At 'Crimes Of America' Conference...

Clark Attacks Rescue Mission

By The Associated Press
Iranian President Abolhassan Bani-Sadr opened a "Crimes of America" conference today with a tirade against America, and former Attorney General Ramsey Clark, one of the participants, condemned the aborted U.S. mission to rescue the hostages as "lawless and contrary to constitutional government."

"It is inconceivable that constitutional government could ever delegate to a single person - president or prime minister - the power to risk killing many people half a world away in a foreign country," Clark said of President Carter's attempt to rescue the 53 American hostages April 25. Eight of the U.S. servicemen in the mission were killed when two of the aircraft collided.

"I hope that the conference and our participation in it can secure the early release of the hostages which I think is an important human concern for all people," said Clark, who arrived in Tehran with nine other Americans in defiance of a Justice Department ban.

He spoke in an interview with a Western reporter as the hostages spent their 212th day of captivity.

There were rumors in Far East money markets that three or more of the hostages had been shot, but the militant students holding the hostages denied the report. In Washington, a spokesman on the State Department's Iran working desk said several hours later, "It's the first I've heard of it." There was no confirmation from any source.

ing remarks to the conference, said Iran was virtually governed by Washington and the Pentagon for years and urged condemnation of U.S. efforts in his country.

He attacked colonialism and said many countries have been faced with a "conspiracy of superpowers bargaining over their destinies." He said the superpowers have carved out spheres of influence and that Iran was trying to break out of this mold.

In a message to the four-day conference in Tehran, Iranian revolutionary leader Ayatollah Ruhollah Khomeini called on delegates to "condemn the U.S. oppressors." Most world governments "support the oppressor against the oppressed but we expect from you justice and good faith," Khomeini said.

He said the Iranian government would produce evidence showing American intervention in Iranian affairs and the alleged crimes of deposed Shah Mohammad Reza Pahlavi and his father, Reza Shah. Islamic militants demanding return of the shah seized the U.S. Embassy in Tehran Nov. 4 and have been holding 53 American hostages ever since.

Some 100 non-govern-

mental delegations from 50 countries are attending the conference, called by Iranian President Abol-

hassan Bani-Sadr following the aborted U.S. mission to rescue the hostages April 25.

Takes Steps To Prevent Further Cuban Rioting

FORT CHAFFEE, Ark. (AP)—President Carter today ordered security tightened at the Fort Chaffee relocation center, where state troopers opened fire as more than 1,000 angry Cuban refugees pelted police with rocks and stormed the front gate.

Three Cuban were shot Sunday evening as the troopers drove them back

onto the base. More than a dozen people were injured, hundreds of civilians were evacuated and several buildings were set afire before police and soldiers quelled the rioters with tear gas and clubs about 8:30 p.m.

White House press secretary Jody Powell said today Carter sympathizes with the refugees' problems, "but it does not ex-

tend to condoning that sort of thing."

Powell said Carter has "taken steps to increase security," but did not elaborate.

"Obviously, we are watching the situation carefully," Powell said, adding it was hoped that authorities could increase the rate at which the refugees are processed.

He said Fort Chaffee has a higher rate of single males—with no family than other refugee centers, and so did not believe the trouble would spread to the other centers.

Gov. Bill Clinton said the riot could have been provoked by agents of Cuban president Fidel Castro. Some Cubans have complained that it is taking federal workers too long to process their entry into U.S. society.

The Sunday night violence came in the sixth day of tension at the 72,000-acre Army Reserve base, now serving as a relocation center for more than 18,000 of the Cubans who have fled by boat to the United States. And it was the second violent confrontation of the day.

One refugee was in critical condition at Saint Edward Medical Center in nearby Fort Smith and two others were in serious, but stable condition, all with gunshot wounds.

First Absentee Ballot Reported

The first absentee vote for the second primary election of the Democratic Party has been cast here, County Clerk Beverly Ainsworth reported this morning.

The absentee voting period ends at the close of business Tuesday. Little interest has been shown here in the runoff balloting scheduled for Saturday. There are no local races involved and the ballot in Scurry County only lists three state court races.

Nine Cases Going Before Grand Jury

Nine cases were tentatively scheduled for presentation before a Scurry County grand jury this morning.

Two of the cases involve Reymundo DelaRosa and stem from one incident. That incident occurred May 24 when DelaRosa, 100 block East Highway, is alleged to have taken a knife-point a car from Robert Fenner. DelaRosa was charged with aggravated assault and unauthorized use of a motor vehicle.

Lawrence Robert Sleeper of Lubbock is charged with rape. He is alleged to have raped a 19-year-old woman who was traveling with him. The incident is alleged to have occurred May 24, about a mile south of the Old Snyder Cemetery.

Charged with possession of a controlled substance is John Marion Jackson Rt. 2, Box 5, Snyder. He

was arrested May 16. Specifically, the drug he is reported to have had in his possession was oxycode.

For allegedly striking a police officer on duty, Mack Riggins was charged with aggravated assault on a peace officer. The incident is alleged to have taken place May 14. Riggins resides at 2906 1/2 Ave. L.

Robert J. Baker Jr., Rt. 3, Snyder, is charged with burglary. He is alleged to have broken into a mobile home May 10 that is owned by George Kirkpatrick.

Also to go before the grand jury are three cases involving charges of driving while intoxicated. Named in those cases are Bruno Orosco Perez, 2011 Ave. K, Raymond Lee Walker, 2905 Ave. Y, and Jesse Costillo, 216 26th Place.

Monday update

Dissidents Lashed By Pope

PARIS (AP)—Pope John Paul II unleashed a sharp attack on Catholic dissidents, then prepared to end his four-day visit to France today by traveling to the Normandy town of Lisieux to say Mass and visit the famed Carmelite-nunnery there. From Lisieux he travels to nearby Deauville where he leaves for Rome. The first highlight of the pope's day Sunday was an open-air Mass for half a million people at Le Bourget Airport just north of Paris.

Quiet At Volcano Site

VANCOUVER, Wash. (AP)—After two consecutive weekends of natural violence, a cloud-shrouded Mount St. Helens was quiet as the last official search for victims or survivors of the volcano's eruption came to an end.

