

Bani-Sadr Repeats Demand For Guilt

By The Associated Press
Iranian President Abolhassan Bani Sadr has repeated his demand for a U.S. admission of guilt for alleged misdeeds during the shah's reign as a condition for the release of the American hostages. Tehran radio said today.

The inquiry by an international commission into Iranian allegations against the deposed shah will not be sufficient to ensure the release of the 50 Americans, now in their 107th day of captivity. Bani Sadr was quoted as

saying after a meeting of the ruling Revolutionary Council Sunday night.

One of the hostages in Tehran, U.S. Marine Cpl. William Gallegos, said in a filmed interview that he had expected the shah to be returned to Iran in the second week of U.S. Embassy siege. He said after two weeks he had thought he would remain in the embassy forever or leave in a plastic bag.

Gallegos and Marine Sgt. Paul Lewis spoke on Feb. 10 with a group of the visiting 49 members of the

Committee for American-Iranian Crisis Resolution. The interview was filmed by Greek television and broadcast on NBC TV's "Today Show."

Bani Sadr's declaration came as U.N. Secretary-General Kurt Waldheim was awaiting the Iranian government's response today to his choice of a five-member commission that will probe Iran's charges against the deposed monarch, now living in exile in Panama.

"The freeing of the hostages will depend on the compliance by the United States to three Iranian conditions," he was quoted as saying in a report monitored in Kuwait.

It listed the conditions as:

"Admissions by the United States that it had interfered in Iran's internal affairs during the rule of the shah. A pledge to refrain from any such interference in the future. A promise not to block efforts by the Iranian government to ensure the extradition of the shah and the recovery of his fortune."

Bani Sadr's statement confirmed a hard line tack he took in two weekend interviews and offset statements he made last week indicating that the Americans might be released once the U.N. commission began its inquiry.

DISTRICT CHAMPIONS—Snyder High School girls captured their first District 3-AAA basketball championship Saturday, defeating San Angelo Lake View 46-44 in overtime. Monday update

Abilene Oilman Dies

ABILENE (AP)—Funeral services were pending Monday for James P. Pat Dunigan, 55, well known Abilene oilman.

Dunigan died about 6:45 p.m. Sunday, apparently of a heart attack. He was board chairman of Dunigan Enterprise, a firm which produced, explored, gathered, marketed crude oil in West Texas.

He also was past board chairman of Pride Refining Inc. and First State Bank of Abilene.

Fire Fatal To Five

OCONOMOWOC Wis. (AP)—A fire that apparently spread from a woodburning furnace killed five persons early Monday. Waukesha County authorities reported.

Four other persons escaped from the fire, which struck the Lawrence Fuchs home in the Town of Oconomowoc.

Chief Thomas Gukich of the Oconomowoc Police Department said the fire was reported about 3:15 a.m., with the first call apparently coming from someone in the house.

Ag Movement To Stay Busy

WARRENTON, Va. (AP)—The national chairman of the American Agriculture Movement says age is not making the organization any tamer as it prepares for its third annual assault on Capitol Hill.

"We certainly are going to remain vocal, very vocal, and we need to blast those that blast us and blast those that are advocating a cheap food policy," Marvin Meek of Plainview told several hundred farmers gathered here Sunday for a rally.

The farmers were to head for Washington, about 45 miles away, later Sunday and today. However, they planned to travel individually or in small groups instead of the large motorcades that have characterized their visits to the nation's capital the past two years.

Tito Still Ailing

BELGRADE, Yugoslavia (AP)—President Josip Broz Tito showed no improvement today in spite of continued intensive treatment, his doctors said.

They said their efforts had been concentrated on the 87-year-old Yugoslav leader's weakened kidneys.

It was the second consecutive day that the ailing president's medical panel reported no improvement resulting from their intensive care.

"The general state of health of President Josip Broz Tito is without change," the two-sentence bulletin carried by the national news agency said.

Founder Dies In Explosion

PUEBLO, Colo. (AP)—Dangerous ammonia gas was released when an explosion rumbled through the Mountain Ice and Coal Co. here, killing the 81-year-old founder of the firm and forcing evacuation of a nine-block area.

Lynn L. Belcher, the only person inside the plant when the blast occurred, suffered bone fractures and severe burns over most of his body. He died two hours after the explosion Sunday at Parkview Hospital, authorities said.

Eighteen other persons—most of them firefighters and police officers—were treated at area hospitals for inhalation of ammonia fumes and released, authorities said.

