## Iran Expelling U.S. Reporters

TEHRAN (AP)—Iran Oil Minister Ali Akbar Moinefar said today that all American reporters would be expelled from Iran "in the very near future" because of "biased" reporting.

Moinefar, a member of the ruling Revolutionary Council, told reporters of the decision after Monday night's council meeting.

## Jetliner Reported Hijacked

ROME (AP)—An Alitalia jetliner with 87 persons aboard was hijacked Monday on a flight from Rome to Tunis, Tunisia, airport authorities here reported.

The plane with 81 passengers and a crew of six was reported headed to Palermo, Sicily, after first flying toward Malta, officials at Leonardo da Vinci airport said.

It was not immediately known who commandeered the plane midway to its destination.

## Fem Smokers Catching Up

WASHINGTON (AP)—Women took up widespread use of cigarettes about 25 years after men, but the surgeon general says projected lung-cancer death rates indicate they are fast catching up.

Female deaths from lung cancer will surpass those from breast cancer within three years, the surgeon general reports, suggesting "an epidemic of smoking-related disease among women."

The death rate from breast cancer for women is higher than that of any other type of cancer.

Data that formerly supported the belief that women smokers faced lower risk rates than men amounts to "an illusion reflecting the fact that women lagged one-quarter century behind men in their widespread use of cigarettes," Surgeon General Julius B. Richmond says in a study on women and smoking submitted to Congress today.

## DA Admires Policemen

TYLER (AP)—U.S. Attorney John Hannah and his assistants have successfully prosecuted three sheriffs, three former deputies and a city marshal in the past 18 months.

Yet Hannah, a former state legislator and Common Cause lawyer, insists he had great respect and admiration for most cops.

"Percentage-wise, there are more good police officers than there are good doctors and lawyers," he said in a recent interview with the Dallas Morning News.

## NTSU Testimony Begins

AUSTIN (AP)—Members of the House General Investigating Committee huddled behind closed doors today to draft a "game plan" for its look into allegations of financial mishandling at North Texas State University.

The committee is investigating the transfer of funds from the university's general fund into a private foundation. Committee counsel Jim Vollers said former NTSU President C.C. Nolen would testify but would not be the first witness.

Testimony was to begin later today.

## Pickets Surface At Love Field

DALLAS (AP)—Pickets surfaced at Dallas' Love Field Airport as Southwest Airlines management personnel worked feverishly to re-route flights affected by an International Association of Machinists and Aero-Space Workers strike.

Southwest spokeswoman Camille Keith said Sunday that 745 of the airline's weekly flights would be cut from the schedule but management personnel would keep 901 flights in the air.

Ms. Keith said Southwest would operate a revised schedule six days a week to all 12 cities served by the Dallas based carrier. New Orleans is the only city outside Texas served by Southwest.

All Saturday flights have been canceled.

## Flood Danger In California

Rivers in northern California surged toward flood stage today and the National Weather Service issued flash flood warnings for the western foothills of the Sierra Nevadas.

Some 3 to 5 inches of rain fell over lower elevations of the Sierras during the past few days, with more than 10 inches reported higher up.

By Sunday night, the Russian River had reached its flood stage of 32 feet and was expected to rise to near 36 feet later today.

Flood stage warnings were also issued for the Sacramento, Cosumnes, Eel and Napa rivers, while the Smith and Klamath rivers in the extreme northern part of the state were also at the warning stage.

## Ditch Wreck Kills Four

HOMESTEAD, Fla. (AP)—A station wagon packed with 13 people on their way to a dance overturned in a drainage canal, killing the driver and three children, authorities said.

"We could hear people beating inside the car. We tried to console everyone inside and get them calmed down," Dade County Fire Lt. Jim Sharpe said Sunday night. "We were all trying to get inside the car but there was no way."

Witnesses said a woman passenger freed herself from the cars, was wedged in a narrow, 3-foot-deep canal. It took rescuers about 20 minutes to free a second woman and seven youngsters from the vehicle using "Jaws of Life," a device that rips apart metal.

## Bert Lance, 'Ready To Go'

ATLANTA (AP)—Former federal budget director Bert Lance arrived at federal court today for his trial on bank fraud charges, proclaiming his innocence and saying, "I'm ready to go."

Lance and his wife, LaBelle, approached the federal courthouse holding hands. Two of his four sons accompanied him.

More than 125 prospective jurors crowded into the courtroom for the opening of the trial.

ON STRIKE—Approximately 20 members of the Oil, Chemical, and Atomic Workers' Union went on strike this morning against Amoco Pipeline Co. The pipeline company yard, where the men are striking, is located at 23rd St. and Ave. K. Jim Carney, left, and Ron Murph were picketing the Amoco yard here this morning. (SDN Staff Photo)

## Negotiations In Denver...

# Amoco Workers Here Go On Strike Today

Approximately 20 local Amoco Pipeline Co. employees, members of the Oil, Chemical, and Atomic Workers' Union, went on strike this morning.

At issue are employee demands for better health care insurance, higher wages, and better vacation schedules. The issues appear not to be items of local unrest but of calls by the union for a strike.

The issues cannot be resolved locally, striking workers said this morning, but will likely be settled on a national level in Denver, Colo., the main office for the O.C.A.W. Union.

Here, the strike affects members of Local 473 and Local 449, both unions within the larger O.C.A.W. The strike against Amoco Pipeline Co. began at 8 a.m. today and involves approximately 150 workers in Texas, New Mexico, and Louisiana.

Strikers said this morning that other divisions of Amoco, including refinery, chemical, and credit union workers, went on

strike last week. The parent company of Amoco Pipeline Co. is Standard

Oil of Indiana.

"We want full coverage on dental and health insurance at no cost to the employee, we want substantial wage increases, and we want better vacation schedules," said Hayden Mayfield of Longview, president of Local 473.

Presently, he said, workers have a health care policy, of which they pay part of the cost, but no dental plan. Wages, Mayfield said, are supposedly pegged at approximately \$9.55 an hour, but he questioned that figure. Vacations are for periods stretching from two to five weeks based on a scale of the number of years worked with the company.

"We want to settle it peacefully, lawfully, and above board," said Gene Stom of Snyder, a technician and member of Local 473.

The Amoco Pipeline Co. yard, where the men are striking, is at the intersection 23rd St. and Ave. K.

## Ask Us

Q. Why are policemen picked up at their homes and taken to work in police cars while other city employees must furnish their own transportation to and from the job?

A. We had this question several months ago, and the answer is unchanged. The police department is the only department of the city government that has automobiles continuously on patrol, which means the drivers do not have to leave their posts of duty to pick up their fellow workers. Also, those coming on duty are in a position to begin serving immediately when they set foot in the police car.

# Appointments Made To County Board Positions

Scurry County Commissioners this morning made appointments to county boards, named three members to the county grievance committee and was preparing to take action later in the day on a proposal to set up a county industrial corporation.

The industrial agency would have authority to issue revenue bonds to assist in industrial development and expansion in accordance with legislation adopted last year in Austin.

