

Motion Picture Will be Shown at Racine, Wis.

The motion picture of some of the scenes at the American Legion Celebration in Floydada July 3rd and 4th, together with some of the agricultural and industrial activities in this territory, made by W. T. Snell for J. H. Reagan, Case representative for Floyd and Hale counties, will be shown at Racine, Wis., where are the Case Threshing Machine Company factories.

Telegraphic request that the films be shipped to Racine was received by Mr. Reagan the latter part of last week. The Case machinery is given some prominence in the picture and the makers of these machines want their factory people to visualize the machines they are making as they appear at work in this section. The development of the wide cut by the use of an attached header without the expense of a heavy extra investment in machinery, as made by several Floyd County farmers this season, is a thing the company is also interested in. By means of the header attached in a simple manner to the combine machine several farmers cut their harvesting expense heavily.

Wheat farmers and harvesting machinery makers have come to the realization that the major problem in small grain harvesting the country over lies in the reduction of the outlay for machinery for handling the grain and in the actual expense of gathering it. The attached header was developed by several farmers in this vicinity and is not the product of any factory-developed idea. Several hundred people saw the picture here Friday night.

Violations of City Park Rules Will Bring Fines

Violations of the rules of the City Park, among these especially being the infraction of pulling flowers without permission, are still being practiced, according to information reaching the mayor's office, Judge F. P. Henry said Monday. Although an effort has been made to acquaint the general public with the fact that the flowers and other beauties of the city park are for all the people a few continue to judge themselves the more entitled to these things, the judge said, and accordingly they pull flowers as though the property belonged to them.

"Continued infractions are going to draw down some fines," the judge said. "Permission of the captains in charge of the park grounds must be obtained before flowers are pulled," he said. "And this permission is granted under extraordinary circumstances only. The folks who continue to disregard the rules governing public property in Floydada are much out of favor with those who do have regard for the rules, and the city will feel no hesitancy, if necessary, to impose the fines."

Tech Locating Board on Last Leg of Journey

The Texas Technological Locating Board today begin on the last leg of their long journey over West Texas, viewing sites proposed for the location of the school.

With their departure from Floydada, scheduled for one-thirty this afternoon when they go to Plainview, the board will have visited all but eight of the towns which submitted offers and briefs sustaining them.

Beginning their journey on July 14th, when they visited Boerne, near San Antonio, the board has been at work incessantly since, viewing two sites practically every day. They have been lionized in every town they visited because of their prominence in the educational and business world of the state and because of the big undertaking they have been assigned under the law creating the new school.

The board has been guests of nearly thirty towns already and every conceivable kind of entertainment has been proffered them, most every kind of banquet, dinner, breakfast, barbecue, or picnic dinner peculiar to the various sections of West Texas having been tendered them.

It is estimated that the board has actually inspected property submitted as valued at more than three dollars.

One Killed in Crash of Car Below Lubbock

J. M. Weatherford, of Post, hotel manager, was killed, Mrs. Grace Stahl was seriously injured and Miss Eugene Jackson and M. T. Mitchell were badly shaken up in the crash of an automobile on the Lubbock-Tahoka Highway Friday night of last week.

The accident occurred when the car got out of control on a short corner and hurled itself down an embankment and across a barbed wire fence. The auto turned over several times and pinned its occupants beneath the body. It was being driven by Miss Jackson when it got out of control. It was going at a high rate of speed, accounts state.

Harry McRea, formerly of this city, was one of the first to reach the scene after the accident happened. He was in a car also driving toward Tahoka, where a picnic was being held.

Weatherford's head was almost severed when a strand of wire caught around his neck as the car crashed through the fence. Mrs. Stahl and Miss Jackson are residents of Lubbock. Mitchell's home is at Tahoka.

Stock Law Carries 6 to 1 With Light Vote

One of the lightest votes ever recorded in an election of general interest and importance over the county was registered in the stock law election held Saturday of last week.

The election carried, favoring the adoption of the provisions of the stock law in this county, about six to one, it was indicated by returns which were coming in slowly this week.

The election was ordered by the Commissioners' Court some weeks ago upon petition of the required number of property taxpayers.

It related only to hogs, sheep and goats, the law governing cattle, horses and mules having been in force in this county for a number of years. The election will be canvassed at the time of the next regular Commissioners' Court session.

BABY DEAD AT ANTELOPE

The nine-month-old baby of Mr. and Mrs. Frank Suddith, of Antelope, died Tuesday afternoon of this week at 4:30.

The funeral services were held Wednesday morning at 11 o'clock and interment made in Antelope Cemetery.

MORE WOOD CONSUMED HERE THAN IN ANY OTHER COUNTRY

The United States uses more wood than any other country. In fact the consumption in this country equals about two-fifths of the entire consumption of the world, or, expressed in round figures, about 22 1-2 billion cubic feet, declares the Forest Service, United States Department of Agriculture.

The per capita consumption in this country is 212 cubic feet, of which 110 cubic feet, or a little more than half, is saw timber, and the balance consists of cordwood, continues the department's report, which was recently printed for public distribution.

Including the losses by fire, insects, and disease, the total drain on the country's forests is close to 25 billion cubic feet. At the present time this country is growing only about 6 billion cubic feet. However, according to the data contained in the report, if the entire forest area of the country—some 470,000,000 acres—were placed under intensive forestry about 27 billion cubic feet of timber could ultimately be produced each year. This amount would exceed the present drain on our forests by a relatively small margin.

SANTA FE CLEANING UP AND PAINTING UP

That the Santa Fe is a good, progressive citizen is evidenced anew this week by the cleaning up and painting up they are giving their premises in Floydada.

While the division painting gang is giving a new coat of paint to the company's station, warehouses, watertank and other buildings another crew of men is wielding the scythe and on the long stretches of right of way leading from the yards proper a mower has been set to work.

The heavy growth of weeds during the spring and summer season took advantage of the Santa Fe as well as other property owners in Floydada and one yard man was unable to cope with the rank growth.

College Locating Board Views Site Proffered by Floydada for New School

INSPECTION TRIP FOLLOWS BRIEF REST—MAYOR HENRY EXTENDS WELCOME

All Floyd Co. Luncheon

Few Words, Much Evidence Slogan of Local Committee Who Give Least Elaborate Entertainment

Electing to take their chances at impressing the locating board with the value of the site offered by Floydada for the location of the Texas Technological College, by the absence of elaborate entertainments and tremendous crowds, the local committee today at noon have as their guests the Texas Technological College Locating Board, newspaper men representing a half-dozen daily newspapers of the state at a luncheon which is dissimilar in many respects to any the board has so far enjoyed in their rounds of site-inspecting. The luncheon is spread at the Commercial Hotel and consists, in its entirety, of food produced on Floyd County farms and ranches. Only the flavors coffee and tea were not produced in this county. In variety and abundance it is declared, the spread cannot be excelled at this season of the year anywhere in the world.

The luncheon is intended as proof to the locating board that Floyd County is the place in all of Texas which offers the greatest opportunity for diversification, as declared by the local committee in their brief. It is intended to prove that the site and other conditions being acceptable Floydada is the ideal place for actual demonstration of farming and field work.

The Locating Board, whose personnel is made up of Senator S. B. Cowell, chairman of the State Board of Control, Dr. William S. Sutton, president of the University of Texas, Prof. S. M. N. Mairs, State Superintendent of Public Instruction, Dr. W. B. Bizzell, President of A. & M. College of Texas, Dr. F. M. Bralley, president of the College of Industrial Arts and W. R. Nabours, secretary of the State Board of Control, and secretary to the Locating Board, arrived in Floydada this morning shortly after nine o'clock to make an official inspection and receive the formal offer of the committee representing Floydada, of the site proposed by this city. Although having undergone a more strenuous 18-day trip through west Texas than any stump speaker or campaigner has ever attempted in this state the members of the committee appeared fresh and keen for the day's procedure. They left Spur this morning at six o'clock in company with a committee of twelve business men of Floydada who went down to Spur last night to escort the board to Floydada.

Few and simple formalities marked the arrival of the board here, and their subsequent entertainment this morning. Upon their arrival Judge E. C. Nelson, Jr., on behalf of F. P. Henry, mayor of the city, addressed the board on behalf of the people of this section, welcoming them to Floydada.

Judge E. C. Nelson, Jr., presented each member of the board to the audience of 1,500 people assembled to see the committee. Senator S. B. Cowell, chairman of the board, responded in a brief response for the locating board.

A unique feature, called to the attention of the board members upon their arrival, was the tableau presented on the court house lawn where were gathered in groups ex-students of the University of Texas, the A. & M. College of Texas, the College of Industrial Arts and the West Texas State Normal College. The representation of the last-named school far exceeded that of the other schools, indicating the greater influence the school of closer proximity exercises upon the life of the people of the section of the state it touches. The elaborate brief prepared by the local committee points out that the school would serve a greater proportion of the farming population within a radius of fifty miles of Floydada than if located at any other point in West Texas, which contention is supported by tables arranged from the census of 1920.

Two hours this morning was spent going over the proposed site lying immediately west of Floydada. It covers 2,097 acres of land, including several improved farms. Several acres of it lies within the corporate limits of Floydada. (Continued on last page)

LOCAL BUSINESS MEN MEET TECH COMMITTEE AT SPUR

I. C. Surginer, W. A. Baker, E. C. Nelson, Sr., E. C. Nelson, Jr., Porter Ragland, Jas. K. Green, Kenneth Bain, O. P. Rutledge, Maury Hopkins, A. H. Manning, T. S. Stevenson and A. D. White comprised the party of local business men who left yesterday for Spur and spent last night in that city to accompany the Locating Board for the Texas Technological College to Floydada.

The party left in six cars. Leaving Spur this morning early they were expected to make the three-hour drive by nine o'clock for the board members to begin the work of inspection of the site offered by Floydada.