Kennedy Trailing 2-1

KEENE, N.H. (AP)—A survey taken by Sen. Edward M. Kennedy's own pollster shows Kennedy trailing President Carter by a margin of about 2-to-1 among Democratic and independent voters in New Hampshire, sources say.

Aides traveling with Kennedy said Sunday night the survey, taken by pollster Peter Hart, shows a sizeable group of uncommitted voters, said by one source to be about 25 percent.

The New Hampshire primary is Feb. 26.

Replacements For Striking Firemen Hired In Chicago

CHICAGO (AP)—The city began hiring replacements today for striking firefighters who remained off the job for a fifth day, defying a court order despite \$40,000 a day contempt fines.

About 400 recruits crossed picket lines manned by about 100 taunting firefighters to report for their first day of work.

Security was tight at the Fire Department Gymnasium, where new recruits notified over the weekend were filling out personnel forms.

"I've been waiting six years for the job, but I'm not going to get my head bashed in for it," said one recruit.

Mayor Jane Byrne said the recruits, taken from the department's eligibility list, will undergo a crash two-week training course, then report for work under supervision.

Mrs. Byrne said the positions, being offered for 90 days, probably would become permanent. "I think there will be enough vacancies created through dismissals to create room for them and more."

Defiant union leaders have vowed to keep firefighters off the job despite the contempt ruling.

There will be no work "without a signed, sealed" contract, Chicago

Foundation Membership Session Set

The Scurry County Industrial Foundation has scheduled its annual membership meeting for 4 p.m. Tuesday in the Chamber of Commerce conference room.

Members of the foundation have been casting ballots for a slate of four directors and results of the voting, which has been conducted by mail, will be announced at the meeting.

Terms of Dr. Gene McClurg, Tommy Davis, Paul Sizemore and Roy McQueen expire, and candidates proposed by a nominating committee are Don Wolfe, Mal Donelson, Ernest Sears and John Greene.

Officers will be elected following the board election.

But Not For Women

Congress Favors Draft Registration For Men

WASHINGTON (AP)—Congress appears ready to restore military draft registration, but only for males—as President Car-

ter's controversial plan for registering youths of both sexes begins an uphill trek through the House and Senate.

Also in apparent trouble this week in Congress is a proposal to force the FBI to turn over to congressional investigators videotapes and other evidence it has collected thus far in its "abscam" bribery inquiry.

The House is observing the Washington's Birthday federal holiday today like many other Americans, by not working, while the Senate has scheduled a brief session that will include a reading of George Washington's farewell address.

It's the first time since 1929 that the 45-minute address hasn't been read in both the House and the Senate.

House leaders, noting that the address is usually delivered to an empty chamber and that Washington himself never gave the speech but only submitted it in writing, decided this year to ditch the custom.

The Senate also was to consider legislation today establishing a Channel Island National Park off the southern California coast.

The park would be comprised of eight islands lying roughly off the coast of Santa Barbara. Two of them have been a national monument since 1938.

The bill was passed by the House last summer. When the House returns to work Tuesday, the Armed Services subcommittee on personnel begins hearings on the president's proposal to require women as well as men to register in case the military draft is ever reinstated.

Carter's proposal would require the initial registration of all persons aged 19 and 20.

Ask Us

Q—Was "Black History Week" observed only at Central Elementary School and if so, why?

A—A check with local schools indicates that "Black History" week was recognized through the system in various ways, in much the same manner that other special emphasis features are treated. There were library displays, some had special emphasis in classrooms and one school had a visiting speaker from out-of-town to exhibit some black art. Administrators reported that notices of the event were distributed to the various schools and methods of observance were left to the discretion of the principals and teachers.

Texas Begins Warming

By The Associated Press
A warming trend was under way in Texas today, although if you live in Midland where it was 23 at dawn, you might ask the meaning of "warm."

Forecasters insist temperatures will rise today and Tuesday into the 50s, 60s and even the 70s, a sharp contrast to the cold weekend in which snow and sleet frosted parts of the state from the northern border to the Hill Country.

Tax Contracts On College's Agenda

Contracts for tax assessing and collecting service will be considered by the Scurry County Junior College Trustees at their regular meeting this evening.

The meeting is set for 5:45 p.m. in the board room of the Western Texas College Administration Building.

Contracts have been drawn up authorizing the Scurry County Appraisal District to assess the taxes and for Scurry County's tax office to collect the taxes for the college district. All other taxing jurisdictions in the county already have approved similar contracts and college board members indicated approval in an informal poll earlier.