Named to serve on the

county grievance committee this year are Franklin Pruitt, Glenn Polk and Mario Herrera. The members of this committee are drawn each year from the previous year's grand jury panels. They serve with the county-wide elective officials on the grievance committee. The three members appointed this morning succeed Buster Anderson, Milton Ham and Seabourne Eicke.

Reappointed to other county boards, with terms to continue until Jan. 1, 1982, were the following:

Airport Board — Olin Bunch, Jimmy Thompson and Seabourne Eicke.

Child Welfare Board — Betty Richardson, Carolyn Barbee, Margaret Stubblefield and Barbara Bruner.

County Welfare Board — Fickas Bell and J.B. Patterson.

Hospital Board — Roy Kidd, Rex Robinson and Leon Autry.

Library Board — Mrs. Charlie Landon, Mrs. Carl Williams, Mrs. Louetta Turner and Mrs. J.W. O'Banion.

Board of County Development — Arel Faver, Morris Light and Dale Stuard.

Veterans Land Board — Buford Browning, J.T. Tate and Joe Jackson.

The commissioners also approved a salary scale of \$3.25 per hour for part-time workers in the parks department, the coliseum and at the courthouse.

A \$320 assessment for Scurry County's share of costs for the seventh judicial district was approved.

# Afghan Rebels Still Fighting

By The Associated Press

Moslem rebels were reported putting up stiff resistance to Soviet troops in the highlands of eastern Afghanistan as thousands of Afghans packed mosques in the capital city of Kabul to mourn political prisoners killed by the previous communist government.

Diplomats in Islamabad, Pakistan, said the Afghan rebels had stepped up fighting near the eastern border with Pakistan. Pakistani newspapers reported heavy fighting across the rugged country side of the Central Asian nation, including the northern region bordering the Soviet Union.

The reports could not be confirmed, and Western diplomatic sources in Kabul said the Soviets had tightened their military hold on the country, gain-

ing control of the north-south, Herat-Kandahar highway in the western part of the country. The highway is one of the two main paved roads in Afghanistan.

One Western informant told Associated Press correspondent Marcus Eliason, who is in Kabul, that fighting had stopped "almost everywhere." But other sources in Kabul told Eliason combat apparently was still going on in the northeastern province of Badakhshan, and in Paktia, southeast of the capital and near Pakistan. "They (the Moslem rebels) can go on harassing the Russians forever," said one source. "They

have been doing this sort of thing for centuries."

In neighboring Moslem Iran, where up to 50 Americans are still being held hostage at the U.S. Embassy in Tehran, Foreign Minister Sadegh Ghotbzadeh linked the Soviet military intervention in Afghanistan to American "interference in the internal affairs" of Iran and other countries.

Teheran radio quoted Ghotbzadeh as saying: "As long as America continues to use its influence to interfere in the internal affairs of Iran and other parts of the world, the Soviet Union too finds the opportunity to intervene militarily in Afghanistan."

# College Board Due To Call Election

Scurry County Junior College District Trustees are scheduled to call a trustee election and take formal action on a revision of golf fees at their regular meeting this evening.

The meeting is set for 5:45 p.m. in the board room of the Western Texas College Administration Building.

The trustee election will be held on Saturday, April 5. Three places will be filled on the board. These include the remaining four years on a term for Place 2 to which George Patterson was elected two years ago; Place 3 and Place 4. Serving in Place 2 now is Wacl McNaair, who has appointed last September to serve until the election this spring. Serving in Place 3 is Howard Sterling, who was appointed following the death of Bentley Baize, and serving in Place 4 is Dr. Robert Hargrove.

The board also will consider a proposal to construct a small storage building for the WTC automotive department and take action on several personnel items.

Reports are due on advance memberships for

new racquetball courts and on new fire-casualty insurance rates.

## Normal Trade With Soviets Not In Sight

WASHINGTON (AP)—President Carter is warning that normal trade with the Soviet Union will not resume soon "under even the best of circumstances," as his administration steps up a campaign of reprisals that could lead to a boycott of the Moscow Olympics.

## Missing Bus Found Fast

A Hermleigh school bus, which originally was reported to be missing, was found this morning parked in front of school superintendent Jerry Church's house with the keys still in it.

The report of the missing school bus was received about 6:30 a.m. It was found, reported the Scurry County Sheriff's Office, shortly after 8 a.m. by deputy sheriffs.

The whole incident was apparently a hoax, it was said.

SNYDER TEMPERATURES: High Saturday, 55 degrees, low, 35 degrees, reading at 7 a.m. Sunday, 42 degrees, High Sunday, 78 degrees, low 38 degrees, reading at 7 a.m. today, 39 degrees, precipitation, none; total precipitation for 1980 to date, 0.00.

West Texas - Partly cloudy. Mostly cloudy with slight chance of rain north Tuesday. Highs 68 to 80. Lows 35 to 46. Highs Tuesday 60 to 78.

BALL PLAYING WEATHER—Some say you can't teach an old dog new tricks and Kelly Franks, son of Mark and Jamie Franks, learned Sunday that teaching a young dog old tricks is not so easy either. But it was a perfect day for a game of Fetch with temperatures reaching a balmy 78. More sunshine is in the forecast. (SDN Staff Photo By Jo Ann Nunley)

### opinion page

in washington

robert walters

WASHINGTON (NEA) - Buried in the massive pile of paperwork generated by the debate over federal

financial assistance to the Chrysler Corp. is striking evidence of the plight of the country's entire auto industry.

It is a chart entitled "World Production of Motor Vehicles," containing the Treasury Department's detailed presentation to the House and Senate committees that recently considered legislation to rescue Chrysler from near-bankruptcy.

As recently as 1950, the United States accounted for more than 75 percent of all production, the chart shows, but by 1960 that figure had plummeted to less than 50 percent and by 1970 it had plunged below 30 percent, where it remains today.

In 1950, Asian automakers produced a minuscule 0.3 percent of the world's output, but the comparable 1978 figure was more than 22 percent, with Honda, Datsun, Toyota, Subaru and other Japanese manufacturers of small, economical cars accounting for the dramatic increase.

In 1950, European automakers produced slightly more than 20 percent of the world's cars, but in more recent decades that figure has climbed to well above 40 percent. That increase can be ascribed to Germany's Volkswagen, Italy's Fiat, France's Renault and other manufacturers of fuel-efficient autos.

Although the Treasury Department's figures are complete only through the end of 1978, a headline in a mid-December issue of Automotive News, an authoritative trade journal, is both more current and more discouraging: "U.S. Car Sales Plummet But Imports Set Record. The story says, in part:

"New car sales in November continued their downward slide, with the domestic industry reporting a 22.14 percent decline. While the U.S. automakers struggled in the marketplace, imports seemed to have been granted immunity from the sales recession as they set a record for the month."

Imported cars worth approximately \$7 billion were sold in the United States in the year just ended. They already constitute almost 25 percent of all domestic sales, and some authoritative studies predict the figure soon will rise to 30 percent.

This country's auto industry now is paying the price for decades of stubborn refusal to de-emphasize oversized, fuel-thirsty cars whose principal attraction was high sales prices that produced greater profit margins for manufacturers and dealers.

The key to the current problem obviously is the declining supply and rising price of gasoline. But the domestic auto industry even managed to ignore the handwriting on the wall when sales of its gas-guzzling behemoths plummeted following the 1973-4 Arab oil embargo.