DR. BRALLEY "CAPTURED" BY FORMER C. I. A. GIRLS

Dr. F. M. Bralley was "Captured" and "held up" this morning a few miles out of Floydada but is none the worse for the experience, he declared when he reached town. He was the victim of conspirators, former students of the College of Industrial Arts, who met the Board enroute to Floydada from Spur.

The young ladies in the party who went out to greet their prey were Misses Marie Henry, Hollie Pool, Ruby White of this city, and Miss Louise Bartley, of Waco.

A. P. AND 4 NEWSPAPER STAFF CORRESPONDENTS HERE

Associated Press, three leading newspapers of north Texas and the panhandle daily, The Amarillo News, have representatives in Floydada this morning, reporting the activities of the Technological College Locating Board.

They are Hamilton Wright of the Fort Worth Record, Red Dealey of the Dallas News, Silliman Evans of the Star-Telgram, Bob Barker of the Amarillo News, and Frank Martin with the Associated Press.

MUNDAY REPRESENTATIVES PRESENT STATEMENT TO BOARD

Representatives of the City of Munday, in Knox County, are here this morning to present a statement to the members of the Locating Board relative to their claim for the Tech Location.

Their statement has to do with the reported endorsement of Haskell as the site for the school by all towns in Knox County except Munday. The committee will present their statement in a ten-minute conference with the committee after lunch. They are prepared to refute this report, they state. "We do not want to butt in on Floydada or anybody else but we have a mission here and hope to accomplish it, E. Duvall, member of the committee said.

In the Munday party are Dr. W. P. Farrington, chairman of the Munday Local Committee, W. R. McInnis, president of the Munday Chamber of Commerce, E. Duvall, C. A. Eiland, and Wm. A. Wilson, secretary of the Munday Chamber of Commerce.

TECH COMMITTEE WILL MAKE EARLY DECISION

According to statements of newspaper men who have been accompanying the Tech Locating Board it is probable that the board will make a decision as to the location for the school soon after their itinerary is completed and they reach home. One statement declared the board might make their decision known by August 16th.

CAR THIEVES OPERATING IN PLAINVIEW THIS WEEK

Car thieves have been active in Plainview the past few days. Three were stolen the first of the week. Two of the lost cars have been captured in this city and one was located in Wichita Falls. The third car which was found here Wednesday was being driven by a boy about sixteen years of age who was running away from home. Sheriff Grigsby caught the second here the first of the week.

Mrs. W. L. Porter and children, of Tonkawa, Okla., are here to spend the summer with Mrs. Porter's parents, Mr. and Mrs. H. T. Smith, having arrived last week. This week they are visiting at Lorenzo with Mr. and Mrs. J. W. Davy.

Taxes Will be Levied at August Term of Court

Taxes for the current year will be levied by the Commissioners' Court at their meeting beginning on the second Monday of this month, which is August 13th.

County Judge E. C. Nelson, Jr., said Tuesday that all trustees of school districts over the county should have determined the tax rates they desire assessed for school purposes in their respective districts before that time, and this rate approved by the county superintendent.

In this connection the attention of school trustees is called to the fact that it is time teachers were employed and their contracts filed for approval. The salaries to be paid for teachers will determine to some extent the amount of tax levy that will be necessary.

Another argument for the early employment and actual filing of the contract with the superintendent lies in the fact that all teachers in this county will be expected to attend the consolidated institute at Canyon. It will be necessary for the superintendent to notify the teachers of out-of-county residence of the fact that they are expected to be in the institute at Canyon.

Panhandle Baptist Assembly Closed Yesterday

The Fourth Annual Session of the Panhandle Baptist Assembly held in the beautiful Ceta Canyon, thirteen miles northeast of Happy, closed Wednesday night after a most successful meeting. Lectures, sermons and songs filled out the larger part of the programs lasting nine nights and eight days. The gatherings were held in the new tabernacle which was built by the Assembly in the Baptist Park which lies in the southeast corner of Randall County and which has been equipped for such occasions. There are thirteen associations in the Baptist Assembly and practically all without exception had representatives present to take part in the programs and to make a study of the training for a better Christian life.

Every phase of work in the Baptist church was taken up and discussed by the most capable speakers. Classes of instruction were given at periods during each day and night. A number of features were on the program of activities during the encampment. Special days were set aside for institutions of the church and different divisions of work in which the Sunday School and B. Y. P. U. featured. Recreation rejuvenated the young and old alike when their studies were beginning to tire. There were baseball games, tennis games, all sorts of games, socials, stunts, bathing, boating, and picnicing to furnish fun for all.

Those in attendance from Floydada at periods during the encampment were: Mr. and Mrs. W. I. Cannaday and daughter, Miss Bell; Mr. and Mrs. C. Surginer, Mrs. Ruby Young and Jeff Welbourne.

MRS. JENNIE MERRELL LEAVES FOR VISIT IN ARKANSAS

Mrs. Jennie Merrell, of this city, leaves today for Eldorado, Ark., where she will visit in the home of her grand daughter, Mrs. George Minshew.

Mr. and Mrs. Minshew have been visiting with Mrs. Merrell since Saturday and returned with her to Eldorado.

Mrs. Minshew was a child in Floyd County, living on the place now owned by Tom McLean west of Floydada with her parents in the late '80's and early '90's, at the time when their nearest neighbor was twenty miles distant or more.

C. D. Smith, of Bynum, Texas, son of Mr. and Mrs. W. D. Smith of this city, together with O. P. Eagan and G. W. White also of Bynum, was in Floydada for a short visit yesterday afternoon. They were on a tour of west Texas points.

P. V. Price, of Sunset, Texas, has been here and at Plainview the past two weeks visiting his brothers, F. M. Price at this place and G. L. Price at Plainview. He will return home this week.

Mr. and Mrs. Ollie Martin, son W. D. and daughter, Cary Mae, of Alvord, Texas, arrived Tuesday for a visit here with W. N. Paschall and family. Mrs. Martin is an aunt of Mrs. Paschall.

Lindsay Graham Hurt When Truck Overtakes

Lindsay Graham was painfully injured, though probably not seriously, in a wreck on the south side of the Blanco Canyon Crossing about ten o'clock Monday morning when, loaded heavily with lumber and shingles, a truck he was driving, stalled on the long hill. The brakes failed to hold and the big truck overturned in a deep ditch after backing about 20 feet. The machine turned over twice, according to J. D. Porterfield, who jumped out as the truck started backing. Graham stayed with the machine trying to back it down the road, at which he would probably have been successful except for the big load which hid the road.

Mr. Graham sustained a lick on the head and a severe cut on the side. He was unconscious for several hours after being brought to the Childers Sanitarium in Floydada but his condition was satisfactory Monday night and he is rapidly recovering, physicians state.

The truck was badly damaged. It was enroute to Cone on a haul for O. P. Rutledge, who has the hauling contract from Floydada for H. E. Cannaday, contractor on the fine new brick school building of Cone School District.

A laborer, who was riding with Graham and Porterfield, sustained a sprained ankle in the spill.

Community Gathering Held at Allmon Friday

An ice cream supper and community gathering was held Friday night at the Allmon school house. The people of this wide awake and progressive community co-operating with their Parent-Teachers' Association, and assisted by Floydada talent, gave the supper and a dandy program that furnished pleasant diversion for the large crowd present.

The Allmon community has a good school system; a school building that is among the best in Floyd County and a mutual feeling of neighborliness among its residents that never fails to bring the most favorable of results. The Parent-Teachers' Association, Mrs. H. A. Krause president, sponsored the affair and will use the proceeds to further improvement of their school.

A varied program of readings, solos and quartette numbers was rendered. Floydada talent assisted and received generous applause. The quartette, Mrs. Calvin Steen, Miss Wynette Britton, Elmer Wood and R. T. Stribling, gave three good selections. A reading by Mrs. Francis Wofford; a piano solo by Mrs. Calvin Steen and a solo by Elmer Wood were also highly enjoyed. A playlet presented by Frank Truitt, little son of Mr. and Mrs. S. Truitt, and Thelma Covington, small daughter of Mr. and Mrs. R. C. Covington, was another number given by Floydada talent that proved popular with the audience.

Dr. and Mrs. L. V. Smith, of this city, and Miss Elizabeth Goode, of Plainview, guest of Mrs. Francis Wofford, were among those who attended from Floydada.

200th Car Wheat Shipped Out Wed.

The 200th carload of 1923 crop wheat was billed out from Floydada Tuesday and went out Wednesday morning, Floydada Mill & Elevator and W. J. Burke each billing out a car and the Marshall Grain Company two cars on that day.

Last week grain men estimated that 50 per cent of the crop had been marketed. 200 carloads is approximately 280,000 bushels, indicating a crop, above seed requirements, in this trade territory of 560,000 bushels.

MARTIN SISTERS CO. SHOWING HERE THIS WEEK

The Martin Sisters Company, which has toured West Texas for two years past, is in Floydada this week showing under canvas east of the square.

The company is giving come drama productions, which are well-received for the most part. The show will close their engagement here a Saturday night and a matinee Saturday afternoon.

SIX MONTHS OF HISTORY

The secretary of the Chamber of Commerce, in the hours of lull between storms maintains an unusual file in Floydada. It is a card index of the more important happenings in Floyd County as they appear recorded from week to week in The Hesperian. Glancing over this file, which refers to volume and number where the article is recorded, we find that in the period from January 1st, 1923 to July 5th, 1923, many things happened in Floyd County, and although the period has been in a general way termed dull by the business interests of the community, the kaleidoscopic changes of business, the new firms, the land deals and fires and accidents—the story of the community's life from week to week—has been brimful. For instance if you should guess how many business changes there have been in Floydada in the six-month period how many would you say? Well, there have been twenty-four big enough for a headline and a story. How many new business enterprises? There have been eight, this card index says. And how many major business transactions involving as much as \$25,000 or more? The correct answer is ten, unless the newspaper man failed to record some of them. All of which indicates there has been industrial activity in the county during the six months past. Then there are the clubs and the churches, the picnics and school closings and weddings and births and deaths, fires and accidents, to mention a few of the things that have been written about.