"That's it. It's all over," Army Maj. Ralph Paduano said Sunday after four helicopters flew down from the scarred hills around the volcano and landed at Salkum, a staging base for ground searches.

Braced For More Refugees

KEY WEST, Fla. (AP)—After a weekend of "Zero sightings," American officials were bracing today for the beginning of the end of the Freedom Flotilla exodus from Cuba.

"Another couple of weeks ought to do it," said a weary U.S. Customs agent at the Key West docks on the 39th day of the Cuban boatlift.

Only one boat with 128 storm-tossed men, women and children pulled into Key West harbor early Sunday, bringing the total number of refugees to 94,269.

Carter Eyes Ration Plan

WASHINGTON (SP)—President Carter is about to ask Congress to adopt an emergency gasoline rationing system that will take more than one year to set up, a Department of Energy official told Congress today.

Douglas G. Robinson, DOE deputy administrator for policy, said the plan, calling for massive issuing of coupons, would require \$100 million to develop and would have a substantial error rate.

He said that from 10 percent to 20 percent of American motorists probably would not receive their proper supply of coupons at first because of difficulties in keeping track of registered vehicles.

"Ten to 15 million Americans wouldn't get them," he told a Senate energy subcommittee. "A substantial portion of the American people would be unhappy. It's inherent in a coupon ration plan."

Robinson said Carter has approved the proposal and plans to submit it to Congress within a week or two.

Diggs Conviction Intact

WASHINGTON (AP)—The Supreme Court today left intact the payroll-kickback conviction of Rep. Charles Diggs, D-Mich.

Diggs, who already has announced he intends to retire in January from the seat he has held in the House since 1955, now faces a three-year prison sentence.

The justices, without comment, refused to hear arguments aimed at overturning Diggs' 1978 federal conviction for misapplying money allotted for compensating congressional employees.

2nd Reading Due For Peddler Law

The Snyder City Council is scheduled to take action tonight on second reading of an ordinance regulating peddlers, solicitors and itinerant merchants.

Also on the agenda for the regular meeting set for 6:30 p.m. at city hall are a wage-salary survey, an offer of land for a park, resolution requesting a truck route designation around the east side of the city and a resolution on Texas Electric Service Company's request for a rate increase.

Reports were that several members of the merchants' committee of the chamber of commerce would seek an increase in the fee provided in the itinerant merchants' ordinance. The fee approved on first reading is \$10.

Sig Line is scheduled to make a proposal for development of a park along Deep Creek between 30th and 37th Sts. The council is expected to suspend for 120 days the TESCO rate increase request. Otherwise, the company could put the increase into effect by posting bond.

Results of a wage-salary survey authorized earlier by the council will be presented at the meeting. Also up for consideration will be a plat for a K mart store which was approved last week by the Planning and Zoning Commission.

Appointment of three members of the Zoning Board of Adjustments will be considered. The terms of Jack Gorman, Dr. Jack Nesbit and Vernon Young expire this month.

LOS ANGELES (NEA) —Most news stories about initiatives on the June 3

California primary ballot have dealt with Proposition 9, Howard Jarvis's attempt to cut the state's income tax in half.

But the ballot is crowded with no fewer than 11 voter-sponsored initiatives several of major national interest. The topics include such emotional issues of taxation of oil companies, rent control and freedom of the press.

In California, groups of voters can put measures on the state ballot if they can get enough signatures on petitions. A little more than 300,000 signatures are needed if the group is seeking approval of a new state statute. A little more than 500,000 signatures are required if the group is seeking to amend the state constitution.

merits of the issue. Finally, there is Proposition 5, a state constitutional amendment that would profit contempt of court citations against reporters and news organizations that refuse to divulge their information sources. The measure has received near-universal media support in this state, where several journalists have been jailed in recent years for not revealing sources.

This proposition is adopted media organizations in other states will undoubtedly use it as a model in attempting to modify their own state constitutions.

ASTRO-GRAPH
Bernice Bede Osol

June 3, 1980

Situations you may not have been able to control in the past couple of years will be changing for you this coming year. Good friends may play a part in helping you make large strides in your chosen endeavor.

GEMINI (May 21-June 20) Look at life philosophically today and you'll be a winner with very little effort. You may even be able to gain a friendship you'd like to cultivate. Romance, travel, luck, resources, possible pitfalls and career for the coming months are all discussed in your Astro-Graph letter, which begins with your birthday. Mail \$1 for each to Astro-Graph, Box 489, Radio City Station, N.Y. 10019. Be sure to specify birth date.

CANCER (June 21-July 22) Good things will be coming your way today, provided you let other do for you what you'd do for them if the roles were reversed.

LEO (July 23-Aug. 22) Get in touch today with persons whose relationships need firming-up. You should find your views are on the same wavelength, and much can be accomplished.

VIRGO (Aug. 23-Sept. 22) Conditions favor talking to people today who can do things for your work or career. Deal directly with them. Good things could happen.

LIBRA (Sept. 23-Oct. 23) Follow your nobler instincts today and you should sparkle and shine, no matter who you're involved with. All will find your ways extremely appealing.

SCORPIO (Oct. 24-Nov. 22) Changes that will go quite beneficial to you may be in the offing today. You may not have direct control over what's happening, but you'll like it.

SAGITTARIUS (Nov. 23-Dec. 21) You have a moderating influence today and can bring your reasoning force to ward discussions. Harmony prevails where you tread.

CAPRICORN (Dec. 22-Jan. 19) Necessary changes may finally be made that could turn this into a red letter day for you materially. The changes might involve your work or career.

AQUARIUS (Jan. 20-Feb. 19) You may find yourself in the limelight socially today, even if you aren't seeking it. The reason: diplomacy you employ with all those you meet.

PISCES (Feb. 20-March 20) The power within you that could make you a winner today is positive thinking. With this no hurdle is too high for you to get over.

ARIES (March 21-April 19) Alliances you make today could be of major importance. Gemet strong bonds while the aspects favor partnership agreements.

TAURUS (April 20-May 20) Do a good job today. Those who are in the position to make things easier for you are looking over your shoulder. They'll be generous with the rewards.

crystal ball needed

Americans have always prided themselves on their ability to think things through. As a people, we tackle problems and challenges with enthusiasm. This pioneering spirit ranges from day-to-day aspects of each of our lives, through local and regional issues, and to topics of concern for the nation as a whole.