After conducting elaborate nationwide surveys of consumer intentions, the industry concluded wrongly that potential purchasers really hadn't abandoned big cars but instead had only temporarily postponed their buying decisions.

Those miscalculations now are taking their toll. Indefinite layoffs this month are expected to reach 140,000 - almost 20 percent of industry's entire work force. The inventory of unsold new cars have swollen to an estimated 1.75 million vehicles - the highest level in five years.

Chrysler, which lost an estimated more than \$1 billion last year, was hot alone. North American operations of the Ford Motor Co. also showed a

loss of approximately \$1 billion, offset by overseas profits.

Chrysler Board Chairman Lee A. Iacocca recently told a congressional committee that Chrysler, Ford and the General Motors Corp. racked up combined operating losses of \$1.4 billion in the third quarter of 1979.

"Something is wrong somewhere," Iacocca concluded. "We can't all be bad managers." At this very late date, the industry continues to look everywhere but at itself to find the cause of its problems.

### thoughts

The Bible has much poetry, but the word "poets" is found only once in the New Testament.

"For in him we live and move, and have our being; as certain also of your own poets have said, For we are also his offspring." - Acts 17:28

ASTRO-GRAPH  
Bernice Bede Osol

January 15, 1980

This coming year you are likely to be luckier with progressive projects than you will be with old-fashioned types. Keep your eyes peeled for ventures that have futuristic twists.

CAPRICORN (Dec. 22-Jan. 19) Do nothing today predicated upon hearsay information or gossip. Act on the facts only and be sure to lay all of your cards on the table, as well. Travel resources, romance, luck, possible pitfalls and career for the months ahead are all discussed in your new Astro-Graph Letter which begins with your birthday. Mail \$1 for each to Astro-Graph, Box 489, Radio City Station, N.Y. 10019. Be sure to specify birth date.

AQUARIUS (Jan. 20-Feb. 18) Problems could arise with pals today if they feel you are too inconsistent. Once you make a deal with another, stick to the terms.

PISCES (Feb. 20-March 20) Much can be accomplished today, but it is not likely you'll do it unaided. Give ample credit to anyone who assists you.

ARIES (March 21-April 19) Conjuror excuses - for not doing things could be your worst enemy today. Success will not elude you if you set specific goals and go all out.

Taurus (April 20-May 20) You may not accomplish all you hope today if you divide your time unwisely. It's imperative to get your priorities in order first.

GEMINI (May 21-June 20) It takes two to make a bargain, so be prepared to yield a bit today if you're negotiating an important matter, provided the other party is willing to do so.

CANCER (June 21-July 22) In order to get cooperation today, you must set a good example. Coworkers will emulate your actions, whether they're right or wrong.

LEO (July 23-Aug. 22) Subdue temptations to take financial or material risks today. If you are going to gamble, take chances only on things derived from the sweat of your brow.

VIRGO (Aug. 23-Sept. 22) Don't take yourself or others too seriously today. Play everything light and loose. Getting upright will prove counterproductive.

LIBRA (Sept. 23-Oct. 23) You are always able to recognize alternatives, but today you may see more negatives than positives in your involvements. Emphasize the hopeful, not the doubtful.

SCORPIO (Oct. 24-Nov. 22) Be careful today that you don't permit high-pressure salespersons to talk you into buying something you don't really want or need. You know how to say "no."

SAGITTARIUS (Nov. 23-Dec. 21) What you hope to achieve today may not come with your initial effort. However, if you're willing to try again your chances for success are excellent.

### balance of freedom

How and where does Afghanistan weigh in a balance that has Cambodia, Uganda and Nigeria on one side, Pakistan, Iran and China on the other?

We'll have to wait out the year for the answer, since prediction doesn't figure in the annual report by Freedom House on the state of freedom around the world.

But the current focus of international tension aside for the moment, the report, surveying developments in 161 nations for the year up to November 1979 and released this month, sounds an encouraging note.

Freedom is considered to have advanced in 21 countries while declining in nine. Notable bright spots include Nigeria and Ecuador, singled out as having made the most dramatic shifts to free government, and the removal of "four of the worst governments of our time" in Cambodia, Uganda, Central Africa and Equatorial Guinea.

Pakistan's deepening repression rates as the most striking decline in freedom. Also on the negative side is Iran, considered to have gained early in the year following the shah's departure, only to relapse into anarchic terror. China experimented with greater freedom of expression, but then backtracked to remain firmly in the "not free" category.

Freedom House, a New York based non-partisan organization, annually rates the world's nations according to criteria emphasizing political rights, civil liberties and freedom of expression.

By these standards, it now finds some 1.6 billion people living in 51 free countries. This is an estimated 37 percent of the world's population and the most yet recorded in eight years of the survey. The population of 55 partly free countries totals 921 million, while there are 1.8 billion people in 55 countries considered not free.

As for Afghanistan, unless the Soviet contagion spreads it would appear unlikely to change the balance. Even before the takeover, its puppet, repressive regime rated as not free.

### glittering olympics

What has the skyrocketing price of gold to do with the sporting life, you ask?

Even if you don't, here's the answer: It's raising the ante for the Olympics.

The original quote for the winners' medals at the upcoming Winter Games at Lake Placid, N.Y., was entered when the market price of gold was in the \$180-an-ounce neighborhood.

Now that it has moved a very long way up to around \$600, the designer, the renowned Tiffany's, is going to have to adjust its price accordingly, a current Wall Street Journal report reveals.

To a lesser degree, runners-up are in the same situation. Silver that was selling at \$5 an ounce has recently been hitting \$40.

If the upward course of precious metal prices continues, these could conceivably be the last Olympic in which winners receive the real thing. A bankruptcy-averting substitute may have to be found, even though that could well take a lot of the glamour out of the Games.

Think, for example, of Mark Spitz with seven plastics.

### at wit's end

by erma bombeck

Where has the time gone? In December of 1975, President Ford signed a bill into law which will bring the international metric system to this country by 1983.

Can you believe I've only got three more years left to convert and I haven't spoken a word of metric yet?

It's not that I'm stubborn or stupid. It's just that I cannot bring myself to think that large. This country has always put great stock in small feet, small waists, compact cars, short distances, and minute portions.

How do you think I'm going to feel renewing my driver's license when I report that my height is 1.52 meters and I weigh 286.0 kilograms? Why, it'll be all over town by noon.

That's why I've made a decision. At my age, I'm not going to waste time committing an entire metric system to memory. Instead, I made a list of the most used phrases in my vocabulary, converting words of measurement into metrics. You're welcome to use them.

To my neighbor: "Mayva, can I borrow 236 milliliters (1 cup) of flour-sugar-gin-cocoanut-rice-butter-etc?"

To the police: "But, officer, I was only going 85 kilometers an hour." (55 mph)

To anyone: "I hear it's going to be 30 degrees Celsius tomorrow. Wanna play tennis?"

To Weight Watchers: "All I had was 255 grams of candy (nine ounces). Is it a crime to taste something?"

To teenagers borrowing my car: "If you only went to the library, how come you used up 30 liters (eight gallons) of gas?"

