Hopes Rescue Will Encourage Iran To Release 53 Americans

LONDON (AP)—British commandos swing down ropes from the roof of the Iranian Embassy and in a paralyzing hail of explosives and gunfire killed four Arab-Iranian terrorists, captured one other and rescued 19 hostages to end a six-day siege. Meanwhile, a senior government minister said today Britain hopes that its commando rescue of the captives Monday may encourage Iran to free the 53 Americans held hostage since Nov. 4.

"I hope it may lead those concerned in Iran, not just the government, to think afresh about this to realize that the rules about diplomats and embassies and so on are not just a luxury," said Foreign Office Minister of State Douglas Hurd. Police sought to learn who dispatched and armed the terrorists who had threatened to kill all their hostages and blow up the embassy unless Iran freed 91 Iranian Arabs imprisoned in oil-rich Khuzestan province. The affiliation of the five gunmen — one was captured in the assault and was being questioned — remained a mystery. During the siege three autonomously-seeking Arab groups from Khuzestan threatened to follow up the embassy seizure with similar acts elsewhere. Scotland Yard, which earlier said three of the five gunmen were killed in the commando assault; disclosed today that a fourth was dead on arrival at a hospital Monday.

Whitelaw said the daring assault showed "we in Britain are not prepared to tolerate terrorism." Whitelaw said he ordered the raid after the gunmen dumped the body of the embassy's press attache out the embassy's front door shortly after 7 p.m. "It was clear that failure to take further action was going to cost lives," the home secretary told a news conference.

Six or eight commandos from the Special Air Services set off a deafening explosion from the roof of the five-story town house just off Hyde Park at 7:23 p.m. Apparently it was a "stun grenade" — use by the West Germans to capture a hijacked airliner in Somalia in 1977 — to immobilize the gunmen. The commandos lowered themselves on ropes to the second floor of the build-

ing, both front and back, threw more explosives in the windows and then stormed in with automatic weapons blazing. At least eight of the men were inside within 40 seconds. Flames and smoke poured from the building. Newspaper reports said highly sensitive microphones had been lowered down chimneys of the building to pinpoint the location of the hostages.

Tuesday update

Florida Is Disaster Area

WASHINGTON (AP)—President Carter has declared Florida a disaster area to help the state handle the influx of Cuban refugees that shows no signs of ending, a Florida congressman said today.

Hauser Assessed 2 Years

PHOENIX, Ariz. (AP)—Joseph Hauser, a principal figure in the FBI's bribery-labor "sting" has been assessed a two-year federal sentence for an insurance swindle.

The sentence was part of a plea bargain arrangement for his help in the FBI operation known as Brilab, which has been linked to Texas House Speaker Bill Clayton.

Carson Extends Contract

NEW YORK (AP)—Johnny Carson will continue as host of NBC's "Tonight" show under a new three-year contract with the network, NBC said today.

The new contract commits Carson to four nights a week as host of the show, beginning in September, NBC said. Carson also will participate in other projects for the network.

The program, now 90 minutes long, will be shorted to an hour in the fall, the network said. NBC did not disclose the financial arrangements with Carson, who began as host of the program 17 years ago.

The SDN Column

Roger B. Mize, the local banker, says people in the oil industry may have overlooked a good opportunity to have headed off the "windfall profits" tax in Congress.

"We should have given every Congressman and Senator a little piece of working interest in a production unit like SACROC," says Mize. "Just a little, so they could observe first-hand what happens to royalty checks when Uncle Sam gets through with them."

It might have worked. There's no better way to explain something like this than to become involved. On the other hand, you wonder if some of the northeastern lawmakers would understand if it were laid out in kindergarten level language.

★ ★ ★

We keep hearing reports that the consumer section of the U.S. Department of Agriculture is trying to rule out coupons and refund offers on food products.

This could be quite a blow to people like Jan Leasure, who now makes a business of teaching people how to capitalize on these offers by makers and distributors of various products. You may recall that, back a few months ago, she appeared on a television show during which she made a shopping trip through a supermarket, purchasing \$119.67 worth of groceries without putting up a penny. In fact, they swore that the store actually paid her to take the groceries by the time she cashed in her coupons and took advantage of refund offers.

★ ★ ★

This sounded far-fetched to us, but we were in no position to dispute it. We did, however, look through a few metropolitan papers and magazines that are used regularly as channels for distributing coupons and refund offers. And we found that we could save quite a bit on our grocery bill—provided we could live on pre-sweetened cereals, catfood, pancake syrup, ready-mixed cakes and detergents.

The cactus patch philosopher says parking places are not really hard to find. Just look how many people found them before you got there.—WACIL McNAIR

12 Indictments Returned Here

Twelve indictments, including two for manslaughter, were returned Monday by a Scurry County Grand Jury.

Maurice Brown of Lubbock was indicted on the two counts alleging manslaughter. He was the driver of a truck that collided with a parked car on U.S. Highway 84 about 10 miles north of Snyder on April 15 which resulted in the death of Victor Vega, 24, and Ruben Vega, 2, both of Muleshoe. A bond of \$1,500 was set in each case.

James William Stephens Jr. and Tom Murphy Courtney, both of New Mexico, were indicted on charges of unauthorized use of a motor vehicle. A bond of \$5,000 was set for Stephens and a bond of \$3,000 was set for Courtney.

Dolores Marie Sandoval was indicted on a theft charge involving food stamps. Her bond was set at \$5,000.

Ollie Katherine Greenwood was indicted on a charge of theft, and bond was set at \$5,000.

Edward Earl Jones was indicted on a charge of burglary of a habitation. His bond was set at \$5,000.

Four indictments on charges of driving while intoxicated were returned. Named in the DWI indictments were Mark McCray Jr., Alvin Joe Porter, Ronald Gene Fisk and Ray Martinez. A bond of \$1,500 was set in each case.

Serving on the grand jury were Albert Lewis, Vera McSpadden, Bill Seale, Jimmie Joe Key, Geraldine Parker, Bobby Beard, Mrs. Leslie Butler, Bill Dryden, Robert Brazier, Ned Underwood, Irene Brooks and Roy Carter, foreman.

Protectors Face Charges

CHARLEVOIX, Mich. (AP)—Authorities have charged 17 protestors with trespassing at the Consumers Power Co.'s Big Rock nuclear power plant after they staged a sit-down demonstration during an anti-nuclear rally, authorities said.

Controversy Flares On Animal Shelter Plans

Closing the existing animal shelter and placing strays under the care of a veterinarian in a building to be erected at the address of his current practice sparked further controversy at the city council meeting last night.

Also at the regularly scheduled meeting, an ordinance dealing with itinerant merchants was amended and the council began discussing the possibility of adopting a truck route around Snyder.

Colony Homes led the opposition against moving the animal shelter with the threat of a suit for an injunction against Dr. Robert Taylor if such action is taken.

In a prior meeting, Dr. Taylor was awarded the contract to care for the stray animals picked up by the city in a building to be erected on his 37th and East Highway address.

The developer who is trying to sell new homes in that area, contends that the stigma attached to a municipal animal shelter will deter its efforts to sell homes. Also, echoing the complaints of the other citizens protesting the move, it said it

was unconvinced there will not be a noise and odor problem even though the dogs are to be housed in an enclosed, insulated building.

The developers contend that Taylor would be violating deed restrictions by creating a noxious facility on his property.

Colony Homes was represented at the meeting by its president, Jerry Valzec, and vice president, Randy Culver.

The council pointed out that the veterinary clinic was there when it bought the land for developing and that Dr. Taylor meets city requirements to expand his practice, the land being zoned commercial.

However, in consideration of the displeasure Colony Homes and citizens of that area have voiced, the council agreed to look for other alternatives if Dr. Taylor decides not to pursue the contract or wishes not to be involved in litigation.

Dr. Taylor indicated he would be in touch with the council after thinking the matter over and conferring with his attorney. No action was taken on the matter last night.

Expressing apprehen-

sion about the many trucks and the sometimes dangerous loads they carry through downtown Snyder, the discussion of a truck route around Snyder was initiated last night but no action was taken. A joint meeting has been set for Monday, May 19, at 2 p.m. with the Scurry County Commissioners Court, District Engineer and staff from Abilene to discuss the issue.

The peddler-itinerant merchant ordinance establishes a corporation permit board for the city, which would rule on applications for permits. The ordinance provides that such board meet at 9 a.m. each Monday. Applications will be filed with the city secretary and there will be a \$10 investigation fee.

In other action, councilman David Holt was selected as mayor pro tem. He will assume the responsibilities of the mayor in Mayor Milton Ham's absence.

Holt was also appointed to serve on the Motel Tax Committee. Others on this panel are Ham and the city manager, John Gayle.

Councilman Jerry Webb

WIN TOP CONSERVATION AWARDS—Charles W. (Sonny) Harrell, left, received the Conservation Rancher Award, and Norman Ledbetter received the Conservation Farmer Award last night at a banquet held at The Shack by the Upper Colorado Soil and Water Conservation District.

At Annual Banquet...

Awards Presented By Conservation District

A Scurry County rancher and a Borden County farmer received top awards Monday night at the annual conservation awards banquet and soil steward-

ship presentation of the Upper Colorado Soil and Water Conservation District.

Charles W. (Sonny) Harrell of Camp Springs was presented the 1980 Conservation Rancher Award, and Norman Ledbetter of O'Donnell was presented the Conservation Farmer Award.