Our ability and desire to think things through contributed to the birth of this nation and the political processes that govern it. This ability helped to develop for Americans one of the highest standards of living in the history of the world. And this ability must now be applied seriously and dispassionately to one of the basic issues of modern life: the need for predictable government policies.

On the surface, this may not seem very relevant. But in fact, it affects us all. When government policies are not reasonable, not consistent and not predictable, we cannot plan effectively for the future.

Consider the following circumstance: Due to the complexity of design and construction, and due in large part to massive government regulation and interference, it now takes eight to 12 years; more or less, and extraordinary sums of money, to bring a utility plant "on line". In other words, if your local electric company determined today that your neighborhood will need more electricity, and if it decided to build a new generating plant to serve you, it would be a decade or more in all likelihood before the plant would be operational.

What happens to such planning when government policies flicker with the political breeze? Let's stay with our example.

In the early 1970's, utilities were encouraged to build generating plants that used oil as their major fuel because the government believed that oil was more environmentally acceptable. And so, behaving in what was at the time perceived to be the national interest, utility executives set out to build generating stations that burned oil.

What happened? Look around in the world of the early 1980s and you'll see that utility company executives are being urged to build plants that use coal as their major fuel source. Moreover, they're being urged to convert oil-burning plants to coal as well. The cost: billions of dollars. Ultimately these dollars will be paid by the consumer in the form of higher utility rates.

It is as if an individual family that set out to save money for a child's education could look forward to a world in which they might well be told that only people who didn't save for a child's education could send a child to college. Next year, the rule would be different. And the following year, who knows?

a dubious benefit

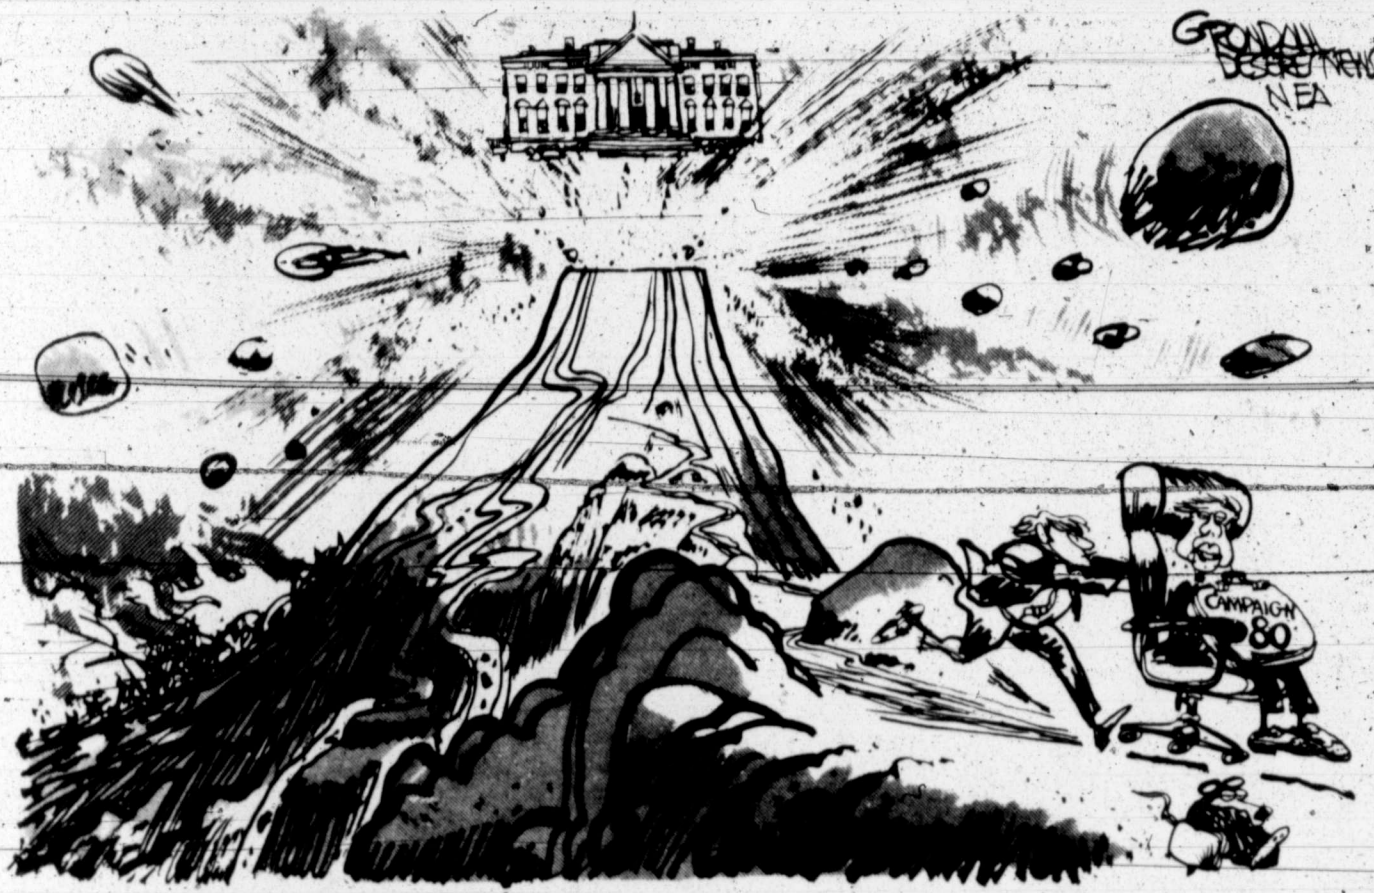

Emerging from the Rose Garden isn't the only move President Carter is making to join the candidate crowd.

He is also reported to have arranged to have his major speeches simultaneously rendered in sign language for the benefit of the many deaf and hearing-impaired members of the electorate.

Others, notably Sen. Edward Kennedy, have similarly been employing sign-language translators on occasion.

As a means of assuring fuller participation of the nation's handicapped in the political process, the trend is certainly to be welcomed.