To the butcher: "Don't tell me you can't get a one-kilogram rump and not have it tender." (2.205 pounds)

Loudly in the lingerie department: "Do you have any size 148 bras on sale?"

When I told my husband of my plan to memorize as

much metric as I needed to get by, he was pleased. "As I've always said," he smiled, "30 milliliters of prevention is worth 454 kilograms of cure."

Boy, I'm glad it's not something I've always said.

art of leveraging

NEW YORK (AP) - The art of financial leveraging, or producing big results with little money, is so commonly practiced by individuals today that we assume there was never any other way of doing things.

It shows up in the way Americans buy real estate, in how they pay for life insurance, in the way they use credit, in the types of stocks they choose, and even in the way they direct their careers.

Business school graduates, for example, often are aware that the route to corporate success isn't necessarily in doing the best job. They know it's at least as important to be credited for a good job, by making sure he is exposed to higher-ups who can credit him for superior work and reward him with more jobs in which he can again be credited with doing a good job.

It is important, the leverager knows, not to be stuck in any job too long. They might forget him; worse, they might discover his failings.

Should he become stalled, the leverager jumps to another company, one so impressed by his resume that it gives him a 20 percent raise.

More obvious is the real estate leverager. An investor who puts \$10,000 down on a \$50,000 piece of property, watches it inflate to \$60,000 in a year. The return is 100 percent.

Professional real estate leveragers often do much better. They do it by putting nothing down - by inducing a lender to finance the works. Americans who 25 years

ago couldn't rest until all the bills were paid now find comfort in knowing that they have bills to pay. Cash has become old-fashioned; debt is smart. It lets you enjoy things now, and pay for them in cheaper dollars.

The attitude is one of the reasons why the U.S. savings rate is the lowest for all the major industrial nations. Americans are leveraging, as they see it, they are using their money as "efficiently" as possible, getting the most for the least expense.

Life insurance companies know all about this, having seen policy loans swell. Viewed from one perspective, Americans are conservative people who believe in life insurance. From another direction they look like anything but - borrowing back the policy's cash value and using it to invest in chances for a better return like real estate.

Leveraging is all around, and some financial people - ironically, the ones who taught average Americans about leveraging - are worried.

An economist recently agreed that in individual instances it might be tolerable. But, he asked, when everyone does it who will be the lender? That's when leveraging collapses, he said.

No matter, there are many defenders of leveraging. Doesn't business do it, some ask? It certainly does, and business also makes money with the money it borrows. Do individuals not always do it? Not when they leverage a trip to the tropics or drop it on the horses.

## Annual Meeting Is Set By Girl Scout Council

Mrs. J.B. Cooper Jr., Roscoe, president of the West Texas Girl Scout Council, has announced that the annual council meeting will be held Saturday, Feb. 9, at Briarstone Manor, 101 Eplen Court, Abilene.

The business meeting is scheduled for 11 a.m. A slate of nominees for officers of the board of directors and members-at-large, as well as for the nominating committee, will be presented for vote. Delegates from Snyder include Peggy Vernon, Ed Barkowsky, Judy Barkowsky, Eloise Gunset, Teresa Scarber, Thelma Deere, Larry Anderson, Tommy Davis, Mrs. Barney Tate and Mrs. Carl Voss Jr.

Council awards and recognitions will be presented at the 11:45 a.m. awards luncheon. First Class Girl Scouts will be recognized, and 14 Girl Scouts will share their 1979 Texas Tour experiences.

Texas Tour participant from Snyder was Cissi Deere.

Two Snyder Girl Scouts were Wider Opportunity participants July 21-Aug. 4, 1979. Margaret Anderson attended "How West We Go" and her sister, Jean, attended "Paint the West" at National Center West, Ten Sleep, Wyoming.

Husbands, wives and friends of Girl Scout volunteer members are invited to attend the luncheon. Reservations may be made by calling 698-1738, or writing the West Texas Girl Scout Council, P.O. Box 5586, Abilene, 79605, through Jan. 31.

The West Texas Girl Scout Council is a participating agency of United Way.

**REQUIREMENTS IN ACTION**-Jr. Girl Scout 62, North Elementary, recently put their skills to use as they made a field trip to Lou's Kiddie Cottage to teach songs and games they learned in badge work to the young children. Scouts making the trip were Debbie Bruns, Lisa Massey, Daphne Force, Andrea Veazey, Nicole Williams, Jerilyn Trice, Rhonda Fisk, Jeannie Tucker, Teresa Weir, Amy Wilson, Tobi Stephens, Crystal Gibson and Amy Merritt. Shown above are Brande Beasley, left, as learns an action song from Amy Wilson. Girl Scouts is a participating agency of United Way.

## Snacks By Any Name Still Means Calories

COLLEGE STATION—Waistwatchers remember - food by any name is still food, says a foods and nutrition specialist.

Eating a lot of extra foods or snacks can add up to too many calories even if no one sees you eat them, points out Mary K. Sweeten.

Mrs. Sweeten is with the Texas Agricultural Extension Service, The Texas A&M University System.

Waistwatchers have two wise alternatives:

- avoid snacks altogether, or
- plan snacks as part of the total allotted calories for that day.

This way you will not feel cheated if you see others nibbling.

It doesn't matter how many or how few calories are in a serving of food, a smaller serving will have fewer calories, the specialist says.

Here are some hints for dieters to use in determining if food fits their diet.

Generally, a food is low in calories if it is:

- thin or watery like tomato juice,
- crisp, but not greasy crisp, like celery, radishes, cucumbers, melons and other fruits and vegetables, or
- bulky like many salad greens.

On the other hand, higher-calorie foods will have these characteristics:

- oily or greasy-crisp like

long as he will accept the job.

Alan: "I know you have won before as a player and NPC so you must be cognizant of their respective problems."

Oswald: "The victory also was a triumph for American bidding styles. Here is how Kantar and Eisenberg bid to six diamonds which was a cinch. At the other table Garrozo opened four spades and played it there. With both sides vulnerable the swing was 12 IMPs to America!"

Alan: "Americans never preempt when they have a hand with distinct slam possibilities. Note that even though North had passed, the diamond slam would have made even if North did not have the king of hearts."

(NEWSPAPER ENTERPRISE ASSN.)

By Oswald Jacoby and Alan Sontag

Alan: "The big news of the year was the American victory in the World championship in Brazil."

Oswald: "The team Malcolm Brachman, Mike Passell and Bobby Goldman of Dallas, Paul Soloway of Seattle and Billy Eisenberg and Eddie Kantar of Los Angeles did the playing and held on to score a narrow victory over Italy in the finals. But I feel that a major part of the credit should go to Ed Theus, the non-playing captain for keeping the team happy, alert and in the best form throughout the grueling matches. I know what a tough job the captaincy is, and I hope that the ACBL will keep Ed as NPC as

# Up In Arms Over Revenue Sharing

AUSTIN (AP)—Texas cities are up in arms again, this time over the federal revenue sharing program.

The return of federal funds to the states from taxes collected in those states has been a boon to most Texas cities since it was enacted in 1972. They don't want to give up the money when the program comes before Congress later this year for renewal or discontinuance.

