UN Condemnation Sought

WASHINGTON (AP)—Undeterred by the prospect of a Soviet veto, President Carter will seek United Nations Security Council condemnation of the Soviet Union as part of a series of moves to counter Soviet intervention in Afghanistan, according to administration officials.

Gold Goes Above \$600

LONDON (AP)—Pandemonium struck the world's gold markets today as buyers frightened by the deepening international political crisis drove the price of the precious metal above \$600 an ounce for the first time in history. The dollar fell sharply. The price of gold rocketed to \$649.73 in Hong Kong, then slid back to \$613.26. When the London market opened, bullion traded at a record bid-and-asked price spread of \$615 to \$630.

Chicago Schools Get Funds

CHICAGO (AP)—Chicago bankers and the city and state have agreed to provide millions of dollars to keep the nation's third-largest public school system from closing for lack of money to pay teachers and suppliers, according to reports published today. Under the agreements, major Chicago banks would lend money to the city, and both the city and state would buy notes from the 475,000-student school system, which has been shut out of money-markets since its huge deficits were revealed late last year. The Chicago Tribune reported a tentative agreement had been reached to enable bankers, the city and the state to advance emergency funds to the school system to enable it to meet Friday's \$41.5 million payroll. The Tribune said the bailout could total as much as \$300 million.

Texaco, Mexico Hike Prices

NEW YORK (AP)—Texaco Inc. announced rapidly rising crude oil costs has pushed its wholesale home heating oil prices up 6 cents a gallon, as Mexico declared it was raising the price of its crude 30 percent. Texaco, the nation's third-largest oil company, raised its price to an average of 73 cents a gallon effective Jan. 1 and announced the move Wednesday. The increase was the first since last fall, when Texaco's average wholesale price in its 43-state marketing area was 67 cents a gallon. Texaco spokeswoman Marilyn Povotador said the wholesale price increase probably would be passed on to consumers.

Student Killed In Turkey

ISTANBUL, Turkey (AP)—A shootout between Turkish security guards and a group of youths trying to storm the Soviet Consulate in protest of the Afghan invasion left one high school student killed and two other persons slightly wounded today, police sources said.

NEW CENTENARIAN—Mrs. Eula Bowen celebrated her 100th birthday Wednesday at the home of a daughter, Mrs. Ethel Harrington, 414 30th St. Visitors on her birthday included a son, Jesse Bowen of California, a daughter, Lucille Wise, also of California, and a granddaughter, Grace Mann of Florida. When asked to comment on reaching 100, Mrs. Bowen said, "Tell them I'm 20." She received flowers and cards, including one from President Jimmy Carter. Mrs. Bowen was born in Kansas, but has lived in Snyder 50 years. (SDN Staff Photo by JoAnn Nunley)

'79 Construction Here Tops \$3 Million Mark

A healthy push in December put Snyder's 1979 building figures over the \$3 million mark.

This represented a substantial decrease from the record set in 1978 but it included mostly residential and smaller commercial projects than those of the previous year. The December total a-

mounted to \$339,659, which pushed the total for the calendar year to \$3,231,897.

The biggest single project of the year was a \$522,000 contract let by Snyder National Bank for expanding its facilities. The permit for this project was issued in January and it resulted in January becoming the biggest month for con-

struction contracts here during 1979, with a total of \$800,126.

High interest rates and availability of mortgage money affected residential construction during the year. September was the lightest month for building during the year, with a total of only \$85,400, but the strong finish in December, which was the fifth month of the year for building figures to exceed \$300,000, was encouraging.

The all-time record for construction in Snyder was set in 1978 when permits totalled \$8,794,049. The 1979 figures by months:

January	\$800,126
February	190,700
March	266,900
April	315,112
May	99,500
June	197,000
July	193,500
August	319,948
September	85,400
October	323,780
November	100,272
December	339,659

Says Volcker...

Sticking With Tight Credit

WASHINGTON (AP)—Recent declines in some key interest rates should not be viewed as a sign the Federal Reserve Board is loosening its tight credit policy, says board chairman Paul A. Volcker.

"Will the Fed stick with it?" Volcker asked rhetorically of the policy. "My own short and simple answer to that question is 'yes.' And I do not intend to qualify that answer." He added in a speech Wednesday that the policy is "an absolute prerequisite to dealing with the inflation that has ravaged the dollar, undermined our economic performance and prospects and disturbed our society itself."

"But even with steadfast devotion to a tight money policy, Volcker said there will be some fluctuations in interest rates."

A few hours after his remarks, Bankers Trust Co. of New York, the nation's eighth-largest bank, lowered its prime interest rate from 15 1/4 percent to 15 percent. Citibank, the second-largest commercial bank in the country, and ninth-ranked First National Bank of Chicago, lowered their rates to 15 percent Dec. 14.

The prime rate—the interest banks charge their most credit-worthy business customers—rose dramatically in the wake of central bank action on Oct. 6 to get tighter control of the nation's money supply. Rapid growth of money and credit are believed to be inflationary.

The prime rate hit a record 15.75 percent in mid-November. Some slowing in the economy in the final quarter of 1979 has helped push it down somewhat since then.

Volcker also told his audience at the National Press Club Wednesday that the Carter administration and Congress need to watch for "the right time" to reduce taxes. "I hope we resist temptations that could arise simply to pump fresh purchasing power into the economy at the first sign of a recession," Volcker said.

The rare public appearance by Volcker, who took over last August as chairman of the Federal Reserve Board, came at a time business conditions seem to be deteriorating.

Many economists are predicting the nation's economy will slide into a recession early this year, with unemployment rising by some 2 million people by election day in November.

Palmer EMS Gets Permit

Palmer EMS, the ambulance operation servicing Snyder and Scurry County, has received its emergency medical service licensing permit from the Texas Department of Health. The permit was granted the ambulance service Monday.

"We're real glad to get it," said Kerrie Palmer, owner and operator of the ambulance service. "We had to be up to par."

The granting of the permit is based on the stocking and maintaining of certain medical supplies and equipment that the state requires in ambulance operations.

Carter Seeking SALT Delay

WASHINGTON (AP)—President Carter has asked Senate Majority Leader Robert C. Byrd to delay Senate floor consideration of the SALT II treaty because of the Soviet military moves into Afghanistan, press secretary Jody Powell announced today.

"While the president continues to believe that ratification is in the national security interests of the United States, he has concluded that the Soviet invasion of Afghanistan in defiance of the U.N. Charter has made a consideration of the SALT II treaty inappropriate at this time," Powell told reporters.

He said the delay in consideration of the strategic arms limitation treaty would continue while Carter and Congress assess Soviet intentions and devote their attention to legislative and other measures to respond to the Soviet actions. He did not elaborate.

In a letter to Byrd, D-W. Va., said he was not withdrawing the treaty from Senate consideration, but only for a delay in consideration. The president wrote Byrd that the treaty "should be taken up by the Senate as soon as these more urgent issues have been

addressed." In an action announced Wednesday, Carter recalled U.S. Ambassador Thomas Watson from Moscow to take part in the administration's high-level policy review.

Officials said earlier that Carter also would seek condemnation of the Soviet Union by the United Nations Security Council as part of the series of moves to counter the Soviet action in Afghanistan.

Russian Invaders Crush Resistance

By The Associated Press Soviet invaders were reported to have crushed resistance and occupied Afghanistan's southern provincial capital of Kandahar and the eastern city of Jalalabad today as America and its allies prepared to seek U.N. Security Council condemnation of the Russian sweep into the Central Asian nation.

In Moscow, the official Soviet news agency Tass accused Carter of making "bellicose and wicked" statements and of distorting the "essence and meaning" of the Soviet military intervention.