On the other hand, considering the quality of the political rhetoric this campaign season, some might see it as adding insult to injury.

john cunniff pension problems

NEW YORK (AP)—If you believe the private pension system is immune to collapse, perhaps because you have seen the country stumble its way through so many other big problems, consider this scenario:

If inflation were to prevail for 10 years at 12 percent a year — or lower than the rate so far this year — it would erase about two-thirds the buying power of the fixed-sum pensions that support millions.

But, you say, relief would be rushed to the scene. From government? Can you really be sure that when the federal government is already deeply in debt and is already blamed for being an engine of inflation?

Two obvious possibilities suggest themselves: Bigger contributions from sponsors of corporate pensions, and greater returns on pension fund investments. But experience suggests little help from either.

First, the matter of bigger contributions. Based on a survey of 501 companies by Hewitt Associates, a major actuarial firm, 57.5 percent of companies have made no post-retirement additions to funds since 1973.

Several pension authorities say it is safe to assume that what additions were made fell far short of offsetting inflation's damage.

Between 1970 and 1979, pension equity funds — those invested in stocks — averaged a paltry 3.6 percent return, less than half

the inflation rate of 7.4 percent, according to Becker Securities.

According to Martin D. Saks, himself a pension fund manager, the biggest equity pension funds simply cannot battle inflation. They're too big," he says. "Their elephantine size curbs their flexibility."

And yet, most pension money is managed by big organizations. The top 25 banks, for example, handle about \$199 billion of retirement funds, or 35 percent of the \$560 billion private pension fund pool.

Individual banks may manage as much as \$20 billion of private pension funds.

Sass, who heads M.D. Sass Investors Services, contends that the choice of stocks in which to invest shrinks with the size of the investment. In his view, managers of the largest dollar amounts have the fewest choices; their investments can be absorbed only by huge companies.

He believes the future lies with "money management boutiques" that limit the amount of money they manage, the purpose being to remain sufficiently flexible to take advantage of buy-sell opportunities.

There is evidence that the boutique concept is catching on. Banks, which with insurers are often among the "elephantine" managers, suffered a net loss of 24 funds last year. The boutiques gained 67 new clients out of 97 hirings by the 350 largest pension funds.

Now I really have something to cheer about: 58 pounds lost!

Gladys Conway's True Story:

I never worried about my weight, until my husband started telling me a couple of years ago that I needed to slim down. He was right. At 170 pounds, I was just too heavy. I was determined to get rid of that weight, and since a friend of mine was having a lot of success at Pat Walker's, I started going there, too.

Now, I'm the successful one! I'm down to 112 pounds, and I've lost a total of 68 inches from my waist alone. I love the way my figure has stayed firm and smooth all along... Pat Walker's Symmetrical passive exercise unit takes care of that.

My husband and I go to every football game we can (we haven't missed one University of Texas game in 48 years). I enjoy going more than ever now, because I look as good as I feel!

Pat Walker's program has made a big difference for me. I'm sure it will for you, too.

Free Figure Analysis

Make an appointment now for a free, no-obligation consultation at Pat Walker's. We'll explain how our program works, from the no-muss, no-fuss passive exercise treatments to our belief in your right to privacy. We'll tell you how much you need to lose, how long it will take, and the total cost of your complete figure correction, based on four dollars per thirty-minute treatment.

Salaries Of Americans Explored In New Book

NEW YORK (AP)—Starting wages for bank tellers around \$6,350 a year. The average shoplifter can earn \$53,000. The head nurse in an average American hospital was paid \$15,700 in 1979. Directors of public relations at hospitals averaged more than \$23,000. These and other salary oddities and outrages are included in "America's Paychecks," for which author David Harrop pried loose the best-kept financial secrets of everyone from doctors to plumbers, corporate executives to call girls.

In the summers of '30 and '31, the New York Yankees paid Babe Ruth \$80,000 to play ball. That was more than President Herbert Hoover earned either year.

If Ruth were playing in the summer of '80, taking into account 50 years of inflation, he would likely be paid \$800,000, not much less than the \$1 million Nolan Ryan is earning to pitch with the Texas Rangers.

And that's still way beyond the \$200,000 salary paid President Carter. In his book, Harrop details salaries in such professions as law, medicine, education, government, sports, entertainment, banking, publishing, industry and crime.

And of such notables as former secretary of state Henry Kissinger—more than \$500,000 a year from lectures, consulting and writing; singer Diana Ross—\$2.52 million for 72 singing performances at Atlantic City casinos in 1980-82; Chase Manhattan Bank chairman David Rockefeller—\$373,000; and Playboy magazine publisher Hugh Hefner—\$302,000.

"Most people are secretive about their salaries," Harrop said. "Salaries are personal and very much tied up in the American concept about what you're worth. I expected to be resented for doing this book, but I wasn't. Most people are very curious about what other people make, but they're secretive about their own salaries."

Harrop said he gathered his data from public records and by "just talking to people."

The people most consumed with salary matters, Harrop said, are blue collar workers and the very, very rich. An associate editor in publishing earns \$15,500 a year. A teacher in Montgomery, Ala., earns \$13,038 a year. An electrician averages \$21,400; a plumber, \$19,100.

The thing that surprised me the most in researching this book was that because of this age of inflation, in certain fields—principally entertainment—people are making just as much now as they did in the old days," Harrop said. "Entertainment is the best paid field, decade to decade."

In 1916, he said, Charlie Chaplin received \$670,000 for making comedies for one year. A year later, he received \$1 million for directing and starring in eight two-reel comedies, plus \$15,000 for each reel over two and 50 percent of the profits on all over five reels.

Today, with the dollar worth barely one-sixth as much, movie actor Burt Reynolds receives \$3 million per film plus 10 percent of the gross profits.

One area where salaries have increased substantially over the decades is medicine.

"Doctors' incomes have gone up two or four times more than lawyers or educators," Harrop said.

Mishaps Keep Police Busy Over Weekend

Several traffic accidents were investigated during the weekend by city police.

The first occurred Saturday at 6:30 p.m. It involved a 1971 Plymouth driven by Rayburn Dale Galyean and a 1971 Monte Carlo driven by Jill Ann Kidd. The accident, investigated by Don Cheek, took place in the 2900 block of Denison.