Texas state officials are interested also but not as much as local authorities because the funds received by the state are a very small part of the state budget.

early February his plans to extend revenue sharing for another five years.

"It sounds as if it (the proposal) would continue without much change a program I have always regarded as illogical unwise and potentially damaging to our federal system of government," Rep. Jack Brooks, D-Texas, said recently. Brooks and others tried twice last year to get the program cut back.

General Revenue Sharing is currently fixed at \$6.8 billion a year nationwide. Texas currently receives \$335 million annually with \$144 million channeled to city governments. Under the allocation formula cities and

counties receive funds on the basis of population, tax effort and per capita income. Texas ranks 47th in allocation per capita.

"For the third time since 1972, approval of General Revenue Sharing will be the cities' highest legislative priority in 1980," said a special issue of Texas Town & City, the official magazine of the Texas Municipal League.

Replies from 288 cities in a Texas Municipal League survey showed "that revenue sharing has become a vital, and in many cases indispensable part of the financial structure of city governments," the magazine said. "The consensus of responses to the TML survey was that revenue

sharing's demise would necessitate city employee layoffs, increased taxes and service charges, reduction in capital improvements and in many cities, drastic cutbacks in services."

The TML survey showed that cities under 25,000 get 14.7 percent of Texas' share. Cities between 25,000 and 50,000 get 10.9 percent, 50,000 to 250,000 get 8.7 percent, and cities over 250,000 get 10.1 percent.

The federal sharing funds are used 69.6 percent for capital outlay such as buildings and street improvement but Texas cities also use 30.4 percent for operations and main-

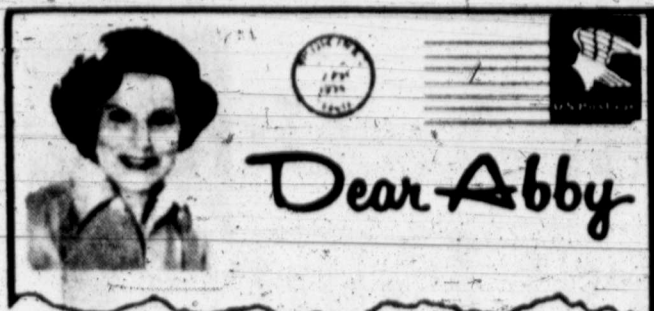

tenance.

When asked what would happen if the funds were limited to one use, 43.4 percent of Texas cities would choose public works, while another 32.5 percent would help police and fire services.

More than 49 percent of

the cities answering TML's survey said termination of revenue sharing would result in increased taxes and reduction of city services.

The population of the Republic of the Philippines is estimated at 46,350,000.

Dear Abby

## Belted Out By Chastity

By Abigail Van Buren

DEAR ABBY: May I comment on your CONFIDENTIAL TO "SHOULD I GIVE IN?" You responded with this and refrain:

"When I met him, I liked him.  
When I liked him, I loved him.  
When I loved him, I let him.  
When I let him, I lost him."

(Author Unknown)

That might have been true once, Abby, but not today. I know many girls (now women) who "held out" and were left out. I am a living example—and a very bitter one. I believed that holding out was the way to get a man, but I lost a number of good men to other women who met their needs for a "total relationship." (Sex.) Now these women are happily married and are righteous pillars of our community, while I spend nights and weekends alone. Now I'm too scared to try a sexual relationship; all I can do is fantasize about one. If only wish I had some real memories.

I know this has no chance of being printed since you need to protect your point of view. Why do you perpetuate such nonsense?

HELD OUT AND LEFT OUT

DEAR HELD OUT: "Letting" a man is vastly different from being a party to a mature love relationship—one in which each gives equally. To "let" someone is to allow yourself to be used.

Have no regrets for not "letting" yourself be used. Regret only having passed up a mature love relationship, playing instead that childish game of holding out, thinking that was the way to get a man.

I don't know your age, but you are never too old for a sexual relationship if you want one.

DEAR ABBY: I am part of a triangle. All three of us are in our 60s.

I have been in love with this man for nearly 30 years. He loves me, but his wife will not give him a divorce—or at least that is what I have been told these years.

I have no social life, and very little family life because I've wanted to be available when my sweetheart found an hour for me.

Nobody talked me into anything. I made this choice a long time ago, and I wasn't a chud then.

Perhaps I'm in a sentimental mood tonight (he's on his way to see me at this very moment). I am playing "our records" on the stereo, the wine is chilling, and the old excitement is still there.

Although legally I have no man of my own, I have no regrets.

HALF A LOAF IN PORTLAND, ORE.

DEAR HALF: It's your life, and I'm glad you're happy. Not everyone can make a banquet out of somebody else's crumbs.

CONFIDENTIAL TO "THIRTEEN AND SCARED TO DEATH OF MY STEPDAD": There is a toll-free hotline for help. Dial 800-621-4000. (In Illinois, it's 800-972-6004). All questions concerning incest will be answered. This problem has existed for a long time, but only recently has it come out of the closet. For an excellent article on incest get the February issue of Teen magazine. It's on the newsstands now. All young people should read it.

Getting married? Whether you want a formal church wedding or a simple do-your-own-thing ceremony, get Abby's new booklet, "How to Have a Lovely Wedding." Send \$1 and a long, stamped (25 cents) self-addressed envelope to Abby: 132 Laasy Drive, Beverly Hills, Calif. 90212.

SIDE GLANCES

# Anti-Nuke Protestors To Lose Publicity If Charges Not Pressed

GLEN ROSE (AP)—Anti-nuclear demonstrators arrested on trespassing charges twice at the Comanche Peak power plant, say if authorities do not press charges, they will lose valuable publicity for their cause.

Somervell County Sheriff Frank Laramore, citing expense to the taxpayers, has said he will not file charges against 103 protesters arrested in November during a demonstration at the North Central Texas power plant near here.

"We like having the trials because we like the subpoena power and the publicity. When you get publicity, you educate more people," said Dallas attorney Tom Mills, who has defended several protesters.

"Obviously we're curious, but I can't really say what our strategy will be," Mills said.

Members of the Comanche Peak Life Force were escorted Nov. 25 after scaling the plant's outer fence with homemade ladders. They were arrested on Class C misdemeanor criminal trespass charges, punishable by a maximum fine of \$200.

Mills said the trials of two protesters arrested in June have been delayed twice, and no trials have been scheduled for others.

Of the two cases that have been tried, one defendant is in jail for refusing to pay a fine and another is pending appeal.

"We just don't know what they're going to do. We don't know how that's going to affect future pro-

tests, if they are not even going to prosecute them," Mills said.

But Texas Utilities Generating Co., operator of the plant, and the Somervell County attorney still could press charges.

The sheriff said he did not consult Somervell County Attorney Charles Jordan before making his decision. Jordan could not be reached for comment, but a secretary in his office said "at the moment, there are no plans" to file charges.

Ray Ward, spokesman for Dallas Power & Light, one of three owners of the power plant, refused comment on the charges.

In announcing his decision Friday, Laramore said, "I think they (the protesters) have got their point over to the people here."

"Mainly, that's what they were trying to do. Their actions are to try to get these people here educated as to what's going on, and I think they've done that."