Favorable action on the contracts will be the final official step in bringing all of the county's taxing jurisdictions into the appraisal district and into contracts with the county for collections.

Other business on the agenda includes formal approval of the order and notice of the trustee election set for April 5, revision of the WTC summer school dates, a revision of policy on personnel contracts and a new LVN scholarship program.

Reports are due on a proposal to construct additional handball courts at WTC, insurance for college vehicles, a faculty inflation study and the WTC Scholarship Foundation.

Council Sets Special Meet

A special meeting of the Snyder City Council has been called for 2:30 p.m. Tuesday in the council room at city hall.

The council is scheduled to hear a report on a Federal Insurance Agency study on flood insurance and consider a contract with the County Appraisal Board and the Scurry County Commissioners Court for data processing service.

Canadians Go To Polls To Pick New Parliament

TORONTO (AP)—Canadian voters appeared to be turning out in large numbers under clear skies today in a nationwide election for a new Parliament, choosing as leader either conservative Prime Minister Joe Clark or the politically "born-again" Pierre Elliott Trudeau.

Voting began in the Atlantic Maritime provinces, where many districts reported a brisk turnout shortly after polls opened at 9 a.m.

One polling place in Newfoundland had to be plowed out from under drifting snow, but Canada's often-brutal winter weather generally seemed to be cooperating. The only bad weather—rain and snowstorms—was forecast for British Columbia, on the west coast.

Clark, elected only last May, had asked voters for a "fair chance" to carry out his tough economic programs. But the opinion polls indicated they would not give him another

Conservation Association Session Here

Representatives of 22 organizations are due here Tuesday for a meeting of the South Plains Association of Soil and Water Conservation Districts.

The association will meet at 10:30 a.m. in the Fine Arts Auditorium on the Western Texas College Campus.

W.L. "Bill" Wilson Jr., of Big Spring, who is president of the association and also chairman of the Upper Colorado Soil and Water Conservation District, will preside over the meeting.

Officers will be elected at the session here.

PARTLY CLOUDY

WEATHER

SNYDER TEMPERATURES: High Saturday, 30 degrees; low, 23 degrees; reading at 7 a.m. Sunday, 23 degrees. Highs Sunday, 32 degrees; low, 23 degrees; reading at 7 a.m. today, 27 degrees; precipitation, .02; total precipitation for 1980 to date, 1.03.

West Texas: Partly cloudy through Tuesday with a warming trend. Widely scattered showers southwest Tuesday. Highs today mostly 50 except upper 60s to low 70s southwest. Lows tonight mid 30s north to upper 40s southwest. Highs Tuesday mid 60s north to upper 70s extreme south.

DENNIS THE MENACE

Third Of Texas House Members Not Opposed

By LEE JONES, Associated Press Writer. AUSTIN (AP)—Voters won't have any choices to make in electing almost a third of the members of the Texas House this year.

Barring upsets by write-in candidates, 46 of the 150 House members were in effect re-elected on the Feb. 4 candidate filing deadline because no body filed against them. Three senators of the 16 whose seats will be filled by this year's elections—Carl Parker of Port Arthur, Tati Santiesteban of El Paso and Walter Mengden of Houston—also drew no opponents. John Liston of Orange, says, however, he will run against Parker as a write-in candidate.

House members who are home free include four conservatives who have lined up for a shot at the 1961 speakership if Speaker Bill Clayton's troubles with an FBI "sting" investigation cause him to resign. Clayton appointed each to an important committee chairmanship last year.

They are: —Rep. Gib Lewis, D-Fort Worth, chairman of the House Committee on Intergovernmental Affairs. —Rep. Tim Von Dohlen,

D-Goliad, chairman of the House Committee on Regions, Compacts and Districts, and speaker pro tem of the House. Clayton chose Von Dohlen to oversee 1961 legislative and congressional redistricting and to make preparations for the politically and technically exhausting task.

—Rep. Bennie Bock II, D-New Braunfels, chairman of the House Committee on Environmental Affairs.

Skating to elections without opposition will give speaker candidates plenty of time to seek advance pledges of support from other representatives. Clayton himself is unopposed for a tenth two-year term as representative from a chiefly agricultural district northwest of Lubbock.

Clayton has a subpoena to tell a federal grand jury next month about his encounter with FBI plant Joseph Hauser and union leader L.G. Moore of Deer Park in which Moore left \$5,000 behind as a "political contribution."

Several representatives and lobbyists say they believe Clayton would resign as speaker if he is indicted. That could set

up a speaker election in August if Goy. Bill Clements goes through with his plan for a special legislative session then.

