### Haskell Sponsor

Charlotte Redwine, daughter of Mr. and Mrs. Charley Redwine, has been selected as Haskell's sponsor at the Texas Cowboy Reunion in Stamford. Miss Redwine, a junior in Haskell High School, is a member of the Haskell County Sheriff's Posse and has been riding since the age of four years. She is a member of the HHS Pep Squad, and an officer in the local chapter of Future Homemakers of America. Her hobbies are swimming and horseback riding.

## Wife of Sheriff Seriously Hurt As Cars Collide

Sheriff and Mrs. Bill Pennington were injured, Mrs. Pennington seriously, in an automobile collision shortly before noon Thursday on F-M Road 2163, about three miles northwest of Haskell.

Mrs. Pennington received a double fracture on her left leg and bruises and cuts on her body, and Sheriff Pennington suffered bruises on his chest and arms.

Sheriff and Mrs. Pennington had started to their farm when their car, a 1960 Ford was in collision with a 1958 Buick driven by a Latin Farm worker, Geronimo Gonzales. Neither Gonzales nor a companion, Valentino Pedroza, was injured, investigating officers said.

Mrs. Pennington was brought to the Haskell County Hospital. After X-ray had determined the nature of the two fractures, just above the knee, she was transferred to Wichita Falls General Hospital for treatment by a specialist. She was accompanied by Sheriff Pennington.

A DWI complaint was filed against Gonzales by Highway Patrolman Tommy Wood, who investigated the accident. His companion, Pedroza, was charged with being drunk. Bond for Gonzales on the DWI charge was set at \$1,000 by Justice of the Peace Merle Weaver.

Mrs. Pennington was brought back Monday afternoon to the Haskell Hospital, where she is recovering satisfactorily. Her physician has advised that she can be up on crutches at an early date.

## Car Mishap In Idaho Fatal to Rule Youth, 16

Jose (Pete) Fuentes Jr., 16, of Rule was killed when a car in which he was riding with four brothers overturned near Rupert, Idaho, June 11. None of the other brothers were injured.

Body of the accident victim was returned to Haskell for burial.

The son of Mr. and Mrs. Jose Fuentes Sr. of Rule, he was born March 28, 1944 in Mexico. He was a student in Haskell junior high school.

Rosary was said at 8 p. m. Wednesday in Holden's Funeral Chapel, Mass. was held at 11 a. m. Thursday in the Catholic Mission here. The Rev. Father James Maurice of St. Ann Catholic Church in Stamford officiated.

## Tom Watson Is Elected Fire Chief, Department Given New Extinguisher

In the annual business meeting of the Haskell Fire Department Monday night, Tom Watson was elevated to the position of Chief, a report was heard on the State Convention held in Galveston, and the department was presented a surprise gift from the West Texas Utilities Company, in the form of a late type fire extinguisher.

The extinguisher, a Dayton carbon dioxide model, for use on oil, chemical, or electrical fires, was presented by C. O. Holt, chief engineer at the Paint Creek WTU plant. A vote of thanks was given Mr. Holt and the West Texas Utilities Company, and he remained as a visitor at the department session.

In the annual election of officers, former Assistant Chief Tom Watson was named Chief, succeeding Jim Byrd who recently moved to Dallas.

## Harold R. Spain Named Officer in Postal Group

Haskell Postmaster Harold R. Spain was elected second vice president of the Texas Chapter, National Association of Postmasters at the 1960 convention, held June 5-8 in Fort Worth.

Mr. and Mrs. Spain attended the four-day convention, held in the Texas Hotel and attended by almost 500 postmasters and postal officials.

Among the more prominent speakers on the convention program were Edward L. Baker of Detroit, Mich., immediate past president of the national association; Hon. Bert E. Barnes, assistant Postmaster General, Washington, D. C.; Hon. Jim Martin, regional controller, and Hon. Jack Pearce, regional installation manager, both of Dallas.

Galveston was selected as host city for the 1961 convention.

## Young Vocalist Gives Program At Rotary Club

A talented young vocalist, Millie Holden, with her brother Tom Bill Holden as accompanist, presented a program at the luncheon and meeting of the Rotary Club Thursday at noon at the Highway Drive-In. The young entertainers are the children of Mr. and Mrs. Bill Holden of Haskell.