Somervell County, one of the poorest in the state, simply could not afford to summon 70 prospective jurors and witnesses for 103 separate trials, Laramore said.

## HEALTH

Lawrence E. Lamb, M.D.

### After osteoporosis occurs

By Lawrence Lamb, M.D.

DEAR DR. LAMB—Could you please tell me what to expect the rest of my life? Will I ever recover to live a normal life? Five months ago I found out I have osteoporosis and five weeks later I had two discs collapse and was in the hospital 12 days for complete bedrest. I'm on nine calcium tablets a day plus vitamin D pills twice a week and I am feeling better but still need crutches to go out walking. The doctor wants me to walk a lot. I use a wrap-around girdle to help support me. I'm 61 years old and female and have all my organs. I had my menopause at age 50. Do you think I should have estrogens at this late date?

DEAR READER—For the benefit of others, osteoporosis means porous bones. The bones lose their calcium and substance, which makes them brittle or break easily. It's one of the main causes for broken bones in older people such as a broken hip with a minor fall. It often affects the vertebrae and they may break or collapse as may have occurred in your case. It's responsible for the buffalo hump that you see in many women past the menopause. It affects small women particularly.

I am sending you The Health Letter number 6-10, Osteoporosis: Bone Softening, to give you more detailed information than I can here. Other readers who want this issue can send 75 cents with a long, stamped, self-addressed envelope for it. Send your request to me, in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10019.

It is true that women who are on calcium deficient diets

are five times as likely to develop this problem as women who have plenty of calcium in their diet. That's the reason that I always try to get women to consume a quart of milk, preferably fortified skim milk, each day during the menopause. That amount of calcium will help to protect them from the problem that you now have.

Although there are some enthusiastic claims, about the best that can be achieved once the degeneration has occurred is to stop it. And that's what you're taking the calcium and vitamin D for now.

Regarding estrogens, they are one of the things that will help stop the bone softening in some women. They won't correct the loss of bone that's already occurred. You don't need the amount of estrogen that you might find in birth control pills to achieve this effect.

Dr. Richard L. Landau, an endocrinologist (gland specialist) at the University of Chicago, recently expressed concern that the fear of the harmful effects of estrogen will prevent many women from getting the benefits that they might get from small doses, such as protection against osteoporosis. Of course, if you take estrogens, it would be necessary for you to be under regular, close medical supervision. With your present condition, you're likely to require that kind of supervision anyway.

Once the initial pain difficulties are over from the immediate problems you've had from discs and perhaps collapsed vertebrae, you should then cease to have the pain you have now. Walking is good exercise but it's important not to do exercises that strain or to lift, because the fragile bones may break under the pressure. That's why exercise programs should be individualized for each patient.

(NEWSPAPER ENTERPRISE ASSN.)

## Says Maryland Doctor...

# Fat Not As Bad As First Feared

SAN ANTONIO (AP)—Countless Americans are being needlessly frightened by the perils of being a bit fat when much of the problem may be nothing more than a faulty definition of overweight, contends a Maryland researcher.

Dr. Reubin André of The Johns Hopkins University said Sunday a growing stack of research is refuting the conventional wisdom that being a little bit overweight will take years off your life.

He said that when the standard measure of desirable body weight is used, "one does not see any effect of obesity on total mortality until you reach a level of some 20 percent over the desirable weight -- and much higher in some studies."

### Caroline Wins Nudity Suit

PARIS (AP)—A French court has ordered the publishers of Photo magazine to pay 80,000 francs (\$20,000) in damages to Princess Caroline of Monaco for publishing pictures showing her partially nude.

The court ruled on Thursday that publication of the photographs was not an invasion of privacy because they were taken while she was "on a boat which was close to the coast and therefore accessible to the view of other people."

However, the court added that all people have an exclusive right over the use of their likeness and the right to oppose its unauthorized publication.

scientific meeting, he urged doctors to take "a more relaxed attitude." He said they would tell their patients, "there isn't much evidence that being 10 or 20 pounds over your desirable weight is doing you any long-term harm."

"You may not like it because you don't look good, but it's unlikely you are shortening your life."

The exceptions to that advice, André said, are patients who are at risk for other problems, such as heart disease, high blood pressure or diabetes, that are undeniably aggravated by obesity.

He based his conclusion that "obesity is not as clearcut an evil as we have thought" on a review of recent studies and his own research.

"The problem," he said in a subsequent interview, "is that we really are not certain how to define overweight. We really don't know enough about it at all."

He said the belief that obesity is a leading health problem and has a direct impact on death rates "is so ingrained that it has become scripture for us."

That scripture can be traced to 1959, when insurance companies studied nearly 5 million insured Americans, he said.

The study, published by the Metropolitan Life Insurance Co., also produced a table of "desirable body weights" based on height and body build -- small, medium and large. The table has won nearly universal acceptance.

André outlined study after study that refuted the insurance company finding that death rates increased with even moderate obesity.

He said one fact that's often forgotten is that the 1959 research measured obesity not against the table of desirable weights but against the average weight of Americans. The average American, he said, is 15 to 20 percent heavier than the desirable weight.

When the data are re-computed using the table,

he said, much of the increased mortality disappears and "it begins to appear there's no real discrepancy between the insurance data and all these other studies."

He said a new Metropolitan Life study is due soon and he expects "the desirable weight table, which is in such common use is going to move up some 15 to 20 percent."

### Convicted Of Defrauding Dallas IDS

DALLAS (AP)—A Federal judge has sentenced two men to prison and ordered them to reimburse the Dallas school district \$24,000 each after they pleaded guilty to defrauding the district.

Aubrey Gene Hester, a former employee in the school district's heating and air conditioning maintenance division, was sentenced to 6 months in prison and 4 1/2 years on probation.

Leand Burnell Hall, an Irving businessman, was assessed 2 years in prison and 5 years on probation.

U.S. District Judge Barefoot Sanders said neither man has a prior criminal record, but said that didn't outweigh the fact that "the purpose of the scheme was simply to steal public money."

They pleaded guilty to reduced charges in exchange for their testimony against Hester's former boss, Richard A. Winger, who has pleaded innocent to conspiracy and obstruction of justice charges and 22 counts of mail fraud.

Winter faces a maximum \$37,000 in fines and 130 years in prison if convicted.

# Spurs Strung Up By Atlanta Hawks Again

By The Associated Press  
When the Atlanta Hawks are around, the San Antonio Spurs barely jingle, jangle, jingle.  
After trouncing the Spurs 120-101 in Atlanta Saturday night, the

Hawks began a grueling Western trip with a 107-104 triumph in San Antonio Sunday night, their sixth over the Texans in seven meetings.  
"It was just a great win for us, a sensational way

to start the trip," said Coach Hubie Brown.  
Dan Roundfield had 31 points and Eddie Johnson added 27 in Atlanta's victory over San Antonio that gave the Hawks a five-game lead over the

Spurs and Houston in the Central Division. The Hawks visit San Diego, Phoenix, Los Angeles and Kansas City in the next nine days.  
The Hawks, who led the Spurs 78-68 with 10:41 re-

maining, fell behind 95-90. Roundfield cut the score to 95-92 before John Drew, held to only two points until then, scored the Hawks' next seven points.  
The Spurs, the NBA's

best offensive team, shot a paltry 38 percent. Larry Kenon hit only eight of 25 shots and Gervin, the NBA's leading scorer, made only eight of 24.  
Lakers 100, Celtics 98  
Norm Nixon's two free

throws with three seconds remaining capped a furious Los Angeles comeback. The Lakers, trailing by 14 points, scored 21 in a row as the Celtics went cold in the third period. Kareem Abdul-

Jabbar scored 33 points and Jamaal Wilkes added 21 as Los Angeles handed Boston only its second loss in 20 home games.