Normally, House members choose the speaker at the start of each regular session in January of odd-numbered years.

Rep. John Bryant, D-Dallas, the only member to challenge Clayton for the 1961 speakership, has both Democratic primary and general election opponents.

Key House members who will return without opposition include Rep. Bill Presnal, D-Bryan, chairman of the House Appropriations Committee, and veteran committee members Bill Healey, D-Paducah, and

Bill Hollowell, D-Grand Saline.

Two representatives with key responsibilities in oil and gas affairs also are unopposed, Chairmen Tom Craddock, R-Midland, of the Natural Resources Committee and Joe Hanna, D-Breckenridge of the Energy Resources Committee.

There will be no incumbents in three Senate races because Sen. Bill Patman, D-Ganado, decided to run for Congress and Sens. Bill Braecklein, R-Dallas, and Tom Creighton, D-Mineral Wells, chose to retire.

Dr. Milton Davis, a high-profile member of the Texas Medical Association, will take on John Leedom for the GOP

nomination for Braecklein's seat. The winner will face Ron Kessler, the lone Democratic candidate, in November.

Rep. John Wilson, D-La Grange, is the best known candidate for Patman's seat and announced even before Patman decided to run for Congress. Other candidates are James Lee Carroll, Democrat, of Temple and Bill Buckner, Republican, of Georgetown.

The candidate with the greatest name identification in the race to succeed Creighton is former Rep. Walt Parker, D-Denton, a National Football League part-time official and ex-director of the State Property Tax Board. Others are Demo-

crat Bob Glasgow of Stephenville and Jay Brummett, Republican, of Cleburne.

Sen. Grant Jones, D-Abilene, chairman of the Senate Finance Committee, drew a proven vote-getter as a Democratic opponent when Roland Arriola, a Waco city councilman, filed against him.

Jones's district runs hundreds of miles, east-to-west, and Waco is the largest population center. Arriola, a television news reporter, contends Jones doesn't pay enough attention to Waco and works harder for the insurance lobby than for his constituents.

Rep. Ron Waters, D-Houston, dropped out of

his House race to take on Sen. Jack Ogg, D-Houston, in the Democratic primary. Four Republicans also seek Ogg's post.

Ogg sponsored presidential primary legislation last year that critics said was designed to boost John Connally's presidential chances and protect conservative Democrat legislators.

This year's primaries also will test public feeling toward the "Killer Bee" senators who brought Senate business to a halt last May by hiding out for several days.

Of the six Killer Bees seeking re-election this year, only Parker did not draw an opponent. Killer Bee Sens. Gene Jones of

Houston, A.R. Schwartz of Galveston and Carlos Truan of Corpus Christi have opponents in both the Democratic primary and the general election. Sens. Ron Clower of Garland and Glenn Kothmann of San Antonio escaped primary challenges but have Republican opponents in November.

The Killer Bees said their walkout protested a change in procedural rules that was designed to pass Ogg's presidential primary bill.

Pap test for prostate?

By Lawrence Lamb, M.D.

DEAR DR. LAMB — I had heard that there was some kind of a pap test for men for their prostate called the acid phosphatase test. So I told my husband when he went to see the doctor to ask to have that test done. The doctor said he would be glad to request it and it was a blood test. They simply drew blood from the arm. This puzzles me. How you can check for the prostate without doing something more direct to it.

DEAR READER — The acid phosphatase test is often helpful in determining whether a cancer of the prostate has spread. This is simply a chemical reaction that results from the action of the spreading cancer. It can also be found in some other disorders in which there's active destruction of bone tissue. So it's not a specific test.

There are a lot of blood tests either developed or in the stage of being developed that are used for the early detection of cancer. Many cancers cause chemical changes in the body. As these tests are refined, it will probably add a whole new dimension to the early diagnosis and treatment of cancers that are too small to be felt or detected by physical examination.

There are some new blood tests in the developmental and testing stage for detecting cancer of the prostate, too. These always have to be evaluated over a period of time in enough people to find out how often they're positive in people who are perfectly normal and how often they are negative in people who have cancer. In any case, it certainly is a step in the right direction and looks promising.

At this time the most commonly used test used for the early detection of cancer of the prostate is by feeling the prostate. The doctor feels the little lump that's developed. This has to be done by means of a rectal examination.

It's important that such an examination be done in every man past age 40 at least once a year. Those cases which are detected very early have the best chance for treatment.