Of the weddings recorded in the period there were forty, practically all of them in Floyd County. Of the deaths recorded forty-six, 28 of which were in the county.

Of crimes the file says The Hesperian has recorded only four, two of which are charged to people residing in Floyd County, and of accidents only twelve, more or less serious, the most of these chargeable to automobiles or machinery. But the county has made a right respectable showing in the number of fires, fifteen being recorded, the biggest being for only \$2,000, however, and from that down to \$25 and a good scare.

Making a resume we conclude that whether the folks would have it that way, or whether the newspaper would, the newspaper is just about a reflection of the people for whom it is made. The people of Floyd County are wrapped up in their churches, their schools and their business. The card index shows The Hesperian to have written about these and the things allied to them more than about all other things. Our people don't think crime and it is practically non-existent in the county. We think of crops and weather reports and markets and clean up days and athletics and each of these forms a considerable quota of the stuff The Hesperian has printed. We think of development and building and boosting and that's what you find largely in the columns of The Hesperian. Our people do not lean much to partisan politics and the newspaper which serves us does not have a great deal to say on the subject, this card index shows.

ADDRESS

ARTHUR B. DUNCAN
FLOYDADA, TEXAS

This is the first experience The Hesperian ever had of being card indexed. But this novel experience is an interesting one. It affords proof, among other things, that Floydada and Floyd County keep on building and developing in a magnificent way. New people are coming in and new enterprises are materializing. The country is getting more solidly on its feet with every passing year. The six months cross-section proves that Floydada, despite a calm in the business world of the southwest, has forged forward steadily and that the little city is destined to be a real city if it keeps up its stride.

THE LOCATING BOARD

The Locating Board, whose duty it is to say at what place the Texas Technological College shall be located within the geographic limits set out by the law creating the school, come to think of it, is composed of five men in the state who are without doubt the most able men who could be chosen for the place. And this is not said because we have with us today members of this board.

With one exception they are men who have spent a lifetime in the study of administrative affairs of educational institutions. They know the limitations of institutions already existing. They have seen the errors made by other locators of schools. And in Senator Cowell the board has a member who is conversant with the requirements sought for the school location from a business point of view.

So that having thirty-seven sites offered, in widely varying sections of the west, with conditions varying greatly, too, and having a board membership who really know what they seek the new school should be better located than any other institution in the state to serve the needs of the people for whom it is to be built.

DOG DAYS

With the locusts singing, the bees and bugs buzzing lazily about and the thermometer registering as high as they hung Hamaan, it is extremely difficult for the editorial pen to navigate the distance from one side of the copy sheet to the other. How much better it would be to be at a place we have in the mind's eye, where news items and editorials and leading articles would be as immaterial, viewed through the haze of a summer's day from the coolness of a spreading bough, as whether the fish would bite, or when do dog days really begin.

Now, with that paragraph brought to a more or less successful conclusion what else can be said in this connection that would have any connection. Thinking of nothing else, we prepare to draw this paragraph to a similar conclusion. But before we do so it might be well to state that we prefer to be a newspaper man than a locating board. Twice a day for ten or twenty days the locating board has trod forth in the blazing sun and inspected as

hard as they could, watching zealously the while that no bird slips them any misinformation under the guise of facts; and trying at the same time to be as nice as they can to the fellows who are going to be cussing them in thirty days for a bunch of dunderheads; twice a day listening to the choicest oratory the country affords and three times a day demonstrating their overwhelming pleasure at the best meal they ever had. All of this while the editor sits in his sanctum sanctorum and lets his thoughts dwell among the clouds or down the stream where the fishes are wont to gambol.

The only advantage the board has is that their job does not last long while the newspaperman's job does not cease to be long. This difference probably accounts for this effervescence. Which, having rounded itself out to the conventional number of words, we now draw to an actual conclusion with the observation that a college president himself might not do much better if he had it to do week in and week out, hot or cold, wet or dry.

Mr. and Mrs. O. W. Gano spent Thursday to Sunday in Canyon, where they visited relatives.

A. C. West, of Portales, New Mex., has been here this week on business. Mr. West formerly resided in Floydada.

Richard McAfee, of Forest, left last week for his home after a visit with his uncle, P. M. Felton and family.

C. R. McAfee and family, of Amarillo, visited in Floydada over Sunday with P. M. Felton and family.

Grind Your Wheat Into Hog Feed With an International Feed Grinder

Eminent authorities declare that coarse-ground or cracked wheat offers an excellent opportunity for the farmer to substitute wheat for corn or maize in the hog ration, and that with the low prices prevailing now for wheat that the farmers could feed out 25 per cent of their wheat crop, putting it on the market on the hoof and still get as much money for the remainder of the crop as they would get for the entire crop.

Feeding out 25 per cent of the crop will influence the price of wheat up.

This authority declares:

"Six and two-thirds bushels of wheat and forty pounds of tankage are equal to seven and one-seventh bushels of corn and fifty-four pounds of tankage. Without a tankage supplement in the ration wheat is likewise superior to corn. So far as cost of production is concerned nothing is gained by mixing wheat and corn half and half. There might, however, be a slight difference in the quality of the pork. Wheat is richer than corn in protein, but for the most economical gains a protein supplement is necessary. Hogs on pasture will do well on five per cent tankage ration with wheat. Shrivelled wheat runs higher in protein per centage than wheat of high grade.

"Coarse grinding or cracking the wheat improves the feeding value 16 to 22 percent. Soaking whole wheat is not much better than feeding it dry, and should not take the place of grinding. It does not pay to soak ground wheat. Wheat should not be ground too finely as it tends to form a sticky mass in the hog's mouth. In such cases it is advisable to feed it in a slip. A self feeder is a very satisfactory method of feeding ground wheat. The tankage can be put in a separate compartment or fed in a 5 percent tankage cracked wheat mixture. Wheat at 85 cents a bushel makes it advisable to put the spring pigs on a full wheat tankage ration and get them up to 200 or 225 pounds as quickly as possible. In most cases it does not pay to carry pigs along on a limited grain ration. Young pigs make the most of the feed consumed. Pigs should be gotten on a full wheat ration gradually. At least a week should be allowed to get them ready for the self feeder system. If pigs are not on a full grain ration the tankage should not be fed in a self feeder. In such cases it is better to mix tankage with wheat in the 5 percent ration.

"If the farmers over the country would feed 25 per cent of their wheat to hogs, it will influence the price of wheat up. If 25 per cent is fed to hogs, the balance of the wheat will sell for more money than the entire crop will bring if none is fed to the hogs. In other words, the farmers would get as much for their wheat crops and in addition would have the gain in hogs which they would lose otherwise."

Farmers who wish to take advantage of the idea contained in this suggestion will find that the International Grinder is one of the most substantial and best-built machines they could put their money into. We'll be glad to show you.

O. P. RUTLEDGE

FULL LINE INTERNATIONAL DEALER

Removal Sale
OF
FURNITURE

Beginning Monday, August 6th,

We will offer our immense stock of FURNITURE now located at 611-613 Polk Street, Amarillo, Texas, at greatly reduced prices. This sale will continue until we are moved into our NEW FOUR-STORY BUILDING, now under construction at the corner of Sixth and Taylor streets, which we hope to occupy not later than September 25th.

Altho' we have been in business for more than SIXTEEN YEARS we have never had a sale—we don't believe in sales—but because we are building a large new store we want to open that place with a brand new selection of goods and therefore have decided to put on this REMOVAL SALE. We may never hold another sale but you can be assured that this one will be A REAL VALUE-GIVING SALE in every way.

It will not be necessary to have the cash in order to share in these bargains. We will extend liberal credit to those desiring it but we will make it worth while to the cash buyer. Our usual guarantees and service go with the goods bought during this sale.

REMEMBER THE DATE—Monday, August 6, 1923

GREEN BROS. CO.

C. R. McAFEE, Manager
611-613 POLK STREET AMARILLO, TEXAS

CITATION BY PUBLICATION

he State of Texas,
To the Sheriff or any Constable of
Floyd County—Greeting:

You are hereby commanded, that you summon, by making publication of this citation in some newspaper published in the county of Floyd if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published once each week for four consecutive weeks previous to the return day hereof, J. I. Merrell, W. H. Taylor, Robert Taylor, Roy Taylor, Annie May Taylor, Viba Merrell, Mrs. Lizzie Eddleman, R. R. Eddleman and R. R. Merrell, whose residence is unknown, to be and appear before the Hon. District Court, at the next regular term thereof, to be holden in the County of Floyd at the Court House thereof, in Floydada, Texas, on the 24th day of September, A. D. 1923 then and there to answer a petition filed in said court, on the 7th day of February, A. D. 1923, in a suit numbered on the docket of said Court No. 1443, wherein G. F. Merrick is plaintiff and Mrs. Mary F. Merrell, V. L. Teaver, J. R. Teaver, J. I. Merrell, L. A. Merrell, W. W. Merrell, Viba Merrell, Mrs. Neva Graves, W. D. Graves, W. A. Merrell, Mrs. Pearl Martin, R. S. Wilkinson, Levi R. Wilkinson, Corine Wilkinson, Mrs. Dora Stroup, O. W. Stroup, W. H. Taylor, Robert Taylor, Roy Taylor, Annie May Taylor, Mrs. Lizzie Eddleman, R. R. Eddleman, R. R. Merrell, and J. C. Gaither as receiver appointed by the District Court of Floyd County, Texas, in cause No. 1290 pending in said court, are defendants.