Forrell Coston, program chairman, introduced the youthful guest artists. In addition to accompaniment for two songs by his sister, Tom Bill was pianist for group singing led by Bob Herren.

At conclusion of the entertainment program, Rotarian Herren gave a brief report on the Democratic Convention in Austin which he had attended as a delegate from Haskell County.

President Hooper Wilkinson reminded members that the next meeting, June 23, would be a night affair in the form of a picnic supper on the lawn of the WTU Paint Creek power plant at the lake. This will be the annual Ladies Night for the club, and wives of members will be special guests.

New officers of the club for the ensuing year will also be recognized at this meeting.

## Report on Girl's State Session Given Lions

"I learned more about government in the two weeks I spent at Girls State, than I learned in 11 years in school," Jane Ann Sego told members of the Haskell Lions Club at the Tuesday noon-day luncheon session held at the Drive In.

Jane Ann, daughter of Mr. and Mrs. Bob Sego, recently returned from Austin where she spent two weeks as a representative to the American Legion Auxiliary Girls State. She was sponsored by Haskell Lions.

Jane Ann expressed words of thanks to Lions for sponsoring her, and emphasized that she will be a better citizen due to her experience at Girls State. "It was one of the most important events of my life," Miss Sego said. "I now know the workings of my government and want to be a part of it."

Jane Ann pointed out that Mrs. D. H. Persons, vice-president of American Legion Auxiliary of Rogers-Cox Post 221, introduced Miss Sego.

Wallace Cox Jr., was in charge of the program.

## Gonzales Warm Springs Foundation Thanks Haskell People for Support

Appreciation to the people of Haskell for their support was expressed in a letter to The Free Press from J. M. Haynes Jr., an executive of the Gonzales Warm Springs Foundation. The letter follows:

"The Texas Rehabilitation Center, Gonzales Warm Springs Foundation recently received a payment from the Haskell United Fund, Inc.

"We take this means of expressing our appreciation to the people of Haskell for their support of the TRC rehabilitation program through the United Fund.

"I shall be glad to answer any questions your readers may have concerning the operation, history, or the treatment program of The Texas Rehabilitation Center.

The Free Press by telephone from Austin Wednesday that bonds of the Authority had been fully approved as legally valid securities.

The bonds were approved Monday, June 20, Mr. Mays said. After being certified by the Comptroller, the bonds are ready to be sold as obligations of the Water Authority, he explained.

A bond issue of \$3,800,000 was approved by tax-paying voters of Haskell, Rule, Munday and Goree on Oct. 11, 1958, after engineers and bond attorneys had estimated this amount; would finance what is commonly known as the Miller Creek Water Project.

The project calls for a 25,000-acre-foot reservoir on Miller Creek east of Munday, pumping and filtering plants and pipeline system serving the four towns.

Haskell directors in the Authority, W. R. (Roy) Johnson and R. W. (Bob) Herren, said Wednesday that the Attorney General's approval of the Authority's tax and revenue bonds meant that actual work could be started on the project immediately.

Proceeds from the bond issue can now be used as needed in meeting any obligations already created by the Authority. It was explained. These obligations include engineer's fees, costs of preparing tax rolls and appraising property values, etc.

Also, purchases of land and easements can be initiated, while engineers are working on specifications and material contracts, etc., for the project, directors pointed out.

## Tax Rate Set for District

Directors of the Authority at their last regular meeting, set the 1960 tax rate at 50 cents on each \$100 of assessed valuation on real estate and personal property in the Authority, or water district.

Tax rolls of the Authority list total assessed valuations of approximately \$15,500,000. Pete Beecher of Goree is tax assessor and collector for the NCTM Water Authority, having been employed in that capacity after the tax rolls were compiled last year. His office is located in Munday.

June 28—Bears vs. Red Horses; Tigers vs. Cubs.

# Thieves Get \$129 In Two Burglaries Here

Thieves who broke into two business establishments here sometime Sunday night took approximately \$129 in money after smashing open two cigarette machines. The culprits also heavily damaged a nickelodeon in an unsuccessful attempt to loot the machine.

Entered were the Culberrth Col-Tex Service Station, 300 South Avenue E., and the Highway Drive In Cafe, 1006 South Avenue E.

About \$20 was taken from a cigarette machine at the Col-Tex Station, where entry was gained by breaking a window pane and raising a window. The machine was heavily damaged.