I am sending you the Health Letter number 1-6, Prostate Gland. Other readers who want this issue can send 75 cents with a long, stamped, self-addressed envelope for it.

Send your request to me, in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10019. It includes information on cancer of the prostate and early detection.

Most people do not realize that cancer of the prostate is the third most common cause of cancer deaths in men. A public education program is badly needed about men's cancers. The curable rate of cancer of the prostate in men at Walter Reed Army Hospital is 50 percent and only 5 percent in the civilian population. That marked difference is because the army personnel got regular examinations after age 40 and the civilian men did not. A prostate examination at least once a year after age 40 can be life saving.

(NEWSPAPER ENTERPRISE ASSN.)

Basin's Rig Count Drops

Permian Basin oilfields had 299 drilling rigs in operation last week, a decline of 11 from the previous week, according to Reed Rock Bit Company's weekly survey.

A year ago at this time, there were 222 rigs running in the Basin. Lea County, N.M., had a gain of one unit, giving it a total of 44 to lead the Basin-Pecos County, with 22 rigs making hole, was the leader in West Texas.

Scurry County had no rigs running last week, compared to two the week before. Figures for other area counties, with last week and the week before: Borden 6 and 3; Dawson 5 and 7; Garza 3 and 3; Howard 8 and 10; Kent and 2; Mitchell 2 and 4.

An estimated 40 million persons in the U.S. will make job changes during the '80s. More than half are expected to enter the "open" doors of community colleges seeking career training or re-training.

Bush Gains Momentum In Puerto Rico Sweep

By LEW WHEATON
Associated Press Writer
SAN JUAN, Puerto Rico (AP)—George Bush says winning all 14 delegates in Puerto Rico's first-ever presidential primary will give his presidential bid continued momentum for the New Hampshire primary next week.

GEORGE BUSH

Bush defeated Sen. Howard Baker of Tennessee by a 3-2 margin in the Republican balloting Sunday in 1980's first presidential primary. Former California Gov. Ronald Reagan, not on the ballot here, received a handful of write-in votes.

The victory gave Bush a total of 17 committed delegates on the first ballot at the Republican National convention this July in Detroit. Reagan has nine delegates; Baker, five. It takes 998 to clinch the nomination.

ballot, Bedo Istvan Karoly of Washington, D.C., got 87 votes and Gerald de Felice of Hamden, Conn., got 48. Reagan, who was not on the ballot, received about 50 write-in votes.

Class Prepares For GED Test

Adults who would like to prepare for GED tests may enroll in afternoon or evening Adult Education classes, offered without charge for adults who have not completed high school.

TOP SHOWMEN—Kenny Riley, left, the son of Mr. and Mrs. Tommy Riley, and Becky Harrell, the daughter of Mr. and Mrs. Sonny Harrell, were presented showmanship awards at the conclusion of the annual Scurry County Junior Livestock Show last week. Presenting the awards was Ernest Sears, center. Riley was named top showman for the Future Farmers of America, (FFA) and Miss Harrell was presented the showmanship award for the county 4-H chapter. Both were in the lamb division. Also winning showmanship awards were Chip Roemisch of the Hermligh FFA and Glenn Beaver of the 4-H Club. Roemisch, son of Mr. and Mrs. Jimmy Roemisch, was pictured in the Sunday paper with his grand champion lamb. Beaver, son of Mr. and Mrs. Ronny Beaver of Snyder was pictured with his reserve champion steer. (SDN Staff Photo)

BIRTHS

Mike and Teresa Jones, 710 26th St., are parents of a boy weighing 8 lbs. 3/4 ozs. born at 10:40 p.m. Feb. 14 at Garza Memorial Hospital in Post. He has been named Tommy Wayne.

BREEDER'S AWARD—John Reed, left, presented the lamb breeder's award to Jimmy Beck of Hermligh. The award was presented Friday night. (SDN Staff Photo)

BEST BREEDER—The breeder's award in the steer division went to Harold Mason of Hermligh. He was presented the award Friday night, near the end of the annual Scurry County Junior Livestock Show. (SDN Staff Photo)

Photographs Are Recovered

Photographs belonging to the John Stewart family, which were believed to have been stolen along with numerous other family belongings, have been found, said deputy sheriffs this morning. Deputies added that the photographs had mistakenly been reported as having been stolen.

A reward which had been offered for the return of the pictures is still in effect, deputies noted.

only now it is for the recovery of other family belongings stolen when a rented stall at U-Rent-Storage was broken into nearly two weeks ago. Among the items that were taken were a water bed, a stereo and four speakers, a food processor, a small organ, and a stamp collection. Total loss was estimated at over \$1,000. Persons having information concerning the whereabouts of the items should contact the sheriff's office.