Sporadic gunfire was heard in Kabul Tuesday, but the city was reported quiet Wednesday and today.

Associated Press correspondent Steven Hurst, reporting from Kabul today, said the Afghan capital was quiet overnight and that the only signs of the Soviet presence he saw in the city were a few helicopters flying overhead and three Russian tanks grinding through the streets before dawn.

Travelers from Kandahar, 270 miles southwest of the Afghan capital of Kabul and 50 miles from the border with Pakistan's Baluchistan province, told the Pakistani newspaper Jasarat the Soviets occupied Kandahar City Wednesday after two days of clashes with Afghan government forces opposed to the Russians.

They said the Soviets poured into Kandahar City Monday after landing in Soviet military aircraft. They said for the next two days the Russians battled rebellious Afghan government troops, and that when they routed them pro-Soviet Afghan forces hung garlands of flowers

around the invaders' necks.

The newspaper also said the Soviets took control of Jalalabad City Sunday. However, diplomats in Kabul said Soviet troops were airlifted Monday to Jalalabad, in eastern Afghanistan about 50 miles from the border and Pakistan's Kyber Pass, to fight Moslem rebels who have been battling the communist Afghan government since the first of three pro-Soviet coups 20 months ago.

Man Wounded By Gunshot

G.L. Snyder was picked up by Palmer EMS and taken to Cogdell Memorial Hospital and later transferred to Health Science Center in Lubbock, for treatment of a gunshot wound, police reported.

Officers said Snyder, 49, was handling a gun when the weapon discharged, the bullet entering the left side of the head. Snyder, officers said, was alone at the time of the incident.

He was picked up about 3:55 p.m. at 305 23rd St. Officers said the weapon was a .22-caliber rifle.

In other reports, police investigated a minor two-car accident in the 2700 block of Ave. L.

Involved in it were a parked 1976 Mercury owned by Betty Wiseman and a 1973 Ford driven by Patricia Delarosa. It was reported at 8:25 a.m. and worked by Don Cheek. At 10:20 a.m. this morning Officer Kerry Fritz investigated a minor two-car accident in the 2400 block of College Ave. Involved were a 1978 Chrysler driven by Melanie Korngay of 3102 42nd and a 1977 AMC driven by Jamie Delao of Rt. 3.

Ask Us

Q—Are there any exceptions to the rule on a child starting to school if he is not five years old by Sept. 1, for example a child whose birthday is on Sept. 4 and has been in nursery school two years and his parents feel that he is ready to start kindergarten?

A—The rule for five-year-olds is set by the state and Snyder Public Schools have no policy for admitting under-age pupils, except those who qualify for the Early Childhood Development program which is designed to help those who have handicapping conditions.

Mob Causes Waldheim To Abandon Cemetery

TEHRAN, Iran (AP)—An angry mob of fist-waving Iranians sent U.N. Secretary-General Kurt Waldheim fleeing in his limousine from a cemetery of Tehran's outskirts today just minutes after he arrived to lay a wreath at the graves of revolutionary dead.

In the city, Afghan protesters tried to storm the Soviet Embassy for the second time this week, and tens of thousands of Iranians gathered outside the occupied U.S. Embassy to protest the Waldheim visit in one of the biggest such demonstrations in recent weeks.

About 500 persons, believed to include relatives of those buried at the sprawling Behest Zafra Cemetery, converged on

the car carrying Waldheim to the cemetery from a pad where his helicopter touched down.

Waldheim, in Iran in an effort to defuse the crisis over the U.S. Embassy hostage-holding, was on the ground for only six minutes and never left the car. As the chanting crowd encircled his car, he ordered the driver to return to the helicopter.

"Go! Go!" Waldheim could be seen shouting excitedly to his driver.

Once aboard the helicopter, the craft lifted off immediately, flying Waldheim back to the city, where he met with Foreign Minister Sadegh Ghotbzadeh for about three hours. Asked how the talks on the American

hostages were going, Waldheim said: "The talks are continuing and it would not be helpful for me to elaborate at this point."

Waldheim later met with several hundred crippled Iranians said to have been brutalized under the regime of the ousted Shah Mohammad Reza Pahlavi. He said he was "shocked" by the encounter.

The visit with the disabled had been canceled Wednesday when anti-Waldheim street demonstrations broke out and the government said it had uncovered an assassination plot against Waldheim. Ghotbzadeh claimed the plot had "foreign backing."

The SDN Column

Now that we are into 1980, which promises to be a big political year in the United States, the outlook has changed considerably from the situation that existed two months ago.

World conditions continue to influence our political pulse. As late as October, the pollsters were distributing figures indicating that Ted Kennedy was on the way to an easy victory in the race for the Democratic Party nomination for president. That was the picture despite a well-publicized statement by President Jimmy Carter to the effect that he would give Kennedy a sound whack across the posterior when voting time at the national convention rolled around.

The flare-up in the U.S. Embassy in Tehran, Iran, which resulted in more than four dozen persons being taken hostage, sparked a quick turnaround. Suddenly, Carter was in the limelight with the nation closing ranks behind him as he set out to deal with the problem. Meanwhile, Kennedy was putting his foot in his mouth as he grabbed a microphone and, after some characteristic sputtering, assailed the exiled shah of Iran and all but took up the cause of the Iranian students holding the hostages.

★ ★ ★

But these events are in the past as the New Year begins. In another two months, there could be changes as radical as these and nobody knows yet who would benefit from them.

One more advantage that may accrue to the Carter cause from the Iranian situation is the opportunity to wiggle out of a debate with Ted Kennedy and Jerry Brown of California, both of whom aspire to the president's office. It has been our observation over the years that so-called debates seldom provide information to the people that is not already available in large doses from various other sources.

Also, if they benefit anyone at all, it is the underdog in the race. We had this pointed out to us many years ago when there were from time to time debates on religious issues down there in East Texas. An old timer, asked to comment on such activities said, "Son, when you see a fellow who wants to debate religion or theology, you can mark it down that he is unsure of his ground and is groping for confirmation of his beliefs." As the years passed, we came to regard political debates in the same light. The challenger has the most to gain and the one who has it all to lose.

industrial ineptitude

With supplies of steel so critical, it came as surprising news that U.S. Steel, the nation's biggest supplier, is planning to close down 15 of its plants around the country.

That means 13,000 people will lose their jobs. Some will be assisted in finding other occupations but others will wind up on relief rolls. The retrenchment program means that the production of the giant firm will be reduced by about five per cent.

There is more bad news. Unless some of its major installations execute a turn-around, company spokesmen say, they face the threat of having their fires banked, too. Let it be written that U.S. Steel isn't the only steel manufacturer which has fallen upon hard times. The industry as a whole has been going downhill for some time now.

We hear the usual reasons cited for all this. The brunt of the blame is laid to increasing imports of steel. We should, however, have learned by now to treat these reasons as alibis.

The truth is that the steel and many other industries have contributed toward bringing hard times upon themselves. We are no longer competitive around the world in products in which we used to clearly dominate. The steel industry is a laboratory example of why this is so.

Our domestic steel industry lags years and years behind the industries in Japan and Germany in plant modernization. Other nations have been more realistic about their problems and are shooting ahead of us. While those nation's steel industries have been plowing huge sums into research and development, and building ever more efficient facilities, our own has concentrated instead on keeping current profit levels growing. That short-sightedness - the playing for short-term profits and ignoring long-term goals - is a major culprit.

Government regulations applied to the industry, and our tax system which fails to encourage the building of capital for investment in modernization and new plants, must also share the blame.

returning to style

Uganda continues the struggle to return to normality after the overthrow of Idi Amin.