At the Highway Drive In, a hasp and lock was pried from a front door to gain entrance. A cigarette vending machine in the cafe was looted of \$109 in money while extensive damage was caused to the machine.

Also in the cafe, the glass front of a nickelodeon was broken and some other damage done to the machine, but thieves gave up before getting to the money compartment.

Cash registers in both business establishments apparently were untouched, officers said.

The burglaries were investigated by Sheriff Bill Pennington and Deputy Moreland Glass, City Police Chief Tom Paul Barnett and Olen King, and Constable Ace Davis.

## Adequate Water Needed To Meet Fire Hazards

This year fire will take the lives of over 11,000 Americans, strike at more than 3,500 churches, 4,000 schools and 250,000 homes. By year's end it will have been the direct cause of property losses amounting to over one billion dollars. And, warns the National Water Institute, it could be much worse unless local fire departments can be assured of having enough water to extinguish fires when they occur.

Although there is no actual shortage of water in the U. S., National Water Institute surveys reveal there are widespread deficiencies in the sources and equipment of the 19,000 water utilities which supply water for public use. These inadequacies affect every aspect of community health and economic welfare.

While water is a necessity for every household, office and industrial establishment, it is also the highly-trained fireman's most effective fire-fighting weapon. It must be delivered to him in the proper quantity, at the correct pressure, wherever and whenever he may need it.

Our nation's water utilities has been inadequate since 1940. To catch up with the population growth and population shifts of the past 20 years and prepare for the growth to come—water officials predict an increase of 270% in water use by 1955—we need to spend twice the amount of money now annually allocated to improvement of water supply sources and facilities, says the National Water Institute.

The 1 1/2 billion dollars needed each year to improve water utility equipment can be financed by approval of local water bond issues, says the NWI, if the nation's voters replace apathy with awareness of this vital problem.

## NCT Municipal Water Authority 'Becomes of Age'

Officials of the North Central Texas Municipal Water Authority were advised this week that bonds issued by the Authority had been approved by the State Attorney General, and that the bonds were registered by the State Comptroller.

Approval by the Attorney General means that the Authority has "become of age" to use a literal expression. As a water district it has complied with all the legal requirements necessary in becoming a separate and distinct government agency as authorized in legislation creating the Authority.

Proceeds from the \$3,800,000 bond issue authorized by voters in the NCTMW Authority, commonly called water district, will now be available as needed in getting an immediate start underway toward development of the project.

Water Authority directors had been fortunate in securing prior approval of the project for financing through State and Federal loan agencies, with a consequent saving in interest rates that will amount to several hundred thousand dollars during the life of the bonds.

Officials of the Water Authority were optimistic this week over prospects that actual work could be started immediately on land purchasing, engineering and core testing reservoir site, etc., since financing of the project had been assured.

## PEOPLE, PLACES AND THINGS

By A. PATE

"He who whispers down a well, About the goods he has to sell Will never reap the shiny dollars Like he who climbs a tree and hollers."

We're anxious to hear from Charles Swinson a first-hand report on Monday night's fight. Charles and Mrs. Swinson, accompanied by her parents, Mr. and Mrs. Calvin Wheeler are to return home Friday from a vacation trip to points in Canada and a visit to New York.

In planning the trip, Charles made arrangements for two tickets for the title fight and the Haskell group timed their visit in New York with the big event in mind.

The trip has been a pleasant one for the Haskell couples, according to cards and letters mailed to friends. Only one untoward incident marred the trip, and it happened the second day after leaving home.

In some manner, Charles' thumb was "mashed" in closing a car door, causing an extremely painful injury. After receiving treatment by a physician, and then enduring several days of pain, Charles was back to normal by the time the party reached New York.

Mishaps of that sort are always happening to spoil the fun of an outing or vacation trip.

A young couple from Lubbock stopped at the City Hall recently, and excitedly asked Fireman "Satch" Lusk the directions for reaching a hospital or clinic.

After telling them how to reach the hospital, he volunteered to call the hospital if there was an emergency.

It was an emergency all right but not that serious, he learned. The couple had been fishing at the lake, and the young woman had imbedded a fish hook through the fleshy part of one finger.

Then there was the plight of

a Plainview man, while not physically painful, involved in a financial loss.

He drove in from the lake to inquire of Fireman Lusk if the department had grapping hooks that could be used in recovering a motor from the bottom of the lake.