Breakthrough In Asthma Research

WASHINGTON (AP)—Scientists searching for more effective ways to treat asthma have taken a giant step forward by discovering how to make the rare but potent chemical that spurs asthma attacks.

The advance, made public Sunday, caps a 40-year effort by scientists around the world to analyze and synthesize the chemical that stimulates asthma attacks and allergic reactions. The discovery, outlined in the Journal of the American Chemical Society, means researchers finally will have large quantities of the rare chemical to study.

This could speed work on new, more effective treatments for asthma and severe allergic reactions known as anaphylaxis, said the scientists. More than 2 million Americans suffer in varying degrees with asthma, a respiratory condition resulting from restricted airways in the lungs, say health authorities.

Scientists at Harvard University and the Karolinska Institute in Sweden worked together to determine the chemical structure of the potent molecule and developed a way to make it synthetically. The body contains very minute amounts of the chemical, called either slow-reacting substance (SRS) of anaphylaxis or leukotriene C.

Although only found in trillionths of a gram quantities in tissues, SRS is such a potent muscle contractant it can severely constrict the small airways of the lung. SRS is released when antibodies respond to foreign substances a person is allergic to, such as plant products or insect venom.

Dr. Elias J. Corey of Harvard said the effects of SRS are similar to Farm Bureau Is Opposing Beferendum

WACO—Texas Farm Bureau Board of Directors reaffirmed the state's largest farm organization's total opposition to the proposed federal Beef Referendum, according to TFB President Carrol Chaloupka, a cattleman from Dalhart.

those of histamine, another muscle contractant. While histamine causes muscles to contract suddenly and then return to normal, SRS's effects come on more slowly and last longer, he said. Antihistamines have been developed to counter the effects of histamines, but are ineffective against the action of SRS. However, Corey said anti-SRS drugs may one day be developed to combat asthma and anaphylaxis.

The lack of enough SRS to study is one reason it took so long for scientists to determine its chemical structure, a necessary step in understanding the molecule's function and in synthesizing it.

Contracts Get County's Okay

Scurry County Commissioners Court this morning approved a contract for a voter registration printout for the county clerk and a contract for a mailing and postage machine for the county tax office.

OBITUARIES

D.W. Hargrove
Funeral arrangements were pending at Bell-Seale Funeral Home for D.W. Hargrove, 71, who died this morning at his home at 2606 Ave. G.

Justice of the Peace Dan Callaway attributed death to natural causes. A native of Pittsburg, Tex., Mr. Hargrove was a retired service station operator.

He is survived by his wife, Mary of the home; a daughter, Marianne Roemer of Big Spring; three sons, Addis Hargrove of Midlothian, Robert Hargrove of Dallas, and James Lynn Hargrove of San Antonio; a sister, Mrs. J.J. Smith of Talco; a brother, W.L. Hargrove of Cleveland, Tex.; and five grandchildren.

Dallas Student Seeks Stop To School Prayer
DALLAS (AP)—A "very religious" high school sophomore said she is prepared to go to court, if necessary, to stop the prayer she hears each day on the school public address system.

"Personally, I'm a very religious person," said Constance Adams, 15. "But I'm deeply offended that Highland Park High School has chosen to ignore the fundamental precepts on which this country was founded—freedom of religion and separation of church and state."

Principal E.A. Sigler said school attorneys think the daily prayer is legal, since it is not an administration activity but one undertaken by the student council, which votes on the matter each school year. Judith Time, with the Dallas chapter of the American Civil Liberties Union, calls that explanation "nonsense."

Tennessee Crops Addicted To Sulfur Pollution

KNOXVILLE, Tenn. (AP)—Corn, cabbage, cotton and other crops have become addicted to sulfur dioxide pollution from power plants, and cold turkey withdrawal from the daily 15,000-ton habit could cost more than \$300 million a year in crop

losses, a Tennessee Valley Authority researcher says. Eliminating or reducing the sulfur dioxide pollutants coming from TVA plants in seven states could eventually cut farm production as much as 10 percent, says J.C. Noggle,

a TVA soil chemist in Muscle Shoals, Ala. And to avoid such a costly crop loss, he said, farmers would have to spend more than \$6 million annually to add sulfur to fertilizer. Noggle has concluded after four years of research that air pollution