The next accident was at 9:15 p.m. Saturday at Varsity Square Shopping Center. A report filed by investigating police officer Buddy Kinney shows a 1979 Mercury owned by Jean M. Parks was struck by a vehicle which left the scene.

Early Sunday morning police investigated a series of mailbox hit and runs in the 1900 and 2000 blocks of Ave. G. A report filed by officer Kerry Fritz shows that mailboxes owned by Lynn Fenton, C.A. Stone, and Reynaldo Gomez were all struck by a vehicle which fled the scene. Also hit was a yield sign. The incidents were reported about 3 a.m.

Sunday at 9:05 p.m., Sgt. Dale Burns worked a one vehicle accident in the 1700 block of Coleman St. His report shows a 1973 Oldsmobile overturned. Police are checking to ascertain who the driver was.

A minor theft was reported by Glen McCathern to Don Cheek. Taken, reports show, were two baseball gloves worth about \$40. That incident was reported about 4:10 p.m. Saturday.

Dear Abby

Advice 20 Years Ago Enriches Two Lives Today

By Abigail Van Buren
1980 by Universal Press Syndicate

DEAR ABBY: About 20 years ago, in a very distraught emotional state, I wrote to you concerning my involvement with a young woman. I was on the verge of suicide and your advice and support saved my life.

So genuinely concerned were you that you kept me advised as to where to reach you during a Southern tour you were taking at the time.

Much has happened since then, and I want to bring you up-to-date. Recently I wrote a book (my first), titled "Night Stalks the Mansion." It became a best-seller. It's now in its 9th printing—approaching the million mark in sales!

Except for your concern and support during a very traumatic time, I would not be alive today, my book would never have been written, and my reasonably rewarding life would not have lasted as long as it has (I am 74).

As a result of the book, the above-mentioned lady (no longer young) found me again. She saw me on television and wrote to tell me she had often tried to locate me. She had never married; she has burned a candle for me every year on my birthday!

So, Dear Abby, two lives in which you played a greater part than you know have been greatly enriched by your kindness and counsel.

Thank you and God bless you.
HAROLD W. CAMERON, PARADISE, CALIF.

DEAR HAROLD: I remember you well. Thank you for writing. Your letter made my day, my month, my year!

DEAR ABBY: I was told that you once had a letter from a grown man who wanted to sue his parents for having had him circumcised when he was an infant. He claimed that he was maimed and permanently disfigured for no reason at all; as he wasn't even Jewish. What was your advice and how did it turn out? I am considering the same action.

NEW YORKER

DEAR NEW YORKER: I told him he could sue if he wanted to, and if he won he could call it "severance pay." (P.S. He sued and lost.)

DEAR ABBY: I live with my daughter and her husband. The other night they had another married couple in for bridge, and just as I walked into the room where they were playing, I happened to see the other woman wrapping her bare legs around my son-in-law's legs! I saw him move his legs away, and then she stretched her legs like they were rubber and very determinedly trapped his legs with hers!

I refuse to be in that woman's company again. I never told my daughter why I dislike this woman so much, so she thinks I'm wrong to have such hate for her friend.

Should I tell my daughter? Her husband knows I saw the whole thing, but he says nothing.

What should I do?

SEES TOO MUCH

DEAR SEES: Don't carry tales to your daughter. If the woman with the rubber legs stretches things too far, your daughter will eventually become aware of it and resolve the matter in her own way.

CONFIDENTIAL to those who have sent for Abby's booklets: Please, please be patient. I am literally deluged with orders and am getting them out as quickly as possible.

A one-time coach of the Los Angeles Rams, Hampton Pool, went to three different colleges and played six positions in varsity football.

6 Die In Gaines' County Wreck

SEMINOLE (AP)—Six members of a New Mexico family died in a grinding head-on collision on U.S. 180 in what officials say was the worst auto accident in Gaines' County history.

The family, which included two small brothers, was on the way back to Hobbs, N.M. when the wreck occurred early Sunday morning, police said.

One man survived the crash.

"Both cars were demolished," said Department of Public Safety investi-

gating officer Joe Valenzuela. "Pieces were scattered all along the highway. We found a drive shaft from one of the cars 100 feet from the point of impact."

Gaines County Sheriff Ed Welch said it was the worst auto wreck in the county's history.

Valenzuela said the family was returning from a visit to their parents in Lamesa. The collision occurred in the westbound lane about four miles east of this far West Texas town, he said.

"It appears the west-bound car swerved to the right and the other car swerved to the left and they ran into each other," Valenzuela said. He said the accident was under investigation.

Killed were Chester A. Young, 22, the driver of one of the cars, and his wife Thyra Lee Young, 26; Clifton Ray Young, 25, his wife Vivian Lemmons, 19, and their children, Vernon, 4, and LaMoat, 2. Clifton Young was the sister of Thyra Young,

whose maiden name also was Young.

He said the only skid marks at the scene of the accident were made by the Young vehicle.

"Everyone but the driver in that car was killed instantly, and the driver died at the scene," he said.

The driver of the other car, Paul G. Elam, 21, of Seminole, was treated for minor injuries and released.

"He was in a state of shock when we talked to him," Valenzuela said.

Snyderites Gets SWTSU Degree

SAN MARCOS—Jal R. Dennis of Snyder was among the 1,080 South-west Texas State University students who received degrees in spring commencement ceremonies.

Degrees were conferred by SWT President Lee H. Smith with diplomas awarded by school deans.

Dennis, son of Mr. and Mrs. E.B. Dennis of Rt. 3, Box 540, received a bachelor of applied arts and science degree with a major in occupational education.

Admits To Killing Husband

DALLAS (AP)—Madeline Timmons said she waited behind a door in her \$200,000 home to fire the shots that killed her rancher husband because she was afraid he was going to beat her and her children, police said.

William Franklin Timmons, 39, was shot to death during the weekend as he returned home from his Collin County ranch, police said.

Mrs. Timmons was released on a motion filed by her attorney after questioning by homicide investigators.

Officers said a court hearing will be held during the week. No charges were filed in the case.

The woman told police Timmons had beaten her, his 18-year-old son and the couple's 14-month-old daughter several times in the past. She said the shooting came Saturday after she and Timmons had argued on the telephone and after she said Timmons told her things were really going to get bad when he got home, police said.