Rescinding one of the puritan laws for which the ex-dictator was almost as noted as his cruelty, parliament has made wigs, miniskirts and split skirts again legal attire.

If the gesture doesn't do anything for the country's limping economic activity, it should at least liven up the social variety.

my turn

by john long

This is positively the last of the dog columns I am writing.

I have said it before, last week being the most recent time, I know? But this time I really mean it. This will be the fourth week I have written about the loyalty of a little dog abandoned by the side of the road. After this, no more.

I have located the little dog that started the whole thing.

The story began about a month ago when two large pups were abandoned by the side of the road. One of the dogs was run over and killed, but his faithful friend would not leave his side.

Eventually, however, he had to. Passersby took the body of the dead dog and dumped it in a roadside trash barrel. His faithful friend followed him even there.

The original sighting was made by B. J. Price. I have been able to follow the dogs, through subsequent sightings, up to the faithful dog standing vigil beside the trash barrel - apparently the same trash barrel that contained the body of his dead friend.

The dog has now been adopted by the Joe-Don Williamsons who live east of Snyder. It has a name now, too.

Her name is Mischief, said Tracey Williamson, "because she gets into everything."

Mischief is a female German Shepherd, rescued from the side of the road by Tracey's brother-in-law. The dog is currently residing with the Jimmy Williamsons of Hermleigh, and will move back to the Joe-Don Williamsons when the latter set of Williamsons get their new trailer house

set up. That should be in about two or three weeks, said Tracey. "She's real friendly. She gets into everything," said Tracey. "She was real scared when we first got her, but she's real friendly now." They have had the dog about two or three weeks, she added.

STEIN 79 ROCKY MTN NEWS NEA

at wits end

by erma bombeck

What have your pantyhose done for you today? Mine have provided me with cool comfort, up-front confidence and natural air flow. They have controlled my tummy, supported my thighs, firmed my hips, reinforced my toe, massaged my legs, and allowed me to be me.

Then how come I feel like I inhale, my knees will be caught in a vise?

Pantyhose are going into their third decade on the American scene and they are still shrouded in mystery. Has anyone ever figured out whether or not pantyhose are coming up or going by holding them up? The feet give you no clue. They look like a toothless pout. All the while you are slipping them over your feet, you look for a telltale heel or toe or dart, but there is nothing. It's only after you have them on for a few hours that they take form - usually with a heel over your ankle and a flap of toe just under your heel.

After 20 years women of America still don't know what letter of the alphabet they are. I have seen some of them - become quite light-headed at the pantyhose carousel as it spins around, trying to figure out if they are slight built, average, or a moose. Some of the best fiction being written today is in the instruction-pamphlet that accompanies each pair of pantyhose on how to put them on. Listen to this, and I'm quoting: "Leave 1 1/2 inches of excess of tip of toes when slipping on your hose. (If I had an inch and a half left over, I'd announce it in the New York Times.)"

"Stand. (Are they serious?) Pull hose evenly up to mid-thigh and position the notch and waistband. Make sure the fabric is stretched to its full length. (Oh, sure, when

Redford calls, I'll put him on hold too.) "If pantyhose feel too tight, please try a larger size." (They're out of them. They sold the last pair to slipcover New Jersey.)

When will they show a woman clutching the waistband resting on her hips while she leaps across the room trying to take up the slack?

I saw a little old lady just the other day who was trying to sit down. Her body was rigid, her knees were barely bent as she slid carefully onto the chair. She shook her head and explained, "I think the memory yarn in my pantyhose is getting senile."

letter to editor

To The Daily News:

According to the fossil remains, the lowly prairie dog preceded man by many thousand years. This mammal is the first species to live in a colony of communal bases. When the world communism is mentioned, many people think of it as a new-fangled government. The Hebrews were the first people to practice a form of communism. During the middle ages, some sects, notably the Waldensians and the Albigensians also lived communistically. Christian monasteries were organized along communistic lines. During the 19th century, several communistic communities were established in the United States by the Amana Society, Doukhobors, Harmonists, Menonites, Mormons, Perfectionists and Shakers. These all were religious sects.

Communism today is an anti-religious doctrine. Now, it is obvious that the

do-gooders can't run a government. The do-gooders in 1933 launched the kite of inflation. The do-gooders brought on the Korean War. The do-gooders launched the Vietnam War. The do-gooders froze the price of oil in 1974. The do-gooder in 1976 could have removed the freeze on oil by his signature. The do-gooder in 1977 to 1980 has done nothing to remove the oil shortage, refused to build the B1 plane, or build battle ships. That plays like an ostrich when danger appears and sticks his head in the sand and waits for the danger to go away, ignore the Russian troops in Cuba, Africa, Afghanistan and keep believing that SALT II will bring Peace on Earth.

Now the prairie dog existence depends on his foresight to spot danger before it gets to his den. Something the do-gooders can't seem to understand.

Chas. S. Hardy RT 3, Snyder

WASHINGTON (NEA) -- "For great wrongdoing," proclaimed the Greek historian Herodotus, "there are great punishments from the gods." But now that mere mortals are in charge of the criminal justice system, no such equities exist.

Nowhere has the disparity between crime and punishment been greater than in the field of "white collar" or corporate crime, a shameful situation documented in a landmark report recently published by the Justice Department's Law Enforcement Assistance Administration.

The LEAA's detailed study, directed by University of Wisconsin sociology professor Marshall B. Clinard, marks the first time that any federal department or agency has examined the especially sensitive area of corporate criminality.

The study of "Illegal Corporate Behavior," involving a detailed analysis of the legal record of the country's 582 largest publicly owned corporations in the mid-1970s, shows that during one brief two-year period more than 60 percent of the corporations were accused of violating a federal law.

The allegations included serious crimes such as fraudulent securities practices, income tax fraud, financial manipulations, advertising misrepresentation, anticompetitive practices, air and water pollution, food and drug law violations and the payment of illegal kickbacks, rebates and bribes.

"Corporate crime costs run into the billions of dollars," the report notes, although precise figures are difficult to obtain. Estimates range from a Senate subcommittee's \$200 billion to the Justice Department's approximation of \$10 billion to \$20 billion.

Regardless of which figure is used, however, the contrast between corporate crime and "street crime" is both striking and disturbing.

The losses incurred by the victims of the more conventional classes of crime are relatively mundane -- approximately \$450 in a typical burglary, \$250 in an armed robbery

and \$150 in a larceny case -- but those convicted of such crimes are routinely sentenced to prison terms of five to 10 years or longer.

"White collar criminals convicted of defrauding, stealing or looting millions of dollars seldom face such harsh penalties. Few members of corporate management ever go to prison, even if convicted," the LEAA report says.

Among those incarcerated, the longest prison terms were six-month sentences imposed on two executives. Three others were sentenced to 60, 45 and 30 days in prison. The average sentence for the remaining 11 executives was exactly nine days.

"Ordinary" criminals invariably lose their jobs after being convicted, but the LEAA study found that 12 of 21 executives convicted of making illegal campaign contributions remained in their original corporate positions a year later, while two others were retained as "consultants." Only seven retired, resigned or were dismissed from their jobs.