The man had brought a group of nine youngsters to the lake for a several days outing. While putting out a trotline, the boat's motor came loose and sank in 12 or 15-foot water.

Unable to furnish the needed equipment Fireman Lusk referred the man to someone who might be of assistance.

Evidently a good-natured fellow, the Plainview man was not unduly worried. "If we can't get it out, we'll just leave it to the fish," he remarked after thanking Lusk for his help.

Mention of some of our early-day motorcycles last week reminded Vernon Lusk of the time his brother Floyd (better known as "Satch") took a wild ride on the hurricane deck of a mule as the result of the too-close approach of a motorcycle.

It happened in 1919, during the harvest, of one of the best wheat crops the county has ever made.

They lived a few miles east of town on what is known as the old Glass farm, Vernon recalled.

A team of four mules was pulling a binder near the road. "Satch," a mere lad at the time, was riding the outside mule in the team.

All at once there was an approaching roar as a cloud of dust rolled down the road and the four mules became skittish.

"Here comes that danged John Hall on his motorcycle, Satch," Vernon yelled as he saw-sawed on the lines. "Hang on to that saddle, we're liable to have a run-away."

Then, as Hall roared past in the boiling dust, the mules got a whiff of burning gas and old Vernon's predicted run-away was a reality.

The mule Satch was riding and its mate jerked the double-tree loose from the binder and took off across the wheat patch. Satch bouncing up and down like a rubber ball while hanging on for dear life.

Fortunately, wheat was so high and rank that the team quickly tired and came to a stop, ending Satch's wild ride.

Vernon says he never sees a motorcycle nowadays without recalling that experience of some 40-odd years ago.

Although a meaningless expression now, an older generation can recall when the cry "Look out for the runaway!" had a terrifying implication of danger.

A frightened team, driver-

less, and pulling a wagon swaying and bouncing from side to side, racing down a crowded street, was a hazard to all life and property in its path. It was almost impossible to head off and stop the crazed animals, and frequently the runaway ended when the animals crashed into something or became totally exhausted.

Sometimes the driver, trying to bring the runaway team under control, was injured or killed when the team would crash into some obstacle. We remember hearing of one instance when a runaway team ran headlong into a moving freight train at a rail crossing, killing both animals. Luckily the drive "bailed out" shortly before the crash.

Frequently, back 40 years ago, when a family came to town to spend the day, the smaller children and babies would be left on a pallet in the wagon for brief periods.

Occasionally under these circumstances a team that had been gentle for years would sometimes become frightened, break loose and run away, with the small fry bouncing out of the wagoned like popcorn out of a hot skillet.

A story is told of a Haskell livery-stable roustabout who became a hero when he stopped a runaway team and wagon in which a year-old infant had been left asleep.

The team had been lightly tethered to the chain fence on the north side of the courthouse lawn. Driving reins had been looped loosely into a handrail

on the wagon. Becoming something of a loose cannon, the team broke the fence, and the infant was hurled into the air.

A handy man at Simmons' livery stable, who was now known as Brooks because of his warm weather "barefoot" of the stable "runaway" street. Running the team to a jump out of a trampled by the team.

But "Barefoot" said that the infant was not hurt. He tore out and as he everyone cheering.

After about final spurs, "Barefoot" lunged of the wagon way to the reins and the horse side.

A powerful horse under short distance railroad track around and the square crowd of people and the full parents of was unhurt ride

ON THE SUBJECT OF RESOLUTIONS

ANY time would be a good time—right now, for example.

It would be well to resolve now—today—to begin a careful study of your insurance needs—not merely guess that you have enough insurance. Perhaps you have recently acquired more furniture, jewelry, a fur coat or a camera—are they adequately insured? Have you increased the fire insurance on your home and household property to allow for higher replacement costs?

The simplest and best way to check up on your real insurance needs is to visit this agency and let us go over your requirements with you. We are always at your service.

## Three From Paint Creek Attend Church Camp

Milla and Ricky Perry, and Joy Bergstrom, all from the Paint Creek Methodist Church attended a week's outing at Camp Butman this past week.

They were taken to the camp site, several miles southwest of Merkel, by Mrs. Ray Perry and Mrs. Eric Bergstrom on Monday afternoon. While at camp the children enjoyed swim periods, hiking, and many spiritual experiences. Joy became sick on Wednesday and had to return home.