Conservation education scholarships were presented to Leroy Donald Gressett and Irene Masters, teachers at West Elementary School, and to Margaret McNair, teacher at East Elementary School. They will attend a conservation workshop in June at Abilene Christian University.

Also honored at the banquet, which was held at The Shack, were Daniel Chasteen, student at Northeast Elementary School, who won the district's poster contest, and Jimmy Pat James, student at Snyder High School, who won the district's essay contest. James' essay also placed second in the 51-County Region I of the Association of Soil and Water Conservation Districts. He received that award

last week at Canyon. Harrell, a native of Scurry County, operates 9,370 acres of rangeland and cropland north of Camp Springs. He has been a cooperater in the Upper Colorado Soil and Water Conservation District for a number of years. Through assistance with the Great Plains Conservation Program, he has root-plowed or tree-dozed and seeded more than 1,100 acres of rangeland. He also drilled a well and installed five water storage facilities for better distribution of livestock grazing. In addition, he has a diversified farming operation including a cow-calf program, cotton and forage sorghum. He is a member of the Texas and American Hereford Associations and has been active in 4-H, rodeo, junior rodeo and junior livestock associations.

Ledbetter owns and operates a 319-acre farm northwest of Gail and a 320-acre farm in Lynn County. He also leases 480 acres in Lynn County, for a combined total of (See Awards, Page 11)

believers in freedom

There is a growing number of businessmen who are unwilling to compromise the principles of free enterprise, even if it means financial loss.

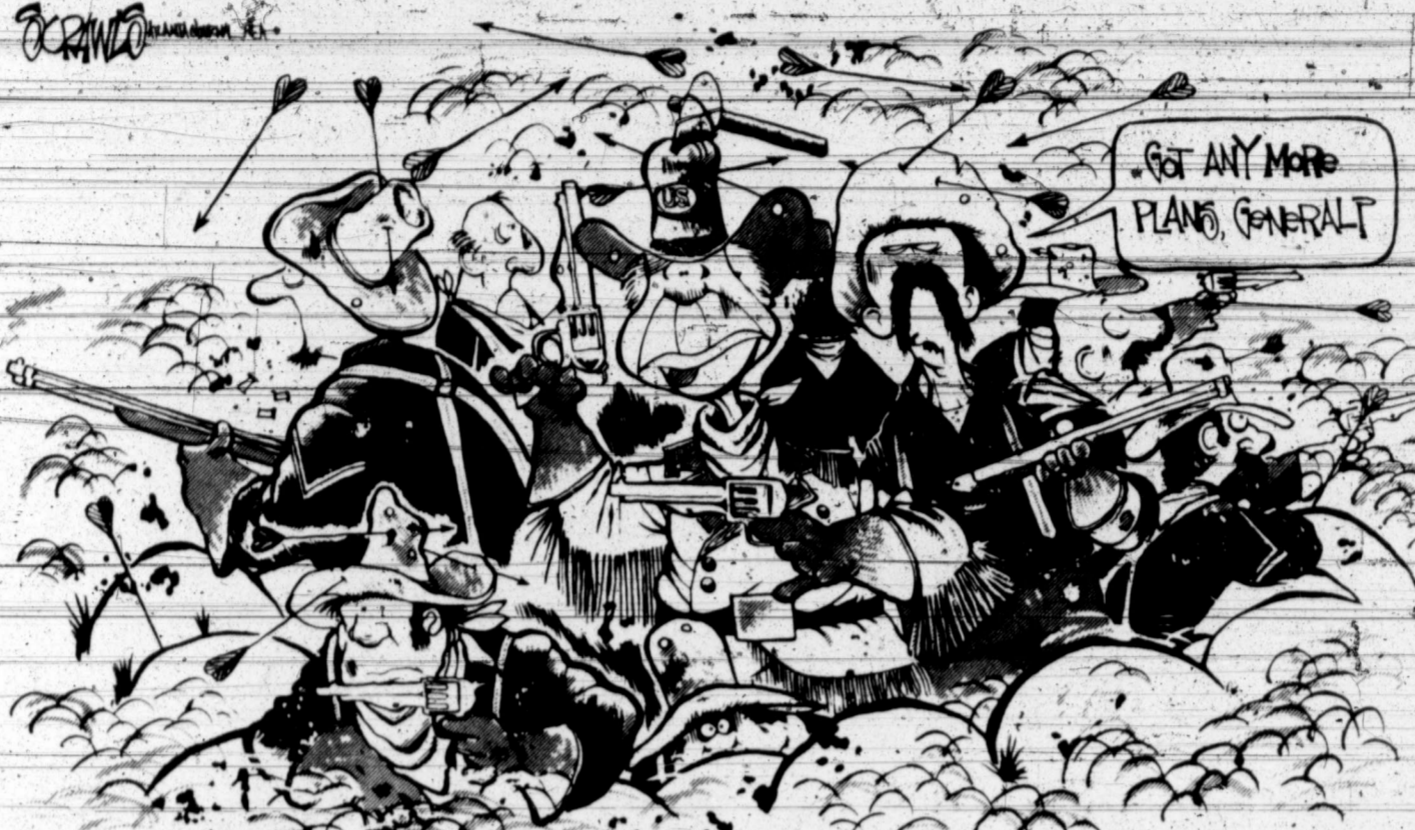

The Council for a Competitive Economy exemplifies this group. The Council is composed of about a thousand members who are dedicated to fighting government involvement in the private sector.

Sometimes it is hard to believe some businessmen have any principles when it comes to making money. To their credit most people offering goods and services to the public have concluded that it is in their long-run interest to provide their customers with the best product at the lowest price.

Members of the CCE, in contrast to unprincipled businessmen, have proven they are willing to take a loss before compromising principle.

There are so many lobbyists in Washington, D.C., that it is difficult to find a parking place, much less find someone willing to speak up for free enterprise at a public hearing.

All too often American industry, bloated with subsidies and protective legislation, has been relied upon to protect the freedom of the marketplace; freedom industry doesn't always believe in.

paul harvey

the other minorities

What about the "other minorities?"

How about the Jewish Americans, Polish Americans, Chinese Americans?

Unquestionably, these are minorities and each, frequently, is put upon.

The Detroit News recently, editorially, listed examples of discrimination against the "non-poor."

I know it sounds strange.

Such has been our preoccupation with the rights of the poor that we have not recognized any converse obligation.

Recent generations have been indoctrinated with the notion that anybody who is less gifted and less energetic has certain claims on the property of those who are more talented and more industrious.

That, indeed, is the rationale for the progressive income tax. Anybody who will work hard and profit and prosper is taxed disproportionately more in order that his money might be handed over to those who are less hard-working, less productive, even non-productive.

It began with the premise which is at least partially Scriptural that the haves should share with the have-nots food, clothing and shelter.

But then the egalitarians were not satisfied just with helping the poor; they wanted to hurt the non-poor.

The Free Press editor cites in evidence cross-town school busing.

This authoritarian device, conceptually flawed, has proved to be a horrific experience; a terribly wasteful, dangerous, costly, hate-generating, education-destroying failure.

Yet it is perpetuated by the great levellers who enviously decree that if they can't have the good things of life they don't want anybody else to have them.

So we give money and goods and favored treatment to people who have not earned it - while lowering the standard of living for those who have earned it.

Acknowledged, there are distressed persons who merit assistance because their predicament is not their fault.

But there are also helpless individuals who deserve less because they refuse to live orderly lives.

Britain's Prince Philip has described his country's similar situation like this: "We remained for so long preoccupied with humoring and rewarding the unsuccessful and the unfortunate, until now everybody in Britain is unsuccessful and unfortunate."

Even now - as our President seeks to curtail federal extravagance in an attempt to knock some cents back into our dollar - the neo-socialists proclaim him to be "an enemy of poor people."

"How dare he curtail handouts for minorities!"

Which minorities?

(c) 1980, Los Angeles Times Syndicate

Now that John Anderson has finally had the courage of a lot of other

people's conviction and declared his independent presidential candidacy, what else is new?

Let us forget, independent or third-party candidates have been a factor in virtually every presidential election of modern times.

Looking back just a bit, there were two of some significance last time out - Eugene McCarthy and Lester Maddox.

There was a thin year in 1972 with no real standouts, but then we have 1968 and George Wallace at what turned out to be his peak. And moving all the way back to 1948, we have a real classic - both Henry Wallace and Strom Thurmond.

Here and there in preceding years there are a few other memorable and even some memorable names, Robert LaFollette and the redoubtable Norman Thomas to name two.

Eventually we hit 1912 and the champion of them all - Theodore Roosevelt.

A major concern of the major parties - and on occasion the explicit hope of a candidate such as George Wallace - is that the popular presidential vote will be so fragmented by the minor entrants that no one will receive the 270 or more electoral votes necessary for election.

That would throw the decision into the House of Representatives.

The House has had that responsibility only once in the nation's history, however, and then - in the Hayes-Tilden contest of 1876 - it was not a consequence of minor candidates skewing the count but of disputed returns from several states.

Neither have independent and third-party candidates made much of their potential as "spoilers" - siphoning off sufficient votes from a leader to throw the election to the major candidate who otherwise would have been the also-ran.

True, Democrat Woodrow Wilson did win in 1912 with a minority of the popular vote. But that was an anomaly in which the "spoiler" was a former president - Roosevelt - who captured the majority of the Republican Party from its official candidate, incumbent William Howard Taft.

