

NEW CONTAINERS ARRIVE—Billy E. Matthews of the city sanitation department looks over some of the new, lightweight containers which will be put into service soon. (SDN Staff Photo)

Lighter And Quieter...

# City Preparing To Use New Sanitation Boxes

The first shipment of a new type of sanitation container has been delivered to the City of Snyder.

The new containers, which eventually will be used in all residential areas of the city, are lighter than the old Dempster-Dumpster types, and all of them are designed to be loaded from the side of the garbage trucks. This will facilitate the handling of the containers in alleys, said City Manager John Gayle.

Also, the new containers, along with new-style equipment on the trucks,

will result in far less noise than the old front-end loaders now in use in most of the city. The pickup system employs a new hydraulic device that enables the operator to empty the containers into the compaction unit with a minimum of disturbance.

The new containers are made of a lighter weight steel, and they have plastic lids. The lids are more easily handled by the customers and also make less noise than the old type of containers. Although the plastic lids may not be as durable as the heavier metal lids, they are easily

replaced, said Gayle. The first shipment of 180 of the new containers is now on hand but cannot be put to use until a new truck is delivered. The first truck equipped to handle the new boxes is expected in a few weeks.

Plans are to gradually replace the old containers in residential areas of the city. The present, front-loading equipment and containers will continue in use for commercial customers and for service in rural areas of the county.

## Soviets Tow Crippled Sub Near Japan

TOKYO (AP)—A Soviet tug today towed a crippled nuclear-powered Soviet submarine into Japanese territorial waters, defying Japan's order that it stay clear to prevent a possible radiation hazard.

Prime Minister Zenko Suzuki said the Soviets had committed an "unfriendly and regrettable" act and he promised a strong protest would be sent to the Kremlin.

Japan's Maritime Safety Agency said the Soviet vessels entered the 12-mile limit claimed by Japan just southeast of Okinawa Island, part of the island chain stretching south from Kyushu, Japan's southernmost main island, to Okinawa.

The agency said a Japanese patrol boat warned the Soviets against entering Japanese waters. The Russians replied that "the Japanese government approved the Soviet passage through Japanese waters," the agency said. Japanese vessels took no action, it added.

The Japanese Foreign Ministry protested the intrusion in a telephone call to the Soviet Embassy here and asked that the submarine be withdrawn from Japanese waters, a ministry spokesman said.

DALLAS (AP)—Contradicting his vice-presidential running mate George Bush, Republican presidential nominee Ronald Reagan says he isn't backing down on his proposal to establish "an official governmental relationship" with Taiwan.

Bush left Peking Saturday after a four-day visit which apparently failed in attempts to convince the Chinese that Republican nominee Ronald Reagan, if elected president, would not establish official ties with Taiwan.

The Chinese stand was in part reinforced by remarks Reagan himself made Friday in Dallas. At a news conference there, Reagan said he had not backed down on a proposal he had made before Bush left for China to establish "an official government relationship" with Taiwan if he became president.

Reagan's remarks countered those made earlier by Bush, who served as U.S. envoy to China during the Nixon and Ford administrations.

"I support what I have supported from the first, and that is the full implementation of the Taiwan Relations Act," Reagan said at a news conference Friday, adding that that act includes provisions for official relations with Taiwan.

Appearing in Dallas for a speech to a group of evangelical Christians, Reagan also said he had doubts about the theory of evolution of man and that government is failing the people when it takes "morally neutral" stands rather than furthering "traditional moral values."

But the apparent split with his running mate over their China policy overshadowed Reagan's remarks to the religious leaders.

Bush was quoted Thursday as saying the United States could not legally establish a governmental liaison office in Taiwan and that Reagan had no intention of doing so as president even if he could.

Asked at his news con-

ference if Bush had misrepresented his views, Reagan said he hadn't talked to his running mate since those statements were reported and that he didn't want to discuss the

subject until Bush returns from his China trip and briefs him next Monday.

A week ago, with Bush at his side, Reagan said he believes the current U.S. liaison office in Taiwan,

technically a non-governmental foundation financed by the federal government, should be upgraded to "an official governmental relationship" comparable to the liaison office in

Peking before the United States established an embassy.

That statement brought a denunciation from the People's Daily, the official (See Reagan, Page 15)

## Has Doubts About Evolution...

# Reagan Contradicts Bush

## 66 Years Of Marriage Means 'Lots Of Love'

By JOHN LONG

In sharp contrast to the American dilemma of family discord and breakup are the Salvatore Amatos of Snyder who have been married 66 years.

The Amatos are products of the old school and the Old World. Both born in Canicatti, Sicily, they came to this country as youngsters, he in 1907 and she in 1911. Their families settled in New York City, where Salvatore and Theresa met, fell in love, and were married Aug. 20, 1914.

They have been together ever since. Divorce to them is unthinkable, family discord unheard of, and togetherness an all-encompassing rule. It is hard to think of them as ever having been apart.

Salvatore, 91, and Theresa, 85, say the secret of a happy, lasting marriage is "lots of love, starting a family, and taking care of the family first."

In the front yard of the Amatos' 1803 39th St. home is an American flag mounted atop a small flagpole, the only one in that neighborhood. The Amatos had five children, all boys and all still alive. All the boys served in the military.

One son is Jake, a retired Air Force major who lives in Snyder. The middle son, Jake said English was always spoken in the Amato household, patriotism promoted, and religion ingrained. The boys, all five of them, were raised with-

MARRIED 66 YEARS—Salvatore and Theresa Amato of Snyder seem to have found the secret of how to have a lasting marriage. In an age of marital discord and breakup, their marriage has lasted 66 years. The Amatos were born in Sicily and came to this country as youngsters. They were married in New York City Aug. 20, 1914. (SDN Staff Photo)

out spankings. "When Dad said something we jumped. When Momma said something we paid attention. There were no two ways about it," said Jake.

Jake said that, as children, the boys always turned over the money they received from the odd jobs to their mother, who in turn redistributed it. The money was not the property of the individual children, he said, but was

used for the benefit of the family as a whole. Family unity was stressed, Jake said, and the elder Amatos cited it as one factor in having a lasting marriage.

One problem with today's

families, said Mrs. Amato, is "they have too much." Her husband believes "mothers should stay at home and take care of the babies."

Mrs. Amato, while her children were little, stayed at home. Later, as the children grew older, she took a job as a dress maker. Amato operated a tobacco shop.

For couples today, Mrs. Amato offered the following advice: "Love each other, and if there is a misunderstanding, talk it out."

The Amatos know the advice works. They practiced it themselves.

"I can't live without her and she can't live without me. That's the way it's been," said Amato.

When Amato was asked if he had it to do over again, would he still marry his wife, he replied, "I guess so. I wouldn't have anybody else."

Mrs. Amato said the greatest compliment she ever received came from son Tommy who, as a grown man, told her, "What you've given to us no money in the world can buy." The Amatos moved from New York to Tampa, Fla., in 1955, and from Tampa to Snyder in 1967.

## The SDN Column

The Labor Day weekend is just ahead of us, which means that school days are here again, which you will readily discover inside today's issue of the SDN.

Traditionally, Labor Day has been one of the worst for traffic accidents. A lot of people take advantage of this last holiday weekend of summer. It used to be the last weekend before schools and colleges began their fall terms, but some public schools and lots of colleges get going now prior to Labor Day.

Anyway, safety organizations, highway patrolmen and other peace officers always urge drivers to be cautious on the road during the Labor Day weekend. It is the "second shoe," so to speak, near the end of summer, following the Memorial Day observance which is the first holiday weekend of the so-called vacation season.

So, if you are going anywhere over the Labor Day weekend, take heed. Drive carefully and soberly.

★ ★ ★

Traffic accidents during holiday seasons get a lot of attention, and sometimes we wonder if perhaps the law enforcement people, safety organizations and media have harped on it so much that many people have tuned us out. But it doesn't take but one tragic traffic accident to jar people back to reality.

★ ★ ★

Even so, some of the causes listed for accidents may appear humorous. Every year an insurance company compiles a list of "unusual" reports on accidents it receives from its policyholders. Here are some from this year's list:

"The other car collided with mine without giving warning of its intentions."

"I collided with a stationary truck coming the other way."

"In my attempt to kill a fly, I drove into a telephone pole."

"Coming home, I drove into the wrong house and collided with a tree I don't have."

"I had been driving four years when I fell asleep at the wheel and had an accident."

"I was on my way to the doctor's with rear end trouble when my universal joint gave way, causing me to have an accident."

"My car was legally parked when I backed into the other vehicle."

"An invisible car came out of nowhere, struck my vehicle, and vanished."

"I told police I was not injured, but on removing my hat, I found that I had a skull fracture."

"I pulled away from the side of the road, glanced at my mother-in-law, and headed over the embankment."

## Ask Us

Q—When and where are we supposed to register our elementary school children for the fall term in Snyder Schools. A—Tuesday, Aug. 26, has been set aside for teachers to register elementary pupils. Pupils should register in the building where they will attend school.

## Classes Start Wednesday...

# 10th Session At WTC

Western Texas College will mark the beginning of its 10th school year with the start of the 1980 fall semester on Wednesday.

WTC opened its doors in the fall of 1971 while construction was still underway on the new campus. Four members of the college staff have now qualified for 10-year service awards. They are Dr. Robert Clinton, college president; Dr. Ben Brock, vice president; Rex Hopkins, director of maintenance, and Mavis Brum-

below, the first employee of the junior college district who is now administrative assistant to the president and vice president.

Registration will get underway at WTC on Monday afternoon when sophomores begin enrollment. Evening class enrollment will be held Monday night and freshmen are to register on Tuesday. Registration will continue through Tuesday afternoon.

Students are asked to go first to the Student Center

when beginning registration.

Computerized student enrollment figures kept at WTC for the past three years show a total of 5,122 individuals have been served in college credit courses during that period. Dr. Duane Hood, Dean of Student Services, said. By figuring 1,700 students per year in college credit courses and at least half again that many in non-credit and quarterly courses, an estimated 2,500 individuals per year

are served by the institutional programs.

Add to that the number of people served by the Scurry County Museum on the campus, the Senior Center and Retired Senior Volunteer Program sponsored by WTC, summer camps offered for youngsters below college age, and the leisure time activities made possible through the college and it becomes apparent that a significant proportion of the local population is affected.

## Weekend update

### Clayton Ready For Trial

HOUSTON (AP)—Texas House Speaker Billy Clayton and three other Brilab defendants are a step closer to their Sept. 8 trial date now that a federal judge has denied two key defense motions for dismissal of the charges against them.

"I'm ready to go to trial. Really, I've got to go to trial," said Clayton Friday after U.S. District Judge Robert O'Connor's sudden ruling in the fifth day of a pretrial hearing.

### Convicted Of Bribery

SPRINGFIELD, Ill. (AP)—A former volunteer for the National Organization for Women was found guilty of bribery in attempting to influence an Illinois lawmaker to vote for the Equal Rights Amendment, but Wanda Brandstetter says she'll "never give up" the fight against the conviction.

In a split verdict, an eight-woman, four-man jury found her innocent on a lesser charge of soliciting a lawmaker to commit official misconduct.

The jury deliberated more than seven hours before returning the verdict about 11:30 p.m. Friday against the 55-year-old Chicago businesswoman.

SNYDER TEMPERATURES: High Friday, 99 degrees; low, 67 degrees; reading at 7 a.m. Saturday, 72 degrees; precipitation, none; total precipitation for 1980 to date, 11.34.

West Texas: Partly cloudy. A chance of thunderstorms mainly north Monday and Tuesday. Turning cooler at midweek. Highs Monday low 90s north to about 104 lower elevations of Big Bend cooling by Wednesday to the mid 80s north, the low 90s south and the upper 90s in the Big Bend. Lows mostly in the 60s.

tune changes quickly

At first we thought the balanced budget show of 1981, which opened in Washington last spring, was going to be a hit worthy of taking on the road. President Carter and a chorus line of congressional leaders were all singing together about balancing the federal books. Now the sour notes and pratfalls make their act barely worthy of the Gong Show. We should have known better.

Only four months after projecting that the government would operate with a surplus next year, the administration now estimates that the budget will have a \$30 billion deficit. No one should be surprised if the figure turns out to be too low, in view of promises made at the Democratic convention.

Consider what happened to the budget estimates for the current fiscal year. Last fall, the Washington experts were forecasting that the deficit for fiscal 1980 would be less than \$30 billion. By last May the figure had been revised to more than \$45 billion. Now, the administration has announced that it will be at least \$60 billion.

The familiar excuse is that the federal budget is beset by pressures beyond control. The steep slide into economic recession is cutting down on revenue from taxes at the same time, the recession is increasing automatic outlays for relief of unemployment and other "entitlement" programs which Congress refuses to change.

The budget is indeed out of control, but not because of irresistible economic forces. Neither the president nor congressional majority has shown the will to make the political sacrifices which would limit the government's spending to the government's income.

Last March, Jimmy Carter was telling us that inflation was our No. 1 economic problem and that balancing the budget was the No. 1 step to control it.

To quote his own lyrics: "The federal government must stop spending money we do not have and borrowing to make up the difference... Our priority now is to balance the budget."

A catchy tune, but will it play in the hustings in this coming fall of discontent? We doubt it.

the tie that binds

Bolivia's military junta may be shunned by the U.S. government and the rest of the democratic world, but it is not without friends and possibly allies. The most suitable are close at hand - Chile, Paraguay, Uruguay and Argentina.

Particularly Argentina, which, it develops, is not only supplying technical and material assistance now to the Bolivian generals but is believed to have given them a helping hand in overthrowing the civilian leaders and tossing out the elections in June that would have returned the country to democratic government.

The Argentine goal, which its military leadership has openly acknowledged, is to assure like-minded regimes throughout its neighborhood, the "Southern Cone" of South America.

It has that now, with Bolivia certain to sever links with its former allies in the democratically inclined Andean Pact - Venezuela, Colombia, Ecuador and Peru.

For Bolivia, however, some of its new friends may take some getting used to. The country has been at odds with Chile for better than a century, since the latter seized all of Bolivia's Pacific seacoast. It also has a territorial grudge against Paraguay, which picked up a chunk of its best land in the Chaco War during the 1930s.

Blood, however, is likely to prove a strong enough tie among these regimes to overcome the obstacles of history - the blood of their own peoples that all think so little of shedding to maintain their power.

making government grow

Politicians of both parties propose less taxes, less government -- but more government services. We can't have it both ways.

When we ask government to perform for us some function which heretofore we have performed for ourselves, government has to get bigger.

To support its bigness, it has to tax the individual more.

Then why do we? In New York City in 1829, the mostly immigrant population had mushroomed -- creating so much garbage that tens of thousands of pigs were allowed to roam the city freely as scavengers.

The accumulating filth bred flies and fleas, and cholera became pandemic.

Obviously, the situation called for a Department of Sanitation to be created --

and so one was. Government grew.

When there was a fire in the wooden buildings in 1835 there was nothing to stop its spread. Wooden water pumps were located every four blocks for filling the horse troughs.

But the tragic 50-acre fire taught the city the need for a proper city water system. By 1842 they had one. But it was expensive.

Few of our problems are new ones. In the 1820s in New York, the homeless roamed and slept in the streets. More than a thousand under 16 were arrested for drunkenness in 1837.

Ethnic suspicions flourished. There were anti-Irish demonstrations, anti-German riots. The city had to hire more policemen. Thus government grew.

In 1837 inflation was rampant. Brooms went from 25 cents to 50 cents. Flour went from \$10 to \$15 a barrel. And a head of cabbage, formerly almost free, suddenly cost 31 3/4 cents.

The well-to-do were property poor, lost their homes. The rich went bankrupt.

In March and April of

1837, 260 businesses in New York closed.

Rebuilding after the fire, construction was so shoddy that much of it collapsed. When the large Phelps and Peck store roof collapsed it killed five people.

Obviously, the city needed to establish a construction code, require inspection, employ inspectors.

Which it did. And so government grew. Inevitably, greedy men discovered ways of making themselves rich at the expense of others -- Fisk, Drew, Gould, Vanderbilt.

So it was necessary for government to institute controls over banking, railroading, finance... and to hire "controllers." Thus government got bigger.

Retracing the evolution of government -- from small to big to bigger -- inevitably one is reminded that most government growth results from lack of self-discipline.

In recent generations, however, government has tended to encourage do-nothingness. Abraham Lincoln said the criterion should be: "Government should do for people that

In the beginning was the chaos of 1968. That was the Democratic convention in Chicago,

you'll recall, that had more in common with a pitched battle than the procedures of representative democracy.

Out of that experience, in addition to a lot of bad blood, came the beginnings of a thorough overhauling of the way Democrats go about selecting a presidential candidate. For starters, that convention decreed that delegate selection, whether by primary or state party organization, henceforth be fully public. And it established a special Commission on Party Structure and Delegate Selection to carry on from there.

It did. By the time Democrats got together in Miami Beach in July of 1972; they were operating under a set of rules that would have been unrecognizable, and would never have been approved by the party's great power brokers of the past. Or for that matter, those few, such as Chicago's Richard Daley, still around but no longer in any position to bulldoze proceedings. In fact, liberal Young Turks challenged the seating of Daley's own delegation at Miami, an act of lese-majesty that once could have meant the wholesale snuffing out of budding political careers.

Briefly, the unit rule, requiring entire delegations to vote as a bloc according to the will of the majority, had been abolished at all levels of party activity. No more than 10 percent of a state delegation could be selected by the state party committee. All steps in the delegate selection process must be public with women, youth and minority groups represented "in reasonable relationship" to their presence in the state's population. Committees were expanded to

reflect more accurately state population difference and interests of minority groups. All committee meetings and votes were open to the public.

There was more, all in the cause of throwing open to "the people" a presidential selection process that had been the preserve of a professional political elite. And it was enough to make the 1972 Democratic convention open to the point of utter confusion, sometimes even to the detriment of the cause of the chairman of the restructuring committee; George McGovern, who nevertheless made it past all obstacles to the presidential nomination.

Despite what happened to McGovern when he in short order ran into the obstacles of the November election, the reforms remained in place. To be brilliantly manipulated four years later in securing the nomination for a fellow who lost no opportunities in making it clear that he was a people, not of the elite.

So here it is 1980, that fellow has been renominated to the dismay, of the polls tells us at this point, of even most Democrats, and the thoroughly reformed party has every reason to wonder what it begat.

The New York Convention of 1980 proved every bit as contentious, cut-throat and confusing as Democratic conventions have usually been. In this theoretically open convention, packed with real people delegates while whole caucuses of congressmen and other political pros were relegated to the cheaper seats as observers, the bruising battle was over whether to declare it an "open convention."

The issue was settled, as such always have been, by a count of which side had the most votes. But Democrats being Democrats, it may not end there.

Just don't be surprised if the 1980 experience begets another orgy of party reforming. And just don't be surprised if the result is more of the same, future conventional donnybrooks distinguishable only by the transient principle, or politics, of the moment.