Friday parents of several children went to Butman, ate dinner, then brought their tired, but happy children home. This was Milla Perry's third year to attend camp and if asked she would probably reply that she is already making plans to go again next year.

Mrs. Opal Dotson Installed As B&PW Club President for 1960-61 Season

MRS. OPAL DOTSON

The Haskell Business and Professional Women's Club held the last meeting until September, Sunday afternoon, June 19, in the Community Room of the Haskell National Bank.

Miss Florence Anderson of San Angelo, director of District Seven of the Texas Federation was the guest speaker. Miss Anderson in her address discussed with the club, the "Goals for 1960-61."

Miss Anderson conducted the service in which she installed the new officers for 1960-61. In the service the members were taken back to the mythological realms of the Greek Goddesses, and for a time they were members in one of the courts.

Mrs. Opal Dotson was installed as president. Mrs. Dotson, with her sister, Mrs. Stanley Furth, is co-owner and manager of the Personality Shoppe. They have operated the Shoppe for the past fifteen years.

Mrs. Dotson is a charter member of the B&PW Club. She has held several offices, and served as chairman of several committees before becoming president. She is an active member of the Haskell Chamber of Commerce, and has long been a member of the Retail Merchants Association. She is a member of the Board of Directors of the Haskell United Fund Drive. Mrs. Dotson is a member of the First Baptist Church.

Other new officers are Mrs. Lois Jones, first vice president; Mrs. Fawda Hassen, second vice president; Mrs. Stella Campbell, treasurer; Mrs. Dora Montgomery, recording secretary; Mrs. Elizabeth Stewart, corresponding secretary; Miss Madalin Hunt, parliamentarian; Mrs. Lois Redwine, reporter.

Mrs. Dotson named the following ladies as committee chairmen: Mrs. Edna Lyles, Career Advancement; Mrs. Ramia Lee Frazier, Finance; Mrs. Grace McKelvin, Health and Safety; Mrs. Louise Greene, International Relations; Mrs. Artie Mae Burkett, Legislation; Mrs. Fawda Hassen, Membership; Mrs. Opal Nanny, National Security; Mrs. Lois Jones, Program Coordination; Mrs. Ozelle Friserson, Projects; Miss Nettie McCollum, Public Affairs; Miss Madalin Hunt, Public Relations; Mrs. Lou Kuenstler, Scrap Book; and Mrs. Pauline Norman, Telephone.

Miss Madalin Hunt, retiring president, presided for the business meeting, and introduced the speaker. After the installation service Miss Hunt presented the president's pin, and gavel to Mrs. Dotson.

The room was beautifully decorated with arrangements of daisies, and day lilies. The refreshment table was laid with an Italian cut-work cloth. The appointments were of crystal. Delicious punch, cookies, mints, and salted nuts were served to the members and guests.

Officers for 1959-60, and new officers for 1960-61 were hostesses for the program.

New 4H Project To Develop Safer Teenage Drivers

A new 4-H Automobile program introduced nationally early this year has a potential membership of 400,000 boys and girls. Half the number reaches driving age each year, according to the Cooperative Extension Service which directs the program.

The project is a voluntary undertaking for older 4-H members to be carried out over a three-year period. Specialized training will supplement driver education courses given in many high schools, but in some instances will be the only "supervised" instruction available to 4-H'ers in their home communities.

The work assignments will be guided by experienced volunteer adult leaders assisted by state and county highway engineers, police, automotive experts and others qualified to help do the job.

One workbook will be used for each year. Unit I covers the Car and the Highway; Unit II Maintenance and Operation; Unit III Operating the Car Efficiently.

More traffic deaths and injuries occurred last year than in 1958, and 28 per cent of the drivers involved in fatal accidents were under 25 years of age.

Raymond C. Firestone, president of the Firestone Tire & Rubber Company, which is sponsoring the program, stated "We are particularly hopeful that this program will help reduce the high incidence of fatal accidents among our young drivers."

Those engaged in the 4-H Automotive care and safety program contend that the more young people learn about the car they are driving, the less likely they are to take chances with that car.

For club members who fulfill the objectives of the automotive program, Firestone will provide a variety of awards including a week in Chicago or a delegate to the National 4-H Club Congress, plus \$400 college scholarships for six of the highest ranking 4-H'ers in the nation.