In 1948, Harry Truman won despite the combined siphoning efforts of Henry Wallace's Progressives and Strom Thurmond's Dixiecrats. George Wallace's 14 percent of the

vote does raise a question about the 1968 Nixon-Humphrey race, but its a

question without a definitive answer. It may well have come equally from both major party candidates, or from those who would have been nonvoters had Wallace not been in the running.

It is most often said in favor of the minor candidates that they serve a purpose in articulating issues that the major candidates might otherwise prefer to dodge.

Possibly, but not certainly. George Wallace may be said to have had some impact to this effect. And Socialist Thomas went about the task with dedication election after election but with what appeared scant impact at the time. Many of his concepts, however, were to find subsequent expression in the legislative programs of both Democratic and Republican administrations.

Eugene McCarthy, possibly the most intellectually elevated presidential aspirant since Wilson, articulated with a vengeance in 1968 when he was a Democratic challenger unseating his own party's incumbent. But his presence as an independent in 1972 was virtually unnoticeable.

So it goes, or has gone. Anderson, who has proved himself the brightest of dark horses in the current campaign, is being taken very seriously.

Polls currently show him the preference of better than 20 percent of the electorate. But then, remember when the same polls indicated the Democratic nomination was Edward Kennedy's for the announcing?

It is much too early to count John Anderson in or out. In an election in which the distaste of much of the electorate for both major party leaders is so pronounced, he just might make history.

The odds remain very long, however, that when history gets around to looking back on the 1980 election, it will say John Anderson's real contribution was to the good consciences of a large but nondecisive body of voters. His candidacy enabled them to do their duty as good citizens at the polls and still vote for none of the above.

my turn

by john dunnam

Women's Lib may have taken a great stride forward Saturday. For the first time in 65 years a female horse won the Kentucky Derby.

A pretty little filly called Genuine Risk outran a pack of 12 colts to become the winner of the 106th annual race for the roses. Furthermore, the filly is owned by a womap, Mrs. Bertram Firestone, and one of the relatively few fans to wager on her, (she paid \$28.60 to win) was former first lady, Betty Ford.

The last and only other filly to accomplish this feat was a named Regret back in 1915. That was five years before women were given the right to vote. I don't know if there was any connection between the two events.

While Genuine Risk proved that the girls can keep pace with the boys, there was the matter of her being given a five pound weight advantage. No grumbling now fellas. After all, she is a lady. (Opps, there went my points with the fem fanatics.)

What do racehorses and oil fields have in common? Both have names with a poetic ring.

With race horses I suppose they appeal to the gambling instincts which are often very impulsive. A few of the names that come to mind are: Foolish Pleasure, Gallant Fox, Tom Fool, Executioner's Reason, Nashua, Seabiscuit, Seattle Slew. I'm not sure why oil fields

have such provocative names. They seem to suggest a story lurking just beneath the surface. It's

thoughts

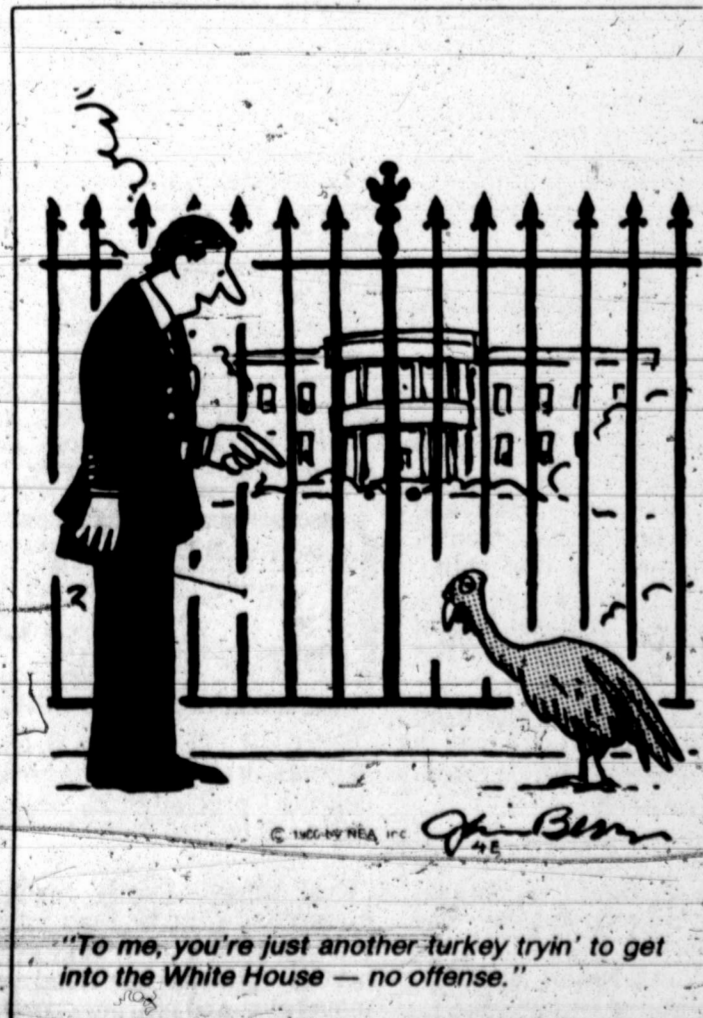

Digging brass out of the hills would be difficult as brass is an alloy. Copper is evidently meant in the description of the land the Hebrews will enter.

"A land wherein thou shalt eat bread without scarceness, thou shalt not lack anything in it; a land whose stones are iron, and out of whose hills thou mayest dig brass." Deut. 8:9

worth looking into. Meanwhile ponder the names of these area oil patches: McLeod's Mistake, Buzard's Peck, Pure Bean, Dollarhide, Cold Duck, Sugar Loaf, Vinegarone, Sweetie Peck, Seven Years, Lucky Mag, Double Trouble and Pentecost.

Also at home and right next door are: Canyon Reef and Diamond M, Scurry; No Fish, Fisher; PHD, Garza; and Thirty-Thirty and Hobo in Borden County.

john cunniff

recession and inflation

NEW YORK (AP) - Ask the person next to you what recession means to the economy and he will probably begin by saying it means fewer jobs. But, he'll probably conclude, it means that we'll cure inflation too.

So often has the belief been restated that many millions of Americans, maybe even the President, take it for granted. Recession and inflation are said to be opposites, offsetting and correcting each other.

But it might not be so, and economists are busily if belatedly seeking to counter the notion. It is entirely possible, they say, for Americans to suffer the worst of both worlds -

inflation and recession to gether.

Confusion wasn't lessened last week when President Carter, amid signs of economic deterioration, declared that his administration had "turned the corner" in fighting inflation. Had he confused the two?

No question at all that the economy is weaker. Indexes of economic activity are down, unemployment is sharply higher, and interest rates are falling. Some say the recession will be worse than expected.

But prices? Except for interest rates, which must be figured in the pricing of any product, little evidence has developed of any sustained downturn. So far, even the rate of increase hasn't slowed perceptibly.

Even when the rate of increase slows, economists point out, it may still leave us with double-digit inflation. The President's own adviser concedes that 10 percent might be the best we can expect for awhile.

Alfred Kahn, chairman of the Council on Wage and Price Stability, used that figure in a talk with business leaders last week. The recession won't correct what he called the underlying rate of inflation, he said.

What is needed, said Kahn, is an improvement in productivity, some of it to be accomplished by greater competition and through encouragement of new investments in research, plant and equipment. Presumably, goods would then be produced at lower costs, and prices would stabilize.

letter to editor

To The Daily News: As one of the trainees in Wood Badge on the Hamlett ranch I wish to thank Joel Hamlett for his wonderful leadership and hospitality.

Joel's wife, Barbara, gave us the grand tour of their home, they have restored the old Johnson ranch house real well.

When I was a scout, some 50 years ago, I remember how elegant this ranch house was.

Also, I would like to thank all of our leaders who gave us such marvelous demonstrations of their skills.

All the trainees are to be congratulated on meeting the requirements of the practical Wood Badge learning experience.

There are always boys that need trained leaders, so we must press ever onward to achieve our goals.

By Oswald Jacoby and Alan Sontag

"In a book entitled "Secrets of Winning Bridge," Jeff Rubens devotes considerable space to the play of this hand. He doesn't discuss the bidding because there is no logical way to get to six spades. So he gets you there and leaves you to play the hand.
 You win the heart lead in dummy and play the deuce of spades. East follows with the four-spot and your correct play is the seven. This costs you an overtrick if West holds the singleton king since the play of the ace would drop it. But it protects you against going down if West were void of trumps.
 Obviously, in rubber bridge the safety play is eminently correct. Why risk a slam in a chance to gain 30 points?
 Now look at match-point duplicate. Should you employ the safety play?
 The answer is a decided "Yes."
 If everyone else were in the slam, the answer would be different since the overtrick would be worth as much as a

slam. Not the bidding, however. There are other ways to get to six. But very few pairs would get to six, and just being in six and making it would give you a far above average score.