Actually, it probably has less to do with the success or otherwise of reforms than with Democrats simply being Democrats. As that most astute observer of political tribal rites, H.L. Mencken, long ago observed of convention-behavior, the Republican preference is to "retire behind the nearest potted palm and embrace. When two Democrats meet, they clear a space in some crowded hotel lobby, leap in the air with fearful whoops and proceed to tear each other limb from limb."

In short, the basic problem of the Democrats lies not in their rules, it's in the blood.

The feller on Deep Creek says, "We cannot really be for something we don't fully understand."

The AJRA rodeo, by far the chamber's largest single project, is over for another year.

Each year has been successful, but this particular year was perhaps the best. Those that know rodeoes best, claim that the action was superb.

There are lots of folks to credit for the success of the rodeo. It's a project of the chamber, and the staff and AJRA committee put in countless hours getting ready. Rodeo week means several sleepless nights.

Ralph Miller, the Borden County rancher who heads the chamber's committee, is perhaps the key to the success. There just seems no way to put on such a production without the Miller family.

The chamber staff and a host of chamber and Gold Coat volunteers also help make the difference. The winner, in addition to the young people, is Snyder business community. The economic impact of the rodeo is extremely positive, and the chamber and AJRA committee

were able to put on the whole deal on at least a break-even basis.

We're hoping that Snyder can become the permanent home of the AJRA finals. Thanks for a job well done.

An item came across our desk last week that might be worthy of a letter to your congressman. It seems that a piece of legislation has been offered in Congress veiled as Truck Safety.

We believe it could have a very detrimental impact on local businesses. The legislation (HR 4971 and S 1390) would extend the authority of the federal government to intrastate commerce.

It would put all delivery trucks of 10,000 pounds under the Department of Transportation and Bureau of Motor Carrier Safety. Additionally, the bill would put such trucks under the rules of the Interstate Commerce Commission, even though a truck might never leave the city limits.

There is concern that such a bill is being pushed by the Teamsters Union because of its title and

provisions. One provision under Record-keeping would virtually make it mandatory that a local delivery truck have two operators--one to drive and one to keep the records.

Congressman Ray Roberts, who opposes the bill, said that the bill has not gotten much attention because everyone favors safety. However, it is just a wolf in sheep's clothing.

We can just imagine what such regulations would do to the price of goods and services. We have plenty of inflation without this kind fanned by the bureaucrats.

We suggest you take a few minutes and write a letter to your congressman and senators.

In Scurry County Museum

# Ben Konis Art To Show Here

Works by Ben Konis will be featured in a show opening Sept. 23 in the Scurry County Museum at Western Texas College, Sharon Sutton, museum director, has announced.

A native New Yorker, Konis has maintained his home and studio in Amarillo since 1969. He has established a growing reputation as an outstanding painter of the Southwest and enjoys teaching art as well. He will conduct a three-day workshop in the museum here in conjunction with his show, and persons interested in registering for the workshop may contact the museum office for details. Donna Holt is serving as coordinator for the show and the workshop.

Konis basically paints in the same media he has used for many years - pastels and oils. Painting with oil more than pastel because of its versatility, Konis reserves the pastels for on-location work at Indian ceremonial dances

and for portrait work. The oils are predominantly done in the studio, where time and freedom from dust and distractions allow him to make the most out of subject color studies.

The artist favors the use of pastels for portraits for a multiplicity of reasons. "I find pastels fresh and spontaneous," he says. "Whatever I put down at the moment of creation will not change as oils and watercolors do as they dry. Pastels are dry when they are put down. I work with a wide selection of chalks that are already pre-mixed values, so I merely have to look at the chalks and pick up exactly the right color and value I want to use next. I also like the special look that pastels produce, especially for skin tones."

A sample of Konis' mastery of pastels and his love of the Southwestern Indians as subject, were illustrated recently when Konis completed a 20-minute pastel portrait during the "Quick Draw" at the 1979 Texas Cowboy Artist Association gold awards competition in Houston. Each participating artist

had to complete an original work in a 20-minute time period, with all the works immediately auctioned to benefit the Houston area Easter Seals fund. A fellow artist, Jim Thomas, was the high bidder for the Konis painting.

One of Konis' more successful showings was the recent Amarillo "A Decade With Ben Konis" in which Konis displayed one painting from each of the 10 years he has been in Amarillo. The owners of the paintings were on hand and proceeds from the show were donated to the Amarillo Heart Fund by Konis.

The Scurry County Museum is currently featuring watercolor paintings included in the circuit exhibit from the 31st annual Texas Watercolor Society show. The museum is open each weekday and from 1-5 p.m. on Sundays without admission charge.

## Dear Abby

### Refreshing Breeze From the Youth Front

By Abigail Van Buren

DEAR ABBY: We constantly hear about how rotten the youth of today are, so I'm writing to tell you of a recent experience with the young.

I have a lovely seashore home, which I permitted my grandson and five of his boyfriends to use for a week in celebration of their high school graduation.

When I walked into the house after their departure, this is what I found: The rugs had been vacuumed, the furniture dusted, the cushions of two new armchairs were covered with bath towels to avoid soiling, the kitchen and bathrooms were scrubbed and spotless, all the beds were made with fresh linens, and they had laundered and put away all the sheets and towels they had used!

Even my plants were watered! The refrigerator was emptied and clean, and in it was a box of candy for me! On the coffee table was a note of thanks, signed by each one, plus a \$10 bill to cover the phone calls they had made.

Forgive my bragging, but I just had to share this with somebody.

PROUD GRANNY

DEAR GRANNY: Don't apologize. You have plenty to crow about. (P.S. Sounds like the boys may have had a little help from some chicks.)

DEAR ABBY: Here's the deal. Both my boyfriend and I are legal age. Last February we took out a marriage license, but we never did get married because there were a lot of things we wanted to straighten out first. He had debts. I had debts. He wasn't ready to tell his parents yet, and stuff like that. Anyway, to save expenses we are now living together.

I heard that if you live with a guy long enough, you don't have to get married. Just living together will give you a common-law status. Is this true? How long do you have to live together before it's common-law? I want things nice and legal.

Doesn't a marriage license prove that we are serious about getting married and not just fooling around? I mean, isn't this setup just as good as being married?

ME AND HIM

DEAR ME: A "license" to marry is just that and nothing more. Common-law marriages are recognized in some states, but not in others. If you want things "nice and legal," ask a lawyer and quit guessing.

DEAR ABBY: I frequently have lunch with a good friend who introduced me to the man who later became my husband. She had dated him before I came into the picture. While they were going together, he gave her some jewelry. She still wears a necklace he gave her. Although I enjoy this friend's company, that piece of jewelry hitting me in the eye gives me an uncomfortable feeling.

Am I oversensitive? Or does she have extremely poor taste?

JUST CURIOUS

DEAR CURIOUS: If she's a good friend and you enjoy her company, give her the benefit of the doubt and assume that she regards the necklace as a becoming piece of jewelry, has no sentimental attachment to it and is totally unaware that it makes you uncomfortable.

DEAR ABBY: Please tell PITTSBURGH, who has been married for 50 years, not to be upset when her husband says "Thank you" after a love session. After 50 years, he may be addressing his thanks to the good Lord - not to her!

SOL IN BALTIMORE

Getting married? Whether you want a formal church wedding or a simple, "do-your-own-thing" ceremony, get Abby's new booklet. Send \$1 plus a long, self-addressed, stamped (28 cents) envelope to: Abby's Wedding Booklet, 132 Lasky Drive, Beverly Hills, Calif. 90212.

### 4 Sentenced In Haiti Plot

PORT-AU-PRINCE, Haiti (AP)-Four men convicted of plotting to overthrow the Haitian government of President Jean-Claude Duvalier have been sentenced to nine year prison terms, authorities said.

The four men were convicted Friday after a two week trial in the Criminal

Court of Port-au-Prince. They were accused of smuggling in weapons as well as tape recordings, produced by the Haitian exile community in New York City, that were to be broadcast over Haitian radio stations once Duvalier's authoritarian government was ousted. The men had denied the charges.

**GRADUATES**-These Vocational Nursing students will be receiving their pins and certificates at a graduation program Thursday. On the front row, left to right, are Diane Beard, instructor, Shelley McMullan, Catherine Pearson, Bonnie Carroll, Linda Goen of Post, and Winnie Poyner, instructor. On the back row are Karen Walker, Korbi Sanders, Sally Garcia of Jayton, Jamie Franks, Cindy Scott of Pecos and Beth Green of Post.

## Nurses Class Ceremony Set

Graduation ceremonies will be held Thursday night for the latest group of students completing the Vocational Nursing course at Western Texas College.

The program will be in the Trinity United Methodist Church starting at 7:30 p.m. Graduates and their families will be honored at a reception in the fellowship hall following the ceremonies.

Members of the class, which began in March, will also be recognized during the evening. They are Sue Alsobrook, Pam Forbes and Janice Ritchey of Colorado City, Debbie Ford of Dermott, Susie Leach and Catherine West of Rotan, Sandy Ham of Hermleigh, and Shelia Eckert, Arline Ennis and Susan Sentell of Snyder.

Dr. James Tully, Dean of the WTC Learning Resource Center, will be the speaker for the evening. Dr. Gene McClurg, Dean of Occupational Education and Technology, will welcome guests. Certificates for the graduates will be presented by Dr. Ben Brock, WTC vice president. Winnie Poyner and Diane Beard, Vocational Nursing instructors, will present the graduates their pins. Shirley Stewart, president of the Women's Auxiliary of Cogdell Memorial Hospital, will present white Bibles.

Tammy Farmer and Darrell Collins will entertain with musical selections. Dr. Gil Fleer, associate professor of sociology and counselor at WTC, will give the invocation and benediction.

A new class of 15 Vocational Nursing students will begin their studies on Sept. 2. Vocational nursing is a 12-month program, with classes beginning in March and September each year. Persons interested in enrolling for the course are invited to contact Ms. Poyner or Mrs. Beard for information.

### Two Mishaps, Burglary Are Reported Here

Snyder police received reports of a burglary and two traffic accidents Friday.

The first traffic accident occurred at 11 a.m. in the 3800 block of Austin. Involved in it were a 1977 Buick driven by Donna Wilson and a 1976 Buick driven by Donna Joplin. The accident was worked by Kerry Fritz.

A minor accident was also worked at Eddie's Pharmacy at 3:10 p.m. by Mike Harris. There, reports show, a 1966 Oldsmobile owned by Mike Martinez was struck by a vehicle which fled the scene.

The burglary was reported by Jim Millhollon, 107 34th St. He told officer Harris that a knife and some cigarettes were stolen from his residence.

### Viet Claim Many Killed

BANGKOK, Thailand (AP)-Vietnam today accused China of beefing up its forces along the Sino-Vietnamese border and of stepping up raids and incursions it said had killed many Vietnamese civilians and soldiers.

"These intensified provocations by China took place at the time when the Chinese authorities have renewed their threat to attack Vietnam once again and postponed" negotiations aimed at defusing the situation, the Vietnamese news agency said.

# Health Services Are Provided For Students

The Student Development of the Snyder Schools has two registered nurses, Nell Spence and Reba Erwin, who provide general health services for all students. In addition to continuous follow-up of student health needs and attention to daily student health complaints, the two nurses conduct many other services.

One of the priorities of the nurses is to keep an accurate account of the immunization records of each child according to the guidelines provided by the State of Texas. This procedure enables all students to have a systematic health protection and prevention program.

All students in grades kindergarten through seventh, and new students to the Snyder schools, are given visual screening tests on a Telebinocular Visual Screening device each year. Children who fail the test are rechecked and referred to an eye specialist. The 66th session of the Texas Legislature required that, effective Sept. 1, 1980, all children enrolling in any public or private school in Texas for the first time will have an eye examination within 90 days of the beginning of school.

Snyder schools have had this program implemented for several years. Students in grades K, 1, 3, 5, 8 and students new to the Snyder schools are given a hearing screening test each year. Any student who appears to have hearing deficiencies is checked each year and may be referred to the family doctor or a specialist.

During the second week of February, the local dentists, with school nurse assistance, examine the teeth of every elementary child. A note is sent to the parents to inform them of the results of the check-up. Also, the nurses promote dental hygiene throughout the year.

The nurses will work closely with the parents of pre-school children on May 12, 13, and 14, 1981, to see that all immunization requirements are met prior to enrolling in kindergarten. At that time, any health related information is recorded that will be helpful to teachers and others who will be responsible for the child.

The school nurses provide services such as weighing and measuring each elementary child twice a year, giving motor test to all the kindergarten students during fall and spring testing, working closely with the principal.

The school nurses provide services such as weighing and measuring each elementary child twice a year, giving motor test to all the kindergarten students during fall and spring testing, working closely with the principal.

## Boosters Meet At Hermleigh

The Hermleigh Booster Club will meet Tuesday at 8 p.m. in Hermleigh High School.

The purpose of the meeting is the election of officers and to map out business for the upcoming year.

## Award Goes To Cocker Spaniel

BIRMINGHAM, Ala. (AP)—Honey, a 5-year-old cocker spaniel belonging to U.S. Sen. Howell Heflin, D-Ala., has been named winner of the American Humane Association's W.O. Stillman award.

Some months ago, Mrs. Heflin returned to their Washington apartment to find the dog "with a gash on her head and blood streaming from the wound," explained a spokesman for the Birmingham Humane Society Award Committee.

"Upon examination she discovered that the apartment had been ransacked, but strangely enough the silver and her jewelry were intact. Mrs. Heflin theorized that Honey's persistent barking had discomfited the burglars."

## Achievement Test Schedule Planned

The week of Sept. 29 through Oct. 3 will be a very important time for the students in the Snyder schools. During this week all students in grades one through eight will be taking achievement tests. These tests are timed according to the skill area being tested.

In today's educational environment, it is increasingly important to plan effective measurement and evaluation strategies which assess the effectiveness of instruction and learning. These strategies also help teachers identify student learning problems as well as academic talent. The school principals use the test to assess the

outcomes of campus-directed educational programs.

Students in grades 1 and 2 are given tests in the area of reading and math. Grades three and four add the area of language arts, and grades five through nine and grade 11, add science, social studies, and the use of reference materials. In addition, all students are given an educational abilities series test.

After the tests have been given, they will be sent to the SRA headquarters in Chicago, for computer grading. These results are then sent back to the school districts. Parents will be made aware of the

results of their student's test through parent conferences with his or her teacher. At the elementary level the students in grades four through six will then work with the school counselors to better understand their test and

to look at the growth made during the past year.

More than 14,000 British World War II deserters were granted amnesty by the British government in 1953.

# Scurry Area Site Of New Wildcat Locations

Ike Lovelady Inc. of Midland has scheduled a 7,750-foot wildcat in Scurry County, 7.5 miles south-east of Ira.

No. 1 Dunn is 1,980 feet from north and 2,250 feet from west lines of section 74, block 20, Lavaca Navigation Company survey.

The project is one-half mile southwest of the Allen-Holiday (Pennsylvania) field which produces at 7,442 feet. Ground elevation is 2,255

feet. Mayco Exploration will drill No. 1 H.H. Eiland as a wildcat location 467 feet from south and 2,173 feet from west lines of section 306, block 97, H&TC survey, 13 miles west of Snyder, in Scurry County.

The 8,300-foot test is semi-ringed by three dry holes, all within 3/4 mile and all drilled to a depth of approximately 8,200 feet. It is also 1 1/2 miles south of the two-well Hataway

(Strawn) field, which produces at 7,704 feet. Ground elevation is 2,454 feet.

Lasier Resources, Inc., Midland, has staked a northwest offset to the discovery well of the two-well Fluvanna, Southeast field of Scurry County.

Located 2,208 feet from south and 1,306 feet from west lines of section 485, block 97, H&TC survey, No. 1 Beaver is contracted to 7,700 feet.

The field produces from 7,809 feet.

No. 1 Whatley will be drilled as a southwest stepout to the Four-well, Fluvanna, South (Strawn) field of Scurry County.

Operated by D.A. Metz of Midland, the project will drill to a depth of 8,300 feet, on ground elevation of 2,643 feet.

Location is 660 feet from north and 1,980 feet from east lines of section 405, block 97, H&TC survey,

three miles south of Fluvanna.

Sameday Corp. of Midland will dig its No. 1 Hamlet as a 5,100-foot project in the two-well Tonto, Northwest (Cisco) field of Scurry County, eight miles northeast of Snyder.

It is a west offset to Cisco production and 467 feet from south and 1,980 feet from west lines of section 266, block 2, H&TC survey. Ground elevation is 2,291 feet.

Mayco Exploration Co., operating from Dallas, has staked location for a wildcat in Borden County.

No. 1 Miller, is an 8,800-foot wildcat, located 1,980 feet from north and 660 feet from east lines of section 34, block 30, T-6-N, J.H. Gibson survey, 10 miles north of Gail.

The test is one mile north of the opener and lone producer of the Romac (Mississippi) field, which produces from 8,415 to 8,443 feet, and 3/4 mile north of an 8,710-foot dry hole.

Ground elevation is 2,556 feet.

Mobil Producing Texas & New Mexico, operating from Houston, has staked location for a wildcat in Kent County.

No. 1-173 Percy Jones is 1,980 feet from north and 660 feet from west lines of section 173, block G, W&NW survey, five miles northwest of Clairemont.

It is 3/4 mile east of a 6,944-foot hole which was plugged and abandoned in May, 1957 and 1 1/2 miles southwest of a 7,341-foot hole, which was plugged and abandoned in March 1956. There is no nearby

production. Contract depth is 6,950 feet.

V-F Petroleum Inc. of Midland has completed the fifth Fuller sand producer in the Cogell multipay field of Kent County, eight miles southeast of Polar.

Operator reported No. 57 D.M. Cogdell pumped 90 barrels of 43-gravity oil, no water, with a gas-oil ratio of 150-1.

Production was natural through perforations from 5,004 to 5,014 feet.

Wellsite is 1,220 feet from south and 2,570 feet from west lines of section 716, block 97, H&TC survey, abstract 1169.

The well is a south extension to the Cogdell (Fuller sand) field.

Sun Oil Co. of Midland has announced location for a wildcat in Mitchell County.

No. 1 W.L. Ellwood Trust is 660 feet from north and from east lines of section 13, block 12, H&TC survey, eight miles north of Silver. It is 2 1/8 miles northeast

of production in the three-well Dixon (Ellenburger) field which produces at 7,129 feet.

Contract depth is 7,600 feet.

A location has been staked in the Dixon multipay field of Mitchell County, by Texas International Petroleum Corp. of Oklahoma City, Okla.

The No. 20 Edwin Parks is a 7,300-foot project located 13-4 miles northeast of the Mississippi opener and lone producer, that pay, and 3/8 mile northeast of an Odom lime producer in the field.

Drillsite is 660 feet from north and east lines of section 2, block 12, H&TC survey, five miles north of Silver.

The 7,300-foot project is 1,980 feet from south and east lines of section 2, block 12 H&TC survey and will be drilled as No. 19 Edwin Parks.