The nature of plaintiffs demand is as follows, to-wit:

Suit on two promissory vendor lien notes each for \$500.00 dated Oct. 29, 1917, due Jan. 1, 1922, and Jan. 1, 1923, bearing 8 per cent interest on principal and past due interest, interest payable annually, executed by V. L. Teaver and J. R. Teaver and assumed by Mrs. Mary F. Merrell, payable to B. A. Queen who transferred same to plaintiff the owner and holder. Plaintiff also sues for 10 per cent additional of amount due on notes as attorneys fees as provided in said notes; said notes are secured by vendors lien on following described land and plaintiff sues for foreclosure of said lien, said land described as follows to-wit: The North one-half of Survey 64 Block G.-M Cert, No. 1-111 G. C. & S. F. Ry. Co. in Floyd County Texas, containing 320 acres of land. Plaintiff alleges that all other defendants are claiming an interest in said land but that their claim is inferior to plaintiffs lien. Plaintiff prays judgment for his debt, principal, interest, attorney's fees, costs of court, and for foreclosure of said lien.

Herein fail not, and have you before said court, on the said first day of the next term thereof, this writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said court, at office in Floydada, Texas, this the 27th day of July, A. D. 1923.

(Seal) G. C. TUBBS,
Clerk District Court, Floyd County,
Texas. 22-4tc

ORDINANCE NO. 65

Be it ordained by the City Council of the City of Floydada, Texas, in regular session July 10th, 1923, that:

Article 1: From and after this date all owners of vacant lots will be required to keep such lots clean of weeds and rubbish of all kinds. If the owners of such lots fail to comply with the provisions of this ordinance the City will have the work done, charging the expenses to the said property owners and the amount to be added to the annual tax.

Article 2: All persons having vacant lots or parcels of ground are hereby required to keep same free of weeds, cans, rubbish and decaying matter of any kind, and immediately cleanse said lots of such things when notified by the health officer so to do.

Anyone violating this Article shall be fined not less than \$5.00 and not more than \$100.00 and each day's failure to comply with such notice shall constitute a separate offense.

For good cause shown to the Council therefore, it is ordered that this ordinance take effect and be in force from and after its passage.

Passed and approved July 11, 1923.
22-3tc F. P. HENRY, Mayor.

Attest: Burl Bedford, Secretary.

NEWS OF LOCKNEY

From The Beacon:

Noah, the 4-year-old son of Mr. and Mrs. W. G. Ferguson, who live in the Muncy community about six miles southeast of Lockney, died at their home Tuesday night at about ten o'clock.

Funeral services were held Wednesday afternoon at 3 o'clock at the cemetery in Lockney, services conducted by Rev. R. E. L. Muncy.

Deceased was a grandson of Mr. and Mrs. J. A. Smalley.

Miss Hula Coleman, daughter of Mr. and Mrs. H. P. Coleman of Lockney, has returned from Canyon, where she attended the summer short course of the Normal. She has been granted a teachers' certificate, and will teach during the coming term at Pleasant Valley school, south of Lockney.

The "Square Deal Garage," is a new establishment for business in the McCollum building on North Main street. The building is the one recently vacated by C. A. Wofford, real estate man, who has moved into the corner building next door.

C. A. Buckley, recently of Fort Worth, is proprietor of the new business.

Work is well under way on the building of additional warehouse and shed rooms for the local lumber yard of the Higginbotham-Bartlett Co.

105 TEXANS IN SUMMER SCHOOL AT GREELEY

In the great cosmopolitan group of nearly 3,000 school teachers gathered on the campus at Colorado State Teachers College for Summer School work this year is Lulu Belle Rushing, of Floydada. There are 105 Texans at the College in Greeley and they are banded together in the Texas Club, one of the most prominent and active state organizations on the campus.

There were 2,490 students on the campus, the first half of the quarter which closed July 18, and the enrollment for the second half will bring the enrollment for the summer up to practically 3,000.

The Texas Club, organized during the summer of 1917, with thirty members, has been maintained and it forms a prominent place in the lives of the people from the Lone Star State during their work in summer school. One of the brilliant receptions of the present summer quarter was that held by the Texas Club in the club building on the campus. Faculty members were guests. Miss Frances Waltman, of Corsicana acted as master of ceremonies and after introducing faculty members, she announced the program, which consisted of vocal solos and other musical numbers and readings. A dance followed.

E. L. Hunter, superintendent of schools at Claude, was elected president of the club this year, succeeding W. M. Greene, assistant superintendent of schools at Fort Worth. The wives of both of these men are attending summer school.

A SCHOOL BOARD'S PRAYER

God help us to see and feel our responsibility. Help us to see the problems that confront us and give us wisdom to solve them. Help us to know and love the people whom we serve. May we forget self and work for our children, our community and our country. Help us to lay aside personal feeling and employ worthy teachers regardless of friendship, politics, religion, or relatives. May we live for the satisfaction of tomorrow rather than for the pleasures of today. Help us to get a true vision of what the schools are doing for our children and of what they should do for them. May we, while working for better schools, be so tactful, patient, kind and reasonable that those who oppose us will give us credit for meaning well. May we so serve our community that the things we do today will look good to the men and women of tomorrow. And finally when we are "ready to be offered up" may we have the satisfaction of knowing that we lived true to ourselves, true to our people and true to God.—Progressive Farmer.

FAIRVIEW NOTES

Fairview, July 26.—The farmers have been very busy with their harvesting, but are about through now except the hauling.

We are needing rain on our row crops.

The Center-Fairview Baptist Meeting will begin Friday night, July 27, at the tabernacle, about 2 1-2 miles west of Fairview. Bro. Johnson pastor of the Matador church, will do the preaching. Everyone is invited to attend.

There will be preaching services at Fairview the fifth Sunday at 11 o'clock.

Mrs. E. M. Wilkins of Hale Center is visiting her daughter, Mrs. Ed Hoffman. Also Mr. Truelove and his son are visiting for a few days in the Hoffman home.

Mr. and Mrs. L. B. Cozby and Mrs. G. M. Bullard visited from Saturday until Monday with relatives at Spur.

Kate Bullard and her three younger brothers were guests at Alice Jackson's birthday dinner Sunday from this community. They report a great time—especially of feasting at the noon hour of many good eatables, and of ice cream in the afternoon.

Bro. Orrick filled his regular appointment Sunday afternoon and Bro. Cotten preached in his place Sunday night.

Richard McAfee is now visiting his brother, I. D. McAfee.

Mitt Bullard entertained his S. S. class last Friday night with a party. After many games were played, ice cream and cake was served to the youngsters.

Mr. Cozby's mother accompanied him home from Spur, to visit for several days.

Miss Maurine Andrews spent last week-end as a guest of Mrs. Walter Byars of Lockney.

Martin Brown left Monday for Colorado Springs where he will visit with his grandmother.

"BETTER FARMS" STRESSED AT A. AND M. SHORT COURSE

The fourteenth annual Farmers' Short Course of the Agricultural and Mechanical College which was held at College Station, Texas, July 23 to 28 was attended by over seven hundred club boys and girls; eighty five home demonstration agents; one hundred and eighty farm demonstration agents; and a number of prominent editors, agricultural writers, ministers and farmers.

The Short Course is planned to meet the needs of men, women, boys and girls who desire to farm on a better basis, to make farming more profitable, and to make farm life more comfortable and attractive. It is attended by the highest types of farmers, housewives and others interested in agricultural and rural pursuits. In fact, the Short Course brings together the leading workers, speakers, teachers, scientists and writers of country life and the farming business. At this school of instruction those attending obtain a higher knowledge on farm life from the speeches, laboratory, experiments station research work, demonstration methods of the extension service and class room instructions given during the course. It is an annual opportunity which furnishes each one a chance to get a perspective broader than that afforded by his own farm, the local neighborhood, community or county.

The opening address was made Monday morning, July 23, by T. O. Walton, director of Farmers' Short Course. Dean E. J. Kyle, School of Agriculture, who has been in charge of the course for the past fourteen years, officially placed T. O. Walton in charge of the course in an address before the general assembly Tuesday morning.

The general assemblies were held in Guion Hall, the large auditorium of the college, and the sectional meetings were held in the new agricultural building which is one of the finest of its kind in the United States.

Addresses on various subjects of vital interest to the farmer, the housewife and the club members were delivered throughout the week. Dean Kyle, in his lecture Tuesday morning, stated that the Short Course would be more closely related to the study of the extension service since this dealt more with farm conditions. He also outlined the ten-year building program planned by the A. and M. College and mentioned the great things they hoped to accomplish in the future through this program of extension. Among other prominent men who gave lectures were: Dr. O. B. Martin, director of Home Demonstration Work in the United States; President Hamilton of the I. and G. N. Railway; Prof. John Burns, formerly in charge of Animal Husbandry at the college, now with the Fort Worth Stock Yards; Dr. B. Youngblood, Director Experiment Station at A. and M.; Dr. E. L. Earp, Professor of Sociology at Drew Theological Seminary in New Jersey, and Dr. F. A. Beuchel. There were a number of other fine talks by men who were authorities in their field of work. Dr. W. B. Bizzell, president of A. and M. College of Texas, was scheduled to make the opening address of welcome but his position on the locating board of the Texas Technological College which is touring West Texas forced his absence.

Various kinds of contests and entertainments furnished diversion for the students taking the work. Panhandle District Number 3 which embraces Floyd County, won first place in the highest number of total points in the livestock, poultry and grain judging contest. This contest was held between the county farm demonstration agents representing the various districts. T. Scott Wilson, agent for Floyd County, attended the Short Course and took part in all the activities. He was a member of the team from District Number 3 which took first place.

Mr. Wilson returned home Sunday. He stated Tuesday that he had paid close attention to the work done and had received instructions that would aid him in serving the farmers of this county. He took notes on some of the lectures and will give to the farmers some of the most important points brought out by the speakers in articles which will appear from time to time in the Hesperian.

E. T. GREEN HAS OPERATION

E. T. Green, former resident of this city, now of Pomona, Calif., is recovering from an operation he underwent at a sanitarium there on July 26th, according to advices received from Mrs. Green by her parents, Mr. and Mrs. J. J. Foster of this city.

Mr. Green will resume his work soon, it is thought.