DEAR FRIENDS:
 PLEASE ACCEPT THIS EXPRESSION OF APPRECIATION FROM MAXINE AND ME FOR ALL YOU DID TO MAKE LAST SATURDAY'S VICTORY AT THE POLLS POSSIBLE. SO MANY PEOPLE GAVE SO MUCH THAT I AM SURE IT WOULD BE IMPOSSIBLE FOR ME TO THANK EACH ONE INDIVIDUALLY.
 I WAS NOT ABLE, BECAUSE OF THE PRESS OF COURT BUSINESS, TO MAKE THE PERSONAL CONTACTS I HAVE MADE IN PAST CAMPAIGNS. MY FRIENDS AND SUPPORTERS, SOME OF WHOM I DO NOT EVEN KNOW THE IDENTITY, DID THIS FOR ME. FOR THIS I AM GRATEFUL.
 MOST OF YOU RECEIVED A LETTER FROM ME THROUGH THE MAIL. ALTHOUGH I WROTE THE LETTERS AND MAILED THEM, I HAD SEVERAL LOYAL FRIENDS WHO SPENT MANY HOURS PLACING THE LETTERS IN AND ADDRESSING THE ENVELOPES. THANK GOD FOR SUCH FRIENDS.
 I RECEIVED SEVERAL CONTRIBUTIONS FROM LOYAL FRIENDS TO ASSIST ME WITH THE EXPENSES OF THE CAMPAIGN. THE FACT THAT EVERY CONTRIBUTION I RECEIVED WAS ENTIRELY UNSOLICITED AND WITH THE COMPLETE UNDERSTANDING THAT IT WAS WITH NO STRINGS ATTACHED AND WOULD NOT EARN FOR THE CONTRIBUTOR ANY RETURNED FAVORS, EITHER IN OR OUT OF COURT, MADE ME REALIZE HOW VALUABLE FRIENDSHIPS REALLY ARE.
 ALL THE PEOPLE AT THE SNYDER DAILY NEWS, KSNY, AND THE BORDEN STAR WERE VERY COURTEOUS, COOPERATIVE AND HELPFUL. IT IS NICE TO LIVE IN A PLACE WHERE PEOPLE GO OUT OF THEIR WAY TO BE NICE, EVEN THOUGH THEY MAY NOT BE REQUIRED TO DO SO AS A PART OF THEIR JOB. THANK YOU, MEMBERS OF THE NEWS MEDIA.
 MANY PEOPLE SAID MANY NICE THINGS ABOUT ME AND TO ME DURING THE CAMPAIGN. JOHN BOREN'S LETTER TO THE EDITOR ALMOST OVERWHELMED ME. SEVERAL OF MY DEAREST AND CLOSEST FRIENDS SPENT MOST OF THE DAY ON SATURDAY URGING PEOPLE TO GO TO THE POLLS AND VOTE. THE ONLY THING I REALLY FEARED WAS VOTER APATHY, AND EVEN THOUGH WE HAD A LIGHT VOTE, THESE ACTIONS HELPED TO GET OUT THE VOTE. I DO NOT HAVE SUFFICIENT WORDS TO EXPRESS MY SINCERE APPRECIATION.
 THEN I OWE A DEBT OF GRATITUDE TO ALL THE PEOPLE OF SCURRY AND BORDEN COUNTIES FOR THEIR CONFIDENCE IN ME. I WILL DO MY VERY BEST TO CONTINUE TO SERVE WITH DIGNITY AND TO SEE THAT JUSTICE IS DONE IN THE DISTRICT COURT AT ALL TIMES.
 SINCERELY YOURS,

Dear Abby

A Rule of Thumb For Teeth

By Abigail Van Buren
© 1980 by Universal Press Syndicate

DEAR ABBY: You told the mother of a 17-year-old boy who still sucked his thumb, "It's a harmless habit formed in infancy which provides the thumb sucker with a feeling of pleasure and gratification."

Thumb sucking is *not* always harmless. It can cause teeth to protrude, and in some cases it can cause the upper jaw to become deformed.

Some children who have sucked their thumbs in infancy escape without damaging their teeth or jaw formation, but if a child continues to suck his thumb after the age of 4, an orthodontist should be consulted.

OHIO ORTHODONTIST

DEAR ORTHODONTIST: Thank you for suggesting that a good rule of thumb to follow (excuse the pun) is: "Thumb sucking is harmless unless continued after the age of 4." Now let's hear it from a woman who's been at it for 36 years:

DEAR ABBY: I can't resist writing in regard to the mother of a 17-year-old thumb-sucker. I thought your answer was excellent. I wish I had had that reassurance years ago.

I am a 36-year-old mother of three, and I still suck my thumb! When I was a baby my mother would shove my thumb into my mouth as a pacifier to quiet me. Too late she realized I formed the habit of thumb sucking, and she did everything she could think of to stop me. She painted my thumb with iodine, bandaged it, and even strapped my hands to the bedpost at night. Nothing worked. Whenever I grew tired (even in high school) I'd suck my thumb. The kids teased me unmercifully, but even that didn't make me quit. I just became more skillful in hiding my habit.

After I was married I tried hiding it from my husband, but sleeping in the same bed made it impossible. Eventually he found out, but luckily it didn't matter one bit to him.

To this very day I can't fall asleep unless I have my thumb in my mouth. I've tried hypnosis, but I'm one of those people who can't be hypnotized. I went to a psychiatrist and he said, "It's harmless. Forget it."

I'm curious. Am I the oldest thumb sucker on record?
TACOMA READER

DEAR READER: If I hear from a thumb sucker over 36, I'll let you know.

DEAR ABBY: A SAN DIEGO BIOLOGIST wrote to say that animals are *not* less cruel within their species than humans. He submitted that ant colonies engage in warfare often to the death, as do baboons and other animals who fight fiercely for mates and territory. To support his theory you cited the praying mantis (female) who kills the male immediately after mating, then you added facetiously "How's that for a lovely thank-you?"

Abby, did you know they crossed a praying mantis with a termite? It didn't stop the termite's nasty appetite, but at least now, before eating your rafters, he says grace.

BILL CLAYTON, BREA, CALIF.

To Resume Purchases

WASHINGTON (AP)—The Energy Department, under fire for not adding oil to the Strategic Petroleum Reserve for more than a year, has quietly taken an initial step toward resuming purchases.

Officials confirmed Friday that Energy Secretary Charles Duncan has hired a consultant to advise him directly on when the country can begin adding to the stockpile designed as insurance against future cutoffs of foreign oil.

Duncan selected Abram

Chayes, a Harvard law professor and husband of Air Force Undersecretary Antonia Chayes, for the job. His appointment was not announced and he began work this week without fanfare.

Members of Congress have sharply criticized the Carter administration for failing to build up oil stockpiles during current world surpluses.

There are currently 92 million barrels of oil in the reserve, located in salt domes in Texas and Louisiana. That total is far less than the 500-million barrel goal set by President Carter for the end of 1980.

Earthquake Unnoticed

PASADENA, Calif. (AP)—Scientists say it measured 2.3 on the Richter scale, but the earthquake that rippled through the San Gabriel Valley this weekend apparently went unnoticed by residents.

Dennis Meredith of the California Institute of Technology here said the quake occurred at 12:50 p.m. Sunday and was centered "somewhere between Alhambra and South Pasadena."

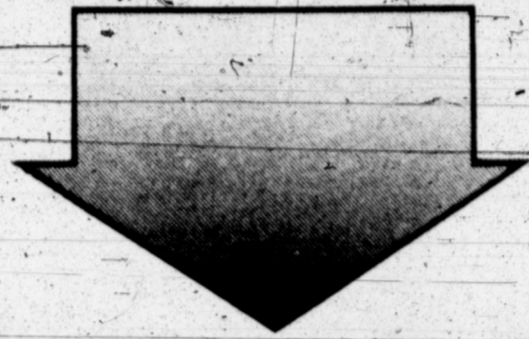

One fifth of the world's land is desert.

Chevron energy report:

Profits

Reinvestment

More energy

Chevron's first quarter profit will keep this formula working for America's energy independence.

Profit makes it possible to invest in energy development. For example, Chevron's domestic Capital and Exploratory investments in the first quarter of 1980 were 62% higher than the first quarter of 1979.

Moreover, worldwide investment plans for 1980 have now been increased by an additional \$400 million over the record high program announced in January.

Chevron's energy investments have already produced dramatic results in North America recently, such as:

➔ **The Tuscaloosa Trend, Louisiana** — Huge reservoirs of natural gas — first discovered by extremely deep exploratory drilling by Chevron.

➔ **The Overthrust Belt, Wyoming** — Potentially the largest natural gas reserves in the lower 48 states — plus oil deposits that could total several billion barrels.

➔ **The Santa Barbara Channel, Off-Shore, California** — Exploratory drilling continues to expand the potential of these fields which are expected to begin yielding substantial new supplies of oil and gas later this year.

➔ **The Hibernia Field, Off-Shore Newfoundland** — The first major oil discovery off the east coast of North America. This is the most exciting discovery in North America since Alaska's North Slope Prudhoe Bay field.

In addition, Chevron is involved in a number of exciting alternate energy investments, including coal, oil shale, tar sands, solar, uranium and geothermal.

Profit per Dollar of Petroleum Sales	57¢
Profit per Gallon of Crude Oil and Petroleum Products Sold	40¢
Total Profit	\$627 Million
Total Capital and Exploratory Investment planned for the full year 1980	\$3.0 Billion

Two Mishaps Reported Here

Police investigated two minor mishaps Monday. The first occurred at 7:22 a.m. at 500 35th St. when a 1976 Chevrolet driven by David Bailey of 3008 Ave. K was involved in a collision with a 1973 Ford driven by Ennis Powell of 509 35th St. Officer Joe Bob Martinez investigated.

A hit and run incident was reported at 11:41 a.m. It occurred in the 1500 block of 25th St. and involved a 1975 Matador driven by Maria Luna of Box 223 and a vehicle that left the scene. Martinez also worked that call.

