**Seeking and Finding** 

There are many people in the world today who are bearing burdens far too great for them. What kind of burdens are they? Well, Jesus talks about them in Luke 11:46. He is talking to the church lawyers. They are the worst kind! He says to them, "Woe to you lawyers as well! For you weigh men down with burdens hard to bear." These church lawyers believe in salvation by works. They weigh people down with the burden of trying to measure up. It is the burden of proving yourself to God. The only problem is, you have to be perfect. That is a burden too hard to bear. There are lots of people today who think they have something to prove. They think they have to prove themselves. In the process they find out that it is a heavy burden. They wind up with frayed nerves and ulcers. The thing is, these heavy burdens show us that we are frail. They show us we are weak. They show us our own inabilities and sinfulness. weak. They show us our own inabilities and sinfulness. When this happens, we should recognize those weaknesses and sin. Trying to hide them only compounds the burden. You see, Jesus Christ offers Himself to people who recognize their own frailties and sinfulness. Listen! "Come to Me, all who are weary and heavy laden, And I will give you rest. Take My Yoke upon you, and learn from Me, for I am gentle and humble in heart; and you shall find rest for your souls" (Matthew 11:28-29). When you accept the invitation of Christ, you guit triang to prove yourself. It is too hin a hurden quit trying to prove yourself. It is too big a burden. Rather, you trust in Jesus Christ. You find God through a confession of sin and faith in Christ.

On February 6, 2003, VALOR Telecommunications of Texas, LP (VALOR) filed an application with the Public Utility Commission of Texas (Commission) to establish surcharges to recover lost revenues and increased costs associated with seven hundred thirteen (713) Expanded Local Calling Service (ELCS) routes implemented in and between VALOR's Texas telephone exchanges and in many instances, exchanges of other local telephone companies. The application is filed based on the Commission's Substantive Rule 26.221 titled. "Applications to Establish or Increase Expanded Local Calling Service Surcharges".

ELCS expands a local calling scope to include one or more additional telephone exchanges, if customers in a petitioning exchange approve by ballot, the payment of an ELCS fee in lieu of long distance charges. The costs and lost revenues associated with VALOR's surcharge application are those not recoverable through the ELCS fee.

In the application, VALOR proposes to implement on an interim basis a monthly per line surcharge of \$.99 for residential customers and \$1.98 for business customers beginning with the April, 2003 bill cycle. This proposed surcharge will apply in addition to any monthly ELCS fees. If rates at or above the level of the interim surcharges are not ultimately approved by the Commission, VALOR will refund all or part of the interim surcharges, as directed by the Commission. Ultimately, VALOR seeks approval of monthly surcharges of \$3.38 for business lines and \$1.69 for residential lines to replace the interim surcharges. Additionally, the application proposes that customers currently billed ELCS fees lower than \$3.50 per residential line and \$7 per business line, will have those fees raised to \$3.50 per residential line and \$7 per business line.

The net annual effect on the revenues of VALOR will be zero since the requested surcharge replaces lost revenues and reimburses VALOR for the increased cost of service associated with ELCS. The estimated total lost revenues and increased costs VALOR seeks to recover through this proceeding is \$7,601,145 annually.

If you have questions about the proposed surcharges or would like further information, please call VALOR at 1-877-520-5220. The Public Utility Commission has assigned Project No. 27363 to this proceeding. Persons who wish to intervene in or comment upon these proceedings should notify the Public Utility Commission of Texas as soon as possible and no later than April 14, 2003, the intervention deadline. A request to intervene or for further information should be mailed to the Public Utility Commission of Texas, 1701 N. Congress Avenue, PO Box 13326, Austin, TX 78711-3326. #### **AVISO**

El 6 de febrero de 2003, VALOR Telecom de Texas, LP (VALOR) sometió una solicitud a La Comisión Pública de Servicios de Texas (Public Utility Commission of Texas) para establecer sobrecargos para recuperar las ganancias perdidas y los costos incrementados relacionados con sietecientos trece (713) rutas implementadas del Servicio Expandido de Liamadas Loca es (Expanded Local Calling Service) entre los despachos centrales de teléfono de VALOR de Texas y en muchas instancias. despachos de otras companías locales de teléfono. La solicitud se sometió basada en la Regia 26.221 de La Comisión titulada, "Solicitudes para Establecer o Incrementar los Sobrecargos de Servicio Expandido de Liamadas Locales".

ELCS extiende el alcance de llamadas locales para incluir uno o más despachos de teléfono adicionales, si los clientes de un despacho hacen una petición de cambio que es aprobada por voto para pagar un cargo de ELCS en lugar de sobrecargos de larga distancia. Los costos y ganancias perdidas relacionadas con los sobrecargos de la solicitud de VALOR no son recuperables a través de la cuota del ELCS.

En la solicitud, VALOR propone implementar temporalmente un cargo mensual por línea de \$0.99 por cliente residencial y \$1.98 para clientes comerciales empezando con la facturación del ciclo de Abril, 2003. Este cargo propuesto se aplicará en adición a cualquier cargo mensual ELC6. Si las tarifas al o sobre el nível de los sobrecargos temporarios no son ultimadamente aprobados por la Comisión, VALOR reembolsará todo o parte de los sobrecargos temporales, indicados por La Comisión. Ultimadamente, VALOR busca aprobación de sobrecargos mensuales de \$3.38 por líneas comerciales y \$1.69 por líneas residenciales para reemplazar los sobrecargos temporarios. Adicionalmente, la solicitud propone que los clientes que actualmente son facturados con tarifas ELCS más bajas de \$3.50 por línea comercial. \$57.00 por línea comercial.

El efecto anual en las ganancias de VALOR serán cero siendo que los sobrecargos solicitados reemplazan las ganancias perdidas y reembolsa a VALOR por incremento en el costo del servicio relacionado con ELCS. El costo estimado total de las ganancias perdidas y el incremento de costos que VALOR tiene como fin recuperar a través de este procedimiento es \$7,601,145 anualmente.

Si usted tiene alguna pregunta acerca de los sobrecargos propuestos o si necesita más información, por favor liame a VALOR al 1-877-520-5220.