The typical penalty against corporations in such cases is a require-

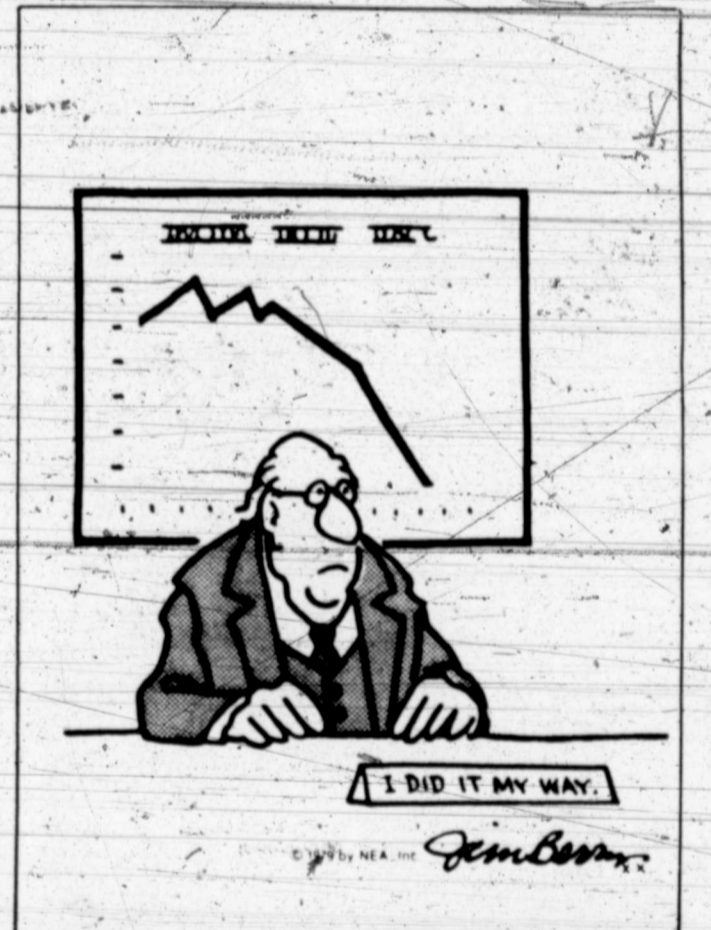

ment that its officers sign a consent agreement, a harmless legal document in which the company promises not to commit the crime in question in the future -- but is not required to admit violating the law in the past.

For those who argue that such lenient punishment is appropriate because white collar criminals do not threaten others with bodily harm or injury, the LEAA study notes that corporate crimes involving unsafe work places and uncontrolled releases of toxic or carcinogenic agents can result in illness, injury and death.

What can be done to establish a more equitable and uniform system of criminal justice? The report suggests a number of remedies, including the use of consumer pressure and publicity as sanctions. But the government's recent actions do not bode well for the future.

None of the publicity that often accompanies the public distribution of LEAA reports -- press releases, newsletter articles and other forms of promotion -- was afforded to the study of a subject that remains a delicate issue to many prosecutors.

debates dominate

NEW YORK (AP) -- With still another red ink, potentially inflationary budget expected by Jan. 28, political critics of the president will be asking what ingredients make up his anti-inflation program.

Existing programs have failed to make much of an impression, judging by an inflation rate that is expected to exceed 13 percent for 1979 and to remain in double digits through most of 1980.

Interest rates too are widely forecast to remain at roughly the rate of inflation, and probably to rise even higher before any sustained correction locks itself into place.

Savings have withered under the heat of inflation, and the official U.S. savings rate is now only 5 percent or so, the lowest for any of the major trading nations. People are burdened with credit payments.

A recession is scheduled, too. And while some economic traditionalists say the pain must be endured before the patient can again enjoy health, workers aren't accepting it. Their take-home pay has been shrinking.

The administration's Pay Advisory Committee has so far failed to agree on a level of pay increase

(acceptable for 1980. If no decision is reached the impact might reverberate. It could, for example, add to the feeling that inflation and other economic matters are beyond the administration's ability to cope with.

Dollar-watchers will continue to offer their opinion of the currency by advising people to get out of paper and into gold, silver, diamonds -- commodities of limited supply and seemingly unlimited demand.

Republic opponents can be expected to hammer away at the rationale of the so-called windfall profits tax, seeking to convince voters that what it is called a tax on oil companies will be paid for by them.

The OPEC defense, blaming the Organization of Petroleum Exporting Companies for domestic inflation, is challenged by economists every day. In debate, it isn't likely to retain much credibility.

There are plenty of economic issues, many of which involve the wallet.

The Carter people won't be without ammunition, being able to point to a high level of job-creation, low unemployment and prosperity.

The trouble for Carter is that many people haven't

perceived his years as good times. While people bought in record amounts, for example, they repeatedly indicated they lacked financial security and confidence.

People have jobs, but the polls suggest that people don't enjoy the security of having jobs. People apparently have had money with which to buy things, but they've been inclined also to emphasize the high price of goods and the depleted condition of their wallets.

At a time of incredible economic extremes, there's no lack of debatable issues.

The debate to date, it seems, is whether there will be a debate.

in which neither side knew whose hand it was. South became declarer in five clubs. West's lead of the heart king won the first trick. If he had switched to a spade at the second trick, declarer would have had no play for his contract and there would be no story.

However, West passively returned a heart, forcing declarer to ruff in dummy. South now led a small diamond from dummy that East won with his king. Declarer made the key play at this trick. When East won his diamond king, South unblocked his nine.

East returned a spade, but declarer was in control. He won the ace and drew trumps in two rounds. It was now open cards for declarer.

South knew that East had started with 4-5-2-2 distribution because of his original opening bid. When South cashed his diamond queen and East dropped the 10, it was a simple matter for declarer to finesse West's marked jack of diamonds and throw his spade loser on dummy's good diamond.

None of this would have been possible if declarer hadn't unblocked the nine of diamonds.

(NEWSPAPER ENTERPRISE ASSN.)

By Oswald Jacoby and Alan Sontag

Tournament players are very fond of conventions. At times these bids can be helpful at arriving at the proper contract.

However, sometimes too much information is given to the opponents.

East's two-diamond opening bid is a popular tournament convention called Flannery, named after the inventor, Bill Flannery of Pittsburgh, Pa. It described an opening bid of 11 to 16 high-card points containing four spades, five hearts and any minor suit distribution.

Soft touch
"Charlie's Angel" Shelley Hack told Beauty Digest magazine how she keeps her hair looking soft and healthy. "My hair's fine so I wash it every day to give it body. If I'm in a place that has hard water, I use a vinegar and water rinse after my shampoo. I use a natural henna treatment for shine and natural conditioners, like eggs and olive oil, so my hair doesn't dry out from constant abuse."

VIEWING CIRCUIT SHOW-Colleen Duke is looking over the paintings hanging in the Scurry County Library. The pictures are winners of the Big Country Texas Fine Arts Association, judged by Mary Hodnett of Arlington. The show was displayed in Abilene during December and will move to Sweetwater Feb. 1. Two Top Cage Teams Upset Wednesday

By The Associated Press
Auburn lost to a great player—North Carolina lost to an improving one. Missouri fell to a fine road team, Canisius was beaten by a very good team and Louisiana State was taken by a surprising one.

It all added up to two Top Ten teams being upset Wednesday, one Top Tenner barely squeaking by and the other two romping to victory as the nation's major college basketball teams got back into action following the New Year's holiday.

Auburn fell to No. 2 Kentucky 67-65 on Kyle Macy's 25-foot shot at the buzzer. Sixth-rated North Carolina was upset 93-76 at Clemson as John "Moose" Campbell had seven dunks, 28 points and seven rebounds. DePaul, No. 73, won its second big game on the road this season with a decisive 92-79 whipping of 12-ranked Missouri. Syracuse stretched its home-court victory skein to 50 games with an 81-49 pasting of Canisius.

But Not This Week, Please...

Injuries May Have Been Beneficial

By The Associated Press
As it turned out, injuries were just what the doctor ordered for the Los Angeles Rams and the Houston Oilers. But neither team wants to go that route again in its conference playoff games on Sunday.