The drillsite also is 11-8 miles northeast of the field's Ellenburger production and one location north of one of the field's four Odom producers.

Sun Oil Co. of Midland will re-enter and attempt dual completion of its No. 25 V.T. McCabe, in the Odom oil pay of the Jame-

son, North multipay field of Mitchell County.

The well currently produces in the Jameson, North (Ellenburger) field. Location is 660 feet from south and 760 feet from west lines of section 6, block 1-A, H&TC survey, four miles north of Silver.

Marshall & Winston Inc. of Midland No. 1 McCabe "C" has been completed in the Jameson, North (Ellenburger) field of Mitchell County, four miles north of Silver.

On 24-hour potential test the well flowed 127 barrels of 45.4-gravity oil and five barrels of water, through a 40-64-inch choke and perforations from 7,174 to 7,180 feet. Stimulation, if any, was not reported. The gas-oil ratio is 1,456-1.

Hole is bottomed at 7,186 feet and 5 1/2-inch casing is cement at 7,126 feet.

Location is 467 feet from south and west lines of section 4, block 12, H&TC survey.

The Judy Gail, East (Canyon oil) field of Fisher County gained its fifth producer with the completion of W.B. Prammell, Houston, No. 10 W.B. Trammell.

Operator reported on potential test the well pumped 60 barrels of 41-gravity oil and no water, through

perforations from 4,431 to 4,465 feet, after a wash job of 1,000 gallons of mud acid.

The well bottomed at 5,450 feet, and was plugged back to 4,587 feet, where 4 1/2-inch casing was set.

A northwest extension to the field, location is 716 feet from north and 1,178 feet from west lines of section 184, block 1, BBB&C survey, four miles northwest of Hamlin.

Seage Oil Co. of Abilene has completed No. 2 Smith as a northwest extension in the Noodle, Northwest (4100) Canyon multipay field of Fisher County. It is the eighth producer in that pay zone.

The well flowed for 133 barrels of oil through perforations from 4,166 to 4,176 feet on a 12-64-inch choke, after acidizing with 750 gallons, and a fracture job of 15,000 gallons.

Gravity and gas-oil ratio were not reported. Location is 1,263 feet from south and 330 feet from west lines of section 14, E. Miles survey No. 219, nine miles southeast of Sylvester.

Scheduled as a 5,000 foot wildcat, it was drilled to 5,006 feet, where 4 1/2-inch casing was set.

## Conservationists To Attend Meet

Directors of the Upper Colorado Soil and Water Conservation District will be among conservationists from sixteen soil and water conservation districts attending the West Texas Association of Soil and Water Conservation Districts meeting in Ballinger on Tuesday. Also attending will be Soil Conservation Service District Conservationist Erwin A. Pavlik of the Snyder Field Office.

The 10 a.m. meeting at the Ballinger Community Center will be hosted by the Runnels Soil and Water Conservation District.

Kenneth Krueger, District Supervisor, Texas Department of Water Resources will speak on the "Status of Water Rights and Water Pollution Programs."

Presenting reports will be Joe Antilley, Abilene, member, State Soil and Water Conservation Board, and Hermon Petty, Mineral Wells, President, Association of Texas Soil and Water Conservation Districts.

Conservation districts included in the association are Upper Colorado, Upper Clear Fork, Concho, Middle Clear Fork, Mitchell, North Concho River, Coke County, Runnels, Middle Concho, Sandhills, Mustang, Howard, Midland, Nolan County, Andrews and Central Colorado.

## Would Work On Soviet Relations

BOSTON (AP)—President Carter says that if he is re-elected a major goal of his second term will be "to try to resolve the differences between ourselves and the Soviets."

But, he said, the Russians first will have to resolve their situation in Afghanistan.

Carter made his remarks in a 45-minute interview Thursday with the editorial board of The Boston Globe after addressing the American Legion Convention.

## Gifted, Talented Program Expands

Snyder ISD has received a \$36,340 grant this year to expand and extend its instruction for its gifted and talented students (Title IV, Part C-Elementary & Secondary Education Act, 1975). Last school year, 56 students participated in the district-wide gifted pullout and enrichment program held at West and North-east schools. This year, 98

students, grades 4 through 7, will be involved in Project Excell.

In addition to increasing student reasoning skills, 36 fifth, sixth, and seventh grade students will focus on citizenship skills development this year doing independent projects and research, and experience career-related vocation with the assistance of mentors in the local community.

Mrs. Carole Haynes will coordinate these Project Excell activities, and team teach with another staff member, Mrs. Cindy Lickey. Also, Mrs. Lickey will be responsible for implementing the Mentorship activities.

## DPS Office Sets Holidays

Due to vacation schedules, the Department of Public Safety driver license office, located in the Scurry County jail building, will be closed Tuesday and Thursday, reported Jessie Scarborough, office director.

The office will resume its regular five-days-a-week schedule on Sept. 2.

## Firemen Called

Snyder firefighters doused a grass fire at 34th St. and Ave. E. Friday at 1:10 p.m.

Use a single high-watt light bulb rather than several small ones. It takes six 25-watt bulbs to provide the light of one 100-watt bulb.

## Protests Tax On Solar Units

AUSTIN (AP)—An architect says property tax assessors need to understand that big glass solar panels aren't the only form of solar installation. Texans are entitled to property tax exemptions for solar installations, but some are taxed because assessors don't know what they are looking at, L.M. Holder of Austin told the state's Solar Advisory Committee on Thursday.

The committee, a branch of the Texas Energy and Natural Resources Advisory Council, held its last public hearing before issuing recommendations on Sept. 3.

Holder said certain types of rooms, including sun porches and greenhouses, are designed by architects to collect and distribute heat from the sun on winter days and should be tax exempt.

He suggested that once an architect certifies that such a room is a solar unit, eligible for a tax break, the documentation should remain with the tax records of a building.

Russian troops captured Vienna in 1945 during World War II.

# Scurry Area Site Of New Wildcat Locations

Ike Lovelady Inc. of Midland has scheduled a 7,750-foot wildcat in Scurry County, 7.5 miles south-east of Ira.

No. 1 Dunn is 1,980 feet from north and 2,250 feet from west lines of section 74, block 20, Lavaca Navigation Company survey.

The project is one-half mile southwest of the Allen-Holiday (Pennsylvanian) field which produces at 7,442 feet.

Ground elevation is 2,255

feet.

Mayco Exploration will drill No. 1 H.H. Eiland as a wildcat location 467 feet from south and 2,173 feet from west lines of section 306, block 97, H&TC survey, 13 miles west of Snyder, in Scurry County.

The 8,300-foot test is semi-ringed by three dry holes, all within 3/4 mile and all drilled to a depth of approximately 8,200 feet.

It is also 1 1/2 miles south of the two-well Hataway

(Strawn) field, which produces at 7,704 feet.

Ground elevation is 2,454 feet.

Lasier Resources, Inc., Midland, has staked a northwest offset to the discovery well of the two-well Fluvanna, Southeast field of Scurry County.

Located 2,208 feet from south and 1,306 feet from west lines of section 485, block 97, H&TC survey, No. 1 Beaver is contracted to 7,700 feet.

The field produces from 7,809 feet.

No. 1 Whatley will be drilled as a southwest steepout to the Four-well, Fluvanna, South (Strawn) field of Scurry County.

Operated by D.A. Mets of Midland, the project will drill to a depth of 8,300 feet, on ground elevation of 2,643 feet.

Location is 660 feet from north and 1,980 feet from east lines of section 405, block 97, H&TC survey,

three miles south of Fluvanna.

Sameday Corp. of Midland will dig its No. 1 Hamlet as a 5,100-foot project in the two-well Tonto, Northwest (Cisco) field of Scurry County, eight miles northeast of Snyder.

It is a west offset to Cisco production and 467 feet from south and 1,980 feet from west lines of section 266, block 2, H&TC survey. Ground elevation is 2,291 feet.

Mayco Exploration Co., operating from Dallas, has staked location for a wildcat in Borden County.

No. 1 Miller, is an 8,800-foot wildcat, located 1,980 feet from north and 660 feet from east lines of section 34, block 30, T-6-N, J.H. Gibson survey, 10 miles north of Gail.

The test is one mile north of the opener and lone producer of the Romac (Mississippian) field, which produces from 8,415 to 8,443 feet, and 3/4 mile north of an 8,710-foot dry hole.

Ground elevation is 2,556 feet.

Mobil Producing Texas & New Mexico, operating from Houston, has staked location for a wildcat in Kent County.

No. 1-173 Percy Jones is 1,980 feet from north and 660 feet from west lines of section 173, block G, W&NW survey, five miles northwest of Clairmont.

It is 3/4 mile east of a 6,944-foot hole which was plugged and abandoned in May, 1957 and 1 1/2 miles southwest of a 7,341-foot hole, which was plugged and abandoned in March 1956. There is no nearby

production.

Contract depth is 6,950 feet.

V.F. Petroleum Inc. of Midland has completed the fifth Fuller sand producer in the Cogell multipay field of Kent County, eight miles southeast of Polar.

Operator reported No. 57 D.M. Cogdell pumped 90 barrels of 43-gravity oil, no water, with a gas-oil ratio of 150-1.

Production was natural through perforations from 5,004 to 5,014 feet.

Wellsite is 1,220 feet from south and 2,570 feet from west lines of section 716, block 97, H&TC survey, abstract 1169.

The well is a south extension to the Cogdell (Fuller sand) field.

Sun Oil Co. of Midland has announced location for a wildcat in Mitchell County.

No. 1 W.L. Ellwood Trust is 660 feet from north and from east lines of section 13, block 12, H&TC survey, eight miles north of Silver.

It is 2 1/8 miles northeast of production in the three-well Dixon (Ellenburger) field which produces at 7,129 feet.

Contract depth is 7,600 feet.

son, North multipay field of Mitchell County.

The well currently produces in the Jameson, North (Ellenburger) field. Location is 660 feet from south and 760 feet from west lines of section 6, block 1-A, H&TC survey, four miles north of Silver.

Marshall & Winston Inc. of Midland No. 1 McCabe "C" has been completed in the Jameson, North (Ellenburger) field of Mitchell County, four miles north of Silver.

On 24-hour potential test the well flowed 127 barrels of 45.4-gravity oil and five barrels of water, through a 40-64-inch choke and perforations from 7,174 to 7,180 feet. Stimulation, if any, was not reported. The gas-oil ratio is 1,456-1.

Hole is bottomed at 7,186 feet and 5 1/2-inch casing is cement at 7,126 feet.

Location is 467 feet from south and west lines of section 4, block 12, H&TC survey.

The Judy Gail, East (Canyon oil) field of Fisher County gained its fifth producer with the completion of W.B. Trammell, Houston, No. 10 W.B. Trammell.

Operator reported on potential test the well pumped 60 barrels of 41-gravity oil and no water, through

perforations from 4,431 to 4,465 feet, after a wash job of 1,000 gallons of mud acid.

The well bottomed at 5,450 feet, and was plugged back to 4,587 feet, where 4 1/2-inch casing was set.

A northwest extension to the field, location is 716 feet from north and 1,178 feet from west lines of section 184, block 1, BBB&C survey, four miles northwest of Hamlin.

Seage Oil Co. of Abilene has completed No. 2 Smith as a northwest extension in the Noodle, Northwest (4100) Canyon multipay field of Fisher County. It is the eighth producer in that pay zone.

The well flowed for 133 barrels of oil through perforations from 4,166 to 4,176 feet on a 12-64-inch choke, after acidizing with 750 gallons, and a fracture job of 15,000 gallons.

Gravity and gas-oil ratio were not reported.

Location is 1,263 feet from south and 330 feet from west lines of section 14, E. Miles survey No. 219, nine miles southeast of Sylvester.

Scheduled as a 5,000 foot wildcat, it was drilled to 5,006 feet, where 4 1/2-inch casing was set.

## Conservationists To Attend Meet

Directors of the Upper Colorado Soil and Water Conservation District will be among conservationists from sixteen soil and water conservation districts attending the West Texas Association of Soil and Water Conservation Districts meeting in Ballinger on Tuesday. Also attending will be Soil Conservation Service District Conservationist Erwin A. Pavlik of the Snyder Field Office.

The 10 a.m. meeting at the Ballinger Community Center will be hosted by the Runnels Soil and Water Conservation District. Kenneth Krueger, District Supervisor, Texas Department of Water Resources will speak on the "Status of Water Rights and Water Pollution Programs."

Presenting reports will be Joe Antilley, Abilene, member, State Soil and Water Conservation Board, and Hermon Petty, Mineral Wells, President, Association of Texas Soil and Water Conservation Districts.

Conservation districts included in the association are Upper Colorado, Upper Clear Fork, Concho, Middle Clear Fork, Mitchell, North Concho River, Coke County, Runnels, Middle Concho, Sandhills, Mustang, Howard, Midland, Nolan County, Andrews and Central Colorado.

**Would Work On Soviet Relations**

BOSTON (AP)—President Carter says that if he is re-elected a major goal of his second term will be "to try to resolve the differences between ourselves and the Soviets."

But, he said, the Russians first will have to resolve their situation in Afghanistan.

Carter made his remarks in a 45-minute interview Thursday with the editorial board of The Boston Globe after addressing the American Legion Convention.

## Gifted, Talented Program Expands

Snyder ISD has received a \$36,340 grant this year to expand and extend its instruction for its gifted and talented students (Title IV, Part C-Elementary & Secondary Education Act, 1975).  
 Last school year, 56 students participated in the district-wide gifted pullout and enrichment program held at West and Northeast schools. This year, 98

students, grades 4 through 7, will be involved in Project Excell.  
 In addition to increasing student reasoning skills, 36 fifth, sixth, and seventh grade students will focus on citizenship skills development this year doing independent projects and research, and experience career-related vocation with the assistance of mentors in the local community.  
 Mrs. Carole Haynes will coordinate these Project Excell activities, and team teach with another staff member, Mrs. Cindy Lickey. Also, Mrs. Lickey will be responsible for implementing the Mentorship activities.

## DPS Office Sets Holidays

Due to vacation schedules, the Department of Public Safety driver license office, located in the Scurry County jail building, will be closed Tuesday and Thursday, reported Jessie Scarborough, office director.  
 The office will resume its regular five-days-a-week schedule on Sept. 2.

## Firemen Called

Snyder firefighters doused a grass fire at 34th St. and Ave. E. Friday at 1:10 p.m.  
 Use a single high-watt light bulb rather than several small ones. It takes six 25-watt bulbs to provide the light of one 100-watt bulb.

## Protests Tax On Solar Units

AUSTIN (AP)—An architect says property tax assessors need to understand that big glass-solar panels aren't the only form of solar installation.  
 Texans are entitled to property tax exemptions for solar installations, but some are taxed because assessors don't know what they are looking at, L.M. Holder of Austin told the state's Solar Advisory Committee on Thursday.  
 The committee, a branch of the Texas Energy and Natural Resources Advisory Council, held its last public hearing before issuing recommendations on Sept. 3.  
 Holder said certain types of rooms, including sun porches and greenhouses, are designed by architects to collect and distribute heat from the sun on winter days and should be tax exempt.  
 He suggested that once an architect certifies that such a room is a solar unit, eligible for a tax break, the documentation should remain with the tax records of a building.  
 Russian troops captured Vienna in 1945 during World War II.

Lawrence E. Lamb, M.D.

**Why such cholesterol?**

By Lawrence Lamb, M.D.

DEAR DR. LAMB — I just had an examination and was told that my cholesterol is 325. I asked my doctor what I was doing wrong as I rarely touch any fried foods, gravy, ice cream, chocolate candy, cakes, pies, sweets, sauces, French fries, butter, expensive steaks, chicken skin or eggs.

However, I do love cheese. I stopped that. The doctor told me to have beef only once a week. I buy only extra lean meat so I'm at a loss to know why my cholesterol is so high. Can you help me?

DEAR READER — You left out an important point. If a person is consuming more calories than his body needs, even if the calories come from carbohydrates and protein, your own system is apt to manufacture too much cholesterol. In general, cutting back on cholesterol intake and the fatty intake in the diet won't help a lot unless you also eliminate excess body fat and keep that excess body fat off.

The amount of cholesterol that you get in a normal diet is only about one-fifth of the total cholesterol that's in your small intestine and reabsorbed back into your circulation. That's because there's also cholesterol from your bile that's manufactured from your own liver and even cholesterol produced by the intestinal cells. The liver tends to regulate the level of cholesterol in the bloodstream. It's very important to eliminate fat and cholesterol in the diet when you want to lower your level but it's also important to recognize that's not the only factor involved. Some people have an inherited tendency for high cholesterol levels.

I'm sending you The Health Letter number 15-2, Understanding Your Cholesterol, Triglyceride and Other Blood Fats. It will explain these

problems to you in more detail. Other readers who want this issue can send 75 cents with a long, stamped, self-addressed envelope for it. Send your request to me, in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10019.

Having a high cholesterol isn't always bad. It depends on how much of it is "good" cholesterol and how much of it is "bad" cholesterol. Since you're a woman you have more likelihood that the greater portion of your cholesterol is in small particles which can even be beneficial. This is explained more fully in The Health Letter I'm sending you.

Don't forget to exercise. Regular, sensible exercise helps to control calories and, apparently, helps to favorably influence cholesterol levels and blood fat levels, at least in some people. Finally, if by weight control, diet and exercise you persistently have a high cholesterol, then there are medications that can, and probably should, be used to help lower your cholesterol further.

Also don't get so excited over one determination. The cholesterol level can fluctuate in relationship to stress. Before deciding that a person has a persistently elevated cholesterol level, it's a good idea to have at least three determinations. A good study years ago showed that students during examinations tended to have much higher cholesterol levels than usual. Stress was the reason and it was temporary.

# Spiritual Comment

**Editor's Note--** This column is prepared by members of the Scurry County Ministerial Alliance and is presented as a community service.

**RURAL CHURCH WORK ...ALIVE AND WELL**  
 By Rev. Dennis Teeters  
 Knapp Baptist Church

With the rural population dwindling, one might think rural church work would be unexciting. The last available figures show the population of Texas to be 80 percent urban and only 20 percent rural. Doesn't sound like the country is overrun with opportunity, does it? Still there are advantages to be had in the rural pastorate.

The first is the simple fact of living in the country. The pace of life is slower and one seems to have more time to notice the beauty of God's creation. You can sit on your porch on a cool summer evening and listen to the cricket sing his nighttime melody, or perhaps you can catch a performance of the seascortail fly-catcher as he attempts the daring capture of his supper for the evening.

Maybe you catch a glimpse of whitetail deer down in the pasture, and there is always a possibility of coming upon a possum, who when he is discovered might turn in his dramatic presentation of what has come to be known as "playing dead." No matter how you look at it God's creation is always in full view in the country and one can come to understand more clearly that "the earth is the Lord's and the fullness thereof."

people themselves. Country folks have somehow been able to maintain a slower pace of life. I like to think of it in regard to the children's story of the tortoise and the hare.