Richardson Unhappy Despite...

# Westerners Slap SPC; Win Classic

BIG SPRING—Normally a coach would have nothing but praise for a team that had just won a record four consecutive ABC Classic titles, but after Western Texas College thumped South Plains 107-92 here Saturday, Coach Nolan Richardson was anything but pleased.

He talked to the Westerners behind a closed dressing room door for almost 20 minutes following the contest, and still came out shaking his head.

"I told them... going to have to get with it or we're all leaving Western Texas, me included. Only they're going first," he said.

The third-year WTC coach got hard work out of sophomores Paul Pressey and Bill Patterson, "but wasn't too enthused about the rest of his player's efforts. And he wasn't too happy about giving up 92 points, either.

Actually, Western Texas dominated the contest from beginning to end. Mid-way through the second half, the Westerners had built up a 19-point lead. South Plains came back, however, to cut the margin to seven, before WTC countered with a dozen consecutive points. Later, the Westerners led by almost 30, but won the game by 15.

"We were just going through the motions," said Richardson, who allowed the holiday break took away a good dose of his player's stamina and strength. As a result, the Westerners will probably work extra hard this week, with special emphasis on defense.

Greg Stewart put up 19 points in the game, mostly in the second half, while Phil Spradling added 17. Pressey and Patterson chinked in 14 apiece, and David Brown scored 13. In all, 13 Westerners scored—all that suited up for the game. Pressey—who led in vote

getting for the All-Tournament Team—also had three assists, seven rebounds and six steals. Stewart and Brown came away with seven rebounds also; Patterson had five steals and Franklin Bennett managed five assists.

The 12-point Westerner surge in the middle of the second half saw Patterson pull off three of his steals, and score six points.

WTC defeated Tyler 69-56 and led by as much as 20 points late in the game.

"Man, that's three tough ballclubs. I don't want to take anything away from Amarillo, but I don't believe they had near as tough a first two games as we did."

Like the Tyler situation, Western Texas will get a chance to prove itself again against Amarillo, this time as early as Jan. 17 when the Dusters meet the Lady Badgers in Snyder.

"We're confident we can play with them," Cushing said of Thursday's meeting with Amarillo. "I felt we did not play that bad (Saturday), but we didn't play that well either. I think Amarillo probably played its best game of the tournament."

Amarillo jumped in front 15-5 before WTC could get going, and held at 34-33 halftime lead. Olivia Jones, Amarillo's 6-2 post girl, led the Badgers with 31 points, while Cheryl Robinson added 20 and Kim Arterburn had 12.

Ronnie Butler had 18 points for the South Plains, Jimmy Avery had 17; Rocky Lawless noted 11; and Kenneth Dodd scored 10.

The ABC Classic was won by Western Texas with a 3-0 record, followed by Midland College, 2-1, Howard College, 1-2, and South Plains, 0-3.

Pressey, Spradling and Stewart were all named to the all-tournament team which was manned

by three players each from WTC, HCC and MC and one from South Plains.

Others were: Jackie Vaughn, South Plains; Robert Tate, Charles Johnson and Kevin Willingham, Midland College; and Ron Akins, Kenneth Jones and Mike Wallace, Howard College.

The Westerners, 17-0 and ranked No. 1 in the nation, return to WJCAC play Jan. 17, hosting

Amarillo in double-header action at Scurry County Coliseum.

WTC-Davis 3-4, 5-4, 7; Patterson 8-13, 2-4, 14; Stewart 3-4, 5-12, 19; Alvarado 3-5, 2-4; Bennett 3-4, 0-4, 4; Purdie 1-1, 0-1; Spradling 7-13, 3-4, 17; Vantres 1-3, 0-1, 2; Brown 6-14, 1-1, 13; Prasley 9-10, 3-4, 14; Warren 1-4, 0-5; Dennis 0-2, 2-4, 3; Price 0-0, 3-3, 3. Totals 40-28, 27-20, 107.

SPC-Lawless 1-4-11; Dodd 3-4-10; Butler 7-4-18; Avery 5-11-17; Grigger 1-3-5; Wilson 4-0-8; Vaughn 4-0-8; Snyder 4-1-8; Courtney 3-0-4. Totals 30-32-62. Records: WTC 18-0, SPC 5-11.

## Bengals Try Hermligh

HERMLEIGH—Snyder sophomore and junior varsity boys' basketball teams will bout Cardinal junior varsity and varsity squads respectively here Tuesday evening.

## Girls Host Area Teams

Snyder freshman and eighth grade girls will take on area basketball opponents here Monday. The local eighth grade Black and Gold troops are scheduled to entertain Rotan beginning at 5 p.m. in the high school gym.

Immediately following will be a game between Snyder freshmen and Coahoma.

## Boys Welcome S'water

Snyder eighth grade Gold boy's basketball team will host Sweetwater at 5 in the junior high school gym today.

A previously scheduled game between Snyder ninth grade boys and Sweetwater to be held at 7:30 tonight has been cancelled.

## Austin Dumps Lloyd

CINCINNATI (AP)—Tracy Austin scored a 6-2, 6-1 victory over Chris Evert-Lloyd and won a \$150,000 women's tennis tournament.

Austin breezed to the title, worth \$30,000, winning all 10 sets she played. Along the way, she lost just 20 games and disposed of seeded players Kathy Jordan and Billie Jean King to face Lloyd.

## Borg Stops Gerulaitis

NEW YORK (AP)—Sweden's Bjorn Borg solidified his status as the world's best tennis player by winning the \$400,000 Grand Prix Masters Tennis Tournament with a 6-2, 6-2 victory over Vitas Gerulaitis.

Borg earned \$100,000 for his all-victorious trip through the tournament while Gerulaitis collected \$64,000 as runner-up. Each also collected \$10,000 bonuses for winning their round-robin groups.

## Stadler, Nelson Tied

PALM SPRINGS, Calif. (AP)—Craig Stadler fired a 3-under-par 69 to tie Larry Nelson for the lead with one full round remaining in the 90-hole Bob Hope Desert Classic.

Stadler and Nelson, who finished the third round with a 71, both put together 72-hole totals of 276, 12 shots under par for one round on each of four desert courses. With a day's delay due to rain last week, the tournament was set to end today with the final 18 holes at La Quinta.

# Amarillo Takes The Victory, But Cushing Liked The Effort

COLLEGE STATION—Coach Joe Cushing's Dusters finished in second place here, but he had only praise for his player's efforts.

"I'm very proud of the girls, the way they played and the way they conducted themselves," said Cushing after the championship match in which Western Texas lost to Amarillo 78-73.