Mrs. W. M. Massie and daughter, Geraldine, returned last mid-week after spending some two weeks with relatives and friends down state. They visited with Mrs. Massie's father, J. A. Martin, of Weatherford, and other relatives in that city and in Fort Worth.

ROGERS COUSIN'S REUNION

The thirteenth annual reunion of the Rogers Cousins will be held at the place four and one-half miles north-east of Floydada, with Mrs. J. E. Green, beginning August 2nd, continuing a week.

We are the offspring of Johnnie B. Rogers, of Alabama. There are about six hundred cousins in our family with only one of the original family, viz. Uncle Jake Rogers, of Hill County, Texas.

We were organized in July, 1910, at Vina, Ala., with J. W. Rogers as founder, whom we elected as president. E. T. Bolding was elected secretary and I. J. Bolding chorister.

At our annual meeting at Clyde, Texas, in 1921, we saw fit to create a new office, viz. historian. Cousin Addie Rogers was elected to this office. We also organized a mutual life insurance association with Mrs. I. J. Bolding secretary.

Next Sunday, August 5th, at two o'clock, we will have a real singing, after which we will have our annual reunion sermon.

We will be glad to see you there and will show you a good time.

D. I. BOLDING.

ABOUT 50 PER CENT TEACHERS IN COUNTY EMPLOYED

From the records in the office of County Superintendent E. C. Nelson, Jr., it appears that not over fifty per cent of the teaching force that will be required to handle the schools of Floyd County the coming term have been employed, although it is now just five weeks until the opening of the teachers' consolidated institute in Canyon, at which all teachers in this county are expected to be in attendance.

"It is possible that nearly all the teachers have been employed but that no formal contract made," Mr. Nelson said. "Or it is possible that in some instances teachers have been employed and no written contract drawn up. This is only conjecture, however, as the records in my office show only about 50 per cent actually employed."

The schools of this county will employ more than a hundred teachers this year.

TUBERCULAR EX-SERVICE MAN FINDS FRIENDS HERE

Ernest Stonecipher, ex-service man with a record of service in the Second Division in France, who was gassed four times and came out of the war a total permanent physically disabled man, so listed in the records of the Veterans' Bureau, sat beside the road between Matador and Floydada Thursday of last week from 9 o'clock in the forenoon until after sundown. His auto broke down while he was enroute from Electra to Slaton, and he was trying to get word to members of the local post American Legion to tow him in. 15 motorists, stopped by the veteran with the request that they advise Legion men here of his plight, failed to leave the word. The 16th person who passed advised Adjutant John H. Reagan of Stonecipher's breakdown enroute to Floydada.

Jack Close, who was a patient in the same hospital with Stonecipher for nine months in North Carolina, drove down after him. He was in a serious condition when Close reached him. Stonecipher is a tubercular, the war gasses leaving his lungs in weakened condition. He is now making a fight for his life against the "bugs."

KANSAS CITY MARKET

Kansas City Stock Yards, July 30.—The cattle movement is assuming late summer proportions, and demand is expanding in keeping with the increasing supplies. Today's receipts were 25,000 cattle and 7,000 calves, the largest supply thus far this year. Chicago had another heavy run of hogs that caused a general setback in prices. Here the market was off 15 to 20 cents. Sheep were fully steady, with lambs quoted stronger.

Receipts today were 25,000 cattle, 12,000 hogs and 9,000 sheep, compared with 19,000 cattle, 8,000 hogs and 6,000 sheep a week ago, and 16,400 cattle, 9,375 hogs and 7,026 sheep a year ago.

BORN—To Mr. and Mrs. J. W. Kirk, of Mt. Blanco, July 26th, a daughter.

BORN—To Mr. and Mrs. C. W. Starkey, of Alciño, July 31st, a daughter.

Miss Mary Porter of Plainview, has been here since Sunday on a visit with her sister, Mrs. Claude Martin.

Mr. and Mrs. Elbert Holmes, of Seymour, spent from Sunday to Wednesday with his parents, Mr. and Mrs. E. W. Holmes.

Mrs. J. R. Terry and small children left last week for Temple to visit with relatives and friends at the former home of the Terry family.

George McCullough and Norman Cantrell, of Gober, Texas, were in Floydada the first of the week on a prospecting trip.

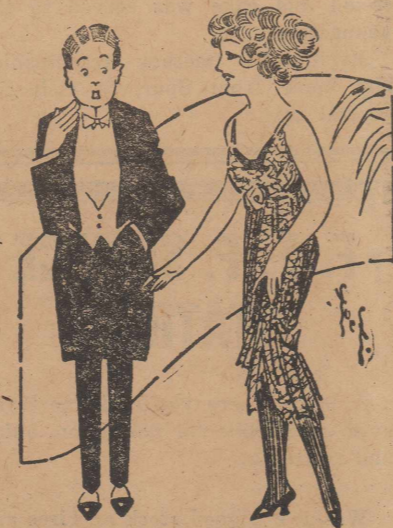

TALE OF BOTTOMLESS WELL

Interesting Story Concerning Shaft That is Probably Part of Early Irrigation System.

There is a site in Arabia that is famous among archeologists for something that is hardly a monument, but merely a hole in the ground. It is a round shaft, like that of a well, and probably a part of some great irrigation works of remote and disputed date, perhaps more ancient than anything in that ancient land. And of course there is a legend about that ancient well. It is told in Gilbert K. Chesterton's book, "The Man Who Knew Too Much."

It is said that somebody they call Sultan Alladin (not he of the lamp) commanded the giants to build him a sort of pagoda, rising higher and higher above all the stars. He wanted a tower that would pass heaven, and rise above it, and go on rising forever and ever. But Allah cast Alladin down to earth with a thunderbolt, which sank into the earth, boring a hole deeper and deeper, till it made a well without a bottom as the tower was to have been without a top. And down that inverted tower of darkness the soul of the proud sultan is falling forever and ever.

THE KICK

Hubby—Well, what's on foot now?
Wife—Wornout shoes! I must have a new pair at once!

LEAVING HER SPEECHLESS

My husband and I were entertaining a young married couple and their baby; this being the second time we had seen them. They had journeyed from an adjoining town in their automobile and the baby was well bundled up in a blanket. We, too, have a baby, and this blanket resembled one of mine, which happened to be a bit soiled.

In the course of the afternoon Frances placed her baby in the carriage and was about to cover him up when I picked up the blanket she held, exclaiming, "Don't use this; it's terribly soiled, and I'm positively ashamed of it. I'll get you a clean one."

I was rendered speechless when my visitor said: "That's my blanket."—Exchange.

COYOTE SAVED PAVILION

The howling of a coyote saved the big pavilion in Denver's city park from destruction by fire the other night, according to the Rocky Mountain News. A policeman was walking through the park, when he heard the agonized howls of an animal in distress. On investigation he found a fire smoldering beneath the pavilion.

Before the arrival of the firemen the blaze had gained headway.

The coyote, the pet of all men employed in and about the pavilion, was trapped in the cellar. Shortly after streams of chemical had been turned on the blaze several firemen volunteered to save the animal. Creeping beneath the floor of the building the firemen reached the coyote and released it.

JUDGE IN TITUS COUNTY OUSTER SUIT VISITING HERE

Judge R. T. Wilkinson, district judge of Titus County, who presided in the ouster proceedings against the sheriff of that county which gained state wide notoriety, is in Floydada this week.

Judge Wilkinson, accompanied by his wife and two daughters have been visiting here since Thursday of last week with E. C. Nelson, Sr., and family. Judge Wilkinson is a brother-in-law of Mr. Nelson.

BORN—To Mr. and Mrs. B. I. Bartlett, of Baker community, July 27, a daughter.

CENTER ITEMS

Center, July 31.—These hot winds are hard on crops. Right around here we have had rains sufficient to keep crops from suffering badly for a little while but they would be better with a good season soon.

The joint meeting being held by the Fairview and Center churches at the tabernacle on the northwest corner of the Windsor place is in progress now. Rev. A. L. Johnson, of Matador, is doing the preaching. Local talent is leading the singing. We had planned for a singer but he failed to come. We extend a most hearty invitation to all people to come, both saved and unsaved. We hope to continue over most of next week.

A Miss Mosley is visiting with Mrs. Oscar Warren and attending the meeting.

Mr. Noland has been on the sick list the past several days, but he is able to come to church some.

We are glad to have Mr. and Mrs. O. H. Johnston with us at most every service.

Mr. and Mrs. John Edgeman of Temple, Okla., spent Thursday night with Mr. and Mrs. W. B. Jordan. They live on our old home place in Oklahoma, they having bought it when we came to the plains.

The Rogers Cousins Reunion begins this week at the D. I. Bolding farm in this community. They hold the reunion for about a week.

Wheat threshing is over about here for this season. The Harris machine pulled out from M. O. Lemon's Saturday afternoon.

Mrs. C. Foster and the new baby came home Thursday after about six weeks stay with Mrs. Foster's parents.

Mr. and Mrs. W. C. Spence are just home from a sort of reunion of their children in Crosby county. While not all of them were present, several were there and about twenty-five grandchildren.

Mrs. J. T. Spence's mother and a sister and niece, from Greenville, I believe they say, have been visiting here the past week. The mother will remain until cold weather.

BLANCO NEWS

Blanco, July 31.—Threshing is nearly over in this community. The wheat was light. Row crops are now needing a good rain on them.

S. C. Burns and son, Wylie, left Saturday for Electra, Vernon and other places to look out a location, as they expect to move this week. A

daughter of Mr. Brewer, Mrs. John Haney and husband, will move here to run this farm.

Mrs. H. S. Sanders and two children of Floydada, spent from Sunday till Wednesday with Mrs. Will Snell. Also during the week J. P. Jones of Groesbeck visited his sister, Mrs. Snell. He was accompanied by his father-in-law, L. F. Davis and son, of Waco. While here, they, with Mr. Snell, made a trip to Portales, New Mexico.