Los Angeles beat the Dallas Cowboys 21-19 last Sunday, in part because of the uncertain status of several players in the Rams' secondary forced them to carry nine defensive backs on the roster. But Pat Thomas, Rod Perry and Dave Elmen-dorf did play and the extra backs were then deployed in a seven-man alignment that plugged up Dallas' shotgun offense.

Without the injuries, the Rams would not have had the flexibility to insert the extra back in the defensive secondary that hampered quarterback Roger Staubach and forced him into four incomplete passes in Dallas' last series.

"Football is a strange game," said Ram defensive coach Bud Carson. "I guess that was the one thing that came out of all those injuries."

It was a unique situation because we had so many people hurt in the secondary. We kept the ones we acquired because they did a real good job on the special teams and we weren't sure about the status of Perry, Elmen-dorf and Thomas."

The Rams don't expect to utilize their special anti-pass formation against the Tampa Bay Buccaneers in the National Football Conference championship in Tampa Sunday. The Bucs, led by running back Ricky Bell, are more run-oriented and do not operate out of the shotgun.

The Rams, however, may have to do a different kind of alignment because of the questionable status of star defensive end Jack Youngblood, who suffered a hairline fracture of his left leg Sunday.

Los Angeles Coach Ray Malavasi said Wednesday he expected Youngblood to play, but a final decision won't be made until later in the week. If Youngblood can't start or play full-time, the Rams plan to use second-year pro Reggie Doss.

The Oilers are still badly bandaged. They managed to upset the San Diego Chargers 17-14 last Saturday without Earl Campbell, the NFL's leading rusher, quarterback Dan Pastorini and receiver Kenny Burroughs.

Recognizing that the offense was in a lower gear, the Houston defense played an inspirational football

Who knows whether the defense would have played as well if the offense wasn't wounded.

But Houston Coach Bum Phillips knows that undermanned teams don't generally beat the defending Super Bowl champion Pittsburgh Steelers, who blasted the Oilers 34-5 in

the American Football Conference championship last year.

"When I die, I want you to put this on my tombstone," Phillips joked Wednesday. "He would have lived a lot longer if he hadn't played the Pittsburgh Steelers six times in two years."

Campbell, who injured his groin against Denver 13 days ago, returned to workouts Wednesday and said he was ready to run. His condition was listed as questionable, as was Burroughs. Pastorini, who also injured his groin in the Denver game, was listed as doubtful.

USC Selected Second...

Tide Voted No. 1

By The Associated Press
Time marches on, but the Alabama Crimson Tide rolls along in the same place—No. 1 in The Associated Press final college football poll for the second year in a row.

Alabama won the national championship following the bowl games last year, beating Southern California in a hotly disputed vote. This year's balloting, also seriously challenged on the West Coast, finished with Alabama No. 1 and Southern Cal again in hot pursuit.

Coach Bear Bryant's Crimson Tide received 45 outright first-place votes to 20 for Southern Cal from a nationwide panel of 67 sports writers and broadcasters Wednesday.

Two voters split their ballot between Alabama and Southern Cal, giving the Crimson Tide 46 first-place votes to 21 for the Trojans.

Oklahoma finished third for the second straight year, followed by Ohio State and Houston.

Alabama began New Year's Day in second place, 1½ points behind top-ranked Ohio State and 8½ points ahead of No. 3 Southern Cal. But the Crimson Tide, the only major college to finish with a perfect 12-0 record, convincingly beat a pesky Arkansas team, 21-9, in the Sugar Bowl.

Then in the Rose Bowl, Southern Cal, which had a tie with Stanford as the only blemish on its record, squeaked by Ohio State 17-16.

In total points, Alabama received 1,317 out of a possible 1,340, while Southern Cal had 1,289. In

contrast to the final regular season poll, when eight voters kept Alabama out of the top three, only two board members had the Tide as low as third this time. It was Alabama's fifth national championship—all under Bryant—since the AP poll began in 1936.

The Tide received all 21 first-place ballots from voters in the South, 2½ of the 12 ballots in the West, seven of eight in the Southwest, nine of 16 in the Midwest and 6½ of 10 in the East.

By The Associated Press
The Top Twenty teams in the final Associated Press college football poll with first-place votes in parentheses.

Rank	Team	Points	First-Place Votes
1	Alabama (46)	13-0	45
2	Southern California (21)	11-0	20
3	Oklahoma	11-1	18
4	Ohio State	11-1	17
5	Houston	11-0	16
6	Florida State	11-1	15
7	Purdue	11-0	14
8	Arkansas	10-2	13
9	Nebraska	10-2	12
10	Purdue	10-2	11
11	Washington	10-2	10
12	Texas	9-3	9
13	Bryant Young	11-0	8

Landry Pro Bowl Coach

NEW YORK (AP)—Tom Landry of the National Conference's Dallas Cowboys and Don Coryell of the American Conference's San Diego Chargers were named head coaches of the NFL's Jan. 27 Pro Bowl Game in Honolulu.

King In Trouble Again

SALT LAKE CITY (AP)—Controversial forward Bernard King was suspended indefinitely by the NBA's Utah Jazz after being arrested and booked into jail for investigation of alleged forcible sexual abuse.

Jazz spokesman Dave Fredman said the 23-year-old King was suspended indefinitely pending further investigation of the alleged charges.

Vilas Wins Aussie Open

MELBOURNE, Australia (AP)—Argentina's Guillermo Vilas overwhelmed John Sadri 7-6, 6-3, 6-2 to win his second straight Australian Open Tennis Championship.

Locals Set For Weekend Play

Snyder basketball teams were scheduled to be out and about today, tonight and the remainder of the weekend as cage action resumes in full after the holiday break.

Freshman and junior varsity girls were to host the three-day Snyder Tournament beginning this morning in Snyder High School Gym. At 3 p.m. today, Snyder and Jayton frosh were to take the court and at 6, Snyder and Coahoma junior varsities will battle.

Other teams include Lamesa, Rotan, Midland High, Midland Lee, Colorado City and Sweetwater. Tickets are \$1.50 for adults and .75 for students for all day, or \$3 for a tourney pass.

Friday, Snyder freshman boys are scheduled for tournament action. One group will play in the Sweetwater Tournament while another opens at Lamesa. These two squads will break into smaller teams, giving Snyder two "teams" at each location.

At Lamesa, a B team will play Levelland at 4 p.m. Friday while an A team will take on Big Spring at 5:30.

Contest opponents and times for the group going to Sweetwater were not known at last report.

Schedules call for three other games this weekend. The boy's junior varsity team is slated against Coahodo City (there) 5 p.m. Friday, and again against Ballinger at 6:15 Saturday in Scurry County Coliseum. Saturday's date will be a double-header, also pitting Snyder and Ballinger varsity units at 8.

McGinnis Out Again, Only Briefly Though

By The Associated Press
George McGinnis' return to the Denver Nuggets lineup was an auspicious one but the Washington Bullets' first visit to Seattle this year certainly was.

McGinnis, 28, from his three-game suspension by National Basketball Association Commissioner Lawrence O'Brien for crashing into referee Jess Kersey in a game at Seattle last month with a short performance. The 6-foot-8 forward was thrown out of the Nuggets' 135-116 victory over Detroit Wednesday at 3:44 of the second period by picking up two technical fouls. He disagreed with referee Hue Hollins' call of a rebounding foul on him. At the time, McGinnis had seven points, seven rebounds, five assists and three blocked shots.

While Big George was having a quick night in Denver, the Bullets and SuperSonics worked overtime before Washington won 139-134 in two extra sessions. The last time the Bullets were in the Kingdom, they were in the process of losing the NBA title to the Sonics.

In other NBA games, Indiana fell to Los Angeles, 127-120 as Kareem Abdul-Jabbar became the No. 5 scorer in league history. San Antonio 118, Phoenix 109; Kansas City 128, Utah 121 in overtime; Boston 111, Houston 103; San Diego 103, New Jersey 97; and Golden State 111, Portland 92.