Officers said Timmons was struck in the face,

shoulder and back with pellets from a 12-gauge pump shotgun about 3:20 p.m. Mrs. Timmons, 32, was waiting with her attorney, Marc Richman, when police arrived at their home.

Homicide Sgt. Bill Parker said there was no evidence that Timmons was armed. Parker said Mrs. Timmons did not sign a formal statement for police.

Lawrence E. Lamb, M.D.

Ruptured vaginal canal

By Lawrence Lamb, M.D.

DEAR DR. LAMB—My mother is 77 years old and is having a terrible problem with her bladder falling out. So much so that she has to keep pushing it back up. The doctor tried a device to see if it would pull the bladder up but it wouldn't stay. He said they could try surgery but he wouldn't guarantee it.

She's had eight children and a hysterectomy many years ago plus other surgery. She also has a bronchial condition that makes me afraid to see her undergo surgery. Do many women her age have this type of surgery done?

DEAR READER—It's not always the age of the person that determines whether he should have surgery. A person's general health status

is far more important.

I'm not sure what you mean by a bronchial problem, but its cause and how serious it is would need to be evaluated as part of the overall evaluation of your mother's health problem before any form of surgery.

It is absolutely amazing what can be done surgically in older people today. Part of the improvement is because of continued progress in the safety and the wide variety of methods of providing anesthesia. Also, modern technology has improved the post-operation care.

Evidently, you're describing a cystocele. Basically, this is a rupture, as are a rectocele and a fallen womb. The vaginal canal is a muscular tube. The bladder is in front of this tube, the rectum is behind it and the uterus is at the blind

end of the muscular canal. If these muscles tear or stretch along the front wall, the bladder can herniate or rupture through it into the vaginal canal. If the muscles are torn or weakened at the back, the rectum may rupture through. And if the canal is weakened at the blind-end area, the uterus may fall through.

I'm sending you The Health Letter number 14-12, Hysterectomy, Cystocele and Rectocele. This issue discusses hysterectomy and the common repair problems involving such ruptures. Other readers who want this issue can send 75 cents with a long, stamped, self-addressed envelope for it. Send your request to me, in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10019. These disorders are very

similar to other hernias that rupture through weakened muscular walls. It also means that devices to prevent the rupture are of limited value in many cases. Ultimately, the most successful means of treating such disorders is surgical. The torn stretched muscles and other structures are strengthened and repaired.

Such problems are far more common in women who have had multiple pregnancies. Obviously, while giving birth, the vaginal muscles are stretched. The repair procedure is somewhat more difficult than some other forms of hernias and, that's why a doctor doesn't like to give you an absolute guarantee that there will not be a recurrence of the problem.

If there is a recurrence, a

second effort at repair is possible, just as one can repair a hernia in the groin (inguinal hernia) if the first surgical effort is not successful.

Tigers Bound For Austin

COATERS TOURNEY—Commissioner Eldon Perry tees off in the annual Gold Coat Memorial Golf Tournament held here Saturday. Perry played in a foursome with Judge Preston Wilson, right, and Commissioner Hassie Sneed and Charlie Morrow. (See article below) (SDN STAFF PHOTO)

LUBBOCK—If you had a nickel for every time the word "Austin" was uttered around the Tiger dugout here Saturday afternoon your holdings would be fairly substantial. At least enough to get you to the capitol city to watch Snyder High School compete in the Class AAA State Baseball Tournament.

The Tigers, showing the well-balanced combination of strong hitting, superior defense and one-hit pitching by junior, Tony Degrade, rapped hopeful Lubbock Estacado 8-1 to take the school's first Region I baseball title in 15 years.

"Austin" began to leak out last Wednesday when Snyder came up with three seventh-inning runs to edge Estacado 4-3 in Game One of the series.

Surprisingly, little was said at the start of Saturday's Game Two. It didn't take long before a few utterances became

audible though.

With one out in the first inning, Tiger hurler Tony Degrade gave up what was to be the Matadors' only hit of the day—a single to Brentt Parker. The next Matador sacrificed Parker to third after a steal, but Degrade fanned the final man to lift Snyder out of trouble.

Toby Neves and Kyle Short got the Tigers going offensively in the second inning by drawing back-to-back, full-count walks. Shawn Ragland struck out as Matador pitcher Dewayne Dotson rallied back, but the Tiger runners managed to take third and second bases on a passed ball.

Next-up Bryan Vincent then slapped a shot to first-sacker Rodney Wheeler. The Estacado baseman hesitated before attempting to make the out and that was all Snyder's fastest baserunner needed to run the distance safely. Pinch runner Gary Don Edmiston scored from third on the play, giving Snyder a 1-0 lead.

Ricky Gambol also struck out to Dotson, but Bobby Degrade drew the pitcher's third walk of the inning and Paul Gafford countered with a hard-hit single to centerfield which sent his teammates scurrying home.

Ahead 3-0, Austin began to be mentioned in whispers.

Estacado's only run came in the second inning also. With one out, Wheeler walked and stole second. Butch Avery then hit into a ground out relayed to first baseman Pete Willis. Willis saw Wheeler making for third in the meantime and figured on a double play.

His throw to Short was off target however, and Wheeler rounded the corner and came in unmoles- ted.

Snyder added another run in the third as Ragland scored from second on an Estacado error. With two outs on the board, the Tiger second-sacker had doubled to centerfield. Next-up Vincent hit a fly to first base which appeared to be a sure out, but the ball popped out of Wheeler's glove and the run scored.

Matador mistakes helped Snyder again in the fourth inning. With two outs, Willis singled and stole second. Mike Roemisch then walked, and both runners executed a double steal to second and third bases moments later.

Estacado Coach Vince Buffamonte promptly switched Dotson for ace pitcher Joe Benavidez in an effort to settle his Matadors down. He put retired hurler Dotson on third.

Neves answered the new pitching change by bouncing a shot down the third base line. Dotson had to

leap high to confiscate the ball, but grabbed it and moved towards third base. The freshman, believing the situation to be a force play at third, stepped on the bag and began to walk to the dugout.

His mistake was quickly realized, but not before Willis had scored.