Several from this community attending the ice cream supper at the home of Carl Jackson in McCoy community Saturday night.

J. R. Brewer, of Electra, spent several days here the past week looking after business. His two sons, Sam and Fred, are still here breaking stubble.

R. S. Moore and family, of west of town, visited at the home of Will Snell Sunday afternoon.

Mr. and Mrs. W. H. Millican and two little daughters, and her sister, Miss Honor Brackeen, have returned to their homes at Cooper, after spending some days here visiting relatives.

Henry Mitchell, who has been working in this community for several weeks, has gone to Dickens County to spend a few days with his family.

A. W. Moss, of Amarillo, was a business visitor in Floydada Wednesday.

B. Walden, of Boyd, and Earlie Jameson, of Newark, spent a short time here Wednesday with J. T. Paschall and family. They were enroute home after some ten days spent in New Mexico on business.

Mr. and Mrs. R. M. Abbot and son, Vernon, of this city, in company with Mr. and Mrs. H. M. McBeath, of Abilene who made a brief visit with them here, left Sunday for Crowell for a ten day visit. Mr. McBeath is a brother of Mrs. Abbot.

Reverend Joe Haymes, of Dallas, and Miss Blanche Haymes, of Munday arrived Wednesday for a short stay here with their sister, Mrs. C. D. Hopkins.

J. E. Staley, of Petersburg, was transacting business in Floydada yesterday.

LIGHT UP BRITISH CAPITAL

Electric Signs Everywhere in the Streets of the Hitherto Rather Dingy City.

London at night is now a fairy land composed of colored electric lights winking and flashing from most positions where crowds congregate.

Electric advertising signs meet the eye at every turn, and tens of thousands of pounds have been spent on providing a novel form of free entertainment for passers-by—an entertainment which has the advantage from the advertisers' point of view of impressing the merits of wares upon the memory of the public, says London Tit-Bits.

The Nestle's Baby, who wakes up and cries for his bottle many times nightly, and who smiles and drinks in joyous satisfaction on being supplied with his requirements, is not the first of his family.

Some years ago one of these electric babies was sent to Constantinople. His advent attracted such huge crowds that the Turkish police had to keep clearing the streets, and the sign was allowed to remain only on condition that it was illuminated at intervals of half an hour.

The one at the London hippodrome is the largest electric sign in Great Britain. Over twelve miles of wire and thousands of lamps were used in its construction.

HAD A VARIETY OF DISHES

Progressive Dinner Party in New York Didn't Seem to Miss Much on Its Journey.

One of the greatest charms of New York life is its wide variety of eating places. A party of artists started out the other evening in an automobile to have a progressive dinner, beginning, of course, with cocktails in a studio. A five minutes' run to Mulberry street took them to an Italian restaurant, where for hors d'oeuvres they had anti-pasto, peppers in oil with olives.

The next stop was at a Russian restaurant on Second avenue for soup, borscht, the peasant cabbage soup. At a Japanese cafe in West Fifty-ninth street, they had fried shrimps, then to a Turkish restaurant nearby for Shish Kebab, lamb roasted on skewers.

At a French rotisserie they had roast chicken, and after stopping in a German place for "Kuchen," they wound up with coffee in an Austrian pastry shop—and the whole dinner took hardly more than two hours.

TREE REPAIR PAYS

In no part of repair work should climbing spurs be used on a tree. Spur marks cause injuries through which it is possible for disease and decay germs to enter and cause damage, in some cases more severe than would have developed from the original simple break. For details of treatment of all scars and wounds send for a copy of Farmers' Bulletin 1178, which can be obtained from the division of publications, Department of Agriculture, Washington.

Remember that prevention is better than cure. The open wound of today becomes the decayed spot of next year and the deep, rotten cavity of ten years from now. It is better to spend a few days or dollars in careful repair work now than hundreds of dollars for extensive tree surgery in 1930.

SHAH OF PERSIA'S EMERALDS

Most of the Russian crown jewels are reported to be in the possession of the soviet government, which intends to sell the entire collection. According to advices from Moscow, the first installment offered will be the wonderful collection of emeralds, said to be, next after those of the shah of Persia, the most beautiful in the world.

TRUSTEES WILL HAVE DAY IN CONSOLIDATED INSTITUTE

County school trustees, common school district trustees and county superintendents of the plains and parhandle country will have a special day at the Consolidated Institute of twenty-six counties to be held in Canyon the first week in September, E. C. Nelson, Jr., county judge, has been advised.

Tuesday, September 4th, the second day of the institute is the date now set. Special work of interest to trustees is being arranged for that day. All trustees and county superintendents of the plains are invited and urged to attend.

YOUNG PEOPLE ENJOY OUTING AT SILVER FALLS

Miss Lorene Carter was hostess to a number of her friends on a picnic trip Saturday to Silver Falls Lake east of Crosbyton. The hours of pleasure were spent in hiking, swimming and boating. The young people were chaperoned by Mrs. S. Y. Carter. The return trip was made Sunday morning.

Those in the party were: Misses Gladys Covington, Thelma Kinnard, Aileen Hale, Tommie Lee Awtrey, Mildred and Lorene Carter, Eric Gamble and Fay Hatchell; Messrs. Clement McDonald, Ira Marshall, Harvey Assiter, Ralph Zachry, Curtis Carter and Earl Norman, and Mrs. S. Y. Carter and children.

IMPROVING HIS FARM

R. W. Neil, of Hill County, brother of C. E. Neil of this city, came in last week to start improving his 160-acre farm three miles east of Floydada.

Besides a good farm home Mr. Neil will build other improvements before he finishes. He has been interested here for the past few years and the fact that he is increasing his investment in Floyd County is an indication that he believes in the future of this section.

FLOYDADA SCHOOLS EXAMINATIONS AUGUST 30-31

All pupils who desire examinations for any purpose will be examined on the last Thursday and Friday in August at the high school building at Floydada.

J. Neil Johnston, Supt.

BUYERS AT MARKET

Among the Floydada dry goods and millinery firms represented in the markets this week are the Martin Dry Goods Company and the Hall Millinery.

Mrs. Ruth Brown Hall left Friday for St. Louis to buy for her firm, and J. G. Martin and Mrs. C. M. Wilson left for St. Louis and New York City to buy for Martin's.

LOTS OF SMOKE BUT NO FIRE WHEN ALARM SOUNDED

For once there was lots of smoke and no fire when the alarm sounded Thursday afternoon and the fire department made a run to the Floydada Mill & Elevator.

Smoke from burning carbon in an oil-burning engine exhaust pipe gave the appearance of a whole building afire and ready to burst into flames.

About six weeks ago a blaze caught in the office of the mill but was extinguished with fire extinguishers just as the department arrived on the scene.

Mrs. E. E. Brown who has been in a sanitarium at Lubbock for some three weeks following a major operation, returned home Sunday, Mr. Brown accompanying her.

BAPTIST S. S. CLASSES ON PICNIC TO BLANCO CANYON

The Glad Girls and Berean Classes of the Baptist Sunday School spent a most enjoyable evening Friday of last week in a picnic outing on Blanco Canyon. Three car loads of the young people made the trip. They were accompanied by Mrs. W. J. Burke and Judge E. C. Nelson, Jr.

A picnic lunch consisting of sandwiches, pickles, weinies, fruits, iced tea and cake was enjoyed.

WEST TEXANS ENJOY GULF AND CUBAN TRIP

Abilene, July 20.—Tolls received by the United States government from ships passing through the Panama Canal in the first five days of July reached the sum of \$1,300,000, according to a statement given out by President J. D. Sandefer of Simmons College, who has just returned from a trip to Panama and Cuba. Mr. Sandefer was a member of the Texas party sponsored by the West Texas Chamber of Commerce, and personally directed by Secretary Porter Whaley of that organization. Some thirty Texans made the trip requiring nineteen days; a special boat was arranged for the excursion.

Governor Pat M. Neff was the center of interest both in the party and at all points where they touched. Receptions and entertainments by government officials and friends were extended to the Texans wherever they landed.

In the Canal Zone a government boat was at the disposal of the governor and party. For the third time in its history, the Gatun Spillway was opened purely for the benefit of visitors; the other times being the occasion of President Harding's visit, and the event when the Secretary of War assembled the United States Navy there.

Miss Elizabeth Goode, of Plainview, visited here from last mid-week to Tuesday with Mr. and Mrs. Francis Wofford.

John Maxwell left Tuesday for San Bernardino, Redlands and San Gabriel, Cal. At Redlands he will visit Mr. and Mrs. H. S. Haines and at San Gabriel with Mr. and Mrs. Joe Ellis, Mrs. Haines and Mrs. Ellis being his sisters.

Mr. and Mrs. D. C. Durham and children, of Sterling City returned home Friday. They visited here for a few days with Mrs. C. H. Davis who is a daughter of Mr. and Mrs. Durham.

Mrs. R. A. Snodgrass and children, of Brownfield, arrived Sunday for a visit here with I. C. Surginer and family. Mrs. Snodgrass and Mrs. Surginer are sisters-in-law.

L. M. Flanary, Eddie Williams and Fred Jones left Monday on a pleasure trip in Oklahoma. They will be gone ten days or two weeks.

FORD MOTOR COMPANY HAS TURNED OUT 8 MILLIONTH CAR

Detroit, Mich., July 26.—The Ford Motor Company is now on its way toward the 9,000,000 motor, it became known today when it was announced that Motor No. 8,000,000 went off the assembly line at the Highland Park plant Wednesday night, July 11th, establishing a new million production record.

Motor No. 7,000,000 was turned out January 17th of this year, so the company produced the last million motors in six days less than six months. Production at the start of that period was around 4,800 motors a day and on the increasing schedule in effect since has been brought up to more than 7,000. The average for the period was slightly above 6,711 per day for the 149 working days or an average of more than 166,670 per month.