Bullets 139, SuperSonics 134, 2 OT
The Bullets rode Elvin Hayes' 34 points, including nine in the second overtime, past Seattle.

The Sonics got a game-high 36 points from Dennis Johnson but he couldn't help in the final 1:03 of the second OT, when the Bullets scored eight points.

Lakers 127, Pacers 12
Abdul-Jabbar passed Elgin Baylor and now has 23,170 career points. He tallied 32 points against the Pacers for his 184th consecutive game scoring in double figures.

The Pacers got 32 points from Johnny Davis and 31 pro cage summary

from James Edwards
Spurs 118, Suns 109
George Gervin poured in 42 points and combined with James Silas 20 and Mike Evans 16 to score 24 of the Spurs' 32 fourth-quarter points.

Kings 128, Jazz 103
Scott Wedman connected for a career-high 45 points as the Kings moved one half game ahead of Milwaukee in the Midwest Division. He hit a three-

point field goal with five seconds remaining in regulation to force the extra session. Allen scored nine of the first 11 Kings points in OT.

Celtics 111, Rockets 103
After Rick Barry ignited the Rockets with three three-point shots and 12 straight points, Boston's Cedric Maxwell took charge, hitting for 12 points in the last 5:22 to give him 29 altogether.

Some Demanding Olympics Boycott, IOC Pleads, 'No'

LONDON (AP)—Olympic officials have lined up against Western politicians who are demanding a boycott of the Summer Olympic Games in Moscow to protest Soviet military intervention in Afghanistan. "Athletes come first, and in no way should be prevented from competing by political, racial or religious discrimination," said Lord Killanin, president of the International Olympic Committee, in a statement Wednesday.

Sports officials from the United States, Belgium, Britain, Denmark, France, Italy, Norway and West Germany lined up with him in opposing the boycott call.

Killanin's plea, in a statement issued from IOC headquarters in Lausanne, Switzerland, came less than 24 hours after NATO nations meeting in Brussels discussed a possible Olympic boycott that reportedly was suggested by a West German representative. "The Soviet intervention in Afghanistan has profoundly alarmed Western politicians."

President Carter Wednesday recalled U.S. Ambassador Thomas Watson from Moscow after declaring that the Soviet move "has made a more dramatic change in my opinion of what the Soviets' ultimate goals are than anything they've done in the previous time that I've been in office."

The Olympics and politics are no strangers. African athletes boycotted the 1976 Montreal Games after a New Zealand rugby team toured South Africa, and threatened a further boycott of this year's Games if the British Lions rugby tour to South Africa goes ahead as scheduled.

But Western sports officials stressed that Western governments have few if any legal powers to stop athletes from taking part.

A Belgian Olympic Committee member said: "We the IOC are a sovereign organization. We can participate in the Olympics outside of the government."

HEALTH

Lawrence E. Lamb, M.D.

Can't heal leg ulcers

By Lawrence Lamb, M.D.

DEAR DR. LAMB: I'd like some information on varicose leg ulcers. I've had one on the inside of my right leg just above the ankle for nearly two years. I've seen three different doctors for treatment but have been unsuccessful in healing it. Once I was able to get the scab off and could see the red ugly looking ulcer underneath. I was told to put Betadine all over it and cover with a Telfa pad to keep it clean and give it a chance to heal.

The ulcer never does heal. All that seems to happen is that the scab forms over it again and I still have pain with it. The ulcer is about the size of a half dollar. Is there anything you can do to help me?

I've had very bad varicose veins in both legs and have been told I'll probably develop an ulcer on the left leg as well. I sincerely hope not.

DEAR READER: That ulcer is caused by your varicose veins, perhaps with a variety of related conditions that doctors call venous insufficiency. The basic problem is that the blood is not moved through the veins and back to the heart. Instead it accumulates in your ankles. That

stagnant blood increases the pressure of fluid in the tissues and, in general, interferes with oxygenation and proper nutrition of that tissue area. Finally, the tissue breaks down and the ulcer forms. It follows that the goal of

treatment is to reduce the pressure of accumulated venous blood in your lower leg. Unless this is done effectively, it's not likely that your ulcer will heal.

If you stayed in bed constantly with your feet elevated above the level of your chest so that the feet will be above the heart level, those veins in your feet would all drain out as the blood runs downhill toward your heart. That would eliminate the accumulated pressure of venous blood in the feet and the ulcer would gradually heal.

A compromise method is to apply enough external pressure to prevent the pooling of blood in the ankles. I'm sure your doctors have recom-

mended this but it sounds to me like the measures have not been sufficient in your case. The nylon support hose and cotton elastic stockings are all right for extremely mild cases but they do not apply enough pressure for an advanced case such as you have. They might be used for a woman as a preventive measure during pregnancy.

Elastic stretch bandages around the feet and ankle also help. For an advanced case, you need to use "pressure gradient stockings." These are ones that are very tightly knit so they produce the greatest pressure around the ankle area. A classic example is the Jobst stocking. The leg has to be measured by paper tapes

and the stockings individually manufactured.

To help you better understand the problem of varicose veins, I am sending you "The Health Letter" number 5-8, "Varicose Veins." Other readers who want this issue can send 75 cents with a long-stamped self-addressed envelope for it. Send your request to me in care of this newspaper, P.O. Box 1551, Radio City Station, New York, N.Y. 10019.

As "The Health Letter" I'm sending you explains, the pressure inside the veins in the legs is the greatest when you're standing still or sitting. Walking will actually decrease the pressure on the veins in normal people. (NEWSPAPER ENTERPRISE ASSN.)

Family Has Three Mayors

WASHINGTON, N.J. (AP)—Anybody in the market for a mayor? Annarae Gelnow knows where she can lay hands on three of them.

Her son Donald was sworn in Monday as mayor of Park Ridge while another son, Arthur, will begin his second term as mayor of Montvale on Thursday. Annarae's husband, also named Arthur, is the former mayor of Westwood. They had been con-

cerned that both sons would be sworn in at the same time.

"It's not like the Kennedy syndrome or something like that," said Donald. "The Gelnows are staunch Republicans."

ASTRO-GRAPH
Bernice Bede Osco

Your Birthday

January 4, 1980

Several interesting investments may be brought to your attention this coming year. They won't all be winners, so screen them carefully. However, there could be one real gem in the bunch.

CAPRICORN (Dec. 22-Jan. 19) Although the temptation may be great today, be wary of deficit spending. Live within your means and budget and you'll have no regrets. Find out more of what lies ahead for you in the year following your birthday by sending for your copy of Astro-Graph Letter, Mail \$1 for each to Astro-Graph, Box 489, Radio City Station, N.Y. 10019. Be sure to specify birth date.

AQUARIUS (Jan. 20-Feb. 19) Be cooperative today, but don't make compromises or concessions for the sake of expediency. Bargaining unwisely won't benefit you or the other party.

PISCES (Feb. 20-March 20) You could be susceptible to the "tomorrow" syndrome, and put several things off today which should be attended to. Keep pace with your responsibilities.

ARIES (March 21-April 19) Take extra pains in dealing with one you love so that you don't do anything that could hurt his or her feelings. Romantic involvements are delicate today.

TAURUS (April 20-May 20) Artistic changes you make around home today should not be initiated impulsively. You could do something which may be hard to live with.

GEMINI (May 21-June 20) Give praise where it's merited today, but don't flatter anyone to achieve your ends. Insincerity will do you more harm than good.

CANCER (June 21-July 22) Normally you're a rather prudent shopper. Today, you could be a shade extravagant and knowingly pay more for something than it's really worth.