A FRIEND IN NEED IS A FRIEND INDEED

To the Haskell people who have proven themselves to be genuine friends. Our love and our thanks go to you who have been so truly kind and considerate during Dick's illness. Your cards, your letters and your flowers have helped so much to brighten the dark days. Your financial help has made our love for you and Haskell realized beyond measure. The Booster Club members and many others have proven by their donations to be real boosters of Dick and we are so proud that you feel like helping us. All of our prayers have been answered, for Dick is on the road to recovery. We can thank our Lord in Heaven for that. For the many other things, we thank you. We love you and are looking forward to being "home" again. With deepest sincerity, Dick and Martha Gaines. 25p

RETURN FROM VISIT TO DISNEYLAND

Mrs. Irene Bouldin and son Danny returned this week from a vacation trip to points in California. Highlight of their trip was a visit to Disneyland, and Danny brought back a Ship Operator's Certificate awarded him at Disneyland.

FOR SKILL IN FARM MECHANICS

Martin Dale Coleman, a graduate of Paint Creek High School, has been presented with a Certificate of Merit in Farm Mechanics. It was awarded by the Thor Research Center for Better Living, Marenco, Ill. Young Coleman earned the award for showing the greatest farm mechanics ability among the graduating seniors of the Paint Creek School.

TODAY'S 4-H YOUTH... TOMORROW'S SAFE DRIVERS

There's more to having a car than just sitting behind the wheel and rolling down the highway, say 4-H boys and girls enrolled in the new automotive care and safety program.

DO NOT PASS  
STOP  
YIELD  
Traffic Laws, regulations, speed limits, signs — high on the list of things to know and obey.

Results add up to better driving habits, safer travel, reduced costs, fuller enjoyment of one of America's most popular possessions — the automobile.

REPAIRS  
FUEL  
SAFETY  
Record keeping — with an eye for economy of operation — is expected.

The 4-H automotive project is a joint undertaking supported by the Cooperative Extension Service, National 4-H Service Committee, and Firestone Tire & Rubber Co.

## Heedless Drivers May Spend 4th In Jail

The Fourth of July is Independence Day, but the driver who gets too independent while on the road may do his celebrating in jail.

This warning was given to area motorists by Sergeant F. P. Jirick who is making an all-out effort to see that traffic accidents will not mar this year's Independence Day celebration.

The Texas Highway Patrol and other agencies are sponsoring a safe vacation driving program during the July 4 week end, Sergeant Jirick said. This program deserves the support of all citizens, and we can show our intentions to cooperate, right off, by observing the rules of safe driving over the weekend of the Fourth.

An independent attitude on the part of drivers is bound to lead to accidents, Sgt. Jirick said. He pointed out that drivers must share the road with all other drivers, and if they are too insistent on their rights, or carry a chip on their shoulder most of the time, they are asking for trouble.

Make courtesy your code of the road, Sgt. Jirick urged. You will find that you will be more relaxed when your trip is over, and you will have a much better visit. And it may surprise you to know, he added, that others drivers return your courtesy almost every time.

The Sergeant also warned against trying to cover too many miles in too short a time and driving at speeds too fast for conditions. He gave the following tips for a safe visit:

1. Don't try to cover too many miles.

2. Be prepared for heavy weekend traffic.

3. Leave early, and pause for rest occasionally.

4. Drive within speed limits.

5. Leave your drinking off.

6. Remember that the application of common courtesy to traffic situations does prevent many accidents.

Sergeant Jirick said it would be a good idea for drivers to paste the slogan, "Drive to Arrive Alive," on their dashboards.

## Want Ads Boost Sale of Fryers For O. L. Moore

After selling 226 fryers in one week, O. L. Moore of this city decided it was time to cancel his Want Ad in The Free Press until he had time to replenish his supply of chickens.

Mr. Moore, who is undisputed champion chicken grower of Haskell, sells thousands of fryers, broilers and fat hens yearly. He gives Want Ads credit for being a big assist in developing sales, and he has numerous regular customers from neighboring towns.

Sales last week included two lots of 50 fryers while another customer bought 55 fryers, Mr. Moore reported.

Although he had just about sold out of fryers at the first of the week, he has more coming in and can take care of his customers needs within a few days, he stated.