Under its greatly increased manufacturing capacity the company was able to manufacture the last million motors in two months less time than the previous million. Motor No. 7,000,000 was produced eight months after the 6,000,000th motor passed off the assembly line which was on May 18th, 1922, and nearly a year before that date, May 28th, 1921, the 5,000,000th motor was turned out.

It was in 1915 when Ford Motor No. 1,000,000 was produced and under the steadily growing demand for Ford Cars and Trucks production has been mounting yearly and maintaining an annual output approximating that of all other automobile manufacturers combined.

Mrs. W. A. Baker and daughter Ruth returned home Sunday night from Munday, their former home, where they spent two weeks visiting friends and relatives. They were accompanied home by Mrs. C. Burton, Miss Mattie Collins and Jack Mayes, all of Munday.

Mrs. H. W. Smart and Miss Viola Powell, of Colorado City, came in Sunday for a visit with Mrs. Smart's parents, Mr. and Mrs. L. H. Lewis, who reside twenty miles east of Floydada.

Mr. and Mrs. J. A. Carruth visited in Clovis last mid-week.

Miss Thelma Williams has charge of the Hall Millinery during the absence of Mrs. Ruth Brown Hall in the millinery markets.

Bert Bobbitt, of Lone Star, was a business visitor in Floydada Monday.

Mrs. H. J. Willis and daughters, who are spending the summer at Canyon where the girls are in school, were at home over Sunday on a visit.

H. M. McBeath and wife, of Abilene, have been visiting Mr. and Mrs. R. M. Abbott the past several days. Mr. McBeath is a brother of Mrs. Abbott.

Mrs. Eva Smith, of Ottawa, Canada, is here visiting her mother, Mrs. E. A. Childers, having arrived Wednesday of last week.

Mr. and Mrs. R. E. Dorrell and Mr. and Mrs. Dennis Farr, of Granger, Texas, are here on a ten-day visit with L. H. Dorrell and family, having arrived last week.

MEETS AUNT FIRST TIME IN THIRTY YEARS

Friday afternoon of last week a party of some fifteen tourists from Ennis, Texas, made a short visit with Mr. and Mrs. Joe Hicks of this city who were relatives or old friends of the Ennis people. Mrs. Jane Edmondson and children, an aunt of Mr. Hicks whom he had not seen for thirty years, were with the party.

The party had been on a tour of Texas and Colorado and were enroute home. They remained in Floydada only a short time Friday afternoon.

Aubrey Bishop spent the last weekend with John Visor of Plainview, one of his classmates at S. M. U. last year.

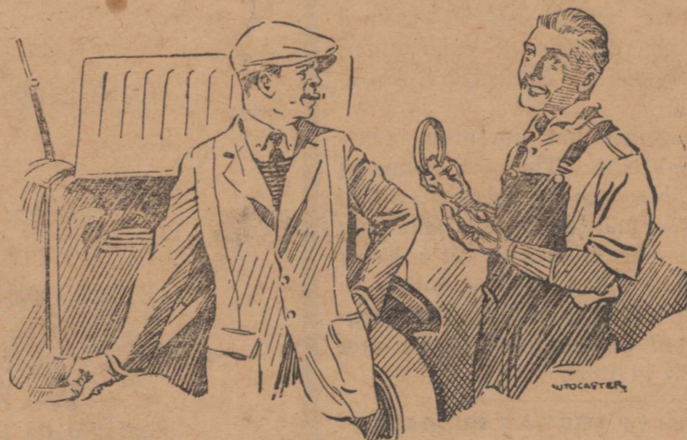

ADVICE TO THE AGED

Age brings infirmities, such as sluggish bowels, weak kidneys, torpid liver.

Tutt's Pills

have a specific effect on these organs, stimulating the bowels, giving natural action, and imparting vigor to the system.

Your Motor Lost it's pep Because--

--The Piston Rings Were Worn

The fundamental principal of a piston ring is to seal the combustion chamber and the crank-case from the fuel charge and lubricating oil on all four reciprocating strokes. It is, therefore, necessary to fit the cylinder wall, the upper and lower interior surfaces of the ring grooves at the same time.

Oil pumping can only be cured successfully with good piston rings, properly cast, seasoned, correctly designed and accurately machined.

Replacing worn piston rings will restore the lost pep to that motor of yours. We are equipped to give you prompt service on

McQuay-Norris Pistons and Piston Rings

We are also equipped to do block re-grinding and fitting pistons. Make this your garage for oil, gas and mechanical service.

FLOYDADA, TEXAS

FLOYDADA GIRLS TO ATTEND ENCAMPMENT ON PALO DURO

The annual Northwest Texas Encampment for Methodist girls will be held August 3-10 inclusive, at the Palo Duro Canyon twenty miles south east of Canyon. Churches from the Northwest Conference of the Methodist Church will send large delegations.

Friday morning at sunrise fifteen or twenty girls will leave Floydada for the encampment. They will be accompanied by Mrs. Calvin Steen, and Rev. J. L. Henson and others and will be chaperoned during their stay by Mrs. J. B. Bartley, Sr., and Mrs. John W. Smith.

The girls from the respective churches will have their own private camp. The meeting will continue for a period of eight days and the entire time will be taken up in periods of study and recreation. Prominent women lecturers from various colleges and universities over the state will deliver lectures and sermons to the girls along practical as well as religious lines. Special programs have been arranged and will be presented on schedule. Featuring the programs will be the stunt nights in which the Floydada girls plan to take part.

There will be all kinds of pleasant pastimes for their entertainment, such as swimming parties, singing, and games. Those in attendance will have a delightful time and in addition will receive valuable instruction in bible study, Epworth League work and a clearer meaning of the Christian life.

EPWORTH LEAGUE

Program for Sunday, August 5 at 7:45 P. M.

Leader—Miss Ina Faulkner.
Subject—World uplift through Christian life.

Hymn 237.
Sentence prayers.

Bible lesson: Math. 5:13-16.

Daily bible readings quoted with comments:

- 1. 1 Cor. 3:10-11;
- 2. Math. 7:15-23;
- 3. Luke 13:6-7.

Topics:

- 1. Better worldliness—Leader.
- 2. Things that hinder our usefulness—Miss Helen McKinney.

- 3. Our part in the world uplift—Miss Syble Covington.
- 4. The Church and its duty—Mrs. Olin Miller.

- 5. History of song—Miss Roma Swain.

Business.
Benediction.

FLOYDADA ORCHESTRA MAKES HIT AT CROSBYTON

The Society Novelty Orchestra, the local organization which gained wide popularity with radio fans when they rendered a concert over WBAP, Fort Worth Star Telegram radio station, furnished music for the dance at Silver Falls Lake east of Crosbyton Saturday night.

Members of the orchestra now are: Mark Duncan, cornet; Macyl Burke, clarinet; Miss Elna Eubank, piano; Ogie Johnson, manager, saxophone; Tom Goslee, drums.

The orchestra proved a good drawing card for the social affair. Hundreds of people, representing almost every town on the South Plains, were present to enjoy the evening.

The Silver Falls Lake is proving very popular with the plains people and is being made the headquarters of a number of picnicing and outing parties and various social events.

S. E. DUNCAN IN NEW OFFICE ON WEST CALIFORNIA

S. E. Duncan, who has for the past two years officed in the First National Bank Building, last week moved to a new office fitted up in the Childers Block on West California Street.

Mr. Duncan will continue the management of the Duncan Insurance Agency, of which he has been the head for a number of years.

C. E. PROGRAM

Prayer.

Song.

T. L. Wilhite and family, of Lexington, Oklahoma, are visiting their daughter, Mrs. Mal Jarbroe. Mr. Wilhite has farm interests near Floydada and Lockney.

J. R. Maddox and L. B. Maxey returned the latter part of last week from a brief stay in Ft. Sill and Medicine Park.

Hesperian Want Ads Get Results—Try One.

"Well! Strong!"

Mrs. Anna Clover, of R. F. D. 5, Winfield, Kans., says: "I began to suffer some months ago with womanly troubles, and I was afraid I was going to get in bed. Each month I suffered with my head, back and sides—a weak, aching, nervous feeling. I began to try medicines as I knew I was getting worse. I did not seem to find the right remedy until someone told me of

CARDUI

The Woman's Tonic

I used two bottles before I could see any great change, but after that it was remarkable how much better I got. I am now well and strong. I can recommend Cardui, for it certainly benefited me."

If you have been experimenting on yourself with all kinds of different remedies, better get back to good, old, reliable Cardui, the medicine for women, about which you have always heard, which has helped many thousands of others, and which should help you, too. Ask your neighbor about it; she has probably used it.

For sale everywhere. E. 95

Mrs. J. B. Wiley accompanied by her daughter, Frances, and son, Clarence, of Denton, visited from Sunday to Tuesday with D. H. Collins and family.

Mr. and Mrs. Clifford Carpenter and children, of Breckenridge, arrived Monday for a visit here with his parents, Mr. and Mrs. J. Q. Carpenter. They are prospecting and may locate here.

H. S. Sparks, who has been making his home at Long Beach for the past several months, is here on a visit with his mother, who has been quite ill for several days. He arrived Sunday.

J. H. Taylor and son, Moody, of Hamilton, Texas, were in Floydada Monday enroute home from a tour of New Mexico and Southern Colorado. They were guests of Mr. and Mrs. Calvin Steen and other relatives while here.

Mr. and Mrs. G. M. Hatchell and family left Tuesday morning for an automobile tour of ten days in the mountain country of northern New Mexico and southern Colorado.

R. T. Bartley, of Ladonia, Texas, has been here the past few days on a visit with his sister-in-law, Mrs. J. B. Bartley, Sr.

Mr. and Mrs. C. Snodgrass returned home Sunday from Lubbock, where Mrs. Snodgrass had been convalescing for some three weeks following an operation. She stood the return trip well and is improving rapidly.