People in the country remind me of the tortoise--slower in moving, but always moving, never stopping. They really believe in not forgetting all the benefits that God has provided. They recognize their dependence on all that God has provided, the good earth, rain, and sunshine. There is a closeness among people that populate rural communities that has always impressed me. This closeness is never more evident than when a need arises. They are quick to react. There is no doubt that country folks are the "salt of the earth."

Finally, there is the rural church herself. Although the rural church cannot offer what the city church may be able to offer as far as program goes, it is far from dead. There are many advantages. One is participation. Few if any get to sit on the sidelines and watch, because of necessity everyone must be involved.

Another advantage is that agreement usually comes quicker. People are more likely to see things the same way. They can all recognize the common good. The most important thing about rural church work is the fact that they need to hear the gospel preached and there are people that need to be introduced to Jesus. This holds true in country, town, or city. People in the country love Jesus just like people in the city. I'm reminded of a story I would like to share. Two boats passed each other on the Mississippi River. An old black workman on one of the boats pointed to the other and said to a white passenger beside him, "Look, there's the captain! Years ago we were going along like this when I fell overboard and the captain rescued me. Ever since then I just love to point him out."

Years ago I too was deep in the waters that I could not navigate with my own strength and the Captain of my salvation leaped overboard from heaven to rescue me here on earth. "And I just love to point him out" whether it be in the country or the city.

James I was proclaimed king of England, Scotland, France and Ireland in 1603.

# Seale Nets Top Honors In Meet

Kris Seale carded a day's low of 77 to finish in first place in the 15-17 age bracket of the Junior Club Championship, held Thursday and Friday at Snyder Country Club.

Seale was tied with Barry Blackmon after Thurs-

day's round, in which both golfers came up with 82s. Paul Erwin took second in the bracket, defeating Blackmon in the first hole of a sudden death playoff. Erwin had scores of 82 and 78 for a total of 160, one stroke off the winning pace of 159. Blackmon also had a 160 with scores of 79 and 81. Mark Erwin had a 91-91 for a 182 total.

Robert Patterson won the 12-14 bracket with a 113 and a 110 for a 223 total.

Leading the girls was Theresa Hildreth with a 94-90, 184 total. Lisa Franklin placed second at 212 with scores of 107-105, while Karla Gist placed third at 127-128 for a 255.

Golfers 11 years old and under, playing only nine holes per day, were paced by Troy Rhodes' total 108. Rhodes carded a 53 on Thursday and a 55 Friday.

Second was Steven Mack with a 63-58-121; Terry Hildreth took third with a 65-67-132; while Michael Risenhoover had scores of 75-78 for 153 and Kevin Rhodes went 97-84 for a 181.

**FACULTY SCRAMBLE WINNERS**—Winners in the recently held WTC Faculty Florida Scramble were, left to right, Harold Alsop, Larry Dunaway, Bob Hays and George Gann. The foursome carded a 31 to win the tourney by one stroke. (SDN STAFF PHOTO)

# College Completes Faculty Tourney

Larry Dunaway, George Gann, Bob Hays and Harold Alsop took top honors in the fourth annual Western Texas College Facul-

ty Florida Scramble, held here Friday morning.

The foursome carded a 31 in the 9-hole, best ball, tournament, to win by one stroke.

Second was the team of Dave Foster, Bill Halbert, Janet Halbert, Dick Lancaster and Marilyn Lancaster with a 32. Third were Rex Hopkins, Harry Krenek, Mike Otto and Frank Williams with a 33.

Western Texas College was to host an 18-hole Florida Scramble Saturday, featuring several area celebrities, and former and present members of the Westerner golf team. Among those at-

tending the tournament were to be a contingent of coaches from Texas Tech University, including basketball coach Gerald Myers, and former professional football great, Sammy Baugh.

Other results from the Faculty Scramble were, fourth place with a 34, Bob O'Day, Randy Mosely, Gil Fleer and Mickey Baird; fifth place with a 35, Mike McBride, Joe Carter, Jerry Baird and Mary Hood; and sixth place, with a 37, Robert Clinton, Speedy Moffett, Franklin Pruitt and Bettie McQueen.

# Coach Akers Praises His Young Longhorn Team

AUSTIN (AP)—Texas Coach Fred Akers' squad returned from summer vacation in top shape, and he thinks the prospect of playing Arkansas on Sept. 1 had a lot to do with it.

"We're healthy and healed and ready to go. The whole squad came back in excellent condition ... The Sept. 1 game gave us momentum we might not have had otherwise," Akers said.

He also told sports writers touring Southwest Conference schools he is happy with the Longhorn offense and, although the defense must be rebuilt, the linebackers are the best he has had.

"We're not as good as we're capable of being by mid-season. We're not a top football team right now, but we can be," Akers said.

At a news conference Friday, Akers declined to predict the winner of the Arkansas game but said, "We're back on track and ready to compete. We expect to go out there and compete with anybody."

Texas was headed for a possible national championship showdown with Alabama in the Sugar Bowl last year when half-backs A.J. "Jam" Jones and Rodney Tate were injured in the first quarter of the Baylor game.

Texas finished No. 12 in the nation with a 9-3 record but lost eight defensive starters. The Longhorns generally are ranked in the middle of the SWC this season.

Jones had knee surgery and Tate shoulder surgery, and Akers said, "It really picked up practice to have A.J. and Rodney back in there."

Told that he sounded "goose-bump happy" over the offense, Akers responded, "I am happy with our offense. We only have one senior but they have been playing together for two years. We're at a point where we expect them to really get it done. They've been work-

ing their rear ends off and are looking good."

Akers said junior Donnie Little is the No. 1 quarterback, with sophomore Rick McIvor second team. "Both have unusual ability that can be used," said Akers. "Those two really try to outdo each other."

Akers touted tight end Lawrence Sampleton, 6-foot-6 and 225 pounds, as "the best tight end in the conference. I wouldn't

trade him for anyone." He also singled out offensive tackle Terry Tausch, 6-4 and 261, and linebacker Robin Sendlein, 6-5 and 224, who have made some pre-season All-American teams.

Akers said the 1979 Texas defense was "the best I've seen ... and we're in a rebuilding stage, especially on defense, but I do think the defense will be good."

# WGA Pairings For Tuesday

Play for the day will be "Low Score on Even Holes"

**Pairings**  
Mrs. Don Wolf, Mrs. Don Dillard, Mrs. John Pickering and Mrs. Bill Null.  
Mrs. John Thomas, Mrs. John Boren, Mrs. Harold Ellis and Mrs. Pete Hester.

# Teen League Meet Set

An organizational meeting of the Snyder Teenage League will be held Monday at 7 p.m. in the office of Sullivan, Stanfield and Fowler Insurance.

Interested managers and parents are urged to attend.

# Bowlers To Organize

The Tuesday night Commercial Bowling League will meet 7 p.m. Tuesday at Snyder Savings and Loan.

Any interested man or team should be in attendance to help organize the league and elect officers for the new bowling season.

# WBA Slates Meeting

Snyder Women's Bowling Association will hold a meeting Tuesday at 7:30 p.m. in the banquet room of The Shack.

Purpose of the meeting will be to organize for the coming season and allow league secretaries to pick up supplies and kits.

Refreshments will be served.

# Jr. High Physicals

Junior high school athletic physicals will be given this Monday and Tuesday at the high school field house.

Eighth grade and seventh grade boys will take their physicals Monday at 7:30 and 8:15 p.m. respectively. Junior High girls will take physicals Tuesday, following the same schedule.

High school athletes who missed their physicals are also requested to get one on these dates. No student will be allowed to participate in any school-sponsored sport without having taken a physical.

# Tigers Lookin' Good In 1980

1980 VARSITY TIGERS—Members of the 1980 varsity volleyball team are, left to right, kneeling, manager Lynne Robertson, Toni Elrod, Shana Koonsman, Ann Melton, Kelly Dryden, Shana Pate, manager Tina Cannon, and standing, assistant coach Patty Grimmett, Kerstin Selmon, Sherri Rich, Sherry Mayes, Kathy Northcott, Lisa Cobb and coach Joyce Elrod. (SDN STAFF PHOTO)

by BILL McCLELLAN  
If first impressions mean anything, Snyder's varsity volleyball unit could be double-tough this year. That's the indication the girls left Coach Joyce Elrod with after their first scrimmage last Thursday. "They (the Tigers) looked better than I expected them to," said Elrod after her squad dominated Denver City, Seminole and Lamesa in order.

The Tigers, playing the favorite's role in the newly formed District 2-4A this year, are gearing for their season opener here Tuesday (5 p.m.) against San Angelo Central High School. Snyder hosts a tournament over the weekend and will play several more matches before tipping off loop wars Sept. 13 against Pecos.

"I've said all along we should have a strong defense. We out-hit all of the teams there (at the scrimmage)," the coach added. "We showed a lot of power." "Power" well defines this year's varsity team which returns four girls off of last season's District 3-3A championship crew and lifts six more from a junior varsity

squad which battled to an amazing 30-1 record.

The 10, which includes one all-state talent, will have more experience and depth than Coach Elrod has seen in a long time.

"It will be difficult to choose six starters. We can only play six at a time, but we have 10 that can do equally well. The team this year has more experience, and 'depth,'" Elrod noted.

Returning are all-stater Lisa Cobb, a junior spiker; all-district spiker Sherry Mayes, a senior; senior spiker Shauna Pate, and junior spiker Kathy Northcott. Pate and Northcott switched in and out last year, but both saw lots of action.

Joining the foursome will be senior spiker Kerstin Selmon, and juniors Toni Elrod, setter-spiker; Kelly Dryden, spiker; Shana Koonsman, spiker; Ann Melton, spiker; and Sherri Rich, setter-spiker. Managers are Lynne Robertson and Tina Cannon. Patty Grimmett is assistant coach.

No publication has actually come out and appointed the Tigers as district favorite, but Elrod feels most district opponents will

consider Snyder in that role — unless they can prove otherwise.

"Snyder could be considered the favorite contender for the district championship on the basis of experience and our junior varsity record last year," she explained.

Other district members are Sweetwater, Lamesa, Andrews, Odessa, Ector, Monahan, Pecos and Fort Stockton. San Angelo Lake View, also a 2-4A school, does not field a volleyball team.

Elrod believes the conference "should be the strongest 4A district in the state" this year and feels like Snyder's strongest competition will come from 1979 state champion Monahan and last year's 3-3A runner-up Lamesa. Pecos also has some talent, she noted.

But favored or not, the coach stressed one point:

"These kids know they have to work for it. They play with a lot of heart and work hard to accomplish their goals. They know what pressure is by now and they should be able to handle it... at least I hope they can," she laughed.

## DeBartolo, Daughter New Chicago White Sox Owners

CHICAGO (AP)—Bill Veeck says the new owners of the Chicago White Sox will be able to "produce a better brand of baseball" than he and his partners could because they will be able to buy players instead of having to sell them.

The White Sox board of directors Friday approved the sale of the American League franchise for \$20 million to Youngstown, Ohio, shopping mall magnate Edward J. DeBartolo Sr. and his daughter, Rose Denise DeBartolo York.

The sale is subject to approval by Sox stockholders and the other American League owners, but Veeck, president of the team, said that was a

"mere formality." Veeck, who put together a group which purchased the club five years ago for about \$11 million and prevented a move to Seattle, said the new owners would be able to "stabilize" the franchise and make it more "competitive."

The White Sox are 51-68 and in fifth place in the AL West Division.

In a statement issued through Louisiana Downs race track in Shreveport, La. — one of his other holdings — DeBartolo also sounded an optimistic note about the future of the franchise.

"We will expend every effort to revive the hopes of Chicagoans in redeveloping a vital, pennant-

seeking baseball team," he said.

Vince Bartimo, president and general manager of Louisiana Downs, said he expected approval of the stockholders and the league to be all but automatic.

"The DeBartolo family has received a clean bill of health from the National Football League, the National Hockey League, and its reputation is impeccable," he said.

DeBartolo's son owns the San Francisco 49ers of the NFL and the family owns the Pittsburgh Penguins of the NHL and three thoroughbred horse tracks.

Although DeBartolo was quoted recently as saying he would keep the team in

Chicago if his bid to buy the Sox was successful, Bartimo said DeBartolo was not compelled to keep the team in Chicago as a condition of purchase.

"There are no restrictions on the flexibility of the corporation regarding the franchise," Bartimo said in a telephone interview.

## Houston Spins Eighth Straight

HOUSTON (AP)—Houston reliever Frank LaCorte believes the Houston Astros are playing their best baseball of the season.

"I think we're really getting things together now," said LaCorte who pitched five scoreless innings in Houston's 3-2, 12-inning win over the Chicago Cubs Friday night.

"I don't see us faltering under any pressure," he said. "Nobody's looking ahead to anybody else."

LaCorte, 8-3, picked up the victory — Houston's eighth straight — in his longest outing of the season.

Enos Cabell drove in the winning run with a two-out single in the 12th which followed a walk to pinch-hitter Dave Bergman, a single by Rafael Landestoy, and a balk by losing pitcher Bill Caudill, 1-4.

Chicago scored single runs in the first and sixth innings on a run-scoring single by Bill Buckner and Jerry Martin's bases-

loaded infield single.

Houston scored a run in the second inning on a single by Jose Cruz, a double by Cesar Cedano and Alan Ashby's infield grounder. The Astros tied the score in the eighth on a walk to Joe Morgan, a single by Cabell and Cruz's run-producing single to right against reliever Bruce Sutter.

"I think I had good stuff tonight," said LaCorte, who has not allowed a run in his last 923 innings.

"We've been winning quite a few lately, but we hadn't picked up much ground until tonight. Our hitting is coming around and we're playing great defensively. I just don't see this team falling apart during the next 41 games."

The victory increased Houston's lead over second-place Cincinnati to 2½ games in the National League West — the largest lead since July 29. Third-place Los Angeles trails the Astros by three games.

SET TO PLAY—Sammy Baugh, WTC athletic director Bob O'Day, Mal Donelson and WTC president Dr. Robert Clinton, left to right above, posed for this shot Saturday morning before teeing off in the Western Texas College Florida Scramble. Some of the area's top golfers were to compete in the tourney. (SDN STAFF PHOTO)

## Rangers Split With Milwaukee Brewers

ARLINGTON (AP)—Managers George Bamberger and Pat Corrales agreed on the key play in Milwaukee's 8-3 victory over the Texas Rangers in the second game of a doubleheader Friday night.

It came with the bases loaded, two out in the sixth inning, when Milwaukee reliever Bob McClure faced pinch hitter Billy Sample in an effort to protect a 7-3 lead for starter

Paul Mitchell.

Sample lined a hard grounder through the box that would have scored at least two runs, but second baseman Ed Romero raced behind the bag to spear the ball, then flipped to shortstop Robin Yount for a forceout that ended the inning.

The Brewers held on for a win that split the twinbill since Texas won the opener, 12-6. "He made the play of the

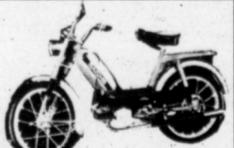

game at second base," Milwaukee's Bamberger said. "Romero played two super games, outstanding. He was swinging the ball great."

### Tee Times Set For Jr-Sr Meet

Snyder Country Club was to stage its annual Junior-Senior Club Championship today. Play is best ball partnership. Today's tee times follow.

- Scratch
- 12:00—Lanny and Kip Wadleigh, Bill and Jay Elland.

# Remedial Service Offered Here In Speech, Hearing, Language

Remedial speech-hearing-language services have been a continual educational service to students in the Snyder Public Schools since 1954. Speech and language services are provided for

those students who have defects of articulation, defects in voice production, stuttering, delayed speech development, and speech defects associated with cleft palate, cerebral palsy, or impaired hear-

ing. Currently, two Snyder ISD speech and language pathologists provide diagnostic and remedial services for those students who have either speech, hearing, or language problems. The pathologists also serve as consultants to teachers, other staff members, and parents. Each pathologist serves three elementary schools. One pathologist also serves students at both Snyder High School and Snyder Junior High School. The other pathologist also serves the students in the early childhood unit for the handicapped and in the special education classes housed at West Elementary. Approximately 200 students, from ages three to 21, receive assistance from remedial speech services each school year.

Screening for possible speech-language problems is a part of the district's Early Prevention of School Failure Program, which is conducted each year in the kindergartens. Students identified in the screening are then given complete speech and language evaluation to determine if the need for remedial instruction does exist. Students in grades one through 12 receive a speech evaluation when referred by their principal, classroom teacher, parent, doctor, dentist, or another staff member.

When the diagnostic evaluations are completed and verified, the results of the evaluations plus the recommendations of the pathologist are submitted to the local Admission, Review, and Dismissal (ARD) Committee. The ARD Committee is composed of at least the building principal, the parent, the classroom teacher, and the pathologist. In addition to determining eligibility this ARD Committee must determine the best educational arrangement for correcting the speech problem and continue to review the problem of placement until the student modifies his problem satisfactorily.

Parents who have concern regarding their child's speech, hearing, or language development should discuss this with the classroom teacher and initiate a referral form requesting a review of the child's problem; or the parent may contact the principal of the school their child attends or will attend upon entering school.

## Some MIA Wives Face A Deadline

Certain wives whose husbands are listed as MIAs or were POWs for 90 days or more will lose eligibility for valuable Veterans Administration education benefits if they don't act within the next six months, E.H. (Dan) Dever, Scurry County Veterans Service Officer, said. Eligibility for the VA Survivors' and Dependents' Education program expires for this select group Dec. 24, 1980, or 10 years from the date the listing was made, which ever is later.

The program is also open to children of POWs and MIAs. Since 1956, VA has spent some \$1.7 billion to educate and train some 409,000 eligibles.

Information on VA educational benefits may be obtained from Dever's office, located in the Administration Building at Western Texas College. Dever can also help veterans and their families with other information. His office is open each weekday and will resume evening hours with the opening of the fall semester at WTC on Wednesday.

## Medal Awarded To Capt. Flynn

Captain Michael D. Flynn, son of Mr. and Mrs. Emil D. Flynn of 2501 40th St., Snyder, has been decorated with the Meritorious Service Medal at Air Force ROTC Detachment 840, Southwest Texas State University, San Marcos. The Meritorious Service Medal is awarded specifically for outstanding non-combat meritorious achievement or service to the United States.

# Policy Set For Free, Reduced Price Meals

The Snyder Independent School District has announced its policy for free and reduced price meals and free milk for children unable to pay for meals and milk served on the National School Lunch and Breakfast Program and Special Milk Program.

Children from families whose income is at or below the levels shown on the accompanying chart are eligible for free and reduced price meals and free milk. In addition, families not meeting these criteria but with other unusual expenses due to unusually high medical expenses, shelter costs in excess of 30 percent of income, special education

expenses due to mental or physical condition of a child, a disaster or casualty losses are urged to apply.

Application forms will be available for all children when they or their parents register for school. Additional copies are available at the principal's office in each school. The information provided on the application is confidential and will be used only for the purpose of determining eligibility. Applications may be submitted at any time during the year.