Classified Ads will buy, sell or trade for you.

## Witnesses Plan For Convention In Fort Worth

Preparations are well under way for the coming four-day "Peace Pursuing District Assembly of Jehovah's Witnesses" to be held at the Will Rogers Memorial Coliseum in Ft. Worth on June 23 to 26, presiding minister, Robert Edwards of the Stamford congregation, announced today.

The assembly will be Jehovah's Witnesses largest in Texas since their gathering at Houston in 1957. Twelve thousand delegates are expected.

Dr. Edwards said adding "14,000 hours must be spent before June 22, to complete arrangements which will include reserving 5,000 rooms for delegates." Local delegates will write for reservations.

Haskell, Jones Singers to Meet In Stamford

Haskell and Jones County singers will meet at the Calvary Baptist Church in Stamford Sunday afternoon, June 26 for a program of singing.

The program will begin at 2 p. m. and gospel singing will be featured. All singers and music lovers are invited.

Mount Ranier National Park in Washington covers 239,303 acres.

## Electric Kitchen

## Symbol of Modern Living

The touch-of-a-button magic of an electric kitchen brings the whole world of tomorrow to today's homemaker. The modern electric food preparation center is a decorator-designed dream of beauty, comfort and convenience. Here's why...

## CLEAN.....

In your electric kitchen everything stays sparkling clean. Walls, ceilings, curtains, pots and pans testify to the fact that your electric range gives efficient, controlled heat without the dingy by-products of flame-type cooking.

## COOL.....

Electric heat is transmitted directly to the pots and pans, and not out into the room. Your kitchen stays cool and comfortable... and so do you!

## CONVENIENT..

Push a button or twist a dial for automatic, carefree cooking, clothes washing and drying, dish cleaning and garbage disposing. It's as simple as that!

## ECONOMICAL..

Costs less than 3¢ to cook an average meal electrically in this area. And, a penny's worth of electricity does an equally big job in washing and drying your clothes, preserving your food, parking your coffee, toasting your bread, or disposing of your garbage.

## SAFE.....

Enjoy absolute, flameless security in your electric kitchen. Because on 1 blow out this heat. And, you can safeguard youngsters by throwing away the matches forever!

## SURE.....

In your electric kitchen you know the heat will remain constant; you know it will be the same tomorrow and the next day; you know it is the proper temperature for each dish you prepare; you know all this because you know you can depend on electricity!

### New Benefits Available to Veterans Kin

Several thousand widows and children of deceased veterans of World War II and the Korean Conflict will become eligible to receive pension benefits on July 1. These dependents will be entitled to these benefits as the result of a new pension law enacted by Congress last year, according to Herbert Ray, County Service Officer with the Veterans Administration.

Prior to passage of the new law, known as the Veterans Pension Act of 1959, dependents of deceased World War II and Korean Conflict veterans were entitled to pension only if the veteran had a disability which resulted from his active military service. The new law provides benefits to the dependents of deceased veterans of World War II and Korean Conflict if the dependents meet certain limitations with regard to income and the size of their estate.

Ray said that a very small percentage of the widows and children in Texas who could benefit from this new law have applied to the Veterans Administration for the benefits to which they are entitled. Ray pointed out that the children of deceased World War II and Korean veterans are eligible to pension, even though their mother may have remarried since the death of her veteran husband, and even though the children may have been adopted by the mother's new husband. These children are eligible to receive pension while they are unmarried and under the age of eighteen years. They may continue to receive pension until age twenty-one if they remain unmarried and are attending an approved school, and may receive pension indefinitely if they became physically or mentally incapable of self-support before their eighteenth birthday.

Unmarried widows and the custodians of dependent children may receive further information and assistance in obtaining these benefits by contacting Herbert Ray at his office in the Oates Drug Store Building, Haskell, or from any office of the Veterans Affairs Commission of Texas.

### Korea Bound Youth Worker to Speak Here Sunday

Miss Lucy Gist will speak to the Methodist Youth Fellowship Sunday, June 26. Her subject will be Christian Vocations.

Miss Gist is the director of Bethlehem Center in Fort Worth. She has worked at the Center for nine years, serving as the director for three years. She is a deaconess of the Methodist Church. She received an AB degree from SMU and a Master's degree in Social Group Work at Scarritt College, Nashville.