OBITUARIES

Mrs. Perry

Services were scheduled today in Olathe, Colo. for Velma Lee Perry who died there in her home Saturday. Montrose Valley Funeral Home was in charge of the 2 p.m. graveside rites.

Mrs. Perry is survived by two sons, Leon Handy of Eau Claire, Wis. and Wayne Green of Midland; one sister, Mrs. Gilbert (Dolores) Merritt of Fluvanna; her stepfather, A.W. Scrivner of Dermott and three grandchildren.

L.L. Godair

L.L. Godair of Carlisle, Ark. died Monday at his home after a long illness. He is survived by his wife, two daughters and three sons including Homer Godair of Snyder; 19 grandchildren and nine great grandchildren.

PREPARE FOR CONCERT—Members of the Snyder High School School Choir rehearse for their Pops Concert scheduled for tonight in the Snyder High School auditorium. They will present music made

popular by a number of well-known groups and individuals in the concert, which will begin at 7:30 p.m. Tickets priced at \$1.50 each will be available at the door. (SDN Staff Photo)

Reschedule Doomsday For Wednesday

DURANGO, Colo. (AP) —Due to analytical difficulties, the end of the world has been rescheduled for Wednesday, according to a religious sect.

That is an offshoot of the Baha'i faith. Baha'i leaders disclaim any connection with the group.

The prediction of a holocaust for April 29 at 5:55 p.m. MDT was in error because sect members were not interpreting Biblical time references correctly, Gaines said.

"There's going to be an atomic explosion Wednesday, or the death of the person that is going to cause World War III," Jensen said in an interview. Gaines and others scattered throughout the Rocky Mountain region

have built and stocked fall-out shelters in anticipation of the beginning of vast changes forecast in the Bible's Book of Revelations. In Missoula, Mont., Le-

Jensen, who calls himself the group's national leader, confirmed Gaines' prediction. The nuclear holocaust will begin, Jensen said, sometime between 6 and 8 a.m. MDT Wednesday.

HEALTH

Lawrence E. Lamb, M.D.

Meniere's syndrome

By Lawrence Lamb, M.D.

DEAR DR. LAMB — For the past three years I have had what my doctor called Meniere's disease. For the past six months I've had a constant loud roaring sound in my ears that impairs my hearing. During the three years I've had dizzy spells. I am presently taking medicines which include a diuretic and Antivert when I have dizziness. I'm also on a low-salt, no caffeine diet. My doctor says there's nothing to be done except surgery as a last resort which he doesn't recommend at this point. Do you have any information on Meniere's disease or any suggestions about my problem?

DEAR READER — You touched on two of the three classic components of Meniere's syndrome — the vertigo or dizzy spells that you've experienced and the noise in your ear called tinnitus.

The third feature is less of hearing. Sometimes the loss of hearing is not apparent but can be detected with hearing tests.

There are many other causes for dizziness or true vertigo. There is a distinction between the two problems. Dizziness may be a sensation of fainting or near fainting whereas vertigo involves a false sense of motion. Either you feel that your environment is moving when it's not or you feel that your body is moving when it's not.

There are many different opinions about Meniere's syndrome and these various symptoms may cover several different defects. But it's fair to say that most ear special-

ists believe that a true Meniere's disease is caused by an increase in fluid in the tiny balance canals in the ear. That's probably why your doctor has you on a low-salt diet. There are basically four systems that relate to your sense of balance. Three of these are the receiving mechanisms; specifically the eyes for visual orientation, your various nerve sensations from the whole body which gives you a feeling of body position and the little balance canals in each ear.

Actually the balance canals in the ear provide information regarding head position rather than body position. To give you more information I'm sending you The Health Letter number 9-10, Dizziness and Vertigo. Other readers who want this issue can send 75 cents with a long, stamped, self-addressed envelope for it. Send your request to me, in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10019. Obviously, dizziness and vertigo can be related to a host of different diseases. The symptoms can be related to the brain tumor (which is rare). Or they can be from an inflammation of the little balance canals in the ears following a viral respiratory infection. Or the problem may be a complication of medicines a person is taking.

It's necessary to find out what the basic cause is before the proper treatment can be initiated. Obviously, the treatment of vertigo from brain tumor is a lot different from that associated with inflammation of the balance canals after a recent respiratory illness.

(NEWSPAPER ENTERPRISE ASSN.)

What Texas Electric says about setting your central air to save money.

At Texas Electric we are often asked about the cheapest way to operate a central air conditioning unit and still be comfortable.

Here's what we recommend.

- Keep the temperature at 78° or higher. Each degree below that causes the unit to use about 5% more energy.

- Leave your air conditioner's fan switch in the "auto" position. This way the fan only comes on when it's needed.

- Finally, before you leave the

house, turn your air conditioner switch to "off." Even though your house may be warmer when you return, you won't be paying to air condition an empty house while you were gone.

For more energy-saving ideas and answers to your questions, call Texas Electric and arrange to attend an Operation Tighten-Up workshop in your neighborhood.

Texas Electric Service Company

H. F. CLARK, Manager, Phone 573-5461

Thank You

To the people of Scurry County, I am sincerely grateful to you for the support and consideration shown me in the Democratic Primary for sheriff.

Keith Collier

State Awards Won By Industrial Arts Groups

Several students in Snyder High School and Snyder Junior High School won awards in the State Industrial Arts Contests held in Waco the past weekend.

In the high school division examinations, Todd Stewart placed fifth in architectural drawing, while Randy Huddleston was sixth in general electricity, Robert Alexander was sixth in general electricity, Steven Wheeler was ninth in machine drafting and Alexander was 11th in machine drafting.

Some 4,000 students were involved in the competition.

In judging of projects, Joe Beuerlein had a first place entry in electronics, while Shawn McCowen and Daniel Peralez had second place projects. Those with second place projects included Robert Ramirez, Mike Wolf, (2) Robert Alexander (3), Robert

Hoyle, Randy Huddleston, Jeff Clement (2), and Richard Reed.

In the junior high division, Allen Fox placed first and Guy Stator third in on-site written tests on jewelry and ceramics, respectively. Both placed in the top 10 in another test, also.

In judging of projects, Guy Stator, Melinda Gutierrez and Allen Fox had first place entries, while Johnny Martinez and Steven Gibson had second place entries, and Richard Guerrero, Thereasa Ashworth, Kurt Dunn, Dewayne Williamson and Jeff Minor had third place entries.

School Blast Injures 14

NORTH EAST, Md. (AP)—After sixth graders watched puffs of smoke turn colors in an outside science experiment, a beaker exploded and 14 North East Middle School students were burned, authorities said.

Jeffrey Delbianco, 11, was hospitalized in fair condition with burns of the face, hands, arms and chest after Monday's accident. Tracy O'Conner, 12, was treated for burns of the face and hands and released. The other 12 children were treated for minor burns.

The class had completed an experiment with potassium and sulfuric acid when the explosion occurred, said Joseph G. Zurolo, state fire investigator assigned to Cecil County.

"The proper chemical reaction occurred," he

said. "There were puffs of smoke and it turned colors. The idea was to show chemical reaction as opposed to physical reaction."

As the students began returning to their classrooms "for some unknown reason the metal beaker exploded," Zurolo said. He said investigators planned to question students today to find out exactly what happened.

GOP Turnout Not A Record

Saturday's vote in the Republican Primary election was among the highest, but was not a record for the party in Scurry County.

