful creature to be the hero of his production of "The Call of the Wild." Those who have seen the film declare the dog plays his part so naturally and intelligently that no one will doubt but that he knew what was wanted and what he was supposed to do.

"Inert wealth has no power. Wealth in motion is power. And many of the greatest leaders in finance of today are not men of vast wealth, but those who, through their qualities of care, initiative and justice keep large bodies of wealth in useful motion."—Charles G. Dawes.

Health Examination on Your Birthday

Austin, Texas, Nov. 15.—When your liver goes thump-thump on a hill you say: "The old bus has carbon in it—guess Bill had better look her over," but when your heart goes bump-bump as you climb the stairs or your head gets in a whirl you calmly announce that you are getting old and will have to slow down a bit. How much more efficient our bodies would be if we gave them half the attention and consideration we do our automobiles! The remedying of some minor defect will often mean the lengthening of your life just as the adjustment of some simple part will prevent an automobile wreck.

A Stitch in Time
But the wise man of these days does not wait until his car knocks on a hill before he takes it to the repair man. Every five hundred miles or so he has an expert mechanic look it over to see if there are any parts wearing and there is undue strain on the bars and bolts. Your physician should be your personal "garage."

The State Board of Health recommends the complete physical examination of every individual, male or female, at regular intervals—preferably on his or her birthday. The number of birthdays that you have is largely dependent on you and the way you insure yourself a large number of them is to obtain the best medical advice and care.

The best thing about a health examination is that it will tell you if you really are healthy. What a "grand and glorious feeling" it is to have yourself gone over from tip to toe and find that your engine is running on all cylinders. But if your examination reveals that you have some small defect it is better to know the cause and that it can be easily removed.

Health is Money
To take care of yourself is not the mark of a mollycoddle. Our best trained athletes are constantly guarded to see that every organ of their bodies is functioning properly. The prolongation of human life thru preventive medicine is a problem to which sanitarians, physicians, and sociologists are devoting more and

more time. The business of life is an important one and we should conserve our God-given energies. If you are a good "business" man you will demand a reasonable profit on your investment. Health is wealth. Let the doctor take an inventory of your stock on your next birthday.

BEETS THRIVE LATE IN FLOYD COUNTY SOIL

Beets thrive early and late in Floyd County—particularly late. Many in the Floyd County garden which has been furnishing the tables with good beets prepared in the many good ways they can be served this fall.

A sure enough beet was brought to The Hesperian office one day the latter part of last week from the garden of W. H. Finley in this city. It weighed a lot and it was as big as the ordinary pumpkin. Not a stock beet at all but a table beet. Doubtless, it could be duplicated, on at least a smaller scale, in half or more of the gardens of Floyd County.

Another indication of how the people of Floyd County live at home and how they are aided by the wonderful natural resources of the country.

CRAWFORD-BENNETT

Immediately after the ceremony Mr. and Mrs. Crawford left on the midnight train for Dallas, where they will reside.—Lockney Beacon.

HOW DOCTORS TREAT COLDS AND THE FLU

To break up a cold over night or to cut out an attack of gripe, influenza or sore throat, physicians and druggists are now commending Calotabs, the nausealess, stomachic tablet, that is purified from dangerous and sickening effects. Those who have tried it say that it acts like magic, by being more effective and certain than the old-fashioned calomel, heretofore recommended by physicians.

One or two Calotabs at bed time with a swallow of water,—that's all. No salts, no nausea nor the slightest interference with eating, work or pleasures. Next morning your cold has vanished and your system feels refreshed and purified. Calotabs are sold only in original sealed packages, price ten cents for the vest-pocket size; thirty-five cents for the large family package. Recommended and guaranteed by druggists. Your money back if you are not delighted.—adv.

Weak Nervous

"I was weak and nervous and run-down," writes Mrs. Edith Sellers, of 466 N. 21st St., East St. Louis, Ill. "I couldn't sleep nights, I was so restless. I felt tired and not in condition to do my work. I would have such pains in my stomach that I was afraid I would get down in bed. My mother came to see me and suggested that I use

CARDUI
The Woman's Tonic

I felt better after my first bottle. I had a better appetite. It seemed to strengthen and build me up. I am so glad to recommend Cardui for what it did for me. I haven't needed any medicine since I took Cardui, and I am feeling fine."

Nervousness, restlessness, sleeplessness—these symptoms so often are the result of a weak, run-down condition, and may develop more seriously if not treated in time.

If you are nervous and run-down, or suffering from some womanly weakness, take Cardui.