"Austin" was becoming an acceptable word now, followed quickly by "But don't let up." It was clear the Tigers were not going to underestimate the Matadors.

Snyder's final runs came in the fifth inning when a three-run double by Bobby Degrade drove in Ragland and Vincent, who had singled and bunted respectively, and Gambol, who had reached base on a walk.

"Austin" quickly evolved from a probability to "only three outs away," as the bottom of the final inning arrived.

The word grew louder and more numerous with each out—a fielder's choice, a strike out, and finally a pop fly to Willis.

When the ball thudded into Willis' glove a large

contingent of Snyder well-wishers joined in the celebration. In fact, Snyder fans outnumbered those in favor of the hosts.

Degrade picked up his fifth playoff win in six starts. The Tiger fireballer got seven strikeouts on the day—below his average of 12—but relied more on good backup fielding by his teammates.

Westlake Will Vie Snyder In Semis

AUSTIN—Defending class AAA champion DeSoto meets Wharton while Snyder is pitted against powerful Austin Westlake in Thursday's semi-final rounds of the State Baseball Tournament to be held at Disch-Falk Field here.

Winner of the first-round games will advance to Friday's 6 p.m. state championship game.

Snyder, 19-15-1, takes on Austin Westlake, 27-8, at 2:30 p.m. Thursday. DeSoto, 27-8, and Wharton, 26-7, vie in the playoff opener at 1.

Tickets for Thursday's session are \$3 adults and \$2 students.

Gold Coat Successful Meet, Says Director

Danny Lunsford, Alton Patterson, Randy Perkins and Lance McMillan fired a 12-under 58 to take first place in the annual Gold Coat Memorial Golf Tournament held here Saturday. Perry played in a foursome with Judge Preston Wilson, right, and Commissioner Hassie Sneed and Charlie Morrow. (See article below) (SDN STAFF PHOTO)

Coat Memorial Golf Tournament held at Western Texas College Country Club Saturday. Play was Florida Scramble, with no seeding of foursomes. Twenty-six teams entered the 18-hole tournament, which brought in approximately \$1,000 to the Western Texas College general scholarship fund. Tying for second place were the teams of Joe Williamson, Steve Talbott, Sharon Talbott and Cloyce Talbott, and Milton Ham, Judge Wayland Holt, Bill

Turner and John Cline. Both foursomes carded a 63 for the day's play. Fourth, at 64, were Randy McCown, Johnny Powell, Vic Baze and Earl Perser. "We certainly appreciate the efforts of the community and everyone else involved in making this a successful tournament," commented Dr. Jim Tully, chairman of the meet. Also on the tourney committee were Glen Polk, Paul Sizemore, Ernie Armstrong and Danny Lunsford.

Unichem Wrangles Slow-Pitch Prize

Unichem, sponsored by Unichem International Chemical Company of Hobbs, N.M., outlasted powerful Golden Life of Midland to win the first annual Snyder Classic Slow Pitch Softball Tournament, 23-17, here Sunday.

Shored by four all-tournament selections, Unichem came up with six runs in the sixth inning to end a 17-17 tie. Golden Life, which had lost some of its snap after three straight games prior to the championship final, took second place and named three to the all-tournament team.

Third place went to Hub City of Lubbock. Fourth was Industrial Weed of Midland. Golden Life exited the Colorado City Rejects 13-3, Industrial Weed 11-6, and Hub City 9-6 in back-to-back games Sunday to reach the finals. The "Life" was led by the tournament's Most Valuable Player, David Shel-

don. Sheldon also made the all-tourney team as a rover—the tenth man in slowpitch softball—and took the Home Run Award by banging 13 shots over the fence at Winston Park. Other all-tournament selections included pitcher Pudgie Black of Unichem; catcher Roger Evans of Unichem; first baseman David Hughes of Industrial Weed; second baseman Lonnie Morin of Lubbock Body Works; third baseman Buck Rogers of Golden Life; shortstop Steve Weber of Unichem; left fielder Rudy Castillo of the Rejects; centerfielder Mike Timmons of Golden Life and right fielder Rob Wall of Unichem. The sportsmanship award went to the Colorado City Rejects.

Twenty teams competed in the three-day event which brought an estimated 1,000 visitors to Snyder.

PUTS 'EM DOWN—Snyder's Tony Degrade, backed by solid Tiger fielding, hurled a one-hitter to aid his team past Lubbock Estacado 8-1 Saturday and into the Class AAA State Baseball Tournament. Snyder came up with nine hits on the day and allowed Estacado only one unearned run. See article above. (SDN STAFF PHOTO)

'Pray For Rain' Rally Staged In Sweetwater

SWEETWATER (AP)—Caught in a six-year drought that threatens to dry out their entire water supply in a year, 500 Sweetwater residents took drastic measures Sunday.

18 Year Old Suspected Of Killing Mother

AUSTIN (AP)—Police today sought an 18-year-old man whom they charged with murder in the shooting death of his mother, who was killed while she slept early Sunday morning.

Greg Heflin was charged in the slaying of June Heflin, 43, who was pronounced dead two hours after the 6 a.m. shooting in her Northwest Austin home.

"We're still looking for him," a police spokesman said.

Heflin's sister, Kimberly, 22, also was shot in the head with a .22-caliber rifle while she slept and was listed in serious condition after surgery.

Miss Heflin is scheduled to be married June 28.

Frank Heflin, husband of the slain woman, another daughter, Valerie, 20, and two out-of-town guests also were asleep in the house at the time of the shooting, a family friend said.

Greg Heflin left the house immediately after the shooting, driving over shrubbery and striking two cars before leaving the neighborhood, according to a friend of the family.

The Austin American-Statesman quoted a close friend of the youth as saying he had changed drastically in the past year, withdrawing from friends and quitting school in his senior year at Anderson High School. He would have graduated last week. The young man's friend was quoted as saying Greg had been an A student but "his last report card was straight Fs."

They prayed for rain. During an afternoon rally on the grounds of the Nolan County Courthouse, they held hands, prayed, and sang hymns to draw public, if not more heavily attention to their plight.

"Send rain to the watershed," they intoned. "Fill our lakes and fill our hearts to overflowing. Give us the water we need... physically and spiritually."