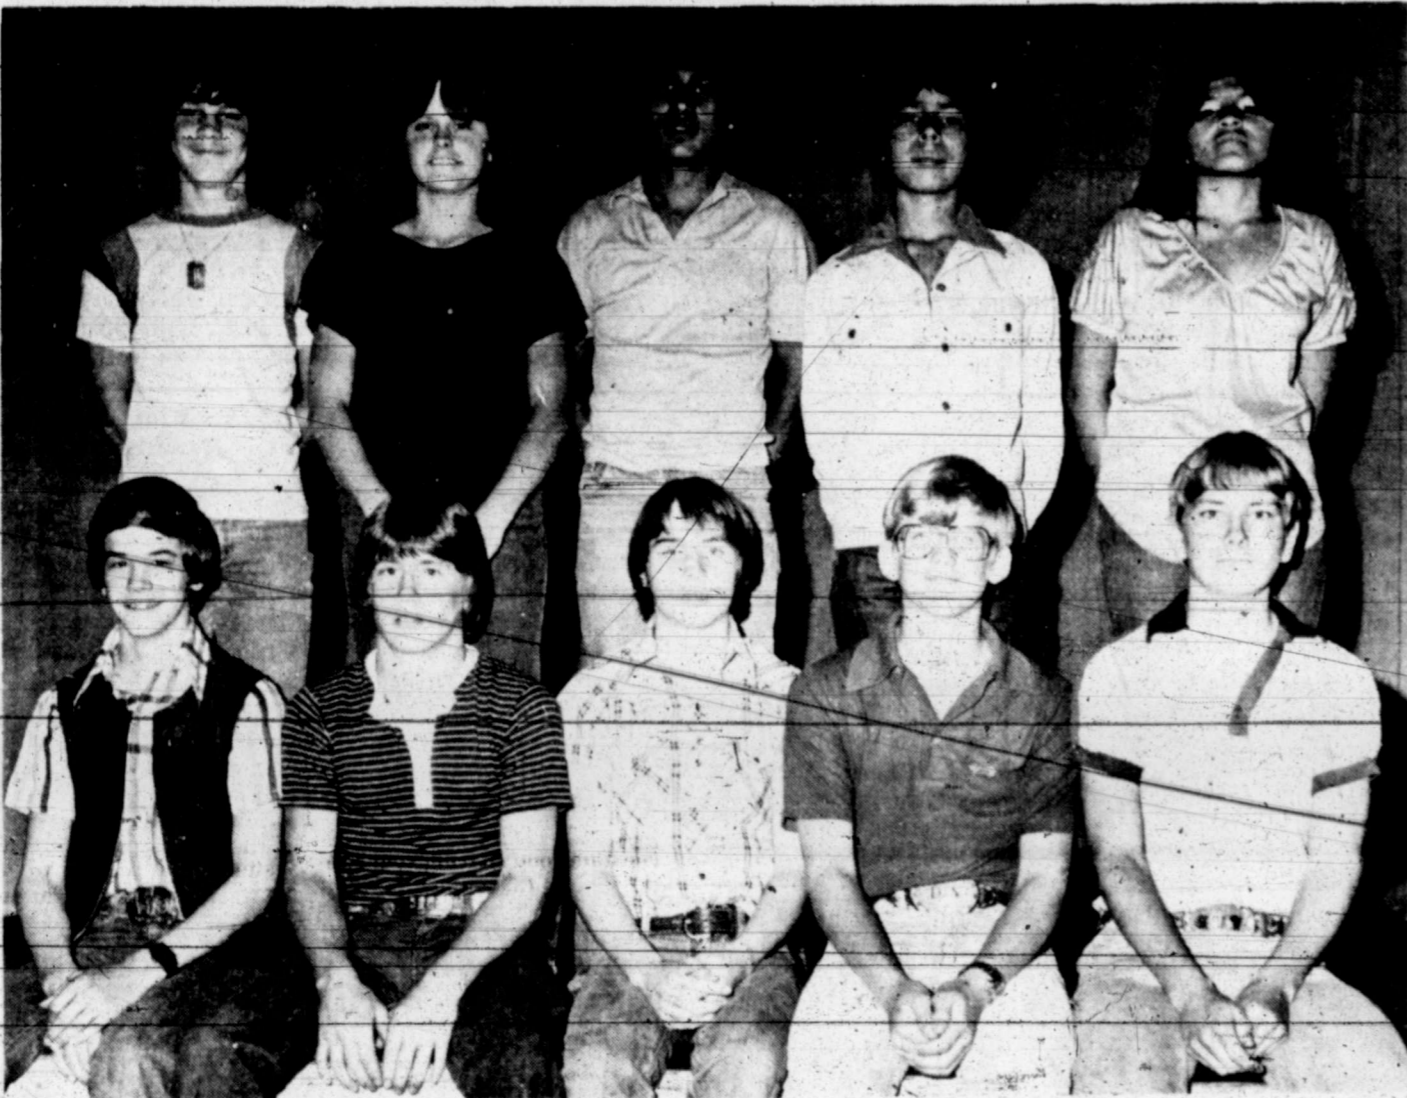

Gene L. Dulaney, the party's county chairman the past year, reported that the record apparently was set in 1976 when Ronald Reagan and Gerald Ford were in a heated battle for the presidential nomination. The Republican Primary here polled 427 votes that year. This year's total was 183, which is far above last year's 51 and apparently is second high.

Zaandam, a province in North Holland, is famous for its windmills.

SNYDER HIGH COMPETITORS—These Snyder High School industrial arts students participated in the State Industrial Arts Fair at Waco over the weekend. From left, front row, are Joe Beuerlein, Jon League,

Richard Reed and Lloyd Sands; back row, Randy Huddleston, Mike Wolf, Adam Holladay, Jeff Clement and Todd Stewart. Not pictured is Bill Cox. (SDN Staff Photo)

JUNIOR HIGH COMPETITORS—Representing Snyder Junior High at this State Industrial Arts Fair in Waco were, from left, front row, Kurt Dunn, Jeff

Minor, Steve Gibson, Allen Fox and Guy Stator; back row, Dewayne Williamson, Thereasa Ashworth, Johnny Martinez, Richard Guerrero and Melinda Gutierrez. (SDN Staff Photo)

Fireworks Kill One

SPANGLER, Pa. (AP)—A series of earth-shaking explosions ripped through a fireworks warehouse today, killing at least one person and injuring four others, officials said. The explosions were heard up to 15 miles from the warehouse in this Cambria County community in south-central Pennsylvania.

The blasts occurred at Terrizzi Fireworks, said Northern Cambria police dispatcher Carol Hughes. "There were multiple casualties and numerous ambulances have been dispatched," she said.

Madlock To Challenge Tough Player Penalty

PITTSBURGH (AP)—The National League handed out its longest player suspension ever for a game incident when it punished Pittsburgh Pirates third baseman Bill Madlock for his run-in with an umpire.

On Monday, National League President Charles "Chub" Feeney suspended Madlock for 15 days, effective immediately, although the 29-year-old player likely will continue playing pending an appeal.

Others have been banned for longer periods, but the suspensions were either issued by clubs or for activities that originated off the field.

In arguing with home plate umpire Jerry Crawford over a third strike last Thursday, Madlock pushed his glove in the official's face. A league spokesman said the suspension was severe because it involved an umpire.

Feeney also fined Madlock \$5,000, far less than he'll lose on his estimated \$250,000 annual salary. With a daily paycheck of about \$1,380, 15 days of unemployment could cost Madlock about \$20,700.

"There is no way the man should do something like that to me," Madlock said after hearing of the punishment. "There was no intent to hurt him."

"He (Crawford) pointed his finger in my face, and I came back with my glove. I never denied having the glove in his face. It's not like I brought the glove back and just hit him," Madlock said.

"We were fortunate the umpires let us continue the game," said Montreal Manager Dick Williams after watching his club collect 16 hits, which along with the 10 runs was its largest offensive production of the season.

Shaw Among Eight Arrested

NEWARK, N.J. (AP)—A San Diego Chargers player and seven others were arrested on cocaine possession and other charges when Essex County authorities interrupted what appeared to be the filming of a pornographic movie, officials said.

Peter Shaw, a safety with the National Football League team, and the others were charged in connection with a large cocaine ring, said Essex County Prosecutor Donald Coburn.

Rangers Win, 11-3...

Wills 'Bumps' Red Sox

ARLINGTON (AP)—The Texas Rangers' front office was unhappy enough with Bump Wills, both at the plate and in the field, to shop around during the winter, looking for a trade.

Wills made them blink twice Monday night and be grateful they kept him.

The 27-year-old second baseman dazzled everybody in Texas' 11-3 rout of the Boston Red Sox. He hit a double and three singles, walked in his only other appearance, and scored three times.

In the field, he turned two double plays and teamed with shortstop Pepe Frias for the fielding gem of the night. Wills went behind second to stop Carl Yastrzemski's hard grounder in the seventh and flipped backhand to Frias, whose throw nipped Yaz at first and brought the crowd to its feet in a wild ovation.

Wills' all-around play complemented the steady mound performance of Gaylord Perry, 2-1, who gave up eight hits, struck out five and walked one, going the distance in his

second win over Boston's Dennis Eckersley, 1-4, this season.

"I'm not trying to prove anything to the organization. If I'm trying to prove anything, it's to me. I thought I was the best second baseman in the league my rookie year and I want to show I can be again," the elated Wills said.

Buddy Bell also scored three times in a 3-for-5 night and had three RBIs, including a two-run homer in the first. Overall, Texas had 16 hits off Eckersley and two other pitchers, tying their season high.

Montreal Clobbers Richard, Houston

MONTREAL (AP)—Rain and Houston Astros right-hander James Rodney Richard, usually a pair of nasty opponents, couldn't stand in the way of Montreal Expos.

The Expos battered Richard, the top pitcher in baseball's National League for the month of April, for four first-inning runs and continued their barrage against three relievers after a two-hour, 53-minute rain delay to record a 10-1 victory Monday.

"We were fortunate the umpires let us continue the game," said Montreal Manager Dick Williams after watching his club collect 16 hits, which along with the 10 runs was its largest offensive production of the season.

Richard, who suffered his first defeat in five decisions, had a different opinion of the umpire's decision.

"I don't think the game should have continued at all," he said.

"It was raining and drizzling, and the temperature was only about 43 degrees. I had trouble holding onto the ball. It felt really small and slick."

Richard retired just one of the seven batters he faced in the game and spent most of the first inning trying to get ac-

customed to the mound at Olympic Stadium.

"I never fully adjusted to the mound," he said.

"The mound they have in the bullpen is entirely different than the mound on the field. The one on the field has a big drop."

Flyers Flatten North Stars, 5-3

BLOOMINGTON, Minn. (AP)—The Minnesota North Stars, a Cinderella hockey team if ever there was one, pressed mighty Philadelphia to the limit Sunday night before succumbing to the Flyers 5-3.

But don't believe the North Stars are dead. Just ask Bill Barber, the Flyers' left wing and chief architect of Minnesota's frustration. Philadelphia leads the series 2-1.

"This series is a long way from being over," said Barber, who scored four goals, including a shorthanded tally with 3:26 remaining which stunned the crowd of 15,706 and spoiled a magnificent comeback by Minnesota.

"They sure don't need to hang their heads," Barber said, reflecting on the

Little Locks First Round LaJet Lead

ABILENE (AP)—For two years now, Gene Littler has been fighting a case of the "yips"—the term golfers use to describe poor putting.