Recipes of Interest During The Holidays

The holiday season will fast be upon us and that means so much more entertaining when the young people are home from school and college. One sometimes gets quite desperate trying to think out something a little nicer and different than the time before, and the suggestions we offer below may be timely and of some real help when the emergency arises. The first recipe for Quick Nut Bread makes lovely sandwiches with a simple butter filling and when served with the rich chocolate, the second recipe, no more delicious or satisfying kind of refreshments could possibly be served, and best of all are very simple to prepare.

The Kiflings, the third recipe, are rich, old-fashioned cookies or cakes that are wonderfully adapted to entertaining. The recipe calls for Vanilla Beans which have not been in stock in the grocery stores in Floydada. The vanilla beans may now be procured from J. A. Awtrey Grocery and Produce Company which has laid in a supply of these beans, thus making it possible to carry out the Kifling Recipe in its entirety.

Quick Nut Bread (For 50 People)
One and one-quarter quarts corn meal, two and one-half quarts graham flour, one and one-quarter quarts pastry flour, two and one-half cups molasses, two and one-half cups of brown sugar, three and one-third tablespoons soda, four teaspoons salt, 11 tablespoons baking powder, two and one-half cups chopped nuts, one and one-half quarts milk (sour).

Mix dry ingredients, add molasses and sour milk, beat well, add nuts, bake in shallow loaves in moderate oven, 45 minutes or till done. This makes about five or six loaves, enough to serve 50 people; to reduce the recipe divide all quantities by the same number, for instance reduce to one-fourth by dividing by 4.

Rich Chocolate
four oz. chocolate, four tablespoons sugar, one-fourth cups hot water, one quart scalded milk, one teaspoon vanilla, whites of three eggs, one pint of cream, one-third cup powdered sugar.

Cook chocolate, sugar and water till like a smooth paste add slowly the milk beat cream till stiff, add stiffly beaten egg whites, add powdered sugar slowly to cream and eggs while beating. Add vanilla, and fold in one

half of the cream mixture to the chocolate, stirring constantly. Serve the remainder on top.

Kiflings
Seven oz. ground almonds (put whole shelled almonds through the meat chopper).

14 oz. butter, scant quart of flour, 2 vanilla beans, 12 oz. powdered sugar.

Cream the butter, add almonds and

make a paste. Then mix in flour, and pat out to one-fourth inch thickness. Cut in moon shapes and bake until a delicate brown. After kiflings have slightly cooled, roll in mixture of powdered sugar and ground vanilla beans, but handle with care so as to break the kiflings which are so delicate.

How to Prepare the Vanilla Beans
Place vanilla beans in pie plate or

pan in oven and heat thoroughly through when juice of bean will begin to ooze out in pan. Remove from oven and when cool and brittle grate finely on nutmeg grater.

Approximately two-thirds of the present forest cut is lost in the processes of conversion and through inefficient use.

Floyd County Men Hear Sapiro's Speech

Several Floyd County men heard Aaron Sapiro, counsel of the largest co-operative commodity marketing association in the country, in his talks at Amarillo Wednesday of last week. In the number of farmers and business men who went from this county to hear Mr. Sapiro were W. C. and W. A. Cates, Will Simpson, J. H. Greer, T. Scott Wilson, J. D. Christian, W. D. Newell, O. F. Battey, of Floydada; Geo. T. Meriwether, A. B. Brown and Albert King, of Lockney.

While in that city J. D. Christian also attended the meeting of the directors of the Texas Wheat Growers Association, of which board he is a member, and he, in company with W. D. Newell and O. F. Battey were guests of the Kiwanis Club of that city, in its weekly luncheon.

"Co-operative marketing is the soundest movement in America today," Mr. Sapiro said in the course of his talk at the municipal auditorium in Amarillo Wednesday night. "Co-operative marketing is here. You will hear lots of complaints about it, there will be many failures, but if we work together, the members keep their heads and help, it will bring them wonderful results."

"The whole system has as its aim to enable the farmer to get enough for his products to enable him to buy a decent standard of living, so his children will stay on the farm, where the best type of American life should be found."

Mr. Sapiro made three talks during the day—one at the West Texas State Teachers' College, one at the Kiwanis Club of Amarillo, and one in the municipal auditorium there. He also met with the directors of the Wheat Growers' Association.

The men from this county returned home Thursday, except Mr. Brown who remained over until Saturday.

THANKSGIVING PRAYER

(By Gertrude Friend Scoggins.)

In the bleak November, years ago,
When a faithful Pilgrim band
Gave thanks to God for blessings
They'd garnered from the land.

Their souls were tried but eager
To wrestle from the sod;
They knew there was a living
For those who worshipped God.

Then Death came to that little band
And flesh bled from the pain;
The cruel redmen wrought their wars,
But yet God sent the grain.

They wrestled on and prayed for strength
To live as freemen might
And God gave, in His mercy,
To those who prayed aright.

They thanked Him for His goodness,
Although their hearts were sore;
And dedicated to His throne
That bleak New England shore.