In certain cases foster children are also eligible for these benefits. If a family has foster children living with them and wishes to apply for such meals and milk for them, they should contact the school.

In operation of child feeding programs, no child will be discriminated against

because of race, sex, color, or national origin.

Under the provisions of the policy, each school principal will review applications and determine eligibility. If a parent is dissatisfied with the ruling of the official, he may make a request either orally or in writing to Mr. Jack Gorman, Assistant Superintendent, School Administration Office, 2901 - 37th Street, Snyder, Texas 79549, telephone 573-5401 for a hearing to appeal the decision. The policy contains an outline of the hearing procedure.

Each school and the central office has a copy of the complete policy which may be reviewed by an interested party.

Local school officials have adopted the family size and income criteria for determining eligibility as shown in the accompanying chart.

## Big Fish May Break Record

FLAMING GORGE, Utah (AP)—Frank Twitchell of Manila, Utah, landed a 37-pound mackinaw while fishing near the Utah-Wyoming border. It was 17 inches long and 29 inches around.

Utah Division of Wildlife Resources officials are checking out reports as to where the fish was taken. If the fish was taken on the Utah side, it would break a 20-year record as the largest mackinaw caught in Utah.

The catch breaks the Flaming Gorge record of 32 pounds for a mackinaw set by Richard Reinwald of Manila, Utah, last year.

When Honore de Balzac was dying, he called out in delirium for Bianchon - the celebrated doctor in his "comedie Humaine."

# Caution Urged Around Schools

As the 1980 school year opens, area drivers should give special attention to the rules of the road. In its annual "School's Open, Drive Carefully" campaign the Texas Division of the American Automobile Association reminds motorists to be extra alert when driving down neighborhood streets and in school zones. Be on the lookout for children darting out from between parked cars. Many youngsters become excited about the new school year and seeing old friends again. They may tend to forget their safety rules. It is a good idea to review safe walking rules with your children and map out the safest route to school. The AAA offers some additional tips for a safe school year:

- Observe reduced speed limits posted in many school zones
- Watch for children riding bicycles
- Drive your children to school only when it's absolutely necessary. Increased traffic contributes to congestion in school zones.
- If you must drive your children, find the least congested area to drop them off.
- An important reminder: Drivers are required to stop for school buses that have stopped to load and unload children and to remain stopped until the children are safely across the street and the bus is moving again. This applies whether you are in front of or behind the bus, unless you're separated from the vehicle by a divided highway with a median strip.
- The first few weeks of school are the most hazardous, since many youngsters are either attending school for the first time or they are in a different school where they may be unfamiliar with area traffic patterns. AAA urges all motorists to take special precautions at that time.

## Says India Near Anarchy

NEW DELHI, India (AP)—India's government and administrative machinery is collapsing and the country is heading toward anarchy, claims former Foreign Minister A.B. Vajpayee. Vajpayee, head of a splinter opposition party, referred in a Friday night speech to recent rioting and violence in northern India which prompted Prime Minister Indira Gandhi to call out troops to aid the police.

PREPARING FOR THE PUPILS—Phyllis McGinnis, librarian, kneeling, and Barbara Bigham, speech therapist, prepare materials they will be using during the school term coming up. Snyder teachers and staff members report Monday morning for in-service days and pupils will come in for their first day of classes on Tuesday, Sept. 2. (SDN Staff Photo)

# Snyder Teachers To Report Monday

Four days of staff development activities for Snyder Public School personnel will begin Monday morning with orientation.

Registration is set for 8:15 a.m. Monday in the foyer of the Snyder High School Auditorium.

The general orientation session is set for 9 a.m. in the auditorium, with Jack Gorman, assistant superintendent-personnel, presiding.

The Rev. Gary Dudder, minister of First Christian Church and president of the Snyder Ministerial Alliance, will give the invocation. Dr. Tom Scanichio, assistant-superintendent-instruction, will head the pledge of allegiance and Bill Lyon, Snyder High School Choral Director, will lead the gathering in singing "America". The accompanist will be Martha Fagin, junior high choral director.

Gorman then will introduce the new teachers joining the faculty this year.

The faculty and staff will be welcomed by Mayor Milton Ham, Chamber of Commerce President Charlie Henderson, School Board President Ted Crenweige, and Supt. Bill J. Hood. Extending greetings from professional organizations will be Wayne Kennedy, president of the Scurry County Unit of Texas State Teachers Association, and Margaret Presswood, president of the Snyder Classroom Teachers Association.

Following the welcoming ceremonies, a brunch in the high school student center will honor new teachers to the system.

At 10:45 a.m., the faculty and staff will be addressed by Claud Zevely of West Texas State University. This will conclude the Monday morning program.

During the afternoon hours, faculty meetings will be held in the various school buildings, with principals presiding.

On Tuesday, elementary teachers will report to their respective buildings to register pupils. Elementary registration is scheduled from 8:30 a.m. to 4 p.m. and will continue through the noon hour.

There will be a special education staff meetings from 1 p.m. to 2 p.m. in the board room of the administration building.

Secondary teachers will be in their respective buildings Tuesday from 8 a.m. to 4 p.m. Secondary English teachers and teachers will hold meetings at 1 p.m. Tuesday at the high school.

On Wednesday, there will be workshops from 8 a.m. to 4 p.m. at the high school for all faculty and aides.

The Thursday schedule

calls for faculty meetings and classroom preparation in the various buildings from 8 a.m. to 4 p.m. Also, orientation for the gifted and talented program is scheduled for Thursday, with times to be announced for the various buildings.

The faculty and staff will be out Friday for the Labor Day weekend. They will return on Tuesday, Sept. 2, when pupils will report for classes for the fall semester.

## REAGAN

(Continued From Page 1) Communist Party newspaper in China, which accused Reagan of endorsing a "two-China" policy and warned that any move to re-establish official ties with Taiwan would severely damage relations between Peking and Washington.

Faced with repeated questions, Reagan refused to repeat his statement of last week, but also declined to back down. Asked if that meant he stood by his earlier comments, Reagan said after a pause: "I guess it's a yes."

Questioned about religious issues, Reagan said he considered himself a "born-again" Christian, and he said he has "a great many questions" about the theory of evolution.

"It is a scientific theory only, and in recent years it has been challenged in the world of science and is not believed... to be as infallible as it once was believed," Reagan said.

He added that if evolution is taught in schools, "then I would think that also the biblical theory of creation... should also be taught."

## OBITUARIES

### Mrs. Blythe

Mrs. Olma Pearl Blythe, a former Snyder resident, died early Saturday in Rockport.

Funeral arrangements were pending at Bell-Seale Funeral Home.

Survivors include her husband, W.H. Blythe, and a son, V.E. Blythe, both of Rockport.

### Charges Filed In Baby Sale

FORT WORTH (AP)—Charges were filed Thursday against a 19-year-old topless dancer and the couple accused of arranging to buy the woman's three-month-old baby.

Carrie Ruth Eason, the child's mother, was charged with attempted sale of her daughter. Similar charges were filed against Dale Northcutt, 34, and Susan Northcutt, 31, of Arlington, who are suspected of agreeing to pay \$2,500 for the baby.

Investigators said Spring Eason was taken from the Northcutts' home and turned over to the child welfare officials Tuesday after the dancer confessed she had sold the child.

## HOSPITAL NOTES

ADMISSIONS: Julie Butler, 213 35th.; E.J. Bergeron, Box 1221; Delores Allen, 2608 Ave. X; Becky Beaver, Fluvanna; Debra Turvey, Rt. 3; Lillian Johns, Roby; Henry Pevefer, Rt. 3; Nina Cowan, Rt. 3; and Elena Samore, Box 1295.

DISMISSALS: Mary Castillo, Wilmer Richards, William Galloway, Harold Lacik, Eril Sandefer, Elida Hernandez, Reatha Orr, Raymond Arriega, Pat Whittenburg, Othell Hataway, and Jim Delao.

## BIRTHS

Steve and Becky Beaver of Fluvanna are parents of a son born at 10:21 a.m. Friday in Cogdell Memorial Hospital. The child weighed 7 lbs., 3/4 oz.

A son was born to James and Debra Turvey, Rt. 3, Snyder, at 8:46 a.m. Friday in Cogdell Memorial Hospital. He weighed 8 lbs., 1 oz.

## Japanese Red,

### Missing 30 Years, Found

TOKYO (AP)—A former Japanese communist leader, missing for nearly 30 years, has been found alive and living in China, Japan's Kyodo news agency reported today from Peking.

Ritsu Ito, the 67-year-old former member of the Japanese Communist Party's Central Committee, is undergoing treatment at a Peking hospital for an undisclosed illness and is reported in "relatively good physical condition," Kyodo said.

It reportedly was smuggled out of Japan in the autumn of 1951, a year after he and other party leaders went underground following a government crackdown on communists triggered by the outbreak of the Korean War in 1950. His whereabouts had remained a mystery.

## Classes To Begin After Labor Day

Snyder school pupils won't be going to classes until after Labor Day again this year but it's a different story for the faculty and staff.

The schedule calls for staff development activities to begin on Monday, Aug. 25. The faculty and staff will continue sessions for four days before taking off for a holiday weekend just prior to greeting students on the following Tuesday.

The calendar this year gives a break to those who prefer to have their Christmas holiday season continue beyond New Year's Day. Christmas and Jan. 1 fall on Thursday and the first day of classes following the holidays will be the following Monday, Jan. 5. The local schools will be closed down for two full weeks this Christmas season.

## Farm Pest Management

By BILL JANY  
Scurry-Mitchell Entomologist

GENERAL SITUATION: The longed-for showers around both counties brought relief to many but, for most of the dryland cotton, it arrived too little, too late.

TIME IS RUNNING OUT: Most producers have already made a decision regarding managing bollworms in their cotton. For most, it was a fairly easy decision. But, for some, the decision is more difficult because of a higher yield potential and a good chance that cotton prices will be high.

For these producers, time is running out! Because of the high bollworm populations in cotton fields now, severe economic damage is occurring in these fields, damage that can't be made up in future weeks. We are approaching a point in this season when most squares that are being set will not have enough time to fully mature and open by harvest date.

Before making any pest management decision, take these facts under consideration:

● Boll maturation is temperature dependant. Lower temperatures mean a longer boll maturation period.

● It takes approximately 20 days for a square to become a bloom.

● Bloom to boll opening takes a minimum of 60 days. With cooler day and night time temperatures this period will become longer.

● Our average killing frost date in Mitchell County is November 10 and in Scurry County is November 8. That gives us around 81-83 days for late season fruit maturation if this is an average year!

BOLLWORMS: Bollworm egg-laying pressures are still high. In many irrigated and subirrigated cotton, percent egg laying on plants checked ranged from 20-100 percent. Many plants had up to 6-7 eggs on leaves, squares, and terminals.

Because of overcast skies, young larval mortality due to high temperature and high humidity are low; consequently, larval infestations in fields with low to moderate beneficial populations have increased. Fields should be scouted twice a week during this high egg laying period.

BOLL WEEVILS: Very little boll weevil damage has been observed this year. Earlier this season two adult boll weevils were found in fields around Rogers Community. However, most of this cotton has stopped growing and producing new squares. Hopefully the decline of cotton in this area will have an adverse effect on the boll weevil population in this area of the county. The third generation of boll weevils usually begin at the end of August or early September. Boll weevil pheromone traps are again being monitored at weekly intervals so that we can follow this dispersal a little more closely.

MEETINGS:  
Aug. 26 Tuesday 9  
Mitchell County  
Gin Office  
1:30 Buford Gin Office  
Aug. 28 Thursday  
9:00 Dunn Gin Office  
1:30 Paymaster Gin Office

## Charley Suddenly A Hurricane

MIAMI (AP)—A low pressure area off the Atlantic Coast on Saturday unexpectedly organized into Hurricane Charley, forecasters at the National Hurricane Center in

Miami said. An Air Force reconnaissance plane checking on the disturbance centered 550 miles east of Norfolk, Va., found winds of 80 mph, officials said.

## Hyphenated Name Okayed

AUSTIN (AP)—Attorney General Mark White said Friday that a married woman may register to vote under a hyphenated last name consisting of her maiden name and her husband's surname.

"We believe that a woman may change her name by repute at the time of her marriage to a hyphenated combination of her maiden name and her husband's surname, as long as she uses that name consistently and non-fraudulently," the opinion said.

The opinion was asked by Criminal District Attorney Tim Curry of Fort Worth.

Charley was expected to drift slowly and erratically for the next 24 hours, then begin a slow eastward movement, according to the hurricane center. No significant change in strength was expected Saturday, forecasters said, and the storm posed no immediate threat to land.

The low pressure area did not develop in the tropics, but forecasters said it had acquired the whirling structure typical of a tropical cyclone, or hurricane, with winds of more than 74 mph.

The Trans-Siberian Railroad was completed in 1915. It runs 5,776 miles from Moscow to Vladivostok.

# ASTRO-GRAPH

Bernice Bede Osol

August 24, 1980

August 25, 1980

Some of the changes you've been hoping for will begin happening this coming year. Associates can be a big help, so select your allies wisely and be willing to share with them.

**VIRGO (Aug. 23-Sept. 22)** Someone you are with today may be under considerable strain and it wouldn't take much to bring on an argument. Be understanding and forgiving. Find out more of what lies ahead for you in the year following your birthday by sending for your copy of Astro-Graph. Mail \$1 for each to Astro-Graph, Box 489, Radio City Station, N.Y. 10019. Be sure to specify birth date.

**LIBRA (Sept. 23-Oct. 23)** It may be very difficult to get along with coworkers today. If they're in a foul mood, don't add to it by throwing more fuel on the fire.

**SCORPIO (Oct. 24-Nov. 22)** Peer pressure may be felt today, but only you can make yourself feel uncomfortable, so don't let it get to you. Look the other way if you see trouble brewing.

**SAGITTARIUS (Nov. 23-Dec. 21)** You may hear some things another has said about you which you won't take too kindly. Consider the source before over-reacting.

**CAPRICORN (Dec. 22-Jan. 19)** A stronger personality may try to override your ideas or dominate the conversation today. Don't let this person get away with this, but don't start an argument.

**AQUARIUS (Jan. 20-Feb. 19)** Your thinking cap isn't on too straight when dealing with material matters today. Take extra precautions or avoid this area altogether if possible.

**PISCES (Feb. 20-March 20)** Insisting too strongly that you have your way today won't rest well with others. Back off a little if you see eyebrows rise.

**ARIES (March 21-April 19)** Neglected projects from the past may scream for attention today. You'll have to clear them out of the way before you can begin anything else.

**TAURUS (April 20-May 20)** You might be better off to avoid group activity today because everyone appears to be at each other's throats. You could get caught in the middle.

**GEMINI (May 21-June 20)** Your goals could be thwarted today because others' people's interests may come first. Postponement won't hurt but being demanding would.

**CANCER (June 21-July 22)** This may be one of those days when it seems like everything you say is wrong. Be extra careful when dealing with persons important to your interests.

**LEO (July 23-Aug. 22)** Be wary of making any types of propositions where money is involved today and tomorrow. This is the area where potential trouble lurks.

Two persons with whom you become associated this year could each provide a singular and valuable relationship. They'll be individuals whose moral values equal your own.

**VIRGO (Aug. 23-Sept. 22)** Savings are possible today by doing handy work around your place which you've been thinking about having farmed out. Get your tools — and get going. Romance, travel, luck, resources, possible pitfalls and career for the coming months are all discussed in your Astro-Graph which begins with your birthday. Mail \$1 for each to Astro-Graph, Box 489, Radio City Station, N.Y. 10019. Be sure to specify your birth date.

**LIBRA (Sept. 23-Oct. 23)** Situations which are too difficult for others to manage will prove to be easy for you today. Take over the helm when you see coworkers floundering.

**SCORPIO (Oct. 24-Nov. 22)** Hunches should be heeded today where there is something of material value at stake. Your intuition will help you on the proper course.

**SAGITTARIUS (Nov. 23-Dec. 21)** Give full play to your curiosity today, especially if you are involved in something with friends, but don't comprehend all the ramifications. Ask direct questions.

**CAPRICORN (Dec. 22-Jan. 19)** Profit or gain could come from two different areas today. One is related to your career, the second is a confidential arrangement with another.

**AQUARIUS (Jan. 20-Feb. 19)** You are able to lead and impress others today without being dictatorial or overly forceful. They'll follow because of the good example you'll set.

**PISCES (Feb. 20-March 20)** A joint venture in which you are presently involved has an excellent chance of success, provided you and your cohort don't tip your hand prematurely.

**ARIES (March 21-April 19)** Your ideas are excellent today, so if there is something that needs negotiation or firming-up, now is the time to get in touch with those involved.

**TAURUS (April 20-May 20)** Being faced with a job that needs redoing may even turn out to be fun today, when a friend pitches in to help. The task is quickly handled.

**GEMINI (May 21-June 20)** Your abilities come to the fore today when your creativity is challenged. Do nothing to bridle your imagination.

**CANCER (June 21-July 22)** Conditions are unusual today, in that something unexpected could develop which may prove profitable for you. Its workings may be a bit mysterious.

**LEO (July 23-Aug. 22)** You're very adept today at negotiating important matters on a one-to-one basis. You have the edge, but you'll not be selfish.

## Steps Taken To Prevent Failure

In the fall of 1976, Snyder Public School Kindergarten implemented a program called "The Early Prevention of School Failure." The program had been previously developed under a federally funded, Title III, ESEA project in Peotone, Ill.

The program consists of two parts. First, each child in the Snyder Public Schools kindergarten is screened with a series of tests to determine his or her developmental age in the area of language, auditory, visual and motor. Important data as to the child's learning style, strengths and weaknesses and emotional and social needs are noted.

Second, the kindergarten teachers in each school are provided this information with the appropriate teaching strategies and materials to work with each child to meet their individual needs. This is done through the learning center concept. Learning centers in the areas of language, auditory, visual, motor and enrichment are set up in each

classroom. Children are assigned to the centers at some time each day to work in the areas of either their strengths or their weaknesses.

In the fall of 1977, the program was extended to include the first grade. Test results in the spring of 1980 indicated that over half of the kindergarten children had made 11 or more months gain in a period of seven months of school.

During the week of Sept. 15-22, all kindergarten and new first grade students will be screened. This test information will be shared with both the classroom teacher and the parents. Through the teacher, child, and parent working together each child will be more successful in acquiring the necessary skills for a productive life.

The Early Prevention of School Failure program is coordinated by Bobbie Box and Peggy Kennedy, Elementary School Counselors.

## New Record Set In July By CRMWD

Record municipal deliveries, contributed to a record monthly revenue figure for July, according to the Colorado River Municipal Water District revenue statement.

During July the District took in \$861,647, which was \$194,556 more than the same month a year ago. Part of the increase was due to the big volume of water sales in July, and part was due to rate adjustments made earlier in the year. This brought to \$4,623,200 the total through seven months, or \$77,829 ahead of the budget projections through July.