LEO (July 23-Aug. 22) One who knows how to manipulate you may try to get you to do something today against your better judgment. Don't be taken in.

VIRGO (Aug. 23-Sept. 22) Make no promises today you may have difficulty keeping. Someone will take you at your word, and will be very disappointed if you renege.

LIBRA (Sept. 23-Oct. 23) Your social image is a trifle fragile today, so be on guard. Do nothing that could make you look foolish to others.

SCORPIO (Oct. 24-Nov. 22) Your actions will draw a great deal of attention today, whether you intended them to or not. Put your best foot forward and play it humble.

SAGITTARIUS (Nov. 23-Dec. 21) It's important today to be able to distinguish between positive thinking and the wishful variety. If you succumb to the latter, you'll be fooling yourself.

FORT WORTH (AP) — widow of Tandy Corp. founder, Charles David Tandy, died Tuesday at the age of 74.

Lifting Interest Limit Irks Clayton

Problems solved.

Do you have rooms with cold spots? ...

TOM'S MARINE SALES & SERVICE
115 E. Hwy. 573-6362

AUSTIN (AP) — Speaker Bill Clayton says he represents Congress lifting state ceilings on mortgage loan interest rates even though he opposes such limits in principle.

Legislatures have authority to reinstate usury limits, but Gov. Bill Clements is not expected to call a special session on the subject.

He said it was a matter of states' rights. "Every time we allow a pre-emption of state rights, we have eroded that much more the authority and power of the states," he said.

Asked if he felt strongly enough to suggest that Attorney General Mark White file suit to determine if Congress can override usury provisions in state constitutions, Clayton said, "I really would."

On another subject, Clayton said his staff was trying to learn if pilots were benefiting from a law that took effect Tuesday, repealing the five cents a gallon state tax on aviation fuel.

Relief Amendment of 1978 and its enabling legislation passed in 1979. "I looked at several school districts. There didn't seem to be that much change. Apparently rates have been raised to bring in about the same amount of tax," Clayton said.

Beneficial Buys SIC

The SIC Credit Co. office at 1400 25th St. is now an office of a consumer finance subsidiary of Beneficial Corporation, announces manager Chloanne Lindsey. The change took effect Dec. 19.

Beneficial Finance system is a \$5.6 billion, Delaware based financial services holding company. Affiliated offices currently serve over three million customers around the world with 2,300 locations in the U.S., Canada, Australia, Japan, New Zealand, the United Kingdom and West Germany, said Mrs. Lindsey.

When asked to comment about the change she said, "I'm proud to be joining Beneficial. It's a dynamic organization. It offers one of the broadest ranges of financial services in the industry."

Says Attorney...

Fed's Busing Plan Will Cause Exit To Suburbs

By KEN HERMAN
Associated Press Writer
AUSTIN (AP)—An attorney who says he represents some 5,000 Austinites predicts the busing plan approved by the federal judge will chase whites from the local school district to the suburbs.

"If there is anything that is reasonably foreseeable, it is the virtual certainty that these plans will convert the AISD into a predominately black and Mexican-American school district in a relatively short time," said William Bednar Jr.

U.S. District Judge Jack Roberts has approved the agreed busing plan hammered out by AISD officials and minorities after a 10-year court battle. Roberts approved the plan Wednesday after hearing from the parties in the lawsuit and local residents who oppose busing.

The case was filed by the U.S. Department of Justice, which was joined by the Mexican-American Legal Defense and Education Fund and the NAACP. The plan includes two schemes for doing away with one-race schools. Plaintiffs said they would be satisfied with either plan.

Both plans include reassignment of some 15,000 students—13,500 of whom would be bused. The 5th U.S. Circuit Court of Appeals ordered immediate implementation of a plan, but the plaintiffs agreed to postpone its start until the fall semester.

Superintendent Jack Davidson said it would be "physically impossible" to begin busing now. Bednar, former lawyer for the Texas Education Agency, presented a petition signed by 5,477 persons, most of whom live in affluent, predominantly white Northwest Hills.

"The people who submitted these statements are not racists," he said. "If there is to be busing, let it be for shorter times and distances, even at the expense of involving more students."

Mrs. Don Gentry, mother of three AISD students, vowed to take her children out of school if they face busing.

"My husband won't allow that. I guess I'll have to go down and see what I have to do to teach them myself," she said.

Mrs. Gentry told Roberts she "resents" the court using her children to desegregate an elementary school. She said her family lives in an integrated neighborhood and the school is integrated 69 percent Anglo.

"Why should this school be torn up? We live together. We like each other and our children go to school together," she said.

signment of some 15,000 students—13,500 of whom would be bused. The 5th U.S. Circuit Court of Appeals ordered immediate implementation of a plan, but the plaintiffs agreed to postpone its start until the fall semester.

Cool, Clear Day Forecast

By The Associated Press
Showers and thunderstorms were forecast for East Texas today, but most of the state was to have clearing skies and cooler temperatures.

A Pacific cool front moved southeastward along a line from Texarkana to Laredo during the early morning hours.

Highs were to range from the 40s in North Texas to the upper 60s in extreme South Texas. Showers were reported in East Texas ahead of the front during the pre-dawn hours.

Early morning temperatures ranged from the 30s in Northwest Texas to the 60s along the gulf coast. Extremes varied from 30 at Dalhart to 65 at Brownsville.

white Northwest Hills. The people who submitted these statements are not racists," he said. "If there is to be busing, let it be for shorter times and distances, even at the expense of involving more students."

"My husband won't allow that. I guess I'll have to go down and see what I have to do to teach them myself," she said.

CBS Continues Threat To ABC

NEW YORK (AP)—CBS continued its challenge to front-running ABC in the television networks' prime-time ratings race, claiming the seven most-

Painter Faces Charge Of Counterfeiting

FORT WORTH (AP)—An unemployed painter with \$45,000 worth of counterfeit \$100 bills in his boot when police arrested him on New Year's Day in a Fort Worth tavern has been charged with conspiring to violate counterfeiting laws.

Police said Urie Vernon Arterburn Jr. told them he was paid by another man to distribute the money, and agents then went to a motel on Fort Worth's south side where they arrested Robert Wesley Lumpkins, whom they described as a professional gambler with a long police record.

Assistant U.S. Attorney John Sweeney filed the same counterfeiting charge against Lumpkins.

A secret service agent in Dallas said the bills are similar to \$105,000 in bogus \$100 bills the Internal Revenue Service seized Dec. 21 when they went to a Dallas motel with a search warrant.

IRS agents said they are trying to determine if the room was used by bookies accepting bets on professional football playoff games and college bowl games.

SIDE GLANCES

Surviving are five daughters, Carole Greathouse of Snyder, Ruby Edwards of Abilene, Attie Alexander of Dimmitt, Barbara Jeffery and Lettie Richardson, both of Los Angeles; four sons, Leo Anderson of Snyder, Arthur Anderson of Houston, Bennie and Joe Anderson, both of Amarillo; a sister, Annie Belle Barber of Murreta; 39 grandchildren and seven great-grandchildren.

McAnally Infants

Gravestone rites have been set for 11 a.m. Friday in Hillside Memorial Gardens for twin infants of Mr. and Mrs. Ed McAnally. They were still born at 9:30 a.m. today in a Lubbock hospital.

The Rev. David Robertson will officiate and Bell-Seale Funeral Home is in charge of arrangements.

Northern Works To Save Energy

Northern Electric Co., known as one of the most energy-conscious and energy-saving manufacturers in the nation, is practicing what it preaches.