And I, whose life is full O God,
Of cheer and peace and love—
Teach me to have a thankful heart
For blessings from above.

Quality in Engine

Power! Power to speed over the steepest hills—to pull through the most difficult roads. Endurance that gives dependable, trouble-free performance and long life. Economy—the greatest in any automobile engine.

These are outstanding characteristics of Chevrolet's famous valve-in-head motor.

The Chevrolet power plant includes a modern 3-speed sliding gear transmission with hand lever, Remy electric Starter, generator and ignition, water-pump to insure perfect cooling, and oil pump for efficient lubrication. The fuel is fed by a modern vacuum feed system.

This is the type of construction found on cars far above Chevrolet in price and it's a fair indication of the quality to be found in a Chevrolet car throughout.

**C. of C. Nets 120
New Members in Drive**

(Continued from first page)
istic style made a very forceful talk on the subject "What Our Chamber of Commerce Should Mean to Floydada." Judge Mathews pointed out the many various undertakings which the organization should foster, urging the membership to co-operate in putting them into motion.

Some of the needs of Floydada and Floyd County pointed out by Judge Mathews include, an eastern railway connection out of Floydada, the pavement of at least eight additional blocks in the business section of Floydada, and the obtaining of another State Highway from the Crosby line to the Briscoe line.

Mrs. C. H. Davis gave two delightful readings, one "A Dutchman's Serenade" and the other, "When a Woman Powders Her Nose," by Edgar A. Guest.

The celebrated Bruno Quartette gave two amusing numbers "Aint it A Shame," and a Melody of old time songs, that were well received.

J. L. Henson, Pastor of the Methodist Church pointed out the great part that commercial enterprise has played in the great revolutions that have taken place at various times in the world's history. He also paid his respects to Judge L. G. Mathews who had charged him with an unholy alliance with Jess Woods and W. C. Grigsby regarding the membership drive in progress.

F. M. Butler, President of the Plainview Board of City Development was presented as the First President of the Floydada Chamber of Commerce, and a man whom Floydada has loaned to her sister city, Plainview. He expressed himself as well pleased with the work that the Floydada Chamber of Commerce is doing and urged the membership to continue their splendid spirit of co-operation that makes the work possible. Friendship in business relations was stressed by Mr. Butler, as the most important work that a Chamber of Commerce can foster. "The cultivation of friendly relations between business competitors will mean more in the development and growth of a community than any other one thing. There is no place in modern business for petty jealousies and hates, and nothing will do more to impede the progress of a city commercially than their presence," said Mr. Butler.

John Haney, Mayor of Ralls, was introduced and expressed himself as delighted to meet with the Floydada Chamber of Commerce telling the audience that he has a very kindly feeling for Floydada having lived here some time in the past.

T. Pryse Metcalfe, Secretary of the Motley County Chamber of Commerce and one of the Judges in the Hesperian's Beautiful Homes Contest made a brief address telling the audience that his organization and the people of Motley County stand ready at all times to co-operate to the fullest extent in any undertaking looking to the development of this part of the West.

John Boswell, Secretary of the Plainview Board of City Development and one of the most popular Chamber of Commerce Executives in Texas made a brief talk the main gist of which was "When Do We Eat?" Boswell explained fully to the Chamber of Commerce here how diligently the Floyd County booth was cared for at the Texas State Fair this year, as well as the Hale County exhibit after his arrival there.

W. B. Winters, Secretary of the Ralls Chamber of Commerce, and another of the judges in the Hesperian's Beautiful Homes Contest last summer was another visitor who made a talk. Winters expressed the hope that the local Chamber of Commerce would turn its energy to getting the north and South State Highway from Post to Silvertown, and said the Ralls Chamber of Commerce would do all within its power.

W. F. Taylor, Vice-President of the Ralls Chamber of Commerce seconded Mr. Winters' remarks about the highway and served notice on the local organization that Ralls is doing all within her power to get as much of the business between Ralls and Floydada as they can.

At the close of the speechmaking part of the program an official count of the new members was called for. W. C. Grigsby made the first report bringing in the money with him in a large bag. Grigsby believed that money talks. There was evidence of corruption in the contest when the money turned in by Grigsby was found to contain quite an alloy of iron washers mixed in the silver contribution.

Glad Snodgrass immediately called for a second reading. Grigsby's total new membership list ran fifty-seven members.

Following the report the meeting adjourned to the basement where the feeds were served cafeteria style and everybody got acquainted with everybody else.

The following people from Floydada assisted in the short program with some songs: Mr. and Mrs. Stribling, Prof. Morgan, Price Scott, Mrs. Calvin Steen, Miss Carver, Mrs. E. S. Rander-son, and G. C. Tubbs.