But Monday the 26-year veteran of the pro-golf tour rediscovered his feel on the greens, tied a course record of 31 on the back nine and jumped into a first-round tie for the lead in a \$170,000 benefit golf tournament here.

"I putted very well today," Littler said after his 66, which matched the score posted by J.C. Snead.

"It was encouraging," Littler added. "I've lost it (putting stroke) completely the last couple of years."

The first-round scores put Snead and Littler one stroke ahead of Chi Chi Rodriguez. Tom Purtzer and Lou Graham shot 68s, with Graham shooting a 31 on the front nine, while Andy Bean and Bill Kratzer were three shots off the pace at 69.

Co-leader Snead said he was pleased with his consistency in reaching the greens.

"I think the key was that

I didn't miss any greens to amount to anything and I stayed out of trouble," said Snead.

Warren Named Lamesa Coach

LAMESA—Jim Warren, former coach and junior high school principal at Lockney, has been named as head-football coach at Lamesa High School.

Warren, who coached at Lockney for six years, was selected for the position yesterday.

The McMurry graduate replaces Julian Bush, who left Lamesa after posting a two-year, 2-18 record.

Warren, who has 17 years coaching experience, had coached at Lockney for six years before taking a position as junior high principal following the 1979 football season.

Warren will reportedly bring two assistants with him from Lockney and his conferring with several others as the Lamesa High School athletic department undergoes a major upheaval.

Kareem The Key; Earvin The Magic

LOS ANGELES (AP)—It doesn't take a Phi Beta Kappa to know the most important defensive assignment for Philadelphia during the National Basketball Association's championship series is to somehow contain Kareem Abdul-Jabbar. But the 76ers have other problems, too.

Abdul-Jabbar was brilliant and the outside shooting of Jamaal Wilkes and Norm Nixon was significant in Sunday's 109-102 victory by the Los Angeles Lakers in Game One of the best-of-seven series.

However, it's the all-around play of rookie Earvin "Magic" Johnson that provides the 76ers with a more subtle yet perhaps more serious set of difficulties.

That's nothing new for opponents of the Lakers this season. The 20-year-old Johnson, who is prob-

ably one of the NBA's finest power forwards in disguise as an oversized point guard, has been a key factor in turning Los Angeles from a playoff also-ran to a possible champion.

Abdul-Jabbar is the main man, but Magic makes the Lakers go. Sometimes when Johnson's on the sidelines, the team goes stagnant. That happens much less when he's on the floor.

A sign of things to come occurred in the season-opener last October. Abdul-Jabbar connected on a skyhook at the buzzer to give the Lakers a 103-102 victory over the San Diego Clippers. Johnson, who had scored 26 points in a spectacular debut, leaped into Abdul-Jabbar's arms as if the team had won the NBA championship.

Tigers Entertain Ector At Moffett Field, 5:30

Snyder's Tigers take a break from District 3-3A warfare today, but the action is not expected to let up any.

The Tigers, 12-11, will instead entertain powerful Odessa Ector in a non-district tilt, 5:30 at Moffett Field. The game was originally slated for March, but had to be postponed due to weather.

Snyder winds up the regular scheduled season this week by hosting Brownfield on Friday and traveling to Lamesa on Saturday. A victory on either on those final two games will put the Tigers into a best-of-three district playoff series with Brownfield.

Ector, of District 2-3A, boasts an impressive 16-5 season record. The Eagles are currently a game behind loop leader Fort Stockton in district play and tied with Pecos at 1-1

each. Stockton is 2-0.

The Eagles will host Fort Stockton on Friday. Today's battle will probably mark the final time Snyder and Ector meet for a game which actually has no bearing on district standings, barring any post-season play between the two.

Next year, Ector and Snyder will both belong to the new-to-be District 2-4A along with Sweetwater, Lamesa, Lake View, Pecos, Monahans, Fort Stockton and Andrews.

The battles begin as early as Oct. 24, 1980 when the two are slated to meet on the gridiron. Possibility of Snyder and Ector meeting again this baseball season are not out of the question, though both would have to win respective district and bi-district titles.

Leading Hitters District 3-3A Play Only Below are leading hitters among

varisty baseball players at Snyder High School. Names are followed by hits, times at bat and percentages. Includes district play only, through May 5.

WINNERS—Randy Redwine displays the Bowie knife which won him third place in the first annual Student Art Exhibit at WTC. On the easel beside him is the painting which won first place in the show.

Student Art At WTC Is Judged

An oil painting by Becky Richardson of Haskell was winner of the first place award in the first Student Art Exhibit at Western Texas College.

Second prize went to Vanita Smithy of Spur, with third prize going to Randy Redwine of Tahoka.

Terry Gilbreth, director of the Diamond M Museum, was juror for the show, which attracted 95 entries.

Mrs. Richardson, a student at the Haskell extension center of WTC, titled her painting "Reaper's Wife." Mrs. Smith's entry was a pencil drawing titled "Nature."

Redwine's winning entry was a 16 inch Bowie knife. He has attended WTC on a music scholarship during the 1979-80 year and will return to WTC on an art scholarship next year. A graduate of Tahoka High School, he is the son of Mr. and Mrs. John Ed Redwine.

Honorable mentions in the show went to Sid Sullenger, Donna Hold, Gilley Treadaway, John Portis, Gertrude League, and Cindy Conrad, all of Snyder, and Bebe Colow of Colorado City, Jeff Wolford of Haskell, and Linda Key of Santa Anna. Mrs.

Richardson also received an honorable mention in addition to first prize.

The exhibit, sponsored by the WTC Artisans Club, will remain in place through Friday and may be seen without admission charge during regular hours in the Fine Arts Building. Most of the works are for sale.

Autograph Party Set

Dr. Harry Krenek will be honored at an autograph party Sunday afternoon in the Scurry County Museum at Western Texas College.

Krenek is the author of "The Power Vested" which deals with the law enforcement activities of the Texas National Guard in the years between 1919-1932. The Military History Committee of the Texas National Guard Association named Krenek recipient of its latest award for the book.

The autograph party is planned from 1-3 p.m. and the public is invited to attend. Refreshments will be served.

Krenek, professor of history at WTC, was awarded the Ph.D. by Texas Tech University last year.

Schedule For Cosmetology Class Changed

The new four-day class schedule for cosmetology students at Western Texas College will run Tuesday through Friday rather than Monday through Thursday as earlier announced.

The new schedule will go into effect on May 12. Students in the cosmetology program will then be accepting appointments for services Wednesdays through Fridays from 10 a.m. to about 3:30 p.m. Later appointments can be accepted if the service desired can be completed by 5 p.m.

Appointments for services in the cosmetology lab are to be made by calling 573-8511, extension 263.

There are openings for students in the quarter beginning June 2. Judy Border, instructor, said, and persons wishing information about enrolling are asked to call her as quickly as possible so arrangements can be completed by that date.

ASTRO-GRAPH Bernice Bede Osol

May 7, 1980
Instead of looking for new fields to conquer this coming year, seek ways to build on what you have already established. Your chances for success will be greater here than elsewhere.

TAURUS (April 20-May 20) There is a possibility that you could make things harder for yourself today than they really are, by premature or impulsive actions. Don't step out of character. Getting along with other signs is one of the sections you'll enjoy in your Astro-Graph Letter, which begins with your birthday. Mail \$1 for each to Astro-Graph, Box 489, Radio City Station, N.Y. 10019. Be sure to specify birth date.

GEMINI (May 21-June 20) Others are likely to have more confidence in you today than you do in yourself. This is one of those cases where you should trust their judgment and not yours.

CANCER (June 21-July 22) A venture you're involved in could be severely hampered today if everyone pulls alone, instead of together. Set an example for harmony.

LEO (July 23-Aug. 22) A fear of failure could cause you to postpone making an important decision today. More harm may result from indecisiveness than from making a poor judgment.

VIRGO (Aug. 23-Sept. 22) Those who share the work with you today must also be allowed to share the benefits. Keep this in mind when it comes time to slice up the pie.

LIBRA (Sept. 23-Oct. 23) This may not be one of your better days for taking gambles, especially the types where you are speculating in areas controlled by others.

SCORPIO (Oct. 24-Nov. 22) Your instincts regarding business or financial matters may be a bit keener today than those of your mate or associates. Don't discount your hunches.

SAGITTARIUS (Nov. 23-Dec. 21) Treat coworkers exactly the same as you'd treat a treasured friend today if you hope to gain their full support. Anything less might cause problems.

CAPRICORN (Dec. 22-Jan. 19) Ambitions can be fulfilled today, provided you don't make others feel they are being used. Find ways to cut them in on your action.

AQUARIUS (Jan. 20-Feb. 19) Be philosophical regarding any setbacks you may encounter today. Minimizing their importance will make them stepping stones instead of barriers.

PISCES (Feb. 20-March 20) The end result is what is important today, and not whose ideas got you there. If another's thoughts are better than yours, use them.

ARIES (March 21-April 19) Keep a close tab today on expenses for projects you're involved in. Unless you are very careful you could have some serious budget overruns.

(NEWSPAPER ENTERPRISE ASSN.)

Positive Action
Everyone wants an end to cancer. Take positive action today. Give what you can to the American Cancer Society during its annual educational and fund-raising Cancer Crusade.