Amarillo had a 10 point lead with 54 seconds remaining in the final match of the Lady Aggies Tournament here. WTC trimmed it to four, 77-73 with eight seconds left.

"We just waited too late to start playing," he mused. "I'm not making excuses, but we had to

get up so high for Murray State—ranked No. 8 in the nation—the first day, and again the second day for Tyler. We had something to prove to Tyler and we did it. They beat us by 17 in Big Spring (Hawk Queens Tournament) and we wanted to show them we could play with them."

WTC defeated Tyler 69-56 and led by as much as 20 points late in the game.

"Man, that's three tough ballclubs. I don't want to take anything away from Amarillo, but I don't believe they had near as tough a first two games as we did."

Like the Tyler situation, Western Texas will get a

chance to prove itself again against Amarillo, this time as early as Jan. 17 when the Dusters meet the Lady Badgers in Snyder.

"We're confident we can play with them," Cushing said of Thursday's meeting with Amarillo. "I felt we did not play that bad (Saturday), but we didn't play that well either. I think Amarillo probably played its best game of the tournament."

Amarillo jumped in front 15-5 before WTC could get going, and held at 34-33 halftime lead. Olivia Jones, Amarillo's 6-2 post girl, led the Badgers with 31 points, while Cheryl Robinson added 20 and Kim Arterburn had 12.

For WTC, Shari Teal named to the All-Tournament Team—scored 24 points while Katie Fisher noted 20 and Linda Holube scored 13.

"I really felt that Katie deserved all-tournament, too," said Cushing. "But I am sure that Amarillo thought one of their other girls did also. We were pleased that Shari made it. She deserved it. But we thought Katie should have too."

The Dusters, 14-5, travel to Lubbock for a 7 p.m. game with the Texas Tech Red Raider's varsity, then host Amarillo in a conference game Jan. 17.

WTC-Holubec 5-13, 13; Gregg 3-4, 0-4; Plagens 2-4, 2-4; Fisher 10-20, 0-1, 20; Teal 10-18, 4-5, 24; Hooper 2-4, 0-1. Totals 32-72, 12-18, 72.

Amarillo-Cheryl Robinson 30; Olivia Jones 31; Kim Arterburn 12. Totals 33-76, 12-18, 78. Halftime: AC 34, WTC 33.

## NAACP To Meet Tonight

The local chapter of the NAACP will meet tonight at 7:30 in the Community Room of West Texas State Bank.

Everyone is invited, says Mrs. M.S. Bullock. Members receiving reminders in the mail are asked to contact officers for renewal of memberships, she said. Or they may call: Mr. Hulien Malone at 573-2285; Mrs. R.J. Nelson at 573-9928; Vernest Tippins at 573-5134.

Memberships will be picked up.

## City Firemen Are Kept Busy

Several fires were caused this weekend.

The first was a pickup fire at 301 35th St. Reports show the fire occurred in a 1977 Chevrolet owned by Yale E. Key Co. and resulted in minor damage. It was reported Saturday at 5:30 p.m.

The next fire was Sunday at 2:50 p.m. It was a grass fire about 5.5 miles south of Union. The Fluvanna Fire Department made that call, reports show.

The final fire of the weekend was a grass fire Sunday at 6:40 p.m. in the 3100 block of Ave. E.

## OBITUARIES

### Mrs. Trull

Word has been received here of the death of Norman Trull, mother of Snyder resident Mike Trull.

Mrs. Trull, 66, died this morning. Funeral arrangements are pending at George C. Price Funeral Home in Levelland.

Other survivors are children, Don Trull, Betty Shults, and Melba Jones, all of Sundown, Dwain Trull of McCamey, Mary Crenshaw of McKinney, Dale Trull of Levelland, and Nita Hayes of Edmund, Okla.

### Dillaha

Carl A. Dillaha Sr., 80, died today in Little Rock, Ark. Services are pending at Griffin-Leggett Funeral Home in Little Rock. Burial will be in Oaklawn Cemetery there.

He was born in 1899 in Little Rock and lived in Snyder from 1973 until about three weeks ago when he returned to Little Rock. He was preceded in death by his wife, Thelma.

He was the father of Snyder physician, Dr. Carl A. Dillaha Jr. Also surviving is a daughter, Janis Young of Boston, Mass.

Dr. Dillaha's office will be closed this week due to his father's death.

The Snyder (Tex.) Daily News, Mon., Jan. 14, 1980 11

## Court Hears Guilty Pleas

Seven guilty pleas were entered Friday in 132nd District Court.

Four of the guilty pleas were entered by defendants charged with theft following a shoplifting spree last October in which clothes worth an estimated \$1,100 were stolen.

Entering those pleas were Mary Vidaurre, Norma Vidaurre, Angelita Ruiz, and Alicia Valderaz, all of Slaton. All drew two-year probations.

Probation was granted Ricky Rios, 420 30th St., on an aggravated assault charge.

Rios was charged with threatening the life of Luther Williams Oct. 20. He received a three-year probated term on a guilty plea.

Probation was also granted Ollie Pike, Rt. 2, Box 155, on a drunken driving charge. His probation was for a term of three years.

The only jail time assessed was for Stephen Dale Shoemaker, 500 33rd St. Shoemaker was assessed a 90-day sentence to be served in the Scurry County jail on a drunken driving charge.

Final sentencing in the Shoemaker case is set for Jan. 21.

## Two Mishaps Reported Here

Two traffic accidents were reported to city police officers Saturday.

The first was at 2500 College Ave. at 10:30 a.m. It involved a 1972 Pontiac driven by Melynda Crow and a 1973 Ford driven by Leonard Keller.

The second was at 1500 25th St. at 1:10 p.m. There, a 1972 Chevrolet driven by Curtis McGlouthin and a 1979 GMC driven by James Wilson collided.

Both accidents resulted in minor damage. Both were worked by officer Kerry Fritz.

## Hesitant Cop Shot Six Times

HOUSTON (AP)—A Houston policeman shot six times during a chase with an armed burglary suspect said he hesitated before pulling the trigger because of the publicity surrounding recent police shootings.

And in that moment's hesitation, Larry Tuttle was shot in the head, arms, legs and feet.

## SDN POLITICAL COLUMN

# NEW VENTED GAS SPACE HEATERS.

## Available Now at Lone Star Gas in Snyder.

The ideal replacement for unvented gas space heaters. Sensible, economical source of heat for add-on rooms, garages, workshops. Excellent supplementary heat for central heating systems in new and older homes.

- Safe • Reliable • Can be installed in frame or masonry exterior walls • Vents directly outside • Uses only outside air for combustion chamber • Requires no special flues or chimneys • Automatic heat regulation • Works with or without the optional forced-air blower for one-energy reliability.

Financing Available Lone Star sells and installs these vented gas space heaters. Terms are available. Phone us for more information. Or visit our office and see these new heaters on display.

Direct vent heaters require only an outside wall through which concentric tubes vent the products of combustion and allow air to enter for support of combustion. Heated room air is not vented to the outside.

Limited time only — special trade-in allowance on your unvented gas space heater. Now at Lone Star Gas Company.

## Lone Star Gas Company

Gas. It's plentiful, efficient and right for the times.