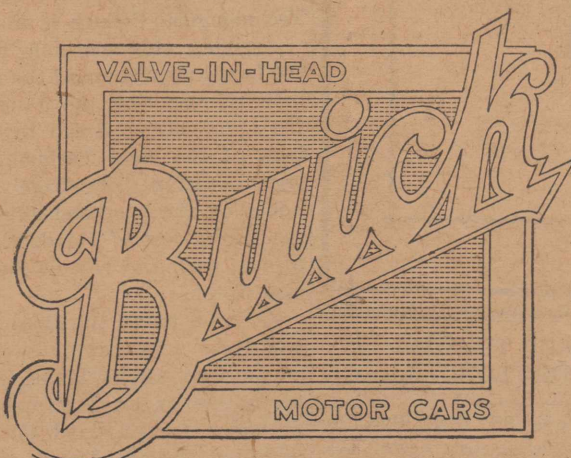

Mr. and Mrs. Lester Hale; son, Finney, and daughter Miss Aileen, of Whitewright, Texas, are visiting with Mr. and Mrs. F. S. Kinnard. Mesdames Hale and Kinnard are sisters.

Levon Pitts, who is employed in the laboratory of an oil company at Wichita Falls, left Wednesday after a few days spent with his parents, Mr. and Mrs. J.W. Pitts, of Lakeview community.

Why Buick is "The Standard of Comparison"

It has been a fixed Buick policy always to anticipate motoring demands by developing new and advanced features of design and construction.

This has been one of the many factors contributing to Buick's great popularity—a popularity tangibly expressed in the fact that Buick is well on its way towards the manufacture of its two-millionth motor car.

Buick recognizes it as a distinct obligation to live up to the spirit and letter of its slogan "When Better Automobiles Are Built, Buick Will Build Them".

USCO Users Stick

United States Tires are Good Tires

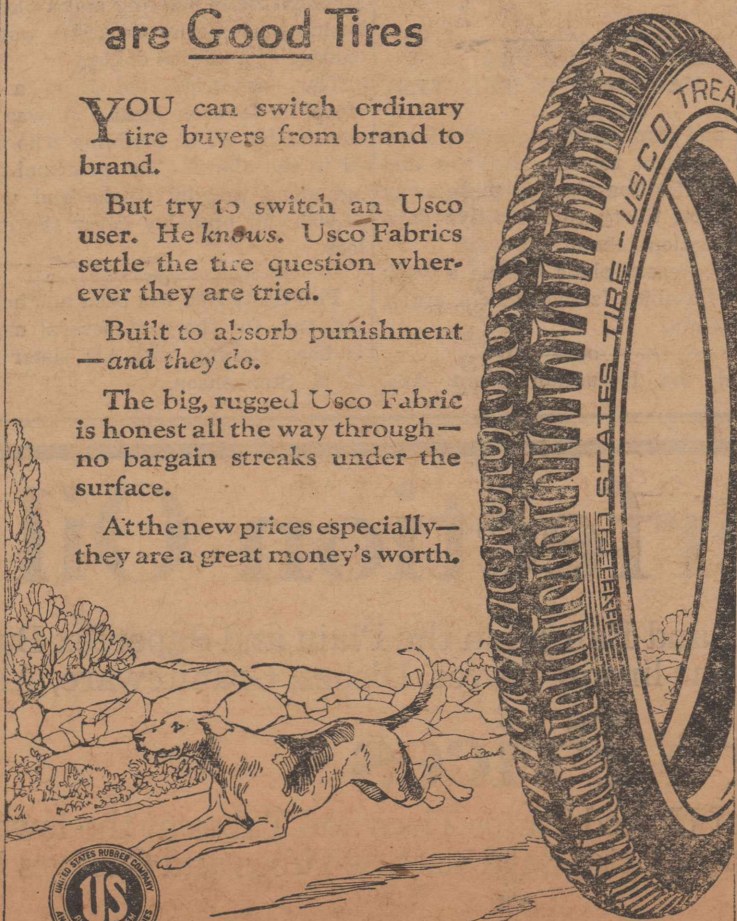

YOU can switch ordinary tire buyers from brand to brand.

But try to switch an Usco user. He knows. Usco Fabrics settle the tire question wherever they are tried.

Built to absorb punishment—and they do.

The big, rugged Usco Fabric is honest all the way through—no bargain streaks under the surface.

At the new prices especially—they are a great money's worth.

COLLEGE LOCATING BOARD VIEWS FLOYDADA SITE

(Continued from first page)
the city. A blue-print of the site, prepared from a drawing by Dan Jenkins, Floydada high school boy, in the office in County Surveyor Geo. A. Linder, was placed in the hands of each member of the committee when they left to view the site. The site is designated by flags at corners and intervals where needed. It presents a tract of land 95 to 98 per cent tillable and a portion of which is underlaid by sheet water at a depth of 60 feet. All of the site is underlaid by sheet water at a depth of from 60 to 130 feet.

The entertainment for the locating board this morning, it is declared, is the least elaborate of any the board has yet had and is marked by fewer and shorter speeches than at any place the board has yet visited. Even at the all-Floyd County luncheon at noon today, when the temptation is great to cast oratory at the heads of the board members, elaborating upon the wonderful diversified productivity of Floyd County soils, speech-making on the part of the local committeemen or citizens is to be taboo.

The presentation of the proposal of Floydada will be made following the luncheon at a conference between the board and the local committee.

The Locating Board for the Texas Technological College is in Floydada.

Arriving this morning from Spur the board members and the newspaper men representing the daily press of the state, accompanied by the members of the local Technological College Locating Committee spent two hours on the proposed site lying immediately west of Floydada, following a brief period of rest at the Commercial Hotel.

At noon today the Board members and their party are to be the guests at the Commercial Hotel of the local committee at an informal luncheon, at which an all-Floyd County menu will be served. Proof that Floyd County and the rich territory surrounding it is a community in which are really produced the things necessary to healthful living, and these in ample abundance and variety for all desires, is furnished by the luncheon being prepared and which will be served at high noon.

No formal speech-making will be indulged, according to the plans announced this morning. Following the repast a conference of local committeemen and the members of the board is planned.

Keen to demonstrate the anxiety of the people of the wide territory surrounding Floydada that the school be located in close proximity to them Floydada this morning is thronged with a large number of people from the surrounding country and from neighboring towns as well.

W. E. Goodle, division and passenger agent of the A. T. and S. F.; P. and S. Ry. Companies, with headquarters at Amarillo, and Lee Satterwhite, editor of the Panhandle Herald and State Representative of the Amarillo district, were in company with the Locating Board of the Texas Tech and correspondents in Floydada today.

FIRE IN MARKET THREATENS WEST SIDE BUILDINGS

A fire the City Market this morning at 5:15 called out the fire department to extinguish a blaze that for a few minutes threatened the First National Bank building and a block of business houses on west side worth a quarter of a million dollars.

The fire originated from a coal stove lit to cook meat. It was discovered by W. H. Stribling who turned in the alarm. The principal damage done was by smoke and water. \$1,000 will probably cover the entire loss.

Phil Scott who has been at Phoenix, Arizona, for the past several months is here visiting with his sister Mrs. C. M. Stephenson.

R. A. POPE DIED TUESDAY AFTER LONG ILLNESS

Robert A. Pope 35, died Tuesday afternoon at his home in west Floydada after an illness of four weeks. Interment was made Wednesday afternoon in the Floydada cemetery at 3 o'clock. The funeral services were conducted at the grave side by Rev. J. Pat Horton, pastor of the Baptist church here. He was called from Quitaque where he is conducting a meeting.

Death was caused by abdominal hemorrhages. He became sick on the night of the 4th of July and had been in a serious condition and little hope was held for his recovery until several days ago when he seemed to revive and was rapidly gaining strength. Friday night he relapsed with a high fever and was unconscious until death.

Robert A. Pope was born in Belton, Texas, Bell county, January 9th, 1888. He resided at various places over the state. He came to Floydada with his family seven years ago from Portales, New Mexico, and has been employed here as an automobile mechanic. He was in the garage business with his brother, H. O. Pope, of this city, for some time. At the time of his death he was employed with the Tourist Garage and had been with them for some four months. All the garages and C. R. Houston & Company were closed for one hour during the funeral out of respect for the deceased.

He is survived by his wife and five children, the oldest of whom is 13 years of age; his mother, Mrs. J. H. C. Pope, who was living at his home at the time of his death; and his brother, H. O. Pope, all of whom were at the funeral.

SNODGRASS' LEAVE FOR VACATION IN THE WEST

Mr. and Mrs. Glad Snodgrass leave today at noon for Los Angeles and other Pacific Coast points to be away from home thirty to forty-five days on a vacation tour of the west.

Their present plans include a week at the Catalina Islands and a cruise to Honolulu.

MATADOR BRIEFS

From The Motley County News:

Much to the extreme delight of all, County Judge C. L. Glenn, who was so seriously injured in the automobile wreck, near Flomot, on the 17th ult., and has been confined to his room ever since, was able to be down to his office last Monday morning.

While showing the effects of the ordeal through which he has just past, to some extent, Judge Glenn is looking fine, and everything points to his becoming himself again.

In the case of Mexico vs. Price Clements, charged with the killing of

Clay Carpenter, and Frank Aikens, in January, 1922 which was tried for the second time last month, resulting in a verdict of guilty, motion for a new trial was overruled last week, and unless an appeal is taken, which has probably been done before this the extreme penalty of the law will probably be assessed.

This case has been of special interest to the people here, owing to the fact that the principals were formerly all residents of Motley County, and many witnesses, as well as the leading attorneys both for the prosecution and defense were from here.

The Sum of a Man

Is his work—the index of his character—the clothes he wears.

Good tailoring permits a man to dress the part of the wonderful being he is.

You have a mission to perform in this world—being well groomed puts you in a better mental attitude to perform that mission.

If good clothes will help you to "make your sum"—why not have them?

If it's a new suit you need or your old one cleaned and pressed we are glad to take care of your needs and assure you that you will get the best to be had. A trial will prove this.

Don't forget we have lots of furnishing goods, shoes and hats.
