### Soil Stewardship Week

No nation can outlive its soil, because we know that soil is the original source of every material thing we use to make possible our physical life.

Recause of that, the conservation of our soil is of the utmost importance, because the existence and future of our country is, and will always be, dependent on our soil and its products.

It has been said that it is the duty of every person who buys or comes into possession of land, to use it in such a way that it will not deteroriate during his ownership. If possible, he should make it better for the next person who buys or comes into

This can be accomplished through learning to use the Sunday. land efficiently and at the same time protect the soil.

That is the purpose of soil conservation, in which man as a steward of God's soil, works hand in hand with Nature to produce the bounty of food and fiber upon which mankind and civilization depends. Soil conservation also assures that the fertility ports. Each boy will feed two of the soil will be preserved for coming generations.

So as we observe Soil Stewardship Week May 22-29, let Baby Beef Show here. us keep in mind the thought that Soil Stewardship can rightly be called the spirit of a responsible people at work on the land.

### Ill-Advised Action

A few opponents of the Miller Creek municipal water project continue to labor under a delusion that the City of Haskellor any other city in the Authority for that matter-has a voice in controlling the affairs of the North Central Texas Municipal Water Authority.

Nothing could be further from the truth.

Our City Council has no more authority over NCTMWA than it has over the Haskell Independent School District, A similarity is that the three include parts of the same general area.

Yet the three are separate, distinct government subdivisions, all legally created under the same constitution, each vested with individual powers specifically established by Acts of the

Would it not be ridiculous for a candidate to run for City organization of the scholarship was accompanied by her son, Master Delbert. office on a platform promising lower school taxes? And that he Jess Edwards, former resicould construct needed school buildings and facilities cheaper

and without using tax money?

Any control which the City of Haskell had over affairs of the NCTM Water Authority ended when qualified TAX-PAYING VOTERS of Haskell confirmed creation of the Authority by a lecisive majority vote.

For that reason, those who would persuade the City Council to attempt to direct or control the affairs of the water district are advocating an ill-advised and insupportable course of action. The only purpose of such attempt would be to slow down the completion of the project, increase its cost, and thereby penalize the people of Haskell.

We know that we have good men on the City Council. We hope that they have the best interests of Haskell and its entire citizenship at heart. We believe that as they realize and become better acquainted with the responsibilities they have assumed that A. Chitwood, Carl Druesedow, they will be more hesitant in depending on hasty judgment when making decisions that affect the welfare of the community. We are confident they will make these decisions with the interests of all citizens in mind regardless of any individual opinion they may hold.

### SALUTATIONS TO OUR HIGH SCHOOL GRADUATES

We are rejoicing with you in your accomplishments. We know that this a just reward for your labors. We know that you have earned many things to help you lead a more useful and happy life.

We want to whisper a secret to you, and to all Youth everywhere: You are not only of more value than all other possessions, you are the basis and foundations for all other values.

There could be no civilization without you. You are the "Alpha and Omega" of all God's plan and purpose for man. "Ye are the salt of the earth", "You are the light of the world".

We would like to have serious counsel with you. You are the Architects and builders of your own lives. You will supply the leaders and the workmen for your generation. We have confidence that you will do it well. We bid you: Learn to excell, not only others, but your own self. It is of much importance that you can do a better job than "Sarah or James" but it is of far more excellence that each day and each repeated task finds you more accomplished and more efficient than you were yesterday.

There is no unplanned progress. You can go forward only with a fixed purpose. You can drift downward aimlessly.

"Daniel purposed in his heart that he would not defile himself." Daniel defied every fear and challenged every foe and arose victoriously with signal honors to himself and his God.

The world holds abundant joy for you if your purpose is to bring joy to the world.

"Mr. Chairman, I have not ed with the greatest pleasure, as I am sure have all my fellow Delegates, that the pre-cincts of the Counties of Texas have endorsed Senator Lyndon Johnson for nomination to the office of President. At the same time I am sure we all realize that it is entirely possible that our sentiments may not be those of other State delegations to the National Convention. It follows, therefore, that one of the remaining avowed candidates, or one not yet avowed, but hoping to be drafted, may be put into nom-ination. It is this possibility to which I would ask that the Delegates to this Convention give most serious consideration, for one of these candidates is a Roman Catholic. For the past few months we

have been exhorted, through Press, Radio and Television, that it would be unfair—indeed almost unconstitutional to bring the question of religion into politics.