from coal-burning power plants has taken the place of fertilizers in providing the sulfur nutrients needed by many crops. "The air pollution problem is complex and this is just one little parcel of it," Noggle said. "But if we clean up the air, then

the cost of putting sulfur back into fertilizers should be considered in the costs of the cleanup." TVA, under pressure from court suits and the threat of fines, is spending \$6 billion in a program that will raise its consumers' electric bills 10 per-

cent by 1983 to reduce its sulfur dioxide pollution 40 percent over the next five years. Sulfur dioxide has been linked with human lung ailments and even Noggle agrees that excessive sulfur pollution can harm plants. He has proposed

more studies to determine the benefits of pollution to plant life, however. "The notion that it is essential or desirable or even marginally acceptable, to continue supplying sulfur indiscriminately by using polluted air masses instead of fertilizer is just

that - fertilizer," said Norman Glass, a researcher for the Environmental Protection Agency in Corvallis, Ore. Behind nitrogen, phosphorus and potassium, sulfur ranks fourth as the nutrient most needed by crops, Noggle said.

Winter Olympics Continue...

Proell, Muller Dreams Come True

LAKE PLACID, N.Y. (AP)—The years of frustration melted away in one marvelous moment of triumph for Austrian ski queen Annemarie Moser-Proell and American speed skater Leah Mueller...

Moser-Proell's decisive victory in the women's downhill Sunday ended eight years of waiting for an Olympic gold medal for the Austrian star...

in the 1,000-meter speed skating behind Natalia Petrusheva of the Soviet Union. Sunday's other winners included Russians Irina Rodnina and Aleksandra Zaitseva...

land. The 70-meter special ski jump went to Austria's Anton Innauer. As the Games turned into their final week, the Soviet Union and East Germany each had 11 medals...

medals overall. Much of the drama Sunday was centered on the frigid slopes of Whiteface Mountain where whistling winds created a 50-below zero chill factor...

the mountain in a spectacular 1 minute, 37.52 seconds. She was immediately surrounded with Austrian officials and fans who congratulated her.

Baker Breaks Daytona 'Luck'

DAYTONA BEACH, Fla. (AP)—Buddy Baker finally has reached a long-time goal that a mocking string of bad luck had turned into an obsession. "If I had to quit racing tomorrow, now I would feel like I've had a good career," Baker said Sunday after his record-smashing Daytona 500 victory laid to rest his "Bad-Luck Buddy" Daytona nickname.

throttle style some blamed for a series of mechanical failures that had stopped him in the past. In 1973, '75 and '78, Baker led the Daytona 500 before being forced to drop out.

"I'm just so proud. I've got a lot of things to say and I can't get them out," said Baker, his wide face showing both joy and relief, knowing he was able to reach the finish line despite a virtually empty gas tank.

Neil Bonnett took third, with a helpful push from Don Whittington after Bonnett's engine failed on the final lap. Dale Earnhardt was fourth and Denny Parsons fifth, while six-time 500 champion Richard Petty finished 25th after experiencing mechanical problems.

Johnson Guides Sonics Past Boston Celtics

By The Associated Press The way the Seattle SuperSonics were hitting, Dennis Johnson was a longshot to make one against the Boston Celtics. But the way they were rebounding, actually it didn't matter.

"Seattle had better second shots than first shots all day," noted Boston Coach Bill Fitch, referring to the Sonics' incredible 32 offensive rebounds in Sunday's National Basketball Association game.

pro cage summary table with columns for Atlantic, Central, Western, Midwest, and Pacific divisions, listing teams and scores.

Colbert Holds Lead At Tucson Open

TUCSON, Ariz. (AP)—The grass on the other side of the fence looked greener to Buddy Allin, but he found that green grass won't buy much. Allin, who quit the rigors of the PGA tour almost two years ago to take a club pro job...

71-52 advantage. In other NBA games, Los Angeles trimmed Washington 111-107; Kansas City edged San Diego 108-107; Atlanta beat Detroit 108-99; Indiana topped Chicago 106-100.

John's winning shot came "when I wanted it," said Seattle Coach Lenny Wilkens. "If he missed, we had the chance for the rebound."

The Sonics, Pacific Division leaders with a 45-16 record, were outshot by the Atlantic-leading Celtics 44-15 from the field 48 percent to 41. But they beat the Celtics off the boards by a whopping

WTC Faces Badgers Tonight In Amarillo

AMARILLO — Western Texas College is scheduled for Western Athletic Conference basketball action here tonight at 6 and 8 o'clock. The Amarillo Lady Badgers are hoping to remain alive in the race for a Region V Tourney. The Badgers, 17-9 on the season, are 7-7 in the conference standings...

back. Howard College leads the women's ranks with an 8-1 figure, followed by Odessa at 8-2. Though both WTC and Amarillo are already assured of a tournament berth (March 5-8), seeding becomes important for the top teams.