During July the electric energy bill for pumping, etc. was \$317,353 making \$1,307,480 for the year. This is about \$70,000 less than for the budget estimates due to much lighter pumping demands earlier this year.

Total operating expenses for the seven months was \$2,317,032, or \$30,000 less than budgeted.

## FmHA Office Handling Emergency Loans Here

Emergency loans for farmers and ranchers are available through county offices of the Farmers Home Administration (FmHA), David Marion, FmHA county supervisor, has announced.

Marion asked that those who need farm credit as a result of the drought make their needs known at the Farmers Home Administration office at 3423 Avenue T, Snyder.

Applications for assistance in the drought stricken county will be accepted by Farmers Home until May 21, 1981, for production losses.

Funds may be used to buy feed, seed, fertilizer, livestock, or to meet in-

terest and depreciation payments on current real estate and chattel debts. Other loans, beyond actual losses, can be made for annual operating expenses or to make major adjustments in a farming or ranching operation.

"Funds can be used for essential operating and modest living expenses," Marion said.

Loans covering actual losses are made at an interest rate of five percent and are scheduled for repayment as rapidly as feasible consistent with the applicant's reasonable ability to pay. Loans beyond actual losses have various maturities; de-

pending upon the purpose of the loan.

The interest rate for short-term loans for farm operating purposes is 13 1/2 percent. Long-term loans are being made at an interest rate of 12 1/2 percent secured by real estate.

To be eligible for an emergency loan, an applicant must have suffered losses from the drought and be unable to get credit from other sources.

Additional emergency loans based upon the emergency designation can be used to reorganize the farm for greater efficiency and better production.

## Pierel To Be In Workshop At C-City

COLORADO CITY--The Colorado City Brush and Palette Club will have Austin Watercolorist Pierel for a three-day workshop Aug. 28-29-30.

Those interested in parti-

cipating in the workshop may call Mrs. Warren Costin at 728-2037, or Mrs. Orin Feaster at 728-8477 for further information. The class will be limited.

Pierel has had numerous

one-woman shows, not only in Texas, but also in Georgia, Tennessee and Rhode Island. She has studied with Bud Biggs, Bud Shackelford, Ed Whitney, Monis Shubin and Vera Wise, among others.

## Watercolor Show On For Last Time

Paintings in the circuit exhibit of the Texas Watercolor Society will be shown in the Scurry County Museum at Western Texas College for the last time today.

The exhibit will be moving to Ardmore, Okla. for a month-long stay and may be seen in Lubbock, Wichita Falls and Monroe, La., before the end of 1980.

On Friday, the museum will open an exhibit from the Snyder Palette Club. This display will remain for two weeks and will be followed by a Ben Konis one-man show.

The Palette Club and the museum will be cooperating in an Artist of the Month series in 1981.

# Several New Faces On Snyder School Faculty

Snyder Public Schools had more than a dozen and a half faculty and staff positions to fill for the 1980-81 school year, and it appeared that at least two vacancies would still exist when teachers report for their first day on the job Monday.

Jack Gorman, assistant superintendent - administration and personnel, said he was still searching for a deaf education teacher and one elementary physical education teacher at the end of the week. The following new personnel are under contract:

Sherman Alan Birks is the new tennis coach at Snyder High School. Birks has been a math teacher and coach at Nazareth High School for the past four years. He is a graduate of Texas Tech, with a bachelor of science degree with a major in

biology and minors in chemistry and math. Betty Boswell is a new fifth grade teacher at Northeast Elementary School. She has a total of 15 years of experience in Temple, Lubbock, San Angelo, Odessa, Irving

and in Duncan, Okla., and has been a substitute teacher in the Snyder system. She is a graduate of Southwest Texas State University, with a major in education and minors in English and social studies. Betty Jane Carroll, new sixth grade teacher at

Northeast Elementary School, is coming to the Snyder School System from Mesquite, where she has nine years of experience as an elementary school teacher. She has a bachelor of science in education degree from Texas Tech and a master

of education degree from Stephen F. Austin State University. The new secretary at Central Elementary School is Sheila Diane Collier. At present, she is employed in the school business office. A graduate of Snyder High School,

she attended Western Texas College where she earned an associate in arts degree. Dewey R. Farley is moving here from Odessa to become an industrial arts teacher in Snyder High School. He has 13 years of experience in teaching in school systems at Lubbock, Kerrville and Odessa. He is a graduate of Sul Ross State University, where he received both bachelors and masters degrees.

Donna Farley is a new first-grade teacher at West Elementary School. She also is a graduate of Sul Ross State University and has been teaching third grade at Odessa. She also has taught at Lubbock and Kerrville.

Betty Griffin, who has been teaching English at the Hobbs, Tex., High School, is a new history teacher and coach at Snyder Junior High School. She has permanent teacher certification in physical education as well as English. She attended Texas Tech, where she received a bachelors degree, and has taught in Arizona and at Bronte prior to coming to Hobbs in 1978.

Gail Jean Koenig, who formerly taught here in 1972 and has been a substitute teacher here more recently, is a new sixth grade teacher at North Elementary School. She is a graduate of Texas Tech.

Samuel Scott Mason is new band director at Snyder Junior High School. He has been graduate assistant at Stephen F. Austin State University for the past two years and has both bachelors and masters degrees from SFASU.

Sheila Ann Musselman is a new business teacher at Snyder High School. She has been serving as a teacher aide at Northeast Elementary School and taught in Fort Worth before coming to Snyder. She has a bachelor of business administration degree from Angelo State University.

Brenda Raulston is a new sixth grade teacher at Central Elementary School. A graduate of Texas Tech University, this will be her first teaching position. She is moving to Snyder from Fort Worth.

Kathy Keller Rhodes is a new third grade teacher at Central Elementary. She has two years of experience teaching at Canyon. She is a graduate of West Texas State University.

Beverly Kaye Robertson will begin her teaching career this fall as a sixth grade teacher at East Elementary School. She is a 1980 graduate of Angelo State University.

Margie Robertson will be a kindergarten teacher at East Elementary School this fall. A graduate of the University of Texas, she has three years of teaching experience in Houston and Corpus Christi Schools.

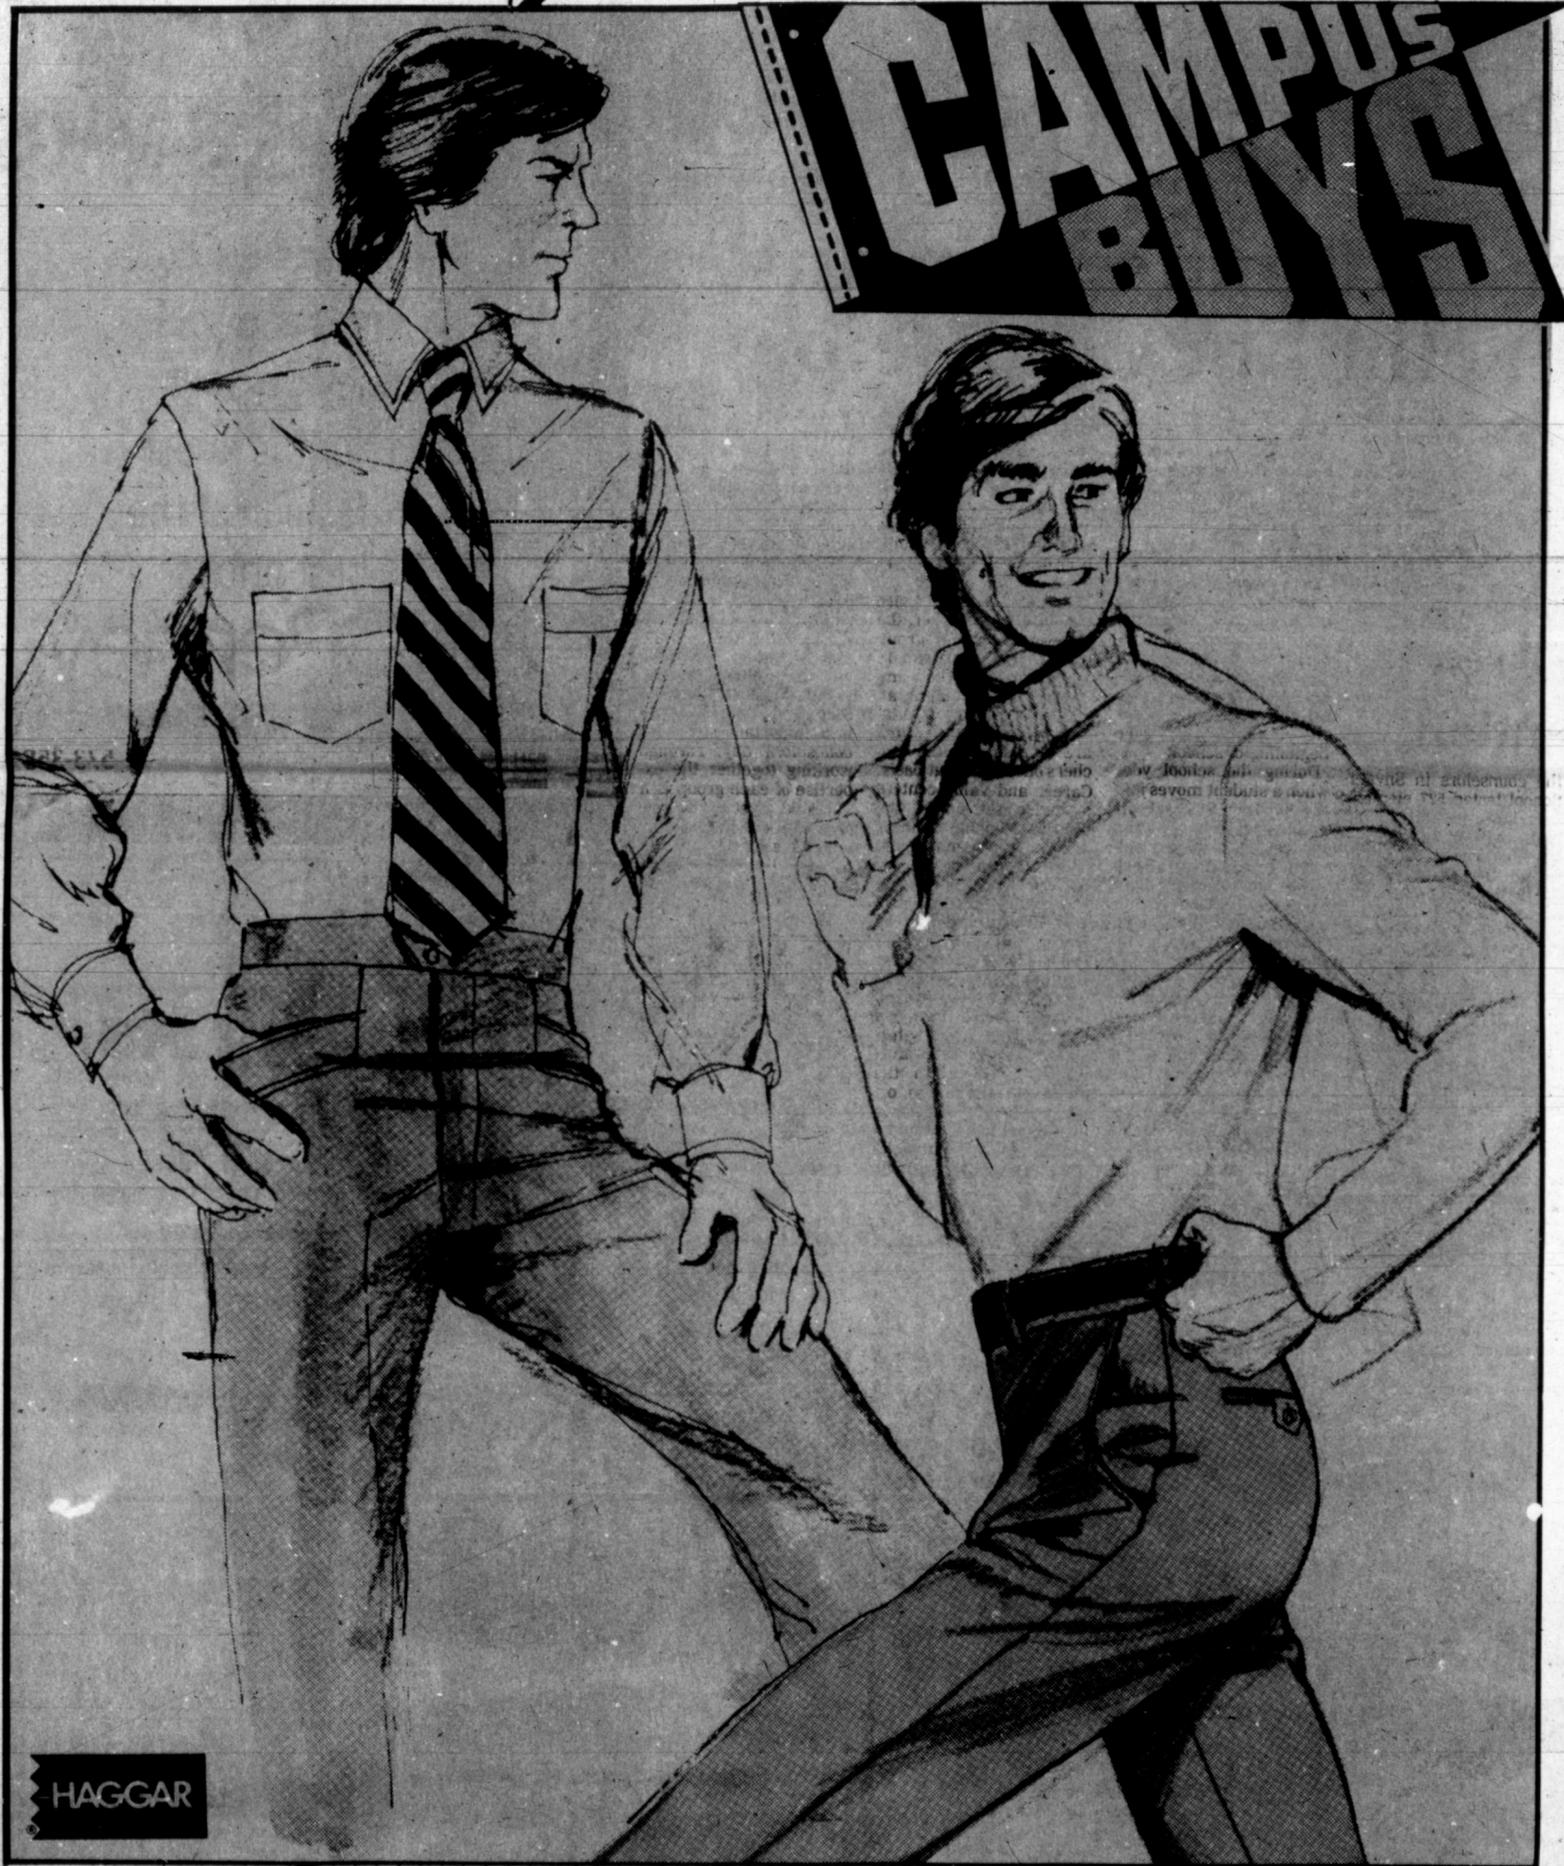

Susan Scott is a new sixth grade teacher at West Elementary School. She has four years of experience as an elementary school teacher in Weatherford Schools and is a graduate of Hardin-Simmons University.

Donna Louise Smith, a former teacher in Fluvanna and Snyder Schools, is the new music teacher at East Elementary School. She is a graduate of North Texas State University, and in addition to Snyder and Fluvanna, has experience in San Benito and Goose Creek (Baytown) Public Schools.

J.D. Smith, former teacher in Snyder and San Benito Public Schools, is the new music teacher at Central Elementary School. He has both bachelors and masters degrees from North Texas State University, and has nine years of experience in public school music.

## 'We Care' Attitude Remains A Big Factor For Counselors

Counseling, coordinating, and consulting are the priorities of the two elementary counselors in Snyder Schools but a fourth "C," caring, is the one that they feel is most important. The goal of the counselors is to help students develop their potential to directive individ-

uals capable of creative and purposeful living.

In order to meet the needs of the students, the counselors provide individual counseling to students referred by the principal, teacher, parents, or often by the students themselves. They work

with small groups of students who have similar problems such as absenteeism, failing grades, or special needs. The families of the students may be provided services in order to meet the needs of the total child.

The counselors provide orientation to the parents of pre-school students each year during the kindergarten Spring Round-Up. They are also available to help make school adjustment easier for the children at the beginning of school.

During the school year when a student moves into the Snyder I.S.D. schools or changes school within the district, a special welcome awaits them. Each student has their picture taken and placed on a special bulletin board with information about the student. A "Welcome Bag" is given to each new family that enrolls in the school. This bag contains information about the school district, community, and contains surprises such as pencil, pen, ruler and other supplies provided by the merchants of Snyder businesses.

Special orientation activities are planned each year for the sixth grade students prior to their going to Jr. High School.

In cooperation with James Stehley, junior high counselor and James Wesson, junior high counselor, the students are taken on a tour of the school, given information about course selection, and individually registered by the counselors.

Through working with the classroom teacher, the counselors provide group work in the classroom in the areas of career and values. They maintain an extensive library of materials in this area which are available to the teachers on a check-out basis. Career and value-centers are also set up in the schools to enable teachers access to these materials.

Another major priority for the counselors is the elementary testing program. They coordinate the Early Prevention of School Failure Testing for kindergarten and 1st grade. Each new student in these grades is tested immediately upon entering school and this information is given to the classroom teacher in order that they will know more about the student's ability. All new students who speak a language other than English are tested with the Language Assessment Scale to determine how their needs can

best be met. The Science Research Achievement Series is coordinated by the counselors and they work with administrators, teachers, parents, and students to interpret the results of this test. Individual and small group testing is done on teacher or parent referral.

Consultation with the Gifted and Talented Coordinator, Reading Coordinator, and other Instructional Support Services Staff, and administrations is an important part of the counselors' day. Through working together the expertise of each group is a valuable asset to the success of the district's educational efforts.

## Language Area Given Attention

During school registration, Tuesday, Aug. 26, all parents of students new to Snyder Schools will be asked to fill out a form concerning their child's primary language. Those children whose parents indicate they speak or understand a language other than English will be given a Texas Education Agency approved language test. The Language Assessment Scale, during September. These test results will be used to determine the best educational arrangement for the student.

The 66th Texas State Legislature enacted Sections 21.451-21.460, Texas Education Code, which prescribed appropriate programming and allotted special funds to assist Foundation Program districts with concentration of limited English-speaking children to provide bilingual education. During the fall of 1979,

the counselors in Snyder School tested 527 elementary students, 151 junior high, and 105 high school students who spoke a language other than English. After this initial screening all new students enrolling who spoke a language other than English were tested.

Programming for these students identified as having limited English has been a priority in the Snyder schools. Special class assignments, individualized instruction, and oral English classes have been used in the past to work with students in addition to their regular basic classroom work. During the 1980-81 school year, increased emphasis will be given to instructional programming for kindergarten and 1st grade students identified as limited English-speaking.