As part of its promotion of energy conservation, the company has presented a practical, energy-saving product to every employee in its Snyder plant and other plants in the U.S. It is the "Dial Down," which, when used as a timer, will automatically turn the home thermostat down before retiring at night and up again in the morning at the designated time.

Through research it has been found that sleeping under an electric blanket for eight hours in a 60-degree room will save 20 times the energy it uses and costs only four cents to operate.

Troopers of the Department of Public Safety investigated a one car turnover Wednesday afternoon on Farm to Market Road 1607, approximately three-tenths of a mile west of the city.

The accident involved a 1979 Ford Fairmont driven by Shelia Gay Eckert, 18, of Rt. 1, Snyder, that spun out of control and overturned. The car was traveling east, patrolmen reported. No injury was reported.

The accident took place about 2:40 p.m.

Stock Show In C-City Begins

COLORADO CITY, Tex.—The 43rd Annual Mitchell County Livestock Show opened today and will continue through Saturday in the County Agriculture Building west of town.

Judging will begin Saturday at 9 a.m. with the Lambs Division. Swine and steer judging will follow with 30 minutes intervals between divisions.

The stock show is sponsored by the 4-H and FFA Livestock Show Association.

PROMOTING ENERGY CONSERVATION—Jimmy Daniels, Northern Electric Company's operations manager in Snyder, presents Fretta Billingsley, personnel clerk, with a Northern "Dial Down." Northern, a local manufacturer of electric blankets, gave each of its employees one of these energy-saving devices recently as part of the company's promotion of energy conservation.

He's Transvestite, Can't Skirt Issue

By Abigail Van Buren

DEAR ABBY: At 16 I married a 21-year-old man I thought I loved. We had a son a year later, but the marriage didn't work out, so we were divorced when the boy was 6. I'm now married to wonderful man who adopted my son.

Meanwhile, my ex dropped out of sight for three years. Yesterday, out of the blue, he called saying he had something very important to tell me, and would I meet him downtown—alone.

When I met him, I nearly fainted dead away! He was dressed like a woman. He said he was a transsexual who had been living as a woman for two years and was scheduled for a sex change operation next month! He said his name is "Anita" now, and he's in show business. Abby, I couldn't believe my eyes. He had electrolysis to remove his facial hair, took hormones to develop a female figure, and was wearing a wig, makeup, and stylish clothes. He looked like a beautiful woman! This was a great shock to me because he was all man when we were married. Our sex life was normal, and I never dreamed he had these tendencies.

My problem is how to tell our son. Or should I tell him at all? (He's 9 now.) My ex lives in another state and has promised not to come near our son without my approval. If the boy ever saw his father as "Anita" he would die, and so would I! I am so afraid someone in this little town will find out about this and blab it around. What should I do?

SMALL-TOWN MESS

DEAR MESS: A 9-year-old is too young to comprehend what transsexualism is all about, so hold off telling him, but prepare to tell him one day by educating yourself now. Write to The Janus Information Facility, University of Texas Medical Branch, Galveston, Texas 77550 for enlightening, up-to-date literature. They are a legitimate, non-profit facility, dependent on private donations, so send \$5 to cover cost of literature and mailing.

DEAR ABBY: My daughter met a smooth-talking fellow nine months ago and really fell for him. She's 22 and he's 21. He isn't working now and he's not even looking. He keeps saying that the jobs he wants don't pay enough. In the meantime he borrows from my daughter, drives her car, eats every meal at my table, and his clothes are washed in my machine! He never mentions marriage, but my daughter looks at him like he's god, and she calls this "love."

Would I be wrong to ask this guy what his intentions are?

FED UP

DEAR FED UP: You can ask him, but I think I can tell you. His intentions are to eat at your table, drive your daughter's car, get his clothes washed in your machine, and freeload off you and your daughter as long as you let him.

DEAR ABBY: I have a mother-in-law who comes to my house and starts cleaning it up, or changing things around, the minute she gets here. If my clothes are in the dryer, she takes them out and folds them. She's always poking around in my cupboards and rearranging things.

If I had a dirty or messy house, that would be a different story, but my home is spotless, and I am never behind in my laundry.

This really took the cake: She came over and pulled the sheets right off my bed and laundered them! I was never so insulted in all my life. (I change my sheets on Friday, and this was only Sunday!)

I spoke to my husband about her, and he said, "Don't hassle her. She's getting old." (Abby, she's 46.) Please tell me how to handle her.

HAD IT IN ALLENTOWN

DEAR HAD IT: To handle such a strong and assertive person, you must be even stronger and more assertive. Let her know in no uncertain terms that when she is in your home, she is a guest—and she's not to do a thing. At 46, she's young enough to learn.

Do you wish you had more friends? For the secret of popularity, get Abby's new booklet: "How To Be Popular: You're Never Too Young or Too Old." Send \$1 with a long, self-addressed, stamped (28 cents) envelope to Abby, 132 Lasky Drive, Beverly Hills, Calif. 90212.

Amendment Saved \$114.3 Million

AUSTIN (AP)—The 1978 Tax Relief Amendment as implemented by the Legislature saved Texans \$114.3 million in 1979 school taxes, says the State Property Tax Board.

Kenneth Graeber, the agency's executive director, certified the saving to the state education commissioner.

Under a 1979 law, the state will reimburse school districts for part of

their revenue losses. The Property Tax Board certifies the revenue loss, and the education commissioner calculates the amount a district will receive. No district will receive less than 45 percent of its revenue loss.

Graeber said mandatory homestead exemptions cut property tax collections by \$107.6 million.

Oil Firms Feuding Over Profits Tax

DALLAS (AP)—What may turn out to be a major rift between major oil companies and small independents has been triggered by a letter from executives of Sun Oil Co. to its shareholders and royalty owners.

Theodore A. Burtis, president of Sun Oil, asked the shareholders to write their congressmen and urge defeat of legislation that would exempt the independents from the proposed windfall profits tax.

The letter, sent from Sun Oil's Texas headquarters in Dallas, said if small independent oil producers are exempted from the tax, the larger producers would have to take up the slack, at the expense of the shareholders and royalty owners of the larger producers.

Consequently, some irate independent oil producers have stopped their sales to Sun Oil, the nation's 10th largest oil company.

"It just doesn't make sense to sell to someone

who is out to destroy you," said Lew Ward, president of the 1,300-member Oklahoma Independent Petroleum Association.

Ward, an independent oil producer from Enid, Okla., said, "It sure could be the start of a major split between the independents and the majors."

The letter went to Sun Oil's 140,000 shareholders, employees and retirees. Another letter, written Dec. 10 by W.F. Oxford of Sun's Dallas-based production subsidiary, went to the company's 60,000 royalty owners expressing similar sentiments.

The focus of the controversy is an amendment to the windfall tax bill, proposed by Sen. Lloyd Bentsen, D-Texas, that would exempt a small oil producer's first 1,000 barrels of oil a day from the tax.

Sun buys so little of its oil from independent producers that a full-scale boycott would not cripple its operation, but company officials were trying this week to defuse the brewing controversy.

Sun spokesman Granville Dutton said, "We're not against an independent exemption. We just want to see it extended to all producers."

John Miller, president of the Independent Petroleum Association of America, also stepped in trying to calm the situation.

"Our industry has enough political enemies without indulging in intra-industry recriminations over political actions which were beyond our collective influence or control," he said in a Dec. 21 letter.

Independent oilmen say the majors don't care as much about the windfall profits tax because they make money from overseas operations and from refining and marketing as well as from production.

The tax is only on domestic production. They also argue that

freeing independents from the tax would encourage oil exploration, pointing out that independents drill almost 90 percent of the exploratory wells drilled onshore in the United States. At the same time, the independents produce smaller quantities so the exemption would free only 15 percent of domestic production from the tax.

They also argue that