Tonight's winners could wind up in second place with some help from outsiders. Howard and Odessa also battle tonight, and Amarillo still has a date with Howard on Feb. 28.

Diamond-Men Take On Abilene Tuesday

ABILENE—Snyder's varsity baseball team is scheduled to scrimmage Abilene High here at 4 p.m. Tuesday. A scrimmage Saturday at Midland Lee was cancelled by the Tigers, due to weather problems.

10-B Tourney Begins At Local Gym Tonight

Snyder High School Gym will be the scene of a District 10-B boys basketball tournament which begins at 6:30 tonight. The meet will hold its championship game, also at SHS Gym, 7 p.m. Friday.

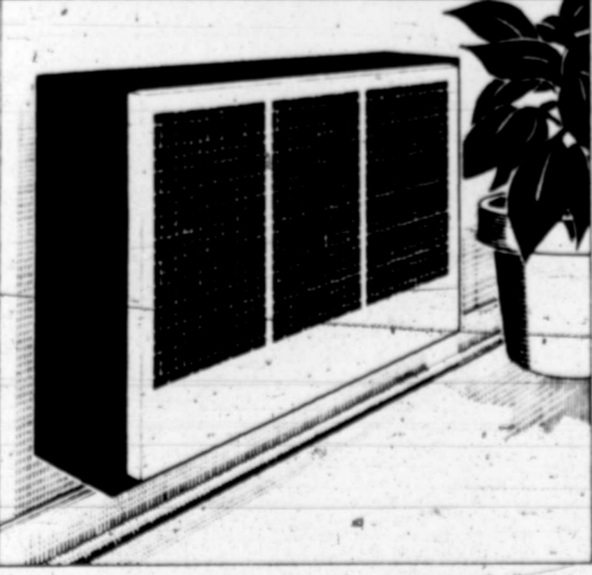

Tigers Can Make It Three For SHS

BROWNFIELD—Coach George Byerly's Tigers can give Snyder High School its third district championship of the season with a win over Brownfield's Cubs here Tuesday.

The Tigers, ranked No. 2 in the state, will be riding a 14-game winning streak into Cub Gym for the 8 p.m. game. A JV contest will open the action at 6:15. Snyder captured the first round of District play with a 4-0 record, including a 79-55 win over the Cubs. Now 2-0 in the second half, with two games remaining, Snyder needs only one victory to clinch the title.

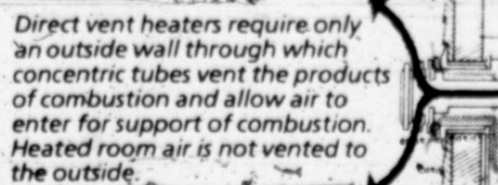

NEW VENTED GAS SPACE HEATERS.

Available Now at Lone Star Gas in Snyder.

The ideal replacement for unvented gas space heaters. Sensible, economical source of heat for add-on rooms, garages, workshops. Excellent supplementary heat for central heating systems in new and older homes.

Financing Available Lone Star sells and installs these vented gas space heaters. Terms are available. Phone us for more information. Or visit our office and see these new heaters on display.

- Safe • Reliable • Can be installed in frame or masonry exterior walls • Vents directly outside • Uses only outside air for combustion chamber • Requires no special flues or chimneys • Automatic heat regulation • Works with or without the optional forced-air blower for one-energy reliability •

Limited time only — special trade-in allowance on your unvented gas space heater. Now at Lone Star Gas Company.

SWC Reaches Showdown Week

By The Associated Press The Southwest Conference goes into its final week of the regular season with a schedule maker's delight, logjams for first and third.

The Texas Aggies and the Arkansas Razorbacks have already made their reservations for the semi-final games Friday night Feb. 29 in HemisFair Arena in San Antonio in the SWC Tournament.

and Baylor 5-10 are struggling for the other home advantage position. Arkansas and SMU play tonight in Dallas. The Razorbacks have one other game, home against Texas Tech on regional television Saturday afternoon.

The Texas Aggies host TCU Tuesday night then play on the road against Houston Friday night. Should Arkansas and Texas A&M win their remaining games a coin flip would determine which school gets the No. 1 seeding in the tournament.