# Basic Skills Program To Take Additional Step

The Five Year Plan for Snyder Schools, which was approved by Snyder trustees and accepted by Texas Education Agency in 1978, centers upon student improvement in basic skill areas and will be taken a

step further during the 1980-81 school year. Last spring, essential learner objectives for reading K-12 were completed, validated, and distributed to the appropriate schools. This fall, teachers will

begin writing objectives for language arts K-12. A learning objective may be defined as statement of what a student is able to do after instruction and practice of a skill. Beginning in October, the

second Wednesday of each month from two-thirty to three forty-five has been designated as staff development-curriculum development release time for teachers throughout the system. At this time, the

respective committees make up of classroom teachers will meet to write language arts objectives for grades two through six. These objectives will address the areas of grammar, spelling, hand writing,

and composition. The sessions, which will extend through April, are under the direction of the central office administration. Margaret Presswood, Reading Consultant for Snyder I.S.D., will

co-ordinate the meetings with the assistance of Bobbie Box, Student Development Co-ordinator. Teachers, in the various departments of grades seven through 12 will also meet during this time.

a supplement to the basal reading text being used.

Peer tutoring, a program in which students help each other, will again be used in each elementary school. Peer tutors are selected from grades four through six to assist primary teachers in reinforcing younger student's reading instruction. At a designated time during the week, the peer tutors listen to the students read or participate in learning games with them. The time and frequency of tutoring is agreed upon between the tutor and the student's teacher. Members of RSVP are also a part of the tutoring program in some of the elementary schools.

RSVP members will be involved in a second program to supplement reading instruction. Under the direction of Marsha Krennek, the members will take stories made up of two to five pages from readers which are out of adoption and no longer used in the classroom. Each story will be bound as a minibook, and these books will be distributed to the teachers to be used as they see fit.

Reading is basic to success in all of the school academics. However, the reading teachers in Snyder Schools are committed to developing each student's potential so that he may achieve success as an individual in school as well as in all other facets of our society.

For a little extra treat, freeze the syrup from canned or frozen fruits to a mush (20 minutes to freeze) and spoon over the chilled fruit just before serving, suggests Dr. Rose Tindall Postel, a foods and nutrition specialist.

Dr. Postel is on the home economics staff of the Texas Agricultural Extension Service, The Texas A&M University System.

LISTENING--Kindergarten pupils at Northeast Elementary School are shown in the listening center, a facility that enhances the basic skills program in Snyder Elementary Schools.

## 14 Ounce Girl Fighting For Survival

BALTIMORE (AP)—A baby girl born two months prematurely at a weight of less than 14 ounces was in critical condition Friday and fighting for her life, apparently one of the smallest premature infants ever to survive in the United States, hospital officials say.

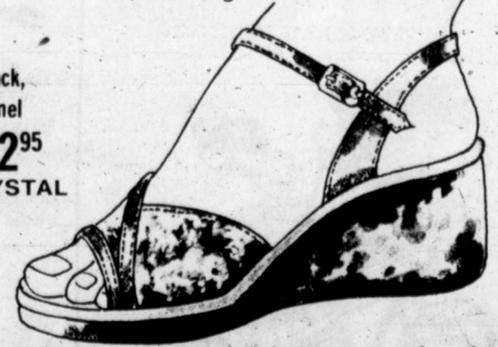

Baby Girl Somerville, whose first name was not immediately known, is "only a handful" three days after birth, say nurses at City Hospitals here.

The infant measures just over 11 1/2 inches and weighs 15 3/4 ounces, "but that's with 1 3/4 ounces of equipment on her. Her actual weight is under 14 ounces," said a nursing supervisor who asked not to be identified.

The Prescriptive Reading Inventory (PRI) being implemented at East Elementary, Northeast Elementary, and Stanfield Elementary is an outgrowth of the Right-to-Read effort. PRI is a supplemental reading program that is designed to improve students' reading skills. The program is constructed upon a set of behaviorally stated objectives most widely found in the curriculum in grade 1, 5 through 6. A student inventory is administered to each child prior to instruction. The reading level of each child is determined, as well as the skill area in which he needs additional help. Upon receiving instruction the child works toward mastering the reading skills in a particular area, and then he is moved up to the next level to master the skills in that area. PRI is taught at designated times during each week as

**New Superintendent...**

# Ira Starts Classes Tuesday

The school bell rang Wednesday for Ira teachers and the students will be back to its call Tuesday.

Jay Martin, superintendent, leads the list of new faces. He came to Ira from Alvarado where he served as principal. Martin was reared in Snyder.

Also new at Ira are Mike and Sandy Holmes and Dana Freeman.

The Holmeses came to Ira from Abilene where Mike pastored a church. Sandy taught in the Como-Pickton school system. Mike will be coaching the girls and Sandy will teach sixth grade.

Ms. Freeman, a Snyderite, will be in charge of special education.

Other teachers returning include: Martha Ezra, first grade; Sandra Gardner, second grade; Kathy Howell, third grade; Ralston Bruce, fourth grade; and Betty Burrow fifth grade.

Also, Margaret Trulock, business; Sue Parham, English; Nell Marquart, home economics; Troy Lilly, science; Darlene Abbott, math; Randy Gillum, agriculture and Tom Pierson, boys coach.

Teachers aides are Louise Layne and Beverly Clements.

L.D. Monroe continues his duties as principal.

Working in the cafeteria will be Geraldine Stokes, Bessie Corbell, and LaNell Bearden.

Custodians are Dorma Elam and Edward Reyna.

The first holiday for Ira comes on Sept. 1, Labor

Day. Thanksgiving will be observed Nov. 27, 28. School will be dismissed

for Christmas and New Year's from Dec. 22 through Jan. 1.

Spring break will be March 20 through 23. The last day of school will

be May 21. Eight in-service work days will be conducted for teachers throughout the year.

During the summer, work on the new football bleachers was completed. Ira will hold homecoming festivities Oct. 3, hosting McCaulley.

## Intra-City Bus Schedules Announced

Intra-city bus schedules for the 1980-81 school year have been announced by Snyder Public Schools.

Two of the routes have some changes, while seven others will follow the same routes as last year. Bus No. 26 will stop at 26th St. and Ave. C this year, instead of 25th St. and Ave. C.

Bus No. 19, the only other bus with a change, will pick up elementary children living on Ave. T between 25th St., north to the intersection of Old Lubbock Highway, for rides to North Elementary School. All junior high and high school students will catch bus No. 19 on its way from North to junior high and high school, which will eliminate an overload to North.

All other routes are the same as last year. They include:

Bus No. 28--Leaves Northeast Elementary School, with stop at 17th St. and Ave. T.

Bus No. 18--Leaves Northeast Elementary, with stops at 24th St. and Ave. I and at 24th and Ave. O.

Bus No. 26--Leaves Northeast Elementary, with stops at 17th St. and Ave. T.

Bus No. 16--Leaves Northeast Elementary, with stops at Ave. E and 32nd, and at Ave. I and 32nd, and at Ave. M and 32nd.

Bus No. 6--Leaves East Elementary, with stops at 28th and Ave. D and at 28th and Ave. F.

Bus No. 2--Leaves East Elementary, with stops at 35th St. and Ave. B, and at 32nd St. and Ave. B.

Bus No. 25--Leaves East Elementary, with a stop at 32nd St. and Ave. D.

### 30-50 Million

NEW YORK (AP)—The New York Stock Exchange routinely trades from 30 million to 50 million shares of securities every day.

recommendations if needed. During these check-ups last year, of 1,782 students checked, 516 were referred to their family dentists. Seventy of the children checked needed emergency dental care.

**READY TO GO**—The new Ira Superintendent, Jay Martin, and secretary, Caroline Carter, are finishing off final details before the students arrive Tuesday. Martin who has been serving as principal in the Alvarado School District, is a native of Snyder and graduated from Snyder High School in 1957. (SDN Staff Photo)

## Special Attention To Dental Health

Dental health is given special attention in kindergarten, first, and third grades in Snyder Public Schools. Under the leadership of the school principal and the district's Department of Student Development, kindergarten and first grade teachers have implemented a program called "Tattletooth." The program, developed under a federal grant from H.E.W., is implemented through joint planning with the Texas Department of Health Resources, Austin, Region Four Health Services, Abilene, and the Student Development Department of Snyder ISD. The program is an excellent teaching package with 10 lessons plans for each grade level. The plans present the necessary information to help the students better understand good dental health.

To insure attitudinal changes needed to insure the students want to care for their own teeth, each student is given a toothbrush and learns how to

properly brush and care for his or her teeth.

Third graders receive dental hygiene instructions through a curriculum developed by Proctor and Gamble Co. The Crest Third Grade Dental Health Program provides each student with a dental instruction kit containing a toothbrush, toothpaste, and disclosing tablets. The program emphasizes proper check-ups, diets, and toothcleaning. Teachers are provided curriculum materials, posters, parent information, and visual aids.

In addition to these special programs, each February, special emphasis is placed on good dental health when local dentists, contribute their time in conducting a district-wide survey of each elementary student's teeth. Reports of the results are sent home by the school nurses with

**SIGNING UP FOR KINDERGARTEN**—Misty Dawn Murphy gets a helping hand from Ira principal, L.D. Monroe, as she registers for kindergarten. Misty is the daughter of Mr. and Mrs. Raymond Murphy. Classes start at Ira Tuesday. (SDN Staff Photo)

## Services Are Provided In Special Education

Comprehensive special education programming is available in the Snyder School System for students, ages 3-21.

Special education services for children are based on the concept that all children can learn and that each child is an individual with individual differences in his/her approach to learning. Special education program here provides students who have specific limitations with appropriate educational opportunities. These services are available from the first time it is felt that a student may need special education to the time that he/she no longer needs the services or completes the public school program.

Referrals may come from school personnel, parents, and/or community agencies. Following

referral, an individual comprehensive appraisal is conducted to determine learning strengths and weaknesses. This appraisal may be conducted by qualified school personnel or by an outside agency. Decisions as to the need for special education intervention are based on considerations by a multidisciplinary team consisting of school personnel, parents, and others who are concerned with the student's educational welfare. All participate in the development of an individualized educational plan at the time a student is found eligible to enter the program. No student receives special education services without written parental consent and written permission.

Programs include speech and language therapy, early childhood education,

resource room programs for academic and/or social adjustment, specific pre-vocational and vocational adjustment classes, and recreation therapy. The teachers work with objectives from the educational plan which are geared to the on-going needs and progress of each student. Continual review of educational progress insures the suitability of the goals, objectives and instructional arrangements for each student.

Currently, approximately 325 students annually receive special education instructional services. Emphasis is always given to the idea that special education services are a part of, not separate from, the total education program in the Snyder school.

## New Program Is Begun In Handwriting

A new handwriting program was begun last year in the primary grades in the six Snyder Elementary Schools. The program is entitled, D'Nealian Handwriting which is published by the Scott, Foresman Co.

The program involves a unique, lower-case manuscript alphabet that is very easy to write and that leads into cursive writing with virtually no trouble at all. Most letter forms are the basic forms of corresponding cursive letters.

Also, most letters are formed with one continuous stroke, so that rhythm, an essential ingredient in cursive writing, is built in from the beginning. The manuscript letters are slanted, as cursive letters are.

As a result, when the time comes to learn cursive, the basic patterns are already there; the manuscript that has been learned is not unlearned but, rather, built upon. This saves a lot of teaching and learning time and effort.

D'Nealian is a complete handwriting program that gets the students writing, and liking to write.

# Borden School Begins '80-81 Year Sept. 2

GAIL—Borden County High School students will meet with familiar faces when the fall semester begins Sept. 2. Only one new instructor, girl's coach, Bill May, has been added to the staff.

May, a graduate of Angelo State University who coached the past three years at Westbrook, will guide the girl's track and basketball teams, teach physical education and instruct sixth grade and eighth grade science.

Other instructors include Bob Bagley, vocational agriculture and shop; Billie Briggs, seventh grade math, fundamentals of Math II, introductory Algebra I, trig-analysis and physical education; Dave Briggs, sixth and eighth grade math, Algebra I and II and geometry; Brenda Conner, homemaking; Joe Copeland, biology, physical science, chemistry and physical education; Kay Hopper, English and writing skills; and Netta Jarrett, typing, clerical practice, shorthand and ac-

counting. Lynn Maxwell will coach boy's basketball, physical education and teach Algebra and math. Sue Jane Mayes will teach Spanish, government, world history and social studies.

Other instructors include Jim Parker, band, and music; Randy Roemisch, football, physical education and English; Fred Ridenour, science, Texas History, American History and physical education; Peggy Westbrook, Language Arts, Library; Dennis Teeters, English, American History and physical education; Dolores Wolf, eighth grade language arts and fifth grade; Shirley McMeans, third grade; Dorothy Gray, fourth grade; Ann McLeroy, second grade; Doris Steadman, first grade; Beverly Copeland, kindergarten; and Sallie Wilson, music.

Teacher's aides are Melba Rinehart, Sue Smith and Verna Ogden. Frances Burkett is the school nurse. Mickey McMeans, principal, will teach

Health I. Vice principal Ben Jarrett will teach photography.

Borden County students will have 18 holidays during the school year, including Labor Day, Sept. 1, holidays are Labor Day,

Thanksgiving, Nov. 27-28; Christmas, Dec. 22-Jan. 2; and Spring Vacation, Mar. 16-20.

The school calendar calls for 175 days of attendance and eight days of teacher in-service and workdays.

## Program Provided In Deaf Education

The Snyder Regional Day School Program for the Deaf began providing services to Snyder children during the 1978-1979 school year. The Deaf Education Classroom is located on the campus of West Elementary and serves all students in the community from ages three to 21.

Currently, four students receive instruction five days a week. The students participate in the Curriculum for the Deaf, adopted by the Texas Education Agency, and are also included in many of

the regular mainstream educational programs for some part of each school year.

Consultant assistance for the local program is provided to the Snyder deaf education teacher by Mrs. Susan Hogue, Education Service Center, Region 14, Abilene.

Families who have some concern about the hearing ability of their child are urged to seek early evaluation. Request for assistance should be made by contacting the family's doctor, the child's teacher, nurse, or the Snyder ISD Department of Special Education.

In 1974, Golda Meir formally announced her resignation as premier before the Israeli parliament.

# Career Education Stressed

The 1980 school year has been designated by the Texas Education Agency as the year when career education must be an integral part of the education program. In order to meet this objective, Snyder Schools implemented a career education program during the 1977-78 school year.

During in-service in the fall of 1977, each classroom teacher received information about the plan approved by the Snyder Board of Trustees for the district. This plan called for each teacher to emphasize career education at least once a month and to turn in a written lesson plan to the principal stating goals, activities, and materials used to teach the lesson. An evaluation of the lesson was a part of the plan.

Each lesson must follow one of the nine Basic Learner Outcome Objectives for Career Education prepared by the Texas Education Agency. These outcomes stress Career Planning and Decision

Making, Career Information; Job Acquisition and Retention, Attitudes and Appreciation for a Career Success; Skills in Human Relationships for Careers; Self-Investigation for Career Success; Personal-Work-Societal Responsibilities; Economic Factors Influencing Career Opportunity; and Education-Career Opportunity Relationships.

During the 1980-81 school year, the classroom teachers, under the direction of the district counselors, will be compiling the lesson plans used the past three years into a curriculum guide. Through selecting the most appropriate lessons for each grade, a model plan will be available to help the classroom teachers infuse career education into their classroom instruction.

The United States annexed Texas in 1845.

**HERMLEIGH TEACHERS**-Faculty at Hermleigh for the 1980-81 school year include: (front row, left) Joyce Fuqua, LaRonna Decker, Edna Merrell, Phyllis Smith, Bertha Holdridge, Jerry Vernon, Brenda Row. On the second row are: Jane Ramcy, Cheryl

Hines, Johnie Riley, Clarence Spieker, Randall Peel, Brice Fuqua, Richard Smith, Billy Haynes, Mike Brown, Marilyn Threlkeld. On the third row are: Jerry Church, Joe Ramey and Tommy Riley. (SDN Staff Photo)

Began Thursday...

## School At Hermleigh Already In Session

School is already underway at Hermleigh. The teachers began the 1980-81 school year Monday and the students followed Thursday.

Only two new teachers joined the faculty at Hermleigh and both were recruited from local talent.

LaRonna Decker, a Hermleigh graduate, is teaching high school English, some physical education classes and advising the annual staff.

Dr. Joe Ramey, who makes his home in Hermleigh, is teaching fifth and sixth graders and also language art classes. Dr. Ramey has had a distinguished career in education and is a former official with the Bureau of Indian Affairs.

Jerry Church returned for his second year as superintendent. Also back for another year is Debbie Sandefur, school secretary.

Principals at Hermleigh are Tommy Riley, who also teaches high school government and health.

Billy Haynes, elementary principal, will be teaching elementary classes.

Other teachers returning to Hermleigh include: Michael Brown, high school science; Brice Fuqua, fourth grade; Joyce Fuqua, first grade; Nell Henry, migrant program; Cheryl Hines, kindergarten and title 1; Edna Merrell, special educa-

tion; Randall Peel, high school Math, coach; Jane Ramey, third grade; Brenda Row, home economics; Phyllis Smith, business and drama; Richard Smith, agriculture; Clarence Spieker, history and English and coach.

Teachers' aides are: Bertha Holdridge, Phyllis Johnston, migrant; Johnie Riley, and Jerry Vernon, special education.

Hermleigh will get its first holiday Sept. 1, Labor Day. Thanksgiving will be observed Nov. 27 and 28 and school will be out for Christmas and New Year's Dec. 22 through

Jan. 1. Spring break will be April 16 through April 20.

In addition to these, there will be eight in-service days for teachers scattered throughout the year. The last day of school is May 18.

During the summer, the inside of the gymnasium got a new coat of red and white paint and the roof underwent minor repairs.

Jack Kincaid reported other painting projects were also undertaken during the summer and said grass has been set out in front of the Elementary Education building.

**SCHOOL UNDERWAY**-Superintendent Jerry Church, who is in his second year at the helm, is shown with school secretary, Debbie Sandefur. The 1980-81 school year at Hermleigh got underway Monday for Teachers and students began Thursday. (SDN Staff Photo)

**BRIDGE**

Oswald Jacoby and Alan Sontag

**Jacoby transfer bids**

By Oswald Jacoby and Alan Sontag

The basic Jacoby transfer bid, which we will call JTB, uses two-diamond and two-heart responses to an opening notrump as artificial forcing bids that show the next higher suit.

Thus, two diamonds shows at least five hearts and asks opener to bid two hearts; two hearts shows five spades and asks opener to bid two spades.

After the opener responds to the transfer, the next bid shows more about the hand.

Take a hand like: S-Q J x x x H-x x D-x x x C-x x. Your partner opens one notrump. You want the hand

to play in two spades. If you aren't playing JTB you bid two spades. If everything goes well, you play it there and the opening lead is right through your partner's strength and you will not lose a trick.