POSTER, ESSAY WINNERS—Danile Chasteen, left, received the poster award, and Jimmy Pat James, right, won the essay award presented Monday night by the Upper Colorado Soil and Water Conservation District. Holding the No. 1 poster at center is Leon Sterling, district director, who presented the awards at a banquet held at The Shack.

SCHOLARSHIP WINNERS—W.L. Wilson, Jr., secretary-treasurer of the Upper Colorado Soil and Water Conservation District, left, presented scholarships to a conservation workshop to three Snyder teachers at a banquet Monday night. From left are Wilson, the three teachers receiving the awards, Margaret McNair of East Elementary School; Irene Masters and Donald Gressett, both of West Elementary.

Awards Presented By SC District

(Continued From Page 1)

1,119 acres. He grows cotton and small grain and has a small cow-calf operation. He uses cotton burs as a mulch on acreage that is not in rotation, with small grain and has installed four bur machines on his cotton strippers to spread the cotton burs in the field.

A native of Borden County, he was active in athletics and Future Farmers of America, receiving the Lone Star and American Farm Degrees. He is now a director of the Lynn County Soil and Water Conservation District and the Borden County representative on the Borden-Dawson Farmers Home Administration County Committee.

He has been a cooperator with the Upper Colorado Soil and Water Conservation District since 1959 and through assistance from the Great Plains Conservation Program has installed 67,000 feet of parallel terraces and followed other practices to conserve soil, water and plant resources.

Carl Williams, district chairman, spoke briefly on the observance of Soil Stewardship Week. He said the observance begins each year on the fifth Sunday after Easter. It began as a "Soil Sunday" observance, but subsequently was extended to a full week when the Association of

Soil and Water Conservation Districts assumed sponsorship. Williams reminded that man is charged with the responsibility of conserving the earth's resources in the Bible, and that with demands for food and fiber increasing throughout the world, conservation is more important today than ever before.

Erwin A. Pavlik, district conservationist, was master of ceremonies. Williams presented the Conservation Rancher Award and Burl Belew, district director, presented the Conservation Farmer Award. The scholarships to teachers were presented by W.L. Wilson Jr., secretary-treasurer of the district, and the poster and essay awards were presented by Leon Sterling, district director. Guests were introduced by Walter C. Stirl, district vice chairman, and the invocation was given by the Rev. Monte Jones, vicar of St. John's Episcopal Church.

Airline Conveyor

Belt Kills Child
GRAPEVINE, Texas (AP)—A 2-year-old girl who wanted to play on an airport luggage conveyor belt was killed when her brother turned the belt on and she got caught under a door, airline officials said.

Hinshaw's Reminds Only 4 Days Left To Pick Mother's Present

Only 4 more days to select your "I love You" gift for mother!

That's the wonderful thing about living plants—it's never too late or too early to make your selection.

Hinshaws located at 2804 College has been stocking up for the last few weeks—so that the selection would be varied enough to please any mom, no matter her preference!

If you are one of those people that has put off your purchase due to indecision—Hinshaw's is full of good ideas!

Pot plants make a beautiful gift that keep on giving long after Mother's Day has passed. Hydrangeas, geraniums, mums, caladiums and patio plants are just a few of the selections to choose from.

For something different and new, surprise mom with a strawberry planter, miniature roses, a swinging angel basket, Mother's Day cacti, aloe variegata or assorted herb. For the mother that is a plant lover—but seems to have them all one of the above should make a favorite gift.

Fresh cut flowers are still a big favorite with many mothers. The FTD "Big Hug" is a delightful way to

PLANTS, PLANTS, PLANTS—Pat Hinshaw shows just a few of the potted plants Hinshaw's has stocked for Mother's Day. Go by today and pick out your favorite. (SDN Staff Photo)

say "I love and appreciate you." Just call 573-8561 and Hinshaw's can take care of delivery almost anywhere—the FTD way!

Then there are always the moms that love the outdoors—how about a gift to make her yard more enjoyable this summer? Bedding plants, trees,

shrubs, stepping stones—come browse in the nursery and pick out an appropriate gift for your "special" Mom.

If we still haven't "hit" on the "just right" gift—may we suggest a corsage for her to wear to church Sunday morning? Or a lasting silk arrangement to decorate a special place

in her home?

Candy by Russell Stover is a delicious way to express your sentiments.

Misc boxes, brass accessories, wicker...the list could go on and on. Whatever the message, whoever the mom—Hinshaw's can help you let her know how special she is to you.

A. O. Smith Water Heaters Save, Says Robinson Plumbing Co

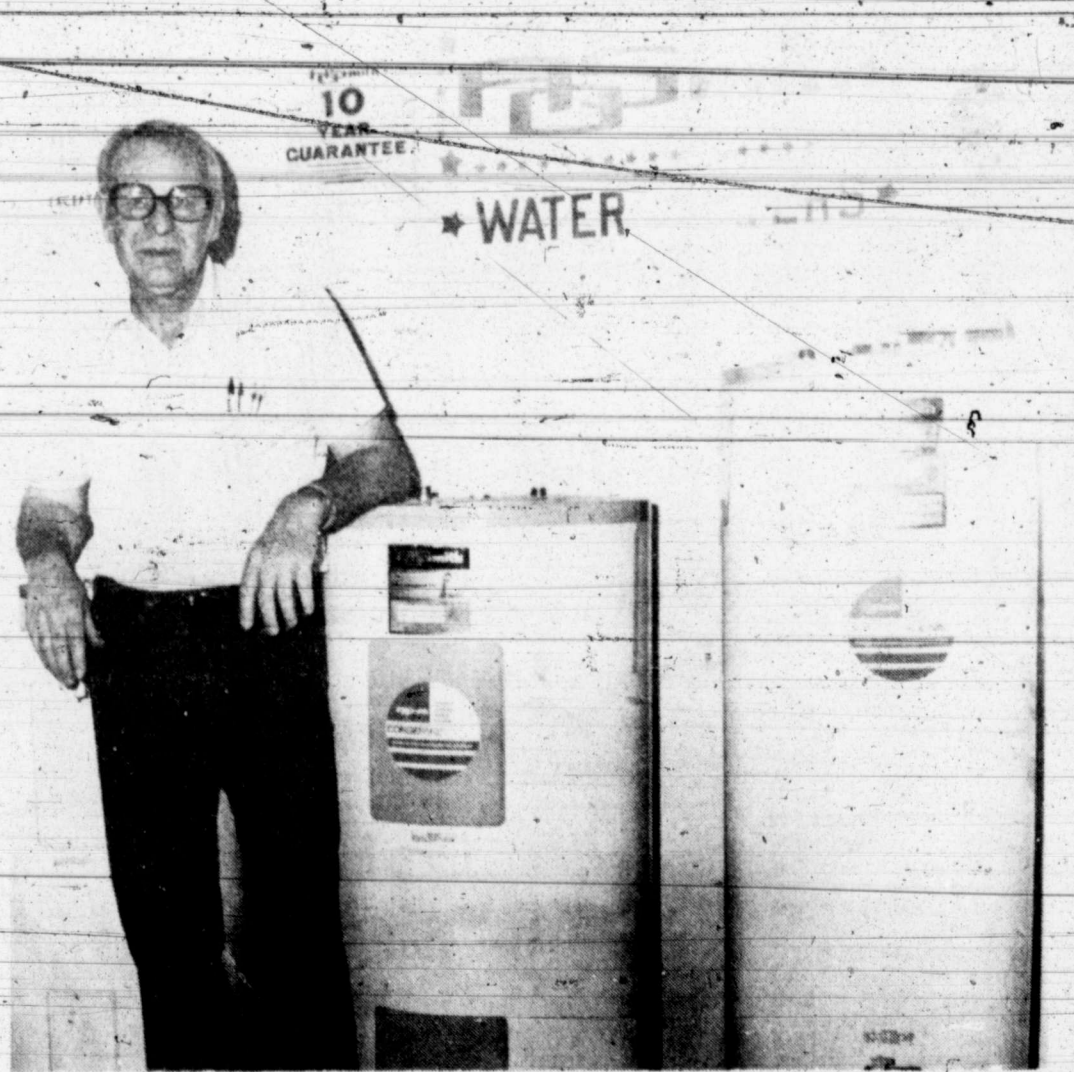

Why does Robinson Plumbing sell so many A.O. Smith water heaters? Well, the answer probably is because it's the best buy for the money. Here's why.

A.O. Smith makes one of the most energy conserving water heaters on the market today, and with today's energy prices, that's an important consideration.

Owner Rob Robinson noted that an energy conserving water heater costs more than a conventional model but he also stated that, "The annual return on this extra dollar investment can be 33 percent or more." The return comes back to the consumer in the form of annual energy savings.

How can the A.O. Smith save energy, you ask? Thicker insulation and overall design help. Also the Conservationist gas model has what is called a Thermogard dip tube, which actually provides more usable hot water, up to 30 percent more. Also, these energy conserving water heaters carry a 10 years warranty, as against the five year warranty of an ordinary model.

But don't think that Robinson Plumbing only has water heaters. He carries a complete line of plumbing supplies for the do-it-yourselfer and also a staff of professional plumbers who can do it for you.

SAVE ENERGY AND MONEY—Owner Rob Robinson of Robinson Plumbing is shown here with several models of the A.O. Smith water heater. (SDN Staff Photo)

The staff of Robinson

Plumbing, located at 2204 25th St., wants to help you with all your plumbing needs. Rob or Mrs. Robinson, and plumbers Ol-

ton and Mike take the time necessary to help each customer and the firm's 23 years in business is a testimonial to that.