Miss Gist will leave the latter part of July for Korea where she will serve in a community center. Her visit to the First Methodist Church is being sponsored by the Christian Vocation Committee.

### Connors Return From Visit In Durango, Colo.

A 1,500 mile trip to the mountains and scenic area of Colorado ordinarily would be considered a vacation in itself by most people.

Then, add an opportunity to visit children and grandchildren and to attend the graduation of a grandson as an honor student, and you have the ingredients for the finest sort of vacation trip.

A vacation of this kind was recently enjoyed by Mr. and Mrs. Chas. M. Conner of this city, when they visited their daughter and family, Mr. and Mrs. Raybon Lam in Durango, Colo.

Accompanied by another daughter, Mrs. Forest B. Buford and children of Sweetwater, the party drove to Durango by way of several points of interest in New Mexico.

Principal occasion for the trip was to attend Commencement for the 1960 Class of Durango High School, where Charles Conner Lam was an honor student.

The Conners and Mrs. Buford and children spent several days in Durango, and visited some of the scenic spots in that area while there.

A youth can get his feet on the ground early by getting his driver's license suspended.

Miss McAnelly who lives at 607 North 11th St., is home demonstration agent in Haskell County.

### Rule Catholic Vacation School Closes

After two weeks of daily instruction in Catholic religion in Rule eight children have received their First Holy Communion. Some received at the Catholic Mission on G. St. in Haskell Saturday, June 18 and the remainder received at St. Ann's Catholic in Stamford on June 19.

The vacation school of Catholic religion was held from 4 to 6 p. m. June 6 through June 18. The intermediate class was conducted by Sister Mary Rosella and a class for women was conducted by Sister Inez; both are members of the order of Our Lady of Victory Missionary Sisters of Abilene. The older children were instructed by Mrs. Gerald Priest, a seminary student from Dallas. The pre-school children were taught by Miss Marguerita Guerrero of Rule.

Father James A. Meuree, pastor of St. Ann's Catholic Church, Stamford, serving Haskell and Jones Counties, was in charge of the vacation school. In Rule and Haskell (where similar classes were conducted in the mornings) Father Meuree offered Holy Mass at the end of the class period.

Texas hospitals are crowded with drivers who didn't think an accident could happen to them.

# Why Mercury is the better low-price car!

**MORE VALUE.** Just look at these Mercedes over other low-price cars:

You ride smoother because Mercury has more wheelbase . . . and is up to 494 inches.

You're more comfortable because of Mercury's room, leg room, and feel safer because Mercury's bigger (up to 60 inches) wheelbase is better than other cars.

Mercury has all the extra values. Why all, and save a lot.

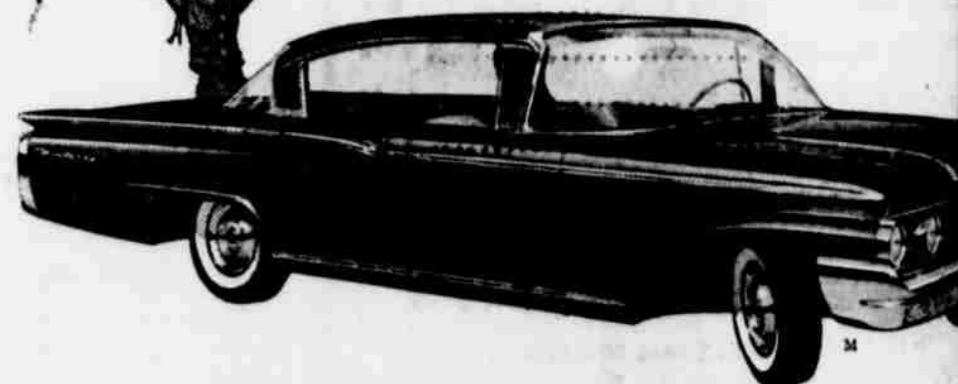

**PRICES START \$63 TO EVEN THE LOWEST-POWERED PLYMOUTH CHEVROLET IMPALA.**

And we're not talking about a "value" This price comparison is based on appointed Monterey with interior and deep, soft wall-to-wall.

This amazing price story is Mercury's dramatic 1960 price—much as \$174 lower than last year, that are now standard equipment.

Every Mercury is lower priced than Monterey are now low-price cars. Below, or within a few dollars of, the series in the low-price field. Come in.