By the end of the meeting, skies overhead were cloudy. But still no rain.

No matter, said the Rev. Orvel Brantley, organizer of the meeting. "God will respond in His own good time, because He knows we need His help."

Brantley, a native of Godley and pastor of Lamar Street Baptist Church here, arranged for the service after city officials predicted gloom and doom for the water supply.

A "vast spiritual vacuum" in Nolan County has kept the rain from falling, Brantley said.

"I believe He wants to give us rain... more rain than we want," he said to a chorus of "Amen's."

"But suppose it doesn't rain? Hey, that's God's business."

Last week, City Manager Joe Benton said unless it rains hard and soon, the city's water supply will be exhausted in a year. City Commissioners have a rationing plan on the back burner in case it doesn't rain. But they opted to encourage voluntary rationing for the time being.

In the meantime, the city waters only the greens on its golf course and only the shrubs in its parks. And residents at the rally said they've all but stopped watering lawns.

Sweetwater lies in the heart of West Central Texas on a watershed that has been blessed with less than four inches of rain this year. Its dry, dusty spells and the irony of its name are famous in Texas.

This particular drought

started back in 1975 and official rainfall figures have been far below normal since then.

The city uses three lakes, Oak Creek, Sweetwater and Lake Trammell contain only 9,000 acre-feet now, Benton said.

"Not more than a year's supply of water remains in our storage area," he said.

"We just haven't had a good rain all year," said David Duncan, a deputy in the Nolan County Sheriff's office. "We get a lotta good rain that just flies through here, coming in a downpour, flooding the streets and then it's gone! It doesn't last any more than five or six minutes."

"Nearly all the rain has been north or south of us," Duncan said.

"We get right on the tail end of it."

Benton said the city may not dry up and blow away if the 15,000 residents conserve what's left in the lakes. And, he said, he's hopeful about several studies which found Sweetwater's water fills have come in six-year cycles since the turn of the century.

"If that holds true, the city should be in for some good news next year," he said.

But Mayor Pro Tem Ted Weaver, who also owns a Christian bookstore that sells "Pray for Sweetwater" bumper stickers, said the city has done all it can do.

The prayer meeting, he said, was Sweetwater's "only hope."

Casting an eye to the evening cloud cover, Brantley said, "We'll pray while we wait."

Texas Poisoner's Conviction Upheld

WASHINGTON (AP)—The Supreme Court left intact the conviction and death sentence of a Houston man who murdered his young son nearly six years ago by giving him Halloween candy laced with cyanide.

The justices refused to hear arguments that Ronald Clark O'Bryan was denied a fair trial and received too harsh a sentence.

Prosecutors said O'Bryan poisoned his 8-year-old son, Timothy, so he could collect \$10,000 in life insurance proceeds. They said O'Bryan, who was earning about \$150 a week working for an optical company in Houston, was \$20,000 to \$100,000 in debt.

OBITUARIES

Paul Jones

Funeral arrangements were pending this morning at Bell-Seale Funeral Home for Paul Jones, 71, who lived on Rt. 2, Snyder.

He died at 9 p.m. Sunday in Cogdell Memorial Hospital following a brief illness. He was a native and life-long resident of Scurry County and was a farmer.

He is survived by two daughters, Paulette Etheridge of Cimarron, N.M.; and Jimmie Dean Tindol of Odessa; a son, Devance Jones of Odessa; four sisters, Ruth Jones and Alva Jones, both of Snyder, Mildred Popejoy of Hart and Charlie Lee Smith of Zephyr, and a brother, Skeet Jones of Snyder.

The U.S. Navy disclosed in 1949 the development of an aircraft carrier capable of delivering an atomic bomb.

KENNEDY

(Continued From Page 1)

everyone believes that President Carter has the party's bid locked up.

Aides say the Massachusetts senator won't even discuss the possibility of defeat in private.

And over the weekend, while Carter was making conciliatory gestures to Kennedy aimed at unifying the Democrats, his rival was having none of it.

When asked Sunday about supporting Carter in November as the Democratic candidate, Kennedy replied:

"I'm planning to be the nominee. If you start thinking about coming in second place, you never come in first place."

The fact is Kennedy is distinctly in second place. Even if he won all 696 delegates being awarded in the eight primaries Tuesday, he still would be behind the president in the number of delegates to the Democratic national convention.

PREPARE LANDSCAPE FOR VACATION ENJOYMENT

Now that summer has arrived, you're probably thinking about that summer vacation. If you're planning to take an extended vacation now or later this summer, be sure your landscape is in order prior to departure. Lawns, gardens and landscapes left unattended and uncared for several weeks can be virtually ruined by our summer sun, wind and heat.

1. Water the home grounds well prior to leaving. Soak your lawn, garden and all landscape plants deeply. Our shallow soils can dry out rapidly even after heavy watering, so if you'll be gone over 5-7 days, plan to have a neighbor hook up your nose and do a little supplemental watering.

2. Mow your lawn a day or two before you leave. Use the same cutting height that you normally do. Don't lower the mower blade for a "closer shave." Doing so could easily cause sun scald and damage. If you plan to be gone more than a week it would be an excellent idea to arrange to have a neighbor boy mow the lawn for you. Also have him pick up papers if paper boy forgets.

3. Prune hedges and other plants likely to get rangy by the time you return.

4. Mulch to help conserve valuable moisture needed for plant growth while you are home or away. Choose a clean mulch, free of weed seed, and one which will remain loose and well aerated. Consider grass clippings, pine bark, compost, or a variety of other organic materials. Mulching will also reduce or eliminate the weeding problem.

5. Check carefully and spray for insects and disease to prevent a build-up of pests during your absence. Summer insects and diseases do not take a vacation, and will work overtime on your healthy plants. This goes particularly for chinch bugs. Make sure you have applied chinch bug control to your St. Augustine lawn, or you just might find it severely damaged by this little critter when you return.

6. Be sure that walks and flowerbeds are neatly edged before your departure. A build-up of growth while you are away will be difficult to manage on your return.

7. Take lawn and garden equipment by the repair shop, if needed. They'll have it ready when you return.

8. Harvest all ripe or nearly ripe fruit and vegetables. If you'll be gone over a week arrange for a friend to pull and use produce.