Playing JTB your partner plays two spades and gets the advantage of the lead up to him.

Make your hand a trifle better by changing hearts to A x. You raise two spades to three after partner replies to the transfer. You have invited game and the play will be in the right hand. Now make the hearts A K. You just raise his two spades to four.

Suppose you hold: S-Q J x x x H-A x D-Q x x C-x x x opposite partner's notrump. Bid the two-hearts transfer and then bid two notrump over opener's two spades. This lets him pass, bid three notrump, three spades or four spades depending on his hand.

Make your hand a trifle better, such as S-Q J x x x H-A x D-Q J x C-10 x x, and your rebid is three notrump to let him choose between three notrump or four spades as the final contract.

We will continue with more about JTB next week, including actual hands from Monday through Friday.

**Coats, James Say Vows In Formal Ceremony**

Jennifer Diane Coats and Bobby Gerald James II, exchanged afternoon wedding vows Aug. 8 at the Western Texas College Christian Student Center with Rev. Danny Williams officiating the double ring ceremony.

The bride is the daughter of Mr. and Mrs. James Coats and the bridegroom is the son of Mr. and Mrs. Bobby James, all of Snyder.

Vows were repeated before an altar featuring the couple's memory candle and a 15-branch tapered candelabrum banked with greenery. Votive cups, adorning the area, were lighted by the father of the bride.

Steve Thornton of Odessa, brother-in-law of the bride, sang an original composition and favored selections preceding the ceremony.

Given in marriage by her father, the bride was attired in a formal length, princess A-line gown of ivory white eyelet lace accented with narrow satin ribbon and keyhole necklines, long puff sleeves and ruffled flounced hemline. She wore a headpiece of earthen flowers, matching her bridal bouquet.

Mrs. Sam Kelton of Odessa attended her sister as matron of honor. She wore a floor length, Nile green gown and carried an earth-tone nosegay trimmed with ribbons.

The groom wore a toast Regency tuxedo, white ruffled shirt and an apricot boutonniere. Kerry Patterson of Dallas served as best man. Groomsmen were Dennis Boone and Jimmy Pat James, brother of the groom.

The bride's parents hosted the reception in the center following the ceremony. The bride's table was covered with a pale apricot cloth bordered in

MR. AND MRS. BOBBY G. JAMES

lace and featured the double tiered wedding cake. Melissa Holt presided.

The groom's table was laid with a beige lace cloth centered with a double tiered chocolate fudge cake.

Following a wedding trip to San Antonio, the couple are at home in Snyder.

The bride, a 1980 graduate of Snyder High

School, is employed by Cogdell Memorial Hospital. The groom is a 1978 graduate of Snyder High School and attended WTC and Texas Tech University. He is employed by the Northern Electric Company.

The rehearsal dinner was hosted by the parents of the groom at the Shack restaurant.

Numbers of complaints about mail-order merchandise are second only to complaints about automobiles, says Nancy Granovsky, a family resource management specialist.

Mail-order merchandise must be delivered within 30 days after the seller receives the order, according to the Federal Trade Commission's present mail-order merchandise rule, she explains.

For delays longer than 30 days, the mail-order company must refund your money at the end of the first 30 days, if you request them to do so, the specialist adds.

**Mebane Family At PK Lake**

The descendants of P.A. (Jim) Mebane and Nell Wilson Mebane met for their family reunion Aug. 1-3 at Possum Kingdom Lake. The family enjoyed good food, good times, and good fellowship. Activities included swimming, boating, skiing, fishing and horse shoe throwing.

Those attending from Snyder were Mr. and Mrs. Nuell Mebane, Mr. and Mrs. Thayne Mebane, Mr. and Mrs. Tommy Mebane, and Mr. and Mrs. Bo Robinson and their children Brad and Angie.

Others were: Mr. and Mrs. James Mebane, Mr. and Mrs. Howard (Cuffy) Beauchamp and their daughters, Callie and Jaymie, all of Dumas; Mrs. George Kennedy and her son, Zac of Atlanta, Ga.; Mr. and Mrs. Jimmy Mebane and their children, Jeremy, Abby, and Emily, the newest member of the family of Borger; Mr. and Mrs. Ronnie Mebane and their children, Cody and Rhonda of Midland; Mr. and Mrs. Danny Cravens and their children, Sheri and Andy of Kamay; Mr. and Mrs. Tim Mebane and their son, Billy Weldon of Fluvanna; and Mr. and Mrs. Philip Porter and their sons, Chris and Scott of Georgetown.

MR. AND MRS. H.W. BOSS ...celebrates 50th

**Golden Anniversary Noted By Bosses**

Aug. 17 was the 50th wedding anniversary of Mr. and Mrs. H.W. Boss, 4700 Ave. R. The Boss family celebrated the occasion by vacationing together in the mountains of Colorado and points of interest in New Mexico and Texas.

Mr. and Mrs. Boss were presented gifts at a dinner and theatre party in Durango, Colo. Their children are also honoring them by presenting ornate main entrance doors to a New York Christian community center. A plaque recognizing the Bosses and quoting Exodus 20:12, will be displayed at the entrance way to the center.

Mr. and Mrs. Boss were married on Aug. 17, 1930, at the Marshall Fuller

Ranch. Mrs. Boss, the former Georgia Mark Elkins, is the daughter of the late Roy and Chiva-Elkins. Roy Elkins was foreman of the Fuller ranch for many years.

The Boss family made Snyder their home in about 1941, when Mr. Boss and his late brother, Hudson Boss, formed Boss Electric Company in Snyder. The company headquartered in Snyder until merging in 1971, forming Boss-Linam Electric in Big Spring.

Mr. and Mrs. Boss have three children, Rip Boss of Italy, Tex. Bryan Boss of Middletown, N.Y., and Chiva Pitner of Snyder. They have six grandchildren and one great-grandchild.

**Double Ring Rites In Home Ceremony**

Sandra Lynn Arensman and Stanley Gerard Pavlik were united in marriage in the home of the groom's mother Aug. 1 at 7 p.m. Dr. Gilbert E. Fleer officiated the double ring ceremony.

Parents of the bride are Mr. and Mrs. Marvin Arensman of Kinsley, Kan. The bridegroom's parents are Ms. Shirley Pavlik and Erwin Pavlik of Snyder.

The bride was given in marriage by her father. She was attired in a lace and silk covered gown which featured small tucks on the bodice front, accented with small pearl buttons. Her long, lace sleeves were closed at the wrists by pearl buttons on wide cuffs.

The bride's hair, done by Mrs. Max Hildebrand, was accented with baby yellow roses and daisies. She carried a bouquet of yellow daisies and roses with light blue carnations and baby's breath.

For something old, the bride wore a cameo which had been her great-great-grandmother's; something new was her dress; something borrowed was a handkerchief belonging to her grandmother, Mrs. Elsie Arensman of Kinsley; and the traditional blue was her garter.

Attending the bride as maid of honor was Jerri Stegman, her sister. She wore a street length dress of yellow knit, accented with white piping and featuring a-pleated skirt. Wearing a similar dress was Sheryl Craig, bridesmaid. The attendants carried yellow and blue carnations adorned with

MR. AND MRS. STANLEY G. PAVLIK  
(Photo By Candid Color)

baby's breath. Cadet First Class Greg Pavlik of the Air Force Academy, brother of the groom, served as best man. Rean Stegman, brother-in-law of the bride, was groomsman.

Miss Kelly Smith registered guests. Misses Shelby Hildebrand and Stacy Titus passed out wheat bags.

Scott Marlar and Belinda Scott provided wedding selections. Marlar accompanied, on the guitar, while Miss Scott sang "For All We Know," between the wedding vows and the ring vows, and Marlar sang "Stand By Me." At the close of the

ceremony, Miss Scott sang "If."

A reception honoring the couple followed the ceremony. Mrs. Carol Hildebrand and Mrs. Judy Smith served at the bride's table. The cake was given as a wedding gift by Mr. and Mrs. Buddy Powell.

Following the couple's short wedding trip to Dallas, they reside in Snyder where both are employed by The Shack.

The bride is a 1976 graduate of Kinsley High School and has a degree in Cosmetology. She also attended Dodge City Junior College and Western Texas College. The bridegroom is a 1978 Snyder High School graduate and attended WTC two years.

Out of town guests were from Kinsley and Offerle, Kan., Albuquerque, N.M., Colorado Springs, Colo., Ada, Okla., Port Arthur, Lubbock, Hermleigh and Schulenburg.

**Mexican Meatball Meal**

By Aileen Claire  
NEA Food Editor

A one-dish meatball meal takes on a Mexican twist with the use of seasonings, beans and corn. Top with shredded lettuce and tomatoes. As an added flavor enhancer, bake homemade corn bread and serve all with beer or wine.

- MEXICALI MEATBALLS**
- 1/4 pound ground beef
  - 1/4 ground cumin seed
  - 1/4 teaspoon salt
  - Generous dash pepper
  - cup chopped onion
  - 1 can (16 ounces) pork and beans in tomato sauce

The Snyder (Tex.) Daily News, Sun., Aug. 24, 1980 9B

- 1 can (12 ounces) whole kernel golden corn with sweet peppers

**Shredded lettuce Chopped tomato**

Season beef with 1/8 teaspoon cumin, salt and pepper. Shape into 12 meatballs. In skillet, brown meatballs and cook onion until tender. Pour off fat. Add beans, corn and remaining cumin. Heat, stir occasionally. Garnish with lettuce and tomato. This kitchen-tested recipe makes about 3 1/2 cups; 3 servings.

- 1 CHILI TOMATO SOUP can (10 3/4 ounces) condensed tomato soup

- 1 soup can water
- 1/4 teaspoon chili powder

In saucepan, combine ingredients; simmer a few minutes to blend flavors. Stir occasion-

ally. This kitchen-tested recipe makes about 2 1/2 cups, 3 servings.

**Lemon dressing**

Try this zesty low-calorie lemon dressing on your next salad. In an electric blender, mix 8 ounces fresh lemon juice, 2 egg yolks, 1 to 3 cloves garlic, chopped fine, 1 and one-half teaspoons Dijon or other French-type mustard, and 1 tablespoon chopped fresh parsley. Blend for 40 seconds. Store in the refrigerator in a tightly covered jar.

**Bust toter**

To correct the loss of muscle tone that can cause breasts to sag, try this exercise daily. Take two books of equal size and weight and hold one in each hand. Rest hands on shoulders, then stretch arms straight out. Return hands to shoulders. Stretch arms out to sides and again return to shoulders. Reach arms overhead, then down. Do this with a steady rhythm.

To remove white rings left by glasses on wooden surfaces, mix cigarette ashes with olive oil and rub gently into the stains.

**TIME MANGEMENT A PLAN AND FOUR IDEAS**  
A plan and four ideas make "time management" at home a reality. A plan means setting priorities - deciding which tasks are important.

Any plan will work with the help of four ideas: do major work "piecemeal," leave some for the last minute, delegate some to other people - and use willpower. Willpower is for sticking to the plan - without

feelings of guilt about any free time gained. **PIECEMEAL WORK** Do a major project piecemeal by attacking it in portions. It makes the task seem lighter, and it avoids waiting for large time blocks for the entire job.

Also, the "piecemeal approach" helps get "dreaded" work started - use the first little time frame just for beginning a task.

Here's how the "piecemeal" idea works - on range and oven cleaning, for example:

**FIRST DAY** - Just to get started, clean the range surface. Spend as little time as possible on it.

**SECOND DAY** - Clean the broiler pan or start it soaking.

**THIRD DAY** - Work on the oven interior.

**LAST-MINUTE WORK** Work left for the last minute will take less time than "regularly scheduled" work so plan disliked tasks for "the last minute" - when only a small amount of time exists.

For example, dusting just before company comes will take less time

than dusting on a regularly scheduled "cleaning day."

**'DELEGATED' WORK** Delegate some of the work to other people - and share the workload.

Since homemaking is non-competitive, perfection is not necessary or required.

For example, let children clean their rooms.

If their work is less than "Perfect," learn to accept their contributions.

**USE WILLPOWER** One real trick to time management is learning not to feel guilty for gaining control of time.

Time management requires willpower - to stick with priorities once they are set.

MR. AND MRS. RAY DEAN HILL  
(Photo By Craft)

## Nuptial Vows Recited By Miss Shafer, Hill

Tami Jo Shafer and Ray Dean Hill were united in marriage in the Vincent Baptist Church Aug. 1 at 7 p.m. by officiating minister, Rev. Ben Neel, pastor of the church.

Parents of the couple are Mr. and Mrs. LaRoy Shafer of Vincent and Mr. and Mrs. Eugene Glasscock of Snyder.

The bride, escorted down the aisle by her father who presented her in marriage was attired in a gown designed by Mori Lee. The organza and Chantilly lace dress featured a Queen Anne neckline and a lace bodice punctuated by seed pearls. Full bishop sleeves added a soft touch with fitted lace cuffs. Layers of ruffles, edged in lace, made her skirt full and feminine. The ruffles flowed gracefully throughout the chapel length train. She chose a Chantilly lace English riding hat with a rouche illusion back and face blusher.

She carried a bouquet of blue carnations, baby's breath and white silk flowers with streamers of lace and blue ribbon.

In keeping with tradition, the bride wore her grandmother's ring for something old; something new was her dress and hat; something borrowed was a string of pearls belonging to her mother; and some-

thing blue was her garter. The groom wore a white Regency tuxedo with tails, white pleated shirt and bow tie.

Matron of honor, Mrs. Terry Shafer of Vincent, sister-in-law of the bride, was attired in a blue chiffon gown, with a blouson bodice finished with split sleeves. To coordinate with the bridal gown and hat, the female attendants wore blue derbys with a rouche illusion back dotted with seed pearls. The bridesmaids dresses were like the matron of honor. They were Julie Dozier of Andrews and Rhesa Wolf of Vincent, cousin of the bride.

Tim Hill of Levelland, nephew of the groom, was ring bearer. Flower girl was Liss Neel of Vincent. She wore a blue chiffon dress with a bonnet to match.

Doug Hill served his brother as best man and other brothers, Clay Hill of Levelland and Michael Glasscock of Brenham, served as groomsmen. Ushers were Terry Shafer and Tony Shafer of Vincent, both brothers of the bride, and Rick Glasscock of Midland, groom's brother.

Vows were exchanged before an altar featuring two spiraling candelabra holding 14 candles each. An arch with greenery and white flowers and a candelabrum with seven tapers centered the area. The pews were marked with blue candles and greenery.

Included in the musical program for the ceremony were chosen selections, "Love Me Tender," and "Twelfth of Never," sung by LaRoy Shafer, bride's father. He was accom-

panied by Libby Anderson, organist.

The reception was held in the fellowship hall of the church. Serving in the houseparty were Angelina Autry of Stephenville; Patty Pegan and Beth Young, both of Big Spring; Lana Hill, sister of the groom; Phyllis Glasscock, of Brenham, Connie Glasscock of Midland, and Martha Hill of Levelland, all sisters-in-law of the groom.

Lana Hill, sister of the groom, registered guests. The bride and groom are graduates of Coahoma High School and Snyder High School, respectively. The bride attended Howard College.

Following their wedding trip, the couple will reside in Snyder where the groom is employed by Southwestern Bell.

## Police Probe Slayings Of 6 Black Youth

ATLANTA (AP)-Atlanta police don't know if they're looking for one "very sick person" or several killers. But six black children have been shot, strangled or stabbed to death in little more than a year, and the size of the task force investigating the slayings has been doubled.

One link, he said is that "all the cases involved young black people under the age of 15."

### Two Films Planned For RSVP

RSVP members and their guests are invited to an afternoon of film entertainment Wednesday in the Snyder Junior High School auditorium.

"Two films will be shown," Marsha Krenek, RSVP director, said.

"They are about Senior Citizens, and we feel they will provide entertainment and maybe stir some nostalgia for our own senior citizens. We'll have popcorn and Cokes to add to the enjoyment of the afternoon, and we hope to have a full house for the program."

The films will start at 1:30 p.m. and continue until about 3 p.m. There will be no admission charge.

RSVP is an organization for men and women, 60 years of age and older who enjoy giving volunteer time in the community. Persons who would like to join RSVP or who would like more information about the films on Wednesday are invited to call the RSVP office at 573-0144.

## SCHOOL SAFETY TIME

### YOU CAN BE ARRESTED IF THE SCHOOL BUS STOPS AND YOU DON'T!

But a heavy fine and/or jail sentence isn't the worse that can happen if you pass a stopped school bus. Most children killed in pupil transportation are not injured or killed on the bus. Most are struck by motorists who fail to stop for the flashing red lights and extended stop arm on the school bus. The area around the stopped bus is sometimes called the 'death zone.'

Drive responsibly by knowing and reacting to these important rules of the road:

- Flashing amber lights are a pre-warning that the bus is preparing to stop.
- Flashing red lights and extended stop arm means that the bus is stopped to load or unload school passengers.
- Coming from either direction, you must stop when you see the flashing red lights and extended stop arm. Stop at least 20 feet from the bus. Proceed only after these signs have ended and any children are safely on the other side of the roadway.

# Diagnostic Service For Handicapped Provided

The Snyder School Board of Trustees has adopted special education policies in accordance with Texas State guidelines to implement programs and services which meet the needs of the handicapped child. Primary to serving the handicapped is the need for student assessment and appraisal. The goal of appraisal is to provide a basis for making decisions designed to bring about appropriate changes in pupil achievement and/or adjustment.

Most teachers are familiar with the problems of children who appear bright but fail to make expected gains in a perceptual or academic skill after that the child reads silently with comprehension at the appropriate age level, but does poor in reading-aloud. Another child may become confused when directions are given orally, while he exhibits comparative superiority in reading and writing. A third youngster may have adequate listening and speech skills, but manifest problems when he engages in fine and gross visual motor activities. All of these children in these examples may be considered to have school related problems.

classes, and remedial programs have been provided. Important to initiating each of these alternatives, however, is educational assessment and the responsible role of the educational diagnostician in this process.

The school district currently employs two certified educational diagnosticians, Ms. Mary Inez Brownlee and Carol Miller. Their role is that of professional support personnel in the Child-Centered Educational Process, which is an orderly and systematic continuum which includes: pupil referral and screening, data analysis and alternatives, comprehensive assessment, educational planning, and placement of child. The diagnosticians are responsible for the assessment of intelligence and of the educational function and for the collection and analysis of data pertaining to sociological variables for the student.

In addition, the diagnosticians may provide consultation to teachers, parents, other personnel, and community agencies and for individual educational plan implementation and strategies for learning.

## Chemicals' Effect Subject Of Study

GENEVA (AP)—Between 200 and 1,000 new chemicals enter the world market -- and the human environment -- every year, according to the U.N.'s World Health Organization.

What are the effects of exposure to these chemicals -- some 60,000 in common use -- on the health of mankind?

WHO has begun an International Program on Chemical Safety in collaboration with a number of national laboratories and institutions. The program will evaluate the effects of chemicals on human health and publish the results.
